DOOR AND SASH FACTORY
CAMPBELLTON, N. B.

Manufacturers of SASHES, DOORS, MOULDINGS, and GENERAL BUILDING MATERIAL. Wholesale and Retail Dealers in CEMENT, LIME, COMMON, PRESSED, and FIRE BRICKS, ROCKWALL PLASTER, CALICINE, PLASTER, FARM TILE, DRAIN TILE, and FITTINGS, NAILS, SPIKES, PAINTS, OILS, VARNISHES, STAINS.

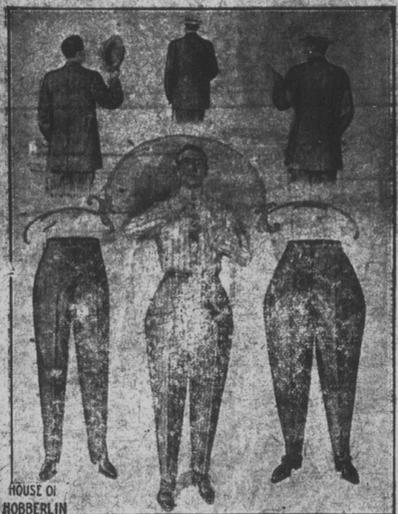

We don't ask you to encourage home industry—we ask you to buy the quality of goods we manufacture and get our quotations. Goods manufactured by us are considered High-Grade in the leading cities of Canada. Foreign woods imported direct from the south.

MAIL ORDERS

We solicit out of Town orders, which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

OUR OFFICE IS CONNECTED WITH THE N. B. TELEPHONE BY TWO SEPARATE LINES INSURING PROMPT ATTENDANCE.

DROWNED BODY IS FOUND AT OAK BAY

Body of Jos. O'Keefe Drowned Last Week is Found on Friday Down the Bay.

THE INQUEST

Last Friday the body of Jos. O'Keefe who was drowned on Miller's tug was found by the tug Wm. Aitken between Point la Garde and Oak Bay Point. The coroner Dr. Martin summoned a jury and held an inquest on Saturday in the Lacasse building. The following jury was sworn, Messrs. Allen Miller, W. Comeau, D. Sullivan, W. H. Marquis, Ed. Allingham, George Dunn, J. T. Boudreau. The proceedings were very brief. The jury viewed the body and brought in a verdict of "Accidental Death."

RESTIGOUCHE IS GOOD ENOUGH YET

Interesting interview Regarding Real Estate—Mr. P. M. Shannons Views.

A REASON WANTED

Looking to the fact of the activities of St. John people in selling Courtney Bay properties, and the migration of our own townspeople to Western provinces, the Graphic interviewed P. M. Shannon of the firm of Shannon and O'Dea and in the course of an interesting conversation he said "I would like to know the reason why such a large percentage of New Brunswickers not only make it a practice to boost every other section of the Dominion and even the United States, but to glory in the fact of being called 'Knockers.' For the last two years I have tried to learn all I could of this great country of ours, and I have come to the conclusion that Canada offers the greatest opportunities in the world. Why New Brunswick should fall behind any of the other provinces, is a thing I don't understand, the only reason appearing to me to be the famous 'Knocker.' Will not our business men if not for our good at least for their own tell the truth about their Western deals, and the truth I want them to tell is this, why do they not inform the public of the losses they make in the West as well as the gains, and why don't they tell of the profit they made in New Brunswick as well as the losses. Here is a Western deal of my own. Five years ago I bought a lot in the great city of Saskatoon for \$125. I paid taxes on it for four years, 1911 rates being nearly \$5. On my instructions real estate men have been trying to sell that lot for the last eight months for \$150.00 and have been unsuccessful as I can show by their letters to me. I came pretty near getting clear of it, about 10 days ago to a young man who was selling lots (over two miles further from the G. T. R. station and the university of Saskatoon than mine) for \$350. When he approached me I offered him my lot for \$480 on the installment plan, and he jumped at the chance. He had great satisfaction in saying to me in the presence of others that he made \$400 profit on me, and I made my profit, I hope I would make a thousand, that I was tired looking at my paper and he could have it, and I was always glad to know that anyone who bought from me made a profit on the deal. I invited him to come down to

FISHING SMACK IS SUNK BY CANADA

Fishing Boat is Run Down by Steamer and one Man Drowned.

HAD NO LIGHTS

On the last run from Gaspé to Campbellton the S. S. Canada ran down a small smack with two men, L'Hebrou and Thibideau on board, one man, L'Hebrou being drowned. It appears that the Canada left Grand River about 2 a. m. Friday morning and the fishing smack was right in the steamer's track. No light was showing and both men were asleep. Thibideau was picked up by the crew of the Canada, but the other man was drowned. From a further report it appears that the fishermen heard the steamer's whistle, as she put into Grand River, but were of opinion she had passed them coming out and lay down to sleep.

RECORD CARGO FROM CAMPBELLTON

S. S. Lorca Cleared From This Port With Largest Cargo of Lumber Ever.

NOT A PSE

Last Tuesday there cleared at Campbellton the steamship Lorca for Waterford, Ireland, having on board the total cargo of 2266 standards or a proximately 4,500,000 feet of lumber. This cargo was loaded by Shives Lumber Co. Ltd., to the order of F. E. Neale, and eclipses all previous records for the province. The largest cargo up till this was 1805 standards taken out by S. S. Zafra from Chatham.

WHAT THE LOCAL PAPER DOES

What the late Hon. David Davis once said: "Each year every local paper gives from \$100 to \$5,000 free advertising for the benefit of the community in which it is located. No other agency can or will do this. The local editor in proportion to his means, does more for his town than any other ten men, and in fairness man with man, he ought to be supported, not because you happen to like him or admire his writings but because a local paper is the best investment a community can make. It may not be brilliant or crowded with great thoughts but financially it is more of a benefit to the community, than a preacher or a teacher. Understand us now, we do not mean morally or intellectually, but financially, and yet on the moral question you will find the majority of local papers are on the right side of the question. Today the editors of local papers do the most work for the least money of any people living."—Free Lance.

much much lumber of all descriptions we have, what kind of harbors, or do they know that an auto left Dalhousie at 2 p. m. went up the Jacquet River landed eight salmon and were back in the evening. Do they know their own country, can they show us a better centre than Campbellton between Quebec and St. John with as good resources, show us where they will find churches, schools and better institutions for the same number of people, or let them show us where people as a whole can live better and do less work than right here in this country and I will give credit where credit is due and call that man a good 'knocker.' otherwise let them change their ways, say a good word now and again for your town and country or get out, and before they hit the pike I wish they would call around and see me, as I would like to show them what they are leaving behind."

ST. MONNOIR COLLEGE AFFAIR

Priests Bow To Decree Of Rome

Montreal Aug. 12—Events moved rapidly yesterday in struggle between the priest of the Ste. Marie Monnoir College at St. Johns, and the ecclesiastical authorities who interdicted them for refusing to remove their institution from that town and return to the diocese of Ste. Hyacinthe, where they were located under Bishop Bernard's jurisdiction some years ago before a disastrous fire destroyed their buildings and caused them to decide in favor of removing to some more favorable site.

Yesterday a letter from the Sacred Consistorial Congregation at Rome, a court of last resort, was read in all the churches throughout the dioceses of Montreal and Ste. Hyacinthe, presided by a brief joint episcopal note from Archbishop Brochu, and Bishop Bernard, fully supporting the interdicted callings which were supported by the apostolic

MURDER TRAGEDY IN GASPE COUNTY

George Sutton of Cape Cove Killed by Farm Hand After Quarrel.

On Tuesday George Sutton aged 45 a farmer in comfortable circumstances at Cape Cove was killed by a farm hand named George Jones. It appears that Jones had been working with Sutton for some time but for some reason or other had been dismissed. A quarrel followed during which Jones is alleged to have struck Sutton a blow which killed him. The deceased was well known and leaves a large family.

MIRAMICHI BRIDGE FELL THIS MORNING

Two Spans Broke and the Channel Is Blocked.

Chatham Aug. 15—Two spans of the Southwest bridge, that forms the chief link of communication across the Southwest Miramichi River, between the most populous parishes of the county, went down this morning at a quarter to twelve, and now partially block the channel in the river, as well as cutting off all communication from shore to shore. The spans that went out are directly over the channel and while the upper work fell clear from the foundation bases, part of the woodwork grounded in the channel, and so far blocked it that rafts of logs will not be able to get through. Most of the mills on the Miramichi are practically dependent upon the regular supply of logs from the Southwest Boom Company at Millerton, a few miles above. The situation is serious, for the mills and the 2,500 men who get their means of livelihood from the bridge has been in a very bad condition for the past three years, and efforts have been made to get some repairs done, without success. There is great indignation at the apathy of the government in failing to repair the structure and prolong its life until some of her bridge had been constructed. The bridge was the only one in 40 miles on the river.

FIRE SHOTS AT FISHERMEN

Young Man named Duncan Threatened Life of Campbellton Man

SHOT STRUCK CANOE

A few days ago Messrs. Chas. W. and J. F. Andrew went to Tale Head to enjoy a day's fishing. Upon arrival at the river they wished to cross to the opposite shore. To accomplish this they borrowed a canoe which was pulled out on the beach and set out. When about half way across the river they were startled by the report of a rifle and the hum of a bullet. They looked toward the shore and saw two young men one with a rifle who deliberately aimed at the canoe and fired another shot which passed within a few inches of Mr. Andrew, making a hole in the canoe just above the water line between his legs. Had he been sitting he would assuredly have been shot. The young man then called out "come ashore with that boat or I'll shoot you."

It is needless to say they came, and on returning to town had a warrant sworn out for a young man named Duncan who did the shooting, and he was arrested but released on bail.

Despatches such as this should not be leniently dealt with.

delegate at Ottawa, and condemning in the most severe terms the priests who have opposed the ecclesiastical authorities. Following this an authoritative announcement was given out that the priests had decided to submit to the ruling of the Holy See, and that the Mr. Edwards, whose claims against the college had resulted in the civil courts order, declaring that the priests must not leave St. Johns until these claims had been duly settled, had agreed to accept \$50,000, permitting the priests to go where they chose, and that the priests, following their submission would be rehabilitated and their suspension lifted.

WORKMAN IS DEAD. FOLLOWING "JOKE"

Bridgeburg Man Pleads Not Guilty of Causing Fatal Accident.

