Dead Against It

The Globe does not know, nor does any Liberal leader know what the eventual result of reciprocity will be.

There is not the slightest doubt that nineteen out of twenty of the Liberals who are going to vote for reciprocity would have voted against it if Sir Wilfrid Laurier and the Globe had said they should.

Not Afraid to Tell

The Toronto Star presents a cartoon of Conservative voters running away from Sir James Whitney because they are afraid to tell him they were going to vote for reciprocity.

It is the "possible loss or gain." When S. H. Blake, K.C., goes into a business deal it is not the possible but the certain loss or gain of dollars or cents.

Pat Burns' Hogs

On the same page of The Globe Mr. Pat Burns of Calgary is quoted in favor of reciprocity. And what has he to say? Simply that he can't see where it is going to hurt anybody.

EUROPEAN UNREST.

BRUSSELS, Sept. 13.—An order was issued to-day retaining with the colors the soldiers who should be disbanded to-morrow, their service period having expired.

Facing Both Ways

The Globe is not to be stuck in an argument by any little trifle like consistency. The facility with which it loads the payment of tariff dues on buyer or seller according as the argument requires it for reciprocity purposes is amusing to an outsider, and ought to be convincing to Globe readers if they were sufficiently alert to note the quick changes.

Machine Liberals

Another idiotic argument of the Globe is that reciprocity means the removal of the tax on food stuffs. We have more food here than we can eat, and according to The Globe the United States has no food enough.

Read The Star and See

The Toronto Star did not make much out of the Canadian farmer by telling him he could sell more in the flooded market of the United States than in his own "good home market."

BIG BARGE WRECKED

CORNWALL, Sept. 13.—(Special.)—The Montreal Transportation Co.'s big barge Winnipeg, Capt. Nelson Mallette of Cornwall in command, while in tow of the tug Thomson, struck on a rock in the Rapid du Plat, and punctured her side last night, while on her way to Montreal with 1000 tons of soft coal for the Montreal Steel Works.

A POLITICAL SHELL GAME

POLITICAL INNOCENT: I'm willin' to bet the policy pea is under the Reciprocity Shell. CANADIAN FARMER: Well, you'll not bet with my money.

MISSIONARIES BESIEGED IN THE CITY OF CHENG-TU

It is Believed That the Garrison Will Be Able to Withstand Attacks of Rebels. PEKING, Sept. 13.—Latest advices received by the Chinese foreign board and the foreign legations indicate that Cheng-Tu, capital of Sze-Chuan Province, is under siege, that most if not all the missionaries are inside the walls, and that the city is garrisoned by 1800 troops, who have had several engagements with the besieging forces.

CHALLENGE TO MR. CHAMBERLAIN

Editor World's Returning from News Section, this afternoon I learn from your paper that Mr. Albert Chamberlain, former president of the British Welcome League, has devoted considerable attention to me at Liberal meetings he has addressed in and near Toronto, and that he has thrown out certain challenges to me.

ANOTHER BOLTER.

RENFREW, Ont., Sept. 13.—James Barr, a well-known farmer of Adamston and a lifelong Liberal, came out flatly last night at Dr. Maloney's meeting in Gorman against reciprocity. He voted for Low at the last election, but declares that no farmer who gives the matter study can see any advantages in reciprocity.

YOUR FALL HAT.

You're probably going to try a fall hat to-day or to-morrow or surely before the week is over. Let us tell you that there is no difference in price between the hat made by an "unknown" and that turned out by a manufacturer whose name on the inside band stands for quality.

PARIS, Sept. 13.—(Special.)—J. H. Fisher, the Conservative candidate for North Brant, held a very successful open-air meeting at Burford Agricultural Park this afternoon. The prospects of his winning this seat, which Wm. Paterson, minister of customs, has held for many years, are certainly bright.

