\$1,250,000 BLAZE IN QUEBEC VILLAGE

FIFTY HOUSES BURNED; ONE MAN INJURED

Disastrous Fire Sweeps Through St. Joseph D'Alma

SPREADS FAST

Starts With Gasoline Explosion in Theatre—High Wind

QUEBEC, Que., May 8.—Forty-five to 50 houses destroyed, with a property loss said to reach \$1,250,000, one man injured by a dynamite explosion, and many miraculous escapes from death were some of the results of a disastrous conflagration which swept the village of St. Joseph D'Alma last night and this morning.

The fire broke out in the Victoria Theatre and was caused by a gasoline explosion. The flames, after destroying the theatre, communicated to all nearby dwellings and spread throughout the village with amazing rapidity, fanned to fury by a high wind that was blowing. The fire was under control at a late hour this morning.

It is the belief of the officers that an apparatus has been passed from one farm to another, as occasion demanded.

Another Saturday Feature

TOMORROW THE TIMES-STAR will begin another series of Saturday local features. This one will have to do with industries of the city. Industries are the chief asset of a city, but it is doubtful if any one citizen has any knowledge of the number in his midst or could recite the processes of manufacture and shipping. Besides being a source of livelihood and profit, there is still a great deal of romance in business. This is especially true in many of the larger industries, and it will be found in the first subject of the series—The Atlantic Sugar Refineries. You'll find much that will interest you in this story of sugar refining, and the series will provide you with a greater and more intimate knowledge of the industries of Saint John.

Saint John Board of Trade Questionnaire Asks Suggestions

OTTAWA QUERIES ABOUT WEST INDIES

Local Portwarden Regulations Taken Up and Declared O. K.

Important matters were discussed at the meeting of the Board of Trade Council yesterday and others had to be postponed until a meeting to be held on next Tuesday at 11 a. m., owing to the amount of time taken up by yesterday's conference with the lumbermen.

Among the subjects discussed yesterday was the way in which the board could best serve the interests of its members and the community at large and it was decided to send a questionnaire to each member asking opinions on this matter. When the answers have been received they will be carefully gone over to see what action can be taken. The board also invites constructive suggestions from any citizen along these lines.

WEST INDIES TRADE

A communication from Hon. T. A. Low, minister of commerce, asked for suggestions from the board to be presented at the coming conference in Ottawa, with representatives of the British West Indies on the subjects of cable and wireless communication, steamship communication and tariff regulations between the two countries. This was referred to a committee who are working on the matter.

CIVIL SERVICE POST

An inspector of weights and measures for the Saint John inspection district is being sought by the Department of Trade and Commerce. The new man is to fill the position left vacant by J. A. Bennett, Edmondston, who retired under the terms of the Calder Act last October. Since that time the staff here has been running short handed. It was said this morning that several applicants had filled out the necessary papers and would try the necessary examinations.

Furniture Sold To Satisfy Half-Cent Taxation Claim

PARIS, May 8.—A singular comedy of bureaucracy, in which it would seem that authority must play the part of Pantolon, has just been concluded in Paris, when furniture belonging to M. Bardin, a merchant living in Faubourg Saint Martin, was sold by auction in order to satisfy a tax collector's claim. M. Bardin recently received from a tax collector a notification that, owing to an error he still owed the State 11 centimes—that is, about half a cent—on account of last year's taxes. In view of the insignificance of the claim M. Bardin did not think it worth while either to waste the time or pay the 2c.

On Third Break in Waterloo Street Encounters Trap and Decamps.

For the third time in less than two months the Cash Grocery store in Waterloo street was broken into Sunday night. On the two former occasions the thief or thieves made off with goods valued at \$50, but on the last occasion a surprise awaited them in the form of a trap cunningly devised by the man in charge of the store. As a result no attempt was made to ransack the till or interfere with the goods.

On all three occasions an entrance was forced by breaking the lock on the front door. On Sunday night the lock was forced apparently with some heavy instrument. However, inside the store a trap awaited the visitor, who evidently just escaped being caught and got away before he could be apprehended.

RECALLS STIRRING 1914 NIGHT HERE

Death of Admiral Sturdee Brings to Mind Celebration in Saint John.

The death of Admiral Sir Doveton Sturdee, hero of the Falkland Islands battle, reminds many Saint John people of the feverish night in 1914, when first word of the glorious defeat of Admiral Von Spee trickled through by roundabout cable into this city. It was in the early evening and the city was extra lively because of recruiting activities and the constant excitement which marked the opening year of the war. Giving color to the naval news, several hundred British bluejackets en route from the Bermuda station to join the grand fleet at home, were roaming about the streets and helping all the theatres. In one of the picture houses the staff gathered 20 or 30 of the biggest and best looking Jackies and during an interval in the programme announcement was made from the stage that Admiral Sturdee had wiped out the enemy. At a signal the British sailors marched smartly on to the stage, flood lights were turned on and the orchestra boomed out "Rule Britannia." The vast audience rose to its feet with a mighty cheer, which continued for fully five minutes as the Jack Tars stood sharply at the salute and the musicians kept repeating the thrilling strain.

Sites Offered For Sussex Memorial

The Sussex Women's Institute has decided to throw open to the citizens the chance to express a choice as to the site of the war memorial monument, before the next meeting on June 8. E. G. Galding has offered land, and this is with a view of a hospital, some time being built there, if Sussex should ever decide to take advantage of this offer. The ground is on the northern extension of Queen street, and pending such time as it should be used for hospital purposes, the Record says, could be made into a very attractive little park. Also permission has been granted by the C. N. R. to place the monument in the green square near the station. Some persons have expressed a wish to see the memorial on the school grounds.

HEAD IS INJURED.

W. Stanley, 85 Hawthorne avenue, received severe injury to his head last evening while he was working at No. 16 shed. He was struck by a sling. The injured man was taken to the emergency hospital where it was found necessary to put seven stitches in the wound. After being treated he was taken to his home.

"Cocoanut and Palm Oils" give this famous laundry soap its extra cleaning power — says Mrs. Experience

"Sunlight is so much more than ordinary laundry soap! It is a pure soap made from cocoanut and palm oils—two of the gentlest and most thorough cleansing materials ever discovered.

"These cocoanut and palm oils, I happen to know, are produced on the makers' own plantations. They are purified and blended to such a degree of perfection in Sunlight that it is really the most labour-saving, time-saving and economical soap I've ever used.

"Sunlight, of course, is purity itself—it contains no adulterating materials, which are useless to women as soap, but are often put in to make a bar look bigger. Every bit of Sunlight is pure, cleansing soap, so it just cleans and cleans and cleans—you can use it for every household purpose, for a little of it goes a long way. Sunlight keeps your hands soft and comfortable, too!" Made by Lever Brothers Limited, largest soap-makers in the world.

PUT WOMAN IN TUB AND STOLE \$28,000 Sixty Year Old Widow Identifies Hair Dresser as One of Thieves.

NEW YORK, May 8.—Thrift of jewelry valued at \$28,000 and a hold-up in the apartment of Mrs. Catherine Yegonian, 60 years old, at 189 West 128th street, on April 18, came to light this week with the arraignment of a prisoner who said he was Carmel Delabanian, a hair-dresser, of Claremont avenue.

Mrs. Yegonian said the prisoner was one of two men who had knocked at her apartment on the evening of April 18 and who had seized, bound and placed her in the bathtub. She was left there while they made a search of the apartment and took the valuable collection of pearl-set jewelry which was the gift of her late husband, a pearl collector.

The most expensive piece is said to be a lavalliere of pearls, valued at \$20,000; a \$400 pearl necklace, two \$1,200 diamond buckles, a diamond pin worth \$250, six \$1,200 diamond rings, three bracelets worth \$150, three diamond-set crosses valued at \$175, a \$500 gold necklace, loose pearls to the value of \$1,000, and 10 pieces of raw gold said to assay to 995. Most of the jewels were hidden in a mattress.

SAINT JOHN, N. B., MAY 8, 1925.

A MARITIME CONFERENCE.

The Moncton Board of Trade is preparing for a conference to which will be invited representatives of every board in the Maritime Provinces, and while arrangements are not yet completed the desire is that the meeting shall be held during the present month. The purpose is to consider Maritime needs and requirements, and to prepare for a Dominion conference later on, at which the Maritimes should be prepared to speak as a unit in sharing the work of formulating an economic policy to promote prosperity and contentment throughout the Dominion. This movement, now rapidly taking concrete form, is a direct result of the campaign set on foot by The Telegraph-Journal and The Times-Star.

It is desirable that the Moncton meeting shall give consideration to policies affecting every important Maritime interest, agriculture as well as lumbering, manufacturing, fishing and mining. Transportation, as it affects these provinces, the enlarged use of our ports, the tariff policy, better access to existing markets and the development of new ones—all these which necessarily have a place in the discussion. Moreover, it will be essential to have in mind the national bearing of any policies which may be advocated, for when the Dominion conference comes a broad spirit of give and take will be vital in order that there may be united action which will have a direct effect upon the course of all the political parties. This movement is essentially non-political, but there is to be a federal election this year or next, and the conclusions of the economic conference should exert good little influence upon all parties.

We must give due consideration to the problems of the other provinces, and in setting forth the course of action which we believe essential to Maritime betterment we must be prepared to measure our demands by national standards and to recognize that national co-operation is indispensable.

