PROCEEDINGS
OF
Annual Meeting of the Society.

The TWENTY-SIXTH ANNUAL MEETING of the MISSIONARY SOCIETY of the W. M. CHURCH IN CANADA, was held in the Richmond Street Wesleyan Church, TORONTO, on Monday Evening, the 9th day of June, 1851, Rev. ENOCH WOOD in the Chair. The Meeting was opened with singing and prayer, and a statement of the financial condition of the Society having been made, the following Resolutions were adopted :—

- I. Moved by Rev. N. F. ENGLISH, seconded by Rev. Mr. HUNT, supported by Rev. WILLIAM HERKIMER,—

That the Abstract of Financial Statement which has been read, be received and published in connection with a further Report; and that this Meeting offers its grateful acknowledgments to Almighty God for the measure of success graciously vouchsafed to the Wesleyan Missionary Society, and other similar Protestant Institutions.

- II. Moved by Rev. Mr. ROSE, seconded by Rev. Mr. CASE, supported by Rev. Mr. SICKLES,—

That this Meeting has received with lively gratitude to God, the statement of the Income of the Society for the year ending June, 1851. They regard it as a special favour of Divine Providence, that so large an amount has been realized; and that this Meeting, while heartily pledging itself anew to this sacred cause, commends it to the earnest and zealous support of all who desire extension of the Christ's Kingdom, and the welfare of the human race.

- III. Moved by Rev. Mr. WILKINSON, seconded by Rev. Mr. FILLMORE, Presiding Elder of Niagara District, State of N. Y.—

That this Meeting earnestly recommends to the friends and supporters of the Society generally, to connect with all their other exertions in behalf of the cause, more earnest and importunate prayer for the further blessing of Almighty God on the various means employed in the spread of the Gospel, and for His providential direction and control of all events, now transpiring, in making them subservient to the extension of pure and Scriptural Christianity.

REPORT.

INVITED by the periodical return of the season for the Committee of the Wesleyan Missionary Society to make a Report of their operations for another year, the duty to them is eminently pleasurable; for, upon reviewing their Indian and Domestic Missions, the whole work presents scenes of prosperity and fruitfulness, which could alone exist by the blessing of Him of whom it is said, "He shall come down like rain upon the mown grass: as showers that water the earth." Psalm 72-6. Labouring to "preach the word," the messengers of the churches have witnessed its power to transform and save: gracious words have been attended with gracious influences; fields under previous cultivation have yielded more plentifully the fruits of righteousness; there have been "showers of blessings"—the faint have been strengthened; the wanderer reclaimed; and the sinner awakened; whilst among such whose path "shines brighter and brighter," evidences of ripened growth in grace have rewarded the toils of those who have learned "to sow beside all waters."

The Committee gratefully solicit the attention of the supporters of the Mission work to the simple narratives which they place upon record, illustrative at once of their calling and success; and showing that amidst the commotions and changes which mark the history of the present day, there are those who stand in the old paths, and exhibit the truth of Christ as the only remedy for the world's miseries. The duty to proclaim the nature of this provision would not be less, if none obeyed the heavenly commandment; but when converting grace His ministers attend; when christian churches are organized; and christian temples are erected; and christian lives and tempers attest the divinity of the work, the obligation becomes more perceptible,—more readily acknowledged, and more promptly obeyed. The Committee strongly feel that their "calling" is to adhere to, and publish aloud, through the instrumentality of converted men, the truths of a pure and unadulterated Gospel. Awakened to a lively sense of their duty to supply the destitute with the word of life, strengthened and sustained

UNITED CHURCH
ARCHIVES

by the very generous response to the appeals of the past, both from the pulpit, the platform, and the press; and animated by the glorious results of former years of pious labour and toil, the Committee have not hesitated to enlarge the field of their operations both amongst the Indians and remote white settlements; confident in the holy, permanent principle by which the members of the Wesleyan Church are animated in the maintenance of their Society; giving glory to God for the precious souls already brought under the power of saving grace; and rejoicing in the prospect of an increasingly successful career for this heaven-born enterprise.

Aware of the possibility of the mind becoming less dependent upon the indispensable effusions of the Holy Spirit from the very effects of such a visitation being visible to the eye,—that familiarity with ordinances, and churches, and christian temples, may diminish that simple reliance upon the “power of God” so easy to maintain in the face of formidable obstacles, and when contemplating the first movements of aggressive designs upon the most debased and polluted of the human family,—the Committee would urge upon the friends of Missions, the necessity of constant reference to the GODHEAD,—the sole object of their adoration and trust. They cannot forget that the Society’s existence is the fruit of ardent piety, and glowing zeal for the salvation of man;—that the Society’s labourers have been distinguished for their spiritual-mindedness,—their power in prayer,—their willing sacrifices;—their reliance upon the cross, combined with such an order of native talent, which, during their whole lives was devoted to the service of the church, that had it been employed in secular pursuits, would have been rewarded with honour and wealth, such as it is that the world has to bestow. Living in times, too, when both the blandishments and assumptions of a false form of Christianity throw either their glare or darkness across their path, the Committee feel anxious themselves that their expectations should not be founded so much in the wisdom and adaptation of the agency, as in HIM who hath said,—“He shall cause them that come of Jacob to take root; Israel shall blossom and bud, and fill the face of the world with fruit.” ISA. xxvii. 6. They would affectionately invite the friends of Zion to unite with them in a devotional, dependent spirit: looking to the Great Head of the Church, that *He* may “pour out the spirit from on high.”

“O might it now from thee proceed,
With thee into the souls of men!
Throughout the world thy gospel spread;
And let thy glorious spirit reign,
On all the ransom’d race bestow’d;
And let the world be fill’d with God!”

Illustrative of the extent of the work, to which the funds committed to the Committee of Management are appropriated, the following list is presented of the Stations and Missionaries labouring thereon, in Canada West:—

INDIAN MISSIONS.

St. Clair—William Herkimer.

Muncey—Samuel Rose, and John Sunday. Brother Rose's attention is principally directed to the Industrial School.

Oneidas—Abraham Sickles.

Saugeeng—James Hutchinson, David Sawyer.

Grand River—William Ryerson; Abraham Carpenter, Assistant Missionary.

New Credit—Rowley Heyland; Peter Jones, supernumerary.

Snake Island, &c.—Joseph Messmore, John Goodfellow.

Schoogog—Joseph Shilling, Teacher and Exhorter.

Alderville—William Case, whose attention is specially directed to the Industrial School; Thomas Hurlburt.

Rice and Mud Lakes—Robert Brooking.

Rama and Orillia—William Steer.

Beansoliel and French River—Horace Dean.

Nawash—Edward Sallows.

Lake Huron, North Shore—George McDougald.

* * In addition to the above, there are engaged in this department, twenty-four paid Agents, acting as Interpreters and Teachers.

DOMESTIC MISSIONS.

Brock—Cornelius Flummerfelt.

Erin—George McRichey.

Barrie—Lewis Warner, Thomas Culbert.

Mono—William Dignam.

Cookstown—Luther O. Rice.

Penetanguishene—Henry Reid.

Notawasaga—One to be sent.

St. Vincent—Stephen Brownell, Alexander Campbell.

Owen's Sound—John Williams; J. Neelands, supernumerary.

Proton—Joseph Hill.

Kincardine—Thomas Crews.

Bruce Mines—One to be sent.

Devonshire—Thos. Williams; Edmund Stoney, superannuated.

Goderich—Samuel Fear, Joel Briggs.

Strathroy—James Armstrong. One to be sent.

Warwick—John Webster.

Providence—Edward White.

Wardsville—Charles Sylvester.

Wallaceburg—To be supplied.

Amherstburgh—Richard Whiting. One to be sent.

Blenheim and Stradford—Joseph Shepley.
Wellesley—George Case.
Naticoke—John Baxter.
Dunville—John Hunt. One to be sent.
Chippewa—Robert Corson, William Creighton.
Cayuga—Thomas Jeffers.
Elora—Solomon Waldron. One to be sent.
Peel—Matthew Swan; Ezra Adams, superannuated.
Cartwright—John Sanderson.
Norwood—G. F. Playter, William Sanderson.
Metcalfe—Thomas McMullen.
Shannonville—William Chapman.
Sheffield—John C. Osborne.
Hungerford—Thomas Cleghorn.
Madoc—Robert Robinson; Stephen Miles, superannuated.
Rawdon—William Coleman.
Bath and Amherst Isle—George Carr, R. Brewster.
Gananoque—William H. Williams.
Newborough—Michael Baxter. One to be sent.
Sherbrooke—David Jennings; Alvah Adams, superannuated.
Hinchinbrook—One wanted.
Merrickville—Erastus Huriburt.
Cornwall—Vincent B. Howard, William Burns.
Winchester—David Hardie.
St. Andrews—Francis Coleman, Richard Hammond.
Lochaber—Daniel Wright.
Osgood—Henry Shaler, Robert Hobbs.
Gattineau—John Armstrong.
Clarendon and Onslow—William Pattyson, Andrew McAllister.
Westmeath—Jonathan Loverin.
Renfrew—Thomas Hanna.
Torbolton—John Howes.

