## N. ESSEX REDEEMED

### Lib. Majority of 550 Pulled Down

# WILCOX 75 AHEAD

### Young Conservative Farmer Gets Majorities in Windsor, Walkerville, Sandwich, as Well as in the Country.

### FRENCH-CANADIAN VOTE WAS TRUE TO LAURIER.

WINDSOR, Nov. 11.—(Special.)—After thirteen years with a Liberal representative in the house of commons, North Essex today elected a Conservative member, Oliver J. Wilcox, a farmer residing at South Woodlee, defeated W. J. McKee, lumberman, by a majority of 75, with two polls to bear from.

Thus it remained for a comparatively unknown candidate of the Conservative party to turn a Liberal majority of 351, a year ago, into a glorious victory for himself under the most difficult kind of a handicap.

Indeed, at the Conservative nomination convention, many of the prominent politicians of the riding counselled setting the election to rest, but by default, only the insistence of the rural delegates, and the willingness of Wilcox to make the run, resulted in a nomination. The election was to fill the vacancy in the house caused by the appointment of Hon. Mr. Sutherland to a judgeship.

To the greater majority of Windsorites, Wilcox was known by name only, but he carried the city by 133 majority over W. J. McKee, who was born in Sandwich and has lived in this vicinity all his life. The Town of Walkerville, which is invariably Conservative, was the banner municipality for Wilcox, piling up a majority of 149 in his favor. This was enough to turn the tide.

The fight was really waged over McKee. He had served two terms in the legislature and was defeated by Hon. Dr. Reaume, present minister of public works, largely because McKee had failed to have the export of natural gas to the United States stopped until the supply gave out. The people of Windsor showed their resentment on that occasion, and duplicated it today.

There were other reasons why McKee was turned down. He was only nominated by the rank and file members. Many Liberals did not go to the polls for the by-election, some who did, very reluctantly marked their ballots for the candidate of their party, and a considerable number must have supported the sterling young farmer.

The remarkable run Wilcox made is shown by the fact that a year ago McKee, who was not very strong in Windsor by a few more votes than Wilcox, owned McKee in today's battle. It meant a turnover of 250 votes or more in this city alone.

**Defeat Cost \$20,000.**

The government fought hard for McKee. He was assisted in his campaign by two cabinet ministers, Graham and Murphy, Dr. Beland, Dr. Reaume, and T. Reaume, an imported speaker, whose home is in Montreal. On top of that was Liberal financial support. It was currently reported to-day that the Liberal party had spent in McKee's behalf.

Wilcox carried every ward in the city of Windsor, set a record in the Walkerville, and won in the country, except in the French districts, where the name of Laurier is sacred.

Early returns showed a touch-light procession, the successful candidate appearing in a carriage. Windsor is jubilant over the result. Even Liberals who faint-heartedly supported McKee, are not very sorry that he has been eliminated.

The Liberal party in North Essex now is about to elect. The riding is now represented in both provincial and federal parliaments by Conservative members. Hon. Dr. Reaume is as strong as ever, and it is a foregone conclusion that Wilcox will again return when the next general election rolls around.

These were the majorities for the respective candidates in today's election:

Windsor	Wilcox	McKee
Sandwich East	62	—
Sandwich West	129	—
Windsor	133	—
Walkerville	149	—
Malton	56	—
Sandwich South	8	—

### LYNCHED, SHOT, BURNED BY AN ILLINOIS MOB

### Negro Who Murdered Young Woman is Taken From Sheriff—Women Assist in Slaughter.

CAIRO, Ill., Nov. 11.—(Special.)—James was lynched in the most prominent square of the city. Women present were the first to pull the rope. When it broke, the frenzy of the mob broke and at least 500 shots were fired into his body. He made a partial confession and implicated another negro, Arthur Alexander, for whom the mob is now searching.

James was lynched in the most prominent square of the city. Women present were the first to pull the rope. When it broke, the frenzy of the mob broke and at least 500 shots were fired into his body. He made a partial confession and implicated another negro, Arthur Alexander, for whom the mob is now searching.

At least 10,000 persons witnessed the lynching.

James was found with Sheriff Davis between Karmak, Ill., and Belknap, by the Cairo crowd who went up this afternoon. The crowd overpowered the sheriff and took the negro from them. Sheriff Davis had been flung from the mob for 24 hours with the prisoner. Driven from town to town by menacing crowds he had taken to the woods.

Fully a thousand persons went out to find the negro, and when the pursuers arrived in Cairo with him they were met by a howling mob of 5000 others bent on slaying the negro. They marched the negro direct to the public square. Many women were in the crowd. Some of them pleaded for the life of the prisoner, but without avail.

The mob that has chased the sheriff and the negro was so large that it could not be contained. It was driven back to Vienna, Ill., a distance of about sixteen miles. When found by the mob, the negro was handcuffed behind his back and all three were lying on the bank of a creek. All three were weak from hunger, exposure and the futile attempt to elude the mob, that they were not able to make much resistance.

The body of the girl murdered by James was found in an alley Monday morning, showing signs of terrible abuse. Indications were that she had resisted her assailant for two city blocks. Bloodhounds located the negro, Henry Salinger, a white man, held for midnight by a mob which had failed to find the alleged accomplice of the negro James, who was lynched early in the evening for the murder of Annie Pelley.

### Several Members of Alberta Legislature Will Retire.

MACLEOD, Alta., Nov. 11.—(Special.)—Malcolm MacLeod, of MacLeod, M. L. A., for Charles in riding, announced today that he intends resigning his seat in the legislature, because of ill-health. He declared that recent cabinet appointments had anything to do with his retirement. He said Wolff, M. L. A., for Cardston, and other members of the legislature, would also probably retire.

## CANADA'S DUTY TO PRESERVE PEACE

### Prof. McCurdy Gives Thirteen Reasons Why We Should Not Launch on Career of War by Building of Navy.

(Editor's Note—The Toronto World is not the subject of the new Canadian navy. But communications need not be lengthy; let your ideas in brief form, write plainly and on one side of paper only.)

Prof. J. F. McCurdy of Toronto University has written an open letter to Sir Wilfrid Laurier setting forth the arguments against the government's proposal to build a Canadian navy. This is the letter:

The Right Honorable Sir Wilfrid Laurier, Premier of Canada.