FOOD RIOTS HAVE AGAIN BROKEN OUT IN FRANCE

PARIS, Sept. 13.—The war against the high price of food, which has been languishing for the last few days, owing either to the vigorous precautions of the authorities or the palliative measures of the mayors in establishing municipal butcher shops and other food depots, burst forth afresh to-day. In several districts there were violent disorders, which indicated that professional agitators were again at work.

A CAMPAIGN HIT.

Tom Hook is making a hit in the campaign by saying: "The enemy would not fire on the Laurier navy because they know it would not be warfare but murder."

MANUFACTURERS NEXT!

THE TORONTO GLOBE, February 6, 1891: "Sir John's followers know well that he is gulling the country. If they thought that there was the slightest chance of our obtaining reciprocity in natural products by itself, they would be more than alarmed, since it is obvious that the farmer would not long support high protection for the Canadian manufacturer, if his own industry were placed outside the pale of the N. P."

HAMILTON HAPPENINGS

LIBERAL CANDIDATE WOULD TOGETHER TO BUSINESS

Bundas Audience Was Anti-Pact— Hon. Adam Beck on Reciprocity— Good Meetings at Hamilton.

HAMILTON, Sept. 13.—(Special.)—Hon. Adam Beck, Gordon Wilson and W. O. Sealey, M.P., comprised the drawing card of the Liberal meeting to-night. While the meeting had been arranged by Mr. Wilson, Mr. Sealey was present by invitation and it was most happily received, being allowed to follow the Conservative candidate alternately and to close the speech making.

Hon. Mr. Beck devoted considerable time to the hydro-power question and warmly commended the stand taken by Mr. Wilson on that important question. The hydro project had been dealt with irrespective of politics and this year would save the consumers of Toronto half a million dollars, and within three years Hamilton would be saving a quarter of a million dollars by means of the great scheme.

Referring to the reciprocity agreement, Mr. Beck declared that there had been no demand for the treaty, that Patterson and Fleming had been sent to Washington unprepared and that Sir Wilfrid Laurier had violated his promise not to conclude the terms of the pact without determining the views of the people of the country in the matter.

The speaker graphically described the conditions which would take away the Canadian horse market if the pact is adopted and related the experience which had followed when the export duty had been imposed on timber sent from Canada by the States, when the Canadian mills had immediately become busy and American mills had been forced to close.

Gordon C. Wilson poked fun at his opponent and wanted to know why he had changed of heart on the reciprocity question. He quoted from one of the Liberal candidate's speeches, in which Mr. Sealey had said, "They would swamp us in our own market, while we would be unable to meet them in theirs."

Mr. Sealey devoted the time of his first period to a defence of his record in which he claimed he had made good on all his pre-election promises, and was very fairly heard although several in the audience seemed disposed to take his statements very lightly and he was frequently asked to get down to the discussion of reciprocity.

At the nomination to be held here to-morrow it is reasonably sure that the names of eight candidates will be officially placed before the electors in the constituencies included within the boundaries of Wentworth County, in the county riding of Gordon C. Wilson will be named for the Conservative, W. O. Sealey, the present member, for the Liberal, and A. B. Wilson will run as an independent. The nomination booth will be at the Mountain View Hotel.

Three candidates will also be named in West Hamilton: T. J. Stewart, M.P., for the Conservatives; Major John J. McLaren for the Liberals; and Hiram Dickson as an independent labor man. Samuel Marker, M.P., and John Peckies will be the respective Conservative and Liberal nominees in East Hamilton. The city nominations will be held in the court house for the east riding, and in Association Hall for the west. Large crowds are expected at all three places.

Big Open Air Meeting.
The cool weather had little effect on the size and enthusiasm of the crowd which attended the open air meeting at Point Hill in the north west part of the city to hear the arguments against the reciprocity agreement presented by T. J. Stewart, M.P., Samuel Barker, M.P., and George Lynn. The speakers were justly cheered time and time again, and the audience indicated by their actions that reciprocity will make a very poor showing in that part of the city.

