CROMPTONS corsets, nothing better.—**SWIFT'S**.

THURSDAY was Decoration Day in the United States.

THE "safety first" idea, we take it, originated with Mr. Gillette.

It is hard to say whether Germany is really starving or just shamming.

THE shortage of paper can scarcely account for the shortage in women's dresses.

CONTINUE to cheer up. Remember—

"A cold and wet May, means a barren of hay."

HICKS' weather predictions for May were pretty close. For June he predicts a storm period from the 2nd to the 7th.

LADIES' pumps and strap slippers, black and tan, special bargains to clear at White's Shoe Store.

WONDER if the Government Thrift Campaign has anything to do with the Small Waist Movement in Feminine Fashions?

GOVERNMENT officials have notified Ontario bakers that all bread must be made up in either twelve or twenty-four ounce loaves.

SEVERAL auto loads from surrounding towns were here before breakfast Monday morning to join in the welcome to Lambtons 149.

8 DOZEN boys' and men's straw hats 10 and 12c.—**SWIFT'S**.

OF all the sad words

By tongue or pen,

The saddest are these,

It's raining again.

MR. A. B. STEER, principal of the high school, will conduct both services in the absence of the minister.

BEING short of money, food and hope in Germany it was really a good idea to begin saving the only thing available, which was the daylight.

AT this time of the year the wise and provident man lays in his winter's supply of coal—that is, of course, if the wise and provident man has the price.

THE girls and boys of the entrance class at the public school are working overtime these days in order to make doubly sure of success at the exams.

RUSH sale of ladies' suits \$5.00 and \$7.50.—**SWIFT'S**.

THE Pittsburgh Chronicle is asking "If your father were English, would you hate yourself?" We would likely be neutral—or hyphenate.

Pure Fruit Flavours exclusively are used in the fillings for LIGHT'S CHOCOLATES which are sold and guaranteed by all Rexall Drug Stores.—J. W. McLAREN.

THE annual meeting of the Canadian Press Association is being held in Toronto this week with a trip to Fort William starting Saturday. Owing to the lack of help the editor was unable to attend.

ONE drive in girls and women's summer shoes at P. DODDS & SON. Women's pumps and slippers \$1.25; high shoes, patent and gun metal \$2.25. Call and see them.

THERE will be morning and evening service in Trinity Church on Sunday. The morning sermon will be especially for young people. There will be a celebration of the Holy Communion.

THE regular meeting of the Watford Women's Institute will be held at the home of Mrs. J. McKeercher on Wednesday, June 7th. There will be a question drawer at this meeting. Members, come prepared.

"HERE's something queer," said the dentist. "You say this tooth has never been worked on before, but I find small flakes of gold on my instrument." "I think you have struck my back collar button," replied the victim.

CHINA matting squares, 6 by 9, and 9 by 9. Special small squares 40 cents.—**SWIFT'S**.

It is generally understood among coal dealers that no summer reduction in anthracite coal prices will take place, but that a raise in price of 25 cents a ton is looked for. After October 1st, an increase of 50 cents probably will result.

THE Wednesday half holiday will be observed by the merchants of Watford this summer as before, commencing on Wednesday, June 7th, and continuing until the end of August. Make a note of this and do your shopping in the morning. m5-11

SINCE and North York weekly newspapers have raised the subscription price to \$1.50 a year. This step has been made necessary by the rapid increase of costs in all departments. Lambton will soon be the only county in Ontario with dollar weeklies.

AN American aviator thinks Verdun is the last dying gasp of the Germans. But even American aviators have been known to be mistaken. On the other hand, as long as he thinks right, it wouldn't matter if it were an American Ape that emitted an opinion.

Big range of wash dressings, shillings and five cents per yard.—**SWIFT'S**.

WE have an opening for a smart boy to learn the art of printing.

MANY Ontario towns and villages are advocating an increased poll tax.

COUNTY ORANGE LODGE of East Lambton will be in Watford June 7th.—F. SMITH, W. M.

THE newest in hats open this week.—**SWIFT'S**. Also new shirts, collars and ties.

ATTEMPTS make it a rule to break your match in two before throwing it away and you will never cause a fire.

FOOD supplies in Britain are said to be running low. If Ontario suffers much more wet weather the supplies will likely be low here.

It might help some if the censor were able to grab some of the money that goes to out-of-town merchants, and turn it over to our stores.

CHARLEY CHAPLIN has lost the first round in a suit against him for half a million dollars. Even the funny men have their sad moments.

MEN'S tan and black Oxford shoes, price \$4.00 to \$5.00. Sale price \$1.99 to \$2.49 at White's.

SEND in your news items and send them in early in the week. Remember a weekly newspaper office week begins on Friday and ends on Thursday.

PAT—Yes, sort, work is scarce, but I got a job last Sunday that brought me five dollars. Mr. Smith—What? You broke the Sabatini Pat (apologetically)—Well, sort, 'twas wan av us had 't' broke!

It is very quiet around the government property just now. The Armory is locked up for the first time since it was built. A penalty of not exceeding two years' imprisonment with hard labor may be imposed.

DESERTERS from the Canadian forces will in future be tried by civil courts, whether in this country or in England. A penalty of not exceeding two years' imprisonment with hard labor may be imposed.

THE boys in khaki are gone and many a home in this district is sad today, in spite of the fact that the men will have many opportunities to again visit their loved ones before the orders come to leave for the Old Country.

THE June crop report issued by the Fruit Branch of the Department of Agriculture is optimistic for a large crop of all kinds of fruit. In speaking of peaches it says there is promise of a heavy crop in Essex and Lambton.

FINE showing is floor rugs 9 by 10.6, and 9 by 12 and 10.6 by 13.6.—**SWIFT'S**.

CORN planting time is now upon us and we find things very unfavorable for seeding operations. Continued wet weather has left seeding time very late and the ground tough and difficult to work. It looks as if corn planting will be carried on under very unfavorable conditions.

WOOL WANTED—Highest cash prices paid at the freight sheds, Watford, on Friday afternoon, June 9th, or delivered any time previous to that date on our premises, lot 18, con. 15, Navoo Road, Brooke. For prices phone 4821, Brooke Municipal line.—**LETT BROS.**

ON Sunday evening next, in the Congregational Church the Rev. R. M. Stevenson will preach on that date on the subject: "The Doom of Turkey as foretold in the Prophetic Scriptures." All who are interested in the study of the "Signs of the Times" are heartily invited to this service. Come and bring your bibles.

NEL BENNETT met with a painful accident at the Andrews Wire Works on Friday. He was assisting in placing in position a new electric welder just purchased by the firm and while his hands were beneath the machine it slipped off a crowbar crushing the first finger and thumb of his left hand and the index finger of his right hand. It will be several weeks before the injured hands are better.

LADIES' button and lace calf and cloth tops, patent and gun metal vamps, \$3 to \$4.00. Sale price \$1.99 and \$2.49 at White's.

MRS. is the only animal that eats when he is sick. If he does not want to eat, his friends and attendants through mistaken kindness will try to force him to eat. They think that if a patient can only eat there is some chance of his speedy recovery. The reverse is the case, for with the exception of some chronic complaints food acts as a poison to sick people and always retards recovery. So says an exchange.

RECIPROCITY in automobile licenses between Michigan and Ontario went into effect on May 25th. If any man comes to Ontario for but a day, intending to return the same evening, he will be given a brass tag at the ferry customs office, and his machine and Michigan license will be registered there. Should the motorist wish to tour he will be required to furnish a bond hereof, which will be honored throughout the province.

The individuals and knitting circles, who are working so nobly on behalf of our soldiers, are now greatly handicapped in their good work by the very high price of yarn. At the beginning of the war yarn could be purchased at 60 cents a pound, now it costs over double that price and may go higher, although the new crop is now on the market. It is now suggested to make the upper part of the socks of cotton, reserving the wool for the foot. Retrenchment and economy are being forced upon us more and more as the war proceeds.

ATTEND the June hat sale at Swift's. Hats from 10c. to \$7.50.

THE Angel of Death has been making many visits to old people of this district during the past month.

THE marriage of Wm. James Johnston to Rose Elizabeth Lawrence took place at the Manse, Watford, on Friday May 26. The ceremony was performed by Rev. J. C. Foster.

Col. Kenward was in London Wednesday and visited the mobilization camp. He was the first Watford person to call on Lambtons 149. He reports the boys settled and comfortable although they had rather a disagreeable time for the first day or two.

PERSONAL

Mr. George Dickson of London is visiting Ed. Upton.

Mr. E. E. Logan, Winnipeg, visited at S. J. Saunders' last week.

Mr. John White was in London on business Wednesday.

Mrs. Robert Upton of Adelaide is visiting her son, Mr. Ed. Upton.

Mrs. Newell went to St. Thomas last Friday to attend the funeral of a cousin, Miss Katie Egan, who is spending a few days at the home of her brother on Erie street.

Mrs. John Bryson is visiting with friends in Port Huron and Sarnia this week.

Frank Elliot of the Merchants Bank staff, McEldale, visited at his home here this week.

W. E. Fitzgerald was in London and St. Thomas on Saturday last on legal business.

Mrs. Lowry was called to London last week by the death of her cousin, the late John A. McLurg.

