Water Gardens and Water Plants

No branch of gardening affords more opportunities for the solving of fascinating problems in plant culture than that which deals with the planning and constructing of water gardens.

There is none to deny that a cool, quiet stream of dimpling water, low-lying beneath the sweeping shadows of a giant tree rimmed round with ferns, green-waxing and lily-gemmed, offers to the weary mind a consolation unequalled the wide world over.

But how much more satisfying when such retreat is one's own or perhaps the partial or entire work of one's own hands.

Last year we spoke of water gardens quite early in spring, so that our gardeners might be able to commence their work in this line early.

Everyone interested in plants will be forced to acknowledge that the grand results obtained in many water gardens by the introduction of rare and beautiful plants have awakened a new interest among amateurs and professionals.

How impossible it is for the poor man to possess specimens of the lotus need not be discussed here; but is there anyone in this lovely Canada of ours who cannot get hold of a growing clump of irises, either from swamps or from a kindly neighbor.

No Japanese water garden would exist without its "Rainbow of the Gods," and as everyone knows, the Japanese are the water gardeners of the world.

Stock style and workmanship in all departments are guaranteed of the best, and the public are tendered a cordial invitation to visit the highest products of the arts and crafts of Europe.

Whether we are at birth endowed with certain intellectual powers, or whether our minds at birth are blank upon which the impressions we receive create our thought and character, the fact remains that the impressions of the first seven years stay with us longest.

The Disciplinary

Speaking generally, whatever home training a child receives is the training of his mother. Of course, the father must play a part in the bringing up of his children. He cannot consider himself exempt from this, his most important duty, just because his work keeps him from home most of the time.

Whether we are at birth endowed with certain intellectual powers, or whether our minds at birth are blank upon which the impressions we receive create our thought and character, the fact remains that the impressions of the first seven years stay with us longest.

CHURCHES TO UNITE IN PATRIOTIC RALLY

Hold Big Program at Glen Nevis on Thursday to Help Red Cross.

NEWS OF CORNWALL

New Convent Connected With Hotel Dieu Hospital Formally Opened.

CORNWALL, Ont., May 31.—A grand patriotic rally will be held at Glen Nevis on Thursday, June 3, under the auspices of the ladies and gentlemen of the congregations of Dalhousie Mills and Cote St. George and Glen Nevis, two Presbyterian and one Roman Catholic, who have united for this purpose. Prominent statesmen will deliver addresses in English and French. There will be soldiers' drills, manoeuvres, brass band, Highland pipes and vocal music, games, etc. The proceeds will be devoted to the Red Cross fund. Major Hugh A. Cameron of the 59th Regiment, recruiting officer at Cornwall, has received a letter from Lieut. Col. A. G. F. Macdonald, officer commanding the 59th Regiment, informing him that the new regiment to be formed in the 3rd division for overseas service will be known as the 59th Battalion, C.E.F. It will mobilize at Ottawa and train at Rockcliffe. The officers of the 59th (Stormont and Glen-garry) Regiment have undertaken to furnish a full company of 250 men with officers for the new battalion. The people of this district will appreciate the honor of having the battle flag of the 59th, and it is safe to say there will be no trouble in raising the 250 men in the two old historic counties. Efforts will be made to get the volunteers of the 59th Regiment, now in Kingston in training, transferred to the 59th Battalion at Ottawa. An Avonmore Tennis Club. The annual meeting of the Avonmore Tennis Club was held at Avonmore with a large attendance. The secretary, E. Hoban, presented the financial report showing the club to be in a strong position. The following officers were elected for 1915: Patrons, Rev. Mr. Manthorne, Rev. Mr. Charlesworth and Rev. Mr. Jones; honorary president, J. E. Brownell; honorary vice-presidents, W. A. West and A. O. Miller; president, Mrs. E. Hoban; vice-president, Dr. Mc-Kercher; secretary-treasurer, E. Hoban.

The new convent in connection with the Hotel Dieu Hospital, to be used as a home for the thirty sisters of charity who are in charge of the hospital, St. Paul's Home and Nazareth Orphanage, has been formally opened to the public for inspection before its occupation by the sisters. The erection of the convent was undertaken after a fire which completely gutted the old building, which at one time was the private residence of the Hon. John Sandfield Macdonald, first premier of Ontario. The building is three stories, made of Lepparite brick fronting and limestone facings, and is fire-proof throughout. Mr. C. E. Meredith of the firm of Meredith, Finlay and Hazelgrove, of Ottawa, was the architect. The chief contractor was T. C. James, Ottawa, and the sub-divisions were in charge of the following: M. N. O'Connell, Ottawa, plumbing and heating (Manning system), Parkes and Masterson, Cornwall, electrical work; Dominion Bridge Co., Ottawa, iron work; James McLaughlin, Ottawa, plastering; Fred A. McKay, Montreal, ornamental iron work; Ottawa Tile and Mosaic Co., terrazzo flooring, baths and marble work.

Sock Shower. The members of the Longue Sault chapter, I.O.D.E., of Cornwall, will hold a "sock" shower at the town hall on Thursday afternoon, June 17. Every woman living in or near Cornwall is asked to bring one or more pairs of socks to the "shower," or the equivalent in money. The ladies in charge of the affair aim at getting one thousand pairs of hand-knitted socks to send to the gallant Canadian soldiers at the front, as socks are the articles most needed, according to letters received by relatives of the boys on the firing line. The ladies fully expect that the contribution asked for will be forthcoming.

Capt. A. A. Smith of Cornwall, who has been accepted for overseas service with the Canadian Army Dental Corps, has been promoted to the rank of major and will have command of the second division of the corps. The second division will be attached to the headquarters of Major-General Steele, and Major Smith will be with the army division in which his son, Percy Smith, is serving. Vincent Lally, son of Mr. Frank Lally of Cornwall, will accompany Major Smith as orderly sergeant.

CANADIAN AND BRITISH SOLDIERS CRUCIFIED

Montreal Private's Letter Confirms Stories of Terrible Atrocities.

Special to The Toronto World. MONTREAL, May 30.—That the Canadians found Canadian and British soldiers crucified by the Germans is declared in a letter received here today from Pte. H. G. Cronshaw of the first contingent. He says in a censored letter: "Going along the road one day bayoneted to a hotel door, and just then a Canadian contingent came marching along conveying back to the base a bunch of four hundred German prisoners. I also saw one English soldier crucified on a barn door. He had hung there all night, and in the morning they stuck the bayonet in several times. These are things happening over here that I could tell you better by word of mouth. In writing you would not understand. Germans are not soldiers. They are murderers, and we'll get them in the end and repay them in full for the dirty tricks they have done. I am alive but think I am very lucky in getting away, as we were under strong heavy shell fire, and besides, the roar of the big guns got on your nerves at times. We are now out of Belgium into France for a rest."

GERMANY COULD STAND NEXT WINTER CAMPAIGN

Deputy War Minister Says Country Has Plenty of Supplies on Hand

Special to The Toronto World. WASHINGTON, May 30.—As analyzed here today, the action of the German foreign office in its notification to American shipping has a bearing on the German answer to the note of the government on the Lusitania incident. The notification is held to indicate that there is no intention on the part of Germany to abandon its war zone decree or its submarine campaign within its borders. It does, however, indicate, according to opinion here, a decision by Germany to differentiate between neutral and belligerent shipping within the war zone, and an intent on the part of Germany to disclaim any purpose to injure neutral shipping knowingly. It leaves an opening for further discussion and negotiation of all questions which may arise from the destruction of belligerent shipping on which may be carried American citizens or property.

Must Suspend Operations. It may be stated with reasonable assurance that if the German note which is expected to reach here tomorrow, calls for any considerable amount of discussion or negotiation, this government may suggest as a preliminary in agreeing to discussion that the demand contained in the original note from the United States to Germany, namely, that American lives and shipping shall be safe in the war zone, shall be force and effect until negotiations or discussions are concluded.

Presented By THE WORLD

Cost may have prevented your owning an outfit heretofore, but now nothing deprives you.

HIGH QUALITY

These superb, patriotic emblems must not be confused with cheaply gotten up or stamped colors, or small flags. Bear in mind every flag is full sized (3 x 5 ft.), big enough to cover a man completely; the colors are dyed in, fast, unfading; the material is weather-tough and wind-tested.

Complete \$4.00 FLAG AND Outfit

For those who may from time to time desire to show their patriotism by making a WINDOW DISPLAY from their home, a complete "Flag Outfit" has been prepared at a slightly increased cost. We strongly recommend the Complete Outfit as being the most useful and serviceable.

The complete \$4 Outfit (now distributed at \$1.48) consists of the Flag—full size and fast colors; a rope halloward for same, a six-foot, jointed flag-staff with ornamental ball end, a metal staff-holder (which may be permanently screwed to the window-sill, allowing the pole to be instantly inserted or removed at will). All enclosed in a box, in which the complete outfit may be permanently kept in compact space when not in use (size box, 21 inches square by 3 feet long). The price of \$1.10 is for the full-sized flag alone, as some readers may not need the pole and outfit.

This Presentation is made possible by the leading Canadian newspapers acting in conjunction to provide a flag for every home. These splendid outfits can be secured in no other manner.

MONDAY MORNING, MAY 31.

Diplomacy and the War

While the soldiers are doing their duty it must be thought that the diplomats are idle. Germany's diplomatic efforts are so open and obvious that it almost seems as though no other nation had any diplomatic representatives engaged.

When all the fighting is over and the victory gained then will come the turn of the peace makers, and what they will do must be expected to be conformable with the aims towards which the ambassadors at present appear to be working.

The union of the four great powers—Russia, France, Italy and Great Britain—with Belgium and Serbia, indicates a strong alliance in the future for the preservation of peace in Europe.

Early in the war an agreement was entered into by Russia, France and Great Britain by which each nation bound itself to continue in the fight until all had mutually agreed to stop.

From the great changes brought about by the great war no nation can be exempt. The old order of things, yielding place to new, even in the United States, which has no part in the conflict and is three thousand miles from the theatre of action.

TELLING HIS FORTUNE

to unite them, the desire for peace. They will dominate Europe with this idea as it has never before been dominated.

It has been suggested that the German Empire will be resolved into its elements after the war, the several nations of which it is composed taking their places with other nations of a similar standing.

Coalition and Conscription

Various circumstances, and particularly the formation of a coalition government point to an early call to the colors of every man of military age in the United Kingdom who is not in the armed and munition factories.

Germany not only organized a vast military machine, but it organized the whole labor of the country. There are no strikers in Germany—there can be none.

Our Canadian tariff is more than ever needed for protection, because Canada is about the only slaughter market left to the manufacturers of the United States.

Accident Policy Likely to Be Required to Pay Damage Claims

NEWS FROM CITY HALL Metropolitan Life Pays Ten More Policies to Soldiers' Relatives

The city solicitor has reported that the only way the citizens can be protected against jitney accidents is for the jitney owner to take out an accident policy, such as employers of labor take out, and deposit the same with the police department. In this way a fund would be created from which damages could be paid should an injured person sue for such and obtain a favorable judgment.

LEAFS LAD BOTH FROM JERSEY CITY

Demmitt Saves First Game by Great Catch of Line Drive—Second See-Saw Affair.

Chimer's Leafs did a lot to revive the faith of the fans Saturday when they registered a double win over the Skeeters, and pulled themselves two notches further up the International ladder. The Leafs nosed out the Jersey City outfit by a 3 to 2 score in the first game and collective hitting in the fifth was mainly responsible for the win. The second fixture was a see-saw affair in which everybody was taking healthy clouts at the ball; no less than six pitchers being worked out by both teams, and the Leafs, hitting more opportunely again, won, 11 to 7.

Early in the first game, putting runs in the fifth inning of the first game. There were two out on bases, and the heavy hitting Bues was counted on to win the game right there for the visitors. He hit a mule a minute before the centre and right and Demmitt was off with the greatest of the bat and he looked as though he could never reach the field. One last great effort, and the mid-fielder just managed to grab and hold it. Demmitt made a splendid impression his first day out.

The Skeeters jumped into a two-run lead in the first game, putting runs across in the third and fourth. Yelle cleaned the bases with a home run, and Truesdale brought him home with a double to right centre. Hits by Bues and Wright and Turner's out counted the other in the next session.

We got enough in the fifth to win, however. Reach opened with a hit, and Trout brought him home with a smash to the scoreboard for three bases. Parent singled and Trout counted. After Cochrane had scratched a hit, Hollander brought Parent in with the winning run with a hit thru short.

Again in the second game Jersey City jumped into the game with a lead. Bues was as wild as the proverbial March hare. Truesdale, the first hitter, walked, and Buesy must have been thinking of the bases with a home run, but he cleaned the bases with a home run, and in the second and fourth in the fourth on a clean hitting by Graham, Demmitt and Bosch, putting us in a hole. The Skeeters came right back to tie in their half and put across four. Wright walked, and also did Yelle and Turner, Truesdale's wild pitch and hits by Turner, Buesy and Thompson did the necessary for the visitors. Also we scored three more in the seventh, we got enough to win the game in the ninth. With two on in the seventh for Cochrane cleaned up with a home run.

The Wool of a Large Flock of Sheep Transformed Into Summer Suits for a Thousand Men at Least Possible Cost

How It Happened
First we bought the material. It consisted of short lengths of the newest up-to-date English tweeds and worsteds, about

7000 Yards in All
Then we contracted with a maker, whose highest paid workpeople were idle, to put them on this order, so that the fit, the finish, the making and trimming of these suits should be the

Best Known in the Trade

We gave them plenty of time to do the work thoroughly, and the result is YOU SAVE FOUR DOLLARS TO TEN DOLLARS A SUIT in this Record-Breaking Sale.

This manufacturer declares he did not make a cent on the wages of the workmen, and, besides, we obtained the material at a fraction of cost. SEE WINDOW DISPLAY.

Here Are a Few Details of Tomorrow's Thousand-Suit Sale

There are only two or three suits of any one pattern, as they were made from "short ends" of the best English tweeds and fancy worsteds.

All the most desirable of this season's cloths are included in the collection, good shades of browns and grays, as well as various mixed colors.

The styles are the most approved of this season's tendencies; men, both young and old, have been provided for, and some of the young men's styles are particularly smart. Single-breasted sack, with two and three-button, soft roll lapels, natural shoulders and snugly-fitting coats that will satisfy the smartest dressers; single-breasted vest, medium and high cut. The trousers are well cut, with five pockets and belt loops. The suit finished with fine twill mohair linings.

Everyone is sure of getting a suit to fit him, as the sizes run from 33 to 44.

The regular values of these suits are very easily determined. The manufacturer who owned the cloths is so well known that his products will be found in nearly all stocks of high-class, ready-to-wear clothes for men. You will find some of these very identical suits selling at eighteen dollars, in most of these stocks. Others are at sixteen, fifteen, and some down to twelve. But all are great value for the money at our Tuesday, 8.30, price of **\$7.85**

A Baker's Dozen of 8.30 Specials
