## NEW KIND OF SQUIRREL

Local Sportsman Bags A  
Wonderful Animal In His  
Dr. a ns

### AN AWFUL EXPERIENCE

A local merchant, who is an enthusiastic sportsman, returned a couple of days ago from St. Luke's Club. He went out with the original intention of doing a little shooting at the ducks, but as they were not very plentiful during his visit he had to content himself with enjoying the scene, and emptying his shells on targets. Judging from the way he was hitting everything else, he would have come back with a good bag of game if there had been any ducks in sight.

There is little satisfaction in this, however, and since his return to the city he has been "very much to say" until this morning. "I had the most disturbing dream last night that I ever heard of," he told one of his friends while walking up town. "I dreamed that I was out at the club with a friend—namely, a popular King's street merchant—and we didn't have very much luck. There was nothing going—the birds were all wild. We were walking through a field when we caught sight of a squirrel running along a fence. I told my companion to fire. He did, and missed it. I then took a whirl, and I was right on. I killed that squirrel chock full of lead.

"Can you imagine my surprise and consternation when a wonderful transformation act commenced just as I was walking over to pick up the dead squirrel. It started to turn into another kind of an animal, and when I finally got to it I found that it was one of John Piggott's thoroughbred colts. "Here was a pretty fix. I knew John prized his colts, and they were high priced, too, and here I had killed one of them full of lead. I was just wondering how I would convince John it was an accident, and, worst of all, what would he think of my ability as a sportsman. "My friend and I finally decided that the only thing to do was to get the lead out of the colt. We took it to a place where there were some steam pipes and started to melt the lead. About half the lead had run out of the animal when the rabbit influence wore off, and I found myself in bed listening to my wife inquiring when I was going to go down to fix the furnace."

### BUYS BUNGALOW

Arthur Simmons, a salesman with the Holly, Mason Co., has purchased an attractive five room bungalow from Dorothy and Spaulding, the price named being \$2,650. The dwelling is located at 632 Maxwell avenue.

The bungalow has a full basement and is beautifully finished, having open fire-places built in the sideboards, and every modern convenience. Mr. Simmons has bought the property for a home. The deal was made through Dickson, Dunn and Larsh.—Spokane Chronicle.

Arthur Simmons is a former Chatham boy, who left the city about five years ago to make his fortune in the west. His many friends will be pleased to hear of his success.

## DEATH CAME WHILE WHITE SLUMBERED IN HIS BED

Dead Body Found By Fire-  
men—Foul Play Is  
Suspected

### INQUEST TO BE HELD

Unfortunate Man Said To Have  
Large Amount Of Money In The  
House

George White, colored, aged about 56 years, was found burned to death at his home on the corner of Scane and St. Patrick streets at 3.30 this morning. Foul play is suspected, and an inquest into the death has been ordered by Coroner J. L. Bray.

Firemen found White stretched on his bed as though asleep, when his burning home was entered this morning. He was quite dead, and the theory is that he was suffocated by the dense smoke from the fire. When the firemen arrived at White's home this morning, they found it wrapped in flames. Fire Chief Pritchard and Officer Jim Davidson of the police force, forced an entrance, and found the unfortunate man just as he had laid down to sleep the night before. He apparently had not moved. The bed covering was not burned, but the dead man's flesh was literally baked. This is the peculiar feature of the case which no one seems to be able to explain. If the heat were so intense as to cook the deceased's flesh, it seems strange that the bed clothes did not ignite.

The house in which White lived alone was a one story frame consisting of two rooms—a living room and a sleeping room. The fire had got beyond control when the firemen arrived, and the house was burned to the ground before the flames were extinguished. One theory is that the fire must have started from the stove in the living room. This stove was melted and twisted out of shape by the heat.

The remains are now at Jahnke's mortuary, and Coroner Bray has ordered an inquest to be held into the death at 7.30 this evening. It seems that yesterday White sold some property for \$150, but no trace of this or other money which he must have had in the house, White never had any money in the bank, it is understood. "It is my opinion," said Fire Chief Pritchard this morning, "that White must have kept his money hidden around the house somewhere. Perhaps it was burned, or it may be still hidden beneath the flooring."

"There are many peculiar stories going around about the affair," said Coroner J. L. Bray when interviewed by a Planet reporter this morning, "and I think an inquest should be held, to ascertain whether White really did meet with foul play or not. The inquest will be held at 7.30 this evening, but the Coroner's jury has not yet been selected."

The late George White was a familiar figure on the streets of Chatham. He usually wore a sort of kahki uniform with a broad brimmed hat, and he walked very erect. He was a rather striking looking individual, and for years had been looked upon as one of the city's landmarks. He was an enthusiastic member of the Salvation Army, and he was highly respected by all who knew him for his sterling honesty. He always had a kindly greeting for his friends, and he went about his own business without interfering with that of other people. In the earlier days, when railway locomotives had wood burners in their furnaces, White was one of the engine men at that time out cutting wood for the Western. He won the name of being the champion wood Sawyer of Western Ontario, and over his uniform he wore a medal won during a contest of this kind. Of late years he had hired out cutting wood for private individuals. He was very industrious, thoroughly reliable, and he had the reputation of always doing his work well. It is understood that he had amassed quite a sum of money. It is said that he never banked any, but no money other than 81 cents in change was found in his house.

The deceased was unmarried and lived alone in the little one storey frame dwelling on the corner of Scane and St. Patrick streets. He always kept his house and its surroundings as neat as a pin. He had his house surrounded by a high board fence, and during the day while he was out working he left everything securely locked up. It was rumored that he had quite an amount of money hoarded away some place in the little dwelling.

The inquest to-night will probably bring some new features to light.

### A TALENTED SINGER

One of the most interesting attractions at the Mrs. Cooper Benefit Concert, which will be given in the Brisco Opera House on the 30th of this month, will be Miss Lottie Byers, soprano, of Detroit. Miss Byers is one of Detroit's favorite concert soloists, and never fails to score a distinct success wherever she appears. She has a high soprano voice, well trained, over which she has wonderful control. Her appearance

MISS LOTTIE BYERS.

ance in Chatham will be a treat to lovers of the divine art, who appreciate good vocal music.

There are many other numbers on the program which will be of equal artistic merit, and the concert will no doubt be the musical triumph of the year, and as such it will be sure of unlimited patronage. The entire program will be announced in a few days.

### WANT A SPRAYER

Dr. McCully Of Cedar Springs Says  
San Jose Scale Is A Great Pest  
To Fruit Growers

A number of the fruit-growers in the vicinity of Cedar Springs are anxious to try spraying for the San Jose Scale. With this object in view they have corresponded with Hon. Nelson Monteith, Minister of Agriculture; P. H. Bowyer, M. P. P., and Mr. Putnam, of the Farmers' Institute Department, asking that the Government send a spraying machine and an expert operator to this section. The fruit-growers are willing to co-operate and pay the cost of the spraying. They believe that unless something is done at once to destroy the scale, fruit-growing in this section will soon be a thing of the past.

Dr. McCully, one of the leading fruit-growers of Cedar Springs, gives it as his opinion that there is not an orchard or garden in Morpeth, Ridgeway, or Blenheim, or anywhere between these places, that is not infested with the scale, and he believes that the Government should grant the request of the fruit-growers, to co-operate with them and try and destroy the scale. Some time ago a report was circulated through the press, purporting to be an official one, that the farmers in this section had abandoned fruit-growing largely, and were devoting their attention to growing beans and tobacco. This report, many of the fruit-growers claim, has done them much harm, as no buyers came to purchase their fruit this year.—Blenheim News-Tribune.

## WON'T LET HIM RESIGN

It Is Claimed That Hyman's  
Resignation Is Not  
Valid

### ASKED TO RECONSIDER

Ottawa, Nov. 24.—In the House yesterday afternoon, R. L. Borden asked if the resignation of Hon. Charles Hyman was valid, and whether he had given up his portfolio.

The speaker said the resignation was not valid. "Asks Him to Stay." Sir Wilfrid Laurier said that Hon. Charles Hyman had resigned as Minister of Public Works, but the Premier has asked him to withdraw it, as there was nothing in the revelations at Toronto bearing on Mr. Hyman in the slightest degree. Sir Wilfrid expects an answer at any time from Mr. Hyman.

### THE BONNIE BRIER BUSH

A genuine treat in dramatic offerings will be the appearance here of that delightful heart story of "Auld Scotland," "The Bonnie Brier Bush," at Brisco Opera House on Saturday and Monday, Dec. 1st and 3rd. It is an acknowledged fact that no play that has ever been produced in this country has got so close to the hearts of the great reading public as this homey simple story. The plot, which is well known to all who have seen the piece, is as follows: Lachlan Campbell, whose home and life are controlled by the sternest religion, turns his motherless daughter out upon discovering what he thinks is a sinful love for Lord Donald Hay. Remorse follows, and in agony he cries out for his lost "bairn." His great love for her overcomes his bigotted views, and when at last his daughter returns as the acknowledged wife of Lord Hay, he realizes his mistakes of the past and takes her to his heart again. The scene's framework is the same beautiful representation of Scotch glens and cottages seen here before, and were painted from photographs and sketches of the exact locality from which the stories were taken. The company is composed of players of prominence and will include many who have been identified with the cast ever since the first production. Among them are David Davies, Chas. E. Bloomer, Camilla Reynolds, Georgia O'Meara, W. Leonard Howe, Helen Warren, Robert Ireland, late pipe major of the 48th Highlanders of Toronto, Kenneth McKenzie, Annie Davidson and many others of note. The entire original production is carried and the company is fully up to the standard.

