ANOTHER CONSPIRACY DISCOVERED IN LISBON

Many Arrests Have Been Made During the Past Few Weeks—Army Officers Implicated.

LISBON, July 28.—The government according to the newspapers of Lisbon has discovered and frustrated a wide-spread Republican plot for an uprising scheduled for today, the anniversary of the abortive revolt of July 28, which was suppressed by ex-Premier Franco.

This announcement follows a large number of mysterious arrests made during the past few weeks.

Portuguese officials will say nothing of the details of the conspiracy, except that many are implicated including officers of the army.

People of Turkey Having Received a Constitution Want Wholesale Reforms.

CONSTANTINOPLE, July 28.—Now that the first rejoicings over the constitution granted to Turkey by the Sultan last week are at an end the people are beginning to discuss the future. They are clamoring against those high officials who were responsible for the abuses and injustices of the old regime.

The Sultan, it is now known, broke into tears at the conference on Thursday at which it was decided to grant a constitution. The situation is calmer, but disturbances are still feared.

BROTHERS HAD DIFFERENT IDEAS REGARDING SISTERS

One Wanted His Sister Out of Jail While the Other Wished Her Kept in for a Year.

In the police court extraordinary scenes take place, and during the last two days a few exceptional cases have developed.

Yesterday a pretty young girl was fined \$8, or in default of payment a term of two months in jail.

The woman spends a great part of her life in the jail, and her offence is that of being drunk and disorderly.

After she has served a few months in jail and is liberated, she remains quiet for a short time, then in company with some young men she proceeds to the outskirts of the city and gets heavily drunk.

When intoxicated she becomes very disorderly and her male companions leave her. And then the police are given the trouble of arresting a woman who puts up a harder fight than most.

This morning the Byron woman appeared in court with her clothing badly disarranged. She had lost her hat, and her hair was hanging about her shoulders.

Policeman Birchell, who aided in making the arrest, told the court of the disorderly conduct and how they finally had to take the woman to the police cells in a wheelbarrow.

Acting in company with Henderson said that the woman's actions were disgraceful and as she was frequently arrested she should be kept in the cells for a month.

The woman said she did not care if she was sentenced to a term of five years, but that she would not do any six months in the Home. She further remarked that there must be a fine lot of policemen when they could not take a little woman like her without putting her in an old wheelbarrow.

At this stage the woman's brother walked towards the magistrate's desk and asked the court if his sister could not be sent in for a year. The magistrate said that six months was the limit, and the brother slouched out of the court, saying, "Oh, well, that will do."

The woman laughed when sentenced and was hustled down stairs to the cells with the other prisoners. A couple of drunks were fined the usual amount.

INCENDIARY FIRE IN CHARLOTTE COUNTY

The Dixon Place at Mayfield Destroyed This Morning at a Loss of \$3,500.

ST. STEPHEN, July 28.—The farm house known as the Dixon place, situated at Mayfield, about a mile from town, was totally destroyed by a fire of incendiary origin at one o'clock this morning. The place had recently been purchased by Wm. H. Jackson, who had moved his furniture in and was preparing to occupy it. The buildings were entirely consumed with all their contents. The loss is estimated at \$3,500 with no insurance.

A FATAL ACCIDENT AT NEW STEEL BRIDGE

James Canney Instantly Killed by Falling Fifty Feet—His Body Badly Mangled.

FREDERICTON, July 28.—Word was received in the city this morning of a fatal accident which occurred at Pokok shortly after four o'clock yesterday afternoon, the victim being James Canney, of this city, aged 38.

Canney was employed by the Canada Foundry in the erection of the new steel bridge across the St. John at Pokok and while wheeling a truck he lost his balance and fell some 50 feet upon the rocks below.

Death was instantaneous, the skull being fractured, and the breast being smashed by the fall. The remains were brought to the city this morning. The deceased was a son of the late William Canney, of St. Mary's and was unmarried. He is survived by three sisters and two brothers the latter being John and William of the city.

