PEOPLE MUST DECIDE "CHIEF ISSUE" SAYS SIR WILFRID LAURIER

Continued From Page 1.

...gent reasons were given why it should not be a contribution."

He paused to read the opinion of a member on that occasion showing that such a system of contribution was ultimately unwise. Mr. Foster was the man who had spoken. Further, he had stood foursquare for a Canadian navy and the house was unanimous with him.

"Is there any reason why that policy should not be supported today?" he cried. "In my humble judgment, and I leave it to you, citizens of Ontario, the true policy for today is the policy that was advocated by Mr. Foster. Again I appeal to my countrymen of the Conservative persuasion why should not this thirty-five million be put up to create a navy?"

In 1911, he continued, the country had been told of an emergency, but who spoke of it today? No one. It was laughed at.

In the same fashion he showed that since the Napoleonic wars England had even greater foes to face. Germany, Italy and other nations of Europe had sprung into power to be reckoned with and whereas the British navy had once spread over the world, the ships were now called in for concentration in home waters.

"Defence of Canada should begin at home," he said, amid laughter. But there were some kind souls not chary of advice who urged unanimity. Well that had existed at one time. But whose fault was it that it had failed? Not that of his majesty's loyal opposition, but of the abnormal combination of imperialism and nationalism in Quebec. The proposition now advanced was too absurd for common sense.

Proceeding into battleship technicalities he explained the machinery as most complicated and involved. If some such ships were to be loaned to the British fleet, he asked, when would they come back to Canada? Even the Niobe and the Rainbow were to be sold because they could not be maintained in the Dominion, and in the wish of the Conservatives was to begin at the top, theirs was to begin at the bottom.

A letter from an old Grit a few days ago had decided the Borden policy and showed the writer uncertain of the Laurier proposal. Sir Wilfrid's mind was turned at once back to the old days when he was a member of the political problems of the past. "My country is not the Province of Quebec, where I was born," he declared, "but it is the Dominion of Canada, a country over which flows the British flag."

With this firmly in mind he had felt it to be the duty of the Dominion to take her share in the burden of defence.

"The word 'reciprocity' mentioned in this connection brought a howl of derision from the gallery to the speaker's left, but the disturber was quieted. "In the last election we had fifteen seats in the province of Quebec," he declared, "and in the present election we have only one. I regret nothing. Party success is not the supreme end. The establishing of principle and the performance of duty are the great things."

He was not one, he intimated, to be insulted by Nationalists, but at one time both Mr. Borden and Mr. Laurier had shared their insults alike. Today Mr. Borden had not the honor of their insults, but the insult of their applause. As soon as the speaker had been seen at the last election, in which a split had been apparent, they had embraced and congratulated themselves. He spoke of the attitude which might have been expected, that there was an agreement on reciprocity there was a split on the navy question. This, however, had stood off for a year, and then the contribution being settled Mr. Monk had resigned, and he should be honored for it.

"This is the hybrid agreement today given us by the Conservative party," declared Sir Wilfrid. "No wonder we opposed, and we will oppose it. From the bottom of his heart every man will say we have done the best of it."

"How will the hybrid agreement be forced thru parliament? By what?" he asked.

"It is unimpaired," he continued, "and Mr. Borden and his colleagues introduced it with apology." (Hisses.) I said, "who will cast the first stone?"

"They obstructed the reciprocity agreement," he declared with fervor. "But I know the value of the minority and I would not have a member of a minority to employ such a resort as that now proposed."

Line of Cleavage. "Tyranny may be the act of a despot, a mob or a usurper, but it is the same thing. There comes a line of cleavage between the minority and the majority. It is either a compromise or an appeal to the people; that of the government is one of brute force."

Before concluding he would say that the minority, however strong, could resist without the force of public opinion. In 1898, without the Remedial Bill the gag would have been applied, and the results would have been disastrous. The Liberals at that time were prouder of their position than the Conservatives of today.

STATE OWNED ATLANTIC CABLE

Continued From Page 1.

ing any new arrangement. Personally he favored the construction and operation of a state-owned cable.

Mr. Pelletier said that Postmaster General Samuel de la Roche was opposed to constructing the Atlantic cable. At least two cable lines would be necessary and their cost would be five million dollars. Such rapid progress was being made in the matter of wireless telegraphy that the cable lines might be obsolete by the time they were finished. Besides Canada did not own any land lines between Montreal and Vancouver.

Why Not Own Wireless? Mr. W. F. Maclean: "Why cannot Canada own and operate a wireless system, if that is the best, not only across the ocean, but also upon the land?"

Mr. Pelletier said the proposed arrangement was experimental. If it did not have the result desired, he had no doubt but that the British Government would be favorable to the construction of a state-owned cable.

Mr. Borden, like the weakling that he is, said the speaker, but a chorus of groans and groans which broke into hissing. "Take it back; take it back," yelled someone, and the next morning he was in the gutter.

A Loud Light. "Mr. Monk's resignation throws a lurid light on the dishonesty of the prime minister," he said. Here hisses broke forth again. "Shut up." "Take it back."

"I can adduce proof and will submit it," cried the speaker. Mr. Murphy had a question to ask which could numerically prove the country majority opposed to Mr. Borden's proposition. The speaker, however, was afraid to do so.

Referring to Mr. Borden again, he said, "The dishonesty of the prime minister in sincerity, was falsehood in his heart. Another interruption cut in, and Mr. Borden was requested to 'Shut up.'"

The premier in power hoped, with the aid of the Hon. George Cochrane, to bring the people into forgetfulness of his promise to return to the cabinet, and out of office in May, but his hopes again arising. But at this juncture, in view of the temper of his hearers, the member declared he would not do so.

Angel of Peace. Hon. George Graham appeared guised as an angel of peace. Seventy per cent of the "war talk" of the last few months has been as manifested by those primarily interested in war, he declared. The victories of peace have been the triumph of the day. Nevertheless, some of his friends, the enemy, had been fed on loyalty and wanted to "Show me the man who should for a fight and asks some one to hold him and the other who crawls under the barn when the night comes," he said, amid laughter.

The government policy, he declared, was the offspring of a Jingo and a Nationalist, and it was now before the country to be rejected. He was not a Nationalist, and he was not a Jingo, and he was not a member of the cabinet.