The woman who carries her age well shows the pride she has in it.

## MY SPECIALTY IS CHILDREN'S FEET

I have given the fitting of children's feet my personal attention ever since I have been in business. The result is I have got the children's trade in the city, and it is growing every day. There isn't a careful mother hereabout who does not come here as soon as she knows that I make a specialty of fitting children. ## SOCIETY

The staff of the Central school and the graduating class of 1906 will entertain the trustees and the parents of the pupils next Wednesday evening in the kindergarten room. The medals and certificates will be presented on this occasion by Mr. G. W. Sulman, Dr. McKeough and Mrs. Fred Stone. Owing to the fact that this year's class is the largest in the history of the school, more than usual interest is being taken. A unique program, given entirely by the graduates, has been prepared for the evening. Among other numbers are A Class Prophecy, by Hilda Rankin, and the Valedictory address, by Ross Taylor, the ten-year-old pupil who stood second in the Province of Ontario at the recent examination. Chairman Paxton, of the Public School Board, will preside.

The Model Class of 1903 will hold their annual At Home next Friday evening. The Model Class orchestra will make its first appearance on this occasion.

Mrs. William Pringle gave a small bridge party on Thursday evening. It was a very enjoyable affair.

Miss Surby, Baxter street, provided a very unique entertainment for the members of the William street Baptist church choir on Thursday evening. The first part of the evening took the form of a school. Each of the members of the choir went dressed as school children, and Mrs. Hoyt made a very clever and efficient teacher. The class was a very orderly one, but at times the teacher was forced to call for order and less laughter. After school was out, the scholars repaired to the play ground and were treated to a choral musical program.

Mrs. Falls gave two parties this week—a progressive euchre on Tuesday afternoon and a bridge whist on Thursday afternoon. Both were attended by a large number of guests, and were pronounced two of the smartest affairs of the week.

Invitations are out for an At Home, which will be given by Mrs. Stegman and Miss Helliwell on Friday next.

Mrs. William Anderson, Grant St., gave a card party yesterday afternoon. There were nine tables and the affair proved a very enjoyable one.

Miss Lucy McKellar and Miss Reva Stegman will give a reception at the residence of Miss McKellar on Thursday next. Invitations are now out.

## THE STAGE

### ANNOUNCEMENTS.

(Supplied to The Planet by Press Agents.)

At the Brisco Opera House—Painting the Town—Nov. 22.

"PAINTING THE TOWN."

"The Scene on the Roof," which is one of the unusual novelties offered by the Charles H. Yale Amusement Co. in the production of the new musical hurrah, "Painting the Town," is not only one of, if not the, funniest conceits ever presented, but it is also a triumph of stage mechanism. It is of the trick or instantaneous order.

The scene preceding this represents the connected dining rooms of the Folie Cafe. There occurs the most exciting chase after Hogan and Egan, the two Irishmen. Their pursuers, the police and others, closely press them, when Hogan discovers a fireplace in the room. Both agree to climb up the chimney to the roof and disappear up the fireplace. Their pursuers burst into the room. Instantly there is total darkness, and as instantly the lights are raised, showing the roof of the cafe. Hogan and Egan are seen climbing out of the chimney and down to the roof itself. From thence on they are victims to hard luck. Realizing that to escape their pursuers they must make a night of it on the roof, they arrange to do so, but are beset by every discomfort and inconvenience, all of the most laughable order. Finally, after a night of trouble, the police reached the roof, and in the chase that occurs, both Hogan and Egan fall through the stained glass dome of the cafe roof to the grand banquet room below. All these unusual effects are carried out in full view of the audience with detailed fidelity, the mechanical work being done from the safe dining room to the roof itself being without question one of the most notable effects ever offered the theatre-going public.

Date for Chatham is Wednesday, Nov. 28th.

### VIRTUE IN COPPER.

The Metal is a Death Dealer to All Disease Germs.

"Copper is a marvelous preventive of disease. If we returned to the old copper drinking vessels of our forefathers, typhoid epidemics would disappear."

The speaker, a filtration expert, took a copper cent from his pocket.

"Examine this cent under the microscope," he said, "and you will find it altogether free from disease germs. Examine gold and silver coins, and you will find them one wriggling and contorting germ mass. Yet copper coins pass through dirtier hands than gold and silver ones. You'd think they ought to be alive with micro-organisms. But no. Copper kills germs. Diphtheria and cholera cultures smeared on a copper cent die in less than two hours."

"They have many cholera epidemics in China, but certain towns are always immune. These towns keep their drinking water in great copper vessels. Travelers have tried to buy these vessels, for they are beautiful, but the villagers will not sell them. They have a superstition that their health and welfare depend on their retention. I wish all superstitions were as true and salutary as that."

### The Joke Was on the Students.

When Dr. Nathan Lord was president of Dartmouth college he used to drive about in a dilapidated, old fashioned contrivance. The students became tired of seeing the concern and, though Dr. Lord knew of this, he clung to the old calash. One night a group of the young men hauled the thing out of the shed where it was kept, took it several miles down the road toward Lebanon and hid it in a spot where it was concealed by dense foliage. They were just about to depart, well satisfied with the tiresome job, when the curtain which completely enveloped the front of the calash was suddenly pushed aside and the well known face of President Lord appeared. "Now, gentlemen," he said, "you may draw me back again."

### Homes Under the Ground.

In the salt district in Cheshire, England, the brine has been pumped so continuously out of the earth that the land has settled very considerably. The houses naturally sink with the earth, and in some of the streets in Northwich only the roofs are visible. The houses are inhabited, although the rooms are underground. In a great many cases additional stories have been added, so that by living in the upper rooms the residents may have some light and air. The roadways sink, too, but are kept up to the proper level by the government.

### He Laid.

"Don't waste your time in clipping off the branches," said the woodman to his son, "but lay your ax at the root of the tree." And the young man went out and laid his ax at the foot of the tree, like a good and dutiful boy, and then he went fishing. Truly there is nothing so beautiful as filial obedience. —Strand Magazine.

When a woman says she is sorry it is not always to be taken literally.

### The Difference.

Tell a woman her face is her fortune and she is complimented. Tell to a man that his cheek is his most valuable asset and he is likely to get mad.

He who reads only what pleases never grows very learned.

If you want to get all the good out of life—and know to the full the joy of living—build up the foundation of good health with a morning glass of

## Household Hints For Women

A Column Specially Prepared By The Planet For  
The Busy Housewives of Chatham and Vicinity.

### TEA AND COFFEE STAINS.

Place the stained portion of the linen over a basin and pour through it a strong solution of washing soda. If the linen is badly spotted it may be placed in a tub and as much boiling water, with soda dissolved in it, as will cover the cloth poured over it. Let this soak until the water becomes almost cold and then wash in the usual way. Put it to bleach in the sun or frost.

### MILDEW STAINS.

Moisten the stained fabric and rub it, thickly with soft soap sprinkled with finely powdered calcium sulphate or calcium oxide, or, if neither of these is at hand, common salt may be used. Place the fabric on the grass in the sunshine and keep it moist. A quicker way, if the material is white, is to dip it into a bleaching fluid, but the first way is less liable to injure the fabric.

### PAINT STAINS.

If the paint is wet and the material white, wash the stain with soap and water and boil with paraffin in the water. Then rub between the hands, using soap and hot water. Dry paint on white material can easily be removed by soaking the stain in turpentine, then rubbing it in the turpentine and washing in soap and water. To remove paint from colored material dip the stain in turpentine, and rub, place in a little ammonia and rub again, wash in warm, soapy water, rinse thoroughly, dry and iron when slightly damp. If there is a risk of making the material streaked, place the stain over a clean cloth, rub it with a cloth moistened with turpentine, then with ammonia, concentrating the rubbing as much as possible on the stain.

### GREASE STAINS.

Ordinary grease or grime stains on linen may be removed by rubbing well in hot water and soap before putting to soak. Machine oil may be removed by dipping the stains, when dry, in benzine and rubbing well until they disappear. Grease marks on colored material may be removed by placing the stained part over a cloth and rubbing it with benzine, beginning at the outside and working toward the center. Another method is to place a piece of blotting paper over the stain

and passing a hot iron over the paper.

### TO REMOVE OLD AGE STAINS FROM LACE.

Mix equal parts of milk and water, add a small piece of soap and a little borax. Put all into a white-lined pan and place the lace in the solution. Boil for a time, when the solution will become yellow. Remove the lace, wash it, rub it over with soap, bleach in the open air, wash and finish in the usual way.

### ENAMEL THE HOOKS.

All hooks used in the bathroom, kitchen or pantry should be dipped in enamel paint and thoroughly dried before being screwed in. Then there will be no rust spots, towels or cloths that are hung on them when damp.

Never wash chamois skins in hot water. Use cold water and avoid soap if possible. The skins clean very easily as a matter of fact. This applies also to chamois skin gloves.

