

Telegraphic News.

Ottawa, July 3.
The first through express train from Montreal to St. John, N. B., leaves to-day, and is expected to reach St. John in thirty-six hours.

The following is in the Toronto *Globe's* special from London, July 1st: A committee of Cabinet Ministers, consisting of the Lord Chancellor, the Chancellor of the Exchequer, the Duke of Richmond and Lord Carnarvon, has considered Mr. Smith's representations urging changes in the shipping Bill in favor of Canadian shipping.

Lord Carnarvon informed Mr. Smith that the committee had decided to recommend that the Canadian deckload law should be restored to the bill in the House of Lords. If this law were restored, vessels arriving in England between the 31st October and 15th of April may carry three feet of deckload.

A Times special from Cettinger, dated Sunday, gives the following important details: Montenegro sent to-day her declaration of war to Turkey. The declaration contains a summary of grievances against the Porte, particularly the blockade of the Southern frontier; the Porte's evidently hostile intention toward Montenegro, and the impossibility of reforms in Herzegovina.

The people received the proclamation with great enthusiasm.

The Standard's Constantinople special says the Servians yesterday crossed the frontier at three points.

The Turkish army is concentrating at Mostar.

Official intelligence from Belgrade says the Servians yesterday crossed the frontier at three points.

The Russian Government refuses to give a pledge of non-interference.

New York, July 3.

The reduction of the public debt for June was nearly four million dollars.

A fire occurred at St. Johnsbury Centre, Vt., Saturday. The business portion of the village and many private residences were destroyed. Loss about \$70,000.

DREADFUL ACCIDENT.

Two Men Killed by a Ladder breaking in two.

We condense the following account of a shocking accident which took place at St. John, from the *Globe* of Monday:

A terrible accident, by which two men lost their lives, occurred on Pines street Monday forenoon. For some days past, Mr. Barbour's painters have been working at Mrs. Thompson's house, a four story building opposite the Savings Bank, and occupied as a boarding house. Philip Haulon and John Kelly went to work between nine and ten o'clock. They had a ladder slung from the roof, and running parallel with the upper row of windows. They were painting the cornice and standing up at the work. Instead of commencing at the centre and moving towards the end as the work progressed, the men had begun at the end and moved towards each other. About half past 9 o'clock the men had almost met, and one made a further movement towards the centre when suddenly, without a moment's warning, before the men could utter a cry of danger or ray "God help us," the ladder broke in two and precipitated them to the ground, a distance of about fifty feet. The two men were almost instantly killed. Kelly fell on his head, and his blood and brains oozed out and mingled with the contents of the paint pot. Haulon had his neck broken. For a few seconds after the fall a slight movement of the limbs of the unfortunate men could be noticed, but they spoke no word, and in less time than it takes to write their souls had passed into eternity. The accident was witnessed by several persons in the neighborhood. Kelly leaves a wife and three children, Haulon leaves a wife and five children. Both men were of middle age.

THE STORM.—The Woodstock *Sentinel* says: "The storm of Saturday night last left its impression in rather a serious manner in this County. On the eastern side of the river we have not heard of much actual damage being done. But on the Western side back from the river, there are several instances of severe loss to record."

At Jacksonville the electric light struck the roof of Mr. Aaron Stone's house, and passing down through the cellar, injured to some extent several rooms of the building.

The Cheese Factory, in the same neighborhood, was also struck, receiving considerable damage.

In Wilmet, Mr. Thos. McQuade lost by the lightning his old house, two sheds, four barns, four calves, a mowing machine, horse rake, separator, and a large quantity of oats and buckwheat. His loss will probably foot up \$2,000; no insurance.

At Presque Isle Settlement, near of Florenceville, Mr. Ira Miller had three barns, with their contents, burned.

On Saturday night last the lightning struck the house of Henry Stephens, of Somerville, doing considerable damage to the building. The inmates escaped unscathed.

A fire occurred on board the ship *Numa* at Musquash, on Friday night last, by the explosion of a paraffine lamp. The captain's wife who was in her stateroom had a narrow escape, the smoke and flames rendering her position one of great peril.

The fire was not extinguished, until damage of about \$100 had been caused.—*News.*

Hereafter some important changes in the Mail Service of the Province will take place. The Canadian Mails will arrive in the morning by the I. C. R., and instead of the mails coming to St. John they will be distributed along the road. Campbellton, Bathurst, Chatham, etc., will now receive their Canadian mail in advance of St. John. *Globe.*

The Chicago *Journal* says:—Thirteen years ago a bushel of wheat would buy four yards of calico. Now about twenty yards can be bought for a bushel, and yet some of our farmer friends are not happy.

