THE TORONTO WORLD

Editorial: The Globe has been the loser by over a million dollars and in the other we have increased our debt by about \$750,000.

Mayor Fleming's conduct at the City Hall preface: That he has devised nothing original for the advancement of the city.

That he has failed completely to curtail the extravagance that originated in the boom days; That he has forced us to pay a higher rate than during any year since 1879;

That he is a dangerous man, and cannot be trusted with the city's interests; That a change in our majority is highly desirable.

In regard to Mayor Fleming's opponent we do not mean to say that Mr. Kennedy is the equal of Mr. E. B. Oler, but we have no hesitation in saying he is far superior to Mayor Fleming from every point of view.

Mr. Kennedy has a great capacity of view, honesty of purpose will make him an able and safe man in charge of our affairs. If Mr. Kennedy is elected Mayor we will not find it necessary to threaten him with exposure in the courts for sacrificing the people's rights.

We do not believe we will support the people and support the rights of the people. We believe he will make an honest and strenuous effort to reduce the extravagance that has characterized Mayor Fleming's administration.

Mr. Kennedy has the ability to conduct a large whole sale house turning over large sums of money annually. That of itself ought to assure the public that he can be trusted with the civic government.

Mayor Fleming's anxiety to unload the Upper Canada College property on the city aroused very grave suspicion. His hand and glove attitude in regard to the street railway excited the greatest alarm and caused the people to demand his resignation.

Should we place Fleming in power again as a plan in another opportunity to sacrifice our rights or shall we elect a man who is Fleming's superior in ability and who can be relied on not to betray any solemn trust that may be reposed in him?

If our advice and opinion is worth anything we say to our fellow-citizens, Vote for Kennedy and honest, economical government.

The World and the Middle-Road Strategy. Our conferees have been staking their reputations for enterprise on their reports of the Middle-Road strategy.

They have all, with one or two exceptions, done remarkably well in following up this case, but they will have to admit that The World has led in the procession and come out ahead.

The first clue that led to the capture of McWhirrel was got from Mr. Brown of Little York. He read a description of the murdered man's car, and the description tallied with one that had been left at his place for repair.

The World furnished the clue that led to the majority of the police force. The World published the picture of the suspected man, and it was the only paper that did so.

During the day several people called at headquarters and identified the picture as that of a man they had seen in the street. The World's picture was the only one that was identified.

Hardly in reply to the World's picture was the press to criminal matters referred to the light of recent experience in such matters. The World's picture was the only one that was identified.

Under the present system of government, the public pay for the services of the Government. The World's picture was the only one that was identified.

COLLECTOR AND PREMIER

Peter's Face and How It Lived: The story of the Toronto Registry Office. The Province Taxed to Support a Lot of Unnecessary Fee-Tod Officials—They Do Not Even Do Their Work.

Editorial: I desire, before passing to the main subject of this article, to purge my last list of Sir Oliver's tax-devouring relatives of one or two names. I strove to do so, but I had to depend to some extent upon information furnished by others at a distance who themselves were wrong.

The difficulty of obtaining correct information has been underlined by the fact that the Globe has been misled on the names of its political bedfellows. The following list is intended to be a list of those who have been associated with Sir Oliver Mowat.

The names to be omitted are those of Mr. Duff of the School of Science, Mr. Duff of Depue and Mr. Robinson of Kingston. As regards the latter I appear to have been entirely misinformed. I deeply regret that I have caused some gentleman some annoyance by associating his name with that of Sir Oliver Mowat.

Leaving, however, 20 municipalities, I have to mention: 1. F. Mowat, son, sheriff of Ontario. 2. J. F. Mowat, nephew, clerk in License Department. 3. Duff, brother-in-law, police magistrate, Kingston.

4. C. O. Strange, nephew, clerk at Ottawa. 5. T. Langton, son-in-law, extra legal work. 6. H. H. Langton, brother of above, registrar of Toronto University.

7. Dr. Primrose, nephew-in-law, professor Toronto University. 8. Mr. Fraser, brother-in-law, clerk of the Crown, Kingston, since deceased. 9. Miss Fraser, niece, clerk of deputy registrar, Toronto.

10. G. R. Pastello, son-in-law's deputy registrar, County of Oxford. 11. B. Fraser, Department of Justice, Ottawa, salary, \$1,800, appointed by Hon. A. M. Macdonnell, 1914.

Omitting the Messrs. Duff, these persons must draw \$120,000 a year from the public. It is not a small sum. It is a sum that will be "listed" on another occasion. The Globe must admit that this list is correct, while ending excuses for Fee Paid.

