HAS PROOF POSITIVE, SAYS BURNS

Detective, in Montreal, Speaks of The Los Angeles Dynamiting Case

HAS BEEN THREATENED

Whether he is Put Out of the Way or Not, He Asserts, There is Unanswerable Evidence to Confront McNamara

(Canadian Press) Montreal, May 6.—That proof positive will be offered to show that J. J. McNamara, secretary of the Structural Iron Workers of America, directed the operations of the dynamite which blew up the Los Angeles Times building and committed many other similar outrages, is the declaration of Detective William J. Burns, who accomplished the spectacular arrests of the men charged with the act which caused the loss of twenty-one lives. "We can prove McNamara's connection with numerous dynamiting outrages throughout the country, and we can also prove conclusively and certainly that J. McNamara directed these men in their criminal work and paid them for it. Whether or not these friends manage to put me out of the way, as they threaten to do, the evidence exists to confront them unanswerably at their trial," Burns declared last night. "When the trial is over," he said, "there will be no question in the public mind as to the rights of the case. This will be no repetition of the Idaho case, and it will be conducted in an orderly manner and the prisoners will be given every opportunity to prove their innocence, but the evidence against them is overwhelming." Mr. Burns refused to say whether or not there was any evidence pointing to men higher up in the structural iron workers being concerned, but said there was every indication that McNamara was working in the interests of that association.

HON. WM. PUGSLEY'S MESSAGE TO THE PEOPLE OF ST. JOHN

The Advantages New Brunswick Will Derive from Reciprocity—The Minister Points Out the Directions in Which This Province Will Gain From the Agreement—A Reference to Monday Night's Meeting

The following was received this morning from the Minister of Public Works, and will be read with keen interest throughout this city and province, in view of the reciprocity meetings about to be held here and in other places in New Brunswick. "I would have accompanied Mr. Guthrie and friends so as to be at the meeting on Monday evening, but my official duties absolutely prevent my leaving here at present. "I confidently rely on my fellow citizens giving the speakers a good reception. Reciprocity should be popular in St. John and throughout New Brunswick, which have so much to gain, and nothing to lose, by improved trade relations with our neighbors across the line. "While the negotiations were in progress I had many conferences with Messrs. Fielding and Paterson, and, in considering what would be of especial benefit to my province, I urged that we should secure free fish, the free admission of sawn lumber, the reduction of the duty on laths and shingles, the free admission of cattle, horses, lambs and poultry, also farm products, and the reduction of duty on building stone and lime, and the free admission of gypsum. "All these have been granted except as to lime on which the United States duty is at present less than the Canadian. "The making of sawn lumber free is of especial importance to New Brunswick, and St. John has an additional interest in this because the Payne-Admiral tariff of the Pike law is repealed, the repealing clause to go into effect next year when the privilege, which United States citizens have enjoyed for half a century, of manufacturing in St. John lumber from logs cut in Maine and sending it to the United States free of duty, will cease if reciprocity is not carried. "WILLIAM PUGSLEY."

Another Great Victory. Ottawa, May 6.—(Very Special)—The Laurier government is besting again. The West, shared the honors with these veterans, while Private Foster and Powell of Tantramar did yeoman service in pursuit of the foe. It was really not a fight, but a rout. The Laurier forces never had the shadow of a chance. They were out-generalled from the moment they formed his line of battle. At the moment when it seemed that Sir Wilfrid might make some show of rallying, his demoralized troops, Sir Gen. Hazen with great presence of mind hurled Major General's McGee and Rogers against his centre, and the impact was so terrible that the foe were seized with panic and fled in all directions. All their baggage and equipment fell into the hands of the victors. At 1 a. m. Gen. Borden was making out his list of heroes as he presented to His Majesty through Earl Grey for special recognition. The country is safe. The period of boogymen and terrorists from which this Canada of ours has suffered has been terminated amid the clamorous rejoicings of an enthusiastic populace. Laurier is believed to have fled to Washington or London.