Three empty ships manned with an army of sailors, he said, his summary of the proposal. He drew a picture of a Canadian man coming to Canada and wishing to go to the States, but not to spend a drop of blood.

"You have the land force, but you have not the nerve to get the water force," he declared. The Toronto representatives he spoke of as bright lights according to their own lights, but not so bright, according to others.

"They were tied, not hand and foot, but tongue-tied," he intimated, in referring to their silence in debate.

It was in a pseudo-humorous manner that the Hon. Michael Deane, Red Deer, warmed up to his share in the program. The arch political conspirator since conspired to be conspired himself, he claimed the big fight in Ottawa emanating from his pointing out that there were no chairs in the same chamber. He described how he had been named, and the struggle following.

"The Jordan naval policy," he said, "walks with a limp, needs frequent rests and is destined to an early departure from this world."

After three or four months the house was getting back to the point where they were to be expected to be. The contribution to save their faces. "Why did they not produce their permanent record?" he asked.

RECEPTION TO MINISTER

Continued From Page 1.

An informal reception will be held at the King Edward Hotel today at 4.30 in honor of Sir John Allen, minister of defence for New Zealand, by the National Council of the Canadian Suffrage Association.

The mayor will extend greetings for the city, Dr. J. L. Hughes for the Men's League for Women Suffrage, Dr. Augustus Stowe Gullen for the medical alumni, Constance Boulton for the Daughters of the Empire and Mrs. Flora MacD. Denison for the Canadian Suffrage Association.

The following are the first day's receipts to the Toronto Boys' Dominion maintenance fund. The total amount required is \$10,000. Your contribution is needed. The amounts below are acknowledged with thanks:

Thomas Bradshaw, Treasurer, \$500; D. A. Dunlap, \$500; J. Morrow Oxley, \$250; J. C. Baileys, \$250; S. Dillon Mills, \$10; Mrs. F. J. Lee, \$10; R. J. Blaney, \$10; Mrs. J. J. Lee, \$10; Mrs. J. J. Lee, \$10; An appreciative father, \$2; A. friend, Berlin, \$2; J. A. one of the boys, \$1.

Total, \$3,115. The physical education of the boys is conducted on the plan that physical exercise is as necessary to the boys' development as the previous occasion, he said. The boys were given a general clean-up.

A supposition that boys dislike soap and water does not prove to be true in actual experience. The boys were given a general clean-up. A supposition that boys dislike soap and water does not prove to be true in actual experience. The boys were given a general clean-up.

The summer camp might well be classed among the physical features of the boys' Dominion. Last July the first camp was admitted, when one of the other boys remarked, "He has put it over you all right this time and explained that he had seen this boy deliberately smearing himself with dirt in the back field, excepting that he had been playing in the bath or know the reason why. Such a case as this shows the need of public baths in the City of Toronto, and has made the Boys' Dominion Management anxious for improved bathing facilities."

One of the features of the club house is a room called the zoo, where boys can gather for trials of strength and where they are sent if they become too obstreperous in other parts of the building. This room was decorated with posters and upon the walls hang pictures of animals, suggesting the strenuous life. Here the boys have an opportunity of working out their animal spirits and indulging in getting a little rougher on the boys' Dominion. The board of directors of the Toronto Boys' Dominion have decided upon the employment of a regular physical director for the coming year, so that this department of the work may be thoroughly efficient.

Six shower baths have been installed in the club house.

The old gymnasium has been converted into a gymnasium and during the fall, winter and spring classes have been in operation. The boys' Dominion has been operating every week-evening. Altogether nearly 500 boys were enrolled in these classes, but the attendance varied owing to the other club attractions. Saturday evenings were given up to instruction in boxing and wrestling. On the field day of athletic events was held on July 1st, with hundreds of competitors. The events having to be run off in several heats. A mid-winter field day was also held, when competitions in games and sports were held. The citizens from the several provinces, composing the Boys' Dominion, took part in these field days, the competition being between provinces, as well as individuals.

past seventeen years in the matter of suffrage since the time when the subject was brought up first before the National Council at its sessions then held in Montreal.

Prof. C. M. Derick, M.A., gave the result of investigation regarding "emancipation of women." During the last year, said the report, little progress has been made in securing better conditions for women workers. In Toronto, women teachers have expressed their dissatisfaction with the fact that men receive double the salary of women should be equal. They believe they should receive equal pay for equal work.

The employment of women and children in the clothing season, the fact that classes of the community should have a right to work, that the age limit ought to be raised for children from 12 to 14 should be appointed.

Reformatory institutions for women with trained matrons, superintendents and instructors in agriculture, horticulture and other industries among the things thought to be desirable.

Report Held Over. Dr. Ritchie, president of the Montreal council, took exception to the part of the report on citizenship relating to the Dominion of the boys' Dominion, that the report should not be published until it had been altered and passed by the council.

The strenuous work of the morning, which had been enlivened by a good deal of the boys' Dominion, was continued by the acceptance of the invitation of the Mayor and other civic authorities to lunch at St. John's Hotel. After the repeat Miss Boyd, on behalf of Aid, Boyd, read an address of welcome.

Mr. Snowdon's Address. A move from the lecture hall to the body of St. John's Methodist Church was made. The speaker, Mr. Snowdon, the noted English speaker, of the evening, gave up a host of his audience. The chair was taken by Prof. C. M. Derick, M.A., who, as president of the Montreal Suffrage Association, introduced the speaker.

The advent of Mrs. Snowdon, accompanied by Mrs. Torrington, Miss Derick, Dr. Simeon and others on the platform was received with clapping of hands by way of greeting.

All Favor Suffrage. Mrs. Derick in her opening remarks reviewed the suffrage movement since the formation of the women's council twenty years ago. The Montreal council, she said, was formed in 1893 in favor of the suffrage cause. In 1910, after many throbs and much discussion, the Montreal Council had declared in favor of the suffrage cause. Century Behind. "For political and geographical reasons, our country is practically 100 years behind in the development of a country with an area as large as the United States, but peopled by two people to the square mile, while in the United States there are only one person to the square mile, and in England 550 per square mile. That will give you some idea of the tremendous enterprise the people of Canada are entering upon at the present time. They are trying to receive five new people for every 100 people in the country and on the present basis of the present population, trying to receive and take care of 10 new people, because that is the way the proportion comes to the western country."

