Offensive of Allies Continues After Brief Rest; Kaiser Rushes To Front

CAN GERMANS STAND BLOWS? WHOLE ISSUE MAY BE THERE Press Bureau Lets British Correspondents' Stories Into Papers GREAT EFFORT NEEDED TO FOLLOW UP VICTORY

BRITISH BATTERING THE THIRD LINE

Pounding at German Trenches Near Loos; French Pressing Enemy in Argonne

Hope to Keep up Pressure, Says General French, in Reply to Congratulatory Message From London's Lord Mayor—Some Germans Already Withdrawn From Eastern Front

Ally's Aims Played Important Part in Preliminary—Of Prisoners Taken From German Many Were From Eastern Fringe of the Empire

London, Sept. 29.—The British are battering the third line of the Germans in the vicinity of Loos. The French are maintaining their offensive in Champagne. The Germans in the Argonne apparently have been unable to make important gains and have refrained from infantry attacks. This sums up briefly the situation in the west as seen in London today.

No great change in conditions is shown, but England attaches high importance to indications that the offensive movement of the allies is not to be relaxed, as was predicted in some quarters. A short breathing spell has been succeeded by the hardest pressure on German positions at the points weakened or shattered by the allies' rush.

MEAN TO KEEP IT UP That it is the intention to maintain this pressure is indicated by a telegram from Field Marshal French to the Lord Mayor of London, thanking him for his message of good will. The British commander added that the message encouraged his troops to push the advance to a really decisive issue.

This leads the public to believe there is to be no retreats such as followed the battle of Neuve Chapelle, but that, with new British forces in the field and ample supplies of ammunition, Gen. Joffre and Field Marshal French plan a real test to whether German resistance in France and Belgium can be broken.

Russia, though encouraged by the progress of her allies in the west, has not been doing so well in the last day or so. The Austrians have stemmed the Russian advance in southern Poland and retaken Leticia. The Germans are renewing the great movement against Divina.

Bulgaria has not replied to Foreign Secretary Grey's "friendly ultimatum," but special dispatches from Athens and other points say a change is noted at Sofia, and that events are now less likely to take a turn unfavorable to the entente powers.

GETTING AROUND THEM Athens, Sept. 29.—"I believe we are on the eve of the most important operation of the war: namely, the landing of troops in Macedonia to begin the march, not so much on Constantinople, as on Bulgaria," said an officer attached to the general staff of the British army on the Gallipoli Peninsula, who has come to Athens from the Dardanelles front.

The two offensive forces are gradually closing in. The Mesopotamian expedition is approaching nearer to Bagdad, and from the Syria Bay-Gaba Teppe line, an attack on Constantinople may begin at any moment.

NEW DRIVER HAS PLACED KAISER IN A QUANDARY New York, Sept. 29.—A Tribune cable from Paris says: The allied offensive on the western front has already drawn German troops from the eastern line of battle. The French War Office report remarks that among the prisoners taken east of Soissons were "men of the guard corps brought back a few days ago from the Russian front."

Called on to meet new and violent attacks in Flanders and France, the Kaiser cannot apparently push his advance further into Russia, nor can he release men for the oft-mentioned "drive" through the Balkans.

SAY LOSSES OF GERMANS 120,000 Paris, Sept. 29.—German casualties in the recent offensive, including killed, wounded and prisoners, were given officially by the French War Office today as in excess of the strength of three army corps (more than 120,000).

Progress of the French in the Ardennes region, northwestern France, continues. North of Massigen, the war office says, 1,000 Germans surrendered.

LIKELY 30 LIVES LOST London, Sept. 29.—A despatch from Rome says that the Italian battleship Benedetto Brin sank, following an explosion which resulted from fire on board the vessel. The cause of the disaster has not been ascertained. It was said something more than 800 men are unaccounted for.

Baldwin-Collier In Queen Square Methodist church last evening, Elena Dicka Collier and Arthur Baldwin were united in marriage. The bride looked pretty in a grey traveling suit, while the groom wore a white tuxedo with a white bow tie and a boutonniere of yellow chrysanthemums and white daisies with asparagus fern. The bridesmaid, Miss Annie Dallas, wore a brown suit with black velvet hat and carried a bouquet of pink snap dragons and anemones. A reception was held at 300 Broadview avenue where a dainty supper was served. About forty of their friends were present. Loving presents testified to the popularity of both bride and groom. They will reside in St. Andrews street.

NO MEETING TODAY Several of the commissioners met at City Hall at noon today for the Wednesday committee meeting, but no meeting was held, as there was no quorum.

MAY BE GREAT BATTLE IN THE OPEN ON PLAIN NEAR ARTOIS

French East of Souchez Press on to Crests Of Vimy Ridge

IF THEY GET THEM IT MEANS BIG CONFLICT

London and Paris Believe Not All Has Yet Been Told of Recent Victory—Russia Continues To Press Back the Hun—Italy, Too, Gains Ground

New York, Sept. 29.—A cable to the Herald from London this morning says: "While England exults over the inspiring news from Sir John French that the British army has penetrated to the third line of German defence in terrific fighting around and beyond Loos, there is even more enthusiasm at the prospect of the gallant French reaching the second line of their wide Champagne front. The fall of German dead bodies piled one upon another in the captured trenches is a mounting horror."

"When these losses added to those of the Germans in Champagne where the enemy captures are now admitted to be nearly 20,000, it will be realized that the Kaiser's army has suffered an even greater defeat than in the first week of the great battle of the Marne. May Meet in Open

The French east of Souchez are pushing forward to the crests of the Vimy ridge, the capture of which will be the prelude to a great battle in the open on the plains of Artois.

"There is a belief here that the complete story of the allied progress is yet untold and this feeling is intensified by the cryptic announcement in a despatch to the Daily News, which says that a feeling of great optimism prevails in Paris and throughout France, which would be much greater if the public knew the whole truth.

Kaiser Reaches West Front in Mad Haste To Stem The Tide

Losses of Germans at Champagne 60,000 and at Artois Half That Number—French Had Hardest Time Silencing the Thousands of Machine Guns

New York, Sept. 29.—A special cable to the New York World from Paris says:—

The Kaiser reached the western front, coming through Luxembourg at break-neck speed, in a special train on Monday afternoon, and has been in continuous consultation with the crown prince and other generals, seeking means to bring the French advance in Champagne to a halt.

This information reaches me from the highest possible military source. It was obtained originally from German officers captured in the Argonne fighting. From the same authority I have it that the German losses in Champagne alone total more than 60,000, and that the Kaiser's advent in that sector is evidence that the Germans fear disaster will overwhelm their sorely tried centre. In Artois they have lost between 30,000 and 40,000.