TROOPS CALLED OUT IN BOMBAY TO QUELL RIOT

The Military Were Had to Fire on the Mob Repeatedly.

BOMBAY, July 27.—Twenty thousand Indian mill hands went on strike here Friday morning out of sympathy with F. H. C. the editor of a socialist newspaper, and who has been transported for six years. As was expected, much rioting took place. In the afternoon the riot assumed more serious proportions, and unfortunately much loss of life occurred. It looks as if a crisis had been reached in the long brewing unrest which has threatened the peace of the country for some time.

The mob spread over from the mill district and held up the Poona mill train. The first had to be driven off by volleys from the military.

Europeans are feared and stoned whenever they appear on the streets, and when the police and troops made rescues, they were frequently obliged to use their revolvers. There have been heavy casualties as a result of the firing. All the available military, including the Volunteer Rifles and the Light Horse, has been called out.

In the course of the evening a defiant and fanatical mob bombarded the office of a police magistrate with heavy paving stones. The Volunteer Rifles were called in to rescue and fire on the natives. Five men are known to have been killed, and 43 wounded have been taken to hospitals.

The party will dine aboard the yacht and return to London tonight.

NOT AIMING AT THE ISOLATION OF GERMANY

Foreign Secretary Grey Makes an Important Speech

Out of Which is Taken Much More Than He Said—Britain's Position Regarding Persia.

LONDON, July 28.—The Macedonia question was raised in the House of Commons last night. Sir Edward Grey, Secretary of Foreign Affairs, said that the situation had changed suddenly and greatly in the last few days, as Turkey herself was going to improve the whole government and the country to benefit Mussulmans and Christians alike. It was better, he said, that the Macedonia question should thus be settled by the Turks themselves than that partial reforms should be pressed upon reluctant and obstructive authorities.

"We ought for the present," added the secretary, "to preserve an expectant and sympathetic attitude toward these changes."

He deprecated the idea of intervention in Persia unless the Persian subjects became threatening. Sir Edward took occasion to reiterate in warm terms the idea that Great Britain's policy was aimed at the isolation of Germany or that she had any reluctance to be on good terms with Germany. He said that while Great Britain must be free to make arrangements like those with Russia and France, in order to remove the causes of friction, such policy implied no enmity toward other powers.

The foreign secretary's reference to Germany, which was drawn out by a discreet speech by Sir Charles Dike, was rather unexpected and was much canvassed afterwards in the lobbies, where it was regarded by many as intended to counteract the bad impression likely to be produced in Germany by Lord Cromer's speech in the House last Monday when he declared that it was the first duty of the government to prepare for the European conflict, which probably would be forced upon Great Britain before many years.

The inference was drawn that the government was desirous of arriving at an understanding with Germany similar to that already reached with France and Russia.

DISASTROUS TYPHOON REPORTED AT HONG KONG

Several Vessels, Including a British Torpedo Boat, Were Driven Ashore

HONG KONG, July 28.—As the result of a typhoon last night, which lasted two hours, the steamers Schuykill, Pavia, La Sang, Charles Hardouin and the British torpedo boat Whiting are ashore. An unknown steamer and several lighters foundered. Fifteen houses in the town collapsed. There were casualties ashore and afloat, but few among the shipping, as the ships had been forewarned of the storm.

LONDON, July 28.—The Chinese steamer Ying King, engaged in the local passenger trade, foundered yesterday during the typhoon. Three hundred Chinese are known to be drowned, only twelve of those on board were rescued. The Ying King was of 700 tons, 290 feet long and owned in Hong Kong.

The public guardian, the chief attraction of the city, were wrecked. The streets are blocked by debris.

John H. Barry is in receipt of a communication from a firm of English lawyers who are in possession of Mrs. Agnes Dobbey, who lived here about thirty years ago.

Mr. Barry would like to see some person who could furnish him with some information regarding the woman, or if the woman is dead, her relatives. The communication from the English firm states that a large amount of property is awaiting Mrs. Dobbey in London.

