ELECTIONS NOV. 3RD; NOMINATIONS OCT. 27TH

HON. A. S. WHITE IS NOMINATED

Large and Unanimous Liberal Convention at Hampton

Delegates from Kings and Albert Quickly Unite Upon Mr. White, and Liberal Leaders in Both Counties Pledge Their Support—The Candidate's Politic Speech—Dr. Pugsley's Message.

Hon. A. S. White, of Sussex, was nominated unanimously at the Liberal convention for Kings and Albert counties held Thursday afternoon at Hampton. The proceedings opened from 2 until 4 o'clock, and harmony was the keynote. Not a dissenting voice was heard. There was no sign of disorder. The convention was unusually representative, and the speeches—they were neither long nor numerous—were enthusiastically received. The convention's choice gave a straightforward address. He dwelt upon the fact that there were men in the Liberal ranks more deserving than himself, upon whom the honor of being nominated for the representative of so important a constituency as the united counties might have been placed. He touched, with mild candor, upon the present political issues, devoted a few minutes to Mr. Blair, and exhorted Hon. H. R. Emmerson. He emphasized the fact that when he made a promise he was careful to see it carried out, and concluded with the assurance that if elected he would take pleasure in doing his utmost in behalf of the welfare of his constituency. Both counties were well treated impartially. Several speakers followed.

TERRIBLE TIME BREAKING A BOTTLE

Woman's Aim Proved Bad at American Battleship Launching, But a Sailor Did the Trick.

New York, Sept. 2.—Although successfully launched today, the battleship Connecticut did not have her bottle of wine broken by Miss Alice B. Welles, who had been selected as sponsor for the ship. Miss Welles threw the bottle at the bow as the ship began to move off the ways, but it failed to break when it struck the vessel's side.

NEW AMERICAN CRUISERS ACCEPTED

Washington, Sept. 29.—The navy department has accepted the protected cruiser Des Moines, now attached to the European squadron. This vessel was built in Massachusetts, and fell a little short of meeting the complete contract requirements in the matter of speed.

HUMANE SOCIETY HONORS LIFE SAVERS

Truro, N. S., Sept. 29.—(Special)—A telegram received today says the Royal Humane Society has awarded an honorarium to Anson Hopper, Foster Archibald, and Chas. Urquhart, of Truro, for courage displayed in rescuing William Cullen from drowning in Salmon River, Aug. 22.

DATE OFFICIALLY ANNOUNCED AT LAST

GRAND TRUNK LONDON MEETING

Directors Ratify Purchase of the Canada Atlantic Road

BORDEN'S POLICY

Sir Charles Rivers-Wilson Says Opposition Leader's Scheme to Expropriate G. T. P., Although It May Be Legal, is Undignified.

Montreal, Sept. 29.—(Special)—A special London cable says: "At a largely attended half yearly meeting of the shareholders of the Grand Trunk Railway today Sir Charles Rivers-Wilson, who presided, said that following the almost uninterrupted progress during the past eight years the company had during the past half, ended June 30, received a temporary check. He expressed, however, confidence that the check was only temporary. He claimed the severity of the weather for the falling off in freight traffic and the enormous amount of snow blocking the country roads, preventing the farmers from bringing out their freight. The removal of snow during the half year had cost £80,346, a sum never before approached in the history of the company.

FISHERY COMMISSION ENDS ITS LABORS

Testimony Complete in Charlotte County—Teachers' Institute at St. Andrews.

St. Andrews, Sept. 29.—(Special)—The fishery commission which has been taking evidence in Charlotte county for the past ten days, completed its labors this afternoon, so far as the hearing of testimony is concerned. After the views of the fishermen of St. Andrews had been taken, the commissioners separated for their respective homes. They will reconvene shortly to make up their report.

WORKMAN KILLED AT SYDNEY PLANT

Furnace Door Fell on Alexander Noble Thursday Crushing Him to Death.

Sydney, N. S., Sept. 29.—(Special)—Alexander Noble was killed this afternoon at the open hearth furnace of the Dominion Iron and Steel Company.

C. P. R. CARMEN GET ADVANCE IN WAGES

Those Working West of Fort William Have Pay Increased Seven Per Cent—Other Concessions Given.

Montreal, Sept. 2.—(Special)—The carmen on the Canadian Pacific west of Fort William, have received increases averaging seven per cent. The rules for the government of the men have also been amended to their satisfaction. For weeks the joint protective body of the carmen has been in Montreal holding a conference with General Manager McNeill.

House Was Dissolved at Six O'Clock Last Evening

Cartwright Goes to the Senate—A Short and Sharp Campaign—Redistribution Given as the Cause of Going to the Country—Railway to Be the Main Issue—Standing of the Parties—Other Appointments Made.

Ottawa, Sept. 29.—(Special)—The dissolution of the dominion parliament took place at 6 o'clock this evening.

Nominations will take place on Oct. 27th and polling on Thursday, Nov. 3rd, a week later.

The writs are made returnable December 15.

The campaign will not be a long one. All the arrangements for the contest have been completed. The returning officers have been elected and the writs have been prepared and ready to be forwarded.

Advices in the hands of the government are that wherever the Liberal candidates have not been selected, it is because there was a desire in those constituencies to know the date of the election first, the men being ready to be placed in the field. There are considerably more Liberals nominated than Conservatives, and of course, there are over fifty more Liberals in the house than Conservatives.

There were 213 members of parliament in the house which has just been dissolved, and there will be 214 in the new house. The last parliament was elected on November 7 and has therefore been dissolved one year ahead of time.

This has been found necessary because of the redistribution of seats by the bill of last session, which has changed the representation of the different provinces, except Quebec, which always remains the same with its 65 members.

G. T. PACIFIC SURVEY PARTIES START UP

Where They Are Going and Those in Charge of Different Sections

Another Expedition May Be Sent Down the St. John River Valley, So That Information May Be Gained About That Route.

Ottawa, Sept. 29.—(Special)—Guy Dunn, G. T. P. district engineer for New Brunswick, reports that he has started the following parties to work on their lines of survey across New Brunswick:

Party from Edmundston westward in charge of C. L. Miles. From Plaster Rock to Grand Falls in charge of Horace Longley. From Plaster Rock to Boiestown in charge of D. J. Maxwell. From Boiestown towards Plaster Rock in charge of K. McIntosh. From Chipman to Boiestown in charge of G. R. Balloch. From Woodstock to Fredericton in charge of Charles Garden. From Fredericton to Woodstock in charge of H. W. Balkam. From Boiestown towards Chipman in charge of Karl Weatherbe. From Chipman towards Moncton in charge of Mr. Burpee.

Admiral Drury in New York

New York, Sept. 29.—Vice-Admiral Sir Charles Drury, one of the lords of the admiralty of the British navy; Sir George Newnes, M. P., the Earl of Yarnmouth, and the Right Rev. Boyd Carpenter, Bishop of Ripon, were among the arrivals from Europe today on the Baltic.

DA PASS TAKEN BY JAPANESE

Russian Main Army Evacuating Mukden

Kuropatkin's Position Rendered Untenable by Oyama's Success—Port Arthur May Hold Out Till End of Year—Baltic Fleet Meets With Hard Luck Again.

There continues a dearth of news from the armies in the Far East. Reports from Russian sources tell of terrible ravages by disease in the Japanese armies.

The Liao river is said to have been dammed above at Aiador, in the Crimea, to officers wounded in sea fighting. Admiral Shirokoff has given permission to Lieut. Donbrovski and Medvedev to Baron Aminoff to accept the invitations and they will start for Aiador shortly.

In St. Petersburg it seems to be the expectation that General Kuropatkin will not make a stubborn fight for the possession of Mukden.