The Standard.

SAINT ANDREWS, JULY 5, 1876.

DOMINION DAY passed off here very quietly. There was no display with the exception of some flags from public buildings, and business was carried on as usual. The public offices alone were closed. In the evening a boat race took place between a single scull and three pair-oared boats, the course from the Market Wharf around the Western Block. The boats started off equally, the young man in the scull taking a direct course, and rowing about thirty-five strokes to the minute, and turning the block in twenty minutes, the other boats following him closely. On the home stretch, Alex. McElwee increased the distance between his boat and the pair-oared boats, coming in easily a dozen boat lengths ahead, for which he was awarded a small purse made up by a few persons who got up the race. In St. John, Fredericton and St. Stephen, the day was observed by regattas, military games, and rifle shooting.

VISITORS.—During the past few days, our young friend Capt. Fred Andrews, of the *Lucie*, has been on a visit to his relatives here. His many friends were pleased to see him.

J. Edward Wilson, Esq., of Halifax, formerly a resident of St. Andrews, was in town for a couple of days. Mr. Wilson has just returned from visiting the Centennial Exposition. Being a gentleman of observation and travel, he employed the week while in Philadelphia in a thorough inspection of the Centennial as the limited time at his command permitted; and his description of the exhibits of the different nations was as instructive as it was interesting. In fact, we have read nothing at all to equal it.

Stewart Tupper, Esq., and Mrs. Tupper, arrived by train on Saturday last from Toronto, on a visit to the Hon. Dr. Tupper's family.

NEW POTATOES.—Mr. Thomas Finley presented us with some potatoes on Monday last, the first in this market, the present season, for which he will please accept our acknowledgments. We also congratulate him on the new relation in life which he entered upon during the past week, a notice of which appears under the proper heading in this day's issue.

ST. JOHN POST OFFICE.—Our contemporary John V. Ellis, Esq., of the *St. John Globe*, has been assigned the duty of Postmaster of St. John, in place of the superannuated Mr. Howe. We congratulate Mr. Ellis on his appointment, as we feel sure he will make an efficient officer. This we know, that he is a consistent politician, is fearless and independent, an able writer and has done good service to the country. Although we have differed from him on some political measures, still we respect his consistency, a rather rare commodity with men who would be delighted to obtain the prize he has so honorably won. We are pleased to learn that Mr. Howe retires with a handsome allowance, and that before giving up the seals of office, he was presented by the Post Office employees with a parting address, accompanied by a handsome fishing rod and tackle, which we trust he will long be spared to use.

THE STEAMER *Utopia*. Capt. Monney, commenced on Monday last to make six trips per week, between St. George and St. Andrews. She leaves St. George every morning at 7 o'clock (weather permitting), and returns from St. Andrews in the afternoon, after the arrival of the *strs. Belle Brown* and *Wm. Stroud*. We understand that the *Utopia* is to be newly painted and fitted, and is a great accommodation to St. Andrews and St. George people. Capt. Monney by attention and politeness has become a general favorite.

THE CIRCUS advertisement that appears in our issue of to-day will bring glad news to our readers, as it designates the day and date of the coming of John H. Murray's Great Railroad Circus. Mr. Murray's reputation has been established for years. His entertainments are eagerly sought after and patronized by the best citizens throughout the country, who are well familiar with the tone and excellence of his performances. Every season he presents new features, new artists, and new attractions, always engaging the best artists, and always giving an unexceptional entertainment.

Charles W. Fish, the head, front, best and champion back rider of the world is with this legitimate institution, and performs daily his sensational and finished act the same as

ridden by him before all the crowned heads, nobility and gentry of Europe. The company this year is stronger than ever before, which with its established reputation, and recognized merit makes John H. Murray's circus the most desirable and attractive Equestrian exhibition in the country. A glance at our advertising columns will convince our readers of the positive truth of our assertion. The circus will be here on Tuesday July 12th.

The Common Schools are to hold their summer examinations during this week, commencing on Friday, at 9 A. M.

LIEUT. GOVERNOR TILLEY's visit to the Northern Counties of the Province, is reported at length in the *Miramichi papers*. Addresses, dinners, receptions, and other public demonstrations were given by the people, who gave the Lieut. Governor a right hearty welcome. His replies were extensive, and happily conceived.

THE SURETY GENERAL returned from a brief visit to the Centennial on Monday last. He speaks in high terms of the great Exhibition, but says the heat was so intense, that people were glad to get off to cooler latitudes.