Mrs. J. B. Hodgins and daughter Ullice, London, spent the week end at Mr. John Lovell's.

Rev. F. G. Robinson and Rev. J. A. Snell are attending the Methodist Conference at Kingsville.

Mrs. D. A. Maxwell is in St. Thomas this week attending the branch meeting of the W. M. S. of the Methodist church.

Miss Margaret Patterson of the staff of Wright Piano Co., Stratroy, visited in Watford and Kerwood for a few days this week.

Mr. and Mrs. Fitzgerald attended the funeral of Mr. Fitzgerald's cousin Thomas H. Stephens in London Township on Monday last.

Dr. J. F. Burnett, of Regina, spent several days in Watford and vicinity. It is 25 years since Dr. Burnett sold his veterinary practice here and moved west, and he has not visited the place since. He is now on the veterinary staff of the Northwest Mounted Police.

WARWICK

Rev. H. F. Kennedy will go to the Methodist Church at Dutton and Rev. H. J. Fair to Atwood.

Mrs. Robt. Gault and her son John, went to London on Sunday to see her sister, Mrs. John Clark.

Mr. A. B. Steer, principal Watford High School, will conduct service in Zion Methodist Church, 2nd line east, next Sunday at 2.30.

Mr. John Brunell, 18 sidered, passed away on Tuesday after a long and painful illness. He is now in his 83rd year. The funeral was held on Wednesday at the Watford cemetery.

Mrs. Hugh McKenzie, Sr., passed away at Leamington on Wednesday. The remains were expected to arrive here on Thursday, but at the time of going to press arrangements for the funeral had not been completed.

Mrs. W. J. Moore of the Main road, now in Goldbury, Sask., has already knitted 42 pair of socks for the soldiers and is getting more wool so as to complete the half hundred. Mrs. Moore is 72 years old. Not a bad record.

Elizabeth Hume, relict of the late John Clark, passed away at London on Wednesday morning aged 82 years, 3 months and 16 days. The funeral will take place on Friday at 2.30 from the residence of Robert Gault, lot 26, con. 3, S. E. R., for the Watford cemetery. Service at the house at 2 o'clock.

The annual meeting of the board of management of the Bethel Sunday school will be held in the basement of the church on Wednesday evening, May 10th, when a full list of officers and staff of teachers and assistants was named. J. F. Smith is superintendent, Fred P. Graham secretary, and John Cable treasurer. The school has had a very successful year with an average attendance of 67. The finance report shows that \$247.75 was raised for all purposes, \$68 of this being for Red Cross.

BROOKE

On Tuesday afternoon June 6th The Tipperary Red Cross Aid will meet at Mrs. D. Coristine's.

Miss Romelda and Rato Clark attended the golden wedding of their grandparents in Enniskillen on Monday.

Divine service will be held in St. James' Church on Sunday afternoon at 2.30. Sunday School at two o'clock.

WATFORD'S GOOD-BYE TO LAMBTONS 149

The Battalion Makes a Stay Here on the Way to Mobilization Camp

The Appearance of the Unit Favorably Commented on

Watford and vicinity bid good-bye to Lambtons 149 on Monday morning. The arrangements to have the battalion here about noon when they would be served with lunch were changed, and when it was found that the soldier boys would arrive early in the morning the lunch proposition was called off. Soon after daylight many citizens were at work decorating the streets and in a short time a profusion of flags, bunting and banners waved a welcome for our soldier boys. Shortly after six o'clock people from the country began to arrive and it was not long until several thousands crowded the streets and railway yard.

A few minutes after 7 o'clock the first section of the troop train arrived, and as the men left the train they were greeted with welcoming cheers. About half an hour later the second section pulled in and the battalion formed in the railway yard. Soon the order was given and the unit marched up town headed by the brass band playing "The Men of Harloch." The signalling corps came ahead of the companies and the bugle band occupied a place near the centre of the procession. The appearance of the battalion was one that excited the most favorable comment. Officers and men looked to be in the pink of condition. The Indian platoon was received with cheers, the spectators desiring to acknowledge the loyalty of the Indian braves. The smartness of the unit—over 1000 strong—made a very favorable impression. The physique of the men is splendid, they marched with precision and looked fit and ready for anything. They appear like a bunch of men who will be able to stand the strain and hardships of the trenches and who will give a good account of themselves when they get to the front.

When the parade reached the Presbyterian church a counter march was made and the unit returned to the depot and entrained. The trains pulled out for London shortly afterwards amid cheers and waving of flags. The boys left behind them many sad hearts and tearful eyes, yet there was a feeling that Lambtons 149 would give a good account of itself wherever it is sent. Lieut.-Col. T. B. Bradley and officers have a bunch of boys they may well feel proud of and deserve credit for the efficiency attained in so short a time. When it was found that many of the men had not had any breakfast patriotic and hospitable citizens bestowed themselves getting sandwiches, fruit, cakes, etc., which were handed to the men.

Lambton's brave soldier boys have gone. May they all return home safe and well is the prayer of every loyal person in the community.

Obituary

Elizabeth Thompson died at the home of her sister Mrs. D. Gillies, Front St., on Monday afternoon, May 22nd. Her parents were among the pioneer settlers of the 7th con. McGillivray, Middlesex Co. She was born on St. Patrick's Day in the year 1859. She lived at home on the farm where she was born until the death of her father in the year 1888, after which she took up dress-making and continued to work at her trade till within a few weeks of her death. She was confined to her bed for three weeks. The funeral took place on Wednesday afternoon, May 24th, to Alvinston cemetery where her remains were interred beside those of her sister, Mrs. Moir. Two sisters, Miss Thompson of Warwick, and Mrs. Gillies of Watford, and two brothers, Walter Thompson, of Mantario, Sask., and James Thompson of Pierson, Man., are left to mourn her loss. Rev. F. G. Robinson conducted the funeral service at the grave. The pall bearers were Angus Mitchell, C. Mansfield, John McKeercher, Wm. McKeercher, W. S. Kelly and Wm. Styles.

CHOP STUFF

Glencoe has organized a baseball club. J. E. Richardson, butcher, Thamesville, paid \$140.40 for two yearling heifers. They weighed together 1660 lbs.

Three ministers—a Presbyterian, Anglican and a Baptist—have joined the 161st (Huron) Batt. as privates.

Nine drivers of automobiles have been summoned before a Glencoe J. P. for disregarding the motor traffic law.

Bresden has secured 600 yards of gravel from the Caldwell Gravel Co., at 50c per yard as promised by Jos. Armstrong, M. P.

At the regular meeting of the Petrolia Council a resolution was adopted favoring the daylight-saving scheme for the Dominion.

Richard England was fined \$10 and costs for attempting to shoot a neighbor, Geo. Lucas, of Ixkrid. He got off very easy.

W. G. Parker, a Sarnia barber, sold a Boston terrier for \$100 the other day. Dogs like everything else have gone up in price.

Rennet, one of the principal ingredients in the manufacture of cheese, has increased in price since the war broke out from \$1.80 to \$5 a gallon.

Mrs. Neil Dewar, of Plympton, announces the engagement of her youngest daughter, Kate Kosella, to John A. Simpson, of Plympton, the marriage to take place early in June.

Gunner W. Roche, of Forest, was tendered a reception by the choir of St. Christopher's church and presented with a Gillette safety razor and blades. He was a valued member of the choir before enlisting.

The sum of \$72.69 was raised in Theodora on "Good-Bye Day" by the sale of tags. In addition to this some \$35 was gathered by Lieut. Williams and a few young ladies by the sale of "Lambtons 149 Marching Song."

A barn belonging to Oliver Tennant, of the 6th line of Enniskillen, was struck by lightning during Saturday morning's storm. The hay in one mow was ignited, but was extinguished by Mr. Tennant's efforts before much damage was done.

Donald—Nichol

A pretty wedding was solemnized at the home of Pte. John Nichol, Wyoming, of 149th Battalion on Saturday afternoon at 4 o'clock, when his second daughter, Eiley, became the bride of Stewart Donald, son of Mr. and Mrs. J. F. Donald, second line, Plympton. The bride looked charming in a gown of ivory satin and wearing a wedding veil, caught up with orange blossoms, and carrying a bouquet of roses and lily of the valley, when she entered the parlor leaning on the arm of her father, to the strains of Lohengrin's Wedding March, played by Miss Anna Nichol. The ceremony was performed by Rev. J. W. Pring, pastor of the Methodist Church here. After the ceremony the wedding party set down to a sumptuous wedding dinner, after which the couple left by the 7.05 train for Detroit, and other points amid showers of confetti and the best wishes of a host of friends. Mr. and Mrs. Donald will take up residence in Wyoming for the present.

BORN

In Warwick, on Sunday May 21st, 1916, to Mr. and Mrs. Jos. Dignan, a daughter.

In Warwick, on Thursday, May 18th, to Mr. and Mrs. Cassidy, a son.

In Brooke, on Thursday, May 18th, 1916, to Mr. and Mrs. Foster Smith, a son.

In Warwick, on Thursday, May 11th, to Mr. and Mrs. John Cable, a son.

In Warwick, on Friday, May 19th, to Mr. and Mrs. Chas. McPiereson, a son.

