THE ENTRIES RUSH IN! Information Of Value To The Interested!

Hundreds of ladies in happy and thrifty homes in Canada are working cheerfully and confidently, preparing for that most interesting contest, known as the Damond Dye Competition.' As time passes, the interest increases; and the Entry Forms' from intending competitors are coming in faster than ever before. The Ladies seem to be fully aware of the utility and value of the novel competition—the first of its kind ever tried in the Dominion; and all are assured of its complete success, owing to the fact that it has been started and backed up financially by one of the wealthiest manufacturing concerns in Canada—the Wells & Richardson Commanufacturers of the popular Diamond Dyys. At this particular point we consider it opportune to remark that too few of our leading manufacturers of Diamond Dyes. People, generally, appreciate liberality when properly directed, and when the act is spontaneous and hearty. This free distribution of \$1,500 to the ladies of our country, which have been using a popular and useful household article, has never been thought of before. The remarks recently made by the prominent lady, fairly well of before. She said: 'It seems to me that the 'manufactures of Diamond Dies are paying us large premiums because we have been

While we are allowed to state that this is true as far as it goes, we are requested to say that one great object of the Competition is to gether together a vast collection of the handiwork of the ladies from all quarters of the Dominion, so that the public may have an opportunity of juding of the great possibilities and wonderful effects of Diamond Dres

Let us now point the ladies to the dial of time, and warn them that the days are flying. More Startling Facts in Connection with the Mercier Party. Montreal, Jan. 15 .- La Presse, the organ of Hon. Mr. Nantel, will publish tomorrow some very startling facts concerning Mercier's recent denial of charges laid against the count and his once minister of public works, Jas. McShane. Your correspondent has been shown the proofs and it is clearly proved by documentary evidence that McShane gave out work to the amount of almost a quarter of a million, not only without tender, but without authorization of the legislative and without one cent of appropriation. The peoples' Jimmy' likewise advanced contractor Charlebois \$150,000 when but\$100,000 worth of work had been done. The Valliere scandal is also still more glaring. Phillippe Valliere, a rich Quebec furniture dealer, was a strong tory, but his connections changed when Mercier arrived to power and in due time this gentleman endorsed notes for Pacaud and ministers to the amount of \$185,000, and in return received a fat contract to supply furniture and fittings for the Montreal jail and

other buildings, the former not yet com On 22nd July, 1891, Mercier wired Hon. P. Garneau as follows: I pray you to settle the Valliere ma

Mr. Natel also discovers that the additional story to the Montreal court house, of which the contract price was \$194,000, will cost when finished according to Mercier's own architects, \$503,000, or more than enough to build a structure that would have been a credit to the city and the district of Montreal .-

It is plain that when the milker approaches a cow and she gazes at him with her eyes filled with fear and trempling, and gathers herself together to receive an expected blow she is not going to yield as great an amount of milk, or as rich in quality as she would if her eyes gave him a glad welcome. Kindness begets kindness and the cows are few that will not do their very best when kindly treated. There is occasionally one that is naturally vicious, and drinks yet we feed it without kindly treated. There is occasionally one that is naturally vicious, and it is a waste of time and patience to try to change their nature. Sell her to the butcher and end her vicious existence. It is a very easy matter to have a herd of dairy cattle that are kindly disposed to each other and to those who have the care of them.
