FORE FIGHTING IN GERMANY--KAPP MINISTERS UNDER ARREST Soldiers' Convention Calls for Investigation of Land Settlement Board

POLES ROUT BOLSHIEVI In Attack on Bridgehead

Warsaw, March 23.—Extremely heavy fighting is reported on the Polish front. A communication, issued today, announces that after the greatest artillery preparation yet experienced, the Bolshevik infantry advanced in columns against the bridgehead at Zwi-hel, aided by tanks and armored motor cars. "After a sharp engagement," says the communication, "the Polish troops launched a counter-attack with bayonets and grenades, driving the enemy far from the Polish line."

G.W.V.A. DEMANDS PROBE REGARDING LAND SETTLEMENT

Montreal, March 23.—(By Canadian Press.)—One of the most spectacular moves of the Dominion Great War Veterans' convention here today was a proposal to adjourn the entire convention immediately to Ottawa, A. C. Belfrage, reading it Chairman Maxwell pointed out that the Dominion executive of the G. W. V. A. had already adopted a resolution advocating a round table conference of all soldier bodies in Canada. Commu-nications to this effect, he said, had been sent out in the hope of holding such a conference before the present convention, Belfrage, however, had been so indefinite that arrangements for the holding of the conference had to be postponed until after the conven-tion. The telegram follows: "Realizing that it is only by unity we can gain the greatest amount of benefit for our returned men and the widows and orphans, the United Veterans' League and the Grand Army of Canada are amalgamating on an equitable basis. We trust delegates at the G. W. V. A. conference, now assembling, will realize the necessity and advisability of joining with us in this amalgamation on a basis as equitable as to them as to some united veterans' league."

BRITISH MINERS THREATEN STRIKE

London, March 23.—Another strike of miners appeared tonight to be in prospect. After the recent trades union congress rejected the proposal of direct action to attain nationalization of the mines, the miners made a demand for an increase of 16 shillings weekly in wages in order to bring independent pressure on the government. Negotiations with Premier Lloyd George and the coal controller have resulted in the demand of the miners being rejected. The latter will meet in conference tomorrow to determine upon their future course of action.

LEADERS IN KAPP REBELLION ARE PLACED UNDER ARREST AND OTHERS ARE SOUGHT FOR

Berlin, March 23.—Major General von Luttwitz, the military commander in the Kapp revolt, has been placed under arrest. It is officially announced. Admiral von Trotha, chief of the admiralty, has also been arrested. There is no definite news of Kapp's whereabouts. It is supposed he is on his estate in East Prussia. Some of the ringleaders in the Kapp revolution against whom proceedings have begun for high treason, have tendered to President Ebert his Friday at Stuttgart, and was at that time not accepted. When the Ebert-Bauer government returned Berlin Sunday, the fulfillment of trying to hold Noske in power was promptly discovered, and the man who had so long been a red rag to the independents and radicals has now been cast aside. The denunciation of Herr A. Noske within the ranks of his own party is only one of the numerous manifestations of impatience with the Bauer cabinet exhibited in the past few days. Noske being censured because of "obtuseness in letting himself be hoodwinked" while the extraordinary elements were influencing the army administration and his failure to have the notorious Baltic troops, especially Erhard's brigade, garrisoned elsewhere than outside of Berlin, where they were within easy marching distance of Wilhelmstrasse. He is also charged with keeping a reserve of troops who were not over-zealous in informing him of the strength of the reactionary influence within the army. A most significant development was the demand of the Independent Socialists for a straight Labor cabinet. A party delegation, headed by Adolf Hoffmann, presented the independent terms to the government yesterday. These were chiefly the elimination of the bourgeois parties from the government, the withdrawal of troops from the streets and reorganization of the army.

GRATIFYING ANNOUNCEMENT BY HON. C. C. BALLANTYNE, IN HOUSE OF COMMONS, DURING SPEECH IN SUPPORT OF TWENTY MILLION DOLLAR VOTE FOR SHIP PROGRAM—MOTION STANDS OVER.

Special to The Toronto World.
Ottawa, March 23.—It was an interesting story Hon. C. C. Ballantyne told the commons today of the inauguration, development and success of the Canadian merchant marine. Interesting in the founding of a great industry, in the successful invasion of world's transportation as a national enterprise, and further interest was added by the announcement of the policy of merchant marine by representatives of the three political groups.
Hon. C. C. Ballantyne told a plain story of this great enterprise, and except in one instance avoided reference to the future policy of the government. That instance was when he admitted the government was giving careful consideration to the question of subsidies. Other members who spoke did not show similar caution. Edmund Bristol, Centre Toronto, from the government, William Duff, a Nova Scotia Liberal, and Dr. Michael Clarke, third party, indicated the sentiment of their immediate colleagues. The director of the Canada Steamships Company, and an ardent protectionist made a strong plea for protection for the shipbuilding industry. Mr. Duff would see the government ships and subsidize private enterprise, while Dr. Clarke argued that protection and a merchant fleet were incompatible and was opposed to subsidies in any form. It is evident that the government will retain the present national merchant marine, but will make no further additions than those ships contracted for and may aid private enterprise by subsidy. The Liberals will have no national merchant fleet, but will assist private enterprise, while the Farmers would not have a national merchant fleet nor subsidize a private enterprise.
Made Handsome Profit.
Last year there were brought in to the Canadian merchant marine at various periods nineteen ships, and it is pointed out that there the government still has a substantial cash balance unspent from the proceeds of the 1919 Victory loan, which brought in some \$600,000,000. Further, the total difference suggested may not actually exist in fact, as the estimates are only estimates and not actual expenditures.
It is stated authoritatively that there will be every disposition on the part of the government to spread its available cash resources over the longest period possible and postpone further borrowing appeals.

CANADIAN MERCHANT MARINE, OPERATED BY GOVERNMENT, REALIZES HANDSOME PROFIT

Ottawa, March 23.—Increases in the pay and allowances of members of the Canadian permanent force are provided for in the estimates of the militia department, which will come before parliament at the present session. The increases have been ratified by order-in-council, but the militia estimates have not yet come before the house of commons.
The new scale raises the pay of a private from \$1.70 per day cash to \$1.70, with proportionate increases to all other ranks.

PERMANENT FORCE TO GET MORE PAY

Ottawa, March 23.—(By Canadian Press.)—There is apparently little expectation here of another popular loan this fall. Following the tabling of the estimates in the house of commons yesterday, there has been some suggestion that a new loan will be necessary to meet a difference which appears between anticipated revenue and estimated expenditure for the 1920-1921 period. Inquiry from authoritative sources, however, elicits the information that the government is at present contemplating further borrowings from the public to meet the difference of approximately \$200,000,000 referred to.

CHARGES MURDER OF CORK'S MAYOR AGAINST POLICE

Cork, March 23.—An inquest was opened today into the assassination of Lord Mayor MacCurrtain, who was killed in his home here early last Saturday morning. Mr. Lynch, attorney for the next of kin of Mayor MacCurrtain, said evidence would be adduced tending to show that the police were concerned in the murder. He said he was unable to assert what kind of bullets had killed the lord mayor, but that bullets were found outside the mayor's house Saturday morning which he would suggest were of the pattern used by the local police. Mr. Lynch also declared that a button, such as are worn by the police, was found in the mayor's house, and he suggested that the authorities might identify some man from whose uniform such a button was missing.
Mr. Lynch challenged the authorities to produce the books showing what uniforms were out of barracks Friday night.
The inquest was adjourned.

IRISH FEELING FIERCELY INFLAMED

Most Outrageous Charges Made Against Government Implicitly Believed.
THE RIOT IN DUBLIN
London, March 23.—The Dublin correspondent of The London Times describes the situation in Ireland in the darkest colors. He says the outlook is serious. Conditions in the west and south are extremely grave. The position, bad last week, is now definitely worse. Public feeling is so fiercely inflamed as to become quite irrational. The most outrageous charges against the government are accepted as gospel truth.
The correspondent says the Sinn Fein asks the country to accept the monstrous theory that Lord Mayor MacCurrtain was killed by actual agents of the government. He describes the overnight riot in Dublin as another danger signal, and says it is impossible to give an impartial account of the incident, the popular version being that the soldiers provoked and assaulted civilians.
The correspondent learns that the soldiers were stoned by a crowd because they left the theatre singing the national anthem, and in preparation for the failure of the theatre orchestra to play it. He adds that public opinion throughout the country is exasperated by a willful charge that the police and soldiers, who hardly would be human if they did not resent the campaign of murder and calumny.