In Alvinston, on Sunday, May 14th, 1916 to Mr. and Mrs. C. V. Kincaid, a daughter.

DIED.

In Warwick, on Tuesday, May 30th, 1916, John Brunell, aged 82 years, 4 months, 20 days.

In Forest, on Saturday, May 20th, 1916, Mr. George Milner, in his 58th year. Bosanquet, May 11th, Cecil Maude Davidson, in her 12th year.

Parkhill, Sunday May 21st, 1916, Thomas Munro, aged 49 years.

In London, on Wednesday, May 31st, Mrs. John Clark of Watford, in her 83rd year.

Letter of Thanks

A letter from Fannie F. Edwards, treasurer of the Women's Canadian Club, writes to the secretary of the Watford Patriotic League in part as follows:—
DEAR MADAM—The bales sent by the Watford Patriotic League were received by our Serbia relief committee and forwarded the first week in May with our Serbian shipment. Please thank the Patriotic League for our committee. We do appreciate their help in this needy work. A splendid lot of clothing was shipped. Please tell your League to keep any clothing they have collected or made until September. They ask only for money and hospital supplies just now as transportation is limited.
Sincerely, F. S. EDWARDS.

THE WORRIES IN THE HOME

These That Bring Wrinkles and Make Women Look Prematurely Old

most every woman at the head of her household has a little worry. To these thus afflicted Dr. Williams' Pink Pills may be noticed in sick or nervous states, fickle appetite, pain in the side, sallow complexion and the signs of wrinkles, which every woman who has found new health in Dr. Williams' Pink Pills is Mrs. Emma B. Williams of Brockton, Mass., who writes: "I was so weak and run down that I was unable to do anything. The doctor said I was anemic and I was to take iron. I called in another doctor, but to no better results. My feet and legs were so swollen, I suffered with rheumatism in my back and sides. I was all day dragging around at my old work, and I was beginning to despair. I had been told that Dr. Williams' Pink Pills were a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockton, Mass.

Something approaching the proportion of a tidal wave struck the lake at Grand Bend on Monday when a water six feet high rushed into the water house from its moored boats high and dry on the bank of the Cut, and pushing the Cut, destroyed a portion of the bank of the big bridge. Nothing of the sort was ever before witnessed at Grand Bend.

WIFE TOO ILL TO WORK IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy." — Mrs. Wm. GREEN, 332 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

WATFORD, JUNE 2, 1916

NOTE AND COMMENT

Ottawa Citizen.—But it is a peculiar thing that when any fantastic expression of patriotism is proposed it is inevitably the newspapers that are called upon to make whatever financial sacrifices may be involved should the plan necessitate the participation of the press.

Sunday night the British clocks were moved on one hour throughout the three kingdoms, and the people will enjoy an extra hour of sunshine, or at least daylight, in their pleasures and occupations until the end of September. Germany took the lead in this progressive and economical step on the first of this month and has been followed by Holland, France, Norway, Sweden and all the northern countries. The saving in light and fuel will run into millions.

The New York Outlook.—A characteristic Chicago story was about a builder who was asked when he could undertake a contract for erecting a church. "I have a house to build to-day and a market to-morrow; but maybe I could put up your church day after to-morrow." The expedition suggested in this story is matched in reality by the reported feat of contractors in Toledo, Ohio. They put up a five-room house, with bath-room, in twelve hours. More than two hundred workmen were employed. The house was a wedding gift from the Toledo Real Estate Board to one of its employes, and cost \$4,000.

Its Virtue Cannot be Described.—No one can explain the subtle power that Dr. Thomas' Electric Oil possesses. The originator was himself surprised by the wonderful qualities that his compound possessed. That he was the benefactor of wonderful Oil. So familiar is everyone with it that it is prized as a household medicine everywhere.

TOP OF THE WORLD

Nature's Skyscraper That Towers High Above All Others.

THE GIANT MOUNT EVEREST.

This Still Unconquered Peak Is in a Wild Country That is Extremely Difficult to Traverse and Has So Far Defied the Surveyors of India.

For many years the East Indian government has prohibited any attempt at the ascent of Mount Everest. As long ago as 1902 six European Alpinists set out for India to view the world from the top of its highest mountain. But the virgin snows of Everest could not have cooled their ardor half so rapidly as did the cold water with which the Indian government soured them. The mountaineers simply met with a blank refusal, and the reason of it was perfectly obvious and logical.

The nearest approach of a railroad toward Mount Everest is about 100 miles away. To the north of this railroad terminal is a succession of parallel ranges of the Himalayas separated by deep valleys. It is one of the most difficult countries in the world to traverse, and no white man has ever crossed it.

The surveyors of India have never been nearer than eighty miles from Mount Everest. Some of the valleys are peopled by a few wild tribes who fiercely resent the intrusion of any strangers. The whole country lies in Nepal, which while still an independent state strictly forbade any person to go north among these mountains, and since Nepal came under the suzerainty of India the prohibition has been continued, for obvious reasons, by the Indian government.

When the ascent of Mount Everest is finally made it will probably be on the side of Tibet, whose southern boundary is not far from the mountain, but by her agreement with China the Indian government is bound to keep explorers from crossing into Tibet from India. Permission was refused to Sven Hedin to cross the border on his last great expedition, when he finally crossed from Ladakh.

Some interesting facts about Mount Everest may not generally be known. Many persons have wondered how the determination of the height of Mount Everest could be so exact that its elevation is fixed at precisely 29,002 feet. It happened in this way: In 1849 and 1850 six trigonometrical determinations of the height of the mountain were obtained by the Indian survey at six different stations, all south of the mountain. The height of 29,002 feet assigned to Mount Everest was the mean of the six different values for the height just obtained.

But the geographical survey of India informed the world in 1908 that Mount Everest is higher than it was computed to be by those six trigonometrical determinations. It reported that between 1881 and 1902 six other determinations of the height of the mountain were made at five stations, all excepting one being nearer to the mountain than the previous surveys. These six new determinations gave a mean value of 29,141 feet after correction for refraction. According, therefore, to our present information, Mount Everest is 139 feet higher than it was earlier computed to be.

Why is it, then, that this latest result of the scientific computation of the height of Mount Everest has not yet appeared in books and maps? It is because the Indian survey is not convinced that the final determination has been reached. It says that the height, 29,141 feet, is a more reliable result than 29,002 feet, but the more recent determination is still probably too small. It desires to acquire more thorough knowledge of the problems of refraction and of the effects of deviations of gravity upon trigonometrical work before announcing the final determination of the elevation of the world's highest mountain. Meanwhile it will retain on its maps the first determination of 29,002 feet.

This decision certainly commended itself. It would be more vexatious than useful to change the figures now and then in order to add or subtract a few feet as the latest determination of the mountain's height. It is better to wait until refinement of scientific method yields the closest approximation possible. This is the suggestion of the Indian survey, and all map makers have apparently adopted it.

As the Times Change.
In the sixties the customary proposal was, "Will you be mine?" Very faintly signs are showing that men will yet say, "May I be yours?" It will take time, for the possessive, the dominating instinct in man, is still strong, and long may it live, for that is the vigor of the race. Only we do not want that instinct to carry man away, any more than we want a well bred horse

to clinch its teeth upon the bit and bolt.—W. L. George in Atlantic.

An Essay on Man.
What a chimera, then, is man! What a novelty, what a monster, what a chaos, what a subject of contradiction, what a prodigy! A judge of all things, a feeble worm of the earth, depository of the truth, cloaca of uncertainty and error, the glory and the shame of the universe.

Children think not of the past nor of what is to come, but enjoy the present time, which few of us do.—La Bruyere.

Example of Labor Efficiency.
Efficiency of farm labor is often as important as its distribution. Two young men were plowing clover sod. Each had two horses hitched to a fourteen inch walking plow. It was heavy plowing, and each team was barely able to plow one and one-half acres a day. One morning the men decided to try three horses on one plow. They did so, and to their great surprise one man and three horses easily plowed three acres per day. They plowed as much as two men and four horses had done and did it much more easily. It was even easier for the driver, because it is always easier to drive a team that is not overloaded. The new arrangement released one man and one horse for other work.

Some Good Ayrshire Records.
The following is a summary of the records of 683 Ayrshire cows and heifers that have qualified in the Ayrshire record of performance test from commencement to December 31, 1915: 202 mature cows gave a yearly average of 10,277.32 lbs. milk and 412.26 lbs. butter fat; 66 four-year-olds gave 9,281.50 lbs. milk and 378.06 lbs. butter fat; 136 three-year-olds gave 8,340.84 lbs. milk and 344.25 lbs. butter fat; 279 two-year-olds gave 7,501.65 lbs. milk and 309.27 lbs. butter fat.

Feeding Young Chicks.
When the chicks are removed to their brooding quarters there should be some coarse sand or fine chick grit scattered where they can have free access to it. They should then be left until they show positive signs of hunger, which would be between two and three days after hatching. They may then be given some bread crumbs that have been very slightly moistened with milk.

Western Harvest Hands.
The Saskatchewan Provincial Labor Bureau placed a total of 26,750 harvest hands during the past season. Of this number 16,230 were obtained from eastern Canada, 2,600 from British Columbia, 7,250 from various cities of the Province, and 1,700 soldiers from the various military camps.

