Furious Attempts to Wrest Defences That Dominate Monastir.

The newly organized Serbian posttions on the Kaimakcalan Ridge overapping their own soil, are bearing the brunt of the enemies' blows. Tuesday, Wednesday and Thursday nights vitnessed furious attempts by the Bulgars to wrest these dominating deences from the grasp of King Peter's roops. A rather curious feature of this life and death struggle was the limiting of the Bulgarian attacks on the jagged heights and beat against

sweep into Monastir. Last night's battle on the Kaamakcalan Ridge caused many anxious moments for the Serbian commanders. Many times, as the fortunes of the conflict swept first to one side and then to the other, the outcome looked dark for the soldiers who were battling to redeem their fatherland. "Crown Prince Boris," as the Serbian troops have named the dominating peak of the range, towered above the centre of the maelstrom of struggling humanity and in the perilous moments when victory appeared to be within the Bulgar's grasp echoed to the thunder of hostile guns.

Superb Rally by Serbs. Weakened by the assaults of the enemy the Serbs at first broke and gave way. Success of the first two attacks encouraged the Bulgars to discontinue their blasting at the hostile line, but in the third assault the Serbs rallied superbly and passed the crisis unscathed, with their grip if anything more firmly enclosed on the extraordinary ridge. The fourth and last enemy attack was shaken off with extraordinary ease, and it was in this part of the battle that the Serbian guns wrought the most havoc on the advancing columns, mowing down the Bulgars with such frightful accuracy that they lay heaped in ghastly furrows, when the smoke of battle lifted from "Dead Man's Land."

"The Serbians still hold the summi of Kaimakcalan," Paris tersely epitomiges the result of the furious combat Must be Held.

The complimentary height on the western side of the valley, Baba Planina, wil present the same menace to an advance on Monastir from the south until it too falls into the hands of the allies. It is at this point that the Franco-Russian operations northwest of Florina are aiming.

Progress here has been arrested for the time being by adverse weather conditions, but the outlook is promising for the allies.

Portland, Me., Sept. 29 .- A life preserver marked "Bremen," the name of the German submarine freighter which has been generally expected to arrive at some Atlantic coast port for the past week or more, was picked up on the ocean side of Cape Elizabeth today.

The name "Bremen" was stenciled in black letters two inches high on both sides of the buoy. On one side of the canvas covering was princed a small crown. Over this mark were the words Shutz-Marke, meaning patented or trade mark. Beneath were the words "Vepping-Hoven Wilhelmshafen." This indicated, apparently, the name of the maker. The main characteristic of the offensive since its beginning is the very evident power of the British and the French to continue their advance and the powerlessness of the Germans to stop that advance, or even to get up such a counter-offensive as would win some of the lost positions. Any recovery made by the Germans has been of the briefest possible nature. Till recently it was uphill going for the British all the way, that is, for the first two months of the fighting the enemy could look down and dominate the attack. In seizing this line of positions to the northward of the Somme valley, the British have taken a sector of the strongest defensive position in western the British have taken a sector of the strongest defensive position in western Europe, which had been fortified with all the ingenuity that the enemy could Yet from the day that the offensive started the enemy has been unable to stop the allies, one hundred years ago, before cannon had the great range they now possess, such a position could not be forced.

On the Roumanian front fighting has prevailed pretty generally in the whole of eastern Transylvania. The humbler tone of Chancellor von Bethmann-Hollweg, in speaking in the reichstag, does not please the aggressive elements of the Liberal and Conservative parties of Germany. It is simply a case of the beaten bully all Conservative parties of Germany, It is simply a case of the beaten bully all over again, with one of the chief bullies seeing a little farther ahead than the ordinary junkers. As to the retirement of Von Bethmann-Hollweg, that will the course when Germany comes to a further realization of failure. The present chancellor will probably be replaced by Von Buelow. When the time comes for the war to be a war of wits around the peace congress table, it is expected that Von Buelow will bring his finesse into play. As a peace negotlator, he would be as wily as a serpent and he is the man to be feared lest he should rob the allies of the fruits of victory by his diplomatic dexterity. when Von Buelow is appointed to high office it will imply that Germany is preparing for the settlement that the ailles will impose on her.

LARGE ENTRY LIST

Exhibits in All Classes of Live Stock Best in History.