Vladivostok has heard that the Port Arthur garrison is confident of being able to hold out at least three months longer.

Another stroke of ill fortune has befallen the Russian navy in an accident to the cruiser Oleg, which was ordered to be ready about this time for sea with other ships of the Baltic squadron. Repairs to the Oleg will probably detain her at Cronstadt for six weeks.

Japs Capture Da Pass

St. Petersburg, Sept. 29.—News received here from Mukden says the Japanese have assumed the offensive and have captured Da Pass.

This is not actually confirmed, but the general staff think it is likely to be correct.

The Russians, it is added, evacuated the pass without serious resistance.

Da Pass, or Ta Pass, meaning great pass, is situated about 45 miles southeast of Mukden, and about the same distance northwest of Liao Yang. It is about 22 miles south of the Hun river.

LOCAL GOVERNMENT WILL MEET MONDAY

Date of St. John Bye-Elections May Be Considered.

Fredericton, Sept. 29.—(Special)—A meeting of the local government will be held in this city on Monday next, and the date of the St. John bye-elections will probably be a matter of consideration.

James Grant, the pickpocket, who made his escape from the county jail on Tuesday evening, is still at large, though every effort is being made to recapture him.

It seems to be the general impression that Grant followed the railway track in the direction of the Junction, with the hope that he might board a train at that place, and get across the line. It seems quite certain that Grant left the city on the night of his escape, and put a good many miles behind him before daylight.

SENATOR HOAR DEAD

Worcester, Mass., Sept. 30.—George Frisbie Hoar, senior United States senator from Massachusetts, died at his home in this city at 1:35 o'clock this morning. The end followed a period of unconsciousness that has continued since early Tuesday, and came so gently that only the attending physicians were aware of the exact moment of dissolution.

TRAIN BOUND TO BOSTON WRECKED WITH FATAL RESULTS

Braintree, Mass., Sept. 29.—A passenger train which left Plymouth at 11:45 o'clock this morning for Boston over the Plymouth division of the New York, New Haven and Hartford railroad, was wrecked this afternoon about a mile and a half west of the South Weymouth station.

REPLY OF GOVERNMENT TO THE TEMPERANCE PEOPLE GIVEN

Many of the Suggestions Agreed To and Some Held for Further Consideration—Prohibitory Law Not Deemed to Be Advisable—The Reply in Full.

The local government's answer to the temperance people who, in March last, made requests for changes in the liquor law, was forwarded to them on Friday last but has not before this been printed. It is here given. The temperance people asked first prohibition, failing which they asked among other things:
1. Make the license commissioners elective instead of appointed and with power to refuse to grant licenses.
2. Enactment that a liquor license applicant must have certificate of qualifications signed by a majority of the ratepayers in the ward where he proposes to do business.
3. No saloon within 200 yards of church, school or place of public amusement.
4. Lessening number of licenses in cities, towns and parishes.
5. No firm or corporation to have more than one license.
6. To make it illegal for a wholesaler to sell except to a licensed retailer.
7. To make re-extensions of licenses impossible.
8. To abolish beer licenses.
9. To make the saloon hours from 7 a. m. to 7 p. m.
10. Widening the clause relative to minors working in the liquor business.
The government's reply follows:

The Government's Answer.
FREDERICTON, Sept. 27, 1904.
Edward A. Fernald, Secy.
Grand Scrutiny Sons of Temperance,
St. John (N. B.).
Dear Sir:—
The Committee of the Executive Council have had under consideration the communication of yours and the Rev. C. W. Hamilton, Grand Worthy Patriarch, of the Sons of Temperance of New Brunswick, dated the 28th day of March last, in which, on behalf of leading temperance men in the City of St. John, you direct the attention of the Government to the necessity for stronger legislation for the prevention of drunkenness and of the evils which accompany it, and for the promotion of sobriety throughout the Province.
As I think you will readily recognize, owing to the fact that your communication was presented to the Government quite late in the Session, it was impossible to expect that any legislation upon the subject could be introduced. Since the prorogation, a Sub-Committee of Council, to whom the subject was referred, has been giving the matter the attention which the very great importance of the subject demands, and the Sub-Committee having made its report, I am now in a position to acquaint you with the views of the Committee of the Executive Council upon the various amendments suggested by you and embodied in the draft Bill submitted with your communication.
It is to be noted, however, that I should first remind you with the opinion entertained by the Committee of Council in regard to the wisdom of enacting a prohibitory law. This question has from time to time received the most serious consideration of the Government, which is sincerely desirous of promoting the cause of temperance, and recognizes that the members of the Legislature, as well as the people of the Province generally, whose wishes they not only desire, but are

bound to respect, are animated by the same feeling. The Committee of Council, however, does not feel that a prohibitory law can be satisfactorily enforced throughout the Province, and in the opinion of the Committee it is unwise to place among the Statutes any law which cannot be enforced. Such a course would certainly tend to bring about a disrepute for other laws necessary for the well-being of society. I would call your attention to the fact that the Canada Temperance Act, from which so much was expected, and which has undoubtedly produced good results in certain localities, more especially in the rural districts, is in many places, particularly in cities and towns, openly violated, and in some places, by the tacit consent of the local authorities, the payment of fines, periodically exacted, has taken the place of fees under the License Act. The Canada Temperance Act is in force in most of the Counties of the Province, and, if the people were so minded, it could be brought into operation in all.
The Committee of Council has been forced to the conclusion that the better course to pursue in the true interest of temperance is to prevent the issue of licenses in localities where the sentiment in favor of prohibition is sufficiently strong to warrant the expectation that the prohibitory clause of the Statute will be enforced, and in several sections of the Province this course has been pursued, with, I am pleased to be able to state, very satisfactory results. It seems to the Committee that it would be better to move slowly in the direction of prohibition, and allow the people to exercise their right of local option under the present law, than to repeat the experiment of enacting a general prohibitory law, which was, as you are aware, once tried in this province, with results which were very discouraging to the most sincere friends of temperance.

The Other Requests.
SECTION 1. It is proposed by this section to provide that Liquor License Commissioners shall be elected by a majority vote of the electors of each city, town or county, qualified to vote for the members of the Council for such city, town or county. The Committee of the Executive Council is unable to see any advantage in the proposed change. The effect of having the Liquor License Commissioners elected would be to lessen that feeling of independence which is likely to attach to officials appointed for a definite period by the Lieutenant-Governor. Officials so appointed are not likely to be so subject to local influences as if they were elected by the electors.
SECTION 2. In view of the opinion of the Government with regard to Section 1, it is unnecessary to consider Section 2, because that section is based upon the idea that section 1 would be approved.
SECTION 3. It would seem to be unwise to amend the section in the proposed form, because the effect would be to prevent any person, though not a dealer in liquors, from purchasing any liquor by the gallon or in large quantities. It seems to the Committee of the Executive Council that the object sought by this section could be attained by making some more stringent provision than is contained in the present law against the holder of a wholesale license selling liquor. The Act is in force, or by persons not holding a tavern license, and the Committee would favor legislation with that end in view.
SECTION 4. The Committee of the Executive Council, having had experience of the operation of the Liquor License Act, when a certificate was required, is not able to con-