### THE GAS STOVE.

In using the oven or boiler, light both burners a few moments before you are ready to bake or boil. Turn off the oven burners a few moments before cooking is finished, as the heat is retained in the oven several minutes after the burners are turned off.

Never use a large burner when a small one will do the work. Keep your stove clean. Wash top and inside pan daily, also the burners, greasing the latter slightly.

If the burners clog, clean them with a wire.

### THE REFRIGERATOR.

The refrigerator should be looked over often, and food that will not be used again should be removed at once. It should be cleaned thoroughly at least once a week with hot water and soda and then clear cold water. Wipe perfectly dry, and leave open often to the air before replacing ice or food. All food placed in the refrigerator should be covered, as one food is liable to communicate the flavor of another, as sliced cucumbers in the same compartment with butter spoils the butter.

Do you know you can keep parsley fresh for a long time by washing well, and putting in a glass jar with an air-tight cover?

## LORDS AND EDUCATION

The British Bill Passes Through The Committee Stage

### REVOLT IS THREATENED

London, Nov. 23.—On the ground that it contained the spirit of home rule, the House of Lords last evening struck out the clause in the education bill empowering the establishment of a central education council for Wales. The bill was then passed through its committee stage, after having occupied fifteen days in its discussion, longer than any other previous measure in the House of Lords.

As amended by the Upper House, the bill is wholly unacceptable to the Government and the majority in the House of Commons, who contend that it has become frankly denominational, since it requires that unless religious instruction be given to them, daily schools will be recognized as public elementary schools.

The Nonconformists are so incensed at the House of Lords' amendments that over a hundred Nonconformist members of Parliament already have signed a memorial, asking the Government to promptly reject all the amendments of the Upper House. This would mean a deadlock, and an inevitable conflict between the two Houses, which the moderates on both sides are anxious to avert.

In reply to a deputation of prominent persons yesterday the Archbishop of Canterbury professed himself anxious for a settlement on large and generous lines.

The House of Commons last night, without division, passed the third reading of the merchant shipping bill.

### A CHANGE NECESSARY.

Chamberlain Agricultural Commission Reports on Fiscal Policy.

London, Nov. 23.—Yesterday's publication of the report of the agricultural committee of the Chamberlain tariff commission marks an important stage in the British tariff reform movement. In all 2,250 farmers and agriculturalists from all parts of the kingdom, of all shades of political opinion, were examined.

The report, which is unanimous, concludes that a change of the fiscal policy is absolutely necessary, but if this change is to be permanently effective, it must be combined with measures for the reduction of railway rates, the enlargement of the present board of agriculture on the model of the department in Canada, and other colonies and some foreign countries for the further relief of local taxation and for the provision of further facilities for land purchase.

The committee recommends a duty with preference to the colonies on cereals and flour, giving advantage regarding the latter to British millers in the maintenance of restrictions as to the admission of Canadian stores.

### THE ENQUIRY ENDING.

Superintendent of Insurance Fitzgerald Felt Himself Tied Up.

Ottawa, Nov. 23.—The work of the insurance commission is drawing to a close, and it is expected that the public sittings will end to-day.

Mr. Fitzgerald, superintendent of the commission, engaged the attention of the commissioners all day yesterday. The principal object of his examination was to conclude some matters which were left unfinished when he was before the commission some time ago, and also to put in some correspondence relating to the enquiry.

In 1904 he had drafted a bill in amendment to the Insurance Act, but it had never been introduced. He believed certain amendments might be made, giving him wider powers. He had no power to say certain things should stop; all he could do was to send in a report to the Minister.

An adjournment was made until this morning. Mr. Shepley told the commission that the only other matters that required elucidation were those of the Foresters and Mutual Reserve of New York.

### NO COAL IN SASKATCHEWAN.

People There May Freeze Unless Relief Comes Soon.

Montreal, Nov. 23.—Hon. Walter Scott said yesterday that the people of Saskatchewan are facing the question of freezing to death.

"There is not a ton of coal in the province," he says, "owing to the Lethbridge strike, and the misery will be great unless the strike is settled right away. We must get fuel, no matter what it costs. Imagine, last week snow came, and it will lie. We must have coal, and will have to get it from Fernie, from the C.P.R. or wherever we can."

### Coal Company Wins Suit.

Montreal, Nov. 23.—The Dominion Coal Co. were advised by cable yesterday that the Privy Council had decided in their favor in the big suit arising out of the Cape Breton and Montreal collision. The Coal Company, by winning, saves over a quarter of a million.

### Paper Plant Shuts Down.

Utica, N.Y., Nov. 23.—Fires under the boilers in the Herkimer plant of the International Paper Co. have been extinguished, and the 90 employees have been notified that their services are not needed just now. Reasons for the shutdown are not given.

### Await Marching Orders For Morocco.

Gibraltar, Nov. 23.—Four companies of Spanish infantry, stationed at Algeciras, have been ordered to hold themselves in readiness to start for Morocco should developments in the situation there require the landing of foreign troops.

**All Household Roads Lead to Kitchen Work**

NINE-TENTHS of kitchen labor and worry is caused by ill-working cook stoves and ranges; by ranges that draw poorly; that have such complicated drafts that only a skilled mechanic can manage them; whose grates are so constructed that it is a strong man's work to shake them down; ranges which work well when the wind is in a certain direction, but act like a fiend at other times; ranges whose work is so unreliable that the housekeeper is in a constant nerve-racking worry lest the meals be late or the baking spoiled.

The Pandora range is built to make work easy, a child can shake it down; its drafts are so simple that one learns them in a minute; its heat is kept in the range so effectively that you can do a big baking and hardly know there is a fire in it two feet away; it keeps the kitchen cool; it saves you worry; it saves you time and money; it saves you backaches and headaches, because it is so easy to manage and so reliable.

The Pandora makes kitchen work easy.

## MR. BOWYER COMMENDED.

The report of the Government audit conducted by A. F. Falls, of this city, in the Township of Orford, serves to clear up a few things which have been going on in that Township during the past few years. If everything in this report is true—and no refusal of the charges therein contained have as yet been recorded—a thorough shaking up among the officials would certainly be in order.

One of the points brought out in the report is the justification of the stand recently taken by Mr. P. H. Bowyer, M. P., in a slight controversy with the Clerk and Reeve of that Township, over a tile drainage matter. Mr. Bowyer called the attention of the Reeve and Clerk to the fact that a sum of money was lying to the credit of Orford in the Provincial Treasury, and advised the Orford officials to apply for it, at the same time offering to see that it was promptly remitted to the Township Treasurer. This was before the audit was asked for at all. This provoked a slight controversy, the officials taking the indignation stand that they were capable of looking after the affairs of the Township, and that they knew more about this matter than Mr. Bowyer. This was Mr. Bowyer's thanks—for the officials—for the service he was trying to do both the Township and its officers.

The report of the auditor, however, shows that Mr. Bowyer's stand was well taken, and the ratepayers of the Township who witnessed the controversy will now see that he was acting with judgment and was in fact doing them a valuable service. That portion of the report dealing with this matter reads as follows:

"My criticism of the Clerk may appear to be harsh, but the facts are, that the affairs of the Township were fairly well conducted by him twenty years ago, and the careless and neglected manner in which he has performed his work in recent years, cannot be attributed to his ignorance or inability to properly perform the duties of the office of Clerk.

"The amount paid the Government in excess of that collected from the ratepayers—for tile drainage—is \$471.68. This sum is standing to the credit of the Township of Orford in the hands of the Treasury Department of the Ontario Government.

"The drainage by-laws have not been registered for many years."

## STOP IT, BOYS!

Some time ago, in the public press, the attention was drawn to the unmanly and unseemly conduct of a number of young men in the city who had fallen into the objectionable habit of congregating along the sidewalks in front of the local churches at times when the church was being dismissed. Young men of all ages could be seen any Sunday evening lined up in front of the churches for no other reason than to see the people departing from worship. Their actions were most embarrassing to the people coming out, and it was with difficulty that a church dismissal was conducted with any degree of order or comfort.

The attention of the police was brought to the matter, and for a time the young men were either inside the church or at some other point far away. The change was a welcome one to church goers—and the young ladies who went to church seemed to get home with just as much safety. Recently the practice has been renewed, and last Sunday it was in full swing. The young men were there, and were loth to depart, even when the churches were emptied. It is time for the policemen to renew their raids and a number of examples should be made.

This practice of blocking the streets, and of passing remarks about people in public places, is directly opposed to the law, and the offenders are leaving themselves open to severe punishment.

Some of the young men go to laugh and make sport, others out of mere curiosity, and some to meet their sweethearts, who are within—where the young men ought to be. It is a noticeable characteristic of these young lovers that they never get farther than the outside of the door. If they do not think enough of their girls to go inside with them, then they do not deserve a moment's thought from any young lady. It is true that they cannot chew tobacco or smoke cigarettes in church like they can on the street, but if they think enough of the girl to meet her at the church, they should be willing to forego a few of these worldly pleasures for her sake.

It is time the practice were made

FROM PLANET FILES OF HALF A CENTURY AGO

Taken from The Planet files from Oct. 7, 1865, to Oct. 12, 1865.

Arrangements were being made to give Lord Monek a cordial reception in the County of Wicklow, on his arrival home.