INDIAN MISSIONS:

No declension of zeal for the present and eternal welfare of the Aborigines of this favoured country has been manifested from the commencement of a large portion of the tribes still living amongst us being converted to God. Although the records of the church will be found to contain painful evidences of the instability and waywardness of some, still many remain faithful to their vows, and according to their light and knowledge are walking in the fear of the Lord, and in the comfort of the Holy Ghost. Possibly no one year could present more encouragement in the issue of those means which have been employed for the

maintenance brethren than an unusually worship, and attended the has been her gladdened t instance the the conversi ness and de strongest evi at the dispos robes and d duties when strids of de the Church and many t been awake visited our at Mount and have e them. To not far dis greatly add with the C:

But little of a design have strong welfare of bands, settl exceedingly among th character, hearty app nities. W a plan, th indispositi undefined urged for abandonee all meetin

maintenance and enlargement of the work of God amongst our Indian brethren than the one which has just expired. On some of the Stations an unusually regular attendance has been given by the people to public worship, and to the social means of grace: Divine influences have attended their gathering together; the voice of praise and thanksgiving has been heard in the house of prayer; and the Missionaries have been gladdened by penitent and enquiring seekers for salvation. In one instance the Gospel displayed its transforming and renewing energy in the conversion of a Pagan "medicine man;" who after years of darkness and delusion was brought into the light of truth, and gave the strongest evidence of his change that he could offer, by voluntarily placing at the disposal of the Missionary the whole of his singular professional robes and decorations, in which he was accustomed to discharge his duties when attempting to charm and extirpate disease, and ward off the strides of death. Amongst the additions reported to be now united to the Church during the year, are found a number from the Pagan ranks, and many from nominal Christians. A hopeful spirit of enquiry has been awakened amongst a number of Pagans to the West, who, having visited our Mission Stations, and some of them our Industrial School at Mount Elgin, are very desirous to have their children educated, and have expressed a wish that Missionaries might visit and reside with them. To these calls attention is now being paid. We hope the day is not far distant when, encouraging as our Stations now are, we shall greatly add to their number, and enlarge the Mission field in connexion with the Canada Conference.

But little advancement has hitherto been made in the accomplishment of a design in which both the Government and the Missionary Society have strong convictions of its being most intimately blended with the welfare of a large number of Indians, who are now scattered in small bands, settled in places very distant from each other; and some of these exceedingly unsuitable to their improvement. The longest residents among the Indians, the most attentive observers of their habits and character, and the most pious and disinterested witnesses, all join in hearty approval and advocacy of their concentration into larger communities. Without denying the advantages which would accrue from such a plan, they still hesitate and procrastinate, justifying their present indisposition by various frivolous excuses, intending at some future but undefined period to act upon the advice which their best friends have urged for their adoption and practice. The subject will not be abandoned; but as one of moment will be kept before their councils at all meetings when it may be prudent again to exhibit it for consideration.

ST. CLAIR.

"I am joyful that the God of Missions comforteth us. Myself and family, as well as brother A. Salt and family, have enjoyed through the year an almost uninterrupted state of good health, for which we desire to give thanks to God, from whom all our mercies flow. There has been but few cases of sickness among the adults on the Mission. The deaths which have occurred have been principally infants or little children; I think only two exceptions: one a boy about fourteen years old. I frequently visited him in his sickness, and he appeared to be happy in his Saviour as he drew near to death. The other was an old woman, for many years a member of the Church.

"A few have professed to be converted during the year. One case is particularly deserving of note as an unmistakable one, or one admitting of no doubt. The case alluded to is that of Petannee, of the Pottawatamie tribe, who is now residing on this reserve. He was for many years a great man among his people, a conjurer by profession, but the Spirit of God caused him to feel that all was not right with him, and he was induced to attend, with others, the means of grace in God's house. He sought and found Jesus, the sinner's friend. He now speaks freely and clearly of the love of God shed abroad in his heart. Last Sabbath week we held our last Quarterly Meeting for this year, which was decidedly a great Meeting among us; the speaking in Love Feast I think the best I ever heard in an Indian congregation: nothing about dreams or strange visions, which we sometimes hear, but every speaker spoke of the present enjoyment of the love of God in his hearts; and the only drawback was, we were compelled for want of time to close the Love Feast too soon.

"The number received on probation during the year is 24.

"The School, since the Indians returned from sugar-making, is again going on prosperously. I think it due brother Salt to say, he is a good school-teacher and interpreter, and I know not how his services could be dispensed with on this Mission. So you see as dark as the night may be, there are yet a few stars to cheer the gloom of the traveller and labourer in the Indian work."

J. K. WILLISTON.

MUNCEY.

The Superintendent has forwarded the following interesting report:—

"This Mission is established on the River Thames, twenty miles below the Town of London; and is designed for the benefit of the three Indian bands, speaking three distinct languages, residing here.

"The first are the Ojibways, including a few Pottawatamies, who, however, speak the Ojibway language. These number about 400. Some 200 attend the ministry of your Missionaries; 70 have their names on our Class Books, as fully accredited Church members; and 20

are on trial, and the remainder

"REGULA the children half-past five School-room From six ti

are on trial,—some few of whom have been gathered from paganism, and the remainder from apostacy.

“The second are the Munceys. These have been since the year 1820 settled on land belonging to the Ojibways, with the consent of this tribe. They number about 250. About 100 attend the ministry of your Missionaries; 36 meet regularly in class, and are very exemplary and pious; 16 have been received on trial during the year.

“The third are Oneidas. These number about 500; 200 hundred attend the preaching of the word, 70 are fully accredited Church members; 18 have been received on trial during the year.

“Besides these there is a class of 31 whites, composed of persons residing on and near the Indian Reserve; 14 of these have been converted to God and added to the Church during the year.

“After deducting for deaths, removals, and expulsions, we are enabled to report an increase of 71 over the returns of last year. To God be all the glory!

“**SABBATH SCHOOL.**—Owing to the want of suitable Teachers, we are able to keep up but one Sabbath School. This is, however, attended by some few from each tribe of Indians, and from the Whites. There have been 60 children and young persons in regular attendance during the year. Those capable of reading have been formed into a Bible and Catechumen Class; 10 of these have been converted and added to the Church during the year.

“There are three Day Schools; about 80 children and young persons in regular attendance.

“**MOUNT ELGIN INDUSTRIAL SCHOOL** for the benefit of Indian youth, of which mention was made by my excellent predecessor in the last year's Report, and which was opened by him in May, 1850, with 13 children as boarders, and a number of day scholars, now contains 34 Indian youth, who are boarded and clothed in the Institution. Five of these have been in the School since its commencement; the remainder from 5 to 7 months. They appear happy and contented, and are making very satisfactory improvement.

“Some of these did not know their letters when taken into the School, yet all can now read; 22 are writing, 16 are cyphering, and 10 are studying geography. Besides those boarded and clothed in the Institution, there have been 20 day scholars in regular attendance, and some 15 occasionally.

“A male and a female Teacher are employed, who have laboured with very great acceptability and success. Almost every article of clothing worn by the children has been made by those connected with the Institution, amounting to some hundreds.

“**REGULATIONS.**—The bell rings at five o'clock in the morning, when the children rise, wash, dress, and are made ready for breakfast. At half-past five they breakfast; after which they all assemble in the large School-room and unite in reading the Scriptures, singing and prayer. From six till nine the boys are employed and taught to work on the

farm, and the girls in the house. At nine, they enter their Schools. At twelve, they dine and spend the remaining time till one in recreation. At one they enter School, where they are taught till half-past three, after which they resume their manual employment till six. At six, they sup and again unite in reading the Scriptures, singing and prayer. In the winter season the boys are engaged in the Evening School, and the girls are taught needle-work till nine, when all retire to rest. They are never left alone, but are constantly under the eye of some of those engaged in this arduous work. Every effort that can possibly be made is put forth in humble reliance on Divine aid to break up their indolent and irregular habits, and to implant in them a love of order and industry, for unless this can be accomplished, with all the mental, moral, and religious culture that can possibly be given them, they will leave our schools to resume the chase; and, as others have done, wander in idleness, form vicious associations, contract evil habits, and, with their decreased and decreasing nations, fade away before the face of improved and improving society. Your Manual Labour Schools is the last effort in connexion with your heaven-owned Missionary labours, to save from utter extinction the remnant of a once noble, but now deeply degraded and long neglected race. Heaven smiles on your efforts!"

SAMUEL ROSE.