Although it is impossible to cable an estimate of the French casualties, I am empowered to state that their total is considerably below that of the Germans. This is remarkable in view of the fact that they were the attacking force, but it is partly explained in the telling number of prisoners taken by the Germans. The number of Germans captured by the French, on the other hand, is amazingly large.

Most of the wounds on the French side were caused by shrapnel and machine guns, while the Germans were either entombed beneath the artillery fire or immediately preceding the infantry attacks, or sliced open by French bayonets. In the fury of their charge the French had little time to use their allies, except for sniping purposes.

"Silencing their machine guns was our hardest job. There seemed to be literally thousands of these venomous weapons tearing away at us," one of the first wounded officers arriving in Paris told me.

So far, the Kaiser's move has been a success. The Kaiser's army has suffered an even greater defeat than in the first week of the great battle of the Marne. May Meet in Open

Premier Favorable To Russia May Support Radoslavoff

TWO OF CABINET ARE REPORTED TO HAVE QUIT

Britain Gives an Emphatic Warning to Bulgars—What Choice Means—Serbians Again Repel Austrians as They Try to Get Across the River

Paris, Sept. 29.—A Havas despatch from Athens says: "The Bulgarian ministers of finance and commerce have resigned, according to a report received from a reliable source in Sofia."

"The reason given officially is a divergence of views on internal questions, but the real cause is the complete disagreement of these cabinet members with Premier Radoslavoff on the policy to be followed in view of the determined attitude of Greece."

"King Ferdinand granted an audience to Former Premier Matifoff, leader of the party favorable to Russia, and asked him, it is understood, to form a new cabinet."

BRITAIN'S WARNING New York, Sept. 29.—A London cable to the Herald says: "The whole press, led by the Daily Telegraph, emphatically endorses Sir Edward Grey's statement that, while Britain is still friendly to Bulgaria, if she allies her troops with those of the Central Empires, Great Britain and her allies will give their friends in the Balkans all the support in their power, without reserve or qualification."

"The Daily Telegraph adds: 'It is for Bulgaria, a Slav nation, to choose to ally herself with the Quadruple Entente and Germany. The Entente guarantees assurance of the realization of the national aspirations of greater Bulgaria, while if she casts her lot with the German enemy, she will become a petty German dependency.'

AGAIN FAIL TO CROSS THE DRINA Nish, Sept. 29.—The following official statement has been issued at the Serbian War Office: "On the 24th, hostile aeroplanes flew over Podjevac, dropping twenty-two bombs and killing three men, but doing no damage of military significance. On the 25th they again dropped bombs, killing one man. On the same day, enemy detachments tried vainly to cross the Drina, near Raskin. A similar attempt was made near Forschnitz on the night of the 24th."

To Attack Serbia Paris, Sept. 29.—The Athens correspondent of the Havas News Agency says it is now expected that Bulgaria will begin an attack on Serbia within fifteen days. Plans are now being drawn up by the Bulgarian general staff with the German officers, who have arrived in Sofia. Bulgarian officers say no attack will be made on Greece.

LAST CABLE CUT Nothing Now Where Suspension Bridge Hung For Years The last cable on the old Suspension Bridge was cut and hauled in late yesterday afternoon, and so the final connecting link across the falls disappeared. Now, where the old bridge formerly swung, nothing remains from shore to shore. Work has begun on demolishing the piers. The heavy stone is brought down by a derrick.

The high wind on the new bridge during the last few days indicated what might be expected in the coming winter. The Street Railway, however, have been writing for car service, and it is hoped the line may be in operation in a few weeks.

AGAIN ARE THE CALCULATIONS OF GERMAN'S ASTRAY

Believed They Could Hold West Front With Inferior Force

ALIES' PLAN SUCCEEDING

Attacking All Along Front to Prevent Thin Part of German Line From Being Strengthened—Must be Prepared For Some Reverses

London, Sept. 29.—A despatch to the Daily News from the British headquarters, dated Sept. 27, says: "One deduction may be drawn from the last two days, which is of good omen for the future. We have often been told that the German lines in the west are wearing thin. We know, within narrow limits, their numbers, and these numbers are less than ours. But German belief that by the help of their great machine she could hold her front and even take the offensive with fewer troops than her opponents. The calculation for a long time seemed to be justified, but it looks as if that day might be past.

"We are attacking all along the front to prevent the thin part of the German front from being strengthened from elsewhere, and the plan, so far, looks like succeeding.

"The enemy would appear to have sufficient reserves to meet the attacks on two adjoining sections at the same time. If our conclusion is correct, it encourages us to hope for the best. A word of caution may be spoken to those who look for too speedy results. A great strategic plan takes time for its working out.

"It was three months from Vimy. Mackensen's first assault on Dunajec till Warsaw fell, and these three months included temporary reverses, such as those on the Dnieper, the Wieprz and at Lublin.

THESE MEETINGS SHOULD BRING MANY TO THE COLORS

Fine Series Arranged For Rest of This Week in Saint John, Beginning Tonight

The clear weather assures a large attendance in the Seaman's Institute, Prince William street, tonight when that brilliant speaker, Rev. F. L. Carney, rector of St. Dunstan's Roman Catholic church, Fredericton, will speak to the men of St. John upon the empire's need for more soldiers to carry to a swift and glorious conclusion the onward rush which has only recently been inaugurated and which will require a steady flow of reinforcements to make finally effective. Rev. Father Carney has not spoken in St. John a considerable length of time and a very warm welcome is in store for him not only because of the nature of his visit, but on personal grounds as well, as his friends are legion in this city.

Rev. (Capt.) Thomas Harrison, formerly Presbyterian minister at St. George, will also speak tonight at the Seaman's Institute. He is already wearing khaki as chaplain of Colonel Campbell's 64th regiment under canvas in Sussex. Harrison is a Britanika of the dogged type and his former experiences in the king's uniform on the other side of the water and his present enthusiasm eminently fit him for the explanatory talking which he is so pleased to do to his fellow citizens at this time. Fred P. Panter will give musical selections at the recruiting meeting in the Seaman's Institute this evening and Harry C. Dunlop will be the accompanist.

Another meeting will be held this evening in Victoria park at which H. H. McLellan will preside and the speaker will be the Rev. G. F. Scovill of the West Side and Lt. Col. E. K. Armstrong, Col.