NEW YORK'S NEW BUSES TO ACCOMMODATE SIXTY

New York, March 23.—(Special.)—Plans for 200 new buses to be purchased by the city will be presented to the board of estimate next Friday.
The buses are to have seats for 30 persons and standing-room for 30 more. The seats are to be 24 inches wide. The steps leading to the interior will be of the collapsible type, and will be operated by the chauffeur. Six of the seats will face forward, and a semicircular row of seats will accommodate ten passengers. At five-cent fare, Mr. Whalen said, the buses could carry a passenger eight miles and break even. A shorter distance would yield a profit, and a greater distance a loss.

NO MORE LOANS TO COME FROM OTTAWA

Hon. H. C. Nixon Announces in Legislature—Changes in Act.
In connection with the introduction of two housing bills in the house yesterday Hon. H. C. Nixon, provincial secretary, announced that ten loans would have been received from Ottawa that would be repaid to the provinces for housing purposes to wind up the present housing act at the end of the present year. A new amendment to the municipal act is introduced allowing municipalities to issue their own bonds, which the provincial government will guarantee, the proceeds to be expended on the housing scheme.
Seventy Ontario municipalities have operated under the housing act, among which Toronto alone has its own plan.
Amounts to be loaned under the Ontario housing act are upon the following scale: House of frame construction, \$3000; brick veneer, \$3000; solid construction, \$4000.
In the case of brick veneer, if the cost of the land is included, \$3800 may be loaned; in the case of solid construction, \$4500.
Under the new bill, the Ontario housing loans will be on the scale: House of frame construction, \$2300; brick veneer, \$2300; solid construction, \$3000.
If the cost of the land is included in the case of frame construction, \$2600; brick veneer, \$2600; solid construction, \$3400.
Amounts to be loaned under municipal housing act, 1920, will be: Frame construction, \$3500; brick veneer, \$4000; solid construction, \$4500. If the cost of land is included then frame \$4100; brick veneer, \$4600; solid construction, \$5100.
Hon. F. C. Biggs introduced a bill to amend the regulation of loans on motor vehicles on highways, easing the load in March and April when the frost is coming out of the ground. He also introduced a bill to regulate motor headlights.
Mr. Biggs introduced a bill to amend the highways improvement act. He explained that it would deal with the absence of the provincial highways as he had already explained the government policy.

DENY FLOTATION OF FEDERAL LOAN

Ottawa Despatch States Government Not at Present Considering New Borrowings.
SUBSTANTIAL SUM IN HAND
Ottawa, March 23.—(By Canadian Press.)—There is apparently little expectation here of another popular loan this fall. Following the tabling of the estimates in the house of commons yesterday, there has been some suggestion that a new loan will be necessary to meet a difference which appears between anticipated revenue and estimated expenditure for the 1920-1921 period. Inquiry from authoritative sources, however, elicits the information that the government is at present contemplating further borrowings from the public to meet the difference of approximately \$200,000,000 referred to.

FARMERS PREDICT AN EARLY SPRING

Unless all signs fail, we are in for one of the earliest springs in a long time, and yesterday's glorious sunshine and warm air worked a marvelous change in the country districts. People who complain of fields of snow and ice covered fields will be agreeably surprised if they take a run out ten or fifteen miles. Practically all the snow and ice have disappeared, and the plowed lands and meadow fields are beginning to show up. All the rivers and streams are beginning to run low, and the wheat lands are green and luxuriant, and the corn is in time since Christmas exposed.
Farmers are figuring out what with a continuance of this weather (which is improbable) April 1 will see seeding in in the hinterlands. The country roads are fairly passable and getting better every day. April 1 is moving day in the country, but wherever possible, renters are taking time by the forelock and getting thru with this ordeal ahead of time.
Never in the history of the province has there been such selling of farms and retiring from active life as this year, city men, buoyed up with hope and spare cash, taking up the burden.

TO BOOST CANAL FROM LAKES TO SEA

Middle Western States Open Campaign on St. Lawrence Deepening Project.
Special to The Toronto World.
New York, March 23.—The fight of 15 middle western states for a ship canal that will afford a deep-sea route thru the great lakes and the St. Lawrence river to the sea has been brought to New York State, where local officials and experts have opposed it on the ground it would injure the development of the barge canal. The opponents, including Frank M. Williams, state engineer and surveyor, assert the barge canal should be given priority over the proposed ship canal, which is discarded as useless in favor of the new route.
The Great Lakes-St. Lawrence Tide-water Association is trying to convince business and industrial interests of the national government that the proposed ship canal would not injure the prospects of the barge canal, but would enhance its value. The campaign is being directed here by Robert R. Dunn of New York State, who said yesterday that the western people seek transportation from their lake ports to the sea, and were prepared to make a hot fight for it.
He has asked for a hearing before the meeting of the chamber of commerce of the state of New York next Thursday, and has sent an appeal to Governor Smith.
No Cost to New York State.
Referring to the argument that this state would have to pay a large part of the cost of dredging a ship canal in the St. Lawrence river, Mr. Dunn says that the middle west does not want New York to pay anything. It is proposed to have the construction of the canal undertaken by the federal government jointly with the Canadian government, each paying half the costs.
It is the belief of the west that the ship canal will not injure the development of the barge canal, but will stimulate it, for the reason that a deep-water route would increase the number of local shipments thru the barge canal. They dispose of the argument that the proposed ship canal would be placed in control of the Canadian government by saying that ships going thru the great lakes could make almost the entire trip navigating American waters.
The states associated in the movement for the ship canal thru the St. Lawrence, Mr. Dunn said, represent one-third of the country's area and population, and produce one-half to seven-eighths of its principal staples, with the exception of cotton and tobacco. This section provides the surplus of wheat and other grain, cattle, meats and dairy products.

THE FIGHTING AT ESSEN

Police Made Honorable Capitulation and Then Fired Upon.
London, March 23.—Describing last week's events at Essen, Reuters' Berlin correspondent says that at noon Friday the Spartacists served an ultimatum on the police commander that they would bombard the town hall unless the police surrendered within half an hour. The Spartacists placed trench mortars and 10.5 centimeter guns around the hall. Capitulation with all honors was eventually agreed to.
Relying on the agreement a detachment of police left the building, whereupon they were suddenly surrounded in a narrow street, and forced by a heavy fire from the buses to lay down their arms. They were then driven by the infuriated crowd with blows from rifle butts into the hall.
Other detachments were exterminated without pity. Only a few of the police who happened to be without uniform escaped.

EXPORT LICENSES MAY BE CANCELLED

License Commissioners Look to Government for Advice in Matter.
There is said to be a strong probability that the export liquor licenses which expire with the end of March, will not be renewed.
When seen by The World yesterday, W. S. Dingman, of the board of license commissioners, said the board would be guided by the wishes of the government, who will probably announce a policy in a few days. Several export licenses are held at Kenora, which is a convenient Ontario point for transshipping stocks into Manitoba and the other western provinces.
It is intimated that the views expressed by members when the subject of export licenses was debated a few days ago in the legislature has influenced the government to take its powers to the test by cutting off this department of the traffic in liquor.