Our esteemed Co-Delegate, the Rev. J. RYERSON, having paid his first visit to Mount Elgin, we have pleasure in placing upon record the following extracts from a letter addressed to the Superintendent of Missions:—

"There has been one of the most remarkable inundations ever known in this part of the country, occasioned by the heavy rains that fell in the west and north, during the first and middle of week before last. The Thames at this place rose more than thirty feet; it overflowed all the flat country and destroyed an immense property, consisting of cattle, hogs, sheep, hay, wheat, &c. &c. The water was several feet deep over the lower parts of Mission farm; carried away a great many fences, so that on the subsiding of the flood, the oats, corn, peas, potatoes, and spring wheat found themselves without the protection of an enclosure. Every hill of Mr. Sickles' corn was destroyed and is now as completely dead as though the field had been inundated by the *lava of Etna or Vesuvius*. Sickles has also lost most of the fence that stood on his "flat land." The grain and vegetation on the Mission farm, as a whole, looks exceedingly well; there are now just "ready for the harvest" some twenty acres of winter wheat. There is also growing and looking well, the products of twenty-seven bushels of sown spring wheat, twenty-two bushels of oats, twelve bushels of peas, and twelve bushels of potatoes. On Wednesday morning, in company with Mr. Rose, I walked over the whole Mission premises, and certainly for beauty of scenery and richness of soil, they are not surpassed by any spot in America. On Thursday, I went down the river to John Sunday's; found him quite well in body and mind. Sunday enjoys much better health

than usual, and appears to be content, happy and successful in his work. He was lamenting the backsliding of some of his people, especially one or two young persons of promise, who made a profession of religion some three or four months ago; and as illustrative of the sorrow he felt, he said he had bought two or three *pigs*, that he was feeding them with *boiled corn, peas, &c.*—that they were growing very nicely—that he liked them very much; but if at the end of three or four months some one should steal them away from him, and starve or kill them, he, Sunday, would feel very sick and sorry in his heart for his pigs; so said he ‘I feel very sick and sorry in my heart that the *Devil* has stolen away these young children, as I am very much afraid he will starve and kill them.’ On Friday, I went over the river to the Oneida settlement. Most of the farms in this neighbourhood look well, and the growing grain, from appearance, promises an abundant harvest. I felt sorry for Sickle, by the late inundation he has lost *every hill* of corn of ten acres of planting, all of which, they say, looked most beautiful, and would have produced not less than five hundred bushels of shelled corn. Sickle feels very uneasy and uncomfortable about the ‘*Hymn Book*.’ He says ‘they are suffering the greatest inconvenience and much loss for the want of a Hymn Book; that he could get it published *at once* in the States, if he had the M.S.—that deputations had been down from both the Church and Methodist Indians at Green Bay, inquiring for it—that he could dispose of a *thousand copies* immediately, if he had them—that you told him at the Conference that the printing should be forthwith proceeded with, &c.—but since, he had not heard a word about it, and he knew not what to think.’ I think we should, with as little delay as possible, print this book, and that the edition should not be less than fifteen hundred copies; and if it should be found that there are inaccuracies in the work, it would be no great matter in a small edition of a Hymn Book. There are now *thirty-two* children in the Manual Labour School, male and female—twenty-two boys and ten girls. They are fine looking young persons, and I believe are making good progress in learning the practice and habits of industry and economy. The children in the school are taught singing as well as other branches of useful knowledge, and certainly they have made great proficiency in the study of this branch of science; their voices are like well tuned instruments, and the music they send forth is exquisitely delightful. Yesterday I preached three times—at Colborne, at 11 o’clock; in the Institution, at 3 o’clock; and in the Oneida settlement, at 6 o’clock. I also attended the Sabbath School of the Institution at 9 o’clock. The religious services were all well attended, and the exercises, to my mind, at least, profitable.”

GRAND RIVER.

“It is cause of gratitude, that amidst considerable difficulty and discouragement, the Lord has visited us on this Mission, and vouchsafed some degree of prosperity.

“There are on the Grand River Reserve, a little rising of two thousand three hundred Indians; of whom nearly one fourth are yet

Pagan. The Pagans, as far as *direct* effort is concerned, are at present inaccessible, having resolutely determined not to listen to the instructions of the Christian teacher. Besides the natural enmity of the heart to the gospel, two things have greatly contributed to place them in this position, viz :—denominational rivalry, and the utterly abandoned character of some who have renounced the absurdities of Paganism. A number of those who have forsaken the idolatrous rites of their forefathers, are under no kind of religious influence ; they drink in iniquity, 'as the ox drinketh the water,' and are worse than the heathen ; the Pagans, however, regard them as Christians, and take occasion to say—"The white man's religion do Indian no good." Thus are they hardened in unbelief. Some of them would send their children to school, and I believe this is the only way by which we can at present reach them, but it is a painful fact that there is not a school to which they can have access, having settled chiefly in the lower part of the township.

"Our cause on this Mission suffers materially for want of chapel accommodation. We are compelled to witness, not only on special, but frequently on ordinary occasions, many persons reluctantly leaving the door of our sanctuary, because the place is too small for us.

"Obstacles are thrown in the way of the Missionary's usefulness, by his living on one side of the river, while his work is chiefly on the other. The members are scattered over nearly the whole Reserve, perhaps twelve miles in length, and from six to nine in width, while the only way of getting a horse across, is to go round by Brantford—fourteen miles extra travel. These are some of our difficulties, and in order to lessen or remove them, we ought to have, immediately, a school accessible to the Pagans, and to our members in the lower part of the Reserve ; and as soon as possible, a larger chapel erected ; and then a parsonage on the other side of the river. The supporters of our Missionary Society can easily perceive, that, liberal as have been their contributions, the exigencies of the work demand an extensive increase.

"During the year, there has been a number of conversions among the Indians, and several backsliders recovered : among the whites, two small classes, one of nine, and the other ten members, have been organized. Our numbers now stand—Indians, 124 ; Whites, 19. The increase according to this return is only three members, but I think more than usual care has been exercised in making it.

"It may perhaps be regarded as indicative of an improvement in the state of the Mission, to notice, that we have raised *more than three times* the amount of Missionary contributions for the previous year.

"Perhaps I may say that our day school is equalled by but few, if any, Indian *common* schools in the Province. It has been well attended during the past winter, and the scholars have made pleasing progress. We have organized a second Sunday School, with every prospect of success.

"In regard to the state of numbers generally, there are some over whose lukewarmness and instability we have often shed the tear of sym-

pathy and sorrow ; but the great bulk of our men have been steadfast. May they abound more and more in the work of the Lord! We have been favoured with two visits from the Rev. *Peter Jones*, by whom the brethren were very much refreshed and encouraged. May the Great Master reward him for his labour of love!

"While thanksgiving is cheerfully rendered to God for what he has wrought among the Indians, who can look upon the hundreds of them in this settlement that are tottering on the verge of the burning pit, and that, unless rescued by the grasp of Omnipotence, will soon be irrecoverably engulfed, without, in an agony of earnestness, crying—'Save now, I beseech thee, O Lord : O Lord, I beseech thee, send now prosperity!'"

KENNEDY CREIGHTON.

RICE AND MUD LAKES.

"It is with no ordinary feelings that we now look back upon the operations of the past year. The labours and anxieties of a Missionary among the Indians are not a few. The preconceived notions, and the previous habits of the Red-men of the forest, render it in many instances a task of no small difficulty to instil proper views into their minds. And it is not until after a residence among them of some time that one can obtain a proper insight into their modes of thinking and their habits, to be able to labour among them with any degree of efficiency. We are thankful to our Heavenly Father to be able to state that a visible improvement has taken place during the past year. Many of our people have improved in their christian experience, and the means of grace have been more generally attended. Our congregations are much larger now than they have been heretofore, while our services—especially those in connexion with our Quarterly Meetings—have been attended with a delightful influence. The Sabbath is kept in a manner highly creditable to them, notwithstanding the evil example set them by the white man, many of whom make Rice Lake a place of rendezvous for fishing and shooting on that holy day. One of our aged members has passed into eternity during the year, and has left behind her a testimony of having entered into the rest of the people of God.

"They have also steadily progressed in their agricultural operations. The crops of the present season are looking promising. A considerable breadth of land is this year under crop ; and if it be only an ordinarily prosperous season, most of them will have enough and to spare. It must not be understood that the community make a joint stock affair of their farming. Every individual has his own farm laid out and fenced in, and is therefore entirely dependent on his own exertions for his crops ; and I am thankful to state, that, with few exceptions, their farms are generally cultivated. Several of them are now engaged in enlarging their farms, and several acres are at this time chopped, and are being prepared for fall wheat.

"Mrs. Brooking has, during the last two years, established a sewing-school, principally for the purpose of instructing the younger part of the females in sewing and knitting, though it has not been entirely confined to these, for several of the elder women have also attended, for the purpose of making their husbands and children's clothing; and they have generally made commendable proficiency. Many of them can now cut and make their own dresses with neatness and taste. They no longer wear their old Indian costume, but dress in the style of the whites. They have also made considerable progress in knitting; most of the married females have knit their husbands' silk purses, of which they are not a little proud: and now, instead of seeing their windows hung with blinds of the most gaudy and showy patterns, or without any curtains at all, you will see most of them with knitted cotton ones of the most chaste and simple patterns. Two or three of the younger ones now take in both dress-making and fancy knitting, as a means of obtaining a living. I am sure it would give great pleasure to the contributors to the Mission cause, if they could see so many of these once degraded females assembling together weekly for the purpose of learning the arts and usages of civilized life.

"It must not be concealed however, that we still have our difficulties. There are here, as well as in other places, factious spirits to contend with; and although we have succeeded in nearly banishing intoxicating drink from the community, there are yet a few who cannot be persuaded to discontinue its use. But we are not discouraged.

"Our school, which was interrupted from the want of a school-master, has been in successful operation during the year, though it has met with some interruption in consequence of the small-pox. We have also succeeded in establishing a Sunday School, which is well attended.

M U D L A K E.

"In consequence of the distance of this Station from Rice Lake, and the difficulties of getting there during certain seasons of the year—the lake being impassable for some time in the spring and fall—and the frequent absence of the Indians from home, it has not had that amount of pastoral supervision that I could wish to give it; nevertheless, they still continue to improve in their spiritual condition. Our last Quarterly Meeting was one which will long be remembered.

"Their agricultural prosperity will not compare so favourably with some of our other Stations, for the same reasons which were assigned in our report of former years.

"Taking these Missions as a whole, we have no cause of complaint; but, on the contrary, great cause of gratitude to God for the blessings conferred upon us. We have had a small increase in our Society, and also an increase in our Missionary subscriptions.

"A new preaching place has been taken up in a rising white settlement in the vicinity of Rice Lake, with favourable prospects."

ALDERVILLE.

"The position and importance of this Mission were so fully stated in the Report of the preceding year, that we deem a recital unnecessary. We therefore refer our readers to that Report—page 15.

"We have, however, to observe, that every successive year shows the value of the Mission to these settlements, both of the Whites and the Indians.

"Our religious and educational institutions here, will, no doubt, prove advantageous to other tribes. The Industrial School, so well adapted to the wants of an indolent and wandering race, must have its influence when more of the Indian youth shall be qualified and appointed to fields of labour among their own people in the north and west. From this source we look for a more ample supply of native Missionaries, Teachers, and Interpreters.

"The funds are mostly in advance of the preceding year,—the Missionary Collections to £28 13s. 7d., being an advance of £8.

"We wish again to report our wants for more chapel accommodation. Though considerably enlarged a few years ago, it is now quite too small for our ordinary congregations. On extra occasions, great numbers are unable to gain admittance.

"Then, again, the necessity for further translations. The work has long suffered for the want of a sufficient number of Hymn Books, as well as for further portions of the Scriptures in the Ojibway tongue. We hope for both by another year.

"In conclusion, our prospects were never brighter : a contented and happy people ; their temporal condition improving ; our religious services spiritual ; and peace and prosperity pervading."

WM. CASE.

SAUGEEEN.

"When I arrived here last season, after the Conference, I found the Mission in a very low condition. Many had backslidden. The young people appeared to be quite careless with regard to religion, so that I have frequently thought that the Mission was entirely lost to all good ; and that instead of advancement, a retrograde motion had marked their condition. I have held meetings with them. Some are beginning to attend more regularly, and I am happy to say, that the Mission is in a much better condition. Four have died—two old and two young persons. We have received 18,—two on trial ; seven we have been forced to expel—leaving the nett increase eleven. The total number of members on the Mission, 105."

COLPOYS BAY.

"I have visited it twice. Held Quarterly Meetings. We enjoyed good times. The people appear to attend preaching very well ; and I think that if it was properly attended to, that it would make a very good little Mission."

C

WM. HERKIMER.

RAMA AND ORILLIA.

"These Indians still adhere to their old, roving, and precarious methods of obtaining a subsistence, and pay but little attention to agriculture. The usual fruit result—indigence; the loss, from time to time, of all the advantages to be derived from the location of the Missionary among them, by their frequent absence from the station, and a very defective attendance of their children at the school. Some of them, we hope many of them, are truly godly.

"They continue to show considerable regard for the public worship of God, and for the Sabbath; and having the privilege of a Missionary Meeting last winter, they evinced a laudable zeal in subscribing to the Missionary Funds, and have paid considerably more than last year. Only one member has been dropped; one has withdrawn; one has removed to another Mission; one has died; and three—one of them from another Station—have been added. As this, the Snake Island, and Beausoliel bands have agreed to reside together, we trust a brighter day is about to dawn on this people.

"In the White part of the Mission, our prospects are encouraging. In the little Society we have a number of consistent Christians, whose progress in the divine life, during the year, has been cheering to the Missionary. Our congregations have been tolerable, and we have a small but excellent Sunday School."

WM. STEER.

BEAUSOLIEL AND FRENCH RIVER.

"In reporting the state of this distant and northern Mission, I think it will not compare unfavourably with any of our Indian Missions. With very few exceptions, the members of class have been steady in their deportment, and faithful in their attendance to class and the other means of grace when at home.

"You will perceive that there is a considerable increase in the numbers, when compared with last year; but it does not arise so much from any new accessions, as from a mistake in making up the numbers of last year.

"Through the assistance of my Interpreter, the School has been kept steadily, when the Indians have not been from home, which, perhaps, is less than on some other of the Indian Missions.

"Our March Quarterly Meeting was made a blessing to many. From that time to the present, the spirit of piety and devotion has been increasing.

"The Chairman of the District was with us at our last Quarterly Meeting. It was a time of quickening and of great power. All could say, 'Lo, God is here; let us adore.' Mr. Warner was pleased to express his surprise and gratification at the very great improvement that is being made by the Indians on this Mission, in cleanliness, in dress in domestic comforts, as well as piety.

"On Sa journey up but our jo three days snow fell c so that we sometimes over us; l of the win back safe

"I feel that we have reason to be very thankful to the Great Head of the Church for his blessings to us and this people during the past year. We have lost but one member by death during the year. It was Sarah, the wife of Abraham. She was old and full of days, and no doubt fully prepared to join Sarah of old, who, like our dear sister, dwelt long in tents below, but now in that house above not made with hands, eternally in the heavens.

"The members in full standing are:—Beausoliel, 49; on trial, 3; French River, 15. Total, 67. Died, 1; expelled, 2; removed, 2.

"During the year, I have visited the Shawanahgog and French River Indians twice. For the account of my first visit, see Missionary Report for 1850. On Tuesday, the 22nd of April, I left home, with two Indians, and, on Friday, found the French River Indians encamped six miles from their village. They were in the vicinity of their planting grounds, and where they last made sugar. Here they have some good land, and have reserved from their late surrender to the Government, six miles square, lying on a deep bay.

"We found the Society in a healthy state, with one exception. We staid with them till Tuesday morning. Preached to them three times. Held two Prayer Meetings. Had a Love Feast, and administered the Lord's supper. On Tuesday morning, after a hearty shaking of hands, we plied our paddles to the liquid element, and, accompanied by Brother Solomon, who is the Teacher here, and his amiable wife, who returned with us on a short visit to Beausoliel, we soon reached the village, at which we called to reconnoiter. It consists of nine small log houses, and a log school house. It stands on the side of the bay above mentioned, on the main land, or I should rather say rock, for it stands on a bare rock, without any land near on which they might raise the least vegetables. They are talking of moving to their planting-grounds, and building, within a year or two, which will be far better for them.

"On Wednesday, about noon, we got to the encampment of the Shawanahgog. They were not on the bare rock, where we found them last summer, but on the main shore, where they intend to build their village. The site is pleasant; but the little earth that is to be found, is poor. Their good land, of which they say they have some, is five or six miles back from the water; the path leading over the most rocky and uneven way possible; and yet such is their attachment to these barren rocks, but picturesque bays and crystal waters, that it is impossible to persuade them to move to any other locality. They hope to be ready for a Teacher this fall.

"On Saturday we got home, having been gone twelve days. Our journey up was pleasant, with the exception of head winds all the way; but our journey back was not only fatiguing, but perilous. The first three days of May we were very stormy; it snowed each day, and the snow fell on the first, five or six inches deep, and the wind blew a gale, so that we were not only exposed to severe cold by day and night, but sometimes our frail bark was almost filled with the breaking of the waves over us; but through the mercy of that 'God that flies upon the wings of the wind, and makes the dark waters his pavillion,' we were brought back safe and in good health.