The death occurred last evening of Mrs. Ellen Huxy, widow of the late Robert Huxy, in the sixtieth year of her age. She had been complaining for quite a time. While summing at Baywater for a few weeks she took ill. She was brought home last Thursday. The doctor was called in, but no one thought the end was near.

Deceased is survived by two daughters and one son. Mrs. W. R. Panjy and Miss Evelyn, as home, are the daughters, and James Huxy is the son. James Boyd is a brother of the deceased. She was a prominent member of the Portland Methodist Church. The funeral will take place from her late residence, 75 Sheriff street, on Wednesday, the 29th instant. Service begins at 3:30 o'clock.

T. Fred Powers, undertaker and embalmer, had a miraculous escape from being killed by a street car last night on City Road. He was going from the city on board a street car and alighting at a corner, attempted to cross to the other side of the street. He walked around to the rear of the car, he had just left, and in doing so met a car coming in the opposite direction. The car was not going very fast, which was very fortunate for Mr. Powers. His right leg was on the track when the car struck him and he was knocked backwards, but did not lose his balance. The car was quickly brought to a standstill. Mr. Powers' leg was badly injured and he suffered considerable pain.

FIRE THREATENED FAIRVILLE TODAY

Fire was discovered at 1:45 this morning in the woodshed at the rear of Mrs. Allingham's residence on Prospect street, near Church Avenue, Fairville, and was not extinguished until three streams of hose were played on it.

Mr. Allingham, who observed the fire, hastened to the fire station and rang the alarm. The Fairville firemen quickly responded and soon three streams of water were playing on the burning shed. The fire had made considerable headway, however, and it was impossible to save the shed and its contents, which consisted of considerable hardwood.

The house, which is owned by the corporation, was filled with smoke, but not damaged. Mr. Allingham resided in the upper flat and Mrs. Compton in the lower one. Mrs. Compton had to be carried from the house.

How the blaze started is a mystery. There had been no fire in the kitchen stove since seven o'clock, and when Dr. McParlane passed the house at 10 o'clock there was no sign of smoke or fire.

Had the fire made greater headway the whole of Fairville would have been in danger.

CARLETON COUNTY MAN FOUND DEAD

BRISFOL, N. B., July 25.—William Campbell, aged about 75 years, who left his son's home in Oakland, Carleton Co., about five weeks ago, to go through the woods to a neighboring settlement, was found dead in the woods yesterday, and from the appearance of the body he must have died soon after leaving home, no doubt from a natural cause. He was of a peculiar disposition and was in the habit of roaming from place to place, and his disappearance did not cause his friends any anxiety, as it was generally supposed, "Troublesome Thieves." Miss A. Outous, Ont., will sing "The Man Who Fights the Fire." Mr. Will Harrison, lyric-bass, of Halifax, is singing "Down in the Valley of the Shenandoah."

STILL A LIBERAL, SAYS MORRISSEY

Whether Hon. John Morrissey will support the federal government in the approaching Dominion election is a question which Mr. Morrissey says he is leaving to the decision of the Liberal party of the province.

When asked last night by a Sun reporter as to which candidate in Northumberland would receive his support in the next campaign Mr. Morrissey said that he had not yet made up his mind as to what course he would pursue. He referred to the action of Hon. Wm. Pugsley last spring during the provincial elections "in reading him out of the Liberal party," and said that until the party withdrew from this stand he could not be expected to give them his support.

In reference to his own position in provincial politics Mr. Morrissey claimed that the political situation in the province was no different from what it was twenty years ago when he entered politics. The government then was a coalition government, he said, and it is today.

He spoke of other Liberals in the province who had opposed the federal government, mentioning his running mate, Mr. McLaughlin, in Northumberland and Mr. Turgon in Gloucester, and said he could not understand why they were not understood why of treatment he had received. He had remained faithful to the Liberal party in spite of the rebuffs he had received from Mr. Blair in 1900 and Mr. Emmerson in 1904. He still considered himself a Liberal and naturally preferred the party with which he had been so long connected.

His time was now largely taken up with the provincial business and he felt that he could take an independent stand with regard to federal politics, "for the Liberals want me," he said, "they will have to come after me."

LOCAL CONSERVATIVES START ORGANIZATION

A meeting of the Liberal Conservative executive was held last evening in the Keith assembly rooms. Vice President Maxwell was in the chair. The chairman, Dr. MacRae and John B. M. Baxter added a few words of encouragement, after which a general election was on the political situation took place.

It was decided to allow the chairman and secretary the privilege of fixing the hour to the ward meetings. It was felt that the more important matters should be left in the hands of the executive.

There are several to choose from as a running mate to Dr. Daniel. Thomas recently mentioned are H. A. Powell, John B. M. Baxter, W. S. Fisher and Dr. A. W. MacRae. Then, Colman and H. Thorne's name was whispered as it always is, before an election, but it is believed that Mr. Thorne would again decline the honor.

SHOT COMPANION ON HUNTING TRIP

Haverhill, Mass., July 27.—While on a hunting trip on his father's farm today, John W. Greenlay, Jr., aged 15 years, shot and instantly killed Thomas Morrison, his ten-year-old companion. Morrison was arrested on a charge of manslaughter. On the personal recognition of his father, however, he was later released, pending an autopsy and death.

Greenlay had gone out with a shotgun, accompanied by Morrison, to shoot crows that were damaging his father's gardens. While the two lads were going through a dense thicket, Greenlay, carrying the gun, slipped and roared to his feet, a twig discharged the gun, the contents of which entered Morrison's breast, causing instant death.

THE SAFETY BOARD.

The Safety Board met a monthly session last night and transacted considerable business. Among other matters a sub-committee was appointed to meet with the hospital commission for consideration of the proposed fire escapes on the hospital building. On the personal recognition of his father, however, he was later released, pending an autopsy and death.

The bills and by-laws committee were requested to ascertain what powers the city had to order the removal of dangerous buildings and if it has none to take a step to obtain such powers. The same committee was also asked to obtain a by-law enabling the city to order the removal of material liable to cause fire, such as wet hay.

Owing to the increased protection from a higher water pressure it was decided that the city could get along without a water tower for the present.

The West Side fire defenses were discussed and the sentiment of the meeting seemed to be in favor of establishing a hose reel station near Blue Rock around 80,000 and that taxable assessment will amount to about \$45,000,000.

Hon. R. W. Scott, secretary of state, was the first of the cabinet Ministers to return to the capital. He arrived this afternoon and will be followed, it is expected, by most of his colleagues at the end of the present week.

The list of entries is the largest in the history of the association, and everything points to these being the fifth and sixth as being most successful. His presence in view of what has recently taken place created intense excitement.

THE BAND STAND.

Some two months ago, in spite of a division of sentiment in St. John, contracts were awarded for a band stand over the King Square fountain. This proposition had been discussed by the aldermen at several meetings. The first time it came up there was strong opposition and the proposal was defeated. A change of opinion, for which no very good cause was made known, took place during the next few days and the permission required by the promoters of the band stand was given. At the meeting at which the resolution passed, statements were made, apparently on authority, that there would be absolutely no destruction of trees in King Square by the building of the stand. This had been one of the arguments against the scheme. The contractors, published, called for the completion of the structure on the first of July. It is now the 28th of July and the band stand is still unfinished. Moreover, there appears to be an indifference as to whether it is ever completed or not, as there is no apparent anxiety to hurry the work. In the assurance given at the council meeting, a very large branch of one of the finest trees on the square has been chopped off, thus destroying to a considerable extent the beauty of that tree. It was the general understanding that the band stand was to be a steel structure, light in construction, although there was no authorized description of it giving this fact; instead of this it gives steel supports, the upper portion being heavy woodwork. It is already a month behind time, the trees have been mutilated, contrary to the expressed understanding, and as for adding to the beauty of the square there can scarcely be two opinions on this.

NORWAY'S UNREST.

