

PAINTER HURT SERIOUSLY AS LADDER SLIPS

George Howe Has Both Legs Fractured At The Ankles.

ARTERY ALSO RUPTURED

While painting a house in South London at 4 o'clock on Wednesday afternoon, George Howe, 326 Dundas street, was thrown from a falling ladder, with the result that both his legs were broken at the ankles. The base of the ladder had been placed on the ground floor of the house, near an open trap door. Mr. Howe perceived that the ladder was slipping, but was unable to get off before it slipped into the cellar.

Dr. F. R. Clegg rushed the injured man to Victoria Hospital, where an X-ray was taken. It was found that an artery had been ruptured. As a result the legs, which have swollen to three times the natural size, cannot be set for a few days.

ANOTHER GREAT DAY AT PARK FOR PUPILS AND S. S. TEACHERS

Methodist Churches Flocked
To Springbank Wednes-
day.

Wednesday was another big church and Sunday school picnic day at Springbank Park, when the congregations of no less than four Methodist churches of the city rejoiced in perfect weather for their annual outings.

The churches and schools thus celebrating were Memorial, Colborne Street, Ridout Street and Empress Avenue Methodist churches.

Going down to the park immediately after dinner special cars were chartered by each of the churches to take down their own crowds, many more joining the picnic parties before the close of the afternoon.

Novelty Events.
The usual races and all manner of novelty events aroused much interest, while absorbed attention was centered in the case of Empress Avenue and Colborne Street picnics in baseball matches.

It was an interesting coincidence that the picnics in three cases were practically the first social functions of the churches attended by the new pastors.

Rev. George Dewey of Empress Avenue Church, who is back after some years for a second term as pastor, declared he felt he had only been away for a vacation, so entirely did he find himself surrounded by old friends. The Empress Avenue picnicers chose for their outing an attractive spot to the west of the city.

Further West.
Farther down, across from the loop, two hundred and more members of the Memorial Methodist Church and church school had taken possession of an inviting stretch of grass, where the games for the little folks, to which prizes were attached, were run off in the afternoon. The picnic was the bigger people after the big all-together picnic tea.

Rev. S. J. Kelly of Colborne Street Church and Mrs. Kelly had an excellent time getting acquainted with their congregation, which was very largely represented by people of all ages.

Ridout Street Methodist Church, to which Rev. John Agnew has recently come as pastor, also held a bumper picnic.

The following were winners in the various events in the sports of Ridout Street Church: Girls under 6—Reta Clark, E. Bendis, E. Spettigue.

Boys under 6—G. Proctor, R. Wilson, G. Ramer.

Girls under 9—M. Boyce, H. Proctor, M. Sonley.

Boys under 9—H. McIntosh, E. Reed, J. Pritchard.

Girls under 12—A. Storey, E. Ramer, J. Martin.

Boys under 12—E. Russell, A. Ramer, S. Ashby.

Girls under 15—E. Boyce, E. Martin, R. Flecker.

Boys under 15—A. Ramer, B. Russell, J. Spettigue.

Ladies' race—Mrs. Tapp, Miss Taylor.

Wheelbarrow race—Eleanor Boyce and Bert Russell, Beatrice Martin and Arnold Ramer.

Dearer To Sit Upon Fence Than To Pay Way Into Grounds

Youths Assessed \$1 Each For Trying To See Game

Free.

For sitting on the fence at Tecumseh Park when the London club had a winning streak, Leonard Colliard was fined \$1 in police court this morning. The charge preferred against him was trespassing. After his arrest the trespasser paid his way into the park.

Percy Williams, another high-board fan, was fined a smaller amount for looking over the fence.

Magistrate P. H. Bartlett told the boys that the maximum fine for their offences was \$10.

Noticeable Improvement In Steel Mills Business

Opinion Does Not Favor Government
Contract Price With Dominion
Steel Corporation.

In its summary of the iron, steel, metal and machinery markets for the week ending July 13, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

"There is a real and a noticeable improvement in the business going to the larger steel mills of the United States, and this is almost certain to be reflected at the Canadian mills and in business in general. The trade is discussing the new contract made between the Dominion Government and the Dominion Steel Corporation, and the opinion does not seem to be favorable to the price named, \$3.65, can compete in this district. Taking Toronto as a given point, the Sydney plate would be 4.20 cents per pound, while Pittsburgh would lay it down here for 2.75 cents. Thus exchange, leaving a margin too great to be discounted or ignored."

Buying is not improving as it had been hoped it would. Before the war there were plenty of concerns in Canada who made and ordered carrying many lines, such as plate, tubes, iron bars, etc., that would be enough for an ordinary year's business. As a result of these companies are buying for immediate wants only, and as a result business dribbles along, the mills do not get the much-wanted big tonnage orders.

Makers of some lines of machinery have served notices of advance. This is for material not much used in war work, and which has not risen far past pre-war prices. Against this, chain link and other material, to the extent of \$20 per ton. Chain did not come down immediately following the war, and the business is practically delayed concessions.

The metal market is strong. Copper, it is anticipated, will be for a fairly well-continued season on high levels. Copper went very much to pieces during the war, but has been coming steadily back ever since. It is well above pre-war levels. Copper, at the end of July, 1914, was 15¢ before the war, was quoted at 13¢, while the latest figure at 15¢. The tendency is still up.

NOT GUILTY OF LETTING PIG RUN AT LARGE; HOG TOO VALUABLE FOR THAT

Animal Escaped But That Is Not Cause
for Fine.

Henry Stahler, charged in police court this morning with permitting a pig to run at large, was found not guilty. The pig had escaped, but he had not allowed it to do so. "Pigs are too dear to lose," said the accused, when asked if he had let the pig run at will.

John Weaver, the complainant, declared that the pig had entered his garden and had eaten a large number of green tomatoes. He wanted a pig to eat green tomatoes, but he did not want a pig to eat his tomatoes.

Mr. Weaver was told that if he wished to recover damages for the havoc that his alleged had caused in his garden he would have to enter a suit in a civil court.

SOLDIERS ON GUARD AT COVE GUILTY OF SLEEPING ON DUTY

Admit Offence and Plead Mitigating
Circumstances.

COURT REACHES DECISION

But Sentence Will Not Be Pro-
nounced Until Confirmed
By C. O.

Ptes. Douglas Hetherington and Cecil C. Roy, No. 1 Detachment, Canadian Garrison Regiment, both of this city, appeared before a district court-martial, with Major H. M. Pardee of the Canadian Engineers as president, this morning, at Galtley Barracks, and pleaded guilty to charges of sleeping while on sentry duty at the cove range ammunition magazine on the morning of July 6. These two soldiers were discovered asleep while on guard by Sgt. Harry Saunders, formerly of the 1st Canadian Battalion, and Lance-Corp. D. J. Thompson, who, after confiscating and removing their rifles, placed them under arrest.

Mitigating Circumstances.
Both the accused pleading guilty as charged, offered statements in mitigation of punishment. Hetherington stated that he was 18 years of age, and that the day before the offence was committed he had been placed on light guard on account of illness. He also stated that sleeping accommodations at the guard room were insufficient. He admitted that he was aware of the gravity of his offence, and that sitting down as he did while on guard duty was an awful thing to do.

Pte. Roy claimed in his statement to the court that he had some feet the night he was on guard and that he had sat down to rest as a result. He admitted that he had been guilty of a similar offence before, for which he had appeared before a court-martial, and was solemnly warned by the officer of the serious character of the offence.

Walked Half-Hour.
From the evidence reviewed by the court it appeared that both soldiers, after one-half hour on sentry duty, sat down on the steps of the ammunition magazine at the cove range, to have a chat together, knowing that if caught, they would be severely punished. If caught, after talking a short time, they fell asleep. Pte. Roy is but 16 years of age, but on statement he swore that he was 19 years of age in order that he would be accepted for service.

Must Be Confirmed.
This sentence must be confirmed by Brig.-Gen. L. W. Shannon, officer commanding this military district, and is approved by him will be promulgated before the entire garrison regiment drawn up on parade. This will likely be in about ten days, and in the meantime the prisoners will be held in detention.

Lieut. W. T. Bartlett of the C.G.R. acted as prosecutor, and Major G. N. Weeks of the local headquarters acted as defence judge advocate. The court-martial, which is the first to be held in this military district for some time.

FALL WHEAT GOOD; OTHER CROPS SAID TO BE ONLY MEDIUM

Departmental Reports For
Province Not Too Prom-
ising.

Fall wheat appears to be the bright and shining light in the crop situation this month, according to the summary of reports made by the agricultural representatives of the Ontario department. The summary follows:

The fall wheat harvest is general, and the average yield per acre will be a good one, although early harvest results are hardly up to the great promise of a month ago, as the extreme heat has reduced the yield somewhat.

The fall wheat harvest is general, and the average yield per acre will be a good one, although early harvest results are hardly up to the great promise of a month ago, as the extreme heat has reduced the yield somewhat.

Spring grains have not improved in prospects during the week, and still have a dwarfed appearance, compared with the high-standing fall wheat. In fact, such low-headed fields have not been seen in this province for many years. Essex reports the first cutting of barley for the season. Late sown oats are so unpromising that some farmers are holding seed oats for another year.

The second growth of clover and alfalfa are not very satisfactory owing to the drought. There are also some complaints that spring seeding of these crops has been more or less of a failure.

Hay has given a fair cut, and the crop has been cured under most favorable conditions. Wetland reports now hay selling in the field at \$15 a ton. The potato yield will be lightened by the drought. There are also some complaints that spring seeding of these crops has been more or less of a failure.

Corn has done well where sown early, but that put in late has not germinated as to growth.

Beans are standing the drought exceedingly well, but the acreage is small compared with that of last year. Tomatoes have been shipped from Essex in carload lots during the week. Raspberries, which promised a bumper yield, are drying up badly for lack of rain.

The milk crop is also falling off, although not so seriously as the appearance of pastures would indicate. Beef cattle on grass also have been making little flesh.

Ontario County dairymen will receive about 35 cents a pound for butterfat during the first two weeks of August.

The marketing of hogs is fairly active at from \$21 to \$22.75 per cwt. Farmers' clubs selling co-operatively are well satisfied with the results. York reports the shipping of horses during the week at prices ranging from \$125 to \$175, and Frontenac reports them as bringing from \$100 to \$250.