J. W. Carstairs and J. W. Wright hold a good meeting at Crown Point in the interests of the candidacy of Gordon Wilson. As was to be expected, a good crowd turned out and greeted the speakers' expressions with plentiful applause. Crown Point is perhaps the strongest anti-reciprocity district in the city of Ontario.

Rev. Anderson, of Catherine-street north, and James Blower, of Babcock-street, were arrested by the police to-night, charged with the theft of a horse and buggy from a local livery man. The alleged theft was committed on Labor Day, when the two young men hired the outfit and drove to Toronto, where they left it. The horse and rig were returned several days ago. The men will appear before the magistrate to-morrow.

Killed by Fall.
Arthur Marshall, the 4-year-old son of an Anston Township farmer, fell from the nose of his father's barn see-

terday afternoon and died half an hour after the result of his injuries. No inquest will be held, as Coroner Farmer decided that the boy's death was purely accidental.

Judge Snider this morning estimated the \$500 bail posted by the Bernstein, who was charged with uttering forged cheques in this city some time ago. Bernstein has left town and the police know nothing of his whereabouts.

PUBLIC AMUSEMENTS

Gertrude Elliot Coming in Patterson's "Rebellion."

Just prior to her New York run in the play, "Rebellion," Gertrude Elliot is to appear at the Royal Alexandra, next week in Joseph Medill Patterson's remarkable play that had a try-out in the west last spring, creating such a stir that it is looked upon as one of the best sensations of the year.

Patterson, who wrote the play, "The Fourth Estate," is one of the leaders in the popular modern school of realistic-playwrights, "Rebellion" is a play of modern conditions that hammers on some pretty serious problems.

Miss Elliot has just begun her second season as an American star. The charming younger sister of the beautiful Marjorie Elliot, she is particularly an Englishwoman when she married Forbes-Robertson. Great Britain's foremost actor. Until last season, Miss Elliot revisited her native country only as a co-star with her husband.

It was not until last year, when Liebler & Co. brought her over to appear in "The Hours of the Day," which she had produced in London, that her country folk had an opportunity to see her as an independent star. Best sale opens to-morrow.

"Thais" Coming to Princess.
Jos. M. Gates announces his much heralded dramatic version of "Thais" as the attraction at the Princess Theatre for the week beginning Monday, Sept. 18. The announcement of the coming of "Thais" should be welcome to the theatregoers of this city, for the book of Anatole France, from which Paul Wilaach secured the foundation for the play, is a powerful and consistent story of life in the second century, and, besides being a great novel, was the foundation of the internationally successful opera of the same name. With this story woven into a drama by such a vigorous dramatist as Mr. Wilaach, great things are expected.

Major Carpenter was the host of a major yesterday in barracks for the Marchioness of Donagel.

Mr. and Mrs. Herbert Weatherly, London, Eng., who have been visiting in the city, and Mr. Herbert Anger, have returned to England.

Mr. and Mrs. John Beverley Fleming have sent out invitations to the marriage of their daughter Prudence Mary, to Mr. Vernon Henry Edwards, in All Saints' Church on Saturday, Sept. 16.

The marriage of Mr. W. Kenneth Gillespie of Montreal and Miss Fannie Fernie Grimmer, daughter of Mr. and Mrs. Frank Grimmer, has been announced to take place on Sept. 14, at the residence of the bride's parents in Boston on Sept. 14.

The residence of Mrs. C. Marsland, in Dovercourt-road, was the scene of a marriage of her handmaid, Mrs. Mildred Eileen, to Mr. George H. Doherty, on Tuesday afternoon. The ceremony was conducted by the Rev. C. A. Sykes, pastor of Wesley Methodist Church, under a bell of roses. The wedding march was played by an orchestra, and Miss Mabel Doherty, vice

program, and rendered four numbers in his usual meritorious style.

The September Fur Display

Complete Showing of Rare and Beautiful Garments

One of the many new designs in fur coats. Alaska seal, near seal, etc.

It surely is fur-time now, and buying furs is not such a difficult undertaking if you go to the right shop to begin with. We want to interest you in our store. The showrooms to-day contain a larger selection of fur garments than we have ever been able to get together heretofore.

