**THE IDAHO TRIAL.**  
BOISE, Idaho, June 28.—The effort of the defense to open the way for a showing of a general conspiracy extending over many states on the part of the Mine Owners, to crush out the Western Federation of Miners has now become one of the interesting features of the trial of Wm. D. Haywood "The State" is resting this very earnestly. So far Judge Wood has ruled that evidence showing a conspiracy in the States of Idaho and Colorado will be admitted on the promise that the defense will connect the conspiracy with their line of defense. But the defense has not given up their effort to widen the field, and today the struggle is being resumed. The regular conspiracy in the discrediting of Orchard has now come to the front. W. B. Eastley, who is a member of the famous Altamira Union, No. 19, of Cripple Creek Strike Committee, and who Orchard swore was one of the men with whom he made the arrangement for more than one crime is still on the stand. By him other links in the chain of alleged conspiracy of the Mine Owners and the work of the detectives employed by them to create feeling against the Western Federation will be put in evidence.

Incidentally Easterly flatly contradicted every statement Orchard made connecting him with the Independence Depot of the Vindicator Mine, Clarence Darrow, who is conducting the defense, asserts positively if possible, into the conspiracy of the mine owners, and claims if he succeeds in broadening the scope he will be able to prove that a widespread conspiracy exists. The state insists that the defense must lay its foundation for the proof of a general conspiracy in the same way as was done by their witness, Orchard, and that separate cases do not suffice. Darrow says that he can bring the Pinkerton agency in as one of the chiefs in this conspiracy and claims to have witnesses here who will fully support his charges.

**CHILD CARRIED TO SEA BY BUNDLE OF TOY BALLOONS**  
CHICAGO, June 28.—A dispatch to the Record-Herald from Rockport, Texas, says: "Mamma, the two year old baby Waco, was carried into the air yesterday by a bundle of toy balloons which an Italian peddler on the verandah of the hotel tied around her waist, thinking to please her. Before the spectacle could recover from this surprise she was wafted out to sea, fifty feet in the air. A launch occupied by George Munafie, of Denver, was in the bay and he came to the little girl's rescue. Firing at the bundle of balloons, he punctured several of them, and she began to settle downward, finally landing safely twelve feet from the water on the shore of St. Joseph's Island."

**SMITH CORLETT.**

## MRS. DOOLEY TELLS HOW MUCH HER HUSBAND EARNED

**ARRESTED ON CHARGE OF FALSE PRETENCES**  
Joseph Horwitz Got Goods From Two Firms

**But Did Not Carry Out the Agreement—The Case Was Settled Today—Horwitz Well Known Here.**

Joseph S. Horwitz, alias Joseph S. Hayes, a Russian Jew, who has been a resident of the United States for the past fourteen years, was brought to the city from Vancouver this morning in custody of Sergeant Thomas Caples and was charged with obtaining goods under false pretences from J. Shane & Co. and A. Poyas. Last Monday morning Horwitz went to the store of J. Shane & Co. and told them that he was going to put on a sale for A. C. Balliol and Co. at Pictou, N. S., and that Messrs. Balliol had sent him to get 1400 worth of men's and boys' clothing. He was known as a smart young man who conducted a cheap sale on a King street house not long ago, so clothing to the value of \$435 was placed in trunks and sent to the depot as Horwitz said he wanted to check them and take them along with him as the sale was to be commenced the next day.

His next visit was the store of A. Poyas, Jeweller, on Mill street, and picked out jewellery to the value of \$113.50 among which was a 14 karat gold watch and a diamond ring. He gave as reference Mr. Kaplan and obtained the goods.

Wednesday evening a draft on Balliol & Co. Pictou, for \$245 was returned to J. Shane & Co. accompanied by a note to the effect that they had not received any person to make a purchase for them, that something was wrong and they had better look after their goods.

Deputy Chief Jenkins was at once notified. An endeavor was made to locate the Jew with the two names. It was learned that he had not checked the trunks of clothing to Pictou but to Springfield Mines, and had disposed of the goods for half their value to a Springfield merchant. On Wednesday morning he left Springfield Junction for the west. All outlets were watched and the man was captured by the United States Immigration officers at Vergo yesterday and held for Sergeant Caples who is acting detective in Detective Killen's absence. On arrival here Horwitz wished to settle the case. Representatives of Shane & Co. and A. Poyas called at the police court at noon and conversed with the prisoner.

The affair was settled this afternoon and Horwitz released.

**MR. BRENNAN ARRESTED OF STRIKING A LADY**  
He Had Made Information Against Miss Jones but She Says He Hit Her First.

There were two prisoners on the police court bench this morning and both were women. Maud Lester, a white woman, was charged with being drunk on the common on Strait Street. She was in the company of a man who was also intoxicated, but he got away while the woman was being arrested. She was remanded to jail, the magistrate remarking that as she liked the jail so well she would get it for the rest of the summer.