"I believe that in the interests of the people of North America it is best that the two Anglo-Saxon communities should grow up and develop such idiosyncrasies as a natural result, and be as it were an example to each other of that harmony which may live where differences do exist among people who have far more in common with each other and far less of differences, with each other than we have."

for our own interests, just as much as any other country in the world. We bought \$15,000,000 worth in actual loans in excess of our purchases from any other country and Old England loans us the money to do it. (Laughter.) She does not loan us all the money, but she also buys the surplus of goods from us and that enables us to get the money to make purchases from the United States. That is one of the reasons why we did not desire that reciprocity, but that other kind of reciprocity, which Mr. Wilson probably introduced, by which our tariff will grow more alike and you will

DEWART'S ATTACK ON SIR WILLIAM

An article from the pen of Hartley Dewart, K.C., appearing in a recent issue of The Canadian Courier, has aroused the ire of Sir James Whitney. In giving a character sketch of Sir Wm. Meredith the writer, it is pointed out by the premier, has departed in some cases from the facts and evidence derived a large part of inspiration from the Ontario opposition.

Last evening he issued a statement as follows: "I observe that Mr. H. H. Dewart has made an attack upon the Chief Justice of Ontario in the columns of The Canadian Courier. I desire to mention it for two reasons. First, because the Chief Justice is unable to defend himself and because some of the statements made by Mr. Dewart are absolutely untrue. For instance, Sir William was not chairman of the University Commission; second, he was chosen chancellor of the University by the graduates of the University. About a month ago I received information that Mr. Dewart had been boasting in the city of Ottawa of the attack he was about to make. Evidently his attack has been intended, and it is to say the least, interesting to observe

BUTTERMILK CAKE

A spice cake made with buttermilk is delicious if this recipe is followed: Cream a cupful of sugar and a scant half cupful of butter. Beat in an egg, a cupful of buttermilk, and when in a cupful of sugar, a pinch of salt, and a teaspoonful of baking powder.

A Girl's One-Piece Frock

A simple and very attractive one-piece frock for the young girl is made of white pleated, and is cut on kimono lines. The sleeves, as well as the neck, are scalloped and buttonholed.

A MOTHER'S DUTY TO HER DAUGHTER

Requires That Her Blood Supply Be Kept Rich, Red and Pure.

Every mother who calls to mind her own girlhood knows how urgently strength during the years between then the gray and womanhood. It is a fact that the blood is the life of the body, and if it is not pure and rich, the body will suffer.

IF THIS IS YOUR BIRTHDAY

Fortune smiles on you, and more money and advancement will be yours. You are warned against quarrels and legal tangles, for they will prove unfavorable to you.

Those born today will have lovable dispositions and will be capable of being educated to a high point of good judgment and discriminating taste.

When thus rounded out their characters will gain their friends among the readers in many lands.

What Children Should Eat.

When we speak of substituting soft food or semi-solids for bottle meals, the question naturally arises, what are the soft foods that may be given?

The first thing we give the baby is usually a piece of bread. This is a piece of hard bread, dried out in the oven. There must be no soft centre, just hard crust all the way thru.

To introduce baby to semi-solids, farina is a good cereal. I have given the recipe before, but will repeat it. Take one tablespoonful of farina, and sprinkle it gradually into four ounces of milk and four ounces of water, boiling together. Add a pinch of salt, stir well, and cook in a double boiler for an hour. Give the baby one tablespoonful of the food with his 10 o'clock feeding.

To jelly the egg take a perfectly fresh egg and cover it with boiling water. Remove the pan from the fire and let the egg remain in the water seven or eight minutes. When it is broken open, the white should be like a jelly.

Begin by giving half the egg and gradually work up to the whole. Sometimes a child cannot be induced to eat egg in this form. In this case beat up a raw egg in one pint of the milk formula and give it at two meals. In this way the child gets the egg in his regular food without knowing it.

To teach a child to take solids instead of his bottle, give him articles before he sees his bottle and when he is really hungry. Then, when he has eaten what he should, give him his bottle as a reward.

If children are allowed a milk diet too long they grow anaemic and misshapen. So that a child who refuses food should be compelled to eat the solids. The only way to withhold all food except the refused articles, and offer them until he is hungry, he will be glad to take them.

When you are to be built up, and then, of course, baby in your arms, whether you mean what you say or not.

Mrs. Jos. Chamberlain Is Near Death's Door

LONDON, May 5.—(Can. Press.)—Mrs. Joseph Chamberlain, wife of Joseph Chamberlain, former secretary of state for the colonies and leader of the radical wing of the Unionist party, is in a grave condition at Cannes, France, according to a dispatch published by the Central News.

Her daughter, who is the daughter of the late Mr. Chamberlain, is suffering from a recent operation for appendicitis.

The watchful mother takes prompt steps to give her girl the new, rich blood which is so essential to her health.

Dr. Williams' Pink Pills, which make new blood and transform unwholesome blood into robust, happy, bright-eyed young women. No other medicine has ever succeeded like Dr. Williams' Pink Pills, because no other medicine can make that new, rich, red blood, which brings health and vitality to weak, bloodless systems.

Dr. Williams' Pink Pills have been a blessing to almost two years from a sufferer from anemia. No matter what I tried, it seemed worse. I was very pale and thin, and my head ached from frequent headaches. The legs and joints would leave me completely tired out.

Dr. Williams' Pink Pills, and in a half dozen boxes, and by the time they were used I was feeling much better. A few more boxes fully restored my health and I have since been well and strong and able once more to enjoy life.

These pills are sold by all medicine dealers, or will be sent by mail at 50 cents a box, or six boxes for \$2.50, by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Proper Treatment Will Quickly Bring Back Robust Health and Good Spirits.

Women are on the whole more sickly than men. One reason is that their system is more complicated; another and more important reason is their put-off measures of relief too long.

Because of the mildness of action as a system regulator, no medicine women can compare with Dr. Hamilton's Pills. The kidneys quickly respond to the remedial action of Dr. Hamilton's Pills and the result is you would expect—pain in the back and side, shortness of breath, and bad color disappear—the functions of the body then operate naturally, congestions and pain are prevented and perfect health returns.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood purifier, the finest complexion renewer, the most certain relaying medicine known. Sold by all druggists and storekeepers, 25c per box, five for \$1.00, by mail, The Catarrhozone Co., Buffalo, N. Y., and the Kingston, Canada.