THE CARQUEST ROTTERDAM have been acquitted, in other words the indictment has been quashed, on technical points, which however do not affect the merits, but have resulted in the prisoners being released. It is not likely that the participants in the unlawful doings, will not attempt a repetition of such riotous proceedings.

THE PRESIDENTIAL CAMPAIGN it is believed by some of our United States exchanges will be a dole one. We hardly think so, as political matters just at present are up to fever heat, quite as warm as the weather. The two great parties are too evenly matched, and the prize to be contended for—the Presidency—too important to admit of the possibility of any other than a deadly combat. In a couple of months the real fight will commence, and kept up until the election. We trust the man who will govern the country best will be elected.

Spectacles and Eyeglasses.

Mr. A. C. Rich optician, who visited here last fall, and whose glasses gave such universal satisfaction, is again in town, and has rooms at the "Magnetic Hotel." He is prepared to furnish all who are in need, a rare opportunity of having perfect spectacles, accurately adjusted; and will call at the private residences and places of business, when those requiring glasses can obtain them. His Bifocal Spectacles are so constructed that the wearer can see near and distant objects through the same pair. He has all styles and varieties of glasses set in gold, silver, steel and shell frames, at all prices; the genuine *Brazilian Pebble Lenses* are seldom to be had unless in large cities. From an acquaintance with Mr. Rich, we can recommend him as a gentleman who endeavors to give satisfaction, and whose knowledge of optics enables him to select proper glasses to fit the eye, without the wearer trying on a half dozen pairs. As his stay is limited it would perhaps be well to make an early call.

PATENT SHARPENERS.—At the Dispensary of Cockburn Bros., may be seen a novel little patent scissors or knife sharpener, which will be a great convenience to housekeepers. We notice also that a handsomely carved and gilt "Pestle and Mortar," the work of Mr. William Fortane, has been placed over the door of the Dispensary.

The Lumber Trade.

A majority of the New York lumber merchants, judging from present indications, are greatly impressed with the belief that a strong and permanent revival in trade is not very far distant. Indeed, all seem much encouraged at the healthy aspect of affairs which now obtains. That there has been a continued improvement in business in that market during the past three or four weeks no one who has kept a watchful eye upon passing events can longer doubt. The demand, during the period under review, according to reliable accounts, has been far better than heretofore experienced at the corresponding period for a couple of years. Sales have been more numerous and, in the generality of cases, effected at fairer prices and with less difficulty. Receipts have increased considerably, comprising cargoes consigned, for sale or ordered lots, for yard supplies, or purchases which have been made for immediate consumption, either in the city or near by localities. The building business not only in New York city, but in various near-by cities, has shown a marked improvement. Capitalists, it would seem, are at last awakening to the facts of the low prices of building materials and the cheapness of improved real estate, and are laying hold of the opportunity afforded for excellent invest-

ments. Manufacturing industries of the various kinds consuming more or less lumber, likewise seem to be progressing more favorably.

Correspondence.

For the Standard.
Mr. Editor.—I am informed that there is to be a change in Way Office here, as the present incumbent is to retire, and a new officer is to be appointed. The people here are anxious that Mr. P. McLaughlin should be appointed, as he is obliging, attentive and qualified. It is to be hoped our representative Mr. Gillmor will accede to the wishes of his friends, and not place an obnoxious person in the office. Bockabec, July 1st. REFORMER.

[Should the change be made, it is probable Mr. Gillmor will comply with the wishes of his constituents in the section of the Parish interested.]—*Ed. Standard.*

Dangerous Architecture.

The Chicago Chapter of the American Institute of Architects has lately found occasion to discipline a well known member for a violation of professional ethics, involved in supplying a couple of contractors with working drawings of a building now in progress and receiving pay therefor, when no fees should be received, it appears from their decision, other than from the client. We have no desire to criticize the architectural code of ethics, the refinement of which the above serves well to indicate; but the question suggests itself as to whether in that code there is any provision whereby the architect who builds houses which, in point of sanitary precautions, are death traps, can be called to an accounting. If not, we submit that it is time that some check of the kind were devised. Quite recently in this city, we have seen the heirs of an eminent architect suing the people for \$800,000 fees for plans and superintending the building of an edifice, only partially completed, which is little more than a nest of airtight boxes, and which is so badly constructed that sanitary experts now insist that improvements pointing almost to a radical change in plan, must be made before it can be pronounced healthy. Several of our most eminent judges have been rendered dangerously unwell through holding court in the rooms, to the great detriment of public business.

