NOW FOR WORK.

Though the Conservatives of this city did not know last night that the day of election was so near, they made their preparations for it with vigor and enthusiasm. Better ward meetings at the beginning of a campaign were never held in St. John and there is no election anxiety so encouraging as good ward meetings.

Now that the contest has definitely begun and the decisive day is only a month away, the wisdom of those who for the past year have been counselling organization is justified. It has been better followed in nearly every province in Canada than it has in New Brunswick, but even here we have the comfort of knowing that, backward as we have been, our opponents' line of battle is not nearly so complete as ours.

We have the start, but it means work to keep it; hard work, enthusiastic work, unremitting work. As Dr. Daniel said last night, it is the ward workers who win elections. The newspapers have some influence, public speeches are made with considerable effect, but in the end the winning of votes depends upon the man who quietly talks to his friends and acquaintances and uses his argumentative and persuasive power together with his personal influence to induce them to his way of thinking.

And never have Conservative canvassers been possessed of better weapons than they have today. They have undoubtedly the popular side of one of the greatest issues ever thrust upon the people. St. John especially has a deep personal interest in it. There can be little doubt of the vote that will be cast by every intelligent open-minded man before whom the railway and national port policies of the two parties are clearly placed.

It is the business of the ward worker to see that no man walks to the polls in ignorance of the significance of his vote and if this business is properly done the Conservative majority of last February will be quadrupled.

From all over Canada come inspiring reports. Ontario will fall in behind Borden with a majority never surpassed. If Quebec can elect enough Liberals to balance that majority it is all that the Conservatives can desire. The fate of the government depends on the west and the Maritime Provinces. From every part of the west comes word of increasing Conservative gains and the party leaders are as confident of a handsome majority there as they are in Ontario. So it comes down to the Maritime Provinces. The Nova Scotians promise us great gains and unless New Brunswick disappoints every expectation, we by the sea will be able to join in the cheering on November 4th with the knowledge that our work has helped to make the cause of the cheering.

St. John last winter did a deed that encouraged the party from ocean to ocean. It only needs more work like our men put in during that memorable fight to win a victory as creditable, even more decisive and more joyous for this time our candidates will sit on the government side of the house.

BYE-ELECTIONS.

Liberal papers are publishing statements to show that since November 1900 the government has won thirty-four bye-elections, capturing six seats formerly held by Conservatives, while the opposition won only eight contests and only captured three Liberal seats.

These papers are, however, careful to omit mention of the fact that the great majority of these bye-elections were held immediately after the general contest in 1900, when the government's chances were favored by the prestige of a great victory and when there was no real, definite issue upon which the opposition could base its request to the people to support its candidate, rather than the government's.

They also studiously avoided any reference to the fact that since the government committed itself to the Grand Trunk Pacific deal it has lost heavily in practically every constituency which has had a chance to express its opinion concerning that inquiry.

If Mr. Blair's election had been protested and he had been unseated in 1900, who doubts that he would have been re-elected by even a greater majority than 997? Yet in 1904 a little over a year after this Portland scheme had been introduced, St. John elected a Conservative by a majority of over 300. On the same day two constituencies in Ontario elected Conservatives by majorities away ahead of those received three years before, and two strongly Liberal constituencies in Quebec, while remaining on the government side, reduced the Liberal candidate's majorities, one by fifty per cent and the other by nearly a thousand votes. The only elections during the

last two years in which the Liberals have not lost ground have been in West Queens, P. E. I., and Guysboro, N. S., both of which were fought on local issues, as neither constituency stands to be affected in any direct way by either transcontinental railway policy.

Elections are not won on generalities. To change the government of a country that is not undergoing a period of great depression, some sharp well-defined issue, some one great question upon which the people must take sides is necessary. Such an issue was present in 1878 and in 1896 and is present today. And as in 1878 and in 1896 the elections immediately preceding election indicate which side the people will take.

APOSTASY.

"High minded Liberals clearly realize that their party can only be cured of its apostasy and purged from its corrupt tendencies by being driven from the public crib back into the cold shades of opposition from whence a regenerated Liberalism will again arise to battle as of old, for human advancement and honest administration of public affairs."

