THE DEATH RECORD

Demise of Rev. Charles E. Eyre, Roman Catholic Archbishop of Ireland.

New York, March 27.-A special cable from Glasgow says: The Most Rev. Charles E. Eyre, Roman Catholic Archbishop of Scotland, is dead. Archsishop Eyre was the son of the late John Lewis Eyre, and was born in 1817 at York. He was educated at Ushaw College, Durham, and in Rome. He was for many years canon of the Diocese of Hexham and Newcastle, and for some time was vicar-general. He was appointed Roman Catholic archbishop for the western district, and delegate apostolic for Scotland in December, 1868. When the ancient hierarchy was restored in Scotland by Pope Leo XII., on March 4, 1878, Mgr. Eyre was appointed Roman Catholic archbishop of Glasgow. Archbishop Eyre was the author of a "History of St. Cuthbert." Chicago, March 27.-Col. Joseph A.

London Physician Has Discovered of Real Cancer Cure - Negotiations With Boers Inspire Hopefulness.

THE JAMESON RAID.

[Special to The Advertiser.] London, March 27. - Cecil Rhodes never publicly avowed the reasons why he organized the Jameson raid They are now set forth in his own words by one of his biographers. He quotes Mr. Rhodes as saying:

THREE REASONS. "There were three reasons: In the irst place I found that old Kruger was an insuperable obstacle to the union of South Africa, even for commercial purposes, and for the development of the country. I tried him in every way I could on what you may call 'Afrikander principles,' but it was of no ise, and so long as he ruled the Transvaal the brake was put on all progress

in South Africa. "The second reason was that there was an English-speaking minority opposed to Kruger, but at least as much opposed to seeing South Africa under the British flag. That was then a small minority, but a growing one, and if left to develop, it would have become a majority. When the hour came to get rid of Kruger that would have balked the policy for which I had struggled all my life-to make South Africa an integral part of the British

"The third reason was-you cannot make revolutions in these days without money, and had at my command at that time a combination of millionaires, ready to support me whom I might never be able to get together

THE KING'S EASTER CRUISE.

[Special to The Advertiser.] London, March 27 .- King Edward left Victoria station this afternoon for Portsmouth to take an Easter cruise. The guests who accompanied him on the royal train were Viscount Esher, secretary of the royal office of works lord Farquhar, master of the housenold; the Marquis de Soveral, the Portuguese minister, and Sir Francis Laking, the King's doctor.

A CANCER CURE.

[Special to The Advertiser.] Dr. F. T. Addyman, one of the physicians at St. George's Hospital, announces that he has completely cured a had case of cancer, the patient being a woman, by the use of "X" rays. London physicians are greatly interested. It is known that Dr. Addyman has been experimenting with cancer for a long time, and his claim that he has effected a complete cure is treated with respect. Relief has been obtained in many cases by the use of the rays, but hitherto no claim of a cure has

THE PEACE PARLEYS. [Special to The Advertiser.]

The London Daily Mail claims to have information that the negotiations in progress between the Boer leaders in South Africa inspire the greatest hopefulness. The absolute sincerity of Acting President Schalkburger and his colleagues is undoubtable. They will do their utmost to bring about a speedy settlement if Mr. Steyn will agree.

TO PRAY FOR PEACE. [Special to The Advertiser.]

The Bishops of London, St. Albans and Rochester have appealed to their dioceses to specially pray on Good Friday that both sides may be granted tribute to the humanity and the temper of peacemakers, and that God's mercy and peace may come. The slanderous and malevolent criticism to appeal concludes: "We shall not forget that similar prayers are being of-

fered in the Dutch Churches at Preto-SIGNIFICANT VISIT TO VENICE.

[Special to The Advertiser.] Rome, March 27.-Signor Prinetti, minister of foreign affairs, arrived at Venice this morning, and conferred for an hour with Count Von Buelow, the German chancellor. Afterwards the chancellor took luncheon with the minister and his wife, Count Von Wedel, the German ambassador to Italy, By Denmark to the Government of and other distinguished persons. Signor Prinetti gave a dinner to Count Von Buelow and his family in the evening, after which the statesmen had a further interview. Reiteration of the statement that Signor Prinetti's visit to Venice is merely one of courtesy is treated as a fiction, and the utmost importance is attached to his interviews with Count Von Buelow. It is believed that they will result in a renewal of a triple alliance, Signor Prinetti giving assurances which will allay the suspicion created, especially in Austria, by Italy's recently close retions with France. It is also regarded as certain that Signor Prinetti will give proof to France that the objects

of the alliance are pacific.

Antwerp, March 27.-Louis Strauss, a vell-known economist, says that the formation of an international trust favoring high prices and controlling a reduced output, is thoroughly unpracticable. He adds that no foreign danger exists, whether yellow, German or American. The only national peril is the necessity for improved means of

RHODES' EXECUTORS.

[Special to The Advertiser.] London, March 28. - A dispatch to the London Times from Cape Town says that Mr. Rhodes' executors are Lord Rosebery, Earl Grey, Messrs. Beit and Hawksley, Dr. Jameson and Mr. Mitchell, who is the Cape Town manager of the Standard Bank.

IN THE FAR EAST.

Special to The Advertiser. London, March 28.-A dispatch from Shanghai to the London Times says that the Chinese Government has in structed the Chinese viceroy to sus pend all negotiations with the French syndicate for the construction of a railway from Canton to Falsban, as the project is calculated to affect the rights of the American syndicate under the Washington contract of 1898.

THE BOLIVAR TABOOED.

[Special to The Advertiser.] Willemstad, Curacoa, March 27 .- Mr. W. H. D. Haggard, the British minister to Venezuela, has notified the Venezuelan Government that the steamer Bolivar will be no longer allowed to enter the British West Indian harbors, specially Port of Spain, which she has been ordered to leave immediately without coaling. Three Venezuela gunboats now surround the Bolivar. They are under steam and are ready to follow and fight her outside of British

AN AFFIDAVIT. First he read extracts from the press at Copenhagen. These were followed by

an affidavit from Nells Gron concerning his dealings with certain people here, but they were not particularly sensational. The real sensation came when he started to read from what purported to be the report of Walter hristmas concerning the negotiations. He prefaced the reading by the statement that it would show A "CORRUPT BARGAIN,"

worthy the consideration of the house. The report was too long to read in full, he said. "I will only read the luscious extracts, which, if true, should bring the blush of shame to the cheek of " said he statement will disgrace this country in the eves of every foreign country in the world. This is what this corrupt bargainer says."