President Fallieres of France is now on a friendly visit to Norway, but the opinion is expressed that this visit, although made with the best intentions, may have an unfortunate effect. There appears to be a growing tendency in Norway towards republicanism and while the people are not tired of Haakon as a ruler, they are becoming tired of him as king. According to reports it is doubtful whether upon King Haakon's death the monarchy will be continued and some there are who believe that even during his lifetime the form of government may be changed. The visit of Fallieres, as here head of the greatest Republic in Europe will, it is felt, be the means of adding strength to the party which desires to depose Haakon at once and elect a president. So far as the movement goes, that already in the movement an amendment to the constitution has been proposed that in the event of the extinction of the present dynasty it would be well to consider whether or not a monarchical form of government ought to continue. The complaint seems to be that Haakon was king at a time when such a step was necessary to the political independence of Norway; that although perfectly sincere the young king has not kept in touch with the people, nor shown his promised sympathy with their interests.

BILL BOARDS.

Halifax has with considerable success grappled with the bill board problem, and has introduced regulations by which this offensive but seemingly unavoidable method of advertising may be kept within bounds. St. John would well afford to devote the same attention to the same subject. Management of the bill boards and the control of advertising thereon, has become of late years quite a business, and numbers of large commercial concerns favor, to some extent, this mode of making known the qualities of their goods. In certain portions of the city there can be no objection to this glaring advertising, but certainly posters can hardly be regarded as adding to the attractiveness of the better residential streets. There is nothing added to a block of pretty houses, by a vacant lot fenced with high bill boards, covered with glaring lithographs, though on the outskirts there is much less objection. Yet because of the fact that in the more thickly populated districts the advertising value of the bill board is greatest, the problem in this case becomes somewhat more difficult of solution. It is to be feared that by many of the men who put up the large posters, proper care is not always exercised in keeping the streets clean. It is no uncommon thing to see sheets torn off the boards and thrown into vacant lots from whence, in the first high wind, they are scattered about the streets. Whether or not St. John is able to compel the removal of the unsightly structures against which complaint is now so frequently heard, which under present legislation is extremely doubtful, there should at least be an enforcement of those regu-

THE REAL BASEBALL.

Oh, take me away from the baseball game Where science is at the bat, And the players play In a technical way, Till a Rube can't tell what they're at. Where scores are highest when nothing at all, And nobody makes a base, Where nobody makes Any sort of mistake, And everything's just in place. Where spectators keep on the watch for plays So close that it gives them a pain; And whatever's done In hit, catch, or run, They scream at to take off the strain. Oh, carry me back to the old-fashioned game That doesn't know science at all; Where the sides go in With a whoop to win, And they don't do a thing but play ball. Where twenty or thirty or forty runs Are likely as not to be made; And the bags are hot From many a swat In games that are played as is played. Where the catcher don't look like an armored knight, And the pitcher is not so intense 'Em a little bit, But bangs 'em clean over the fence. Where something is doing that stirs up the soul About every minute or so, With the home-runs made And double plays played, And the whole darn thing on the go. Where grandstand and bleachers are all of a kind, And are there because they are there To see a good game That's good just the same, Though science be up in the air. Oh, take me away from the baseball game Where scientists have the call, And give me the play That lasts half a day, Hurrah, that is ball, that is ball! Stella—An exciting bridge game? Bella—Very, we played for each other's cooks.

FRANCE IS ACQUIRING THE LYNCHING HABIT.