Peel County farmers, at Brampton Fair yesterday, again demonstrated their ability as horse-breeders, and it is safe to say that they more than sustained their reputation in this regard. If the weather was responsible for a slightly smaller crowd attending than in previous years, it did not affect the entry list in any way, in the horses alone there being nearly 600 competitors. Cattle exhibits were numerous, and in the poultry class there were 300 entries. The large hall at the entrance to the grounds was devoted to the women of the county, and their fine arts and fancy work exhibits numbered 300.

Best in History.

The dull, cold weather which prevailed until late in the afternoon was decidedly unfavorable to fair-going, but nearly 6000 attended during the day. General satisfaction prevailed, and the directors all declared that, with the exception of the crowd, everything was of such an excellent character that the fair was the best in the history of the association. During the day the brass and bugle bands of the 234th (Peel County) Battalion provided stirring musical selections, while a squad of men gave an exhibition of physical drill and bayonet fighting. A band of recruiting sergeants scattered themselves in different parts of the grounds, and were successful in persuading several young men to enlist. Disappointment was general owing to the cancellation of the racing events. The track was in a very bad condition, and the directors deemed it advisable to call off this part of the program.

Glass of Hot Water Before Breakfast a Splendid Habit

Open Sluices of the System Each Morning and Wash Away the Poisonous, Stagnant

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver kidneys and ten yards of bowels the previous day's indigestible waste, sour and poisonous toxins, thus cleansing, sweetening and purifying

the entire alimentary tract before put-ting more food into the stomach. The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives on a splendid appetite for breakfast, and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or the phosphate will constitute the drug store, but is sufficient to make lecting evidence with regard to a licensed liquor dealer under the old act. who is stated to be acting as agent to a make the property of liquor merrheumatism a real enthusiast on the for an outside company of liquor mersubject of internal sanitation. "Can a working girl own a savings account?" That is the question asked by Virginia Parr in The Sunday World this week, and the discussion which follows will prove most absorbing to every working girl in Toronto. This is only one of many stories which are contained in this week's issue which have a gripping interest.

Did you know that the Red Cross Society has a number of enthusiasts gathering waste paper and other material in Toronto, the revenue from which totals a big sum every month? It's a fact, and the article written by M. L. Hart gives some new information on the subject.
Written exclusively for The Sunday

World, Archie McKishnie has begun a series of stories on animal life. The first appears this week, and is about Mr. Bob White and his mate. It's real and rings true.

"Canada's Evolution in Steamers" is by Frank Yeigh, and touches upon the advancement that has been made in Galt last Saturday for contempt of steamer construction after the style Galt last Saturday for contempt of of his story last week about railway court as a result of his comment on locomotives. CUT EXTENSION SHORT

Work Effected by Eliminating Subway.

The estimated cost of the Duplex avenue extension from the north end of Lawton avenue to Glenview avenue is \$394,000, of which the city pays twothirds and the ratepayers one-third, with the exception of a strip 450 teet north of the belt line of about 1600

feet.

To date \$99,924 has been spent on this work. 'Under Ald. Rarnsden's scheme the procesal to stop this extension at Chaplin crescent will mean a saving of \$202,047. This saving is effected by the elimination of the necessity of constructing a subway and land damages. This will leave a necessary expenditure of \$92.

29. This sum is required to complete the extension to Chaplin crescent less the extension to Chaplin crescent less any salvage in the property not required for the extension, plus any pos-sible damages by abandoning the original scheme.

By an entirely new report on the extension of Duplex avenue southerly to Chaplin crescent, 86 feet wide from Yonge street ta Oriole Park road, at an estimated cost of \$191,853, at least one-third of the cost can be assessed, thus making the net cost to the city on the new report \$127,969.

\$50,000 Ty Cobb "comes back" Nuxated Iron makes him Winner Greatest Baseball

Batter of all time says Nuxated Iron filled him with renewed life after he was weakened and all run down

Nuxated Iron has filled me with renewed life and vigor; I play a better game today than when I was younger.

Not long ago a man came to me who was nearly half a century old and asked me to rive him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy, of 20 and as full of vigor, vim and vitality as a young man; in 'act a young man he really was, notwithstanding his age. The secret he said was taking iron—nuxated iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly ad in. Now at 50 a miracle of vitality, and his face beaming with the blooyancy of youth. As I have said a hundred times over, iron is the greatest of all strength-

builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated fron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on

by lack of fron in the blood.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you he came weak, pale and sickly looking just like a plant trying to grow in a soil, deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two fivegrain tablets of ordinary nux ated fron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were alling all the while double their strength and endurance and entirely get iid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases, been doctoring for months without obtaining any benefit. But don't take the old forms of reduced fron, iron a tate or tincture of fron simply save a few cents. You must the iron in a form that can be easily sorbed and assimilated like nuxat iron if you want it to do you at good, otherwise it may prove wors than useless.