The other prisoner was Liveda Johnson, a 30 year old colored girl, who was charged by James Brennan, the proprietor of Union Street Hotel, with assaulting him. Miss Johnson said that Brennan struck her first and she only defended herself. Mr. Brennan took the stand and gave testimony that the girl went out at two o'clock yesterday afternoon and did not return until midnight. She was reprimanded for keeping such late hours and informed that if she would do as she should do as she liked. A young colored man had secured a room close by and their conversation annoyed the other guests. He was told to leave the house and at the same time the colored girl struck Mr. Brennan on the eye, and if he had not caught hold of her clothing he would have fallen down the stairs.

The prisoner took the stand and said she had informed Mrs. Brennan that she would be out late as she had purchased a dress from Mr. Brennan's daughter and was going to wear it at a wedding. It rained and she could not wear the dress, but with attire less she went to the Globe hall and enjoyed a wedding dance. When she was returning home Charlie Jones, who boarded at Brennan's Hotel accompanied her. On arrival home she says that Mrs. Brennan abused her for being out late and ordered Mr. Jones to leave the house. Mr. Brennan then struck her on the chest and while giving her a shake tore her waist. Once free she says that Brennan abused her by striking her on the face because she would not wash the paints as she had been hired as a cook at \$3 a month. The wedding she said was that in which Ella Fitzgerald married Pat Francis. She said she was injured from the blow received, and while in the cell fainting and when she came to two men were standing over her. She said her home was at Ottabog and her mother wanted her to go home.

Charlie Jones, a sporty looking colored youth, who recently arrived from Houston, testified that he had been staying at Brennan's Hotel every night this week for 25 cents a night. He was at the wedding dance last night and accompanied Miss Johnson to her hotel. They were talking about her being

Recalled by Mrs. Brennan, and Mrs. Brennan ordered him out. They were not talking loud enough to disturb the guests but a man in the horrors kept all awake the night before. Jones said it was a shame the way they abused the girl and he was at one time going to get the police to protect her.

The magistrate instructed Brennan to give the girl six dollars owing her and to give her her clothes. He then allowed the girl to go with the understanding that she return to Ottabog tomorrow.

**Evidence in the Suit for Damages Against the City Continued Today --- Mr. Skinner for the Defence**

**IN THE CIRCUIT COURT THIS MORNING**  
the case of Dooley vs. the City of St. John was resumed. Mr. Mullin called his last witness, Herbert E. Wardrop, common clerk, who, when sworn, stated that prior to 1882, the water and sewerage commission of the West End had charge of all work in that locality, and therefore he had not on his books the minutes of the commission when the old sewer on Rodney Street was ordered to be built. Since 1882 the water board had had charge of all work connected with sewers in the city, and Supt. Murdoch has been in charge. Mr. Wardrop stated that after having made a thorough search of his books he could find no reference to the old sewer on Rodney street. Previous to the formation of the water and sewerage board a board of management attended to sewerage matters. Mr. Murdoch was assistant superintendent of water and sewerage when the board of management was in existence. The witness did not know of all the matters taken up by the board while he filled the office of assistant superintendent. The books containing the minutes of the board of management were sent for and Mr. Wardrop stated that the minutes dated from 1881 to 1900. On examining the book he was unable to find a record of the laying of the old sewer pipe in Carleton. He found a record, however, where a tender was accepted for repairing the sewer.

Mr. Mullin stated that Mrs. Dooley, the plaintiff in the case, was in court, but owing to her frail state of health, he thought that it would be better to take her evidence in the office and Judge McLellan.

The cause, however, was adjourned to the next morning, when the remainder of Mrs. Dooley's evidence was taken. On returning to the court room the stenographer had the evidence taken.

Mrs. Dooley said that her husband generally earned about \$10 or \$12 a week. He was an engine driver by trade. He worked at that trade for some years. The witness stated that during the last year of her husband's life, he had earned wages by the week. The witness said that her husband only kept about \$5.00 for himself out of his month's pay. The rest he gave to the witness. Her husband had been working at the water post before he went to work for the city. Mrs. Dooley said that she used to spend the money given her by her husband on herself and family. She thought that it cost \$10 a year for each of her two young children, to dress and feed them and send them to school.

The witness said that her husband had given her \$10 a week while he was working by the week. Cross examined by Mr. Skinner the witness said that her husband had no income. All the money he had was earned by work. There was no discussion between Mrs. Dooley and husband as to how he spent the money which he kept for himself. To Mr. Skinner the witness said that she had been in ill health ever since her husband had been killed. She has fainted on an average of three times a month.

