From the London News, of May 3.  
THE INDUSTRIAL EXHIBITION.  
CONTRIBUTORS FROM CANADA.

By crossing the breadth of the avenue  
we have travelled from Ceylon to Canada,  
and are within sight of the Cape of Good  
Hope, Van Dieman's Land and the pro-  
duce of the three Australian Colonies of  
New South Wales, Port Phillip (or Vic-  
toria), and South Australia.

Canada makes the best display, as was  
to be expected from the energetic charac-  
ter of the people, the means of convey-  
ing their goods to this country, and the  
cooperation of the Governor, the Earl  
of Elgin, and their local authorities. The  
Canadians held a preliminary Exhibition  
of native produce, and selected from the  
exhibition the best as specimens of raw pro-  
duce and manufactures.

The most prominent object is a Fire-  
Engine, from Montreal, which carried off  
the first prize at the Canadian Exhibition  
of Industry, and has been sent, by sub-  
scription, from a few patriotic Canadians,  
to show what the mechanics of that fine  
Colony can do. As a carriage, it is ex-  
tremely handsome. The panels are ad-  
orned with paintings of Canadian scenery,  
views of a great fire at Montreal, the  
principal churches, banks, and other build-  
ings, and figures of an Indian on snow-  
shoes, in winter costume, of a fireman,  
&c., executed with a spirit and feeling of  
reality which raises them above the class  
of ordinary coach-painting. The body is  
of copper from the rich copper mines of  
Lake Superior, lined with wood.—The  
tool-box is of mahogany. The mechan-  
ical arrangements seem good, and the fi-  
nish of both the wood and metal work is  
most creditable to Canadian workmen. It  
is followed by a hose-box, on two wheels,  
to carry three hundred feet of hose, and  
weighs, altogether, 35 cwt. It will pump  
up water from a depth of 27 feet; and  
according to the statement of the gentle-  
man who manufactured it, it will throw  
170 feet high from 300 feet of hose.—  
Fire Engines throughout both British and  
Republican America, are drawn by men  
and not horses. They are usually the  
property of young men associated into  
voluntary companies, who take great pride  
in adorning their respective engines.  
Hence the profession of painting and other  
ornamental decoration.

Over the fire-engine is suspended a  
Canoe of white birch, which presents no  
special difference from canoes we have  
seen a hundred times, except its size; but  
this canoe was actually paddled 3000  
miles of lake and river navigation, with  
a crew of twenty men, before being placed  
on board a steamer for England. It is the  
same description of canoe employed by  
the Hudson Bay Company, in their  
annual journeys to the vast preserves of  
bear and animals, under their command.  
We should have been pleased if it had  
been accompanied by one of the Voyagers,  
whose gay costume and songs, and  
simple semi-savage manners have been  
described in the book by Sir George  
Simpson, late resident Governor of Hud-  
son's Bay, or, as it is now officially named,  
Rupert's Land, and several North  
American Travellers.

A Piano, a large French Bedstead, a  
set of Tables and Chairs, all elaborately  
carved out of Canadian Black Walnut,  
next come under our notice as remark-  
able specimens of a wood as yet little  
known in this country. In color, size,  
beauty of grain, and polish, it is equal if  
not superior to the best specimens of  
French and Italian Walnut. A slab,  
which forms part of the Canadian display,  
in the central avenue, was cut from a tree  
which made 27,000 feet of available tim-  
ber. The workmanship of this furniture,  
although very fair, offers nothing remark-  
able for praise or blame. We like the  
emblematic beavers carved round the  
edge of the table; we cannot approve of  
the same animals crawling like rats on  
the cross parts of the legs. Among the  
chairs are a set unpolished and fashioned  
after some introduced into America by the  
earliest settlers. It is reported that Her  
Majesty has condescended to accept them.  
One Canadian gentleman was under the  
impression that the originals had been  
transported from England in the 16th cen-  
tury, by Sebastian Cabot; but it is unlik-  
ely, because although Cabot discovered La-  
brador, there is no evidence that he for-  
mied any settlement in Canada at all. The  
originals are probably of French origin  
and not older than the time of Louis XIV.

Around the fire-engine are arranged a  
set of Canadian Sleighs, the white one is  
a cutter for one horse; the next, an ele-  
gant long carriage of very graceful curves,  
is a tandem sleigh; the largest is for a  
pair or four horses and is made after the  
fashion approved by the military Tander  
Club. With the sleighs we must notice  
a set of Harness hanging on the wall,  
saddles covered with bells and adorned  
with pendant plumes of blue horsehair;  
white plumes of the same material are ar-  
ranged to wave from the prancing horses.  
On a bright winter's day we can imagine  
no prettier sight than the whole turn out,  
with its blood horses, ringing bells fur  
ladies wrapped in furs, and dashing fur

wrapped driver, careering across the frozen  
river, or the sounding ice of a hard snow-  
drift.

Furs, skins, horns and Indian curiosities  
fill up the interspaces of the Canadian  
collection. The head and wide-spreading  
horns of a gigantic moose or elk may be  
compared with the European variety of  
the same species, from the Lithuanian  
collection exhibited in the Russian section.

From Correspondence of the Montreal Gas.  
Canadian Products at the Exhibition.  
[Continued from our last.]

In the opinion of our visitors, whose observa-  
tions I have every opportunity of hearing, "Canada  
has very far surpassed the United States in the  
Exhibition. And I was glad to hear several gen-  
tlemen, who looked like men of influence and  
standing, say to-day, that they had always been  
opposed to Colonies, and would have been very  
glad to get rid of them; but that, having come to  
the Exhibition, and seen the full presentation of  
things confined in their impressions, they had seen  
enough to convince them that they had been  
wrong. They were highly pleased with the very  
display of Canada, and made, and changed their  
opinions about colonies. One said he was  
glad to know that Canada had come out so nobly  
in this Exhibition; another said that Canada was  
a credit to England, and an example to the na-  
tion, for it was only in the infancy, while England  
had every favorable opportunity of skill and  
capital for generations. In fact, you would be  
surprised to hear and see the great interest that  
Canada produces is creating in the minds of the  
people; and our manufactured articles astonish  
them. They appear to have some sort of idea  
that we lived in wigwags, ate buttertarts, and  
sang Canadian boat songs in firch bark canoes all  
day, and had nothing else to live upon or sell in  
the world. The fire engine is pronounced by judges to be  
a complete piece of mechanism. There are ten fire  
engines here to cope with the Canada one; but I  
can't think any of them will beat it. The Japs,  
however, have not yet met for any class. Hund-  
reds have come to examine it for its beauty, and  
several painters have admired the excellence of the  
views upon it, as done by an excellent artist.

The mechanism is examined with curiosity, and  
all seem pleased also that Montreal appears to be  
so large and fine looking a city. Our sleighs at-  
tract universal notice and admiration; the people  
in fact are astonished at them, both from the novel-  
ty of the kind of carriage, which few of them  
had any idea of before, and also from the beauti-  
ful workmanship and finish. They put a great  
value upon them, and seem to prize them, and  
interest they feel in the country. The sleighs  
and robes are the objects of universal wonder and  
praise. Gentlemen who have been in Russia,  
where they say there are many splendid turn-out  
of the kind, have declared them superior to any  
they ever saw.