Many an athlete or prize fighter had won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone to inslorious deteat simply for the lack of iron.—B. WORDING ON DEATH CERTIFICATE CHANGED

"Suffocation by Gas Poisoning" Replaces "Asphyxiation" as Cause of Mrs. Dunn's Death.

Apparently someone has been tamporing with the death certificate issued by Coroner Dr. W. A. Young for Mrs. Florence Dunn, who, with Albert Neal, was found dead on Tuesday in apartments on University avenue. Dr. Young asserts that he wrote the cause of death as apphyxiation on the certificate. Now the wording reads "suffocation by gas poisoning," and opposite the printed guide word "duration" on the certificate, "slow" has been written. Both insertions are in been written. Both insertions are in different handwriting.

One of the officials at the city hall when the certificate arrived there, noticed the alteration and expressed the

when the certificate arrived there, noticed the alteration and expressed the opinion that the handwriting was that of the chief coroner. Questioned on the matter. Chief Caroner Johnson remembered that he had signed a death certificate at the morgue for gas poisoning, and that probably the words quoted had been accidentally written on Mrs. Dunn's certificate instead of on the other.

No doubt he tricts therein defined and described. The order gave proper express service plight. It would be wiser for her land where colonial statesmen are often to the greater part of the city, but certani populous districts like Earlscourt, Oakwood, North Toronto, West Toronto. Little York and the beaches were and are still excluded.

At least fifty thousand citizens are denied reasonable express facilities, When goods consigned to them arrive ir Toronto they are notified by postcard, and must go clear down town and fetch the packages home themselves. The companies do not even go to the trouble of unloading at the Little York, North Toronto, West Toronto and Davenport Stations, express packages consigned to people living outside the collection and delivery zones, but contiguous to these respective stations. In the case of perishable goods, great loss is entailed, and in every case considerable inconvenience.

The application filed by the Citizens' Express and Freight Campaign Executive Committee makes out a strong case that may well challenge the attention of the railway commission, while the answer of the express companies really puts up no defence beyond the allegation that many thorofares in the outlying districts are not reasonably passable for vehicular traffic.

While the case for proper relief has been admirably prepared by counsel representing the citizens most aggrieved and by the city law department, the mayor and corporation are to be commended for retaining M. K. Cowan, K.C., and the hearing before the railway commission should not be proceeded with until Mr. Cowan is able to present the city's case. What the commission may decide will be final in the sense of there being no appeal, and The World wants to see the case decided right.

"PERFECT"? DIAMONDS TEST

LADY came into our store the other day for advice with a so-called "perfect" Diamond she had purchased from some other dealer. She was bitterly disappointed with it because she had found out that it did not measure up to her conception of perfection. If a dealer tells you a diamond is perfect, make him say so in writing. Then you have a protection of value in the courtroom.

We describe our diamonds without using words of equivocation and without any men'al reservations and should be glad to show them.

James T. Powers, Famous Ameri can Comeiadn, Coming Soon in "Somebody's Luggage."

James T. Powers—the original a nimitable "Jimmy" Powers of ma fragrant stage recollections—is come to the Alexandra Theatre, Mond to the Alexandra Theatre, Mondo to the Alexandra Theatre, Monday, October 9th, with his latest successful fun vehtcle, "Somebody's Luggage," a farcical comedy by Mark Swan. This starring comedian is a firm believer in rest and recreation as a means to maintaining his efficiency as a creator of laughs. He insists upon a certain amount of rest each year, and would not prolong his season past a certain length for any monetary consideration. To this habit he attributes his propensity for keeping up the same standard of work throughout consecutive seasons.

standard of work throughout consecutive seasons.