Dear Sir Wilfrid: I venture to address a few words to you, and to as many as may be of the people of Canada, upon the question of the creation of a Canadian navy, because as far as I have been, no attempt has as yet been made to set forth in a succinct form the most obvious arguments against the immediate building of a navy, from the standpoint of the common people of our country. To be as concise as possible, I shall present the statement in a series of propositions:

**Our First Duty.**

First—in all our conferences with the imperial government on matters of imperial concern, our first consideration should be regard for the well-being of Canada, and for the sake of Canada, and not for the sake of the empire. Loyalty to the good, but patriotism is better.

Second—Expenditure upon Canadian war vessels such as will ultimately satisfy the demands of the country, and popular ear will go far to ruin our country financially. Just as the present budget has done, so the present proposal to build a navy will do the same. England herself to the present is a debtor to the world.

Third—The motive of the demand for a Canadian navy is not Canada's own needs, but the possibility of forcing upon us a foreign war which England may be engaged. We do not need warships to protect our sea-coasts or to show the flag, and the cost of our natural ally, she has also recognized as the inalienable right of England to the English Government in connection with the so-called two-power standard. On the other hand, we have constant occasions of friction with the United States, which warships in the place of revenue cutters would render much more serious and perhaps dangerously irritating.

Fourth—we have no voice in the making or unmaking of foreign wars or in the policy of the empire generally. By all the more should we consider our moral obligations, both to ourselves and to the empire.

Fifth—our obligations and our self-respect as citizens of Canada make it out of place for us to involve ourselves and our children in wars over which we have no control, and to do so is to forfeit our Canadian birthright.

**Was Not Always Just.**

Sixth—The fact that the majority of the war waged by England within our own recollection has been of doubtful justification makes it incumbent on us in every case to consider the moral and material interests of the British Empire, and to see that we have not been pleading ourselves to take part in it. To quote from an editorial in one of Toronto's dailies, "the brain and brawn of Canada must have her quarrel just."

Seventh—The power now dreaded in Germany, a war between England and Germany would be the greatest crime and folly in modern history. Both the victor and vanquished would be humbled and crippled almost beyond repair, and they would deserve and receive the condemnation of a war-cursed world.

Eighth—if England and Germany go to war, both will be about equally to blame, because, apart from other considerations, principles and motives of humanity and reverence will play little or no part, the two countries have been the leaders of the world in Christian civilization, and cannot afford to shed any such a stain as a practically intervening at a moment of only half abated national excitement.

**England's Worst Foes.**

Ninth—England's worst enemies need not be Canada's. England's worst enemies are not her armaments. Her enemies are those of imperialism, to take account of England's divisions of power, and other signs of national weakness and lack of self-control, which so munitions and men-of-war can counteract. England's worst enemies are not her armaments. Her enemies are those of imperialism, to take account of England's divisions of power, and other signs of national weakness and lack of self-control, which so munitions and men-of-war can counteract.

THE WEST—I'd rather see a fleet of "prairie schooners" than a line of battle ships.

## LESS STALENESS AT THE HOUSE OPENING

### But Brilliant Scenes Nevertheless, With Large Attendance of Members—A Beginning of Business.

OTTAWA, Nov. 11.—(Special.)—Are the days of ancient pomp and pageantry passing away? Are we to witness less of the ceremonial and more of the practical in the days that are to come? These are questions that are on everybody's lips to-night, for to-day saw a marked departure from custom.

The governor-general's carriage was drawn by four prancing steeds, but the mounted outriders of the past were absent. The procession was the least stately. Sir Wilfrid Laurier also discarded his rather modest uniform of state and appeared in the more comfortable and less formal attire of a private citizen. These two circumstances seem to be an augury of the future.

The day was warm and beautiful, and while ladies fitted hither and thither in scanty dress, and scarlet coated officers paraded in comfort beneath the hot sun, the rank and file of the Governor-General's Foot Guard sweltered in great coats and winter hatters.

There was an unusually large attendance of fashionable Canada at the opening of the second session of the eleventh parliament, and an exceptionally good number of members. This is accounted for by the absorbing interest that the naval policy of the government has awakened. The first mention of matters connected with it was made this afternoon by Mr. Borden, the Conservative leader, who asked for the report of the Imperial Defence Conference, and the premier assured him that the papers would be laid on the table next week.

**The Speech From the Throne.**

One hundred and seventy-five members were in the commons chamber at 3 o'clock. Shortly after three o'clock the Gentleman (Cher) of the Black Rod tapped on the doors of the house of commons and with the customary obeisance to the speaker, summoned the members on the prospective condition of the country, referred to the Great Immigration, "drawn from the best elements," and to the increase of trade and commerce. The revenue had almost completely regained what it had lost in the recent period of depression. His excellency promised that the members of the Imperial Defence Conference would be immediately brought down and a bill introduced accordingly. Not that Borden ever said he would prefer the same extravagant railway policy, the same system of exploitation of our national resources. Not that Borden ever said he would not change, whatever it might be.

The one thing Canada wants to-day at Ottawa is a big and ever-

## RICHEST CAR OF SILVER EVER SHIPPED

### Twenty Teams to Take Out Thirty-Five Tons of Probably the Purest Ore Ever Sent to a Smelter.

GOWGANDA, Nov. 8.—(By the Man on the Trail.)—The richest carload of silver ore ever sent to a smelter from a mine in the north country, Cobalt or elsewhere, will be shipped from one of the mines in this camp during the next eight weeks. It is already mined, classified and in bags ready to be forwarded in sleighs over the winter roads.

The shipment will be sent to a Canadian smelter, probably to Deloro or Copper Cliff. I would not venture to say what the returns on this shipment will be, but it is the most wonderful collection of crude silver that I have ever seen in the ore house of a Canadian mine. The bags are filled with ore of such purity that the by-products are scarcely worthy of consideration.

"That ore will probably assay more than ten thousand ounces to the ton," I ventured.

The mine superintendent smiled and replied indefinitely: "Yes, much more than that." It is the most spectacular collection of ore I ever saw. There are great slabs of the metal that can scarcely be lifted. One, as a matter of fact, weighs 200 pounds. There are leaves of the white metal large as plates that had been flattened by nature's processes against the wall rock and were taken out in such purity that they could without the necessity of refining be thrown into the melting pot. Sacks of this metal are piled shoulder high in the ore house. Blocks of it are heaped upon the floor.

This carload of high-grade ore would pay for the building of thirty, or possibly forty, five thousand dollar homes in the City of Toronto. It would build several miles of the Grand Trunk Pacific Railway or a 10-storey steel skyscraper. When one sees such a profusion of ore the sense of values becomes blunted.