Canada's Wheat Acreage.
From 1910 to 1915 there was an increase of less than 50 per cent. in the wheat acreage of Canada, but there was in the same time an addition of nearly 200 per cent. to the yield. The larger yield of 1915 was, however, mainly the result of an exceptionally favorable season.

Asthma Overcome. The triumph over asthma has assuredly come. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it to day from your dealer.

And Then Profound Thought.
She—You shouldn't squeeze my hand going out of the theater. When I squeezed back I meant you to stop. He—Me? I—why, I—I didn't touch your hand!

Differentiation.
"Have you a good cook?"
"Oh, the cook's good enough, but the cooking is atrocious."

Faith will move mountains today if backed up by hard work.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Germany is to have a "food dictator." The Kaiserland seems to be made up of dictators and men who take dictation. There is no middle class.

Winnipeg Telegram.—Can anything good come out of Toronto? If its present City Council is representative of popular sentiment, the place is beyond praying for. The Council's decision not to pay the city's share of the provincial war tax is a piece of disgraceful folly, which will spread a bad odor, even beyond the confines of Canada.

Montreal News.—The end of the war will be the beginning of a still

more glorious page in the history of the Empire. There will be an Imperial Conference of some kind, but its deliberations will not be merely tentative as they have been in the past. They will build up a fabric of sound, constructive statesmanship, that will make the British Empire the glory of all the ages. But these things must not be hurried if they are to be well and truly done.

If you really believe in Safety First, get a box of Takake pills for your sleeplessness, neuralgia, or rheumatism for they are absolutely harmless, and are sure to relieve you. Fifty cents a box at your druggists, or by mail from the Georgian Mfg. Co., Collingwood, Ont. 1

Gin Pills
FOR THE KIDNEYS

What They Have Done

"I suffered a great many years with
kidney trouble; tried several remedies, and
also doctors' medicine, with no result.
Two years ago I read an ad. in a news-
paper of "GIN PILLS FOR THE KID-
NEYS," and sent for two boxes. They did
me more good than all the medicine I had
ever taken. After I used the first two I sent
for two more boxes, and I am satisfied, and
also know, that Gin Pills are the best kidney
remedy made.

I used to have to rise three or four times
in the night; now I can sleep and don't
have to get up at all, thanks to GIN PILLS.
Am seventy-two years old.

TESTING SEED CORN.

Crop Depends Upon Soundness and
Quality of the Seed.

April is a good month in which to
make the germination test for seed
corn, says a contributor to the Farm
Progress. A vitality or germination
test should always be made, no mat-
ter how good the seed corn looks or
where it has been stored.

Even though you picked it very
carefully last fall under what looked
like ideal conditions, it is not safe to
put it into the ground without having
given it the regular test. No matter
how it was picked or where it was
stored, you cannot be sure. Water,
weather, temperature, and other fac-
tors you may have overlooked or
been unable to control may have
made your picked seed corn just
about worthless for planting pur-
poses.

There is just one way to make sure
of what you are doing, and that is to
put it through the most rigid tests
that can be given under the vitality
or germination method. You want
to remember that on the soundness
and the quality of this corn you are
gambling the sum total of your sum-
mer's sweat in that cornfield. If it is

OAT SMUT PREVENTION.

How to Treat the Seed With Formalin Solution.

The average annual losses from
smut in oats are greater than those
caused by any other preventable
disease in Canada. Treating the
seed with hot water or with for-
maldehyde solution before sowing is
an easy, cheap, and effective way
of preventing this disease. The latter
method, which is the most avail-
able for general use, is here briefly
summarized.

Mix the formalin (a commercial
preparation which is 37 per cent
formaldehyde by weight) with water
at the rate of a pound (a little less
than a pint) to forty gallons of wa-
ter. The grain may be either loosely
inclosed in sacks or put loose into a
tub or vat with the solution. Agi-
tate the sacks or stir the loose grain
occasionally so that the entire sur-
face of every grain will be immer-
ged. Instead of being thoroughly
wet, the seed oats may be spread on a

not what it should be you are wast-
ing a large percentage of every day's
work can be given under the vitality
or germination method. You want
to remember that on the soundness
and the quality of this corn you are
gambling the sum total of your sum-
mer's sweat in that cornfield. If it is

clean floor or canvas and sprinkled
with the solution and shoveled over
during the process so that they will
be wet evenly, as in the other meth-
od. Not over a gallon of solution
will be needed for every bushel of
dry grain. After sprinkling shovel
the seed into a pile, cover it with
sacks wet with the solution, and al-
low it to stand for at least two
hours before spreading it out to dry.

Precautions.—The oats may be
seeded as soon as dry enough to run
through the drill. If the seed is still
moist, however, the drill must be set
to sow more to the acre than if it is
dry. The quantity which should be
sown may be determined by measur-
ing a given bulk before and after
treatment and figuring the propor-
tion of increase. After treating do
not expose the seed to freezing until
it is thoroughly dry.

Do not allow the treated seed to
come into contact with old sacks,
bins, or machinery in which there
may be smut spores. If such must
be used seal them or wash them first
with the formaldehyde solution.

Children Cry FOR FLETCHER'S CASTORIA

to keep the sprouts from coming
through and over this spread a
piece of burlap well soaked. Some
people use blotting paper for this
purpose.

Put the testing box in the living
room or somewhere else where the
temperature is always about the
same. It should not be colder than
55 degrees at night, and in anywhere
from four to six days the grains will
begin to sprout. Any ear that fails
to have five kernels that will germi-
nate should be thrown out of the seed
corn pile.

Keep the house plants clean and
you will not be bothered with mealy
bug or aphids.

Do not allow the treated seed to
come into contact with old sacks,
bins, or machinery in which there
may be smut spores. If such must
be used seal them or wash them first
with the formaldehyde solution.

MORE MEN THAN WOMEN HAVE APPENDICITIS

Surgeons state men are slightly more
subject to appendicitis than women.
Watford people should know that a few
doses of simple buckthorn bark, glycer-
ine, etc., as mixed in Adler-ika, often
relieve or prevent appendicitis. This
mixture removes such surprising foul
matter that ONE SPOONFUL relieves
almost ANY CASE constipation, sour
stomach or gas. The INSTANT, easy
action of Adler-ika is surprising.—
Taylor & Son, druggists

HANGING PICTURES.

This is a Task That Should Produce Artistic Results.

In going over one's pictures elimi-
nate all but the choicest and best be-
loved and try to group together the
pictures whose subjects are somewhat
related or which have a similarity in
frames. Indeed, even when subjects
are closely related it is not possible all
ways to hang pictures together owing
to a too great difference in the kind of
frames. As a rule, any room looks
better, especially small rooms, where
only one color frame is used on all pic-
tures, but if this is not possible then
the next best thing is to keep all of
the pictures in gilt frames in one part
of the room, all of the dark framed
pictures on another wall, etc.

Also one can get the best results by
separating water colors and prints,
and etchings or engravings should, of
course, always be hung apart from
other pictures. Another point frequ-
ently overlooked is the wisdom of putting
the darker pictures on the wall that
receives the best light from windows
and contrariwise the gilt framed pic-
tures of lighter subjects where they
may serve to brighten a dark part of
the room.

Finally do not crowd the walls. Hang
pictures well in line with the eyes of a
person of average height and, of course,
choose plain walls, tinted or papered,
for backgrounds.

RESERVE BATTERY, C.P.A.

Guide-Advocate

HARRIS & CO. PROPRIETORS.

WATFORD, JUNE 2, 1916

NOTE AND COMMENT

Berlin may devise explanations galore but she will never be able to convince the world that anything but a German torpedo caused the sinking of the Cymric.

—

Advices from the British War Office indicate that a very considerable number of horses for military purposes will be required from Canada this summer. Buying on a somewhat extensive scale is to be resumed by the British Remount Commission, with headquarters at Montreal. About sixty thousand horses have been purchased in Canada for war purposes by the allied governments since the outbreak of the war, while more than six hundred thousand have been purchased in the United States. Probably another twenty thousand will be purchased in Canada this year. This insures a steady market and continued good prices for horses suitable for artillery and transport work.

—

The question was recently raised in the Ontario Legislature of whether or not a farmer should be penalized for putting a system of tile drainage on his farm. If, instead of placing his money in a bank, which immediately transports it to the city to build up city industries, he invests it in drains on his farm, thereby adding wealth to his community and increasing the production of foodstuffs for the Empire, should he be pounced upon by the tax collector and fined for so doing? That is exactly what is being done to-day. If a farmer installs a tile drainage system his assessment is increased and his taxes raised. This is but an instance of the way in which our present system of taxation militates against industry. So long as a man shifts along without putting any improvements on his farm his assessment is left practically untouched. But once let him begin to improve his property, to build a home or drain a field, and down comes the assessor and up go his taxes. Our legislators seem to think that the best way to encourage the development of a country is to penalize industry and to put a premium on indolence.—Echo.

A recently patented flytrap is made of paper and cotton and is intended to be burned when filed with insects.

In a new combination tool invented by a Frenchman the head of the hammer also can be used as cutting pliers.

For testing textiles an Englishman has invented a which passes fabrics under a microscope while at the same time they are subjected to powerful electric lights both above and below their surfaces.