Bullseye, Aug. 7.—Warren House, of Bridgeburg, Ont., the man who is charged played a practical joke at the Platt and Letchworth shops on Monday last that resulted in the death of Valenty Ukask, pleaded not guilty to a charge of manslaughter to-day when arraigned in City Court. Bail was fixed at \$3,000, and it is furnished. After lingering more than 30 hours, Valenty Ukask, 33 years old, the Hungarian who was the victim, died tonight in the Sisters Hospital without regaining consciousness. The man was a laborer, and a fellow-workman, Warren House, is alleged to have placed the nozzle of a hose that contained compressed air, against the man's body and opened the valve.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhoea Remedy the world would be much better off and the percentage of suffering greatly decreased," says Lindsay Scott, of Templeton. For sale by all dealers.

ST. JOHN PREPARING FOR EXHIBITION

St. John City, which is very much in the public eye at the present time because of its transportation and industrial boom, has been quietly but effectively preparing for its greater St. John Exhibition and the opening of the big fair on Aug. 31st will surprise even residents of that city themselves, when the magnitude of the Exposition is disclosed.

Following the example of the Toronto and most of the leading American exhibitions, the St. John executive have this year laid out much more money upon the free entertainment features than ever before. It is a notorious fact that while thousands of exhibition visitors are charmed and edified with the displays of a serious character it is the amusements that create the real holiday effect.

The chief feature will be the aeroplane flights of M. Emil Metach, a daring aviator from Paris, who will make two flights daily, one for distance and one for altitude. Signor Jovine's Neapolitan Troubadours, a band of thirty Italian instrumentalists and singers, will give two concerts daily in the main building. In front of the grandstand the leading features will be Takesaw's Imperial Japanese Troupe in wonderful acrobatics; the Ernst Trio of knockabout comedians; continuous bandconcerts; New York horse show; stock parades and the nightly fiery spectacle "The Bombardment of Tripoli," a masterpiece in pyrotechnics.

The commercial exhibits at the approaching Fair, will be upon a scale equally as extensive as at the Dominion Exhibition in 1910. Particularly in the manufacturing lines will the exhibits be most interesting. St. John, Moncton, Fredericton, St. Stephen, Halifax, Amherst, Truro, Charlottetown and other Maritime Provincial centres will compete in a general and particular way, while spaces have been engaged by concerns having their headquarters in every section of the Dominion and United States as well as in the Old Country.

The live stock show will this year be catalogued so that visitors may read the pedigrees, etc., of the fancy stock shown, and this departure promises big things. A veritable Horse Show, such as are held from time to time in cities, is on the cards as well as a distinct feature in the animal section. Then come the poultry and pet stock, the vehicles, the usual big agricultural displays and fruit-growing competition; not to mention dairying apriary shows etc.

MISS Mabel Bordman, of the Red Cross, is working for the erection of a building in Washington to commemorate the services and sacrifices of the women of the Civil War. The present plan is to have this building cost about \$600,000.

WITH a record of fourteen earthquake shocks in one forenoon the City of Guadalupe, Mexico, can rightfully claim to be the centre of the liveliest real estate movement on the continent.

THE Guelph Mercury says: So much leather is being used in making sides and seats for automobiles that the price of shoes is going up. The most remarkable thing about all these price boosts is the plausible excuse that accompanies them. Next thing chickens will double in price because so many wings are needed for the airships.

HARVEST OUTLOOK BAD IN ENGLAND

London, Aug. 16.—Over an extensive area of the British Isles the harvest prospects are assuming a very gloomy aspect. The consequence of the vagaries of the weather which has now been of more or less of a 1-1 type since the advent of June. In many districts there has been a steady downpour for days.

NO TEETH FILLED BY MAIL ORDER HOUSES

About 100 people who have been asked to report the mail order people who fill their teeth by mail, although a farmer admitted a few days ago that he had his eye teeth cut once by a mail order house.

MINISTERS' VISITS ABOUT CLOSED

Hon. J. D. Hazen Leaves for Canada on August 21st.

London, Aug. 16.—The Canadian ministers' visit may now be regarded as closed. Hon. Mr. Doherty, who leaves London for good today, will spend a few days in Ireland, sailing from Queenstown on Friday next with Mr. Pelletier accompanying him. Mr. Hazen has decided to sail on the 21st, Mr. Borden, according to present arrangements, following two days after. The premier will spend the week end with Lord Roberts. His last two public engagements will be receiving the freedom of the City of Glasgow and attending the launching of the Canadian-Australian steamer on Friday next when it is hoped Mrs. Borden will perform the christening ceremony.

English papers received today contain reports of speeches made by ministers. Hon. Mr. Hazen, in a speech at the Junior Constitutional Club, Aug. 1st, where he was entertained to lunch, said: "Canada is determined to set up an establishment which shall be an integral part of a strengthened empire, and which shall reach the rest of the nations that they will have to deal in future not only with motherland but with the British Dominions in all parts of the world."

Replying to a deputation from the Imperial Maritime League, Mr. Hazen said he was violating no confidence when he said that the question of converting merchant ships into armed cruisers in time of war had been discussed in the last few days between the members of Canadian government and the admiralty authorities. "It has been suggested," Mr. Hazen said, "that in the event of Canada contributing to the British navy, that contribution should not be in reduction of what Great Britain should do, but should be a contribution to supplement what she did. That is the view we have taken here during the deliberations and which we have tried to put before the admiralty authorities. We Canadians feel that having always lived under the aegis of the British crown, it is only right and proper that now we have attained national manhood we should co-operate with the motherland. The feeling is that there can be no naval partnership unless the partners have a voice in the management and guidance of affairs."

Your Money Back IF The "if" is big because few want it. But this frank, fair offer shows your dealers faith that the rare richness of this tea's flavor will delight you:— All you have to do if you do not like the flavor—yes more than like it—is to return the broken package and receive your money back. 35c., 40c., and 50c. per lb. KING COLE TEA

FISHERMAN KILL MONSTER SHARK

New York, Aug. 12.—A man eating shark, 12 feet long and weighing nearly 400 pounds, gave the ten men on board the fishing schooner Tansy Bitters, the greatest excitement in their fishing career off Sandy Hook last week. The huge shark was caught in the meshes of a seine, when it was fully landed it flopped about so that more than half of the crew were knocked to the deck's time and again. The men rushed at the monster with large sheath knives and after they had slashed a score of times the shark succumbed. It is the first monster of its kind seen in these waters for many years.

TAKING CARE OF THE WOMEN

"Kitt" in August CANADA MONTHLY. In his special report, Mr. Arthur Hawkes strikes as his key-note co-operation. Referring to the women and children side of immigration, he makes eloquent appeal for better service for the mother who to often "bears an appalling risk of loss to the Province and Dominion" which she ought not to suffer. He asks that "when human life is about to yield its increase" it should be more sacredly regarded, more tenderly cared for. "This" he remarks, "is pre-eminently a field for the activity of women's organizations, and has been touched by some of them."

Should not the Government take more cognizance of this aspect of immigration and make provision for the women of the pioneer settlements in the hour of their greatest need? This is a side of immigration that "has never been properly regarded." It is one that it would well repay the Government to consider and provide for. After all, we may joke as we will about votes for women, suffragette-militant or peaceful—but it is the woman who largely determines the family shift in great as well as small matters. Make immigration attractive to the woman and you get the whole family.

"My GURNEY OXFORD jumped right in and helped with my housekeeping" Dear Edith, In a general way I have wished you all the good things I knew of, so now I am going to descend to the practical and give you some sound advice from the store I have accumulated since I started housekeeping. Housekeeping naturally suggests the kitchen first—its equipment and management, or in other words, THE RANGE My range, as you know, is a Gurney-Oxford. I never enjoyed much of a reputation as a cook in my younger days, so when I thought of being responsible for three meals a day my heart sank. I imagined myself battling all day with a sulky range, trying to coax it into a good humour, and covered with mortification because of late or spoiled meals. But my dear, my Gurney-Oxford seemed to sympathize with my inexperience. From the day it came it jumped right in and helped. It has become my good right hand, and I go my way confident that my Gurney-Oxford will not disappoint me. It has the cleverest arrangement for regulating the drafts, well named the Gurney Economizer. One small lever put up or down does everything. The fire will stay in all day, hardly burning any coal at all—then, presto! It is burning brightly, ready to bake or roast. An arrangement of flues keeps the oven always properly heated, so that the biscuits or bread come out light and crisp and brown. Yes, Edith, as Bob says, I have developed into "some cook," and I often tell him he must give at least half the credit to our Gurney-Oxford. You will understand my enthusiasm better after you have had your Gurney-Oxford a month or so. Sincerely Yours, MARY HOUSEWIFE. A. E. ALEXANDER & SON, CAMPBELLTON, N. B.

Amatite ROOFING

Why Practical Men Demand Amatite

ROOFING that needs painting every two years can't hold the market against Amatite which needs no paint whatever.

Practical men know the great advantage of a roof that needs no painting. They know how much it costs. They know how little they are to reg-

lect to paint their roofs at the proper time.

Painted roofs are waterproof only where the paint is. Amatite is waterproof all the way through.

Amatite is sold in the usual convenient rolls of 110 square feet with a smooth lap where the mineral surface is omitted, so as to secure a tight joint. Nails and cement are packed in the center of each roll.

Free sample and booklet on request to nearest office.

DALHOUSIE

Dalhousie, Aug. 13.—The Misses Sheehan who have been visiting friends in Halifax for several weeks returned home on Wednesday last.

Miss Maud O'Keef was the guest of her sister Mrs. Wm. Montgomery recently.

Mr. Wallace Loggie of Chatham, spent the week end here with friends.

Mrs. James H. Storer who has been visiting her son Mr. J. B. H. Storer for a couple of weeks, returned to her home in Montreal on Saturday.

Hon. C. H. LaBilloy is spending a few days with old friends on the Gaspe Coast.

Mr. P. H. Sheehan and Mr. Wallace Sheehan spent Saturday last with friends in Chatham.

Miss Dunn of Dalhousie Junction and Miss V. Scaulier of Harcourt were the guests of Mrs. LaBilloy on Wednesday last.

Mr. and Mrs. Ben Windsor were in town recently visiting at Mrs. Windsor's old home.

Miss Ethel Stewart who has been nursing for some time in Keene N. H., returned home last Friday to spend a few weeks with her parents Mr. and Mrs. James Stewart.

Mr. Harry Banning of Montreal is spending a week here, the guest of Mrs. Wm. Gallop.

Mrs. George Cole and Master Wm. Cole have returned from a trip to Fredericton, St. John and Moncton.

Mr. Walter Marquis spent Sunday in town with friends.