It must not be understood that every mine in the Gowganda district is about to open its gates to flood the silver markets of the world. The property to which reference has been made is one of the great mines emerging from widespread development that has been marked with its failures and successes as in all mining camps.

**Miller Lake Division.**

In the Miller Lake section of Gowganda the smoke is rising from the tall chimneys of several mining enterprises. Private capital is being thrown all and they have obtained wonderful results in a remarkably short period of time. Two of these properties have each two carloads of high-grade ore to ship. One company has already closed its contract for delivery on board the cars at Charlton. One of the enterprises is now rounding out its third carload, so that from the Miller Lake section alone five carloads of high-grade ore will be sent out to the smelters.

On the west side of Lake Gowganda, a group of mines which have taken out considerable high-grade ore incidental to their development work. From this section six carloads will be forwarded.

It may be said that the classification has been carefully made for, owing to the prevailing cost of transportation, the mines have decided for the time being to hold grades of ore that are now being profitably shipped from Cobalt for treatment as far west as Denver.

The marvel of it all is that such progress has been possible in view of the excessive cost of everything. The mine-

## HALF-PAY PENSIONS

### Policemen Will Also Get Bonus for Service Over 25 Years.

The Police Benefit Fund committee has draughted a final plan for the status of the men under the fund when that is given and it will be submitted to the board of police commissioners at their next meeting. It is expected that the new regulation, if approved, men of 25 years' service, will receive half-pay pensions. Should they desire to do so they may serve up to 30 years, subject to the approval of the commissioners. For this additional service, they will receive half pay to which will be added three-twentieths of salary at the time of retirement.

Late last night, no communication with Jamaica had been secured by the cable companies, who cannot explain what has happened. There has been no record of any earthquake on the seismographs.

CANADA'S DUTY

Continued From Page 1.

England's population are unfit to serve their country with head or hand or heart and that in large measure because of economic and social conditions fostered by those who are foremost in their clamor for a vigorous foreign policy.

Canada's Mission. Eleventh—Canada is seemingly predestined beyond all other countries to a mission of peace and good will to men; by systematic co-operation with England in military and naval expenditure and armaments our thought and impulses will be habitually turned to war, and poisoned by international jealousy and suspicion.

Twelfth—Germany is now held to be England's enemy. A few years ago France was placed exactly in the same position.

Thirteenth—It was at a time of panic in England that the original resolution of the Canadian Parliament was adopted, committing to the building of warships, the question should be taken up more soberly in the light of changed conditions.

Canada is being treated as an impulsive betwixt boy, and not as a man and a man of business.

There was quite a bit of discussion over appointing a teacher to take the place of the late Mr. J. J. McCreary, technical high school, who is going abroad for six months to study modern languages.

S. B. Hatch was appointed to the high school staff and assigned to West Toronto.

Resolutions from the following were accepted: Miss Jean E. Keith of Jesse Ketchum School; Miss Laura W. Stewart of Annette-street School.

LEGATE BANCROFT SCORES OUR SENATORS

Gets After Author of Bill to Penalize Foreigners Who Butt in Here.

Yesterday's afternoon session of the A. F. of L. in Massey Hall, was marked by three speeches in more than average ability. We have had opening day, report day, committee day and night-seeing day, and yesterday might well be characterized as orators' day.

Legate Bancroft stated that 13 years ago, at the Trades and Labor Congress in Quebec, the union membership was only 3000, with a yearly revenue of \$255.50.

Speaking of the ties which bound Canadian and American unions, Legate Bancroft said that Canadian workers appreciated the years of struggle which their American brethren had experienced in their behalf.

With regard to social and moral conditions, he said that labor representation in the Social and Moral Reform Association of Ontario had been responsible for many innovations of a beneficial character.

Concluding the speaker said that in the future, their affiliations in the town of Saint Marie, according to a plan registered in the Registry Office for the District of Algoma as No. 23.

Special Delegate Thoren of Sweden, who is a recent arrival, spoke thru the medium of an interpreter, of the labor troubles in Sweden.

At the request of President Gompers, Delegate P. Fry spoke of the labor conditions in Sweden, which he had recently visited, and after President Gompers had expressed his opinion of the action of the Swedish workers, entirely justifiable, the resolution that a committee be at once formed to redress the Swedish appeal was carried unanimously.

C., M.P., to Ottawa Wednesday night for the opening of the houses yesterday, and will be one of the debutantes presented at the viceregal drawing-room on Saturday evening. Miss Lennox will remain at the capital for some weeks. Miss Edith Cross is leaving to-day for Ottawa, where she will attend the drawing-room. Tube Report Nearly Ready. Engineer J. W. Moyes has not yet put the final touches on his report on the "tubes." He stated, however, in an informal gathering of the committee Controller Hocken, A. D. McMullin, Mc Ghee and Baird being present, that he expected to have it complete within a few days. The main proposal, as was announced when the committee was formed, is to have an underground line on Yonge-street from the waterfront to St. Clair-avenue, while another tube would run from the Union Station to St. Lawrence-street. Toronto String Quartette. The plan for the Toronto String Quartette concert on Saturday evening opened yesterday morning at Mason & Rice's, 32 King-st. W., and a most interesting program has been arranged. The fact that Mr. Frank S. Welman, conductor of the Symphony Orchestra, is the assisting pianist, has aroused much interest, as the public seldom has an opportunity of hearing this foremost pianist and to make his acquaintance in what is perhaps his chief role. Conditions for King's Prize. LONDON, Nov. 11.—As the result of a conference at the war office of the National Rifle Association, the conditions for the King's Prize will be slightly modified. The 1910 Bisley meeting opens July 4. The Commonwealth Council of the Rifle Association, Australia, have accepted the invitation to hold the empire match at Bisley in 1910. Another Comb Factory Fire. NEW YORK, Nov. 11.—Explosion and fire under circumstances identical with those of the Brooklyn comb factory on Monday, in which nine persons perished, cost the lives of two employees of a comb factory in Manhattan to-day. Nine persons were injured.