As soon as the season is ended Mr. Powers hurries across the ocean and seeks the quiet and restful atmosphere of a town that may have caught his fancy. He sometimes stops in Paris. London or some other capital to see what tricks the laugh creators over there are using. If he has any spare time upon his return from Europe he spends it in the solitude of the mountains. Then he is in close touch with his managers, and also enjoys the healthful air of the country. Loon Lake has been his favorite place for his "second" vacation for several years, and he and Mrs. Powers have selected a site for a bungalow along selected a site for a bungalow along the lake. "Loon Lake is appropriate for a comedian don't you think," he asked. "It suggests the opinion some peope have of a comedian."

"AIDA" AT ALEXANDRA.

Verdi's massive and spectacular opera "Aida," will be given on Monday might at the Alexandra. It is the first of four productions announced by the Sen Carlo Grand Opera Company. The Sen Carlo Grand Opera Company. The Monday night performance is under the local auspices of the Italian Red Cross Society, and a brilliant gathering of music-lovers, opera devotees and those who are interested is anticipated. "Aida" is a world-favorite, and a cast of leading artists said to be the cream of the principals of the company, has been chosen:

MAUD ALLAN.

Maud Allan, the famous symphonic dancer, will add an entirely new attraction to the program which will be seen at the Alexandra Theatre on Oct 5, 6 and 7. Miss Allan arrived in New York on Thursday evening, Sept. 14, and found awaiting her the complete score and scenario of "Nair the Slave," written by Pietro Boldrini, The designs for her scenery are by Kemp Prosser of London, whose color work is said to be the most advanced yet seen in stage effects. "Nair, the Slave," Maud Allan claims, is something new to the stage. It is a pantomime-opera, a form of entertain-ment never before seen.

"EVERYWOMAN. "

One of the distinguishing characteristics of the dramatic spectacle, "Everywoman," which Henry W. Savage will offer at the Grand Opera. House next week, is its huge size. The fourth act represents the fanfare and riot of New Year's Eve on Broadway, New York. Imagine a seething, surging, eddying, shouting, shrieking collection of men, women and children imbued with the idea that each one must make as much noise as possible and behave in the most flamboyant manner and you have a New York crowd on New Year's Eve.

CYRIL MAUDE COMING.

With honest delight and eager anticipation, our theatre patrons will welcome the announcement from the Grand Opera House that Mr. Cyril Meude, the distinguished English actor, has selected Toronto as one of the cities in which he will appear in the new comedy, "Jeff." The play was suggested to Mr. Morton by Stephen Leacock's "Sunshine Sketch-es," which are a series of charming stories of folks in a small Canadian

STAR THEATRE

The ideas of burlesque patrons have advanced so rapidly the past two seasons, that a manager can no longer expect to command attention with a medicore attraction. The people who weekly patronize a burlesque theatre now expect the same productions, as to scenery and costumes that they would in the legitimate houses. Realizing this state of affairs Wainstock & Devins have engaged such well known stars as Will H. Ward, Martha & Devins have engaged such well known stars as Will H. THREE FAVORITES WIN AT WOODBINE

Joe Gaiety in Steeplechase Longest Shot Friday—Robinson on Two Winners.

A card of seven overnight events furnished the medium for speculation and amusement on Friday at Woodbine Park. The day was cold and raw and the track slow after the Thursday right rain. The attendance was large, the fields generally large, the speculation brisk, but the finishes were not close.

Three favorites won, Rhymer, Arch Plotter and Thanksgiving, the last-named paying \$7.30 for \$2. Ringdove, Viley and Akeldama were second choices, and Joe Gaicty the long shot outsider in the steepiechase that won because the rest fell down or refused. His win, following that of Akeldama, gave two firsts to Owner Sol Mintz.

Two More For Robinson.

Jockey Robinson piloted two winners, Ringdove and Rhymer,
Ringdove won the opener all the way. Belle Mahone could never get up. Statim came thru by a liberal use of the whip for third.

Rhymer won the second easily by a strong stretch run, followed by Meddling Miss, Hasty Cora, the pacemaker, third. Viley ran away the first part of the third and then could afford to loaf and win. Lily Orme, favorite, the early leader, dropped back, and Blue Cap took the place, Old Pop ceming up for the show.

Two For Sol Mintz.

Akeldama took the lead entering the back stretch and stayed in front for an easy win. Alecto second all round; Wish-away, the favorite, alone third.

They all went down except the winner in the steeplechase. Lady Buttor-fly collided with Garlsh Sun on the flat after the latter toppled over the club house bank. Brooks remounted and made a fair effort to catch the leader. Berry also got up again and earned show money.

