HISTORICAL SKETCH
OF
BISHOP'S COLLEGE SCHOOL.

About the year 1837, the Rev. Lucius Doolittle, a clergyman of New England birth, who lived and laboured as a missionary at Lennoxville, P.Q., started at that place a school for boys, to which came the sons of several English gentlemen who had settled in the neighbouring townships. This school—conducted in a primitive house in a primitive settlement, to which the Indians still made their yearly visit and bartered their peltries at their camp on what is now the College Island—was the nucleus from which sprang the institution whose Jubilee, together with that of the College of which it is the junior department, we celebrate this June of 1895.

Situated as Lennoxville is on the main lines of three important railways, and within half-a mile of a fourth, it is amazing to note the change from the state of things that existed in the early forties, when boys came from Quebec or Montreal by stage, and when the wolves, howling in the woods, kept all would-be truants shivering in their bunks in the old wooden schoolhouse.

Mr. Doolittle's first assistant or usher was a Mr. DeBeaumont, a man of poetical and literary tastes, who was succeeded by Mr. Wm. Wallace.

In 1841 there came as a master Mr. Edward Chapman, M.A., of Gonville and Caius College, Cambridge, who had been for some time an assistant in Dr. Lundy's Classical School at Quebec, and who, as Rector, Professor and Bursar, gave all his energies to the welfare of Bishop's College and School, and having lived a blameless life, full of honour and good deeds, died on May 26th, 1895.

It had long been the intention of the saintly Bishop Mountain to found a University in connection with the Church of England in the Province of Quebec, and when in 1845 the College, called from its founder Bishop's College, came into being as the result of the labours of the Bishop, Mr. Doolittle and others, it was resolved by the authorities that there should be a School in connection with the institution. Accordingly a prospectus was issued in the same year, and the school over which Mr. Chapman had presided was taken under the wing of the College, and Professor H. H. Miles, M.A., became the first Headmaster under the new regime.

It was the intention of the founders of the School that it should be conducted on the lines of the best English Schools, that it should be a place where the principles of honour, loyalty and self-reliance should be carefully instilled into the youth of the country and that it should act as a feeder to the College.

The Rev. J. Butler, M.A., succeeded Professor Miles as Headmaster in 1849, and Mr. Henry Roe, now the Ven. Archdeacon of the diocese was his assistant for nearly two years.

In 1854 it was deemed wise for various reasons to close the school, but in 1857, it was re-organized and re-opened under the Rev. James W. Williams, M.A., of Pembroke College, Oxford, who may well be called the Canadian Arnold. Under this great and good school-master the school prospered greatly; numbers increased, so much so that the old schoolhouse overflowed and several families in the neighbourhood took in boys as boarders.

In 1861, the first school-house on the present site was ready for use, the foundation stone of which had been laid by General Sir Fenwick Williams of Kars. It was a handsome Gothic building surmounted by a tower, and a wing was added to it in 1864.

In Dr. Williams' time, the famous Cadet corps was started, commanded at first by Henry Slack, and then by Wm. Yule, now Col. Yule of the Scots Fusilier Guards. This corps was attached to the 53rd Battalion of Sherbrooke, and was called out for duty in the first Fenian raid in 1866.

During the American war, and at its close many Southern boys came to the school, among them the son of Jefferson Davis, the ex-President of the Confederate States, who himself lived

for some time in Lennoxville, not far from the College, and whose cause was warmly espoused by the boys at that time, who naturally sympathised with their Southern comrades, although all demonstrations of feeling were rigorously repressed by the authorities.

On the appointment of Mr. Williams to the See of Quebec in 1863, the Rev. G. C. Irving, M. A. of St. Johns' College, Cambridge was appointed Rector, and it was in his time that Lennoxville was visited by the first Governor General of the Dominion, Lord Monck, who together with Lady Monck and a large party stayed for two days at Mr. Christopher Rawson's beautiful home, Elmwood, and were enthusiastically greeted by the boys, at whose sports the Vice-regal party was present.