sider in the view that the proposed amendment would materially improve the working of the Act, or tend to promote the cause of temperance. The Committee has not, however, arrived at a definite conclusion with regard to this proposed section, and the matter will receive further consideration.
SECTION 5. The Committee does not see that any material benefit would be gained by the proposed amendment in regard to the repeal of sub-section 12 of Section 11.
SECTION 6. The object of the enactment of sub-section 12 of Section 11 was to prevent the section of the Board or the Inspector from being rendered invalid by a failure to comply with the provisions of the Act. The Committee is not able to see that any advantage would be gained by repealing this sub-section, as the effect might be to render void the action of the Board or Inspector, and thus cause litigation which might lead to many disadvantages. As the sub-section provides that the foregoing sub-sections shall be obligatory upon the Board and Inspector, it seems to the Committee that no valid objection exists to the provisions of this sub-section.
SECTION 7. There is a great deal to be said in favor of enacting a section with these provisions, or provisions somewhat similar, and the Executive Council will consider the question.
SECTION 8. The Committee of Council does not see that any benefit is to be gained by the amendment of this section, and would not favor it.
SECTION 9. The Committee is inclined to agree that an amendment should be made to sub-section 1 of section 37 on the lines suggested.
SECTION 10. The Committee would favor the enactment of the proposed Section 10, if the present restriction as to the number of licenses is a reasonable one.
SECTION 11. The same observations apply to the proposed Section 11.
SECTION 12. The Committee is unable to see that any practical benefit would result from repealing sub-section 3 of section 11.
SECTION 14. The Committee would favor the enactment of this proposed Section.
SECTION 15. The Committee will consider carefully the proposed Section 15, but would not favor its enactment in its present form, as, if enacted, it would prevent the sale of cigars and tobacco in liquor stores, and the Committee is not aware that any advantage would accrue from making such provision.
SECTION 16. The Committee does not see that any good purpose would be served by enacting the proposed Section 16. The enactment of this section would close the bars of most of the hotels in the City of St. John, unless very strict, and, in some cases, impracticable alterations were made.
SECTION 17. The Committee is unable to see the advisability of enacting the proposed Section 17.
SECTION 18. The Committee sees no objection to the enactment of the proposed Section 18.
SECTION 19. The Committee sees no objection to the enactment of this proposed Section.
SECTION 20. The Committee sees no objection to providing that not more than one retail and not more than one wholesale license shall be granted for any period to any person, firm or corporation, but they see no objection to allowing one person to hold both a wholesale and retail license.
SECTION 21. The Committee admits the holder of a wholesale license upon being engaged in the sale of liquor, should be subject to the same limitations and to penalties.
SECTION 22. As regards prohibited hours, the Committee is of opinion that an amendment might well be made preventing the

opening of taverns before 7 o'clock in the morning.
SECTION 23.—The Committee would favor the enactment of proposed Section 23.
SECTION 24. The Committee sees no advantage in the enactment of proposed Section 24. Instead, the provisions of Section 25 seem to the Committee to be absolutely essential for the proper enactment of the Liquor License Act.
SECTION 25. The Committee does not see that any material advantage would be gained by the enactment of this proposed section, as the penalties provided by the present law are quite severe and should be sufficient to secure its observance.
SECTION 26. The Committee is of the opinion that it is desirable to make provision against the employment of young persons in the liquor business, but think that it would be sufficient to provide that no licensed person shall be permitted to employ any person under the age of sixteen years in connection with his business of selling and handling liquors.
SECTION 27. The Committee is not able to see any advantage in repealing section 6 of the Act 6th Victoria, Cap. 6, but would approve of the repeal of Sections 25 and 26. The Committee would remark that the provisions of the Statute allowing the issue of beer licenses were enacted at the request of many prominent temperance men, in the expectation that such provision would tend to promote the cause of temperance and prevent the selling of intoxicating liquors to persons of the age of sixteen years. However, contrary to what was expected, the Act was passed, and would, as above stated, favor the repeal of the Statute providing for the issue of beer licenses.
SECTION 28. The Committee would approve of this proposed section.
SECTION 29. There is evidently a mistake in section 4 of Section 7 as referred to. The Committee sees no objection to making the provision therein contained.
SECTION 30. The Committee would approve of the enactment of Section 30. I have the honor to be, Dear Sir,
Yours faithfully,
(Signed) L. J. FWERDIE.

NOTED PRISONER ESCAPES FROM JAIL AT FREDERICTON

FREDERICTON, N. B., Sept. 27.—(Special)—A prisoner named James Grant, one of the three alleged pickpockets arrested last June on charge of robbing passengers on the C. P. R. train between St. John and Fredericton, escaped from the county jail here this evening.
MacDonald, in company with two friends, John Muir, of Westville, and a young man named Maclean, of Hopewell, were in the woods near the jail. MacDonald, who was in advance of the others, saw a mouse and fired but missed. He then sprang out from a cover of a tree, just at the moment that Maclean, who was in line, fired. The bullet pierced MacDonald's brain and then sped on and killed the mouse. The body was brought to Westville tonight. Deceased leaves a widow and six children. He was 45 years old.

HIGHEST SALARIED RABBI Services of Dr. J. Leonard Levy Re-engaged for Five Years at \$12,000 Annually.

Pittsburg, Pa., Sept. 27.—Rabbi J. Leonard Levy, of the Congregation Rodolph Shalom, was today re-engaged for a period of five years at an annual salary of \$12,000. His present contract has eighteen months yet to run before the five-year engagement is begun. The salary is the largest ever paid a Hebrew rabbi on a limited contract in the history of the world. Rabbi Levy came here three years ago from Philadelphia, at a salary of \$7,000. A year later this was increased to \$8,000, and last year to \$10,000. He is prominent in charitable and reform work of all kinds.

interior, but no trace of Grant could be found. Grant had on a light jacket at the time of his escape and was in his barchead. Sheriff Sterling has wired descriptions of the missing man in every direction and is confident of apprehending him. Grant, who has several aliases and a very bad record, is described as being five feet six inches in height and in the neighborhood of forty years of age. His weight would be about 140 pounds and he wore dark clothing at the time of escape. He is quite bald, is clean shaven, of nervous temperament and the appearance of his countenance would indicate that he lived by his wits. The trial of the three prisoners was set down for the next term of the county court, which opens on Tuesday next. About a month ago they made an application for speedy trials but it was refused by Judge Wilson.

KILLED MOOSE AND FRIEND WITH THE SAME BULLET

Terrible Accident in Halifax County Where Allan Macdonald Lost His Life.

Halifax, N. S., Sept. 28.—A terrible accident occurred in the woods near Fifteen Mile Stream, Halifax county, Tuesday, by which Allan Macdonald, a miner of Westville, was shot and killed. News of the sad affair was only received today. MacDonald, in company with two friends, John Muir, of Westville, and a young man named Maclean, of Hopewell, were in the woods near the jail. MacDonald, who was in advance of the others, saw a mouse and fired but missed. He then sprang out from a cover of a tree, just at the moment that Maclean, who was in line, fired. The bullet pierced MacDonald's brain and then sped on and killed the mouse. The body was brought to Westville tonight. Deceased leaves a widow and six children. He was 45 years old.

MONCTON FAMILY FALLS INTO \$18,000

Moncton, Sept. 28.—The Rawline family, Moncton, consisting of four members, has been left \$18,000 by an aunt who died near Dumfries, Scotland. Word of their good luck was received a few days ago and this morning the money was paid over by W. B. Chandler, agent of the family here. The population of Seattle has doubled in the last three years. It is now 150,000.

THE OLD FOLKS AT HOME Are Never Without Peruna in the House for Catarrhal Diseases.