Public Amusements

"Going Some." A comedy that depends upon clever lines and amusing, often satirical situations, should be a relief after many of the different kinds of alleged "fun shows" that have been conducted by Brigadier Taylor. "Going Some," which will be the attraction at the Royal Alexandra next week, will feature Fannie Ward being one of the swiftest, and, withal, the cleanest and most amusing, plays seen in New York since Fannie Ward began her career months before the company was sent on the road. Fannie Ward. Those lovers of the drama who are fond of seeing a great play wonderfully well acted, will have that opportunity presented to them next week at the Princess Theatre in England, by her work with her engagement here in "Van Allen's Wife." Miss Ward has achieved much triumph for five seasons with the Charles Wyndham and H. Beerholm, and her excellent work last year in "The New Lady Bantock." "Mrs. Wiggs of the Cabbage Patch." J. M. Barrie, England's great novelist, wrote in "Mrs. Wiggs of the Cabbage Patch" and "Lovey Mary," a dramatic comedy in England, by her work with C. Tyler, managing director of Liebler & Co., at the celebrated Savoy Club in London. Barrie suggested the dramatization of the novels. Mr. Tyler at once entered into negotiations with the author and publisher, and the play was produced in London. The result has been an artistic and financial triumph for five seasons with the company booked for years ahead. The play will be seen at the Grand Opera House next week. Majestic Music Hall. Next week's program at the Majestic Music Hall has so many big features it is hard to say which is really the headline act. John C. Rice and Sally Cohen, two well-known sketch-makers, top the bill. They will present a new farce, "Our Honey-moon," said to be one of the best sketches in vaudeville. Another feature that will be presented is Blake's Circus, animals of every description, trained to do feats that would seem impossible for a whole lot of our circus men. So great has been the success of this show in Chicago that it has been extended two weeks, bringing her to this theatre week of Nov. 23. Sam Chip and Mary Marble Coming. At Shea's Theatre next week the big vaudeville bill will be headed by Sam Chip and dainty Mary Marble, in deleted, hued sketch entitled "In Old Eban." The company is headed by the French Les Cadets de Gascogne, the French quartet of operatic stars, composed of three men and a hand-picked young woman. Lola Merrill and Frank Oita present their dainty play, "After the Show." Harry Atkinson, Hill, Cherry and Hill, the Chadwick Trio, Hermy's Cats and Dogs and the Kinetograph complete the big bill. "The Lid Lifters." The management of the Gayety Theatre will present as the attraction next week "The Lid Lifters," Extraordinary Comedy. "The Lid Lifters" of the house may look forward to an entertainment bristling with novel and entertaining features, successful company is peculiarly fitted to present the best and brightest in burlesque and vaudeville. The Genuine Fight Pictures. By special arrangement with the largest three-man and a hand-picked young woman. Lola Merrill and Frank Oita present their dainty play, "After the Show." Harry Atkinson, Hill, Cherry and Hill, the Chadwick Trio, Hermy's Cats and Dogs and the Kinetograph complete the big bill. Miss Tilly Keener. The manager of Massey Music Hall states that in Miss Tilly Keener he has secured a contralto who will give pleasure to her auditors as Mme. Schumann-Heink. The great Dutch contralto is making her first visit to Massey Hall on Friday, Nov. 23. Miss Laura Lemmers. In "Going Some," at the Royal Alexandra next week. Conviction Quashed. KINGSTON, Nov. 11.—(Special.)—A few days ago Louis Martin, Revere Hotel, was fined \$100 and costs on a charge of selling liquor Sunday to Patrick McMenemy, Wolfe Island. D. A. Givens, appealed the case on the ground that there was no sufficient evidence to support the conviction. This morning Judge Price quashed the conviction. Who Started This? Policeman Rennie was in police court with a small package of teeth which he had formerly used for such homely offices as mauling lumber, John Smith, recently liberated from durium via, was in the dock charged with displacing the Ivories during the process of being conveyed to the coroner. The case was remanded until Monday to allow other spectators to tell what they saw of the row, its beginning and progress.

D.R.O. MADE A MISTAKE

And Bylaw is Declared Carried That Was Banned. BRANTFORD, Nov. 11.—(Special.)—A peculiar mix-up resulted here to-day in the market bylaw returns. The deputy returning officer in West Brantford, in making his declaration, transposed the figures for and against the bylaw, making a difference of 81 votes, and resulting in an official declaration, by the city clerk, that the bylaw was carried by 81 majority. A recount has been asked for. The correct majority against the measure is 54, the officer having admitted his error.

NEGLECTED TO WEAR MAIL COAT WAS SHOT TO DEATH IN STREET.

NEW YORK, Nov. 11.—Because he forgot for once to put on his bullet-proof coat of mail, Antonio Russo, known in the underworld as "Tony" Ross, was shot to death in Hart-street last Monday night. Russo was killed by somebody who held a grudge against him, but after the manner of his kind he died silent as to his slayer. "Seems me right for leaving that coat off," was all he said.

TO CONFER WITH BELL

Civic Phone Committee Asks Uniform Rate All Over City. At 2 o'clock this afternoon a conference will be held in the city hall between Manager Dunstan of the Bell Telephone Co. and a sub-committee of the civic telephone committee, on the question of a uniform rate for the whole city, including the recently annexed portions. The special telephone committee met yesterday afternoon. Ald. Church pressed for an application to the Dominion Railway Commission to force the company to give a uniform rate; but Ald. Maguire was for negotiation, and this view prevailed among the committee. Mayor Oliver intimated that the company would grant a flat rate for the outlying sections if it were permitted to increase the downtown rate by \$5 on a five-year franchise, and he believed it would put in a two-party line service for the suburbs at \$2 for each user. Ald. R. H. Graham opposed the idea of a five-year franchise, and was for the city taking over the system. Pellagra in the United States. SAN ANTONIO, Texas, Nov. 11.—Physicians attending the medical association of the southwest to-day declared that there were 2,300,000 cases of pellagra in the United States.

Socialist Orator Arrested.

ST. JOHN, N.B., Nov. 11.—(Special.)—Roscoe Filmore, 22 years old, was arrested this evening while attempting to deliver a socialist address at King and Charlotte-streets. He had refused to "move on." Filmore came here this morning from Albert County to meet W. D. Haywood of Idaho. Haywood to-night offered to put up cash bail for Filmore, but the latter wouldn't agree saying he "preferred to fight the case out in the cause of right and justice."

Feared Mental Assassination.

NEW YORK, Nov. 11.—Mrs. Maude Klesam Babcock, a former student and Christiana Science practitioner under Mrs. Augusta E. Stetson of the First Church, in this city, insists that Mrs. Stetson tried "mentally assassinate" her because she opposed Mrs. Stetson's sway in this city. Brother Was Killed. LINDSAY, Nov. 11.—(Special.)—Arthur Chipman, who was rightfully buried by being buried under the wreckage of a New York Central double-header last Saturday, was a brother of Mrs. R. Moore, Lindsay, who did not know that he had been killed until she read the despatch. Mono Rail a Success. NEW YORK, Nov. 11.—Demonstrations conducted in London by Louis Brennan have demonstrated conclusively that the gyroscope can be practically applied to railroad operation on a single track, says a cable special.