Mr. Irving, who was a gifted and successful headmaster, met with a sad death by drowning in 1867, and was succeeded by the Rev. R. N. Walker, M. A., of Wadham College, Oxford, who after a short Rectorship of three years, was followed by the Rev. Charles H. Badgley, M. A., of Queen's College, Oxford, under whose vigorous and able administration the school greatly flourished.

Most unfortunately, however, when the prospects seemed brightest, the progress of the institution was arrested by a most serious fire, which breaking out on a Sunday in January, 1874, laid the school in ashes. The Rector was able to tide through the winter by using the gymnasium as a school-room and by billeting many boys in private families.

The new building, built from designs furnished by McDougall & Darling, of Toronto, was ready for use in the spring of 1875.

In 1877 Mr. Badgley resigned, and was succeeded by the Rev. Philip C. Read, M. A., of Lincoln College, Oxford, a most brilliant classical scholar, and probably—although he was strictness itself—the most popular Rector the school has known.

Mr. Read resigned in 1882 in order to accept the professorship of classics in Bishop's College, and the Rev. Isaac Brock, M. A., of Queen's College, Oxford, was appointed Rector. In the following year it was thought advisable to bring the college and school under one headship, and upon the resignation of Mr. Brock the Rev. J. A. Lobley, D.C.L., Trinity College, Cam-

bridge, became Rector of the school, while holding at the same time the onerous position of Principal of the College.

The health of Dr. Lobley soon gave way under the strain of so great a responsibility, and when he resigned in 1885 the Rev. Thomas Adams, D.C.L., St. John's College, Cambridge, became Principal and Rector.

It is almost unnecessary to speak of the unceasing and successful efforts of Dr. Adams, not only to build up the school, but to advance its prosperity in every way. In 1888 a new wing was added to the school, built as a memorial to the great Rector, Bishop Williams, while in the following year the old farm-house which had done duty as a school infirmary, was replaced by the present well-equipped establishment, and a resident nurse was made a feature of the school staff. In the February of 1891, the school was again laid low by a terrible fire, which destroyed also the Rectory, the Bishop Williams wing and the beautiful chapel, and once again the institution went through a period of discomfort and uphill work that brought, however, to a test the loyalty and devotion of the masters and boys.

Once more the friends of Lennoxville came to her assistance, and by their help and that of the loyal body of Old Boys, the present commodious and stately building was reared on the site of the old school, and was opened with great ceremony by the Bishop of Quebec in 1892.

In the autumn of 1892, owing to the great stress of work devolving on the Principal, and the consequent worry and anxiety, it was thought wise to revert to the original plan of school government, and, accordingly, Mr. H. J. H. Petry, M. A., Bishops College, an old Lennoxville boy, was appointed to the Headmastership; Dr. Adams retaining the chaplaincy of the School and maintaining his keen interest in all matters that affect its welfare. Such, in a few words, is the story of Bishop's College School—a school whose name brings a thrill to the heart of its Alumni.

For over fifty years it has been quietly carrying out the work laid down by its founders, and has been maintaining the principles of the greater English schools. For over fifty years it has sent out a stream of young men whose education has been based

on loyalty, honour, and straight dealing. The sons of the School are to be found all over the world—in every walk of life, many of them having won distinction both in the army and in the navy.

In every city in Canada one may find old B.C.S. boys, to the fore in the learned professions, in commerce, and in social position.

To the Royal Military College have gone many of our boys, of whom no less than fifty per cent. have won commissions, and have been among the most distinguished graduates of that institution.

To tell of all those who have well served their country and their queen, would be beyond the limits of a sketch such as this is. Suffice it to mention General John Auldjo, who fought through the bloody campaign of the Punjab and won his captaincy by heroic conduct at Chillianwallah; Wyatt Rawson, R.N., the hero of Tel-el-Kebir, who by the light of the stars led Wolseley's army across the desert to meet his death before the trenches of Arabi Pasha; and the intrepid Charles Short, B. Battery, R.C.A., that model officer—the darling of his men—who met a soldier's death in the great fire at Quebec in 1889.

