Analysis in the limit is a contract of the Market Strategy of the Ma Another unpleasant and inopportune circumstance has just occurred in the relations of France with another portion of the Adurican continent, which threatens to kindle a diplomatic quarret with the United States. One of the strangest and most perilous consequences of the Revolution of February, was that the duties of representing the French Republic in foreign countries were auddenly thrust upon mon utself unqualified for such functions by education, station or experience. The past of Manther at Washington had been intended for M. de Circourt, a gentleman who united all these qualities in the highest degree, and who had consented, from personal friendship for M. de Lamarine, and from patriotic motives, to proceed to Berlin, in the first stormy days of the Provisional Government.—Instead, however, of reverging M. de Circourt's Freat services in Germany

To this there can to Berlin, in the first stormy days of the Provisional Government.—Instead, however, of rewarding M. de Circurt's Freat services in Germany by the legation to the United States, M. Lamartine allowed that position to be carried by some Republican intrigue in favor of a man utterly unknown to fame, but who rejoices in the significant and captivating name of William Tell Poussin. It seems, however, that M. Poussin his contrived to leave a trace in diplomatic history before he could be superseded by a more suitable representative of the French union. He was instructed to obtain from the American Government some repuration or indemnity for losses sustained by Found subjects in the course of the Mexican was; but he appears to have couched his demand in terms so unusual or unbecoming, that the American Cabinet immediately answered it by sending him his passports. This correspondence has not yet reached us, and we know little of the merits of the case, or of the effect it may produce in Paris; but in New York it had occasioned a sudden and remarkable depression of the public securities, and apprehensions had been excited as to the consequences of such a blow aimed at a sister Bereally, which smooths than an interruption

expenditure of this Colony is enormously ex-avagant, and that reduction is imperatively ne-many. The Convention, in the wording of this on, used mild terms; the expenditure un der the present system, that system of fraud and delucion, mismaned "Responsible Government," is recklessly profignts, corupt, and unprincipled, and on this point we dely contradiction. And for this profligate waste of the public monics we blame no one political party more than another, though there are certainly facts to prove that the Council. A Conservatives are not so guilty as the Reformers.
The late Ministry did cut down their own salaries by some three or four thousand a year, divided amongst them, but the present Administration has not taken one single step that we know of to reduce the Provincial expenditure generally.

We are no advocates for mean paraimony; we think that services rendered to the public should be well paid for; nay, we would, in order to fornate di Roma of the 25th ult., pub-degrae, instituting in each province a sensoranip, to which all matters cannoct-the schools are to be referred. General the schools are to be referred. General it is the truest economy to be, not lavish, but a had been succeeded in the civil and had been succeeded in the civil and such sterling honesty and rare talent, that it is cheap to secure their services at any price.

But the affairs of a million and a half of people and taken place at are not so complicated, or so difficult of management, as to require such very clever individuals to look after them. Turning, just at random, to the first of those blue-covered books, furnished annually for the information of the Province, of which we have a large pile at our elbow, we find runn on the 20th.

That it professes to give a balance sheet of the breas of Lucca states from Bologna, 25th revenue and expenditure of the Province for the the revenue and expenditure of the Province for the revenue and expenditure of the Province for the first assumantions are still going on in the large of the revenue and expenditure of the Province for the part 1847. That year will do as well as any other for our purpose, as it does not appear to have been distinguished by any extraordinary outley. Well then, on looking at the "tottle of the whole," we find that in that year the revenue very fragging at oreset. amounted to £506,826 - there are some shillings and pence; there always are in these " tottles; but the round numbers will do for us; - on the other side we find that the expenditure amounted to £458,021 ; in this year, mirabile dictu, and v trust that our readers will make a note of it, for it

Now then, for the benefit of those of our readers who are not accustomed carefully to look through these blue books, we will show them what became of the £458,021, expended as is presume for their advantage in the year 1847. We have first the interest on the Provincial Debt, or the money borrowed for the construction of the Pub-Works, a just and sighteous payment, £148,-264. Interest on Turnpike Trusts, £2,881. Civil Government, £33,416. This is the main part of the MONATER GRIEVANCE, and that to which we attention, for we are convinced that one third of it at least might be saved by proper managemen and by paying the public servants at a rate to which their talents and labors really entitle them, and not according to an imaginary scale based on

1883, the exports were valued at only 4,007,469 pounds, in the month ending 6th September, 1849, they amounted to £233,467 pounds, showing an increase of nearly two substitutes in which there has been any falling off, while our leading manufacturers have all largely participated in the improvement.

The Returns of the Registrat General continue to exhibit a very large diminution in the amount of mertality destricted bout 12 per diem, and in all parts of the country, the decrease is equally marked and assistatory.

The death of Admiral Siz Edward Oven, 9,C.D., Of.C.H., pives rise to long series of naval promotions, and phases a good service pension of 300 pounds per anumn at the disposal of Sir T. Baring, the first Lord of the Admirally.

PROSPECTUS OF THE

CANADIAN INDEPENDENT

A NEW PAPER,

To be published simultaneously in the Cities
of Hamilton and Toronto, chiefly designed to promote, by peaceable means, Separation from the Mother Country.

from the Mother Country.

**HE Undersigned, having secured the assistance of several gentlemes of experience and ability, and made the necessary arrangements, will publish simultaneously in this City and Toronto, on or before the First Day of October next, a Paper under the above designation, intended, mainly, to promote the above referred to.

In making this announcement, he begs, most emphatically and distinctly, to disclaim all connection with either of the great political Parties at present existing in the Province, and will connection of Consoline, independence, which, in his opinion, must hereafter take precedence in importance over all others.

The necessity of an organ to represent the pre-

tion of Canadian Independence, which, in his opinion, must bereafter take precedence in importance over all others.