The ease with which corns and warts can be removed by Holloway's Corn Cure is its strongest recommendation. It seldom fails.

County police will enforce the motor vehicles act which says that automobile drivers must not use glaring lights while driving through urban districts. Although the act has been on the statute books of Ontario for several years, little attention was given it by the authorities.

The lease of the Weesbeach hotel having run out, considerable of the contents were sold off the past week. The season at the beach last year owing to the disagreeable weather which prevailed was discouraging. There is some doubt whether the two hotels will be run this year.

Fruit growers in the district of Clendoye, Ont., report the appearance of the tent caterpillar in their section. The webs are very small but very numerous. The fruit growers say that if something is not done immediately to check the pest the damage to the orchards will mean a heavy loss this summer.

The rural mail carriers find that the names are disappearing from many boxes on their routes. If you miss your mail today or tomorrow, don't blame the carrier. First look at your mail box and see if your name is distinctly printed on both sides. A new man occasionally goes the rounds, and if the names are not to be seen, he has no way of telling and invariably passes by. The mail matter is then brought back and lies at the distributing point until next day. All those having rural mail boxes should see that their names appear prominently on the same.

Parker—Brodie, that the reeve and Mr. Hobbs be appointed to meet the parties who purchased lots from W. Lucas with power to act.—Carried.

Brodie—Hobbs, that the petitions of P. D. McCallum and of P. R. Minutely be accepted and that the clerk be instructed to notify the engineer to examine both localities and report.—Carried.

Bylaw No. 6 on the Clark drain and bylaw No. 7 on the Brodie drain were both read the first and second times and provisionally adopted. Mr. Blain was appointed com. on the Clark local drain and Mr. Brodie on the Brodie drain.

Hobbs—Brodie, that the petition of Mr. Barnes and Mr. Cook to have the Laddell drain repaired be accepted and that the clerk notify the engineer to examine the same and report.—Carried.

The council then adjourned to meet on Monday 26th June at one o'clock as a Court of Revision on the assessment roll and for general business.

N. HERBERT, Clerk.

The Late H. G. Taylor

The Wyoming Enterprise in its obituary of the late H. G. Taylor says:— "As a resident of Watford since his birth, Mr. Taylor had become almost a part of its every day life, and an indispensable factor in its government and all municipal matters relating to its welfare in which he was thoroughly posted. Mr. Taylor who was of Irish descent was a son of the late Joseph Taylor and Elizabeth Edward and was born at Smith Falls, Ont. on Feb. 17th 1848 and at the early age of 17 years had succeeded in passing the Normal School course of study and obtained a Teacher's Certificate. Shortly after came to this district and took charge of a school at Waukesha, and afterwards taught in Moss and Wyoming.

In the early sixties he entered into the position of bookkeeper for his cousin the late Geo. Taylor who for several years owned and operated the oil refinery east of the village, north of the railway until its destruction by fire. He was married in 1875 to Miss Amelia Bissett of Exeter who died in 1883 leaving two sons, William and Frank the former of whom died about 10 years ago and the latter is employed in the Grain and Stock exchange, Winnipeg.

In 1885 he married Miss Ella Miller, daughter of the late David Miller who survives, also her children, David now with the 101st batt. Winnipeg; Harry, clerk at the head office G. T. R. here, Toronto. One Belle at home in Murray street, office operator G. T. R. here. The deceased filled the office of License Inspector for East Lambton for several years under the Mowat Administration also village clerk for upwards of 30 years, Treasurer of the P. & W. Agr'l Society for the same length of time as well as Treasurer of Presbyterian church and other minor offices of trust in all of which he always proved efficient and trustworthy and had the confidence and esteem of the public during his long career in office.

BROOKE COUNCIL

On May 27th, 1916.

Council met pursuant to adjournment. Members all present. Minutes of former meeting read and on motion of Johnston and Bourne were adopted.

Communications—Alex Jamieson Sec of E. L. F. Institute, asking Council to appoint a representative on the above named Institute.

Bourne—Campbell, that reeve be appointed.—Carried.

Bourne—Johnston, that clerk notify Woolman Construction Co., to have the earth spread on the Smith—Patterson Drain, according to specifications forthwith, and that the township will hold them for any damages that may be sustained by reason of the work not being done before now.—Carried.

Kennedy—Campbell, that Coristine Drain bylaw be read a third time and finally passed.—Carried.

Kennedy—Bourne, that Council open as a Court of Revision on the appeals to the Court of Revision on the assessments in roll for 1916. The Reeve in the chair.—Carried.

Declarations taken before Clerk.

Tenders received and opened for the repair to the Zavitz Ainsley drain and McTaggart drain. Zavitz Ainsley drain, Henry Brain \$995, McTaggart drain Angus Stewart \$480.

Bourne—Kennedy, that accepting tenders on above named drains be left with commissioners.—Carried.

Kennedy—Campbell, that council open as a Court of Revision on Monro Drain bylaw with Reeve in the chair.—Carried.

Declarations taken before clerk.

Wm. Rundle sworn said townline is no outlet for the proposed work and I have sufficient drainage for my land. Lands on the south that were assessed for the original construction should still be assessed.

Seymour Soper said drain is sufficient now, assessment too high.

D. C. Turner said assessment too high, lands on the south contribute water and should be assessed.

J. F. McNally said assessment too high lot on 8 and 9 con. contribute water and should be assessed N 1/2 S 1/2 10, did not pay for the original construction.

Dugald Campbell, said assessment too high and not according to law, lands assessed for the original construction should still be assessed.

James H. Johnston said assessment too high as my lands drains to the 9th con. lots on the south contribute water to Monro Drain and should be assessed.

Assessments too high and lands to the south should be assessed.

Monro Bros., Peter A. Campbell, E. and M. Maddock, T. Morcom and H. Fitz appeals all being the same viz:— Assessments too high and lands to the south should be assessed.

Bourne—Campbell, that the court be adjourned till Saturday the 24th day of June 1916 to open at 3 o'clock p.m. in the village of Inwood.—Carried.

Bourne—Johnston, that telephone system be advanced \$400.—Carried.

Kennedy—Bourne, that council do now adjourn to meet in the Village of Inwood on Saturday the 24th day of June 1916.—Carried.

W. J. WREED, Clerk.

The Late George Fuller.

One of the oldest residents of Warwick township passed away on Tuesday of last week at his home in Arkona, in the person of Mr. George Fuller. Born in the city of Quebec in 1832, at the age of 83 years he came with his parents to the township of Adelaide which was then wilderness. When a young man, he with his brother, the late John Fuller, settled on adjoining farms in the township of Warwick and shared with each other the privations and hardships incident to pioneer life. From this time his life was closely connected with the growth and development of Warwick township, in which township and throughout the surrounding country he was always recognized as a successful and progressive farmer. For many years he acted as Assessor for Warwick, and later as tax gatherer. Mr. Fuller, like many others who lived in the pioneer days, had few educational advantages, but through his determination and perseverance, which were ever his outstanding characteristics, he became a man widely read on all topics of the day. Although he took no active interest in politics he always formed a liberal and broadminded opinion on all questions pertaining to the country's welfare.

Mr. Fuller was married in 1854 to Miss Sarah Clarke of Adelaide, who together with nine children survive him. Mrs. Fuller was always a faithful helpmate sharing in a worthy manner the joys and sorrows incident to their long wedded life. Mr. and Mrs. Fuller celebrated their Diamond wedding two years ago and had the pleasure of having at the gathering at that time, their surviving children, many of their grandchildren and great grandchildren.

In his earlier years Mr. Fuller was a local preacher of the Methodist Church but was later identified with the Plymouth Brethren.

The funeral was held on Thursday afternoon from his late residence in Arkona and interment took place in the Arkona cemetery. The service was conducted by Mr. Chas. Innis, of Toronto.

AN EXCELLENT MEDICINE FOR CHILDHOOD AILMENTS

Baby's Own Tablets are an excellent remedy for childhood ailments. They regulate the bowels, sweeten the stomach, banish colds and simple fevers and cure all minor ills of little ones. Concerning them Mrs. H. N. Eisan, Owls Head, N. S., writes: "I always use Baby's Own Tablets for my little ones and find them an excellent medicine for childhood ailments." The Tablets are sold by medicine dealers or by mail at 25cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

The junk collected in the town cleanup day was sold by the I. O. O. F. of the Chatham men for \$123.70. J. Goldberg in turn bought it from the Chatham men, paying \$160. The old iron was not included in this.—Ridgeway Dominion.

For years Mother Graves' Worm exterminator has ranked as the most effective preparation manufactured, and it always maintains its reputation.

MRS. MASON'S SCHEME

A Story For Easter Sunday

By BARBARA PHIPPS

Horace Baxter, twenty-four years old, had been graduated from an Episcopal theological seminary, had packed his trunk preparatory to leaving for home and was looking over a time table to see what train he should take when a maid brought to his room a postcard from the bishop requesting him to call. Wondering what could be wanted of him, he went immediately to answer the summons.

Baxter had shown unusual proficiency, originality and withal a special ability for speaking without notes. He stood high in his class.

"I received your call, bishop," he said, "and have come."

"Ah, Mr. Baxter. H'm; be seated."