"During our journey, we saw great numbers of stone gods. Almost every Island has its god. In stopping to inspect one, I found it to be a hard black granite, weighing some seventy or eighty pounds. It was about fifteen inches high, with a flat base, which made it stand firm on the solid rock. It was not unlike the foot and leg of some large animal. On lifting it, I discovered under its foot part of a plug of tobacco that had been offered by some devout worshipper, either as a thank-offering, or to procure some favour, perhaps to obtain a fair wind. Oh, man, to what depth of degradation art thou fallen!"

HORACE DEAN.

NAWASH.

"There are three preaching-places on this Mission. The first or principal place is at the Indian Village of Nawash, beautifully situated on the eastern shore of the Sound, and commanding a pleasing view of the harbour and rising Town of Sydenham. There is here a neat church and snug parsonage. There are forty-four church members, and about one hundred and fifty, including children, who attend the public services.

"The Station next in importance is the Indian Settlement on the south-eastern shore of Colpoys Bay. There being no building at this place erected for the worship of God, the religious services are conducted in an Indian wigwam; the congregation vary from twenty to thirty. There are some fifteen or sixteen church members. Because of the difficulty of reaching this place by land, from the badness of the way, and by water from the prevalence of contrary winds, it cannot be regularly supplied with preaching by the Missionary residing at Nawash.

"The third preaching place is called the Magazeene Settlement, which, because of its nearness to Nawash, being only seven miles distant by water, requires only to be supplied with preaching during the winter, the people availing themselves of the religious services at Nawash during the summer months. Congregation averaging from fifteen to twenty, with seven in Society.

"Towards the latter part of the preceding summer, a Camp Meeting was held near the principal Station, which was attended by about three hundred Indians, besides a considerable number of Whites. The Indians belonging to the Mission, with those of Saugeen, liberally supplying all with provisions, &c. The religious services were ably conducted by the Rev. Enoch Wood, General Superintendent of Missions, and the preachers from the adjoining Missions and Circuits. Much spiritual good, doubtless, was experienced, not only by the people of this Mission, but also by those who came from the contiguous Missions.

"In the succeeding winter, a Protracted Meeting was held by the writer, at Nawash, assisted by Brother Sawyer, Native Preacher and Interpreter, and the Indian Exhorters. The result of these efforts is a small increase of church members.

"In the fall of last year, His Excellency the Governor General visited the Sound; and, having arrived late on a Saturday evening, remained

over Sabbath. On Sabbath morning, His Excellency and suite attended Divine service in the Episcopal Church, in Sydenham, and in the evening at the Wesleyan Church, at the Indian Mission. Thus, by example, which frequently exerts a more powerful influence than precept, the representative of royalty discountenanced religious bigotry, and countenanced morality and religion.

"The Day School at Nawash numbers over thirty children, male and female; but the average attendance does not exceed twenty. The progress of the children in acquiring a knowledge of the English language, and other useful branches, is comparatively small. This arises partly from the general absence of the Indians, with their families, from their homes, for a considerable time in the spring, in the fall, and in the winter, and in consequence of their Teacher having to communicate instruction through the medium of a language foreign to most of the pupils.

"The same causes militate, to some extent, against the Sabbath School. However, the evil as it regards having to communicate instruction through an imperfect medium has been obviated by the aid of Brother Sawyer, who teaches a class of children and adults in the Indian language. Total number of Sabbath Scholars, thirty-two."

JAMES HUTCHINSON.

The Missions not particularly reported upon at *Schoogog, New Credit, &c.*, present no special feature of alteration. That at *New Credit* still exercises the sympathies and care of the Society, principally from the slow progress which has marked the agreement to finish the Mission-House and Church, the incomplete state of both proving adverse to any settled and regular pastoral supply, such as a Missionary Church more especially requires; together with the serious ill-health of many of the Indians in their new location, and the dispiritedness occasioned by the death of several valuable members of the community.

In these Missions our friends in England have long been much interested; nor do the Committee of the Parent Society overlook the nature of our work, or omit to rejoice in our success; vast as the field is of their observation, and numerous the documents from which they have to select in reporting annually to the Wesleyan community and others throughout the world, they kindly remark of our Western field of labour, in the Report, for 1851,—

"The most interesting department of the Mission in British North America, is that which embraces the Aboriginal Tribes belonging to Canada West and the Territories of the Hudson's Bay Company, because of the strong claims which they have upon our Christian sympathies, as well as our Christian exertions; presenting, in the new and happy condition into which the Gospel has instrumentally introduced

“ them, clear and resistless evidence of the fitness, power, and utility of
 “ the Missionary enterprise in purifying and elevating individual char-
 “ acter, in promoting the civilization of entire communities, and in training
 “ up well-qualified Native Agents. The two Academies and the several
 “ Day Schools connected with this important Department of the work in
 “ Western Canada, are, by the Divine blessing, conferring unspeakable
 “ advantages upon the rising generation; and, amongst the many
 “ triumphs which the Gospel has achieved in modern times, it is not one
 “ of the least important that it has been the means of preserving that
 “ portion of the Indian race dwelling in Western Canada, from utter
 “ ruin and entire extinction.”

DOMESTIC MISSIONS.

Regarding the state and prospects of these Missions, so interesting to our own race, and sustaining such an important relation to the moral and religious character of Canadian Society, growing up under the influence which a faithful Ministry never fails to exercise, the following brief extracts from selected Reports furnished at the end of the year's labours afford encouragement, and stimulate to gratitude and hope:—

ERIN.

“ This is an interesting and important field of labour. It includes the Townships of Erin, Garauxa, and the rear of Chinguacousy. In several places we have made new appointments; also we have invitations to preach in other places, which we have not yet visited, but intend to do so shortly. In some localities we found those who had been members of the Wesleyan Connexion in Ireland, and other parts of the Old Country, who were greatly delighted at the thought of sitting again under the ministry of those who are identified with the Methodism of Wesley, Watson, Adam Clarke, and Gideon Ousely.

“ We expect to form several new classes during the year. Thus we propose—

“ To labour on at God's command,
 And offer all our works to him.”

BARRIE.

"Permit me, on presenting the annual report of the Barrie Mission, to observe, that it is some seventeen years since this northern section of our Province was visited by Brother David Hardy, a Wesleyan Missionary. He found in the wilderness a few scattered sheep of Israel's fold, and God made use of him as an honoured instrument in converting sinners, and in organizing infant Churches, which have gradually been increasing to the present. This field of labour, so many years cultivated by the faithful and persevering agency of your Society, it might be supposed, ought, by this time, to be self-sustaining. This would be the case, but from the fact that the land is generally poor, and the late frosts prove deliterious to the farming interests, and the consequence is, that the people, although industrious to a proverb, are not repaid for their labour, as in many other parts of our country. Although a matter of regret to our friends, that they are unable to support but in part the Ministers who labour among them, they have nevertheless done nobly, as the Financial Report will show, in Missionary contributions, and in the support of all our connexional funds, besides erecting a most commodious parsonage. They have also greatly enlarged and paved the church in the town, and erected a new one in the country.

"We have been favoured with some interesting revivals of the work of God during the year on the Mission, and have received some 60 into the Church. There are six Sabbath Schools in successful operation. Several of the Teachers and many of the children have lately been converted and added to the Church. Let me say, for the encouragement of the friends of our Missions, they are doing a great work. Could the the supporters of this noble Society, residing in the frontier cities, and towns, and neighbourhoods of our country, have witnessed what I did, while visiting the distant Missions in this widely-extended District, the past year;—could they have heard the thanks expressed, and have seen the tears of gratitude flow from the emigrant in the woods, that they were not forgotten; that, through this agency, they were favoured with the ministry of the word, and the ordinances of God's house; that they were permitted still to behold the face of their spiritual guides, causing them, for the hour, to forget their deprivations and toils;—could they have beheld, as we have, scores of converted Indians clothed, and in their right mind, and have heard them in Love Feast, expressing their thankfulness that they had been sought after by Methodist Missionaries in the woods, and, by their instrumentality, brought into the fold of Christ;—then would they not regret that they have, year after year, been contributing according to their ability to spread scriptural holiness throughout the land.

"I hope I shall be pardoned for observing—for my soul is drawn out in love for the destitute settler, and the Indian in the woods—that much remains. We want men and means to cultivate this widely-extended field. The harvest in this north-western country is great, but the labourers are few. Parents, we want your sons of promise and piety for this work. Our aged ministers are falling :

"And we are to the margin come,
And we expect to die."

"Oh, for young men to rise up and take the place of the zealous Ferguson, the evangelical Wilson, the devoted Healy, the angelic Byrne, the heavenly-minded Metcalf! Their duties may be arduous; their sacrifices may be many; but honourable will be their calling, and heaven will be their reward."

LEWIS WARNER.

MONO.

"On this Mission there are many things of an encouraging nature."

WILLIAM DIGNAM.

ST. VINCENT.