This closed the case for the plaintiff and Mr. Skinner addressed the jury in opening the case for the city. He stated that the city advertised for tenders to have the work on Rodney street done. One of the tenders was accepted, and the contractor went ahead. The unfortunate man who was killed was employed by that contractor and the route in which the sewer was laid, was changed and if the bracing in the trench was not strong enough the city was not to blame.

The court adjourned at 1 o'clock until 2:30 this afternoon.

TELEGRAPHIC NEWS OF INTEREST TO CANADIANS

TORONTO, June 27.—A petition asking the Minister of Justice to pardon the late John Flood, the baseball player sentenced to fifteen days in jail for assaulting Dippre Conway, is being largely signed here.

BRANTFORD, June 27.—At the police court this morning Frank Mathers, moulder, charged the Brock Stone Company with inserting a false advertisement in newspapers in Scotland for stove mounters for the Brock Company which stated that there was no strike or labor trouble here. As a matter of fact, there is a strike at the Brock works, all the stove mounters being out. The company denied all knowledge of the advertisement, stating that they were in no way responsible for it. Police Magistrate Woodley dismissed the case which is the first of its kind on record. Dominion labor officials may take the matter up.

WINNIPEG, June 27.—A bulletin dealing with the condition of crops, live stock, etc. in Manitoba, was issued this morning by the local department of agriculture and immigration. Reports of correspondents indicate promising conditions in every section of the province. A falling off is reported in the acreage of wheat, but a substantial increase in oats and barley. The wheat acreage reported in last year's June bulletin was 3,161,837 acres against 3,159,454 acres this year. Last year there were 1,115,361 acres of oats, this year 1,233,595 acres. Barley acreage last year was 669,570 acres.

BELLEVEILLE, June 27.—The Belleville gas works, which are owned by the city, were burned down about 3 o'clock this morning, but part of the plant and several retorts are unharmed. The fire is believed to be incendiary.

LONDON, June 27.—"He can talk prose until the crack of doom," says Choissas Money, M. P., "but Canadian manufacturers will blindly reply by continuing to extend to us a British 'preferential' tariff high enough to protect themselves. In fine, the Canadian manufacturer has aimed at securing the home market, has got it, but has not the slightest intention of letting us into the Dominion."

A match company is in progress of formation with a capital of \$35,000. A New Zealand newspaper states it was announced at the opening of parliament that the imperial government has consented to advise the King on the status of New Zealand to that of the Dominion. It was also announced that tariff treaties were being negotiated with Canada and South Africa.

In the House of Commons today Sir Edward Grey said no understanding had yet been arrived at with the United States Government respecting the Newfoundland fisheries question.

OTTAWA, June 27.—The biggest comet seen in four years has just come to the notice of J. S. Plaskett, who has charge of the big telescope at the Dominion Observatory. The wandering member of the solar system is approaching the sun and is daily growing more brilliant at present. The comet will be visible to the naked eye. The object can easily be distinguished from a star on account of its brightness and irregular color. A person expecting to see the body with a long fiery tail will be disappointed because this popular notion of a comet is rarely realized. The comet will increase in brightness till September, when it can be nearest the sun. During this time the comet will be an object of daily observation by Mr. Plaskett.

The sun spots which have into view some time ago disappeared yesterday. This was the result of old soil turning on its axis, a motion which is made every twenty-six days.

MONTREAL, June 27.—Special cables from London say: Hon. Thomas Burt, premier of Victoria, will sail on the Empress of Ireland tomorrow, returning to Australia. He proved the most outspoken critic of the British ministry's attitude at the colonial conference, resulting in Lord Elgin's refusal to invite the state premiers and give them imperial recognition.

The popularity of the Canadian route to the Antipodes was also attested by the choice of the Empress of Ireland by Lady Plunkett, wife of the governor of New Zealand, and daughter. Marconi and his wife will also sail tomorrow in connection with his Canadian enterprises.

Bruce Walker, who succeeds W. T. Preston as the head of the Canadian emigration office here, will leave tomorrow for a visit to Ottawa.

The feeling is growing that the time is approaching when Canada may do well to put some check on the movements for emigration assistance to those out of work through boards of guardians and other municipal charity bodies. The best classes of emigrants are unquestionably those who pay their own fares. These better classes will go to Canada anyway, and the question is being quietly discussed whether Canada might not leave the less desirable, who need assistance, to Australia and other colonies.

Among the other Empress of Ireland passengers are Hon. Adam Beck and Col. Lessard, both of whom have been concerned in the international horse show in London, and W. Shaughnessy, son of the president of the Canadian Pacific.

## ST. JOHN STAR.

ST. JOHN, N. B., JUNE 23, 1907.