The sixth was Arch Plotter's from post to wire. Likens heat Dapheen Dawnoost to wire. Likens heat Dapheen Dawnoost to wire.

NOKES' ELECTRASCORE BOARD

The world's series champion baseball games will be shown at Massey Hall by the Nokes Electrascore Board. To those who are not familiar with this marvelous invention, may state that by means of colored lights for each team the movements of every player are shown, and the players are in actual movement all the time. It is not a jump from base to hase, but the lights move from one point to another in full view of the spectators. In like manner the course of the ball is followed from the time it leaves the pitcher's hand to any part of the field. Returns are received by special wire direct from the field the moment the plays are

GREAT RACE CARD FOR

The greatest race card ever put before the public is what many said as they looked over the entries for this afternoon at Woodbine Park.

The six carded for the O. J. C. Cup should furnish a memorable contest. It is hard to make the selection, and harder to the pick the winner. This is the longest race on the flat in Canada, the horses racing three times past the stand. The long distance makes it look like a contest for lightweights, but last year Rancher won with 113 lbs. up, and he is asked to shoulder 126 lbs. today, a herculean but not impossible task. In 1914 Great Britain won with that impost.

The following is the record since the race was inaugurated in 1902:

DR. SOPER BEACHES JUVENILES WON CHAMPIONSHIP

Defeating Tara in Final Game at Orangeville by Two Goals.

ORANGEVILLE, Sept. 29.— The Beaches defeated the Tara Club at Idylewild Park here this afternoon in the final contest for the juvenile championship of the Ontario Lacrosse Association by the score of six to four. The ball was faced at 2.30 in the presence of a small crowd, which would have been much larger but for the cool weather, as this was the only championship lacrosse game witnessed here this season, the local club having no teams, as its membership has very largely enlisted and many of the best of the Dufferins are at the front. The game, while ragged in spots, was a good exhibition of juvenile lacrosse. The teams were very evenly matched. Tara had the best of the play, being better fielders and having more speed than their opponents; they were weak in effective combination work and were unable to close up their many attacks on the rival's goals. Beaches gave evidence of more experience and had an excellent defence. The game was clean thruout and there were few penalites imposed. Beaches scored the first goal in nine and a half minutes. Withers making the score. Thare evened things up. Beaches obtained another goal, the first period ending three to two in Beaches' favor. In the second quarter the play was pretty even, but Beaches notched another goal, leaving Tara with a hard lead to overcome. In the last quarter Beaches scored twice in succession and Tara, which showed improved form in this period, finished the round by adding two more goals to their score. Notwithstanding the heavy rain of list night, the grounds were in excellent condition. Summary:

APPROVED AT CITY HALL

Mayor Says It is the Information Required to Wake Up Council.

General approval is expressed at the city hall at Commissioner Bradshaw's financial report. The mayor says it is just the information the council needed to wake it up, and declares the oard will deal with it immediately. Sir Edmund Walker says there are matters for serious consideration in the report. "But," he says, "citizens ought to be glad, not sorry, that the finance commissioner has laid the real state of affairs before them."

ASKS FOR FUNDS TO WATCH WOMEN

English Association Would Belligerency Does Not Stimu-Keep Military Camps Free of Them.

COMMANDER'S REPLY

Says Women Are Grossly Maligned by Neurotic Self-Advertisers.

Canadian Associated Press Cable.
LONDON. Spt. 28.—Some surprise
has been caused among certain battalions at Shorncliffe on account of the receipt at Canadian headquarters the receipt at Canadian headquarters of a copy of a letter dated Lambeth the official residence of the Archbishop Canterbury, in behalf of the Canterbury Diocesan Association. This letter desires information as to whether or not officers commanding funits of Canadian troops how in training can see their way clear to subscribe to the association's fund, for the following:

Watching for suspicious or silly women or girls conversing with solliers or hanging about the camps; to eport and warn women found to be indesirables and clear them out of the lcinity or arrest them after warning them, and getting young girls bound over or sen; back to friends in charge of the association's agents. Several other objects on the same

line are also specified, it is an-Col. E. C. Ashton has promised the treasurer a subscription; a guinea a month from each battalion canteen

month from each battalion canteen also being suggested.

One Commander's Views.