The Frontenac representatives, while sending wages for harvesters as ranging from \$45 to \$60 a month, and from \$2.50 to \$4 a day, with board, state that a full urban work has diverted much available labor to the farms.

Mrs. Cober lives with her sister, Mrs. Washburn. She was alone in the house when the oil stove she was using exploded.

Several local improvement bylaws for paving, construction of sidewalks, and the adoption of the engineer's report on these were passed. A grant of \$200 was made to the soldiers' aid committee.

LABOR ORGANIZERS IN CITY; ONE UNION IDEA IS CONDEMNED

Would Lead to an Overbearing Autocracy.

GOVERNMENT IS SCORED

By Its Catering to the Big Interests Is Breeding Bolshevism.

Four big labor organizers are spending a few days in London this week in connection with local labor matters. Mr. John A. Flett of Hamilton, organizer for the American Federation of Labor, is here dealing with the application of the St. Thomas branch of the local Federal Union for a separate organization. These members have been included in the London branch for some years, but they now feel their membership is big enough for an organization of their own. Mr. Flett is in the city in connection with the American Federation of Labor's stand against the One Big Union. He states the ideas of the O. B. U. are in part sound, but the methods of carrying them out are all in opposition to the democratic ideals of the American Federation of Labor. The One Big Union would lead to an overbearing autocracy, in his opinion.

Mr. Flett also declared strongly against the policy of the Canadian Government in catering to the big interests. The record of profiteering in this country is appalling. His attitude toward the producer and the workingman. The trades and labor unions, which are striving to help solve the labor situation in this country in a sane and rational manner, are getting no help or encouragement from the government, and the result is the laboring men of Canada are being driven toward the One Big Union idea.

The American Federation of Labor is strongly organized in Canada, United States, Mexico and Porto Rico, and has a membership of over 4,000,000. Very shortly it is expected that the federation will extend to South America. Three of the four railway unions have applied for membership in the federation. The Brotherhood of Locomotive Firemen, is expected to follow suit.

Mr. Flett characterized the American Federation of Labor as nothing more than a sane and rational institution for the free expression of thought of the workingmen.

Mr. Marsh is in London attending the meeting of the International Association of Machinists, arrived in town Wednesday. Several matters needing adjustment are taking his attention, although he was not in a position to make any statement for publication concerning them.

Mr. James Sullivan of Hamilton, representing the International Cigar makers' Union, is also in the city.

Mr. Bush of Toronto, organizer for the Carpenters' Union, is expected in the city today to attend a meeting of local garment workers. There is some talk of the retail clerks of the city forming a local branch of the International Retail Clerks' Protective Association, which is affiliated with the American Federation of Labor. The meat cutters and the furriers' unions are also talking of organizing.

POMERANIANS ARE AROUSED BECAUSE OF MARTIAL LAW

Workmen Demand That Military Order Be Rescinded.

Berlin, July 17.—All Pomeranians are aroused over the proclamation of martial law there and the order prohibiting workmen from striking. The workmen insist that martial law be abolished, that prisoners arrested during the present strike be released, and that recognition be extended to workmen's councils. The gas and electric and water plants at Stettin, capital of Pomerania, have been shut down, and every street car in the city has been stopped. The reports say the strike is gaining force, but officials hope to keep food shops open with troops. This is held to be most important, as harbor traffic has ceased. Workers on farms are reported to have ceased their labors, but are said to be quiet.

Two permits were issued to J. A. Buchanan and Theod. P. N. Barwell, each of them for \$4,000, two-story brick-veneer dwellings on Talbot street. VETERANS EXTRACT APOLOGY IN PUBLIC

Violinist At Amusement Park Visited by Delegation.

Public apology was made at the dance hall in the Springfield Park by Charles Cody, a violinist in the orchestra at the hall for any remarks that he had been understood to make about returned soldiers going with girls.

As the story goes, a number of veterans heard of these alleged remarks and made complaint to George Holding, manager of the hall. They were under the impression that the musician had made the remarks in public on the dance floor. Mr. Holding informed them that his employee did not do this, and was willing to wager \$1,000 that he was correct in this. He suggested that if the veterans would make the matter private, the settlement also should be private.

According to Mr. Cody's story, he had been called to the attention of the manager of the hall by a returned soldier. He had told his lady friend that the returned soldiers were going with girls. Not a word to any of the veterans went into this explanation, the veterans went up into the orchestra box, which is above the dance floor, and made the violinist make the remarks. Cody then stood up and said that if his remarks had been misunderstood or misinterpreted he was very sorry. Then the excitement died away.

Another veteran, a member of the orchestra, who was seriously wounded in France, said next to the violinist at each performance, and denies emphatically that the remarks complained of were made.

Squirrels On Lawn; Reporter's Eyesight Confirmed By Boys

Black and Grey Varieties Squat There in Plain Sight.

The advertiser speed demon was wending his way along Colborne street, near a sufferer, avenue, at the usual rate last night. At 8 o'clock, when suddenly he discovered three squirrels about ten feet away from him on a near-by lawn. He stopped, looking at them, and hazarded another guess in confirmation. Yes, there were three of them, or that orange was slipping one over on Inspector Keeney.

Two small boys in the vicinity were talking to the reporter, and he learned from them that the squirrels were in the yard. Their answer was in the affirmative, and at this moment the three squirrels commenced an exciting game of cross-tag.

The hired help then finally advised the advertiser to get on with his work. The squirrels, when no one was looking, suddenly sneaked away, leaving the advertiser with a good deal of time for reflection. The squirrels are very tame and residents of this district are very familiar with them.

Some dozens of happy little children can scarcely wait for tomorrow, the day of the wonderful picnic at the Springfield Park by a dozen boys and girls of the block between Grosvenor and St. James' streets on Waterloo, in honor of the little wards of the Children's Aid and Protestant Orphans' Home.

Early Closing

After four months of closing each evening at 8 o'clock no amount of money would induce any of our downtown hardware men to go back to the old way of keeping open till 10 or 11 o'clock on Saturday nights. In fact, they wonder why they were foolish enough to keep open Saturday nights as long as they did, but, of course, it is a case of live and learn.

Saturday, in the retail business, is usually twice as busy as any other day in the week, and by the time 6 o'clock arrives the clerks are about all in. What a crime it is to ask them to put in four or five extra hours after doing double duty during the day! It is particularly hard on girl clerks, and later on in their life they are bound to suffer for it.

KOREAN GOVERNMENT MAKES COMPENSATION FOR MAN'S INJURIES

Rev. John Thomas Was Hurt During Independence Movement.

SEOUL, Korea, July 16.—(Correspondence of the Associated Press).—The Government of Korea has paid to the British consulate the equivalent of \$2,500, in compensation for injuries received by the Rev. John Thomas, in connection with the Korean independence movement.

Although a British subject, Mr. Thomas is representative here of the Oriental Mission Society, which has its headquarters in Chicago. He was arrested at Seoul, Korea, March 20, and was beaten by Japanese civilians and struck by a policeman.

In the criminal court here four Japanese civilians concerned in the attack were fined, and the policeman whom Mr. Thomas charged with assault was punished by disciplinary measures.

Mr. Thomas declared that he was arrested without provocation, kicked and beaten. The police seemed to think he was an American, he said, and would not allow him to substantiate his claim to British citizenship nor to show his papers. Finally at the police station the matter was arranged. The police admitted that he had made a mistake and expressed their regrets.

There were nearly 4,000,000 children in the elementary schools of Italy under 12 years of age in 1916, the report shows.

SIR EDWARD CARSON IS DENOUNCED IN BRITISH COMMONS

Bonar Law Regrets He Cannot Be Prosecuted.

MOTION IS DEFEATED
Attorney-General Announces There Are No Grounds For Action.

LONDON, July 16.—Sir Edward Carson's recent speech regarding Irish conditions came up in the House of Commons today. The attorney-general, Sir Gordon Hewart, announced that there were no grounds for setting the law in motion against Sir Edward for his threat to call out the Ulster Volunteers against Home Rule.

By a vote of 217 to 73 the House rejected a motion by J. R. Clynes, labor member, urging the Government to prosecute Sir Edward Carson for his speech of incitement to violence and breach of the law.

The debate turned on the legal point, in which the attorney-general said he had the concurrence of the solicitor-general. But almost all the speakers, without distinction of party, condemned the Carson speech. Sir Donald MacLean, Liberal, appealed to the Government to try to regain the moral authority of Parliament by condemning the language the Irish Unionist leader used.

Bonar Law, the Government spokesman, contended that the Government was bound to be guided by its legal advisers, though nothing could be more painful to him. If the Government had been advised that the law was broken he would have insisted on action being taken, or would have resigned. The whole thing was a very unfortunate affair, said Bonar Law.

Scored By the Press. Sir Edward Carson's speech on Saturday under the lash of the newspapers of all parties, primarily on account of his references to the United States, which are called tactics and calculated to breed bad blood between the nations, and secondly, because he reiterated his old threat to call out the Ulster Volunteers to resist any attempt to place the home rule act in operation.

The labor organs are not slow in pointing out how such incitement to "direct action" could be improved upon in the industrial field for securing political ends. The Liberal pro-Irish papers are equally quick to point out that, in point of tactics, there is no difference between "King De Valera" and "King Carson."

The matter came up in the House of Commons tonight, when the Speaker, Mr. Robert Clynes, Laborite, permitted to move adjournment of the House for the purpose of challenging the Government to set the law in motion against Sir Edward Carson, for a speech inciting violence and endangering the safety of the realm. Mr. Clynes said there were many more illiterate men now in prison for saying less harmful things than Carson had said. It was the Government's duty to see that the law was equitably enforced.

Apostle of Direct Action. Mr. Clynes described Sir Edward Carson as the "arch-apostle of direct action."

Lord Hugh Cecil and other Unionist members condemned Carson's remarks as indefensible.

The attorney-general, Sir Gordon Hewart, declared that the alleged breach of the law and violence had broken down. He said nothing in the speech in question, upon which it was possible to found legal proceedings. The passage referring to the calling out of the volunteers was hypothetical and contingent on dereliction of duty by the British subjects, and this nobody proposed to do.

