OF ALL KINDS,  
Promptly Executed at Lowest Rates.  
ADVERTISEMENTS  
Inserted at very Lowest Rates.  
W. C. MILNER, Proprietor.

**FARM AND HOUSEHOLD.**  
—It is said that a mixture of saltpetre and olive oil will cure corns.  
—It is estimated that the late freeze in Georgia damaged winter oats 60 per cent and wheat 30 per cent.  
—The Poultry World makes a note that the Plymouth Rocks are probably the most perfectly adapted to all climates and localities of any of the modern varieties of standard fowls.  
—Alum water is an excellent remedy for burns and scalds. Apply immediately and keep well covered with saturated cloths. In ordinary cases a cure will be effected in about an hour, and no scar will be left.  
—Lamp chimneys will last a great deal longer, if, when new, they are put in a kettle of cold water with a handful of salt, boil a couple of hours, then take off and let the chimney stand in it until cold.  
—The importations of black polled cattle (Galloways and Aberdeens) into the United States and Canada last year reached a total of about 1,000 head, and a still larger number is expected in 1884.  
—The Pennsylvania Railroad Company are to put weather signals on their trains for the benefit of farmers. Red and blue, red and blue crescents, and red and blue stars will indicate the sort of weather that are predicted.  
—There are conflicting opinions as to the value of crude petroleum as paint. Some say it lasts longer than lead or oil paint—others that the rain washes it off and that it never hardens so that it will not soil the hand.  
—The Lanet does not approve of children's parties, and thinks that not only in winter, but at all seasons, the amusements of young children should be simple, unexciting, and as free as possible from the characteristics of the pleasures of later years.  
—It appears that the new early white grape, named Jossin, originated in Canada from seed planted by Mr. W. H. Read, of the Province of Ontario. The Canada Horticulturist says that it is among the earliest, very sweet, free from foxiness, sprightly and aromatic.  
—An Illinois philanthropist wishes to benefit the poor by teaching them to eat the butter and buttermilk with the butter side down. He says that the sense of taste is most acute on the tongue, and that a very small amount of butter is satisfactory if put in the obviously right spot.  
—R. W. Taylor, M. D., in the Journal of Cutaneous Diseases, reports the best results for the cure of ringworm from the use of a paint composed of a tincture of myrrh and four grains to the ounce of bichloride of mercury. Other skin affections are cured by the application of this remedy.  
—The wanton slaughter of song birds by taxidermists in Massachusetts is likely to call forth legislation on the subject. For the past eight years licenses have been granted almost indiscriminately to boys and others to shoot song and insectivorous birds and to rob their nests. The mad desire for stuffed birds and eggs is depriving farmers of their most cheerful and helpful friends.  
—It is believed by many, remarks the New England Farmer, and probably not without reason, that if the best selections were now made from our best so-called common calves, and the selection followed up for a few generations, the result would be a half-breed of animals for production and profit than is obtained from the pure stock, where every animal, however inferior, is raised simply because it has a pedigree.  
—We know no advice better or more profitable than this, viz.: Study your market. The time of planting is about all that is left of the question is what shall I plant? If you wish to make money, don't plant potatoes, cabbages, or what ever it may be, simply because all your neighbors are doing so. It is the very reason why you should not. Plant something which seems likely to have a demand; something of which you can monopolize the market.  
—Good brown bread is made as follows: Three cups of rye meal; two cups of Indian meal; one teaspoonful of salt; two teaspoonfuls of cream tartar. Mix well together, and then add one cup of molasses and one pint of tepid water with one teaspoonful of soda dissolved in it. Steam over a good kettle of boiling water four hours. If you wish a crust then bake for half an hour. This must be cooled immediately on mixing, or it will be hard.  
—The farmers of Manitoba and Dakota in a recent convention adopted resolutions in favor of the establishment of direct communication with the markets of the Old World by a route from Winnipeg to Hudson Bay. The Dominion Government has taken an interest in the scheme, and if the road is ever built it will be under the control of the Government for the benefit of the people. By the Hudson Bay route the distance from the Red River Valley to Liverpool would be shortened 800 miles.