Mrs. George E. Mercier was the guest of Mrs. Bernatchez in Campbellton on Sunday.

Mr. Wm. Montgomery has returned home after spending a few days in Montreal and Ottawa.

Mrs. Matthew Stewart of St. Omer was the guest of the Misses Stewart for a couple of days last week.

Miss Minnie Henderson of Anherst, N. S. is visiting her sister Mrs. Albert Mott.

Mrs. Thelma and Mr. Henry Loyd of New York are guests at the Inch Arran this week.

Miss J. McLean who has been visiting her sister Mrs. L. D. Jones, left last week for Winnipeg.

Miss Aggie Stewart has returned from Keene, N. H., and will spend a few weeks with her parents Mr. and Mrs. James Stewart.

Miss Constance Murray of Campbellton is visiting Miss Gertrude Barberic for a few days.

Miss Marie Bate of Newcastle N. B., is the guest of Miss Roswell Ferguson.

W. W. Collier of Shives Lumber Co., spent a day here last week at the Inch Arran.

Those who attended the celebration held in Charlottetown Monday last in honor of the feast of the Assumption, were Mr. and Mrs. A. J. LeBlanc, Mr. Allie LeBlanc, Mr. and Mrs. E. R. Gaudet, the Misses Martin and Mr. E. R. Richard.

An auto party from St. John arrived at the Inch Arran on Monday evening. It consisted of Mr. and Mrs. J. Fessenden Gregory, Mr. Leo F. Gregory, Miss Olive Gregory, Mr. George Murray, Miss Mary Murray and Miss Ada Murray.

Mr. Fred Morris spent the week end here with friends.

Mr. E. M. Keirstead of Toronto is spending a few days at the Inch Arran.

Miss Ethel Bullman of Montreal, is visiting Mrs. R. J. Coleman.

Mr. and Mrs. H. A. Hilyard and Miss Josephine Hutchison left this morning for Gaspe where they intend remaining a few days.

DALHOUSIE JUNCTION

The Dalhousie Junction was the Dalhousie Junction on Thursday evening was a complete success, not only from the financial point of view but also from the social as well. Although the "light fantastic" was not indulged in, the program was most interesting and well received.

The program, which had been carefully prepared, was a good one and each member received its well merited share of applause.

As a result of the occasion a temperance song marked the opening of the entertainment. This was loudly applauded.

The Rev. Mr. Coleman was then called upon for a short address in which he congratulated the members for the progress they had made and also greatly encouraged them in the good work.

Miss Hilda Stewart of Dalhousie then favored the audience with a solo. Miss Stewart was also heard from again towards the close of the program in one of her usual interesting readings and received more applause by kindly responding to an encore.

Mr. Chisolm also greatly delighted his hearers with some violin selections accompanied by Miss Johnson of Dalhousie. It is needless to add that they were obliged to respond to encore after encore. Mr. Chisolm is an exceptional good violinist and as Miss Johnson is not lacking in musical ability, their contribution to the evening's enjoyment was by no means a small one.

The Rev. Mr. Kirk made a strong appeal for all the young men to abstain not only from strong drink but also from the many evils which especially threaten the young.

One of the most pleasing features of the evening's entertainment was a "nigger song" by Mr. James Jamieson and little daughter Jean. Jim has many of the "boy characteristics" about him yet as evidenced by the way in which he was received by those of younger years. Two dialogues, some recitations and a few popular ones were also very much enjoyed by those assembled. The program was brought to a close by a few more selections from the violin.

Then as the sweet strains of Annie Laurie were dying away Mr. Robinson came upon the scene ready to use "all kinds of arguments" in favor of the dairies the ladies had so kindly provided. This is still a favorite with the boys as was shown by the satisfactory manner in which baskets were disposed of.

The meeting came to a close with the singing of God save the King, every one declaring that it was the most enjoyable event of the season.

The members of the Division wish to thank each and every one who contributed in any way toward making the social success that it was, especially those who came from a distance.

The sum of \$52.00 was realized.

A LAHORE paper describes a curious case of primitive justice in one of the Simla Hill States. The plaintiff and defendant were each called upon to produce a goat in court.

To the goats was administered by the court sweeper, under the orders of the presiding officer, a dose of poison, each dose having been carefully weighed and made exactly equal. The suit was adjudged in favor of the owner of the animal which succumbed last to the poison, the unsuccessful party losing both goat and case.

GRAND TRUNK IS NOW RUSHING WORK

Work is being rushed this spring on the bridges of the Grand Trunk Pacific for the section of the line which follows the course of the Skeena River. The G. T. P. steamer, Prince Rupert left Vancouver with the advance guard of a large number of bridge and steel structural workers belonging to the Canadian Bridge Co. and a considerable quantity of material is to follow to Prince Rupert in the near future.

The new federal government isolation hospital which is situated on an unnamed island in one of the bays of Digby Island off Prince Rupert Harbor is now practically complete with the exception of the interior furnishings.

The building is both large and handsome so that it should meet the requirements of this Pacific port for many years to come. Not a glimpse of it can be seen from the harbor as it is screened by large spruce and other coniferous trees some of which measure six feet in diameter.

The Grand Trunk Railway has decided to establish a freight terminal on the east side of Carlaw Ave. North of Queen St. in Toronto, and to this end has acquired eight acres of property for \$68,333 or \$80 a foot seven acres will be taken up by freight sheds.

A ten year contract has been entered into between the Grand Trunk Pacific Railway and the Northern Navigation Co. a subsidiary of the Richelieu and Ontario, whereby the Railway will run special trains in connection with the Northern Navigation Co.'s boats across the upper lakes, this affording a service from Toronto to the boats and from Fort William to Edmonton.

The S. S. Prince George belonging to the Grand Trunk Pacific Railway has been fitted out as an oil burner and its consort the S. S. Prince Rupert is to be laid off for six weeks in order that a similar change may be made. Both vessels will resume their regular summer schedule in April.

Orders for over 4000 sets of various classes have recently been placed by the Grand Trunk Railway to augment its present equipment these include 44 passenger coaches, 23 baggage cars, 300 box cars, and 1000 coal cars apart from which 945 sets of all kinds have been received and put into service during the past quarter. The Grand Trunk has also ordered 1000 freight cars from the Canadian Pacific Railway. The new equipment will be in service by the end of the year.

Delivery of these last to companies in this April and to be completed by the end of May next.

ROGERSVILLE

A grand celebration will take place here on August 23rd when the monument erected to the patriots of the Canadians will be dedicated. Bidding of said monument in the morning at ten o'clock, concert at 3 o'clock. Torch light procession, illumination of monument and surroundings in evening. Special train with bands from Shelles and Moncton. Reduction of fares on all railroads.

REPORT OF COLLECTIONS

FRIDAY, AUGUST, 16 1912

THE ANGLING SEASON FOR SALMON

The angling season in New Brunswick and Quebec rivers has been extended from August 15 to Sept. 15. This extension was granted, the Graphic understands, at the request of certain St. John river anglers, who besides requesting the extension of the angling season, wished the net fishing season cut down.

The extension of the angling season is severely criticized on the North Shore, particularly on the Restigouche where the anglers are almost unanimous in their opinion that it is an unwise move. At present a petition is being circulated asking that the season be cut down to its former length.

There are many features against the granting of a longer season the chief of which is that it carries the angling season to near to the spawning season, when salmon are not good.

For all purposes the season to August 15th is long enough on the Restigouche.

The Tribune in last weeks issue has the following:

UNPOPULAR APPOINTMENT

The Tribune understands that largely signed petitions from Bonaventure County and also numerous protests from Restigouche County, have been forwarded to Ottawa asking for the dismissal of Maxwell M. Mowat as a fishery officer, with powers throughout the Dominion. This appointment has undoubtedly

created much dissatisfaction in this district, and it is indeed hard to find a resident who approves of the appointment, inasmuch as Mr. Mowat is the paid head guardian of the Restigouche Riparian Association and by virtue of his office cannot, it is said, be an unbiased government official as well. Every effort is being put forth by residents here irrespective of politics to have him removed from office.

One can understand perfectly well why the Tribune would like to see Max. M. Mowat dismissed, but it would be just as well to know that one of the first acts of Mr. Mowat as fishery officer was to arrest one of the millionaire anglers for Sunday fishing, and will have him brought before Judge R. O. Styles on Aug. 31st. On several occasions the fishery officer has found more than one stand of nets down on Sundays, but so far has taken no action.

The Tribune after many days is again taking the Graphic to task and in last week's issue makes use of the term "the foolish editor of the Graphic who is commanded to do the dirty work of the council."

Now this is especially rich coming as it does from such a popular man as the editor of the Tribune. The editor of the Graphic is not foolish enough to worry about what Mr. C. S. O. Crockett thinks of him for to worry about that would indeed be the height of folly.

But to be commanded to do the dirty work of the council, that surely is a joke isn't it?

The editor of the Graphic is unaware of any commands from the council, and has too much respect for the men composing the council as to consider that they would stoop to any dirty work.

THE number of dogs registered in Ireland in 1911 totalled 521,893. The dog license duty received amounted to 52,189 pounds 4,515 pounds from the towns and 46,674 pounds from country districts.

**ASTOR BABY BOY
BORN TO MILLIONS**

Starts With a Fortune of
\$3,000,000.

New York, Aug 14.—Mrs. Mable Astor, survivor of the Titanic disaster, in which her husband, the late Col. John Jacob Astor, lost his life, gave birth to a son at 8.10 o'clock this morning. The new arrival has been named John Jacob Astor after his father. The baby becomes a direct heir to \$3,000,000 of the Astor fortune.

The fact that its father proved himself a hero in the Titanic disaster, by stepping aside to let women and children take places in life boats, and that his wife from whom he then parted, was his bride of but a few months, coupled with the large fortune which was provided for a posthumous child, have lent unusual interest to the arrival of the youngest Astor. The new Astor baby will be one of the few children ever born with a fortune as large as \$3,000,000 in its own right. Col. Astor had provided that whether the child was a boy or girl, it should receive the same sum, and even if the stork brought more than one child, Col. Astor's will also covered that contingency, as it read as follows:

"I bequeath such number of separate sums of \$3,000,000 each as shall be equal to the number of my children who shall survive me other than my son William Vincent Astor, and my daughter Ava Muriel Astor." The latter children are by Col. Astor's first wife, Mrs. Ava Willing Astor.

**THREATENED WITH

Statement of Temperance
Campaigner.

