Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs. A MONG the great discoveries of modern A science, few are of more real value to markind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be helieved, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughas, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection ngainst the early and unperceived attack of Pulmonary Affections, which are gasily met at first, but which become mourable, and too offen fatal, if neglected.