He then proceeded to read Mr. Christmas' account of his interview with the prime minister of Denmark, in which he was said to have told the minister of the necessity for the use of money to bring the negotiations for the sale of the islands to a successful termination. He told of his ac-

quaintance with ABNER MCKINLEY, President McKinley's brother, and his law partner, Col. Brown, two gentlemen whom Mr. Christmas described as having the entry to the White House, American politics, and what members of congress would have to be paid to

accomplish the results desired. The report then described how Mr. Christmas had enlisted not only President McKinley's brother and his part-

FRIEND OF SENATOR HANNA, and a Washington lawyer, named Richard P. Evans, who represented Mr. Gardner and his friends in the house. The Danish foreign minister was reported as disgusted with the methods which had to be pursued, but as finally giving his acquiescence.

Mr. Richardson said he did net charge that any senator or member of congress had been bribed. He had JAPS ARE HELPING BRITISH COLsimply presented the allegations of this agent, that money had to be used for BRIBING CONGRESSMEN.

The charges had been published in this country and abroad, he said, with the upon foreign residents, appears likely allegation that conditions in the United States were "simply horrible." He therefore proposed this inquiry, so that each member could disclaim the charges so far as it affects him. Mr. Richardson said there was one UNPARDONABLE FEATURE

TWO PERSONS WERE HEARD QUARRELING

On the Night of Quirk's Murder-The Row Occurred in the Stable Yard of the

Commercial Hotel. Brantford, March 27 .- Interesting de-

velopments are taking place in the Quirk murder case. It now transpires that late on the evening of the murder the porter of the Commercial Hotel, who sleeps in the room which overlooks the stable-yard, heard voices in the stableyard. He loked out of the window and saw two men quarreling there. He watched them until he saw one of them go in the direction of the stable and the

other return to the hotel. It is now recollected by some ployes of the hotel who were in the office later in the evening that a stranger called and asked for Quirk. Quirk was out, but the caller left a message to the effect that he would see him later. The stranger was not seen around the premises after that time. The story of the quarreling in the stableyard is satisfactorily corrobor-

ated by other persons in the hotel who also heard the men there. DETECTIVE MURRAY'S VIEWS. Detective Murray is exceedingly reticent regarding the progress made so far in the investigation, and probably in acting thus he is doing the and being familiar with the ways of proper thing. His theory is, however,, that Quirk did not receive the death blows, as at first supposed, when he reached the top of the ladder, but that he was struck down upon entering the harness room where the body was subsequently discovered. reason he advances for arriving at this conclusion is that no person could fall twelve feet off the top of a ladder, and alight in the position in which the murdered man was found. If he was killed at the top of the lad-

Sound Lessons Taught by an Old-Time Preacher and Applicable to the Present Day.

The Advertiser is indebted to Mr. John N. Eakins, of the Canada Cycle and Motor Company, who has a penchant for ancient prints and novelties, for the copy of the following sermon, delivered 118 years ago today (Good Friday, 1784). The original is printed in the old style English type of a century ago, and is quite a novelty in its general appearance. On the title page of the pamphlet is printed the following: "A sermon preached in St. Andrew's Church, Simsbury, in New England, on April 9, 1784, being the anniversary of the crucifixion of Christ, commonly called Good Friday, by Roger Viets, late missionary at Sims-

The holy prophet, being, by the spirit of God, brought forward through many ages of futurity, beholds our Saviour returning from his severe contest with his spiritual foes-his head crowned never-fading laurels-his garments deeply stained with the crimson spots, which were the price of his victory. "Who art thou?" cries the prophet with awful surprise, "coming from the land of blood, from the fields of tribulation, with bloody raiment; who nevertheless art clothed in glory, and puttest on majesty itself as a garment, and walkest in the height of superlative power?" The blessed Conqueror answers, "I, whose word is the essence of truth, and who are able to save to the uttermost." Isaiah further inquires, "Wherefore is thine apparel so bloody and your garments red, like the garments of him that treadeth in the wine-fat?" "The winepress," replies the Messiah, "indeed have I trodden; and have trodden it alone: of all my friends and followers, there was none continued with me in that trying hour: But as for mine enemies, they shall be made my footstool; my impenitent, incorrigible adversaries will I trample under foot in my just indignation; my garments shall be stained with their blood; I will break them with a rod of iron; I will dash them in pieces like a potter's vessel. For the day of vengeance is come, the time, when I am to bruise the serpent's head—to open the prison doors and liberate the redeemed cap-In that tremendous crisis, I looked round for assistance, but no man appeared to help me: Of my own chosen disciples, one had betrayed me, another had denied me, and all had forsaken me. Then, in my vast astonishment, and bitterness of grief, I cried out my God, my God, why hast thou forsaken me? But my God had entirely forsaken me, because he had promised, that when I should deseend into hell (as I assuredly must to complete my work of redemption) he would not leave my soul there. Then had I recourse to the omnipotence of mine own arm; my fortitude and re-solution upheld me. Woe to all who oppose me, or obstruct the great business that I am performing. Woe to them that slander, despise or neglect the salvation which I have purchased by this conflict; for I will tread them

down in mine anger; I will astonish them with my fury; their most aspir-ing pride, power and hopes I will bring down to the earth; I will laugh at their calamity, I will mock when their fear This is the wonderful achievement of that Divine Hero, who hath abolished death, and hath brought life and immortality to light. This is the narrative thereof, as given by himself. This achievement it is our business, our duty, our honor to celebrate with admiration and gratitude. To this pur-

pose the present day of the year is

specially dedicated; for this laudable arpose we are now convened. Whether we consider the greatness of the work of redemption, the dignity of the Redeemer, the meanness and wretchedness of the persons to be redeemed, the depths of misery from which they were to be raised, the bliss and glory to which they were to be exalted, the condescension of our Saviour, or the privileges purchased for mankind by his blood. Whichever of these points we consider, we shall become lost in a labyrinth of wonder and amazement. We shall find a mysterious complication of wisdom, grace and benevolence on the part of heaven; but of folly and wickedness on the part of man. The most superficial contemplation of these matters will convince us, that in the redemption of the world there are mysteries, to which the utmost perception of archangels is far from being adequate. Mysteries which Cherubim and Seraphim in vain desire to comprehend; at which all the heavenly host stand

astonished. What operation, then, should a survey of these things have

on the children of men. for whose bene-fit these mysteries originated, and who are principally interested therein? The bare recollection of what our Saviour has done and suffered for us, ought (at least during the present anniversary) to banish every other care from our minds. When we meditate on the bit-

terness of his sufferings; when we view the nails piercing his hands and his feet, the spear thrust into his side; the reproaches, the stripes and the agonies he endured, our minds ought to be possessed of the deepest melancholy, the sincerist grief; but when ancholy, the sincerist grief; but when we muse upon the heavenly treasures, the unspeakable felicity, purchased for us by the price of his cross and passion, then should our hearts be enraptured with ecstatic joy, with the height of gratitude.