Montreal, Aug. 14.—John H. Roberts, secretary of the Dominion Alliance, received a plainly typewritten letter this morning from Sherbrooke signed "One of the gang," informing him that a fate similar to that of Herman Rosenthal, that New York gambler, awaited him. Roberts, who is an active temperance campaigner, has been conducting a campaign against alleged violations of the license law in Sherbrooke, and a number of cases are down for hearing on Friday. Roberts declares he will take his witnesses to Sherbrooke despite the threats made.

**WET WEATHER
DOING DAMAGE**

Farmers Suffer Loss From Prolonged Rain of Last Month

In common with other places, but not to such a damaging extent, the Baie de Chaleur county has suffered from the prolonged rainy weather and farmers are anxiously awaiting a change of weather.

For four weeks it has rained almost every day. Some days only a few showers, but enough to keep hay from drying.

Fortunately the wet weather commenced before haying was general so that not much was cut, but now the season is far advanced.

The waters in all the rivers and brooks is very high, but no damage to property has resulted.

While other sections of the province have suffered by electric storms no damage from lightning has been reported here.

The Province of Quebec is getting quite a number of immigrants at the present time and they are going chiefly to the Eastern Townships and to the new farming country up in Temiskaming and according to Mr. E. Masquette, Provincial Immigration Agent at Montreal, who looks after the distribution of the immigrants. He sent twenty-five English applicants to the Eastern Townships this week. There is still a great demand for men to work on the farms down there.

"EAT apples and be beautiful!"

Sounds something like Jure held out to Adam a few thousand years ago, resulting in eviction from Garden of Eden.

The Wise Man

Is he who takes advantage of our Customers Benefit SHIRT Sale, at this season we make a clean sweep of all Neglige and Dress Shirts in stock. These Shirts are made from fine Percales good, fast colors, in neat attractive patterns. Cleaning no at

**THE GRAPHICS
PIANO CONTEST**

The standing of the contestants for the Graphic piano up till last evening is as follows:

Mrs. Wm. Killam	32750
Mrs. J. H. O'Keefe	25563
Miss Marie Roy	5000
Mr. Wm. Killam	1000

Read the rules carefully and if there is anything you wish to know we shall be glad to help you. Well begun is half done. Get a beginning now.

Contestants are requested to send in their returns each week no later than Thursday so that subscriptions can be entered and the coupons credited.

The piano Contest in District No. 1 is going great and becoming interesting.

There are but three competitors and there is yet plenty of room for others to enter. In District No. 2 although quite a number were nominated none so far have been able to take up the place. There is a splendid chance for some prominent young lady in New Carlisle to take up this, having no one in the field at present from any of the country districts.

The open air services on the government wharf will be continued Sunday evening at 8.30 if the weather is fine. These meetings are very interesting and all are invited to be on hand and assist in the singing.

WORTH READING

A little booklet by John Bateman entitled "The Hermit of the Broad Road" a story of Dalhousie is an interesting little tale. The volume is dedicated to Donald Cameron a by-wood companion whose sentle was the token of a heart as big as a mountain.

RULED OUT

In the matter of A. E. Hamilton Company, Limited, in liquidation, hearing was resumed before Mr. Justice McLeod in chambers on Tuesday at St. John. The claims of George Goodfellow of Montreal for \$467.39 and Charles S. Crockett of Campbellton for \$2,466, were dismissed. L. H. A. L. Fairweather appeared for the liquidators and Fred R. Taylor for the creditors.

SLICK GAME

A number of our local men have invested in oil stocks, and been badly bitten. One of the worst fakes has been the Pyramid Oil Co. The New York Curb has this to say of this Co. "By far the slickest sucker-money game that has been played for some time, is the line being handled out by the Johnson Bros. sponsors for that greatest and grandest of all oil companies, the Pyramid Oil Co." Let the public beware.

TORONTO nurses left Ottawa

because temporary hospital conditions were not perfect. They weren't exactly perfect either when Florence Nightingale reached the Crimea.

Absent-minded husband (in Paris)—

My wife asked me to get her some eau-de-Cologne while I was here; now, what the duce is eau-de-Cologne French?

BASEBALL NOTES AND JOTTINGS

Only one ball game was brought off this week in the league, the weather being so unsettled. On Monday evening Mechanics and Firemen met under threatening weather conditions, the game finishing at the end of the fifth in semi-darkness. The Firemen had a new pitcher in the box and he shaped well. The Mechanics seem to be dogged with ill luck or they are not working together, at any rate they seem to be falling away, and yet they play good ball but have no luck. Only two hits were got off May and these were both in the first innings.

Score table for Mechanics vs Firemen

Box Scores for Mechanics and Firemen

Total scores for Mechanics and Firemen

THOROUGHBRED SHEEP FOR COUNTY

Arrangements are being made with the Ottawa Department of agriculture by the Board of Trade for a shipment of thoroughbred sheep to be sold at auction to the farmers of Restigouche County. Some few days ago the committee appointed to investigate the conditions for sheep breeding in this province visited Campbellton and in company with members of the Board of Trade looked over the ground surrounding this town. They expressed themselves very strongly upon the possibilities of this important industry in Restigouche, as the land is particularly adapted for it. In fact one of them stated that we had the best land in the Dominion for this purpose. The shipment of sheep will probably consist of about 20 or 30 rams and the balance of the carload of ewes. Any person interested and wishing to secure some of this thoroughbred stock can obtain further information by writing promptly the Secretary Board of Trade, Campbellton.

ON WITH THE DANCE, LET JOY BE UNCONFINED.

An impromptu dance was held last evening, Tuesday, August 13 at the home of Mr. James Montgomery, New Richmond Centre. An orchestra, composed of young men of the neighborhood and led by Mr. Harold Montgomery, furnished the music and Mr. Robert Hardy served as floor director. Miss Florence A. Goodfellow and Mr. Ansel Burton danced many new and unique steps. Miss Goodfellow who studied dancing in Boston under Professor Lane for several years, reflected much credit on her teacher by the graceful and skilful way she did the intricate steps. During the evening Mrs. A. S. Beal, Mr. Robert Hardy and Mr. Wilson Burton performed many sleight of hand tricks to the amusement of all. Miss Bessie Montgomery entertained the company delightfully with vocal and instrumental music. At midnight, Mrs. Montgomery served supper. The supreme lodge, Knights of Pythias, at Denver, Tuesday decided to hold the next convention, in Windsor, N. B., at the residence of Mrs. A. Reynolds of Maine, and Richard H. Jackson, Pittsburg, Pa., were appointed members of the supreme tribunal for five year terms, beginning January 1, 1913.

CHIC DAILY MEMORANDUM LET US LOAN YOU MONEY 5 Per Cent

ST. JOHN MAN WAS ACCIDENTALLY KILLED

Stepped in Front of Train at Franktown, Ontario.

Smith's Falls, Ont., Aug. 14.—W. E. Reynolds, of St. John, N. B., was instantly killed at Franktown, about 12 miles from here, last night. Reynolds had a ticket for Vancouver on the harvest excursion train, to wait for the local to Ottawa. The young fellow stepped off the train and presumably failed to notice the local, which ran into him. The train was slowing down at the time, and rolled him under the cow catcher. He was put in the baggage car of the local, and Dr. Anderson notified to meet the train here, but Reynolds died almost at the stopping of the train at this station. His head was badly mutilated. His relatives at St. John were notified, and an inquest was ordered this afternoon. The young fellow was about 23 years of age, well dressed and wore an Odd Fellow's locket.

YOU THINK IT'S RHEUMATISM

You Haven't Rheumatism! It's only fallen instep—a ball at crown of the foot arch—causing curved, flat-foot brings muscular pains that feel much like rheumatism and are not diagnosed as such. The shoe is not to properly support the arch of the foot long enough to give it time to grow right. The Scholl "Foot-Eaze" does this—takes off all the strain—Nerve cures the trouble. The Scholl "Foot-Eaze" gives just the right amount of support—overcomes the strain caused by flat-foot—which is responsible for all the aches and pains in the feet and limbs—but also eases the feet, body and nerves and cures flat-foot. The Scholl "Foot-Eaze" gives the feet a well-earned even tread. For men and women—price \$2.00 the pair. Your money back if they do not cure your feet. Get the Scholl "Foot-Eaze" now on imitation. Your health is too important to

SUFFERED EVERYTHING

For Years, Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont. "I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I am so recommend it for nervousness and indigestion."

Chesterville, Ont. "I heard your medicine highly praised, and a year ago I began taking them for falling of womb and ovarian trouble."

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous some times that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated."

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."

CHEAP FARES TO TORONTO EXHIBITION

In connection with the Canadian National Exhibition at Toronto which will be held this year from August 24th until September 9th, the Intercolonial Railway will give very low excursion rates which will give the opportunity to many to visit the "Queen City" on the occasion of its great annual fête.

The Toronto Fair is the largest and most attractive of annual exhibitions in America, and this year new permanent buildings have been constructed and its extensive boundaries enlarged by new boulevards.

Aside from the attractions of the exhibition a visit to Toronto at this season is sure to be enjoyable and with the very low rates prevailing it will be possible for persons of moderate means. From Campbellton the round trip fare will be \$21.30 good going August 22, 24, 25, 27, 28 and September 4 & 5. A special rate of \$16.30 will prevail on August 23 & 29, and on September 3rd. All tickets are good to return September 11th.

Maritime Province travellers will have their choice of two through vestibuled trains, the Ocean Limited and the Maritime Express, both of which connect at Bonaventure Union Station Montreal with the through Grand Trunk Railway trains for Toronto. It will be well for intending travellers to apply early for reservations.

erly side of a reserved road in the South Eastern angle of lot number sixty seven, granted to John McMillan, thence running by the magnet of the year one thousand eight hundred and fifty two, North along the Eastern line of said Grant eighty chains to a stake thence East twelve chains and fifty links to a Birch Tree standing on the North Westerly side of lot number 69, granted to William S. Smith, thence along the Westerly line thereof South 80 chains to the Northerly side of the reserved road aforesaid and thence along the same West twelve chains and fifty links to the place of beginning and which said lot number 68 contains 100 acres more or less, and the said Eastern half of said lot contains fifty acres more or less.

BRITAIN'S STRONG TEAM FOR MOTOR BOAT TROPHY

America Feels Confident However.

The British will make a strong bid for the international trophy for motor boats this year, and great preparations are being made on both sides of the Atlantic for the series of races.