In Furniture, however, Austria will beat us all  
below. There was a set made up for four rooms,  
and it sold yesterday for ten thousand pounds;  
but most of the furniture is very much praised, especially  
the Black Walnut. The veneers from it could be  
sold a dozen times over. A most profitable busi-  
ness might be done in it, by people in Canada  
cutting the business of cutting veneers and  
selling them here. Almost any quantity of it could  
be disposed of. The illustration is to have  
next week a cut of our piece of timber as now ar-  
ranged. Our wheat and peas are pronounced  
superior by every body, and the samples here will  
be purchased by some Agricultural Society for  
seed, and so will the yellow beans. Some of the  
cloth from Dundas is very much noticed, and one  
Merchant Tailor from Scotland has secured what  
there is of it. Allen's office chair I have twice  
refused the money for. A few chairs could be  
easily sold, and to advantage, if sent over.—  
Lace is also pronounced good by persons  
of taste, and is very much praised, especially  
the Black Walnut. The veneers from it could be  
sold a dozen times over. A most profitable busi-  
ness might be done in it, by people in Canada

INDIA.

The Overland Indian Mail reached London 10th May. India, generally, was tranquil. The import and export trade was brisk. Accounts from Manila state that on the 28th an attack had been made upon the ports of Sulu, which resulted in their capture, with 140 pieces of artillery and other munitions of war.

Arrival of the Asia.

New York, June 4. The Asia arrived at 8 o'clock this morning, in ten days and sixteen hours from Liverpool.

English political news is unimportant. It was firmly believed the Government would be beaten on the Ceylon question, and would resign. Government has determined to aid the proposed Railroad between Halifax, Quebec, and Montreal.

M. Lamartine recommends the repeal of the present election law, and a return to universal suffrage.

The Dresden Conference had closed without any result, and the Emperors of Russia and Austria, and King of Prussia, were holding a private conference at Cracow.

The Pope had sent for a large force of Austrians, to supply the place of the French troops who were about to vacate Rome.

Advices from Paris of the 22nd, however, state that a French battalion of infantry had been ordered to leave that city for Rome.

A Court Martial at Rome had condemned to death three Roman Citizens for stabbing French soldiers.

The latest telegraphic reports brought by the Asia from Paris, represent a growing feeling of confidence in the minds of the public on the question of revision of the Constitution. The Legitimists and Democrats show a disposition to compromise, which, backed by the general feeling of the country, will probably lead to the renewal of the President's powers.

It is said that the Cabinet at Vienna, in compliance with the reiterated requests of England, has finally concluded to set at liberty Kossuth and the other refugees, however, that they shall immediately leave Europe, and engage not to return without the formal consent of the Austrian Government.

NEW YORK, June 5.

About £30,000 came back by the Asia, under protest. The bills are not of a description to do any harm here.

From the Globe. PUBLIC ACCOUNTS OF 1850.

The Public Accounts for 1850 were laid on the table of the House of Assembly on Friday, and from them we find the transactions of the year were as follows:

Table with columns for various financial items and their amounts, including Cash on hand, Net Customs, Net Excise, etc.

Of the £33,064 disbursed during the year, the sum of £179,029 went for interest—£51,417 for education—£11,856 for agricultural societies—and £14,261 for Benevolent and Literary Institutions.

ACCIDENT BY LIGHTNING.—On the evening of the 19th inst., about 7 o'clock, the barn of Mr James Bell, of Markham, was struck by lightning in two places at once, set on fire, and the building, with the whole of its contents, consumed.

MAIL STAGE TO OWEN SOUND.—A Mail Stage has been established to run twice a week, between Guelph and Owen Sound, in connection with Messrs Thorp and Co's Line of Stages between Guelph and Hamilton. A Mail Stage will in future leave the British Hotel, Guelph, for Owen Sound, every Wednesday and Saturday morning, at 9 o'clock, passing through Elora, Fergus, Townships of Peel and Garafraxa to the village of Arthur; thence through Normansby and Egremont to the village of Durhan; and thence through Bentinck, Glenelg, Sullivan, Holland and Derby to Sydenham. These Mails will afford great accommodation to the public.—Advertiser.

THE COUNTY DIVISION BILL.—"This borough-mongering and splitting up of Counties into petty sections will meet with no favor and should be frowned down at once. We are satisfied that Mr. Hincks cannot claim originality for his scheme on his own account. It has been forced upon him by the various cliques in the favored localities seeking for municipal importance, on the score of his indebtedness to them for services past and to come, provided the scheme is successful. That it will succeed we cannot doubt, since it is apparent that no matter how much the great body of the people may be opposed to it, the ministerial maxim that 'might is right' will prevail. It is useless, therefore, to contend against the monstrous scheme, which is to form the grand feature in Hincks' next electioneering campaign."—Spectator.

A NUT FOR JONATHAN TO CRACK.—We learn that the electors of one of the Wards in Brantford have elected to the Town Council, a colored man by the name of Johnson, in the place of J. D. Clement, Esq., resigned. We should say this is doing it up black. The Yankees will begin to think this is "a tall kind of business." What makes the matter worse, Johnson is one of the most illiterate and stupidly ignorant of his species.—Ham. Spectator.

We regret to learn that the Hon. Malcolm Cameron has met with a serious accident by being thrown out of his carriage. His jaw is said to be fractured or broken, and he sustained other severe injuries—so that we presume it would now be impossible for him to attend Parliament this Session.—Examiner.

FIRE IN DUMFRIES.—The dwelling-house of Mr A. Bruce, farmer, about half a mile from St George, in this Township, was burnt to the ground on Saturday night last, a little after 10 o'clock. The family had retired to rest, and had only time to escape in their night clothes, before the whole premises were enveloped in flames, and everything consumed a few minutes thereafter. The cause of the accident is not yet ascertained. The property is insured in the Gore Mutual, and we believe, belongs to the Galt Building Society Reporter.

REMARKABLE CURE.—The woman Freeman was so extremely unwell before and during her trial for the murder of her husband, as to occasion some alarm for her life independent of the rope. It took three men to carry her up and down the dock. On Wednesday she required great assistance to enter the Cab that took her to the Wharf for the steamer; but on her arrival she jumped out without any help, and during her stay waiting for the American Boat was as lively as a cricket, walking about and looking after her things, as if nothing had been the matter with her. So much good had the fresh air done her.—Kingston Whig.

The Clergy of the Diocese of Exeter, to the number of forty-four, entered their formal protest against the Synod to be held by the Bishop in June. The protest may be briefly summed up:—"That the said Synod is opposed to the spirit of the Constitution of the Church;—that the declaration to be issued is uncalled for;—that the Synod would not be one of free discussion;—that, having no power of itself, it would be futile, and have the appearance of schism."

At the Great Exhibition on the first day of admission at one shilling, to the great astonishment of every one, the entire Crystal Palace was not so crowded as usual. A rush was anticipated and the consequence was that but a comparatively small number came.

In the French Chambers there have been very violent debates. On Friday, the 23rd ult., the Minister of the Interior was assailed for the exercise of undue influence in a recent election, in the department of the Landes. M. Faucher pleaded that his policy had been in the main neutral, but that he had expressed a firm opposition in the Cabinet to the electoral law of May 31st. The defence failed. The Assembly would have been better pleased if the Ministry had boldly declared that the Government had influenced electors in its favor. Government is using all its influence to procure petitions to the Assembly for a revision of the constitution.

All the English Conservative papers in the interest of President Bonaparte, and in opposition to the Republican Constitution, say that those petitions are numerous.

TOWN COUNCIL.

The Council met on Saturday evening at 8 o'clock—all the members present. A communication from Mr R. Sunley was read, intimating his resignation of the office of Collector. It appeared that the cause of Mr Sunley's resignation was the inadequate remuneration for the duties of the office.

Mr Hubbard moved, seconded by Mr Thorp, "That the resignation of Mr Sunley be not accepted, and that he be allowed \$4 per cent for his services as Collector." Mr Stevenson moved in amendment, seconded by Mr Carroll, "That the Collector be allowed 3 per cent."