ANOTHER WHITE MAN'S HOPE IS SHATTERED

Al. Kaufman is Knocked Out By Flynn of Pueblo—Coulton and Forbes

(Canadian Press)

Kansas City, Mo., May 6.—With a hard right swing to the jaw, Jim Flynn of Pueblo, Colo., knocked out Al Kaufman of San Francisco, in the tenth round of their fight here last night, thus setting another "white man's hope" at naught. Flynn floored the California giant eight times, and three times Kaufman took the count of nine. The knockout came a minute before the scheduled time for the end of the fight. Kaufman was a pitiable sight. His left eye was closed in the third and at the end was bleeding, and the crimson streamed from his mouth, while his face was a mass of bruises. Flynn's face was swollen, but otherwise he appeared unhurt. Chicago, May 6.—Johnny Coulton of Chicago, former champion, and Harry Forbes, former champion, last night were matched to box ten rounds before a Toronto Club on May 10. The weight agreed on is 148 pounds at 6 o'clock on the day of the contest.

QUEEN PUTS THE BAN ON THE HOBBLE

No Tight Skirts to be Allowed in The Royal Enclosure

(Canadian Press)

London, May 6.—Queen Mary's objection to extreme fashions is likely to have a marked effect upon the costumes at society functions. It is understood an official order is about to be issued prohibiting the wearing of tight skirts in the royal enclosure. The moving of the second reading of the women's enfranchisement bill in the House of Commons yesterday was celebrated last night at enthusiastic meetings of the suffragettes. Christabel Pankhurst told a crowded gathering in Kensington that they must fill the lobbies of parliament with suffragettes until the bill was carried. They must not shrink from any sort of political pressure. A resolution that the premier facilitate the enactment of the bill at the current session was carried with acclamation. At another meeting Dr. Martin pointed out that the conciliation bill in 1910 passed the second reading by a majority of two to one, whereas the majority yesterday was three to one.

Inhalas Gas in Cheap Room He Occupied in New York—Lost Sweatshirt in Long Ago

New York, May 6.—Unable to marry the girl he loved because he had wealth, Duncan J. MacRae, an architect, determined 50 years ago to devote his life to making money. He accumulated a fortune. By shrewd dealing and denying himself he could not be dispelled even by the thought of the girl he worshipped. He was found dead this week in his dirty little room at 23 Dominick street. A rubber tube leading from his neck to a lamp in the room, had been fastened to his neck. The police discovered a trunk full of old letters. One was from Herbert L. Satterlee, lawyer, of New York, who had written MacRae a letter of advice. MacRae had a balance of \$112,388 at his office. MacRae had left no note. The police discovered a trunk full of old letters. The damage is slight. "After he told me he owned stock in the street trust Tobacco trust, I know he must have left a large sum. He told me he had a nephew, but never spoke of any other relatives."

QUEEN MARY SEEKS TO SAVE GIRLS FROM CORONATION STRESS

London, May 6.—A deputation from various women's societies waited on Mr. Masterman, under secretary for the home department, to lodge a protest against dress-makers being allowed to keep their customers for longer hours each day during May and June in view of the extra work for the coronation. It is known that Queen Mary has already requested at least one London firm to invite their customers to order their dresses early. Her desire is that the girls should not be employed overtime for the coronation. Her Majesty's kind thoughts for the girls might well be emulated by other women. It would be regrettable if a time of national rejoicing should entail the overworking of thousands of people. Further more, a little forethought on the part of employers would prevent this being done to any very great extent. The ladies who spoke for the deputation made a great point of the example of her majesty, and Mr. Masterman was strongly impressed by what was said. He promised to go into the matter fully, and pointed out that the order had been issued and would not have the effect which was feared, as was stated in the House of Commons. He did not work to be between 9 a. m. and 9 p. m. would be taken advantage of by the great majority of firms. If it was found that the statements were true the order would be confirmed.

THE WHITE PLAGUE HAS STRONG GRIP IN MONTREAL

Alarming Report is Presented to Board of Control By Dr. Laberge

Montreal, May 6—The alarming spread of tuberculosis in Montreal is the subject of a report to the board of control by Dr. J. E. Laberge. The doctor states that 64 per cent. deaths are recorded; and further, there are probably 2,000 cases of tuberculosis in the city at present. The report states that the plague is increasing rapidly, and that hundreds of tuberculosis patients are circulating in the streets, spreading the disease.

The white plague, he says, is as bad as the black plague. During the four months of this year, there were 201 cases reported to the civic board of health, and this represents only a fraction of the number of cases. In the same period there were 32 deaths.

In January there were 65 cases, and 70 deaths; in February, 98 cases and 55 deaths; in March, 132 cases and 60 deaths; in April 124 cases and 99 deaths. Thus the number of cases is increasing rapidly, and Dr. Laberge fears that a very active campaign must be launched against the white plague before it injures irreparably the population.