Activities of Women

Interesting Jottings Concerning the Doings of the Feminine Sex the World Over.

—London has six women theatre managers.

—Holy Land has a population of 180 females and 177 males.

—In Berlin there are 401,360 married couples with \$6,331 children.

—The women of Morocco never see their husbands until after they are married to them.

—In Arizona there is a woman, who, with the aid of her three daughters, is successfully running three mines.

—Mrs. William K. Vanderbilt, Jr., is her own architect for a \$100,000 mansion to be erected on her property at Jericho, L. I.

—A bill to enable women to become barristers, solicitors or parliamentary agents has been introduced in the British Parliament.

—William H. Haywood, who was on trial recently for instigating a strike in Paterson, N. J., was ably represented by Miss Jessie Ashley, a member of the New York bar.

PEACEFUL UPRISING BY WOMEN OF U. S.

No Need to Copy British Militants, Asserts Mrs. Catt.

LONDON, May 5.—(Can. Press.)—There is little likelihood that the American suffragettes will adopt the militant methods which Mrs. O. H. P. Bellmont threatens to introduce on her return to New York. This was the opinion given by Mrs. Carrie Chapman Catt, president of the International League of Women Suffragists, at the reception in her honor today under the auspices of the Women's Freedom League.

Mrs. Catt said that she had often been asked since her arrival in London if the American suffragettes were going to undertake a militant campaign. The situation in the United States, she said, was entirely different from the situation in this country and she did not see how American suffragettes could adopt militant methods.

"Your movement," she added, "is a battle; ours is a peaceable evolution. Yours is picturesque and very tragic; ours is commonplace but sure."

Home Made Bread.

WOMEN classes of women bake their own bread. One class does it to save money and the other to have a finer article. Both will attain the same result, for home-made bread is better and more economical than the professional baker's article.

The best bread to make at home for all purposes is cream or milk bread, for it is richer than bread mixed with water only. It is not so white as water bread, nor is it so finely grained, but it is better flavored and keeps moist longer than any other.

One of the important things to have right when making bread is the bread pan, for the dough may be well made and as light and sweet as possible, and still be ruined in the baking.

Shelf iron pans are the heaviest material are well liked because they hold the heat well, distribute it evenly and prevent the bread burning in the bottom.

I am often asked how various breads are baked to give certain shapes and appearance to the finished loaf. Sandwich bread, for instance, has square corners and a very thin crust and a different taste from other breads.

This is caused by being baked in a covered pan, known as a "pullman pan." The size is about ten inches long and five inches wide and deep. The cover slides on and the pan is not opened, after it is put to bake, until ten minutes before it is removed from the oven. Then the cover is slid off and the top of the loaf glazed with white of egg.

There are other pans made with hinged covers, but I have found the sliding cover more practical.

French bread or dinner bread is all crust and very little crumb; it is the most trying of breads to make and bake. When done it is only an apology for the real French bread, and unless you are practicing to be a professional cook I should not advise you to attempt making it.

There is a sheet iron rounded pan, made for baking Vienna bread, that is open at each end and gives the shape to the Vienna loaf. The dough for this must be rolled out long and a little thicker in the middle than at the ends. After the last rising slash it across the top in three or four places and spread the incisions with butter. Close the pan and when nearly baked open and spread with butter again. This gives a very crisp brown crust.

It is interesting to go shopping and look over the astonishing array of bread pans and pans for finger rolls and various fancy breads. In this way the home cook can often pick up new and valuable ideas that will delight her family and make her work more interesting.

Oven must be only moderately hot for all baking with yeast, when the mixtures are first put in. If the oven is very hot a crust will form over the mixtures and they will not be able to rise.

Tomorrow I will give directions for making the sponge and straight doughs. With good bread sponge and a reliable oven there is no end to the good breads and rolls that one can easily make.

"101 BISON" COMPANY PRODUCES NEW CLASS OF WAR DRAMAS.

The war scenes in "The Stars and Stripes Forever" show the full section of Battery A of the California state militia, enlisted under the command of Captain R. L. Ford. In addition to the state militia an army of real Filipinos and Mexicans were engaged to represent the "enemy"; the incidents depicted are sensationally exact and are full of thrilling realism.

Miss Helen Case, who is taking leads with the Edison company, in an Indiana girl, who obtained most of her education and experience in New York and Chicago.

She started her stage life in comic opera, and was for some time associated with subreptic parts in musical comedy and in grand opera, but especially in the former, where her artistic dancing, as well as her voice, made her a favorite with the theatrical public.

She has appeared with a number of the best known companies and actors, among them being Raymond Hitchcock, Harry Bulger, Jack Barrymore and Sallie Fischer. A serious illness took Miss Case from the stage for some time and put an end to her dancing, but she returned by way of dramatic stock, taking leads and ingenue parts.

Miss Case was associated with the Vitagraph company in New York, and being a good rider, went with that company to take pictures of a cyclone which connected with "101 Bison" for some time.

Endowed with a particularly sweet disposition and being graceful and gracious, this little lady has become a prime favorite with patrons of the motion picture theatres.

HORRORS OF WESTERN FLOODS SHOWN IN MOTION PICTURES.

Camera Men of "Animated Weekly" Brave Death in Raging Waters to Present to Motion Picture Theater Patrons Exclusive Scenes of Disaster.

In the thick of the death and desolation that visited the once-prosperous City of Dayton, three camera men of the Animated Weekly battled with the angry elements and risked death in terrible forms and all that the patrons of moving picture shows might behold with their own eyes the havoc of the waters.

Thru a fortunate circumstance—two of the camera men were in Dayton when the Loraine dam broke and overwhelmed the Gem City in its swirl of angry waters. They were fortunate in a double sense, being right in the midst of one of nature's most tragic quarters on the upper floors of a prominent hotel. Obeying the sanction of the military authorities, who had assumed control of the flooded section, they were able to improvise a boat and make of the flooded section a scene of immense assistance to the rescue, which are bound to create a sensation when shown on the screen.

It is hard to realize just what these theatre patrons undergo in order to see the scenes of the flooded section and see the cruel calamity portrayed. With the yellow flood of the Miami devastated city with the power and end of Niagara. It was an extremely hazardous undertaking to navigate their crazy craft. Many of their pictures were obtained at the imminent risk of destruction, as lumber, great oil tanks and other strange gnomes lunged at them from the crest of the swirling waters. Once they escaped destruction by a hair's son and a daughter.

POPULAR ACTRESS, FAVORITE OF HUNDREDS OF MOTION PICTURE FANS, ACTS WITH AND ASSISTS HUSBAND IN DIRECTION OF PHOTO PLAYS.

One of the cleverest and most popular women to be seen on the screen today is Lois Weber, who in private life is Lois Weber, who in private life is a beautiful and versatile woman. She is a beautiful and versatile woman of dark complexion with a mass of lovely black hair, and she has a splendid carriage.

Miss Weber appears with her husband, Phillips Smalley, long identified with the motion picture industry, in practically all of the strong dramatic productions of the Rex company. She not only takes part in these productions, but also writes a number of the scenarios and has the distinction of being one of the very few women directors of the photo-plays.

Previous to joining the Rex company, Miss Weber was for two years with the Gaumont pictures as leading actress. Before leads in stage. Her pleasant personality and her devotion to her work have endeared her to her many friends and companions.

SOCCER PLAYER IS SUSPENDED

McCroskey of Hiawathas for Assault in Eaton Game—No Games Victoria Day

The monthly meeting of the T. & D. held at Occident Hall last night, was a real lively affair and the executive had a very warm session. A large number of the Hiawathas had gathered there to hear the decision regarding the case of their goalkeeper, M. McCroskey and referee Oakland.

During the Eaton-Hiawatha game Saturday the referee ordered McCroskey from the field for an alleged assault, but the player refused to go, claiming that he was not the man who had committed the deed. During a heated argument both men lost their heads, so the referee declared, and said things that they should not have. The referee finally was forced to call the game a tie, 1 to 1. After a long discussion by the committee, who went into the matter very thoroughly, he was decided to suspend the player until next May.

The Hiawatha members felt that they were not given justice, but under the circumstances the committee by the steps situation were forced to take the steps they did. The game was awarded to Eaton as the rule says that the referee's decision was final.

No games will be played in this league or in the Hamilton and District on May 24, but the executive have given permission to the teams to play exhibition games with other teams in the O.F.A. The Davenport Albions were instructed to send their application to play Niagara Falls, N.Y., on to the D.F.A. for the permission to play a team from a foreign country.

President Guthrie warned the players who are going to turn professional that they would not be given the slightest chance to come back later they were once found as having played for or against professionals or as having received money.

PRO SOCCER SATURDAY

The Big Six Professional Soccer League will open here Saturday, when the Hamilton team will play the Queen City team. The game will be played at Exhibition Park, commencing at 2 o'clock. The price of admission will be 25c and 50c. Mr. Price of Hamilton will be the referee.

CLUBHOUSE FOR EATONS

The Eaton Athletic Association are contemplating providing a clubhouse for their members, the plans now being under way for a downtown site, and it only remains for the employees to show enough interest in the undertaking and the same will be an assured fact.

A membership campaign is being instituted in the "Big Six" this week, and if the returns warrant it the project will be gone on with. A committee has been appointed to boost the membership and good results are looked for. As stated before, it all depends on the employees and whether they show enough interest in the proposition by joining the association.

FIRST VICTORY FOR C.N.R.

The C.N.R. team have now got into their stride, showing improvement every week and scoring a victory on Saturday by 2 to 1 over Davports. The losers showed the better combination, but the railway men were more dangerous in front of goal, their sudden breaks away spelling danger every time. The first goal came from one of these, when Blackett scored after Catermore and Blackett had just failed. In the second half the right wing again broke away, and Blackett placed the ball right across the goal. Shortly afterwards another glorious chance was thrown away, and then Day supported strongly, scoring a well-earned goal. They tried hard to equalize, but time was called with C.N.R. leading by the 0-1 line. M.S.—aw

Hamilton were again prominent feature and the game was pleasantly contested all thru.

BUSY DOINGS OF OARSMEN ON BAY

Dons, Argos and Canoeists Have Large Representation Out-Yachtsmen Also.

The waterfront presented a very busy appearance yesterday morning, and scores of all kinds of aquatic craft dotted the bay and lake from Stranville to the Bluffs. The Don Rowing Club opened up their regular boating season and had fifteen tours at work. Dibble and Birney were out for the first time in their new shells, and Lepper went for a long spin around the island and back. He was very tired when he returned, but was satisfied with his condition for so early in the season. Dibble is already in the pink of condition, as he has been working on the machines all winter. Next week they expect to get the floats fixed up and their eight will get down to work about the same time. The membership of the club has shown a surprisingly large increase this last week or so, and the boys are getting the newcomers enthused right from the start. The direct enthusiasm of the east end club is making itself felt in rowing circles, and the officers are looking forward to the day, not so very far distant, when their club will be second to none in the sculling world. The T.C.C. was represented by several dozen members, and they held all kinds of impromptu races, and finished up very tired after a strenuous morning.

The Argonaut four were working overtime all morning, and the second eight put in a good trial. The T.C.C. was represented by several dozen members, and they held all kinds of impromptu races, and finished up very tired after a strenuous morning.

INTERPROVINCIAL SCULLING REGATTA

Hamilton Proposes New Championship For Rowing Men—To Keep Outside Interest Up.

The outside oarsmen are considering a proposition that will give them a chance to show their folks at home what they can do in the sculling line. The feeling of such clubs as Hamilton, Montreal, Ottawa and Winnipeg is that now that the Canadian Memorial Cup is being made, and it being considered the best in the country, naturally all the big events will be pulled off on it, but at a sacrifice to the aquatic-loving sports in these towns, who will have to journey to Toronto or St. Catharines to see any championship races. Hamilton has fathered a new idea, however, to the effect that an interprovincial sculling championship be formed, which will be rowed annually at some town, and shall be given to a different town each year. Hamilton wants it this year, and would like to pull it off some time in August. It is a sacrifice to a water carnival there in that month. A meeting will be called in the near future, and all the rowing clubs have been asked to send representatives.