Reaching toward a table near by, the bishop fumbled among some papers, selected one, took out of his waistcoat pocket a pair of gold rimmed glasses, wiped them with a cambric handkerchief, looked over the paper, thought a while, then said:

"I have here a letter from a widow who is apparently wealthy, for she has built a church in memory of her husband. She desires me to recommend some young recent graduate for the position of its rector. The salary is surprisingly large for a beginner—two thousand a year."

Baxter was caught in a whirl of expectation.

"There is a curious condition to the appointment," continued the bishop, "which may or may not be considered an encumbrance. At first I was suspicious that there might be something wrong about it all. It doesn't seem to me that any sane woman would suggest such a condition."

"What is this condition?" asked Baxter anxiously.

The bishop lowered his face so that he could see the curate over his glasses and replied:

"That the rector shall marry the owner of the church."

Baxter caught his breath.

"I have made inquiry," the bishop continued, "and have learned that the matter is a bona fide offer."

"How old is the lady?" asked Baxter, unable to control his desire to know the truth.

"She is described as a woman of not much over forty and well preserved. There is nothing very bad, so far as her age and physique are concerned, but—"

"But what?"

"I have been given to understand that she is considered very queer. No one can foretell just what she is going to do."

"Quite likely, considering what she has done in this case," remarked Baxter, looking at a clock on the mantel and thinking of trains.

But the bishop was not thinking of trains. He was thinking how he might put the case in a light that would be of ultimate advantage to a young man whose career promised to be brilliant, but who, he thought, should take advantage of any fortuitous circumstance that might arise.

Resting his elbows on the arms of his chair and putting the tips of the fingers of one hand against those of the other, he leaned back and proceeded:

"The proposition is that the candidate shall preach a sermon on next Easter Sunday in the church. He will dine with the owner, thus making her acquaintance. If she is pleased with him and his sermon and if he is pleased with her the arrangement may be perfected. If not the candidate is at liberty to go his way, and the lady will look for another. My advice, Mr. Baxter, is for you to permit me to enter you as the candidate. If no advantage comes to you directly one may come indirectly. If you acquit yourself well it may lead to a call elsewhere."

This seemed reasonable to the curate. He asked if the matter of the condition would be kept secret and was informed that his not mentioning it was one of the requirements. After having spent an hour with the bishop he gave his consent and took the next train for home. Within a week he received a note from the bishop that all had been arranged, and straightway Mr. Baxter began to prepare himself for the coming ordeal.

Easter Sunday falling in a spring month is apt to be pleasant. The Easter that Baxter preached his trial sermon opened bright and beautiful. He arrived at the station at Masonia to meet an auto sent for him by the lady whose church he was to preach in and was conveyed to her house. She was a Mrs. Mason. Her husband had died in a village, and hence

NO ALUM READ LABEL BAKING POWDER

On Baxter's arrival at the Mason homestead he was ushered into a drawing room, where he waited for some one to receive him. A heavy curtain draped an east window, and Baxter, desirous of letting in the sunlight, went to it and pulled it aside. What was his astonishment to uncover a girl. The blood rushed into her cheeks and she bolted for the door. Then the curate heard her running upstairs.

"Surely," he remarked to himself, "this whole affair is amazing. It's my opinion that in following the bishop's advice I have acted very foolishly. No good can come of it."

In a few minutes more a middle aged or, rather, elderly, woman entered the room. She was dressed in a most absurd fashion. It struck Baxter that she had rigged herself out to make herself look young, and nothing is more grotesque than an old face decked in the trappings of youth.

"I am Mrs. Mason," she said, advancing and graciously extended her hand. "The bishop has spoken very highly of you, not only of your talents, but of your Christian qualities. He assured me that I will not need to look further for a rector."

Baxter bowed. Inwardly he said, "You'll have to look a good deal further for a husband." Outwardly he told the lady that the bishop had doubtless raised false expectations of him. Then the lady told him that whoever was selected as rector for her church would be untrammelled by those cliques that are so intolerable to clergymen. Indeed, she had determined that the edifice should be used for those who need a church, but cannot afford to build one. It should be free to all. As to the rector, he was not to be installed till there was every reason to believe that he was the man for the place, and once installed he could not be driven out, as the lady expressed it, "by a lot of clattering spinsters," for he would be part owner of the property.

When she said this the lady looked down at the floor, causing her listener to believe that she referred to the matrimonial condition attached to the appointment.

While they were chatting the auto was announced, and Baxter and Mrs. Mason were driven to the church. He found an indiscriminate congregation assembling, nearly all being poor persons, judging from their dress and appearance. There was something so little to his taste in the affair that he was not his usual self. He got through the service well enough, but when he came to the sermon there beneath him was the curious looking Mrs. Mason and in the same pew with her the girl he had found secreted behind the curtain. When the latter glanced up at him, which she seldom did, she looked ashamed. The natural consequence of all this was that he bungled his sermon, and, what made the matter worse, he could see plainly that Mrs. Mason was grievously disappointed in him.

After the services Mrs. Mason drove the curate back to her residence, scarcely speaking a word to him on the way. He wondered what would be the independence she had promised of any man holding a pulpit with her for his wife, even though he owned half of the church. He was not sorry that she was dissatisfied with him. He would be relieved of telling her that he would decline the honor of the appointment with the condition attached.

On reaching the house Baxter was left in the drawing room again, while Mrs. Mason went upstairs. He heard voices above in what sounded like animated discussion. One voice he recognized as Mrs. Mason's. The other was also that of a woman, but seemed to belong to a young person. Baxter was too much of a gentleman to listen to what was said and closed the door between him and the disputants.

Baxter wondered if the girl he had surprised and had seen at church would be at dinner. She came to the table late and looked much disturbed. When the curate was introduced she bowed without looking at him, which caused him to think that he was unacceptable to her as well as Mrs. Mason.

"My niece, Eleanor," said the older lady and proceeded to unfold her napkin.

Baxter was uncomfortable throughout the whole dinner. When it was finished Eleanor led the way into the drawing room, and Mrs. Mason went upstairs. Eleanor—she was Miss Eleanor Rutledge—did not seem disposed to open the conversation, so Baxter spoke of the church, the congregation and the praiseworthy object of its foundation, which could be more successfully carried out because she owned the property. At this last assertion Miss Rutledge looked antagonistic.

"Isn't your aunt the owner?" asked

the curate.

"No."

"Who is?"

"I am."

Baxter was astonished.

"This matter has gone far enough, Mr. Baxter," she said. "I must explain, whether my aunt likes it or not. She is my guardian till I am twenty-one. She is decidedly queer and does things that I don't approve of, but can't help. This whole scheme of putting the church into the keeping of a rector is hers, not mine."

"But the matrimonial condition that the appointee should marry the owner?"

"Oh, my aunt doesn't believe in love. She intended to select a husband for—the owner of the church who would have the bishop's approval. Just as if she could force me into such a scheme."

There was silence for a few moments. Baxter was looking at her intently; she was equally intent on the floor.

"What were you doing behind the window curtain?" he asked.

Seeing that she was about to bolt for the door, he barred the way.

"You needn't tell me what you were doing there," he said. "I will tell you. You proposed to have a look at the candidate to see what sort of a fellow he was."

The rest of this story is a simple love tale that any one may read anywhere at any time. Baxter is now rector of the church owned by his wife.

Mrs. Mason has not been sent to an insane asylum yet, but people say she should be. She says:

"I'm not such a zool as they think."

Sand in Holland.

In Holland sand is plentiful and inexpensive and is used instead of hay and straw as beds for cows. It keeps the animals perfectly clean, requiring only a slight raking in the morning to soften and freshen it.—London Telegraph.

Perfectly Tame.

To say of a man that he will make a good husband is much the same sort of compliment as to say of a horse that he is perfectly safe for a woman to drive.

TREES IN BOOKS.

Probably the Most Curious Collection of Volumes in the World.

There is perhaps one of the most curious collections of books in the world to be found in a small town on the continent of Europe, says the London Tit-Bits. It is really a botanical collection. Outwardly each volume presents the appearance of a block of wood, and that is what it actually is. But an examination reveals the fact that it is also a complete history of the particular tree which it represents.

At the back of the book the bark has been removed from a space which allows the scientific and the common name of the tree to be placed as a title for the book. One side is formed from the split wood of the tree, showing its grain and natural fracture. The other side shows the wood when worked smooth and varnished. One end shows the grain as left by the saw and the other the finely polished wood. On opening the book it is found to contain the fruit, seeds, leaves and other products of the tree, the moss which usually grows upon its trunk and the insects which feed upon the different parts of the tree. These are supplemented by a full description of the tree. In fact, everything which has a bearing upon that particular tree secures a place in the collection.

THE RUINS ON THE HILL.

Where Richard of the Lion Heart Dwelt in France.

Perhaps the loveliest spot in all the winding miles of beauty along the river Seine between Rouen and Paris is Petit Andely. Ragged and shattered looking, the stony hills rear proudly up above the placid river and sleepy town, and squarely upon its crest looms the ruin of Richard the Lion Heart's Castle Gallant, a great, burst keep and a few bits of massive wall. Once the castle flaunted its menacing leopard standards against the blue and white and gold of the Frankish skies, but that was before Philippe Auguste stormed and smashed it and smashed the townsfolk while he was doing it.