"The potato rot is developing itself to an alarming extent in some parts of the County of Essex—so much so, indeed, that some of the farmers will not much more than save the seed, if they do so much. The disease is so far confined to the banks of the river.

A woman named Elizabeth Wellwood, of Chatham, was brought before a Detroit Justice of the peace charged with smuggling, and held to bail at \$500. The American customs house officers were said to be becoming quite strict, and it was becoming very difficult to smuggle on a small scale.

"Boy lost—Left his home, third concession, Sandwich East, County of Essex, C. W., in the second week in August, a yellow boy named Edward Campbell, aged ten years. He was round-faced, and had full black eyes. Any person knowing anything about the boy will confer a favor on his parents by sending word to Mr. Israel Campbell, Windsor or Detroit exchanges please copy."

"Tea meeting—On Thursday, the 27th inst., a tea meeting was held at the Baptist Chapel, Louisville. The afternoon was very pleasant and the attendance was very good. The ladies of Louisville and vicinity had prepared a most excellent tea; tea was served a little after two o'clock. The whole party seemed to enjoy

unpopular by the police, and the sooner this is done the better it will be for the church goers, the good reputation of the Maple City, and also for the young men themselves.

## HE IS SATISFIED.

Under the heading of "An Absurd Story," the Ridgetown Dominion has the following to say of the Banner's story about a redistribution in Kent:

"So far as the people of this county are concerned, it was not necessary for Premier Whitney to characterize as 'rubbish' the story concerning 'redistribution' in Kent, which first appeared in the Chatham News, and then in the Toronto Globe as a special despatch from Chatham. The concocter of the yellow yarn is not even acquainted with the political geography of Kent. To say that 'Dresden is to be taken out of West Kent,' and that the loss to the west riding will be made up by the addition of Howard, which, it is said, Mr. P. H. Bowyer does not wish in his constituency at the next election, for political reasons," is the height of absurdity. Outsiders will recognize this when informed that Dresden is in East Kent, and that if Howard be added be West Kent Mr. Bowyer must go with it, as Ridgetown, where the latter resides, is in Howard township. Mr. Bowyer has not thought of, much less discussed, a redistribution scheme, and even if certain of running again, cannot think of one polling subdivision nor yet a voter he would part with."

If the towns of Western Ontario obtain and distribute the full quantities of electric power for which they have they have several advantages to the Hydro-Electric Power Commission, manufacturing production will be greatly stimulated at all these centres. The towns threatened on the wires of the Niagara transmission systems will be at a great advantage in the matter of manufacturing economy if they keep to products whose sources of raw material are not too far away. —Mail and Empire.

Buffalo newspapers have disclosed the existence of a systematized plan for luring Canadian girls to American cities by attractive advertisements and offers of employment at good wages. The girls secured are helpless in the hands of the plotters, and are made to live lives of immorality. The danger of such traffic is abundant warrant for giving the fullest possible publicity to this warning. Occasionally an advertisement for a young lady of attractive appearance to act as lady's maid or companion is in reality a part of this despicable plot, though it be innocently circulated by newspapers that do not suspect its nature. As a rule the Canadian newspapers are cautious, and exclude everything that awakens the slightest suspicion. But they may be deceived, and can only warn all girls and parents to be on their guard against pitfalls. The American newspapers circulating in Canada may also unintentionally further the work of the plotters.—Globe.

themselves very well. After ample justice had been done to the good things that were spread on the tables, the company went into the Chapel, when Christopher Arnold, Esq., of Dawn Mills, was called to the chair and opened the meeting with an excellent speech, after which the Revs. R. Dunlop, W. S. Hughan, G. Goodson and C. Tompkins addressed the audience. The speeches were good. The proceeds of the meeting were presented to Elder Tompkins, pastor of the church, as a mark of esteem and respect.

Edward Adams, who lived in Dover East, while cutting down a sapling, was struck in the back of the shoulder by a dead limb which fell from the tree. He suffered a severe fracture to the scapula, and other serious injuries. Dr. Sivewright was immediately sent for, along with Dr. Bray, did all that was necessary under the circumstances.

The Planet drew attention to a house famine in Chatham. There was a great demand for good houses at the time. Houses that would rent from \$80 to \$100 per annum were eagerly sought after, but at the time were unobtainable.

Mr. George Turnbull, fashionable tailor, advertised that he could give the best fit and style in the town.

Drs. Bray and Sivewright announced through the columns of the Great Home Journal that they had entered into partnership as physicians, etc.

A big Fenian demonstration took place in New York.

It was reported that Windsor was to be again garrisoned with troops.

## FAMINE HORRORS IN RUSSIA.

Peasantry Sell Women as Slaves—Hunger Typhus Breaks Out.

St. Petersburg, Nov. 23.—Reports from the famine districts of Russia show that the distress is steadily growing acute.

A form of typhus fever, known as "hunger typhus," resulting from starvation, has become epidemic in Kazan.

For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven that to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The worries of a weak and sick mother are only begun with the birth of her child. By day her work is constantly interrupted and at night her rest is broken by the wailing of the peevish, puny infant. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It lightens all the burdens of maternity, giving to mothers strength and vigor, which they impart to their children. In over thirty years of practice Dr. Pierce and his associate staff of nearly a score of physicians have treated and cured more than half a million suffering women. Sick women are invited to consult Dr. Pierce by letter free of charge. All correspondence is strictly private. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

## INTERNATIONAL S. S. LESSON FOR TO-MORROW.

Temperance Lesson—Isa. 5, 11-23—1. Kings, 20, 13-21.

Golden Text—I keep under my body and bring it into subjection—I. Cor., 9, 27.

The poor miserable slave of strong drink is described by this prophet of God, who wrote—700 years before the Lord Jesus Christ came into the world to save sinners—in verse 11, as just in the same misery and woe his successor in Chatham finds himself to-day, who wakes early with the coppers in his mouth and hastens to the nearest bar room open early. I once saw in the early morning a blind beggar on our market square praying the passers-by to lead him to a saloon. Isaiah goes on to say they continue late into the night with their music and drunken revelry and "have no fear of God before their eyes."

Verse 13—The prophet describes the classes and the masses as famished and parched with this consuming passion, as the hymn says, "They drink and drink and drink again, and yet they still are dry."

Verse 14—Hell itself has to be enlarged to contain the glorious drunkards that descend into it. Note the doom—verses 15-17—of the man, the great and proud men, who may have assisted each other in sin, as they stand before the just tribunal of a Holy God.

Mark how God cries woe five times to the sin in this lesson, yet He passes on heedlessly to destruction, while one who is an ox or mule from their owner would halt them at once, "for the ox knoweth his owner and the ass his master's crib, but Israel doth not know, my people doth not consider."—Isa. 1-3.

If the wretched prodigal, in the country, amongst the wine, will only come to himself and think of his Father's love and his Father's house and home, and "return unto the Lord He will have mercy upon him and to our God He will abundantly pardon him."

## THE OLDEST MAN IN AMERICA

Escaped the Terrors of Many Winters By Using Pe-ru-na.

"I Attribute my Extreme Old Age to the Use of Pe-ru-na."

Mr. Isaac Brock, 117 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 117 years. For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick cut from the grave of General Andrew Jackson. Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 117 years ago.

Born before the United States were formed.

Saw 22 Presidents elected.

Pe-ru-na has protected him from all sudden changes.

Veteran of four wars.

Shed a horse when 99 years old.

Always conquered the grip with Pe-ru-na.

Witness in a land suit at the age of 110 years.

Believes Pe-ru-na the greatest remedy of the age for catarrhal troubles.

IN speaking of his good health and extreme old age, Mr. Brock says: "After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so."

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 117 years I have withstood the changeable climate of the United States."

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds and diarrhoea."

"As for Dr. Hartman's remedy, Pe-ru-na, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy."

"It exactly meets all my requirements. It protects me from the effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine."

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease."

"I had several long sieges with the grip. At first I did not know that Pe-ru-na was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Pe-ru-na for la grippe and found it to be just the thing."

In a later letter, Mr. Brock writes: "I am well and feeling as well as I have for years. The only thing that bothers me is my sight. If I could see better I could walk all over the farm, and it would do me good. I would not be without Pe-ru-na."

Yours truly,  
Isaac Brock.

When old age comes, it brings with it catarrhal diseases. Systemic catarrh is almost universal in old people. This explains why Pe-ru-na has become so indispensable to many old people.

has been in Calgary for the past  
eight years.

A regrettable error occurred in the  
report of the Sullivan-Coatsworth  
wedding Thursday. It was stated  
that "Miss Emily Coatsworth acted  
as bridesmaid," when it should have  
read Miss Emily Murphy.

### TAR POT FIRES

The fire department was called out  
at 8.05 this morning to extinguish  
a fire in a tar pot belonging to the  
Warren Bituminous Co., on Head St.  
The damage was confined to the tar  
in the pot, which, of course, could  
not be put out.

A short time after two o'clock  
the department were again called  
upon to extinguish a burning tar  
pot belonging to the Warren Co.,  
near the bituminous works,  
near the G. T. R. depot.