W. D. WATSON, President of the Sons of Temperance, County, Cal., writes: "God bless you for what you have done for me. The rheumatism has all disappeared, and to-day I exclaim, 'How well you look!' I took them yes, and I owe it all to Dr. Hartman for his good advice to me. To-day I am as free from pain as I ever was. The rainy season has set in here, but the change hasn't affected me as it used to. I am very thankful that I have found out that you can and will help the suffering ones that will follow your advice. Several have asked me what cured me, and I tell them. They got the medicine then. We keep Peruna in the house. My daughter has two sons, and they keep well and go to school, and they take the medicine every day. 'My wife was troubled with a pain in her side for years. Now she is taking your medicine and is real smart. I will do all I can for you and for those who need your advice.' Mr. Jno. O. Aldinson, Independence, Mo., Box 272, writes: 'Your remedies do all that you claim for them, and even more. Catarrh can't exist where Peruna is taken according to directions. Peruna completely cured my wife and I of catarrhal troubles of twenty-five years standing. In my rounds as a traveling man I am a walking advertisement of Peruna.' Why Old People are Especially Liable to Systemic Catarrh. When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people. This explains why Peruna has become indispensable to old people. Peruna is their safeguard. Peruna is the only remedy yet devised that meets these cases exactly. Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is. If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

DIGBY.

Digby, Sept. 28.—The Nova Scotia conference of the Epworth League convention is in session in Digby today, with seventy-five delegates present beside the local members.

The following are the officers: Honorary president, Rev. David Hickey; president, Rev. A. B. Higgins, Digby; 1st vice-president, Mrs. H. P. Black, Annapolis; 2nd vice-president, Rev. C. E. Crowell, Oxford; 3rd vice-president, Mr. L. R. Miller, Bridgetown; 4th vice-president, J. E. Irving, Halifax; 5th vice-president, Miss Lucy Theakston, Halifax; secretary, S. C. Mullen, Middleton; treasurer, Mrs. Robinson, Sydney.

The evening meeting was largely attended. It was also opened with prayer and praise at 7.30. President Higgins did for on the programme, but his remarks were interesting and much appreciated by those present.

The address of welcome by Miss Augusta Lodge, of the Digby Academy staff, was certainly one of the best speeches listened to at all the sessions. She gave a description of some of our attractions as a summer resort, and called attention to the beauties of nature at this season of the year when the trees are beginning to take on their autumn appearance.

Rev. E. E. England, being absent, the address of welcome was responded to by Rev. J. W. Johnson.

This was followed by an address from Rev. D. D. Dickey, president of the Nova Scotia conference.

Rev. G. W. F. Glendinning's address, The Greatest Movement of the Age, closed last night's session.

On Saturday Arthur Ordie met with a severe accident while heading a cable for molasses on his team by the creek slipping and striking him on the leg with great force, causing severe injury, from which he has been laid up ever since.

On Monday while being hauled by a horse, his hand came in contact with the circular saw, severing several fingers, and he has been laid up ever since.

The Salvation Army officers and some of their followers in this place left on Monday afternoon to assist in a special service at Bear River that evening, and leaving the meeting to return home to Annapolis, mistook the road and travelled in a contrary direction to within a short distance of Digby before they discovered their mistake, and did not return home until 3 o'clock in the morning, to the relief of their friends, who were in a state of excitement as to what had happened to them.

A GLOOMY PREDICTION

The Boston Herald regards the war in the East as certain to be long protracted and of staggering waste and slaughter. It says in the course of a prophetic editorial: "Evidently Russia intends fighting to the limit of the nation's resources before conceding herself obliged to yield to Japan. Japan, no doubt, will respond promptly in kind. But her most effective response would be the practical destruction of General Kurapatkin's army before the new army can arrive in Manchuria. This may be impossible, and it may be difficult for Japan to oppose an equal force to the reinforced Russian army. If Port Arthur could be taken, many Japanese soldiers would be released for reinforcing the armies advancing on Mukden. The Carr's letter appointing General Gripenberg is virtually a confession of his astonishment at the military capacity of the Japanese and his awakening to the fact that Russia is being put to a severe test. It is apparent that the war will not be concluded this year unless Japan yields, and she is unlikely to do so."

"Unlikely" is a mild word in that connection. It is not now clear why the Japanese cannot match the Russians in the speed with which they place new troops within the fighting zone. The record to date tends to show that in this matter the Russian difficulties are not and must be for a long time to come greater than those of the Japanese. The Herald notes that modern advances in the art of war do not shorten the conflict as they were expected to do. "But it is true," says the Herald, "that wars are more terrible in their destructiveness of life and property. That may be proved before the struggle is ended. Thus far the destruction of life and property has not been extraordinary in comparison with the greatest wars waged under the old conditions."

THE GOVERNMENT AND TEMPERANCE

We print this morning the full text of the local government's reply to the plea of the temperance organizations for stronger legislation to prevent drunkenness and promote sobriety in this province. The government expresses the view that members of the legislature and the public generally are sincerely desirous of promoting the temperance cause, and make it clear that such also is the attitude of the government. The temperance committee had thirty suggestions for the improvement of existing legislation, and of more than half of those the government approves. As to the enactment of a prohibitory law, the committee, the government answers that this matter has from time to time received consideration, but it is felt that such a law cannot be satisfactorily enforced throughout New Brunswick. It is regarded as unwise to pass a law recognizing beforehand that general observance of it cannot be compelled, as the open disregard of any law must tend to weaken respect for other laws essential to the well being of society. In this connection the Premier directs attention to conditions which have frequently been the subject of comment by The Telegraph. He says: "I would call your attention to the fact that the Canada Temperance Act, from which so much was expected, and which has undoubtedly produced good results in certain districts, more especially in the rural localities, is in many places, particularly in cities and towns, openly violated, and in some places, by the tacit consent of the local authorities, the payment of fines, periodically exacted, has taken the place of fees under the License Act. The Canada Temperance Act is in force in most of the counties of the province, and, if the people were so minded, it could be brought into operation in all."

The government's observation of prevailing conditions leads to the conviction, Premier Tweedie says, that the best means to prevent the issue of business in places where prohibition sentiment is strong enough to warrant the belief that the law will be carried out.

WARMING UP

When Mr. Hennessy complained recently that the presidential campaign was apathetic he was assured by the astute Mr. Dooley that men with bricks to throw would not lack for targets in a week or two. That Mr. Dooley spoke by the card appears from the sudden increase of political "sensations" across the line within

the last few days. The chief of these is a Republican "disclosure" to the effect that eleven millionaires are to contribute \$1,000,000 each to elect Judge Parker. Circumstantially and solemnly certain Republican newspapers assert that "the publication of Mr. Parker's letter of acceptance released for actual use the greatest national campaign fund ever collected and made available for the use of the Democratic national committee in its fight against President Roosevelt's election a fund of over \$11,000,000, contributed by eleven of the richest Democrats in America, and underwritten by August Belmont, the multi-millionaire so closely connected with Mr. Parker's campaign."

The gentlemen who are thus represented as pledged to purchase the presidency for the Democratic candidate are: August Belmont, John D. Rockefeller, James J. Hill, Thomas F. Ryan, Hermann Ridder, O. H. P. Belmont, Joseph Pulitzer, James M. Guffey, George Foster Peabody, James K. Jones, and Henry G. Davis. Mr. Davis is Judge Parker's running mate. He is said to be "worth" \$40,000,000, but while he is eighty years of age it has not hitherto been said that he was senile.

The immediate purpose of this canon, of course, to convey the impression that the capitalists are committed to the Democrats, and thus swing opposing influences, the labor vote and anti-trust forces, to Roosevelt. It is somewhat early in the campaign for the appearance of such features, and one wonders what the contestants will do for sensations when they come to the closing days of the battle. The Boston Journal explains how the money is to be applied: "With such a campaign fund in their possession the Democrats are to flood the doubtful states. The sure states will get but little of the cash and that only for necessary expenses, but New York, New Jersey, Connecticut, West Virginia, Delaware, Maryland, Illinois, Indiana and Wisconsin will be overrun with Democratic leaders and Democratic coin." That would mean something more than a million for each of the doubtful states, which is a fairly generous estimate at this stage of the game. Later on some equally enterprising newspaper will doubtless "see" the Boston Journal and "raise it" extensively.