Fortunately, as the mission of these newspapers has shown, the rest of the country is not only interested in the Maritime cause, but is ready to give careful consideration to any concrete proposals which may be advanced. The other provinces are asking that the Maritime case be definitely stated, and therefore the Moncton conference should proceed with care in formulating a platform upon which the Maritimes will stand unitedly and which, at the same time, will stand examination from the national viewpoint. A truly national tariff, a transportation policy giving justice to every province, and the federal handling of immigration so that benefits may be general rather than confined to a few provinces—these, obviously, are among the necessities of the case.

A NEIGHBOR'S VIEW.

If there has been any recent excitement in the question of annexation we have not heard of it, or noticed any evidence of it in the Canadian news of the day. Based upon misguided information from a source not divulged, the Boston Transcript publishes an editorial entitled "Canada and Annexation," in which it says: "Some of our Canadian friends are getting excited again over persistent discussion of possible annexation of their domain to the United States. In the vigor of their reaction they are even retreating with the suggestion that if annexation of any kind is on the cards, it will be that of New England to Canada rather than of any mile of Dominion territory to the United States. Both prophecies are as interesting as they are harmless."

They are groundless, and harmless enough. The Transcript refers to the industrial awakening of Canada within recent years and the transfer of many American industries to Canadian soil. It says: "When in 1910-11 President Taft succeeded in negotiating a mild reciprocity treaty with the Dominion Government, the people of Canada not only rejected it but overthrew the government of the idealized Wilfrid Laurier, which was responsible for its negotiations. The relations between the two countries are friendly, even to cordiality, and will so continue, notwithstanding American indifference to reasonable Canadian proposals, but they do not make for the annexationist spirit in other country."

That, in the main, is correct. We sometimes hear about the dangers of annexation when we have a national

petition between the two companies which so long as it is kept in reasonable restriction is advantageous, but apart from this, the people of Canada have never been oblivious to the part the Canadian Pacific Railway has played in the development of Canada. They regard the company as a national asset, and it is inconceivable that any action would be taken by the government or the people of Canada which would damage its interests."

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

Only the Bootlegger

Only the Canadian bootlegger escapes the Canadian income tax. He gets from under, protected by law from the tax which the non-bootlegging citizen must pay. The Montreal Gazette says: "A curious situation has been created by the decision of the Supreme Court of Canada in the case of Cecil R. Smith, who claimed that money gained by him in 'bootlegging' was not liable to income tax. He was assessed in the London district for some \$28,000, the amount claimed on an income of about \$100,000. The claim was resisted on the ground that the money came from a business not recognized as legal and therefore not properly levied upon by the government's tax collector. The plea was heard in the Exchequer Court, and rejected, on the ground that anyone seeking justice should come with clean hands. Furthermore, it was the ground that parliament, in enacting the income tax law, provided that the information which the taxpayer was required or might be required to give was all in respect of businesses which may be legally carried on. "It is difficult to conceive of the Minister requiring criminals to furnish information as to the profits derived from the commission of crime or demanding of them the keeping of books or records of their illicit and criminal operations." These were the words used by Mr. Justice Mignault in describing the situation the court was called on to consider. Furthermore, it was added, "if the gains derived from crime are within the contemplation of the statute, then the expense incurred in making the gains, that is in the employment of criminal agents, would be chargeable as reductions against them, and as to all information furnished by the wrongdoer, there would be a promise of secrecy for his protection."

WATCHING GERMANY.

The British Prime Minister, in reply to a question in the House of Commons, has said that he sees no present likelihood that a disarmament conference will be held in the near future. Almost at the same Washington despatches say that in official circles there the feeling is that international action on disarmament must wait a bit.

This feeling to some extent, but not wholly, is due to Germany's action in electing Hindenburg. France, before his election, was by no means enthusiastic about another disarmament conference, and those in other countries who appeared to be ready for it obviously thought the scope of the discussion would necessarily be limited, that it would not include land forces, and that there would be difficulties even in relation to submarines and aircraft. Since the German elections it is taken for granted that the French desire of disarmament until much more definite progress has been made in the matter of giving France the security which it statesmen feel to be the first of its needs.

Two things stand out conspicuously as a result of the German elections in the view of the Chicago Journal of Commerce: "First, the prospects for the restoration of the Hohenzollern dynasty have been increased; and, second, the prospects for honest execution of the Dawes plan and for maintenance of peaceful relations with France have been lessened." The Journal clearly expects from Germany under present conditions if not open defiance at least an increase of passive resistance to the very conditions which German leaders have pledged themselves to accept during the last year. "Though Hindenburg promises to preserve the Republic," says the Journal of Commerce, "the nevertheless is on record as believing that Germany cannot again be great until she is ruled once more by the Hohenzollerns. And, as president of Germany, he will control the military and will have wide discretionary powers for proclaiming a state of emergency and for assuming a dictatorship. So that, though a majority of the German people wish otherwise, it is apparent that the movement for restoration of the monarchy has been accelerated. And, with a cockier spirit than ever, the German monarchists may be expected to hamper the execution of the Dawes plan. Whenever possible, they will resist any request that France may make; whenever possible, they will delay the payment of reparations. For their spirits cannot abide even a temporary acknowledgment of their military defeat. Some day, so they hope and pray, they will engage in a great victorious war of revenge. Meanwhile France—yes, and Poland and Czechoslovakia, too—are watching with wary, intent eyes the developments in restive Germany."

In making answer to a misleading article on the Canadian railroad situation which appeared lately in the Financial News of London, Sir Henry Thornton says neither the Government nor the C. N. R. has any intention of making war upon the Canadian Pacific. He says: "There is necessarily a healthy com-

Letters to The Editor

War Memorial Site.

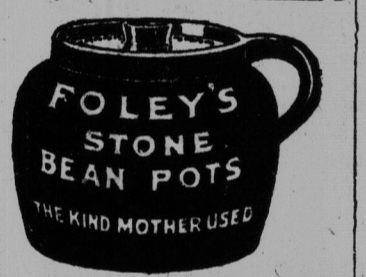

To the Editor of The Times-Star:—Sir,—It was surely amusing to read in last night's Times-Star that Commissioner Frink (after voting against the request of the memorial committee) should suggest that the monument be placed some twenty yards behind the fountain. Well, all things come to those who wait. At last the memorial committee will get the right site. Let them make application for that site and go right ahead with the erection of our War Memorial, seeing that according to the Commissioner very soon the fountain will have to be removed for street widening purposes. Then let them remove the "sacred trust" to a more sacred location, namely the Loyalist burying ground. Yours, etc.,

What Are The Wild Waves Saying?

What are the wild waves saying, sister the whole day long?
That ever amid our playing, I hear but their low, lone song?
Not by the sea-side only, there it sounds wild and free;
But at night when its dark and lonely, in dreams it is still with me.
Brother, I hear no singing, 'tis but the rolling wave.
Ever its lone course winging over some ocean cave.
'Tis but the noise of water dashing against the shore,
And the wind from some bleaker quarter mingling with its roar.

Yes, but the waves seem ever singing the same sweet thing.
That vain in my weak endeavor to guess what the surges sing.
What is that voice repeating ever by night and day?
Is it a friendly greeting, or a warning that calls away?
Brother, the inland mountain, hath it no voice and sound?
Speaks the dripping fountain as it bedews the ground?
Even by the household ingle, curtained and burning warm and bright,
Do not our voices mingle with those of the distant storm?
Yes, yes, yes, yes, but there is something greater that speaks to the heart alone.
The voice of the great Creator dwells in that mighty tone.

Animals You Can't Tame.
All efforts of man have failed to tame several wild animals. The British wildcat cannot be tamed, even when kittens are brought up in captivity. The same is true of the North American lynx.
So fer, the African wild dog has never been tamed, and packs of them are extremely dangerous to hunters. Most wolves can be tamed, but the one known as the Tasmanian devil absolutely refuses to forget its wild state.
The black jaguar is another animal which so far has defied all efforts to domesticate it.

Fables On Health

STRAIGHTEN YOUR SHOULDERS
 SUSPENDERS haven't much chance of staging a comeback, according to the opinion of Mr. Mann of Anytown.

The reason is simple, he argues. Mine's shoulders have become so stooped that many would be unable to keep the suspenders over the shoulder.

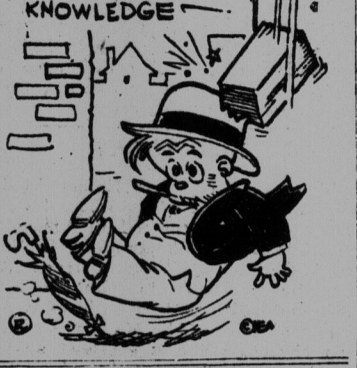

Stooped shoulders, and a sunken chest often go together, and in most cases both are a result of carelessness.

There is no physiological reason for a shuffling gait. Rounded shoulders mean a diminished lung capacity, lessened physical vigor, weakened muscles and an unnatural flexion, passing into permanent deformity.

Stand in front of a long mirror, and with the aid of an extra mirror get a side view of yourself. If the shoulders droop forward, and the chest is sunken, begin immediately to straighten up.

Adventures of the Twins

By OLIVE ROBERTS BARTON.
 WHAT HAPPENED IN THE DRUG STORE.