Now, ghostly and wan, the stark ruin shimmers upon its hill, with never a single spear to glint from keep or barbican. The spears are still growing far below—the stout young poplars on the river bank and island sentinel-ing through golden days when the river is gleaming jade; in the fiery sunsets, when it mirrors back every sturdy limb and feathery frond, and all the silent blue nights, when the stars bend crackling down to whisper and coquette and the ripples chuckle softly against the rich brown banks.—Arthur Stanley Riggs in National Geographic Magazine.

PERSONALS.

Ontario Women.

Chatham, Ont.—"Some time ago I had a general breakdown. It terminated in quite a bad case. Dr. Pierce's Favorite Prescription was recommended to me by a friend who used it and received much benefit. I began taking it and in six months I was completely cured of my ailment and have never had any return of same. I can recommend this medicine as being good, if one will give it a fair trial."—Mrs. JOHN ACKERLY, 67 Edgar St., Chatham, Ont.

At the first symptoms of any derangement at any period of life the one safe really helpful remedy is Dr. Pierce's Favorite Prescription.

Thousands of women in Canada have taken it with unflinching success.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial. For headache, backache, hot flashes, mental depression, dizziness, fainting, spells, lassitude and exhaustion, women should never fail to take this tried and true woman's medicine.

Prepared from nature's roots and herbs, it contains no alcohol or narcotic, nor any harmful ingredient. In either tablet or liquid form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., to-day for free medical advice.

Dr. Pierce's Pleasant Pellets not only the original but the best Little Liver Pills, first put up over 40 years ago, by Dr. R. V. Pierce, have been much imitated but never equaled, as thousands attest. They're purely vegetable, being made up of concentrated and refined medicinal principles extracted from the roots of American plants. Do not gripe. One or two for stomach corrective, three or four for cathartic.

Neat Farm Boundary.

A farm fence that pays the farmer above its cost appeals to most of us, says M. R. Conover in the Farm and Fireside. He tells of a farm which is almost surrounded by highways. Grapes and pears are the specialty.

A wire fence of strands of stout twisted wire, supported by stout posts, forms a trellis for grapevines. A grapevine is set in the middle of the space between each post. Arms or canes were trained in opposite directions on each wire, there being as

many pairs of arms as there are wires on the fence. After each fruiting season the laterals are cut back to spurs of one and two buds each.

This fence is cultivated regularly on both the inner and road side and fertilized equally with the vineyards. It is very sightly in the early summer with its trim, tender young growth and freshly stirred soil, and of course its appearance is very attractive when its load of purple fruit is ripe. Then it serves to shield the inner vineyard from marauders. Even so, this kindly defensive does not suffer to any extent from hungry wayfarers, though hordes of summer pleasure seekers are within a mile and a half of the farm.

THE IMPORTANCE OF BEES.

Bees are indispensable to horticulture.

Bees are indispensable to horticulture, but an interesting occupation.

A successful beekeeper is well paid for time spent. He gets a quick return on his investment.

Bees may be kept anywhere—on the city roof, in the village backyard, or in the garden on the farm.

Beekeeping may be followed by man or woman, by rich or poor, by young or old.

The presence or the absence of bees in an orchard often means the difference between success or failure with the crop. Many of the varieties of strawberries absolutely depend upon insects for cross pollination.

Among apples some varieties depend wholly on insects for fertilization, and even those that are self fertilized are improved by the transference of pollen from other blossoms. Some fruits in which pollen is normally distributed by the wind would not produce much fruit if the wind did not happen to be favorable at the time of blossoming. When bees are present the direction of the wind is immaterial.

Horse Collars.

Look well to the fit of the collar. Clip the long, rough hair so as to secure a smooth, even surface for the collar to rest upon. Each evening after unharassing have a bucket filled with common air-slacked lime handy. Dust the shoulder thoroughly with it. Brush it out the next morning with a soft brush.

a real boon to amateur milliners, for straw linings are very easily made. Almost all the best satin straws are provided with an invisible running string in one edge, which makes it easy to shape the straw to the hat brim.

SO SPRINGY!

One of the Ribbon Effects So Popular This Season. A tall hat is accentuated by a huge rosette of blue and white polka dotted moire ribbon, matching a ruff of the

RIBBON GAZELLE.

same novelty. The ends of the neck piece are handsomely finished with white silk tassels. These sets are very chic for young ladies, as the cut proves.

Smart Sports Coat.

Among sports garments is a most practical, comfortable and smart blanket coat. Indeed, if you have an extra steamer rug at home it would be just the thing for the making of the garment. The plaids are usually large. The coat is made very loose and along tailored lines. There is also a hood attached to it, so that if one is in the mountains or aboard ship upon a cool day the head can be snuggled into the hood for comfort. These coats are not usually lined, being very practical in this respect for knockabout purposes. Such a coat can be made without a hood, of course, or the hood can be made in detachable form, fastening to the neck and shoulders of the coat with buttons and buttonholes.

Crab Meat, Indienne.

Two tablespoonfuls of butter, a teaspoonful of finely chopped onion, three tablespoonfuls of flour, two-thirds teaspoonful of curry powder, a cupful of chicken stock, a cupful of crab meat, salt. Cook butter and onion three minutes, add flour mixed with curry powder and chicken stock. When boiling point is reached add crab meat and season with salt.

Impurities of the Blood Counteracted.—Impurities in the blood come defects in the action of the liver. They are revealed by pimples and unsightly blotches on the skin. They must be treated immediately, and for this purpose there is no more effective compound to be used than Parmelee's Vegetable Pills. They act directly on the liver and by setting up healthy processes have a beneficial effect upon the blood, so that impurities are eliminated.

The Parson Bird.

Among the feathered inhabitants of New Zealand there is a bird called the parson bird, or tul. It is about the size and shape of a blackbird, but has a pair of delicate white tufts at its throat and is a glossy dark green otherwise, which looks black in the sunshine. It can be taught to crow, to speak, to whistle, to sing, and besides these tricks, it has a repertory which is not often equaled by any other feathered songster. At vesper it has a note like the toll of a bell or the clear, high note of an organ. It can mimic every bird in the bush to perfection. It will break off in the middle of an exquisite melody and intumescence in a strange melody of sounds which are impossible to describe, but if you can imagine "the combination of a cough, a laugh, a sneeze, with the smashing of a pane of glass," it will be some approach to the idea.

Miller's Worm Powders will not only expel worms from the system, but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, than which there is nothing more effective.

RIBBON TRIMMINGS.

Some Hints for the Making of This Spring's Hats.

Ribbons, plain, folded, twisted, or tied in knots and bows, ribbons in one color, or in a combination of several tints, are on the new straw hats that are making their appearance in the shops while winter is lingering in its last snow flurries. One pretty round-shaped hat in a very fine straw, of a delicate biscuit-color, has a novel and pleasing combination of colors in its ribbon trimming. A three-colored band is laid round on the upper side of the brim, just at the edge, composed of a mauve baby-ribbon in a heavy gros-grain, then one of blue and another of pink, the edges overlapping. This made an unusual and charming color combination, the shades being very delicate. A flat bow of many long loops and ends, turning downward toward the brim, is laid on the crown near the top.

It is a ribbon season indeed. The home-worker finds that brims change their shapes more slowly than crowns and the ribbon crowns of this season make it easy to renovate last season's hat. Buy or make a new crown frame to suit your brim and cover it with ribbon about one and one-half inches wide either in horizontal or vertical lines.

To cover with the horizontal rows of ribbon begin at the base of the crown and carefully adjust each row so that the lower edge of the ribbon will fit easily, with no puckering against the frame. After the fitting, cut the ribbon and seam neatly. Press the seam, then gather the top edge of the ribbon. Lay this row in place on the edge of the first row. The overlapping ought to be at least one-half inch. Fit and place each row until the whole crown is covered. The tip point of the crown must then be covered with the ribbon or a bunch of any small flowers for this.

The second suggestion for ribbon crown is to arrange short strips of ribbon in lines radiating from the tip of the crown to the brim.

New ribbon turbans have an apparently most complicated ribbon scheme, but to achieve the result is really very simple. Ribbon that has strong body must be used because the braiding would not look crisp for very long with flimsy ribbon. Choose a width of ribbon that will make a trimming wide enough to cover your coronet. Lay the ends of two strips (about one yard each) of the ribbon so that they overlap; sew them to the hat at one side of the back. Then braid these strips by laying strip number one over number two, then number two over number one, then number one over number two, and so on until you have made a braid long enough to reach around your turban. For ribbon, two and one-quarter inches wide, the distance of one over-lap or plait ought to be about five inches. Again skilful tacking is necessary because these ribbon designs ought to show no sewing.

Fish Delicacies.

Baked Creamed Scallops.—Put one quart of scallops in a stewpan, add one small onion, cover with boiling salted water, let simmer twenty minutes, then remove the onion, drain, cut the scallops into small pieces, and place in a buttered baking dish. Cook three tablespoonfuls of flour in three tablespoonfuls of butter, add gradually one pint of milk, stir until thick and smooth, season with pepper and salt, and pour the sauce over the fish. Cover with crumbs moistened with melted butter, and bake brown.