Behold the wonders of redeeming love! Admire the strength the height

love! Admire the strength, the height, the depth, the extent of celestial grace! Stand astonished at the comgrace! Stand astonished at the compassion and affection of the Son of God towards mean worms of the dust! That Divine Person, who, in perfect equality with his father, inhabiteth eternity; who, in and of himself is possessed of infinite wisdom, power and happiness, he condescended to undertake a mean birth, a sorrowful life and (what is still more astonishlife, and (what is still more astonishing) to suffer the grievous, shameful, accursed death of the cross. And for whom was all this performed? For aliens and enemies; for us, who were wretched and miserable, and poor, and blind, and naked. Who can be found among mankind, that would lay down his life for his dearest friend, his greatest benefactor, or the best of the human race? much less for a stranger or an enemy? Our blessed Redeemer's affection soars as much above that of man as his thoughts are above our thoughts, and his ways above our ways. Well therefore might the apostle cry out, Herein is love, not that we love God, but that he loved us. Well therefore might our Saviour graciously declare to his disciples,

As the sufferings and death of our gracious Redeemer are of the utmost importance, and are, to the last de-gree, interesting to the world of man-kind, as none of Adam's posterity material predictions of the ancient, inspired prophets of God points to these sufferings and center therein. Thus was it foretold that the Messiah should be a man of sorrows and acquainted with grief. His afflictions and oppressions, his bruises and wounds were mentioned in the Book of Isaiah; also his being numbered with transgressors, brought to the slaughter and shut off from the land of the living. Another prophet mentions the very price for which he was betrayed, and their looking on him, whom they had pierced; the piercing of his hands and his feet; their parting his garments, and casting lots upon his vesture; these and almost every other essential circumstance of his close of life were manifestly foretold, whole centuries before their accomplishment; and foretold in such a manner that they cannot, with the least color of probability, be applied to any other trans-

Greater love hath no man than this,

that a man lay down his life for his

on the altar of the cross. Thus the Paschal Lamb, which under the law, was offered for the sins of the people, was designed to represent the Lamb of God, who was to atone for the sins of the world. Thus the lifting up of the brazen serpent in the wilderness, was a lively type of the Saviour on the cross. Thus the solemn and memorable day of atonement prefigured the observable day we are now celebrating. For a parallel between the great day of atonement or expiation under the law, and the valuable oblation performed on the perfect anniversary by our great High Priest, I would refer you to the epistle directed to the Hebrews. The author of that epistle has compared the business of these two days, and has, in a great variety of instances, demonstrated how much superior the sacrifice and the sacrificer of the gospel are to those of the law. He makes it most evidently appear that our High Priest hath obtained a more excellent ministry, by how much also he is the Mediator of the better covenant which was established upon better promises. The same author, under the influences of the Holy Ghost has likewise proved beyond a possibility of contradiction that Christ, being come an High Priest of good things to come, by a greater and more perfected tabernacle not made with hands, that is to say, not of this building; neither by the blood of goats and calves, but by his own blood, he entered in once into the holy place, having obtained eternal redemption for

If we look into the intention, wherewith this great annual feast was appointed, and the purposes wherewith it has through a long series of ages, been observed; we shall find that whilst the devout and exemplary fathers of Christianity mourned for the agonies of their benevolent Redeemer expiring on the cross; they at the same time lamented with deep and serious penitence, those detestable sins, that brought the precious life of Jesus Christ to such a deplorable catastrophe. One essential branch of our business on this day is to offer to God the sacrifice of broken hearts and contrite spirits-of hearts broken with grief for our wickedness; of spirits deeply contrite for our offenses; this is an oblation more pleasing to God than ten thousand sacrificed rams, and whole oceans of consecrated oil. Our sins brought the Son of God

into a world of troubles and temptations; our wickedness betrayed, mocked, buffeted and scourged him; our crimes insulted him, crowned him with a crown of thorns, and finally crucified him. Shall we not, then humble ourselves to the very dust for those iniquities, which brought our supreme benefactor to the death of a criminal? Shall we not bewail, in tears of blood, those admonitions, that wrung large drops of blood from the face of the great captain of our salvation? Shall we not abhor, and utterly forsake those execrable transgressions, that were the cause of our Saviour's agonies, and will, if persisted in, lead us into eternal misery of soul and

with what holy zeal, with what warm devotion, was the annual humiliation of this day observed! How lengthy and severe were their fastings! How deep and serious their repentance! How conformable to the occasion and business' of the day, were all their

thoughts, words and actions! Let us, in humble imitation of their bright example, improve this whole day in fasting, prayer and meditation, bewailing the agonies of our Divine Master, whose affection induced him to die for us, and humbling ourselves for our sins, as the cause of his crucifixion. For our assistance in this matter, the course of this day's service is calculated as much as possible for the purposes of humility, patience and edification. What sacred melan-choly, what sedate and godly sorrow for sin, what salutary repentance, what purity of heart, what devout temper of soul are excited by an attentive and devout use of the forms provided for the worship of the present day! Is it a great matter! Is it a mighty burden to devote one day in the year to contemplate, in a particular manner, the death of Christ, since he died for our sake? It is our reasonable service, it is the least return we can desire to make him, it is an acknowledgment very inadequate to the benefit receiv-

Whilst we are solemnizing the day of the great, universal oblation for sins, let us do it in such a manner as to prepare us for the more cheerfui, but no less solemn offices of the third day from hence, called Easter. That day will disclose to our view scenes far different from those now before us; then will be brought to our consideration a Saviour conquering all the powers of sin and Satan, of death and darkness, bursting the adamantine chains of the tomb, totally defeating the king of terrors, trampling under foot the infernal potentates in their own territories, and leading captive captivity itself. Upon that blessed, happy day, we are invited to a spiritual feast of fat things, a feast of wines on the lees, of fat things, full of marrow, of wines on the lees well refined. To this pleasing, glorious feast, I ask you in the name of God, as his ambassador I call von in Christ's behalf, who died equally for you and me, I exhort you, as ye love your own salvation. Our blessed Lord entreats and us spiritually to eat his flesh and drink his blood, and to do this in remembrance of him; these precious words he repeats; how gracious, how valuable are these words, ooth in the Holy Scripture, and in our liturgy! Do this in remembrance of of my cross and passion, of mine inestimable oblation and precious blood. of my descent into hell, my return from thence, and resurrection from the dead, mine ascension into heaven, and continual, potent intercession, and my

coming again to the final judgment.