The designs from which our garments were made come from Paris and New York and the fur that goes into them is of our own selection, made by our own representatives in foreign and local markets.

We want everyone to see this splendid display of furs. It's something "worth while" if you are at all interested in furs or contemplate buying. Here are a few specials in the big stock.

- Persian Lamb Coats—The latest models in best selected furs, semi-fitting backs, roll shawl collar, a new Parisian design. 36 inches long. \$250
- Persian Lamb Coats—In different designs, 26 to 32 inches in length, \$135 to \$200.
- Hudson Cooney Seal Jackets—Very fine, stylish and serviceable coat, 36 inches long, best of skins, French dye, opossum storm collar, the mauve or blue lining. \$75
- Genuine Russian Pony Coats—Full length coats, plain or with black opossum collar. \$80

Alaska Seal is getting more scarce and more expensive every day, but we were fortunate enough to secure a very large consignment in London, England, before the international award on the seal fishery question. We are still offering this splendid fur at the old figure. It is your opportunity to buy to-day. Select your own fur and we will guarantee you satisfaction in the fit and workmanship.

Mens Fur-Lined Coats: You'll find a splendid stock of mens fur-lined coats now here. It's larger and more complete than what you'll expect. All furs, all cloth, all designs and sizes.

WOMAN KILLED BY TRAIN LEVEL CROSSING DEADLY

Mrs. Hannah Wright Struck by Engine on C.P.R. Tracks in Dovercourt.

Shortly after 10 o'clock yesterday morning Mrs. Hannah Wright of 1051 Dovercourt-road was struck and instantly killed by a westbound C.P.R. freight train on the track immediately north of Dovercourt-road.

Mrs. Wright, who was about 65 years of age, tried to cross the tracks going north while a westbound freight train approached, and had almost cleared the tracks when struck by the engine and thrown 30 feet against the fence.

Dr. C. M. Hincks of 108 Geary-avenue was called, but the woman died almost as soon as he arrived.

It is claimed by Engineer R. Nolan that the bell was ringing when they passed the street intersection. They are, however, no gates or watchman at the crossing, where, it is said, 5000 people pass every day.

WAS INSPECTOR IRRITATED?

Children's Aid Society Officer Says Prosecution Was Result of Animus.

Charged with demanding \$10, thru menaces, from Mrs. Bert Hall, with intent to steal the same, W. A. Gunton, agent of the Children's Aid Society, appeared before Judge Winchester yesterday morning, and was exonerated.

Mr. Gunton stated that Staff Inspector Kennedy appeared to be more anxious to press the charge than Mrs. Hall herself, and in his opinion personal animus was shown. He says that some time ago he remarked to Mr. Kennedy that from his observations, soliciting on the street by women was more prevalent than in either Buffalo or Detroit, and that he thought the remark may have nettled the official guardian of the city's morals.

Mrs. Hall said in the court that the accused came to her house and asked for Myrtle Jones, stating that he was a government agent of the Children's Aid Society. According to her evidence, Mr. Gunton told her that she was liable to be given from five to seven years for harboring a ward of the Children's Aid Society, and she told him that if she could do anything to help the girl she would. The next day she made a street appointment and handed him ten dollars for the girl's use.

J. J. Kelso was subpoenaed, but did not appear, and it was necessary to telephone for him. He stated that agents were authorized to receive money on behalf of the wards, but thought that Mr. Gunton had made a

CRAVES WIN IN FINAL GAME. McGinley Relieved Seventh and Pitted Jimmy Murray. The final game of the season... McGinley Relieved Seventh and Pitted Jimmy Murray.

LEAFS WIN IN THE TENTH FINAL GAME WITH BISON

McGinley Relieved Mueller in Seventh and Pitched Great Ball - Jimmy Murray Had Homer.

The final game of the season between the Leafs and Bisons was decided only after a ten-inning contest, with the score in favor of the home club, six to one.