### WHARFAGE FEES.

Members of the treasury board have opened the question of rearranging the wharfage schedule, the intention of course being to obtain from Sand Point a revenue which will cover at least the annual expenditure. The city does not want to make money out of this traffic, for the advantages enjoyed through the work provided in the winter months are tax-payers should not be asked to contribute towards the earnings of subsidized steamship lines.

For years the west side berths were free, and during that time St. John sold heavily for maintenance of the terminal and for interest on the cost of construction. Two years ago when the loan advanced by the C. P. R. was returned, the first fixed charges for wharfage were made. The schedule was at that time regarded as only a temporary affair to remain operative until some fairer arrangement could be reached. Since then it has been found that the revenue is little more than fifty per cent. of the outlay, and in order to make both ends meet, increased rates are proposed. Aid. Bullock, to whom the question has been referred, has evidently spent considerable time in studying the matter. As chairman of the treasury board he realizes the necessity for a larger revenue; and as a business man he no doubt appreciates the fact that no unreasonable demands should be made on the steamship companies. But the St. John rates are very low compared with those charged in Montreal. Other port expenses are also favorable to this harbor, so that it would appear that an all-round increase might be made which would produce a revenue equal to the expenditure, without making St. John an expensive port.

One thing is certain, that this city should not and cannot continue building new wharves and at the same time paying for the maintenance of those already in use, in order that transportation companies may reap the benefits.

### THE RIVER STEAMERS.

There seems to be a certain reluctance about telling the plain truth concerning river steamers on the St. John. People are afraid of offending some one or other of companies, or the shareholders, or only in private conversation do they express their true opinions. What is the use in wearing gloves when handling a subject such as this? There are hundreds of lives at stake daily and even the best boat on the river is unsafe. Everybody knows that every steamer carries hay, and no matter what precautions are taken this is an immediate source of danger. Notices are posted in some of the steamers to the effect that smoking is prohibited on the cargo deck but that is not strictly observed. When wood fuel is used, there is every opportunity for fire from sparks, and even the best boatman must have moments of carelessness. The great fault and what is at the bottom of all the trouble, is that there are far too many steamers. Fortunately two or three of those most recently burned would not be replaced and if three or four more should by good luck happen to be destroyed, when no one was on board, the number would be properly reduced. Hate the people between Paradise Row and Indiantown were born on the river and they can't get away from the idea that steamboating should receive a share of their attention. Hence they are always forming new companies or re-organizing old ones; buying or building steamers, and with provincial jealousy trying to cut into each other's trade. Every little branch of the river has a boat of its own; some of them have two, and as a rule there is not enough business to pay dividends on a scow. This and again efforts have been made to bring together the managers of competing lines in order that an arrangement might be made covering routes and rates. But some always objects, and they keep on forcing one another to the wall until fires appear to the public at least—like blessings of Providence. When such conditions exist it naturally follows that the majority of the steamers are of a very poor class. And some of them are carelessly managed. The carrying of hay should be absolutely prohibited as the first step in providing for the safety of passengers.

Lord Cromer, the man who made Egypt, will receive from the British Government a gift of \$250,000. He has nobly earned it.

Mr. Russell Sage has given \$200,000 to establish a hospital and home for aged and infirm in New York. If Mrs. Sage would spend only half that much on a resting place for the aged and infirm Shore Line she would give relief to many sufferers.

ST. PETERSBURG, June 23.—An imperial ukase issued last night directs M. Kokovoff, the finance minister, to issue \$25,000,000 in four per cent. rentals for purposes set forth in the budget, including famine relief. The council of ministers has invested the commandants of all the imperial palaces with exceptional powers.

### MINISTER IS SUSPECTED OF POISONING HIS WIFE

Rev. W. S. Hancock Had a Bad Record in Chicago During His Ministry

CHICAGO, June 23.—Walter Swinburne Hancock, who is under surveillance in London suspected of poisoning his wife, was, during 1888 assistant rector of St. James Episcopal church, one of the leading churches of that denomination here, and was inhabited by the late Bishop McLaren upon charges preferred by Rev. James J. Stone, who is still rector of St. James church. Hancock came to Chicago from St. Johns, Nfld., and investigations, made there by Bishop McLaren showed him to have been a "man of evil repute." "The charges brought against Hancock here," said Dr. Stone last night, "were that he was given to consorting with lewd women. They were never made public, but Bishop McLaren was convinced of his guilt. Being a British subject, Hancock could not be deported, and after his inhibition he dropped out of sight."

ST. PETERSBURG, June 23.—An imperial ukase issued last night directs M. Kokovoff, the finance minister, to issue \$25,000,000 in four per cent. rentals for purposes set forth in the budget, including famine relief. The council of ministers has invested the commandants of all the imperial palaces with exceptional powers.

### TURBINE SOLVES VITAL PROBLEMS

Ships of the Dreadnought Class Almost Impossible With Reactionary Engines.