THE TAIL AND THE DOG

Now it is the hired man who is annexing Canada. He is from the United States and he makes his appearance in Collier's Weekly. The success of the hired man in this direction has been detected by Mr. Richard Lloyd Jones, who writes in Collier's of "The Farm Worker." Mr. Jones tells how the Western farmers of the United States awake to the advantage of the Canadian West some years ago, and then, "people began to look at maps. Russia is the wheat-field of Europe, yet Manitoba, Assiniboia, Alberta, and even Saskatchewan are south of her wheat belt, and faith in the new land grew. It has been eight years since that first invasion of hardly half a hundred, and in that time a quarter-million men, trained on American farms, have settled in these territories. They have Yankeeized the western half of the Dominion. They have already openly talked of severance from the throne of England, and their representatives in the Parliament hall, of Ottawa have pleaded for a Continental Federation of States! It is only a matter of time till the tail will wag the dog."

One has to go abroad to get the same news sometimes. Mr. Jones has heard much that is foolish and unfounded. It is good of him to admit even tacitly that the wagging process has not yet begun, or rather that the dog is still master of his caudal appendage. As long as the animal swings it as easily and as joyously as of old he will not be greatly moved by the Jones school of prophets. Canadians do not apprehend any shifting of the motive power as between dog and tail at any time in the near future. Meanwhile they owe Mr. Jones something for advertising the value of their fertile acres. When the hired man of the United States becomes a landowner in Canada, and enjoys for a time the security and freedom and prosperity which are common to all under our institutions, he becomes a good Canadian. Sometimes he may complain that the United States is blind to the growth and importance of the Dominion and legislates according to its blindness. But of Canada he will not complain. And the dog will continue to do the wagging.

NOT GUILTY

The Telegraph is now charged with conspiring to defeat the Newfoundland government party and hand over the Ancient Colony to Canada. The St. John's Evening Telegraph remarks darkly: "The opposition are beaten hip and thigh, and in their distress have appealed to their friends on the Canadian press to assist them. Since Mr. Morine left here on his last visit to Canada a few weeks ago, articles have appeared in the Canadian press, evidently inspired and written with the object of assisting the opposition to win the elections in Newfoundland. How is it that the Toronto Globe and the St. John Telegraph come to the assistance of Mr. Morine and his friends of the opposition? These articles are friendly to Mr. Morine and the confederates, and unfriendly to the Bond government and the anti-confederates. Why do these newspapers come to Mr. Morine's assistance?" Not guilty. The Telegraph recently printed an editorial rhapsody from the St. John's journal in which Mr. Morine was accused of plotting to sell his country to

Canada and make of Newfoundlanders mere leeches of wood and drawers of water. If this be conspiracy, make the most of it. But our only purpose was to exhibit to a calm and peaceful community some samples of the editorial chain lightning which plays about public persons in Newfoundland when election day draws near. Newfoundland should enter this Confederation, but it will only do so when its people are convinced that such a course is wise. Mr. Morine may or may not lead the horse to water. No one believes he can make it drink.

THE ELECTIONS

Thursday night brought from Ottawa the news which has been expected for weeks, and while everybody believed the elections would be called on some time this fall, November 3 is perhaps a somewhat earlier date than most of the prophets expected. Short and sharp as the campaign will be the element of surprise has been eliminated. Both parties have been at work, and while in many sections organization is not complete it needed only the official announcement of the date to set the party machinery of both Liberals and Conservatives in motion.

Throughout Canada from today campaign organization will go forward with a rush. For the time before nomination day is short and there is much to do. The official reason given for dissolution is the Redistribution bill. The government no doubt believed an appeal could be made to better advantage now than later on. The trade returns had begun to show signs of decreasing exports, and it may have been thought that Canada was about to experience a touch of the depression noticed in the United States. To wait until next year, too, would have been to leave no room for guessing as to the time of the elections, for next year an appeal to the country could have been no longer delayed.

The next horse will contain 214 numbers, or one more than that just dissolved. The table printed below gives the results in each province in 1900, but in considering the figures the changes made by the Redistribution bill must be considered. New Brunswick will now elect thirteen members, P. E. Island four, Nova Scotia eighteen, Ontario 88 and so on, Quebec remaining the same and the Territories, Manitoba and British Columbia gaining the seats lost by the East:

1900. Libs. Cons. Ontario... 37 35 Nova Scotia... 15 5 New Brunswick... 9 5 Manitoba... 3 4 British Columbia... 3 2 Prince Edward Island... 3 2 Territories... 4 0 Total... 133 80

The by-elections have made little alteration in the standing of the parties since the last general contest. The Conservatives during that time have won three seats for which Liberals were formerly elected, and the Liberals have carried six seats which were formerly carried by the Conservatives.

In New Brunswick the struggle now is for thirteen seats. Dr. Lewis of Albert retires, which leaves the count six to seven, the Liberals having lost St. John County. They hold now St. John City and Convent, York, Restigouche, Gloucester, Kent, Westmorland and Victoria and Madawaska. The Conservatives have St. John City, Kings, Queens and Sunbury, Carleton, Charlotte, and Northumberland. The sitting members on both sides expect to be re-nominated. This morning's news will soon bring out candidates to oppose them. In several New Brunswick constituencies close fighting may be expected.

ORGANIC UNION

Within a short time the question of organic union will be submitted to the individual Baptist and Free Baptist churches. The representative bodies of both denominations have agreed upon the terms of union. The union committees of both bodies were continued by both church parliaments, and it is quite likely that these committees will advise that all the Baptist and Free Baptist congregations be asked to pass upon the union question at practically the same time, and in the near future.

The effect of the Free Baptist earnestness displayed at that meeting still exert an influence upon the members of both churches. One or two churches have already acted, and the conviction is general that their example in accepting union will be followed by all the others. Men who are in touch with the situation inform The Telegraph that the outlook becomes more satisfactory day by day.

BARRED AT THIRTY-FIVE

The Carnegie Steel Company has issued a circular letter to the superintendents of the different plants and to the heads of the different departments in the plants instructing them to employ no men over thirty-five years of age in certain departments. It is of course within the power of great monopolies to set the limit of age on those who work for them. But what ultimately becomes of the aged? And when are men to be pronounced within the age limit? It is this shortening of the age limit that has so much increased the popularity of government life insurance abroad. Germany has already insured upwards of 1,000,000 of her workmen against old age.—Boston Globe.

day have to consider the fate of the aged. It may then appear and be declared that a monopoly which discriminates against willing and capable men is acting contrary to the fear of dying rich still haunts him might spend some millions in working out a scheme by which industrious workmen may grow old without feeling the pressure of poverty. The old man cannot sleep in his libraries. They cannot eat the books. The libraries may do something to deliver future generations from the fear of poverty in old age, but what of those who are already growing old and who have no hope of comfort in their latter years?

NOTE AND COMMENT.

No date for the elections yet. The Ottawa guesses favor November 1, but no one professes to know.

The United States will be choosing a president about that time—Nov. 3—but Canadians will scarcely have time to notice it.

Thirty-three days more before election day. A short campaign and a lively one. There is no surprise about it. Both parties have been preparing for the fray for a long time.

Premier Ross, of Ontario, is in deep water. The courts shot away his majority yesterday and transferred it to the opposition which is now the more numerous body. Mr. Ross can resign or order some by-elections or wait a while, and the chances seem to be in favor of waiting a while, for at the present moment he may well find it inexpedient to test public opinion in several constituencies.

Mr. Barbour, and the city, are to be congratulated upon the shrewdly with which the engineer's plans were accepted yesterday. The shortest way to Loch Lomond is the best and the cheapest. The main question agreed upon, it now becomes the duty of the aldermen to give the city the improved service in the shortest time possible. Every day's delay will be costly. The Mayor may do much by applying the spurs from this time on.