# CHIGNECTO POST.

**Beecher on the Canadian North-West.**  
Rev. Henry W. Beecher in his new lecture on "A Circuit of the Continent," says: "It has been supposed, even to a very recent period, that the north-western portion of the continent must be given up to winter and desolation. We have very few American towns that surpass Winnipeg, whether you view its business houses or the residences of its wealthy citizens. I recognized hardly anywhere else in the West such magnificent houses and homes as are seen in that new city in the wilderness scarcely ten years old. The Hudson Bay Company's store surpasses Stewart's store in New York, and they were on the point of doubling its capacity when I was there. All that I saw, all that I learned, filled me with surprise as well as gratification. One of the revelations made to me was the fact that instead of this Northern territory being a howling wilderness and a desolation, it is the very paradise of wheat on this globe, and nowhere else in our own land and nowhere else abroad is there any such wheat field as that which includes the territory on the north and on the south of the great Pacific Railroad. It is destined to be occupied by probably ten millions of people before the end of this century. The summer from four to five months of the year. The winter there is winter. It is considered a warm day when the temperature is ten degrees above zero. It is a wholesome and refreshing time when the thermometer goes down from forty to sixty degrees below zero. The land seems to stand in the way of population, but I am informed by those living there who come from New York, that they do not suffer in their winters half as much as they used to in New York city. That was also the testimony of Minnesota, Dakota, and Montana. On account of the great dryness of the atmosphere, at 40° below zero they do not feel so cold as they used to in New York when the mercury was at the same point. The population of this British possession is mainly Scotch and English, with a scattering of Scandinavian people, and is destined to carry English civilization with it on our great Northern border. Shut up, as they are, for nearly eight months by winter, what must result? More or less social relaxation and home life; entertainments and amusements that do not turn on mere roaming and passions. The best civilizations on the globe are those in which the populations are shut up for a considerable period of the year and are obliged to find their enjoyments in domestic relations and domestic life. I have been accustomed to say, thinking of California, that no people would, through a period of several generations, fail to run out more or less in climate where they had no cellars to dig and no barns to build; that is to say, where nature is so provident that man is not obliged to look forward and make provisions for the future. The British possessions are, in the future, going to develop a very noble type of civilization after the method of our ideas, for the Government of the Dominion is substantially republican. Nominal, it is a colony of Great Britain, but in the management of its own affairs it is almost absolute. Great Britain has learned how to manage her colonies; namely, to pay them very large sums of money for their internal improvement, and then leave them alone. If that policy had been pursued toward these colonies of ours before we learned our trade, I know not but what we should still be under the Green If we had been under a crown, I do not know of any that I should prefer to that which is worn by the illustrious Queen of Great Britain.

**The Power of Pain.**  
entirely overcome by using W. T. Baker's Cures-All (Lancet). Being the best in the world for Rheumatism, Neuralgia, Toothache, Headache, Stomachache, and all other pains.

**MISCELLANEOUS.**  
—New Orleans has taken up the subject of cremation. A society has several hundred members, embracing most of the physicians and many lawyers, merchants and other business men.  
—Henry James says that the most beautiful woman he ever saw is the cashier in a Providence restaurant. She is large, quiet, and has the dignity of a Roman empress. He also declares admiration for the washerwomen in the Trastevere.  
—A Michigan father objects to his son taking up the study of physiology, which is in the regular course of the schools. The authorities insist. The parent thinks he can select what studies he chooses for his boy, and will take the matter into court.  
—The myrtle, which grows extensively in northern California, is said to be the handsomest wood in the world except rosewood. It is somewhat darker than black walnut, with fine stripes of mahogany color. A cargo has been shipped east and another to England.  
—A tree lately cut out at Deerfield, says the Canada Lumberman, scaled 6,000 feet, as follows: First cut, 1,590, second 1,480, third, 1,200, fourth 1,070, fifth 780, sixth 540. A tree was lately felled in British Columbia which scaled 20,000 feet.  
—The Acadia Fire Insurance Company of Halifax, earned in 1883, \$31,588.15, expenses \$7,013.19, leaving the net income \$24,574.96. The amount of losses paid was \$2,805.38. The balance remaining to credit of profit and loss account was \$108,051.45.  
—The report of the Commercial Bank of Windsor, N. S., as at 31st January 1884 shows that with a capital of \$200,000, reserve of \$78,000 and deposits of \$220,000, the earnings of the year over losses and debts were \$21,053, which, added to the balance of \$25,744, standing at the credit of profit and loss a year before, allowed the distribution of a dividend of 8 per cent. and the addition of \$55,998 to contingent account.

