## A Newspaper Advertisement Probably Saved His Life

In December 1903 I suffered severely with pains in my kidneys and could not sleep nights on account of backache. I became run down, fell off in weight and was at that point when I thought I would have to stop my work as saw filer at the Cedar Creek Saw Mill Co.

I had used about everything and had called in my doctor, but all to no avail. After seeing your advertisement in the newspaper, I made up my mind to try Dr. Kilmor's Swamp-Root as a last resort. After three months treatment I passed a gravel stone and at the end of one year's treatment, I was positively cured of all kidney troubles. After taking the first bottle I could sleep at night.

Now I am perfectly healthy and I heartily believe Dr. Kilmor's Swamp-Root to be a thorough cure for kidney trouble.

I will allow you to publish this where I may aid others who are suffering and in closing I would thank you for my present good health.

## MORNING LOCALS

That reciprocity would benefit Canada was the decision of the executive of the Local Council of the executive of the day after hearing the arguments in the debate in the school room of Elmwood street church. Those favoring reciprocity were Wm. Lawton, W. A. Adams, and H. P. Goodrich, while the negative party were W. G. Drake, R. H. Erwin, and L. H. Sandall. The young ladies served refreshments. Chief Justice Tuck, Rev. H. D. Marr and P. S. Bonnell were judges. Miss Intranscendence, organizer for the Canadian Handicrafts Guild, will this afternoon give an illustrated lecture on the work of that body in the Natural History Society museum. There will be an exhibit of articles made by members of the Guild and it is planned that today's meeting will have much to do with the organization of a branch in this city.

At a meeting of the executive of the Local Council of the executive of the day, progress was reported in connection with the drafting of a bill to establish a juvenile court. It is hoped to get the bill through the legislature this session. It was decided to aid Miss Catherine Campbell in the formation of a branch of the Canadian Handicrafts Guild here.

St. John District L. O. L. will hold a social reunion tomorrow evening in their hall, German street. A programme of speeches and songs will be given, among those participating being Rev. H. B. Thomas, R. Dalzell, those composing the band of the circle were Ira Kierstead, Scott Herder, R. Dykeman, Fred Holder, B. J. Holder, and Thomas A. Black. The olio was composed of sketches, solos, monologues, banjo playing, and other numbers, in which those taking part were the "Caledonia Band," Messrs. Bond Bros., Frank N. Hamm, and Messrs. Bailey and Estey. W. H. Bromfield directed the performance very successfully. Roscoe Bond was accompanist. The entertainment will be repeated tonight.

## ALEXANDRA MINSTRELS

A large audience liberal with applause greeted the members of the Alexandra Minstrel troupe last evening in the Temple Building, Main street, and seemed very much pleased with the performance. Jokes, comic and sentimental songs and rollicking, sparkling choruses were the features of the circle. The men on the ends were J. C. Bond, Wm. J. Devenne, Allan Bailey, and W. H. Estey, with Hiram Taylor as inter-locutor, and they furnished some surprises which won applause.

The soloists were W. H. McEachern, Ford Dykeman, H. Taylor, H. Dykeman, and R. Dalzell. Those composing the band of the circle were Ira Kierstead, Scott Herder, R. Dykeman, Fred Holder, B. J. Holder, and Thomas A. Black. The olio was composed of sketches, solos, monologues, banjo playing, and other numbers, in which those taking part were the "Caledonia Band," Messrs. Bond Bros., Frank N. ## REV. MR. ROBINSON AND LUDLOW STREET CHURCH

The charges made against Rev. W. B. Robinson, pastor of Ludlow street Baptist church, are to be further investigated by the ministerial oversight committee. The latter met yesterday afternoon to inquire into the matter, but adjournment was made for about three weeks. Robinson was represented by A. A. Wilson, R. C. while H. J. Smith appeared for Capt. Crowley and Mrs. Maxwell. Capt. Crowley charges the clergyman with slandering his daughters and having them illegally removed from the church. Robinson charges preferred by Mrs. Maxwell are to be more serious.

Mrs. Robinson has returned to her husband's home, and reached here last week in company with her brother, Rev. Dr. Hoben, of Chicago University.

## MAILED IN THE MAKING

Have you ever noticed that half the troubles of the young housewife are of her own seeking? She will take the nice little cold turkey head on onion, hash it, mince it, stew it, spend as much as two minutes in turning it into a tough, colorless, over-salted or over-peppered dish. She is anxious all the time she is cooking it, most anxious of all, as the husband, upon whom she has wasted all her endeavors, tries to make light of the failure, and bites his tongue in an attempt to repress the wish that she had left the most costly and messy set it on a clean dish, with a sprig or two of parsley as garnish, and a bottle of H. P. Sauce as a condiment.

But young housewives are learning wisdom, hundreds are turning to them.

H. P. Sauce is in small and bigger quantities every where. It is coming back to its home, it is the home of the little family—cheap, healthy, and the housewives have learned that when the joint can no longer stand cold, H. P. takes all the responsibility of favoring off the shoulders of the inexperienced cook.

H. P. is a rich, thick sauce, not hot, but pungent and frisky flavored; it is made of the choicest tropical fruits and spices and pure malt vinegar.

When you must hash, or mince, or stew, just see for yourself what a difference is wrought in this delicious Sauce, but be sure it is H. P.

## HANDS OFF, SAY ST. JOHN CITIZENS; WANT NO ROYAL COMMISSION TO DRAFT CHARTER

Great Meeting of Taxpayers Vigorously Condemns Aldermen Who Voted to Give Away People's Rights—Ringing Demand from St. John for Home Rule

There is no doubt that the people of St. John are in earnest in their determination to bring about a better system of civic government by means of an elective commission, or that they are equally determined not to stand for interference with their rights by the legislature in the appointment of a royal commission to draft a charter. Last night's meeting in the assembly rooms of the Nickel Theatre was emphatic on these points.

By a unanimous vote, a resolution was adopted condemning the action of the aldermen in the common council who on Thursday last adopted the report of the bills and by-laws committee recommending that the legislature be asked to appoint a royal commission to draft a charter for St. John in the event of the people voting for the elective commission plan of government.