BANK CLERKS SEEK RAISE IN SALARIES

Montreal, March 23.—The Bank Clerks' Association, affiliated with the American Federation of Labor, presented, over the week-end, demands in the form of a proposed agreement, to every branch of every chartered bank in Canada. The chief clauses in the proposed agreement demand a twenty-five per cent. increase in salary, the question of night duty and the removal of the restrictions upon marriage.
USE TAXI IN ATTEMPT TO SMUGGLE WHISKEY
Brantford, Ont., March 23.—(Special.)—Three men were caught in the act of transferring over \$2,000 worth of whiskey from a local taxicab to the Grand Trunk train at 2 o'clock this morning. The bootleggers in question had cunningly planned the get away and were going to Detroit with the whiskey in police court today they were fined \$200 each and the liquor confiscated. A quiet tip had been received by the police and a squad was in hiding. The men gave their names as Frank Grosman, Detroit, and Louis Lipovich and Louis Panov of this city.

MINISTER OF LABOR MAKES ANNUAL REPORT

Ottawa, March 23.—(By the Canadian Press.)—In the commons this afternoon Hon. Arthur Meighen tabulated the report of the minister of labor for the fiscal year ending March 31, 1919.
He showed an estimated loss in working days of 783,341, while the corresponding figure for the year previous was 1,124,970 days lost. There were 186 strikes during 1918-19, many of which were very brief. Those of less than three days' duration numbered 41. The report refers to the heavy strain under which the conciliation officers worked during the war period, and to their success in averting strikes at many points.

DAINTY SPRING FURS

A dainty fur neckpiece is a very comfortable and stylish garment to have. In the Dineen Co's spring rooms there is a splendid collection of these garments just received from the work-rooms of the best selected fur. In view of the fact that for all descriptions will be worth double the price before the snow flies next winter, this should offer you a splendid opportunity to make a purchase. Drop in and see them at Dineen's, 140 Yonge street.

CENSORS CHOSEN BY COMMISSIONERS

H. M. Wodson and W. F. Wiggins Appointed to Look After City's Morals.

Harry M. Wodson was appointed chief theatrical censor by the board of police commissioners yesterday afternoon, to fill the position left vacant by the death of William Banks sr. Mr. Wodson will receive a salary of \$2000 a year, instead of \$2250, which was paid Mr. Banks. W. F. Wiggins, assistant censor, will receive \$1200, or an increase of \$250. A recommendation will be sent on to the board of control, asking that Mr. Banks' family be granted a gratuity.
Mayor Church opposed the appointment of Wodson, protesting that a returned man be given the position.
Patrol-sergeants and policemen were granted a further increase of \$100 a year. A deputation of the men appeared before the board and urged that they be given \$200. This means the commissioners will have to ask the city for an additional \$60,000 to their estimates.
At present a first-class man gets \$1550, second-class \$1350, and third-class \$1250. With the recent increase of \$800 for first-class, \$200 for second-class, and \$100 for third-class, and

yesterday's increase, the men will receive, first-class, \$1950; second-class, \$1850, and, third-class, \$1450.
The question of interpreters in the police court will be gone into in two weeks' time. Policemen Coates and Pollock resigned.

BEN. FLETCHER'S WILL

By the will of the late Benjamin Fletcher, president of the Fletcher Manufacturing Company, his widow, Mrs. Eleanor Fletcher, receives the household goods, part of the insurance, money in the bank, a life interest in the house at 150 Carlton street, and the preferred stock belonging to him in the Fletcher Manufacturing Co., valued at \$17,000. The residue, on the death of the widow, is to be divided amongst the family. An insurance of \$1,000 is to be divided equally between his sisters and brothers. The estate is inventoried at \$111,667.

SENTENCE DEFERRED.

Alexander Stewart pleaded guilty to robbing a diamond store in Yonge Street Arcade, and was remanded by Judge Coatsworth yesterday, for sentence, which will be imposed today. The lad is but 16 years of age, and there were four charges preferred against him.

MUST IMPLEMENT AGREEMENT.

Justice Middleton has found for the plaintiffs in the action brought by the Canadian Dyers' Association of Toronto against Alfred Burton, of London, for specific performance of an agreement to sell No. 25 Hanna avenue for \$1,650.

HARRY B. HODGINS' WILL

Left Bequests to Charities—Claims Dower on Deceased's Home—Bequest for Sick Children's Hospital.

The courts will be asked to determine whether Mrs. Hodgins is entitled to dower in the house at 140 Roxborough street, being part of the estate of the late Harry Boughton Hodgins, who died last August. Mrs. Hodgins says the house is valued at \$14,000.
Some years previously Mrs. Hodgins had gone to reside in Seattle and when the deceased made his will in March, 1918, he made no mention of his wife, tho, by a later codicil, dated February, 1919, he provided that should his daughter predecease her mother, his executors should provide an annuity of \$1,200 for the mother.
By the will, he deceased left one-eighth of the residue of his estate equally amongst the Hospital for Sick Children, the Home for Incurables and the Queen Mary Home for Consumptive Children. A sister, Mrs. Edith Tomlinson, receives \$500; \$5000 is to be paid to Annie Hamilton and the income from the residue is to be paid to his daughter, Mrs. Edith Rhodes. Nephews and nieces will ultimately inherit the bulk of the estate after payment of bequests.

GUILTY OF RECEIVING.

Frank Lungo, a shoemaker, Yonge street, was fined \$200 or three months by Judge Coatsworth yesterday, on a charge of having purchased about \$70 worth of leather belting from two strangers for \$4.

DAMAGE FROM EXPLOSIVES

Elby Marks and Arthur Cohen are suing the city of Toronto and T. C. Agnew for unstated damages for alleged damage to houses 6 to 22 Gore street, which, the plaintiffs claim, was attributable to the improper use of high explosives in building the College street sewer. An injunction is also asked, restraining the defendants from further using high explosives.

ECHO OF DON FLOOD

The estate of Robert Davies has entered action against the C.N.R. for unstated damages alleged to have been suffered to their brickyard by the stopping of the waters' flow by a bridge built over the river. It is said the brick, in their early stages of manufacture, were reduced to mud by the water.

REAL ESTATE NEWS

Dr. Walter McKeown has purchased from the Grand Trunk Railway a block of the Central Prison property, which was recently sold by the Ontario government to the railway. Dr. McKeown's purchase includes one two-story building, 90 by 150 feet, and a one-story building, 40 by 60 feet, and a block of land 100 feet square. The price paid was \$53,000. The deal was negotiated by J. J. Walsh. A piece of the prison property was also sold recently to the Hobbs Manufacturing Company of London, Ont.
J. J. Walsh has sold several houses, mostly in the Parkdale district in the last few days, including 107 Dunn avenue, to T. F. Carey, for \$7800; corner of King street and Dunn avenue, to Dr. Hassard for \$9000; 86 Spencer avenue, to George Hegderson for \$6000; a seamy avenue, to Harry Christie for \$7600; 50 Cowan avenue, to Mrs. Geo. Harper for \$5750; 2, 4, 6 and 8 Cornish avenue for \$24,400 to J. O'Leary.

The Cerebos Salt Company of England has leased a portion of the Toronto Furniture Company's building, on Dufferin street, for a term of years.

Deals have been closed for the purchase by Westminster Church of several parcels of land, to comprise the site of the new church, which will be erected at the southeast corner of Asquith avenue and Park road. The site measures 152 feet on Asquith avenue, and 185 feet on Park road, and cost in the neighborhood of \$60,000 or \$70,000. All the frontage on Asquith was bought from Dr. Bruce, and two houses on Park road were bought from Alex and Catharine Mathieson, and two houses from E. Lind. Messrs. Gibson Bros. were the brokers.

The residence at 565 Jarvis street has been sold by the estate of L. J. Cosgrave to Mrs. L. Laurie for \$30,000. This was the former residence of Sir Joseph Flavelle, who sold it to Mr. Cosgrave about 15 years ago. The site has a frontage of 67 feet on Jarvis street and a depth of 287 feet to Huntley street.

J. D. McGregor has subdivided 10 acres of land on Danforth avenue, near Warden street, and will put it on the market at once. He has about 3000 feet frontage.
Permits have been issued at the city hall for new buildings, as follows:

Messrs. Elliott & Elliott, 29 North Markham street, pair of dwellings at 17 and 19 Browning avenue, to cost \$8000.
E. J. Devine, 885 Roncesvalles avenue, one pair semi-detached brick duplex dwellings, at 391-393 St. Clarens avenue, to cost \$12,000.
Mrs. A. Lamantia, 894 East Queen street, three two-story brick stores and garages, at 88, 89 and 92 East Queen street, near Booth avenue, to cost \$19,000.
S. B. Green, 15 Regal road, 15 pairs two-story brick and stucco dwellings, on the north side of Davenport road, near Northcliffe boulevard, to cost \$68,000.