The game started with Mueller and Brockett the opposing pitchers, and for the first five innings was a very listless affair, and then blossomed out into a grand battle.

Starr got a double in the first inning, but got no farther. In the third Jordan dropped Wratten's fly, and the Bisons got another start, as Wratten reached second.

McGinley pitched the fourth, but nothing resulted, and the same in the fifth, when, with one out, Rowan lost Schirm's fly in the sun and the batter reached third.

McGinley pitched the sixth, but nothing resulted, and the same in the seventh, when Wratten and Brockett were walked and advanced on Schirm's sacrifice.

McGinley pitched the eighth, but nothing resulted, and the same in the ninth, when, with two gone, Bradley double to right and scored on Phelps' single in the same direction.

McGinley pitched the tenth, but nothing resulted, and the same in the tenth, when Rowan, the first batter for Toronto, doubled to left and scored on Jordan's corking single thru the box.

THURSDAY MORNING, SEPT. 14, 1911

THE GLOBE'S PECK O' MAUT.

If The Globe would inform itself upon matters presently under discussion it would save everybody a lot of trouble. But following the government precedent it just makes matters worse.

The Washington government investigated for months the reciprocity issue. It discovered that reciprocity would be a good thing for it, proposed an agreement to Canada, and Sir Wilfrid and his innocent bought the gold brick.

The Globe is trying hard to convince us that it is really gold and not the stuff they make brass tacks out of. It is going to be brass tacks for all that.

That was a hard job Mr. Somers handed The Globe on barley. But The Globe cannot feel the point on a brass tack yet. It is a little numb from sitting down hard so often.

The Globe rises once more, however, to ask why barley at 75 cents per bushel of 56 lbs. in London, could be laid down in Montreal at 73 cents per bushel of 48 lbs.

There is nothing in barley for the farmer now that he is in mixed farming and a little barley into Canada as good as Russia can.

As soon as the reciprocity pact was announced, a large European house, dealing extensively in barley, hoping that reciprocity might pass, appointed an agent who has an office in the board of trade building.

admit that having compelled a reference to the ballot box the opposition is open to challenge for concentrating its strength on the defeat of reciprocity. The government made its choice when it dissolved parliament and must stand or fall by the verdict of the nation on its policy in entering into this arrangement with the United States executive.

It was natural to suppose, looking to the position originally occupied by the government organs, that this limitation of the campaign to the one issue would have been precisely what they desired.

A cardinal principle of British Liberalism to throw no obstacle in the way of an expression of the people's will on a question of large national importance it was no less natural to expect this principle to be observed by so-called Liberal organs, even tho of the Canadian variety.

Editor World: You have published an article in the morning's issue of your paper which contains a false and malicious representation in regard to myself, and I will now ask you to be good enough to give this denial the same publicity.

In justice to Mr. King I desire to say that I firmly believe him to be entirely above the class which gives or offers bribes, or as you would call it, "kickbacks", or as you would call it, "kickbacks".

A GREAT IRISH PRELATE. Much regret will be felt over the death of His Grace Dr. William Alexander, who held the office in the Church of Ireland as Primate of all Ireland until last year, when he resigned and Dr. Crozier succeeded him.

Laurier and larger trusts. Reciprocity was not made in Canada. Laurier and larger markets for the United States farmer.

James Pearson, denouncing an unconscionable trust, should be immortalized in concrete. W. F. Nickle is a winner. He is one of the really bright men of the legislature. The Globe got him wrong on the bread question, but The Globe won't be able to queer him on reciprocity.

Under certain conditions a first-class constable, if he lived long enough, under the new salary regulations, might get more than a patrol sergeant. The police commissioners think that it is a good reason for giving him nothing. Funny how some people's brains work.

tion. He made himself the honest friend and counsellor of his customers and thereby laid the only stable foundation for the vast edifice he lived to see.

How that modest store, established first on Yonge-street, just below King, with a few thousand dollars capital, and later moved to present location, grew and prospered exceedingly is very attractively told in a beautifully printed, illustrated and bound brochure issued by the W. Eaton Company. Illustratively titled "The Evolution of a Store," it has literary as well as artistic and business interest.