Practice of Hanging Out Prompt Punishment to Suspects is Becoming Common

PARIS, July 27.—It is a noteworthy fact that attempts at lynching, a practice which was formerly quite unknown in France, are becoming frequent in this country and particularly in Paris. This innovation may be attributed to several causes. In the first place, so many dramas are enacted in public that on-lookers have no difficulty in tracing the culprit, who often still carries a smoking revolver in his hand, and whom, with the indignation at his height they can approach before the police have arrived on the scene. Then there is always a notion that the aggressor may not be dealt with severely enough when he is brought to trial. Over and over again have the police had to struggle with might and main to protect a murderer from the fury of the crowd. But there has just been a queer variation in what has almost developed into a custom. It has occurred at the Palais de Justice. The examining magistrate, who is investigating a case of attempted murder in the Rue de Clignancourt, had sent for the man who had been arrested by the crowd and, after having questioned him, had called in the woman whom he had tried to kill but who has completely recovered from her injuries as well as her son and daughter and some neighbors, the purpose of confronting them with him. As soon as the party set eyes on the assailant they literally went for the culprit. One seized him by the collar and half strangled him, while the other women hammered him, and he was in a pitiful state, all black and blue, with his clothes torn to ribbons, before the examining magistrate could arrive on the scene to free him from their grasp. The examining magistrate gave them several hours to cool down, and when they were again in his room, with the prisoner before them, they did not repeat the attack, although they told the man in forcible language what they thought of him. At the moment of his arrest, the crowd, at the moment of his arrest, they may be cut off by the gendarmes, they may at least be led to pause before they kill, through dread of being lynched, if they are caught red-handed.

NO TRACE OF KENT REWARD OFFERED OR HIS CAPTURE.

EAST WALLINGFORD, Vt., July 27.—At a late hour tonight Sheriff E. C. Fish, of East Rutland and Deputy Sheriff A. A. Leonard, of Wallingford, have been unable to find any trace of Kent. Posters were distributed throughout the southern part of the state today, announcing that if any state through Dr. D. D. Groat, of the state insane asylum, would give \$50 for the capture of Kent.

POLICE INTERFERED.

NEW YORK, July 28.—The six round bout between Billy Pape, the western middleweight, and Sailor Burke, of New York, which was set for last night at the Coliseum Athletic Club, did not take place, owing to police interference. Some thousand persons had gathered to see the fight.

BUILDING SIXTY TWO STORIES IN HEIGHT.

The filing of plans by the Equitable Insurance Company of New York, for a huge 62-story building, which is to overtop the 700-foot Metropolitan tower by more than 200 feet and look down upon the Singer Building from a superior altitude of nearly 100 yards, inspires one paragrapher with the illuminating idea that the tower of Babel may have been put up as an advertisement by the Bell and Taiter Life Insurance Society. Until this promised accession to the ranks of New York's sky-scrapers, with the likelihood of more, and perhaps taller ones to come, leads another journalistic observer to this in the phenomenal progress in aeronautics that the last few months have witnessed. VALUABLE SITES. Something more than the spirit of advertising it seems to be behind this skyward scramble of Manhattan's builders and architects. According to Mr. Paul Morton, the Equitable's president the reason that the company's old building is to be torn down and replaced by a \$10,000,000 sky-scraper is that the "lot on which the present building stands is too valuable to be without a modern structure. site—bounded by Broadway, Nassau, Cedar and Pine streets—is valued at about \$15,000,000. "It is calculated by experts," according to an item in the New York Evening Journal, "that enough material will be used in the new building to construct more than 500 private houses 60 feet high on lots 25 by 100 feet each, which would ordinarily cover over 15 city blocks. The new building of 34 stories will be 487 feet high, and this will rise a square tower 40 feet in diameter. The windows in the main building alone, it is said, will number more than 10,000. ERA OF HIGH CONSTRUCTION. The 30-story building has become a commonplace in New York, and even the Equitable's record-breaking plans "excite not so much wonder over themselves as they do in the region where the sky-scraping limit is to be found." This limit, The World thinks, "will be set by law, not by fact."

COMFORT FOR THE FAT IN HOT WEATHER.

Don't simply shed all your clothing. That is not the secret. It isn't your textile coverings that make life so wretched for you, my stout friends, but the fleshly covering—the fat. You can be comfortable, though fat, in the hot weather, by reducing the fat with a teaspoonful after meals and at bedtime of the following: Marmola, 8 ounces Fluid Extract Sarsaparilla, 4 ounces 4x Juice Siro Simplex. This is a harmless mixture that will put up with a small sum, but it succeeds marvelously. Try it and in a little while you should be losing a half to a pound of fat a day. You will soon catch up with comfort at that rate no matter how hot it gets. Always two scoops. And when you realize that this inexpensive way to a trim, slim figure, without the articles of interfering with one's diet—it becomes more than alluring—it's fascinating. Fat folks say so.