Architects and plumbers deserve to be gaged by different rules from other professions and trades, for the reason that the largest part of their work is out of sight; and many a bad defect may be rendered invisible until it asserts itself through the fair exterior. We know when a physician does his work well, and we have a remedy against him for malpractice. So also the law protects us against ignorant or conscienceless lawyers; but there are few cases where the owner of property has refused to pay his architect on the grounds that the design is radically bad. The defense that the proprietor accepted the plan, which the professional gentleman would urge, seems to us to be a specious one, for it supposes an expert knowledge in the layman, whose only object in consulting the architect is to obtain expert assistance. A precisely parallel case would be that of an engineer who should defend himself against a charge of waste or bad fitting or bad material, in the engine entrusted to him to build, in saying that his client had selected that type of engine in preference to others submitted.

We are quite aware that there are a great many pains-taking architects who know the faults of their brethren and lament them; but that does not help matters. What we want is a class of architects who can do something more than put the confused notions of their clients into tasteful shapes.

One of the Maine editors at the Centennial writes home in a fine frenzy about "Old Abe," the eagle carried all through the war as a standard, by the 8th Wisconsin regiment. He says: "When the battle raged the fiercest his piercing eyes would glisten and at times his screech would be heard above the din of battle. Remember he was not drafted or tied, but was a willing volunteer. His presence was hailed by the whole army as an omen of sure victory, for the Wisconsin 8th were never whipped. In one battle they went in over nine hundred strong, and came with only eighty-five unharmful. At the battle of Corinth, old Abe had his leg broken and it still troubles him. He left his perch then for about five minutes, soared aloft, and then came back. We feel cold thrills run over us, as we write about that bird who has gone through twenty-five fierce battles and as many skirmishes."

A Ride of Eleven miles to Death:
A few days ago a negro committed a nameless outrage upon a respectable married lady, residing in the southern part of McNairy county, Tenn. He was arrested and confined in jail in ready to await trial. A night or two ago fifteen men, well armed and resolute, rode up to the jail and demanded the prisoner. The jailer being absent, his wife delivered the keys of the building to them. They entered, took the

frightened criminal out of his cell, tied his hands, placed a noose around his neck, and cantered away in the darkness. Next morning the body was discovered suspended from a tree eleven miles distant.

MARRIED.

At the R. C. Church on Thursday, 29th June, by Rev. W. J. Foley, Mr. Thomas FINLEY, of St. Andrews, to Jane, daughter of Mr. Peter McKenna, of Bockabec.

PRESENT:
**HIS EXCELLENCY THE GOVERNOR GEN-
ERAL IN COUNCIL.**

WHEREAS it is provided by the 58th section
of the Act 37 Victoria, Chapter 8, intituled,
"An Act respecting the Customs," that the im-
porter of any cattle or swine may slaughter and
cure and pack the same in bond, under such
Regulations and restrictions as the Governor in
Council may from time to time make for this pur-
pose.

And whereas it has been found expedient
give effect to the said Section 58, in so far as
regards the importation of swine, and to alter the
terms of the Regulations for this purpose, adopted
by Order in Council of 22nd of May, 1866:

His Excellency, on the recommendation of the
Honorable the Minister of Customs and under-
provisions of the said Act, has been pleased to or-
der, and it is hereby ordered, that the said Order
in Council of the 22nd day of May, 1866, and the
Regulations thereto established be and the same
are hereby repealed, and that the following Regu-
lations be and are hereby adopted and estab-
lished in lieu thereof—that is to say:

1. Upon the importation of swine for the pur-
pose of slaughter, the importer shall enter the
same for Warehouse, upon the usual form of such
entry, stating upon its face, the number and
value of the herd, and also the quantity of pork
bacon, ham and lard, which the number of
pounds will produce when slaughtered and dressed at 119
pounds weight for each live hog so imported, and
the amount of duty to which such produce is or
may be liable under the rate prescribed by the
tariff in force at the time being as the proper duty
on meat of that kind. Such importer shall then
execute a bond to the Queen, in double the
amount of such duty, the condition of which bond
shall be, that upon the due exportation within
one year of the said produce of the swine, and its
imported and converted into pork, bacon, ham and
lard, or part of the duty secured by the said
bond, then the said bond shall be and become a
void bond, otherwise said bond shall remain in full force and
virtue.

2. Upon the receipt into the Bonding Ware-
house, the swine shall be regarded only as meat,
and it shall not be lawful to remove any of them
from such Warehouse alive; nor shall any part
of the produce of such swine be removed there-
from, for any purpose, without a permit, from a
Collector, or proper officer of Customs, as in the
case of all other bonded goods.