Smitcher Smith left the barber shop where he had done so much damage, and ran lighly down the street to a drug store.

Nancy and Nick and mister whizz didn't need their airplane to follow him this time.

They saw his coat-tails disappearing in the doorway, and they flew after him as fast as they could go.

But when they got inside, not a sign of him was to be seen.

When the soda-water clerk's back was turned, the goblin had jumped behind a big silver bowl full of lemons, and how could anyone know he was there?

"Did you see a little fellow with crooked legs and a long nose?" asked Nick.

"No, sir, he didn't come in here," said the man.

"Yes, he did," said Nancy. "We just saw him this minute."

A fat man with a bald head and eyeglasses, who was buying a clear, turned around crossly. "I just came in, thank you," said he. "And I have neither crooked legs nor a long nose."

"We don't mean you," said Mister Whizz apologizing.

"When you must be dreaming," said the soda-water clerk. "No one came

reaching for the spigot on the soda-fountain that was marked "vanilla," he sneezed. And without mousing it he turned on the spigot marked "ginger."

And when he went to get the orange he sneezed again and turned on the sarsaparilla instead. And when he went to put in the raspberry flavoring, he sneezed a third time and got root-beer by mistake.

Then he put in the chocolate ice cream and handed it to the lady.

But scarcely had she tasted it than she cried out, "Help! I'm poisoned!"

And out she rushed without even paying for it.

"The 'very idea!'" exclaimed the soda-water clerk. "What on earth do you suppose was the matter? I did the best I could."

The next customer was a little boy. "I want ten cents worth of bird-seed," said the little boy.

The clerk hurried to the drawer with bird-seed in it and was just getting a scoopful to put on the scales when he sneezed again.

The bird-seed flew all over the store. It got into the quinine and into the borax and into the plaster and into the tooth brushes and even into the ice-cream can.

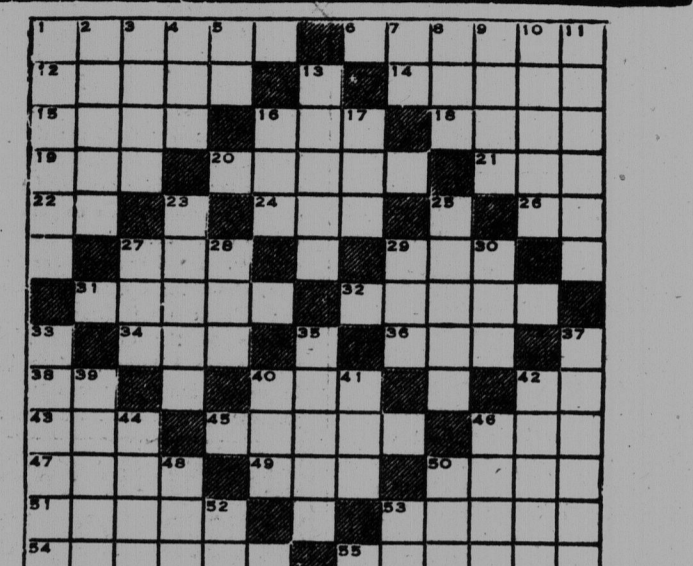

"Dear, dear!" exclaimed the clerk. "Now I've a fine mess to clean up! I wonder why I'm sneezing so much."

"We know," said Nancy wisely. "If you had helped us to look for the little goblin—it would have saved you a lot of trouble. There he is hiding behind that lemon-bowl blowing snuff all around."

The drug store clerk made a dive to catch him, but Smitcher Smith had slipped out of the door.

GOOD PERFORMANCE BY Y. W. C. A. PUPILS

Gymnastic Exhibition Given Last Evening Entertains Large Gathering.

An excellent gymnastic exhibition was given last evening by the Y. W. C. A. on the Y. M. C. A. floor and was enjoyed by a large gathering.

The grand march smartly executed, was halted for a few minutes while the girls sang heartily, the "Y" songs composed by the senior school girls.

A group of young members from the babies' class hopped on the floor with fluffy cabbages and very quaintly did their bunny prance and then played the tea pot.

The masked senior school girls and senior classes were the star performers in the purely gymnastic part of the programme.

Following the intermission during which a sale of candy was conducted, the interpretative dancing numbers were presented.

The Lotus Flower Dance by Misses Joan Andrews, Alice Chisholm, Leonarda Bejra and Elise Gilbert, proved one of the hits of the evening.

FACTS ABOUT TEA SERIES—No. 6

Appearance of Tea No Guide

The only way to test tea is to taste it. Many people have the idea that a finely rolled and tippy tea is superior in flavour to a large rough leaf. In reality this is not of necessity the case. The altitude at which the tea plant grows determines the amount of essential oil and alkaloid theine in the leaf. The essential oil gives tea its flavour; the theine contributes the stimulating value. The only way to insure always receiving a uniform quality is to insist upon a skilfully blended and scientifically sealed tea like "SALADA" whose reliability, goodness and delicious flavour have become a household word.

DR. M. McLAREN SPEAKS ON WIRE MATTER IN HOUSE

Says Cable Message Can't Be Sent by C. N. R. Over British Line

COMMONS ADOPTS RAILROADS VOTE

Meighen Sees Trouble Over Increasing of Charges on Capital.

OTTAWA, May 7—From various angles, the problem of the Canadian National Railways was argued in the House today. The civil government vote for the department of railways was under review and before the House turned to other business, the vote was passed. The main appropriation for the C. N. R. remains, however, for further discussion.

Right Hon. Arthur Meighen, Conservative leader, took the ground that continual multiplication of capital charges on the Canadian National lines would lead to trouble. The rate of increase was appalling and must be checked. Some way had to be found to prevent the Canadian National and the C. P. R. competing at the expense of the public pockets.

OPPOSES FUSION.

Robert Forke, Progressive leader, was not favorable to amalgamation of the two roads. He feared that if one corporation owned all the railways, it would also own the country.

Murray MacLaren, Conservative, Saint John, dealt with the Canadian

National telegraph and cable service. The Canadian National telegraph lines, he said, extended only to Montreal at their eastern end. This was 398 miles from Halifax. Telegrams sent were carried by another line for the remainder of the distance to the Atlantic ocean.

ATLANTIC CABLES.

The cable situation on the Atlantic was a rather remarkable one. In 1914, when the war began, not a single cable crossing the Atlantic was controlled by Great Britain. During the war, the British acquired one of the two German cables, which was still being used in England. In 1921, the British government had purchased another cable so that now two cables were being operated under British control. At present there were 19 trans-Atlantic cables. Fourteen of them were controlled and owned by United States companies, two were French, two were controlled by Great Britain and one was a German cable taken over during the war for use between the United States and Italy.

NO C. N. BRITISH CABLE.

The remarkable feature of the situation, said Dr. McLaren, was that you could not send a cable from Ottawa over the Canadian National by a British cable. On the other hand, you

could take a cable to the Canadian Pacific Railway and have it transmitted over the British line.

Hon. G. P. Graham interjected that the reason for this was that the British Government gave all its return business to the C. P. R. Therefore the Canadian Government refused to give its business to the American cable line.

WANTS RETURN BUSINESS.

The matter had been before the last conference in England and he (Mr. McLaren) had informed the British Premier that Canada was prepared to make some reciprocal arrangement, but it was not willing to give all its business to the British cable without getting any business in return.

Dr. McLaren remarked that the Canadian National Telegraph Company did not reach Halifax, which was the terminus of the British cable.

Mr. Graham replied that the telegrams were transmitted by the Canadian National to Halifax notwithstanding.

FREIGHTER TOTAL LOSS.

KENTUCKY HOLDS HUGE LIQUOR STOCK

Pre-prohibition Whiskey Under Government Guard in Southern States.

There are 20,000,000 gallons of pre-prohibition whiskey now in storage in the United States, under government supervision, and its owners, mostly wholesalers caught with the stock on their hands when national enforcement became effective, cannot dispose of it except as the government may direct, says an Associated Press dispatch from Washington.

Prohibition Commissioner Haynes believes the government should purchase this whiskey, most of which is stored in 28 concentration warehouses, located largely in Kentucky. Legally, he points out, there has been no whiskey manufactured in this country since January 1, 1922, and the stock now on hand, being gradually expended for medicinal purposes, Mr. Haynes estimates, will be sufficient only for another seven years.

About 1928, four years before the

present whiskey stocks is exhausted, it is expected that the government will authorize the manufacture of whiskey, so that four-year-old spirits may be available as medicine at the time the pre-prohibition supply becomes exhausted. Consumption by prescription is now about 1,750,000 gallons annually, Mr. Haynes says, compared to some 30,000,000 gallons of whiskey before prohibition.

BUYS CANADIAN COMPANY.

BURLINGTON, Vt., May 7—John E. Booth, of this city, announced today that he had purchased the Burlington agency of the J. R. Booth Limited, Lumber Company of Canada. The local firm was founded half a century ago by the famous Canadian lumberman.

ATTENDED CELEBRATION.

A. G. Burnham, who represented the New Brunswick Historical Society at the 300th anniversary of the institution of the Order of Barons of Nova Scotia by King James I. in 1625, arrived home last evening on the steamer *Empress*. The celebration was held at Annapolis Royal and Mr. Burnham states that it was a great success.

JUDGMENT LATER.