Lacrosse Gossip

A good-sized crowd attended the lacrosse reorganization meeting at Bracebridge. Dr. McElbion occupied the chair and much enthusiasm was shown for Canada's national game, that will shine in Bracebridge this season. The following officers were elected: Hon. president, P. A. Smith; president, W. C. Simmons; first vice-president, John Cooke; second vice-president, L. W. Windsor; secretary, A. G. Cameron; treasurer, Duncan McDonald; manager, Phil Martin; manager of juveniles, George W. Boyer; committee, Joseph Caisse, Sr., E. E. Boyd, George Gibson, Bernard G. Smith, and George F. Armstrong. This committee will include the officers. C. S. Salmon, official timekeeper. It was decided to enter an intermediate and a juvenile team in the O.A.L.A., and arrangements are to be made at once for membership and practice. Mr. G. W. Boyer was asked by the officers to arrange a match with some strong team for Barrie on May 24.

Old-time enthusiasm prevailed at the meeting of the Dufferin Lacrosse fans in Dr. Campbell's office in Oranville. Quite a large number turned out, and regarding the good work of the club for the ensuing year. Those who will have charge of lacrosse matters, and who will be responsible for handling the game, are: Hon. president, Blaney, McKeown; hon. vice-president, C. R. McKeown; chosen to play in the first interprovincial match, Dr. G. H. Campbell; second vice-president, D. McCallum; secretary and treasurer, A. G. Cameron; and committee, D. McPherson, W. V. Dedrick, T. Greenis, B. Booth. The matter of forming a town league, in addition to the regular teams, was discussed, and an effort will be made to have at least three teams, and everybody can play who wishes. The arrangement of the players will be in the hands of the executive, and care will be exercised to have teams as evenly matched as possible. It was decided not to change the colors of the uniform, but a new design may be arranged.

The Lansdowne Lacrosse Club of the West End Y.M.C.A. will play senior in the O.A.L.A., with several of the old Janette Shamrocks in line. They had thirty out to practice Saturday.

St. Helen's Junior O.A.L.A. team will hold their first practice of the season tonight at the school grounds, Dundas street and Lansdowne avenue. The management would like to see all of last year's team out. Any new players will be made welcome. The best selection held in the schoolhouse after practice tonight.

The district committee of the Ontario Amateur Lacrosse Association, composed of President Stiles, secretary, and Councilors Leart, Wallace and Machen, will meet at O.A.A.W., room 22 College street, Thursday evening at 8 o'clock sharp to make the final draft of districts and appoint convenors of the various districts. Clubs whose fees have not been paid are requested to forward the same to Secretary Dorfe, 888 Bloor W. at once. Also to suggest the names of possible officials, and the best selection possible may be made.

The St. Simons intermediate team were the first to have players signed and certificates returned to the secretary for registration. The team had twenty-two. On the Don flats St. Simons had twenty-five, and Young Toronto had twenty-two. Every club was delighted with the turnout they had in the initial practice. It certainly looks like one grand revival this season.

Enns and Allen Had to Retire—Kocher Has a Triple and Shean a Homer.

MONTREAL, May 5.—Providence outplayed Montreal easy in the opening game here today. Purtell's two errors and Shean's double gave Providence a big lead in the fourth. Burke was wild but effective. Bauman's error, Providence's only misplay, gave Montreal two runs. Enns and Allen retired with slight injuries. Allen wrenched a tendon running to first and Enns was struck on the face by a batted ball.

ST. THOMAS STAND IS BURNED TEAMS WERE PLAYING AT TIME

Fan Noticed Flames and Gave the Alarm—Opening Game Will Take Place—A Real Hot Blaze.

ST. THOMAS, May 5.—(Special.)—The big stand at Pinarofe Park, the home of the local Canadian League ball team, was totally swept away by fire this afternoon. The Cuban Stars and the Saints were playing an exhibition game, and the locals were just going in for their second inning, when a fan in the west stand noticed a blaze creeping up thru the lower seats. He gave the alarm, and in less than two minutes the building was a mass of flames.

HAD NO ADVANTAGE SAYS PRESIDENT THOS. LYNCH

NEW YORK, May 5.—The Giants had no undue advantage over the Philadelphia Club in the games played at the Polo Grounds late in April, by reason of the fact that there was a hole scooped out of the diamond back of the pitcher's box. This is the finding of President Lynch of the National League on the protest of the Philadelphia Club, and he orders that the result of the games shall stand as played.

OVERTIME TO WIN SENATORS VICTORS

World's Champions Beaten in Twelve Innings Contest—Johnson Again.

BOSTON, May 5.—Washington defeated Boston 5 to 3 in a 12-inning contest today. The locals, led up to the eighth, when the visitors scored three runs on an error by Janvry, singles by Shanks and Schaefer, followed by Johnson's double, which cleared the bases. Johnson leveled Engele in the eighth and held the lead on four hits and no score. Johnson has pitched 42 2/3 innings without being scored upon.

SOUTH-SIDERS FOR THE OPENER LUSH TO TWIRL FOR THE LEAFS

Aitchison Selected to Perform for Newark Braves—Fitz at Second—Leafs Have Good Workout at the Island—Manager Kelley Likes His Outfit.

The opening game will be a battle of porters. Johnny Lush has been nominated for mound duty for our own luckless band, and Aitchison is slated to work for the league leaders.

Fitzpatrick will be at second, despite a sore leg, and Bemis will catch.

Manager Kelley arrived in town at 1:30 yesterday afternoon and at 5 o'clock had the full squad with two exceptions, working hard at the Island. Shultz and Bradley were the only missing ones.

Every pitcher took a turn on the mound, but took things easy. Goulait made a crack at it, but took things easy.

HIGHLANDERS EASY FOR THE MACKMEN

New York Went Well for Eight Innings and Then Blew Up.

NEW YORK, May 5.—The New York Americans closed their first home stay without winning a game on the local grounds. They were beaten again by 1-0 Athletics today, the score being 8 to 1. Fisher and Plank had a pitchers' battle until the eighth inning, when the Highlanders crumpled up and the visitors scored four runs. Plank held the Highlanders to one home run by sweeping. Crease made a working out of his arm in the third, holding the ball while the game was being pitched.

REAL ESTATE AND CONSTRUCTION NEWS

SCARBORO FARMS ON RAILWAY ACTIVE

Steady Demand for Tracts on Steam Line Moving Prices Upwards.