TO RECEIVE PACKERS.

Hon. S. F. Tolmie, minister of agriculture, will receive a delegation today from the various packers' associations to discuss the question of the condemnation of diseased and marketable products. The packers wish to find some method of eliminating the loss caused by condemned meat, and look to insurance as the solution of the problem. They will, however, be willing to consider any alternative scheme the department of agriculture may advance.

T. S. R. WINS OUT.

A verdict for defendants was returned by the jury under Judge Vance yesterday in the action by Mary J. Rowe against the Toronto Street Railway, in which she claimed \$1000 damages for injuries sustained on alighting from a street car, which she claimed was in motion before she had time to reach the ground in safety.

CATARRALH DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to swallow, cost little and is pleasant to take. Any one losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.

WILLS AND BEQUESTS.

By his will, dated January 23 last, Moses Hunter, grain merchant, after providing legacies of \$2,000 to his brothers, Russell and Robert E., and other smaller legacies, left the household goods and personal effects to the widow, Mrs. Elizabeth Hunter, and his daughter, Ida Maud Hunter. The widow and daughter share equally in a life interest in the residue, the daughter having the right to dispose of the property by will. The estate is valued at \$134,626.
Probate has been granted to Mrs. Carolina Letitia King, sole beneficiary and executrix under the will of her husband, Albert E. King, who left an estate valued at \$11,438.
By the will of the late Rev. Dr. John F. German, a retired Methodist minister, his estate of \$8,437 is to be divided amongst his wife and his four children. The widow gets the household goods absolutely, a life interest in the house on Grace street, and the net income from deceased's property in Hewitt avenue.

The \$4,383 estate left by the deceased, Dr. Hiram H. Fringle, will be divided amongst his heirs, who are his widow and three children. Deceased died intestate.

The National Trust Company has been appointed to administer the \$3,538 estate of the late Rev. Seymour DeKoven Sweetman, rector of the Church of St. Martin-in-the-Fields, Street Railway, in which she claimed \$1000 damages for injuries sustained on alighting from a street car, which she claimed was in motion before she had time to reach the ground in safety.

AQUITTED ON THEFT CHARGE

Walter Freeman, a Fairbank farmer, charged in the season with theft and receiving an auto tire and three rugs, was found not guilty by the jury and acquitted. He conducted his own defence.

DOCTOR NOT LIABLE.

Judge Vance has dismissed the action by Edwin P. Hurst against Dr. Alexander M. Murray, for \$2000 damages for the death of his son, George, the jury finding that death did not result from the injuries sustained when the boy was knocked down by defendant's auto.

INDICTMENT QUASHED.

Judge Coatsworth yesterday quashed the indictment against Robert Paterson, who was charged with carnal knowledge. A jury, in the present sessions, disagreed upon a verdict.

NOTED FIRE-FIGHTERS COMING TO TORONTO

Many noted fire fighters are in Toronto today for the executive meeting of the International Association of Fire Chiefs, which will be held today and on Thursday. At this meeting plans will be arranged for the mammoth convention of international fire chiefs to be held in Toronto next July. Among the more noted visitors is Chief Percy Hoyt of Cheyenne, Wyo., among the millionaire fire chief, who fights fires purely for the glory of it. The members who will be in session tomorrow are: Chief John Kenon of New York, president; Chief John P. Healy, Denver, Col., first vice-president; Chief Frank Reynolds, second vice-president; Chief Peter B. Kerr, Camden, N.J.; Chief W. H. Bywater, Salt Lake City; Chief James Armstrong, Kingston; Chief H. F. McGee, Dallas, Texas; Chief Duffie, of Lansing, Mich., and Stephen E. Hoey of New York, acting secretary.

COURT OF REVISION

The business tax on 278 East Bloor street, rented by Haverlag Ladies' College up to July, 1918, was canceled on the ground that the premises were used as an educational institution.
C. J. Smith was allowed four months' business tax exemption on 621 West Queen street.
Commissioner Forman yesterday stated to the court of revision that he would not withdraw the letter he wrote to the effect that Baldwin, Limited, were entitled to two years' exemption on assessment. He left the matter entirely in the hands of the court.

DEFENDANT IN CHINA.

The National Trust Company, as administrators of Lee Jim, sued to foreclose the interest of the late Ing Quong in 190 York street under a mortgage. The writ will require to be served on Chung Sea, widow of Ing Chong, in the village of Ngook Chow, China.

CALAMITY HOWLER AND FREE TRADER

Premier Drury is Thus Described by Riverdale Soldier-Member.

GODFREY SIGNIFICANT

Indicates Unsuspected Movements Among Groups in Legislature

Portents of hitherto unsuspected movements among the groups in the legislature were seen during yesterday's debate on the address. Dr. Forbes Godfrey, West York, who had been paying attention to the comradeship of Premier Drury and James Simpson, brought his speech to a close with an intimation, in which there was nothing jocular, that if the government found its support in two wings, so also might the opposition; and, when these wings begin to fly, the administration may expect the surprise of its life.

Sergeant-Major McNamara, the soldier-labor member from Riverdale, followed with an attack on Premier Drury, in which there was no disposition to show quarter. He assailed him as a calamity howler and free trader. Soldiers and workmen want property and good relations with the United States. Premier Drury frightened away American manufacturers, and helped to bring down the value of the Canadian dollar abroad.

Continuing the debate on the address, Thomas Marshall, Lincoln, was humorous at the outset. Referring to the different groups in the present legislature, he spoke in a kindly way of the premier.

"To be frank about it," he said, "I did not expect the government would have been defeated in the general election. They should have been defeated long before, but I did not believe their hour had come."

Platforms are identical. The platforms of the U.F.O. and of the Liberals, he declared, are identical, except in a few particulars. He felt grateful to Brigadier-General Ross for the speech he had contributed to the debate. (Applause.) He noted that Mayor MacBride had aroused the curiosity of the house on the question of the tariff, but had not allayed it.

"I would like to ask the mayor of Brantford whether or not he is in favor of an alteration in the tariff to admit agricultural implements free into Canada?"

Mayor MacBride: "I have not the slightest hesitation in answering the question. I believe in a reasonable measure of protection. I do not believe in the protection Canada has had heretofore—that is, protection for the benefit of a few men."

Mr. Marshall: "Do you believe in free agricultural implements?"

Mayor MacBride: "I will go this much further and say I do not believe in free trade."

Mr. Marshall: "I take it, then, that the member for South Brant is not in favor of free agricultural implements, and to that extent is out of accord with the platform of the government party."

Mayor MacBride: "I don't believe the member for Lincoln has read the U.F.O. platform on the tariff question."

Mr. Marshall wept on to read the U.F.O. platform from beginning to end, analyzing it as he went along. He quoted Liberal party acts and policy on rural depopulation, and defended the Liberals against criticism by the government. The Liberal policy, which is definite, should have the support of rural depopulation, and the development of co-operative effort for the benefit of the farmers.

Advocated Electric Power.

Mr. Marshall recalled that in 1912 he came into the house, and in 1913 advocated application of electric power to radial railways. Since then the Liberal party had always advocated electric power.

Mr. Marshall declared N. W. Rowell to be the father of prohibition in Ontario.

Mr. Rowell does not happen to be a popular favorite just now, said Mr. Marshall, but he was the ablest leader the Liberal party had. To he may have departed from the Liberal fold, but he has nothing to do with his work here.

"Often we have sat all night on that question of prohibition," he said. "This was too much for the house and all laughed."

The initiative and referendum formed a plank of the U.F.O. platform, neither on the platform nor in the house had it been discussed by the government. He asked the prime minister whether it is the intention of the government to bring in legislation and implement this plank of direct legislation by initiative and referendum.