No better conclusion can be made to this sketch than by quoting the words of the Hon. John S. Hall, Q.C., M.L.A., the late treasurer of the Province, and uttered by him in the course of a speech delivered at the dinner of the Alma Mater Society, at the Windsor Hotel, Montreal, in 1886.

Mr. Hall concluded his address as follows:—

"Looking round me to-night, I see so many familiar faces of those good old days that I am more than reminded of the school, and of my visions and thoughts when upon a couple of occasions I revisited Lennoxville.

Standing in the village square, I looked up to the Belvidere hill and at the tree close to the bend, and I thought of the fun we had in sliding, the great exercise it gave us, and what a keen rivalry there was in making a sleigh go the farthest. When I got to the Massawippi bridge, I looked up and thought I heard the din of the boys in swimming, and I said to myself, "How many boys have learned to swim there!" And then I thought of the whole holidays, when we used to row up to the lake and come back running the rapids.

I looked back at the cricket field and I saw the boys playing cricket, football or lacrosse as may be. I said to myself, and we can all echo it now, what finer naturally situated place can one find to develop the physical part of a boy, and what boy ever came from Lennoxville who is not able to play athletic games and ride, drive, boat and swim, and these themselves are no mean part of education. Well, gentlemen, these principles of physical and mental training, honour, self-reliance and independence are all elements in education, and they formed part of a sound training received at Bishop's College School. Our education brought about a bond, too, which it is a pleasure to realize; wherever I have gone and met an old Lennoxville boy, whether of my own or other times, he has always been ready to give a good grip of the hand and to rally loyally round the school, and let us do that to-night, wishing the school great prosperity and continuance in her course, knowing that there are warm and grateful sons at her back."

THE SCHOOL.

Bishop's College School was founded A.D. 1842, under the management of E. Chapman, Esq., M.A.; it was reconstructed in its present form A.D., 1857, by the Corporation of Bishop's College, with the intention of providing for boys a sound and liberal education, in accordance with the methods and ideas of the English Public Schools. The aim of the School is not only to send forth good scholars, but to train boys in those principles of honour and true manliness which will enable them to take correct views of life, and that they may, by realizing what their duty is to themselves and to their neighbours, become good and useful men. Strict attention is paid to the morals and manners of the boys, and their personal habits are closely watched; the masters being greatly helped in these matters by the Prefects, who are chosen by the Headmaster from among the senior boys, and who occupy a most honorable and responsible position. Much of the interior discipline of the School is in their hands, while they are expected to check any improper conduct, to keep up by their example and advice the good tone of the School, and to repress any form of vice. The Prefects are absolved from attendance at roll-calls and school study, have their own bed-rooms and sitting-room, with several other minor privileges.

The course of instruction includes all the useful branches in English, French, Mathematics, Classics, Science and Drawing—special attention being paid to arithmetic, French and elementary subjects.

Instruction in Music and Shorthand can be obtained from competent masters, while each boy must go through a course of physical training and military exercises.

THE BUILDINGS AND GROUNDS.

The School is situated close to the University, on the rising ground at the confluence of the rivers St. Francis and Mas-sawippi, and commands one of the most beautiful views in the Eastern Townships. The School House is a handsome and sub-

stantial structure of brick, flanked with massive buttresses, and equipped with every appliance for the safety, convenience and comfort of the boys.

In the Educational Department, which is separated from the rest of the building by fire-proof doors, the principal feature is the noble hall, known as the Bishop William's Hall in memory of the late revered Bishop of the Diocese of Quebec. This spacious hall serves during term time as a study and place of assembly for the School, and for entertainments. It is also used for the annual convocation of the University.

In the third story is the Col. King Laboratory, where the classes in science are held, and which we owe to the generosity of Col. Chas. King, of Sherbrooke.

In the first and second stories of this department are five class-rooms, the Bursar's office, the reading-room, prefects' room, coat-room, all of which are well ventilated and well lighted.