May God Almighty, who sent his son
to die for the world—May Jesus Christ,
who expired on the cross for us—May the Holy Spirit, who applies the benefits of Christ's death to us-May all these divine persons assist us to improve the present and all other occasions, times, places and offices of religion, in such a manner as to gain knowledge, holiness, edification, faith, repentance, charity and eternal felicity. BARRIE CHURCH ROBBED. Barrie, March 27.—The Roman Catholic Church here was robbed by burglars last night. Dean Egan telephoned the police, and the nightwatch, with some citizens, went to the scene. Two men were seen to escape. One of them was captured, and two very suspicious characters were arrested a short time afterwards. While transferring two of the three from the lock-up to the jail, the night-watch and the men assisting were attacked by the prisoners, who were finally overpowered. The church had been ransacked, and a valuable gold chalice and other articles are missing.

NAMES ROUTE.

the board of works gives to the city council the task of solving the question of getting Springbank cars into the city by a shorter route, it will be with the recommendation that they come by Beaconsfield avenue and Wortley road. This suggestion was adopted despite Ald. Geary's warning that so soon as the first step is taken a writ will be issued to prevent action. But the committee added these provisos: That the company must guarantee that the city will not lose by damages; that it must grade, gravel and drain the roads in a way that will satisfy the city engineer, and must construct cement crossings on Beaconsfield avenue across the Wortley road, and also on the Wortley road. Should this offer not be suitable, another is mentioned-that the company bear half the cost of a new steel bridge across the river at the Wharncliffe road and have the cars come in London West way. In either event, the new track is not to count against the mileage

city's growth. The remodelling of the police station is to cost \$3,941. Tenders were accepted last night at the following figures: Brickwork, Everett & Sing, \$924; carpentering, Jones Bros., \$745; painting, A. H. Cook, \$275; plastering, G. S. Gould, \$245; plumbing, Smith Bros. & Co., \$402; steam heating, \$830;

now due to the city by reason of the

iron work, \$520. Total \$3.941. Many petitions, some sufficiently and some insufficiently signed, were received from ratepayers who want new cement walks. The former were from residents on east Colborne from Piccadilly to Oxford; north Barton, from Talbot west 207 feet; east Wellington, from Victoria to Regent. The latter were: Ridout, from West avenue to Elmwood; south Bathurst, Thames to Ridout; east St. George, Mill to Ann; north Oxford, Wharncliffe road to Fernley; west Rectory, Grey to Simcoe; north Dufferin avenue, Cartwright to Prospect; north Oxford, Maitland to William street. If any of these are unsafe the walks will probably be in-

itiated. The committee will change the mode of cleaning the asphalt pavement, so that the dirt will be more rapidly removed from the street. The change will likely mean the procurement of carts and barrels on wheels.

Among other matters that the committee disposed of was a complaint regarding the way in which Mr. James cleaning contract. His contract was taken from him and awarded at the city against loss.

CONSTIPATION

Causes Headache, Abdominal Pains, Piles and in Severe Cases Insanity and Apoplexy.

It is a common mistake to conclude that Constipation is not a dangerous condition. Although at first it is only accompanied by slight inconvenience and pain, yet if not corrected, it will inevitably lead to very dire results. Great care should be used in selecting a remedy for constipation, because if a violent purgative is employed, it is sure to set up pain, irritation and congestion, and finally result in piles. The experience of those who have tested all the cures for constipation, seems to prove that Ferrozone is the nost agreeable and satisfactory treat-DR. GRAHAM-OFFICE, 380 CLAR-ENCE. Ferrozone is very mild and certain in its action, and never causes in-convenience or distress. Ferrozone can be taken early as long as required, and it in no way interferes with business or pleasure, and nothing may be feared from its use however prolonged

it may be. Constipation, Piles and Sick Headache, Ferrozone stands unrivaled. The driver of the City Express Company, who suffered from piles, says: "Constant sitting on the wagon seat, produced a rectal irritation, which combined with constipated condition of the bowels, brought on a severe attack of piles. I used without benefit dif-ferent ointments, and other remedies; but got quick relief and most satisfactory results from Ferrozone. I can recommend Ferrozone to all who suf-

THE WABASH MAY RUN TO THE ATLANTIC

Recent Events Indicate That the Goulds Intend to Get a Seaboard Termine'

New York, March 27 .- Two recent events indicate that the Wabash Railroad, which is controlled by the Goulds, is aiming towards eastern points and means eventually to secure an Atlantic coast terminal. Surveys are being made by engineers of the Pittsburg, Carnegie and Western Railroad for an extension of the Wabash up the Monongahela. In spite of reports from Philadelphia that the Pennsylvania Railroad had withdrawn its opposition to the entrance of the Wabash into Pittsburg, the Goulds have had to fight for every inch of their headway toward and into Pittsburg.

The fact that Colonel Herrick is at the head of a syndicate that is now endeavoring to buy the Western Maryland is regarded as an indication that the Goulds want the Western Maryland as a Baltimore outlet for th Wabash system.

Friends of the Goulds say also the joint control of the Lackawanna by the Moses Taylor estate and the Goulds is only a matter of time.

THE SMALLPOX

Reappears in Brockville-Chatham Again Free of the Disease—Had 45 Cases.

Brockville, Ont., March 27.-Smallpox has again made its appearance here. The victim is a man named Francis Haley, who claims Brockville as his home, but does not figure in the directory. By presenting himself well muffled at Dr. Cornell's office he secured a card of admission to St. Vincent de Paul Hospital, claiming that he was suffering from a severe cold. Upon examination at the hospital he was found to have a well developed case of smallpox, and was immediately removed to the Isolation Hospital. The patient admits today that he came from Smith's Falls yesterday.
Toronto, Ont., March 27.—After having had 45 cases of smallpox the city

of Chatham is at last free from the disease. Some of the cases were of a severe type, but fortunately no deaths occurred. Five cases are reported from Palmerston township, Frontenac county; three cases from Bromley township, Renfrew county, and case from Osnabrook township, Stormont county. The last-named patient crossed over from New York State, where he had contracted the disease. Brook township, Kent county, has been declared free from the disease.