Upon looking through the returns for 1932 relating to registrars, I find that 163 registrars received a total of \$23,400 out of this sum they have paid in disbursements the sum of \$75,380.95 to have the work done for them, leaving a balance of \$51,980.95. This sum has been paid \$33,291.05 to some of the municipalities under the Municipal Act.

Some of the municipalities are required to record them for their expenditure in erecting, furnishing and heating the various buildings. This goes to some of the municipalities. The net balance, which goes into the pockets of registrars, is \$18,689.90. There are, however, 163 registrars, and the net annual loss is \$2,900,000 annually, besides the cost of the buildings, etc., which would amount to \$1,000,000.

Under the present system of government, the public pay for the services of the Government. The World's picture was the only one that was identified.

FINANCE AND TRADE

"It looks very much as if money will be lower at the beginning of the year," said a broker yesterday. "Money is accumulating at all the chief centres, for the reason that business is in such a state that there is little inducement for capitalists to enter into new enterprises."

The feeling in speculative circles is anything but cheering. The tendency of the securities is towards a lower level, and those operating have lost considerable sums during the year. One of Toronto's brokers has averaged in Chicago and New York through his leads over a number of years have losses of \$100,000 a year.

The available reserves of Canadian banks during the month of November increased to the extent of about \$1,500,000, but the percentage of reserve to liability of the banks is kept down owing to the increase in deposits. There has also been an increase in savings bank deposits, all going into the bank at present is timid and afraid to venture into new commercial channels.

The shippers of flour in Montreal for export will be allowed to pay per barrel rebate of 15c on the price of flour. The rebate will be in the form of a credit on the winter storage, and on proof of exportation in the spring the amount stated will be allowed shippers.

The returns of railways for the third week of December are coming in and showing up very poorly. The Canadian Pacific's returns are a decrease of \$76,000, and Chicago and St. Paul's a decrease of \$174,000 as compared with the corresponding week of last year. The outlook, to say the least, is far from satisfactory.

The condition of the Atchafalaya River is deplorable. It is only a few months since the whole talk of the street was that dividends would be resumed soon, and this morning it is reported that the Atchafalaya is a higher price than current ones.

The decline in cotton stock has caught a number of operators here, but a much larger number in Montreal. These securities are down 15 to 20 per cent. since they closed last month. Overproduction is assigned as the chief cause of the decline.

FOUND DEAD IN BED. The President of the Union Loan and Savings Company Suddenly Expires. James G. McGe, aged 72, president of the Union Loan and Savings Company, died suddenly at his residence 112 College-st. last night at 11 o'clock. He retired apparently in his usual health Monday evening, but when his daughter went to call him yesterday morning about 9 o'clock she found him dead in bed.

Mr. McGe, who was born in Belfast, Ireland, was at one time manager and subsequently treasurer of the Industrial Exhibition Association, and for several years was an alderman of the city. He leaves a wife and grown-up family.

Death of Mr. William Dickson, Sr. Toronto, in whose death yesterday, a respected citizen in the death yesterday of Mr. William Dickson, Sr., father of Mr. William Dickson of the firm of Dickson & Townsend. Mr. Dickson, who was 90 years of age, was a resident of Toronto since 1838, when he came here from Cincinnati and took a position as English buyer for the firm of W. L. Perry & Co. in 1857. He succeeded to the business and established the firm of Dickson, Scott & Co. Mr. Dickson also served on the Provincial Board of Health for 20 years ago when he retired, and has since that time lived a retired life. He died at the residence of his son-in-law, Mr. G. C. Steele, 78 Pembroke-st., and the funeral will take place from that address at 2 p.m. Thursday.

Never so never, before were overcast and gloomy days as they are now at the end of the year.

A French Priest. PARIS, Dec. 26.—It having been reported that a British colony was to be founded in the Gulf of Lybia. The figure to be formed of a British colony there.

Pale children should use Mother Gray's Worm Expeller. Worms are one of the most common causes of disease, and should be expelled from the system.

A Deafener Arrested. WINNIPEG, Dec. 26.—Edward Harley, the accountant of Messrs. Hough and Campbell, who was arrested several days ago, leaving a shortage of \$2000. Harley was arrested today at Regina, where he had been arrested on a charge of defrauding the firm.

Through Wagner Vestibule Blunder Sleep Big Car Toronto to New York. The West's worst sleeping car blunder, city residents, occurred several days ago, leaving a shortage of \$2000. Harley was arrested today at Regina, where he had been arrested on a charge of defrauding the firm.

Dr. Wood's Norway Pine Syrup cures all throat and lung troubles, such as cough, colds, asthma, bronchitis, whooping cough, etc.

Another Man Uses