Argument was concluded yesterday afternoon at a postponed hearing in

County Court Chambers before Judge J. A. Barry in the matter of a review from the judgment of Magistrate H. G. S. Adams, of East Saint John, in the case of W. A. Johnston, convicted

recently on the charge of driving his car in such a manner as to endanger life and limb, a little girl having been injured. The defendant, who appealed from the decision, was fined, at the time,

\$75 and costs. The court will consider the matter and judgment will be given later. E. J. Henneberry appeared for Mr. Johnston and H. A. Porter for the magistrate.

What They Say has been said by Thousands

Constipation, skin and stomach disorders banished—
 Energy restored—with one simple fresh food

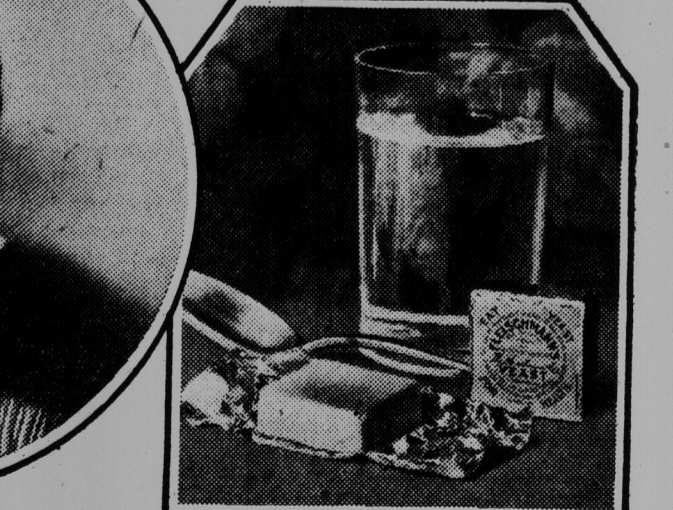

"I AM A LIFE-LONG newspaper man. Following several years of travel and residence in remote sections, I became afflicted with chronic indigestion and other ills which caused almost constant distress. I began taking

two cakes of Fleischmann's Yeast daily. In short time relief was afforded, until after two or three months no more was needed. I am now in fine condition in every respect."
 (George F. Weeks, Washington, D. C.)

"I WAS IRRITABLE, nervous, weak, an old young man with a blotchy face. I applied for a job in a R. E. Shop. Each day I was about to quit, for I felt I couldn't do a man's job. Intestinal poisons clogged my system. My wife suggested Fleischmann's Yeast. I began taking one cake in hot water regularly before I ate. I was rewarded. Not a blotch remains. I am a new man, full of vim, pep, vigor—with ruddy complexion and master of my job."
 (M. J. Barton, Deer Lodge, Montana)

"AS A PROFESSIONAL WOMAN, housekeeper and clubwoman, health and appearance are of paramount importance to me. I was threatened with a breakdown—below par, constipated, and accumulating fat. I tried Fleischmann's Yeast. How splendid the effect! Constipation gone—no further tendency toward ill-placed fat—normal vitality, efficiency, appearance."
 (Mrs. B. B. McFarland, Rocky Ford, Colo.)

EAT 2 OR 3 CAKES regularly every day before meals: on crackers—in fruit juices or milk—or just plain. For constipation especially, dissolve one cake in hot water (not scalding) night and morning.

FLEISCHMANN'S YEAST IS MADE IN CANADA

Chicago Nurse Pays Remarkable Tribute to Yeast Treatment

Miss Gayle Pond, R. N., of 222 E. Huron St., Chicago, tells a vivid and interesting story of her experience with the famous little foil-wrapped cakes. Here is the letter she wrote to The Fleischmann Company:

"AS A GRADUATE of a Chicago hospital, I have had the great advantage of working with some of the most eminent men in the medical world. But diets, treatments and exercises, invaluable to many others, failed to give me any permanent relief.

"For years I fought a chronic constipation and I firmly believe that in the past two months yeast has accomplished what faithful dieting and regular exercise had failed to do.

"Despairing of ever being entirely well, I began eating yeast, merely to satisfy a friend who had urged me to try it. At the end of two weeks—skepticism gave way to amazement. My chronic constipation and dull headaches had begun to disappear. In one month I was feeling better than I had for ten years. And now at the end of two months I am absolutely normal.

"In my position as supervising nurse in the health department of a large utility company I find constipation one of the most common ailments among our employees. And I consider yeast the best remedy that I can advise for it."

NOT a "cure-all," not a medicine in any sense—Fleischmann's Yeast is simply a remarkable fresh food.

The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active. And day by day it releases new stores of energy.

Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days. All grocers have Fleischmann's Yeast. Start eating it today!

And let us send you a free copy of our latest booklet on Yeast for Health. Health Research Dept. 429, The Fleischmann Co., 208 Simcoe St., Toronto, Ont., Can.

WHAT joy the new gloves have brought to the hearts of les Parisiennes—and now to les Canadiennes! Paris in the Spring! This year the flower vendors have competition in multi-colored, decorated gloves.

A riot of lovely cuffs . . . embroidered, piped, shirred, cut in different shapes, some drooping, some with saucy contrasts in colors . . . daring, yes, but très chic.

Kayser observers in Paris sketched the coming models and cabled us. Now in your own shops, as if they were smuggling along the Tuileries Gardens on the Rue de Rivoli or on the Rue de la Paix, you can find Kayser's latest creations, faithful copies of the favorites in Paris.

Kayser alone sets the pace in transmitting le dernier cri in gloves to Canada. See them at once. In many shades, many styles—Spring-weight silk at prices which delight the slim pocketbook of the smart Parisienne. So buy several pairs, remembering that the ungloved hand is quite passé.

FOOD PRICE CONTROL IN BRITAIN URGED

COMMISSION GIVES RESULTS OF INQUIRY

Importance of Inter-Empire Trade Is Stressed by Royal Body

ONE MAJORITY; TWO MINORITY REPORTS

Recommends Close Watch on Port Charges Placed on Wheat Imports.

By LLOYD ALLEN

United Press Staff Correspondent.

LONDON, May 8.—Establishment of a government food council to maintain continuous supervision over staple food trades and intervene in behalf of the consumer when prices tend to become unreasonable, was recommended in the first reports of the Royal Food Commission issued today—

one majority and two minority. The chief feature of interest of the majority report from the Canadian point of view, is probably a suggestion which it contains for co-operation with the governments of the Dominions regarding inter-Empire commerce in food supplies.

INTER-EMPIRE TRADE

It may be desirable, the report declares, to discuss with the Dominion governments the possibility of encouraging the flow of food to the markets of Great Britain, in the interests of both the producer and the consumer. The suggestion is also made that the port authorities of the Old Country give careful consideration to their port charges on wheat with a view if possible, to making reductions in the near future. The principal recommendations from the British consumers point of view, is the establishment of a food council to maintain supervision over the staple food trades.

SOME RESERVATIONS

The majority report is signed with various reservations by Sir Auckland Geddes, the chairman, and other members of the commission. Two commissioners, T. H. Ryland and Walter Smith, submit minority reports. The majority recommend that the food council after its establishment in connection with future developments in the supply of chilled and frozen meat from this source should be dominated by an adverse trading combination.

BREAD QUESTION

In connection with the baking and distribution of bread, the commission recommends that the food council investigate the apparent overlapping, maintain close supervision and intervene when prices tend to become unreasonable; watch the operations of the milling and price-fixing associations and intervene if necessary in the interests of the consumer. The commission recommends that the proprietors of cold storage plants be required to furnish statistics of the stocks of meat held, these figures to be published if the food council so decides.

REPORT TO LEAGUE

The government, it is suggested, should exercise its influence to insure the continuous study of international food problems by the economic section of the League of Nations, and the preparation of periodical reports for the council of the league.

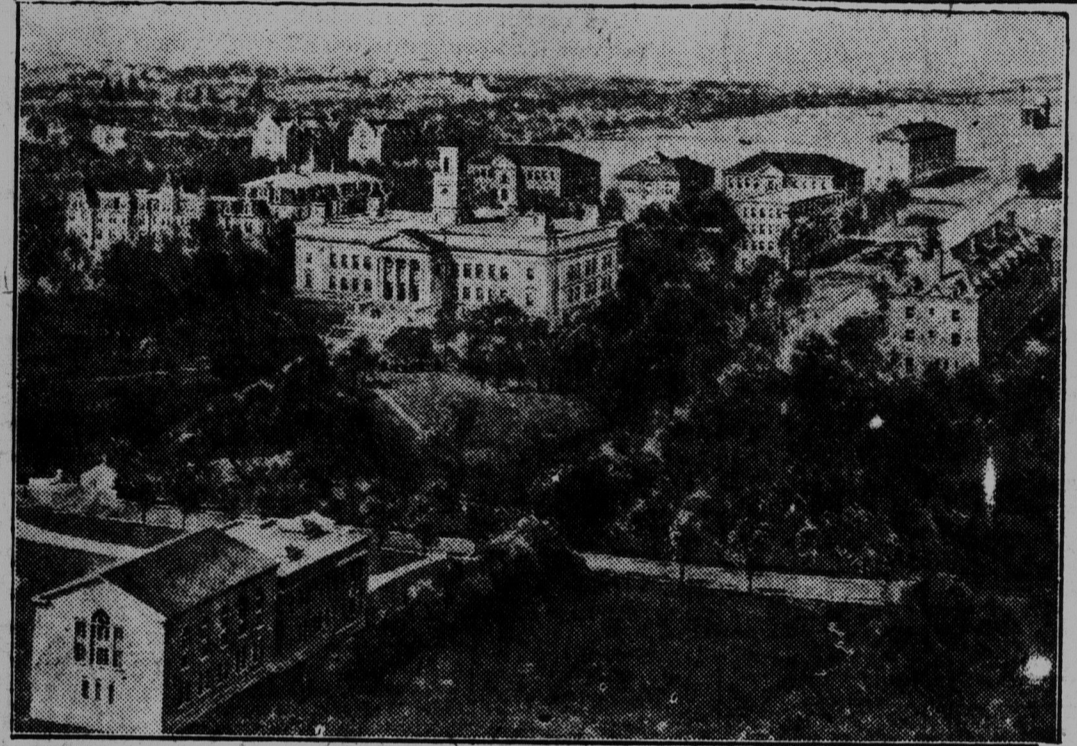

PREPARE FOR ANNUAL

The monthly meeting of the New Brunswick Protestant Orphanage directors was held last night in the Board of Trade rooms with W. A. Lockhart presiding in the absence of D. C. Clark and Dr. James Manning. Preparations for the annual meeting on Monday afternoon were completed and the reports received were satisfactory. There are now 168 children in the care of the institution.