Armstrong will particularly explain the military operations now taking place on the western front and will also be ready to give inquirers any information they desire as to the rates of pay, indemnities, etc. Tomorrow, Thursday evening, J. T. Hawke, editor of the Moncton Transcript, will address another meeting in the Seaman's Institute. This well-known journalist is a splendid platform orator and with his wide newspaper grasp of the various phases of the great war, he will be a most interesting speaker. Dr. Silas Alward will preside at Mr. Hawke's meeting and another of his brothers, Sir Robert Bond, late Premier of Newfoundland, there will be a military officer address this meeting as well.

Plans are being made for another rally of men in Imperial Theatre next Sunday night. The management of the Keith, who has donated the use of the big auditorium for Sunday night recruiting meetings and the efforts which were last Sunday night's crowds entered into the singing and their rapt attention to the speakers indicates unmistakably what eminent success such meetings will naturally be under favorable weather conditions.

He arrived at Quebec on Sunday aboard the steamer "Scandinavia" on which there were 106 wounded soldiers returning home.

LOCAL NEWS

There is reason to believe that the 6th Mounted Rifles are still in England. A cable received from Douglas Holman of the Signalling Corps, on last Thursday, said that his brother Harry, who was with another unit had gone to France, but that there was no word of a movement so a movement has been received by relatives of men in the regiment.

A Boxxe Exaltis. Twenty men enlisted in Halifax on Monday for the 8th Battalion. Among them was Nelly McIntyre of Glace Bay, of whom the Chronicle writes: "Although but a very young boxer, Nelly McIntyre emulated the feat of his famous relative, Mickey McIntyre, known as the 'Pride of Cape Breton'. Nelly was seen at his best in his recent bout with Billy Mallen in the Arks. He endeavored himself to the hearts of the fans that night. He covered up beautifully and he had a tremendous right swing. His win over Mallen was clean cut and popular. He was a credit to his friends in Halifax, made for him through his clean, gentlemanly boxing. He has been joining in the boxing some time," said McIntyre. "Every time I heard one of my friends leaving I felt like jumping in to join them. I was backed out again. Something came over me. I listened to no speakers who were in the ring and I made the plunge. I am glad to be in."

Wounded Second Time. Relatives in Grand Manan of Royal O'Donnell, of the 1st Queensland Division, have just received word that he has been wounded but no details as to his wounds were given. Young O'Donnell had only returned to the firing line on the Gallipoli Peninsula a month ago, after having been wounded about three months previously in the early fighting in which the Australians were engaged with the Turks. As soon as he recovered from his wounds sufficiently to be able to write he sent word to his mother, who now resides in Boston, that he hoped to be able to get back to the trenches once again and a short time ago a letter was received saying that he had left to re-join his regiment.

Roy Johnston, the well known commercial man of Grand Manan who is a brother-in-law of young O'Donnell received word while in Fredericton, Monday, that this gallant young New Brunswicker had been wounded again. Six from Manners-Setton. There are six young men from the parish of Manners-Setton in the 55th Battalion, and each of them wearing a wrist watch, the gift of the people of that parish. The young men are: Privates James Robinson, Ernest Hunter, Cecil A. Swain, Benjamin Robinson, Grey Little and Willard N. Wilson.

The Great Drive. Word has been received by Kenneth C. Hill of Fredericton from his brother, Staff Sergeant Ovi White, who is with the First Division Ammunition Column somewhere in France, stating the belief that the allies' offensive drive which at the time of writing was under preparation and has now started in earnest is to be carried on until the allies are within the borders of Germany.

Among the officers who have received appointments to the 86th Battery of Field Artillery, recruited in Cape Breton and known as the Sydney Battery is Lieut. Justin K. McGrath, son of H. J. General Notes. Mrs. D. Cummings, 89 Forest street, has received a letter from her son Willie who is in France saying that he was well and had received parcels sent to him. The letter was received on Sept. 5. Italians in New Brunswick are leaving for Italy to join the colors before their classes of reserves are required to go. On Tuesday four recruits left Fredericton en route to New York to sail direct for Genoa or some other Italian port and included in the quartette was at least one young man not yet out of his teens.

Tragic? Yes! But that isn't all. The young husband left his wife almost penniless. He had been so healthy and vigorous, he thoughtlessly put off securing life assurance until—too late.

SIR SAN'S IDEAS ON RECRUITING METHODS

Ottawa, Sept. 28—Major General Sir San Hughes is evidently not a conscriptionist, nor is he, apparently, much in sympathy with those who publicly criticize others for not enlisting. The minister addressed a meeting at Merivale, a suburb of Ottawa, tonight and his remarks may be interpreted as being a criticism of the public meeting and singular methods of securing recruits.

"During the early Napoleonic wars," the general said in part, "recruiting throughout Great Britain and Ireland was slow. The sympathies of the British democracy had largely been with the cause of the French people, as against their autocratic rulers, and it had not yet dawned on the British that the tyrant of the Revolution was followed by a worse form under Bonaparte.

"Recruiting was at a standstill. Free gangs were capturing citizens off the streets—a rather drastic form of conscription. Spies were found at every corner arguing 'others' to go and fight." (The general emphasized the 'others').

The press and the pulpit did the same, but still recruiting was reduced to a minimum.

"Finally, Bobbie Burns came to the rescue—the democratic bard, the people's idol, the man who understood the human heart. He put the recruiting men, 'The Soldiers' Retainers,' and the ranks of the British army were filled as if by magic. Bobbie Burns' 'Soldiers' Retainers' was the cause. It was sung by recruiting sergeants in every corner of the empire, and many citizens yet living will remember hearing the old Peninsula War veteran telling of the magic effort of this song throughout the land."

The general concluded by reciting Burns' poem.

BLACKJACK CASHIER

IN NEW YORK STREET IN DAYLIGHT AND ROB HIM

New York, Sept. 28—One of the most daring of the numerous holdups in the last year occurred in New York on Saturday when three men sprang from an automobile to a crowded sidewalk, blackjacked Charles Fried, a cashier, until he was unconscious, robbed him of a cash containing several thousands in cash, jumped back into the automobile and sped away before an alarm could be given.

The robbery occurred in First avenue, between 28th and 29th streets. The street was thronged with men and women, but the robbery was carried out so rapidly that no one had time to attempt was to intercept the band.

AUSTRIANS SET FIRE ON THE LINER SANT ANNA

Naples, Sept. 28.—The commander and officers of the Fabre line steamer Sant Anna, which has arrived here from New York after having put in at the Azores Islands with fire in her cargo, declare they have collected indisputable evidence that the fire was set by five Austrian passengers who gave false names when they boarded the vessel.