What one battalion commandant thinks of the scheme is set forth in the following extracts of a letter he sent

following extracts of a letter he sent in reply:

"I decline, positively, to permit any subscriptions to be made from regimental funds. The civil and military authorities are perfectly able to cope with the situation. In my opinion, the evil is tremendously exaggerated, and I would rather subscribe to a fund to shut the silly mouths of those people who have been absurd enough to make exaggerated statements endeavoring to cast undeserved reproach and discredit upon womanhood of England, which in my opinion, has never stood on so high a plane as at present. If I were to subscribe for such a purpose, I would be inclined to send a subscription to Canada, where I believe there is quite as much need for reform as there is here.

"My experience with my battallon is that there was more disease while we

that there was more disease while we were in Canada than there has been since we came to England. Again I say all this talk of terrible diseases and awful immortality of women in England is the direct result of the loose tongues among the so-called moralists, who assume to themselves all the virtues of the country. The women of England, who have risen to great heights in their devotion to the cause and their self sacrifice have leen growth maligned by a neurotic lot of self advertisers, who ought to be horsewhipped in the market place."

Principals of Suit at Front Trial Has Been Postpone

Because Col. Smith, Lt. Allan D. Harris and R. R. C. Harris are fighting in France, Master-in-Chamber Cameron has postponed until next spring the trial of the case brought by A. B. Mackay of Hamilton, against Harris and Harris, contractors, and Boyd and Harris, architects. The action is brought thru the erection of a building for the plaintiff in which \$60,000 is said to be involved.

WAR CAUSES RISE IN PRICE OF MEAT

late Production, But Increases Demand.

SO DEALERS DECLARE

Cattle Are Being Sent From Canada in Unprecedented Numbers.

Further investigation into the high prices of meat point more and more to the conviction that it is general conditions rather than any specific single cause that have made the prices. soar so as to make fresh meat prohibitive at many meals on many tables, and has set housekeepers busy in the search for recipes in the culinary department which may take the reach of every purse.

"War always puts prices away up, was the statement of a man at the head of a big meat concern. "If I don't mistake, wheat went up to two dollars a bushel at the time of the civil war. We must expect something the same now, not in one direction alone, but along many lines. "War does not stimulate food production, but the demand of course is increased. There is tremendous action

increased. There is tremendous action along lines which are not producing food, and the food interests have to

"Human nature on the whole is all right, and I don't believe there is col-lusion anywhere," said the same au-thority. "There is talk about the govthority. "There is talk about the gov-ernment taking over the regulation of distribution and prices, but I don't know that that would do any good. Germany did this and kept the prices so low that there was no encourage-ment given the producer. I think this was the tragic mistake made by that

was the tragic mistake made by that country."

A cattle dealer gave information which amounts to practically the same as that of the wholesale merchant.

Large Expert Trade.

"The demand is so great," said this authority, "that cattle are being sent away from Canada in unprecedented numbers. There is no duty on cattle going into Buffalo and this, too, is an inducement. A few days since 45 carloads, then 60 and then 35 were shipped thru to that city."

Much of the cattle now is stall-fed, and there is little choice meat coming into the market. That which does reach us thru this channel commands a high price, which those who have the money pay without protest. Enquiry seems to demonstrate that for the high price of meat there is little remedy; that while the war continues, and with it the ever-increasing call for meats of all kinds for war retions, it is useless to expect any fall in price. to those who offer the highest bid, and exportation offers the mecca in this particular line.

Substitution of vegetables other foods in place of fresh meats seems to be the only solution for those who feel present prices too much for purse or pocket.

Chief Business Men of Brockville at Banquet

BROCKVILLE, Ont., Sept. 29.—The Brockville Ad. Club, a new organization in the Island City, composed of its best business men and many live citizens, staged a banquet tonight at the Victoria Hall in honor of Mr. Benjamin Briscoe, of Jackson, Mich., the head of the Briscoe Motor Company, who has established a branch of his industry here. The affair attracted a large and influential list of guests and a great reception was accorded Mr. Briscoe, who delivered a telling address upon "Civic Efficiency."

DISCUSS CAMPAIGN PLANS AT PARLIAMENT BUILDINGS

Meeting to Decide on Collection for Trafalgar Day Red Cross

The organization of resources comnittee has sent out invitations to the eaders in the Trafalgar Day Red Cross campaign last year to meet with the lieutenant-governor in the parliament buildings Tuesday afternoon at 4.30 to discuss plans for the collection this year. The suggestion is from Mayor Church. Anyone who is nterested may attend the meeting. The committee in its organization work for the campaign sent out well ver 2000 letters to municipal clerks, mayors and recves, Ontario senators and members of both houses, asking their co-operation. The committee is now drafting letters to over 21,000 ool teachers, ministers and others.