However much the speech might be regretted at a time like this, there was no law which could be set in motion, as no offence had been committed.

Bela Kun's Reign Appears Nearing an End.

Likely To Leave Hungary Never To Return.

Vienna, July 16.—There is a crisis in the Hungarian soviet. Gen. Boehm, commander of the army, has been imprisoned. Reports have been circulated that his health required rest in a sanatorium. Stumfeld, second in command, is reported to have fled.

Statements that Bela Kun, the soviet leader, had been invited to a conference by the Allies, has given rise to reports that he has accepted this subterfuge as a means of escaping from Hungary without the intention of returning. It is denied, however, that he has left Hungary thus far, or even departed from the capital.

WINNIPEG'S TRADES AND LABOR COUNCIL FOR ONE BIG UNION

Initial Steps Are Taken To Promulgate Policy.

PROTEST IS UNAVAILING
Dominion Trades Congress Representative Pleads in Vain.

WINNIPEG, July 16.—A vote to a great extent committing the Winnipeg Trades and Labor Council to the one big union was passed at the regular meeting of that body last night. It was not unanimous, several of the representatives who had not received instructions from their respective unions refrained from voting. As a result of the decision initial steps were taken to promulgate the policy in government of labor union affairs.

R. A. Rigg Protests. Prior to the taking of the vote, R. A. Rigg, recently appointed organizer for Western Canada of the Dominion Trades and Labor Congress, addressed the body in opposition to the one big union proposal.

Mr. Rigg said that, while there were changes that were needed in the formation of their economic organization in order to make this more effective in the interest of the worker, in his opinion the best policy to adopt was to advocate these changes inside the organization and in that way bring the movement along as a whole. Otherwise, it was inevitable that a split would take place in the ranks of organized labor and the energies of the organizers would be frittered away in strife between themselves.

Many Changes Coming. The mind of the movement, was said Mr. Rigg, always susceptible to the influence of new ideas. Many changes had taken place in the past and rapid progress was being made in preparing the movement for other changes.

Mr. Rigg warned them against the danger of overestimating the power of their economic organization to accomplish any drastic improvement, and urged upon his hearers to concentrate more of their activities upon the political field.

COURT-MARTIAL FOR STRIKING OFFICER MANY MONTHS AGO

Protest Is Raised in Behalf of Ex-Gunner.

CAN PREPARE A DEFENSE

Friends Claim Government Has Let Time Pass So As To Secure Evidence.

KINGSTON, July 16.—This morning a court-martial convened at the Barracks here for the purpose of placing on trial Ex-Gunner James Mossman of the First Battery, C.R.E., but the case was paraded until tomorrow morning. Gunner Mossman is charged with striking a superior officer in Belgium on November 18, 1918. The case against Mossman was allowed to drift. He went into German territory, then back to England in March, 1919, and from England to Canada. On March 29 Mossman was discharged and returned to his home in Belleville.

On May 2 Mossman was arrested by the military police and brought to Kingston, being detained under arrest at the barracks after the usual summary of evidence was taken. He was on Monday afternoon ordered to be ready for trial on Wednesday morning. His friends objected to the notice to prepare for trial. They claimed that the Government had held Mossman from May 9 against him and that he should be given a reasonable time to have his defence. They claimed that the Government refused. Then W. F. Nickle, M.P., wired a vigorous protest to Ottawa, and the court should be asked for sufficient time for Mossman to prepare a defence. It had been concluded that a man is a civilian and cannot be tried by court-martial, but the department of the justice advocate general has decided to the contrary.

FARMER DIES IN COURT AFTER HE KILLED A MAN

Shooting Affair Has a Startling Sequel in Collingwood.

COLLINGWOOD, July 16.—Under especially peculiar circumstances a double tragedy was enacted here today. It began on the farm of Amos Sherrick, on the outskirts of the town early today when Sherrick fired a shot at a young man named John Mooney, whom he found in his pithy, and who was endeavoring to make his escape from the place.

It ended by the sudden death of Sherrick in police custody when, standing before Police Magistrate Hogg, preparing to listen to the formal charge of murder which had been laid against him by the police.

Mooney was a returned soldier, about thirty years of age. Sherrick was in his 65th year, and had been a resident of Nottawasaga Township for many years. He was a very quiet man and highly respected.

The shock of the death of Mooney undoubtedly caused his death.

CONCILIATION BOARD ON TORONTO BAKERS' CASE

OTTAWA, July 16.—The minister of labor has appointed a board of conciliation to settle the dispute between some twenty master bakers of Toronto and their bread drivers. There are about 600 men directly and 800 indirectly involved in the dispute. The men were on strike, but have now gone back to work.

As the firms involved were not public utility corporations, a board could be established only by mutual consent of the disputing parties. The master bakers have appointed F. H. McGuigan of Toronto as their representative on the board, and W. Clay will represent the men. They will select the chairman, on failing an agreement, he will be appointed by the minister.

FIRST HUMANE SOCIETY MEDAL FOR OWEN SOUND MAN; SAVED TWO GIRLS

OWEN SOUND, July 16.—The first Royal Humane Society medal for lifesaving ever presented in Owen Sound will be presented on Saturday to Neil Kennedy, son of Mr. and Mrs. Matthew Kennedy Jun., for his heroic action in saving the lives of two little girls on the Upper Sydenham River on January 23.

The little girls are cousins, aged 10 and 11, and are the daughters of Messrs. Will and E. E. Irving.

The presentation will be made by Mayor Webster, following the program arranged for Saturday morning in Queen's Park in celebration of the signing of peace. Neil Kennedy, the recipient of the medal, is one of the model boys of the town. He is a student of the Owen Sound Collegiate Institute in the fifth form, and an active member of the Y. M. C. A., where he is one of the leaders in junior boys' work.

The action for which the medal was awarded occurred on January 23, when he and Miss Dorothy Fairley were walking on Second avenue, and heard cries for help from the little girls, who had broken through the ice in the river, which kept breaking under their weight as they tried to climb out, and they

were soon in deep water and a strong current. Crawling out on the ice, he secured the children one by one, and passed them back to Miss Fairley.

SOLDIERS LIBERATED FROM KINGSTON JAIL

Why all this Precaution?

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

Children Cry For Fletcher's CASTORIA

The False and the True.

Advertising by the use of large space, the expenditure of huge sums of money have placed on the market, have put in your home, perhaps, many articles that today have been discarded, as you will readily admit. Do you recall anything that has more modestly appealed to the public than has Fletcher's Castoria; modest in all its claims, pleading at all times—and truthfully—for our babies?

The big splash, the misleading claims may win for a time, but the honest truth-telling advertiser is like the old story of the tortoise that beat the hare.

Mothers everywhere, and their daughters, now mothers, speak frankly, glowingly, enthusiastically in praise of Fletcher's Castoria. Speak of it lovingly as a friend that has brought comfort, cheer and smiles to their little one.

There are substitutes and imitations as there are for the diamond, for anything of value. One might almost say that that which is not copied has no value. So you have had the signature of Chas. H. Canadian Flier Plays Part In Thwarting German Zeppelin Expedition to Bomb New York

Kingston Boy Member of British Naval Air Squadron Which Brought Down Two of the Zepps and Captured Plans and Instructions For Wrecking American Metropolis.

KINGSTON, July 16.—That German Zeppelins started on a flight across the Atlantic during the war to bomb the city of New York was learned today from Flight-Lieut. John Tomkins, who returned home here recently.

Lieut. Tomkins says he was a member of the British Naval Air Service squadron which brought down two Zeppelins from a squadron of three in the North Sea in August, 1918.

In the German dirigibles the British found plans of the route to New York and of the American coastal defences, and instructions to the German commander for the bombing of New York City. The third Zeppelin escaped, but was turned back toward Germany.

Lieut. Tomkins served for two years and four months in the Royal Flying Corps, and the latter part of his service was spent in the Royal Naval Air Service.

PRELIMINARIES OF CONVENTION START JULY 31

National Committee of Liberals To Prepare Agenda.

CAUCUS AUGUST 4TH

Welcome and Accommodation Arrangements in Hands of Local Committee.

OTTAWA, July 16.—Numerous committees have been appointed to prepare for the national Liberal convention which meets in Ottawa on August 5, 6 and 7.

There is an advisory committee composed of members of the House of Commons, presided over by D. D. McKenzie, temporary leader of the party. The work that it performs is preparatory only, as it is merged in the national Liberal committee, which is composed of Liberal members of the House of Commons, the Senate, seven provincial premiers and two Liberal leaders of the Opposition. The national committee will meet on July 31 and following days to prepare an agenda, making suggestions as to the order of procedure at the convention.

The suggestions will be considered, revised and adopted by a caucus of the Liberal members of the House and Senate which meets on Monday evening, August 4. The chairman of the Liberal convention committee is D. D. McKenzie. The chairman of the caucus will be James A. Robb, chief Liberal whip.

Preparations for the assembling of the delegates and all the preliminaries are attended to by a local committee composed of the officers of the Eastern Ontario Liberal Association, with the members of the executive committee of the Ottawa Reform Association and three members of the executive committee of the Carleton County Liberal Association.

AIRSHIP'S CAPTAIN REPORTS OCEAN TRIP TO HIS SOVEREIGN

King George Converses With Scot For an Hour.

PUBLIC UNINTERESTED

Greatest Aerial Voyager Not Met With Such Enthusiasm as Alcock.

LONDON, July 16.—Major J. H. Scott, captain of the British dirigible R-34, and Brig.-Gen. E. M. Maitland, who represented the British air ministry on the airship's round-trip flight to New York, went into Buckingham Palace to report to King George today, almost unnoticed by the crowd. The people assembled at the gates to watch changing of the guard did not know that the two officers were the heroes of the first transatlantic dirigible flight.

When the visitors left, a group of photographers drew the crowd's attention to the two airmen, and they were cheered loudly.

King George showed much interest in the report of the two officers on the R-34's flight, and conversed with them for an hour. He congratulated them heartily.

The apparent lack of public interest in the feat of the R-34 had been in contrast with the enthusiastic reception given Capt. John Alcock, who made the first non-stop transatlantic airplane flight, and that gave Harry G. Hawker, who felt into the sea half way across.

MASONIC ORDER IS NOT A "POLITICAL" SOCIETY, SAYS G. M.