The amendment was carried. Mr Thorp moved, seconded by Mr Hubbard, "That owing to the number of grievous complaints made by the industrious class of working men of the town with regard to the poisoning of Hogs, that this Council do repeal that part of By-law No. 8 relative to Hogs; and in place of a poundage and putting on fines, that it will be the duty of the Inspector, whenever any complaint is made to him by any Householder in the town with regard to hogs being a nuisance, Inspector forthwith pound such hogs pointed out to him by the complainant, or unanimous the parties before proper authorities, and let the complainant make affidavit to the nuisance, when it will be the duty of the authorities to act as to the nature of the case."

Mr Stevenson moved, seconded by Mr Carroll, that Col. Hewat and A. A. Baker, Esq., be permitted to erect a shed on a piece of ground belonging to the Town, 15 feet in depth, in rear of their respective residences, paying the Corporation a quit rent of 2s 6d per annum, and to remove at 6 months' notice. Carried.

Mr Hubbard moved, seconded by Mr Carroll, that Mr Hough's salary as Town Clerk and Treasurer should be £30 per annum.

Mr Thorp thought £70 would be little enough, considering the very laborious duties of the office; while Mr Carroll was of opinion that £25 would not be far out of the way.

An amendment for £35 was offered by Messrs Thorp and Stevenson, when the original motion was carried by the casting vote of the Reeve.

On the application of Mr C. E. Bristol, it was resolved that "Welsh's Circus" should have license to perform here on the 11th July, on payment of £5.

Mr J. Thompson applied for return of 11s 1d fine and expenses on a horse impounded by the Town Inspector—ordered to be returned, with exception of Inspector's fees.

Moved by Mr Hubbard, seconded by Mr Thorp, "That of the five shillings (per diem) voted last sitting, 2s 6d of the same for each day's sitting in Council be handed over to the Treasurer of the Benevolent Association for the benefit of that Society."

Mr Stevenson opposed this peculiar mode of procuring funds for a charitable Institution as ostentatious and compulsory, contrasting the conduct of the mover with that of the Pharisees of old, who caused a trumpet to be sounded before them when they gave alms, and asserted his right, when disposed to be charitable, to give his money where most needed, in the way he might deem best. He accused Mr Hubbard of fishing for popularity.

Mr Carroll said the Council had already taxed the town £20, for behoof of the Benevolent association, which he thought sufficient. He was no advocate for compulsory charity.

Mr Hubbard pointed to the fact of some necessitous party being allowed \$2 a week from the funds of the Association, as sufficient to warrant the grant. He repelled Mr Stevenson's accusation, asserting that he (Mr H.) had the bump of benevolence largely developed, and taunted that gentleman with having procured the increase of the Commutation Statute Labor Assessment from 5s to 10s which he asserted was a gross imposition, a down right robbery of the young men who had to pay the tax, while the Council had been positively instructed by their legal adviser that the Act gave power to impose a lower rate. His object was to take back the money from Mr Stevenson's pocket and put it into those of the men he had wronged.

The Reeve was of opinion the Council had made the Assessment in accordance with the Act. Mr Hubbard asserted that the clause of the Act applying to towns and villages gave authority to make a lower rate, than the 10s Assessment was a rascally imposition, and contrary to the advice of their legal adviser.

Reeve "You may tell our legal adviser he knows nothing about it." Mr Stevenson was as much as any one an advocate for the poor man, but he did not see why hard-working men, who had struggled hard to get up a house, should be subjected to a heavy Assessment, while young men in stores with bright shoes, and cigars in their mouths, and who were in many cases better able to pay local rates than were their employers, should be exempted. He held that the Act authorized the rate.

Reeve "Certainly, our Representative voted for the Assessment Act, and it is our duty to carry out its provisions." A considerable further amount of assertions and recrimination not particularly edifying, was eventually put an end to by Mr Stevenson moving, seconded by Mr Carroll, "That Messrs Hubbard and Thorp be allowed the privilege of handing over what amount of money they may deem proper to the Benevolent Society, but that they do not interfere with the right of others to dispose of their funds as they see fit."

which was carried by the casting vote of the Reeve. Mr Stevenson presented a memorial from the Fire Company, accompanied with a drawing and plan for an Engine House, which was explained by Mr Harrison. It is proposed to erect an Engine House of cut stone in the Lower end of the Market Square, about midway between the Scotch Church and Mr Hall's corner, on the line of the Waterloo Road, the building to be 50 feet in length by 28 feet in breadth and two stories high, the upper floor containing a Fireman's hall, which it was stated, might be used also for meetings of the Council and other purposes; the edifice to be so constructed as to form eventually a wing to the contemplated Market House—thus determining the site of that building. The estimated cost was not stated. The Council took no action in the matter.

On motion of Mr Thorp, seconded by Mr Hubbard, it was resolved, that the fine on horses impounded for being at large should be reduced from 10s to 2s 6d., the whole amount to go to the Inspector. On the motion of Mr Thorp, seconded by Mr Carroll, the salary of the Town Inspector was placed at £7 10s. A long conversation here ensued in regard to the propriety of the doings of certain of the Councilors, who, it appeared, had been engaged during the day in letting out different pieces of work for the improvement of Wyndham, Cork and McDonald Streets, &c., Messrs Stevenson and Carroll contending that the estimated rate of assessment must be the necessary result. Mr Thorp was for doing the work sufficiently at once, so as they needed not afterwards to be ashamed of it. Mr Hubbard thought they should go ahead—for while it was well done, the town was able to pay for the work. Mr Carroll had heard very much about side walks and other conveniences in neighboring towns, he had been recently in Galt, which he found far behind Guelph in such improvements; he had indeed seen no town improving faster in appearance than Guelph. Mr Stevenson complained of the amount to be laid out in beautifying the street in rear of Mr Thorp's stables and privies, notwithstanding the complaint of too much money having been expended on that Street by their predecessors, contrasting such favoritism with the want of accommodation in Quebec Street where no side walks had yet been laid down. He asserted also that he had been treated with much discourtesy by one of his colleagues in the early part of the day, who had used gestures and language towards him we care not to set down. This led to a regular melee Mr Hubbard repelling the accusation in choice and emphatic terms, while Mr Thorp denied the charge, and asserted he would say something worse. The Reeve judiciously brought the affair to a finale by putting a motion for adjournment to Monday at 1 o'clock, when the council broke up.

we have merely given a very brief statement of the proceedings in the Council Chamber. To report the whole amount of speechifying performed by the members of that august body at a single meeting, would fill our whole sheet; while the publication would tend little to public edification, and still less to the credit of the town. It is certainly much to be desired that our City Fathers would either conduct themselves with some sort of propriety in their meetings, or hold them with closed doors. The continual enacting, amending, and repealing of their By-laws, is alike ludicrous and absurd.

COUNTY INSURANCE COMPANY.

At the annual meeting of the County of Waterloo Mutual Fire Insurance Company held at the "British," on Monday, the 2nd inst., R. Jackson Esq., President in the Chair, a detailed statement of the affairs of the Company were submitted, from which it appeared that renewed and new Policies to the amount of upwards of £32,000 had been issued during the year, yielding a revenue of £193 12s 1d, and that the whole expenditure of the year amounted to £65 19s 11d, a balance being left in the Treasury of nearly £200.

The following gentlemen were elected office bearers: President, R. Jackson, Esq.; Directors, A. J. Fergusson, Esq.; A. D. Fordyce, Esq.; Jacob Hespeler, Esq.; John Harland, Esq.; W. Alexander, Esq.; Charles Allan, Esq.; Secy & Treas., James Hodgert, Esq.