HAD NO DEALINGS WITH PULP AND PAPER FIRM

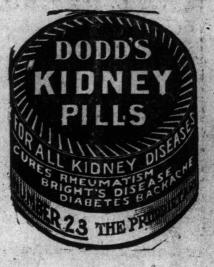

Hon. G. Howard Ferguson Says Attack in Morning Paper is Very Unfair.

Hon. G. Howard Ferguson charac-terized as very unfair and unjust the attack made upon him in The Globe yesterday. The editorial deals with a supposed deal with the Appleton Pulp and Paper Company for the purchase of 8000 acres of timber lands in the Black Sturgeon district. Mr. Ferguson stated that he had never before heard of the company and had had no sort of dealings or communication with them. Before recent negotia-tions with Port Arthur with regard to the erection of a mill there, he had not even considered the opening of that

As for the advertisement of the Pi River district, Mr. Ferguson said that it was in the form that had been used it was in the form that had been used by the department for years. The regulations regarding the purchase of government land had been printed and sent out to ill prospective purchasers and to all who cared to apply for them. They required that a mill, costing at least \$1,000.000, should be erected, with a capacity of 150 tons of pulp a day

and the employment of 300 hands for 10 months at least in the year.

The regulations provided also for the erection of a paper mill with a capacity of 100 a day and a daily output of 75 tors." "The Globe's statement that the minister has any discretion in the natter is entirely erroneous," said Mr.

He McPherson, 20xth Irish-Canadians, and 24xth in connection with the chancellor's speech was his failure to mention Belgium. Lord Robert said:

"There is a very different tone in the speech over the previous efforts of the chancellor. The talk of a complete German victory is entirely absent, Another remarkable thing was that there was not a word about Belgium. The significance of this is probably that he was unable to say anything about Belgium, as his listeners can be assumed to be the whole world, and he was bound to offend a section of it if Belgium was mentioned. If he attempted to justify German occupation he would offend the best of all neutral opinion, and equally he would offend his own people if expressed a determination to give up that country."

FILMS AND CAPTIONS ON SEPARATE SCREENS

Two Used Instead of One Great Advantage for Movie Patrons.

In the social service department of one of the large manufacturing plants at Dayton, Ohio, where motion pictures are employed for educational and entertainment purposes, two screens are used instead of one. This scheme, with the aid of an extra projector, permits the various sub-titles to appear on one screen while fhe picture is shown uninterruptedly on the other. In the case of an illustrated lecture entailing the use of either films or slides, the plan has been found advantageous. By arranging automatic slide-feeding devices which can be controlled by means of pushbutton switches placed in the hands of a lecturer, the changes can always be made promptly and without error. When films are shown, sub-titles on slides can be changed in the same manner from the speaker's platform, if desired. When travelogue and similar films, needing more or less explanation, are shown, a running story can be carried on the extra screen. tertainment purposes, two screens are

The Opinion of the Press. The Opinion of the Press.

The evenings newspapers published lengthy reports of Chancellor von Bethmann-Hollweg's speech, contrasting it with his earlier utterances and drawing the conclusion that Germany fears defeat and is anxious for peace. The Standard says:

"The chancellor makes it clear that neare must be on the wholes."

"The chancellor makes it clear that peace must be on the whole a German peace, but there is now no talk of vast indemnities, great territorial acquisitions and so forth.

The chancellor labors to make the world believe the conflict was forced on his country by England. How came it, then, that England, France and Russia were indifferently prepared for war two years ago, while Germany was ready to the last button?"

BEFORE THE REICHSTAG.

BERLIN, Sept. 29 .- The allies cannot break thru the German lines on the Scimme, Chancellor von Bethmann-Hollweg told the reichstag, according to an account of his speech cabled to Reuter's by way of Amsterdam. The German prime minister made a similar statement in regard to the east-

ern front.

"The English and French, it is true," he said, "have achieved advantages. Our first lines have been pressed back some kilometres and we have also to deplore heavy losses in men and material. That was investible in a confession with the confession with th evitable in an offensive on such a mighty scale. But what our enemies hoped to accomplish, namely, break thru on a grand scale and roll up our rositions, has not been attained. The battle of the Somme will cost further

sacrifices. Still another treach and another village may be lost, but they will not get thru."