Masons Who Would So Use Craft Are Rebuked.

RADICALS CONDEMNED

Progressive Evolution Consistent With Good Government Welcomed.

TORONTO, July 16.—The address of Grand Master W. H. Wardrop, K.C., which, owing to his illness, was today read to the Masonic Grand Lodge, rebuked those Masons who, when seeking public office, have in writing requested brother Masons to support them. He says:

"I would like to call the attention of the brethren to the fact that men seeking public office have addressed letters to the brethren to support them, because they were Masons. This is a great breach of Masonic conduct, and should be frowned upon by the Masons whenever it is attempted. We teach principles. We are not a political society."

The aim of Masonry is conclusively set forth in the report on the condition of the order. This report acknowledges that these are abnormal times, the condition of Masonry therefore (for the order aims at the establishment of the reign of law and the reign of light), it claims, is of national significance in this year.

"The craft," the report says, "will welcome progressive, revolution consistent with good government and reasoned prudence, but will certainly condemn revolutionary riot, sedition, anarchism, and will demand the adequate deterrent and repressive punishment of those who are lawless."

Travel at the Lowest Cost per Mile

FEW car-owners nowadays are tempted by low prices for tires. They have learned the fallacy of judging by first costs.

Most miles per dollar is the return you get from Firestone Gray Sidewall Tires. It means they are cheaper in the end, regardless of the original cost. Their buoyancy assures comfort from first to last. Their endurance under gruelling wear lends confidence to every mile on the road.

The fact that Firestone prices have been reduced while the mileage adjustment basis has been increased is only an additional reason why so many people prefer Firestones to all others.

No Canadians For Peace Procession In the British Capital

LONDON, July 16.—No reference to the Canadians participating in Saturday's great peace procession appears in the official program. Canadian headquarters issues the statement that an invitation to supply a contingent was received, but it was found impracticable to accept, as all the Canadian fighting units have returned. The only Canadians left are married men at Buxton and certain odd detachments for mopping-up duties.

MAN OF 61 LIVES OVER DAY WITH A BROKEN SPINE—DIES

STRATFORD, June 16.—Samuel B. McKay, a prominent Downie farmer, who suffered a broken spine as a result of a fall from a load of hay on Monday last, died at the General Hospital here yesterday morning. Owing to his advanced age little hope was held out for his recovery from the fall. He was 61 years of age, and had been paralyzed from the shoulder down following the accident. His wife, one son and a daughter survive.

Members of the board of works are giving a cold welcome to the proposition of the Ontario Asphalt Block Company of Windsor, made to the city in regard to the unsatisfactory condition of the asphalt pavements here. The company's proposition is that the city retain the drawbacks at present held by them, and release the company from further liability. To make the roads serviceable they would require resurfacing at a cost of \$75,500. The amount of the drawbacks now held is only \$4,925, also two bonds, one for \$7,500 and another for \$2,500.

MEDAL FOR RESCUE.
The Humane Society medal awarded to Charles Boutiller, an engineer on the Lake Erie and Northern Railway, for rescuing at Pleasant River station a 2-year-old babe from in front of his engine, will be presented at the regular meeting of the city council on Monday evening.

CAPT. LOWRY HOME.

Capt. (Ret.) L. P. Lowry, formerly curate at St. Joseph's Church, has returned to the city from overseas service, and is being warmly greeted by many friends. Capt. Lowry went overseas in 1916, and while serving in France was wounded in the leg. He went back to England, and had been on duty there until he returned to Canada. The decision of the Government to release from jail all soldiers under sentence for breaches of the O. T. A. will be met in Stratford, according to Chief Lannin. The chief stated that there were neither soldiers nor civilians under sentence here for breaches of the temperance act.

PARLIAMENT'S PAY.
Canada's public men are always about as well paid as their own country is well served. The ability to produce better service is the only acceptable basis of a claim to better pay at Ottawa.

BOY CONFESSES TO MURDER FOR WHICH DOCTOR GOT BLAME

Talks After Convicted Man Has Committed Suicide.

WILKINS CASE REVIVED

While Authorities Disbelieve Lad's Story, It Will Be Sifted.

FREEHOLD, N.J., July 16.—Whitely grand jury in New York was indicting Edward O'Brien, 20 years old, for the murder of Gardner C. Hull, a Manhattan stationer, the youth boasted today about his crime to fellow-prisoners in the county jail here.

Not only did he tell the details of the brutal attack upon Mr. Hull, but he assumed responsibility for the killing of Mrs. Julia C. Wilkins, for whose murder her husband, Dr. Walter Keene Wilkins, was convicted and afterwards committed suicide in the jail at Mineola.

The police profess to place little credence in his confession of the Wilkins murder, however. They declare their belief that young O'Brien is revealing in the notoriety he has gained and simply is seeking to make the prisoners here think he is a "bad man."

Although the authorities are skeptical about O'Brien's confessed connection with the murder of Mrs. Wilkins, they will sift his story carefully. A strange series of facts has connected the Wilkins case with the Hull murder. August Deppisch, a former clergyman, and a partner of Mr. Hull, was a friend of Dr. Wilkins, and called upon him in his cell the afternoon of the day he hanged himself. Dr. Wilkins was also acquainted with the murderer of Mrs. Wilkins, and that he was innocent of the crime of which he was convicted, and maintained stoutly that his wife was slain by two burglars whom they found ransacking their home.

He left for Toronto this afternoon. After his liberation he declared in an interview that he was not guilty and that he intended to seek redress.

NEW MAGIC WITH OLD CLOTHES TO HELP BELGIAN REFUGEES

Interesting Discoveries and Humanitarian Service During War May Have An Important Part In Peace.

Destitution and suffering among the French and Belgian refugees did not cease with the ending of the war. Realizing this fact, Mrs. Thomas F. Walsh of Washington intends to continue, for at least five years longer, the remarkable order of relief work in which she has been engaged. This work, which is no unique in its nature, was largely originated by Mrs. Walsh. It is also a nature very suggestive to women who have to exercise great economic ability in helping to provide for their own families. For, like all work that relates itself to the practical benefits of life, it has grown into larger phases than its

originator could foresee. More adequately to realize its scope one must know something of the remarkable personality of Mrs. Walsh.

A Happy Inspiration.

Mrs. Walsh passed the winter of 1917-18 in New York, devoting herself to the opera, music and drama. While she was contributing generously to war needs in various ways, the idea of personal service had not occurred to her. Finding that the Red Cross was anxious to have Fisher's famous picture of the Red Cross nurse lithographed for sale, she paid for this work, and its wide sale brought in more than \$200,000 to the Red Cross funds.

which she is doing for the destitute can be done by every woman in her own household to the greatest advantage. This is simply the conservation of material; the transformation of cast-off clothing of all kinds, and of scraps and fragments, hitherto thrown away into useful and comfortable garments. Mrs. Walsh sends out circulars with the following appeal:

"Send old stockings,
Send old suits,
Send old skirts."

Kid Gloves Used.

The long arms of discarded kid gloves are utilized as lining for aviators' parkies, they are singularly impervious to cold as well as flexible and soft. Men's discarded shirts of silk or cotton make dresses for children of 4 years. Women's stockings cut into full length strips and pieced together make the most perfect "sweaters" for infants up to that for children of a dozen years.

Fragments of silk, brocade, velvet and "manufacturers' samples" make hoods for old women. These hoods are all lined and warm, and so pretty that the society girls of Washington laughingly beg them for motor uses.

For Soldiers, Too.

There are shoulder wraps for convalescent soldiers, ingeniously made to fasten without sleeves which might be impossible for a wounded man to get into, and they have hoods that are made into when the man is wheeled into the open air.

It is hardly possible to convey an idea of this work in its variety and extent to those who have not seen it. For instance, take a paid coat for a little lad. The Countess Isidore, charming Japanese ambassador, sent over a billiard table cover of the deep green invariably used, which was being removed to make room for a new one. Mrs. Walsh procured the black and white checked woolen material and lined the pinked edge of the green to be seen as the finish to the triple capes lined with it.

Another friend sent a red curtain that had been used on a houseboat. It was redyed in a plant that Mrs. Walsh placed in and basement and made effective as the brilliant border of bed coverings.

One of the leading hotels in Washington donated a mass of worn bed blankets which Mrs. Walsh had dyed a dark blue. These were made into sweaters, warm and lined, with fancy collars constructed out of some other scraps.

Stocking Legs Utilized.

The skirt and the "bloomers" of a dress for a little girl were made of stocking-legs. These garments have the same warmth and flexibility of jersey material.

Hundreds of garments a month are prepared for the destitute sufferers. Aside from contributions of cast-off clothing and other material, Mrs. Walsh purchases bales of goods for this use.

Little Stories of the Nations

Time's Astonishing Changes in the Groupings of the Earth's Peoples.

(By Albert Barrett Sayre.)

How France Rose From the Ashes of the Revolution.

During the reign of terror that engulfed France after the death of Louis XVI., and many of the nobles under the knife of the guillotine, one party after another struggled for supreme power. When one party fell the party that had wrested from it the power put its leading figures to death as they had destroyed the king. But before long a period of greater quiet was restored under the Directory.

In the meantime, however, France found herself at war with many of the powers of Europe. For kings began to be afraid that the example France had set would spread. In 1792 the emperor of Austria and the king of Prussia declared war on France, and directly after the king was beheaded France declared war on England also. Thus began the long wars of the French Revolution, in which every part of Europe had a share at one time or another, and which went on with few interruptions until 1815.

During these forty-five years of almost unintermitted war in Europe, there were several divisions of wars or land formed kingdoms may be considered to have ended in 1797, when in the Austrian Netherlands, along the Rhine, France had a share in the conduct of the Italian campaign that Napoleon began to become famous.

Although like Robespierre, who was the most famous of the men of the revolution—Napoleon was a Frenchman only through annexations France, Italy that forced the Austrian emperor to give up the Netherlands to France. Also Piedmont and Savoy in Italy were taken by France.

This is an example of the way in which things went on during the whole time. In the territory was sometimes added to France, sometimes the countries were made into separate states, each with its own king, but which were altogether dependent upon France. But so far as the old republics were concerned they were

Good Night Stories

JIMMY MEETS SOME QUEER NOSES.