Eleven Thousand Chickens Burned.

HUTCHINSON, Kansas, Nov. 11.—Eleven thousand chickens were burned to death when fire destroyed the plant of the United States Packing Company, here early to-day. Loss \$50,000.

WORKER'S HAND SAVED

Mr. Wm. Burdett, of 198 Simcoe St., East, Hamilton, Ont., is employed at the works of the Canadian Westinghouse Co. He says:—"A heavy mould was being rolled over when it caught my hand. The result was a terrible crush, and by next morning my hand was black, and so stiffened, swollen and painful I could not use it. We applied liniment, and bandaged it, thinking it would soon be all right again—but it wasn't! For some time it showed no sign of getting better but on the contrary looked like turning to a very ugly injury. "My wife persuaded me that Zam-Buk would do me more good than anything else, and I began to try it. Zam-Buk seemed to penetrate to the very core of the injured muscles and ligaments, taking healing and ease with it. It soothed the pain, reduced the swelling, and removed the discoloration. In a week's time it had so acted on the injury that the hand was nearly normal again and I could go to work once more. It is now quite cured."

HIS WIFE CURED OF DISFIGURING ECZEMA!

The above case is only one instance of the benefit which the Burdett family has reaped from Zam-Buk. Mr. Burdett's wife owes her cure of eczema to the same healing balm. She says:—"The disease broke out on my face in the form of red pimples and blotches which itched terribly and when rubbed, burned and smarted very much. The pustules then spread and formed sores. These were at times very painful, they itched until I could hardly bear, and when touched turned sore. I tried various things, one after another, as they were recommended to me, but seemed unable to get any relief. Ordinary ointments and salves were quite unequal to my case. Then I tried Zam-Buk although at the time I hardly thought it could cure me. I thought it was just an ordinary balm. To my delight it was soon convinced otherwise. A few applications gave me considerable ease, and the burning, smarting pains grew less acute. I persevered with the treatment the patches grew less in extent and the sores ceased to be so painful. In a week's time the eczema was well under control and healing splendidly, and to-day I am free from it entirely. Zam-Buk has effected a permanent cure, I feel sure, and I am very grateful for it."

ZAM-BUK FOR CHILDREN'S HURTS. Mrs. Burdett has a word to say on the value of Zam-Buk as a balm for the delicate and tender skin of children. Every mother should note this. She says:—"Zam-Buk is especially useful where there are children. It seems to heal their cuts and wounds and scratches in wonderful form. Almost as soon as applied, it ends the pain and smarting and gives the little ones ease. I would not like to be without it in the house."

Real Estate Deal in Court.

A real estate tangle was aired before Justice Testzel yesterday afternoon. Frederick J. S. Bowley, grocer, plaintiff, says A. E. Cornelius, defendant, commercial traveler, contracted to sell him some property for \$1600. Bowley wishes to carry out the agreement, but Cornelius refuses. Cornelius says the agreement was entered into on the condition that it should only become binding if a prior agreement with one Whitmore was not carried into effect. Whitmore, says defendant, compelled him to carry out the prior agreement. The defendant says the agreement set forth in plaintiff's statement of claim does not contain the clause regarding the prior agreement, that it should. Judgment was reserved.

Coal Strike in Australia.

SYDNEY, Australia, Nov. 11.—The government announces that it will not interfere in the coal strike which this week. Factories all over the country have been forced to close, and more will do so if the situation is not relieved. The price of coal within the last 24 hours has gone from \$2.25 to \$2.75 per ton. A week ago the price was \$2.

#### THE FIGHT FOR CHEAP POWER.

Much of the trouble that has arisen in connection with the materialization of the hydro-electric policy of the government is due to the provisions of the existing law regarding the submission of bylaws for ratification by the ratepayers. By very large majorities and in many cases repeatedly the municipalities interested have declared themselves prepared to confide in the hydro-electric commission and to become partners in its scheme for distributing Niagara white coal at prices based on legitimate capital expenditures. Yet effort after effort is being made on technical grounds to set aside their declared will and to replace the people under the heel of an electric monopoly that, instead of selling light and power at the cheapest possible prices, will charge up to the limit of what the service will bear—indeed, just sufficiently under the cost of steam power to make a market.

Objection is taken to the people trusting that the hydro-electric commission will fulfill its offers, justified as these were by careful investigation and estimate and since abundantly verified by the actual construction contracts. But when did the citizens ever hear of these objectors warning the people against trusting the promises of private corporations? The citizens of Toronto have seen not promises only, but contracts which they were led to believe protected their rights beyond dispute, repudiated and upset. They see to-day districts of the city unserved and every endeavor being made to prevent the city from exercising its right to resume its franchises on the expiry of the current agreements. The issue as now presented is a straight one—it is simply whether the people or the monopolists are to control the production of electric light and power. There can be but one finish to a fight forced upon the province and its municipalities by a ring of high financiers.

#### CITY GOVERNMENT.

In a recent book on the Government of American cities, Mr. Horace E. Deming of New York, chairman of the executive committee of the National Municipal League of the United States, concisely summarizes the pre-requisites of municipal self-government as contained in the league's program. They are given in seven articles, embodying principles applicable to municipalities in any democratic state, and are as follows:

held on fair and reasonable terms, and otherwise to act freely in connection with their local affairs, subject to the general policy of the law. The principle of independent local self-government, insisted upon in the case of a province, should be carried down to the municipalities. This The World holds to be essential for the proper development of the state.

#### LONDON FIREMEN HURT

Interior of Scorched Mattress Factory Collapses.

LONDON, Ont., Nov. 11.—Fire Chief John Atken, Assistant Chief Thomas Atken and Fireman W. Robertson were seriously injured in a fire which destroyed the plant of the Ontario Spring Bed and Mattress Co. this morning.

The men were working in the building and half a dozen firemen were working on the floor above, where a large quantity of straw, used for mattresses, was saturated with water. The weight proved too much for the floor, which gave way. Part of the wall also fell out.

The men were buried under bricks and straw, but were speedily dug out and hurried to the hospital. The loss will total \$25,000.