Dr. H. D. Fritz has moved to 23 Welington Row, 404-5-8.

Blood must be in good condition at this season of the year. Hawker's Nerve & Stomach Tonic will tone up the system. Mrs. Olin Bortwick wishes to thank her many friends, especially Dr. Jinkens, for their kindness to her in her sad bereavement.

The Shaving Days. The seven or eight shavers at the head of Courtney Bay were a source of great annoyance to the community. They were thousands of mechanics emerge from the various yards at the dinner hour. Wages were low and hours were long. The men went to work at 6 a. m. and worked two hours before breakfast, went back and worked till noon; after dinner worked from one o'clock to six. Carpenters got from 81 to 81.50; other mechanics from 60 cents to \$1.20 according to skill. On the other hand living was cheap. Eggs sometimes sold in the market as low as 10 cents a dozen. Butter 12 cents a pound, corn beef at 3 cents a pound, hams at 5 and 6 cents a pound. There has been a wonderful improvement there in later years.

The Haymarket Square was for years the eyes of the community. It was reclaimed by the efforts of a few enterprising members of the Polymorphous Club under the leadership of Charles Nevins and others in 1884.

SCHOONER MISSING

Rumor about the water front this morning was to the effect that the little gull schooner Emily had met with disaster. The vessel sailed from here some days ago for Five Islands, a run that should not consume more than forty-eight hours. From what can be learned she has not reached her destination yet. The schooner was towed out of this port on the 2nd. A portion of the cargo was shipped by Percy B. Evans and as his office it was said that the report could be neither confirmed nor denied. Mr. Evans said that he understood that the Emily had not arrived at Five Islands on Thursday night. The little packet owned by I. L. Pugh of Five Islands and is in command of Captain John George.

Council's Action on Ferry Matter—The Power Bill—Coronation Day

The common council decided yesterday afternoon that they would not build a new ferry boat at the present time to take the place of the ill-fated Western Extension, but that they would send I. J. Oliver, inspector of hulls, and James Dalton, inspector of boilers, to Newport, to inspect the ferry steamer Newport, which is offered for sale for \$20,000, to examine and report if she would be suitable for the service here. It was stated that the boat could be delivered in St. John and made ready for service, provided she is suitable, at a cost of \$20,000 to \$25,000. The report of the committee, giving the expenditures on the repairing of the Western Extension at \$4,275.06, after much debate was received and filed.

The report of the committee appointed to consider the mayor's address was received and their recommendation to have a meeting of the council to be held on Wednesday evening next at 8 o'clock. READ THIS BOOKLET

"The Hair and Its Cure," Sent Free Upon Request

The Herpicide Company want everyone to have a copy of their booklet telling how to take care of and possess nice hair. If the present day men and women would begin to live up to the teachings of this little booklet it is doubtful if the next generation would find a baldheaded man or lady wearing false hair.

It is just as easy to have robust and beautiful hair as to have thin, scraggy hair or no hair at all. If the scalp is kept clean and free from dandruff the hair grows naturally and luxuriantly.

The booklet tells how the use of Newbro's Herpicide destroys the germ which causes dandruff, frees the head from dandruff, and the hair becomes naturally and beautiful.

Newbro's Herpicide is the original remedy that kills the germ which causes dandruff. There are many imitations and substitutes said to be just as good. Buy nothing but the original.

All reliable druggists sell and guarantee genuine Herpicide in one dollar size bottles.

Send 10c in postage to The Herpicide Co., Dept. R., Detroit, Mich., and a nice sample will be sent with the booklet. Applications obtained at the better barber shops and hair dressing parlors.

E. Clinton Brown, special agent.

Daily Hints For the Cook

SPINACH SALAD

Take one half a peck of fresh, crisp spinach, wash thoroughly in several waters, put in steamer and steam for about ten minutes, turn into a colander and drain; then chop fine, season with salt, pepper and two tablespoonfuls of melted butter; mix well and press into small molds or cups. When cold, place each form on lettuce leaf and put one spoonful of good salad dressing on each.

SARATOGA POTATOES

Peel the potatoes and slice them with a slow cutter, put them in cold water with a handful of salt and let them stand for an hour or more, then drain first in a colander, then on a napkin until dry. Fry in hot lard until a nice brown. These will keep several days; should they lose their crispness before all are used, set in a brick oven for a few moments.