Jimmy's feelings were terribly hurt. The boys called him freckled-face, turned-up nose, and the girls always started talking among themselves when he came near, and most every day Jimmy went home from school with a bad and good cry on his Mamma's lap.

"Mamma loves that little turned-up nose so don't you worry dear little boy," his Mamma would say. But some way Jimmy did worry, and one day when the boys had teased more than usual, Jimmy turned off the great big nose into the woods and got away from their cries. He sat down on the bank of the stream and leaned over so he could see his reflection in the water below.

There, gazing at him with a sorrowful face, was a freckled-face turned-up nose little boy. Jimmy's own face and on, it looked so ugly. The tears started to Jimmy's eyes and rolled down his tanned cheeks.

"It's bad enough with freckles, but that old turn-up nose," and Jimmy began to cry in earnest when a rustle in the grasses made him look up. There smiling at him from the bank at his side stood his little friend, Squeedee.

"Why, what in the world's the matter now?" he asked in his squeaky voice. "Why, if I weren't over my looks, I'd be crying most of the time, and Squeedee gazed at his reflection in the water and laughed.

"But you haven't a turned-up nose," sobbed Jimmy wiping his eyes on his coat sleeve, "and the boys—"

"I don't give them a chance," replied Squeedee. "What would you do if you had a nose like some of my friends that is right down under their very water? Just come along with me and I'll show you a few queer noses, yet none of them seem to mind the least bit sorry for themselves," and before Jimmy knew what he was about, he was sailing through the water beside Squeedee.

"Talk about queer noses," whispered Squeedee, "look at Mistress Pumpkin-seed's!"

Jimmy laughed as Mistress Pumpkin-seed sailed by. True her nose was turned up so far she came very near not having any at all.

"Well one thing is sure," laughed Mistress Pumpkin-seed gayly, "no one can say my nose is ever poking in other folks' affairs. It's too turned up. But I'm proud of it just the same. Now look at Mr. Pipe-fish's nose. Why, it's half as long as his whole body and slim and hard. All he does is meddle in other folks' affairs." and Billy Belong-fish with a nose shaped like a bellows.

"Yes, and Mr. Sturgeon!" exclaimed Squeedee, "his nose is so much like a shovel that some folks call him the shovel-fish."

"Then his cousin, too, Sturgeon Spoon-bill," laughed Mistress Pumpkin-seed, "his nose runs out in a long horny plate like a paddle or a spoon. No, I'd rather have my own turn-up nose than any of them."

"But do your friends ever make fun of you?" asked Jimmy. "Mine do." "Because they know they can tease you," replied Mistress Pumpkin-seed. "What folks call you will never hurt you if you're good and kind. The thing

They call me Pumpkin-seed, because I look like one, but that doesn't make me one. And flipping her pretty tail, Mistress Pumpkin-seed darted under the rocks and the next thing Jimmy knew he was sitting on the bank alone. He thought over what Mistress Pumpkin-seed had said and decided after all his nose wasn't as bad as it might be, and jumping up he ran home.

His nose and freckles never bothered him any more, for Jimmy took Mistress Pumpkin-seed's advice and was so good and kind folks forgot all about his turned-up nose.

ORIGIN OF THE WEDDING RING

The God Prometheus who, according to the mythology of the ancient Greeks, was the founder of civilization was said to be the original inventor of the ring. So much is attributed to him that we can well believe his inventive powers could easily be utilized for giving the wedding ring its present significance.

But, however this may be, we can fall back on the fourth chapter of Genesis, where we are told that Tubal Cain forged "every cutting instrument of brass and iron," and Tubal Cain gave the ring to his son that with this symbol he should espouse a wife.

Thus the wedding ring has come to be regarded as absolutely essential for every marriage contract, and no one would think of going through the solemn ceremony without the aid of the magic ring.

Wedding rings have been made of various materials, and, though metals have been usually employed, leather has sometimes taken their place.

In the olden days gold was little used; and silver, which had replaced iron and copper and brass, was common. When the ring happened to be lost, various substitutes have now and again been utilized. Even in higher circles strange things sometimes happened. It is said that at the wedding of the Duke of Hamilton the clergyman used a brass curtain-ring to signify the completion of the ceremony; and one case has been known, in the absence of an orthodox

Willard the Jokiest of All Ring Champs

Menke Says Big Jess Was Just an Amateur, and Fought Like One—Was Dullest Champion the Prize Ring Has Ever Known.

[Written for The Advertiser by Frank G. Menke.]

Through the years the writer has contended that Jess Willard never was a real fighter, and that he was the jokiest champion of all time. And now the sporting world in general admits that Willard's awful showing against Jack Dempsey proved it conclusively.

Willard never whipped a good man in his life—and a lot of ordinary performers did not beat him. He was a manufactured fighter pure and simple who got into the game merely for the money that was in it, and who was piloted through to the championship by some cunning managers. Willard was lucky to get a fight with the aged Jack Johnson just at a time when the negro was so far gone that a good middle-weight could have whipped him. Yet some folks construed Willard's victory then as a "great triumph."

Willard fought like an amateur against Johnson—and he never fought otherwise in his life. He couldn't be cause he was nothing more. Only his great size, his poundage and his reach were assets. Yet, big as he was, old and worn out, and fat and flabby as was Johnson, it took Willard 26 rounds to win—about the same as long as Jack Dillon or Mike Gibbons would have required.

The cry that Willard won the fight from Johnson through a bit of jollying in Havana now has been revived since Dempsey showed up Willard to have been a flaccid performer of amazing inability.

Why Did People Back Jess?

Just why so many persons—before July 4—figured Willard invincible and backed him with their bank roll is one of sportsman's greatest mysteries. Any one who analyzed Willard's career could have found all needed evidence to the contrary. All he had was great power in an uppercut. But what was that to a man to have uprooted power sufficient to knock off the head of the Statue of Liberty, if he can't land that punch?

Willard at his best was only an ordinary fighter's work. He had never emerged beyond the second or third rate class if it had not been for the dull and slow progress of the fight with Tom Jones and Jack Curley, who piloted him to the top. They picked his way for him, and it was those two men who

engineered the deal that brought him a fight with Jack Johnson.

Moran Bout a Good Tip-off. The comparative showing of Jess Willard, 6 feet 7 inches, and 230 pounds, against Frank Moran, 5 feet 7 inches, and 170 pounds, had been the best "tip-off" in all the world that Willard was a joke—and nothing more.

Willard in 1916 outpointed Moran—yes; but not by any really wide margin. Moran put up a good fight, and forced Willard to give his best. Willard cut loose with all of his big guns, but Moran was on his feet at the end of ten rounds, but little worse for the wear and conflict with the giant Kansan.

About three months later, Moran fought Dillon—a man a foot shorter and nearly 90 pounds lighter than Willard. And this midweight Dillon gave to Moran one of the wildest beatings a heavy-weight warrior had been accorded up to that time. Dillon cut Moran almost to ribbons; had him bleeding like a fellow who has tried conclusions with a racing auto; had him staggering and groggy, and backed on to the ropes times without number.

COMING WEEK MAY SEE MANY UPSETS IN MAJOR LEAGUES

Reds and Giants, Fighting For Top Place in National, Have Hard Games Ahead.

NEW YORK, July 16.—The coming seven days may have a greater bearing on the decisions in the pennant races of the two big leagues than any other period in the schedules.

Tomorrow the Cincinnati Reds move to Brooklyn and the Cubs pay a visit to the Polo Grounds. If the Giants are to be displaced by any kind of a slip placed between them and the club just upsets them it appears the job must be thoroughly done right now. The Cubs and the Reds are the strongest rivals. Provided the Giants can shoulder their way past these two obstacles the way to a pennant is reasonably clear. The Reds follow the Cubs at the Brush Stadium.

White Sox Have Tough Series. Washington, which has been traveling at a pretty fair clip, takes on the White Sox in the next set of series, while the Yankees will move to St. Louis. If the Yanks have recovered, as seems indicated by their reversal and defeat of the Tigers yesterday, they should at least break even with the last-stepping Browns, and then will come the big blow-off at Chicago, next station for the Huggins' hopes.

In 1917 the Red Sox and their white-headed rivals fought a series of neck and neck, it looked as though one or the other of the clubs might give up earlier in the season, but they crossed the experts and fought it out to the last line of defenses. That is unusual. It seems hardly likely that the Yankees and White Sox of the Reds and Giants will step along dedicated for a long period. One, it appears, must lag.

The time for the Sox is here. If it is not put over right now the sweetest races either league has seen for some time will be on.

THE HOUSEKEEPERS' BUYING GUIDE

Our Consumers' League

BY ISABEL C. ARMSTRONG.

Wanted--A Probe

What has become of the high cost of living committee of the city council? It was a group of housewives who raised the question the other day as they discussed the eggs selling on the market the middle of July at 39 cents a dozen; of berries at 30 cents a box; and of the price of all the necessities of life. It was a group of housewives, or, to be very exact, half a cent a pound for frozen water.

"It takes 50 pounds to fill the ice box of my refrigerator, and that means about a dollar a week for ice alone," said one housekeeper.

"They are investigating the high price of ice at St. Thomas or some place like that," I saw in the paper the other day," said another, "why can't they do something of the kind here?"

And a third said: "Yes, appoint a civic commission and, after getting

to for themselves is to get more money to pay their bills.

More Money? Bigger Bills.

Of course, when prices will continue to advance, people require more money to pay them. And every time they get a little more money, then the prices take a little further jump.

A woman recalled not long ago the first pie she ever attempted to bake. She was quite a small girl when one day by chance she had the joy of being left alone in the house. She would bake something and taste it, and she found it was a good thing. She knew how to do that, anyway. She would try pie. She took some flour and mixed in some water. It was too soft, so she stirred in more flour. That was all right, until she added more water. She never could seem to get it right, until, to her dismay, she found she had used up about half a small bag of flour, and was vainly endeavoring to turn a crock-full of a sticky mixture into anything at all like the pie-crusts she had seen her mother or the "fried girl" roll.

An Unwieldy Mess.

And so the mix-up of wages and living costs makes more and more unwieldy, and all the time nobody seems to be taking any scientific interest in the results, in the service of the public.

The canker of high prices is causing people to act restlessly. Apply a little salve. It will give temporary relief, anyway. And so, people talk and protest, and nothing really constructive happens.

Other places, not so big as London, can puncture unduly inflated prices by going definitely after the trouble in an efficient manner.

Why can't London?

The high cost of living bug-bear hit the Canadian West long before it did Western Ontario. In Calgary they had a high cost of living committee in connection with the Local Council of Women, which undertook such a radical and effective campaign to battle with the bogy, that it evolved into a "Consumers' League."

And they battered the prices right down, even if it did involve a lot of work and determined effort. They simply knocked proffering merchandise off their league map by shipping in lines of goods for which abnormal prices were demanded and disposed of these among themselves, the hundreds of members of the Consumers' League.

To Clear Away Suspicion.

Perhaps the London high prices are legitimate, and perhaps this is a place of beautiful ideals where nobody dreams of playing profiteer. Isn't it worth a good, big effort to establish this fact? Unfortunately, it isn't true, shouldn't it be shown up where folks are being obliged to pay more than is necessary for the necessities of life?

A commission that did its work thoroughly and fearlessly would doubtless accomplish a great deal in clearing the names of innocent business people from suspicion of extortion.

It is the old story, innocent people do not need to fear a policeman, and just the revelation of their methods.

Ald. Little expressed the view that the fact that Ald. Harley and Ald. Wilson had agreed on any subject made the report worth framing.

One of the "anti" shoe dealers present expressed the view that, if something were done immediately, any action which might be decided on would be too late to permit of rescinding the early-closing bylaw adopted by the council at the last meeting, and which is to go into effect on July 27.

Mr. Baker replied that he would call the meeting within the next few days, and stated that, if the petition against early closing were found to be sufficiently signed, instructions could be issued not to enforce the bylaw until such time as the council could have had an opportunity to rescind it.

A report from a special committee composed of Ald. F. R. Harley and W. A. Wilson, who were appointed by No. 1 and 2 committees respectively to look into the recommendation of Ald. Harley that an advertising arch be erected as the external extremity of the city on Dundas street, submitted a report recommending that the matter be referred to the council of 1920 with a proposal that provision be made for arches in the estimates of next year.

The report was signed by both the members of the special committee, and Ald. Little expressed the view that the fact that Ald. Harley and Ald. Wilson had agreed on any subject made the report worth framing.

PINE RIVER CHURCH CALLS REV. MR. GOMM

Mr. Gomm was pastor at Dunganston for many years before taking the pulpit at Blackstock two years ago. He is a specialist in young people's work and music, and was a chorister in a large choir in England when a boy.

Wm. Rivers attended the funeral of his father, Samuel Rivers, at Goderich recently. Mr. Rivers was in his 78th year, and was a native of England, but came to this country when a boy of nine. He lived for many years in Teeswater, before going to make his home with his son, Albert, who lived for a number of years near Dungan-

non, and later at Goderich. His wife died three years ago.

SAYS BITRO-PHOSPHATE IS BEST THING FOR THIN, NERVOUS FOLKS

Dr. Frederick Koile, Editor of "Physician's Who's Who," Says It Should Be Prescribed by Every Doctor and Used in Every Hospital.

Remarkable Substance Creates New Flesh, Strength and Energy in Two Weeks Time in Many Instances.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and sold by druggists everywhere under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric acid elements, bitro-phosphate should produce a welcome transformation of the appearance; the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 23 and 27 pounds, respectively, through the ad-

ministration of this organic phosphate; both patients claim they have not felt so strong and well for the past twelve years.

Increase in weight usually carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should disappear, dull eyes ought to brighten and pale cheeks glow with the bloom of perfect health.

Physicians are now recognizing its merits by its use in ever increasing quantities. Frederick Koile, M.D., Editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Miss Josephine Davis, reporting her own experience with bitro-phosphate, says: "It is remarkable what it did for me. After a few days I began to regain my strength, felt full of life, was able to sleep soundly and all my little troubles seemed to disappear. I gained twelve pounds in four weeks."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anaemic, or run-down take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

CAUTION.—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those who are taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

NO QUORUM PRESENT; ONLY SMALL MATTERS ARE AT TENDED TO

Big Meeting Slated For No. 1 Committee Does Not Materialize.

No. 1 committee of the city council was slated for a big meeting yesterday afternoon, the orders of the day being the consideration of the petitioners to be dealt with, but no quorum was available, and as a result only the small matters were taken up.

The committee's report on these matters will be submitted as a minority report, subject to the council's approval.

Ald. E. S. Little and Ald. F. R. Watkinson were the only two members of the committee who put in an appearance, and as a result three deputations which attended to present their views in connection with early closing were sent away without having been heard.

The chairman, Ald. Little, explained to the council that he had no authority to deal with the questions which they were there to discuss.

One deputation was present to support a petition to rescind the bylaw authorizing early closing of shoe stores. Another represented local barbers who want early closing, and another those who are against the innovation. Both these parties had previously presented petitions. City Clerk Baker's suggestion, which was adopted, was that the matter should be referred to him and the chairman, and he would call a meeting at as early a date as

possible of all the parties interested, and that the whole question could be threshed out at that meeting.

One of the "anti" shoe dealers present expressed the view that, if something were done immediately, any action which might be decided on would be too late to permit of rescinding the early-closing bylaw adopted by the council at the last meeting, and which is to go into effect on July 27.

Mr. Baker replied that he would call the meeting within the next few days, and stated that, if the petition against early closing were found to be sufficiently signed, instructions could be issued not to enforce the bylaw until such time as the council could have had an opportunity to rescind it.

CROPS SUFFER IN WEST SAVE FOR MANITOBA

Government Review Shows Serious Situation.

TOTAL FAILURE IN SPOTS

Early Frost, Drought, High Winds and Cut Worms Work Havoc.

WINNIPEG, July 16.—As a result of the present crisis in the cattle industry in Alberta, where there has been a total failure of hay and other fodder crops, leaving, according to reports, approximately 110,000 head of cattle without food, the Manitoba department of agriculture has decided to purchase between 20,000 and 30,000 head from the farmers of this province.

OTTAWA, July 16.—The Dominion Bureau of Statistics issued today the revised estimate of the areas sown to spring grain, potatoes and hay, an estimate of the area sown to late crops, and a statement of the condition of grain, grass and potato crops. The estimates, both of area and of condition are compiled from the returns of crop correspondents on June 30.

For all crops, excepting rye, the areas now estimated are larger to the extent of one or two per cent. than those reported a month ago, as applying to the end of May.

The total area under wheat is now estimated to be 17,232,370 acres, spring wheat occupying 6,484,520 acres, and fall wheat 797,750 acres, or 31 per cent. more than last year's harvested area.

The area sown to oats is placed at 14,154,150 acres, or 0.3 per cent. less than last year.

Barley is 3,017,920 acres, 4 per cent. less; rye, 276,270 acres, 2 per cent. more; peas, 213,233 acres, 10 per cent. less; mixed grains 886,025 acres, 4 per cent. less; hay and clover, 10,662,870 acres, 1 per cent. more, and alfalfa 166,733 acres, 0.16 per cent. more.

The Prairie Provinces.

In the three prairie provinces, the estimated area under wheat is 17,232,370 acres, comprising 2,929,100 acres in Manitoba, 3,772,000 acres in Saskatchewan, and 3,531,270 acres in Alberta; under oats 9,561,000 acres, comprising 1,715,000 acres in Manitoba, 5,088,000 acres in Saskatchewan and 432,000 acres in Alberta.

The average under late sown cereals and food crops for Canada are as follows, last year's final estimates being placed within brackets for comparison:

Buckwheat, 535,225 (548,097); flax, 1,000,330 (1,008,130); corn for husking, 239,050 (250,000); beans, 166,025 (228,577); potatoes, 712,655 (735,132); turnips, etc., 320,925 (343,067); corn for fodder, 487,115 (502,069). By percentage, the areas under buckwheat and flax are practically equal to last year, the areas under corn for husking and turnips, etc., are 4 per cent. less; potatoes and fodder corn are 3 per cent. less, and beans are 27 per cent. less.

Principal crops end of June indicate that for the fourth successive year the yields for Canada will be below those of the decennial average. In Saskatchewan, where more than half the wheat crop is grown, the situation at the end of June was very serious, the grain crops suffering greatly from drought, with high and dry winds.

Frost on June 1 did considerable damage, and barley and oats had in many instances to be re-sown. Heavy rains towards the end of June proved beneficial. A telegram received from the Saskatchewan department of agriculture brings the report up to July 14 as follows: Crop conditions improved during past two weeks. Early grain badly damaged by drought, but later sown will make an average crop. In the east central northeastern districts and in the northern part of the southeastern district, conditions are above average.

In the Regina-Weyburn district an average crop is expected. In the south central, the southwestern, the central, the west central and northwestern districts, the crops will be below average, and in some parts a total failure. In the south central, southwestern and west central districts both seed and feed will be needed.

Alberta Outlook Serious. In Alberta the wheat prospects at the end of June were very poor, all grains suffering from lack of moisture. Owing to drought and intense heat, the general outlook is very serious. Cut worms have also done much damage.

Throughout Manitoba, on the other hand, the weather has been very favorable to all crops, the rainfall as a rule, being plentiful, and on the whole wheat and oats are doing well.

Expressed numerically the condition for all Canada in percentage of the decennial average is as follows, last year's condition on June 30 being given within brackets:

Fall wheat 102 (71); spring wheat 90 (86); fall wheat 91 (85); oats 97 (91); barley 91 (33); rye 97 (83); peas 93 (99); mixed grains 91 (89); hay and clover 92 (87); alfalfa 95 (85); pastures 100 (88); and potatoes 85.

In Manitoba the condition of wheat is 100 as against 85 last year; in Saskatchewan 91 against 85, and in Alberta 85 against 83.

THE QUESTION OF THE HOUR

COMING DOMINION LOAN IS LIKELY TO BE TAXABLE AND DRAW HIGH INTEREST

[Canadian Press Dispatch.]

OTTAWA, July 16.—Preliminary preparations for the Dominion loan which is to be floated in the fall are under way.

Now that the war is over and financial conditions are more normal it is regarded as probable that the loan will not be tax-exempt, as were its war-time predecessors.