That opinion of the Independent Liberal Winnipeg Tribune is undoubtedly held by many whose devotion to the cause of Liberalism has not been weakened by their growing distrust of those into whose hands the Liberal party has fallen. Those who endorsed the Liberal platform in 1893 and who still support with enthusiastic fealty the government which has abandoned nearly every important principle in that platform are largely confined to the circle watching for crumbs that fall from the table of patronage. Whether or not these only are numerous enough to save the government from defeat will be known in a few weeks.

Sir Richard Cartwright has at last been decently interred in the senate. As he has been politically dead for some time, it would have been better for the political atmosphere had the government taken this action sooner. Canada has seen few more disappointing things than the sight of the gradual decay of this able man, who, when in opposition was such a power in the land, and who abandoned every one of his convictions and sank to the level of a complaisant party hanger-on when poisoned by the sweets of office.

The Liberals of Kings and Albert showed a certain kindness in their selection of a candidate. Hon. A. S. White has been defeated before and will not mind it so much this time as an inexperienced man would.

JESSIE MACLACHLAN AGAIN.

Famous Scotch Songstress Enthusiastically Received.

A fairly good audience greeted Jessie MacLachlan and her concert company at the Opera House last evening, though not so large as the occasion merited. Miss MacLachlan's popularity was well evidenced last night by the enthusiastic welcome she received, and the storm of applause which followed her every number, particularly after her rendering of Blue Bonnets and Rule Britannia.

Douglas Young, the tenor of the company, delighted the audience with his rich and well trained voice, and he was warmly encored. The duet, The Crooked Bay, sung by Miss MacLachlan and Mr. Young, was followed by thunders of applause, to which the singers responded with the favorite "When ye gang awa' Juncie." John Linden, the cellist, is worthy of more than a passing notice, as his performance fairly held the audience spell-bound, and called forth generous applause. His best number was Fischer's beautiful Cadenza, which received an encore.

PERPETUAL MOTION SOLVED BY VISION. Machine Which He Says Will Run Forever Revealed to Bert O. Doerr in a Dream.

GRAND RAPIDS, Mich., Sept. 20.—B. O. Doerr, of No. 125 Auburn avenue, says he had a vision one night in June, 1881, and now, after three years of planning and drawing, he promises to upset all the laws of gravitation.

Mr. Doerr, by an ingenious arrangement of wheels and cogs and ratchets and weights, plans to achieve perpetual motion. Power to grind grain, pump water, furnish light, print newspapers—he promises to produce without burning a pound of coal or other fuel. Steam cylinders and electric motor are to be superseded by the gravitating force of great weights.

Mr. Doerr has made no working model, but he has drawings for the machine and promises that it will work. Out of the power exerted by a series of falling weights he promises to deliver at the driving pulleys of the machine forty-three per cent.

Mr. Doerr says his vision was of a great machine whose driving belt was furnishing power for an immense factory. A few minutes later he saw immediately made a rough sketch of what he had seen. That night he evolved the scheme for this machine which, he believes, awaits only the backing of some financier to startle the world.

As Mr. Doerr proceeded with his plans he was treated to other visions of the machine, each adding him in working out the details. Today he has drawings and blue prints of the machine, which he guards as he would his life. No one may see more than one or two of the drawings until he has furnished bond to protect the inventor in case he fails to finance the proposition.

The idea is so simple, according to Mr. Doerr, that any person of ordinary intelligence could not fail to grasp the principle upon which the machine is to work. For this reason he feels Smith and Mrs. J. Retalick were appointed delegates to Moncton convention. It was decided not to invite quarterly convention until late in October.

A mission conference will be held in the Main street Baptist church Oct. 23th to 25th. W. Spencer Walton of South Africa, N. W. Keyes of South Africa, Rev. L. D. Morse of Wolfville, N. S., and Rev. St. John, N. B., July 27th, 1904. 1172

Property and works of The St. John Sulphite Pulp Company, Limited (in liquidation), situate at Miramichi, Saint John County, New Brunswick. The Mill Property of the Company comprises over three hundred acres. Works are situate on the Miramichi River, a quarter of a mile from the sea and six miles by water from the City of Saint John. The wharf accommodation is ample. Works are new and substantially built of pressed brick, fitted with modern and up to date appliances, including electric plant, and are capable of producing two hundred tons of pulp per week. There is room in the present building for additional plant, which when installed would double the output. The mill dam is substantially built of stone and is about fifty feet high. The water is taken to the turbine wheels in an iron flume five feet in diameter, which gives ample supply for driving machinery and pulp making. Tenders for purchase of above described property will be received by the undersigned up to October first, 1904, the highest or any tender not necessarily accepted. Further information will be supplied on application.

ELECTIONS NOV. 3rd; NOMINATION DAY, OCT. 27.

Government Has At Last Fixed the Date of Its Defeat—Parliament Was Dissolved Yesterday.

OTTAWA, Sept. 29.—The die is cast. At today's meeting of the cabinet it was definitely decided to dissolve parliament, subject to his excellency's approval, and the date of nomination and polling were decided upon.

people of our Dominion of Canada, and to have their advice in parliament, and do further declare that by the advice of our privy council of Canada we have this day given orders for issuing our writs in due form for calling a parliament of our said Dominion, which writs are to bear date on the 29th day of September instant, and to be returnable on the 15th day of December.

poll clerks and candidates' certificates, commissions of election clerks, oaths of voter, and the like, some thirty different forms, including a sufficient number of ballots, which have been struck off on special paper, with blanks left in for candidates' names, which are to be printed in after nomination day.

The routings of the Russell was a scene of great animation tonight. Politicians were there by scores discussing the situation. Several ministers were around, including Messrs. Hyman, Emmerson and Patterson, and they were constantly buttonholed by friends. In a few days all members of the cabinet will have scattered throughout Canada.

OTTAWA NEWS

OTTAWA, Sept. 29.—The colonial office has transmitted a despatch to the Governor General expressing the regret of His Majesty's government at the action of the British consul at Rio Grande de Sul, Brazil, in compelling the master of the Nova Scotia schooner M. J. Taylor of Parramora, to remove the Canadian coat of arms from the red ensign which the vessel was flying while in that port.

EDMUNDSTON, N. S., Sept. 29. James Donville, Hampton, N. B.: I regret very much that public business prevents my attending the liberal convention for Kings and Albert.

Under the wise and progressive administration which Canada has enjoyed during the past eight years, it has advanced with marvellous rapidity. Great, however, as has been the progress during the past eight years, the few years are likely to see the same administration witness even greater developments.

CONSERVATIVE FORCES GETTING INTO LINE. Ward Meetings Largely Attended--And the Voters Were Most Enthusiastic--Delegates to the Convention Chosen.

The ward meetings of Dufferin, Victoria, Wellington, Prince, Kings, Queens, Dukes and Sydney wards at the rooms of the St. John Conservative Club last evening were perhaps the most successful gatherings of the kind ever held in this city. From beginning to end the utmost enthusiasm reigned, and all were determined that in the coming contest the greatest effort should be made to elect both conservative candidates in the city and county of St. John. Speeches were made during the evening and a great deal of important work was accomplished.

DR. DANIEL M. P. Shortly after the names of the delegates were handed in Dr. Daniel M. P. entered the room and was greeted with cheers. He was called upon to speak and at once took the platform. After the hearty applause had died away he said that he had not expected to see so many present. Although he was at present the representative of this city in the house of commons he was not absolutely sure that he would be the chosen candidate in the next contest. (Cries of You will be.) The party had in the approaching elections the best battle cry that any party could have. The new railway project had passed St. John by. It also gave the go by to all other Canadian winter ports, and to this city the winter port was perhaps the most important factor. (Hear, hear.) The winner in which, John Blair had been slighted and Portland preferred was planned out in Mr. Blair's speech, in which he described the Grand Trunk Pacific scheme as extravagant and wasteful.

The developments made during the last session of parliament disclosed these facts more and more and proved that in the end the great quantity of western freight will be carried--not to the maritime provinces--but to Portland, Me. Surely the people of this constituency, free to vote as they wished, would not support any such scheme, which although detrimental in every sense of the word to the maritime provinces and to Canada as a whole, is advocated by the liberal party.

Many prominent liberals had already assured him that they oppose the Grand Trunk Pacific scheme, and indeed no one who is interested in the welfare of this country could do anything else. (Applause.) Of course there were people who would vote for the liberal policy in this respect, because they would vote that way no matter how great were the issues at stake.

Dr. Daniel referred to the fiscal policy of the government, which he said would have an important bearing on the results of the coming contest. During his stay at Ottawa Dr. Daniel said that he was convinced that the chances of the conservative party were never so good as at the present time. (Applause.) The policy of the party was a national transportation policy, and it was going to elect to power the promoters, just as the great national policy of 1878 did. The people of the west are anxious for cheap transportation, and they are well aware that the only way to get it is by a government-owned railway and not by a railway that is bound up in the hands of a private corporation. Referring to the conservative leader, Dr. Daniel said that he was not a man that advocated one policy in one place and another in a different constituency.

Dr. Daniel in closing urged all who were present to enter the campaign with vigor, and pointed out that the results of the election depended almost entirely on the workers. (Cheers.) After Dr. Daniel had finished speaking a representative of a large labor organization asked him what he thought of the Factory Act and the action of the government in regard to it.

Dr. Daniel replied that as the Factory Act was a matter dealt with entirely by the local government he had not given it a great deal of attention. At the time it was before the people here he was attending to his duties at Ottawa. He was, however, in favor of anything that would benefit the laboring men. (Applause.)

J. D. HAZEN, M. P. P. As soon as the cheers given in honor of the last speaker had died away, J. D. Hazen was called to the front, and briefly reviewed the issues of the coming elections. He drew attention to the fact that the conservative party in St. John makes no mistakes in the selection of its candidates. Every man had a right to say who shall represent him, and that was one of the chief reasons why there was so much enthusiasm back of every candidate of the party. (Applause.)

Mr. Hazen urged that the man who is elected at the next elections as the representative of this city should be a man and not a mere weather-cock who changes from side to side. (Hear, hear.) He should be a man who would stand by his party and his principles in any matter which side was in.

Mr. Hazen referred to the unscrupulous practices in stealing votes and switching ballots by the liberal party. He contended that the chances of the conservatives in the maritime provinces as well as in Western Canada, were never so encouraging as at the present time. (Applause.)

MILES E. AGAR. The next speaker was Miles E. Agar, the conservative candidate for the local house, who was given a great reception.

gone conclusion that Dr. Daniel, M. P. would be one of the nominees. (Applause.) When he came before them at the convention last February he was a new, clean and untainted man. He had fully justified their choice. (Applause.) Since his election he had been a thorn in the side of the government and stood as an ideal of conservative ideas. He also suggested Dr. White as a running mate. (Applause.)

Exception was taken that it was not the custom to instruct the delegates. Dr. Gilchrist explained that these were only his own ideas, as it was unanimously agreed that the delegates should go entirely uninstructed.

CARLETON. A meeting of the Carleton wards was held last evening in the City Hall for the purpose of electing delegates to the conservative convention. A good representation of the wards was present. C. Berton Lockhart called the meeting to order and explained the purpose for which it had been called. He then asked the members of the district to take different ends of the room, so as to transact their business separately. The gentlemen of Guy's ward decided to elect by ballot twelve delegates and four substitutes, the four getting the smallest number of votes to be the substitutes. D. Baskin asked the gentlemen of the ward to use their discretion in the selection of the delegates, so as to have all the different interests represented.

The following delegates were chosen by nomination from Brooks ward: Le Baron Clarke, C. B. Lockhart, Henry M. Lee, Wm. M. Campbell, John P. McAndrew, John McAnoy. Substitutes--Frank Lanyon and John Carlson.

The delegates from Guy's ward were elected by ballot. They were as follows: W. D. Baskin, Wm. Emerson, Geo. Lord, J. E. Cowan, S. H. Mayer, Dr. Wheeler, T. Lewis, A. C. Smith, C. E. Belyea, W. Lewis, E. L. Strange, Jas. Carleton.

Substitutes--S. Maxwell, John T. Brown, Dr. Day, H. G. Smith. After the delegates had been chosen C. B. Lockhart, chairman of Guy's ward, asked the gentlemen of Brooks ward to join them for the transaction of common business. It was resolved "that this meeting commend and confirm the action of Dr. Daniel in the house of commons, and instruct the delegation to vote for him as a candidate in the coming election."

On motion of the chairman the meeting rose to their feet and gave three hearty cheers for Dr. Daniel. The meeting adjourned about 10 o'clock.

AT FAIRVILLE. The conservative electors of the parish of Lancaster met in Fairville last evening, E. J. Neve presiding, and the following delegates were elected: Elmsley Bettinson, William Riddick, Charles Hughes, Alfred Clark, W. A. Robinson, Robert Carr, Robert Carter, Robert Carrier, Frank Murphy, Wilfred Betts, Joseph Scrubner and William Wilson.

Substitutes--E. J. Neve, Wesley Stevens, Perry Kelly, Thomas Raynes. The delegates from Fairville are: McAlister, Michael Driscoll and James McAlister. Substitutes--Andrew Wilson.

POLITICAL MEETINGS. Hon. J. Chase Casgrain, M. P., and E. F. Clarke, M. P., will be the Chief Speakers.

A series of public political meetings to be addressed by Hon. J. Chase Casgrain, K. C., M. P.; E. F. Clarke, M. P., and other speakers, has been arranged and will be held as follows: NOVA SCOTIA. Windsor--Friday evening, 30th September, Town Hall.

Annapolis Royal--Saturday evening, 1st October, Academy of Music. NEW BRUNSWICK. St. John--Monday evening, 2nd of October, at the Opera House. Woodstock--Tuesday evening, 4th of October. Fredericton--Wednesday evening, 5th of October, at City Hall.

Moncton--Thursday evening, 5th of October. Campbellton--Friday evening, 7th of October, 1139.

IN MULBERRY BEND. Archbishop of Canterbury in the Slums of New York.

NEW YORK, Sept. 23--The Archbishop of Canterbury, accompanied by Booker T. Washington, today made a tour of inspection through the best and worst sections of the east side, including the thickly packed barracks on Mulberry street and the tenements in the neighborhood of Mulberry Bend. The long rows of model flats along First avenue were also visited. The party was conducted by Jacob A. Hill, the founder of the neighborhood settlement in Henry street, and the settlement was the first place visited. Then the model tenement houses were inspected, after which the visitors made a tour of the Mulberry Bend district.

ARRIVED SAFELY. FREDERICTON, Sept. 23--A telegram received here this morning from Boston told of the safe arrival in that city of Mr. and Mrs. E. Byron Winslow and party, who left here last evening in Supt. Downie's private car. The friends of Mr. and Mrs. Winslow will be glad to learn that they stood the journey remarkably well and were not in the least fatigued. Mr. Winslow, formerly of this city, and Dr. Putnam, the specialist whom Mr. Winslow is to consult, met them at the depot. At the time of writing the specialist had made no report upon the case.

Unless you own a little ground in this city you lack something of the full stature of citizenship. It won't require a great deal of money to begin--just watch the real estate ads.

JOHN F. STAIRS' FUNERAL. Body Followed to the Grave by Nearly Every Business Man in Halifax.

HALIFAX, Sept. 23--One of the most memorable funerals ever seen in Halifax was that of today, when the body of John F. Stairs was laid to rest. Nearly every business man in the city was in the sad procession. Vice-Admiral Douglas, Governor Jones, Premier Murray, the judges of the supreme court, the faculty and governors of Dalhousie University, his fellow elders in Fort Massey Presbyterian church, the mayor and aldermen of Halifax and the Presbyterian members of the city were there, while citizens on foot and in carriages, who took more than fifteen minutes to pass a given point, followed the remains. The religious services were simple. At the house the hymn "Near My God to Thee" was sung and prayer was offered by Rev. J. W. Falconer. Dr. L. H. Price returned yesterday from the Canadian woods with a large moose. The man who returns nowadays from a hunting trip without a moose must be a desperately poor shot. Police Officer Chappell, since going to Shelburne appears to have been stirring up things, as he now has eight Scots Act cases pending.

The applications for positions on the Grand Trunk Pacific survey appear to be more numerous than the jobs. One of the disappointed ones, named Watson, a former Nova Scotian, came from Lowell, Mass., where he says he left a job, expecting a better one on the survey. When he arrived here, however, everything worth taking had been grabbed, and he was offered a very inferior position at small pay, which he refused to take. He has returned to the states very much disgusted with the way his old political friends have of doing things.

A GENEROUS GIFT. Mulock's Son Offers \$100,000 For a Hospital for the Poor--Redmond Takes up a Collection.

TORONTO, Sept. 23--Cawthra Mulock, son of Sir William Mulock, today offered the Toronto General Hospital \$100,000 for the erection of an outdoor patient hospital for the free treatment of the poor.

MONTREAL, Sept. 23--John Redmond, the Irish leader, addressed a large meeting of Irishmen here this evening. A subscription in aid of the funds of the Irish party netted \$2,000 in sums ranging from 25 cents to \$100. P. F. Cronin of the Catholic Register, Toronto, has purchased the True Witness of this city.

TO REGULATE SPEED OF AUTOMOBILES. Committee of Municipal Council Drawing Up a Bill.

The committee of the municipal council on bills to the legislature held a meeting yesterday afternoon in City Secretary Vincent's office. They considered the draft of a bill in amendment to the act relating to rates and taxes in the several parishes in this municipality. This draft will be submitted to the municipal council at the next meeting, which will be on Tuesday, Oct. 4th.

The committee also spent some time in consideration of the proposed legislation in regard to limiting the speed of automobiles in this municipality. In this committee have not completed their work. More information will be necessary, and an effort will be made to secure this information at once. It may be that this will be impossible, so the committee, in case the draft cannot be completed for Tuesday's meeting, will hold it over until January.

Yes, you can probably rent your house by using a placard, just as you can probably ride across the State in a mule-cart. But in the one case a want ad. would be quicker, and in the other an express train.

DO ALL MERCHANTS REALIZE THE IMPORTANCE OF ADEQUATE SPACE FOR THEIR ANNOUNCEMENTS?

IN A BATTLE NOT MORE THAN ONE IN A HUNDRED IS EFFECTIVE. THE OTHER NINETY-NINE BULLETS "FIND THEIR BILLES," OF COURSE; BUT THEY DO NOT REACH HUMAN TARGETS. BUT WITH THE ARTILLERY--THAT IS A DIFFERENT STORY, THE BIG TWELVE-POUND GUNS DO NOT ALWAYS FIND THEIR MARKS; BUT IF THE GUNNERS HAVE FOUND THE RANGE THE MAJORITY OF SHILLS DO DEADLY WORK--RATHER IN WIPING OUT WHOLE COLUMNS OF MEN; IN DESTROYING OPPOSING ARTILLERY, OR IN DEMORALIZING THE ENEMY.

THE MORAL FORCE OF A "BIG ADVERTISEMENT" IS AS GREAT AS THAT OF A "BIG-GUN."

A "Company" of soldiers may be adequately armed for ordinary service with rifles only--if the rifles are modern and of long range. A regiment, if operating independently in active service, must needs have at least a few "big guns," perhaps some breech-loading, rapid-fire "howitzers."

A Brigade, isolated from its base, must carry at least a small Artillery Corps, equipped with field guns large enough to "pound" a fortified enemy, or to cover either an offensive movement or a retreat. An Army Division, in hostile country, can move only as fast as the "big guns" can be transported--for the big guns are the "mailed fist" of a Major-General. Without them he is partially disarmed, losing any of them to the enemy is counted to be a humiliating reverse, apt to nullify a whole plan of campaign.

THE LITTLE STICK, like the company of soldiers, may get along with little ads, if they are placed in "long range" mediums. A "bigger store," like a regiment, must have some display space--some field guns, for offence and defence. A "still-bigger store," like a Division, must carry "bigger guns," must expend its display advertising throughout the territory.

A really "big" store, like an Army Division, must use the "biggest guns," must use whole pages for "bulletins," and must make its advertising its "mailed fist" for demoralization, and its "loved hand" for persuasion.

MONCTON. Failed to Get a Job on the G. T. P. Survey. Many Moose Being Brought Out of the Woods--Moved to the West.

MONCTON, Sept. 23--The family of the late L. C. R. Conductor Olive left last night for Red Deer, Manitoba, where two of the sons have taken up land. They intend to make their home in the prairie provinces. Miss Beattie Storey of St. John, after spending a few days with friends in Moncton, left yesterday for Campbellton, where she has taken a position. Dr. L. H. Price returned yesterday from the Canadian woods with a large moose. The man who returns nowadays from a hunting trip without a moose must be a desperately poor shot. Police Officer Chappell, since going to Shelburne appears to have been stirring up things, as he now has eight Scots Act cases pending.