Three of these passengers, it is asserted, have been arrested, while the others threaten themselves overboard and disappear.

BULGARIA. The report that the King of Bulgaria, upon the resignation of some of his ministers, has called upon a statesman who is a strong friend of Russia to form a new cabinet is significant if true. All the news from Bulgaria now shows a notable change of sentiment in that country. Sir Edward Grey's plain speaking in the British parliament yesterday must make it very clear to the Bulgarians that they have more to hope from victory by Britain and her Allies than from a German triumph, which would make Bulgaria in the end a vassal state of Germany.

SIR SAM'S PROWESS. If we may judge from a despatch sent out from Ottawa, and a report of a speech made by Sir Sam Hughes at Montreal, our minister of war does not altogether approve of trying to get recruits by holding public meetings and making speeches. So far as we can judge it would only be necessary for him to go over the country reciting The Soldier's Return by Robert Burns, and that million recruits which he has boasted would soon be in France. It may be that an attempt on the part of Sir Sam to recite a poem would fill his hearers with a yearning desire to get as far away as possible. Not having heard Sir Sam recite, it would be presumptuous to express an opinion. On the other hand, there are those who are disposed to assert that the war minister himself by his utterances is not giving very material assistance to the recruiting campaign.

THEM NEW WAREHOUSES. The almost childlike wonder and awe with which the Standard and Globe regard the movements and exploits of the Hon. J. D. Hazen must be a source of great joy to him. The Globe last night and the Standard for two days now, recited at great length the great warehouse achievement of the minister of marine and fisheries. It appears that Mr. Hazen, ever since early last spring, has been devoting large batches of very valuable time to the question of warehouses for St. John. As a result of his devotion and self-sacrifice he has finally discovered, on the eve of the opening of the winter steamship season, that St. John needs three more warehouses, or thereabouts. A similar discovery, it will be remembered, was made last fall, and there was a great rush to provide temporary accommodation. A similar rush is to be made this fall. It will at once be seen that but for the amazing foresight of Mr. Hazen the Canadian Pacific Railway Company, which itself has some reputation for that quality, and for having arrangements made to handle its business, might have been dumping whole train loads of merchandise into the snow at West St. John all winter because there was no warehouse accommodation. It is quite true that the construction of a wharf suggests also the construction of a warehouse. Indeed, such a thought appears to have been at one time in the mind of Mr. Hazen himself, for it was declared that all the new wharves were to be provided with new warehouses. It was not possible, however, to build a steel warehouse last fall in the time at the disposal of the contractors, nor will it be possible this

TWO BIG RALLIES THIS EVENING. Recruiting Meetings in Seaman's Institute and Victoria Rink—Seven Recruits Yesterday—Letters From the Front. Seven men were enrolled for service with the 64th Battalion here yesterday; George J. Clarke, Matthew J. Killora, Walter F. Dillon, H. A. G. Johnson, Bert Alcorn, and Wm. P. Stevens, all of this city, and Charles Beesley of Kings county. The recruiting committee meets regularly every evening to discuss ways and means of promoting the best interests of the campaign. At yesterday's meeting this evening's meeting at the Seaman's Institute was confirmed and tomorrow's at the same place. It was also decided that the Sunday evening meetings at the Imperial Theatre be continued through the generosity of W. H. Golding. Next Sunday the address will be given by Ven. Archbishop Raymond, D. THIS IRATE WIFE USED STRONG ARM

When She Caught Damsel Caring Husband—Young Woman Entered Suit

Montreal, Sept. 29.—The right of a wife to use strong arm tactics in an offending damsel whom she surprises in the act of caring her husband, has been laid down by Mr. Justice Guerin, in a case just disposed of before His Lordship.

Miss Marie Paul sued Dame Phillis Boudriault, and her husband, for \$1,000, alleging that her reputation had been injured to this extent by the fact that she had been forcibly ejected from the Boudriault premises by Mrs. Boudriault, in the presence of a large number of people. In the ejection process, she had turned a somersault, and as a result of injuries received in the gymnastic evolutions attendant upon her hasty exit, had been unable for a time to engage in her daily avocation—that of piano player in a moving picture show.

The proof showed that the male defendant kept a gaming house and lottery at No. 12 Lamoureux lane, and that the plaintiff was a frequent customer, purchasing lottery tickets and watching the drawings. On one occasion the proprietor's wife suddenly appeared on the scene and discovered Miss Paul in the act of caring her husband. The wife, becoming nervous, ordered the offending damsel to make herself conspicuous by reason of her absence and forbade her to come back. The next day, the wife on coming to bring her husband's dinner, was surprised to meet Miss Paul on the premises. Taking the law into her own hands, she ejected Miss Paul with such violence that the damsel broke all speed records by somersaulting down the stairs.

Mr. Justice Guerin reviewing the proceedings, and in returning after she had once been chased out, constituted grave fault, and formed the occasion of the punishment which she had received at the hands of the irate wife. Anyways the bodily injuries received were so slight that the court did not need to take them into account; whilst the damage to her credit and reputation were non-existent.

On the other hand, the defendant was exploiting an illegal business, and the plaintiff, in visiting the gaming house, for many years, and conducted such illegal establishment, was guilty of a crime, and with the assistance of his wife. Under the circumstances it was held in the interests of justice for the court to favor either of the parties. Hence both were ordered to be put out of court.

NEW LAW SCHOOL FOR WOMEN ONLY OPENED

Cambridge, Mass., Sept. 29.—The first graduate law school in America devoted exclusively to women will be opened here this fall with Professor Joseph H. Beale, of the Harvard Law School, in charge. The new school is to be called the Cambridge Law School for Women, and the lectures will be delivered in classrooms provided by Radcliffe College.

The organization is the result of an attempt of a group of Radcliffe seniors, headed by Miss Elizabeth C. Beale, the professor's daughter, to persuade President Lowell and the board of overseers to admit them into the Harvard Law School. The Harvard authorities were solidly against this proposition, and the Beale then prevailed on her father to organize a new school.

Professor Beale will lecture on torts, criminal law, and principles of legal liability. His assistants will include Gustavus H. Robinson, of Chester A. Mott, and Whitney H. Shepardson. Harvard modes of teachers and case books will be used in the new school.

TRUE BILLS IN THREE CASES

The grand jury yesterday afternoon returned true bills in the cases of the King vs. Romley, the King vs. Thomas, and the King vs. Daigle, and no bill in the case of the King vs. Myer Gordon.

The grand jury found a true bill against Marselline Thibideau for concealing birth and not having medical aid, but no bill on the charge of murder.