Premier Drury: Not this session, Mr. Marshall. But you retain your faith in it. (Laughter.) Then there is the recall and I will ask the premier again whether the recall is in existence affecting any members of the government?

Premier Drury: I think it is in a few cases.

Mr. Marshall: Do you approve it?

Premier Drury: I think I will answer that another time.

Mr. Marshall continued to say it was not necessary to have a new party to bring later increased representation of the farming community into the legislature, referendum and recall. He ventured to say in reply to the premier that under the present regime a higher type of politics will be realized than Ontario has had in the past.

Dr. Godfrey turned the debate to the subject of public health and the particular emphasis on the good work of the reception hospital for insane. He asked

LEGISLATURE NOTES

J. W. Curry asks: What was the period of time covered by the legal services of the Hon. Sir William Meredith in connection with the license vendition, in each case under the power contained in George V., Chap. 67?

John O'Neill will enquire: How many copies of the calendar had to be prepared for the province as a means of disseminating information on agricultural matters, were purchased at the price of \$2,004.087?

John O'Neill also asks: When did the Ontario take over the license vendition, in each case under the power contained in George V., Chap. 67?

Thomas Marshall enquires: For what period of time covered by the board of license vendition, Ontario of \$160,000 (public accounts, page 688)?

John Tolmie asks: What has been the profit or loss, as the case may be, to the U.F.O. since the running of the license vendition by the board of license vendition, Ontario?

Colonel Cooper (Toronto) asks: What was the period of time covered by the legal services of the Hon. Sir William Meredith in connection with the police commission, for which the sum of \$2,500 appears in the public accounts on page 693?

Thomas Marshall wishes to be informed: What is the nature of the legal services, "Re Referendum and Initiative," for which the sum of \$1,100,000 appears in the public accounts on page 610?

R. L. Brackin will ask: What was the period of time covered by the legal services rendered by P. White, Esq., K.C., for which the sum of \$3,375 appears in the public accounts on page 610?

Agriculturists Commence Three Days' Session

The Canadian Council of Agriculture commenced a three days' session at the Prince George Hotel yesterday.

The committee is composed of representatives of provincial organizations and farmers' business companies. It is a kind of senate for farmers' political action, and will be the official organ of the council.

The Canadian Council of Agriculture has in addition the following members: Brunswick and Nova Scotia. There were also some twenty men and women in attendance from the prairie provinces.

The province of Quebec has little or no organization amongst her farmers but much work has been done towards forming some kind of organization in the St. Lawrence district.

The province, however, possesses some 700 co-operative societies and some of the leading men connected with them are attending the convention.

The question of organization for the next general election is being taken up and a plan for the raising of funds is under discussion.

The convention will be continued today.

OTTAWA IS NOT ALTOGETHER FAIR

Sir Adam Beck Speaks of Ontario's Treatment in Hydro Matters.

Sir Adam Beck is decidedly of the opinion that the Dominion government at Ottawa did not deal altogether fairly with the province of Ontario as far as Hydro power is concerned. He gave vent to this again last night at a banquet tendered him by the Ontario Hydro-Electric Power Commission, at their headquarters on University avenue.

Sir Adam did not look in the best of health, and confessed to feeling rather groggy, but his speech, which was in reality a confidential element by the Ontario Hydro-Electric Power Commission, was full of interest and enthusiasm.

"The province of Ontario has had shameful treatment at the hands of the Dominion government," declared Sir Adam. "They have fallen down on their part of the program, and have given us absolutely no assistance. We have had to bear the burden of transportation, and have had to foot the bill."

"And what has discouraged me, Ontario, in view of the immense debt which we incurred thru the northern railways. The answer is: Nothing. We have the utmost assurance from the Dominion government that they would compensate us for our loss, but apparently we are to be disappointed. So far, I have not received any word from the capital that they intend indemnifying us in any way. However, we are going to make one more attempt to get them to co-operate with us."

Should Do Justice.

He said that Ottawa should be made to do justice to this province. If it didn't get it, this grievance should be remembered when it came to the next federal election, when the people should demand that the men representing them would support them in the matter.

"The province should have encouragement and not discouragement," he said, "but this lack of support is not going to thwart us."

Sir Adam, however, entertained different thoughts with regard to the Ontario legislature; in fact, he soliloquized. He was of the opinion that the present cabinet would assist the Hydro Commission with the radial railways scheme and would play fair.

"The Farmers' Sun in this matter, standing for the province, has done well to have radial railways," he said. "It means cheaper electricity for one thing. He criticized an article in The Farmers' Sun on this matter, stating that, if it were the official organ of the U.F.O., such statements should not have been made. He thought, however, that it was simply lack of knowledge as many of the members of this party are new at the business, and in all probability, do not fully understand the situation."

Sir Adam said a few words with regard to the work done for Ontario by the Hydro system. It had put electricity within the reach of everybody's purse in Italy and other European countries," he said, power was thought fairly cheap at from \$200 to \$450 per

Cocoa and Chocolate Merger

Canadian Interests of Fry's and Lowney's, Associated.

Arrangements have been made for the association of the business interests, in Canada, of The Walter M. Lowney Company of Canada, Limited, and J. S. Fry & Sons, Limited, of Bristol, England.

The Walter M. Lowney Company of Canada, Limited, has a large plant in operation in Montreal, established many years ago, and has been carrying on business in all parts of the Dominion. Its sales of eating chocolate and confectionery having been particularly extensive.

The firm of J. S. Fry & Sons, Bristol, was established in England in the year 1728, and, for generations, its chocolate and cocoa products have been well and extensively known in Canada and the Empire. During the past ten years these have been handled by its own branches throughout Canada. The Bristol firm has recently caused J. S. Fry & Sons (Canada), Limited, to be incorporated by Dominion Charter, with head office in Montreal, to which it has transferred its Canadian assets. J. S. Fry & Sons (Canada), Limited, will continue to maintain its own branches throughout Canada, and has acquired, and will promptly equip, an extensive modern manufacturing plant in Montreal, for the purpose of manufacturing, within Canada, Fry's well-known brands, which hitherto have been imported from Bristol.

While the identity and good will of each firm will be maintained and extended, it is expected that, through the association, substantial economies will be effected, both in the purchase of raw materials, and in the marketing of finished products. The two lines supplement each other, inasmuch as the Lowney Company is largely engaged in manufacturing and selling eating chocolate and confectionery, and the Fry Company specializes very strongly in cocoa and related products.

MILITARY ESCORT

JUDGES IN IRELAND

Dublin, March 23.—Armed cars, police with drawn swords and an infantry guard wearing helmets, escorted judges of the assizes court at Galway to the court house yesterday.

One justice, in addressing the grand jury, said there had been four murders, two robberies with arms and many other crimes such as shooting in the houses, since the last assizes.

The major-general in command at Cork, in a letter to the press of the city, expressed his regret that it was necessary for the soldiers to search the MacCurtain home immediately after the murder. The general was acting upon orders, however, he declared.

One of the two persons killed in last night's riot here was a woman, Margaret Dowling, a domestic servant. The other was an unidentified young man. Several persons were wounded, including one of the soldiers, who was shot thru the hand.

U. S. Government Control

Over Coal Removed

Washington, March 23.—Government control over the maximum price of bituminous coal was withdrawn today by President Wilson, effective April 1.

April 1 is the date on which these agreements normally would become effective, and by removing government control of prices effective that day the president saves the way for increased coal prices to absorb the average 27 per cent in the majority report recommendations.

Keeping the Price of Food DOWN

WHILE nearly every article of food has shown a large increase—the price of what is perhaps the most important food of all remains the same as in July, 1914.

Bovril is far more than a mere article of commerce—it is an essential and unique food.

The Directors of Bovril Ltd. are therefore in a direct way Trustees of the National Health. It was, and it remains, a matter of honour to supply as far as possible every home with Bovril, poor and rich alike. That is why the price of Bovril is the same to-day as before the War. That is why Bovril did not profiteer.