GUELPH AND DUNDAS ROAD.

The Commissioners met at Free's on Thursday, for the purpose of letting the Toll received at the different gates on the road for 12 months, commencing the 21st instant, when after a spirited competition the following was the result:— No. 1.—Gate next Dundas—Thos. Dickson, £397 No. 2.—Middle Gate—Thomas Ingram, 303 No. 3.—Gate next Guelph—Wm. Clutton, 380

Total, £1079 We submit a statement of the sums received at the gates during the few months they have been in the hands of the Commissioners, from which it will be seen they have been let at a rate considerably beyond what they were previously yielding, although not within some hundred pounds of the sum necessary to pay the interest of Debentures issued and incidental expenses.

Amount of Tolls collected monthly at the different Gates on the Guelph and Dundas Road, from 21st October, 1850, till 21st May, 1851.

Table with columns for Gate No. 1, Gate No. 2, Gate No. 3, and Total, showing monthly toll amounts.

Total £580 3s. 6d. for 7 months.

ANNUAL GENERAL MEETING. The Annual Meeting of the Society was held in the Court House yesterday afternoon, the President, Sheriff Grange, in the Chair. The Secretary laid before the Meeting a detailed statement of the Accounts of last year, showing a profit on each share of £1 10 11d.

On the motion of E. E. W. Hurd, Esq., Messrs. John Smith, W. S. G. Knowles, and J. T. Tracy, having been chosen scrutineers, the ballot for Directors gave the following result; G. J. Grange, A. J. Fergusson, G. Sunley, H. W. Peters, T. Sandilands, A. A. Baker, J. Smith, Esq., and Dr. Liddell, for Guelph; C. Allan, John Watt, and Geo. Jardine, Esqrs., for Nichol; P. N. Tagge, Esq., for Waterloo; Jas. Loghrin, Esq., for Eramosa. The retiring Directors being all re-elected.

On the motion of Mr J. T. Tracy, seconded by Mr John Harris, Col. Howat and A. D. Ferrer, Esq., were appointed Auditors. On the motion of Mr John Harrison, seconded by F. Maroon, Esq., the President vacated the Chair, which was taken by Col. Hewat, when the thanks of the Meeting were given to the Directors for their valuable services during the by-gone year.

On the motion of Mr W. S. G. Knowles, seconded by Mr Pirie, the thanks of the Meeting were given to the Secretary for his efficient services during the same period.

At a subsequent Meeting of the Directors, Mr Sheriff Grange was re-elected President, and G. Sunley, Esq., Vice-President; and it was resolved that the premium on each share be £4 10s from this date.

TEMPERANCE FESTIVAL IN BERLIN.—This interesting demonstration by the friends of Temperance in the township of Waterloo came off Friday last, and was attended by about 3000 persons, comprising parties from Guelph, Galt, Preston, St. George, and adjoining localities, with two Bands of Music. About noon, as many as could be accommodated assembled in the Town Hall, when an elegant Silk Banner, the gift of the old Temperance Society to the 'Sons of Temperance,' was presented by Michael Carroll, Esq., with a suitable address, which was responded to by Mr. Owens of Guelph. A Procession was then formed, proceeding to the "Grove," where about 1500 persons sat down to tea; after which, a Bible, the gift of the Ladies of Berlin to the "Sons of Temperance," was presented by a Deputation of the Ladies, accompanied by Mr. W. D. Wadsworth of Hamilton, who delivered an address in their name, which was replied to by the Rev. J. Braine, of Guelph. In the evening, a large party assembled in the Town Hall, when eloquent addresses were delivered by Messrs. Braine, Wadsworth, &c. The weather was unpropitious, rain falling at intervals throughout the day, which considerably marred the festivities.

ELORA AND SAUGEN ROAD COMPANY.—At the annual general meeting of the Company, held at Elora, on the 2nd inst., Messrs. C. Allan, A. Geddes, S. Wisler, J. Stocks, and E. Passmore, were chosen Directors for the next twelve months.

EQUALIZING THE REPRESENTATION.—When the new Act for re-arranging the Territorial Divisions in Upper Canada comes into force, the united Counties of Wellington, Waterloo, and Grey, will comprise not fewer than thirty-three townships, North Dumfries, Waterloo, Wilmot, Woolwich, and Wellesley, Elira, Puslinch, Guelph, Nichol, Garafraxa, Eramosa, Peel, Maryborough, Minto, Arthur, Luther, Amaranth, and Pilkington; Derby, Sydenham, St. Vincent, Sullivan, Holland, Euphrasia, Collingwood, Bentinck, Glenelg, Arden, Oprey, Normanby, Egremont, Protton, and Melancthon, the Indian Reserve at the Georgian Bay, and all the Islands in Lake Huron, containing a population of somewhere about fifty thousand, and sending a single representative to Parliament. The re-arrangement will largely increase both the area and population of this electoral division.

ASSESSMENTS.—We understand that the Assessors' Return for the Town gives the following as the net amount on which the assessment will fall to be levied. Annual value of Real Property, £7030 8 7. Ditto of Personal do. £1763 15 11. Total, £8794 4 6.

PARLIAMENTARY PROCEEDINGS.

The proceedings of the Provincial Legislature during the last eight or ten days have not been particularly interesting, although occasional harangues by Mr Mackenzie and the members of the Administration serve to give zest, if not dignity, to the dull routine of business. The "old plain old man," as Mac terms himself, keeps tossing his quondam friends and allies, with all sorts of incoherent motions for the production of returns relative to the Court of Chancery, Pension, the Rectories, Issue of Scrip, Public Debt, Division Courts, Toronto University, Persons imprisoned for Debt, and many other matters, and makes long prosy speeches, awakening, however, disagreeable reminiscences of bygone events, which, stirring up the bile of his ancient chums, bring Messrs Baldwin, Price, and Hincks, and their retainers, down on him like a swarm of enraged hornets. Mackenzie, however, manages to keep his temper beautifully, which gives him a manifold advantage over his opponents.

Mr H. Sherwood's inquiry of the Ministry, if it were the intention of the Earl of Elgin to remove the Seat of Government to Quebec, before the expiration of the four years, during which it was originally understood it should remain at Toronto, was met by a reply from Mr Baldwin in the affirmative,—that at the expiration of the present session it would be removed to Quebec, to continue there for four years.

An Address to the Governor-General for Correspondence and Documents on the subject of Reciprocal Free Trade with the United States, moved by Mr Robinson, was withdrawn, on the allegation by Mr Hincks that their production would interfere prejudicially with the still pending negotiations for Reciprocity.

An Address to Her Majesty, to procure a delay of the contemplated repeal of the duty on the importation of foreign timber into Great Britain, has been hurriedly passed through both Houses; but, even should it reach England previous to the passing of the proposed Act, it will scarce meet attention from Lord J. Russell's Anti-colonial Cabinet.

Mr H. Sherwood has brought in a Bill to amend the Usury Law, permitting any amount of interest to be charged on commercial paper, but limiting the interest on loans on real property to 6 per cent. The Hon. P. De Blaquiere's successful motion for copy of Charter sought to be obtained for the New Episcopalian College has exposed him to much obliquity from the party.

Mr Sherwood's query as to what had been done by the Commissioners under the Rebellion Losses Bill, and what was the further intention of Ministers at that matter, elicited the reply from Mr Baldwin "that they were still proceeding with the investigation,—but no report had been made on claims approved,—and that it was not the intention of the Government to pay those which the Legislature"—which will probably not be made till after the removal of the seat of Government to Quebec, when the affair will doubtless be arranged entirely to the satisfaction of Mr Lafontaine's clients.