The necessity of an organ to represent the views, and advocate the principles, of that portion of the people of Upper Canada, who have already nome to the conclusion that the time has arrived when the connection between the North American Provinces and Britain is injurious to the interests of both, and ought to be terminated, has induced the Schseriher to undertake the one-rous task of becoming chief Editor of the INDE-PENDENT. In Lower Canada, with two or three exceptions, the enter Press, both French and English, has declared for the cause of Independence. In this section of the Province, however, the virulence of party, and the complete subserviency of nearly the whole Press to party imposes, have been such as to deter even the Conductors of those Journals, whose opinions are known to be favorable, from espousing the cause.

When so large a proportion of the Press in the other section of the Press in the other section of the Province, and so many individuals of respectability and intelligence in this, entertain principles and views similar to those which this Paper is intended to advocate, the Undersigned considers it unnecessary, in a mere Prospectus, to enter into the rea ons which may seem to justify the advocacy of such a measure. It will be sufficient to state, that these reasons are of both a Political and Commercial necessity. Prom the sentiments distinctly enunciated on various occasions during the last tew years, by English Statesmen and Writers of emisence, no reasonable doubt can be entertained that, whenever a majority of the people of these Colonies shall, through their Reprisentatives in Parliament, sak to be freed from Imperial connection, their request will be conceded. Indeed, those who have attentively noted the sentiments propounded by the leading politicians in Britain, of the present day, must have noticed a growing desire to be relieved from the government of these Coloni

benefited by the attainment of this end, are already favorably inclined.

In Lower Canada, which contains considerably more than one-half of the entire population of the Province, and where the Press has taken the initiative, the feeling amounts almost to unanimity; and in Upper Canada, a very large proportion, if not an actual majority of the people, may be regarded as entertaining similar sentiments.

It is quite unnecessary to enter into an explanation of the causes which have led to this desire—mutually entertained in Britain and Canada—for separation. They are known to all. The measures adopted recently by the Imperial Government, have not only placed these Provinces on the same footing as strangers, but they are actually kept, by barriers and restrictions, over which they can exercise no control, from a participation, on favorable terms, in the trade of any country in the world.

will be conducted on the European plan of lodging rooms, and meals as they may be ordered in the spacious and SPLENDID EEPECTORY. Porters will be up during the night to edmit lodgers, and also to call them at any time they may desire: and in the case will servants be permitted to exact or reserve peramittes.

COUGH LOZENGES.

GLASGOW, 12th January, 1847.

Sir.—I have great pleasure in informing you of the great good your excellent COUGH LOZENGES have done me. In December, 1845, I caught a severe cold from riding two or three miles, one very wet night, which settled in my lungs, and quite took away my voice, so that I evold not speak above a whisper from that time until December last. I tried all kinds of medicines, but they were of no availe I was then advised to try your Lozenges, which I did only to please my friends; but before I had finished a 2s. 3d. tin, my voice, to my great joy, came back as strong as ever. as strong as ever.

DEAR Sin,—If my testimony in favour of your valuable medicine will do you any good, or be of any service to the sick and offsiered, you are welcome to make such use of it as you please. For seven or eight years I have not enjoyed perfect health. In the spring of 1844 I had some cough; I was then in Worcester County, Mass., and applied to a physician, who gave me some medicine; but it did not relieve me. I was not able to work during the summer. Last fail I was much invorse, so reduced by coughing, and aweasing nights, that I was obliged to take my room. My physician tried in vain to remove my cough, and restore me to health, but I did not expect to recover; I however concluded to try Wistar's Balsam of Wild Cherry; I was then troubled with very frequent spells of coughing, night and day; before I had taken one bottle, my ouigh was easier; I continued to take the medicine until I was able to leave my room. I have taken several bottles, and I think Wistar's Balsam of Wild Cherry and cured me; at least, I leel as well and as strong as I have for twelve years.

TURKISH BLACK SALVE UNDER THE PATRONAGE OF THE HONORABLE

THE EAST INDIA COMPARY.

THE SALVE, prepared from the original recipe procured from a celebrated Turkish clakim, (physician) of Smyraa, in Asia Minor, and which has obtained an amprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it is both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering receptions it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established agencies in all the principal Caises. They flatter themselves that when its wonderful properties shall been me more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or my occur, and for the present will content the astreament which the present will content the astreaments of which it has been used with the m si complete success. CURE OF TYPHUS FEVER, WHEN SUPPOS-ED TO BE AT THE POINT OF DEATH. Inght and more A respectable female, in the neighborhood of Loughall, was attacked with Typhus Fever, and lay for five days without having tasted any description of food. She was given over by the Surgeon, and praparations were made for her demise. Mr. Benjamin Mackie, the Quaker, whose cese is referred to above heard of the circumstance, and know mig the immense business for more it benefit that he himself bad derived from Holloway's Pills, recommended an immediate trial, and eight were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice instruccived, it appears that

very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dear, who is with his Regiment in India, the 21st Fusileers, curd himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however melignant, may be cured by taking, night and morning, cupious doser of this fine medicine. The patient should be induced to drink plenufully of warm linseed tea or barley water.

CURE OF DROPSY IN THE CHEST. Extract of a Letter from J. S. Mundy, Esq., dated Kennington, near Oxford, Dec. 2nd, 1848. o Professor HOLLOWAY:

To Professor Holloway:

Sin,—My Shepherd for some time was afflicted with Water on the Chest, when I heard of it, I im mediately advised him to try your Pills, which he did, and was perfectly cured, and is now as well as ever he was in his life. As I myself received so natonishing a cure last year from your Pills and Oint ment, it has ever since been my most carnest endeavor to make known their excellent qualities.