THREE CONVICTED IN SHIP HOLDUP CASE

Two Get Jail Terms and Fines and Third, Fine in Lunenburg.

LUNENBURG, N. S., May 7.—Judge George Patterson, presiding in the County Court here today, disposed of the cases of Thomas Lynch, of Boston, Harry Ryan, of New York, and David Press and John Thompson, addresses not stated, who were arrested here Feb. 12 in connection with a series of alleged armed holdups and assaults on the liquor-laden schooner Ellice B. Lynch.

Thompson and Ryan, convicted of assault and theft, were each sentenced to three months' imprisonment and, in addition, Lynch was fined \$650 and Thompson and Ryan, \$150 each. Press was exonerated. The prison sentences date from February 12, the day the men were arrested. The fines were paid at the conclusion of the case.

BOTH NEGLIGENT

Parties May Argue Later in Collision Case in Fredericton Court.

FREDERICTON, May 8.—The jury in the suit of William E. Farrell vs. Stoddart Canadian Agencies, Ltd. and W. H. Matthews, found both parties negligent and Judge Crockett told the counsel for the defense that there would be an opportunity to argue later. The jury was out from 11 a.m. to 2 p.m. and reported to the judge three times. The jury said that the collision, which was the foundation for the suit, would not have occurred had there not been negligence by both parties.

Moncton Men Plan Maritime Trade Parley

MONCTON, May 7.—A conference to which every Board of Trade in the Maritime Provinces will be asked to send representatives may be held in Moncton in the near future. The proposal to hold a meeting for the purpose of giving careful consideration to trade conditions in the Maritimes was made some time ago by A. M. Belding, of Saint John, after his cross-continent trip. Arrangements have not yet reached the stage where the programme can be announced, but it is probable the sessions will last about two days. It is understood that an effort will be made to hold the conference during the present month.

PREDICT BIG CROP

Cuban Planters Arriving in New York, Say Harvest Will be Record.

NEW YORK, May 8.—Officials of Cuban sugar corporations arriving here on the Manson line Munargo, out of Antilla, Cuba, and Nassau, said the 1925 sugar crop now being harvested would be the largest in history. A heavy overproduction was predicted not only in Cuba but in all other cane-growing countries. C. B. Goodrich, president of the Santa Cecilia Sugar Corporation, said that the outlook was for a production of 4,800,000 tons in Cuba, compared with 4,287,000 tons last year. The final figures may be revised downward if the present heavy rains in Cuba continue, he said. His views were confirmed by Basil Howe, a large independent planter, who said that this year's crop throughout the world will represent an overproduction of 3,000,000 tons. The present sales price of sugar, according to these officials, was near the cost of production, but consumption was increasing and they predicted higher prices by winter.

SAYS CATHEDRAL OUTRAGE PLAN OF 2 SOCIETIES

Alleges Two Men Committed Deed and Two Others Sheltered Criminals

ONE IS COMMUNIST, OTHER SACRISTAN

Holds Both Organizations Equally Responsible For Attempt on King's Life.

SOFA, May 8.—The public prosecutor, addressing the court martial today demanded the death penalty for four of the prisoners being tried on charges of complicity in the Sveti Kral Cathedral bombing tragedy, which resulted in the deaths of 160 persons, and the injury of many others. The extreme penalty was asked against Marco Friedmann and Peter Zagorski, as having prepared and perpetrated the outrage, and against Georgi Koeff, and Dimitar Daskaloff, for harboring the actual criminals after the crime.

ONE IS COMMUNIST, Friedmann is a Communist and Zagorski was the Sacristan of the cathedral. The prosecutor emphasized the evidence of Friedmann's activities in transmitting orders and decisions from the Communist secret committee to the smaller organizations. The cathedral bombing, he declared, was the result of the combined efforts of two clandestine associations, Communist and Agrarian, whose parallel activities aimed at changing the constitutional regime. They were equally responsible for the recent attempt on the life of King Boris.

U. S. SEEKS PLAN OF TRAFFIC CONTROL

Special Warnings at Railway Crossings Which Cannot be Ignored.

WASHINGTON, May 8.—Motorists traveling on transcontinental highways will be warned of railroad crossings, treacherous curves and other danger points by signs painted in bright yellow, if plans tentatively drafted by the joint board on interstate highways are adopted.

A system of uniform marking, routing and numbering of all interstate roadways was recommended by the board after its recent sessions here and announcement of the recommendation was made today by the Department of Agriculture, which is sponsoring the movement.

Recommendations.
A complete draft of the recommendations has been forwarded to the highway control departments of all states for approval or amendatory suggestions. Regional meetings will be called at New York, San Francisco, Kansas City, Chicago, Atlanta and Boston during the next two months for the purpose of acting upon the board's proposals. Action taken at these meetings will be reviewed and correlated when the joint federal and state board meets early in August.

Uniform Markings.
Under the tentative plan adopted by the board all interstate roadways would be designated by numerous uniform markers, in the form of shields with white backgrounds and upon which "U. S." would be lettered in black. Large numerals on the shields would identify the route.

Danger signs at all railroad crossings would be octagonal in shape and warn the traveller to stop. A diamond shaped sign would warn the driver to slow down, while a square sign would caution him to "look" or attention. Directional and informational signs would be rectangular in shape.

Colors tentatively adopted for non-luminous signs are yellow for warning and danger signs and white for direc-

CADETS ENTERTAIN WELL IN FAIRVILLE

Excellent Programme Given to Raise Funds For Boys' Uniforms.

Under the auspices of the Fairville cadets and their instructor, I. Newton Fainjoy, a splendid entertainment of unusual interest was given last night in Orange Hall, Fairville, to raise funds for the Fairville cadets' uniforms. Colonel A. B. Snow, cadet officer, spoke on the value of cadet training in developing good citizens. He told his audience the training had not for its aim military service. Colonel Snow also contributed one of the specially enjoyed numbers on the program, reciting "The Charge of The Light Brigade" as it might be rendered by various types of people.

Captain D. V. Palm, cadet instructor, made an earnest plea for the interest and support of the citizens in the cadet movement. Besides taking part in the acrobatic stunts, he gave two vocal solos that were heartily applauded.

Among those who took part in the programme were Miss Sadie Cougle, Miss Hazel McCumber, and Ronald Shaw. Candy was sold during the evening. Captain Palm's troupe of athletes gave a fine performance.

C. G. I. T. BANQUET

Successful Event is Held in St. Andrew's Church For Mothers and Daughters.

The Sunrise C. G. I. T. group of St. Andrew's church, of which Miss Nan Forteous is leader, gave a mother and daughter banquet last night that was an unqualified success. About 25 sat down to the supper which was admirably served by the O-Be Useful C. G. I. T. group, of which Miss Alice Murdoch is leader. Grace Hart, president of the Sunrise group, presided and was toastmistress.

The tables were decorated with the group colors of mauve and yellow and were centred with daffodils. Special guests were Rev. J. S. Bonnell, Mr. and Mrs. J. H. Murphy and Miss Marjorie Trotter, girls' work secretary.

The Toast List.

Following the toast to The King, which was given musical honors, Frances Whitton proposed the toast to Our Mothers by singing "Mother Machree." Mrs. A. S. Stockhouse replied. Mrs. R. Forteous proposed the toast to Our Daughters, to which Myrna Semple replied and the group sang "To Our Mothers." The toast to the Church was proposed by Dorothy Stockhouse and replied to by Rev. J. S. Bonnell. Miss Trotter proposed the toast to the C. G. I. T. and the group replied by singing "If she has a sunny smile she's C. G. I. T." The programme opened with the singing of the C. G. I. T. grace and closed with the C. G. I. T. taps.

In 429-Acre Section Live 219,256 People

NEW YORK, May 8.—The most densely populated area in the world is a section of the lower East Side of New York, which runs from Rivington street to Fourteenth street and from the Bowery to the East River, according to the League for American Citizenship.

In this district, which contains 429 acres, live 219,256 persons. This would mean a population of 327,040 persons to the square mile, while the average population per square mile in the United States is 36.