OLD-FASHIONED CINNAMON CAKE

When you bake your bread, take about one quart of sponge in a pan large enough to raise it in. Add one large cupful of soft white sugar, three-quarters of a cupful of lukewarm water, butter about the size of an egg, melted in the water, and two eggs. Mix all with enough flour to make a nice soft dough. Let it rise until light (say, from three or four hours), then put it into four pie plates. Let it rise again until the pans are full. Bake in moderate oven. About 20 minutes will bake them. When done, wet them with sugar water, sprinkle granulated sugar and cinnamon on top and put back into oven for a few minutes until sugar has frosted.

Good Health Week! Special Sale of

"Sunkist" Oranges Begins Next Monday

"GOOD HEALTH" Week begins next Monday and, in honor of the event, the people of this city will be given the greatest opportunity ever known to buy fresh, luscious fruit at reasonable prices.

Millions of "Sunkist" Arrive

Five millions of the famous "Sunkist" oranges have just arrived from California by special fast freight. On Monday morning, when the great orange sale begins, every fruit dealer in the city will be supplied with "Sunkists."

Most Luscious Fruit Grown

Unless you have eaten a "Sunkist" orange, you do not know the delicious taste of a California orange right off the tree. "Sunkist" oranges are the

fancy crop of TEN MILLION orange trees. Only the most select part of this total crop

Save Your "Sunkist" Wrappers!

Most people know the "Sunkist" orange at once by its ruddy, deep red which shows that it was tree-ripened. Yet the sure mark of identification is the tissue paper wrapper labeled "Sunkist," in which each individual "Sunkist" orange is packed. An orange not packed in the "Sunkist" wrapper is not a "Sunkist" orange, but an inferior fruit. The wrapper identifies the orange and is valuable, too. Save all your "Sunkist" wrappers and get, free, as many of the beautiful Rogers Table Silver Premiums as you want. See list and description at right.

are "Sunkists"—only the perfect oranges—those which are hand-picked, tree-ripened, sound and solid. No fallen, bruised or otherwise damaged orange wears the "Sunkist" wrapper. "Sunkist" oranges are thin-skinned, seedless and fibreless. Never pithy, sour or tasteless. There is so little waste that they are the most economical oranges one can buy. "Sunkist" means the highest quality of oranges. Big "Sunkists" cost more than small ones, but all are sold at fair, modest prices, as you will see at your fruit dealer's.

Oranges Build Health

Physicians everywhere are pointing out the health-giving properties of oranges and the demand for fresh, ripe, luscious oranges is simply astounding. During Good Health Week fruit dealers are always on the jump from morning till night. For this is the season of the year when "spring fever" is epidemic; when nerves and blood need toning up; when the system demands a change from heavy foods to the kind that increase bodily vigor and vitality.

SOUND ADVICE FOR ALL SUFFERERS

Mrs. Lois McKay Tells Them To Use Dodd's Kidney Pills

They Took The Pain From Her Side, Cured Her Backache, and Made Her a Well Woman—Dodd's Kidney Pills Always Cure Where the Kidneys Are The Cause of the Trouble.

Triverton, Digby Co., N. S., May 5.—Special.—I advise every sufferer from kidney disease to use Dodd's Kidney Pills. These are the work of Mrs. Lois McKay of this place. "Before I used Dodd's Kidney Pills," Mrs. McKay continues, "I suffered with bad pain in my back and side. Sometimes when I sat down I hardly got up out of the chair. But after I took Dodd's Kidney Pills my pain all went and my back is well. I have never had any more pain since I used Dodd's Kidney Pills. How many women there are in Canada who suffer after dark with pain in the back or some other equally painful and disagreeable form of kidney disease? Every day from all parts of the Dominion come the statements of other women who have suffered just as they do and who have been cured by Dodd's Kidney Pills. The pills are simple, safe and within easy reach. Dodd's Kidney Pills never harmed anyone. They have never failed to cure where the kidneys are the cause of the trouble.

There were songs by Messrs. McAndrews and Gray, and others. The ladder house quartette gave a selection of two, and the City Cornet Band played several airs. Refreshments were served and a general good time spent.