But determination alone was not enough. Foresight and skill were needed and were exercised to decrease the cost of production. Thus was this precious food safeguarded for the people. Bovril Ltd., too, have had their reward in the gratitude of Doctors, of Hospitals, and of the great Public who, during the scarcity of War and the Influenza Epidemic, were able to obtain Bovril at a reasonable price when other foods were soaring beyond imagination.

Bovril price and quality are the same to-day as in July, 1914.

The very fact that there is no substitute for Bovril makes it all the more imperative that everyone should have their share.

You are now asked to assist in these efforts. The supply of Bovril is not yet equal to the demand.

BUILD NEW DAIRY FOR O.A.C., GUELPH

Plan Practically an Assured Fact—Handsome Structure is Contemplated.

Guelph, March 23.—(Special.)—That a fine new dairy building, costing of \$150,000 will be erected at the O.A.C. in the near future, is almost an assured fact. Prof. H. Dean, head of the dairy department at the college, stated today. One set of plans for the building has already been prepared by the provincial government architect, but at the suggestion of Prof. Dean the architect is going over the plans again and adding some necessary improvements.

Prof. Dean stated his department has been greatly handicapped for a number of years in their present building and a new modern structure was absolutely necessary in order to cope with the ever increasing importance of the dairy department. The site on which the new building will be erected has not yet been selected, and the government has not made provision for the necessary expenditure, but the fact has the approval of Hon. Manning Doherty, and Prof. Dean does not anticipate any opposition to the erection of the building. It is expected that work on the new building will be commenced this summer.

GUELPH S. S. ASSOCIATION HOLDS A CONVENTION

Guelph, March 23.—(Special.)—A convention of the Guelph Sabbath School Association was held this afternoon and evening at Knox Church. A Col. Price referred to the Toronto University invitation to Miss Jane Adams. "This is not the time to live people of the Jane Adams type to address the student body in a great loyal city of Toronto," he said.

He commented on the letter of President Falconer, declining to accept the offer and the lecture of W. B. Yeats. "I am sure," said the speaker, "that the boys who do not want such lectures so soon after the close of the great war."

The Human Clock usually Breaks Down instead of Runs Down

"It has long been a favorite idea of mine to compare the human body with my old clock here."

Without proper attention the old clock gets run down and stops until I wind it up again and then it ticks away just as heartily and regularly as ever."

And so it is with the human body, but the great difference I find is that the human clock usually breaks down instead of runs down because people neglect to take proper care of their health."

Through all these years I have managed to keep well and to keep young by using restorative treatment whenever there are indications of the system becoming run down."

Fortunately I learned the value some years ago of Dr. Chase's Nerve Food and

to its use I largely attribute my healthful condition at this age."

"When I hear people talking about being unable to sleep or of suffering from nervous headaches, indigestion or worn-out feelings I ask them, 'Why do you not use Dr. Chase's Nerve Food to increase your nervous energy?'"

"So many people, as age advances, suffer from a lowering of the vitality, from high blood pressure or hardening of the arteries, but I have found that the use of this restorative treatment, when required, keeps my health at the high water mark."

STUDENTS TO HAVE A NEW RESIDENCE

Proposal Regarded as Fitting Observation of Archbishop's Anniversary

The erection of a residence for students entering on the study of philosophy as a suitable means of celebrating the 25th anniversary of Archbishop McNeill's consecration was decided on at a joint meeting of Catholic clergy and laymen at the Cathedral Hall, 87 Bond street, last evening.

The Rev. proposed to build such an edifice at an estimated cost of \$120,000 on a site offered by the Episcopal Corporation at the head of Wellesley Place. This site, it was pointed out at the meeting, adjoins the Church of Our Lady of Lourdes, erected in 1854, as a fitting commemoration of the silver jubilee of the late Archbishop Lynch.

Clergy Took Lead. As the church invests with religious solemnity the twenty-fifth anniversary of the consecration of her bishop, the clergy took the lead in making arrangements for the celebration of the silver jubilee of his grace the archbishop. They appointed a committee consisting of Right Rev. Messrs. Whelan, Kidd and Sullivan, the Very Rev. Deans Hand, Morris, Moyna and O'Malley, and the Revs. Fathers Geurin, Barco, Coyne, Ryan, McCann, McGrath, O'Leary, Traylor, Carey, C.P., Coughlin, C.S.B., and Hayes, C.S.B., who conferred last evening with a laymen's committee composed of two members from each of the 78 parishes in the diocese of Toronto.

In support of the proposal to erect a residence for students entering on the study of philosophy it was explained that St. Augustine's Seminary was already overcrowded and might better be restricted to students of theology, that the trend of sacerdotal information today is to separate philosophers from theologians, that the archdiocese must face pressing problems by uniting academic training and cultivation of pastoral zeal, and that by housing of students of philosophy in Toronto would give them the advantage of existing institutions.

Each Parish to Share. The method of financing the sum required was also explained, an assessment being made on each of the parishes of the diocese. Mons. Kidd, Very Rev. Dean Hand and Dr. Arthur O'Leary explained the proposal. Mr. W. J. Kernahan was elected chairman and Mr. Jerry Burns, secretary. A committee of ten was appointed to map out a plan of campaign for raising funds for the hall of philosophy. This will begin here on April 1.

ATTEMPTED SUICIDE BY STRANGLING

Arrested yesterday afternoon by Morality Officers Kerr and Massey on a serious charge, Joe Barry attempted to commit suicide while in the morality office by choking himself with his necktie. Barry was caught in time by Kerr before he had done himself any harm. Barry refused to give his home address when arrested. He is about 25 years of age. The arrest was made on a warrant issued after a young girl had made a statement to the police regarding the actions of the prisoner. When he was brought in Barry asked the police for the loan of a penknife to manicure his nails with. The officers became suspicious and would not give Barry a knife.

A COAT OF LOOSE LINES

THE vogue for the plaited skirt has revived the coat of loose lines. One striking model had a ruffled collar and deep cuffs. It was developed in blue serge. The skirt was of dove gray with navy stripes. Plaited and plaid skirts with dark coats are very popular for street wear. If the skirt is of bright material the coat is plain and dark. Very often this combination is reversed. The straight box coat is also worn with a skirt of different material. Regarding the plaid materials, which are so much in vogue, never was such charm of color and such originality of pattern expressed in fabric. It would seem that the weavers are excelling themselves in their efforts to supply the extravagant demands made upon them.

WHAT A MAN THINKS—ABOUT WOMEN

EVERY man thinks— That if a woman tells her age she must be fibbing—and if she doesn't she must be antique. That, if she is sweet and cordial to him, she is trying to arouse his interest—and if she is cold and indifferent, she is trying to pique his vanity. That if she believes all the flattering things he says she must be a soft-headed little fool—and if she doesn't she must be a hard-hearted little cynic. That if she is arched and ready to receive him when he calls, she has been sitting there waiting for him—and if she isn't she is upstairs primping for him. That if she permits him to kiss her any he must be a fool—and if she doesn't NO man could! That if he offers her an inexpensive gift she will think him penurious—and if he offers her a costly one, she will think him serious. That if she wears fluffy clothes and high French heels, she is probably frivolous and vain—and if she goes in for mannish tailored suits and common-sense boots, she is probably unfeminine and unnatural. That if she agrees with everything he says, she is angling for him—and if she disagrees with anything he

"What's in a Name?"