Mr Hincks, in answer to Mr H J Boulton, said that Spencer Wood had been hired at Quebec, for £450 a-year, for four years, with the right to purchase the property at the end of one year, for £5,000. About £3,000 must be expended in its improvement.

Mr Secretary Leslie has stated in the Legislative Council that it is not the intention of the Administration to take any action on the Clergy Reserve question during the present session.

Mr Cameron of Cornwall has brought in some half dozen Bills to alter and amend different Local Acts; and Col. Prince, of re-appointing no-riety; has, mirabile dictu! presented a petition from Mr Montgomery, praying compensation for some 70000 lost by him from his tavern having been burned down by the Loyalists in 1833. Montgomery's Tavern was Mackenzie's head-quarters at the period, and himself one of the chief abettors of the insurrection. The petition was rejected by 49 to 4. The next application will likely be for a bonus to the parties engaged in the same, arranged in the ratio of the risk they respectively ran of getting hanged, with mileage for the distance run over by each in making his escape.

Mr Richards has brought in a Bill for the payment of petty jurors; and Mr J. J. Boulton, on moving the first reading of his bill "to fix time and place for meeting of parliament," was informed by the Speaker that the bill was not in order, and it was thrown out by 37 to 21.

On Wednesday, the House being invited to partake of a dinner at la fourchette with the Governor, Mr Solicitor General Drummond moved an adjournment.

Mr Sel. Gen. Drummond.—Because he believed it to be the desire of the majority of the House. Mr Prince said that a gentleman near him talked about the adjournment being intended to allow hon gentlemen to get breakfast (laughter.) What an astonishing world of change this was! Formerly people used to breakfast before dinner, (laughter) and he, a plain old farmer, still continued to breakfast at six o'clock. To breakfast at half-past five p. m., was something which he had never heard of in his life; but out of regard to the gentlemen who had not breakfasted, he would not oppose the motion. (Renewed Laughter.) And the House adjourned.

CORONER'S INQUEST.—On Monday, the 26th ult., an Inquest was held in the house of David Shupe, Bentinck, by Thos. Gordon, Esq., on the body of James Westbrooke, a colored man, who was drowned in the Big Sauguen on the preceding day. The deceased, in company with a young Dutchman, was paddling about in a log canoe, with the management of which they were unacquainted, and which they upset in turning, in a depth of eight or ten feet of water. A young man named Blaney, who was in another canoe, gallantly leapt into the river to the rescue, but was by the force of the current, swept past the spot where deceased had sunk in comparatively still water. The young Dutchman reached the shore, but half an hour had elapsed ere Westbrooke's body was got out, when the vital spark had fled. Verdict in accordance.

On the same day, and nearly at the same hour, Mr. Sorley, a Storekeeper on the Durham Road, Bentinck, and his son, made a narrow escape from drowning. They were on a raft on the Big Sauguen, from which, by some mismanagement, they were precipitated into the water, and, but for timely assistance, had shared the fate of the unfortunate colored man. So much for Sabbath-day sailing in one locality.

The County Council meets here this afternoon, particulars in our next.

NEW BEDFORD, June 5.

A letter from Captain Drew, of the ship Orinoco, of Boston, states, that on his passage from Sydney, he touched at the Island of Ascension; he there found the whale-ship Bay, of Warren, Rhode Island, in charge of Mr. Massey, 4th officer; that Capt Obadiah Luce, and five of the crew, had been murdered, at one of the Caroline Islands, on 18th January.

BOOT AND SHOE ESTABLISHMENT

ON THE CASH PRINCIPLE.

GOW & ORME respectfully announce to their friends and the public that they have resolved to adopt the Cash system entirely in their business, and that henceforth their motto will be "small profits and quick returns." Acting on this principle, they have made such arrangements for increasing their present large Stock of Boots and Shoes as will afford to ready-money

Miscellaneous.  
SCOTCH CATECHISM.  
Pedagogue—"Who was Goliath?"  
Boy—"The muckle giant wham David slew wi' a sling and a stane."  
Pedagogue—"And wha was David?"  
Boy—"The son o' Jesse."  
Pedagogue—"That's a braw man!  
And noo, wha was Jesse?"  
Boy—"The flower o' Dumblane."

COULDN'T TELL THE DIFFERENCE.  
A loafer got hold of a green persimmon, which (before they are ripened by the frost) are said to be the most bitter and pucky fruit known. He took the persimmon outside the garden wall, and commenced upon it by seizing a generous mouthful of fruit, which proved to be in a state to frizzle his lips and tongue most provokingly.  
"How do you like it?" inquired the owner of the garden, who had been watching him.  
The saliva was oozing from the corners of the fellow's mouth, and he was only able to reply  
"How do I look, neighbor? Am I whistling or singing?"

GENEALOGICAL.  
A person took the liberty to question M. Dumas rather closely concerning his genealogical tree.  
"You are a quadron M. Dumas?" he began.  
"I am, sir," quietly replied M. Dumas, who had sense enough not to be ashamed of what he could not conceal.  
"Your father?"  
"Was a mulatto."  
"And your grandfather?"  
"A negro," hastily answered the dramatist, whose patience was waning.  
"And may I inquire what your great grandfather was?"  
"An ape, sir!" thundered Dumas, with a fierceness that made his impertinent interrogator shrink into the smallest possible compass. "An ape, sir; my pedigree commences where yours terminates!"

Insinuation Direct.—It is rumored—we cannot vouch for the truth of the report—that while a well-known sporting doctor in a neighboring village was under examination as a witness in a case of libel before the Presbytery of Arbroath, and when asked the effect which a given quantity of morphia would have upon an individual, if swallowed, replied—"It would have the same effect as swallowing four tumblers of toddy, which I suppose you [addressing the questioner, a member of the Presbytery] are quite well acquainted with.—Arbroath Guide.

Astful Pun.—A distinguished member of the bar is responsible for the following:—One of our Boston pilots who is somewhat inclined to corpulence, being on the stand a few days since, the learned council inquired who it was, and being informed that it was Mr.—, a pilot, replied that judging from appearances, he should suppose he was descended from the celebrated Fauchonius Pilot! That is the very "wast one" out.

Poetical.—A cobbler in Mobile, who also professes to teach music, has the following sign over the door:—  
"Delightful task, to mend the tender boot,  
And teach the young idle how to flout!"  
Lucky.—A notorious toper used to mourn about not having a regular pair of eyes, one being black, the other light hazel.  
"It is lucky for you," replied his friend, "for if your eyes had been 'mates,' your nose would have set them on fire long ago."