The Chief says that there is very  
little use in calling the firemen out  
to extinguish these tar fires. He  
says the best way to turn the heat on them  
is simply mean that the fire  
would be scattered all over the vic-  
inity. This is the third fire of this  
kind that the firemen have been  
called out to in the last couple of  
days.

### THROUGH FOR SEASON

Pete Cowan, who represents the  
Shardon shoe in Western Ontario,  
has finished his season, and has ar-  
rived home for the winter. Mr.  
Cowan has had the most successful  
season he has ever had, and is highly com-  
plimented by his firm for the excellent man-  
ner in which he has introduced and  
sold the Shardon shoe through his  
territory.

"Tell you what it is," said Pete this  
morning, "you'd be liable to find a  
copy of the Planet in any town you  
happen to strike. I was surprised to  
pick it up in towns away east of  
here, and it does a fellow good when  
he is away for awhile to pick up  
a copy of the home paper. I dropped  
in the Norfolk House in Simcoe the  
other day, and the first thing that  
caught my eye was a copy of the  
Great Home Journal lying on the  
table. You know, Bill Cameron, who  
used to run the Royal Exchange  
here, is proprietor of the Norfolk  
House now. He is doing well, and he  
has certainly got a fine hotel. Bill  
says that he wouldn't be without  
The Planet for worlds."

### A UNIQUE ENTERPRISE

Those who are specially interested  
in mining matters will be particu-  
larly attracted by the new idea and  
method now receiving enthusiastic  
notice in the newspapers of the Do-  
minion. The idea is the value of co-  
operative and systematic prospecting,  
developing and investing, not  
only in the explored mines and pros-  
pects of the Cobalt district, but also  
in the still vast unexplored min-  
eral areas about and beyond Cobalt.  
The Cobalt and New Ontario Pros-  
pectors, Developers and Investors,  
Limited, a company carrying on  
these operations, has incorporated to  
the amount of \$500,000, with shares  
of the par value of \$100 each. Their  
method is really unique. The money  
in the Treasury of the Company is  
used to send out parties under the  
most expert supervision to explore,  
develop and take out options on claims,  
develop prospects for marketing  
mines, and buy and sell desirable  
mining properties. As was said, this  
is strictly a co-operative institution,  
carried on by business men and min-  
ing engineers of first-rate commercial  
standing and tried ability in the field  
of mining operations. The outcome  
of such co-operative work is inevit-  
able. The "lone prospector," or even  
two or three banded together, lack  
the money, outfit and system neces-  
sary to accomplish the best results.  
But where a company, strong finan-  
cially and perfectly equipped, and  
every one connected with it, de-  
voted to the one and the same end,  
the outcome in success and profit to  
the shareholders is bound to be phe-  
nomenal. The company has an ex-  
cellent and convincing prospectus,  
stating plans, methods and price of  
shares for sale. At any rate it is a  
strong presentation of a proposition  
that should greatly attract intending  
investors. The prospectus may  
be had by writing to the com-  
pany, at Manning Chambers, Tor-  
onto.

Myles McCarron, of Wallaceburg,  
was a city visitor yesterday.

The foundation work has been com-  
pleted on the new Dominion Bank  
building, and the workmen have com-  
menced the work of putting up the

# ABOUT LINENS

In a few days shopping will begin in earnest, and you  
will be wondering what you will buy for presents, and per-  
haps worrying a little just to know what to buy.  
There is nothing nicer or more useful than a nice piece  
of linen.

We would call your attention to our large and well se-  
lected stock of beautiful hand drawn work and fancy hem-  
stitched Doylies, Centre Pieces, Tray Cloths, Sideboard  
Covers, etc., Bleached Damask Pattern Cloths with Napkins

Windsor Board of Education is not facing the difficulties of School Boards in other parts of Ontario owing to the scarcity of teachers in the Province. In reply to the advertisement for a principal to take the place of Principal Eagle at the Douglass avenue school, 40 applications have been received. Amherstburg Public School Board advertised twelve consecutive times for a principal and received only two applications.

It looks much as though Chatham will give a big bid for Niagara power. Ald. C. Austin, chairman of the Industrial committee, is in correspondence with A. V. Bax, secretary of the Commission at Toronto, and has been informed by that gentleman that though there has not yet been sufficient applications made to warrant estimates being made for power west of London, it is possible that if Chatham and Windsor both apply that power can be supplied to both of the Western Ontario cities at reasonable prices. Here is a chance for Glencoe.—Glencoe Transcript.

Cattle Feeding Ruinous. London, Nov. 24.—(C. A. P.)—In the tariff commission report some Scotch witnesses, especially feeders of stock, meat salesmen and butchers, indicate losses brought about by the exclusion of Canadian store cattle. In the absence of such stores cattle feeding had been ruinous. Feeders on the east of Scotland say when the supply of Canadian stores was cut off twelve years ago cattle profits fell three pounds a head.

### ASTONISHED THE DOCTOR Mrs. Eaton Recovering, Although Her Physician Said She Might Drop Dead at Any Time.

MRS. ROBERT EATON me so. I was bothered with nervousness, shortness of breath, dizziness, loss of appetite, smothering and sinking spells, and I could not sleep.

"Sometimes a great weakness would seize me and I would have to lie down to keep from falling. My hands and feet would seem to go to sleep and a sort of numbness would come all over me and perhaps immediately after the blood would rush to my head and a series of hot flashes would envelop me.

"I took all kinds of medicines, but kept gradually growing worse until about eight weeks ago, when I began using Dr. Leonard's Anti-Pill. From the start I improved until now my appetite has returned, I can sleep well, and have no nervousness, dizziness, palpitation, faintness or any of my other troubles. They have all entirely disappeared. I feel much stronger, look better, and altogether Anti-Pill has made a new woman of me.

"I am entirely cured and cannot say too much for this wonderful remedy. I would most heartily recommend Anti-Pill to anyone suffering as I did."

## PARLIAMENT NOW OPENED

Weather Was Dull But  
Scene Was Bright In  
House

### PROPOSED LEGISLATION

Ottawa, Nov. 23.—Parliament was opened by his Excellency the Governor-General yesterday afternoon with all the time-honored pomp and circumstance. The day was dull, windy and rainy, but inside the Commons and Senate Chamber all was bright and festive. The speech from the throne was as follows:

Unparalleled Prosperity.  
Hon. Gentlemen of the Senate:  
Gentlemen of the House of Commons:  
In opening the third session of the fourth Parliament of Canada, I avail myself of the opportunity to offer you my congratulations on the unparalleled prosperity prevailing in all parts of the Dominion. The harvest has been abundant, and the trade with both British and foreign nations continues to expand in annually increasing volume, with every prospect of continued growth for many years to come.

The number of immigrants seeking homes in Canada continues yearly to increase, and it is very satisfactory to observe the larger proportion that in any former year has in the past season come from the British Isles.

During the recess following the last session I visited the Western provinces and was much gratified to note the great advance that is being made in the development of the vast resources of those highly favored sections of the Dominion. I found the people of the West rejoicing in their prosperity and full of hope and confidence in the future growth of its agricultural and industrial wealth.

Entitled to More Members.  
The quinquennial census recently taken in the provinces of Alberta and Saskatchewan shows that those provinces are now entitled to an increase in their representation in the House of Commons. A bill giving effect to that provision will be submitted for your approval. In accordance with the announcement made in a previous session you will be asked to consider a bill for the revision of the Customs tariff.

The sanction of Parliament will be required to give legal effect to the treaty made with the Empire of Japan. A bill for that purpose will be submitted for your approval.

The products and manufactures of Canada shown at the recent international exhibition held in the City of Milan proved a great attraction, and as a result, it is confidently believed our trade with Central and Southern Europe can be materially increased.

The naval authorities having relinquished the use of the dockyard at Halifax, a proposal was made to transfer it to the Government of Canada. This offer has been accepted, and the dockyard will now be used by the Department of Marine and Fisheries as a base for its operations in connection with aids to navigation. Many immigrants having in recent years been induced to come to Canada by false representations made in the United Kingdom, at the request of the Minister of Labor, a clause has been added to the Merchants' Shipping Bill now before the Imperial Parliament, for the punishment of any persons who may be found guilty of that offense.

Expansion in Revenue.  
Gentlemen of the House of Commons: The accounts of the past year will be laid before you. I am glad to say that the revenue has shown a large expansion, and has not only provided for ordinary expenditure, but has also to a great extent provided for the outlay on capital account.

The estimates for the coming year will be laid before you at an early date.  
Honorable Gentlemen of the Senate: Gentlemen of the House of Commons: A united application having been received by my Ministers from the Governments of the several provinces asking for an increase in the provincial subsidies, a conference was recently held when the reasons for granting additional aid were fully set forth and discussed, resolutions based on the conclusions reached by my Government will be submitted for your consideration.

Bills will be laid before you amending the Election Acts, the Postoffice Act, the Dominion Lands Act, a bill for the more effective supervision and inspection of Canadian canned food products, meats and fish, a bill relating to the sale and manufacture of patent medicines, and also a bill to make better provision for dealing with juvenile delinquents.

It is hoped that the report of the commission appointed to enquire into the working of insurance companies will shortly be completed when it will be laid on the table.

The subjects I have mentioned will, I hope, receive your best consideration, and the measures to be submitted for your approval will, I trust, tend to the well-being and good Government of our fair Dominion.