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel. By MILDRED MARSHALL

ROBERTA. The charming boyish name signifying "bright fame," is one of the many examples of feminine names coined directly from the masculine cognomen, Robert. Tho Robert can be clearly traced, there is no record of the evolution of the feminine and it can only be deduced that some parent, disappointed at the birth of a daughter, bestowed the family name upon the girl-child and added the final "a" as a concession to the sex of the infant. Roberta has a charmingly poetical heritage. Her counterpart appears in the most famous passages of England's early history. The origin of the name was in "red," which accounts for the translation of "bright." Curiously enough, Roberta was popular in Italy after being rejected by England, before its vogue in that latter country became so great. One of the wild dukes of Normandy brought it back to England and numerous earls and nobles seized upon it, establishing its vogue permanently. The dearly beloved Robin Hood, whose deeds are recorded in English ballads, did much toward making it popular. Robin was the epithet by which Queen Elizabeth addressed the two earls, stepson and stepfather, who sunned themselves in her favor. Robert of Bruce was the national hero of Scotland and Robin Lawless was a favorite Irish character. Roberta is essentially American, the contraction Bertie, which is the endearment for several other names as well as Roberta, has the real Yankee sound. Roberta's talismanic stone is the sapphire, which is said to guard her from danger and disease. Tuesday is her lucky day and seven her lucky number. (Copyright, 1920, By The Wheeler Syndicate, Inc.) As the season changes ---use more milk WITH the break-up of winter at hand, health demands extra safeguards. At this time of the year the diet should be carefully planned. Grown-ups, as well as children, should have lots of rich, creamy milk. Not just a little when there happens to be milk to spare—but a definite amount each day for all the family. For milk is quickly digested and assimilated. It is satisfying and nourishing when the appetite flags. It helps digest other food more readily. It builds up reserve strength and energy. It contains in balanced proportion all the food elements your body needs. Just—hen fruit and fresh vegetables are out of season is the time when you should double your regular milk order. Use it in all your cooking. Use it at every meal. It adds variety, flavor and nourishment to the daily menu. Let Ontario's finest farms supply you with Nature's best and cheapest food—through the Farmers' Dairy. This better milk—rich in butterfat—as safe as the finest equipment devised by science can make it—costs no more than ordinary milk. THE FARMERS' DAIRY. Phone Hillcrest 4400. Strange Attack on Agriculture.

Mr. Meredith of Iowa, editor of "Successful Farming," has become United States secretary of agriculture, and in a few weeks, it would appear, has qualified to write on "Unsuccessful Farming."

It seems as tho the house of representatives has taken fright at the advance of the rural voters to political power.

Anybody who does not realize that the fundamental requirement of this continent is to increase production from the soil has not learned the alphabet of political and economic well-being.

"Shoulder to Shoulder"

Under the Patronage of Their Majesties the King and Queen H. R. H. The Prince of Wales H. R. H. The Duke of Connaught His Grace The Duke of Devonshire Major-General Sir Sam Hughes 90,000 Members in Canada. TORONTO UNIT HEADQUARTERS 95-97 King St. East Lt.-Col. A. J. McCausland, President E. A. L'Estrange, Sec.-Treas.

WITH confidence in the loyalty of Toronto's citizens to back a cause which merits their support, the Toronto Unit of Canada's oldest and most conservative Veterans' organization—the Army & Navy Veterans in Canada—makes appeal for your financial assistance. Tomorrow you will be asked to give what you can—or even what you will—toward helping the members of this Organization to stand "shoulder to shoulder" in overcoming the trials and problems of the reconstruction period. Here is your opportunity to assist in providing direct help through a direct channel for a direct need. There is no red-tape attached to the efforts of the Army & Navy Veterans.

There are no expensive clubhouses or large paid staffs to maintain. Its work is done with an absolute minimum of administrative cost—and, until now, without public appeal for funds. Every cent spent is the result of a direct, personal and voluntary investigation on the part of its officers and members, having as its object the assistance and betterment of veterans and their dependents in ways untouched by government or municipal effort. The record of this work is open to public inspection at any time. To carry on our departments for the coming year in the City of Toronto will necessitate a larger expenditure than can possibly be met by the members themselves.

Help us to hasten the re-establishment and suitable employment of returned men. Help us to render assistance to dependents through those who personally know their needs. Help us to secure equitable adjustment of soldiers and dependents' claims. Help us to maintain our efforts to obtain military burial, at the cost of the public they have served, for deceased ex-soldiers. Help us to spread good-cheer to veterans' families at the Christmas Season—to supply necessities to offset the cold of winter—to provide outings that will relieve the heat and danger of a city's summer—to furnish ready assistance in cases of sickness and distress. Help us to maintain a conservative body of veterans whose every private endeavor is for the public good—whose efforts are endorsed by representative citizens in every walk of life.

NEWS OF LABOR

HOUSING GUILD BEING CONSIDERED System of Building at Cost to Be Estimated by Building Trades Council. James T. Gunn very thoroughly explained his proposed system of building guilds to "The World." This system, he said, would abolish all speculative contractors' profits. Those behind the movement already had the promise of a large firm of architects composed of young and efficient returned men, to do all in its power to help the ideal, and plans were rapidly assuming shape to bring the matter to a head. Mr. Gunn said that the Toronto housing commission did its best to deal with an intricate situation, there was much left to be done. He said that the building trades union would be in a position to erect reasonably cheap homes. He would have full power to stabilize labor costs from year to year, and thus being in a position to erect reasonably cheap homes. He would have full power to stabilize labor costs from year to year, and thus being in a position to erect reasonably cheap homes.

METAL TRADES WIN VERY BIG FIGHT

Decide to Refer Dispute With Nationals to International Headquarters. Monday night's very stormy session of the building trades relative to the trouble between the nationals and the Building Trades Council, lasting until far after the midnight hour, resulted in the decision of the Toronto building trades to refer the whole matter to the final court of the international headquarters. When notified of this action of the Toronto Building Trades Council in the matter, officials of the Canadian Federation of Labor expressed surprise that a matter purely Canadian and local in its interest should be referred back to United States headquarters for final instructions. "Any further question as to the course of the Canadian Federation of Labor in the event of further difficulty with the building trades will be given more complete consideration than was accorded the matter during the recent strike fiasco," said M. F. Tumpance, president of the Canadian Federation of Labor. Mr. Tumpance stated that the Canadian Federation of Labor would not be content to stand idly by and allow matters to adjust themselves as they had. "Should this matter come to a head again," said Mr. Tumpance, "the national holding engineers will be supported by the Canadian Federation of Labor and the Building Trades Council, and steps may be taken to inaugurate a Canadian Federation of Labor building trades group in Toronto, similar to that which has been so successful in Quebec."

VETERANS MACHINE GUNNERS FORM NEW BRIGADE

Propose to Perpetuate the Memory of Overseas Battalions. In order to perpetuate the memory of the 1st, 2nd, 3rd and 4th Canadian Machine Gun Overseas Battalions, and machine gun overseas battalions, the 1st and 2nd motor machine gun brigades, there has been formed in Toronto the 1st Canadian Machine Gun Militia Brigade with a strength of 40 officers, 480 other ranks. Already many applications have been received for membership in the new unit and it is expected that by the end of the month the brigade will be approaching full strength. Approximately 2,000 machine gunners were demobilized in Toronto and many of the old timers have signified their intention of sticking together and entering the new militia machine gun brigade. Splendid quarters are being assigned at the armories. There will probably be no drill for the balance of this year, but there will be weekly meetings on Thursday nights for indoor baseball, volley ball, badminton, etc., and arrangements are being made to establish reading rooms, lounge rooms, etc. The 1st Canadian Machine Gun Brigade already has an excellent band of approximately thirty pieces, led by the well-known Bandmaster Zeally. This band will be available for the machine gunners' nights on Thursdays and for such concerts, smokers, etc., as may be given for the members of the unit, their wives and friends. It has been noted that many of the younger brothers of those who have served with distinction overseas have signified their intention of keeping up the military record established in their families by entering this unit. Those wishing to be enrolled should apply at the armories at once, between 9 a.m. and 5 p.m., on Wednesday and Thursday evenings, or by phoning Adelaide 540.