Three British boats will arrive at New York about Aug. 20 and one of these will be Nancy Edgar's Maple Leaf IV. Last year's Maple Leaf was a failure, but during the winter a new hull was built for the Saunders-Fauler type, which is modelled similar to the Pioneer, and the motors have improved where all the trouble last year lay. The horse power of these motors is about 700 and in her trial race she met the Marquis of Anglesey's Mona and Norman Neil's Mimir. The course was three times around a triangle of 11 sea miles and laid well out in open water. The Maple Leaf's crew had some trouble in getting the engines started, but when once off the start and true and over hauling the others won easily. Her time for the thirty-three miles was at the rate of a little more than forty-six miles an hour, and it was reported by the engineers that the motors were not turning up within 100 revolutions of their maximum.

While the Mona and Mimir did not show any phenomenal speed, they did well and were not driven to their best, as there was no necessity in risking a breakdown. The other boat built as a defender, the Silver Heels, owned by Dan Hanbury, is said to have shown very high speed, but for some reason was not on hand at the trial. She is to be tried before the committee announces the three challengers. This boat is fitted with six four-cylinder Vauxhall engines which can turn up more than 2,000 revolutions, but experts think that she has too many units for her engine to attend to and will not be very reliable.

The Motor Boat Club of America, which confident of ultimate success, is leaving no stone unturned to make the races as attractive as possible, and to induce owners of fast motor boats to enter the eliminating trials. These will be held at Huntington on August 26, 27, 28, and 29, and invitations have been sent to 150 motor club asking members who have fast boats to compete. It is a general belief that there will be about ten in the trials, but there will be many more eligible. Efforts are being made by some builders to get out the new craft, and the fleet of defenders will range in size from the 40-foot high-powered boat to the 20-footer fitted with motors of moderate power.

GLORIOUS HAIR FOR WOMEN

Nothing Ever Discovered So Good to Make Hair Lustrous and Fascinating.

Every woman, man or child can easily have a beautiful head of radiant hair by simply using PARISIAN Sage.

It's a wonderfully efficient preparation that stops scalp itch over night, kills all germs at once, banishes all dandruff immediately and stops hair from falling.

It's a refreshing, invigorating and pleasant hair tonic and does not contain poisonous lead or any harmful ingredient.

A large bottle can be obtained for only 50 cents at dealers everywhere. The girl with the Auburn hair is on every cart and bottle. See that you get the genuine. You can depend upon getting it at Thos. Wran.

TWELVE FOOT CURLING CIRCLE

Latest Ruling by Royal Caledonia Curling Club of Canada.

Mr. W. D. Aird, Montreal, secretary of the Canadian branch of the Royal Caledonia Curling Club, received a letter Wednesday which is of great interest to all curlers in Canada. It was signed by Mr. A. Davidson Smith, the secretary of the club, and was to the effect that at the annual meeting, it was decided to grant permission to the Canadian clubs to play for the "District medals on a twelve-foot circle, providing the competitions take place in-doors."

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Liniment twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by all dealers.

A MARTYR TO HAY FEVER

"Fruit-a-lives" Cured After 15 Years' Suffering

CORNWALL CENTRE, ONT., NOVEMBER 27th 1911. "I was a martyr to Hay Fever for probably fifteen years and I suffered terribly at times. I consulted many physicians and took their treatment, and I tried every remedy I heard of as being good for Hay Fever but nothing helped me."

Then I heard of "Fruit-a-lives" and decided to try them, and I am glad to say that this remedy cured me completely. To every sufferer from Hay Fever, I wish to say "Try Fruit-a-lives." This medicine cured me when every other treatment failed, and I believe it is a perfect cure for this dreadful disease—Hay Fever."

Mrs. HENRY KEMP. The real cause of Hay Fever is poisoned blood, due to the faulty action of the bowels, kidneys and skin. "Fruit-a-lives" cleans the blood by regulating bowels, kidneys and skin—and thus relieves the excessive strain on the nervous system. Try "Fruit-a-lives!"

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

IRISH PRIEST BOYCOTTED

The unusual measure of boycotting a parish priest has been adopted in the neighborhood of Westport, county Mayo, Ireland. Some time ago the priest advised his people to pay the rents due from them and to disregard the efforts of agitators, who were going round the district telling people not to pay and to join in a land war. He also denounced that local branch of the Ancient Order of Hibernians. The order then went round that at a certain anniversary, at which many of the people had been accustomed to contribute so much as a sovereign to the collection, no one was to give more than a shilling. The worshippers were watched as they entered the church, and those who were seen to put more than a shilling in the plate have since had their turf laid thrown into the bog, their poultry killed and their cattle driven off. These efforts failing to bring the priest round to the cause of the agitators, the extreme step was taken of getting signatures to a petition praying the Bishop to remove him from the district. The priest has been denounced by the local adherents of the league as a "Government spy."

PLANTS OF ONTARIO

Valuable Collection Presented to Toronto University

A valuable collection of Ontario plants has been presented to the Department of Botany of the University of Toronto by Principal William Booth of the Normal School. There are about 5,000 sheets in all, thoroughly representative of the flora of certain parts of the province, particularly of the east and central south. This collection embodies the work of many years, done by Principal Booth during his recreation hours of his busy life. As Principal Booth is known to be a careful collector and a discriminating botanist, this latest contribution adds much to the working store of Ontario plants in the herbarium of the University.

WHY GEMS SHINE IN DARK

What we call darkness is really the absence of all light, and in such a condition neither precious stones nor anything else will shine. But should there be even a little light, then anything that has a polished surface, such as a diamond, reflects that light from its facets, giving rise to the appearance of light, and so one might be able to notice a stone of this kind in a very dim light, which we might be inclined to call darkness. But there must be a little light, or we could not get the reflection.

1000 KILLED BY AN EARTHQUAKE

The Loss of Life in Turkey Worse Than was First Reported.

PEOPLE HOMELESS

Constantinople, Aug. 11.—Reports here today indicate that the great earthquake which was felt through a great part of Turkey yesterday was accompanied by much heavier loss of life than at first stated. The newspapers today estimated the number of victims at a thousand killed, while the injured are said to number from five to six thousand.

The details of the earthquake, which are coming in slowly owing to the interruption of the wires indicate that the seismic disturbance was widespread. Thousands are homeless and outbreaks of fire have occurred in many of the towns and villages.

Great destruction has been caused by the upheaval. The entire district between Constantinople and Adrianople felt the shock severely. Fugitives from Myriophite report three hundred killed and six hundred injured. The town was still burning when they left. Ganoshora has been wiped out, eighty persons being killed and thirty wounded.

The wrecked buildings took fire and most of them were burned to the ground. Sharkoi was completely destroyed, and two nearby villages were engulfed. Adrianople suffered little damage but Tchoriu was partially destroyed by the earthquake and fire.

The centre of the distance appears to have been in the region of the Dardanelles. Eye witnesses have arrived here from that section and give harrowing accounts of the havoc wrought. The majority of the houses in Gallipoli are in ruins and the people are camping in the fields. Echanak Kalessi (is in an equally bad plight but the loss of lives in these towns is small, although the injured are many.

The shock was felt by the warships anchored in the Dardanelles. It was first attributed to Italian torpedoes.

The captain of the American steamer Virginia reports that the lighthouse at Ganos Hora, in the sea of Marmora, has disappeared and that the villages in the surrounding country are in flames. He was unable to anchor and render assistance owing to the violent movement of the sea.

Constantinople, Aug. 12.—The Yali of Adrianople today reported to the Constantinople Government the loss of life at Adrianople from the severe earthquake which on August 9th shook the northern and southern coasts of the sea of Marmora, was small. Adrianople is 182 miles to the north west of the capital.

"I want you, sir, to correct the statement you made recently that I drink like a fish."

"All right. But if you will stop a moment to think, a fish drinks nothing but water, and only what it needs of that."

HARVEST HANDS WANTED

Fifty-seven thousand five hundred harvest hands, in addition to those now on the ground, will be required in the prairie provinces to gather this season's crop. This is 11,000 more men than were required last year. It is estimated that the wheat crop alone will be fully 50,000,000 bushels. Most of the extra help will come from eastern Canada and the United States. The machines will be in full swing about August 20. This program will put all grains, including oats, barley and flax, in stock by Sept. 15, fully three weeks ahead of previous seasons. Hundreds of thousands of acres of land have been added to the wheat area in Alberta and neighboring provinces in the last twelve months and as many more are devoted to mixed farming, dairying, hog raising and poultry growing.

LIFE BELTS FOR NAVY

French Warships Must Supply Each Man.

Paris, August 10.—As a result of the Titanic disaster, M. Declaux, the Minister of Marine, issued this week regulations to the effect that all naval vessels must in future carry as many life boats as men. This rule formerly applied to merchant ships only. In the navy torpedo boats destroyers were the only vessels to carry a sufficient number of life boats. Since the catastrophe of last April, however, the Minister of Marine has decided that this state of things must be promptly remedied.

"Measure of safety," he says in a circular "should be as complete on warships as on merchant vessels. It cannot be permitted that the State should impose on the latter precautions which it refuses to take on board its own transports."

The circular further directs that the belts must not be kept, as hitherto, in bunkers, but in the most frequented parts of the ship.

Elderly Gentlemen—Now, that you, naughty boy, I'll have you backed up! You know you're not allowed to smoke. You'll never live to grow up to be a man like me if you do that!

THE WILLIAMS PIANO CO. LIMITED, OSKAWA, Ont. 103

HAMILTON GIRL POISONED BY HER PATIENT

Hamilton, Ont., Aug. 12.—Events are marking time in the tragedy of Miss Rose Ziebe, who died Sunday evening, at the city hospital after eating some candy given her by Mrs. Edith Bruce, a patient, whom she had been calling upon.

The facts gathered by the police have been forwarded to the crown authorities at Toronto and no new developments are expected, pending the inquest. The Misses Gertrude and Ethel Dalby, sisters of Mrs. Bruce and Miss Vance, who were also with Mrs. Bruce at the time, and ate some of the candy, have fully recovered and returned to their homes late last night.

According to the police story, the Dalby girls and Miss Vance each ate two of the chocolates and Miss Ziebe ate two, while Mrs. Bruce bit into one and finding it bitter to the taste, spat it out.

The stomach of the dead girl and half a pound of the chocolates have been sent to Toronto for analysis and the statement will be given out before the inquest as to what sort of poison the candies contained, though it is supposed to have been strychnine.

James Bruce, who is under arrest on an open charge in his early twenties. He was in debt and his marriage with Edith Dalby was arranged in a hurry under circumstances which he has shown on several occasions had irritated him. It had never occurred to him before Sunday to treat his wife to candy.