New Members Introduced.  
After the Commons had returned from the Senate Chamber, the introduction of new members took place.

First came Mr. Fielding, introduced by Sir Wilfrid Laurier and Sir Frederick Borden.  
Then followed John Tolmie, flanked by the Premier and Hon. Mr. Aylesworth.  
Mr. Demers (St. John's and Iles-de-la-Made), who succeeds his brother, transferred to the bench, had as sponsors Sir Wilfrid Laurier and Hon. L. P. Brodeur.  
Next, R. L. Borden had his innings, and assisted by Mr. Blain (Peel), presented David Marshall of East Elgin.  
Gerald White, who succeeds his father as the member for North Renfrew, was presented by Mr. Borden, with George Taylor on the other side.  
Mr. Robitaille, County of Quebec, entered the chamber between Messrs.

Mr. Speaker then announced that he had received a letter from the member for London, resigning his seat for the electoral district of London.

While the letter itself might be lacking in formality, he felt it to be his duty to announce its receipt to the House. The informality complained of is said to consist in the absence of a witness to Mr. Hyman's signature, an official explanation is expected to-day.

The debate on the address in reply to the speech from the throne is set for to-day. The mover and seconder will be Mr. Pardee and Mr. Demers.

Will Move Address in Senate.

Ottawa, Nov. 23.—It has been settled that Hon. Robert Jaffray will move the address in reply to the speech in the Senate to-day. The seconder will probably be Senator Ross from the west.

Is Disease a Crime?

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is, that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yes criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weaknesses, various displacements of pelvic organs and other derangements peculiar to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the cares, worry and labor to be borne by a large family, is often the cause of weakness, derangements and obliquity which aggravate the many household cares and the hard, and never-ending work which the mother is called upon to perform. Dr. Pierce's Favorite Prescription—says that one of the greatest obstacles to the cure of the class of maladies is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares and labor to enable her to secure from the use of his "Prescription" its full benefit.

It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his treatment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolapsus, anteversion and retroversion of the uterus or other displacement of the womanly organs, it is very necessary that, in addition to taking his "Favorite Prescription" they abstain from being very much, or for long periods, on any kind should also be avoided. As much out-door air as possible, with moderate, light exercise, or 50 stamps for cloth-bound.

### SENATOR KERR IS DEAD.

Death Followed an Operation at the Toronto General Hospital.

Toronto, Nov. 23.—Following a surgical operation on Tuesday, the death occurred in the General Hospital last night of Senator William Kerr, K.C., of Cobourg.

Members of his family were with him when the end came.

The late Senator was the son of the late Francis William Kerr, a native of Fermanagh, Ireland, who settled in Ameliasburg, Prince Edward County, Ont. Born in Ameliasburg, 1829, he received his early education at Newtonville, under the Rev. Dr. Ormiston (Presbyterian). Afterwards entering Victoria University, Cobourg, obtaining the degree of B.A. in 1855, M.A. in 1858, and L.D. in 1857. His legal studies were carried on in the office of Smith & Armour, Cobourg, the last named being the late chief justice of Ontario. He was called to the Bar in 1859, and practiced throughout in the Town of Cobourg.

In 1867 he was elected mayor of Cobourg, holding that office continuously and always by acclamation until 1873. A Liberal in politics, he represented West Northumberland in the House of Commons from the general election, 1874, to the general election, 1878. Mr. Kerr was an unsuccessful candidate for the same riding in 1878, 1882 and 1885. In 1897 he was raised to the Senate, succeeding Sir Oliver Mowat.

He was a member of the Methodist Church and he married Myra, third daughter of the late John Field, Cobourg. Four sons and three daughters survive. The funeral will take place at Cobourg on Sunday.

SIGNAL WAS DISREGARDED.

Details of Collision Between Kaiser Wilhelm and the Orinoco.

Cherbourg, Nov. 23.—Details of the collision Wednesday between the North German Lloyd steamer Kaiser Wilhelm der Grosse and the British royal mail steamer Orinoco, show that it occurred at 8 o'clock at night.

The shock is described as having been terrific, causing panic among the passengers on board the two vessels, especially among the emigrants. On the Orinoco three men and a woman were killed, six women and a man were injured and five persons were knocked overboard and drowned.

Of the two steamers the German liner is said to have sustained the greatest damage, but beyond the fact that she has a hole in the side of her, the nature of her injuries has not been ascertained. Her damages are estimated to be \$200,000. Four of the crew of the Kaiser Wilhelm der Grosse are reported to have been killed and 12 are said to have been injured, but the exact numbers of the killed and wounded on that vessel have not been reported here.

The damage to the Orinoco was confined to her bows. Both vessels remain in the roadstead here.

When the Crash Came.  
When the collision occurred the Kaiser Wilhelm der Grosse was steaming at the rate of 17 knots an hour, after having touched here on her voyage out, while the Orinoco was coming into this port. The commander of the Orinoco claims that he signalled that he would go to starboard of the North German Lloyd steamer, but that the latter held her course across the Orinoco's bows, and only went to port of the Orinoco when it was too late.

The engines of the Orinoco, it is added, were reversed as soon as it appeared likely that an accident would occur, but she crashed into the starboard bow of the Kaiser Wilhelm der Grosse, making a breach 12 feet wide.

The stem of the Orinoco above water line was carried away as the vessel cleared, after the collision.

British Gunboat Stranded.  
Hong Kong, Nov. 23.—The British gunboat Robin is stranded on a sand bank of Kowloon. No lives have been lost. The chances of refloating her are favorable.

Two Other Crews Saved.  
Two other vessels, the St. Louis, owned by Sylvester Bros. of Toronto, and the barge Locke, also of Haney & Miller's fleet, were anchored close to the Resolute, but their crews could offer no assistance as they were in grave danger themselves. They both weathered through the night, the crews being brought ashore by the island surf boat crew early yesterday morning. They are both in great danger of foundering, as the anchorage is none too secure.

None of the bodies have been recovered.

**Banks and His Horse.** Animal trainers of the old days led adventurous lives. In 1600 all London was talking of a man named Banks, who had taken his horse to court and performed a number of feats, including mounting to the top of St. Paul's cathedral, while "a number of asses," as the historian puts it, "brayed below." Sir Walter Raleigh in his history says of Banks that he "would have shamed all the enchanters of the world, for whatsoever was most famous among them could never master or instruct any beast as he did his horse." When Banks took his horse to Rome both were burned for witchcraft.

## FALL MILLINERY.

**Black Taffeta Hat Trimmings—Eagle and Vulture Feathers Popular.** A great deal of black taffeta trims many of the fall hats. Stiff little kitted trills and "organ" plaits of this silk are important adjuncts in autumn millinery.

The vogue for eagle and vulture feathers is very pronounced. The plumes are laid flat on the crown of the hat and spread out in the form of a fan.

Soft French felts and beavers are the first hats of the season, but later

MODERN WALKING HAT.

on will come hats of velvet, cloth and fancy combinations of braid.

The unlucky peacock feathers, together with the sad, bedraggled, uncurled ostrich plume, are in evidence. But the peacock feathers are not in natural colorings, and the ostrich plumes take on a more cheerful mien than those of last year.

Enormous roses trim many of the stunningest hats, mingled with huge bunches of grapes.

The helmet is a new shape that is extremely chic. The crown is spoon shaped, and the back of the hat is cut off in a queer square fashion. It is worn flat on the head and tilted slightly over the face.

The all gray hat is to share honors with all black models. The large picture black hat is trimmed with an ostrich feather, often fifteen inches long, that curls gracefully down to the shoulder. A smart jet, or cut steel buckle is the only other trimming.

The hat illustrated is a charming creation for morning wear. It is of olive green felt. A band of darker green velvet encircles the crown, and shaded green ostrich plumes are arranged at the side.

## WHAT TO WEAR.

**Spanish Influences Dominate Fashions—Every Shade of Blue Worn.** Spanish influences are dominant in the millinery world just now. Milliners are showing quite a number of small, round toques and hats distinctly recalling the forehead and matador models popular a dozen years ago. They are fashioned in the softest of

French felts and trimmed with natural quills and cabochon rosettes of the felt itself.

Paris is sending over hats, gowns and wraps, together with accessories in every conceivable shade of blue. Browns are also to be much worn, with beguiling shades of green, apricot, mode and champagne in cloths, silks and crapes, but even with this wide color selection blue loses none of its favor.

Charming bridesmaid dresses are made of printed chiffon showing large designs of roses scattered over the surface or merely forming a wide border. With these frocks are worn girdles of plain colored silk of the most prominent shade in the color scheme.

In a head shop is a double string of dark red beads that, catching the light, sparkle and flash like real rubies. It is well worth the dollar asked for it.

Black is to be very fashionable, but for women to whom this color is not becoming there are innumerable other shades that are quite as modish. Among them are marine, czar, gazelle, garnet, rose and myrtle, not to mention plaids and stripes of mingled coloring.

The dainty lace blouse seen in the cut is suitable for wearing over a lingerie shirt waist. The V yoke is outlined with a pale blue velvet.

## A CRIPPLE CURED

Helpless and Bent with Rheumatism—Cured by Dr. Williams' Pink Pills.