BORDEAUX, June 23.—The summer meeting of the Institution of Naval Architects and International Congress of Naval Architecture met this morning in the beautiful hall arranged for the purpose in the Maritime exhibition. Representatives of scientific experience and shipbuilding skill of all the great powers assembled. The United States was represented today by Mr. Edward P. Bates, delegate of the naval architects of New York. Several papers by American authorities are promised.

A paper on turbines by Hon. Charles Parsons was read by Mr. Whetley Diddale. He spoke of the immense development which has taken place, as shown by the fact that sixty-one vessels are in service fitted with the Parsons turbines and sixty-five are under construction.

Many questions of capital importance were dealt with. It was claimed that the maintenance of efficiency has been established, that all difficulties have been overcome in regard to the handling of steamers in narrow channels and crowded harbors, in approaching piers and landing stages and in the docking and undocking of ships.

The really important speech of the day was that of Sir William White, who placed the whole matter in a fresh and original aspect. He said the problems solved by the steam turbine were insoluble by any other means. To have gone on designing and constructing reciprocating engines for modern steamships would have been to enter upon a far more doubtful experiment that was implied by the introduction of the steam turbine. The designing of a ship of the Dreadnought class would be infinitely more difficult, if not impossible, if it were to be fitted with reciprocating engines.

Donald McKenzie, of the former firm of McKenzie Bros., dry goods merchants, King street, is visiting friends here. Mr. McKenzie left St. John after the fire in 1871 and is now living in New York.

Mrs. C. H. Thomas and son, of Montreal, are visiting Mrs. Green, Garden street.

Miss Lydia McIntyre, Coburg street, and her friend, Miss Bartlett, are visiting relatives in Campbellton.

Frank Bonnell, of Vancouver, is here to visit his parents, Mr. and Mrs. P. O. Bonnell, Cliff street. Mr. Bonnell will remain a month.

There will be a tennis tournament on Saturday between the Fredericton Club and the St. John Club. On Monday the Fredericton Club will play the Rothesay Club.

The members of the New Brunswick Automobile Association will leave on Saturday for their annual tour. Among those who will go are: J. Boydell Thomson, Percy W. Thomson, W. G. Pugsley, R. D. Patterson, G. Fred Fisher, F. S. Crosby, F. E. Smyre, Frank Rankine, of St. John; C. W. Fawcett, Sackville, and G. W. Ganong, St. Stephen.

Miss Agnes L. Munro, who has been studying voice culture in Chicago the past winter, is in town. During her stay here Miss Munro is the guest of Mr. and Mrs. Jas. S. Ford, at their summer home, Duck Cove.

Mrs. Harrison A. McKeown was at home on Wednesday and Thursday of this week at her residence on Queen Square. Mrs. McKeown, who was assisted in receiving her guests by Miss Blinning, wore a handsome gown of white lace over silk. In the dining room Mrs. Blinning and Mrs. Leach poured on both days, while the guests were served on Wednesday by Miss Bridges and Miss Warner, and on Thursday by Miss Bridges and Miss Harrison.

**ROMSEY ABBEY 1,000 YEARS OLD**

Charcoal Burner With Family Tree of 500 Years Shores in Pageant.

LONDON, June 27.—The Romsey pageant in celebration of the thousandth anniversary of the founding of Romsey Abbey by King Edward the Elder opened today with a service at the abbey, which was beautifully decorated with white flowers. The Bishop of Bristol delivered a learned address dealing with the history of monasteries in England.

Later, in the presence of the Duke of Argyll, Princess Louise, Lord Rosbery, the Archbishop of Canterbury and a crowd of notables and others not noted, historical scenes were portrayed. One of the featured was a chorus of 200 persons, wearing medieval religious garments, the women as nuns with white simples and the men as red-robed monks with black cowls. They were grouped in the manner of the ancient Greek choruses and led by a master, delivered choruses connecting episodes and relating events happening between each.

Among the most typical scenes was the destruction of the Abbey by the Danes and the miraculous apparition of St. Meowenna; the latter, effected by a clever mechanism, succeeded admirably. The very animated incident acquired undesired realism by the stampede of a herd of cows from a neighboring meadow, they having been frightened

by the flight of the Danes and their galloping pursuers.

Another episode which scored was the wooing of Princess Matilda by Henry on the eve of his accession to the crown. The love scene was interrupted by the cart bearing the body of Rufus from the forest, where he had been shot. The driver of the cart was a lineal descendant of the charcoal burner whose cart carried Rufus's body in 1100. His family have carried on the same trade in the same place ever since.

Many of the performers in the pageant, all of whom were Romsey folk, were also of age long descent, for Romsey is an old world place and is comparatively little affected by innovations.

The pageant, which will consist of ten episodes, is being held in the park of Broadlands, the home of the Right Hon. Evelyn Ashley, who is president of the pageant. Most of the scenes are enacted in the neighborhood of the actual ground where they took place historically.

**MAY KILL LIVING STATUES.**  
County Council Serves a Mild Warning On London Music Halls.

LONDON, June 27.—The opponents of living statues at the music halls have, as was foreseen, appealed to the London County Council on the head of the council's theatre committee, which recently decided to forbid the presentations complained of. The council, by a vote of 48 to 45, decided to notify the music halls that exhibitions of living statues are not desirable.

This, although it does not amount to a direct prohibition, will probably have the same effect, as those ignoring the warning will be likely to imperil their licenses.

**FAST LINE TO AUSTRALIA.**  
Premier Deakin Hqs Rival to Canadian Scheme—White Star Details.

LIVERPOOL, June 27.—The officers of the White Star Steamship Company deny that they have any provisional agreement with Premier Alfred Deakin as to an Australian service.

The denial is called forth by an article in the Journal of Commerce, which said that Mr. Deakin of Australia had made a provisional agreement with the White Star Steamship Company for the establishment of rapid service between London, Southampton and Australia by way of the Suez Canal.

This agreement, it said, would go into operation in case the negotiations in progress between the projected Australian mail steamship syndicate and the Commonwealth fall through.

The syndicate, if formed, however, with the proposed fleet of twelve steamships of 12,000 tons and 15-12 knots speed, the Australian Government will guarantee the company's debentures to the amount of \$8,250,000 and the colony will also give an annual subsidy of \$225,000.

The syndicate's steamships would ply between Liverpool and Australia.

LONDON, Ont. June 27.—James Cassidy, aged 90, a G. T. R. section man, died in Victoria Hospital last night from the effects of sunstroke. He became ill about 6 o'clock in the evening, and hemorrhage of the brain ensued.

**WINTER PORT RATES WILL BE AGAIN INCREASED.**

Treasury Board to Draw Up New Schedule—Ald. Kelley Says West End Expenditure Too Great

At last night's meeting of the Treasury Board the question of a further increase in the winter port rates was discussed. It was pointed out that the rates would have to be doubled to put the business on a paying basis. The matter was left to a committee. The Collins case against the city is likely to cost the city almost \$1,400 in all, besides the recorder's own services. The printing of the public accounts has been awarded to John A. Bowes.

The following were present: Ald. Bullock, presiding, Ald. Frink, Kelley, Yanwart, McGowan, Fickett, Laftalun and Baxter, with the chamberlain.

A communication from Col. Armstrong, K. C. in the amount of \$138 for services rendered to the Bank of Commerce in the issuing of the last city bonds was read. Col. Armstrong wrote that it was understood that the legal services were to be paid for by the city.

It was decided that the chairman should see Manager Taylor about the matter.

Ald. Baxter moved that the chairman arrange for the payment of the verdict and costs in the case of Collins against the city. The total payment will be \$1378.4—Carried.

It was decided that the chamberlain should pay over to the school trustees the difference between the sum already paid over and the school apportionment.

A bill of the recorder for consultation with Waldon & McLean and with Police Clerk Henderson was laid over to be certified by the mayor.

It was decided to pay the recorder \$50 for services rendered the city at Fredericton at the last session.

Ald. Frink asked why the case of Chittick against the city had been appealed.

Ald. Bullock explained that the city thought the damages too large.

Ald. Frink said that it was only throwing good money after bad.

Ald. Frink again brought up the question of a better understanding as to the amount of money to be paid to Engineer Barbour. The alderman said he understands through Engineer Hunter that Engineer Barbour intends charging for his services in connection with the distribution service.

Ald. Frink pointed out that the services of Engineer Barbour are likely to be extended over a year yet. His thought some arrangement should be made with Mr. Barbour. Ald. Frink was continued a committee to arrange with Mr. Barbour.

Tenders were opened for the printing of the public accounts. Barnes & Co. tendered at \$1.50 for nonpareil and 40 for brevier and John A. Bowes \$1.18 for nonpareil and 28 for brevier. The lowest tender was accepted.

The chairman said that the Shipping Federation wish to know within a month whether there are to be any changes in the rates. The total revenue for the last year was \$28,000 leaving a total deficit of \$2,488.50 for the year. To put the business on a paying basis the rates would practically have to be doubled.

It was left to Ald. Bullock to look into the whole question with a committee which he should appoint himself.

Ald. Kelley asked for a statement as to whole expenditure made by citizens at Sand Point and said that it would be better if the whole of Sand Point could be set aside.

**PREMIER McBRIDE SAILS FOR CANADA ON C. P. R. LINER TODAY**

LONDON, June 27.—Premier McBride of British Columbia closes his mission to London today and sails in the Empress of Ireland tomorrow. It is not expected that the obstruction to the British North America Bill in the House of Commons will prove serious. A little group of opposition members including Bambury, Claude and Hay are not sorry for any opportunity of giving Winston Churchill and the government a dig, but they are most unlikely to go the length of imperiling the bill. It will, however, need a special push to pass the bill through both Houses before July first. The suggestion that McBride is in any way responsible for the obstruction, is not seriously credited.

**MRS. DOOLEY FAINTED IN THE WITNESS BOX**

The proceedings in the case of Dooley vs. The City of St. John which is being heard before Judge McLeod in the Circuit Court were brought to a sudden and somewhat tragic close yesterday afternoon, over half an hour before the hour of adjournment. The plaintiff Mrs. Mary Dooley was being examined by Mr. Mullin when she suddenly collapsed and fell backwards in a dead faint. She was at once taken out of the court room and placed on the platform. All efforts to restore her were fruitless and Dr. Emery was sent for. After working with her for a time she gradually came around and was taken into her daughter's home. It was said that the faint was due to over wrought state of nerves which produced temporary heart failure. The doctor said that as she was in very delicate health she would not be able to leave her home for some time. Mr. Mullin applied for a commission to have the rest of her evidence taken.

The plaintiff, Mrs. Mary Dooley, was next called. She gave evidence as to the age of the five children. The youngest was 7 years of age at the time of Mr. Dooley's death and the oldest 15. She stated that her husband earned from \$10 to \$11 per week and was sober and industrious. At this stage plaintiff fainted. Court adjourned until 7 o'clock this morning. Mr. Mullin has one more witness to examine, Herbert E. Wardrop, after which he will rest his case.

LEGAL POSITION OF LIBEL SUIT

Dr. Pugsley Explains the Technicalities Two Very Important Legal Points Will Have to be Decided by the Full Bench

Hon. Wm. Pugsley, crown counsel in the case of criminal libel against Jas. H. Crockett on the information of Hon. H. R. Emerson, was asked last night by a Sun representative to make a statement of the position of the prosecution in the case at the present time.

Judge Landry has held that the crown is entitled to bring before the court, the question of the validity of the decree filed by the crown. Dr. Pugsley said that he felt considerable difficulty on this point, and this was the reason for his urging upon the judge that in view of the general importance of the question which was raised by the defense, he should himself ask the opinion of the court upon the question.

The question is of special importance because of the position in the present criminal law relating to defamatory libel allowing the defendant to avail himself of the defense that he believed on reasonable grounds the truth of what was published and that he acted in good faith.

Dr. Pugsley said that he was of the opinion that the crown should be allowed to bring before the court the question of the validity of the decree filed by the crown.

WANT DAMAGES FROM THE CITY

Claim Ferry Boat Ludlow Ran Down Scow Sarah M. Weldon and McLean Write Ferry Committee—Chairman Baxter Does Not Think Ludlow Was to Blame

The ferry committee held their regular monthly meeting yesterday afternoon and discussed among other matters the repairs which should be made to the Ludlow and the question of greater police protection at the East End ferry float.

Ald. Baxter said that he would be very glad if they took it into the alderman's hands to see that the Ludlow returned to the route so that the necessary repairs may be made and as time of her certificate has expired, the service is being performed by the Western Extension. He suggested that hereafter a regular practice should be made of having the Ludlow taken out of the route for two days each month.

YALE WINS RACE FROM HARVARD

Defeated Cambridge Men by Thirteen Seconds. E. H. Harriman, the Railroad Magnate, Arrested for Disobeying Orders of the Course Officials

NEW LONDON, June 27.—Before the greatest crowd that ever witnessed a race on the Thames River, the Yale crew this evening rowed on an average of four strokes to the minute less than Harvard, held the big Cambridge crew even until the last half mile when they let out their speed and won, won a great race by a scant boat length. Never once in the whole four miles did the two rival crews cease to lap each other. The delicate prows zig-zagged between the strokes and the thousands aboard the boats and every kind of floating craft and those who lined the shore, sent cheer upon cheer to the old rivals as they fought out one of the greatest races in the history of Harvard-Yale boating. Yale's time for the four miles was 21 minutes and 10 seconds; Harvard's, 21 minutes, 13 seconds.

The race was accompanied by one disagreeable incident. This was the arrest of E. H. Harriman, the railroad magnate by Lieutenant Billard, President Roosevelt's naval aide. Lieutenant Billard, who was in charge of the revenue cutters, had warned every owner not to follow the race. The big "Varsity struggle" had scarcely been started when Mr. Harriman in a powerful motor boat followed the race, Lieutenant Billard and Chairman Schweppe, who were aboard the regatta committee boat, the Arrow, repeatedly warned Mr. Harriman to stop his engine and get out of the course. Mr. Harriman not only paid no attention to them but took a position right alongside the referee's boat and called out to the crew to row faster.

It was with a great deal of pleasure and surprise that many St. John folks today received cards from New York announcing the marriage of Mr. Alfred (Fred) Mills Smith, to Miss Ella Coker, daughter of Mrs. Edward Coker of the big city. The genial Fred, whose musical and social abilities have made him such a favorite in this home city and in New York, succumbed to the darts of Cupid after a long siege. The wedding was a quiet one and took place in the home of the talented Fred, who extended him heartiest felicitations.

MORE ABOUT THE LOOTING AT ROTHESEY

Conduct of Soldiers Was Worse Than at First Stated—I. C. R. Station Also Visited.

In the morning papers today members of the 71st Regiment claim that the men who got off at Rothesay and robbed J. R. Robertson's store did not commit such a serious offence after all. Some of the soldiers, it is said, told the officers that they went to the store intending to pay for everything and did so, save that one or two of them admit that they helped themselves to some caramels. Col. Chipman has arranged to pay the damages. The full particulars of the raid on Mr. Robertson's store were not published in the Star when the affair occurred as it was deemed unwise to say any more than was necessary of the conduct of these men, but now that they deny having acted badly, the further particulars may be given. A large number of the soldiers got off the train and went into the shop, which at that time was in charge of a young boy. They asked for beer and took a few bottles which were in the front shop, paying for them. They wanted more, but the boy did not feel that it was right for him to leave the shop with all these men in it while he went to get further supplies. Failing in this attempt a number of the men ransacked the back rooms. In one place they took a five pound box of chocolates; they took all the pickles, packages of cocoa and other similar goods that they could conveniently carry with them, that were on the shelves, and also a supply of caramels. They did not leave the money for these on the counter, the only money given to the clerk being for the first few bottles of beer. A few minutes later, when the train reached Quispamsis, a number of men from the same regiment got off and going to the station, burst in the door, smashing the lock and the woodwork. They ransacked the interior of the station, turning everything upside down and generally creating disorder. No previous mention has been made of this.

WILL GIVE PYTHIAN GENERAL A WELCOME

Head of the Uniform Rank Will be Here on July 4th.

Informal Reception and Banquet in Which all Knights in St. John Will Participate—General Will Talk About Boston Trip.

The official visit of Major-General Arthur J. Stobard, of St. Paul, Minn., is stirring up a very lively interest in local Pythian circles. General Stobard is head of the Uniform Rank Knights of Pythias of the world, and August he will be in full charge of the twenty thousand uniformed knights under canvas at the Supreme Encampment. In connection with this important gathering, the visiting dignitary

MAJOR-GENERAL STOBARD.

will make important announcements while in St. John, which official utterances are being eagerly awaited by local brethren, a large number of whom will join the Boston excursion party from this city.

Major-General Stobard is at present carrying out his Canadian itinerary and will visit St. Stephen, Fredericton and Woodstock before coming to St. John on Thursday next, July 4th. Upon his arrival here he will be met at the depot by officers of Companies and Supreme and Regimental Officials, while Dr. F. C. Goddard, Commissioner, will accompany the American official from the smaller towns. In the afternoon of that day, General Stobard will be driven about town and adjoining country by a committee of officers, and during his stay at the Royal Hotel it is expected he will meet members of the Order informally.

Thursday evening a mass meeting of the Uniformed companies and auxiliary lodges will be held in Castle Hall, Germain street, at which General Stobard will make interesting official announcements. At the close of this function, a banquet will be tendered him in Seaman's hall, which affair is to be open to the uniformed rank and plain clothes lodges as well. A raising meeting is anticipated in which Victoria Co. No. 1, Cynnet Co. No. 5, New Brunswick Lodge No. 1, Union Lodge No. 2, and the new North End Lodge, St. John No. 30, will participate. At this convivial gathering the details of the hour will give detailed information concerning the grand encampment in Boston. He is intensely enthusiastic in this prospective gathering of brethren from all sections of the continent, and is particularly anxious to have a strong Canadian contingent with British Bands and Union Jacks, at the Pythian Army review.

So that the reception to the General may be an unqualified success—a grand K. P. welcome—the functions will not be confined to the Uniformed Rank, but subordinate lodges as well, will take part.

After the St. John visit, General Stobard will proceed to Moncton, Halifax, Sydney, Charlottetown, Quebec and other places.

All members of the K. P. Companies, Boy's Brigades, are requested to be present at the meeting this evening, as final arrangements for the trip to Sussex will be made.

Mrs. Robert Milligan and the Misses Milligan will leave for Harrowswinth, Ont., early next week where they will spend the summer.