Are Not Imitators Who Live on the Reputation of the Articles They Imitate Thieves?

n Spite of at Least Half-a-Dozen Imi tators, Dr. Chase's Syrup of Linseed and Turpentine Has More Than Three Times the Sale of any Remedy Recommended For Throat and Lung

Have you been imposed upon when asking for Dr. Chase's Syrup of Linseed and turpentine by being offered an imitation? Many have been, and we know of some who have changed their druggist as a result. It is not safe to deal with a druggist who offers imitations and substitutes. An honest druggist will not offend his customers by such questionable methods.

The use of Dr. Chase's Syrup of Lin-

seed and Turpentine has become so universal that on all sides are spring-ing up preparations of turpentine and , put up in packages similar to Dr. Chase's, with the object of mak ing sales on the reputation of this famous remedy. Is not this dishonest? Is it not stealing, or even worse? For and Turpentine, the people are being deceived. In some cases, no doubt, even life is lost as a result. Are you being deceived? Have you asked for Dr. Chase's Syrup of Linseed and Turpentine and been given an imitation or substitute? There is no doubt about the virtue of this great throat and lung remedy. It is well known as a thorough cure for

bronchitis, croup, whooping cough, asthma, coughs and colds to need further words of commendation. What we want to do is to warn you against these imitations. To be certain that you are getting the genuine, be sure that Dr. Chase's portrait and signature are on the wrapper.

Dr. Chase's Syrup of Linseed and Turpentine has reached phenomenal sales, because it cures when other remedies fail. It is far-reaching in effect, curing the cold as well as the cough, and uprooting the most serious forms of bronchitis, asthma and similar throat and lung diseases. Twentyfive cents a bottle. Reciprocal Trade. Intermittently during the present Bession of the Dominion Parliament, the discussions have turned to the subject of foreign trade and to the present condition of our tariff. The discussion regarding reciprocity of trade with the United States was opened by John Charlton, M.P., of North reciprocity in natural products, as existed between the two countries during the years 1854 to 1866. Mr. Charlton has neatly summarized his position in an article which appeared recently in the New York Independent, one of the

The superintendent of insurance holds that the rates which the organization collects for both death and accident insurance are so extraordinarily low as to afford no guarantee to the persons insuring that it will be able to meet the calls upon it. Objection was also taken that the brotherhood has been offering insurance at certain specified rates, but has been in the habit of levying special assessments, of which no mention was made in the official literature of the society. It is alleged also that insurance money of the brotherhod has been used to pay the expresses of strikers. For all to pay the expenses of strikers. For all these reasons the application is refused.

BUT STAYED TO WED Operations of the International Reform Bureau-Rev. Dr. Crafts' Visit

Rev. Dr. Wilbur F. Crafts, superintendent of the International Reform Bureau, has just returned from a three under the general district law, but this weeks' tour of Canada. At the Toronto convention he secured the influential co-operation of missionary secretaries, representing 34 denominational missionary societies, for the treaty to forbid the sale of intoxicants and opium to all uncivilized races, which Secretary Hay, on behalf of the president and the senate, has asked the British Government to join in submitting to other commercial powers. This great proposal was also welcomed enthusiastically by a great convention of the Ontario branch of the Dominion Temperance Alliance, which, with other Canadian bodies, has sent

a resolution of approval to the British colonial secretary, Right Hon. Joseph Chamberlain. Senate document No. 200 contains treaties, laws and official utterances on this subject. Let those interested write to a senator or congressman for it, and urge that an edition of 10,000 be printed to prepare the way for this treaty in all lands.

Dr. Crafts remained after the missionary convention to do some city missionary work in Toronto, which is the best city in the world in Sabbath observance, and the largest city that ever gave a majority vote for prohibition, but is not so pre-eminent in the battles against gambling and impurity. To attack these "The Reform Bureau's Toronto Committee" was organized, and secured from the police authorities an order forbidding the further sale York City, the ladies have a harmless of four obscene American periodicals and three bandit libraries. With the co-operation of other committees formed in Hamilton, Kingston, Ottawa and Montreal, it is expected that these and other periodicals and novels will be banished from the whole Dominion, and that coarse bill posters will also be more adequately censored by customs

The next legislative effort of the Reform Bureau in Washington will be to carry the Hansbrough bill which would stop the sale of liquors in immigrant stations and all government buildings, including old soldiers' homes. A hearing has been secured for April 22nd, or thereabouts. Letters should be used as mail box ballots at once in behalf of this measure.

This bill also provides a civil penalty for selling in violation of the anti-canteen law in buildings owned by the army, which would enable citizens to enforce the law in the many cases where military officers neglect their duty.

Chicago, March 24.-"However repressible and odious to a railroad company the ticket-scalper may be, there is no law that invalidates a ticket which otherwise is valid, because it passes through his hands." Judge Chytraus, of the superior court, has given this opinion in a suit for

damages brought by Moritz Horowitz against the Chicago and Northern Pacific Railroad Company. Damages of \$250 were agreed upon. While traveling with his wife to Minnesota on a ticket purchased from a scalper at Chicago, which had originally been issued to a Michigan newspaper, Horowitz was confronted by J. . PROVINCIAL INSURANCE STA-TISTICS.

Toronto, March 27.-The provincial inspector of insurance has issued his report for 1901, showing the standing of the companies which report to the government. The greater part of the document is taken up with a statement of the assets and liabilities of the purely mutual fire insurance companies, and the total assets up to Dec. 31, are placed at \$4,917,957, while the liabilities are estimated at only \$42,770. The total amount of risks is, however, \$142.898.937. The income for the same period is put at \$364,770, and the expenditure at \$304,106. The amount of new business during the year by fire insurance mutuals of all classes is placed at \$63,453,124; the gross risk at \$174,364,551, and the surplus of general assets over liabilities at \$63,453,124.

Such a garden is dear to our soul.

Mahomet wrote, "He that has two cakes of bread, let him sell one of them for flowers of the narcissus, for the narcissus blossom is the food of the sould." With the long and costly lists of narcissus and daffodils furnished us by our florists we are apt literally to send our bread money for bulbs. The varieties are hundreds in number, and their beauty is never failing, no matter how they vary. Keats well named them a joy forever. They are a clasflower, and they have that wonderful and intangible charm which classic forms ever are able to exert on all who will study and enter into the knowledge of such classicism. THE WAR ON MOSQUITOES

Cause of Malaria.

Recent Scientific Research Has Awakened Many Communities to a Grave Danger-Exterminating the Pests.

The literature relating to mosquitoes O. Howard, whose services in this field | possibility of a doubt that the Anophave been frequently adverted to in our columns, reviews, in a recent number of Science, two new works on the seum. It is in three volumes. It describes in detail 340 species of Culicidae, distributed in 23 genera, 108 of the species and 10 of the genera being new are new to science. Of the malariabearing genus Anopheles, 39 species chief stronghold, and it seemed bound to cling to it in spite of all sanitary While smallpox, typhoid and other diseases had been exterminated, or greatly reduced, there were in 1900, 1,244 cases of yellow fever, with 310 deaths; and the prospect for 1901 were gloomy. The military government then determined to make an experimental test of Dr. Finlay's theory that a particular kind of mosquito is responsible for the transmission of yellow fever. The usual quarantine regulations and interference with commerce was dropped; measures were taken to exterminate the mosquitoes, and victims of the fever were carelow"-a very good because degrading fully screened from them. Result: only 18 deaths during the whole year, and 12 of these occurred before the war against the mosquitoes was begun. And although October and November rank among the wost months for yellow fever, no case at all occurred be-

> the date when the report on the vital statistics of the city of Havana, for 1901, was closed. Major Gorgas, its author, does not exaggerate when he claims, in this report, in behalf of the army, that "it has established the fact that yellow fever is only transmitted by a certain species of mosquito, a discovery that, in the power for saving human life, is only excelled by Jenner's great dis covery, and as time goes on it will stand in the same class as that great boon to mankind." It is now within the power of health boards quickly to abolish the greatest menace to life in the tropics. As for the Cubans in parregret that their authorities did not make practical use of Dr. Finlay's suggestion, which was made as early as 1881. Adding the figures contained in one of the tables included in Major Gorgas' report, we find that, if the reent radical measures had been adopted then, more than 8,000 lives might

Some of the South American Indians appear to have had an instinctive knowledge of this fact, and Humboldt came within an inch of discovering it. Now that we know the simple truth, it seems strange to us that Stanley should not have guessed it when he wrote, in his "Darkest Afica," that Emin Pasha informed him that "he always took a mosquito curtain with him, as he believed that it of the fishing schooner Clara Bella, was an excellent protector against of Rockland, would doubtlessly have miasmatic exhalations of the night." It is therefore encouraging to note that the war upon mosquitoes, begun by men of science and military boards health, is being taken up vigorously by communities and private individuals in many localities. A good beginning was made last year, and there are indications that the work will be done on a much larger scale this summer. The time to open the campaign is now. as the mosquitoes begin to breed as soon as the weather turns warmer. The three most effective methods of fighting this plague are drainage, kerosene, and the introduction of fishes by in soul-torturing endeavor to keep which eat the larvae. The details of the dory from being submerged in the the strategy to be pursued are set forth lucidly in Dr. L. O. Howard's book on the mosquito; also in the English publication referred to above, together with "Mosquito Brigades How to Organize Them," by Ronald Ross. It may be suggested here that the fish commissioners might help along this beneficial war by stocking ponds with goldfish, sunfish, top-minnows, and other fishes whose favorite

food is the larvae of mosquitoes. ----THE QUIRK MURDER.

Toronto, Ont., March 27 .- Seventyseven young men have volunteered to go out to the foreign mission field under the auspices of the Presbyterian Church, if sufficient funds can be procured. Some of them are still at school, and it will be some time before they are ready. The large number of requests to be sent to the foreign field is striking tribute to the effects created by the recent student volunteer conention among the young men of Canada.

A NEW GRAIN ROUTE. Ottawa, March 27.-A new grain route from Georgian Bay to Montreal and Quebec, by way of Ottawa, will probably be developed by the building of the Irondale, Bancroft, Ottawa Railway, connecting Toronto, Lindsay, Renfrew and Ottawa. The railway will pass within a few miles of Orillia, and it is proposed to build a link connecting Orillia and Kinmount on the new line. This link will give air line connection between Georgian Bay and Renfrew, and it is said that the building of the railway will mean the development of a grain business, which will rival in volume the business now done on the Canada Atlantic from Depot Harbor.

THE CORONATION CONTINGENT. Ottawa, March 27.-Lieut.-Col. Hurdman has received over 50 applications from members of D Battery for positions on the coronation contingent. The other commanding officers of the Ottawa brigade have also received large number of applications, but have as yet got no orders from headquarters regarding the matter and consequently have taken no action as to the recruiting of the men. The general impression among the different corps seems to be that the men who have served in South Africa and who have not had the opportunity of visiting England should get the preference, be- under arrest, on a charge of burglary, ing good soldiers, and who would undoubtedly make a much better showing than those who have had much at the lodge meeting, when Czolgosz less experience

Findlay, Ohio, March 27.—A "ghost" that has rendered the Kimmell block on North Main street, of this city, almost untenantable for six months, is laid up with a broken leg and a sprained foot as the result of a fall from a 20-foot roof, and the inhabitants of the flats are rejoiced. Last fall mysterious rappings at windows and doors, unearthly moans and groans in the dead of night, interspersed at times with piercing shrieks in dark hallways, set the people who have apartments in the building on edge. No one has been more annoyed than Mrs. Rose Stahlsmith, a widow, living in apartments on the second floor. Nights when the breezes were calm her windows shook as though blown by a stormy March wind. So she bought a soft finish, beautifully made and finish- silk, corded, new shape, perfect fitting gun. At an early hour the other morning Mrs. Stahlsmith by a strong rattling at her windows. ELECTRIC ENERGY FROM NIAGARA.

Toronto, March 27 .- An agreement has been reached whereby leading capitalists in the street railway, the Electric Light Company and the General Electric will build the pole line for the transmission of electric energy from Niagara to this city as soon as such energy is available. William MacKenzie, of the Toronto Railway, and President Peliett, of the Electric Company, are the chief promotors. Their own companies consume 12,000 horse power daily. It is possible that the extension of the electric line from Mimico, along the lake shore to Hamilton, will be the first result of the

THE CRUELTY OF GERMAN OFFICERS

The Punishments For Trifling Offenses in the Kaiser's Army.

The debates in the German Reichstag on the military estimates give the Social Democrats an opportunity of again bringing before the house the subject of the ill-treatment of soldiers. The cases disclosed by Herren Bebel and Kunert, supposing that they can be authenticated, cast a glaring light upon the condition of things existing in this military state. Herr Bebel made the following statement: A noncommissioned officer at Breslau on a certain Sunday morning, tore the buttons off a private's coat, and made him stand in bathing drawers while he beat him on the head with his trousers. He then cut the seams of his clothes till they were in pieces, and ordered him to sew them up again and dress in full marching order. Later

he again cut his clothes and made him sew them up a second time. This fellow was finally found guilty of 63 cases of ill-treatment. In 200 cases he had boxed men's ears or struck them with the flat of his sword. For all this he received only nine months' imprisonment and degradation In another case an officer who had caused a soldier's death by ill-treat-

ment received only one year and seven months' imprisonment with degradation. In yet another case at Stettin, a non-commissioned officer was charged with 97 cases of ill-treatment. He was degraded and sent to prison for eight months—a comparatively light punishment.

At Oldenburg a non-commissioned officer was proved to have committed has been held for several minutes in the hand and it is a cardinal principle in

100 cases of assault, etc. He ordered corporals to throw themselves down on the grass and to eat it like cattle. It is almost incredible that the men obeyed, but had they not done so they would have been severely punished for insubordination.

A private in a rifle battalion appeared unshaven. His non-commissioned officer shouted at him: "You pig, I'll shave you." He took his penknife out of his pocket and tore and pinched off the hair. While this was going on with might and main away from the sergeant came in and said: "You must scene of the wreck. The wind blew do as I did." He proceeded to light a match and then held it burning under the man's chin and cheeks. A captair eived three months' detention in a fortress for 63 cases of ill-treatment one of them being a grossly immoral offense. Such crimes in the army are exceedingly leniently treated, and When superior officers are concerned,

they are generally pardoned. The Socialist member Kunert mentioned two cases in which two soldiers met their deaths in consequence of illtreatment while bathing. One man was held under water for such a long time and was hurt in such a way that he took the first opportunity to commit suicide. A man in a fusilier regi-ment was killed by blows on the breast with the butt end of a rifle. It was of Dahis was the boast of his new owner, undoubtedly a case of manslaughter. The case may be remembered of Capt. Count Stolberg-Wernigerode, who first insulted a sergeant with the basest of invectives, then boxed his ears and finally stabbed him. The army dochas nothing to do with such deaths.

Indiscipline on the part of privates is punished differently from that of the non-commissioned officer. If a soldier Ill-treats a horse he is sentenced to nine months' imprisonment. A non-commissioned officer who gave a soldier two boxes on the ear got twelve days' under arrest. A man who had scratched on his chair the words, ill-treats a horse he is sentenced to "Long live work, freedom, equality and fraternity!" received six months' prisonment for manifesting social democratic tendencies.

Three reservises, who, in a drunken fit, thrashed a gendarme, got fifteen years' hard labor, the offense being more severely punished, as Herr Kunert pointed out, than is the impaling of a man in the German colonies. The speaker ended by drawing attention to the increasing number of suicides in the German army. Last

other for years. When the conductor went to collect their fares one was holding a mickel in his hand, the other a dime. The carman gathered in the coins, crossed his right arm over and gave the nickel as change to the man with the dime. The coin was still hot from the hand of his enemy, and I saw the blood rise to the man's cheek, and I believe he would have broken loose if he had been sure whether to throw the money in the face of the railroad man or the hated face of the railroad man or the hated passenger. He fingered the nickel as if it were infected, and finally dropped it it were infected, and finally dropped it into his outside coat pocket to cool off. Now, of course, the conductor was not supposed to know the enmities of all the passengers he collected from, but an experienced man with a true conductor instinct would never have taken the chance, and would have dumped the coin into his big pocket, even if he brought it straight out again.

"The case was an extreme one, but

The case was an extreme one, but every day the carman is called on to use discretion in handing out money. I saw a curious violation of the rule the other day, when a pretty gir gave a nickel to a new conductor, who passed it across to a dude opposite. The man at once piped out that the coin was no good, and entered into violent altercation, which ended in the young woman ringing the bell and leaving the car, al-though only half way home."

Speaking from personal experience I can state that your Stout is excellent in building up the system-I was very much run down and was advised to use Labatt's Porter-this I have done for some time and I largely attribute to its effects my steady improvement in strength and weight. I deem it but justice to you, and it certainly is a pleasure to me, to add my testimony to its sterling qualities, and I gladly recommend your Stout as an excellent tonic and food in cases where such is required. For D. C. Cameron in Fort William and Lake of the Woods District

Rat Portage, Ont., March 27.-At the Liberal convention held here today for Fort William and Lake of the Woods districts, D. C. Cameron, president of the Rat Portage Copper Company, was unanimously chosen as candidate in the coming legislative elections for Ontario. No other candidate was proposed, and the delegates reported that the Liberals of the whole district were solid for Mr. Cameron, who thanked the delegates for the honor they had conferred upon him, and promised, with their assistance, to carry the riding for the Liberals.

A Serious Case of This Painful Disease is Restored to Good Health.

Satisfactory Improvement Leads to a Continued Treatment Which Results in a Complete Cure-An Interesting Story Which Will No Doubt Profit | COLLINGWOOD IS Anyone Suffering With Lumbago.

Holyrood, Ont., March 29.-Mr. Bat. Pinnell, of this place, has for the past two years been a great sufferer with that most painful and stubborn disease -Lumbago.

The pain he suffered was almost beyond description, and many were the medicines and treatments he used to try and get some relief. However, nothing he could find seemed to help him in the least, and he became very downhearted.

At last someone suggested Dodd's one more trial for a cure and began to use them.

The first box did not do him very much good, but after he had used part of the second he began to feel a change for the better, so he kept on until he had used in all seven boxes, when he was delighted to find that every symptom of the Lumbago had entirely dis-

His general health is much improved and he feels better today than he has for years.

To say that Mr. Pinnell is pleased does not begin to express it. Only those who have suffered as he did with this very painful disease can understand the extreme satisfaction of one who has found a complete cure and restoration

to health and strength. Lumbago is a direct result of disordered kidneys, and should always be treated as a Kidney Disease. Efforts to cure or even relieve by out-

ward applications are invariably unsuccessful. Rubbing may in itself for the time being produce a little relief, but in order to secure a complete cure | tral Y. M. C. The Kidneys must be restored to their normal condition. This is just what Dodd's Kidney Pills do, and this done the Lumbago very soon leaves, for without diseased Kidneys there can be no Lumbago.