NOT AN OFFICE-SEEKER. Editor World: You have published an article in the morning's issue of your paper which contains a false and malicious representation in regard to myself, and I will now ask you to be good enough to give this denial the same publicity.

I refer to the article on the first page headed "Hon. Mr. King Using Bait". I have been informed on excellent authority that I am to be appointed to the board of railway commissioners if the current government is returned to power, and that this position has been offered me, the inference being, for my having spoken in behalf of Mr. King, the minister of labor.

In conclusion, let me add that the utter falsity of the reference in this article to my alleged "kickbacks" is, without any qualification, that the author of it undoubtedly belongs to that class of scoundrels who are so plentifully represented in the political life of our country.

RELIABLE CATTLE TRADE. Editor Toronto World: As the question is of such vital importance to the citizen of Canada, and more particularly to the agriculturists of our country, I feel that I cannot allow this opportunity to pass without writing briefly on the subject of the reliable cattle trade in Ontario.

cattle industry had developed to a considerable extent, and the farmers were reaping all their coarse grains and roots they were able to grow from 25 to 40 bushels of wheat to the acre.

Such a statement is so void of truth that I feel it my duty to tell Mr. King that I know the farmers of Ontario to be much too intelligent to be misled by such a statement.

Some time ago I noticed that Mr. Atwood, the agent for the wool, had the greatest respect, and a conservative in politics, expressed his regret at the prospect of the wool trade in the future.

EATON'S

Extra Low Prices on Plows and Potato Diggers

A visit to our Implement section will be of interest to farmers preparing for Fall work. With harvesting over and everything around the farm in pretty fair shape now is the time to get ready for Fall plowing. Start this season's work by having a plow that gives entire satisfaction.

The many strong features of the plow offer remarkable value at this moderate price. Shipped to any station in Ontario for 10.00.

Every farmer and gardener realizes the value of a potato digger in the saving of time and labor. This potato digger is constructed to let the spreader scoop underneath the potatoes while the long tines extend from top of scoop, thus preventing them being cut.

Every part is made of the best material and is thoroughly guaranteed. This is extraordinary value at the low price. Delivered to any station in Ontario for 9.25.

The special feature of our plows is the high-grade construction which places the point 3/4 in. lower than the sole, giving a firm hold even in the hardest soil, while the fine quality materials used assure chain boards, thus giving an easy running plow at moderate cost.

Our No. 21 is one of the most widely used plows on the market for sandy and light soil. The mould boards are made from the best grade soft, centre steel, specially hardened and polished. The high curved beam is of carbon channel steel, with high curve which gives ample clearance. Handles are well traced and adjusted.

Complete with knife coupler, extra point and wrench delivered to any station in Ontario for 10.40.

Our No. 3 is specially built for clay or stony land and gives excellent results in other soil as well. Beam is high carbon channel steel. The points are well traced, strong and the mould board is made of best crucible cast steel, which cleans will in any soil. Handles are exceptionally good stock, extra point brood. Complete with knife coupler, extra point and wrench.

Winnipeg Dairy Market.

WINNIPEG, Sept. 13.—There was a very active demand for every grade of spot wheat and a good demand for anything past Winnipeg's white futures were quieter and export bids for the present were out of line. Receipts were heavy, being nearly 100 cars more than for the corresponding date of last year. The markets turned weaker at the close. The decline for the day was 1-16 to 3-16 for wheat, while oats

Flour Trade Shows Improvement And Wheat Makes Small Advance

Exports from Northwest Centres Give Heart to Bull Traders at Chicago—Corn up to New High Price.