Miss Vance, Miss Ziebe and the Misses Dalby were chattering at the hospital with Mrs. Bruce, when the latter opened a box of chocolates which she informed her mother later in the evening, had been given to her by her husband during the afternoon, and offered them to her chums. Miss Ziebe immediately partook of the candies as did the other girls, and mentioned at that time that they had an odd taste.

About twenty minutes later, the "katie" girl with a cry of pitiful agony, flung her hands to her breast and moaned terribly, while the others looked on stunned, for the moment. The house doctors were rushed for, as well as several nurses, but when they arrived, the unfortunate girl was stretched on a nearby bed, uttering shrieks of agony. The doctors worked over her to ascertain the cause of her illness, but as the time sped away she gradually ceased moaning and passed away without uttering many words. It was on the information supplied by Mrs. Bruce that the police arrested her husband.

When he visited the hospital yesterday afternoon, he was not very friendly to her, she said, and attracted considerable attention by speaking in abusive terms to her.

According to the parents of the young wife, Bruce has been in difficulties financially, for some time, and thus to some extent, caused the rift between them. Mrs. Dalby declared late in the evening after visiting her daughter that Bruce declared to her that he had practically been forced to marry the girl to save her from disgrace. "I put it in the papers about the marriage, and he did not like it," said Mrs. Dalby. "I thought it should be announced and did not care whether he liked it or not."

NOTICE

Notice is hereby given, that the undersigned have entered into a general partnership for the purpose of carrying on a dry goods and clothing store in the Town of Campbellton in the County of Restigouche under the firm name of David & Shalala that the names of the partners of the said firm are Emile David and John P. Shalala both of whom reside at the Town of Campbellton in the County of Restigouche and the place of business for carrying on the said business to be in the building heretofore occupied and owned by the said Emile David and carried on by him in the Town of Campbellton, and that he the said Emile David is taking as a partner into the said business as a going concern the said John P. Shalala who is desirous to so become a partner in said business and that the period for which the said partnership is to last is for five years from the 30th day of July last unless further extended by mutual agreement. Dated this Thirteenth day of August A. D. 1912.

(Sign.) EMILE DAVID
(Sign.) JOHN P. SHALALA

EMPEROR'S EDICT

Expresses Gratitude to Statesmen for Services to Late Mikado.

Tokio, August 14.—Emperor Yoshihito today issued an edict addressed to Prince Sadanaru Fushimi, Prince Takehito Arisugawa, both elder statesmen and Marquis Kimochi Saionji, premier, expressing his gratitude for their services to the late Emperor Mutsuhito, and requesting the continuance of their devotion to himself and the Japanese nation.

Prince Taro Katsura, former premier, was appointed today Lord Keeper of the Privy Seal, and Lord Chamberlain in succession to Prince Sanctori Tokudaiji who resigned from the office.

WIERD OLD WOMAN POSING AS PROPHET CREATES SENSATION

Appears in Rome Telling of a Vision—Predicts Long Life For Pope and Return of Catholic Power

Rome, Aug. 13.—A tall, bony, haggard looking old woman, who has arrived in Rome from the mountain region of the Apennines, creating a sensation by her predictions about the Pope. She asserted that on the very day on which the anniversary was celebrated, of Pius X's election to the pontificate, a vision came before her eyes, showing the chief episodes of what would be the future life of the Pope. She declared she could clearly see from the head of the church, notwithstanding his great age, will live for a long time in good health and that his attacks of gout would become less frequent, and less severe. She added that the second part of the pontificate would be marked by great political and religious triumphs, notably by the return to the old terms of friendship, of two Catholic countries, which in recent years had been estranged and had violently fought against the church and its head, and by the growth and spread of Catholicism throughout different countries, which speak the same language.

WAR ON GAMBLING AT MONTREAL SUBURBS

Montreal, Aug. 13.—Fashionable summer residents at Valois are no tenterhooks to-day, fearing a summons to court on a charge of gambling following the seizure yesterday of three slot machines, two of which were in operation in a raid made on the Chateau St. Louis.

The raid was made on complaint of John H. Roberts, secretary of the Dominion Alliance, who, accompanied by two of his men and Deputy High Constable Cyr, made a hurried visit to the fashionable summer resort. The raiders were armed with a warrant for the arrest of Ferdinand Tremblay, proprietor of the Chateau St. Louis, charging him with being the keeper of a common gaming house. To day the police declared many summer residents might be summoned to give evidence.

FRENCH TENNIS PLAYER IN ILL LUCK

Montreal, Aug. 13.—After crossing the Atlantic Ocean to try and win the American tennis championship, Andre H. Gobert, the wonderful young Parisian, winner of an Olympic gold medal and a world's championship, has been stricken by illness here and will be unable to compete in the big Newport matches. Gobert, with Max Duguis, won the world's championship doubles at Wimbledon, England, in 1911. He was 26 then. This in itself was a record, the youngest winner previously being aged 24. He, too, was the first Frenchman who attained the signal honor.

TWENTY-SIX BURIED ALIVE

Dortmund, Germany, Aug. 13.—Twenty-six workmen were buried this morning by the fall of a slag bank at an iron works, in the suburbs of this city. Eight bodies have been extricated, and it is believed that all the men have perished.

TRIPLE TRAGEDY

Brockton Barber Shot Wife, Babe and Self.

Brockton, Mass., Aug. 12.—Stephen Kostoff, aged 22, a barber, shot and instantly killed his wife, Helen Mage, aged 17, and their three months old son, Arthur, and then killed himself with an automatic revolver to-day. They were found dead by Mrs. Gillis, mother of Mr. Kostoff, on returning home from a store nearby.

LABOR DAY EXCURSION PER "CANADA"

The owners of the S. S. Canada will run a special Labor Day Excursion from Campbellton to Gaspé and return. The steamer will leave Campbellton as usual on Saturday 31st August at 11 a. m. and will return arriving back here on Monday afternoon. Special reduced fares will be charged for this trip which great good weather should draw a record crowd to view the beauties of the Bay de Chaleur. On Monday evening Labor Day 2nd Sept. a moonlight excursion will take place under the patronage of Campbellton Brass Band. Further particulars of these excursions will be announced by hand bills. Watch out for them.

SW ALLOWED FOUR \$20 BILLS

Philadelphia, Aug. 9.—Robert Arry, a marine from the Fort Mifflin barracks, has four \$20 bills stowed in his system, but he is unable to get them.

Arry saved the bills from a hold-up man, by swallowing the bills. The footpad was captured later.

DRUG CLERK SUDDENLY BECOMES INSANE

Toronto, Aug. 13.—Frank Griffiths age 37, a drug clerk, went violently insane in the drug store of Herbert Morrow in the north end of the city early this morning, and before he could be overpowered, smashed several hundred dollars worth of goods and fixtures. The combined efforts of about a dozen men finally resulted in his being overcome and he was then removed to a hospital.

PROPOSED WATERWAY FROM EDMONTON TO WINNIPEG.

Ottawa, Ont., Aug. 13.—It is expected that the report of engineer Voligny of the proposed waterway from Edmonton to Winnipeg will be in the hands of the department of public works within a few months. Engineer Voligny is now at Prince Albert after a survey of the Saskatchewan River and is now preparing a report covering the proposed deepening of the waterway from the Alberta capital down to the Red River at Winnipeg. The plans in preparation provide for a six foot barge waterway, and it is considered that next session estimates will contain a sum for the preliminary stage of the work.

Electric Restorer for Men. Phosphoric restores away nerve in the body and vitality. Restores away and all ailments caused by over-exhaustion. Weakness restored at once. Phosphoric will make you a new man. Price 25c a box, or two for 50c. Mailed to any address. Write Robert Barr, 10, Colborne St., Ottawa, Ont.

PROVINCIAL RIFLE ASSOCIATION

Annual Meet Opened at Sussex Range This Morning—Weather Ideal

Sussex, N. B., Aug. 13.—The forty-sixth annual meet of the Provincial Rifle Association was opened this morning with a record attendance and under the most favorable weather conditions. The sun shone brightly throughout the morning and there was little wind.

Many of the marksmen shot in the extra series at 600 yards but the results will not be announced until later in the week. The first match this morning was the Nursery in which much interest was taken and in which several tried for the prizes.

The first prize was a gold watch and the shooting was most commendable. There were three prizes scored by Sergeant Smith 19th Field Battery, Moncton, Pte. Crendall, 67th Regiment, Woodstock, and A. G. Staples, Rifle Association, St. John, tying with a total of 35 points. They will shoot off later.

Many others were close behind, several having 34 to their credit, and the scoring throughout was high both for the match and for the money. There were twenty-two prizes for this match, aggregating \$70 and the following were the winners:

Name	Score	Prize
L. A. D. Carter, 74 Regt	34	\$8
W. R. McLaughlin, Woodstock	34	7
F. Killour, Jacquet River	33	6
J. T. Mowat, Restigouche	33	5
P. W. Hamilton, Restigouche	33	4
Pte. P. W. Ashton, 62nd Regt	33	3
R. D. Davis, Sussex	32	3
Corp. C. G. Fish, 62nd	32	3
Pte. L. B. Estey, 67th	32	3
P. H. Hythe, Restigouche	32	3
Capt. C. I. Dunfield, 62nd	32	3

With scores of 31 the following had prizes of \$2 each—

Gunner Dunn, 3d Regt. Artillery; J. W. Day, St. John; K. A. J. S. Knox, Sussex; C. C. McNutt, and F. W. Colpitts, Moncton; Gunner A. V. Baros, 10 Field Battery.

Prizes of \$2 were also won by Lieut. G. S. Grimmer, 28th Dragons; J. W. McNutt, Moncton; G. F. Fletcher, St. John and Sergt. S. Day, 62nd Regt., each with 30 and Rev. J. J. Pinkerton, St. John with 29.

The 62nd maiden team of St. John won the first prize in this series with a total of 94. The prizes was \$12 and the team was composed of Pte. P. W. Ashton, Corp. C. G. Fish, and Pte. F. G. Jones. There was no competition in this match.

CORSICAN RECEIVED NO SERIOUS DAMAGE

Is Proceeding on Voyage to Liverpool.

Montreal, Aug. 13.—After grazing an iceberg east of Belle Isle, late yesterday afternoon, the big Allan liner Corsican is this morning proceeding on her way to Liverpool, none the worse for the accident. She will need no assistance, this morning's advices to the Allan offices say, as she was merely grazed by the submerged berg and not sufficiently damaged to spring any leakages. According to the message of Captain Cook, the Corsican struck the berg while moving very slowly in a fog, the stem being damaged, but above the water line.

The weather reports recorded dense fog at Belle Isle yesterday.