"This is an encouraging and interesting part of the vineyard of the Lord of Hosts, and if properly attended to, and cultivated by those whom he employs, from time to time, it will eventually yield an abundant harvest. In common with other portions of our Missionary ground, there are difficulties, hardships, and privations to be borne, which grace divine alone can enable the devoted Missionary to endure with joy.

"Several have, during the past year, become the happy recipients of that grace which turns the sinner's wandering feet, from sin and error's paths, to tread the heavenly road that leads to glory and to God.

"Several who joined our Church during the revival of the preceding year have into temptation fallen, and cast their shield away, which is a source of grief; but the greater part are growing strong in the Lord of Hosts, and in his mighty power. To God be all the glory!

"In looking over the memoranda of the past two years, as they regard our members, they stand thus:—received on trial, 171; dropt, 30; expelled, 17; left us to join those who showed no concern for their religious interests in the days of their poverty and spiritual destitution, 22; removed to other circuits, 9."

H. REID.

OWEN'S SOUND.

"We have experienced, on this Mission, the truth of the Saviour's declaration, 'In the world ye shall have tribulation.' The grand enemy of God and man has evidently been to work, especially during the last quarter. I came to this Mission last August; found it in a low state; heard many conflicting statements; said but little. For a few months we enjoyed a degree of peace, and some prosperity. And notwithstanding the troubles through which we have passed, since our third Quarterly Meeting, God has been with us reviving his work on some parts of the Mission. Fourteen have joined on probation, and three from another Circuit. We have some excellent members on this

Mission, some of whom are actively engaged in erecting a new stone church in Sydenham, 32 feet by 42, which is expected to be ready for use by September next.

"There is neither chapel nor parsonage on this Mission as yet. The people are generally poor, but have a prospect of being both wealthy and liberal in a few years. The most of those who are able, appear willing to do all they can, especially our Recording Steward, John Frost, Esq., who is a warm supporter of Methodism. We have raised on this Mission, this year, for the support of the cause, the sum of £22 10s. We have reason to thank God and take courage. May the Lord send them a Preacher, next year, after his own heart!"

B. JONES.

TORONTO AND SYDENHAM ROAD.

"This Mission embraces a part of the Townships of Melanethon, Proton, Artimesia, Glenelg, and Holland. There are twelve appointments to be filled, once in every three weeks, which requires 75 miles of travel on foot, over very rough roads. There are 5 classes, embracing 75 members. There is a church in course of erection, which will probably be finished during the summer. The average number of hearers on the Mission are 200. We have no school house as yet erected on the Toronto and Sydenham Road, so that we have to worship in dwelling-houses and shanties. We have commenced one Sabbath School, embracing 20 children or pupils; we are very much at a loss for school-books. The people, upon the whole, are poor, and not able to purchase them, and they are likely to become poorer before they can make their land produce as much as they will require for their own consumption. They are now subsisting upon means they brought with them to the Mission. The Government has given unto every male, who is 18 years of age or upwards, 50 acres of land, and reserved other 50 acres for each individual to purchase, as soon as the Government lands come into market, which probably will be in June of the current year. Hence, all the money they have, or can possibly obtain, will be paid on their reserve lots of land; so that the Missionary Society may conclude to pay at least the salary of the Missionary next year, without appealing to the people, as all we can obtain will be trifling, without oppressing the people. This is the opinion of Mr. Snider, the Government Agent, as well as my own. The Mission is of considerable importance, and will, in time, make a good Circuit if it is properly attended to. There should be a Missionary on Toronto and Sydenham Road, I think, exclusive of Durham Road, as the Toronto and Sydenham Road is about 40 miles in length, and there are two other parallel roads of equal length, a mile and a quarter each from Toronto and Sydenham Road—the one east of it, and the other west; so that the Missionary will have an ample field. It must be travelled on foot for a number of years, for two reasons: the one is, the roads are too bad for a horse, unless in winter. The other reason is, there are, and will be, no pasturage for the horse. The Conference year just closed, I have travelled 1160 miles on foot, and carried

my baggage, and I rode 865 miles—in all, 2,025 miles—and preached 170 sermons; held 10 Love Feasts; dispensed the Lord's Supper 11 times, and baptised 63 children; so you see that this Mission is not a sinecure."

S. BROWNELL.

KINCARDINE.

"In December, 1850, the Mission was commenced under very unfavourable circumstances—the winter closing in, and the total travel being stopped for a time. These rising as a barrier, prevented the amount of labour, which might perhaps have been bestowed for a few weeks; but as soon as the roads became passible, we held Meetings almost every night for the remainder of the season. Although labouring under many difficulties, having no place to preach in but in private houses, and many of them so small, that half of the people who would have come, came not; and those who came, were very uncomfortably situated. Yet, notwithstanding these disadvantages, we made some progress. While we laboured for, and with the people, God owned and blessed our labours. Many were cheered spiritually by the presence of their Heavenly Father, and upwards of forty were added to the Church.

"In the month of March, we held our Quarterly Meeting, attended by Brother Brownell. We had a good time: the Lord was with us. And should we be favoured with a few more such visits, through the providence of God, the Church would be greatly established. There were present on the occasion about one hundred and forty persons, and forty communicants. There was one removed by death—Brother Ebenezer Withers, who was converted to God through the preaching of the venerable Wesley himself, at City Road Chapel, London, and was a member of the same for many years.

"We have two classes formed in Kincardine, four appointments, and one in Huron—three one Lord's day, and two the other. We have two chapels under erection—the one hewn log, 20 by 30 feet—the other 24 by 36 feet—the frame of which is nearly completed. The people appear to be much attached to Methodism; and should we be able to attend to their spiritual wants, no doubt many of them will unite with the Church. The wants of this section of country will be very great, as it will require the whole labour of a Missionary in the Townships of Kincardine, Huron, and Kinross, and two appointments which ought to be kept at the mouth of the Saugeen River. It will almost be impossible to attend them, from Kincardine, as the distance is about 32 miles by water, and much further by land, without a road. I visited it three times; found the people very anxious to hear the word preached to them. There are several members in that part.

"On account of the newness of the place, it would be very desirable, could you give a small sum of money to assist in the completion of the church in that part, as it would be of great importance in the establishing of our cause."

"As to

DEVONSHIRE.

"Our labours on this Mission extend into five Townships, viz.:—Stephen, Osborne, McGillivray, Biddulph, and Hay. The work is embraced in 12 appointments, which are attended once in two weeks, with some occasional preaching-places. Within these labours, we have 113 members, who are divided into 7 classes. In the latter part of the past year, our gracious Master intimated to us some tokens of his favour, which greatly encouraged us, and added something to the number of our membership. At present, we have peace; but there is not that unanimity of devotion among the people, to the cause of God, which would encourage the anticipation of much future good.

"In regard to the nature of the work, I do not know that there is anything peculiar to distinguish it from other Missions in the new settlement. The country on the front of the Townships named, that is, on the London and Goderich Road, has been settled some 16 or 18 years; those on the back Concessions, to which our work extends, is only now in process of settlement. Here we have the usual quantum of bad roads, difficulties, and embarrassments always incident to settlements of poor people in new countries; yet from its rich and uniformly good soil, only a few years will have to pass by till it becomes one of the most densely-populated and prosperous agricultural Districts within the vicinity of Canada West. And here, too, many of our members from other sections of the Province, and from the Mother Country, are seeking new homes. These things give the Mission an importance; and the anticipation of what the future may be, encourages to labour in faith, 'not despairing of the day of small things.'"

THOMAS WILLIAMS.

WARDSVILLE.

"We entered upon the duties of this Mission amid much that is disheartening; but having thrown ourselves upon Him who hath said, 'Lo, I am with you alway, even unto the end of the world,' the year is closed with devout acknowledgement for the verification of the promise.

"Considering the walls of morality have, in many instances, been wantonly broken down, and the little hold the valuable constitutional principle of our Zion have of the population, our congregations have almost throughout been large, attentive, and interesting. All the means of grace have been seasons of spiritual edification and refreshment; particularly our Quarterly Meetings, which were characterized by deep feeling, resulting, it is hoped, in a corresponding practice.

"While the mind has been excited, from various causes, to mourn over some, we have rejoiced over a few, who had, in the ordinary means, been added to our numbers, and over the steady and consistent conduct of our old Wesleyan friends.

"As to the financial state of the Mission, we observe, that, while some

are deficient in just liberality, several have increased in giving to our various Funds, so that, both locally and connexionally, we are nearly one hundred per cent. in advance of last year. We thank God and take courage."

CHARLES SILVESTER.

WALLACEBURGH.

"Although we cannot compete with other Missions, as it regards revivals, nevertheless we are prepared to say, that good has been done. The different classes have been strengthened and established more fully upon the Rock, Christ.

"By the blessing of Almighty God, we succeeded in organizing a class in the Village of Dresden, consisting of 15 members, where, prior to this year, there never was a class. The attendance on Divine worship is generally good; the people manifest a disposition not only to hear, but likewise to learn. We entertain no doubts relative to prosperity, attending the humble, faithful efforts of the servant of God, who may labour here in the future. The Mission presents a most pleasing and encouraging aspect at the present.

"We are happy to state, that there has been a material change in the morals of the people, during the last Conference year." It will be pleasing to know, that in connection with doubling the amount of Missionary money received any previous year, a house and lot has been purchased, in the Village of Dresden, for a parsonage. During the year, we received 13 members on trial. There are many kind and spirited friends on this Mission. May the Head of the Church preserve his people in this section of the work! Amen!"

JOSEPH HILL.

ADELAIDE.

"The work on this Circuit lays in five Townships, extending from its south-east to its south-western boundary—a distance of about 45 miles; and, in connection with bad roads, and other inconveniences, inseparable from a newly-settled country, make it a field of extreme labour and toil for its Ministers, who, truly, need much strength, physical and spiritual, to keep from fainting on the way.

"In this field we have more than 200 members, several of whom are walking in the joy of the Holy Ghost; but of others, we have cause to fear that their faith is but a notion, and their hope a lifeless expectation."

SARNIA.

and then only once a month. The past has been a year of general peace, and some little prosperity. Though we have not had any remarkable revivals, we have frequently enjoyed seasons of refreshing from the presence of the Lord. The congregations are generally good. Strange doctrines in some places, and local difficulties in others, have resulted in the separation of several members from the Church.

"In the village of Sarnia our cause is steadily, though slowly, advancing. Congregations are increasing; class and prayer meetings are more regularly and more numerously attended. An enlargement of the Chapel is determined on, and will be commenced in a few weeks. A few have been brought to God during this year. Our last Quarterly Meeting was a happy season; many felt that it was good to be there. On the whole we have reason to thank God and take courage."

JAMES GRAY.

CAYUGA.

"This Mission includes the Indian Tract on the east side of the Grand River, together with a part of Brantford Township and our appointment in Ancaster in a school house. In Brantford we have four appointments, two in school houses and two in chapels, built by the friends of the Mission, one of which is in the flourishing village of Upper Cayuga, formerly a little Sodom, but of late there is a change for the better. The people now delight in the ordinances of God's house, and the children are cared for and trained in the Sabbath School. In Onondaga we have three appointments, and should have as many more could we supply them. Between removals, expulsions, &c., we have about the same number as last year. On this Mission we have four Sabbath Schools, 31 Teachers, 262 Scholars, and 613 vols. in the Libraries."

S. WALDRON.

PEEL.

"It is with devout gratitude to the Author of all our blessings, that we review the work of God in its progressive movements upon the Peel Mission, during the past year. The number of hearers in our congregations have greatly multiplied, and pure and undefiled religion is both admired and experienced by this people. At the last quarterly visitation of the classes, we found the piety of our members generally in a healthy state. Their motto is "Onward," and their good works have already produced a salutary influence upon those around them.

"Our local brethren in this locality remind me of what I had the pleasure to see in the old country; they are a laborious and efficient class of men, and God has blessed these his servants with abundant success. Watered by the precious dews of heaven, and warmed and inspired by the genial rays of the Sun of Righteousness, we have laboured together harmoniously, and the Great Head of the Church has blessed us with an increase amounting to 150.

"The amount collected on the Mission for the support of the ministry is more than double that of last year. 'Not unto us, O Lord, not unto us, but unto thy name give glory.'"

CHARLES FISH.

STRATFORD.

"The labours of the past year on this Mission have been very severe. The field occupied by your Missionary embraces parts of *nine townships*, viz:—Ellice, Downie, South Easthope, North Easthope, Gore of Downie, Wilmot, Wellesley, Mornington, and Elma. I have had, besides *occasional* services, from twenty-four to twenty-six preaching appointments in the month. Owing to the extremely bad state of the roads in the spring and fall, most of these appointments have to be visited on foot; yet, amid all the dangers of the trackless swamps and swollen streams of the "Queen's Bush," I have often been "exceedingly comforted" by the exhibitions of Christian sympathy and love which I have experienced among the settlers. I have had the happiness of proclaiming the peace of the Gospel in places where none but Wesleyan Ministers have ever been seen, and in *some* places where a sermon was never before heard.

"I have succeeded in opening several new Sabbath Schools, which are now in a flourishing condition. Number in Society 110."

GEO. CASE.

NORWOOD.

"This Mission includes a part of five townships, viz:—Asphodel, Dummer, Otanabee, Percy and Seymour. In attending to the work of this Mission the Missionary has had to contend with many difficulties; bad roads, long rides, and many discouragements; but in the midst of all our trials we have had the presence of God. 'The best of all is, God is with us.' We anticipate the day as not far distant when this field of labour will present a more cheering aspect. During the two years past and gone, this Mission has been rising both financially and numerically. May God shower his blessings down upon this Mission, and may his glory be made known! Amen."

WILLIAM MORTON.

MADOC.

"In reviewing the labours of the past year, we discover much for which we would record our gratitude to God. There is a visible improvement in the state of our societies on this Mission. The institutions of the Gospel have been attended with the blessing of God, so that while our members have been quickened in running the heavenly race, sinners have been brought to seek redemption in Christ Jesus. The amount raised for the Missionary Fund is more than double the sum raised in any former year, and all our connexional funds are in

advance of in this place. It is probably be a valuable house in view of one person might be a cultivated.

"Your I prevails t the field o pointments We have of 57; an coming ye

The Cc from a ve

"I disl opposite t I beg to a sion, wit connected year. It ship of C I can we considere greater p many th creditabl money a Counties zeal man children, sing Chr them to Missiont his hous enterpri directly of Centu Village

advance of last year. During the year we have erected a neat church in this place. We have also commenced a parsonage, which will probably be ready for use in the latter part of the summer. This will be a valuable acquisition to this Mission, and will prevent the recurrence of the difficulties we have realized, arising from the want of a suitable house in which to live. This Mission is too extensive for the labours of one preacher. If it could be made smaller, some important openings might be attended to, and the ground already occupied more efficiently cultivated."

ABRAHAM DAYMAN.

SHEFFIELD.

"Your Missionary is happy to be able to state, that a spirit of harmony prevails throughout this Mission. He has endeavoured to cultivate the field occupied previously, as also to take up one or two other appointments. In almost every place we have excellent congregations. We have in full connexion 177; on trial, 26; which makes an increase of 57; and we hope the Lord will continue to prosper his work the coming year."

JOHN C. OSBORN.

The Committee have great pleasure in adding the following testimony from a venerable and esteemed labourer:—

"I dislike very much in our Annual Missionary Report to see printed, opposite the name of any Mission, '*No report.*' In view of this dislike, I beg to address a few general remarks in regard to the Sheffield Mission, with which, although I have not had the charge, yet have been connected with it during the greater portion of the past Conference year. Its territorial extent embraces the north-west half of the Township of Camden, the north half of Richmond, and the whole of Sheffield. I can well remember, forty years ago, when Camden and Sheffield were considered as almost 'out of the world.' But what are they now? The greater portion of the former, and much of the latter, is now settled, and many thriving farmers cultivating the soil successfully. I am also creditably informed, that there is a greater amount of the public school money apportioned to Camden than to any other township in the United Counties of Frontenac, Lennox, and Addington; and as a proof of the zeal manifested on this part of some, at least, in the education of their children, there is one enterprising farmer on this Mission—not a professing Christian either, having a family of thirteen children, sent eleven of them to school during the past winter. His name will appear on the Missionary returns for the present year, as a donor of ten shillings, and his house is a home for our Ministers. There are also others equally enterprising and friendly. There is now a macadamized road leading directly north, from the front of the Township of Camden to the Village of Centreville, six miles; and a turnpike road from there, north, to the Village of Tamworth, in the Township of Sheffield, nine miles. double the
nds are in

each of these Villages there is a post office. Both are flourishing ; but the latter, on account of its water privileges—Salmon River running through it—will, in a few years, undoubtedly be a large place.

“There is an advance this year, I believe, in all our connexional funds, especially in Missionary contributions. There has also been an increase of members to the Church. The tone of piety is likewise, I think, on the increase, and the genius of Wesleyan Methodism more and more appreciated. During a Protracted Meeting in the chapel, at Centreville, the latter part of the winter, which lasted about four weeks, the house, during the whole period, was well filled, and sometimes crowded each evening ; and great respect for the place, by propriety of conduct, was continually manifested on the part of the listening congregations. My esteemed Brother Osborne, with whom I have been associated, has laboured hard and been very successful, by the blessing of God, of winning many souls to the Saviour. May the Lord add still to their number, and keep them ever faithful ! The time will soon arrive when the Sheffield Mission should no longer be ranked among our Domestic Missions, but with the Circuits connected with our work in Canada West.”

STEPHEN MILES.

HUNGERFORD.

“As the year closes, it becomes my duty to give you an account of the state of the work on the Hungerford Mission. Having no schedule to fill up, presenting a tabular view, I send the following: Looking back through the past year, we cannot but rejoice in the manifestations of Divine mercy which we have witnessed, and at the same time we regret that we cannot report greater prosperity than it is in our power to do. There are difficulties in the way in this field, which it will perhaps require time to remove ; among these, one is, that the Minister labouring in it, must live entirely out of the bounds of the Mission. This, however, will soon be obviated by the erection of a parsonage.

“During the year we have been obliged to cut off a dozen or fifteen, and we now return 127 as the number in society, and 11 on trial for membership.”

THOMAS CLEGHORN.

SHANNONVILLE.

“We have on this Mission a very zealous people, many of whom are striving to serve the Lord in spirit and in truth ; among them are a number of local brethren, who are worthy of the calling.

“We have had a small increase in our membership during the year, and all our funds are in advance of the past year. Efforts are now being made to erect two churches, which we intend to finish during the summer.”

AMHERST ISLE.

"This Mission is connected with the Bath Circuit, and is supplied once in two weeks by the Bath Preachers, who usually spend two or three days on the Island each visit. The people of the Island are among our most worthy and liberal friends."

GEORGE CARR.

WINCHESTER.

"This Mission lies north of the Matilda Circuit, and embraces the Townships of Winchester, Finch, and the north part of Williamsburg. The roads in the north part of Winchester and Finch are very bad, especially in the spring and fall. The lower appointment in Finch at those seasons of the year has to be omitted for a month or six weeks, owing to the badness of the roads. The people, though not in affluent circumstances, are kind and hospitable, and cordially receive the Missionary and his message, and according to their means are willing to support the Gospel. The land in general is good, and new settlers are coming in every year, and the forest is giving way before the hand of industry, and happy homes are made for the hardy sons of Canada, which must be followed by the Missionary to give instruction to the inhabitants in these new openings for missionary toil. Thus the field is becoming more extensive every year. Our prospects are good, and we have not been without the blessing of Divine Providence during the year. A new class has been organized of nine members; received on probation, 34; removed 5, and dropped, 13, which leaves an increase of 22 members on the mission. To God be all the praise!"

D. HARDIE.

BONCHERE.

We have 12 regular appointments and 37 members. There are many things with which we have to contend, such for instance as the immense quantity of broken land, the distance our people live apart, some of them ten miles from the place of meeting. This makes against us. Besides the demoralizing influence of the Lumber Trade, which renders special efforts unsuccessful and nearly useless. There are many other things that might be mentioned. There is however one argument in favour of continuing the Mission, that is, a poor but loving people would be left without the ministry of the Word of Life if you withdraw your aid."

THOMAS HANNA.

LOCHABER.

"The Lochaber Mission, situated on the north side of the Ottawa River, commencing 20 miles east of Bytown, and extending 40 miles down the river, embracing either more or less of six townships, of very rough land, with the obstruction of four rivers. The thinly-settled population consisting partly of Europeans and partly of French Canadians—the latter principally of the Roman Catholic religion. There are 11 places of preaching; 70 members in society; the congregations varying from 10 to 40 in the different localities.

"It is cause of devout gratitude to God, that there is some apparent advancement of true religion in this section, notwithstanding the considerable obstacles impeding its greater prosperity. The lovers of the truths and precepts of our holy religion within this Mission are well entitled to the sympathies and prayers of their brethren elsewhere, in more favourable circumstances, and enjoying ampler means for spiritual improvement."

D. WRIGHT.

OSGOODE.

"I consider the Mission in a prosperous state, financially and spiritually. Much peace prevails."

H. SHALER.

WESTMEATH.

"In preparing the report of this Mission for the past year, we feel grateful to Almighty God for the measure of prosperity with which he has so graciously accompanied the labours of his servants in this part of the Mission work. Several during the past year professed to find redemption through the blood of Christ, even the forgiveness of sins. We have at present on this Mission, 5 classes, 1 local preacher, 2 exhorters, and 92 members. All our funds, connexional and others, are in the advance of last year, so that this Mission, according to present appearances, will soon maintain itself."

JOHN HOWES.

LANARK.

"During the fall of last year, I devoted all my leisure time to the completing of the chapel in Hopeton—built seventeen years ago—in obtaining subscriptions, materials, workmen, &c., and in superintending the progress of the work. The house of God is now comfortable for Divine worship during the winter season—before intolerable. There are now cash and good subscriptions on hand, sufficient to put up the pews and pulpit, without the fear of debt. In March, we had a Soiree

in the clap speaking p

"In our ever we ha gregations have peac Mission, th

in the chapel to assist our funds ; the attendance and order good ; the speaking profitable ; singing charming ; and proceeds satisfactory.

“ In our membership there has been but a very small increase ; however we have not had the least occasion for disciplinary action. Our congregations generally continue good ; our friends warmly attached : we have peace in all our borders ; and we consider that, for this small Mission, the Missionary fund has been remarkably well sustained.

“ The Townships about us, during the current year, have been awfully sickly ; but God has spared our membership. There has not been one case of mortality. We hope the foundation is being laid for a marked improvement here, in the conversion of many souls to God ; and this is our argument and hope, that he would ‘ revive his work that his people might rejoice in Him.’ ”

M. BAXTER.

CONCLUSION.

Little variation can mark the career of the Missionary Society whilst occupying the local field committed to the cultivation of the Canadian Wesleyan Church, beyond the gratifying truth that this Institution grows in the affection of her members, as proved by the steady increase of funds appropriated to the holy purpose of providing Gospel ordinances for those who are destitute of them, and assisting to maintain those where the inability of the settlers would be grievously felt without such help as the Missionary Board are enabled to give. The Committee feel their indebtedness to the body collectively, and more especially to the valuable labours of the *Collectors*, whose self-denying and benevolent feelings have induced them to devote much time to the Society's interest, and which have been rewarded by the largest income ever reported by Canada West. In reviewing the Stations, it is easy to discern the manifest tokens of the presence of God ; nor can this work be prosecuted without inspiring the members of the Church with joy and confidence. “ When Missions are viewed in regard to the Church at home, the subject assumes an eminently practical character. No doubt is entertained respecting the Divine authority for Missions, or the obligation on the Church to send them forth. Their aim and their success are equally approved and acknowledged. ‘ The Lord works with them, and confirms the word by signs following.’ But they require our co-operation and support. In the arrangements of Divine Providence they form a test of our allegiance to Christ and His sovereignty. ‘ For He is the Lord of lords, and King of kings, and they that are with Him are called, and chosen and faithful.’ The struggle has begun. The conflict is going on. The Lamb shall overcome, and His dominion shall be

universal; but if we would share His triumphs and witness the advancement of His kingdom,—if we would have Him ‘with us,’ we, as members of His Church, must be ‘with Him,’ in principle and purpose and aim, and in the employment and support of those evangelical agencies and means which he has ordained for the salvation of men, and for the manifestation of his own glory.

“The Church has embarked in a great enterprise, and has corresponding encouragement afforded her. She possesses promises such as God alone has authority to give: ‘As thy days, so shall thy strength be.’ She receives help such as God only can bestow: ‘My grace is sufficient for thee: for my strength is made perfect in weakness.’ She has examples such as the Word of God alone can furnish: ‘In nothing I shall be ashamed, but that with all boldness, as always, so now also Christ shall be magnified in my body, whether it be by life or by death. For to me to live is Christ.’ Her Members shall receive rewards such as God only can confer;—rewards too great for them to receive in all their fulness on earth, but which shall be distributed at the resurrection of the just, when ‘they that be wise shall shine as the brightness of the firmament, and they that turn many to righteousness as the stars for ever and ever.’ The word of promise shall be fulfilled. ‘For the arm of the Lord shall be made bare in the eyes of all nations, and all flesh shall see the salvation of God.’ The oath of the High and Holy One shall be accomplished. ‘I have sworn by myself, saith the Lord, the word is gone out of my mouth in righteousness, and shall not return, that unto me every knee shall bow, every tongue shall swear.’ The visions of prophecy shall be realized. ‘And they sang a new song, saying, Thou art worthy to take the book, and to open the seals thereof; for thou wast slain, and hast redeemed us to God by thy blood, out of every kindred, and tongue, and people and nation.’ **‘WORTHY IS THE LAMB THAT WAS SLAIN TO RECEIVE POWER, AND RICHES, AND WISDOM, AND STRENGTH, AND HONOUR, AND GLORY, AND BLESSING. And every creature which is in heaven, and on the earth, and such as are in the sea, and all that are in them, heard I saying, BLESSING, AND HONOUR, AND GLORY, AND POWER, BE UNTO HIM THAT SITTETH UPON THE THRONE, AND UNTO THE LAMB FOR EVER AND EVER.’**—*Vide Missionary Report, April, 1851.*