3. Swine imported in the carcasses to be cured
and packed in bond, may be entered in the usual
way for Warehouse, and be placed in the premises
established as a Warehouse of this class, for the
special purpose of curing and packing. The
weight of such carcasses to be duly ascertained by
the proper Officer of Customs, and the importer
shall give bond to the Queen in double the
amount of duty on several goods thereupon under the
tariff then in force, conditioned for the due export-
ation of the same, or payment of duty within two
years from the date of first entry.

4. The killing pen, curing and packing house,
and slaughter, stores or other apartments includ-
ed in such Warehouse use, shall be accessible at all
times between sunrise and sunset to the inspec-
tion and survey of the Collector or Inspector of
Customs, or any officer of Customs to whom the
duty of such inspection may be assigned by them
or either of them.

5. The produce of swine imported alive and
slaughtered for slaughter, at the rate of 119
pounds for each live, and the meat of the swine
imported in carcasses for curing and packing, at ac-
tual ascertained weight at 119 lbs. entry, shall be
subjectable in bond to all charges in the tariff
of duty, and when entered out of bond for
consumption, shall pay the rate of duty
once at the rate of such entry.

W. A. HINSWORTH,
Clerk, Privy Council.

Representative and Champion of American Art.
PROSPECTUS FOR 1875—EIGHTH YEAR.

THE ALDINE, THE ART JOURNAL OF AMERICA.

ISSUED MONTHLY.

A MAGNIFICENT CONCEPTION. WONDERFULLY CARRIED OUT.

The necessity of a popular medium for the representation of the productions of our great artists has always been recognized and many attempts have been made to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—THE ALDINE.

THE ALDINE, while issued with all the regularity and care of the temporary or timely interest characterizing ordinary periodicals, is an elegant and literary of pure light, and true fullness; and a collection of the most perfect specimens of artistic skill, in black and white. Although each succeeding number adds a fresh pleasure to the friends of the art, the value and beauty of THE ALDINE will be most appreciated after it is bound up at the end of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolute without competition in price or character. The possession of a complete volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for a longer time; and then, there is the chrome, besides!

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on ground of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, the leading characteristic productions of the most noted American artists, attention will always be given to specimens from foreign masters.

The artistic illustration of American scenery, or equal with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interpretation of landscape, marine, figure, and animal subjects, sustain an unabated interest, impelling the reader to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical discussions as do not interfere with the popular interest of the work.

PREMIUM FOR 1875
Every subscriber for 1875 will receive a beautiful portrait, in all colors, of the same old dog whose picture in a former issue attracted so much attention.

MAN'S UNSELFISH FRIEND
will be welcome in every home. Everybody loves such a dog, and its portrait is executed so true to the life, that it seems the veritable presence of the animal itself.

Besides the chrome, every advance subscriber to THE ALDINE for 1875 is constituted a member, and entitled to all the privileges of THE ALDINE ART UNION.

The Union owns the originals of all THE ALDINE pictures, which, with other paintings and engravings, are to be distributed among the members. In every series of 5000 subscribers, 100 different pictures, valued at over \$2,500 are distributed as soon as the series is full and the awards of each series are made. The pictures are to be distributed in the next succeeding issue of THE ALDINE. This feature only applies to subscribers who pay for one year in advance. Full particulars in circular sent on application enclosing a stamp.

TERMS.
ONE SUBSCRIPTION ENTITLING TO THE ALDINE ONE YEAR, THE CHROME AND THE ART UNION, \$6 per annum in advance. (No charge for postage.)
SPECIAL COPIES OF THE ALDINE, 50 CENTS.

THE ALDINE will, hereafter, be obtainable by subscription. There will be no reduced or club rates; each for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility in the publisher, except in cases where the certificate is given, bearing the fac simile signature of James Sutton, President.

Dr. J. Walker's California Vinegar Bitters.
Bitter is a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

Dr. J. M. McDONALD & Co.,
Druggists and General Agents, San Francisco, California, and cor. Washington and Charlton Sts., New York. Sold by all Druggists and Dealers.

No Person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the off-springs of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous humors, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Rashes, Etc., etc. In these, as in all other constitutional Diseases, Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Painters, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itchiness, Spots, Pimples, Freckles, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scour, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintic, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters should be decided an influence that improves and is soon perceptible.

Jaundice.—In all cases of jaundice, read assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose, use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