DAUGHTERS OF EMPIRE AND THE CORONATION

What the British Columbia Association Proposes to do in Celebration

(Victoria Colonist).
"From East to West the circling word has passed, West is East, beside our land-locked bay; From East to West the tested chain holds fast; The well forged link rings true!"
Again the "circling word" "God save the King! Long live the King! May the King live for ever!" with all its hidden symbolism, rings from sea to sea, from continent to continent, throughout the British Empire, and the same thrill that will stir the heart of London on June 22nd will also stir the hearts of men and women, on this farthest frontier of His Majesty's dominions.

There is an old Canadian legend which tells of one, once the darling of the King's Court, who was, in a fit of capricious and unjust rage, banished by his master, King George IV., to "beyond the sound of his bugle," and as he took ship and went away to the farthest limit of the wild, and ever, until death, on the small "bugle" signal his fatherly interest, the protection of British law, and the undying fellowship of our national life. In the great colonies of Britain there is, however, presented the urgent duty to foster and develop the sentiment of true allegiance. The opportunities for that outward appeal, by direct personality and pageantry, which is the perpetual privilege of the subjects of the king in his metropolis is denied to his subject beyond the seas, except on the rare occasion of a passing visit of an exceptional event.

The Daughters of the Empire ask the privilege of celebrating, in co-operation with the people of Victoria and the province, the coronation of His Majesty King George V., and his Consort Queen Mary, by a national and patriotic festival in which all loyal subjects of the King will be enabled to participate, and to use this splendid occasion as a means of "stimulating and giving expression to the sentiment of patriotism which binds the women and children of the Empire round the throne and person of their gracious and beloved sovereign," as the constitution of the Order directs. To this end both the government and the city have been approached for sanction and assistance, and the mayors of all the provincial capitals have been invited to send delegates from the various cities, for it is felt that, apart from local celebrations, the Province should concentrate for this occasion, and Victoria, the capital city, the seat of government, and the last resting place of her interpret pioneers and distinguished statesmen, should be enabled to celebrate the occasion with fitting dignity and splendor, in the name of the glorious province of which she is the mother indeed.

NEW PHASE IN CASE OF THOS. HAGGERTY

Boston, May 5.—A new phase in the case of Thomas Haggerty, the Roxbury man who is charged with killing his three motherless daughters at his home on the top floor of the dwelling house at 101 Calumet street, Roxbury, developed while Haggerty was being questioned at the station house by Capt. Duggan and Secty. O'Neil prior to his being taken to the Roxbury court. Haggerty told the police that he was engaged to be married and the date of the wedding had been set for Easter week. Because he was out of employment, he told the police, the woman to whom he was engaged refused to marry him. This was a severe blow to Haggerty, who had made all arrangements for the wedding. The refusal, coupled with the death of his wife, from which he had never fully recovered, and the loss of his position by the death of Mrs. Anna Peabody of the Commonwealth avenue about two months ago, by whom he had been employed for several years as a butler, is believed to have upset his mind. Always of a retiring nature, Haggerty would only answer questions put to him directly during the interview with the police, which lasted from 8 till 10 this morning.

WELL, HARDLY.

"Are you a friend of the groom's family?" asked the usher at the church wedding. "I think not," replied the lady addressed. "I'm the mother of the bride."—Yonkers Statesman.

SARFIELD CASEY HAS A TALK WITH DR. DANIEL, M. P.

(Richibucto Review) St. John, N. B., May 2nd, 1911.

Dear Editor: Here yet, and having an awful good time. Some friends took me down to the Union Club last night. It is a great place. They wouldn't let a stranger spend a cent there, and I was glad I was a stranger and would like to have stayed a week, but after a while a black driver woke me up and told me we were at the Royal and I went to bed in my room. I knew it was my room, because the porter said so and he would have no object in lying about it. I met a lot of politicians here who are bound to save the country at any cost. Dr. Daniel was among them and seemed to be in a trying position. He told me that being a representative of St. John in the federal parliament, and talking against reciprocity, was a very hard position and one that required good judgment. I could see that the situation might strain a man's mind some and I told him so. "Yes," he said, "Mr. Casey it does." "I tell you," says he, "when I try to make my constituents believe that when they buy and sell at home for \$8 a ton, then to sell it in Portland, Maine, at a price of \$10 a ton, it is a very hard position to be in. Why, it got in such shape of an ill meeting Friday night that I thought it was atrophied."