Albert Daigle was arraigned and pleaded guilty to escaping from the chain gang. He was remanded for sentence.

McCormick vs. Leonard.

Argument was heard before Chief Justice McLeod yesterday afternoon in the case of McCormick vs. Leonard in which a dispute arises over a farm on Kennebecas Island. Dr. R. J. Quigley, R. C. and M. G. T. are for the plaintiff, and D. Mullin, K. C. and J. H. A. L. Fairweather for the defendant.

RECENT WEDDINGS

A marriage of much interest to St. John friends of the bride, was solemnized in New York Sept. 1, when Miss Florence Louise Dodd, daughter of Mrs. Noah Dodd, of the North End, was united in marriage to Dr. Alexander Ross, of Camden, New Jersey. The bride was head nurse in Cooper Hospital, Camden, and among the many gifts received were handsome presents of mahogany, cut glass and silver from members of the medical and nursing staff. The wedding was quietly celebrated, owing to the death of the bride's father.

Miss Cora E. Hunt, of Annapolis Ridge, N. B., was united in marriage to Robert F. Pickett, of Somerville, Mass., on Wednesday, September 22. The ceremony took place at the home of the bride's parents, after which the young couple left for Boston. Rev. Milton Addison officiated at the ceremony.

CAPTAIN BERNIER

BACK FROM ARCTIC

Only Casualty Was Loss of a German—Knew Nothing of War Until Spring—Sailed in July 1914

Quebec, Sept. 29.—Capt. Joseph Bernier, Canadian Arctic explorer, has arrived here on his vessel, the Galda, after a successful trip to the new land he discovered in the north, known as Baffin Island, and which in 1916 will be recognized as a Canadian possession. This newly-discovered land, which is located in the Arctic archipelago, about 20,000 miles from this port, comprises 600,000 acres of territory, as extensive as France and Italy combined. The only casualty reported by Capt. Bernier on his arrival here was the loss of one of his crew, a German, who, while taking photos on the islands, wandered too far away from the ship and was blown away by a search party sent out by Capt. Bernier. "It was only by mere luck," said the captain, "that the body was recovered, for had it not been for the wind clearing the snow from the form after the unfortunate man had been lying some time, we would never have recovered his body."

When Capt. Bernier and his crew set sail on the Galda, for the north, the war was not on, and men of all nationalities looked alike to the hardy Canadian explorer, who learned only last month of the stirring events of the time. It was July 4, 1914, that the party set sail from Quebec. Letters and newspapers received last month informed the captain that the war had broken out in the biggest war in history. Up to then

NO tidings from the civilized world were at hand.

The voyage to Baffin Islands occupied fifty-eight days, twenty-five of which were spent within sight of the islands, but, due to ice conditions, they were unable to effect a landing.

The Guide on leaving here went through the Straits of Belle Isle to Greenland. Of Button Point a bear was encountered, which Capt. Bernier shot unassisted. On reaching the station in the north, Captain Bernier found everything satisfactory and the Eskimos as happy and as eager to trade as ever. The average temperature from February to July is thirty degrees below zero. On the journey north the Guide brought the customary articles from Canada, of which the Eskimos stand most in need, and in exchange the Canadian explorer received some 200 beaver skins and a considerable quantity of seal and blue fox skins, walrus skins and tusks, special boots and suits made by the natives from these furs. A considerable portion of these skins were from animals captured in numerous caches which Capt. Bernier has at Medville Island, Port Leopold and other points in the north.

Altogether the trip was a successful one in every respect, and brings to a close Capt. Bernier's fifth year of life on the water. Feeling in the best of spirits, and looking a much younger and able-bodied seaman, Capt. Bernier's hope of outdoing his grandfather's record of half a century of sea life seems likely to be accomplished.

BIG CUT IN SALARIES FOR HOCKEY PLAYERS

The National Hockey Association will carry out their usual schedule of games this winter, but there will be a big cut in the salaries paid the players. Such was the agreement reached by the players. While the salary limit was not improved, the association will likely donate to one of the patriotic funds at the end of the season.

The same six clubs that played last winter will again form the league this coming season. T. Emmett Quinn was also elected president of the association while Frank Calder will again act as secretary.

HALF A BILLION LOAN TO ALLIES

Details of Anglo-French Loan Arranged ISSU: PRICE TO PUBLIC 98 Redeemable in Five Years With Privilege of Conversion to Long Term Bonds at 4% Per Cent —Tax Exempt in Britain and France

New York, Sept. 28.—The agreement between the Anglo-French financial commission and the American bankers with whom they have been conferring over the proposed credit loan to Great Britain and France, has resulted in the formation of a definite plan, it was officially announced here tonight, for the establishment of a \$500,000,000 loan issue of five year five per cent. joint British and French bonds, payable jointly and severally by the two nations, upon which the big loan will be first lien.

The bonds will be issued to the public at 98 plus a commission of one-half per cent. to the investor, and to the nation-wide syndicate of bankers which will subscribe to the loan at 96. Formation of the syndicate has been left to J. P. Morgan & Company and a large group of American bankers and financial houses.

The bonds will be issued in denominations as low as \$100, and to all subscribers may pay for them by installment. At maturity these bonds will be repayable in cash, or convertible into four and one-half per cent. joint Anglo-French bonds redeemable from ten to twenty years thereafter by the two governments jointly and severally.

The interests of the small investor also consulted in the decision, which the commissioners have arrived at, is that these bonds in denominations as low as \$100, and to all subscribers to make installment payments for the loan. It is to be noted that, as the commission has stated, this is an advance step, free from all present or future English and French taxes.

To bring the great offering of the largest of its kind ever placed in the United States—before investors throughout the entire world, the country will be divided into districts or zones, and to each district there will be delegated a sub-committee of the syndicate managers, composed of the subscribing banks and trust companies within the district.

These sub-committees will work simultaneously, and will report to the general syndicate managers, who will report to the issuer. The five-year bonds, principal and interest will be payable in New York City. In other words, this detail, with many others, is yet to be decided upon. The order, however, to comply with regulations of the New York Stock Exchange, New York City will be designated as the place of payment upon maturity.

How much of the \$500,000,000 obtained here is to go to the credit of France and how much for the credit of England were not divulged. "When two great nations joined in an undertaking of this sort it is only fair to assume that they come in on equal terms," was the comment of one banker familiar with the proceedings.