MANY NEW GARDENERS

Intensive Cultivators, Forced From City's Fringe, Locate in East.

A new phase of demand for acreage tracts is asserting itself at Scarborough, especially down in the southwest corner of that township nearest the city.

One of the present phases of the activity is the cutting up of these railway front farms into market gardens. These small plots are close to stations which are used both for shipping garden truck and receiving fertilizer supplies.

Then there is another reason for the many recent changes of ownership, and that lies in the anticipation that the scarcity of large factory sites in the city will drive new industries to locate in what are now very suburban outskirts.

This year is seeing the number of houses located in Kingston road subdivisions increase by big numbers. The troubles of transportation will largely be dispensed with when the Toronto and Downs east radial is operating, probably by the end of the year.

Scarboro's south concessions, A, B, C and D, contain few farmers now. Three years ago the land men began buying up the lake front farms.

European Situation Less Alarming---Daily in Stock Markets

EUROPEAN CRISIS IS BLOWING OVER

Toronto Stock Market Reflects Improved Conditions Across the Atlantic.

SENTIMENT CHEERFUL

Small Gains the General Rule—Some Specialties at Lower Prices.

Clearing political skies in Europe, as evidenced by an improved tone in the London market and a resultant upturn in determining the character of the Toronto Stock Exchange at the opening of the week. Sentiment was clearly of a more optimistic nature, and securities advanced throughout the list before sales were attracted.

Advances of anything from a mere fraction to a couple of points were general here. Trading was too restricted to make the movements very general. However, the fact that offerings were small and the enhanced prices created more enthusiasm. The continued activity of the market for speculative purposes undoubtedly was a deterrent since brokers were not in a position to finance any material bull activity.

Canadian Pacific rose over three points to 24 1/2 in New York, and the incident served to cheer the hearts of apprehensive traders on this side of the border. At 9 o'clock the same time gained 3/4, this bringing the quotation within a point of the price of a week ago. Twin City was up a large fraction to 10 1/2, the highest in two weeks, and Toronto Rail moved up 1/4, compared with 140 a week ago today.

Anticipations of a bull movement following the resumption of negotiations between the city and the company when Sir Wm. Mackenzie returns were responsible for the improvement in this issue. Cement and Dominion Iron were both fractional gains for the day, and such stocks as Consumers Gas, General Electric and in the preferred securities, E. N. Burt, Maple Leaf, Russell and Steel Co. were in demand at firm prices.

While the general trend was towards higher levels, some of the specialties made towards lower levels, this in no case was the decline material. Tocks made a new low in months in our market at 5 1/2, and Macdonald, Porto Rico, Rogers preferred and Bell Telephone were slightly easier. The investment stocks were quieter and about unchanged for the session.

FOREIGN OUTLOOK MORE REASSURING

London Market Improved on Better Political Prospects—C. P. R. Leads Advance.

LONDON, May 5.—The brighter political outlook and the news that Montenegro will evacuate Scutari gave the stock market a cheerful tone today. Professional support advanced prices in all sections and bullish continental advices imparted additional strength later in the session.

Consols gained a quarter of a point and Canadian Pacific and American shares generally were prominent in the upward movement, while home rails were higher on the proposed advance in freight rates on June 1. The bank of England secured most of the \$5,000,000 new gold offered in the open market. There were dealings in the new Brazilian loan at 1/4 per cent. discount.

APRIL TRADING IN NEW YORK EXCHANGE

Month's Record Was Largest Since January—Bonds in Better Demand.

Stock transactions on the New York Stock Exchange in April totaled 4,673,110 shares compared with 7,142,867 in March, 6,645,880 in February and 5,766,306 shares in January of this year. The bond sales in the stock exchange totaled \$55,334,000, which was \$15,390,000 more than in March, and larger than in any month since May, 1912. The daily average of transactions compared as follows:

Month	1912	1913
Jan.	3,171,175	4,093,388
Feb.	3,022,086	3,093,513
Mar.	5,729,419	5,645,489
Apr.	3,252,281	6,473,923

COMMODITY PRICES HIGHER IN BRITAIN

Sharp Advance in Cost of John Bull's Living Last Month.

LONDON, May 5.—There was a sharp advance in the cost of living in Britain during April, the index number of the Economist at the month ending April 27, or 12 points in advance of the figures at the end of March. Compared with January, the decline is still shown. Details follow:

Month	1912	1913

BANK RECORD MAKES POOR SHOWING

Bank clearings continue to make an unfavorable showing compared with last year. The total record for Canada last week was \$18,751,308, which compared with \$17,650,048, a decrease of about 6 per cent. The previous week there was a decrease of 1 per cent. The week before that a loss of 1.6 per cent. Clearings across the border last week were \$2,745,782,581, compared with \$3,208,381,648 last year, a decline of 13.4 per cent., and of 8.4 per cent. compared with 1911. The previous week there was a loss of 9.1 per cent.

STOCK MARKETS QUITE CHEERFUL

Montenegro's Submission is Followed by Active Buying of Securities.

STILL SOME ANXIETY

Several Developments at Home Rather Takes Edge off Enthusiasm.

NEW YORK, May 5.—The decided improvement in the European political situation consequent upon Montenegro's decision to yield to the powers, and the exerted strength of securities abroad the stock market today. Expectations of speedy settlement of problems which have menaced the peace of Europe for months opened up the prospect of the purchasing of American securities by foreign investors. London, in fact, has been buying stocks on every favorable opportunity for some time, and before the opening here American stocks in London were marked up sharply. The situation was one which offered no comfort to the bears, and there was spirited bidding for stock to cover when the market opened. London also was in this market, buying most heavily of Steel, Amalgamated and Union Pacific. Operations on this side were carried on more contentedly, and in the first hour there was a quick upturn, resulting in gains for important issues of 1 to 3 points.

MONEY EASIER IN MONTREAL MARKET

Some Indication of Freer Funds—Sharp Advances in General List.

MONTREAL, May 5.—In line with the better feeling which prevailed in the European markets, local stock displayed a strong tone, and a final uplift in C.P.R. had the effect of bringing the market to a strong close practically at the best prices of the day.

Some indications were noted of a easing tendency in the money situation, but the somewhat mixed outlook in this market in restraint and dealings were comparatively light as a result.