"I was a helpless cripple. I was bent in form and could not straighten up. Crutches were my only means of moving about. I tried many medicines, but they all failed until I began using Dr. Williams' Pink Pills—they cured me." George Schaw, of Short Beach, N. E., made the above startling statement to a reporter a few days ago. Mr. Schaw is now a well-built man, strong and broad shouldered. Like thousands of other Nova Scotians, he is a fisherman, and is consequently exposed to all kinds of weather, just the conditions to set the rheumatic poison in the blood at work. Mr. Schaw adds: "It is impossible to overrate the severity of the attack. The trouble was located in my back and right hip. I had to quit work and was mostly indoors. There was a time when I never expected to stand erect again, but Dr. Williams' Pink Pills straightened me up again, not only that, but they made me the strong, hearty man you see me to-day. I never describe the awful pain I suffered before I used these pills. I tried many medicines and had treatment from several doctors, but to no avail. My legs became so stiff that in order to move at all I had to use crutches. Finally the doctors decided that I was incurable, and told me they could render no further assistance. I continued to suffer day and night, and then came the turning point in my life. A friend from a distance came to see me and it was from him I learned that Dr. Williams' Pink Pills were a great cure for rheumatism. At once I got a supply and began to use them. The first indication that they were helping me was when the pain grew less severe. In a few weeks more the swelling in my legs and hips began to leave, then my joints seemed to loosen up, and then it was not long until my crutches were thrown aside and I could straighten up. Then I began to go outdoors and soon was able to resume my work as well as ever. Since that time I have never been troubled with rheumatism, or lame back. I can tell you my neighbors were all astonished at my cure; they had all thought: I would always be a cripple."

Dr. Williams' Pink Pills cure rheumatism by going straight to the root of the trouble in the blood. They make new rich blood that sweeps out the poisonous acid and soothes the jangled nerves. That is how they cure all troubles rooted in the blood, such as anaemia, indigestion, neuritis, St. Vitus dance, general weakness and the special ailments that only girls and women folk know. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

**MORE MINES FOR TENDER.** Beds of Cobalt and Kerr Lakes to Be Sold For Cash.

Toronto, Nov. 23.—Premier Whitney made this announcement yesterday: "The Cabinet was busy part of yesterday and part of today in giving careful consideration to the claims of Lake, and the conclusion was reached that the claims made were not allowed. Consequently advertisements will be published at once calling for tenders for the bed of Cobalt Lake, and the bed of Kerr Lake as to which latter there have been no claims pressed for some time. The tenders will be asked for cash offers for these properties; ten per cent. to be paid in with the tender, and the balance of the purchase money to be paid within fifteen days of the acceptance of the tender."

Cobalt Lake has 46 acres which remain the property of the crown, and Kerr Lake has 23 acres belonging to the crown. Tenders will be received up to Dec. 29.

## FACE OF YOUR WATCH.

You Think You Know What It Looks Like, But Do You?—Some Curious Watch Lore.

"I will wager," said a prominent watchmaker the other day, "that you cannot correctly put down the number of the dial plate of your watch."

"Done," said the other. And he wrote down I, II, III, IV—

"Wrong," interrupted the watchmaker.

"How wrong?"

"Put out your watch and look at the figure four."

"Sure enough the figure was IIII, not IV."

"All clocks and watches made that way," asked the customer, as he put his watch back in its fob.

"All that have Roman figures on their dial."

"Why?"

"Well, there is a tradition which accounts for the custom. The first clock that resembled the ones now in use was made by a famous French jeweler named Henry Vick in 1370. He made a present of it to King Charles V, surnamed the Wise. Now Charles was wise in many ways, but he did not know everything, though having a reputation to sustain he pretended to omniscience. When Vick brought him the clock he examined the works very attentively, seeking a flaw somewhere.

"You are right," said at last, 'the clock works well, but you have not put the figures on the dial wrong.' Surely not your majesty," demurred the jeweler. "Yes, that should be four ones. 'You are wrong, your majesty.' 'I am never wrong,' thundered the king. 'Take it away and correct the mistake.' Vick did as commanded. The fashion was followed by others. And so to this day we have IIII instead of IV."

"But suppose my watch had Arabic and not Roman numerals?"

"I think the chance, of course, because the larger proportion of watches have the Roman numerals. But even then I'd have had you in all probability. For there is another peculiarity in the figures which is almost universal in watches. But I will show you. Go on writing the rest of the figure."

So the customer continued and wrote down V, VI—

"Wrong again," interrupted the watchmaker.

"Pull out your watch and see," calmly retorted the other.

Once more the watch dial was exposed to view. There was no six on it. The space where it should have been was occupied by the second hand.

"The second hand," continued the jeweler, "is to be found in exactly the same place in almost every watch that is made. Whether your dial was registered in Arabic or Roman numerals there would be no six on it. It is only on a few of a very cheap sort of watches that the second hand is omitted and the 6 or the VI stands revealed."

**Wasteful Economies.** Mr. Sidney Webb, an English economist, has brought up a question that must often have occurred to many other people. He points out that while the rearing of healthy, well-trained children is vital to the welfare of the State, the work of motherhood is of no account. When a workman with a family dies or is killed his widow is left to struggle as if she and her family were of no account to anybody. Yet in that day's papers jeremiads will be printed about the decline of the birth rate. But aside from the value of children to the State our present method is as wasteful as could be. For instance, a derrick falls and kills a man who has a wife and four small children. The proposal that the State or the municipality should give that woman say \$300 per year to bring up her family would be scouted as rank socialism. But if the woman will rank up her home and go out washing or scrubbing to earn say \$200 per year the city or philanthropic institutions will take her children in. This is done every day. There is probably not an institution in Toronto where it costs less than \$200 per year to keep a child. Thus deducting the mother's earnings it costs the citizens of Toronto \$600 per year to bring up that family, whereas the widow would have made a better job of it for \$300. Yet we think we are economical, says the News.

**Her Other Irons.** An amateur authoress, who had submitted a story to a magazine, waited for several weeks without hearing from the editor concerning it. Finally she sent him a note requesting an early decision, because, as she said, she "had other irons in the fire."

Shortly after the editor's reply: "Dear Madam: I have read your story, and I should advise you to put it with the other irons."—London Tribune.

## A Grand Medicine for the Kidneys.

Don't suffer—don't experiment—don't waste money on unknown, untried remedies. There is one quick cure—one certain cure—one cure that everybody knows does cure Kidney Trouble. That's Gin Pills.

"I have been a sufferer with Kidney Trouble for years. Have tried medicines and doctors' prescriptions, but could get no permanent relief, my case being pronounced chronic. As it is generally known that the properties of Gin without the alcohol is good for the kidneys, I decided to try Gin Pills, but must admit with very little faith. From the very first pill I got relief, and am COMPLETELY CURED, but am going to continue them a while longer. No dull, sickening pains in the back—no low spirits—am increasing in weight—and more vim and vigor than I have had for years—is what Gin Pills have done for me."

"H. P. HERBERT, Ottawa."

Be well and strong. Be free of pain. Be able to enjoy all the good things of life, with all your old-time vigor and enthusiasm. Gin Pills will cure those sick with kidney trouble. Start now—today—and see how much better you feel to-morrow. 50c box—6 boxes for \$2.50—and your money back if they don't cure.

Special offer: If you send us your name and address and tell us the name of the paper in which you read this we will send you a trial box absolutely free and post prepaid. Write today and get the medicine that cures.

**The Same Old Message.** Hamilton, Nov. 23.—As regular as the night comes, Mayor Biggar emerges from the negotiations with his cheerful message, "The strike will be settled by to-morrow at noon." That was all he had to say last evening. The company and the men have both been asked to submit propositions in writing to the two members of the Railway Board who are in the city, Andrew Ingram and H. N. Kittson.

**SKIN DISEASES** Salt Rheum, Pimples, Erysipelas, Ringworm, Shingles, Scald Head, Itching Sores.

All diseases of the skin are more or less directly caused by a bad state of the blood, which produces acid humors and corrupts the secretions.

No one can expect to have a clear, bright skin when the blood is in a disordered condition, and the stomach, liver and bowels acting feebly in consequence.

All the above skin diseases, in fact, any disease arising from a bad condition of the blood, are curable by

**BURDOCK BLOOD BITTERS** through its wonderful cleansing, purifying powers on the blood, and its renovating action on the system.

Mr. A. Squire, Dominion, N.S., tells how he was cured of Salt Rheum. He writes: "For years I suffered with Salt Rheum, and was unable to find a curable remedy out of all the medicines I took, and Physicians consulted. Finally I was urged by a friend to try Burdock Blood Bitters, and after a very short space of time I was completely cured. I shall always recommend B.B.B. for such cases, as I consider it an indispensable remedy."

Price \$1.00 per bottle or 6 bottles for \$5.00.

**Shot While Proposing.** London, Nov. 23.—(C.A.P.)—Dr. Herbert, the victim of a murderous attack near Paris, is in the hospital with wounds more serious than at first thought. He cannot speak. The Mail alleges that Dr. Herbert is an associate of Guerres' Matrimonial Agency, and states that the woman under arrest declared that Herbert was making a declaration of love to her when Cesbron fired. She is extremely stout, and is known as "Madame Centkilo."

**NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL**

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. The most important it must be to see to it that this system of sewerage be not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which those afflicted undergo.