While the measure on Thursday last was adopted by a vote of eight to seven, it is interesting to note that letters were read at last night's meeting from the two aldermen who were absent—Aldermen Christie and Alderman Holder—stating that they had been present at the meeting and would have opposed the resolution which asked for a royal commission.

Despite the inclement weather, there was an audience that numbered in the vicinity of 600 or 700 citizens—all taxpayers and very much in earnest. It was one of the most representative gatherings that has ever been held in St. John to consider a public question, and all shades of politics and every walk of life in the city were represented.

W. H. Barnaby was elected chairman and he outlined the purpose of the meeting, which had been called in order that the citizens might have an opportunity to voice their protest against the action of the aldermen who voted to ask the legislature to appoint a royal commission to draft a charter for St. John. It was to their honor that seven aldermen voted against the measure, and he read letters from Aldermen Christie and Holder to the effect that had they been present at the meeting of the council they would have voted against the resolution which asked the legislature to interfere. Mr. Barnaby emphasized the fact that there were no members of the council in the city who were working for a royal commission, but all were working for St. John, first, and all the time for the city. Mr. Agar referred to the apathy regarding civic matters in the past, but said he was anxious to see the city improved.

He protested strongly against the proposal for a royal commission and said that in this respect St. John was lagging behind the other municipalities of the province. He hoped the meeting would unanimously condemn the action of the aldermen and that all would walk and vote for the elective commission plan.

Mr. D. Tilley made a ringing speech in the course of which he said there was a stronger feeling in favor of government by commission than in any public opinion for a long time. The majority of the merchants, professional men and the laboring men were in favor of the plan. He urged the meeting to adopt a resolution, were trying to sidetrack the scheme for a royal commission, and that the aldermen for Stanley ward was then trying to get members of the legislature to agree to the appointment of a royal commission in order to delay the matter. The speaker made some observations regarding the Standard newspaper, of which Mr. Agar and himself, as well as other men in the audience, were directors, and said the commission plan would win despite the opposition of that paper. Mr. Tilley stated that the matter in which the Standard had misrepresented him and said he did not mind criticism, but he did like to see things presented fairly and squarely.

In closing he asked all to vote for commission government at the election in April.

Timothy Donovan, of the west side, made a capital speech, keeping the aldermen in the line that there were no aldermen who were responsible for introducing a resolution asking for a royal commission into the council. "I would like to know," he said, "whose is the head that wears the helmet, and whose the hand that wields the sword?" He urged that a large delegation be sent to Fredericton to oppose the bill and said the legislature could not refuse the people.

**A Strong Resolution**  
E. L. Rising, seconded by Mr. Donovan, moved the following resolution:  
Resolved, That this meeting of citizens condemn in the most vigorous terms the action of the aldermen who voted for the appointment of a royal commission to draft a charter, and that the committee on the part of the executive of the day to every citizen city and the framing of which no outside influence should be permitted to control.

If by the vote at the coming election a new charter is required it will be the right and duty of the aldermen then elected to prepare such a charter and submit it to the legislature for final approval, we naturally expecting that the common council will, in the framing of this very important bill, seek the aid and advice of the best talent representing the various interests of the city.

We submit it was a gross breach of trust for those aldermen, with only a few weeks of office remaining, to attempt to vote away such an important right of the people who elected them, and to deprive their successors in office a few weeks hence of the right and privilege of carrying out the will and voice of the people.

Further resolved, That a copy of this resolution be sent to Hon. J. Douglas Hazen, Hon. Robert Maxwell, and J. E. Wilson and W. F. Hatheway, urging that they

use all their influence with the government and legislature to prevent the passing of this bill.

Mr. Rising said he felt the people's rights were being interfered with.

Rev. Dr. G. M. Campbell made a vigorous address condemning the idea of asking the legislature to do something that the people were quite capable of doing. He would give his support to a movement that would make St. John a better and more beautiful city.

The resolution was then carried unanimously by a standing vote, several aldermen voting with the rest.

Walter W. Allingham, president of the Trades & Labor Council, entered a strong protest against the action of the aldermen in taking away the rights of the citizens and criticized the common council for their delay in dealing with the transfer of the west side lots to the C. P. R. The majority of the laboring men, he said, were in favor of government by an elective commission and would vote for it.

D. F. Pidgeon added his protest to the action of the aldermen. He was interrupted by Harry McGoldrick, who asked when he had ever paid taxes in St. John. There was some confusion for a few minutes but Mr. Pidgeon expressed his willingness to reply and said he had been away from St. John for some eight years and returning a year ago had at his own request been placed on the assessors list and had paid his taxes last year. He predicted a two to one vote for commission.

Harry McGoldrick said he was a son of Alderman McGoldrick and he was opposed to the royal commission idea. He denied that his father was any more active than any one else in asking for a royal commission.

**A Hidden Hand**  
Col. A. J. Armstrong said he was so sure there was no politics in the commission plan that he was working for it all that he could. The royal commission proposal was the most villainous thing he had ever heard of. There was "a hidden hand" somewhere.

John G. Sperdake was committed for trial yesterday afternoon at the police court on a charge of stealing electricity from the St. John Railway. He was committed to bail for \$4,000.

## BLACK'S WIN FIRST GAME

### Bowling Tournament This Morning Saw Some High Scores—Victorias Not on Hand—Calais Coming, Though it Looked Doubtful

The bowling tournament for the Brunswick-Balke-Collender Company's trophy was begun this morning on Black's alleys, and was marked by a decisive win by the alley team, their opponents, the Marshalls, being defeated by 100 pins. The alleys were crowded with spectators and the game was marked by some pretty high scores. Kelly of the losing team emerging from the fray with an average of 103.23. In his first strike he scattered the hardwood floor for 20 and in his second and third string he rolled 85 twice. Tom Wilson of the alley team also had his bowling eye working and finished ahead of his team with an average of 97. He had one string of 111.

One regrettable feature about the opening of the tournament was the failure of the Victoria quintette to put in an appearance. They were to have played the first game with the Y. M. C. A.'s, but were not on hand. The Y. M. C. A.'s were present. Manager Black called the game off, and the Marshalls-Blacks game was played. Early this morning a letter was received from the Calais team stating they were unable to compete, as three of their men were sick. Things looked

Lies in the fact that the springs have always been considered the best style and fit for the up-to-date business store—Tobin Limited, 154 Prince William Street, St. John, Tel. No. 397.

### A TEMPERANCE CAMPAIGN

At a meeting held last evening at the Every Day Club last evening the organization to invite the temperance organization and other organizations to meet on Saturday, April 1st, to consider plans for aggressive temperance work in this city.

### ALDERMANIC RUMORS

It is stated that at the civic election, in Lorne Ward, Ald. Holder will be opposed by George E. Day.

### MISCHIEVOUS LADS

According to a lengthy report made by L. B. Pollockman, chief of three young fellows, Philip Troesky, Leonard Lavine, and one Harrington, were persistent in annoying him and others on Saturday in the Union Depot. The report charges them with snowballing passengers, trespassing on C. P. R. property and in the coachmen's shanty, tapping at windows in the waiting room and stealing coal from the I. C. R. yard. The case will come up on Saturday morning.

### IN FROM FLORIDA

The large three masted Paroshoer schooner Ekiblia, in command of Captain Richard Towler, arrived in port last night from Carrabelle, Florida. She is consigned to C. M. Kerrison with a cargo of pitch timber for Alderman Joseph Likely. Captain Towler reports a good passage, having left Carrabelle on March 10, and a run of twelve days. The vessel met with head winds and remained at Vineyard Haven for four days. She left there on Saturday night.

### LUMBER CARGOES

American schooner Harry G. Shepherd, Captain Patterson, cleared for Weymouth, Mass., with the following cargo: 58,884 feet spruce planks, 10,238 feet spruce boards, 180,000 feet spruce laths, 700,000 cedar shingles, shipped by Stetson, Cutler & Co.

### AMERICAN SCHOONER MARGARET MAY RILEY

cleared for City Island today for orders with the following cargo: 348,625 feet spruce deals, shipped by Stetson, Cutler & Co.

### MISS ELLA FRANCIS AND MISS TILLEY

sheers, aged 30 and 29 respectively, started out last evening to have a night's fun but were soon being escorted to central station by Policeman J. H. Ross, while her companion was also asked to accompany them on a charge of wandering about the street without being able to account satisfactorily for herself. This morning each was fined \$5 or two months in jail. They had been in a Chinese restaurant in Mill street in company with a man, but the latter had left them.

### TURNED BACK

An Indian and his woman, who arrived on the Halifax express this morning on their way to the United States, were held up here by the United States immigration officials and were not allowed to proceed. No reason could be obtained from the officials as to why the couple were held up. According to the story of the Indian, they were married a few days ago in Halifax, and intended going to the States to live. He claimed to have plenty of money and did not know why he and his wife were stopped. They spent the day in the city and will likely return to Halifax tonight.

## SWEEPING INQUIRY INTO ANTHRACITE COAL INDUSTRY

Harrisburg, Pa., Mar. 28.—(Canadian Press)—A sweeping legislative investigation of the anthracite coal industry in Pennsylvania is proposed in concurrent resolutions introduced today in the general assembly which has in view the enactment of laws for the protection of the public and the reduction of the cost of coal.

It is an indication that the investigation will be thorough, the committee is empowered to inquire into the relations between mining and transportation companies and the great banking houses which are said to be closely affiliated with them and which usually conduct their financial operations.

## FEAR SCHOONER WITH 138 ABOARD HAS BEEN LOST

(Canadian Press)  
Brisbane, Australia, March 28.—Cargo from the overdue interstate steamer Yongala, bound from Townsville to Mackay with sixty-eight passengers and a crew of seventy, was washed ashore today. It is feared the vessel has been lost.

The Yongala is owned by the Adelaide Steamship Company of Adelaide. She was built at Newcastle in 1905 and registers 1,825 tons net.

## TICKETS FOR THE DELEGATION'S TRIP TO FREDERICTON

Special excursion tickets for the trip of the citizens' delegation to Fredericton in the interests of the electric commission bill, are for sale at the drug stores of Charles R. Wasson, King street; A. Chipman Smith's and Hazen J. Dick's, Charlotte street. The special train will leave at 8 o'clock tomorrow, Wednesday, morning and the bill will come up in the house before the municipalities committee at 11 o'clock. It is expected that there will be very large delegations.

## SHELDON WAS ROBINSON, AN ABSCONDER

Pittsburg, Pa., March 28.—Awaiting his return to Montreal to face charges of swindling, Charles D. Sheldon, former blind pool operator of Montreal, is being closely watched for fear he will abscond.

His right name is Charles W. Robinson, and in 1905 he absconded from Brockton, Mass. with \$200,000. He was arrested in this city. He admits he is Robinson.

Montreal, March 28.—Chief McCoskell will leave for Pittsburg tonight to get Sheldon.

## TIME OF GRACE FOR PAYING TAXES OVER

Yesterday was the last day for paying taxes in order to qualify for voting at the civic election in April. The bill passed last year provides that taxes for the year preceding the election shall be paid with all arrears, in order for the taxpayer to have a vote. This year a bill was presented to change the day of election from the third Tuesday in April to the third Monday in that month, so as to afford an opportunity for commercial travellers who might come to the city on that day to have a chance to exercise their franchise. This bill has not yet been adopted by the legislature but it is expected it will be within a few days.

Yesterday and Saturday about 200 citizens paid their indebtedness to the city and will be in a position to cast their ballots on April 17. No estimate has been made by the chamberlain as to the number of qualified voters this year. Work will be started today in marking out the names of those who have not paid their taxes.

## MRS. C. J. WARD'S DEATH SOON FOLLOWS HUSBAND'S

It is just ten days since Mrs. Margaret Ward, of Marsh road, was plunged into deep sorrow at the death of her husband, Charles J. Ward, and today she herself passed away. Mrs. Ward was born in Pictou, N. S., and was a daughter of the late James Robertson. Besides an adopted daughter, she is survived by three sisters and two brothers—Andrew Robertson, of New Glasgow, N. S., and Joseph Robertson, of Pictou county. The sisters are Mrs. Robert Olding of New Glasgow, Daniel McCullum of Pictou Island, and Mrs. Freeman Johnston of Baynes, N. S.

The funeral will be held this morning at 2:30 p. m. from her late residence, Marsh road.

## BORN PICKED UP SHIPWRECKED MARINERS (Special to Times)

Halifax, N. S., March 28.—The Elder Dempster steamer Bornu from Mexico this morning, reports having picked up a shipwrecked crew of fifteen and three officers of the brig Callitones, on one of the Bahama Islands, where they had been for a couple of weeks. They were landed at Newport News.

## HEAVY RAIN DOWNFOUR

Although the present rain storm has been decidedly disagreeable to those out of doors, it is expected that it will prove a world of good to those interested in river navigation, as it will help materially in loosening the ice in the river and its tributaries and allow the lumbermen to start bringing their logs out. The rain started about 3 o'clock yesterday afternoon and up to 10:30 o'clock this morning a total of 1.5 inches had fallen. People found the walking very disagreeable. The gutters in some of the principal streets had not been dug out before the rain started, and flowed over the streets. The rain will do much good in washing away the ice on the roads, however, and melting what snow remained from the last storm.

As regards the ice in the river, reports are to the effect that it is still solid, but if the rain continues, and the probabilities are that it will, it would not be surprising to hear that breaking-up had begun.

New York, Mar. 28.—There are yet 29 of Saturday's fire victims unidentified.

## HAD HARD TIME TO GET TAY OFF THE LEDGES

Present indications are that the schooner Tay, recently towed into Rockland, Me., will be a total loss. It appears that the schooner is in a bad way, the pounding she received on the Isle au Haut ledges in Pembroke may render repairs almost of the question.

Captain McIntyre, her owner, who left for Rockland last evening will have a more careful examination made before deciding definitely. It was after three attempts that the revenue cutter succeeded in floating the Tay. Capt. Broadbent, of the cutter, said he first sighted the schooner

grounded on Isle au Haut at 10 a. m. She had run ashore about half an hour before. The cutter sent a hawser to the schooner immediately, but after several pulls it was found the falling tide would not permit floating. With the rising tide at 3 p. m., pulling was again resumed and the schooner was floated, only to run aground on another part of the ledge with such force that the hawser parted. Another and a heavier hawser was run out to the Tay and the subsequent hauling brought the schooner into deep water.

#### LAST NIGHT'S MEETING

There was no mistaking the temper of the audience that crowded Keith's Assembly Rooms last evening. Rain and alshy streets were no deterrent when there was work to be done, and these hundreds of voters were in deadly earnest. The civic campaign for better government gains force as it proceeds, and the attempt of eight aldermen to deprive the citizens of the right of local self-government has roused people who perhaps had not yet fully made up their minds as to the merits of the elective commission plan of government.

The St. John Standard and the "hidden hand" behind it came in for some hard knocks, and among the gentlemen who felt constrained to repudiate that paper's views and denounce its gross unfairness were two of its directors. No newspaper in the whole history of St. John journalism has ever been more thoroughly discredited; for even those who would prefer to remain silent rather than criticize it are compelled to denounce the Standard's course in relation to civic politics. The case of the Standard, however, is hopeless. In today's issue it features the speech of Mr. McGoldrick jr., as in its view the most important delivered at last night's meeting. In its headlines it names only two speakers, Mr. Agar and Mr. Donovan, a fact more significant than perhaps appears on the surface. Also it gives space to another long letter whose author does not sign his name, but who continues the foolish effort to convince Standard readers that there is federal politics behind the movement for better city government.

Last night's meeting was a remarkable outburst of public indignation against the course pursued by the eight aldermen who voted for a royal commission. One more step is necessary. The delegation to Fredericton tomorrow should be so large and so representative as to convince the members of the legislature that the citizens are thoroughly aroused over this matter, and that an agitation has been begun which will not cease until St. John has a better system of government. This is no passing outburst of dissatisfaction, but a campaign that has behind it the solid strength of the people. The business interests, the labor interests, the professional men—all classes and all parties demand a change. The little group which controls the utterances of the Standard and the votes of certain aldermen has played a clever game, but has over-reached itself.

There can be no doubt that some members of the legislature have been approached and assured that this is merely another of the passing protests of St. John people who do not know what they want. Other members have been told that if this commission plan of government is defeated it will help one of the political parties. Every artful device has been employed to secure at Fredericton what cannot be secured in St. John. Hence the delegation to Fredericton tomorrow should be of the convincing sort, both in numbers and in its representative capacity.

The citizens ought to know where their own representatives in the legislature stand in regard to this matter. There have been rumors and hints that are not reassuring. Any attempt to play the game of politics in this matter will be sternly resented by the electors of St. John. They want local self-government and the elective commission plan, and will fight till they are assured of both.

One of the surprises of the civic campaign is Mr. D. F. Pidgeon. As a clear and convincing speaker, as a man capable of taking care of himself on the platform, and as an organizer Mr. Pidgeon has displayed great capacity and excellent judgment.

#### ALCOHOL AND EFFICIENCY

The last word of science concerning the effect of alcohol upon the human system is that it reduces the efficiency of the individual. The man who abstains entirely from alcohol can do more and better work than one who drinks, even in small quantities. In this age of keen competition no more potent argument for total abstinence can be presented to the young man who has ambition and a desire to succeed in life.

Prof. Graham Leak of Cornell, a distinguished physiologist, discusses this question in the Popular Science Monthly, and gives facts which prove the truth of the above statement. We quote a portion of the article, which should be given the widest publicity:

"Alcohol has a profound effect upon the central nervous system. There are two theories with regard to its action. By some it is considered a stimulant, by others it is thought always to cause depression. Small amounts of alcohol may bring about an increased sense of liveliness and a general feeling of well-being which is most pronounced when the lights are bright, and the company congenial. Larger quantities induce incoordination of speech and movement, whereas still larger quantities result in complete anesthesia which may be fatal to the individual. For the first few minutes after taking alcohol, it has been found that a larger quantity of physical work may be performed. This is followed, however, by a period of depression during which the quantity of mechanical energy which may be expended by the individual is greatly reduced. The sum total of the effect is very decidedly to reduce the amount of mechanical work which can be accomplished during the day. It is on this account that alcohol is no longer given to soldiers on the march in the hope of increasing their endurance. The actual result would be quite the contrary. Experiments regarding the action of the brain after taking alcohol as compared with its action before taking alcohol have been made by Kraspelin. Type-setters were used as subjects. It was found that those who had taken alcohol made a greater number of errors and worked less rapidly than those who were abstemious. Kraspelin has found that this effect lasts as long as twenty-four hours after alcohol has been taken. Curiously enough, those who had taken alcohol thought they were doing their work to better advantage than those who had not."

#### CIVIC SPIRIT

The city of Springfield, Mass., is cited as an instance of a city whose people display a civic spirit of the sort that makes for progress, the betterment of the city, and the general welfare. We quote from an exchange:

"The rest of New England sometimes wonders what it is that gives the handsome city of Springfield such marked civic spirit; what makes its people so proud of it and so determined to develop its resources both esthetic and material. The mystery is not very deep, however. For instance, there was opened last Saturday in Springfield a new million-dollar hotel, a splendid affair, modern to the last degree, luxurious and beautiful. That in itself is something of an achievement for a city of Springfield's size, but the lesson it carries is far more important. For the capital that made the hotel possible was raised at home; the house was built by a home architect, erected by home contractors, decorated by home artisans, completely furnished by home merchants and is managed by a home hotel man.

"Springfield believes in spending its money in Springfield. Therein lies one of the secrets of its notable rise into the ranks of enlightened and successful municipalities."

All on board for Fredericton.

The movement in favor of juvenile courts should be heartily approved in St. John.

ALL ON BOARD FOR FREDERICTON

Mr. McGoldrick, jr. is quite right. The "hidden hand" is not the hand of the alderman from Stanley ward.

That walk-over in York has become one of the hottest races Mr. Hazen has heard about for some time, and his candidate is showing signs of distress.

There is a revival of the agitation to have Mr. Borden deposed from the leadership of the Conservative party. It is obvious that a party which is not satisfied with its leader is not in a position to appeal to the people with any hope of success. Having made reciprocity a party question, Mr. Borden and his advisers have hopelessly split their party, and now there is a revival of dissatisfaction with the present leadership. The more the Conservatives quarrel among themselves the less influence their frantic appeals in regard to reciprocity have upon the public mind.

## IMITATION COUGH CURES

is an Imitation Cough Medicine. Good Enough for Your Children?

When you are sick and see for the doctor you don't want him to send a young medical student to examine you. You would rather have the young fellow experiment on somebody else's imitations of the medicine you know to be of proven value in the cure of disease.

The remarkable success of Dr. Chase's Syrup of Limes and Capers in the cure of croup, bronchitis and colds has proven too great a temptation to imitators. They expect you to take chances with their medicines because the price is a few cents less.

Imitations are never sold on merit, but depend on the merit of the article they imitate. You don't want to be experimented on, and for this reason will insist on seeing the portrait and signature of A. W. Chase, Dr. the famous Receipt Book author, on the bottle you buy.

As it is made of simple ingredients of proven value, it is well suited for use as a treatment for children. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and colds is attested by its many years of continued success in the hands of all dealers or Edmondson, Bates & Co., Toronto.

Beware of Counterfeits

Ottawa, March 27.—There are counterfeit bills of the Bank of Montreal, of the denomination of five dollars, somewhere in circulation to the amount of \$5,000. Notice to this effect was sent out yesterday by the bank to the principal commercial establishments. It would appear from the warning that the counterfeiters are of the series number 229,707.

## Could Not Walk Ten Yards Without Resting.

WEAK HEART WAS THE CAUSE.

Mrs. Robinson Collette, Roseville, N. B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart and was afraid to draw a long breath for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills for they are the greatest pill I have ever used and I can recommend them to all sufferers.

Thousands of people go about their daily work on the verge of death and yet do not know it.

Little attention is paid to the slight weakness of the heart for the simple reason that one thinks it will right itself, but there is where the mistake is made. It is only when a violent shock comes that the weakness of the heart becomes apparent.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, the use of Milburn's Heart and Nerve Pills will soon produce a quick and permanent cure.

Price 50 cents per box, or 3 for \$1.25. At all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Military Drill and Physical Training**  
 Judging by the numerous enquiries being received by the local secretary of the Summer School of Science at Fredericton, respecting the courses to be given in these two subjects during the coming summer, it appears that some confusion regarding them exists in the minds of many teachers. The course in military drill is for males only, and is open to teachers or prospective teachers who wish to qualify themselves for the organization and instruction of cadet corps. The course lasts six weeks and takes up the whole time of those who enter upon it. The course in physical training is open to teachers of both sexes, and consists approximately of thirty lessons of one hour each, spread over three weeks. At the conclusion of the course, a certificate is granted by the militia department. The chief superintendent of education announces that in order to obtain a teacher's license in this province, it is now necessary to have this certificate. Also, that after the end of the present year, all teachers must possess it to obtain advance of class, and, further, that at the end of four years from the same date, all schools must provide Physical Training by qualified teachers. The Summer School of Science affords an excellent opportunity for teachers who wish to obtain this certificate, and at the same time to qualify themselves for better positions in their profession by improving their knowledge in other subjects by means of the classes offered in Science, Nature Study, Drawing, Literature, Handwork, etc., from July 13 to August 2 at Fredericton. Application for admission to the Military Drill course should be made to the Chief Superintendent of Education, and for the Summer School of Science to the Local Secretary, Fredericton, N. B.

**PART II.**  
**SHOULD A GIRL TELL A MAN?**  
 DON'T you think, the woman who goes to a man without confessing runs a greater risk of losing him after the marriage than if she had told him everything? If a man couldn't forgive then, he surely couldn't when he found he had been deceived and he would surely find it out. "I am a woman with something to confess. I came to the city alone when I was seventeen, believing in the same moral standard for men and women, and that a high one. I was thrown much in contact with a certain college student, and in time came to care very much for him. We had the usual student understanding that when through college, if we still cared, we would be married." Follows a pitiful story of a man playing on a woman's affection for him and fear for his physical safety to work her downfall, and then "We were separated soon after this and no longer hear from him as can be expected. "Every cloud has a silver lining." I've been telling you about my cloud and now I want to show you my silver lining. I don't consider my life ruined and I used to pass over suffering lightly, I cannot now. But most of all my heart goes out to the woman who has fallen. Now I know that if a man loves a girl he will protect her even against himself, and because I know the horror of the one kind of love which many mistake for the real and beautiful. I want to be worthy of being the mother of my husband's children and when temptation comes my way I think of that and it helps me."

"It isn't the losing of one battle that loses a country the war. It is giving up the fight and it's just the same with life. I don't consider my life ruined if she makes one mistake. It should be said about a woman's life being ruined if she makes one mistake. "I am twenty-three now, surrounded by friends who believe in me, and am often spoken of as the girl who is always happy: "Someday if I love someone who loves me I can make him just as good a wife as if this had never happened. I shall tell him. If he can't forgive me I shall be glad I told him because I shall not have deceived him, and I shall know that he does not care enough for me. I will lose him but I should have lost him anyway and far better before marriage than after. "Please tell the man that I am so, so sorry it happened, but that she must make the best of it."

**BILLION DOLLAR ARGUMENT IN CANADA'S FAVOR**  
 More Than 500,000 U. S. Farmers Have Carried Belongings Worth That Across Border in Nine Years

Arthur Stringer, the Canadian author, has an article in the April issue of Hampton's Magazine, on sale March 28th, which is significant at this period, pending the convening of congress to take up again the matter of reciprocity. In the article, which is headed, "If Canada Should Come In," Mr. Stringer tells how an Idaho farmer walked into the office of the commissioner of immigration at Winnipeg a year ago, saying that he was a stranger in that section, and turning over to the commissioner his old wallet containing \$25,000, while he went to get a land claim located. The commissioner accepted the money as merely an incident of the day's work, for the commissioner had come to know certain things. As Mr. Stringer says: "He knew, for instance, that more than one hundred and twelve thousand figures strangely similar to the one who stood before him had in one summer, loaded, all ready across the international boundary into Canada. He knew that each man had brought with him, on the average, five thousand cash and some land. He knew that the amount of over three thousand dollars. He knew that in that same summer, on the train crossing into Canada from the United States, settlers from the western states carried in with them two hundred and fifty thousand dollars in actual cash. "He was also ignorant of the fact that in this same city of Winnipeg where he stood, two hundred of the larger business houses were paying their hands with money that came out of an American pocket-book. It did not greatly disturb him, for he knew that Winnipeg could take care of its own. He had seen it, thirty years ago, from a little Red River fur post to a city of two hundred thousand, an asphalt paved, scrupulously many parked and boulevarded metropolis with twenty-three chartered banks, a municipal electric power plant with a capacity of 80,000 horsepower, municipal quarries and even a municipal asphalt manufactory. "He had seen it grow into this city, which it had inspected over eighty-eight million bushels, and such being the case, he regarded it as only natural that this same city had, during that same summer, shipped six-hundred steam plows into a capacity colony of Canadianized American farmers, to be used in breaking the virgin prairie. Each one of those plows was able to break one thousand five hundred acres of land, and that meant nine hundred thousand acres for the lot. And from the land allowed for the low average of even twenty bushels to the acre, would spring eighteen million bushels of wheat—wheat, ordinarily wheat, but wheat which grades highest at the markets and sells quickest at the mills. "No. 1 Canadian Hard" wheat. He also knew that over five hundred thousand American farmers had crossed the border during the winter movement was spreading and gathering momentum. He knew that they carried with them the largest collection of Canadianized American farmers close to the billion dollar mark, and that this depletion of money invested from the land of the free in Canadian stocks and bonds. "He knew many other things, for it was his business to do so. He knew why these Americans were coming into Canada, and he knew the nature of the country into which they were coming, the possible wheat belt of what the rest of America had been wont to regard as 'The Frozen Zone,' aggregated an area of one hundred and eighty million acres. Of that great area only a little over six million acres are now actually under cultivation. The great remainder lies either virgin prairie hungering for the plowshare, or fertile coales and valley lands awaiting the advent of man. "There is a new-found American friend doubted this, he could have turned to his map and pointed out to them the Mackenzie Basin alone, rolling from Great Slave Lake right up to the Arctic Ocean. He could have shown that this vast watershed, second only in magnitude to that of the Mississippi itself, was made up of one million, one hundred and twenty thousand square miles, constituting a country about nine times the size of England and Ireland. "This is what the Canadian senate committee reported, after scientific examination. "Within the scope of the committee's inquiry there is a possible area of 350,000 square miles fitted for the growth of potatoes, 407,000 square miles suitable for barley, and 816,000 square miles suitable for wheat. There is a pastoral area of 800,000 square miles, 26,000 of which is open prairie with occasional groves, the remainder being more or less wooded. Japanese ashies are worn with Parisian frocks.

"I use Baby's Own Soap every day and my skin is delightfully soft, white and smooth, and my complexion is beautifully clear." It is impossible to make a better soap than "Baby's Own"

But get "Baby's Own" and do not accept any soap that only resembles it and which is made as cheaply as possible to look as nearly like "Baby's Own" as the law permits.

**DOMINION POLITICS**  
**Is Borden to Resign? Proceedings in House of Commons Yesterday**  
A story emanating from Montreal was printed in the Toronto Telegram yesterday to the effect that R. L. Borden intends to resign the leadership of the Conservative party in the near future. There is known to be much dissatisfaction over his leadership in Quebec, and in the west it is said that they want either Premier McBride or Premier Roblin. The west is not pleased with Borden's stand on the reciprocity agreement, while the eastern provinces are said to be favorable to Mr. Borden as leader.  
In Ottawa yesterday, Hon. W. S. Fielding produced many letters and memorials from farmers in the West in which they stated that they heartily endorsed the reciprocity agreement. The secretary of the Grain Growers' Association of Canada wrote that if the question of reciprocity were put to a direct vote it would win five to one.  
During the session of the house at Ottawa yesterday, Hon. L. P. Brodeur brought in a bill to amend the Canada Shipping Act. An important provision is that all seagoing vessels must take pilots for the St. Lawrence, the St. John and the Minas Basin pilotage authorities. In the case of coasters, if their draft is 10 feet or upwards, they must either take pilots or have their officers qualified to act as pilots.  
Mr. Fielding announced that the Banque de Canada would be changed to the La Banque Internationale De Canada. Sir Wilfrid announced that the application of the United States government to send another cruiser up through the canal to the Great Lakes had been refused, and that an application had later been made to substitute a war vessel for one of those now on the lake.  
Mr. Foster brought up the bill usage of a Canadian woman, who was turned back at Black Rock by American immigration men.  
It was stated that the total amount paid by the government in steel and iron bounties had been \$17,119,651. Mr. Crockett was told that 25,500 square feet of land in Moncton had been acquired by the I. O. R., and that cost \$150,000 to build a spur to the public wharf at Petit Rocher. The house then went into session.

**PUSS LOSES MOUSE BUT FINDS \$875**  
A cat at Fort Plain, N. Y., chased a mouse under a footstool in the home of Henry Karg. The cat squeezed part way under the stool, then thrust its paw up into a hole in the bottom of the stool. Presently came the paw without the mouse, but with a \$800 bill sticking to one of the claws. The members of the Karg family at once suspended housekeeping to explore the hole in the footstool. In all \$875 was found stowed away in the stool, which had been known around the house ever since the death of Grannie Karg on Feb. 25 last. She was known to have been of a saving disposition, but she died so suddenly she had no chance to reveal where she had stored her hoard.  
Part of the treasure trove is to be spent on a monument to Grannie with a carved footstool on it.

Weekly Roll Off.

The weekly roll off on Black's alleys last night was won by Archie MacDonald, with a score of 197. The prize was a silver butter dish. The tournament will open this morning at 10.30 o'clock, with Black's team playing the Marlshons. The Victorias have withdrawn their entry, consequently all games with them are off.

On St. Peter's Alleys.

A game arranged between a picked team called the Starlights and the Knights of Columbus, was rolled in St. Peter's alleys last night for the fun that would be in it, there was plenty. The picked team won handsily, as follows:—

**NEWBRO'S HERPICIDE**

**Fools the Calendar**

Don't look older than you are. It is just as easy to look younger. While lack of hair or poor hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years possessing a good head of hair is always spoken of as "well preserved."

Everyone can retain the youthful, abundant hair if they make use of Newbro's Herpicide every instance poor hair or loss of hair may be traced to the activity of the glandular system. Herpicide is a perfectly healthy condition of the hair no longer drops out. The itching of the scalp stops almost at once.

Newbro's Herpicide is the original remedy for which there are many substitutes, preparations claiming to be "just as good." You don't have to accept a substitute. Insist upon having genuine Herpicide.

For sale by all druggists. Applications obtained at good barber shops. One-dollar size bottles are always guaranteed. Send for in postage to The Herpicide Co., Dept. R, Detroit, Mich., for sample and book. E. Clifton Brown, special agent.

**ANOTHER JOINT DEBATE**

Fredericton, March 28.—There is to be another joint debate on the Valley railway question in the Opera House here on Wednesday evening, between P. E. Carvell, M.P., and Hon. J. K. Flemming.

Mr. Struckoff—"That there sculptor fellow says he's going to make a bust of Mrs. Struckoff's Henry. It's just terrible the way you do talk; 'bust,' 'not bust,'"—(Philadelphia Record).

**SAFETY BOARD BUSINESS**

A short session of the safety board was held last night, at which only routine business was transacted. A communication was read from J. G. Harrison with reference to some city property on Malaguony road which he wished the council to put a price on. This was laid on the table for further information.

The chairman and Ald. Potts were named a committee to see Miss Beattie De Roe with reference to some land which was being offered to the city adjoining No. 1 engine house.

Policeman Fred L. O'Neill was granted half pay as was Sergt. Hastings, for time lost through illness, and Policeman Totten full pay as he was injured while making an arrest Feb. 27.

It was decided to grant renewals of a license to P. E. Williams for lot 1044 in St. John street, Brooks ward, and Grenville Sullivan of lots 474 and 475, Brooks ward.

The chairman with the director and the six city aldermen were appointed a committee to look into a request by the municipality of Lancaster for leave to lay a sewer through certain lands belonging to the city.

An application from L. G. Crosby for the lease of land lots near Courtenay Bay was, on motion of Ald. Potts, filed, on the ground that he understood that Mr. Crosby had secured land from Mr. Magee.

The director was authorized to procure half a dozen alarm bells for No. 2 Salvage Corps, and to change the single horse hitch on the Carleton ladder truck to a double horse one. Chief Kerr said that with the assistance of the district engineer he was drawing up a new running card for the department.

Samuel Miller wrote, asking for the lease of ten feet of lot 17 in Prospect street, Fairville, for which he offered 40 cents a foot. H. E. Merryweather had an application in for the balance of the lot, offering 80 cents. The director recommended that leases be issued, provided that Mr. Miller was willing to pay 80 cents a foot and Mr. Merryweather 80 cents.

J. King Kelley, county secretary, Ald. McGoldrick, H. M. Hopper, F. R. Taylor, and P. W. Thomson left for Fredericton last night in connection with the Hydro-Electric bill now before the legislature.

**TWO WONDERFUL CURES**

**Zam-Buk Heals Terrible Injuries**

Just think of a little fellow of two years burned so badly that the flesh peeled off! That was the case of the two-year-old son of Mrs. A. Peters, of Wilton, Ont. The little one's arm, from his hand to his shoulder, was terribly burned, and the tendons and muscles of the arm badly injured. He received medical treatment, but the shocking burn did not permit ordinary treatment. For long it was hoped the arm would grow better, but it seemed in vain. The family at last turned to Zam-Buk and note the result. Mrs. Peters says:

**NICKEL**

The thousands who braved yesterday's unpleasant elements to enjoy the Nickel programme appeared particularly well pleased. The combination of motion pictures and Verdi's music in presenting the superb operatic story, Il Trovatore, worked charmingly and a treat as rich as it was novel awaited. The film was one of Pathé-Freres' exquisite art productions, hand colored and magnificently staged in the open air. The players were renowned Parisians. Special Il Trovatore music was furnished by the Nickel orchestra, under A. E. Jones' leadership, and from the specially arranged score supplied by Keith's orchestra in Boston. Today the Il Trovatore feature will be shown for the last time, and those who really like operatic music and stories should not fail to see and hear it. In addition to the special feature the Nickel presented an exceptionally fine Indian western film, The Lost Ribbon, by the Kalem Co. The scenic embellishments of this picture were grandeur itself. Edison's farce, The Try-Out, a theatrical skit, seemed to please everybody. Those who prefer comedy in reading Hawley's Because I Love You Dear, appeared to better advantage, it seemed than in any of her former numbers. It was a straight love lyric, admirably suited to her voice and extremely melodious. Jack Morrissey caused a lot of feet-shuffling and fun with his Band, Band, Band song.

GRIEF STRICKEN IMMIGRANT HANGS HIMSELF IN SAND POINT IMMIGRATION BUILDING

His Wife Held Because of Eye Disease, Unable to Continue Journey to Join Son in New Home in States, Ludwig Lorenz is Found Hanging Dead to Hook Over Door

Grief stricken and melancholy because of the long detention of his wife here—she was suffering with a disease of the eye—Ludwig Lorenz, aged fifty-five, a Russian German immigrant, committed suicide by hanging in the immigration detention building at Sand Point at an early hour this morning. He was found suspended by a rope from a hook over the door to the lavatory. Michael Ganey, night guard, found him early this morning, and life was extinct.

The circumstances surrounding the affair are pathetic. Leaving the home in far away Southern Russia to come to the new home made for them by a son in the United States, the aged man and his wife were on the last stage of their journey when it was discovered that the grey-haired mother was suffering from a disease of the eye. As both Canadian and American officials are stringent in prohibiting the admission of people suffering from this disease, the old people were detained by the immigration officials. They were accompanied by several relatives, among them, Alexander, and he, on account of the circumstances of his brother in the States, was allowed to proceed. This was the first hardship—the parting of the young man from his father and mother.

The Lorenz family landed here on January 10 on the C. P. R. liner Montezuma from London and Antwerp, and they have consequently been here more than two months. Mrs. Natal Lorenz, for that is the name of the wife of the dead man, has been under treatment, both in the General Public Hospital and the Detention Hospital in West-St. John and it was believed was making satisfactory progress. The old man tried to make the best of matters and those about the immigration shed say that he was always pleasant and seemed to be more than willing to be of any assistance he could.

See Wife for Last Time He was referred to as "the old man." He could scarcely speak a word of English, but would smile genially as he listened to others about him in conversation. It had been noticed, however, during the last few days that he was losing his brightness. On Sunday he expressed a wish to see his wife in the Detention Hospital, and a guard took him there. They conversed for some time, but apparently the sight of his partner of years awakened a fresh anguish, for at last he was quite overcome and indicated that he was feeling badly. It had not occurred to those in the building, however, that the man contemplated taking his life.

There can be little doubt that Lorenz, away from wife and home, and among strangers, felt discouraged at the enforced stay and possibly feared that his hopes for a reunion of the family would be blighted by the deportation of himself and wife to their former home.

When night guard Michael Ganey was making his final round he made the awful discovery. Coming to the lavatory door he was horrified to see Lorenz suspended by the neck on a stout rope from a hook over the door. He cut the rope and took the limp form down. Though the body was quite warm, life was extinct.

Determined to Die As showing the determination to end his life the dead man's knees were almost touching the tiled floor when he was found so that it must have been necessary for him to raise his feet clear of the floor in order to accomplish his purpose.

Ganey notified his other guards and Canadian Immigration Agent J. V. Lantieri and Constable Kenney were advised of the occurrence. The coroner decided to hold an inquest at 3 o'clock this afternoon.

Were Going to Chicago The detention of the elderly pair was at Westwood Park, a suburb of Chicago, where their son, August Lorenz, is comfortably located. The latter has kept in touch continually with the immigration officials here. Chief U. S. Inspector Harrison said this morning that the man had no reason to brood over his circumstances, because the American government officers here had made the case a special one in view of the extraordinary circumstances and ability of the son in Illinois to take care of them.

Ordinarily, Mr. Harrison said, cases of this kind are deported at once by both the Canadian and American officials, but efforts were being made, with, he believed, prospects of success, to cure Mrs. Lorenz so that she might go forward.

On the day of Lorenz's death he was found in the vicinity of \$200 or \$300 in foreign currency.

ALLEN UNDER ARREST IN THE RAILWAY TOWN

Vagrancy Charge Against Former St. John Man—Ticket to this City Given Him Was Sold

A Montreal special despatch to the Times says:—John Allen, aged 30, who came here from St. John several months ago, to undergo arrest on a vagrancy charge. The police allege that Allen has been idle during the whole time since coming to Montreal and went about telling large lies, getting money from several citizens.

Montreal gave him a ticket to St. John, but this was sold and went into the general fund. He will be brought before the magistrates tomorrow.

It is believed to be little doubt that this is the man who was convicted in the circuit court here on four counts of getting money under false pretences, was thereby liable to twelve years in the penitentiary. He was allowed his freedom on suspended sentence.

A later Montreal despatch says that Allen was given six months' sentence, but that it would probably be suspended.

Policeman Wiltrien Answers Statement of Youthful Prisoner Accused of Breaking Into Stores

The case against Arthur Connelly alias Ryan, the fifteen year old boy charged with theft from the stores of T. Collins & Co., E. Wilson and O'Neill Bros, was dealt with this morning in the police court. John Cusack, an employee in the store of John E. Wilson, said that on Saturday he locked the rear door of the place and on returning on Monday morning found it open. The young prisoner, he said, had been working about the store as parcel boy for a few weeks.

Alurray W. Baird, a bookkeeper with Mr. Wilson told of having a revolver in his cash drawer in the store and of missing it on Monday morning. The drawer had been opened.

Policeman Wiltrien said that he first saw the boy between 12 and 1 o'clock in Sydney street; after he had been told that a light had been seen in Mr. Wilson's store. He saw him again about an hour later and arrested him.

On a, and I saw him too," the prisoner called out, "he was going down King street with a girl; just about the time he arrested me."

Wiltrien said that this was so, and explained that a young woman who was employed in an up-town restaurant had requested him to act as escort down King street as she was "rather timid." At Germain street he left her as his best ended there, "but watched her until she was safely out of sight."

Frank Ledford, gave evidence bearing on the theft of some keys from the store of T. Collins & Co., Wilfred McMann told of the store of O'Neill Bros. on North Market street being broken into and a staple being taken from the door.

On a, and I saw him too," the prisoner called out, "he was going down King street with a girl; just about the time he arrested me."