The Corsican sailed from this port for Liverpool this morning, and it was about this spot that she might have been expected to reach when the mishap occurred. She is a steel twin-screw steamer of 17,000 tons, built at Belfast, and although not quite so fast, perhaps, as the Virginian or the Victorian, is nevertheless one of the largest, fastest and most reliable boats in the Allan Line possesses.

The Corsican took her from Montreal and Quebec 25 first, 64 second and 200 third-class passengers.

WELL KNOWN MUSIC COMPOSER DIED IN PARIS

Paris, Aug. 13.—Julien Franck, French composer, died at his residence, this morning, at the age of seventy. He had been suffering for a long time from cancer but his death was sudden and unexpected.

Dr. de Van's Female Pills

White Drug Co.

BUTCHERY IN MEXICO

Band of Rebels, Defeated in One Town, Attack Another, Leaving 200 Dead.

Mexico City, Aug. 4.—Two hundred dead were lying in the streets of Ixtapa last night after Genevevo De La O's band of Zapatistas halted on its march to Toluca, the capital of the state of Mexico, only fifteen miles north. The town was garrisoned by about 100 rurales.

Fighting occurred around Tencanico earlier in the day, and the six hundred federales quartered there defeated the rebels. The latter then concentrated their efforts on the smaller garrison of rurales at Ixtapa.

At the end of the fight all the rurales were dead, and the total of 200 included many of the townspeople as well as Zapatistas. The rurales fought desperately.

The spoils taken, include 14,000 rounds of ammunition. The town was looted.

News of the fighting was brought here by passengers from Toluca, who made the trip in an automobile. Toluca is now garrisoned by more than 500 federales, but the passengers from there said that the residents were almost panic stricken, believing a battles imminent.

Mexico, City, Mex., Aug. 13.—Thirty-six soldiers and more than twenty passengers were slaughtered by Zapatistas in a canyon one kilometer north of Ticomán, 110 miles southeast of Mexico City, yesterday, when a passenger train southbound from this city was attacked from ambush. Only meagre details have reached this city last night. So far as known, only a part of the train crew escaped.

The first news of the assault was sent to Mexico City by the conductor, Marin, and a collector, Dominguez, who, although wounded, had managed to make their way to Yauatepec, 12 miles away. They were forced to steal through the Zapatista lines and did not arrive at the telegraph station until yesterday afternoon.

After a murderous rifle fire had ceased, the rebels swarmed down the hillside and set fire to the three cars composing the train. A few of the wounded had crawled out on to the right of way, thus escaping the fate of those unable to leave the cars, which were burned.

According to reports, the leader of the rebels made absolutely no effort to restrain his men from acts of brutality greater than any that has yet marked the campaign in the south. The wounded, pleading for their lives, were struck down without pity and even looting was held in abeyance until the slaughter was complete. Not satisfied with robbing their victims in an ordinary manner the fingers of men and women were chopped off with machetes, that rings they wore might be more quickly obtained. Ornaments were torn from ears of women and their bodies were otherwise mutilated.

Among the passengers were two newspaper men and they were among those killed. They were on their way to interview Emiliano Zapata, the chief of the rebels. One of these, H. L. Strauss, a native of Uruguay, and consular agent of his country in this city, was employed at one time on the New York Herald.

He was making this trip to see Zapata as a representative of El Imparcial. The other correspondent was Ignacio Herreras, of 'El Pais.' The ill-fated train left Mexico City on Sunday morning. Most of the passengers belonged to the farmer and lawyer classes. The soldiers who had been detailed to the train were from the Eleventh Battalion, commanded by Lieut. Reynosa.

Acting upon information brought to them by the fugitive members of the train crew, authorities of Yauatepec notified those at Cuautla, who prepared to send a punitive expedition from there. This was not the only way in which the train was being sought. Another train was sent 600 miles north to wards the scene of the massacre to recover the bodies of the slain.

Disappointed Squaw Made a Pitiful Effort to Hide Disappointment.

A tragedy of disappointed motherhood was revealed at the Fairfield Indian Reserve, in Manitoba, following an investigation by the Indian Department into a supposed case of fowl play. The department was notified that Mrs. Gilbert Cook, a squaw of the reservation, had given birth to a child in the doctor's absence at Crane Lake; that in his absence also the child had been buried, and the Indian woman and her husband informed the doctor on his return that the infant had been born dead, and had been "cried" immediately after death. The chief of the tribe demanded that the body be exhumed, and when the grave was investigated and found to contain a dummy of a child, a body made of moose liver, bound round with bandages, a head of tea lead, on which was a baby's bonnet, while for lower limbs there were the legs of a partridge.

The attorney-general's department of Manitoba was asked to investigate and find out what had been done with the real child. Then there came to light the story that there was no real baby and the mock burial was a sorry substitute for the prostrate of disappointed motherhood.

The squaw had told the reserve that a little heir was expected at the Cook house. But the doctor stayed away, and shame sat so heavily on the heart of the Indian woman and her husband that the subterfuge was planned.

SHAM BURIAL ON INDIAN RESERVE

Disappointed Squaw Made a Pitiful Effort to Hide Disappointment.

A tragedy of disappointed motherhood was revealed at the Fairfield Indian Reserve, in Manitoba, following an investigation by the Indian Department into a supposed case of fowl play. The department was notified that Mrs. Gilbert Cook, a squaw of the reservation, had given birth to a child in the doctor's absence at Crane Lake; that in his absence also the child had been buried, and the Indian woman and her husband informed the doctor on his return that the infant had been born dead, and had been "cried" immediately after death. The chief of the tribe demanded that the body be exhumed, and when the grave was investigated and found to contain a dummy of a child, a body made of moose liver, bound round with bandages, a head of tea lead, on which was a baby's bonnet, while for lower limbs there were the legs of a partridge.

The attorney-general's department of Manitoba was asked to investigate and find out what had been done with the real child. Then there came to light the story that there was no real baby and the mock burial was a sorry substitute for the prostrate of disappointed motherhood.

The squaw had told the reserve that a little heir was expected at the Cook house. But the doctor stayed away, and shame sat so heavily on the heart of the Indian woman and her husband that the subterfuge was planned.

The two queer pieces of metal which are guarded with such sacredness are the standards of the British weights and measures. They always remain of the same value. These standards which were first used came to grief in 1884, in the fire at the House of Parliament, and it took many men of science many long years to compute and manufacture the existing two pieces of metal. The one inch cube of platinum, though so small, weighs a certain amount, and is 1.368380288 inches long and has two studs of solid gold to measure off the yard.

Two lines cross these gold studs, and at a certain temperature and pressure of the air, the distance between these fine lines is the standard of British measures.

When the ceremony of examining the standards is over, they are not touched by hands, but are held in special tongs. One of the most delicate balances known is used in weighing the cube. The yard measured with the utmost exactness, a powerful microscope being used, and other delicate measurements are made including that of the temperature and of the height of the barometer.

WHAT TOADS ARE WORTH

They Are The Greatest of all Extremators of Insects

Science offers a new solution for the bug problem. It is to employ in its professional capacity, so to speak, the toad—the ordinary toad of the field and garden—as an insect destroyer.

In business the humble toad is unequalled by any other living animal. He is the greatest bug exterminator in the world. It is entirely practicable to utilize his services on an extensive scale, employing him systematically as an ally to keep in check the insects which levy an annual tax of more than \$8,000,000 upon our agricultural resources.

There is no reason why the farmers of the country should not hatch and rear their own supply of toads for local service. With a pond or even a small pool insured against drying up during late spring, the creatures will breed of their own accord in any desired numbers up to the limit of the food supply available in the shape of insects. But one thing absolutely essential is that they shall be protected against their natural enemies, and by no means the least destructive of their enemies are small boys who through mere thoughtlessness kill toads whenever they get a chance.

It is estimated that an average toad is worth to the farmer \$5 a year for the cutworms alone which it destroys. But this is only one item. The amount a toad will eat is astonishing. A large specimen has been known to devour a hundred rose beetles at a single meal. One toad needed seventy-seven myriapods—the household centipedes—to satisfy his appetite, another fifty-five army worms and yet another sixty-five cypress moth caterpillars. Still another toad was seen to eat thirty-five large, full grown celery worms in three hours, while another accepted eighty-six flies fed to him in less than ten minutes.

It is a common thing when the occupants of an ants' nest are swarming and the insects are emerging in large numbers to see an enterprising toad sit at the entrance of the burrow and snap up every ant that comes out. The slaughter he accomplishes under such circumstances is frightful. But of course most ants are not recognized as insects injurious to man; and the toad unquestionably destroys some species which are beneficial to the farmer. Upon the whole he is immensely useful, favouring countless numbers of the very best bug foes of the crops.

Sell Fertilising in Denmark According to a consular report, the annual imports of artificial fertilisers to Denmark amounted to 300,000,000 pounds, with an estimated value of \$1,700,000. The Danish Government makes about 1,500 experiments every year in different localities with fertilisers, thus teaching the farmers the scientific treatment of their land.

At the International Flower Show in London, Canada and America were awarded the highest prize for the best of large gold medals for the best collection of fruit.

The King expressed great satisfaction in the admirable arrangements made for the occasion.

THE LATE SAMUEL NORDHEIMER

German Consul for Ontario and a pioneer piano manufacturer of Canada who died at his home in Toronto.

A TREE OF MIGNONETTE

A plant of the fragrant mignonette may be preserved from year to year, and it takes on the proportions of a little tree.

Take a good healthy plant that has grown from seeds sown in the month of April, keep it in a sunny spot and whenever it attempts to show a blossom, nip it off remorselessly.

At the end of September, or the beginning of October, cut off all the bottom shoots to make it look like a tree, move it into a larger pot, and put it in the greenhouse. Water it regularly and keep it moderately warm. Treat it in this same way the following year, cutting off all the lower shoots and blossoms, and you will have a mignonette tree that will last and bloom for years.

THE SHRUNKEN DOLLAR

Statistics gathered from all the world point with more or less certainty to the conclusion that, although in the last fifteen years the rise in the cost of living abroad has been about 25 per cent, or a little more, the rise on this continent has been about 40 per cent. Reduced to plain figures this means that while the European cost of living is about 25 per cent above our dollar, measured by purchasing power, of necessity, has advanced to about 75 cents during the same period.

OFFICIAL STANDARDS BUILT IN THE WALL

Official Pound Weight And Yardstick of Great Britain Guarded Like the Crown Jewels

One of the queerest and most important of all the ceremonies that are gone through in England is the unearthing and examining of the contents of an extraordinary box buried in the masonry which forms the public staircase of the House of Commons, and thereby checking the weights and measures used in Great Britain. This ceremony is performed once every twenty years.