Number of Insects.—The number at present described, or contained in collections without being described, may be taken at between 150,000 and 170,000. The rich Berlin collection does not contain less than 90,000 species. The insect Fauna of Great Britain, is estimated at 11,600 species.—Aspects of Nature.  
"Cabbage," says the Edinburgh Review, "contains more muscle-sustaining nutriment than any other nutriment whatever." This probably, accounts for their being so many athletic fellows among the tailors.  
Honey-moon.—It was the custom of the higher order of Germans to drink mead, a beverage made with honey, for thirty days after every wedding.—From this custom comes the expression "to spend the honey-moon."  
"Honey vs Vinegar.—We have heard many women complain of their husband's neglect of home. A spoonful of honey will keep more bees in the hive than will ten of vinegar.  
Something like Fanaticism.—On Palm Sunday, Dr. Hendren, 'Bishop of Clifton,' rode round the aisles of his 'cathedral,' mounted on a donkey, in imitation of our blessed Lord's entry into Jerusalem previous to his crucifixion!  
The Census.—A Sensible Woman.—A thrifty, bustling dame, who manages a very thriving grocery concern—her husband slipping about doing nothing, although he thinks the business could not go on without him—received one of the census schedules to fill up. It was not thought worth while to give it to the gude-man, as he, poor easy soul, took no charge of any thing in particular. The wife, seeing 'Head of the family,' said, 'That's me, head foot. I wad like to ken wha's the head o' the family if it's no me?' So down goes Janet—, head of the family. The gude-man, of course, came next in rotation; so Jolly—, was put down; and after his name this very complimentary addition by the wife of his bosom—'Doits about, and does naething; leaves a' to me.' Well done, Janet! such husbands deserve such treatment.  
Tit for Tat.—A lawyer in the Ohio legislature introduced a bill in favor of instructing convicts in the state prison in the art of printing; whereupon the printers of Columbus presented a petition that the said convicts might be instructed in law.

CHEAPER THAN EVER!  
At the sign of the Mammoth Boot.

THE Subscriber would most respectfully intimate to the inhabitants of Guelph and vicinity, that he has commenced business in the BOOT AND SHOE TRADE, in CORK STREET, two doors south of the "Guelph Hotel," (late the "Durham Ox.")  
He feels confident, from his long experience in some of the principal towns in Great Britain and the Metropolis of Ireland, as well as in Canada, that he will be able to manufacture to order all kinds of Boots and Shoes, sewed or pegged, of the best material, in the highest style of fashion, and on more reasonable terms than ever were offered in Guelph; being convinced, from experience, that to turn the penny often with a small profit, is the only way to make a permanently-paying business.

The following list is at Cash Prices:—  
Gentlemen's Calf Boots, 18s 9d to 23s 9d.  
Do. Kip do. 14s 4d to 16s 3d.  
Do. Stout do., double soled, 11s 10d.  
Do. Coburgs, 8s 1d to 10s.  
Ladies' Calf or Kip Boots, 8s 1d.  
Do. Cloth or Prunella do., 9s 4d to 10s 7d.  
Do. Shoes, 4s 9d to 5s 7d.  
Do. Slippers, 6s 10d.  
Children's, Misses', and Boys', proportionately low.

Farm Produce taken in exchange.  
ROBERT BURNETT.  
Guelph, April 15, 1851. 109-4f.

PUBLIC NOTICE.

THE Subscriber intimates to his friends and customers, that as he has hitherto lost a great deal of time in hunting up his debtors,—many of whom do not pay, not from the want of means so much as from the want of a will,—he intends to alter the system; and he has therefore to inform all those whose accounts are overdue, that if settlements are not immediately effected, such accounts will very soon be put in suit. In the meantime,—as regards credit—except in the case of customers who have the will, as well as the means, to pay their debts in proper time—JACK has gone into his shell.

JOHN HORNING.  
Guelph, 11th March, 1851. 194-4f.

MORE LEATHER!

THE Undersigned, having taken Mr. JACKSON'S Boot and Shoe Shop, lately occupied by Mr. THOMSON, would respectfully announce to the inhabitants of Guelph and surrounding country, that they intend carrying on business in the above line, and trust that by strict attention to business, and a determination to manufacture articles of a first-rate description only, together with the long experience in the trade which each of them has had, both in Scotland and Canada, they will merit and receive a share of that patronage so liberally bestowed on their predecessor.

The usual term of Credit will be given Bark, Hides, Tallow, &c., taken in exchange for work.

DO NOT NEGLECT IT.

CONSUMPTION can be and has been cured in thousands of cases by this only certain remedy, JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT.

And no remedy has ever before been discovered that will certainly  
CURE CONSUMPTION.  
The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated, and the chances utterly hopeless as to have been pronounced by physicians and friends to be past all possibility of recovery, and at times thought to be dying, have been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medicaments which are peculiarly adapted to and essentially necessary for the cure of  
COUGHS AND CONSUMPTION.  
Caution.—This medicine is put up in a large bottle, and you must find the name of Judson & Co., Proprietors, New York, on the splendid Wrapper around the bottle.

OF INTEREST TO ALL.  
To the Old and Young!—Ho! Ye Red Heads and Grey!!!—Phenomenon in Chemistry!!!!

EAST INDIA HAIR DYE,  
COLORS THE HAIR, AND WILL NOT HURT THE SKIN.  
This dye may be applied to the hair over night, the first night turning the lightest RED or GREY HAIR to a dark brown, and by repeating a second night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade of perfect black; with a positive assurance that the dye, if applied to the skin, will not color it. By an occasional application, a person turning grey will never be known to have a grey hair. Directions complete with the article. There is no coloring in this statement, as one can easily test.  
These facts are warranted by the gentleman who manufactures it, who is the celebrated Chemist, Dr. CONNOR, author of Connors's Chemistry, Philosophy, and other works, and School Books, well known and widely celebrated by the public.

Dr. Spohn's Sick Headache Remedy.  
Why will you suffer with that distressing complaint, when a remedy is at hand that will not fail to cure you? This remedy will effectually destroy any attack of headache, either nervous or bilious. It has cured cases of 20 years standing.

TO THE LADIES.  
The Genuine Balm of Columbia for Restoring the Hair.  
"Long hair is a glory to woman," says Paul, "and all feel the truth of the pious question; Preserve it then, ladies, your glory may fall, Unless you protect it with this preparation. If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In a case of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this Balm. Age, state, or condition, appears to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tubes are filled, by which means thousands (whose hair was as grey as the Asiatic eagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever, it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the hair, it is unequalled. It has the advantage as much as other medicinal hair restoratives, and is more effective.  
Caution.—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

FOR FEMALE AND MALE.  
Dr. Larzette's Juno Cordial, or Procreative Elixir.  
Nature's Great Restorative and remedy for those in the married state without offspring. Also, a certain remedy for Impotent Consumption, Indigestion, loss of Muscular Energy, &c.  
Caution.—This celebrated medicine cannot be genuine unless the fac simile signature of Judson & Co. (N. B. the only American agents) is on the wrapper of each bottle.

Comstock's Stove and Grate Varnish.  
Pronounced by thousands who have used it, to be the best article ever known for polishing Stoves, Grates, and every description of Iron work. It prevents rust, gives a jet black polish like that of a coach body, which stands on iron, &c. for years.

To Owners of and Dealers in Horses.  
Carlton's Founder Ointment,  
For the cure of Founder, Split Hoof, Hoof-bound Horses, and Contracted and Feverish Feet, Cuts, Wounds, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, &c., on Horses.  
Carlton's Ring-Bone Cure,  
For the cure of Ring-Bone, Blood Spavin, Bone Spavin, Windgalls, and Splints—a certain remedy.  
This Ring-Bone Cure and the Founder Ointment are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, Liverymen, Stage Proprietors, and others, with the most marked and decided success.

Have you a Cough? Do not Neglect it.  
Thousands have met a premature death from want of attention to a common Cold. The Rev. Dr. BARTHOLOMEW'S  
Expectorant Pink Syrup  
Will most positively give relief, and save you from the most awful disease Pulmonary Consumption, and the sure way into the grave thousands of the young, the old, the lovely and the gay.

CAUTION.  
All the above articles are sold by A. & N. HIGINBOTHAM, and F. W. STONE, Guelph; ELLIOTT & THORNTON, Dundas; HAMILTON & KNEESHAW, Hamilton, and by one Agent in every Town in Canada. Also, by COMSTOCK & BROTHER, 9, John Street, New York. Call at the above places, and ask for COMSTOCK'S ALMANAC, which will be given gratis.