CAPT. S. MUSGRAVE HAS BEEN EXPLORING WILDS OF COLOMBIA. He Studied the Flora and the Fauna in the Interior. NEW YORK, July 27.—Captain S. Musgrave, of the British Army, was one of the passengers to arrive aboard the Royal Mail steamer packet, Astrato from the United States of America. Captain Musgrave has been on a twenty-months' exploring expedition in the interior of the wilds of Colombia, where he rode over a thousand miles in the interior from Bogota, the capital of the United States of Colombia. Captain Musgrave, who was in charge of Lord Roberts' armored train in the Boer war, has brought from Colombia several specimens of animal life, which are about nine inches from wing tip to wing tip, nine like emeralds. Captain Musgrave said he shot a box constrictor four feet long while he was down in Colombia. He dissected it and said that he found that it had two rudimentary hind feet, which have never before been found. Captain Musgrave said that some of the pythons in Central Africa have the hind feet, but never before have they been found on a box constrictor. The Venus fly-trap species of orchid was found by Captain Musgrave and dissected. He said that he found that it had digestive organs, brain and nerve ganglia like human beings. Speaking of the United States of Colombia, Captain Musgrave said: "Everything is dead down there. I think there will be a big revolution shortly, and that the United States of Colombia will be divided into three republics, the provinces of Antioquia, which is the industrial section, Santander and Cauca. "There is any amount of silver down there, but little gold. There is also considerable timber, and the interior has been little explored."

1. Railways—To assure a rapid extension of lines.

OF  
**Men's and Boys' Clothing and Furnishings**

**BEGINNING THURSDAY MORNING I will place on sale the entire stock of the Oak Hall Branch Store. Former prices reduced 1-4 to 1-2. This will be the greatest money-saving sale ever held in the North End of the city.**

I have purchased the stock of the Oak Hall Branch, 695 Main Street, and will re-open the store on Thursday Morning with a Grand Slaughter Sale, which in extent of its money-savings has never before been approached in this part of the city. The quality of the clothing need not be enlarged upon as the superiority of the Oak Hall Clothing is well known and the reductions in prices are from the Oak Hall original prices—which price tickets still remain—which are based upon their work as manufacturers. You will thus see the savings are about 1-2 of what you would have to pay elsewhere, which is reason enough for the most successful sale in the annals of retailing in the North End.

THE DOMESTIC FLY.

Timely Facts and Speculation Concerning an Interesting Creature.

"The common domestic fly," said a man who is no scholar but has managed to pick up many interesting facts, "is altogether too common and too domestic. She is one of the most interesting animals."

"The intelligence of flies is an interesting and exasperating study. One of the ordinary flies, one of the house flies, is to fold a newspaper in the shape of a heavy fat pad and which it carries with it when they are sitting."

"This method of getting rid of flies is often employed in restaurants. It was the method used in the railroad restaurant where a passenger hurried in for refreshment, glanced along the display of pies and said, 'Give me a piece of this huckleberry.'"

"That ain't huckleberry," said the waiter girl, waving her hand over the pie; "it's custard."

NOT TOO SERIOUSLY.

Of course, these curious calculations are not to be taken too seriously. At best they are estimates, and some of them are only ingenious guesses. But the statistical skill which is being brought to bear on them may in course of time lead to a more reliable basis of data. Meanwhile they will afford a rough measure of the financial progress of the world.

German Lines Ship White Star Lupo Reilly.

The White Star people must of necessity be hardest hit by this German movement, and Bruce Jamay and his friends do not usually take adversity lying down. Both British concerns must tap the Continent further north, if they are to continue to own big boats, but in the absence of a convenient British base this will be extremely difficult. London has a chance in this respect, that less notable places would have looked long ago. It would cost a great deal to make Tilbury Dock entrance wide enough for the very largest craft.