In Montreal on Monday two firemen were killed by the collapse of the interior of a mattress factory.

London fire chiefs seem ill-fated. Chiefs Clark and Roe, who preceded Atken, both being killed on duty.

#### YORK LOAN LIQUIDATOR ISSUES A STATEMENT

Explains Basis Upon Which Dividend of Twenty-Five Per Cent. Was Computed.

### YORK LOAN LIQUIDATOR ISSUES A STATEMENT

The liquidator of the York County Loan and Savings Co. hands The World the following statement:

As a number of enquiries have been made by shareholders direct to the liquidator and thru the newspapers, on the basis upon which the dividend of 25 per cent. was computed, it is advisable that a public statement should be made.

At the date of its failure the York County Loan & Savings Co. had issued shares to some 114,000 persons, there being ten different classes of shareholders. Each class had a separate form of stock certificate, and was subject to special bylaws providing for the method of payment by the shareholder and as to repayment by the company, either on a withdrawal or upon its stock being fully paid. The rights of shareholders of the different classes all differed from one another, and, therefore, before any distribution could be made of the estate it was necessary that these rights should be passed upon and defined by the court.

Under the procedure provided by the Winding-up Act at the date of this liquidation it would have been necessary in ascertaining the rights of the parties to have personally served a very large number of shareholders, each one of whom might have appeared by his own solicitor. The costs and expenses of such a course of procedure would, however, have been ruinous. The liquidator, therefore, applied to the minister of justice at Ottawa, and secured an amendment to the Winding-up Act, dispensing with the necessity of individual shareholders being represented before the official referee, and providing that each class of shareholders might be represented by a counsel appointed by the referee. This explanation is necessary in order that shareholders may understand why they were not notified from time to time as to the progress of the litigation. Any course other than that followed by the liquidator would have ended in the greater part of the money realized being expended in the expenses of litigation to determine the rights of the parties. The disbursements in each case of shareholders being represented by their counsel, and one counsel acting for the general body of shareholders, would have amounted to nearly a quarter of a million of dollars, and many years delay would have ensued before a dividend could have been paid.

The issues were tried by the official referee, each class of shareholders being represented by its counsel, and one counsel acting for the general body of shareholders. The referee's findings were given upon which the dividend had been computed and paid. These judgments granted by the official referee, and subsequently confirmed without variation by the high court, were practically a confirmation of a compromise agreed to by counsel for the various classes and the judgments are final and bind all shareholders. The result was to eliminate the claims of certain shareholders (amounting in value to \$1,000,000), to priority in payment to all other shareholders. The judgments apply to the various classes as follows:

Classes A, B, E and H. A shareholder in any of these classes goes on the schedule for the amount of his claim less 20 per cent. This deduction of 20 per cent. is the exact amount provided for an expense fund on these classes of shares by the bylaws of the company.

Class B2. This class, under the bylaws, are similarly subject to a deduction of 20 per cent. in respect of expense fund, and to 10 per cent. under the government bylaw.

Classes D and Juvenile. These classes, under the bylaws, are similarly subject to a deduction of 5 per cent. in respect to the expense fund.

Classes C and C2. These classes, under the bylaws, are similarly subject to a deduction of 6 1-2 per cent.

Class permanent stock (fully paid). This class was not under the bylaws of the company, subject to any expense fund, but the question was raised as to whether or not payment to permanent shareholders should be deferred until after payment of the instalment shareholders, in which event the permanent shareholders would get nothing, and as a compromise of this claim these shares were made subject to a 10 per cent. reduction.

Class Permanent Stock (partly paid). On this stock not only was the same argument used as with reference to the fully paid permanent stock, but the claim was also made that these shareholders were liable for payment of the unpaid amount of their shares. These objections were taken into consideration in fixing the deduction of 25 per cent.

All shareholders are by the judgments subject to some deduction. The aggregate amount, therefore, of shareholders' claim is less than it would have otherwise been, and consequently the amount of cash received by each shareholder in respect of his dividend is greater.

Under the judgments all shareholders of instalment stock must make good their arrears to Nov. 27, 1905, and, therefore, these arrears, where they were less than the amount owing to the shareholder under the 25 per cent. dividend, have been deducted and a cheque for the balance sent to them. In some cases, however, the arrears amounted to more than the dividend of 25 per cent., and, therefore, shareholders were not entitled to any payment on this dividend, although they may be on the next. A similar course has been followed in adjusting the amounts borrowed by shareholders from the company on "share loans" are not set off against the amount due the shareholders and dividends are computed upon the amount to the credit of the shareholder and are applied first upon the arrears and share loans and the balance, if any, paid to the shareholder.

The liquidator is ready to answer any reasonable enquiries, but the expense of dealing with the large correspondence is so heavy that no letters will be answered which are covered by this explanation. Since the payment of the dividend on the first of the month the liquidator has received some 6000 letters and about 2000 shareholders have called at the office of the company.

Shareholders should realize that the

### We Can Show You a New Overcoat

The "Presto" Convertible Collar Coat For Men

The "two-in-one" idea of winter overcoat (Chesterfield and ulster combined) has taken a strong hold on men. It is the most sensible and practical overcoat ever designed. An entirely new and distinctive conception of this idea has come to us from the States, where it has proven an indisputable favorite.

WORN CHESTERFIELD STYLE WITH LAPELS, it lacks the ungainly features of the ordinary convertible coat (the over broad lapel and collar, the disjointed effect of collar from lapel), in fact it is in no noticeable way different from the ordinary Chesterfield coat—and this is its distinctive, exclusive feature.

TO WEAR ULSTER FASHION, just turn up the collar, lapels adjusting themselves, and fasten with a single hook and eye (which is completely hidden by collar). The military collar is small and neat and fits snugly about the neck. Materials are 28 and 30 ounce chevriots (winter-weight) in

browns, olives and fawns, striped and checked patterns; strong twilled linings. Coat is 50 inches long and comes in sizes 36 to 42 inch chest. Prices \$15.00 and \$16.00.