It is estimated that if the rest of New York were as thickly people, the city would contain nearly as many persons as live in the entire nation.

B. C. FISH HITS NEW HIGH AT MONTREAL

Detroit United Railway and Asbestos Also Figure in Activity.

NEW YORK, May 8.—For the seventh consecutive session, the main trend of prices was upward, at the opening of today's stock market. The initial demand centred largely in the public utilities and industrial specialties. Columbia Gas and Electric, International Cement and American Car and Foundry attaining new peak prices in the first few minutes of trading. Wilson Company preferred, Westinghouse Electric and Standard Gas and Electric opened 1/4 to 1/2 points higher.

MONTREAL, May 8.—The establishment of a new high at 83 1/2 by British Columbia Fish, which was easily the most active issue, featured the opening of today's stock market. The stock opened up 3/4 at 84 1/4, then quickly ascended 1 1/4 more. Yesterday the shares gained 8 1/2 on a report that the directors of the company were meeting in New York. Detroit United Railway and Asbestos preferred came next in activity, but were unchanged at 7 1/2 and 10 1/2 respectively. Other leaders to appear the same were Canada Cement at 10 1/2, and Winnipeg Rails at 4 1/2. National Breweries eased 1/4 to 80 3/4, while Waynagack sagged to 44 1/2. The only other change was in Street of Canada, which strengthened 1/4 to 85 1/4.

Morning Stock Letter

NEW YORK, May 8.—Heavy profit-taking yesterday had no effect on the strength of the market. In fact, concentrated selling in the afternoon failed to bring out any liquidation. Stocks were in good demand. Wall Street was carefully watched for signs of the flight of traffic that is characteristic of the auto industry. The auto industry seems destined to have a very good year. The recent decline in grain prices is favorable. Copper and other metals, including some, are being watched for improvement. The president of the Rock Island yesterday told stockholders that the merger of his system with the Southern Pacific was regarded as logical by the management of both roads. It is in time with the market. Very good interests in wall street are bullish on L. and N. Gas stocks continue in demand and we expect them all to sell higher. Steel, oil, and brass are making the best money and will go higher. It is a summer has been behind the market for some time.

Current Events

NEW YORK, May 8.—Willis Overland may further reduce accrued dividend paying partly common and preferred after annual meeting next week. New York Federal Reserve Bank rate unchanged at 3 1/2%. American Beer Sugar earned \$600 million in 1924 year ended March 31, against \$510 million previous year. California Price declared regular quarterly \$10 on common and preferred. New York Bank 7 1/2 against \$24 and \$21. Maxwell Motor extends time for deposits of Class A and B stocks to May 22. Judge Gary says U. S. Steel is catching up a little with advance orders, but world situation is good and outlook promising. Steel figure production in U. S. in April 5,587,524 tons against 4,198,520 in March and 3,848,445 in April 1924. Penn. Seaboard Steel Corporation reports loss of \$100,000 before depreciation for March quarter. MONTREAL, May 8.—The passing of a resolution of the C. F. R. meeting giving authority to issue 4 1/2% debenture stock to cover the cost of the company's share of the Toronto viaduct, calls attention to the fact that the stock of Canada is likely to benefit to a large extent in view of the fact that the contract. Steady investment accumulation which has been going on for several months has had the effect of greatly reducing the floating supply, which is understood now to be in the hands of only 12,000 holders.

In Parliament Today

THE SENATE stands adjourned until Tuesday. IN THE HOUSE—Government orders will be considered. The branch line bills at present on the order papers will be taken up.

Pleasing Concert Given by Choir

The choir of St. Matthew's church held a successful concert last evening under the direction of Mrs. George Wallace, wife of the choir-master. Miss Katie Fox, organist, was accompanied, and Mr. Wallace also assisted. Rev. J. W. Britton was chairman. Songs were given by Rev. Mr. Britton, Mrs. O. Brentnall, Miss Madeline Daly, Miss Annie Ald, and Eldridge Eastman. Others on the programme were Miss Hannah Marshall, O. Morrissey, Miss Mac Bette, and Harold Taylor. Others who added greatly to the entertainment were Masters Donald McLeod and Ronald McLaren, who played the piano and drums and taps respectively in a duet. Master McLeod also gave a piano solo, and Master McLaren played on drums and taps respectively in a duet. Mrs. George Wallace accompanied them on the violin. Miss Fox accompanied Master McLaren in his solo selection.

Brokers' Opinions

NEW YORK, May 8.—Hornblower—"We would hold to a general longer position and would advise our clients to only on recessions except where special moves may develop. We would continue to follow the buying side on in Allied, Pullman, I.P., and Conk Gas. We expect new high prices in these issues immediately." Houseman & Co.—"It is our opinion that opportunities for judicious buying exist, perhaps to a greater extent in the rail than in the bank and office of the market." Clark Childs—"Buying of American Gas proceeds in confidence in the range of stocks."

SAINT JOHN GETS ANOTHER S. S. LINE

Summer Service Linking Maritime With Upper Canada to Start in Fortnight.

A steamship service that will link the Maritime Provinces with Ontario and Quebec during the summer months will be put into operation this month by the Kirkwood Line, according to announcement yesterday. The ports of call will be Halifax and Saint John and Montreal, Toronto and Kingston. The present plans call for monthly sailings but they may be more frequent. The steamer "Forhaman", 4,000 tons deadweight, is scheduled to sail as follows: From Hamilton, May 7; from Toronto, May 9; from Montreal, May 12; thence to Halifax and Saint John, leaving Saint John about May 20. On this first sailing there is a possibility of the steamer being delayed at Montreal about a week for survey and other attention. This service, it is said, will fill a long felt want, and should be the means of linking up Quebec and Ontario with the Maritimes at attractive freight rates.

AGENT COMING HERE

Mr. Noble, of the Kirkwood Line, expects to be in Saint John shortly, when he will interview all those likely to be interested. It is believed that this service is being assured by nucleus westbound cargoes already arranged, but it is hoped that local dealers will take all possible advantage of the new line.

INDUSTRIES OF NEW ENGLAND SURVEYED

Boston Chamber of Commerce to Make Result Known as Start in Expansion.

BOSTON, May 8.—A series of surveys, each dealing with one of the great New England industries, is soon to be made public by the Boston Chamber of Commerce as a result of investigations made by committees of business men. They are described as a new and different kind of estimate of industrial conditions in this part of the country, presenting facts impartially with the constructive purpose of making the facts the starting point for future action in industrial upbuilding. Starting with a survey of the shoe manufacturing industry, the series is to take up cotton manufacturing, fisheries, agriculture, machine shops and foundries and possibly other industries. "In every case," says a chamber statement, "the purpose and the plan are the same—to ascertain the facts and tell the facts to New England public, to suppress no fact because it may be unpleasant and to magnify no fact chiefly because it is agreeable. All over New England are towns and cities whose names have become known round the world as synonyms for certain commodities. Fall River—textiles; Lynn—shoes; Wincledon—loys; Gardner—chairs; Barre—granite; Winooski—wire screens—Providence—jewelry; the Naugatuck Valley—hardware. The roster is long. When the outer world challenges the supremacy of these communities in their respective commodities, what shall these communities do? These surveys seek to obtain genuine answers to this question.

Experts Collected and Organized the data. Competent committees approved the surveys as finally formulated. Disinterested authorities audited them.

B-H

for Achieving Home Beauty

Nothing can be more inspiring than a freshly painted home. Bright and immaculate, it seems to reflect the pure joy of living. Paint brings beauty but even more than that, it protects and preserves and adds years to the life of valuable property.

B-H English Paint assures painting success. The first brush-dip tells its own story of quality. Absolutely pure and free from grit or lumps, it spreads with silky smoothness, leaving a trail of matchless beauty that transforms the duller surface.

B-H English Paint

protects and preserves to an unusual degree. It spreads further—effectively—gallon for gallon, than any other paint. Its lustrous film is air-tight. The sun cannot blister it. It is tough and unyielding yet elastic enough to expand or contract with the temperature. Therefore its beauty lasts and lasts. Beauty, endurance and covering capacity are common to all B-H products. The name guarantees them.

The B-H dealer has a B-H product for every paint or varnish need. Let him help you with your paint jobs this season.

Brandram-Henderson Limited plans to assist Property Owners. We will gladly furnish full particulars of the new plan, whereby owners of property can benefit by arrangements which enable them to paint their property on the partial payment plan basis. Write to us for full details.

Brush Away the Marks of Time

That front door threshold of yours—kind of shabby, isn't it? And maybe the stairs, and the bathroom—any surface around the house that is subject to wear, or weather—or time, for that matter.

You can make dull surfaces shine with newly-found brilliancy if you give them a coat of Murphy Da-cote Universh.

It is the varnish of a hundred uses—easy to put on, quick to dry, durable. Hot water, soap, alkali—even strong ammonia doesn't injure it. It banishes the amateur painter's fear of using varnish. A varnish and stain in one, it brushes freely, flows on smoothly, gives a clean, beautiful finish. In six wood colors—Light Oak, Dark Oak, Walnut, Light Mahogany, Dark Mahogany and Green, and Clear. Use it for your furniture, linoleum or trim. It makes them look like new.

