The copy filmed here has been reproduced thanks to the generosity of:

Library of the Public
Archives of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

La bibliothèque des Archives
publiques du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LIGHT HOUSE ON Pointe DES MONTS.

Keeper, - - - Jas. Wallace,

Will show a light every evening from sunset to sunrise, between the first of April and the thirty-first of Decr. inclusive.

The following Notice was published by the Trinity House, relating to this Light House :—

NOTICE TO MARINERS.

That a Light House has been erected on **POINTE DES MONTS**, (or Cape Monts Pelés) on the north side of the River St. Lawrence, nearly opposite to Cap Chat, the Lantern standing one hundred feet above the water.

The Light House lays with the outermost part of **CARIBOU POINT**, N. 52° . East and S. 52° . West, by compass, and it can be seen over that point and to the Eastward of it.

Ships approaching the light from the Eastward, as they draw towards Caribou Point must bring it to bear W. by S.; they will then be in a good fair way, and if necessary they can near the land by their Lead.

After passing Caribou Point, and as they draw towards the Light House, they must come no nearer than 12 fathoms water to avoid two ledges of rocky one of which lays E.S.E. from the Light, with only 12 feet water on it ; the other lays S. W. from the Light, and E. S. E. from the Western extremity of

LIGHT-HOUSES.

Pointe des Monts, with 16 feet water on it ; but these rocks do not lay farther from the shore than half a mile at low water.

The Light House lays with the western extremity of Pointe des Monts N. 64° . East and S. 64° . West, and distant about one mile ; and when ships are to the Westward of the Point; the Light House is in one with the outermost Rocks off the Point ; and in the day time it forms a bold distinct Land Mark; and on this line of bearing ships are in the best possible fair way for the general purposes of Navigation, whether bound up or down.

For any particular purposes of Navigation, Ships may safely stand to the Northward, until the Light bears E. by N. ; they will then be drawing near the North Land ; and when it bears E. $\frac{1}{2}$ N. it is time to tack ; for when it bears East it will shut in with the High Land and cannot be seen to the Southward of East, and then they will be only one mile from the Land, and if they are off *Godbut* river, Pointe des Monts will bear from them E. by S. two leagues distant.

When ships are off Saint Nicolas Harbor, and the light bearing E. by N. they are in a good fair way from the North Land The S. E. spit of *Manicouagan* great Shoal, the Ship and the Light House are then all in one line of bearing.

LIGHT HOUSE ON S. W. Point of ANTICOSTI.

Keeper—Lt. Harvey, h. p. Royal Navy.

A Light-House having been erected on the South West point of the Island of Anticosti, Notice is hereby given that a Grand Revolving Light, on the Argand principle, was shewn thereon for the first time, on the 25th of August 1831—and that the said

LIGHT-HOUSES.

Light will continue to be shewn every night from Sun-set to Sun-rise, from the 25th day of March to the last day of December in each year.

When Ships are to the eastward of the Light-House, they may safely stand towards the Island until it bears N. N. W. by Compass—they will then be in a good fair way—and if they wish to make more free with the land they can do so by their lead. The land trends from the Light-House S. E. by S. or nearly so.

When Ships are to the Westward of the Light-House, they may safely stand towards the Island until the Light bears S. S. E. $\frac{1}{2}$ E., they will then be in a good fair way from the Land, and as before mentioned they can make more free by their lead.

Nearly East and West with the Light-House, and about three-fourths of a mile from it, is the outermost part of a *Reef of Rocks*, which joins the S. W. point. These are dry at low water and are the only dangers near the Light-House; therefore a berth of a mile from the point is a good fair way.

Sixteen leagues to the eastward of the Light-House, at Shallop Creek, and sixteen leagues to the westward of the Light-House, at Grand Bay, and at the Light-House itself are Depôts of provisions for the use of Mariners in distress or other ship-wrecked persons.

A Light-House is now building on Heath Point at the east end of the Island of Anticosti, and will be completed about the middle of next summer.

Goods Wares or Merchan- dize, (being foreign) not otherwise charged with duty by 5 & 4 Will. 4 c. 59	per Cent. 15 0 0

(1) This further duty is only charged when its amount, if any, shall exceed the amount of the previous duties, in which case the excess is payable (3 & 4, Will. 4, c. 59, See 11,) but this is not likely to occur except with very high priced articles, it may therefore be considered as merely nominal.

(2) This further duty will in every case exceed the previous duties, the excess will therefore be charged; the amount payable however cannot be shewn by table, as it will vary according to the price of the article.

(3) This duty is drawn back if the Salt be shipped for the use of the Fisheries in the lower parts of the Province.

(4) See the exception in the table of "Free Goods" under the Provincial Laws.

(5) Upon such of these goods as are liable to the Provincial duty of $2\frac{1}{2}$ per cent, that duty is payable under the Provincial Law, but its amount is deducted from the duty payable under 3 & 4, Will. 4, c. 59.

N. B.—If any of the articles enumerated in the list of goods, which are subject to the duty of $7\frac{1}{2}$ per cent, should come properly under any of the general denominations (such as Drugs or Gums, &c.) of articles duty free, such enumerated articles will nevertheless be free, notwithstanding their having been named in that list.
