A MODEL MACHINE! FOR SEPARATING DUST FROM CINDERS.

This machine needs no shaking, as it is self-acting. The pan can be taken from the stove and emptied into the machine, and in an instant can be caught below in the same pan, the dust falling into the box below. It can be stood in the house, as there is no dust, and is also fireproof. There are already hundreds of them in use, and they are recommended by all that have them. It can be seen

PREFACE.

In presenting to our patrons our second Directory of St. Catharines, Merritton, Port Dalhousie and Thorold, we hope it will meet with their approval. A thorough canvas of them has been made, and every effort used to obtain the name of every person who should be represented in the Directory.

Mistakes will occur, but we are confident that no more thorough canvas of the City and Towns has ever been made.

The Classified Business Directory is a complete mirror of the business interests of each, and represents them to the outside world only as a Business Directory can.

The Miscellaneous Directory furnishes a large amount of information useful to strangers.

The Street Guide will be found of great value.

Thanking our patrons for the liberal patronage bestowed on our work, we remain,

Yours, respectfully,

THE PUBLISHERS.
