The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

University of Toronto
ARCHIVES

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'iliustration, soit par le second plat, seion le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'iliustration et en terminant par la dernière page qui comporte une teile empreinte.

Un des symboles sulvants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

University of Toronto.

FACULTY OF ARTS.

1869.

DEGREE OF B.A.

There are two regular modes of proceeding to the degree of B.A. viz: one by passing the five Annual Examinations appointed for Undergraduates in the Faculty of Arts, and the other by passing the last four of them. The first of the five Annual Examinations is called "The Junior Matriculation Examination," and the second "The Senior Matriculation Examination," or, "The Examination for the First Year."

Candidates who purpose proceeding to the degree of B.A. by passing the last four Annual Examinations, may present themselves for Examination, either with the Undergraduates in May, or with the Senior Matriculants, in September; but those who have been Students of any Affiliated College, in which instruction is given in all the subjects prescribed for Candidates for the degree of B. A., may not compete with Senior Matriculants, for Honors or Scholarships, at the latter Examination. Such Students will be separately classified and arranged.

Candidates entering at the Junior or Senior Matriculation Examination, or at the

Examination for the First Year, must have completed the 15th year of their age.

There are also three other modes of proceeding to the degree of B.A., viz., by passing the last three Annual Examinations, or the last two Annual Examinations, or the Final Examination.

Candidates entering at the Examination for the Second Year must have completed the 17th year of their age; and, in addition to the subjects appointed for that year, must pass the Examination in Mathematics required for the First Year. Candidates entering at this Examination, or at the Senior or Junior Matriculation Examination, may select either the Fixed or Variable Course, as hereafter stated in "The Subjects of Examination."

Candidates entering at the Examination for the Third Year, must have completed the 18th year of their age; and in addition to the Fixed Departments and Sub-departments appointed for that year, must pass the Examination in Mathematics required in the First Year, and the Examinations in Natural Sciences, and in Logic, Metaphysics, and Ethics, required in the Second Year. Those who are not candidates for Honors must take the Fixed Subjects at the Final Examination.

Candidates entering at the Final Examination for B.A., must have completed the 25th year of their age; and, in addition to the fixed Departments and Sub-departments appointed for that year, must pass the Examination in Mathematics required in the First Year, the Examinations in Logic, Metaphysics, and Ethics, and in Natural Sciences, required in the Second Year, and the Examinations in History, Chemistry, the Elements of Civil Polity, Natural Theology and Evidences, required in the Third Year. If Candidates for Honors, they will be arranged in the Class Lists according to their proficiency.

Candidates on entering must produce satisfactory certificates of age and of good

conduct.

The preceding restrictions as to age do not refer to Students of other Universities who

apply for admission ad eundem statum.

Undergraduates are required to attend, as Matriculated Students, one of the Colleges affiliated to the University of Toronto, except in those cases in which the Senate, on consideration of peculiar circumstances, shall have dispensed with this rule.

Undergraduates of the University of Toronto, who are Matriculated Students of an Affiliated College, will not be admitted to the University Examinations of any year in which they have attended such Affiliated College, unless they produce a certificate from the Head

of the College, that they have fulfilled the requirements of that College.

Students in any of the Colleges affiliated to the University of Toronto are not required to pass any other Examination in the University than that appointed for the Second Year, and the Final Examination for B.A.; but they must produce certificates from the Head of the Affiliated College, that they have in the other years passed satisfactory Examinations in all the subjects prescribed for those years by the University, and that they have fulfilled the requirements of that College.

Candidates for the degree of B.A., who are not Students in any Affiliated College, must in each of the years succeeding that in which they matriculate, pass an Examination in the

subjects appointed for such year.

DEGREE OF M.A.

Candidates for the Degree of M.A., must have been admitted to the Degree of B.A.; must be of the standing of one year from admission to the Degree of B.A, and must have composed an approved Thesis upon some subject in one of the Departments in the Faculty of Arts.