The domestic department contains the Masters' and Matrons' Rooms, the dormitories, linen-room, clothes-room, isolation room and servants apartments. The large and airy dormitories are ventilated in the most approved manner. At the end of each of them is a small room occupied by the two prefects in charge.

The clothes room contains compartments in which are kept the boys linen, best suits, dress-shoes, etc., etc.

The basement is a special feature of the building and contains a large room for recreation and drill purposes 60 x 30 feet: bath rooms with baths in separate compartments, lavatory, closets, locker-room, furnace and coal rooms, boot-room, two music rooms, cricket room and the armoury.

The water supply is contained in three tanks, holding altogether 36,000 gallons. Two of these are placed in the school attics, water being pumped into them from the river by means of a wind-mill and steam pump.

A stand-pipe, with hose attachments on each flat, runs from the larger tank to the basement, while fire-buckets are conveniently placed in various parts of the building.

The partitions throughout the School are of solid brick, the stair cases are of iron, and the floors are very solidly constructed.

A fire escape leads from each dormitory to the ground.

THE INFIRMARY.

This building, rebuilt some few years ago at considerable expense, is situated at some little distance from the school, and is under the charge of an experienced nurse.

On the ground floor are the reception room, convalescent room, kitchen and servants' quarters, while upstairs are the nurse's room, one large and two small wards, bath-room and closet.

In case of illness a written report is sent by the nurse every morning to the Headmaster, containing a statement of the malady and progress of the patient.

TERMS.

The School year is divided into three terms :

MICHAELMAS, September 10 to December 21st.

LENT, January 16th to first Saturday in April.

TRINITY, First Saturday in April to last Thursday in June.

The Vacations are :

CHRISTMAS, From the close of the Michaelmas term to the opening of the Lent term.

MIDSUMMER, From the close of the Trinity term to the opening of Michaelmas term.

Boys *must* be in attendance on the opening day of the terms; no excuse for absence except that of illness, will be accepted by the Headmaster.

At Easter there is no vacation, but boys may, at the special request of their parents, go home from Thursday to Monday inclusive, during which time there is no school work.

School hours are from 9 A.M. to 12.45 P.M., with 15 minutes recess at 11 o'clock.

Afternoons—2.15—4.00, Summer.

“ 4.00—5.45, Winter.

Wednesdays and Saturdays are half holidays.

Preparation :

From 7 A.M. to 8 A.M. Summer.

“ 8 P.M. to 8.45 P.M. : “

“ 7.30 A.M. to 8 A.M. Winter.

“ 7.30 P.M. to 8.45 P.M. “

BOUNDS.

The City of Sherbrooke, the railway station, and hotels are out of bounds. Leave to visit them can be obtained from the Headmaster alone.

RELIGIOUS DUTIES.

All the boys attend service in the College Chapel every week day at 8.40 A.M. and on Sunday the morning and evening services. Sunday School is held by the Chaplain.

Roman Catholic boys are under the spiritual supervision of the Curé of Lennoxville, and are obliged to attend the services of their church.

Boys not belonging to the Church of England may, if desired, obtain leave to attend divine service at their own places of worship.

FEEES.

BOARDERS :—Entrance fee	- - - - -	\$ 15
One boy	- - - - - per annum	280
Two or more brothers, each	- - - - - " "	270
Boys under 11, each	- - - - - " "	240
DAY BOYS :—Each boy	- - - - - per annum	\$ 80
Each boy under 11	- - - - - " "	40

The fees are payable *strictly in advance* distributed as follows :

	BOARDERS.	DAY BOYS.
Michaelmas Term	- - - - \$112	\$32
Lent	- - - - 84	24
Trinity	- - - - 84	24

The annual fees for sons of Clergymen of the Church of England, working in the Dioceses of Quebec and Montreal, are considerably lower, the Tuition fee being reduced to the nominal sum of \$10, and the Board to \$160, or \$170 in all, payable in the above proportions.

A term's notice is required of the withdrawal of a boy from the School.

The Committee is entitled to notify parents to withdraw their boys unless the fees, etc., are paid within *two weeks* from the beginning of each term.

Other charges are :—

<i>Drawing materials</i>	- - - - -	\$ 1.00 a year.
<i>Use of scientific apparatus</i> , (senior forms only)		1.50 "
<i>Games subscription</i> (optional) see p. 19		5.00 "

EXTRAS :—Music, \$10 a term with share of rent of piano.
Shorthand, \$20.00 a year.

The entrance fee of \$15 includes bedding, etc., which is supplied by the School for a whole period of a boy's residence.

A deposit of \$15 is required by the Committee, besides the entrance fee, to cover personal expenses, and this deposit must be made up to \$15 at the beginning of each subsequent term during residence. An account of sums expended will be rendered each term, and any balance on hand carried to the credit of the next term's deposit.

Money is not advanced or orders given for pupils beyond the amount on hand. When the deposit is exhausted parents will be notified to renew it.

Boys are not allowed to obtain credit at shops without school orders, which are only given for inconsiderable amounts, except upon a written order from home.

DRESS.

Parents are requested not to send too large a quantity of clothing with their boys. It is expected that all boys in the sixth, fifth and fourth forms, will wear on Sunday a black morning coat, and boys in the third, second, first and preparatory forms, an Eton Jacket and waist-coat of black cloth, with Eton turn-down collar.

It is advisable that each boy be provided with a stout Jersey for football and other games.

GENERAL REGULATIONS.

Boys over 15 years of age will not,* as a rule, be received into the School; those over 13 years of age will be required to produce satisfactory testimonials from the headmasters of their last School.

Parents will please understand that the first term of a boy's residence at Lennoxville is regarded as a probationary period, and that if he fail to give satisfaction and adapt himself to the tone of the School, he will not be allowed to remain.

The control of the Boarding Department of the School is in the hands of a Committee of Management appointed by the School Association and consisting of the following gentlemen:

R. W. Heneker, Esq., D.C.L., the Principal, the Headmaster (ex-off.) the Rev. Prof. Scarth, M.A., W. Morris, Esq., W. A. Hale, Esq., Ernest B. Cochrane, Esq.

The School House is under the supervision of the Headmaster, assisted by the Lady Matron, who occupies rooms in the building.

Parents are particularly requested to have their boys' clothing carefully and clearly marked with initials and surname in full; also to send a complete inventory of clothing, etc.

It is desirable that each boy should have a dozen table-napkins with a ring.

Each boy's teeth ought to be examined before he comes to School by the family dentist, and afterwards in all vacations.

It is advisable that all pocket money be supplied through the School. The sum of twenty-five cents per week should be enough for any boy.

Each boy ought to have an extra brush and comb which he may keep in his locker for use during the day.

Parents are requested not to send any eatables but fruit to the boys while at School.

* Applications for entrance of boys over 15 years of age will, however, always receive careful consideration.

RAILWAY COMMUNICATIONS.

The Village of Lennoxville is particularly easy of access from all parts of the Dominion and the United States. It is situated on the main line of the Grand Trunk between Portland and Montreal, on the main line of the Canadian Pacific between Halifax and Montreal, and on the Boston and Maine between Sherbrooke, Boston and New York. The Quebec Central connects at Sherbrooke, distant three miles, with the Boston & Maine.

Boys from New York, Bermuda and the West Indies can leave New York at 4 P.M. and arrive in Lennoxville at 7.30 A.M. next morning.

Lennoxville is distant about three and a half hours from Montreal, four hours from Quebec, and about fourteen hours from St. John, N.B. Very liberal rates are given the various railways.

SCHOOL WORK AND EXAMINATIONS.

The School is graded into six forms. To enter the first form a boy must pass a good examination in Reading, Writing, Spelling, Elementary Grammar and Geography, and it will be of advantage if he have learnt the declensions in Latin.