Three important factors enter into the big \$500,000,000 Patriotic Auction to be held next week in St. Andrew's and the other two are quality, quantity, variety. All three are comprised in the great variety of merchandise now being received and in the way those who have not yet sent in their gifts, should do so as soon as possible, today if they can. Volunteers will be present every day this week, from morning till night, two desks to receive donations and in order that all the goods may be properly displayed, assorted and classified into different departments now being arranged it is necessary that intending donors should make delivery at once. QUALITY, QUANTITY, VARIETY

All Three Comprised in Goods Given For \$50,000 Patriotic Auction to Open on Monday—Donations Should Be Sent in at Once

There is nothing mean about the donations. Everything that has been given has commercial value. Practically all the goods are new and fresh, and whatever articles of furniture have been given cannot be said really to be second class, for they are in too good a condition. The goods donated by merchants from their stock-in-trade, from manufacturers from all classes in fact are the best obtainable. The goods are stamped with the names of standard makers recognized and famed throughout the world for the reliability of their wares.

A mere perfunctory glance at the lengthy list of contributions will cause a realization of the fact that it will please the auctioneers busy with their offerings and the crowds busy with their purchases. In order that all of the great quantities of goods now coming in may be disposed of within the allotted time, several auctioneers will be occupied at once, that bidding will be general, and that a large staff of helpers will be on hand to aid in the registration of the sales, delivery and the question of payment.

Abundance of Everything WILL ERRECT A MILL (Frederick Glenier) Frasers, Limited, will start upon the erection of a new mill on the site of the Lynch estate mill at Nelson, across the Miramichi river from Newcastle, this fall.

This statement was made to the Glenier this morning by Mr. Donald Fraser, the only member of the firm in Fredericton today. Mr. Fraser, however, declined to discuss details in connection with the new mill further than to state that work would not be delayed until next spring.

It is said, however, that the Fraser concern plan to expend between \$60,000 and \$100,000 on the new plant, which will probably have a capacity equal to that of the Victoria Mills in this city where a million feet of logs can be manufactured every two weeks. An equipment of hand saws will be installed in the new mill.

ROCKEFELLER JR. AS A GOOD FELLOW

Dances With Wives of Colorado Workers DOING MISSIONARY WORK Millionaire Owner of Mines on the Scene of Strike Riots at a Few Months Ago

John D. Rockefeller, Jr., at Cameron, Colorado, the other night, marched in a parade given in his honor by hundreds of coal miners, headed by a band. Then he attended an entertainment in the school house where he sat through most of the programme holding the sleepy baby of a Hungarian, which he finally made a speech, which ended with a request for an "old-fashioned dance."

My wife is two thousand miles away," he said, "and I feel like having some fun." The chairs were removed and the miners' orchestra struck up "Tipperary." Mr. Rockefeller met the prettiest girl in the room and started dancing. The millionaire danced for more than two hours with the wives, sisters and sweethearts of the miners, representing fully a dozen nationalities.

The millionaire took part in the miners' street parade off the impulse of the moment. He was told there was going to be a parade to escort him to the school house. Mr. Rockefeller suddenly noticed that the reporters were in the parade. "Here, that's not fair," he shouted. "Let me in on that, too."

He jumped out of his car and took his place at the head of the marchers, directly behind the band. He caught a huge Irish miner by the sleeve and pulled the man into line beside himself. "Here, keep step with me," he commanded. "Put up like the rest of them. That's it."

At the entertainment one of the small children belonging to a Hungarian woman sitting near Mr. Rockefeller, became sleepy. "The woman took her hands to the child to manage the youngster. The millionaire reached over and lifted the child to his lap, where she slept peacefully for some time.

During the stay at Lester, Mr. Rockefeller had the most amusing experience of the entire trip. He met and shook hands with two negro miners. One of the negroes held the millionaire's hand and pumped it vigorously while he let out a loud exclamation. "Now is dat so, you all here shaking hands with a black boy like me? Can you best dat. Man, ain't you got a crust now? Jes' hear dat. De only white man here is Mr. Rockefeller, de darkey went on. 'I wants to know, sah, when de gint'ers get in on de parson I do.' 'Well, I desers a parson, sah, 'deed I do.' 'You all on de parson list mysef yet, William?' 'Yes,' argued Hood, 'but you all ain't doin' no laborous labor.'

"How about that deal I loaned you when you were in Public last week? Bill? Spoke up Manager Wilford, of the fuel department. "It makes no difference what I done to you all. It's I'es genter be able to do er Mr. Rockefeller's."

An English soldier went into a shop in one of the French towns behind the front to buy a box of matches. The Englishman with the gesture of striking a match to make his meaning clear, the Frenchman, who knew no English, heard only two words which were familiar to him—"Match" and "box." He interpreted the gesture of striking and lighting a pipe as an illustration of some new English form of putting oneself on guard in the face of a French-speaking English officer who came along interpose to stop the fight. The small misunderstanding was at once explained and the soldier after shaking hands departed with a free present of the kind of match that he had come for—French Army Bullfinch.

SUCCESSFUL METHOD OF DEFENDING PARIS

Monoplane is Handed at Hun Airship and Pilot Drops in Parachute—Ground Flares Give Light

London, Sept. 28.—The successful methods employed in defending Paris from aerial attack, invented by a French aviator named Pégoud, who met death in a mid-air duel, have been made public. A monoplane was used to attack a German airship, and the air above it was patrolled by tracer balloons. A German airship crossing the zone of light is instantly attacked from above, in the following manner: A French monoplane pilot enters a parachute attached to the tail boom of his monoplane. He then directs his machine with locked controls, so that it dives nose-first and at full speed into the Hun airship, while the pilot meanwhile descends with the aid of the parachute.

Moreault, fourteen years old, of Lowell, and Louis LaBrie, eleven, of the same city, who admitted they were on their way to fight in the army of the allies, in France, were intercepted here in their flight to Europe by Patrolman Farrell. Each boy had a loaded revolver and they also had a total of \$8.86, all in cents. How to Wave Hair to Appear Naturally Curly

You won't need to resort to the parlor, nor will you need to use any special hair cream. All you need is a little liquid solution which you will apply to your hair. It will impart a delightful appearance and a bright lustre suggestive of "hidden sunshine" as the hair is seen in the morning. Instead of making it brittle and dead-looking as the hot iron does. It is easy to do up in any form, and there will be no untidy odor, grease or sticky stuff about the hair. I would suggest that you ask your druggist for the liquid solution—four or five ounces—which will require no rinsing and you can pour a little into a saucer when required. You won't need to use this at frequent intervals, by the way, because the curliness lasts many days.—Bouty Cousine in Hygienic Review.