**Doan's Kidney Pills** are a specific for all kidney troubles. They begin by healing the delicate membranes of the kidneys and thus make their action regular and natural.

They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, and making them the urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by young and old. Let Doan's Kidney Pills do for you what they have done for thousands of others, that is, cure you. Mrs. John Young, Harwood, Ont., writes: "I was troubled with my kidneys for some time and my back was so lame I could scarcely get around. After using two boxes of Doan's Kidney Pills, I am completely cured. I find there is nothing like them for the cure of all kidney troubles."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

### ANOTHER GAME

Those who witnessed the game of football last week on Tecumseh Park between Chatham and Mitchell's Bay in the final for the Clements cup and McCoig gold medals, seen one of the fastest and most exciting games of football played in Chatham for some time. The game resulted in a draw, each team scoring one goal. Unfortunately, it was too dark to play off the tie, and it remains a very debatable question as to which is the better team. Those interested in football will be pleased to learn that this question will be decided next Tuesday afternoon at three o'clock on Tecumseh Park. The Chatham management feel confident of success, as the team are practicing hard and will make their best showing next Tuesday afternoon. This game will be well worth seeing, as the two teams are very evenly matched, and will both put forth an exceptional effort to win this closing game.

## CUT-OFF FOR THE THAMES

Editor Bowyer Offers Some Advice On This Important Question

### UNITED EFFORT NEEDED

For a number of years the people of Chatham and the neighboring municipalities have been petitioning the Government at Ottawa for some relief from river floods. The best solution yet advanced seems to be a cut-off somewhere above Chatham, and ever since this theory has been promulgated the people have not been successful in interesting the Government to do anything. Recently the matter was dropped off by Mr. Hyman onto the Provincial Government, and now it is being shoved off from one Government to another, and no one seems to be willing to undertake any responsibility in the matter. Hon. Dr. Reaume has conceded somewhat in expressing himself willing to meet the Dominion Minister of Public Works at Chatham, and try to make some arrangement. So far, the Dominion authorities have not been willing to go this far, and in the meantime, while valuable time is being lost in discussion, the people are suffering.

This week's Ridgeway Dominion, edited by P. H. Bowyer, M. P. P., contains the following editorial on the subject, which is of such great interest to the people of this section: "The Thames River problem will never be solved until it is removed from party politics and taken hold of in a business-like manner by the officials and people of all the municipalities interested."

It is no use for one or two isolated municipalities attempting to deal with the question—it is too big a proposition and beyond their financial resources. "Year after year the waters of the Thames overflow the land between Bothwell and Lake St. Clair, doing damage that can only be computed in thousands of dollars."

"For years there has been talk of a cut-off through Dunwich or Southwold to Lake Erie. Relief must be sought in that way or by the removal of obstructions and the strengthening of the river, thus permitting a more rapid flow of water to its outlet, but either scheme means a large expenditure of money."

"The Dominion and Provincial Governments have been approached, for undoubtedly the work is of sufficient importance to demand Government assistance and supervision, but each Government has attempted to escape responsibility and saddle the work upon the other. Thus, while the Governments listen and send deputations back and forth between Ottawa and Toronto, the people of Kent and Essex continue year after year to suffer. Now the people of these two counties are likewise citizens of Ontario and of Canada, with a claim to assistance from the overflowing treasuries of both Governments. The local member for East Kent, Mr. Bowyer, has taken occasion to press this broad view of the case upon Hon. Dr. Reaume, Provincial Minister of Public Works, after a consultation with the Deputy Minister, who is a practical engineer, and who agrees that only some large, comprehensive scheme will solve the Thames overflow difficulty. It is but fair to say that Hon. Dr. Reaume was sympathetic and ready to give such a scheme full and fair consideration. Mr. Bowyer suggested that the question of which Government is responsible, technically for aid should be waived and both come jointly to the rescue. Engineers should be sent out to report upon the best means to carry off the surplus water in spring, making an estimate of the cost of the work. That the cost will be large goes without saying. However, let it be what it will, divide it into three equal parts, to be borne respectively by the Dominion, the Province and the municipalities directly benefited."

**Sanitaris**  
The Monarch of Mineral Waters

F. A. ROBERT, Agent, Chatham.

Mr. Bowyer, has taken occasion to press this broad view of the case upon Hon. Dr. Reaume, Provincial Minister of Public Works, after a consultation with the Deputy Minister, who is a practical engineer, and who agrees that only some large, comprehensive scheme will solve the Thames overflow difficulty. It is but fair to say that Hon. Dr. Reaume was sympathetic and ready to give such a scheme full and fair consideration. Mr. Bowyer suggested that the question of which Government is responsible, technically for aid should be waived and both come jointly to the rescue. Engineers should be sent out to report upon the best means to carry off the surplus water in spring, making an estimate of the cost of the work. That the cost will be large goes without saying. However, let it be what it will, divide it into three equal parts, to be borne respectively by the Dominion, the Province and the municipalities directly benefited."

"To bring about some such solution and induce the two Governments to act, politics must be set aside and no attempt made to make personal or party capital. No one man or member, no matter how disinterested in his motives, can hope to accomplish this alone, but we believe sufficient pressure can be brought to bear both at Ottawa and Toronto to secure the co-operation of both Governments, if the people interested are determined. The Dominion and Provincial members for the entire district, together with the wardens of the counties and reeves of the municipalities, regarding the situation, should meet to discuss the situation, and formulate a demand—that's the word—for assistance, and be ready to act unitedly in case of refusal at either capital."

"The Dominion Government has money to subsidize railroads, build wharves, docks, harbors, bridges and public buildings at countless places in Quebec and the Maritime Provinces, and this expenditure we are not criticizing at this moment. We mention the fact merely to show that money goes from Ottawa in all directions for public works, many of them of not so much importance or calculated to serve so great and important interests as the one with which we are dealing and for which we demand consideration."

"We have no hesitation whatever in saying that if a section of Quebec, Nova Scotia or New Brunswick were suffering as does Essex and Kent, Ottawa would send the money for aid and, what is more, would hasten to grant it."

"It is about time for the people of these western counties to 'call in' their members and ask them what they propose to do."

John Lee Finds Some Men Who Are Just As Big And Well Bred As He Is Himself

John Lee, ex-M. P. P., of Highgate, is relating a story of a rather peculiar coincidence, which occurred while he was in Merlin recently.

Mr. Lee was stopping for the night at the Marquis Hotel, a temporary house. After registering, Mr. Lee stepped into the sitting room, and lit his pipe for a comfortable smoke before retiring for the night. There were four other gentlemen in the room—all oil operators, interested in the Tilbury field, and all hale fellows and well met. Mr. Lee also noticed that all were as well, and some more so, blessed with avardupois as himself. After the informal introductions which followed, Mr. Lee remarked on the similarity of heights and weights, which was apparent. He suggested that

each man give the nationality of his parents, his age, his height and weight, and the following names and figures were the result. The similarity of parentage, height and weight will be quite apparent to the reader:

C. W. Fulton, age 34, weight 290 lbs., height 6 feet, 4.4 inches, parentage Scotch-Irish.

R. R. Lowry, age 51, weight 282 lbs., height 6 feet 2.2 inches, parentage Scotch-Irish.

W. M. Lowry, age 52, weight 273 lbs., height 6 feet 2 inches, parentage Scotch-Irish.

Mance Williams, age 36, weight 258 lbs., height 6 feet, parentage Scotch-Irish.

Charles McGill, age 41, weight 256 lbs., height 5 feet 11 inches, parentage Scotch-Irish.

John Lee, age 61, weight 256 lbs., height 6 feet 1 inch, parentage Irish.

## LATEST COBALT ENTERPRISE

Prominent Canadians Interested.

Cobalt, Nov. 25th.—The latest promotion here is that of the Empress Cobalt Silver Mining Co., which has been formed to mine 40 acres in lot 9, concession 5, just west of the townsite and the Temiskaming and Hudson Bay mines, which latter, by the way, have just declared a dividend of 4500 per cent. The Empress is capitalized at only \$500,000, and is backed by such men as Lieut.-Colonel Bruce (Toronto), A. C. Boyce, M. P.; E. P. Kadlecek, the well-known Cobalt mining man, and others.

The stock has been underwritten by the Canada Mines, Limited, of 45 Adelaide Street, Toronto, probably the best known and by far the strongest mining concern of its kind in Canada; and there is but little doubt that the Empress stock will be quickly subscribed and go to a premium. There are two exceptionally wide, strong veins in the property which has, of course, passed Government inspection as a valuable discovery, and several smaller calcite veins carrying silver. The Government man shows the property to be interested by what is termed a "contact" of two different formations and it is now a proven fact that nearly all the bonanza veins

### THE STYLE OF HAIR WORN

Is an important factor to produce a younger and refined face and well shaped head to any Lady or Gentleman. Prof. Dorenwend, who will be at the Garner House Wednesday, Dec. 5, can demonstrate this to anyone calling on him at his Show Rooms. He has Ladies' and Gents' Wigs, Toupees, Bangs, Wavy and Plain Fronts, Switches in every length and shade, that he will gladly adjust on any Lady's head free of charge to prove this. DON'T FAIL TO SEE HIM.