SCOTCH CATECHISM.
Pedagogue—"Who was Goliath?"

COULDN'T TELL THE DIFFERENCE.
A loafer got hold of a green persimmon, which (before they are ripened by the frost) are said to be the most bitter and pucky fruit known.

GENEALOGICAL.
A person took the liberty to question M. Dumas rather closely concerning his genealogical tree.

"You are a quadroon M. Dumas?" he began.
"I am, sir," quietly replied M. Dumas, who had sense enough not to be ashamed of what he could not conceal.

"Your father?"
"Was a mulatto."
"Your grandfather?"
"An ape, sir!"

"An ape, sir!" thundered Dumas, with a fierceness that made his impertinent interrogator shrink into the smallest possible compass.

"An ape, sir; my pedigree commences where yours terminates!"

Insinuation Direct.—It is rumored—we cannot vouch for the truth of the report—that while a well-known sporting doctor in a neighboring village was under examination as a witness in a case of libel before the Presbytery of Arbroath, and when asked the effect which a given quantity of morphia would have upon an individual, if swallowed, replied—"It would have the same effect as swallowing four tumblers of toddy, which I suppose you (addressing the questioner, a member of the Presbytery) are quite well acquainted with."

Awful Pun.—A distinguished member of the bar is responsible for the following:—One of our Boston pilots who is somewhat inclined to corpulence, being on the stand a few days since, the learned council inquired who it was, and being informed that it was Mr.—, a pilot, replied that judging from appearances, he should suppose he was descended from the celebrated Pouncefoot Pilot! That is the very "wast one" out.

Poetical.—A cobbler in Mobile, who also professes to teach music, has the following sign over the door:—
"Delightful task, to mend the tender foot,
And teach the young idea how to flout!"

Lucky.—A notorious toper used to mourn about not having a regular pair of eyes, one being black, the other light hazel. "It is lucky for you," replied his friend, "for if your eyes had been 'matches,' your nose would have set them on fire long ago."

Number of Insects.—The number at present described, or contained in collections without being described, may be taken at between 150,000 and 170,000. The rich Berlin collection does not contain less than 90,000 species. The insect Fauna, of Great Britain, is estimated at 11,600 species.—Aspects of Nature.

"Cabbage," says the Edinburgh Review, "contains more muscle-sustaining nutriment than any other nutriment whatever." This probably, accounts for their being so many athletic fellows among the tailors.

Honey-moon.—It was the custom of the higher order of Germans to drink mead, a beverage made with honey, for thirty days after every wedding.—From this custom comes the expression "to spend the honey-moon."

"Honey us Vinegar.—We have heard many women complain of their husband's neglect of home. A spoonful of honey will keep more bees in the hive than will ten of vinegar.

Something like Fanaticism.—On Palm Sunday, Dr. Hendren, 'Bishop of Clifton,' rode round the aisles of his 'cathedral,' mounted on a donkey, in imitation of our blessed Lord's entry into Jerusalem previous to his crucifixion!

The Census.—A Sensible Woman.—A thrifty, bustling dame, who manages a very thriving grocery concern—her husband slipping about doing nothing, although he thinks the business could not go on without him—received one of the census schedules to fill up. It was not thought worth while to give it to the gude-man, as he, poor-easy soul, took no charge of any thing in particular. The wife, seeing 'head of the family,' said, 'That's the head o' the family if it's no me?' So down goes Janet '—, head of the family.'

The gude-man, of course, came next in rotation; so John—, was put down; and after his name this very complimentary addition by the wife of his bosom—"Doits about, and does naething; leaves a' to me." Well done, Janet! such husbands deserve such treatment.

Tit for Tat.—A lawyer in the Ohio legislature introduced a bill in favor of instructing convicts in the state prison in the art of printing; whereupon the printers of Columbus presented a petition that the said convicts might be instructed in law.

CHEAPER THAN EVER!

At the sign of the Mammoth Boot.

THE Subscriber would most respectfully intimate to the inhabitants of Guelph and vicinity, that he has commenced business in the BOOT AND SHOE TRADE, in CORK STREET, two doors south of the "Guelph Hotel," (late the "Durham Ox.")

He feels confident, from his long experience in some of the principal towns in Great Britain and the Metropolis of Ireland, as well as in Canada, that he will be able to manufacture to order all kinds of Boots and Shoes, sewed or pegged, of the best material, in the highest style of fashion, and on more reasonable terms than ever were offered in Guelph; being commenced, from experience, that to turn the penny often with a small profit, is the only way to make a permanently paying business.

The following list is at Cash Prices:—
Gentlemen's Calf Boots, 18s 9d to 23s 9d.

PUBLIC NOTICE.

THE Subscriber intimates to his friends and customers, that as he has hitherto lost a great deal of time in hunting up his debtors,—many of whom do not pay, not from the want of means so much as from the want of a will,—he intends to alter the system; and he has therefore to inform all those whose accounts are overdue, that if settlements are not immediately effected, such accounts will very soon be put in suit. In the meantime,—as regards credit—except in the case of customers who have the will, as well as the means, to pay their debts in proper time—JACK has gone into his shell.

MORE LEATHER!

THE Undersigned, having taken Mr. J. Jackson's Boot and Shoe Shop, lately occupied by Mr. THOMSON, would respectfully announce to the inhabitants of Guelph and surrounding country, that they intend carrying on business in the above line, and trust that by strict attention to business, and a determination to manufacture articles of a first-rate description only, together with the long experience in the trade which each of them has had, both in Scotland and Canada, they will merit and receive a share of that patronage so liberally bestowed on their predecessor.

The usual term of Credit will be given.

DO NOT NEGLECT IT.

CONSUMPTION can be and has been cured in thousands of cases by this only certain remedy, JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT.

And no remedy has ever before been discovered that will certainly

CURE CONSUMPTION.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and wasted, and the case utterly hopeless as to have been pronounced by physicians and friends to be past all possibility of recovery, and at times thought to be dying, have been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medicines which are peculiarly adapted to and essentially necessary for the cure of COUGHS AND CONSUMPTION.

Caution.—This medicine is put up in a large bottle, and you must find the name of Judson & Co., Proprietors, New York, on the splendid Wrapper around the bottle.

OF INTEREST TO ALL.

To the Old and Young!—Ho! Ye Red Heads and Grey!!!—Phenomenon in Chemistry!!!!

EAST INDIA HAIR DYE.

COLORS THE HAIR, AND WILL NOT THE SKIN.

This dye may be applied to the hair over night, the first night turning the lightest RED or GREY HAIR to a dark brown, and by repeating a second night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair to flow black or perfect black; with a positive assurance that the dye, if applied to the skin, will not color it. By an occasional application, a person turning grey will never be known to have a grey hair, with the least possible trouble, keep his hair to flow black or perfect black; with a positive assurance that the dye, if applied to the skin, will not color it.

These facts are warranted by the gentleman who manufactures it, who is the celebrated Chemist, Dr. COMSTOCK, author of Comstock's Chemistry, Philosophy, and other works, and School Books, well known and widely celebrated by the public.

Dr. Spohn's Sick Headache Remedy.

Why will you suffer with that distressing complaint, when a remedy is at hand that will not fail to cure you? This remedy will effectually destroy any attack of headache, either nervous or bilious. It has cured cases of 20 years standing.

TO THE LADIES.

The Genuine Balm of Columbia for Restoring the Hair.