CHANGE OF FACULTY, AND JOINT MATRICULATION.

Matriculation in the Faculty of Medicine, or in the School of Civil Engineering, or of Agriculture, will not be accepted as a substitute for Matriculation in Arts or in Law; nor will Matriculation in Arts be accepted as a substitute for Matriculation in Law. Candidates for Matriculation may not compete for Honors or Scholarships in two Faculties or Schools, nor in a Faculty and a School. Those who have matriculated in a Faculty or in the School of Civil Engineering may not compete for Honors or Scholarships at a subsequent Matriculation Examination in another Faculty or School.

ADMISSION "AD EUNDEM."

A Student in any University in Her Majesty's dominions may be admitted "adeundem statum" in the University of Toronto.

A Student in any such University, applying to be admitted to the standing of the Third or Fourth Years in the University of Toronto, is required to take the Fixed Course for the respective years.

A Student applying to be admitted to a lower standing in the University of Toronto, than he held in such other University, may not compete for Honors or Scholarships at such lower standing; but if the Examiners report that he was otherwise entitled to be placed in the First Class in Honors, he may, at the next succeeding Examinations, be permitted to exercise the options of a Student who had been so classed in Honors.

A Graduate in the Faculty of Arts in any University in Great Britain or Ireland (if such Degree be not an honorary one) may be admitted to the same degree in the University of Toronto.

All applications for admission "ad eundem statum" or "ad eundem gradum," must be sent to the Registrar, together with the necessary certificates, at least fourteen days before the first meeting of the regular or special session, at which the application is to be brought forward.

FEES.

The following fees will be required :-

For Matriculation	four	dollars.
For change of Faculty	four	dollars.
For admission "ad eundem statum"	five	dollars.
For the first Degree in the University	six	dollars.
For every subsequent Degree	eight	dollars.
For admission "ad eundem gradum"	ten	dollars.

The fee for Matriculation must be paid to the Registrar before the Candidate offers himself for Examination; but if he should be rejected, he may offer himself again without any additional fee.

The fee for admission "ad eundem statum," or for Matriculation upon the certificate of the Head of any Affiliated Institution, must be paid to the Registrar at the time of application.

The fee for a Degree must be paid to the Registrar before the Degree is conferred.

EXAMINATIONS.

The Annual Examinations for Junior and Senior Matriculation will be held in the latter part of September.

The Annual Examinations for Students who have already Matriculated, and for those who propose to enter at any other part of the course, will be held in the month of May.

Notice will be given annually in January of the day when the Examinations will commence

Every Student who proposes to present hinself at any Examination is required to send to the Registrar, at least three weeks before the day appointed, a paper (according to a printed form which will be provided), stating his standing, whether he is a Candidate for Honors or otherwise, and the departments or Sub-departments in which he proposes to offer himself for Examination.

Undergraduates below the standing of the Fourth Year, who have been rejected, or who have been prevented from attending the Annual Examinations in May by sickness, domestic affliction, or other causes beyond their control, may present themselves for Examination in September at the time of Matriculation Examinations. Satisfactory certificates must be sent to the Registrar at least three weeks before the day appointed for the commencement of the Supplemental Examinations.

The fee for a Supplemental Examination is six dollars for those who were rejected at the Regular Examinations, and three dollars for those who did not attend them.

SCHOLARSHIPS.

Twenty-four scholarships will be annually offered for competition in the Faculty of Arts, viz.:—

ng the Senior e First riculalear at Candidates for the Scholarship in the Natural Sciences in the Second Year will, in addition to the subjects appointed for that year, be re-examined in those portions of Natural History which formed the subjects of Examination in the First Year; and Candidates for the Scholarships in Natural Sciences in the Third Year, will, in addition to the subjects appointed for that year, be re-examined in those portions of Mineralogy and Geology which formed the subjects of Examination in the Second Year.