Should the Government decide to follow this course there is little doubt that the rate of interest yield will be quite attractive, compared with the rate at which Victorian bonds can be bought in the open market.

The tax exemption feature has added materially to the value of previous issues, and was, it is believed, the means of attracting a much larger volume of subscriptions than would otherwise have been obtained.

The terms of the new loan and getting the organization together for making it a success will be one of the first problems to be taken up by the minister of finance when he is appointed.

Principle Will Embark For Canada August 5

LONDON, July 16.—(Reuter).—Right Hon. Walter Long, announced in the House of Commons today that the Prince of Wales would visit St. John's, Nfld., and will thence proceed to a light cruiser to St. John, N.B., and Charlottetown, where he will re-embark on the Renown and proceed to Halifax.

British Government May Withdraw the Envoy to Vatican

Cecil B. Harmsworth Makes Statement in House.

LONDON, July 16.—The British Government is considering the question of withdrawing its envoy from the Vatican, said Cecil B. Harmsworth, under-secretary of state for foreign affairs, declared in the House of Commons today.

Mr. Harmsworth added that he had no confirmation of the statement made by Robert J. Lynn, Unionist member, who had questioned the Government, that "owing to the hostility of the Vatican to the allies during the war, the continued presence of the envoy was causing considerable resentment amongst many who had lost relatives in the war."

Mr. Lynn represents the Woodville division of Belfast.

OTTAWA IS FACING POSSIBILITY OF A GENERAL WALKOUT

Allyed Trades and Labor Association Wrathful.

SYMPATHY FOR CARMEN

Demand That the Minister of Labor Order Resumption of Conciliation.

OTTAWA, July 16.—Ottawa today is facing the possibility of a general strike following the action of the Allied Trades and Labor Association adopting resolutions supporting the strike of the street railwaymen.

The labor association has requested the minister of labor to order the board of conciliation to resume its sitting and his constitutional right to order the board to suspend operations is questioned.

Should the street railway strike develop into a general strike, six thousand men would be affected. This is not a manufacturing or industrial city. Some thirteen thousand people are employed in the civil service, or twice the number of unionized industrial workers. Hence no city of size in Canada would be less upset by a general walk-out, in the opinion of the employers.

The Typographical Union is expected, elsewhere, to stand by their contract, and the railway organizations would probably not participate.

A sympathetic strike vote, however, will be taken and the reason in the building trades and metal trades unions will be known Friday night.

The principal buildings under construction are the Parliament Buildings, Hunter and Booth blocks, and the new City Hall.

The company declines to take the men back if the 15 or more men engaged so far, and now operating the cars, are to be displaced.

TWO OF CREW DROWN WHEN BARGE SINKS CROSSING LAKE ERIE

INDORSE ALL AIMS OF LIBERTY LEAGUE

WINDSOR, July 17.—Indorsing the aims and objects of the recently formed local branch of the Liberty League, members of Walkerville and the Ford branch of the Great War Veterans' Association have sent resolutions to officers of the league expressing their determination to "do all in our power" to prevent the Lord's Day Alliance from stopping Sunday airplane flights.

The league plans to secure amendments to the Lord's day act, so that newspapers and ice cream may be sold on Sunday.

U.S. SENATE HAS NOT VIOLATED THE COVENANT

Bonar Law Expresses Government's View in House of Commons.

THE IRISH ISSUE AGAIN

Ireland Will Not Be Put On Program For Next Meeting of League Council.

LONDON, July 16.—The British Government does not regard the action of the United States Senate with respect to Ireland, or the acts in the same connection of other persons or bodies representing the American people, as in violation of Article X. of the league of nations covenant, said Andrew Bonar Law, the Government leader in the House of Commons today.

The Government, Mr. Bonar Law added, would not put the question of the future government of Ireland on the program for consideration at the next meeting of the council of the league of nations.

Article X. of the league of nations covenant, one of the most familiar and most discussed in that document, provides that the members of the league shall undertake "to respect and preserve as against external aggression the territorial integrity and existing political independence of all the members of the league."

The article further provides that, should there be any such aggression or "any threat or danger of such aggression," the council of the league shall advise upon which this obligation shall be fulfilled.

HOLY GEE, MY HEAD FEELS GOOD TODAY!

Pain Over Eyes Is Gone, the Headache Cured, Catarrh Relieved!

This is the Common Experience of Those Who Breathe the Vapor of

CATARRHOZONE

Remember this, Catarrh can never be cured or even relieved by a cough syrup, a spray, or a tablet treatment. Trouble is these remedies slip quickly over the sore irritated membranes, drop into the stomach and do little else but harm digestion. It's different with "Catarrhzone"—you inhale it. Every breath sends healing balsams to the inflamed tissues. Tightness, soreness and inflammation are cured by healing pine essences. The cough dies away, throat is strengthened, huskiness is cured. WESTERN ONTARIO PREPARES TO CELEBRATE PEACE DAY WITH PATRIOTIC PROGRAMS

Every City, Town and Village Will Do Their Bit Towards Making July 19 a Day Memorable in Canadian History.

Every city, town and village in Western Ontario is preparing to celebrate peace with demonstrative parades of returned soldiers, games, sports and holiday events. In many places the opportunity will be taken of making presentations and addresses to soldiers from the district who have returned from service overseas.

Residents along the shores of Lake Huron are arranging to burn a string of bonfires one hundred miles in length on the beach on Saturday night. The illumination is planned to stretch from Sarnia to Kincardine.

Holidays have been proclaimed by municipality officials in almost every town and village, and stores in most places will be closed, and the day will be given over to celebrating the official declaration of the end of the war.

SARNIA WILL MAKE JULY 19 GALT DAY.

SARNIA, July 16.—All arrangements for the celebrations are proceeding rapidly. Free transportation is being provided on the street railway for all dependents of fallen heroes.

Several prominent speakers have been promised to be present at the banquet in the city hall on Saturday night, rounding out a splendid social day.

In the parade to be formed on Sunday afternoon at the G. W. V. A. headquarters a special place of honor will be given to veterans of the South African and frontier wars of the empire.

GALT TO WELCOME HER WAR HEROES.

GALT, July 16.—The Galt civic reception committee is arranging for a public welcome to all of Galt's returned soldiers, and has decided to give a banquet on the evening of the holiday, August 4, to the veterans in the armories, and this will prove the feature event of the day's program.

POLICE SEARCHED HALF NUDE WOMEN IN 'PEG, IS CHARGE

Speaker Denounces N.W.M.P. at Guelph—T. and L. Council Demands Justice.

[Special to The Advertiser.]

GUELPH, July 16.—With three cheers and a "tiger," the following resolution was unanimously carried at a recently attended meeting held in Exhibition Park tonight under the auspices of the local trades and labor council, when Ald. Heap of Winnipeg addressed the people of Guelph upon the subject of the recent strike in that city.

"That this meeting of citizens of Guelph protest against the action of the Dominion Government in attempting to deport domiciled Canadians arrested in Winnipeg during the recent strike. Furthermore, we demand that all men held under the amended immigration act be given a fair trial by jury, which, we believe to be the inalienable right of every domiciled Canadian; and further be it resolved that this mass meeting demand that the Government immediately withdraw proceedings before the immigration board now in session in Winnipeg, and grant the men a trial by jury. A copy of this resolution is to be sent to the hon. member of the south riding of Wellington, to Premier Borden, and the minister of immigration and the minister of justice."

Search Half Nude Women. Ald. Heap reviewed in detail the history of the strike, and the part played in it by returned soldiers. He scored the citizens' committee, and the actions of the Royal North West Mounted Police in their methods of making the arrest of the members of the strike committee. "Wives and daughters of those arrested were roused from their beds, and in a semi-nude condition searched by the troopers of the R. N. W. M. P.," he stated.

He referred to Hon. Mr. Calder and Senator Robertson, whom he said passed responsibility from department to department, and before they interfered in the strike, consulted only with the citizens' committee. He stated before Senator Robertson ever reached the city, but paid no attention to the views of the 37,000 men and women on strike.

The crowd of over 400 men and women were enthusiastic throughout the two hour speech, and representatives of the Great War Veterans were on the platform, and spoke in favor of a trial by jury and in commendation of the new Government alien bill.

WEAK, NERVOUS CHILDREN QUICKLY GAIN STRENGTH UNDER FOLLOWING PLAN

Nervousness, just like weakness, is a hereditary predisposition. We inherit tendencies to disease just as we inherit physical resemblances. The strain of study, social duties, work at home—these all tend to make nervous troubles among children. No wonder that St. Vitus Dance, Epilepsy and constant headaches have become alarmingly common. Pale, nervous, listless young people are met everywhere. It is nothing short of criminal for parents to neglect signs of weakness in their children. By ignoring the slightest symptom of nervous or mental strain, you may condemn your child to lifelong invalidism. If any member of your family complains of headaches, fear of going into dark places, give them that wonderful tonic, "Ferrozone." Strength of body and mind, hardy nerves, ability to study with comfort, all the attributes of health quickly follow the use of Ferrozone. It establishes strength, color, endurance, vim—does this by filling the whole system with nourishment and tissue-forming materials. It's because we know the enormous good that Ferrozone will do, because we are sure every child and even grown folks will be permanently benefited, that we urge you to give it a trial. All dealers sell Ferrozone in 50c boxes, six for \$2.50, or direct by mail from The Cataract Co., Kingston, Ont.

If Enough Money Lucknow To Have Hydro; Otherwise No

LUCKNOW, July 15.—Residents and officials here have decided that if Lucknow is left with sufficient money after unravelling the electric light muddle in the courts, hydro-electric will be installed by power users in the fall. A suit has been entered in the courts in an endeavor to set the power company controlling the present power system and its subscribers rights. No collections have been made by the company for four months, but lawyers today are endeavoring to set the power company, to make collections until the status of the company with regard to the users is settled in court.

ST. THOMAS TO HAVE AVIATION THRILLS.

ST. THOMAS, July 16.—Ald. Brinkman is negotiating with Capt. White, D. S. C., to come here for the big celebration on Saturday. Ald. Brinkman states that the aviator will be here and citizens will be given a rare opportunity of witnessing the aviator loop-the-loop and perform other daring stunts in the air. Capt. White is a veteran of the war and an experienced aviator. He will, it is stated, take passengers up for short flight on the day of the peace celebration.

PEACE HOLIDAY IN CHATHAM MUDDLED.

CHATHAM, July 16.—The recent muddle here on the daylight saving question has muddled the mix-up over the peace holiday on Saturday. Half the merchants want to close all day, while the other half maintain that stores should be opened as a public housekeeping day. The scarcity of ice and the difficulty of keeping perishable goods over the week and in case of a holiday.

Veterans Plead For Release of Major Sharpe at Burwash

KINGSTON, July 16.—Army and navy veterans have asked for the release of Major Burwash of Major W. J. S. Sharp, formerly a casualty officer here, who is serving one year for desertion. The petition asks that Major Sharp be released on July 19, in view of the fact that he served overseas and contributed to the victory which will be celebrated on Saturday. The ill-health of Major Sharp is also a reason why the veterans ask for his release.

TRADES CONGRESS MAY REVOKE THE WINNIPEG CHARTER

WINNIPEG, July 16.—In the opinion of many union officials summary action by the Dominion Trades and Labor Congress is expected to follow the adoption last night by the local trades and labor council of the Calgary convention report, amounting to a declaration of the one big union project. The possibility of making the charter will be cancelled and formation of a new council comprising unions opposed to the congress was widely discussed in labor circles today.

SYMPATHY STRIKE ASKED BY CARMEN OF UNION MEMBERS

WINNIPEG, July 16.—Organized labor throughout the border towns will be called upon by the striking street car men Thursday night to strike in sympathy with them and their indications are that the border cities would be disrupted by a general strike by Friday morning. This action is the direct result of a statement issued today by the Ontario Railway Board, that the street railway was not in possession of the company, and the motormen lose their certificates to operate cars anywhere in Ontario.

CHARGE LUMBERMEN WITH PROFITEERING

CALGARY, Alta., July 16.—The Calgary Contractors' Association, at their annual meeting last night, sent a wire to Sir Robert Borden urging that a prompt and thorough investigation be held into the prices of lumber charged by the British Columbia Lumber Manufacturers' Association. They charged that there is profiteering, and that Canadian consumers are discriminated against, while the American buyers are favored. As a result, they claim, industrial discontent is being increased and work in Western Canada is being held up and business is badly handicapped.

NEW POLITICAL PARTY UNDER LLOYD GEORGE?

Winston Churchill Springs a Sensation in "Centre Party."

LONDON, July 16.—(Reuter Dispatch).—A sensation has been caused in political circles by the news that Colonel Winston Churchill, secretary for war, who has just returned from visiting Premier Lloyd George at Cleveith, delivered a speech at a dinner in the West End at which over a hundred members of the House of Commons were present in which he urged the necessity of a new and permanent political party re-christened the Centre party. The dinner was organized quietly and only became known when some of the diners returned to the House. It appears that Colonel Churchill, speaking as a disciple of Lloyd George, spoke for an hour, reviewing old political differences and emphasized the necessity for continued combination of the Moderates among the Unionists and Liberals in order to preserve what had been won in the war. Colonel Churchill insisted that co-operation was necessary in order to fight Bolshevism. The supporting speakers included the chief coalition Liberal and Unionist whigs. The lord chancellor referred sympathetically to the future of the labor party, but some speculation exists as to the new party's attitude of alliance or opposition towards the saner elements. The diners gained the impression that Lloyd George would lead the new Centre party.

Love Beats Law, Cop Arrives When Wedding Is Over

"You're Arrested For Elopement," He Says—Couple Smile—Already Wed.

CHATHAM, July 16.—When High Constable Peters rushed up to a couple whom he believed to be Miss Heness and her fiancé, James Henderson, and intimated that he intended to arrest them both on the complaint of Mrs. Heness of Harwich, who claimed that her daughter had eloped, the two only smiled. "You're too late," Henderson told the cop, "we're already married."

GOOD ADVICE FOR NERVOUS PEOPLE

WHAT WORN, FRAZZLED, UNSTRUNG, "JUMPY" NERVES REALLY NEED.

When you are rundown, out of sorts, tire easily, have lost confidence in your ability to do things, and ambition seems to have deserted you, it's a sure sign your nerve force has run down and that your nerves need a stimulant to restore to your system its old-time strength and energy, and bring back the good old pep that used to make you famous.

Leading drug stores in London and vicinity are selling a wonderful nerve remedy called Ferro-Pepine on a positive guarantee of satisfaction or money back. It's amazing how quickly Ferro-Pepine tones up the entire system, calms and steadies the nerves, and the generally unstrung nerves that come from excessive work, worry, lack of sleep or overindulgence in drinking, eating or smoking. They never fail to benefit. If you are blue and feel as though you didn't give a hang, or are cross, irritable and your nerves are right on edge, get a package of Ferro-Pepine right away. It comes 42 tablets to a box. Eat one with every meal for a few days, and see what a wonderful improvement they make in your whole nervous system.—Adv.

of Railway Trainmen in the Winnipeg district who participated in the recent general strike, which the brotherhood considers to have been illegal, will be expelled from the union, James Murdoch, vice-president of the organization,

said today. This policy will be maintained, he declared, even if it means the elimination of every lodge in the Winnipeg district. Definite action was taken in this connection Tuesday night, when 51 members of one Canadian Pacific lodge were

expelled. Some of these men had been members of the brotherhood for 25 years. They can in six months make application for readmission, and if permission is given by the grand lodge they can again become members of the organization.

DOROTHY DALTON IN 'OTHER MEN'S WIVES' AT MAJESTIC TODAY

Favorite Screen Star in Entertaining Photoplay.

Dorothy Dalton has an unusual part as Cynthia in "Other Men's Wives," the latest Thomas H. Ince photoplay to come to the Majestic Theatre for today, Friday and Saturday.

Cynthia is forced by necessity to agree for a stipulated sum to try to compromise a married man, so that his wife may have evidence to get a divorce, thus permitting her to marry the man whom she loves.

The unsuspecting husband wins her sympathy and then her love, and she is brought to a realization that she is about to injure a noble man. She wants to retract her agreement, but the other man, who would break up the home, has the whip hand over her.

How to escape the predicament is the living situation with which she is confronted. Her womanly courage asserts itself at the critical moment, and she solves the problem. To tell how would detract much from the interest of the picture. The story was written by C. Gardner Sullivan and directed by Victor L. Scherzinger under the supervision of Thomas H. Ince.

ALICE JOYCE

VIOLA DANA IN HER NEWEST PLAY, "SOME BRIDE," AT THE GRAND

Also Blanche Boyd in Singing Act and Screen Magazine.

"Some Bride," with dainty little Viola Dana as the star, will be shown at the Grand today, tomorrow and Saturday, daily at 1:45, 6:30 and 8:30 (standard time). Miss Dana is seen in the role of Patricia Morley, a young bride with "cast" behavior, who is the constant source of annoyance to her jealous husband, Patricia is fond of life and flirting, and is just a little bit careless of her husband's feelings.

That he is unduly jealous is true, but she goes a little too far when she allows another man to kiss her. The rift between the two widens until it almost reaches the breaking point when Patricia and her friend Victoria devise a plan whereby Henry, the husband, is given the lesson he deserves and is made to realize that he indeed has "some bride."

The play is brilliantly written and cleverly acted and gives an evening of real entertainment. The supporting cast consists of names well known to screen audiences and numbers such players as Irving Cummings, Ruth Sinclair, Billy Mason and Florence Carr.

Henry Otto and the production made under the personal supervision of Maxwell Karger, the Grand's general manager.

Vaudeville Feature.

A dainty singing act will be the vaudeville feature of this bill. Blanche Boyd, a charming young miss, who is the possessor of a sweet singing voice, will be the attraction. Her exclusive songs and excellent manner of delivery are sure to make her a great favorite with the patrons of the Grand.

Included on this bill will be a selected concert of the usual standard screen magazine. A special overture by Grand Opera Orchestra.

ENGLISH PICNIC IS DECIDED SUCCESS AT PORT STANLEY

Lengthy Sports Program—Large Crowds Have Enjoyable Outing.

The people of Beaconsfield always said: "The people of England are the most enthusiastic in the world. There are others more excitable, but none so enthusiastic," but any person visiting at Port Stanley yesterday on the day of the English picnic would have said they were both.

It was a jolly crowd that landed at Port yesterday shortly after the noon hour led by Mr. Ed. Smith, president of St. George's Society, dressed in his white suit, and sporting two little Union Jacks in his hat. Not in the history of the society has a more successful picnic been held. Clear blue skies, not too hot, and a splendid piece of ground on the beach, all helped to make it a splendid success. Every possible kind of race was held, so that no one would not have at least a chance of winning a prize. Every race was entered into with the real spirit of the Englishmen, and there were some very funny ones too. The English picnickers certainly provided a good deal of fun for visitors at the beach.

Feature contests.

The picnic contest was perhaps the funniest. Quite large raspberry pies had to be eaten, the one finishing first capturing the prize. It was hard to tell one kiddie from the other, when they had finished the pies, all of them having a very "jammy" appearance. Little bobbing currant buns were also eaten, and a large, and dipped in molasses was another contest which somewhat covered up the fact that the pies were eaten.

Another occasion that afforded amusement was when the picnic grounds were searched for the Englishman with the largest family present. Some time was taken to do this, but finally Mrs. Edward Ball, of 421 Ball Street, was found possessed of seven healthy youngsters, various sizes and ages, and the prize was hers. The prize was a 50-pound bag of Hunt's flour and \$1 worth of bread tickets.

After the egg and spoon race, one little youngster walked up to a committeeman and asked for the egg which had been used in the race. He immediately started to eat it raw. Of course this does not signify that it is a hobby of the Englishman to eat less the little tot seemed to relish it.

Race Schedules.

Special races for turned and convalescent soldiers were also run off. Another interesting feature on the program was the baby show, where there were some fine little bundles of humanity on exhibition, many taken expressly for the purpose of entering the show, all tied up with little pink and blue ribbons and in their most trimly little frocks. Swimming and dancing contests also proved a source of amusement for the large crowds.

All during the afternoon, a large refreshment booth provided goodies and drinks for hungry and thirst English picnickers. For those who preferred the quietness and a shady place upon the hill, the G. W. V. A. band played an excellent program of both popular and classic airs. The race results are as follows:
