WILL SURVEY LINE TO JAMES BAY

Cochrane Member Urges Government to Extend T. and N. O. at Once.

TO OPEN RICH COUNTRY

State of Finances Would Not Warrant Outlay Now, Says Premier.

Malcolm Lang, Cochrane, had a motion adopted by the legislature yesterday demanding immediate survey of Ontario development. The motion recommended extension of T. and N.O. to James Bay; but Premier Drury could not accept this recommendation as an immediate mandate in view of financial conditions.

Mr. Lang made an inspiring address, in the course of which he said that at no time in the history of the province could this bill have been introduced with such assurance of support and success as at present. In 1919, he said, Ontario alone brought and paid for \$75,000,000 worth of coal from the United States, bought and paid for another \$100,000,000 worth of iron and steel from the United States. Large quantities of oil and petroleum products, fish and other natural resources.

"We may only hope," he continued, "to induce our people to cease purchasing from the States by furnishing them a product in Ontario to replace the American product. From this broad standpoint alone, the expectation of our production along the lines of this railroad of coal for fuel, iron and steel, oil and fish more than justifies the railroad."

The proposal Mr. Lang made is to build from Cochrane to Moose Factory on James Bay. Building from Cochrane 185 miles north to Moose Factory on the mouth of the Moose River where it empties into James Bay, gives us total mileage from Toronto to Moose Factory of 662 miles or a run of 78 hours for passenger trains or fast thru freights with refrigerator cars.

Nine great rivers run northward from the transcontinental to James Bay all eventually joining up with the Moose River for its final entrance to the bay. They are the Abitibi, Mattagami, Frederick House, Ground Hog, Kapuskasing, Opinicon, Missinabi, Kabinokagami, French River, Moose River.

The water powers capable of commercial development on these rivers run into approximately 1,000,000 horse power. On the two rivers alone, Abitibi and Mattagami, between which and close to which the proposed railway will run, controlled horse power of nearly 1,000,000.

Cost \$11,000,000.

Preliminary surveys of the alternative routes of this railway have been made. Careful estimates have been made for the T. and N.O. railway by their engineers and are of record showing the estimated cost in 1912, \$6,133,838. To this should be added a further estimated \$250,000 for the opening of the mouth of the river at the docks and terminals to provide a channel with ten feet depth instead of the present six foot channel.

The estimated cost of 1912 must be substantially increased. After conference with railway engineers we are, in order to be on the safe side, adding 100 per cent. and placing at estimate on present day cost at \$11,000,000.

MOTHER OF 18 SAYS IT WAS A GODSEND

"From Now On, Tanlac Will Be My Family Medicine," Says Mrs. Grenier.

"Well, this is certainly a coincidence, for the very moment you were coming in I was pouring into the kitchen sink all the costly medicines that had been prescribed for me," said Mrs. Solomon Grenier, to the special Tanlac representative who had called at her residence, 1443 Logan street, Montreal, the other day, to ascertain the facts.

"Tanlac is the only thing I found during my three years of ill-health," added Mrs. Grenier, "that has done me any good. I just consider it a godsend to suffering humanity. For at least two weeks in every month I had frightful headaches and would get so dizzy it was difficult for me to walk. Many a time after meals I had almost unbearable cramping in my stomach, and, at times, I was so overcome with heart palpitation that I had to sit down. I had no appetite and sometimes got so dizzy that things turned dark and had the appearance of a veil of smoke before my eyes. In order to get relief from these attacks I had to take to bathing my head with ice water. I was constipated the worst kind, had very painful neuralgia in my neck, and did not feel strong enough to attend to my household duties. I could only sleep part of the night and my condition was so distressing that life hardly seemed worth living.

"But I began taking Tanlac about three weeks ago and am just so glad to see how wonderfully my health is being restored that I want to tell everybody about Tanlac. I have no more headaches or dizzy spells and since I am able to digest my food properly my heart palpitations have disappeared. My appetite is just fine and I am eating meats—even pork—and anything else I want without the least trouble afterwards. I am no longer constipated, that weak, tired feeling has also left me, and now that I am suffering has relieved I am building up in weight right along. I have already gained five pounds and feel stronger and better than I have since my troubles started three years ago. I am the mother of eight children and from this time on I expect Tanlac to be my family medicine. It is so good that I want to make this statement and help others who need it like I did to know about it."

Tanlac is sold in Toronto by sixteen Tamblin Drug Stores. A special Tanlac representative is at the Tamblin store, 117 Yonge street, where he is meeting the public daily.

EXPLANATION ASKED FOR ADS. IN THE SUN

Before the legislature yesterday Howard Ferguson spread forth The Farmers' Sun containing a broad sheet advertisement, signed by Hon. F. E. Biggs, and asked what was the object of the generosity.

What is the purpose of this literature and from what provincial fund will it be paid? he asked.

Hon. F. E. Biggs: The late government pursued the same course.

Mr. Ferguson: That is not an answer.

Mr. Biggs: It is issued by a committee to show the people that the money is being expended for the public benefit.

H. H. Dewar called attention to the orders of the day which announced the estate of Frank P. Boyle. He asked why it is not ready for distribution.

Premier Drury: I do not know whether the bill is printed.

"DRY" LEGISLATION HAS THE APPROVAL OF GOVERNMENT

Method of Introduction Leaves All Members Free to Act.

CHARGES OF QUIBBLING

Charged with quibbling, evasion and shirking government responsibility alike to the legislature and the county, Attorney-General Raney was put in a tight corner in the legislature yesterday. He refused to broaden out the answer declared unsatisfactory by the opposition members, to whom it was addressed. It is seldom such language is heard in a legislative body.

Major Tolmie (Windsor) called attention to newspaper statements about the government caucus, the temperance question and the consequent introduction of a bill and a resolution by private members.

The question I would like to ask, said Major Tolmie, is whether the government has any definite policy in regard to the temperance question, which is one of the most important before the house and the country, or whether the government will take the house into its confidence and make known its policy in regard to temperance.

Premier Drury: There are so many questions. As to export warehouses, is that one of them?

Major Tolmie made an affirmative gesture.

Premier Drury: That has been dealt with. As to the referendum on importation it is our wish to leave the house free to express the opinion of all the members.

Leave it to the House.

Major Tolmie: I may have failed to make my question understood. It is: Has the government any definite policy? Will the government take the house into its confidence?

Premier Drury: We have a resolution which will be introduced in the matter of the referendum, which we wish to leave to the house.

Howard Ferguson: A resolution and a bill left in the hands of private members. Are we to understand the government has delegated its responsibility to these private members?

Attorney-General Raney: I hope the house will understand what would follow from the resolution, notice of which has been given by a private member. It is in favor of a referendum in accordance with the Dominion act on the importation and bringing into the province of intoxicating liquors.

Another private member has a bill to stop "short circuiting" and prevent importation by persons or companies other than the Ontario license board. This bill would become effective if the referendum carries. But we want members of the house to be free in voting. We ourselves will be free in the opposition and we expect members on the matter side to vote as they see fit.

Howard Ferguson: That does not meet the point. I want the attorney-general to be frank about it.

Mr. Raney: The only answer will be the answer made. You can draw your own inferences.

Howard Ferguson: Mr. Speaker, that is neither frank nor fair to the house or to the country. Does the government take the position that it is not responsible for government measures? We want to know whether this is a government measure, introduction of a private member's introduced. I ask the attorney-general is he going to be frank to this house; and I say he must be frank if he is going to proceed with public business.

Mr. Raney: Neither the bill nor the resolution is a government measure. If either had a government measure been introduced by members of the government. As introduced, both have the knowledge and approval of the government.

Mr. Ferguson: The house is entitled to direct answers by the attorney-general and to be informed what the government policy against the late measure is. I ask the members show me what is the government policy.

Mr. Raney: The bill and resolution, were introduced with the approval of the government and I ask your ruling, Mr. Speaker.

The Speaker: The attorney-general's answers should satisfy the member for Grenville.

Mr. Ferguson: I must differ from you there, Mr. Speaker. (Laughter.)

Major Tolmie returned to the question as to what the government would not go so far as to accuse the attorney-general of quibbling; but he had failed to understand that the government has a policy on temperance.

Mr. Raney: I have no other answer to make.

DEBTOR'S WIDOW WINS OUT.

Justice Latford has dismissed the action brought by Fred M. Hawley, which he had brought against the late Havelock E. Hand, to have the transfer of certain shares in Bowles' Lunch and the Hamilton Brewing Association by the deceased to his wife, Jessica H. Hand, set aside and the stock declared part of the estate. Plaintiff alleged that the transfer was without consideration and with intent to defraud the creditors. The defendant, Mrs. Hand, denied fraud and averred that the stock was transferred for consideration.

SWIM TO ENGLAND? STEAMERS FULL UP

No Accommodation Before August Except Third Class New York.

EXPECT BIG IMMIGRATION

To book a passage by steamship to England at the present time is just about as difficult as trying to see German marks at par. All the transportation steamship lines in the city are practically booked up until the end of July. The C.P.R. Cook & Sons, the White Star and the Cunard lines have all their accommodation filled, whilst the Melville-Davies Company are booking as far ahead as November next. It is said, however, that plenty of third class accommodation can be obtained by way of New York to Europe.

These abnormal bookings are not those of aliens leaving Canada, but are mainly old country folk going home to see friends. It is estimated that at least 10,000 Torontonians will cross the Atlantic this season, but it is good news to hear the majority of them have purchased return tickets.

The Gubetsky Company and Rotenberg's, the two agencies booking foreigners, report that during the past few months over 2,000 aliens have returned to Europe and at the termination of the Canadian harvest they expect another rush to set in. On the other hand, reports state that these aliens who have reached Europe find conditions so unsatisfactory, that many of them are anxious to return to Canada.

It is impossible to obtain any definite estimate as to the number of expected immigrants from England during the coming season. The fact that steamship accommodation in Britain is fairly limited would indicate that large numbers of English and Scotch families are coming to Canada and a steady stream of immigrants may be expected as soon as the Quebec and Montreal gateways are open.

PUBLIC SCHOOL GIRLS TO EXHIBIT HANDIWORK

An unusual flutter was evident at the administration building of the board of education last night. In one of the rooms of the ground floor, women were tenderly opening cardboard boxes and parcels, taking from them little garments and various articles for household use, the stock making a gay and generous collection.

"We want to have them here to show to the members of the board tomorrow night," said Miss Margaret Davidson, superintendent of domestic art for the schools. "Afterwards we'll take them over for the Ontario Educational Association." Members of the O. E. A. which will meet in Toronto next week. The things that are to be shown are all the product of the girls of the public schools. Just an hour and a half a week is spent on sewing, but that they make good use of this time was more than evident. Pretty and practical dresses in chambray or print, smocks, one white embroidered in red and blue; grey flannel petticoats herring-boned in bright red; pinnies in pink and blue checks, a print suit for a boy, aprons, nightgowns initialed, and trimmed with tating or crochet, a layette for a baby, containing nice comfy wooly jackets and booties; towels, woolen scarfs, caps, bags—but why continue? "From the skin out," one of the women was heard to say, "a child could be supplied from the exhibit on view."

Two sewing machines are allowed for every twenty-four. The girls are even making their own hats, a number of drawings in the exhibit showing smart tailored chapeaux in rose and blue braids, but the hats themselves the girls could not be prevailed upon to send as they wanted to wear them "Easter." If there are any doubting Thomases left on the board in regard to domestic

science and household art they will surely be converted when they examine the display prepared for their inspection.

ONTARIO DONATION OF \$10,000 TO LAVAL

Reciprocation of Good Will Shown by Quebec Years Ago.

A grant of \$10,000 will be made by the provincial government towards the restoration of Laval University. This announcement was made by Premier Drury yesterday after Charles McCrea, Sudbury, had brought the matter up in the legislature as one of pressing public importance. Mr. McCrea reminded the house that thirty years ago when Toronto University was destroyed by fire, Quebec province, under the late Premier McCreer, unanimously, without request and wholly voluntarily, voted \$10,000. The recent disaster to the provincial university of Quebec was one wholly similar in character. The government should be prompt in showing sympathy and good will. Major Talmie, I am sure, Mr. Speaker, we are all desirous of showing our good will towards the people of Quebec. It is not only the proper thing to do from the standpoint of small things, but it is a thing that will help to create good will and better feeling between the sister provinces. (Applause.)

Premier Drury: I am pleased to say the matter has already been dealt with. I have here the correspondence covering the sum of \$10,000, which will be placed in the estimates for the purpose. (Applause.)

CAPTAIN OF MACASSA CAME HOME WITH THE HAT

Captain G. Corson once again wears the crown of honor bestowed by great Father Neptune upon those lucky enough to open navigation on Lake Ontario. This was accomplished by the S.S. Macassa, which was the first boat out of Toronto. There is some difference of opinion as to which of the two august cities, Toronto or Hamilton, should wear the crown. This is the sixth time that the S.S. Macassa has opened navigation during the past ten years. The genial skipper was crowned with the silk hat as he entered the automobile with Deputy Harbor-Master John M. Allen and other maritime dignitaries. Among those who assisted Captain Corson in his good work was Chief Engineer James F. Gunn, well known in both Toronto and Hamilton.

CLAIMS COAT WAS DAMAGED.

Claiming that her spring coat had shrunk too much in the process of dyeing, Mrs. Laughlin, 1178 Dufferin street, sued Langley's for \$57 damages. She complained that the garment was ruined, but Judge Mackson said unless there was a special contract that shrinking would not take place, the customer would have to take the chance. "Even a man's man knows that cloth always shrinks in the dyeing," said his honor.

Swift's Premium Hams and Bacon

A few slices of this mild, delicately-cured ham or bacon—cooked to a tempting brown—served sizzling hot—make a meal the whole family will enjoy. For Swift's Premium is outstanding in excellence: the Ham, because of its extra mild cure and juicy tenderness; the Bacon because of its succulent fat and enticingly flavored lean; and both because of their characteristic savouriness due to the exclusive Swift process of selection and curing.

Serve Swift's Premium on your Easter breakfast table and we know you will insist on this brand in future.

GOVERNMENT BILLS SENT TO COMMITTEE

Interpretation of Bill Governing Qualifications in Municipal Elections.

PROPERTY OWNERS VOTE. In the treatment of government bills the Drury cabinet lays small store upon miles of procedure.

In the connection with Mr. Biggs' bill to extend the right to vote at municipal elections, Sam Clarke urged the government to go the limit and give the vote to every one of the age of 21.

Mr. Haney interpreted the bill as meaning that whosoever the head of the family is entitled to vote every member of the family is entitled.

Mr. L. Brackin pointed out that the bill limits the franchise to members of families with property.

The president, Mr. Charles E. Steel, reported regarding negotiations with the provincial and Dominion governments to carry out the decisions of the convention.

He stated that several interviews had been held with members of the provincial government and the policy of the convention was disclosed.

At the evening meeting the whole question was fully discussed.

Wednesday, March 31, 1920. Harbor cars, both ways, delayed 6 minutes at 8:55 a.m.

College cars, westbound, delayed 12 minutes at 2:25 p.m. at Wellington and Bay, by wagon stuck on track.

FORT WILLIAM LIKE REST OF COUNTRY

Thunder Bay Junior Champions Light Lunch for Canoeist Kids.

Fort William Beavers. That sounds like activity, but the only life at the arena last night was the click of the buttons on the electric scoreboard as the goals scored by Toronto Canoe Club were switched on. Up in Fort William they think well of their juniors, so well in fact that they paid a large transportation bill and a nice bit to a Toronto hotel to let the Beavers have a crack at the Dominion junior title.

Fort William is another outlandish city. T. C. C. kidded the boys from Jack Adams' home town for a period, and they did a little work in the next. The result was 11 goals for the champions and one grain in the Fort William elevator.

There is nothing wrong with the Beavers. They are good kids but they are not in the same class with the big and clever Toronto team. The Fort William team were earnest checkers and worked the full route, but against a terrible handicap. The visiting team all have the hook, check down well, attempted some fair combination, but failed to play their positions. In Bennett they showed a calling good goalie. He stopped dozens and then in walked the penalties when they finally decided to get some tuffies, and a dozen Vozinas couldn't stop that tide. Adams, a brother of the pro players, was a good, chunky lad but the whole Fort William team fell down hard on their shooting.

T. C. C. just had a bit of fun with the visiting youngsters in the first period. They let them come in and made no effort to go to the other end to score. The score sheet was a blank for twenty minutes. The water in the rink didn't open up until the last dash, then ran in seven.

Only a small crowd was out, and there was nothing to even keep the few faithful from leaving a map. Toronto is about fed up on the winter pastime. The final was 11 to 1.

The teams: T. C. C.—Goal, Bennett; Defence, Bannett, Connacher, Defence, Bannett, Applegath; Centre, Frost; Forwards, Burch, Centre, Darcy, McCurry, Sub., Healey, Melchior, Sub., Adams, Thorne, Stronach.

Referee—Willard Box. Summary: First Period—No score. Second Period—1. T. C. C. Connacher 4.00 2. Port William Preston 1.00 3. T. C. C. Burch 2.00 4. T. C. C. White 1.00 5. T. C. C. Burch 1.00 6. T. C. C. McCurry 1.00 7. T. C. C. Applegath 1.00 8. T. C. C. McCurry 1.00 9. T. C. C. Burch 1.00 10. T. C. C. White 1.00 11. T. C. C. McCurry 1.00 12. T. C. C. Burch 3.00

STANLEY CUP FINAL. The fifth and deciding game of the Stanley Cup series was played at the arena tonight. Seattle's win at the western style of play on Tuesday made this game necessary to decide the pro world's honors, and tonight's game will under eastern rules. Ottawa, admittedly the best team in the east, found early in the series that the western champions can adapt themselves very nicely to the same game.

Tonight's game will be hard fought, and there was a large sale of tickets yesterday.

WAGHORNE WANTS NARROWER NETS. Lacrosse Amendments to Be Submitted at the Annual Meeting Tomorrow. The following is a complete list of the Ontario Amateur Lacrosse Association amendments to come up for consideration at the annual meeting on Good Friday morning: By W. J. Westwood, St. Catharines: That field captains be allowed in junior, juvenile and midge series, and that the constitution be changed accordingly. By W. Stephens, New Toronto Lacrosse Club: (1) That a player intending to play senior shall not be allowed to play intermediate, or if so allowed, that the number of players so doing shall be limited in any one game. (2) That the intermediate champions be allowed to challenge for the amateur championship. (3) That the question be decided as to whether a man living in a town having an intermediate team, or have the option of playing with the nearest senior team. By F. C. Waghorne, St. Simons L. C.: That the width of the goal nets be reduced from six to five feet. By Arnold M. Smith, West L. C.: That every team in every series shall be allowed to use substitute players to the number of three during a match, and a change of players may be made at any time by the substitute or substitutes. By Bert Booth, Orangeville: Amend article 5, as follows: Two officials, viz.: In all district, semi-final and final games (unless final be sudden death), the home team shall pay the visiting team ten cents per mile one way per man; clubs to pay their own hotel expenses for fifteen men. Amend article 15 in all district, semi-final and final games (unless final be sudden death), he who is eligible to play junior, shall be allowed to play as many games as he wishes in another association, but shall be able to play intermediate or senior if he so desires, but with the same town or club as he is first registered with. The position of players: Mr. Henning has also a substitute rule.

GAMES IN BRANTFORD. Brantford, March 31.—(Special.)—The amateurs will be well to the fore in this year. The Canoe Club, with 150 members, is trying to stir up the parks board to provide a resolution for the canoees owned here, guaranteeing a revenue of \$1500 a year, if they will issue a permit to the clubs. The organizers tonight took preliminary steps for the formation of a church cretakers' league, and the C.P.R. steamship exhibition games with nearby clubs. The Slingsby team has reorganized for the Big City Baseball League of Massey-Harris. Four Baseball League of Massey-Harris: Waterloo, Cockshutt and Verity, is assured. The soccer men are working on a league of eight clubs—St. John's, Paris, Galt, and five city teams. Soft ball is likely to continue to gain adherents, and shows how far they are behind the lack of action by the parks boards in providing playing fields, the ground is available.

FOUR FUNDAMENTALS FOR CITY GOVERNMENT

Bureau of Municipal Research Declares Such Are Necessary for Effective City Management.

TRAIN FOR PUBLIC SERVICE

At the sixth annual meeting of the Toronto Bureau of Municipal Research, held at the King Edward yesterday, four fundamentals in an effective city government were recommended for the consideration of the citizens. They were as follows: (1) Citizens active, determined and without axes to grind. (2) A city council courageous, public-spirited and able. (3) Heads of departments devoted to the public service, co-operative in spirit and practice, of sound and independent judgment, respectful and obedient but not subservient to the council and board of control. (4) A commissioner of finance far-sighted, with an eye single to the interests of the community as a whole, dispassionate in his judgment and inflexible in his determination to safeguard the city's and the citizen's interests.

Dr. Horace L. Brittain, the managing director of the bureau, said that Toronto has not 100 per cent. on all four counts, the best efforts of the citizens during the present critical period should be put forth to improve the score.

Train Public Services. In his annual report to the meeting, Dr. Brittain said that the only sure way to obtain reformation in city service organization or departmental efficiency was to form a training school for public service. Such a school, he said, should be able to combine and teach the theoretical and practical sides of public administration.

The bureau in the coming year, explained Dr. Brittain, is setting out to accomplish, amongst other things, a financial leadership for city financial proposals; that proper current expenses be charged to capital account and that the pay-as-you-go policy be rigidly followed. A further ideal is to put the accounts of the board of education on a proper revenue expenditure basis. John Macdonald, the president, said that some of the results of the year's interesting program of work had been published in the form of eleven white papers and two pamphlets. The election of officers for the coming year resulted in E. R. C. Clarkson, Leut.-Col. A. E. Gooderham and Joseph Henderson being elected as trustees; John Macdonald is again president, and W. J. Barr and J. P. Rogers, vice-presidents. In addition to members of the council who have either one or two years yet to serve, the additional gentlemen were elected to the governing body: Dr. Coombs, C. E. Blackwell, F. W. D. Broderick, W. A. Bucke, C. E. Edmonds, Oliver Hezlewood, Norman A. Howland, Gerard B. Strathy, W. G. Watson, Chas. F. Wheaton.

BARNARDO PARTY ARRIVES

First to come since the war, a party of 64 Barnardo boys arrived in Toronto yesterday after crossing the Atlantic on the "Sicilian." Ten girls were the party until they arrived at Peterboro where they were given in charge of the Girls' Barnardo Home in that city.

The boys appeared happy and well shortly before distributed among various farms. The girls will be trained for domestic service. It is reported that a new distributing home for boys will shortly be erected in Toronto, in memory of the 913 of the 6,211 Barnardo boys who fell in the war.

"What's in a Name?"

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel.

By MILDRED MARSHALL

TERESA

One of the prettiest of feminine names which for some reason has always been associated with France and yet is essentially English, is Theresa. It is one of the many feminine names which come from the harvest and its original source is a Greek word meaning to reap or gather in a crop.

The first to bear the name was a Roman noble called Paulinus. Both Paulinus and his wife were devotees of St. Jerome. The name Theresa had great vogue in Spain and is finally found as Teresa on a throne of lion in the tenth century.

The most noted Theresa appears in the sixteenth century when the Roman Catholic Church produced the remarkable saint of that name through the Spanish connection of the houses of Austria, the princesses of Spain and Germany were frequently christened Theresa.

In France it became Theresa through the Queen of Louis XIV, and Provence called it Terezon. The empress-queen added greatly to its fame her noble spirit winning all hearts by the famous cry: "Mourirai pro Rege nostra Maria Theresa."

St. Theresa, of course, brought it to England through the Roman Catholic religion, tho its vogue there did not begin until after the Reclamation. England also calls her Terry and Tracy. France makes her Therese. She is Theresa in Portugal, and Teresa and Teresita in Spain, Italy uses Teresa and Teresina, in Germany she is Theresa.

Theresa's talismanic stone is amber. It promises her good health, wards off evil spirits and warns of approaching illness by paling in color. Thursday is her lucky day and 3 her lucky number.

MODISH FABRIC HAT

BY LILLIAN M. SCOTT.

FOR certain piquant faces, nothing could be more becoming than the youthfulness of a fabric hat. One sees them everywhere—bataviae, taffetas and satins. A striking cutting hat is of linen embroidered with threads of purple, blue, gold, green and orange.

Ribbon hats, too, are fashionable and may be worn sans trimming or may be ornamented with flowers, tulle or lace.