In regard to the eastern front, where, the chancellor said, the Russians had renewed their offensive with heavy attacks, he predicted the same result. "Here too the battle is same result. "Here too, the battle is proceeding," he said, "but as surely shall we hold our own."

Referring to Roumania, the chan-

cellor said that the old King of Rou-menia had died "as the result of mental excitement caused by the consciousness that Roumania had betraved her allies." The speaker said that the entente confidently hoped that Roumania's entrance into the war would bring in its frail the scossion of Turkey and Bulgaria. "But Turkey and Bulgaria were not Roumania and Italy," he concluded. Auction Sales

Simple Method of Illuminating Flag

A simple and very effective method of illuminating the flag at night has been employed by a citizen of Schenectady, N.Y. On a pole projecting from his attic window hangs a flag, measuring five feet by eight feet. On the roof the porch below it, and so situated as not to be visible from the street have been placed two 60 watt street, have been placed two 60-watt lights with reflectors, which direct the artificial rays against both sides of the flag at an angle. Current for the bulbs is secured from a socket near one of the windows, thru which the lamp cords pass. Illuminated in this way, the national emblem pre-sents a beautiful appearance in the

Magnetic Monuments

To Locate Property

Magnetic - iron monuments for marking the location of property lines are recommended to surveyors and property owners because of the even the imbedded some distance in the earth. A desirable magnetic-iron monument for marking initial corners is a rod not less than one in. in diameter and 36 in. long. It should be driven with light hammer strokes, thereby increasing its magnetism When searching for such a monument t is unnecessary to tear up the pav fing or sidewalk in the vicinity of the rod, for it can be located with a small needle compass.

Nova Scotia Steel and Dominion Steel Amalgamation Means More Than Talk.

It was generally believed yesterday that there was more than talk in the rumor of a merger between the Nova Scotia Steel Co. and the Dyninion Steel Corporation. ANOTHER POOR DAY

Only Small Percentage Fruits Offered Was First-Class.

TOMATOES ARE SCARCE

Delaware Potatoes Sold for One-Seventy-Five Per

The general quality of the fruits offered on the wholesale market yesterday was even worse than it has been, and that was needless. Only an extremely small percentage was first-class, quite a few being windfalls.

Peaches were a slow sale, owing to the extremely poor quality, the six-quart lease selling at 15c to 20c, the six-quart lease at 15c to 36c, the 11-quart flats at 20c to 35c, and 11-quart lenos at 25c to 65c, very few reaching the 65c, the bulk not going higher than 50c.

Plums.—The bulk of the plums sold at 50c to 75c, the few really choice ones bringing 85c to \$1, while an odd lot of Blue Damsons brought \$1.25 per 11-quart leno basket.

Pears remained about stationary in price, the 11-quarts selling at 20c to 60c, and the six-quarts at 15c to 20c.

Carrots came in a little more freely in baskets yesterday, and sold at 35c to 40c per 11-quart.

Tomatoes were rather scarce and were slightly firmer, selling at 25c to 35c.

MARKET WAS BUOYANT

Shares Are Heavily Bought and Advanced on Rumor of Steel

Testerday witnessed a wild market in Dominion Steel on the Toronto and Montreal Stock Exchanges. On the Toronto market upwards of nine thousand shures were dealt in while at Montreal the trading was in the neighborhood of 35,000 shares. The price advanced five points over the previous day with the closing sales at the highest price. No authentic information for the sudden advance has been given out, but it is stated semi-officially that overtures for a marger between Dominion Steel and Nova Scotia Steel have taken place. The earnings of the Dominion Steel Co, have been very large and the booked orders for many months ahead will show earnings of even larger percentages. The company is in a far better financial position than at any time in its history and dividends could be resumed if the directors so desired.

The fact that the shares have falled to appreciate the change in its condition has been widely commented upon, and it is believed that a slow accumulation of the stock has been going on for some special purpose. Around brokerage offices yesterday a figure of 90 was suggested for the stock, with or without merger prospects.

Nova Scotia Steel was also strong

pects.

Nova Scotia Steel was also strong with sales up to 139 1-2. Outside of the steels there was only a normal amount of other trading and the price changes were not material. The strength of Dominion Steel at the close is expected to warrant another big day on Saturday.