The influence of the late Frank Norris, who wrote "The Octopus" and "The Pit," is discernible in Mr. Arthur Ruhl's "The Drama of the Harvest," which appears in an American weekly. He writes: "Five hundred and fifty millions of bread eaters the world over are waiting for the new wheat. Before the next harvest is gathered each one of them will have consumed, on the average, four and a half bushels of wheat. By the time the harvest is in on Dakota the tide of new grain is almost at the flood. The sudden roar of its progress can be heard in every grain from Kansas City to Odessa every blow that jars its surface starts ripples that widen out and out to the ends of the world. If the price is low the burden falls on the backs of the poor, and if it is high, mortgages foreclosed, and there is trouble for us at home; if the price is high, Liverpool and Hamburg murmur and the cost of bread becomes dearer for the peasants of Italy and the millions of far-off Russian steppes. All over the wheat belt farm-owners, elevator-owners, flour-millers, commission merchants and wheat-growers are watching the ticker for the market reports."

One reads with a sense of great relief that Great Britain and the United States are not going to war because an attaché of the British legation was fined for speeding his automobile. The "haste wagon" as a cannal biller to be new. The Boston Herald assures us that no blood will be shed.

Justice Phelps has placed the United States in the position of having offered an affront to the majesty of the British empire, and the wrong must be apologized for, and as far as possible, undone with the greatest promptness. It will be there will be no war. But Justice Phelps' indiscretion, done in ignorance, not in wantonness, has brought him prominently into the gaze of two world powers, and more or less into the notice of every other. His name will be embalmed in official documents. The incident will become a precedent in diplomatic annals. But ought not the gentlemen who are exempt from answering to the law like ordinary persons, native or foreign, to exercise a certain courtesy of scrupulous respect to the laws of the places where they condescend to live?

The young man should have been fined; but was it necessary for the "Squire" to kick him down stairs?

HON. A. S. WHITE NOMINATED

(Continued from page 1.) Concluding the senator allied to Dr. Lewis, M. P. of Albert. He elaborated upon his long and honorable career. He hoped that the time was not so far distant when the doctor would sit with him in the Dominion Senate. (Cheers.) "It is whispered," said Senator Domville, "that there is to be an election. The rumor is to the effect that it may be on the third of November, and not later than the fifteenth. I do not know any secrets, and therefore cannot speak with authority." (Laughter and applause.) Senator Domville then read the following list of Kings and Albert county delegates to the convention:—

Organizing.

On motion of W. G. Scovil, Frank Taylor, of Albert county, was appointed secretary and chairman of the nomination committee.
Mr. Taylor expressed his pleasure at seeing such good feeling among the delegates. He trusted the campaign there would be no friction. He then declared the meeting open for anyone to nominate a candidate.
Dr. Lewis then moved that Hon. A. S. White be nominated as the standard bearer for Kings and Albert constituency in the next campaign. The motion was seconded by W. M. McAnulty and carried unanimously. J. M. McIntyre moved the nomination be presented to Mr. White, which motion also carried. There were no other candidates named. Mr. White, who had been called on at the time, subsequently the chairman read a telegram from Hon. Wm. Pugsley regretting that public business made it impossible for him to be present, and referring to a communication which he had sent and which was as follows:

Hon. Mr. Pugsley Predicts Success.

Edmundston, N. B., Sept. 29, 1904. Hon. James Domville, Hampton, N. B.: Regret very much that public business prevents my attending the Liberal convention for Kings and Albert. I am sure that those from Albert, who are now for the first time meeting with the Liberals in convention, I need not say that I trust the greatest success will be theirs. I am sure that the Liberal administration which Canada has enjoyed during the past few years are likely to continue, and the administration to witness even greater development. I am sure that the Liberal party in the history of New Brunswick as well as elsewhere in Canada, has never been so high as it is now. I am sure that the Liberal administration which Canada has enjoyed during the past few years are likely to continue, and the administration to witness even greater development. I am sure that the Liberal party in the history of New Brunswick as well as elsewhere in Canada, has never been so high as it is now. I am sure that the Liberal administration which Canada has enjoyed during the past few years are likely to continue, and the administration to witness even greater development.

Mr. White Pleased.

The chairman then formally announced that Hon. A. S. White was the unanimous choice of the convention.
On motion of Dr. Lewis, seconded by C. J. Osman, the nomination was ratified, and handed to Mr. White by the chairman.

Hon. Mr. White Speaks.

Mr. White was greeted with prolonged applause. He said he would not attempt the impossible in adequately expressing his deep sense of gratitude to the honor that had been conferred upon him by the nomination of him as the standard bearer of the Liberal party in the approaching contest. He would have been a candidate more deserving of the honor than the speaker.
Another worthy man was Dr. Lewis of Albert county. He was proud to call him his friend. He was employing no empty form of words, for in his political career he had not met a more devoted friend nor a man possessing better judgment than Dr. Lewis. He felt that had Dr. Lewis been a candidate, he (White) would not have been the convenor's choice. He felt happy in the support of such a man as Dr. Lewis.

Another man could have also borne the honor. He referred to the late governor of the province—the Hon. A. B. McClellan. But few present were old enough to recall the time when Mr. McClellan first entered public life. He took his seat in the legislature in the days of the Liberal day that was destined to dispel the shadows of the old Tory regime. He had been indefatigable in fighting for the people. He was loyal and had even been in the legislature in the days of the Liberal day that was destined to dispel the shadows of the old Tory regime. He had been indefatigable in fighting for the people. choice of the convention would meet with Mr. McLean's approval.
There was another name dear to the people of Kings county. He had been his colleague for years. He referred to Geo. Scovil, M. P.—a man upon whom all reliance could be placed. Mr. Scovil did not profess to be an orator, but for solid work he could be depended on. (Cheers.) He was glad there was no man in the convention more heartily pleased with the nomination than Mr. Scovil. (Hear, hear.)
Another name that might be mentioned was that of Mr. Ryan, M. P. of Alma. He was worthy of the convention's choice. He had been him in the house, manfully battling for his constituents against railway influences. There was no man more zealous for the welfare of his constituency. Mr. Osman would have also been eminently suitable. The speaker did not wish to be regarded as a person to talk politics, but he could not help saying that of all the speakers in the house, there was no one he delighted more in hearing than Mr. Osman. He was a graceful speaker. He could say things calculated to wound, yet the individual against whom the observation was directed would hardly be conscious of the thrust, so great was Mr. Osman's ability along this particular line.

Another worthy man was the Hon. Wm. Pugsley, attorney general. (Applause.) If Dr. Pugsley had a desire for the nomination he was his own worst enemy. Dr. Pugsley was a man of unusual ability. He had filled the office of attorney general with credit to himself. If he resigned the portfolio, there would be regret among the people of the province because of the loss of his services. Dr. Pugsley said this and knew he would be benefiting the province by remaining as the attorney general. He was glad that he had the support of so able and distinguished a man as the attorney general. There were other men the speaker might mention, also. He did not want it to be thought that because of the honor done him he might state that if elected he would do his very utmost to serve the best interests of his constituency. (Cheers.) He would know no boundary lines. (Applause.) A man could not be from two counties, but yet he could not help thinking that his par-ticular constituency was his own. He was unconsciously looking into the future when they christened him Albert county. He was born in Kings, yet he was called Albert. He came as near filling the bill as was possible. (Laughter.) He did not expect that the people would wish him to talk politics. His hearers were all good Liberals, and could render services for their faith. He wanted to know why he should dwell upon the issues of the impending campaign.