CHICAGO, Sept. 13.—Decided improvement in the flour trade, including the steady advance in prices, was the main feature of the day's trading. The wheat market, which has been generally quiet, showed a net gain of 1-16 to 1-8 up. The price of No. 1 white wheat advanced 1-16 to 98 1/2 c. The end of the day left prices 1-16 to 1-8 higher in most grades. The end of the last half of the season that the wheat market became unacceptably bullish, prices reached \$2.00. But the crop was fairly good, and the market became steadily firm. Between the opening and the close, the price advanced 1-16 to 98 1/2 c. and in the end was 98 1/2 c. for No. 1 white, 97 1/2 c. for No. 2, and 96 1/2 c. for No. 3.

On purchases by big local shorts, September corn advanced to 104 1/2 c. The option advanced just one cent more than the other months. Lower prices were reached by the bulge, and caused considerable reaction. The reason for the decline was the heavy shipment from here of late. December ranged from 84 1/2 to 84 3/4 c. and in the end was 84 1/2 c. The price of No. 2 yellow, 75c. c. l. f. bay port.

Receipts of wheat in cars at primary centres were as follows:

FOREIGN CROP NEWS IS MAINLY BEARISH

But is Offset by Strength of North-west Situation—Brokers' Comment on Market.

Wheat—A decidedly good day in wheat, so far as a action was concerned, the market closed unchanged from yesterday for both December and March. Eastern feeling in the trade at the opening was largely due to cable news, Liverpool market after opening higher, continental markets all somewhat easier, claims of increased offers of wheat from Canada and Russia, and most perfect weather and crop conditions in Argentina. When the trade found something nearer home to anchor the decline was forgotten. Northwest receipts were much lighter than the previous week, the crop continues to decrease wheat stocks compared with large increase at this time last year. All this morning's trading turned strong after an early dip. On the whole, the domestic wheat and flour situation was imprudence, and more than offset the earlier foreign markets.

Wheat—Backed and filled with sympathy with the cables, but firm later, selling above last night's price. There was a decidedly better enquiry for flour—Winnipeg wheat receipts, as was also evidenced by the fact that orders were being made for wheat more than sufficient to absorb local offers. The market firmed up, and thereafter a steady advance was made. The market was bearish. As sentiment is about evenly divided, market will doubtless continue holding more than a trading offer until something develops to lift same out of present rut.

Rice—The market opened lower in sympathy with the cables, but firmed later, selling above last night's price. There was a decidedly better enquiry for rice, and the market advanced. The market was bearish. As sentiment is about evenly divided, market will doubtless continue holding more than a trading offer until something develops to lift same out of present rut.

Wool—The market opened lower in sympathy with the cables, but firmed later, selling above last night's price. There was a decidedly better enquiry for wool, and the market advanced. The market was bearish. As sentiment is about evenly divided, market will doubtless continue holding more than a trading offer until something develops to lift same out of present rut.

STATE NOTICES.
MATTER OF CHARLES WRIGHT.
 hereby given that Charles Wright of the City of Toronto, Ontario, has assigned to me, J. D. G. Lorsch, all his rights, titles and interests in and to the real estate and personal property of the City of Toronto, Ontario, in and to the City of Toronto, Ontario, for the general benefit of his creditors.
 of his creditors will be the office of Messrs. Lorsch & Co., Toronto, Ontario, at 117 Queen Street West, Toronto, Ontario, on the 15th day of September, 1911, at the hour of 10 o'clock in the forenoon of that day, to receive a statement of all his creditors and to take the oaths of an assignee and of a receiver, and for the purpose of the administration of the estate of the said Charles Wright.

Spirited Kaid on New York Market Puts Values Down to New Low Levels—Toronto Exchange Quietly Firm.
NEW YORK, Sept. 13.—Acute weakness once more developed in the stock market today. The meagre gains of yesterday were swept away before an attack, which as the session progressed, became increasingly severe and included some heavy losses. A heavy selling movement, principally short selling of lumber, was the characteristic feature of the session. The decline in price was in the nature of a sharp drop from time to time. Liquidation of this kind has been common only in the case of a recovery. Apparently that was the case today. There were no indications of a recovery. The lack of substantial demand from any source undoubtedly emboldened the bear party to renew its attack, and the result was prices tumbling toward the new level of the session. The most spirited of recent weeks.