"Long hair is a glory to woman," says Paul, "And all feel the truth of the pious quotation; Press it then, ladies, your glory may fall, Unless you protect it with this preparation. If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this Balm. Age, state, or condition, appears to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tubes are filled, by which means thousands (whose hair was as gray as the Asiatic eagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of dandruff, it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a preservative for the toilet, it is unequalled. It holds three times as much as other miscellated hair restoratives, and is more effective.

Caution.—Never buy it unless you find the name of Comstock & Co., proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

FOR FEMALE AND MALE.

Dr. Larzette's Juno Cordial, or Procreative Elixir.

Nature's Great Restorative and remedy for those in the married state without offspring. Also, a certain remedy for Infant Consumption, Indigestion, loss of Muscular Energy, &c.

Caution.—This celebrated medicine cannot be genuine unless the fac simile signature of Judson & Co. (N. B. the only American agents) is on the wrapper of each bottle.

Comstock's Stove and Grate Varnish.

Pronounced by thousands who have used it, to be the best article ever known for polishing Stoves, Grates, and every description of Iron work. It prevents rust, gives a jet black polish like that of a coach body, which stands on Iron, &c. for years.

To Owners of and Dealers in Horses.

Carlton's Founder Ointment,

For the cure of Founder, Split Hoof, Hoof-bound Horses, and Contracted and Feverish Feet, Cuts, Wounds, Bruises in the Flesh, Galled Hocks, Cracked Heels, Strains, &c., on Horses.

Carlton's Ring-Bone Cure,

For the cure of Ring-Bone, Blood Spavin, Bone Spavin, Windgalls, and Splint—a certain remedy. This Ring-Bone Cure and the Founder Ointment are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety nine cases out of one hundred any of the above complaints. They have been used by Farmers, Liverymen, Stage Proprietors, and others, with the most marked and decided success.

Have you a Cough? Do not Neglect it.

Thousands have met a premature death from want of attention to a common Cold. The Rev. Dr. BARTHOLOMEW'S

Expectorant Pink Syrup

Will most positively give relief, and save you from the most distressing and dangerous Consumption, which annually sweeps into the grave thousands of the young, the old, the lovely and the gay.

CAUTION.

All the above articles are sold by A. & N. HIGINBOTHAM, and F. W. STONE, Guelph; ELLIOTT & THORNTON, Dundas; HAMILTON & KNEESHAW, Hamilton, and by any Agent in every Town in Canada. Also, by COMSTOCK & BROTHER, 9, John Street, New York. Call at the above places, and ask for COMSTOCK'S ALMANAC, which will be given gratis.

FREEDOM FROM COUGH,

IN TEN MINUTES.

A PERFECT CURE IN A FEW DAYS

INSURED BY

Dr. Locock's Pulmonic Waters!

The most wonderful cures of Asthma, Coughs, Colds, Wheezing, Irritation of the Uvula and Tonsils, Sore Throat, and all Pulmonary affections of the Lungs, are everywhere performed by this wonderful and extraordinary remedy.

The Medical properties are Homoeopathically combined in an agreeable form, and pleasant to the taste, and the convenience of being able to administer this effectual remedy is unquestionable. The irritation of the Throat which causes troublesome coughing, requires something to be administered frequently to produce relief. These Waters have never failed to allay this irritation, and permanently to cure in a few days. A single dose will in all cases afford immediate relief, and to induce persons, afflicted with Pulmonary complaints, Consumption, Coughs, Colds, and all disorders of the Breath and Lungs, &c., to try them, THE MONEY WILL BE RETURNED in all cases where relief is not obtained.

Ministers, Public Speakers, Singers, and all who require a distinct voice, will find these Waters to remove all huskiness of the Throat, and increase the power and flexibility of the voice.

It was not thought worth while to give it to the gude-man, as he, poor easy soul, took no charge of anything in particular. The wife, seeing 'Head of the family,' said, 'That's me, nae doot. I wad like to ken what's the head of the family if it's no me?' So down goes Janet '—, head of the family.' The gude-man, of course, came next in rotation; so John '—, was put down; and after his name this very complimentary addition by the wife of his bosom—'Doits about, and does naething; leaves a' to me.' Well does Janet! such husbands deserve such treatment.

Tit for Tat.—A lawyer in the Ohio legislature introduced a bill in favor of instructing convicts in the state prison in the art of printing; whereupon the printers of Columbus presented a petition that the said convicts might be instructed in law.

CHEAPER THAN EVER!

At the sign of the Mammoth Boot.

THE Subscriber would most respectfully intimate to the inhabitants of Guelph and vicinity, that he has commenced business in the Boot and Shoe Trade, in CORK STREET, two doors south of the "Guelph Hotel," (late the "Durham Ox.") He feels confident, from his long experience in some of the principal towns in Great Britain and the Metropolis of Ireland, as well as in Canada, that he will be able to manufacture to order all kinds of Boots and Shoes, sewed or pegged, of the best material, in the highest style of fashion, and on more reasonable terms than ever were offered in Guelph; being commenced, from experience, that to turn the penny often with a small profit, is the only way to make a permanently paying business.

The following list is at Cash Prices:—  
Gentlemen's Calf Boots, 18s 9d to 23s 9d.  
Do. Kip do. 14s 4d to 16s 3d.

PUBLIC NOTICE.

THE Subscriber intimates to his friends and customers, that as he has hitherto lost a great deal of time in hunting up his debtors, many of whom do not pay, not from the want of means so much as from the want of a will,—he intends to alter the system; and he has therefore to inform all those whose accounts are overdue, that if settlements are not immediately effected, such accounts will very soon be put in suit. In the meantime,—as regards credit—except in the case of customers who have the will, as well as the means, to pay their debts in proper time—JACK has gone into his shell.

JOHN HORNING.

MORE LEATHER!

THE Undersigned, having taken Mr. JACKSON'S Boot and Shoe Shop, lately occupied by Mr. THOMSON, would respectfully announce to the inhabitants of Guelph and surrounding country, that they intend carrying on business in the above line, and trust that by strict attention to business, and a determination to manufacture articles of a first-rate description only, together with the long experience in the trade which each of them has had, both in Scotland and Canada, they will merit and receive a share of that patronage so liberally bestowed on their predecessor.

The usual term of Credit will be given.  
Bark, Hides, Tallow, &c., taken in exchange for work.

DO NOT NEGLECT IT.

CONSUMPTION can be and has been cured in thousands of cases by this only certain remedy, JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT.

And no remedy has ever before been discovered that will certainly CURE CONSUMPTION.  
The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated, and the case utterly hopeless as to have been pronounced by physicians and friends to be past all possibility of recovery, and at times thought to be dying, have been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medicines which are peculiarly adapted to and essentially necessary for the cure of COUGHS AND CONSUMPTION.  
Caution.—This medicine is put up in a large bottle, and you must find the name of Judson & Co., Proprietors, New York, on the splendid Wrapper around the bottle.

To the Old and Young!!—Ho! Ye Red Heads and Grey!!—Phenomenon in Chemistry!!!  
EAST INDIA HAIR DYE,  
COLORS THE HAIR, AND WILL NOT THE SKIN.

This dye may be applied to the hair over night, the first night turning the lightest RED or GREY HAIR to a dark brown, and by repeating a second night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair of any shade or perfect black; with a positive assurance that the dye, if applied to the skin, will not color it. By an occasional application, a person turning grey will never be known to have grey hair, with the least possible trouble, keep his hair of any shade or perfect black; with a positive assurance that the dye, if applied to the skin, will not color it. By an occasional application, a person turning grey will never be known to have grey hair, with the least possible trouble, keep his hair of any shade or perfect black; with a positive assurance that the dye, if applied to the skin, will not color it.
