At the very moment while she was a to that the very moment while she was a to that the suspension of the purpose of obtaining Katherine's somewhat extensive influence over Graham Welwyn.

Then Katherine read Louis

So she answered and issued numbers of invitations—she conducted most of the correspondence of the house—and she wrote to her dressmaker, and after much work of the kind she came to answer Louis Alan's unwelcome and troublesome letter.

Whether it was on any particular day to be a fixed or a movable festivity. Of course it would have been easy to form a standing agreement that Graham was to come at 1 every day unless warned by her to the contrary, and this would undoubtedly have saved some letter writing. For when it harm-leady anyward her they always were. It pleased them both that he should come in this way and not in the way of a common visitor.

THE GREAT SOUTH AMERICAN

Stomach Liver Cure The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk. This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians,

who have not brought its merits and value to the knowledge of the general/public. This medicine has completely solved the problem of the cure of indigestion dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten

or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year. IT IS A GREAT REMEDY FOR THE CURE OF

NERVOUS DISEASES. As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments. disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-