Parents are requested to look carefully into the scheme of work as laid down in the calendar. They are reminded that the success of a boy in his school life depends largely on his being thoroughly grounded in the elementary English subjects. As it is essential to the good management of the School that a boy be in the same form in all subjects as laid down in the curriculum, it is very advisable that he be sent when young enough to enter the first form, or in the case of an older boy, that his previous studies be directed towards entering a certain form. Not infrequently boys are sent to school with a very good knowledge of arithmetic and some English branches, but who have never learned any Algebra, Geometry, Latin or French.

The main object of the school is to give each boy such a liberal education, and thereby such mental training and culture, as will

enable him to take up successfully any course of life which he may prefer. It is believed that to specialize studies while at school is a mistake, and therefore, up to the fifth form each boy will be required, as a rule, to take all the subjects.

In the fifth form a choice may be finally made between Greek and Science, but it is well to remember that many of the Universities demand *Greek as an obligatory subject* in the matriculation examination. Parents who intend their sons to enter College ought to acquaint the Headmaster with their desire before the boys enter the fifth form.

The scientific work has been facilitated by the establishment in the new building, of the Colonel King Laboratory, two well lighted commodious rooms, with sinks, water supply etc., and also by the gradual acquisition of a supply of Physical and Chemical apparatus suitable for illustration and for practical work.

Boys who go through the sixth form ought to be able with a little extra work on special subjects to pass any ordinary matriculation examination without private tuition.

In order to be promoted to a higher form a boy must obtain fifty per cent. of the marks attainable during the year. Boys who fail to secure promotion will be allowed to remain one year longer in the same form, but those who are not successful at the close of the second year will not be allowed to return to the School.

Reports are sent home at the end of the term with full details of a boy's standing in all subjects for term and examination.

Those boys who successfully pass the final examination of the sixth form, will be granted a diploma.

No boy can enter the third form who cannot pass a satisfactory examination in writing and spelling.

SCHOLARSHIPS AND PRIZES.

In addition to the regular prizes given by the School the following are open to competition :

The Reid Scholarship, founded by the late Rev. C. P. Reid, of Sherbrooke, to be awarded at the discretion of the Bishop to sons of clergy in the diocese of Quebec.

The Walker Scholarship, the Eastern Townships Scholarship, and the St. Matthew's Church, Quebec, Scholarship, one of which is given each year, entitling the successful candidate to \$60 per annum for three years on condition of residence as a student in arts in Bishop's College.

The LeRay Scholarship given by the Chancellor from year to year for proficiency in French, open to old pupils in their first year at Bishop's College.

The Silver Medal which His Excellency the Governor General offers for competition each year.

The Silver Medal offered by His Honor the Lieutenant-Governor of Quebec, for mathematics in the Upper School.

The G. R. White Prize (value \$6), given by Lieut.-Col. White, of Quebec, for the best essay on certain historical subjects.

The Chancellor's Prize, which will be awarded to the boy attaining the highest proportion of marks in the year.

The "Irving Prize," founded in memory of the late Rev. G. C. Irving, Rector of the School, 1863-7, for the best mathematics in the Lower School.

The Latin Prose Prize, given by the Very Rev. R. W. Norman, D.C.L., Dean of Quebec.

The Special Prize, for the encouragement of French given by the Department of Public Instruction, Quebec.

The "Old Boys' " Prize, founded in 1874, by former Lennoxville boys, as an evidence of regard and affection for their old school.

The Robertson Prize, for the best collection of Wild Flowers, given by the Rev. A. H. Robertson, of Cookshire, P. Q.

The Headmaster's Prize, for composition and writing in the Lower School.

A prize is given yearly to the boy, who in the opinion of the Headmaster and Masters, has been, by his good conduct and loyalty, of the greatest service to the School.

ATHLETICS, ETC.

The Bishop's College School Recreation Club is managed by a Committee of Masters and Boys elected by the School. The annual subscription is \$5.00 (optional). This club embraces :

The Library	The Football Club
The Cricket Club	The Gymnasium
The Hockey Club	The Annual Athletic Sports
The Reading Room	The Annual Dance

There are also Tennis, Canoe and Glee Clubs.

BOATING AND BATHING.

The Rivers St. Francis and Massawippi are available for bathing, boating and canoeing.

Boys are not allowed to use a boat or canoe without the permission of their parents. They must also be able to swim across the Massawippi River.

During the bathing season some of the older boys are on duty daily to teach the younger boys to swim and to guard against accidents.

THE CRICKET CLUB, 1894.

THE ELEVEN.

McLea (Capt.), Mr. Lloyd, A. Gilmour, W. Kingsmill, Willett.
Rothera, MacDougall, H. White, T. Foote, E. Burke, Fell (Pro).

THE MATCHES.

May 16,	B.C.S. vs. Bishop's College.	B.C.S. won by 64-53.
" 24,	" " McGill C.C.	" lost by 114-116 for 6 wickets.
June 9,	" " Montreal C.C.	" won by 125-103.
" 27,	" " Old Boys.	" won by 137-72.

THE FOOTBALL CLUB 1894.

THE FIFTEEN.

A. Gilmour (Capt.), Bowen, Mr. Auden, Willett, Rothera,
Hilyard, Roberts, Burke, McGreevy, Winder, Johnson, White,
Rowley, G. Porteous, Hutchison.

MATCH.

B.C.S. vs. 3rd. McGill. B.C.S. won 33-4.

Algebra—Hamblin Smith (II to VI).

Trigonometry—Hamblin Smith (V and VI).

SCIENCE.

Huxley's Physiology.

Spotton's High School Botany.

Gage's Elements of Physics.

BISHOP'S COLLEGE.

THE UNIVERSITY OF BISHOP'S COLLEGE received its Royal Charter in 1852. The College itself began its work under the Rev. Dr. Nicolls in 1845.

The Corporation of the College is the ultimate governing body of the School, the affairs of which have been handed over for detailed management to the School Association.

The School is affiliated to the College and under certain circumstances the Diploma of the Sixth-Form will admit to the second year in the College, while the subjects of the Fifth Form are the equivalent of matriculation into the First Year.

For further particulars as to the Course in Arts and Divinity see College Calendar, which will be sent on application to the Principal, or the Bursar, Lennoxville, P.Q.

Bursar Emeritus, E. CHAPMAN, Esq., M.A.

Bursar, A. D. NICOLLS, Esq., M.A.

Registrar of Medical Faculty, DR. G. TILLERIE ROSS, 945 Dorchester Street, Montreal.

The College offers an Academic Course in Arts and Divinity. The Course is modelled on the lines of Oxford and Cambridge. The College resembles the Colleges of these Ancient Universities in that the Students are resident within its walls. Mathematical, Classical and Theological Honour Courses are open to Students who pass a certain standard.

Scholarships, Exhibitions, Bursaries, Medals, Prizes of the aggregate value of more than \$2,000 a year are open to the Students on certain conditions.

THE FACULTY OF MEDICINE.

The Faculty of Medicine has its seat in Montreal (Ontario and Mance Streets). Convocations are held annually in that city for the conferring of Medical Degrees.

The Degrees of this Faculty are those of Master of Surgery (C.M.) and Doctor of Medicine (M.D.), the former being conferred only upon those who at the same time obtain the Degree of Doctor of Medicine.

Candidates for these Degrees must be 21 years of age, must have passed the preliminary examination, and must have spent four years in surgical and medical study, of which three years must have been given to attendance at University Lectures, together with such Hospital and Dispensing practice as is usually required.

The Dean of the Faculty is F. W. CAMPBELL, M.A., M.D., L.R.C.P., Lond., Professor of Principles and Practice of Medicine, Consulting Physician Montreal Dispensary, Physician to the Montreal General and Western Hospitals, 10 Phillips' Place, Beaver Hall Hill.

For Calendars and information apply to GEO. TILLERIE ROSS, M.D., C.M., 945 Dorchester Street, Montreal.

FACULTY OF MUSIC.

Degrees in Music are granted upon examination, the examiner being G. M. Garrett Esq., Mus. Doc., University Organist, Cambridge, England.

For information see College Calendar.