DAVIDSON COMMISSION TO PROBE PURCHASE OF THE TWO SUBMARINES

Seattle, Wash., Sept. 29.—The Sir Charles Davidson commission arrived here last night from Ottawa to investigate alleged irregularities in the purchase of war munitions. They will go to Victoria, B.C., today to continue their inquiries. One of the subjects to be investigated, according to reports, is the British Columbia purchase of two submarines built by a Seattle firm for the government of Chile. The submarines were sold to British Columbia instead of Chile for \$1,150,000, said to have been an increase of \$150,000 over the price the builders were to have received from the South American government. British Columbia turned them over to the Canadian government.

ST. JOHN AND THE LOAN

According to the opinion of a local banker and broker, St. John people are not likely to be greatly interested in the new Anglo-French-American loan. While the rate of interest is high for government securities, he said that the present investment possibilities do not make it so attractive as it might be at other times.

'I feel I could go out into the street and tell everybody I meet about Dr. Cassell's Tablets,' exclaims Mr. Wooding, of 82, The Green, Belgrave, Leicester, England, and who can wonder at her enthusiasm? 'I think of a mother who, believing her child doomed, by chance finds a remedy which restores health abounding and complete. Mrs. Wooding continued: 'To me it is a marvel that any medicine could act as these tablets did act, for my child was to all appearances beyond hope of recovery. The beginning of the trouble was an attack of measles about a year ago. My other children who had the complaint got over it all right, but Henry was left with stomach trouble, which no treatment I tried could relieve. Poor child! he could not keep anything at all on his stomach. We had advice, of course, and did all that was possible, but no relief followed. Whatever we gave him returned. We took milk and lime water, but even that came back and to add to his suffering got me some. I shall never cease to be grateful for the result I began to mend almost at once. Slowly my strength returned. I brightened up, got an appetite, it was one night while I was sitting up with him that I read about Dr. Cassell's Tablets. Next day I got some and the result was so good that I thought I had found a real remedy. Soon my child began to eat, and rapidly he grew well and strong. Now he is as healthy as a horse and his life is a blessing to me.' BRITAIN'S GREATEST REMEDY Popularity Now World-Wide. Cures like these only tend to emphasize the power of Dr. Cassell's Tablets to cure Nerve and Bodily Weakness in young and old, and prove that no case should be considered hopeless until this remedy has been tried. THE KENNEL. Alreade Sold for Over \$1,000. New York, Sept. 28.—The Alreade terrier Patrick O'Garra, after the Asbury Park show, on last Thursday, when the kennels of his new owner, Martin S. Baldwin, of New York, Patrick O'Garra was sold by Andrew Albright, Jr., of Newark, N. J., last week to the proprietor of the Coo Cob kennels for more than \$1,000. It is known that \$1,000 had been refused for this imported dog. Although Patrick O'Garra was far below his form and condition, he won the mayor's cup at Asbury Park, offered for the best dog or bitch of any breed.

Refusal of City to Allow Wooden Stands in Stadium May Mean Shift of Football Battle. Boston, Sept. 28.—An offer of the free use of the Braves' field, the home grounds of the Boston National League Baseball team for the annual football game between Harvard and Yale on November 20 was made on Tuesday to Fred W. Moore, graduate manager of the Harvard Athletic Association by James E. Gaffney, president of the Boston club.

It became known that there was a possibility that the football contest might not be staged in the Harvard stadium owing to the withholding by the city authorities of permits to erect temporary wooden stands which would increase the seating capacity of 22,000 to more than 40,000. Braves' field has a seating accommodation for 45,000.

It had been suggested that if the erection of the temporary stands was not allowed the game might be played in the Yale bowl at New Haven. Last year's game was at New Haven and under the alternating arrangement this season's game was to have been played here.

The building commissioner stipulates that concrete fireproof stands be built and the Harvard athletic authorities declare there is not time for such construction.

BILLETING IN RURAL DISTRICTS. Recruits May Be Allowed to Stay in Own District. SYSTEM FOR FUTURE CALLS. Expected That New Order Will Stimulate Enlisting in Country Sections - Has Been Tried in Ontario.

Hitherto the recruiting for the Canadian contingents has been mostly done at large centres and for the recruiting of the 100,000 Canadian troops at present under arms, the larger centres are responsible. In case more men are called for within a short time it is understood that a better opportunity will be given for those living in the rural districts to enlist. For this purpose the system of billeting will be introduced.

At the meeting of the board of directors of the Y. M. C. A. last night, it was decided to devote all the energy of organization to assist those who desire to enlist but do not measure up to the requirements. A policy of physical, educational, social and moral training was adopted, and henceforth the aim of the institution will be to make better men. This is a big bit which is being undertaken, now that the need of them is so pressing.

F. A. Dykeman, president, occupied the chair, and there were present H. W. Rising, W. C. Cross, Chas. Robinson, G. E. Barbour, George A. Henderson, F. C. Smith and T. H. Hutchinson, general secretary. Reports were read from the various committees. A programme was outlined for the coming season and it was arranged that the formal opening should take place on Friday, Oct. 8.

In the physical department, reports were submitted and details were discussed for helping those who want to enlist for overseas service but are not physically fit.

When the first call came for 20,000 men 88,000 were sent overseas and when the second call came to increase the number to 150,000, and a third call to increase it to 110,000 and a fourth call to increase it to 100,000 the best type of fit.

There is a good deal of wholesome comedy in the make-up of this production. It is a case of mixed-up bedrooms, and some very funny situations are shown.

The Man In The Street
A photograph of the Kaiser taken today would probably show an expression of extreme surprise on the august countenance. Perhaps we should have said September countenance.
The Canadians may have missed some glory by not being in the big fight this week but there will be enough for everybody before this scrap is over.
The Germans are bragging about their financial strength while forcing a few more millions from Belgium. Do they need the money, or merely want it?
The "Nationalists," a new political party in the United States, promise loans to the people at two per cent. The Anglo-French commission may be expected to root for that party.
"The Allies captured 300 officers at Champagne," says news headline. Now, maybe Mr. Bryan and the W. C. T. U. won't rejoice!

The hearty manner in which school teachers are volunteering for service overseas, suggests that they may have in mind the "teaching of the young idea to shoot."
\$50,000 in a week? If you haven't yet sent in your donation to the patriotic auction, why not do it now?
Now the call has come to Greek residents in Canada. Probably some are looking forward to an opportunity to fight.
And no doubt where some of them return they will be advertising "submarine shiners"—the kind that won't wear off in water.
The Walking is Good, But—
To the Man in the Street—
Dear Sir—Although physicians tell us that walking is one of the best forms of exercise, there are times when, no matter how tempted we may be to follow their advice, the hands of the clock warn against it. The fellow who has to be to work at a certain hour does not find it possible always to walk, but if Commissioner Potts feels any pride at the fact, he may be happy in the knowledge that since he laid his boulevard over the car tracks in Main street, he has caused walking to be more popular than ever before with many who have been accustomed to "saw-stay-when-possible."