**Nothing Short of Unmistakable Benefits.**  
Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SASSAPARILLA enjoys. It is a compound of the best vegetable alternatives, with the iodides of Potassium and Iron, all powerful blood purifiers, and certain, in the most delicate and delicate cases, to produce rapid and complete cures of Scrophulous, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent restorer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick.  
For sale by all druggists.

**Seasonable.**  
From the Philadelphia Call.  
Jones.—"I am surprised to hear that there is an opera season actually going on at Cincinnati."  
Smith.—"Yes, it is true, and they say the Opera House is flooded with applications for seats."  
Jones.—"Then I suppose the tide of popularity is so high that every night the singers gaze on a 'sea of upturned faces.'"  
Smith.—"I have an ocean that the opera people must consider themselves in the swim."  
Jones.—"You think of bathing in a flood of harmony at such a time."  
The Fool Killer.—"Water you talking about, anyhow? Take that! No arrests."  
**Suffering Children.**  
Many children live lives of suffering from being troubled with Worms. McLean's Worm Syrup is as effective as well as a pleasant remedy. A Phosphoric solution.

**Trade and Industry.**  
—Eight hundred tons of smelts have been taken on the Richibucto River this season.  
—Tenders are to be invited for steamers to give increased mail accommodation between St. John, and Digby and Annapolis.  
—During the last fiscal year 1083 vessels passed through St. Peter's canal, of the tonnage of 229,000 tons. The Dominion Company also, the toll collected amounted to \$1,304.89.  
—The Charlottetown Patriot regrets to say that the P. E. Island railway is not yet a paying property. It cost last year \$252,808 to run the road, and the receipts were only \$146,170.  
—The Moncton Look Factory shipped 17 cases of its wares to Toronto, the Moncton Cotton Factory shipped 40 bales to the same place, and the Moncton Sugar Refinery sent 1,000 barrels of sugar to Ontario and Quebec, all during the past month.  
—Three new steamers will be placed on the ocean route next season by the Allan Steamship Co. The largest of the trio will register 4,600 tons. The Dominion Company also intends adding to its fleet a vessel to be named the "Vancover," of 5,700 tons.  
—The Acadia Fire Insurance Company of Halifax, earned in 1883, \$31,588.15, expenses \$7,013.19, leaving the net income \$24,574.96. The amount of losses paid was \$2,805.38. The balance remaining to credit of profit and loss account was \$108,051.45.  
—The report of the Commercial Bank of Windsor, N. S., as at 31st January 1884 shows that with a capital of \$200,000, reserve of \$78,000 and deposits of \$220,000, the earnings of the year over losses and debts were \$21,053, which, added to the balance of \$25,744, standing at the credit of profit and loss a year before, allowed the distribution of a dividend of 8 per cent. and the addition of \$55,998 to contingent account.

**Longevity Notes.**  
—W. J. Barlow, of Live Oak, Fla., is 103 years of age.  
—Rhoda Howard, of Owingsville, Ky., is 112 years old.  
—Luther Holden, of Watford, Conn., is 102 years old.  
—Mrs. Taylor, of Berwick, N. S., is over 100 years old.  
—Amos Dennis died recently at Ridgeville, S. C., in his 108th year, and Mrs. Martha Crockett, of Liberty, Mo., was just died in her 104th year.  
—John Riley, of Frederick Co., Va., was 107 years old on the 25th of January.  
—Mrs. Angelique Comeau, who died at Cape Bald, N. B., last month, was her 106th year.  
—Charles Fielder, a farmer of Clinton, S. C., has lived 103 years. He is a bachelor.  
—Charles Barber, of Staten Island, professes to be 106 years old. He has a son aged 80.  
—Mrs. Josephine Legrand, died at Watertown, N. Y., aged 104. Her husband recently died at the age of 103.  
—Miss Sabra Phillips, of Norwood, R. I., is 100 years old. She does her own housework, brings her fuel from the State house, and sews and reads, and reads without glasses.  
—After being blind for 20 years, Mrs. Josephine Legrand, died at Watertown, N. Y., aged 104. Her husband recently died at the age of 103.  
—Miss Sabra Phillips, of Norwood, R. I., is 100 years old. She does her own housework, brings her fuel from the State house, and sews and reads, and reads without glasses.