Oysters With Cheese.—Take a cupful of grated breadcrumbs and brown nicely in a little butter; butter a shallow dish and sprinkle with the breadcrumbs. Drain about three dozen oysters and dry with a clean towel and then season. Place them one by one on the browned breadcrumbs, strew chopped parsley over them and grated Parmesan cheese. Sprinkle lightly with breadcrumbs again and place in the oven. The layer of breadcrumbs will be brown in about fifteen minutes if the oven is hot enough. Serve with drawn butter and lemon garnish. If desired a little lemon juice may be poured over the oysters before placing in the oven.

Oyster Toast Virginia.—Quickly fry in a frying pan twelve thin slices of Virginia ham, then remove from the fire and keep hot. Put three dozen large oysters in the pan and cook for four minutes. Moisten with a pint of cream, season with salt and paprika, boil for five minutes and thicken with two egg yolks mixed with a little cream. Flavor with three tablespoonfuls of sherry wine if this is approved. On each of six slices of toast place two slices of ham. Place six oysters evenly over the slices of ham, pour the sauce over and serve very hot. —Melt a tablespoonful of butter, add two cupfuls of rich milk and salt and cayenne pepper to taste. When hot add two hard boiled eggs chopped or cut into small pieces and two cupfuls of canned shrimp. Heat through and serve on slices of buttered toast.

The Store That Satisfies

Corn Growers Association

The Agricultural Societies and the Hanna Trophy was the topic for discussion at a meeting of the Officers and Directors of the Lambton Corn Growers' Association which was held in the Agricultural Office Petrolia, on Friday, May 26th. A motion was passed to allow the three highest competitors in each Agricultural Society Field Crop Competition, where corn was one of the crops grown to compete for the Hanna trophy, providing they are members of the Lambton Corn Growers' Association before July 1st of each year. These fields will then be re-scored according to the Hanna competition score card. A second motion was passed allowing all Farmers' Clubs to enter for the Display trophy by having at least ten paid up members previous to the date of the Corn Show. This first motion widens the scope and competition for the Hanna trophy. All farmers growing corn for Field Crop Competition should see that their field is entered for the Hanna trophy.

Mr. G. G. Bramhill, Secretary of the Association, tendered his resignation, which was accepted on condition that he act as Honorary Secretary to the Association. His successor as District Representative, Mr. W. P. MacDonald, was elected as Secretary of the Association. Owing to the lateness and backwardness of the season, corn planting will be later this year than usual and very little of the corn land will be in the condition desired at planting time. This should not cause a falling-off of entries for the competition as these conditions are general in all communities. To meet these conditions, a motion was passed that entries for the Hanna trophy be held open until July 1, 1916.

Lambton County Livestock

Breeders Organize

The enthusiasm which prevailed at the "Get-Together" banquet held on March 1st, in Petrolia by the live stock breeders of the County and their friends resulted in the Organization Committee meeting in Petrolia, on Friday, May 26th and organizing the Lambton County Livestock Breeders Association. This organization will have a large and useful field in which to work in Lambton County. All the leading breeds of livestock are well represented in the County and we predict a great future for the livestock interests of the County through the working of the Association. We have only to look to what the Corn Growers' Association and the Vegetable Growers' Associations have done and are doing for their respective interests in the County.

With the same enthusiasm the livestock interests of the County will be on a firm basis to add one more industry for which the County will be noted, namely, pure-bred livestock.

The object of the Association will be to promote the breeding of high-grade pure-bred cattle in Lambton County and to aid its members in buying, using and selling first class animals. The Association will hold Annual Dispersion Sales within the County. The Association will work with the various other agricultural organizations within the County to further the interests of agriculture and to so improve conditions that more and better livestock will be shown at our Agricultural Fall Fairs.

The officers of the Association are as follows:—Honorary President, J.

L. Englehart; President, W. S. Steadman, Petrolia; Vice President, W. K. Janes, Watford; Treasurer, George Hay, Petrolia; Secretary, W. P. MacDonald, District Representative, Petrolia.

Breeders interested in the livestock interests of the County should get in correspondence with the Secretary, W. P. MacDonald, District Representative, Petrolia, Ont.

The Demand for Horses

The demand for horses is increasing and will continue to increase long after peace has been declared. If Canada is to take advantage of the situation the time to start in is now. There will be an assured market demand for foals at weaning time from mares bred now.

Not only has the wastage by reason of war been enormous, but whether the war lasts or ceases there must continue an undiminished demand for horses. When peace comes there will be a long period of replenishment. Then quality as much and even more than quantity will be required. Hence the evident call to every Canadian farmer is to breed and to breed to the best available, to utilize his mares for production and to secure the immediate services of the best pure bred sire of type in his neighbourhood. It will pay.

Lambton Deanery Meeting

The annual Deanery meeting was held on May 23rd in Trinity Church. There were delegates present from different parts of the county.

In the morning there was a celebration of the holy communion, the Rev. Canon Davis being celebrant.

The afternoon session was chiefly taken up with the subject of Missions, the Mission Band being discussed by Rev. Canon Davis. Prayers and Missions by Rev. F. G. Newton; Missionary Teaching and Giving in the Sunday School by Rev. S. P. Irwin; Church Literature by Mr. L. H. Baldwin of Toronto.

In the evening the Rev. A. H. Rhodes gave a short address on Work Among the Foreigners in Point Edward. The Rev. Canon Gould of Toronto gave a very masterful address on The Missionary Outlook of the Church. Canon Gould has visited the different mission fields of the church, which enables him to speak with authority.

Men of Sedentary habits find Rexall Orderlies the ideal laxative—their action being gentle and natural. Sold only by Rexall Drug Stores, 15c and 25c boxes.—J. W. McLAREN.

STINGING NEURALGIA

The Trouble Due to Nerves Starved for Lack of Good Blood

An eminent medical writer has said that "neuralgia is the cry of starved nerves for better blood." The one great symptom of this trouble is pain, fierce, stabbing pain, that almost drives the sufferer frantic. The one cause is poor blood; the only cure is to enrich the blood. Heat applied to the inflamed nerves will give relief, but does not cure. Dr. Williams' Pink Pills furnish the blood all the needed elements, and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood, and the only way to enrich the blood is through a fair use of Dr. Williams' Pink Pills. In this way neuralgia, sciatica and other nerve disorders are promptly cured, and the whole system benefited and strengthened. Mrs. M. Gleason, R. R. No. 1, Usbridge, Ont., who was a great sufferer from neuralgia, says:—"I suffered intensely from neuralgia for four years. My blood was thin and I was completely run down. I suffered intense pain all the time. At different times I consulted three doctors, but their treatment did no more than give me temporary relief. Then I tried different medicines, but the result was the same—they seemed no good in my case. I was growing steadily worse, and finally could not leave the house nor do a bit of work. The last doctor I consulted could do nothing for me but give me morphine tablets to ease the pain, and by this time I had about resigned myself to a life of pain. Then one of Dr. Williams' almanacs came to our house and I read of similar cases cured through the use of Pink Pills. I got three boxes and before they were all gone the pain began to decrease, and I began to have a better appetite. By the time I had taken six boxes I was again a well woman, and my neighbors could hardly realize that such a change could be made in so short a time. Later I was bothered with eczema and Dr. Williams' Pink Pills cured me. I have found these Pills worth their weight in gold and I cheerfully recommend them to all who are ailing."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Patriotic Fund

The Canadian Patriotic Fund will require ten million dollars in 1917 and half the amount will come from Ontario. This Fund must be maintained and the people of Lambton are expected to do their share.

Wall Papers

There's an easy chair waiting for you in our Wall Paper Department and we'll be glad to show you through our samples.

Why send out of town when you can come here and make your selection at leisure.

You have the advantage of seeing how the goods look before you buy.

You won't have to keep one or two rolls which may be left over and there is no delay in getting an extra roll should you require it.

You don't need to send your money before you get the goods.

Our prices are reasonable too.

The Rexall Store

A Ford Car bought part by part costs only \$40 more than the list price of the complete car as against \$940 more for the parts of the average car priced around \$1000 and less.

\$940—cost, over and above the list price of the car itself, for enough spare parts to build the average touring car priced around \$1000 and less

\$ 40—cost, over and above the list price of the car itself, for enough spare parts to build a Ford touring car complete.

\$900—Difference in part by part cost of cars.

And remember, both by laboratory tests and actual service tests, the parts of a Ford car have proved themselves superior, part by part, to those of any other car.

Don't these figures drive home what is meant by the low upkeep cost of the Ford?

Ray Morningstar
Dealer for Watford and Warwick

Ford Runabout - \$480
Ford Touring - 530
Ford Coupelet - 730
Ford Sedan - 890
Ford Town Car - 780

All cars completely equipped, including electric headlights. Equipment does not include speedometer.

TORIC LENSES

THEIR ADVANTAGES

The comparatively new TORIC lenses are made with a deep curve—not flat—these lenses cover more fully the eye and give more up and down and side to side vision than any other form of lens.

This deep curve saves the muscles of the eye and prevents eye strain. They can be made in any focus to suit any sight. If your glasses require changing try TORIC lenses this time. We assume all responsibility for their being satisfactory. The best is the best.