STILL AT LARGE. No Tidings Have Yet Been Received of Prisoner Grant. FREDERICTON, Sept. 23--James Grant, the pickpocket, who made his escape from the county jail on Tuesday evening, is still at large, though every effort is being made to recapture him. Jailer Hawthorn, City Marshal Roberts and a posse of constables are scouring the country for him, and are hopeful of discovering his whereabouts.

A gentleman who came in from Fredericton Junction today stated that a man answering Grant's description was seen near an unoccupied shanty at that place early this morning. Sheriff Strirling, on receipt of this information, immediately wired to a constable to investigate the report. So far no reply has been received. It seems to be the general impression that Grant followed the railway track in the direction of the Junction, with the hope that he might be a train at that place and get across the line. It seems quite certain that Grant left the city on the night of his escape, and put a good many miles behind him before daylight.

F. N. Perkins, the well known letter carrier, is spending his vacation in Gaspereau, Quebec Co., and, according to his account, is having an exciting time. A friend of his informs the Star that he has received a letter from Mr. Perkins telling how he and his daughter started for church on their wheels on Sunday last and, on a lonely spot in the road almost ran into a couple of bears. The animals gave chase and Mr. Perkins is confident that had not he and his daughter been expert cyclists the bears would have had a good dinner at their expense.

The St. John exhibition was not

an unqualified success so far as the experience of people who border could determine. Fakirs operated on all sides, with so little hindrance by the authorities as to be able to get away with their goods. Mrs. B. Masters of Somerset street

complained that Gordon Berrie of 83 Somerset street broke a window in her house, that the lad's father saw him do it and that he refuses to put in new glass. Mrs. Masters was in court this morning, but the boy was not there, as he had not been notified in consequence of a statement made to the police by Mrs. Masters, who said she did not wish to prosecute. She evidently has changed her mind, as she has a lot to say this morning.

WOMEN'S MISSION CONFERENCE.

At last night's session of the Women's Missionary Society, Miss Veasey, returning missionary from Japan, gave an interesting talk on that country. Her remarks principally had reference to Tokio and Christian education work there. The speaker believes that money spent in the evangelization of Japan is a good investment, as the Japanese make conscientious and steadfast Christians.

This morning's session opened at 2:30

o'clock with devotional services, led by Miss Palmer leading. Among the subjects treated were: Rest Fund, by Mrs. Wood; Study of Report, by Mrs. Williams; Mite Box, Crusades, Associated Help, etc.

This afternoon the elections to the

different boards will take place and reports of committees will be made.

FLOATING THE MAY QUEEN.

The work of floating the steamer May Queen in the Grand Lake was begun yesterday morning, but it is not known yet what success is attending the operations. Word will reach the Indiantown office some time this afternoon.

In order to float the May Queen it

is necessary to pump the water out of her faster than it runs in. If the pumping gear which is being used should prove incapable of this a more powerful equipment will have to be resorted to. The water has to be removed from the hold before the leak or leaks can be located. Once the leaks are located there will be little difficulty in stopping them.

HEATING THE POLICE STATION.

The heating apparatus in the central police station has been overhauled and is now in first class condition. For some weeks past men have been at work overhauling this plant. In the building are nineteen heaters in all of which new valves have been put in. The boiler has been tested and new stops placed in position, also some of the brick work renewed.

C. P. R. WINTER TIME TABLE

General Change in the Running of Trains in and Out of St. John.

The winter time table of the C. P. R. will go into effect after Sunday, October ninth. Several changes have been made, the principal of which are as follows:

The train from Fredericton will

arrive at 8:50 a. m. or five minutes earlier than at present. The express from Boston will come in at 11:55 instead of 10:45, and the Montreal at 11:55. This train now arrives at 11:20 a. m. The express to Point du Chene will be discontinued and passengers for the Island will leave here on the express for Halifax at 12:20.

The morning train for the west

will leave here at 7 a. m., fifteen minutes later than at present. The express for Montreal will leave at 6 o'clock and the train for Boston at 6:10 p. m. The night express from Boston will arrive at the former hour, 11:15 p. m. A parlor car will be attached to the Boston train that leaves here at 7 a. m.