## LOCAL NEWS.

**Ask your Druggist for Philodermia.**  
To LET.—The International Hotel, Sackville, is to let. See advt.

**EARLY BIRDS.**—Robins have made their appearance in this vicinity.

**Y. M. C. A.**—The executive committee of the Y. M. C. A. will meet next Wednesday evening at 7.30.

**RELIGIOUS.**—The Rev. Alexander Ralston will preach in the Presbyterian Church, Sackville, March 9th, at 8 o'clock p. m.

**I. C. R.**—The engine of a special train broke down between Ad Lac and Sackville last night and caused a delay of several hours.

**PERSONAL.**—Mr. W. K. Reynolds, at one time a resident of Sackville, and the son of the late Mr. Reynolds, has returned to Sackville, is to let. See advt.

**High Tide.**—The highest tide which has been known at Baie Verte and Port Elgin within the memory of the oldest inhabitant occurred last Monday night.

**BOSTON COMEDY COMPANY.**—This well known Company under the management of H. Price Webber will perform in Music Hall on the evenings of the 19th and 20th of this month.

**BAPTIST.**—Rev. Mr. McDonald baptized five persons in Morris Pond last Sunday evening. Several other persons will be baptized at the same place next Sunday morning at 9.45.

**W. C. T. U.**—A business meeting at the room of the Woman's Christian Temperance Union will be held on Saturday afternoon, March 15th, at three o'clock, standard time. A full meeting is requested.

**CATTLE SHIPMENTS.**—Messrs. T. Hicks, H. Humphrey and W. F. George will ship one hundred and ten head of cattle to Glasgow per steamer "Alexandria" about the 10th of this month. Messrs. Albert & W. Fawcett, Chas. Fawcett, G. Hicks, C. Hicks and Buckley & Forrest will ship three hundred head to London about the 12th inst. per steamer "Juliet."

**MORE PRISONERS.**—On Thursday Marshal Phillips conveyed from Moncton Celia Martin, Mrs. Donnelly, Clara Earle and Beck VanBaskirk to Dorchester. The first three were sentenced to four months each imprisonment in Dorchester jail for keeping bawdy houses, and the latter three months for being a prostitute. On Monday four houses on Vulcan and Orange streets were vacated. Nine women, about the worst characters have deserted Moncton.

**LOOMER NOTES.**—Mr. J. L. Black has now at his Aboubaugh mills and on his stream 400 logs—superficial contents about 8,000,000—in getting of which (chiefly from his own lands) he has employed during the winter twenty-two spans of horses and some seven men for yarding with a force of men sufficient to work the teams. He gets all his logs under contract for cutting, yarding and hauling to streams, which he finds much more satisfactory than the mill system. His last mill is now running, and contracts aggregating 400,000 lbs. of extra quality for lobster fishers, and expects to start his gang mills soon. He has two ships chartered to load deals at Shediac, to arrive with opening of navigation. We understand the rate of freight under these charters is quite below any previous rate paid at that port for many years. Mr. Black supplies also several of our lumbermen and mill-owners.

**Salisbury Items.**  
—The late snow storm has put a damper on travel.  
—The Scott Act or any other Act is of no consequence here as far as liquor is concerned. Plenty of rum, gin and brandy at all times of day or night, Sunday or Monday.  
—The lumbering industry seems to have fallen off considerably during the last few years, but still large quantities of logs are lying along the north river for Humphrey Trites, of Petticoat, and also for the Smith mill.  
—A party from Hopewell Cape gave an entertainment in Examination Hall on Friday evening last entitled "Ten Nights in a Bar Room." A special train was run from Hillsboro which brought a good number from that place. The performance was good and drew a full house, but many of our citizens did not patronize it, as they said "Ten Nights in a Bar Room" was nothing new to them.

# Dorchester Items.

**A meeting of the Deacons** of Shediac was held last evening.

**It is reported that** Lady Smith's health is quite restored and that she will return to her home next week.

**Mr. R. C. Donald** has been awarded the contract for seating and finishing the Baptist Church here.

**The Baptist congregation** at Dorchester have appointed a committee to take into consideration the building of a parsonage and to report at a meeting to be held next Saturday.

**The famous Paulsen Brothers** will give an exhibition on their skill in the rink next Wednesday evening.

**There have been no prosecutions** under the Scott Act since that of Joseph Gallant, which has been settled in some way and the case withdrawn.