#### 125 Men's Winter Overcoats Each 6.95

46 inches long in the Chesterfield style, with velvet collar. Of black melton cloth in a pleasing soft finish; body lining of serviceable Italian cloth, mohair sleeve lining; sizes 35 to 42 inch chest. Early 6.95 for worth-while price saving. Clearing at, each

#### Two Other Values in the Chesterfield Style

Young men's winter overcoats in that new buttoned through style, with patch pockets and buttoned flaps, 46 inches long. Material, a fancy brown chevriot, in colored stripe effect, melton cloth collar; fancy cuff on sleeve; gopd linings. Price 12.50

HIGH-GRADE OVERCOATS, in a heavy brown English melton cloth, single-breasted Chesterfield style, inlaid silk, velvet collar, best quality linings. Price 20.00

#### Dressy Suits Are Moderately Priced

AT \$10.00, a three-button single-breasted sack suit, of dark grey and olive. English worsted with colored stripes; durable Italian linings; sizes 36 to 42. 10.00

MEN'S COLORED WORSTED SUITS, in an assortment of browns, olives and greens; new patterns, three-buttoned single-breasted sack shape, good quality linings and trimmings. At \$12.50 and \$13.50.—Main Floor—Queen Street.

### Men's Boots, Sizes 5½ to 11, at a Record-Breaking Price

We'd pay more to have them made were we ordering them, but we've a big day's business to do to beat former records, and we've not let price—even cost—stand in the way of getting big business, and the men who need new footwear will be most fortunate in their boot buying Saturday. A variety of styles, all up-to-date for Fall wear, in patent colt-skin, vici kid, tan calf and box calf, all Goodyear welted soles, light and heavy, wide, medium and slightly pointed toes. Selling starts at 8 a.m. sharp, per pair 2.00

#### The World's Best Boot For Men

ANGLICANS IN NEED OF CATHEDRAL SYSTEM Canon MacNab Calls Upon Faithful to Complete St. Alban's—Installation Ceremony.

"I say to you, without fear of contradiction, that the cathedral system well and effectively carried out in a Canadian diocese must prove a source of tremendous strength, and in fact it is the only way of preserving in its proportion the prerogative of the bishop, the loyalty of the priesthood, the rights of the laity, and the unity of the whole body of the faithful."

With this admonition Rev. A. W. MacNab, canon-in-charge of St. Alban's Cathedral, at the installation of the archdeacon of the diocese of the cathedral system for Canada.

The regular form for installing the archdeacon of the diocese, Bishop Sweeney conducted the installation ceremony. The members of the chapter occupied stalls around the cathedral.

These installed were the following: Ven. Archdeacon of York, Rev. Canon H. J. Cody; Archdeacon, Rev. C. L. Ingles, Simcoe; Rev. H. P. Plumtree, suburban; Rev. Canon W. C. Allan, Waterloo; Rev. Canon G. B. Morley, Bradford; Rev. Canon Bernard Bryan, Toronto; Rev. Canon C. H. Marsh, Lindsay; Rev. Canon William C. Allan, Waterloo; Rev. Canon D. D. Holy Trinity, Pearson; Rev. Canon Septimus Jones, pastor emeritus, Church of the Redeemer, Toronto; Rev. Canon William C. Allan, Waterloo; Rev. Canon F. Tremayne, Mimico; Rev. Canon Davidson, Peterboro; Rev. E. A. Langfield, rural dean, Peterboro.

A large number of outside clergy were in attendance, and the ecclesiastical vestments and stately ritual gave the ceremony an air of impressiveness and solemnity.

WHITNEY WILL WAIT

Not Yet Time to Express Opinion on Navy Issue. Following the declaration of Hon. R. P. Robt and F. D. Monk on the proposed contribution from Canada to an Imperial navy, The World asked Sir James Whitney yesterday what attitude he took as representing the people of Ontario. Sir James would not express any opinion on the actual proposal until they had been laid before the house of commons, but in regard to making the question a party issue, he had no uncertain view.

"In my opinion," he said, "no man who has any honest love for his country or for the British Empire will do anything to mix up any more than is possible this great question of our future relations in the British Empire and party politics."

"Therefore until the scheme of the government and the comments of public men are laid fully before the people, I shall not be in any position to offer any specific opinion in the matter."

Meat Packers and Food Standard.

OTTAWA, Nov. 11.—A delegation of meat packers from Toronto, Montreal, Peterboro and Ottawa, waited upon Hon. Mr. Templeman this morning and discussed with him the question of inspection of food standards generally.

YOUTHFUL BANK ROBBER KILLS ONE, WOUNDS TWO

Attempts Escape by Auto and Rowboat—Saved From Lynching by a Russ.

LOUISVILLE, Ky., Nov. 11.—In an attempt at bank robbery Arthur Hall of Louisville, a dealer in second-hand furniture, entered the Merchants' National Bank at New Albany, Ind., shortly before noon to-day and shot and killed J. Henry Fawcett, cashier, and seriously wounded John K. Woodward, president of the bank, and also wounded James R. Tucker, a negro chauffeur, probably fatally.

With a pistol in each hand Hall entered the bank, and after commanding everyone to throw up their hands and "get into the vault," began shooting. Fawcett was shot thru the chest and neck, and died almost instantly. President Woodward received a bullet thru the liver and his intestines also were perforated. Tucker, the chauffeur, was shot thru the body.

Immediately afterward the murderer rushed from the bank and tried to escape in an automobile, in which, at the point of a pistol, he had forced the negro chauffeur to drive him to New Albany from Louisville.

After the shooting at the bank the chauffeur, paralyzed with terror and apparently incapable of action, sat still when the robber jumped into the car and ordered him to speed up the machine. The robber then jumped out of the automobile, seized the negro in the back and ran two blocks to the Ohio River. He shot a skiff and was on his way to the Louisville side of the river before the frightened citizens of New Albany knew what had transpired.

An alarm was given thru a megaphone on a dredge and in a short time several policemen had started in pursuit in a fast motor boat.

Capturing the man they brought him to shore, where by a Russ Police Captain Adams kept back the crowd of 200 persons by announcing that the man had taken poison and was dead.

The bandit was then taken in a patrol wagon to the New Albany jail and later was removed to the Southern Indiana Reformatory at Jeffersonville, to escape the mob, which, realizing that it had been tricked, had assembled around the jail at the reformatory in his cell at the reformatory in the city.

THAT FIRST-WATER SECTION WITH THE BELL-SHAPED FLUES IS FOUND ONLY ON A

OXFORD HOT WATER BOILER

A Hot Water Boiler is made up of a firepot and so many water sections. The first water section receives the greatest heat—it overhangs the fire. To be more definite we illustrate a sectional view of firepot and first water section in a Gurney-Oxford boiler. Note how the firewalls slope in—round fire and on first water section—two exclusive features found only in the Gurney-Oxford Boiler—positive proof of economy and efficiency—Economy because the fire heat is properly used up in heating the water—not the smoke-stack. Efficiency—because even when the fire is low the water is kept warm. A post card will bring you a Handsome Booklet on "Heating the Home—the Modern Way"—interesting—instructive—free.