Perhaps the street railway company may excuse their delay in re-opening the Indian town service on the ground that the exercise is good for the young men who are planning to enlist.
It will take cash as well as goods to make the patriotic auction a success. Have St. John people the money to bid in all the contributions? Well, rather!
Almost time for some one to ask again if Turkey will be ready for carving by Thanksgiving Day.
Bulgaria edges back a bit from the brink. The water looked just a little too chilly after a close inspection.
Rather a paradox, isn't it? If Bulgaria had plunged over the brink she would have been in hot water by this time.

TRUE BILLS IN THREE CASES
The grand jury in the circuit court this morning returned true bills against three defendants in the cases of the King vs Sydney Hartt and Margaret Hazelwood charged with bigamy, and Charles Stackhouse charged with theft.
The trial of the case of the King vs Thomas was commenced this morning before Mr. Justice Barry and the following jury: Fred Selby, William Crabb, William Clark, George M. Clark, Harry Coleman, William N. McDonald, James A. Garnet, Frank C. Spittel, W. O. Dunham, Sydney C. Young, Charles B. Ward and Fred Watson.
The complainant, Lillian Gray, a girl alleged to be under the age of four years of age, and Ross Woodrow gave evidence this morning. The case will be continued this afternoon. Attorney-General is prosecuting while K. A. Wilson appears for the defence.

Bring Results
Manufacturers should be interested in the experience of one of the great corset manufacturers.
He says:
"The obvious purpose of national corset advertising is to bring trade to the local retailer. Make a canvass of the retailers in New York or Knoxville, in Chicago, or Kankakee, and it's a safe bet that 100 per cent. will urge the use of the local daily newspaper in preference to all other mediums."
"And that's a conclusive test. The local dealer knows what brings results to him."
Does not the same principle apply to any other good product?

ST. JOHN SOLDIER IN TRIBUTE TO THE RED CROSS WORK
Gunner Storey Writes From Hospital in Kent, England
ALL IS VOLUNTARY AID
Describes Comfortable Surroundings Provided For Wounded Soldiers and What the Great Work the Nurses Are Doing
Voluntary Red Cross Aid Hospital, Rolvenden, Kent, Sept. 10, '15.

Dear Sir—Just a few lines in praise of the good work the Red Cross Society is doing for the wounded and convalescent soldiers in England. Taking my case. I have had to undergo an operation and am now resting in one of these Red Cross Hospitals, about thirty miles from Shorncliffe. You cannot imagine a more beautiful spot. It is situated amid green fields and trees, making at a distance look a perfect picture, with nurses, with big red crosses on their aprons, gliding here and there. These nurses leave their own homes every day to come and attend to the sick boys and never come without a smile which stays the whole day. The hospital is very well equipped inside but, the main thing, it is clean and airy, and flowers, which there are hundreds of every kind, perfume the air. All this, combined with the nice warm sunny days, makes this place like a beautiful dream.
A party of us, including another St. John boy, belonging to the P. A. C., left Shorncliffe one fine afternoon for our destination, which was this hospital. We left in big automobiles and we went along winding roads amid beautiful scenery. We are all bed patients, all having gone under operations for various causes. I had also contracted rheumatism and was not feeling very well. The kind of the smiling nurses (and the luxurious grounds for tennis, bowling, ever chased away all sickness, and I forget my pain. We all felt like getting up and doing the beautiful sights.
Just a word about the origin of these hospitals. In the first place, they are all voluntary; everything in the wards was given by the residents of the nearby towns. They were started about three years ago, prices being given to the corps which were the best equipped. Camps were mobilized for training purposes for two weeks every year and inspected by authorities from the War Office.
On October 21, 1914, 6000 Belgian wounded were landed at Folkestone. It was intended they should be landed at Southampton, but, owing to certain reasons, they had to put into Folkestone. The government sent orders to several of the V. A. Hospital Corps to mobilize and command any building which could be turned into a hospital, and have it ready within six hours to receive wounded soldiers. There were at that time about 250 of these organizations in England and fifty of them were in Kent. These bands of faithful women accordingly got to work, scrubbed, cleaned and turned these buildings inside out and got them ready and within the specified time 4000 Belgian soldiers were under the care of the Red Cross Society.
Today there are in England alone 8,000 of these hospitals and an army of women volunteering their services to help relieve the suffering of the soldiers. It is a mighty work, seeing they have to depend upon public subscriptions to buy medicine and heat the rooms. One cannot realize fully the good work these hospitals do till they get into one and are nursed to health with untiring attention. Many of our Canadian boys are enjoying the comforts these homelike hospitals afford. Especially this one, as it is given over especially to Canadians. A doctor attends us every day and for his bit he walks three miles every day to give his voluntary service.
Who would not fight for a country like this? The people are enthusiastic to do their part for the wounded and sick, patient and so kind. We will soon be up and around the grounds, but there are pleasures inside as well as outside. We have at our disposal a piano, gramophone, billiard table, games of all kinds, plenty of reading, and for those who can not walk, automobiles are at their disposal and all of this the Red Cross have brought about. At first they received lots of criticism, but since the war their critics have had to find something else to criticize. The Belgians have shown their fine art for drawing by the beautiful drawings and paintings they have made and donated to the hospital. We are very comfortable here and hope it won't be long ere we are nursed back to strength. Hoping this finds you alright, from

CHOOSE FORMER ST. JOHN PASTOR FIELD SECRETARY OF ANTI-SALOON LEAGUE
A Rensselaer, Indiana paper, publishes the following relative to a former St. John minister—
"Rev. G. W. Titus, pastor of the Christian church, has been elected to the position of field secretary of the Anti-Saloon League of Indiana. This call to the temperance work of the state is a compliment to the ability of the Rensselaer pastor. The executive committee has been looking over the state for some months to find the best man for this position from the Christian denomination. Rev. Mr. Titus was highly recommended by prominent men and State Superintendent Shumaker, after consulting with Rev. Mr. Titus, finally decided to recommend him to the state trustees of the Anti-Saloon League for this position.
"This is a very fine position and if Rev. Mr. Titus takes up this work it will take him all over the state, as he will present the cause of temperance every Sunday in some church and during the year will visit more than fifty towns and cities in Indiana."