C.P.R.'s strength on the rally was followed by a recovery to the 24 level in the final business, leaving a net gain of 3 1/2. Textile, which rose 2 1/2 to 3 1/2, equaling its high record price. Power up 1/2 to 2 1/2. Cement common up 1/2 to 3/4, and iron 1/4 higher, at 49 1/2, were next in prominence. In all these stocks the close was at or very close to the best.

Other stocks which shared in the general improvement, but were less prominent in the trading, included Canadian Cottons up 1/4 to 5 1/2, Toronto Railway, which closed at 4 1/2, compared with a selling price of 1 1/2 on Saturday, and Detroit 1 higher, at 7 1/2.

NEW ISSUES WERE SMALLER IN APRIL

Financing Operations Across Border Smallest in Months—Record of Present Year.

NEW YORK, May 5.—Financing consumption by the corporations of this country during April aggregated \$118,500,000. This was less than the total for any previous month of the year and also below the corresponding month of the two previous years. The effect that was comparatively unfavorable conditions in the investment market are having in the matter of new financing is illustrated by the fact that in the first six months of both 1912 and 1913 there was more financing done each month than in April of this year.

Total financing so far this year, however, totals \$819,500,000, or \$125,000,000 more than last year and nearly \$200,000,000 above 1911. The financing by months compares as follows:

Month	1912	1913
April	\$118,500,000	\$127,000,000
Jan.	150,000,000	175,000,000
Feb.	150,000,000	175,000,000

GERMAN SITUATION IS MUCH IMPROVED

NEW YORK, May 5.—A Berlin cable says that the mood of April brought a complete reversal of business sentiment in Germany and a marked improvement during the previous month. The output of pig iron was also unusually large. One big German market operator who had been conspicuous in the recent bear campaign reversed his position and bought from \$5,000,000 to \$7,000,000 worth of securities.

APRIL RECORD OF BANK CLEARINGS

Canadian bank clearings for the month of April showed very moderate increase over the preceding April, especially in view of the fact that the Easter holiday occurred in that month last year and not this year. The rate of increase for the Dominion was 5.3 per cent., and the actual increase was \$7,263,486, which was entirely contributed by the four principal cities, the average in the lesser centres being stationary.

MOVEMENT COMING IN MINES

HOLLINGER IN LEAD

And General List Follows Its Move—Swastika at Lower Prices.

Distinct evidences of improvement were apparent in the mining exchanges yesterday, sharp advances in half a dozen of the leaders making it plain that those who had predicted a turn for the better prognostications. It looked, in fact, as though the market were making for a small bull movement, the sustained buying demand being clearly significant of a renewed public interest.

While trading did not broaden out to any great extent, the usual favorites were more active than usual. The leading feature was the action of Hollinger. The bid on this issue was \$17 during the morning, but during the last hour the shares were carried up a full dollar to \$18 when traders endeavored to locate points for the day. Pearl Lake was another strong spot with the price up 3/4 while details were lacking, it was known that a deal was under way which should work out in the interest of the shareholders. A bid considerably above the market was made on Saturday for a block of 50,000 Pearl. Don Lake moved up to \$2.28 and Porcupine Gold was a fraction higher at 18 1/2.

CANADIAN GOLD AFTER BIG PETE VEIN

COBALT, May 5.—Mining interests are following developments at the Canadian Gold and Silver property, the old Alex. and Cobalt holding, with a good deal of interest. WANTS SPOTLIGHT TURNED ON THAT CHAMBERS-FERLAND DEAL

"Fairplay" Would Invoke Services of Courts to Establish Rights of Minority Shareholders—Much Misunderstanding Concerning Affairs of the Company.

Editor World: In the mining columns of a recent issue reference was made to the "Position of the Chambers-Ferland matter," in which these words: "It was reported recently that an offer would be made for exchange of these holdings for shares of the Aladdin-Cobalt Ltd. but no explanation has been made." Representing a number of shareholders in the Aladdin-Cobalt, I deem reasonable some explanation is due from those who are manipulating the London end of this enterprise.

The article further stated that "the former controlling interest transferred their stock for about 38 cents a share to the Aladdin-Cobalt English Co. which was working the Silver Queen." Furthermore, the Canadian secretary of the Chambers-Ferland informed me that the situation as regards the minority shareholders is as follows: "The main part of the same as before the change of control."

What does this mean? Control of the Silver Queen was assumed by an English syndicate in February last. Subsequent to this, a representative of the original Aladdin-Cobalt (Silver Queen) was operated in at \$2 (40) per share. This one stock in the English company—on the basis of \$200,000 (250,000) of the stock was listed in London only on Tuesday of last week; further, the stock of the original Aladdin-Cobalt (Silver Queen) was operated in at \$2 (40) per share. More should the Silver Queen be placed under a trust company, which would revert to the London manipulators. Again, it would be possible to have a special dividend to the issue of the new English company. The whole question is one of importance, as it must decide whether have any rights, and if so, how they are to be conserved and protected?

RAINS WIPED OUT CINCH BUG PEST

Soaking Downpour in Missouri, Kansas and Oklahoma—Prices Lower.

CHICAGO, May 5.—Wet weather was the chief influence today in lowering wheat values % to %c. The close was steady. Corn and oats both suffered but declines were slight and a shade to %c. Provisions made a net up of %c to %c.

"Good bye, cinch bug," said wheat traders today as they read reports of the soaking rains of Saturday and Sunday in Missouri, Kansas and Oklahoma. In some parts of Kansas the rainfall amount of about four inches and a shade more was reported. It is said the moisture stored by the fields will be enough to carry the plant through to maturity, which was threatening numerous during the warm, dry weather in the southwest.

Domestic Visible Decreases.

The downward course of prices incident to the weather was aggravated by the clearing of the disturbed political situation in Europe when Montenegro's king reported he was ready to step up Schuler. There was a rally because of a report showing a decrease of 1,000,000 bushels in the domestic visible supply—the total being 47,157,000 against 48,233,000 a week ago—but a reaction followed in spite of reports that 45 loads of Duluth wheat had been sold to exporters.

Expectation of increased corn offering lowered corn. The market showed narrow range throughout the session. General rains caused heaviness in oats. Provisions made gains. Offerings were limited, and there were good investment buying, as well as covering by shorts.