Mr. White next reviewed conditions in Canada prior to 1896, when the Conservatives were in control, and pictured the change that came with the advent of the Liberal administration. The tightened bands were loosened, the flood of commerce began to flow and an era of prosperity such as Canada had never known commenced. (Prolonged applause.)
The speaker believed that the mass of voters wished to vote for the best interests of the country, regardless of party, but the electors felt and knew that the Dominion was experiencing unprecedented prosperity at the present time, and they would not run the risk of losing it.
Mr. White mentioned the railway question, which many professed to believe to be the great question in the approaching campaign. He could not enter into an exhaustive discussion of the matter, but pointed out the Conservative party's contention with the branch of the C. P. R. running between Port Arthur and Lake Superior.

When the proper time arrived the question of the Grand Trunk transcontinental would be treated in full. He believed the people would be in accord with the government. The building of the Eastern Section would appeal particularly to the people of the maritime provinces. Development would follow the construction of the road. The electors would not turn their backs on it. (Cheers.)
There had come a change in the Liberal leadership of the province. Hon. A. G. Blair was not now a factor in provincial politics. He had enjoyed a large following and had been admired. The speaker could sympathize with him in his present position.
While in office as minister of railways the Conservatives were unable to find fault enough terms to direct against him. They had charged him with dishonest motives. But when he differed with his colleagues, how different became the Tory attitude. He became a wonderful man. The speaker had sat with Mr. Blair in the legislature. He had opposed him with respect to temperance principles embodied in public school education. The speaker wanted to see such principles made a part of the people's studies. Mr. Blair had differed, contending that it was something for the board of education to look after.

Other Speakers.
G. G. Scovil, M. P. P., congratulated the convention on its selection. He was not an orator, but would be found at work when the proper time arrived.
On P. King, M. P. P., said the convention reminded him of old times. It looked like a fight, and what was more it looked like a winning fight. He urged that the counties come together to organize. There would be no question as to the result.
Frank Taylor said that when the time arrived he would be found working in the best interests of the constituency.
Dr. McVey, of Rothesay, was pleased at the great harmony shown by the meeting. He had been impressed by Dr. Lewis' words. He was the grand old man of Albert county, who had served his constituency long and with honor.
C. J. Osman, M. P. P., was appointed chairman of the work of organization, and Howard P. Robinson, of Sussex, secretary.
The convention concluded with cheers for the Liberal candidate, the king, Sir Wilfrid Laurier, Dr. Lewis and Senator Domville.
Thursday evening a banquet was tendered the delegates at Heath Hall.

LOCAL AND PROVINCIAL

St. John has been made a port of export for deer, moose and caribou.

The tug Joseph which went ashore up river Sunday night was floated by the tug Hunter Monday and proceeded to Fredericton.

The new burner which James Fleming built for Sayre & Holly, for their mill at Chipman, has been put in place and finished. It is about 120 feet high.

Queen square Methodist church has extended a call to Rev. G. M. Campbell of Canterbury and he will accept subject to approval of the conference.

F. E. Cane, of Chamcook Farm, St. Andrews (N. B.), won most prizes at the exhibition than W. W. Black of Amherst, who was credited with the greatest winnings. Chamcook farm prizes aggregate \$281.

Dr. J. K. Barrett, of Winnipeg, is at the Royal. He is chief inspector of malt houses and breweries of the dominion and is on his annual tour of inspection. After completing his work here, Dr. Barrett will go to Halifax.

The contracts for supplying food to the almshouse for the year commencing Oct. 1 were awarded Wednesday evening. E. H. Gallagher will supply the groceries; O'Neill Bros, the meats; and George Mitchell, the bread.

The appointment of Captain and Lieut. Major M. B. Edwards to be Lieut. Colonel and commander of the 62nd Fusiliers of this city leaves vacant the post of adjutant. As yet no recommendation has been made as to who should fill this position.

Roy Fenton, the lad who drove the express wagon from which a fifty-pound box or dynamite fell, causing the death of nine persons and injury to forty others at Melrose (Mass.), belongs to Hillsboro (N. B.), and is a son of Wm. Fenton of that place.

Invitations for the wedding of Miss Ida Belle, daughter of Mrs. John Thompson, of Brookley (N.Y.), to Walter R. B. Olive have been issued. The wedding will be Wednesday afternoon, October 5, at Melrose (Mass.), a favorite operator in the Western Union Telegraph Company, and is a son of T. Carleton Olive, West End.

A. J. S. Copp, M. P., of Digby, E. C. Bowers, of Westport (N.S.), and R. N. Vennings, of the marine and fisheries department are at the Royal. They are members of the fishery commission and are on their way home after completing their investigating work by a tour of Charlottetown county points. They have yet to meet to make up their report.

Charles L. Clark, of Fredericton Junction, C. P. R. inspector, and Fred Nut-

ton, also from Woodstock and other places. The army is expediting these gatherings to cut strip anything held in the past. No doubt the exceeding low rates will attract a large number of spectators to the city. Miss Booth is billed to address meetings in the St. John Opera House on October 10 and 17.

A very successful union soldiers' council was held last evening in No. 1 barracks, conducted by Colonel and Mrs. Phillips Sharp, assisted by Major and Mrs. Phillips and the rest of the provincial staff.

Where the Bullet Was. - Senator De Quesada, the Cuban minister, is at Richfield Springs. One morning, he saw two men installing a burglar alarm system in a villa that had been robbed the night before.

Those fellows' work is useless," said Senator De Quesada. "Lightning never strikes twice in the same place, and neither does it strike twice in the same place, either. They are installing their alarm too late.

"And thus they remind me of the surgeons that attended one of my incisions. 'My ancestor, a great soldier, had been wounded in battle, and the surgeons had him stretched upon a table, where they dug and tore and gouged him with their instruments very industriously and very cruelly.

"He stood it as long as he could. Then he emitted an oath of anger and impatience. 'Does it hurt me?' said my ancestor. 'I should think so. What on earth are you doing, any way?'

"Probing for the bullet, sir," the surgeon answered. "Why the deuce didn't you say so before?' cried my ancestor. 'I have it here in my pocket.'

WIFE CAPTURES HUSBAND HERE

Found Him Working on the Prince Rupert, and They Left for Halifax.

A woman with tear-stained face and a man who looked a trifle uncomfortable spent Thursday night in Union depot, and finally left for the late Halifax express.

A few days ago there was an instance, in the depot, of a husband in a search for a runaway wife, but for the couple of last evening the positions were reversed.

The man is William Marshall, of St. John's (N.B.). He married a girl whose home is in the suburbs of Halifax, and the union was blessed with one child.

Last March there arose between Mr. Marshall and his wife a dispute, which terminated in Mr. Marshall's sudden departure. He left wife and child in rather straitened circumstances, it is said, and following his impromptu leaving, taking a somewhat strenuous period before the portion of Mrs. Marshall.

She was plucky, however, and procured work. She made inquiries concerning her husband, but nothing of definite nature reached her until a few days ago. Then she had reason to believe that he could be located in Boston. So, leaving her child in Halifax, she invested her scant savings in a trip to Boston and return.

Mr. Marshall, however, was employed on the steamer Prince Rupert, and this Mrs. Marshall did not become aware of until after she had left St. John.

She was not to be faulted, though. Disappointed but with unabated determination she returned to this city, arriving Wednesday evening. Yesterday morning she went to the Prince Rupert and found her husband washing dishes.

His astonishment was profound, but he readily acquiesced when requested to return to Halifax. He wrung out the dishcloth, dried his hands, and his kitchen apron, resigned his rank and walked ashore once more under peevish government.