The important matter of location decided upon, Mr. Archibald's next business was to put in his furniture, and his selections were just what might have been expected of a crusty, close-fisted old bachelor, who despised the fashion of this world, and who wanted to test the character and patience of two sweet

Fortunately, there was already a fine range in the kitchen, or there might have been trouble ahead, when one of the nineteenth century servants should take up her abode there; while, having appealed to his landlady for a list of what else might be needed in this department, and following it out to the letter, that room was the most completely tarnished of any one in the house. In his dining-room he placed a cheap In his dining-room he placed a cheap black walnut extension table and six stiff backed, cane-seated chairs to match; the room was finished in oak, with an elaborate and beautiful side-board built into one side. The floor was unpolished, and he decided that it would need no carpet—"carpets were a nuis-ance, and only traps to catch the dust." In the china-closet he put a set of com-mon delf, for which he paid exactly \$25 and grumbled then at the multiplicity of pieces, many of which he voted as use-less "folderols." He had no silver to put upon his elegant sideboard, and se clared it an extravagant piece of folly— indeed, it seemed such beside the cheap

The two front rooms he left unfurnished, as he designed them for Agnes and her mother, and in the little one leading from the dining-room he placed his own desk and a single chair. The front side-room he also appropriated to his own use, putting into it a two-thirds ash bedstead, a small table, and one chair, while the one opposite it was furnished in the same way for the girl.

Plain white shades were put up on all
the windows, and these completed the man's preparations, and he called the place "home." There was not a carpet or a rug anywhere, not a picture on the walls, not an ornament, for all such things were termed "useless gimcracks."
It was a forlorn-looking place, and Mr.

DIED VERY SUDDENLY. Luigi Castellano, who boarded at No. 66 King street, died very suddenly yesterday afternoon. He had just finished his dinner, and had retired to bed for a while, when he was heard to groan, and on going upstairs the people of the house found him apparently dead. A physician was called, but his services were of no avail, for life was extinct. Neuralgia of the heart was the cause of death. Deceased was un-married and had recently returned from a trip to Italy, his birthplace, where his mother had died. He had no relatives here are according to the second sec relatives here excepting an uncle, Mr. Caravello. Mr. Castellano was employed at the Parisian Steam Laundry some time ago, but left to go into business for himself.

Miss Maclachlan starts shortly on a six months' tour in the United States and Canada, where she is certain to meet with a hearty reception from her countrymen and countrywomen."

Concerning Grants to Charitable Institutions.

The London Catholic Record does not concur in the latest decision respecting the grants to the various lo-This is how it speaks:

"We are slow to bring a charge of bigotry against any of our Protestant fellow-citizens, and would not do so did not a recent action of a majority of the city council call for such a complaint. For many years it has been the custom to make small grants to the different charitable institutions in the city, and Mount Hope Orphan Asylum has been apportioned \$200 annually. We must state, however, that there were many years when this in-stitution was cut off entirely, so pronounced and aggressive was the storm of bigotry prevailing at the time. Our readers will no doubt remember these years when mayoralty candidates were elected largely because of their hav-ing expressed hatred to the faith of their Catholic neighbors. One gentle-man in the city council, Ald. Camp-bell, seems to be possessed of that love of justice and fair play which is highly commendable, and we might say the same of those other gentlemen who voted for an increased grant for Mount Hope Orphanage. At the last meeting Ald, Campbell said he desired to effect some system in the method of making grants to the various charitwhose systems are in a rundown condition. Be wise

Grand.

"Barbara Frietchie," the first of Clyde Fitch's plays to be seen in this ity since the visit of Effie Shannon and Herbert Kelcey in "The Moth and the pearance in London, Ont., on Tuesday Flame," and the second of his plays evening next, April 1, reminds us that ever produced here, was given before a small audience at the Grand last night by a capable company, headed by Miss Frances Gaunt. The play deals with the troublous times of the American civil war, when not only the nation itself but communities and households found themselves divided. Barbara Frietchie, instead of being shown as the aged dame of Whittier's wellknown poem, is depicted as a winsome Southern girl, whose attachment for the South is changed to sympathy with the cause of the North by reason of her love for a Union officer. The latter dies from a wound dealt by the heroine's brother, and it is in the desperation of grief that she waves the Union deacon Sinclair, Sir James Sivewright, and Sir William Wedderburn, M.P. flag from the balcony of her home as Miss Maclachlan sang some of the the rebel troops march through Frederick. Despite Gen. Stonewall Jackson's command that the man who raises a weapon against girl or flag shall be shot like a dog, Barbara's discarded lover, John Negley, firestat her and kills her. He is led away to execution at the command of his military father, and the curtain falls with Barbara's lifeless body hanging over the balcony, with the Stars and Stripes still clasped in her dead hand. The play is one into the spirit of which a readily as can one on the other side of the line. The action drags at times of the line. The action drags at times, but on the whole proves an interesting and clean dramatic offering. Frietchie, while Charles Chappelle was equally good as the Yankee-hating old soldier, Col. Negley. Edwin Meyer marred his work as Jack Negley by a tendency to melodrama. Edith Bowman was acceptable as Sue Royce, and the balance of the roles were acceptably taken.

HERRMANN THE GREAT. Herrmann the Great, who appears at the New Grand this afternoon and evening, has an entirely new and novel programme of magic and mysterymagic never before seen in this city.

Several new sensawould attempt. tional illusions are also on the programme. This season Herrmann has accompanying him McWatters & Tyson & Co., in their latest New York vaudeville success, "Scenes in the Dressing-Room.'

"SHORE ACRES."

James A. Herne's famous comedydrama, "Shore Acres" comes to the New Grand tomorrow for matinee and evening performances. It has justly been said of this play that it is as delicately and simply beautiful as a morning-glory. The story Mr. Herne tells in "Shore Acres" is easily forlowed, and as you watch its unfolding you can readily understand why this simple play has been crowned with such lasting popularity. As heretofore, the play will be presented with entirely new scenery and a fine acting company that includes all the old fa-

"LOVERS' LANE." The following are comments upon this latest Clyde Fitch success by two of the best known dramatic writers in the country: Amy Leslie, in the Chicago News, said: "Lovers' Lane' is a nit. A delight of beautiful sentiment and sweet country freshness. It draws, draws, draws, without interruption." George P. Goodale, in the Detroit Free Press, said: "Lovers' Lane' moved and diverted me, and will certainly do more than that to the untired theatergoer who seeks the playhouse for pleasure." The original company will be seen at the New Grand next week.

AT THE LONDON TODAY.

The Rochester Herald of two weeks ago says of the Dainty Paree Extravaganza Company, which comes to the London Opera House today and Saturday for matinee and night performances: "The performance is open-ed and closed by the farces entitled 'Royal Troubles" and "Paris Upside Down," which are bright and snappy. Otis Shattuck and Miss Minnie Ber-Barbara Frietchie" at the New nard are an excellent team and do good work.