LESS STATELINESS AT THE HOUSE OPENING

Continued From Page 1.

Contracts had been let for 399 miles in the mountain division. Good progress was made on this work. The search division was now open for traffic from Winnipeg to Lake Superior Junction and thence by the Grand Trunk Pacific branch to the lake itself. The whole of the work between Winnipeg and Moncton was now under contract.

Tenders were being called for the substructure of the new Quebec bridge and a report of the explanatory surveys for the Hudson Bay Railway would be submitted.

Improvements of I.C.R. In order to improve the facilities already afforded the public by the government railways, and to enhance their value as part of the great transportation system of Canada, a bill would be submitted for the purpose of enabling the minister of railways, on the recommendation of the government railway's managing board, and subject to the approval of parliament, to lease any line or lines connecting with the Intercolonial Railway.

A measure would also be submitted for the purpose of rendering more effective the present legislation respecting combinations which unduly enhanced values.

Bills would also be introduced respecting banks and banking, insurance, navigable waters, and other matters, and the estimates would be submitted at an early date. In conclusion, his excellency said: "I pray the Almighty Lord that He may guide and bless our deliberations, and that they may bear fruit in a further increase of our country's prosperity and well-being."

INTRODUCTION OF MEMBERS.

After listening to the speech from the throne, the members of the second chamber where the following new members who had been elected at by-elections during the recess were introduced: D. A. Zeffortine, Montclair, E. Fortier, Lottier, and J. M. Douglas Strathcona, Hon. Macdonald King was introduced after the by-election in North Watford, rendered necessary by his appointment as minister of labor.

The speaker announced that the debate on the address in reply to the speech from the throne would take place on Monday.

Mr. Borden stated that to-morrow the opposition would like to discuss the question of the delay in making certain judicial appointments in British Columbia. This refers to the fact that the British Columbia Government has created a court of appeal which came into effect on Nov. 2. It is probable that no judges will be appointed until after the provincial election.

The opposition leader asked regarding the report of the naval defence conference and the premier replied that he hoped to lay the papers on the table next week.

French and U.S. Tariffs. In answer to a question by Mr. Borden as to whether the government had reports or information touching the operation of the United States tariff, which particularly affected Canada, or her relations with other countries, Mr. Fielding replied that the government had had no correspondence on the subject. They were unable to forecast the interpretation of the U. S. authorities, and before coming to any conclusion would await action by the United States Government. Mr. Borden asked if there were any documents relating to the French treaty which had not been brought down. Mr. Fielding said all the papers had been submitted last session.

In reply to Mr. Borden who asked for documents or papers touching the position of the waterways treaty, Sir Wilfrid Laurier said the matter was still under advisement.

The leader of the opposition asked when the government proposed to lay on the table the papers relative to the resignation of H. H. H. Lumsden, Transcontinental Railway Commissioner. The premier replied that he would call the attention of the minister of railways to the matter, whereupon the house adjourned.

Resolutions Submitted. Notice has been given of the following proposed resolutions: Col. Sam. Hughes: "That in the opinion of the house the best interests of Canada and the empire at large, and, there-

His Queer Story.

He said he had been around Louisville for several days. He did not know Tucker, the chauffeur, and declared Tucker was not implicated in the attempt on the bank.

"I won't tell my name—I have seven brothers and sisters. My father don't live with my mother, and all of them are not within 600 miles of this place. I never was in trouble but once. That was at Lexington, Ky., on Halloween, a long time ago," he said.

He seemed to be confused, but apparently is not insane. He confessed that he planned the robbery of the bank and says that he had no assistance.

To-night the bandit was identified as Thomas Jefferson Hall, and according to W. J. Hall, his father, he is but seventeen years old. The dider Hall, who has a furniture store here, said his son was a household tyrant and not insane at all.

"He is simply mean," said the father. Mr. Hall said that for the last few years, dime novels had been the youth's constant literature.

Among young Hall's effects was found a powerfully made cabinet, lined and outfitted like a room. It is believed he expected to escape with his loot to-day by yawning into the box and being shipped away.

The box was consigned to "R. J. Smith, Knoxville, Tenn."

THE MAN WITH THE FEZ.

The Khedive of Egypt once was vassalage to the Sultan of Turkey in the tobacco and cigarette industry. With every court and courtier in Europe, and every epicure and gentleman in America smoking Vafadis cigarettes, the ruler of Egypt has striven to supreme sovereignty in the tobacco kingdom. Cromer and his Nile policy enriched Egypt with her prolific cotton and tobacco crops. And both are accorded the highest grading of any like product in the world.

MADAME AN ACCOMPLICE IS STATE THEORY NOW

Judge Advocate Begins Address—Believes That Murder of Stepmother Not Premeditated.

PARIS, Nov. 11.—That Mme. Steinhilf, aided by some unknown accomplice, murdered her husband so as to obtain her freedom to wed the wealthy and infatuated Maurice Borselier, but that the killing of her stepmother was unpremeditated and merely incidental to the intrigue, is the theory of the state, as outlined by Trouard Rollo, the judge advocate, in opening the argument of the prosecution this afternoon.

The prosecutor joined in the earlier declaration of M. Devalles, the presiding judge, that he would raise before the jury the general question of the complexity of the accused. (This was interpreted as an acknowledgment that the evidence was not sufficient to maintain the charge that Mme. Steinhilf was the principal and that he, therefore, would ask for her conviction as an accomplice.)

# Another Sale of Suits for Women and Girls 8.95

### A Busy Saturday in Prospect To-Morrow in the Simpson Cloak Department

WE HAVE passed the climax in the suit season. We are willing to sacrifice profits on surplus lines in order to get the stock down to a peace basis. You know after the war is over the army is reduced to a minimum. Well, that's the way with our suit stock. We see the end of the suit campaign approaching and so we prepare.

Women who need another suit for knock-about purposes have a good chance to-morrow—\$8.95. Indeed, they are quite good enough suits for any purpose, and those who are so fortunate as to get one save four dollars each.

200 Suits, in women's and misses' sizes, made of fine worsteds, Panamas and Venetians, square-cut coat, high and plain tailored collars, semi-pleated and plain-gored style skirts, silk and braid trimmings. Regular \$12.95 and \$12.75, Saturday 8.95