I don't know what this meant, but I suppose it means wearing out. "Mr. Casey," says he, "this mixed up position is telling on me, and like the Courtney Bay terminus is not an incident dream."

I think the doctor was honest about his position on the reciprocity agreement. But he certainly thinks a lot of the flag. It's on his mind so much that he can't help speaking of it. From the house of commons to the country school house, he talks about the flag. I don't mean that he just mentions it, but he devotes a lot of time to it. He's a patriot and in the same class with the gallant Col. Sheridan of Kent. I asked him if he would contest St. John again.

"I am ready, if the people call," says he. "If this reciprocity battle continues I will bare my breast to the storm of battle, and spring to the defence of that glorious emblem of right and justice, the old flag, and I know you will," says I, "and it's very creditable of you, but this call of the people will not be so loud," says I, thinking of the vacant chairs at Friday night's meeting.

"Perhaps it won't," says he. "And still I am the only one left to go to work." "What will the few Conservatives in St. John at the present time do, if the reciprocity bill passes?" "What will they have to look forward to?" "The result is something touching and pathetic in the way we stand by the minority party year after year and watch the party grow smaller and smaller, and in doing all we can, in our humble way to keep it small by our loyalty and the hope of a job in the government."

He was almost crying. I asked him if he would contest St. John again. "I am ready, if the people call," says he. "If this reciprocity battle continues I will bare my breast to the storm of battle, and spring to the defence of that glorious emblem of right and justice, the old flag, and I know you will," says I, "and it's very creditable of you, but this call of the people will not be so loud," says I, thinking of the vacant chairs at Friday night's meeting.

WHISKEY HOLDS ITS VICTIMS

Until Released By Wonderful Samaria Remedy

Liquor sets up inflammation and irritation of the stomach and weakens the nerves. The steady or periodical (spree) drinker is often forced to drink, even against his will by his unnatural physical condition. Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the knowledge of the patient. Thousands of Canadian homes have been saved from misery and despair by some devoted wife, mother or daughter, through this wonderful Canadian medicine. The money formerly wasted on the liquor, now spent on Samaria, has brought happiness, health and comfort to the family, and respect to the man, who in want and despair, had become a drunkard. Read the following testimonial of a numerous unmedicated testimonial: "I can never repay you for your remedy. It is worth more to me than any other medicine I have ever used. My husband has offered me a large sum of money to give up my business, but I will give nothing to any other man's hands than yours. I will give you my address. Name withheld on request. Now, if you know of any family needing this remedy, tell them about it. If you have any friend or relative who has formed or is forming the drink habit, help him to release himself from its awful clutches. Samaria Prescription is used by Physicians and Hospitals. LABOR'S HOLD ON COMMONWEALTH

Deputy Speaker Poynton, of Australia, Says Parliamentary Party is Moderate—Wonderful Development.

(Montreal Gazette.) The Hon. A. Poynton, deputy speaker of the House of Representatives in the Commonwealth of Australia, and one of the first labor representatives returned to parliament in the island continent, is at the Queen's en route for Great Britain. Mr. Poynton, who had an interview with Sir Wilfrid Laurier in Ottawa, is an ardent supporter of the Hon. Andrew Fisher, prime minister of Australia, who, as the head of the labor party, controls forty-two seats in the lower house out of a total of 75, and twenty-three seats in the senate, out of a total of thirty-six members. At the last election there were eighteen senators to be returned and the labor party captured the entire number, so with two states, New South Wales and South Australia now governed by the same element and led by very few seats to control the other four, the deputy speaker considers himself quite justified in claiming that when another appeal to the people is made the coalition headed by Hon. Alfred Deakin, will be still further debilitated by the fact that there are but two parties at present in the public eye of the Commonwealth, for a good many of the old Conservatives have joined the present opposition leader's following, and the more progressive liberals had thrown in their lot with the present government party.

Mr. Poynton considers Mr. Fisher a progressive statesman, governing the Commonwealth in the interests of the people, and carrying on the affairs of the labor party by thoroughly constitutional methods. He, of course, has no objection to the revolutionary or advanced socialist, and the deputy speaker thinks that the time may come when the issue will be fought out between the advanced and the constitutional wings of the labor party. Already they have had several electoral skirmishes but the men advocating constitutional methods have always prevailed and so far the revolutionary element are making no headway in the public affairs of the Commonwealth.