It's all in the way the walls are built

The value of a refrigerator lies in its ability to keep heat out and to keep the cold in. The walls of the Brantford "Quality" Refrigerator do this. They are several inches thick, and contain mineral wool, cerite paper, wood, building paper and other heat-resisting materials with several dead air spaces in between, making in all 12 distinct walls of insulation.

This construction enables the Brantford to maintain a uniformly low temperature inside the refrigerator no matter how hot may be the temperature of the room in which it is placed.

Select a Brantford because of its beauty—its extra provision chamber—its circulating air system and its economical use of ice.

Insist on a Brantford—for health and economy.

Brantford refrigerators are constructed so you can install electric refrigeration at any time.

World's Heavyweight Champion Insists He Will Not Fight Abroad

Along The Sport Trail

By RAY HANSEN

LOCAL BASEBALL fans are now practically assured of seeing visiting professional baseball teams here from the States during the summer months. Halifax has definitely decided on having a program and are already arranging for staging series of games with barnstorming nines.

RABBIT MARANVILLE, star second baseman of the Chicago Cubs and formerly star shortstop of the Pittsburgh Pirates, whose ankle was broken during an exhibition game in Los Angeles, is now able to walk with the aid of a cane.

CLAUDE FALKNER, the English billiard star, who passed through Saint John a few weeks ago on a tour around the world, has been playing sensationally in several Canadian cities.

WEDDER HEALEY is out with a challenge for George Field and is anxious for the bout to be staged in this city. It is doubtful if the match would make a good drawing card.

LEFTY GROVES, the pitcher who Connie Mack turned over \$106,000 from men for, may be one of the most expensive lemons ever purchased in the big leagues.

ARRANGING TO STAGE TOURNAMENT FOR SCHOOL BOYS OF CITY. Arrangements for the third annual school boys athletic meet to be staged by the Saint John Y. M. C. A. on May 16 and 17, are being rapidly completed.

CLEVELAND FORCES TRIPLE TIE FOR LEADERSHIP OF AM. LEAGUE

Initial Series Today Offers Acid Test for Spring Winning Streaks of Teams in Both Circuits

NEW YORK, May 8.—Opening today of the initial series of the big league season between teams of the East and West offers the acid test for spring winning streaks in both sections as well as the first serious challenge to champion leaders in both circuits.

Cleveland forced another triple tie for the leadership of the American League yesterday, by turning back the White Sox, 7 to 2, while Philadelphia and Washington were idle.

Babe Ruth Still Unable to Walk. NEW YORK, May 8.—Babe Ruth roared again at St. Vincent's Hospital yesterday, turning the second floor in a wheel chair for about an hour.

WRESTLING. "Strangler" Lewis Defeated Alex Lunden, Swedish Champion, in Boston Bout.

BOSTON, May 8.—Ed "Strangler" Lewis, who claims the world's heavyweight wrestling championship, defeated Alex Lunden, Swedish champion, here last night, in one fall, after one hour and five minutes of wrestling.

BOWLING. The C. P. R. team won from the New-Brunswick Telephone Company bowlers last night on the Imperial alley.

WILL ARRANGE GAME. The Hawks cannot accept the challenge of the Warriors for a game of baseball this evening, but will let the challengers know when a game can be arranged.

ST. F. X. ACCEPTS INVITATION TO ENTER BIG MEET

Most Elaborate Track And Field Event In Years

FREDERICTON, N. B., May 8.—St. Francis Xavier University of Antigonish, N. S., has accepted an invitation to send a team here to compete with Acadia University of Wolfville, N. S., and University of New Brunswick on Tuesday, May 19, in a track and field meet for the intercollegiate championships of the Maritime Provinces.

Three-Cornered Affair. Thus the intercollegiate athletic meet which will feature an event which the University of New Brunswick this year, and which is expected to bring back to Fredericton for a reunion and the dedication of the War Memorial building the biggest gathering of the alumni in recent years, will be a three-cornered affair.

Decline Invitation. Mount Allison University of Sackville was asked to decline an invitation to compete, but, probably because the closing exercises at Sackville will be in full swing at that time, the Garnet and Gold declined the invitation.

Events on Program. The Maritime Provinces conference has ruled governing intercollegiate track and field championships, and these will be effected at the three-cornered meet here. Ten events are prescribed for the intercollegiate championships.

ATHLETIC MEET. Y. M. C. A. Arranging to Stage Tournament For School Boys of City.

JACK DEMPSEY AND BRIDE SAIL FROM NEW YORK

Said To Have Signed For Appearance on Berlin Stage

NEW YORK, May 8.—Jack Dempsey forsook New York and America for about six weeks Wednesday when, accompanied by his wife, the former Estelle Taylor, the world's heavyweight champion sailed on the Cunard liner Berengaria for Europe.

Despite Dempsey's protestations, it was revealed that the champion had been dickered since his arrival in New York for theatrical and moving picture work and it was reported that Dempsey would try a turn on the stage abroad.

YOUNG STRIBLING DEFEATS ROMERO. Is Awarded Technical Knockout Over Chilean Heavyweight in Fourth Round.

BOSTON, May 8.—William (Young) Stribling, Atlanta, last night won his first fight in the heavyweight class, when he was awarded a technical knockout in the fourth round over Quintin Romero, Chilean heavyweight.

It was Stribling's fight throughout. The bout opened with the Southerner sending long swinging left to the head to good advantage. He varied this attack with left jabs and right crosses to the jaw.

FILM DOUBLES ATTEMPT SOME DARING STUNTS

Hundred or More of Them Are Unsung Heroes of Hollywood

TAKE ALL CHANCES FOR STAR PERFORMERS

Interesting Insight Into One of Features of Modern Photoplay.

HOLLYWOOD, May 8.—A survey of Hollywood has just disclosed the fact that there are 100 unheralded and unnamed heroes and heroines here employed in the dangerous business of "doubling"—gambling life in the hazardous film stunts the stars do not wish to undertake.

The double, as all the world knows, is the merry young man or woman who does the daring leap from the airplane or the part of the lad at the wheel when the automobile crashes over the cliff.

Make Up Like Stars. Stars are employed because of their proficiency as actors—not for their skill as acrobats. Even if the star expressed a willingness to perform a daring stunt, it is doubtful if his director would permit him to.

A slight injury to the leading player while a picture is in progress would cause a serious delay in time and an enormous loss in money.

When a thrill is needed for a picture a double closely resembling the star is selected. The make-up box and a trained make-up man soon make doubles look like a twin sister or brother. On the screen it is almost impossible to detect the doubles from the stars.

Horse Has Double. Many of the feats of horseback riding generally accredited to Mary Pickford are really done by Marilyn Mills. Even Mary's famous horse "Beverly" has a double.

Milton Sills, who was once pictured as being thrown headlong from the top of a moving train, was applying Leo Noomis, his "double," while the scene was being taken.

Sometimes men double for women. Harvey Perry, a muscular young man, doubled for Shirley Mason when the script called for the star to jump from the edge of a cliff into the sea.

Winnie Brown, equestrienne, doubles for some of the most prominent ac-

rosses in filmdom, including Pola Negri, the Talmadge sisters, Gladys Brockwell and Priscilla Dean.

Medical Men Fight For Nose Protection

SAN FRANCISCO, May 8.—The nose is the medical battleground of the future, according to Dr. Josef Novitzky, San Francisco dental surgeon.

"Primitive man was a hunter and a runner," he said today. "As a result his nose was one of the most important organs, not only because of a much keener sense of smell, but because his deep breathing developed breadth of nostrils and larger nasal cavities."

"Civilization, with its softening influences, is making man's nose smaller, his nasal passages narrower, and making him more susceptible to infections and disease."

Dr. Novitzky contends that medical science will be forced to give increasing attention to strengthening nasal bones in order to counterbalance this condition.

GAS IN STOMACH HURTS THE HEART

Thousands of Cases of Heart Failure Are Caused by Acute Indigestion, Says Medical Writer.

Gas pressure from sour, acid, upset stomach is not only nauseating and highly uncomfortable but some day it may prove fatal.

When your meals are followed by bloating, a feeling of fullness or pressure, shortness of breath and pains around the heart, you may be sure that the acid condition of your stomach is producing a GAS that is pushing upwards and crowding your heart. That is the reason for the shortness of breath and sharp, shooting pains.

Whether young or old, the presence of stomach gas is a truly serious and should always be given prompt and careful attention.

To quickly banish gas, cleanse and sweeten the stomach, neutralize the acidity—nothing is better than the daily or "as needed" use of ordinary Bisulphate Magnesia. It gives almost instant relief.

Any good druggist can supply Bisulphate Magnesia, in powder or tablet form, at very small cost—but be sure you get BISULPHATE Magnesia—recommended by Doctors and Druggists throughout the civilized world for more than 15 years.

VISITORS SET NEW LONDON ZOO RECORD

Attendance For Year Sets New Mark—Interesting Items in Food List.

LONDON, May 8.—A most interesting feature of the London Zoo's annual report is the list of food consumed by the specimens during the past year.

There is an item of 4 1/2 tons of cod, against which is the remark "walrus only." That represents only part of the rations of "Old Bill."

Beasts of prey devoured 440 horses and 99 goats. Fruit including 218,000 bananas with nearly two tons of grapes, but only 72 lemons.

Hay and clover totalled 242 tons, and about 98 tons of herring and whiting went to the fish-eaters, as well as 1,900

plants of shrimps. A few items are peculiarly small, such as 4 lb. of sugar, 2 marrows, and 12 beetroots.