IMPERIAL VETERANS NOT CLAIMING BONUS

Applications for Canadian Rate of Gratuity Void After July 1. Ottawa, March 23.—(By Canadian Press.)—Former members of the imperial army who are entitled to receive war service gratuity at Canadian rates, do not seem particularly anxious to come forward and make their claims. A statement from the militia department states that "despite the wide publicity which has already been given to the regulations which authorized the payment of the gratuity, only a medium percentage of the number of the members estimated to be eligible have yet made application." This gratuity, under the provisions of the order-in-council, is payable only to those who make application before July 1 next. Information with regard to the gratuity is obtainable from the paymaster-general at Ottawa, the assistant directors of pay services in each military district and the various branches of the imperial veterans and great war veterans' associations. KINGSTON A. AND N. VETERANS. Kingston, March 23.—The Army and Navy Veterans, at their meeting last night, strongly condemned the alleged utterances of Lindsay Crawford of Toronto at a St. Patrick's Day dinner in New York, anent a Canadian republic and decided to call the attention of the minister of justice to the utterance, which they regarded as treasonable. ROUND TABLE CONFERENCE. The round table conference of veterans' organizations has been receiving letters from members of parliament acknowledging the receipt of the annual report of the organization. In most cases, that the attention of the house will be drawn to the matter. Members of parliament receive a number of these petitions, signed by their own constituents, daily, and the following M.P.'s have already replied in a favorable tone: Hon. G. E. Foster (acting premier), Charles Sheard, T. Foster, B. Bristol, H. C. Hocken, all of Toronto, and W. Smith of Oshawa, M. R. Blake of Winnipeg, R. K. Anderson of Oakville, and Mr. Stevens of Vancouver. ACTION IS ENDORSED. Letters have been received from a number of branches of both the United Veterans' League and the Grand Army of Canada, endorsing the action of their executives in proposing the amalgamation of the two organizations. Despite the fact that some slight opposition is being made by a few branch officials, it is expected that the ballots will decide in favor of the carrying out of the project. Preparations are already being made to bring county members into the city for the inaugural parade of the new association, and permission is being granted for 15,000 men to wear their military uniforms on the date of the opening conference. PETITION ILLEGAL. The champions of the \$2,000 gratuity scheme have been informed that it is illegal to present a petition in parliament requesting money, and a wire has been sent to Col. J. Currie, M.P., asking that this difficulty be removed by a motion suspending the adversarial ruling.

WAR VETERANS DECRY HIRING U. S. EXPERTS

Kingston, March 23.—The advisory committee, composed of members of the local branches of the Great War Veterans and the Army and Navy Veterans, have passed a resolution condemning the reclassification of the civil service list by a Chicago expert, thru which the soldier particularly in the employ of the D.S.C.R. was the greatest sufferer. The American appointment was considered an insult to Canadian intelligence, the committee feeling that Canada should be able to furnish men who could have done the work for the government as well as an importation. The committee also went on record to the effect "that all men being sent to positions by the employment bureau shall first be medically examined and their fitness for the work they are intended for, be certified to before they are refused participation in the fund set aside for the assistance of the soldier."

ENTERTAIN SOLDIERS. A Smooth, Hairless Skin for Every Woman

Do not suffer an embarrassing day with itching, bleeding, or F.O.R. Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and can certainly cure you. 50c a box at all dealers, or Edmanson, Bates & Co., Limited, Toronto. (The Modern Beauty) With the aid of a plain delatone paste it is an easy matter to rid the skin of unsightly hairy growths. The paste is made by mixing some water with powdered delatone. This is applied to the hairs not wanted and after 2 or 3 minutes rubbed off and the skin washed, when every trace of hair will have vanished. When you go to your druggist for delatone, be sure you get the genuine article.

CORNER IN CORN? PIT GIVEN SCARE IN MINING STOCKS

Talk of Federal Probe Results in Sharp Downturn in Prices.

Chicago, March 23.—Corn underwent a decided setback in price today chiefly owing to talk of federal investigation of reports that the market had been cornered by speculators.

Miners were less active yesterday, but the corn was better than on Monday and net gains were consequently more numerous than losses.

Stunning Suits for Happy Maids on Smiling Easter Morn

New models reveal every style tendency which Dame Fashion has exploited—an ever-present youthfulness and abandonment—a triumph in the combined arts of original designing and expert tailoring. This page pictures a few of the widely diversified styles. You will note particularly the vogue for tricotine in the always-smart, practical navy blue.

- A—Fine navy serge makes this snappy model, with tricolored waistcoat and pockets formed from close rows of military braid. Price \$47.50
- B—The essence of youth and smartness—this navy tricotine suit with Eton coat, flared hip and real embroideries in tomato-colored wool. Price 187.50
- C—Tier upon tier of navy tricotine fashions this chic model, to which inset collar and cuffs of jade duvetyne and a broad buckled girdle add a touch of brilliance. Price 162.50
- D—It is the cartridge-pleated pockets with their large bone buttons that enhance the smartness of this navy tricotine tailor. Fine little bindings and stitchings make for further tailored elegance 112.50
- E—The popular Oriental note is sounded in the silver-embroidered and fringed black satin vest of this navy tricotine suit; also in the belt buckle, which is touched with scarab green and red 150.00
- F—The richly braid-trimmed, dashing-girdled back of this fine navy serge suit is not the only appealing feature. The front boasts an exquisite blue and gold brocade waistcoat. Price.. 87.50
- G—A decidedly French effect is gained in this model of navy tricotine, by means of the black leather half-belt and uniquely-stitched pockets for hip-distension. Price 72.50
- H—The vogue for embroidery is displayed in this beautiful suit of beige serge, its richness being enhanced by a naive simplicity of tailoring. Price 55.00

Blue Bonnets

though not the Blue Bonnets "over the border" of Scottish fame, seem to dominate our Easter millinery displays. The little wonder, perhaps, when one stops to realize that nine out of ten women are buying navy suits, and that practically every woman finds navy the smartest, most becoming and most practical color she can adopt. Besides, it is a shade which can be worn with satisfaction and the certainty of good appearance straight on through the Summer season.

But to come back to the Blue Bonnets, surely smarter styles were never launched than the many navy models we are now showing, both in our large show rooms and in the little gray French rooms. We would call particular attention to our collection of

Rawak Hats

—imported models which represent the most exclusive millinery productions procurable, and are sold in Toronto by Simpson's only. There is a correct style for every occasion, a becoming model for every woman. Among the "blue bonnets" for Easter, recently arrived from the House of Rawak, you will find:

Alternate rows of navy porcupine and fallie make a unique model with high front and sloping lam-like back—topped by a huge stiff bow of navy waxed silk.

Five crisp little feathers, jaquered bronze, stand up in so-dirty fashion about the high front brim of a navy millan tailored hat, which is as striking as it is simple.

You could not imagine a smarter turban than one of navy porcupine with a flare of navy moire ribbon in three-cornered effect about the brim. Caught at the back in a tailored bow.

An Easter Wrap

For Wear With a Pretty New Frock on Days When East Winds Blow.

Many and wonderfully-attractive are the coat and wrap styles we are now showing. Tucks, cordings, crush collars, most unusual pockets and such pretty shaded buttons give the desired "finish" to such beautiful materials as bolivia, tinseltone, gold tone, velour, de laine, gabardine or tricotine.

Colors, sand, rookie, navy, clay, French or Pekin blues and black. Prices, \$45.00 to \$175.00.

Easter Frocks Redolent of Springtime

The newness and freshness and joyous abandonment, which is the very essence of the dawning Spring season, is expressed in the lovely, lovely Easter frocks we are now showing. Charming interpretations of the mode, skilfully wrought out of such favored fabrics as:

Rustling Navy Taffetas—gay with fringed ruchings that turn up in pert fashion to greet the sun—ruffles, frills, puffs and panniered hips that take us back to Mid-Victorian days, or garish embroideries and beadings with all the lure of the Oriental.

Simpson's—Third Floor.

Cool-Looking Georgettes—Gleaming Satins—rich tricolletes and the smartest of tricotines and serges—add their scores of new designs to make up the finest collection of Easter Frocks we have ever shown. Don't go holidaying without one of them.

A \$50.00 Tailleur

Of Paramount Importance to the Woman Who Craves a Tailleur With Exclusive Lines at a Moderate Price.

The suits are mannishly-cut from pure Botany serge, in navy or black, and 'tis the set of shoulder-seam and collar, the graceful tapering of the sleeves, the finished stitching in the seams that gives them the good-looking appearance they possess. Braid and buttons used in many ways give an added smartness. Sizes 32 to 42. Many priced away below regular for a today special, at 50.00