While confederation, he says, is being accepted cordially by the people at large, Hon. Mr. Poynton admits that the central government is at times hampered by the extreme state right policy adopted at the time of the union. The American plan was adopted by the farmers of the new Australian constitution rather than that chosen by the fathers of the Canadian confederation, the various states being so jealous of their autonomy that they had to be handled very carefully when the new constitution was being prepared.

The Australian statesmen say they are very enthusiastic at home over the naval and military laws recently adopted by the Commonwealth. Being ardent imperialists and realizing that the position of the fleet should be engaged at home Australia as a unit of the great Empire must set her house in order both on sea and on land, hence the present laws on their statute books.

All young men from 14 to 26 have to serve in the ranks, similar to the Swiss system. He, of course, has no objection to the young Australians entering into the movement that the last enrollment numbered no less than 120,000. They have also undertaken to constitute a 20% of twenty-two ships of the Dreadnought type, the time taken in building this Australian navy of the Imperial navy into shape to be five or six years.

Mr. Poynton, who represents the district of Grey, South Australia, in the national parliament, says the labor party of the Commonwealth is now being followed by the great strikes. He is of the opinion that the representatives of the Commonwealth in London, composed of Premier Fisher, Senator Pearce and Hon. E. L. Bachelor, who will come by way of Canada, will compare most favorably with the representatives of the other over-sea dependencies of the British Empire.

They will discuss with Sir Wilfrid Laurier, should the latter be able to go to London, several matters of mutual interest to Canada, Australia and the Empire as a whole, amongst others a certain measure of reciprocity and the altered steamship line. In the past, he says, the labor party of Australia has suffered abroad because of the hostility of a certain section of the public press, but this will end as the labor press becomes better organized. They have already a daily paper at Adelaide, with a circulation of 25,000, and a large fund amounting to \$25,000 has been subscribed for the purpose of starting a daily paper in Sydney. As the work progresses branch newspapers will be established in other parts of the country.

Mr. Poynton speaks in the highest terms of the ability of Attorney-General Hughes, of the Fisher administration, who, from being a school master, became a barrister, and whose success in framing measures of constitutional import has won the admiration of the whole country. He also named seven representative labor men in the Commonwealth who have become barristers since they became active in the labor cause in the island continent. The banking element in Australia, he says, has a vision of the whole country. He also told of Premier Fisher and his ministry, and very important reforms have been effected.

Instead of the banks issuing bills, that will in future be done by the government, although the circulation will be undertaken by the banks, which have already placed four million sovereigns with the government to be exchanged for the new paper currency. A decimal currency will be adopted. The government expect good results from their immigration policy, as all the space in steamers is engaged a great way in advance by the thousands of new British settlers who are expected to make their homes in the Commonwealth during the present year.

The labor party are professionalists, and under such a policy industrial life of the country has made very great strides. For instance, in 1905 there were 100,000 hands employed in the factories, and this had increased to 257,400 in 1908. Last year 100,000,000 bushels of wheat were raised in Australia, while the meat products were valued at \$123,000,000, and the wool cut at \$122,000,000. From 1901 the savings bank deposits had jumped from \$154,000,000 to \$285,000,000. On the whole, the deputy speaker predicts a very great future for that distant portion of the British Empire under labor rule.

He makes much of the fact that a large portion of the area of New Ontario, which is being opened up, is not only highly mineralized but is fertile and produces crops. Alluding to his connection with the Hydro Electric matter, Col. Hendrie re-asserts the British investors who are largely interested in the private electric companies, by telling them that so far as the industries of Ontario growing and the demand for light and power increasing, that there will be plenty of room; he considers it a master stroke and a security against the undue influence of monopolies that the government has taken a hand in the business. Colonel and Mrs. Hendrie expect to return by the Empress of Britain, sailing on May 5.

THE REASON WHY

You don't take issue? Perhaps not, but if you look for the reason why, you will find it in the fact that the word "sausage" suggests to your mind a thin, dark, hot, burning food, which, if taken at dinner, runs all over the plate, saturates the vegetables, and eventually leaves a disagreeable burning sensation in the mouth. No wonder that under these circumstances you do not take issue—but, change the circumstances, and the taste will probably change with it. A new sauce has been introduced by the Muland Vinegar Company of England, which is known as H. P. Sauce, and is quite different to anything you have ever referred to. H. P. Sauce has proved an unqualified success, and is now used not only by the world's most famous chefs, but also by the best of our own. Original French and Swiss with pure malt vinegar, and the manufacturers' secret process produces a thick, fruity sauce, which, if poured on the side of the plate, can be eaten with the meat like mustard. H. P. Sauce is also used very extensively in the kitchen, for housekeepers have discovered that old and familiar dishes of which everyone has grown tired become tempting and delicious when enriched and subtletized with H. P. All family grocers are selling H. P. Sauce. Of course its success has brought many imitations, but if you ask for H. P. and see that these letters appear on each label, you will preclude the possibility of disappointment.

PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

The unseasonably cold weather has not increased enthusiasm over country life and it is surprising how many who were enthusiastic over the opening of the country houses, last week end, have settled down before the open fire to ponder on the futility of well laid plans.

DON'T BECOME A SLAVE TO DRUGS

The drug habit is the greatest curse of humanity. Do you know how it is formed, and who is responsible for the blighting of thousands of lives by this awful habit. I'll tell you. In nine cases out of ten it is the doctor.

Suppose you are suffering from a stomach trouble. Your doctor gives you some medicine to relieve the distress. It relieves you all right for a few hours, but the pain comes back. Then you must take some more medicine. You don't know what this drug is that the doctor has given you, and you don't bother about asking until after Nature has cured the stomach and you try to stop taking the medicine. That is the time when the skeleton on the bottle crins at you triumphantly.

The stuff that you have been taking is dope-poison—and the doctor knew it all the time. You see, this dope kills pain by supplying the nerves, and of course they are weakened by each dose. If you stop taking the drug, your nerves will not let you have ease—you can't sleep, can't eat until you feed them with the poison. Anyone who takes drugs for the cure of pain or disease is liable to become addicted to the drug habit in this very way. Nearly all drugs that you buy contain a large amount of opium or poison of some kind. The base of the doctor's prescription is poison. He uses it in nearly every case he treats.

Every time you take a drug to force the stomach, liver, kidneys or heart, you hurt them—you actually lessen their natural vitality, and any one can see that in time by steady dosing, you will have no natural action of these organs.

If you are sick or ailing in any way, it is because of the failure or breaking down of some vital organ. The reason any organ fails to do its work is because it lacks electricity. When it is doing its work right, the stomach generates electricity for the support of the body and it must have-aid. This aid is electricity, artificial electricity, as applied by my Belt.

Electricity is a relief from the old system of drugging. It does by natural means what you expect drugs to do by unnatural means. It removes the cause of disease, and after the cause has been removed Nature will do the rest.

Dr. McLaughlin's Electric Belt is easily, comfortably worn next to the body during the night, and gives out a continuous stream of that strength-building, nerve-feeding force which is the basis of all health.

Dear Sir—I take pleasure in sending you my report about the Electric Belt I received some time ago. I have spent a lot of money in medicines of different kinds and will say that the Belt has done me a good deal more good than all the drugs and medicines I threw my money away for. I am thankful that I have the right treatment, and can keep it up, and have no more trouble to look for. I am sure that you would do me any amount of good, and I would be glad to pay the price of it at any time when I feel the effects of its power. Thanking you for the wonderful treatment I am receiving, from your Belt, remain, yours truly, JUSTUS GALLER, St. John, N. B.

St. John, N. B.

If you are skeptical, all I ask is reasonable security for the price of the belt, and you can use it on the conditions of

No Cure, No Pay! Every sufferer should try Electricity. It is far cheaper than a course of drugging.

The Turf

King George—May See Derby. London, May 5.—The flat racing season, which opened with the Lincoln meeting, has not as yet created any great enthusiasm, but the rumor that the Lincoln meeting will be the first time an act of this kind has been staged in St. John. It is said to be fairly thrilling over the course, and is being staged under the direction of Robert E. Walker. The play is a notable one and has met with great success in New York and other large cities of the United States. It is of a sentimental character, and points a great moral. It is an intensely interesting play, written in five acts.

The case is small, there being only seven characters, but some of the best St. John amateurs have been secured to take part. Frances E. McCaskill, Marjorie Knight and Mr. Robertson are newcomers, but their ability will place them in the first rank of local performers. The rest of the cast, F. C. McNeil, R. E. Walker, Frank J. Carr and A. G. Baines are old favorites and their reputation speaks for itself. All who attend are promised a most interesting and enjoyable evening.