A SPY FROM OTTAWA

Laurier Sends a Special Agent to Investigate the Local Political Mix Up.

Edward Farrer, the man who has written the best of political literature for the present administration, arrived in the city yesterday and spent the afternoon evening in consultation with Liberals of various factions in the city. It is understood that Mr. Farrer came here as the personal representative of the premier to feel the pulse of the community and get a line on the local situation as far as the Purley-Emerson factions are concerned.

It is expected that Mr. Farrer's

visit may have great bearing on the policy of the new paper, for if the report is unfavorable to Dr. Pugsley the Times will outline its policy more fully and in consequence it will probably be found opposed to the present administration.

Mr. Farrer left today for Moncton

and it is said after making a short stay there will hurry back to Ottawa to acquaint the premier with the result of his observations in this province.

CONSERVATIVE RALLY.

Fighting Men of the Party Will Gather Tomorrow Night in York Theatre.

The Conservatives of this city are losing no time in getting in perfect readiness for the campaign. They made a grand start on their organization two weeks before they knew the date of the election. Since that date was announced they have arranged for a grand rally to be held tomorrow evening, at which addresses will be delivered by the leading members of the party in this constituency.

The meeting will be held in York

Theatre at eight o'clock and speeches will be given by Dr. Daniel, Dr. Stockton, Geo. V. McInerney and others.

STR. SENLAC LAID UP.

Broke Her Propeller and Damaged the After Bearings.

The steamer Senlac, of the South Shore route, is now laid up in Rodney slip and will not be able to get away from this port for some days to come. On the voyage from Yarmouth to this port the Senlac broke her propeller and as soon as she reached here yesterday was docked at Rodney wharf.

It was then ascertained that in

addition to the damage done to her propeller the vibration wore out the after bearing which will have to be renewed, and in consequence it will probably be Thursday before the work can be completed.

MRS. WM. TAIT DEAD.

The death occurred last evening of Mrs. William Tait at her home, 19 Hanover street. Deceased was ill but a few hours, and the announcement of her demise came as a great shock to all her friends. Mrs. Tait was a daughter of Andrew Darnley of Richmond street and is survived by a child, three brothers and one sister, Mrs. Wm. Chisholm. The funeral will take place on Sunday afternoon.

FATAL FALL FROM SCAFFOLD.

UTICA, N. Y., Sept. 30.—Six men working on a scaffold on a bridge near Mountain View, on the Mohawk and Malone road, fell a considerable distance in a gully yesterday afternoon, as a result of the underpinning giving way. One was killed and the others so badly injured that they were brought to a Utica Hospital this (Friday) morning. Wires to the north are down and communication cannot be had.

HIS SLEEP WILL COST HIM \$10.00.

Just an Item of the Expense of Mr. E. R. Thomas' Royal St. Regis Apartments. (N. Y. Herald)

When the announcement was made that E. R. Thomas, whose interests are divided between railroad, automobile and the conduct of his residence, had rented for \$125 a day for a long term the Royal suite of apartments in the Hotel St. Regis interested in the hotel not alone by the fact that the young man and his wife will be housed in perhaps the most expensive suite of rooms in the world, but also by the innumerable devices of modern ingenuity for the comfort of the occupants.

On the third floor, with three of its principal rooms facing on Fifth avenue, the suite occupies the entire end of the building. There are five rooms, with a private corridor and bathroom.

The largest of the five rooms is the saloon, with its three large windows overlooking Fifth avenue. It is thirty feet long and nearly twenty feet wide. It is furnished entirely in white enamel relieved by delicate gold tracery. The furniture is of white and gold, upholstered in the richest silk fabrics.

Opening from the saloon, on the north, is the library. Wide doors between the two permit of their being thrown into one large room 50x20 feet in size. The library is furnished in French walnut.

English oak was used exclusively in the construction of the dining room, which has two large windows on the Fifty-fifth street side.

At the south end of the suite are two bedrooms with a bathroom between.

These are both finished, like the saloon, in white enamel. In the bathroom, which is of white marble, the water which comes from the silver faucets is filtered and the heating of the room is so arranged that the temperature may be raised to that of a Turkish bath or lowered again to normal in the space of a few minutes.