To get a box which is of oak, it is necessary to pull down part of the wall of the staircase. Then, after the casing has been examined and its unique contents examined with infinite care by a band of scientists, it is again put back in the cavity of the wall, which then is built up.

The box contains two pieces of metal. One of them is a cube of platinum measuring only one inch along each side; you would buy another like it for about \$200, but this particular cube has a value beyond all other pieces of metal. The way in which it is guarded gives some idea of its worth. To begin with, it is carefully wrapped up in a specially prepared paper uncommonly soft in texture, and is laid in another silver-lined case. This case goes into yet another made of stout bronze, which fits into a sturdy mahogany box, firmly screwed down, and in addition, sealed in a particular way.

The other thing in the box is a rod of bronze. It is carefully protected too, and is placed on eight rollers in another mahogany case. This case is securely screwed together and carefully sealed. Both these mahogany cases are put in a special casket made of lead, firmly soldered and perfectly airtight. There is still another covering, however, the leaden casket being fitted into the oak one already mentioned. This is of specially selected wood, and is sealed in such a way that its contents are kept absolutely intact. It fits exactly into the cavity of the masonry of the staircase.

The two queer pieces of metal which are guarded with such sacredness are the standards of the British weights and measures. They always remain of the same value. These standards which were first used came to grief in 1884, in the fire at the House of Parliament, and it took many men of science many long years to compute and manufacture the existing two pieces of metal. The one inch cube of platinum, though so small, weighs a certain amount, and is 1.368380288 inches long and has two studs of solid gold to measure off the yard.

Two lines cross these gold studs, and at a certain temperature and pressure of the air, the distance between these fine lines is the standard of British measures.

When the ceremony of examining the standards is over, they are not touched by hands, but are held in special tongs. One of the most delicate balances known is used in weighing the cube. The yard measured with the utmost exactness, a powerful microscope being used, and other delicate measurements are made including that of the temperature and of the height of the barometer.

MISS GERMAINE SCHUTZTER AND HER NEW SCALE WILLIAMS PIANO

Toronto, April 16, 1908. "It gives me great pleasure to tell you that how much your New Scale Williams Piano pleased me. It has exceeded all my expectations in quality of tone, as well as lightness of action, and it will always give me great pleasure when I can again play your instrument."

Sincerely yours, GERMAINE SCHUTZTER.

We Will Send You A NEW SCALE WILLIAMS On Approval

Leading dealers throughout Canada carry the New Scale Williams as their leading pianos. In some places, however, we have no representative. If you have been unable to examine the New Scale Williams in your home town, we will select a piano and ship it direct from our factory on approval.

If the piano, which we select and send you, does not please you in every respect, you may return it at our expense.

We make this generous offer because we feel confident that the New Scale Williams stands without a superior in the musical world. Tone, touch, materials, workmanship, finish and design of the New Scale Williams have called forth the admiration of the greatest pianists, composers and artists of the concert stage.

We would be pleased to send you handsome catalogues showing the many distinctive designs we make, and also explaining our plan of buying a New Scale Williams on easy payments. Write today.

AMUSING ADVICE TO A YOUNG WIFE

Policeman Appointed by Judge to Settle Differences.

HIS RULES OF LIFE

St. Louis, Mo., Aug. 11.—"Peacemaker" Patrick J. Egan, a patrolman of the LaCade Avenue Station, who was appointed on Thursday by Judge Karl Kimmel to supervise the domestic affairs of Elmer Quan and his wife Etta, has already established contentment and optimism.

Judge Kimmel's unique ruling followed Mrs. Quan's complaint that her husband disturbed her peace by threatening her. They both testified that their three months of marriage life had made each fear the other. Judge Kimmel directed Egan to visit the home daily for thirty days, after which each of the three principals in the arrangements will report to the Court.

Like Another Honeymoon.

"I just know the plan is going to work fine," declared the young wife. "I feel like my husband and I were again on our honeymoon. Mr. Egan is a first-class peacemaker."

"It's a terrible responsibility," declared Egan after his first visit. "I believe I have the hardest job of any man in town. I have to supervise my own family affairs in addition to being peacemaker here." Egan has a wife and four children. At his first visit Egan gave Mrs. Quan her first lesson on "getting along" with her husband. After questioning her closely on her attitude toward her husband and his treatment of her he enunciated a score of principles for Mrs. Quan's guidance. One of Mrs. Quan's complaints was that her husband did not treat her with consideration when he has been drinking, and this was particularly true when the husband took the drinks in the saloon. When he drank at home it was different, the wife said.

A Patrolman's Precepts.

Some of Egan's precepts were—"Don't remonstrate with your husband when he has been drinking. Wait until next morning. Then give him a cup of coffee for his headache. Afterwards lead him into the parlor, put your arms about him and give him a lecture. It will have more weight with him than any number of quarets."

"If he has to drink let him have it at home. There is nothing like children to bind a husband and wife together. The moral is evident."

"Don't annoy a man by talking to him in the morning or when he feels bad."

Avoid Mothers-in-law.

"Avoid mothers-in-law. Don't let them live with you or interfere in your affairs."

"If you must have your own way, do not let your husband know you are trying to boss him. Have your own way by letting him think he is having his."

"Dress to suit your husband's taste and income. Husbands usually don't like their wives to wear tight dresses. Consult him on these matters."

Don't be Jealous.

"Don't be jealous or give your husband cause for being jealous."

"When your husband is in a bad humor be in a good humor. It may be difficult, but it will pay."

"Try to think your husband is still your sweetheart, and love him as much as before marriage."

"Peacemaker" Egan admitted some of those precepts were not original with him. "You see, I have taken this matter very seriously," he said. "Last night I had a long talk with my wife. She and I have been married sixteen years and we have never had a quarrel. This one qualification I have brought to this job of peacemaker."

MONSTERS MENACE TO NAVIGATION

Icebergs Formed From Huge Pieces Broken From Glaciers.

Those monsters of menace to navigation, icebergs, are formed from huge pieces broken from the glaciers of the north, which the Arctic currents carry southward until they melt away in the warmer waters of the gulf stream. The terrible procession begins in February and not until the end of August is the ice season supposed to be over in the north Atlantic.

Each year brings its regular reports of thrilling sights and collisions and losses in the ice fields from the incoming steamers during the spring and summer months. Certain years stand out as unusually bad ice years, but the general story is much the same. Once, during the month of May, 143 icebergs were sighted off Cape Race in a single day.

One of the largest icebergs on record towered 830 feet above the surface of the sea. As hardly more than one-tenth of the berg is out of water, this would mean a mass of ice 7,000 feet (one and one-third miles) from top to bottom. Its volume was calculated to be about 580,000,000 cubic feet and its weight some 16,000,000 tons.

Icebergs need not be extraordinarily high to be stupendous. Lieutenant Peary reported a berg 12,500 feet long (over two and one-half miles), 11,600 feet wide and 186 feet high. It was estimated to weigh 1,292,398,000 tons. Another measured farther north contained 27,000,000,000 cubic feet of ice and weighed no less than 2,000,000,000 tons.

THE MARITIME GROUP OF UNIVERSITIES

Nowhere else in Canada, with the possible exception of Lunenburg, does the traditional college spirit find so complete an expression as in the small group of universities set so unostentatiously away in quiet little college towns down by the sea. Almost without exception there is an inspiration in their location and natural environment, an exclusively academic atmosphere about their college halls and a suggestion, almost pathetic in its persistence, of the days of long ago in every nook and corner. This spirit seems to be completely lacking in the larger and more modern and cosmopolitan universities of the west. They are in a sense midway between the collegiate foundations of the old land and their prototypes in the newer parts of Canada.

A modern man of affairs, unblesed with sentiment, might fail to see anything particularly admirable or praiseworthy in the system of higher education provided for the young men and women of the Eastern Provinces. To his practical mind the spectacle of seven comparatively small universities scattered here and there through Nova Scotia and New Brunswick, several of them struggling for existence, would seem to be quite unnecessary and undesirable. Schemes for amalgamation and centralization would immediately begin to flit through his mind, and one big interprovincial university would present itself to his fancy as the great desideratum. But it is certainly debatable whether such an achievement as the federation of the Maritime universities, were it to mean the absorption of the old institutions with all their varied associations, would be a real advantage. Canadian life to-day stands sorely in need of the breathing influence of tradition.

PRAYERS OFFERED FOR FINE WEATHER

Much of Hay Crop Will be Destroyed in Chatham.

Chatham, Aug. 15.—Prayers for fine weather were offered in St. Mary's and St. Paul's churches here today. The object was to becoming very dry at the time, as it has been rainy. These conditions have prevented the big proportion of this year's hay crop from being housed, and that portion which is out is rotting more every day, so that conditions are looking serious for the farmers. It is feared that if the weather does not soon become a large part of this year's crop will be lost. The official record for the month shows that 6.54 inches of rain fell in July and 3.21 inches in August to date, compared with 3.32 inches in July, 1911, and 6.5 inches in August, 1911. This means that a total of 3.83 inches more of rain fell this year from July first to the present time than in the same period of last year. Moreover when it is considered that the mean temperature of July 1911, was 71 and of July, 1912, 66 the fact that the farmers have found it hard to dry their hay is further emphasized.

MEXICAN REBELS IN BLOODY FIGHTS

Two Hundred Dead Men Lying in Streets.

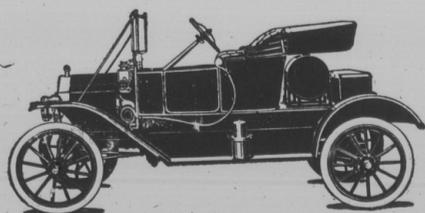

Mexico City, Aug. 13.—Two hundred dead were lying in the streets of Ixapa, last night, after Genove De Laos' band of Zapatistas halted on its march to Toluca, the capital of the State of Mexico, only 15 miles north. The town was garrisoned by about 100 rurales. Fighting occurred around Tenancingo earlier in the day, and the six hundred federal quatered there defeated the rebels. The latter concentrated their efforts on the smaller garrison of rurales at Ixapa. At the end of the fight all the rurales were dead, and the total of 200 included many of the townspeople as well as Zapatistas. The rurales fought desperately. The spoils taken include 14,000 rounds of ammunition. The town was looted. News of the fighting was brought here by passengers from Toluca, who made the trip in an automobile. Toluca now is garrisoned by more than 500 federal soldiers, but the reports from there said that the residents were almost panic-stricken, believing a big battle imminent.