Charm School Presentation by Local Amateurs Again Pleases Greatly.

The "Charm School" presented again last evening in St. Vincent's auditorium before another capacity audience in aid of Stella Maria church, East Saint John, is one of the most delectable performances presented here this season, and that it has been staged by amateurs does not in one whit detract from the performance.

Mrs. A. C. D. Wilson, who directed the production and the cast of characters, have done an excellent piece of work and set a high standard. Many of the players are brand new to the footlights, but all did their bits in a realistic manner.

The stage settings were excellently arranged and quite in keeping with the piece.

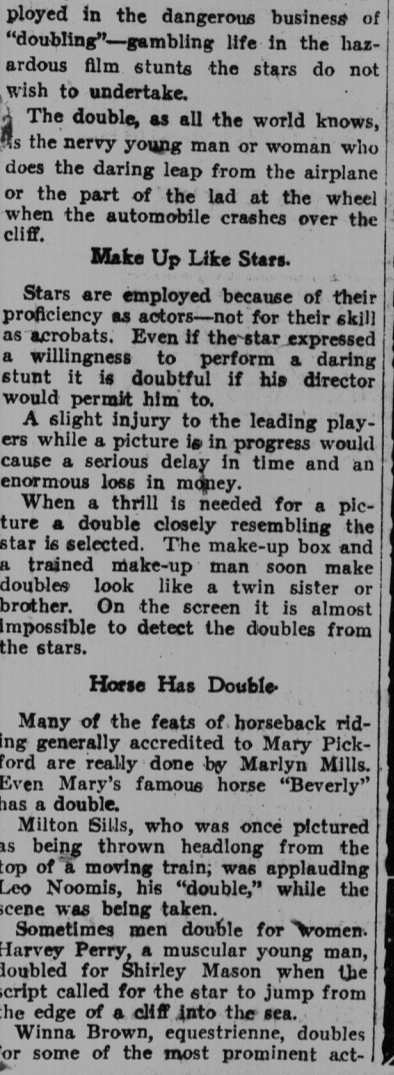

The way in which the principal roles were handled was an eye-opener to those who expected an amateurish performance, for although the lines were lengthy and extended there was not a break or a slip.

Mrs. A. C. D. Wilson, who directed the production and the cast of characters, have done an excellent piece of work and set a high standard. Many of the players are brand new to the footlights, but all did their bits in a realistic manner.

Betty Blythe Was Not Kidnapped

NEW YORK, May 8.—A story circulated in this country in the form of a cable dispatch from London, announced that Betty Blythe, American film star, "had been captured by Bedouins in Palestine according to a cable received by her London agent," that the agent had applied to American and British authorities to rescue the actress and that troops had been dispatched.

It was stated also that "two Frenchmen riding with Miss Blythe were wounded during severe fighting with Bedouins before the actress was dragged away into the desert."

The Associated Press and Reuters Agency have investigated the story, and Reuters's correspondent located Miss Blythe last night safe at Mt. Carmel.

The investigation shows that there has been no attack on her party and that the Jerusalem authorities are surprised at the story.

The story about Miss Blythe was hounded through London but was not accepted by London newspapers.

When the cheering had subsided, Mr. Brown pledged \$50,000 a year apart from the trust fund sum to supplement federation work. The dinner had been planned as a festive occasion. It turned into an ovation for Mr. Brown.

The trust fund is one of the largest individual gifts made by Jewish charities in New York City. Mr. Brown has been active in social welfare work for several years, although his philanthropies have been known to but few persons. He accumulated his fortune in New York City real estate in the last 10 years.

At the performance on Wednesday several patients from the East Saint John Hospital were guests, on invitation of Father Walker, and express their thanks for the courtesy and for the keen enjoyment given them in the production.

Fugitive Escapes in Old Tanyard But Leaves His Hat.

A wild dash through the streets of the city in the dead hours of the night with a would-be thief finally winning the mad race from a citizen and a policeman was reported at police headquarters this morning. Nothing was known from where the intruder broke in but in his haste to make a clean getaway, he dropped his hat and this is now in possession of Sergt. Detective Power and his assistants.

Woman Gives Alarm
Hearing a pane of glass being smashed in the automobile store of Royden Foley's at 800 Union street about 2 o'clock this morning, a lady living nearby telephoned to Mr. Foley at his residence in Pitt street, stating she had suspicions that someone was trying to break in and rob the garage. Mr. Foley notified officials at the Central Police station and by the time the officers had reached the building, Mr. Foley also was there. The officers who answered the call were Policemen Ross, Dunphy and McNeill and while Policemen Ross and Mr. Foley remained outside the building to cut off any avenue of escape, the other two were set into the store by Mr. Foley from the front door.

A careful search was made on the ground floor but no one was found and the officers then climbed the stairs to the second story. The intruder, hearing them coming and believing he was trapped, ran to the rear of the building and lifting a window, leaped over the sill to the ground, a distance of about 15 feet. The officers heard the noise and rushed to the open window in time to see the unknown dash down the alley and out to the street. He ran along Union toward St. Patrick street and both Mr. Foley and Policemen Ross then gave chase.

INTO OLD TANYARD
The trio sped along St. Patrick's street with the would-be thief still maintaining a respectable lead. Once he stumbled and the chasers believed they had him but he quickly recovered and, reaching Richmond street, turned quickly into the old, deserted tanyard there and was soon lost sight of in the darkness. Mr. Foley and Policemen Ross searched carefully but were unable to find any trace of the visitor. His hat was found later.

As Hiram Sees It
"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I was out in the suburbs last evening and saw pansies in bloom, and trees budding, and grass springing—and I saw one of the most lovely sunsets beyond the broad reach of the river, that I have seen for months. It was a delightful experience."
"Well, sir," said Hiram, "me an' Hanner come into town to see them there. Y. W. C. A. gym gals performin'." Hanner is strong for trainin' the gals for their health—
"an' she made me come along to see what they'd been learnin' down here. She's gonto report to the Women's Institute. We had a fine time."
"Isn't it odd?" said Hiram, "you come out town and an' happy—and you come to town with a like result."
"Well," said Hiram, "variety's the spice of life. I'll see the sunset to night, an' you'll see the gals perform. But if you want a real restful Sunday come out to the Settlement tomorrow night."
"Is it Panacea Sunday?" asked the reporter.
"One of 'em," said Hiram. "The fifty-two of 'em in a year—out our way."

Mayor Speaks for Comfort Station There If Plan Adopted.

A recommendation that a new wing be built to the restored Court House to care for other courts which meet in the city—Admiralty, Probate, Equity and Chancery—and the judges' chambers, was made this morning by a committee from the Saint John Barristers Society to the buildings committee of the Municipal Council. The committee consisted of Judge McInturff, E. C. Weyman and H. A. Porter. They said it was advisable to have all the courts under one roof, particularly as accommodation had been made for the law library in the upper story of the court house.

Mayor Potts suggested that if this wing was built there should be provision made for a comfort station in the basement and said it would only be on condition that something along this line was done that he would support it. This he thought would be an excellent opportunity to get a comfort station at a reasonable cost.

Matter of Rentals.
A committee was appointed to ascertain what time the leases on the rooms at present used by the various courts would expire and what rent the government would be willing to pay the municipality if they provided new court rooms by building this wing. The Barristers Society asked that this proposed wing be built when the Court House was restored but the council decided not to agree with it at that time. The cost was estimated at that time at about \$100,000.

Hon. B. W. Wigney, warrant was in the chair today and Councilors Potts, Frink, Harding and Bowland were present.

H. E. Kane & Co. Appointed Agents For Saint John-India Service.

H. E. Kane & Co. have been appointed agents for the American India Line, the new monthly service to be operated from Saint John to India and they announced this morning that the first sailing would be the S. S. Jalapa about June 12. The Jalapa will be followed by the S. S. Arcturus about July 13 and the S. S. Algic about August 12 with monthly sailings thereafter. The Jalapa is now en route to Saint John from India via Boston, New York and Philadelphia.

The ports of call in India will be Karachi, Bombay, Colombo, Madras and Ceylon. The cargo will also be accepted for Port Said and East African ports.

This new service is the only direct one to India from a Canadian Atlantic port and is designed to be of great assistance to Canadian exporters and importers to increase trade between the Dominion and India, as well as placing the port of Saint John to the fore as an all-year-round port.

Plans Discussed**

The teachers and superintendent of the Sunday school of the Church of the Good Shepherd, Fairville met at the rectory last evening for a conference with their rector, Rev. F. J. Lefroy. Plans for improving the equipment of the school were discussed. Mrs. Gerard DeGeer was welcomed as a new teacher for the school. It was decided that during the summer, beginning June 1, the Sunday School would meet in the morning after service. Those present were Rev. Mr. Lefroy, chairman; Thomas Pile, superintendent of the school; Mrs. Pile, Mrs. DeGeer, Mrs. Charles Hill, and the Misses Olga Macquire, Edna Stevens, Stella Smith, Ruth Chittick, Dorothy Armstrong and Ella Dow.

FLORAL TRIBUTES

Among the many who sent flowers for the funeral of John Carlson yesterday were Mr. and Mrs. W. H. Price and daughter, Mr. and Mrs. L. Ogler and Mr. and Mrs. H. Weaver and family, who presented sprays.