They were not at all happy looking as they awaited the departure of the Halifax express last evening. Mrs. Marshall had been crying. Marshall, while he seemed reasonably repentant, did not appear as if he wished the situation, to speak like, but looked his discomfiture.

Rev. G. M. CAMPBELL City and Truro Church Seek Him as Pastor.

Two churches are seeking to engage Rev. G. M. Campbell, of Canterbury church, of this city, and Pleasant street church, of Truro, to fill the vacancy caused by the call of Rev. J. W. Aikens to Brunswick street church, Halifax.

The salary offered by Rev. Mr. Campbell is \$600 and a parsonage.

Kent Circuit Court. - Richibucto, Sept. 27. The Supreme Court met today, Justice J. Campbell presiding. A number of jury men from different parts of the county were present. The following were entered for trial:

The King vs. Francis Melanson, charge, theft—R. Irving appeared for the crown.

Arceade Goggin vs. Thomas Williams—P. Robinson, plaintiff's attorney; R. A. Irving, defendant's attorney; E. Elizer, J. LeBlanc, R. Irving, plaintiff's attorney; E. Girouard, defendant's attorney.

The grand jury found a true bill against Melanson charged with stealing \$22, the property of Walter K. Smith, surveyor for C. E. Lockhart & Co., Notre Dame, and on being arraigned by defendant, was committed to the county jail at Richibucto.

The suit of Arceade Goggin vs. Thomas Williams, which was set down for trial on Tuesday, was postponed until the 30th of the month on account of the illness of defendant, on payment of the usual costs of the day. Court adjourned sine die.

Winter Port Trade. - The Canadian Pacific has announced that it will have three steamers in the Liverpool service, three in the London and Antwerp service, and two in the Bristol service next winter. The Allans must come here under the mail contract, and it is presumed that the Donaldson will maintain a weekly service, and that the Farness and Manchester liners will come here frequently as in past years, while there may also be sailings from here of the line now running to France.

It is reported that the Allans did not find the direct Halifax service particularly profitable and that they would like this winter to have all their five boats come to St. John, but whether it will be possible to so arrange that this can be done is a question. If the Allans line are only able to send three boats here it is expected that they will be the big ones, the turbine Victorian and the Tunisian and Bavarian.

At present the outlook is that there will be more steamers available than there are berths, with every prospect of a winter's business equalling, if not rivalling, that of 1903.

LET SEVEN MOOSE GO BY; SHOT NEXT

Boston Sportsman Finds Game So Plentiful in New Brunswick He Could Pick and Choose.

Probably the finest moose killed in the New Brunswick woods this season went down before the aim of James H. North, a Boston sportsman, who has been in the Miramichi head waters woods with Mr. Sinclair, of Newcastle.

The most noticeable feature of Mr. North's hunting is perhaps that he was able to pick and choose until he found an animal suitable to him. The bull he finally brought down was a magnificent animal with majestic head and splendid antlers, which have a spread of 83 inches.

Mr. North let seven moose go by before the one to his fancy came into view and the fact that a sportsman can do this is pretty strong confirmation of the claims of this province to be a great place for big game.

Mr. North came to the city yesterday on his way home, well pleased with his outing in the woods and with the trophy of his skill. He will have the moose's head mounted.

Thomas Denn is showing two very fine mooseheads at his stall in the market today. The animals were shot near Westfield. One of the heads has antlers of 80 inches.

After Big Game. - A Large Number of Licenses Issued—Moose Plentiful.

Although the season for shooting moose just opened on Thursday last, already a number of parties have returned to town bringing with them some fine specimens of the antlers of the forest.

A. McO'Donald and S. Langhlan, Jr., of the Miramichi, and S. Langhlan, Sr., of Black Point, were in near Antisipasi, in the Charlo river district last week, and returned on Saturday with two fine moose.

John Keen and Sam Cook went to East Meadows district and succeeded in bringing down a fine specimen, the carcass when dressed weighing about 100 pounds. The spread of the antlers is in the vicinity of 55 inches.

Sherman Scott and Charles Goss returned from the West Meadows on Tuesday evening with a large moose.

C. P. Brown, station agent at Jacques River, and two daughters and some others, have also been successful in the Jacques River district.

Another party now in the woods are Messrs. W. A. and F. W. Ayer, of Eganor. George Dawson is the guide.

Mr. and Mrs. D. C. Gillan and Miss Laura Gillan, of the Miramichi, were in the woods yesterday. This party went in without any success, but they were out for a big game, and succeeded in shooting a moose on Saturday. The head of the moose was taken, but the caribou head is an exceptionally fine specimen.

Several parties mentioned there are a number of other parties now in the woods and it is believed that it is safe to say that this will be a record year for big game.

The county game warden, J. S. Bassett, of Charlottetown, issued on the first day of the season a large number of licenses, an unusually large number—a larger number than was ever issued in any year since the game law came into force.

Game Warden Verge, of Campbellton, reports having issued sixty-nine licenses, of which were for non-residents—Campbellton events.

Laurier a Witness in a Libel Suit. - Ottawa Journal Subpoenaed Him in the Suit of J. Carling Kelly Against It.

Ottawa, Sept. 29.—(Special)—Sir Wilfrid Laurier was a witness at the assizes here today in the libel suit of Carling Kelly, a promoter, against the Ottawa Journal for certain statements made concerning him in that paper.

The Ottawa Journal subpoenaed Sir Wilfrid to appear at a certain trial alleged to be written by the premier introducing Kelly to Mr. Fabre of Paris.

Sir Wilfrid said that he had no recollection of writing any such letter and that he did not know Kelly.

He was asked to stand up in the court room the premier said that he thought he had seen him on the street. He had written such a letter he would have kept a copy but his secretary could not find any copy.

In reply to Kelly's counsel Mr. Laurier said that if C. W. Mitchell, late of the Free Press, had introduced Kelly to him he might have given Kelly a letter of introduction to Laurier but he had no recollection of doing so and no such letter could be found.

Wrong Kind of Advertising. - Miss Harriet Hosmer, the noted American sculptor, was talking at her Waterloo residence about her experiences she had known. Of a certain noted New Yorker she said:

"He was an awkward dancer, but he told me once that he had taken dancing lessons in Boston. His teacher was a charming old Frenchman, a true artist, and when he came to leave Boston he said to the old man: 'I am going back to New York now, and if there is any favor I can do for you there, I shall be only too glad to serve you.'

body, and does not supply the strength and vigor he most requires. That comes from oats, and time is needed for their mastication.

Hints About Milking. (1) Have the stable clean, and have the cow clean, or you can't get clean milk.

"Come down." Then is the time to take it, and do not delay. (4) Milk as rapidly as possible without irritating or worrying the cow.

WOMEN SINGERS BARRED FROM CATHOLIC CHOIRS

New York, Sept. 25.—Archbishop Farley today will send to the pastor of each parish in his diocese the report of the commission appointed to carry out the views of Pope Pius X. regarding the character of sacred music in the Roman Catholic churches.

This action on the part of the head of the church will be believed to be a source of embarrassment in many parishes where women singers have been engaged and who hold long contracts with the churches.

ESCAPED PRISONER STILL EVADES SEARCHING POLICE

Grant, the Alleged Pickpocket, Thought to Be Not Far from Fredericton—Officers Scour the Country.

Fredericton, N. B., Sept. 23.—(Special)—Grant, the alleged pickpocket, who escaped from the county jail last night has not yet been captured. Officers scoured the country today in every direction but no trace of him could be found.

It seems to be the general impression that he is either hiding somewhere in the city or else is working his way by easy stages along the railway track in the direction of Fredericton Junction.

It was reported this evening that a man answering his description had been seen in Wilmet Park but the police do not take much stock in the report.

THIS IS GRANT. He was in for trial on a charge of being a pickpocket.