**All the hotel and saloon keepers** have filed petitions for licenses, under the Dominion License Act, in anticipation of the Scott Act being repealed at the coming election.

**—The harvest of muskrat** this winter. The teams employed are almost numberless and many thousands of loads of this valuable fertilizer will be landed.

**Westmorland Items.**  
—James Goodwin, of Point de Bute, while sawing shingles in his new mill last week had the ends of two of his fingers taken off with the circular.

**Rev. Mr. Paisley** lectured in the Public Hall, Trenholm's Corner, on Tuesday evening, February 26th. Subject: "What the Earth Teaches of its History." The lecture was very interesting and seemed to be appreciated by the audience.

**Rev. Mr. Marshall** lectured here under the auspices of the M. T. Society last evening (Wednesday). Subject: "The Gift of Water." A sketch of the Olden Time.

**A Lodge of Good Templars** is in full blast at Westmorland Point, and a public temperance meeting was announced for Tuesday evening last.

**Rev. Mr. Lawson** and other talented temperance speakers were to be present.

**FROM AMHERST.**  
—A chorus and orchestra of about thirty, under the direction of Mr. J. Albert Black, has a concert in preparation, to be given at Amherst on or about the 19th inst. The programme is to embrace some opera choruses with orchestral accompaniment, and a fine selection of quartets, songs, etc., and it is believed it will be one of the best concerts ever given there by local talents.

**FROM OXFORD.**  
—A freshet occurred here on Sunday, Feb. 24th, and carried away the River Philip bridge, but it is expected that the iron structure which is to replace it will be commenced in a few days.

**On Monday evening** a fire was discovered in the "Old Factory," owned and occupied by the Oxford Manufacturing Co., and before assistance could be rendered the building together with its contents was consumed. The fire then caught in a grist mill adjoining and in a short time that, too, was a mass of ruins. The mill was the property of Mr. W. Thompson, and is understood to be insured.

**The building** owned by Manufacturing Co. contained their dry and dye rooms; their falling, pressing, clipping, washing and other machines, together with a full supply of materials for manufacturing gloves and about \$1,000 worth of finished cloth. The loss is estimated at from \$6,000 to \$8,000, and is insured for \$2,000. In connection with the fire a serious accident happened. By the slipping of a ladder two men were thrown from the roof of the building. Mr. Yanning, formerly of Sackville, had his ankle broken, and Mr. Wm. Dunsmore, of this place, received a serious shock and some painful bruises.

**FROM PARROSBORO.**  
—Spencer's new planing mill will soon be ready for operation.

**Mr. W. W. Cunnebell**, late of Eaton & Cunnebell, is opening a fine stock of new goods and proposes to do a large business.

**Mr. F. C. M. Clay** has been appointed station master at Spring Hill Mills by the C. C. & R. Co. The Mills will be an important station.

**New fittings for the passenger car** have arrived and are to be put in at once. The old seats and furnishings are to be removed and the inside made completely over again.

**The snow falls** of last week have made the roads very good, though heavy in some places. Lumbermen have been greatly rejoiced.

**—Capt. J. E. Pettis** will launch the three-masted schooner at Port Greenville next high tide or about the 26th inst. Mr. Andrew Ayers is pushing his vessel to a rapid completion at the same place.

**An innumerable number** of applications for the expected vacancy in the Customs here have been sent to Ottawa. One man is said to have renewed his application every mail.

**Somebody is likely to be badly sold.** Several improvements in the dwelling houses of Parroboro are promised with the spring. Mr. J. W. Hatfield proposes putting another story on his already large house, to be finished in a French roof, and others are expected to go on and like wise.

**Mr. Hill, of the Customs Dept.** has about completed his examination into the recent Customs irregularities and will send the evidence taken to Ottawa for judgment. It is to be hoped that active measures will be taken to stop the present condition of affairs.

\_\_\_\_\_

This micrograph shows a cross-section of a composite material. A dark, textured layer, likely the carbon fiber fabric, is sandwiched between two lighter, smoother layers, which appear to be the epoxy resin. The interface between the fabric and the resin is visible.

A black and white photograph showing a close-up of a textured, light-colored surface, likely the cover or endpaper of an old book. The texture is grainy and uneven. In the center of the frame, there is a small, dark, L-shaped mark or object, possibly a piece of tape or a stain. The lighting is somewhat uneven, with a darker area on the right side of the image.