Evidence of a slightly overvalued condition will probably cause some further short covering in the stock market today, but we have information indicating that offerings of stock will be met on good terms, and when the shortage is removed the list may again show vulnerability and relapse. There are bargains in the list for those who have capital, courage and patience; but they should buy during weakness and not on rallies.—Financial Bulletin.

NEW DIRECTOR ELECTED.
 Mr. R. L. Jones, director of the Dominion Canners, Limited, and of the Dominion Biscuit Co., has been elected a director of the Canada Machinery Corporation, Limited.

J. P. MORGAN ATTENDS DIRECTORS MEETING.
NEW YORK, Sept. 13.—J. P. Morgan attended the meeting of the Western Union directors today. The earnings for the year ended June 30 last showed a decrease in the net receipts of \$108,842, the total revenue being \$1,036,883. The regular dividend was declared.

RIO EARNINGS.
 The Rio de Janeiro Tramway, Light and Power Co. has reported earnings for week, as received by cable, are as follows: This year's 1911, \$320,484; last year's 1910, \$315,488.

BANK OF TORONTO PROMOTIONS.
 Mr. J. G. Cuthbertson has been appointed manager of the Bank of Toronto and will take charge of the bank's operations in the city of Toronto. Mr. J. G. Cuthbertson is a former manager of the Bank of Montreal and has been with the bank since Mr. Bird resigned. Mr. D. C. Cuthbertson is the present manager of the bank.

ON WALL STREET.
 Erickson Perkins & Co. had the following: Efforts to bring about a normal rally in the stock market during the early hours of today's session were not successful. The market held to the whole list trembled under an avalanche of United States Steel and Canadian Pacific stock. The market was extremely feeble. We do not look for any change in the market's course, unless something entirely unforeseen occurs. The market is being held in check by shorts covering, but they will be only temporary. The most distressing news accompanying the decline this afternoon centered about the steel trade. We saw nothing in the immediate future, but a liquidating market in stocks is evidently rallying toward a fresh decline.

CHAS. HEAD & CO. TO R. B. BONDARD.
 London quotations were slightly higher this morning and our market responded generally. Prices advanced about 1.2 point in the early dealing, but it soon became evident that the rally had little substance and prices began to fade away, gaining speed after the noon hour, until Union Pacific showed a net loss of 3 per cent. Steel and Canadian Pacific with other shares in similar position. Reports from the steel trade are to the effect that the United States Steel Corporation is bidding for business, regardless of prices, and it is estimated that net earnings will make a poor showing. The market is being held in check by shorts covering, but they will be only temporary. The most distressing news accompanying the decline this afternoon centered about the steel trade. We saw nothing in the immediate future, but a liquidating market in stocks is evidently rallying toward a fresh decline.

BENEFITS OF CONSOLIDATION.
Canadian Machinery Shows Advantage of One Central Management.
 The statement submitted at the first annual meeting of the Canada Machinery Corporation, Limited, indicates that the benefits of the consolidation of the various plants included in it under one central management are being very quickly realized.

WALL STREET POINTERS.
 American stock in London unchanged. St. Paul for 1911 shows surplus of \$128,862 over the 7 per cent. dividends. Franco's reply to Germany in Morocco dispute will be transmitted toward end of week.

AL FIRE AT BOSTON.
Sept. 13.—Thousands of people went in smoke when the fire broke out in the Boston Hotel. The fire was caused by a gas leak in the kitchen. The fire was extinguished after a long battle. The damage was estimated at \$1,000,000.

OF ISLANDS IN GEORGIAN BAY.
 The islands in Georgian Bay are being surveyed by the Canadian Geographical Survey. The islands are being mapped and named. The survey is being carried out by a team of men and dogs.

AL FIRE AT BOSTON.
 The fire in Boston was caused by a gas leak in the kitchen. The fire was extinguished after a long battle. The damage was estimated at \$1,000,000.