In awarding the Scholarships for General Proficiency, not only the subjects appointed for all Students, but also the subjects appointed for Candidates for Honors, are taken into account, and the Scholarships are awarded to such Students as have obtained the highest aggregate number of marks upon the whole Examination, but in this aggregate the numbers obtained by any Candidate in the additional subjects in the Natural Sciences before mentioned are not included. In awarding these Scholarships the comparative value of the several Departments and Sub-departments is estimated according to the following schedule:—

Each Scholarship is of the value of one hundred and twenty dollars a year.

Each Scholarship is tenable for one year only, but the Scholars of one year are eligible for the Scholarships of the succeeding years.

No Student can hold two Scholarships at the same time; but if two or more Scholarships have been awarded to him, he will be entitled to the sum of Forty Dollars for each additional Scholarship, his Scholarship being called a double, triple, &c., Scholarship, as the case may be, and the Senate may award the remainder of the value of such additional Scholarship to the Student who would next have been entitled to it.

No Scholarship, except those for General-Proficiency, will be awarded to any Candidate, who has been placed lower than the First Class in the Department, or in either of the Departments, for which the Scholarship has been established.

All Schole's must sign a declaration that it is their intention to proceed to a Degree in the University of Toronto.

. MEDALS, PRIZES; AND CERTIFICATES OF HONOR.

Gold Medals may be given upon the special recommendation of the Examiners, to the Students who, at the Final Examination for the Degree of B.A., have been placed first in the First Class of Honors in any of the following Departments, viz.:—

CLASSICS.

MATHEMATICS.

NATURAL SCIENCES.

MODERN LANGUAGES.

LOGIC, METAPHYSICS, AND ETHICS, WITH CIVIL POLITY.

No Gold Medal in Modern Languages will be awarded except to such Candidates as have been placed in the First Class of each of the following Sub-departments, viz., English, French, German, Italian, and Spanish.

No Gold Medal in Natural Sciences will be awarded except to such Candidates as have been placed in the First Class in each of the following Sub-departments:—Chemistry, Mineralogy and Geology, Botany and Zoology.

A Silver Medal will be given to each of the Students, who, at the Final Examination for the Degree of B.A., has been placed in any of the above Departments in the First Class in Honors, provided a Gold Medal has not been awarded to him in that Department.

In the Natural Sciences the rank of First Class in Honors in two of the three Subdepartments and Second Class in Honors in the Third, will be sufficient qualification for a Silver Medal.

In the Modern Languages the rank of First Class in Honors in English, French, German, and either Italian or Spanish, will be sufficient qualification for a Silver Medal.

A Prize of the value of ten dollars in books will be given to the Candidate who has been placed first in the First Class in Meteorology.

A Prize of the value of ten dollars in books will be given to the Candidate who, at any of the four Examinations of Undergraduates, has been placed first in the First Class in Oriental Languages.

Prizes, each of the value of ten dollars in books, may be awarded annually among Undergraduates in Arts, Law, or Medicine, for the best Compositions in Greek Verse, Greek Prose, Latin Verse, Latin Prose, English Verse, English Prose, French Prose, or German Prose.

Certificates of Honor will be given at each Examination to those Students who have been placed in the First Class in any Department.

Persons who do not propose to proceed to a Degree in the University may offer themselves for Examination in any one or more of all the Departments appointed for the Final Examination for the Degree of B.A., and if placed in the First Class at such Examination they will receive Certificates of Honor.

THE PRINCE'S PRIZE.

Through the liberality of His Royal Highness, the Prince of Wales, a silver ink-stand, called "The Prince's Prize," will be annually offered for competition. The prize will be awarded to the Candidate for the Degree of B.A., who having been classed in Honors in at least two Departments, and in the First Class in at least one Department, shall have obtained the highest aggregate number of marks.

In determining the aggregate amount of marks the comparative value of the several Departments and Sub-departments is estimated according to the following schedule:
