ENTERTAINMENT FOR OUR SOLDIER BOYS
St. Andrew's Hall Placed at Disposal of Committee—Magazines Wanted

On Thursday, Jan. 6th, the committee to provide entertainment for the soldiers now at Campbellton met in St. Andrew's Hall for organization. Members of the Central committee are Messrs. M. A. Kelly, J. T. Reid, Thomas Wran, M. P. Moores and Revs. J. E. Purdie, Hugh Miller, Wellington Camp and C. W. Squires. Mr. M. A. Kelly was elected chairman and Rev. C. W. Squires, Secretary. It was decided that as the trustees of St. Andrew's Church consented to the use of St. Andrew's Hall for purposes of entertainment, this offer be accepted.

A Programme Committee was appointed consisting of M. A. Kelly, J. T. Reid, P. Carter and John Collier.

The Entertainment Committee consists of three from each Church as follows:—Mrs. James P. Wetmore, Mrs. T. Wran, Mrs. R. K. Shives, Miss Lena Graham, Mrs. A. A. Andrew, Miss Gertrude Adams, Mrs. James Morton, Mrs. R. McNair, Miss Lou Gilker, Mrs. John T. Reid, Mrs. J. Davidson and Mrs. Frank Blackhall.

A Finance committee was then appointed consisting of Mr. Thomas Wran, Mr. J. T. Reid, Mr. M. A. Kelly and Mr. D. R. McRae.

On motion it was decided to ask the Ministers to announce in all the churches that literature such as magazines, etc., should be left at the office of "The Tribune" and also at the rooms of Mr. David Graham. Entertainment of some kind will be provided three nights a week, namely, Tuesdays, Thursdays and Fridays, when once the rooms are put in order.

NEW TRAIN SERVICE NEXT SUNDAY
New Train on Between Newcastle and Campbellton.—Other Slight Changes

The new train service announced in the Graphic last week goes into effect next Monday, Jan. 17th.

This train will be an accommodation, and instead of running from Bathurst to Campbellton, will run from Newcastle to Campbellton.

It will take the place of 39 and 40, a mixed train, with a schedule time which was very seldom adhered to, consequently there was no telling when it would arrive or depart. The new accommodation will make good time, the run of 107 miles from Newcastle to Campbellton requiring five hours and twenty minutes. This time will enable it to make stops at all points.

The time of departure from Newcastle is 6.10 a. m., arriving at Campbellton at 11.20 a. m. On the return journey it leaves Campbellton at 6 o'clock, running to Dalhousie Jet. where close connections are made with the branch train.

This improved service will permit people from down the line to come to Dalhousie or Campbellton to transact business and be reasonably sure of reaching their destination in time to do such business and return the same day.

As announced elsewhere the Ocean Limited will not run on Sunday's hereafter, otherwise the schedules are little changed.

THREE CENT STAMPS HAVE BEEN ISSUED

The Post Office Department has issued a three-cent stamp which can be used in place of the two-cent stamp and one-cent war stamp. A million stamps per day are now being turned out and this number will shortly be doubled. Supplies have already been sent to all the provinces.

The stamps are of the same color and design as the 2c stamp with a small 17C just above the two cents. This makes the new issue well confusing and already a complaint has been received from the larger cities, of mail held up and marked "postage short".

DYNAMITE CAPS CAUSE INJURIES
Boys Playing With Tin Box Bring Young Man to Grief—Now in Hospital

Tuesday afternoon two small boys were playing in H. P. Doyle's livery stable. They unearthed a small tin box from a shelf where it must have been, covered with dust, for a considerable time, and as it was a fairly sizable hockey puck, they began shying it to one another along the stable floor. They had done this several times when the stable man, John Murphy, in passing gave to box a kick. Immediately there was an explosion, and the boys, seeing that Murphy was seriously hurt, summoned help. The unfortunate young man was removed to the Hotel Dieu hospital, where it was found that his right leg was seriously bruised and a deep cut in his thigh made by the can. He is resting well, but will be laid up for a month or so.

The boys escaped injury.

Mr. Doyle does not know what the box contained nor where it came from, it had been on this shelf for some time, but who placed it there he does not know, nor did he know it was there.

The supposition is that it contained dynamite caps.

HEAVY TRAFFIC NOW ON INTERCOLONIAL
Yards Congested With Cars—Lack of Motive Power Retards Traffic

Traffic over the I. C. R. is now at its highest point, and a large number of specials are on the move, nevertheless there are many signs of congestion in the yard here and all along the line.

Not in years has the traffic been so heavy and consists principally of goods for export, bound for the winter ports of St. John and Halifax.

The lack of motive power is seriously interfering with the prompt despatch of this traffic.

Railway crews are making good time these days.

RECRUITING NOT SO ACTIVE IN RESTIGOUCHE
"A" Company Busy Getting Into New Quarters and Little Recruiting Being Done

While recruiting throughout the province was good last week, the total being 330, Restigouche did not uphold its reputation, as only 22 men were signed on. The exceedingly cold weather and the fact that the officers were busy attending to putting the barracks in order for occupation, would account for this.

This week only nine men have been signed on as follows:—

John Wadkin, Campbellton.

J. A. McKinnon, Hopetown, Que.

A. McRae, East Macjarei, C. R.

Henry Estell, Belgium.

Isaac Martin, Maria, Que.

Ernest Boudreau, Campbellton.

Emile Carufel, St. Alexis, Que.

Ernest Davidson, Durham Centre, N. B.

Richard Irvin, St. Alexis, Que.

The barracks quarters are being fitted up and the company expect to move in any day now.

The Officers.

The officers of the 132nd battalion, where different sections are quartered, are as follows:

Headquarters, Chatham—Lieutenant-Colonel G. W. Mersereau, commanding; Major L. D. Jones, Captain J. E. Parks, medical officer; Captain F. G. Burr, paymaster; Lieutenant W. J. Duncan, quartermaster; Captain F. H. Mersereau.

"B" company, Chatham—Lieutenant R. S. Holmes, Lieutenant R. H. Mowatt.

"A" company, Campbellton—Captain N. C. McKay, Lieutenant C. F. Archer.

"C" company, Newcastle—Captain A. L. Barry, Lieutenant J. G. Knight, Lieutenant F. M. Mowatt.

ROUSING RECEPTION TO DALHOUSIE VETERAN
Lance Corporal Stewart of Dalhousie Visits His Home.—Badly Wounded

On Monday evening, Jan. 3rd, Lance Corporal Gordon Stewart arrived from St. John where he is undergoing treatment since his return to Canada from the front. Members of the 132nd and a large number of citizens were at the depot and gave him a rousing reception.

Lance-Corporal Stewart still wears the Highland service costume—khaki tunic with plaid kilt, Glengarry and sporran—and his tall, soldierly figure and bare knees which seemed not in the least to mind the wintry blast, attracted much attention whenever he appeared on the streets.

Lance-Corporal Stewart was twice shot during the battle of Langemarck. One bullet struck him on one hip, passed through his body and came out on the opposite side. Another struck him back of and just below the ear, at a spot usually considered fatal, passed through his head and came out between the left eye and the bridge of his nose—just in the corner of the left eye, to be exact. This bullet destroyed the sight of the right eye but left the other intact, and the soldier expresses the hope that he may be able to return again to the front. During the early part of the Flanders campaign his regiment was commanded by Colonel Currie, but was later taken over by Lieutenant-Colonel Marshall.

In spite of the wound through his hips, the gallant Highlander is able to walk without the assistance of canes, and but for the trouble with his head would be all right. After taking treatment at St. John, he expects to return to his home in Dalhousie and will fill in the period between then and his return to the front with assisting in any way possible with recruiting.

So severe were his injuries that he was detained for many months in the hospital, and only got back to his home in Canada a week ago last Tuesday.

HAVE YOU A HUSBAND

child or friend, who is suffering from eczema, or other skin disease, or an obstinate sore that has defied medical treatment? If so, that is a case for Zambuk.

Mrs. B. Miller, of Castleton, Ont. writes: "My husband suffered intensely with a running sore on his foot. The sore penetrated to the bone, and the inflammation was so bad that he could not sleep at night. After spending a lot of money and trying every remedy we heard of, with no result, I read of a cure which Zambuk had effected in a similar case, and got a box.

"Within two hours after the first application the pain was eased, and with perseverance the inflammation was drawn out, the swelling reduced, and before long the sore was entirely healed."

Zambuk also cures ulcers, abscesses, eczema, poisoned wounds, pimples, cold sores, chapped hands and chilblains.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. A little Dandruff tonight—now—any time—will surely save your hair.

INTERESTING ADDRESSES DURING WEEK OF PRAYER

Program as Laid Down by Evangelical Alliance Being Followed

The Week of Prayer services held in the different Protestant churches last week were all exceptionally well attended, and the program as laid down by the Evangelical Alliance was carried through.

The Thursday evening service in Christ Church was a specially interesting one. The address was delivered by Rev. Wellington Camp, the new pastor of the Baptist Church.

His subject was—"Nations and their Rulers," and he said in part:

"This brings us face to face with the most terrible war the world has ever known.

A large part of the world is at present engaged in war. The Central Powers and the Allies together with Belgium and Serbia, which have been crushed by Teutonic power. A few nations are looking on, but these are making munitions of war for the fighting nations.

Note the situation.

On July 28th Austria-Hungary declared war upon Serbia. On Aug. 1st Germany, who was the real instigator of the war, declared war upon Russia, and on the 3rd of Aug. declared war on France. Up to this time Great Britain had used every means in her power to avert the war. Germany was prepared and thought that her opportunity had come. She must strike France quickly and reach Paris in a few weeks. To reach Paris she must go through Belgium. She had sworn to maintain the neutrality of Belgium, but to secure her object she at once violated her treaty, treating her word of honour as a "scrap of paper". Belgium appealed to Great Britain, who had promised to stand by her neutrality. On the 4th of Aug. Great Britain, to maintain her honour, declared war on Germany. On the 15th of Aug. Germany had taken Liege. On the 18th of Aug. she had swept until she had come within a few miles of Paris, when Great Britain and France stopped her. For nearly two years this war has been going on. Germany's brutality and treachery, and her long list of crimes, can never be forgotten. She has violated International Law and every other law of right and justice. Her unjustifiable cruelty and the manner in which she has outraged humanity will forever stand against her. What should be the attitude of the Christian Church toward Germany and her Allies?

Let me suggest three things.

1. Pray for the downfall of Germany and Prussian militarism.

There can be no peace on a righteous basis until this military spirit is crushed. British victory is the hope of the world today.

"Lord, be our nation's Saviour" now, for royal son's shield in this hour. Oh shelter in the battle storm, Their refuge be—their mighty tower. Oh bid that war and strife may cease, Grant to our Empire victory—peace."

This poetry expresses my thought. We can only have a worthy peace when victory comes to our beloved Empire. Some have greatly wondered how our American cousin can stand by and witness the awful and unparalleled crimes committed against humanity and not lift up her hand against it. The great dailies of New York and Chicago have given no uncertain sound. But Mr. Wilson and his advisors content themselves to write letters to Germany and Austria when American lives have been sacrificed, but nothing further has been done. I saw a cartoon from the New York "Dip". A boy is sitting on a bench with a little dog beside him, holding a little string which is fastened around the dog's neck. Another young fellow comes along and the following conversation takes place.

"Nice little dog you have."

"Splendid little dog. Quiet, peaceful and domestic. No military spirit in him. Simply can't imagine the little chap getting into any sort of a scrap."

"What do you call him?"

"Uncle Sam."

But "Uncle Sam" may some day be sorry he lost the golden opportunity to set before all the world his approval of right. He has seen the Lusitania, the Arabic, the Hesperian and the Persis go down and many American lives have been lost. Then crimes of under water craft still go on and yet neutrality.

"Uncle Sam" is maintaining a strict neutrality.

II. Give our boys who are going to the front a hearty word of cheer and Godspeed.

They are making a great sacrifice. Their heroism, their cheerfulness and their loyalty have influenced the whole world and called forth praise from all the Allies. If Great Britain's fighting is the highest and holiest thing we know anything about, we can say to our boys, God bless you and God go with you and God grant you victory.

III. Trust God as to the issue.

God rules. He will overrule all for His glory and the good of man. We shall have a better world after the war. This awful crisis will bring about a day of peace. God is leading the world on to the second greatest event in its history. The first was the Advent of our blessed Lord; the next will be His second coming. We are on the eve of a great revolution. shall be a new heaven and a new earth in which dwelleth righteousness. Christ's coming will bring this to pass. Some say God has nothing to do with this war. I don't believe that statement. God did not start the war. The Kaiser and the devil started it. But God will finish it. He will overrule all for His glory and the good of His people. Let us do our best to discharge each his duty and trust God for the best."

These services were brought to a close Friday evening in the Methodist Church, when Rev. Hugh Miller delivered the address.

Rev. Mr. Miller's subject was "The Church Universal; the One Body of which Christ is the Head."

"Every ideal sought embodiment, every thought that took a firm hold upon the human mind sought visibility in historical institutions. An industrial company secures capital for its work and then erects buildings, builds railways and in other ways gives visibility to its ideas. Likewise with the church movements. Christianity was the greatest ideal that took hold upon the human mind and it sought embodiment in a visible Church, the outward expression of an inward Truth. The different definitions of the Church were dealt with. In answer to "What is the Church?" A child might give the answer "It is the place where we worship on Sabbath," identifying it with a building of certain architecture, and equipment. Another would answer that the Church was their denomination composed of people accepting certain dogmas founded upon certain interpretation of Scripture. Others, the sum total of people composing the various denominations. None of these were shown to be the true definition. The Church of Christ is composed of the sum total of believers in Christ. It is a Society founded by Christ, which Society was composed of followers who were admitted for no other reason, but for their belief in Christ and because their lives were changed by the Grace of God. The Church was persecuted from the first, but instead of destroying it, it gave it new life. The chief danger was not from the critic without, but the failure of the man within the Church. Of the Church, Horace Bushnell truthfully said: "Persecution has not crushed it, power has not beaten it, time has not abated its force, and what is most wonderful of all, the abuses and treasons of its friends have not shaken its stability."

LETTERS FROM THE FRONT

Interesting letter from Pte. Athanasios Poirier, 26th Batt., and son of Victor Poirier, Balmoral.

In the trenches, Belgium, Dec. 9th, 1915.

My dear parents—

How happy I was this evening when the post orderly handed me a letter from you. It seemed such a long time since I had received a letter from dear old Canada. I can speak of myself only as Etienne is no longer with me. He is in the Duchess of Connaught Hospital in England, and may go back to Canada. Some say he lost two fingers, but I do not believe it. He wrote to our sergeant that he was improving. Until he was wounded he ate and slept with me, and we fought side by side. He was certainly a brave and good soldier and was much loved by all the officers and soldiers. He is so jolly and so comical.

My health is always excellent, notwithstanding the fact that I have been in the trenches over three months, struggling fiercely with the enemy. They have often turned their machine guns on me, several "Jack Johnsons" have exploded near me, but, thanks to the Supreme Master, I am still without a scratch.

Our Lieutenant found out I knew something about cooking, and I became cook for our platoon. I like it, although the Germans tease me by times. Yesterday, they spilled my tea and my milk, but they told me it was not so bad. I can get it at it pretty hot when I can get it with them. I have been face to face with some of them, and although they are known as good soldiers, I poor little Canadian recruit, whom, a few months ago, knew nothing but the forest and the farm, came out vanquisher more than once. The first one I met was a lion, his eyes were like fire, and his face red with rage. He sprang towards me, muzzling something in his language, which I took for another. Really, I thought I had taken my last

OUR TIN POT NAVY DOES GOOD WORK

S. S. Niobe Is Doing Active Service on the Atlantic—Large Number of Prizes

Going about her work quietly, but efficiently the Canadian cruiser Niobe has been the subject of but little remark in the past eighteen months, yet she has done valuable service to the Empire.

Not very long ago the Tory papers were full of anxiety as to the "tin-pot" navy; now they realize what an asset that "navy" is, and they are silent.

It is said that the Niobe chased the Kron Prinz Wilhelm and the Prinz Eitel Friedrich into port at Newport News. As a matter of fact, these vessels were probably anxious to reach that haven of rest, but the fact remains that the Niobe was "on the job," ready to protect Canada's coast from these vessels, and, if necessary, fight them to a finish.

She has converted tonnage over the Atlantic, and thus aided in getting the man in khaki safely to the front.

More than this, the Niobe stands third in the list for prizes captured, with 68 vessels. This means eternal vigilance and unflagging energy. The cruiser has done her duty nobly, and is still ready to give a good account of herself if hostile craft should appear.

With a few more such vessels on the Pacific Coast there would have been less anxiety, early in the war, Britain had an abundance of warships for the work in waters nearer home, but there were one or two raiders afloat in the Pacific which caused much worry. Had there been a few sister ships to help in the chase the two Kron Prinz ships might have been now in British lands, instead of being laid up in the United States, and then doing good service as transports.

The Niobe and those who acquired her for Canada have reason to be proud of her record.

super. But summoning all my courage and energy, and thinking of our Blessed Mother, our King and the country which I had come to defend, I took my gun firmly in my hands, and thrust my bayonet in the heart of that beastly foe. I could feel the steel deep in the human flesh, which concealed the wicked heart of that d—

It was awful. With a deep roar of pain and rage, he fell heavily on the blood-washed ground. Then I turned on another and another until the effete whistle announced the battle over for that moment. So many more who will eat no more "bully-beef" or "hard tarp."

Do not be uneasy about me, I pull through alright and bear with courage, all the hardships of our mission. Some poor fellows cannot endure as much as I, and some find bayonetting positively beyond their strength. But they all do honor to their King and country.

We have winter here now, but it is not very cold. There is a thin layer of snow on the ground, and as far as the eye can reach, the summits of hills are white, plants and trees are bare. One meets neither men in uniforms, neither French, English or Belgian, and military transportations of all descriptions.

Well, dear parents, Christmas and New Year's Day are drawing near, and, as I let my thoughts fly across the world, I wonder, while the friends left behind enjoy life in the land of dreams and happiness, if any of them will send a kind thought towards the boys in the trenches. If we at once stepped in their midst, they would undoubtedly appreciate our return. But being so far away, I am afraid we shall be altogether forgotten. You must remember that we struggle and suffer for every one within the bounds of our immense Empire. Therefore, those who have not enough back-bone to follow our example, have no right to speak lightly of the "boys in khaki."

Britain needs men and the parish we come from is full of strong young men who, but for some misadventure, they lack energy and good-will. They do not understand their duty, but say it is only the "common boys" who come to fight and suffer for the Motherland. These are unpardonable words, and their utterers are not only cowards, but dangerous men. We hold life as dear as any of them and the world never did cast us out. But we felt that our King needed us, and we generously sacrificed our life to save thousands of others. If the fathers and mothers of certain families in Balmoral could only see one third of what we have seen, they would speak differently, and would willingly send their sons to help us in the defence of the Empire, the repelling of the world's peace and the repelling of the Germans from the French Republic, the land of our noble fathers.

Prospects are brighter, now. We are on the right and left. The high spirit among the soldiers is wonderful. Even when the Germans bombard us, we laugh, sing and whistle as we go on with our work. We are happy and well used, and have nothing to complain about. We get two drinks of rum every day in the trenches.

This great struggle is over. Write me long letters, and remember me to all my friends.

"So that my executors may have ready money."

The following extract is from the will recently executed by a long successful and well known, thoughtful business man.

Among the insurance policies on my life which were payable to my children in equal shares, I am endeavoring to arrange that the proceeds shall be paid to my eldest son, that my children may have in hand only money for investment purposes. If I should die, my children are to receive their share in the proceeds of the life insurance.

The \$27,047 life insurance policy which would otherwise have had to be disposed of at a great sacrifice, is now in my hands. There is no estate, but it is of small value, but it is covered by life insurance. A policy would protect the estate of your widow or your children, that will not otherwise be needed, because it spells "ready money," especially if placed with

THIRTY-FIRST BATTALION
Killed in Action—
Charles E. Moore, Sydney, N. B.
Last week we published an item from the Sydney Post saying that Pte. Moore had sent his wife a note from an English hospital. Pte. Moore had evidently returned to the front and was killed in a later engagement. Pte. Moore was a son of Mr. and Mrs. J. P. Moore of this town.

SMELT FISHING

The ice formed well out from the shores in the river between Campbellton and Dalhousie, and the fishermen were able to set their nets on both sides of the channel, and those fishing on the north side made good catches, as much as a ton a net might be taken. Unfortunately the ice on the south shore was not so securely fast, and several nets were lost. Some men and equipment had to be removed. This fishing is said to be good, but unfortunately lack of ice prevents fishermen getting their nets in the proper places.

R. M. HOPEFULL

Capt. R. M. Hopefull, paymaster of the 64th at Halifax, has been seriously ill with diphtheria, but is somewhat better now. A press despatch says: "Captain Carruthers, medical officer of the 64th, said that, while the battalion was at Halifax, practically every one in it was affected by colds in some way or other. Before the battalion was in Halifax twelve hours a case of diphtheria developed. Immediately the men that were with him were isolated. Within the first week, there were eight cases of diphtheria. Three were sent direct from the battalion to the Infectious Diseases Hospital and five were sent via the Military Hospital. Since then there had been no epidemic of diphtheria. There had been isolated cases."

OBITUARY

On Monday, Dec. 6th, 1915, there passed peacefully away, James Walter Hines at his home in Shannonvale, in his thirty eighth year. He had only been sick for a few days and his death was indeed a shock to his loved ones and many friends. He had lived all his life time in Shannonvale. In the year 1908 he married Ida M. Mortimer and the happy union was blessed with five children, two daughters and three sons, all of whom are living. His suffering he bore with patience and christian resignation. The funeral, which was largely attended, took place on Thursday, Dec. 9th, from the R. C. Church, where Requiem High Mass was celebrated by Rev. Father Robichaud. Besides his sorrowing wife and family, he leaves to mourn his death two brothers, Charles of Washington, U. S., and Clyde at home and also a host of friends. The pall bearers were Messrs. James Thompson, Wm. Hamilton, Irvin Hamilton, James Wright, Robert Good and Thomas Gordon, personal friends of the deceased. The bereaved family have the sincere sympathy of all.

Ex-Mayor Roberts, of Terre Haute, Ind., is working in the prison laundry. He was sentenced for election frauds. When Canada learns to punish the big criminals she will be on the way toward a clean public life.

OBITUARY

We deeply regret to announce the death which occurred at Oak Bay, P. E. C., on Wednesday morning, Jan. 6th, of Marguerite Geraghty, youngest daughter of the late Christopher Geraghty. Although suffering from a lingering illness of many months, which she bore with resignation and great courage, her death came as a great shock to her family and friends. Her short life was marked with kindness and affection, and her gentle disposition won for her many dear friends whose thoughtfulness during her illness proved the love felt towards her. She leaves to mourn her loss her mother, five brothers and three sisters. The funeral, which was very largely attended, was held from St. Ann's Church. The Requiem Mass was celebrated by the Rev. Fr. Pacificque. The pall bearers were William Fraser, Peter Quinn, Vincent, Edwin, James and Arthur Geraghty.

CURLERS DETERMINED TO WIN McLELLAN CUP.

At Meeting of Club on Monday Decided to Make Good Their Challenge for the Famous Trophy

(From the Gloucester Northern Light)
The taking over of the Curling Rink by the military authorities, and the consequent loss of ice on which to play the "roarin' game", has not by any means dulled the enthusiasm of Bathurst curlers for the game in which they have few equals and no peers, as they showed at a well attended meeting on Monday night, when they unanimously decided to try for the slippery piece of silverware.

It speaks well for the sportsmanlike spirit of the curlers of Bathurst that they are ready to go to Halifax, if the Cup stays there long enough, to make an effort to bring back the trophy to the town which defended it for so long with so much success. The curlers are not daunted, either, by the fact that it requires four rinks to make good their challenge, and it takes a pretty good sized town to raise four rinks of cup-winning curlers.

According to the published list of McLellan Cup games, the Bathurst challenge comes third on the season's list, those preceding it being the Mayflowers of Halifax and the Sackville club. Both these games are yet to be played, so it is likely that the Bathurst game will not come off until early in February.

It is estimated \$15,000,000 has been spent by German secret service for press work outside of Germany.

The first bale of Georgia cotton received at Liverpool was sold at auction for \$750. The proceeds were donated to the English war relief fund.

1½ cups granulated sugar, ¼ cup butter, 1 cup milk, 2 cups flour, 1 teaspoonful cinnamon, 1 teaspoonful cloves, 3 teaspoonfuls baking powder, 1 cupful chopped raisins, well floured.

Add the raisins just before placing the dough in the baking pan. Bake in a loaf.

OUR SCHOOL BOARD

Our School Trustee Board seems to hop along day by day in its self-sacrificing way. Very few, if any, know of its working. It appears to be sadly deformed by the storms of time or adversity, but probably it will struggle along another year in its own silent way. Doubtless it has its own aims and ambitions, and time, that great problem-solver, will unfold its mysterious ideals. We have been all so patient with it. No doubt the good work will continue.

OUR DUTY

The soldiers, our neighbors and sons, some of them gone for more than a year. They are straining every nerve to accomplish. What? To put the reply in a practical shape. To preserve our homes, to enable us to enjoy our families and live the same everyday life that we lived before the war broke out. In some cases to enable us who are at home to make money, to secure property. And they are suffering and sacrificing to enable us to do that. The sacrifice surely appeals to us. And the wives, children and dependents of those at the front. If we can assure those at the front that their wives, children and dependents are cared for, it will certainly help to cheer the poor fellows and it will lessen their anxiety. The call is to us, the ones at home, to do this or any other thing we can do, to bring this small ray of happiness to the boys at the front, the flower of our manhood. To refuse to bear our share of this charge would style us the most despicable characters—Germans, in spirit.

MUST DO THE RIGHT THING

The men who legislate for our everyday interests—our County Councils—are to meet in session next week. We live in epoch-making times, and men are induced today by the strenuous condition of existing affairs, to think with a vividness perhaps not before called for. The spirit of sacrifice is in the air. It will probably be apparent to our County legislators, directions in which the present situation can be aided. Our councils in the Province have arisen to the situation. Restigouche has not been behind in the doing of its part and will not in any degree lag, in helping the work that the higher civilization of today is demanding. And may no side issues arise to obscure the manifest path of duty.

OLD MEN NOW

Austria has called up her last line of reserves, her old men—the grandfathers—oh! the pathos of the situation. The toll-worm and the aged are called upon, by a system that requires every man to train as a soldier, and to be called upon when needed. Do we want that such conditions prevail in our land. If we do, let us sit down and attend to our own affairs, turn a deaf ear to the call of our free, enlightened country, selfishly determine that we don't care who wins, and our children will inherit a condition worse than that which obtains in Austria.

The law of nature has pleased us by giving us a bridge across the river. Couldn't our politicians "catch on"?

It will surely be interesting to hear the music played on the new Conservative organ by a former Liberal organist.

HOW THE MONEY GOES.

Sir Charles Davidson's Commission has unearthed an interesting list, showing how the people's money is being squandered on war contracts. Some time ago the Militia Department required 188,000 pairs of trousers for Canadian soldiers, and called for tenders. The lowest tender was T. Eaton & Co. of Toronto, at \$3.20 a pair. Instead of awarding the contract to the lowest tenderer, however, the Government split up the order, for political effect, between ten different firms in Toronto, Montreal and Hamilton in lots of about 12,500 pairs to each, and gave them in each case the highest prices at which they had tendered. The prices paid were as follows:—

	Price per pair
T. Eaton Co., Toronto	\$3.20
A. Kilbert & Co., Montreal	3.28
Crown Pants Co., Montreal	3.43
Copley, Noyes & Randall, Hamilton	3.43
Cohen & Sons, Montreal	3.50
Punchard, Burrill & Co., Toronto	3.58
Canada Clothing Co., Montreal	3.64
Empire Clothing Co., Toronto	3.69
W. E. Sanford Mfg. Co., Hamilton	3.72
Capital Brand Trousers, Toronto	3.73

It will be noticed that they were all paid different prices for the same work. For instance, the Capital Brand Trousers Company, of Toronto, received \$6,625 more for making 12,500 pairs of pants than the T. Eaton Company got for the same work. It was figured out that the 188,000 pairs of pants cost the country \$40,000 more than they would have the lowest tender been accepted. The reputation of the Eaton firm is such that there could have been no misgiving as to their capacity to handle such an order, nor their ability to give satisfaction. In this case \$40,000 of the ratemakers' money was squandered for political effect. And that is only one small instance of what appears to be the general rule.

The above extract from the Montreal Telegraph needs no comment. How long will our people stand this juggling with our hard-earned money? We can't say that we don't care. We do care and we should take the earliest opportunity to deal with a Government who will countenance this and similar transactions.

SAWDUST

Britain always wins one battle—the last.

Who is taking the most interest in our soldier boys? For example!

A march to the trenches. Think a bit as you step out from your homes these nice mornings. Some sacrifice, isn't it? Do you appreciate it?

Not knowing enough to "come in out of the wet" is rank ignorance. What about New Brunswick? Seven States across the border "came in" New Year's Day.

Why encourage the raising of a "special" regiment? It is hoped that the war will break up "classes" and show men as they are—equal in the sight of God. We want a united Canada, not a divided one.

The British have withdrawn from the Gallipoli front. This does not necessarily spell defeat. Kitchener may have remembered the Yankee's advice given on a former occasion and has arranged to "go round."

Emergency Drop Muffins.

Mix and sift one and one-half cups of pastry flour (once sifted), three and one-half level teaspoonsful of baking powder, and three-fourths teaspoonful of salt. Work in three tablespoonsful of lard, using the tips of the fingers; then add gradually one-third cupful of milk and one-third cupful of water. Drop by spoonfuls into buttered hot gem pans, and bake in a hot oven.

LIEUT. COL. DAIGLE SAYS

NO DIFFICULTY WILL BE FOUND IN RAISING THE 165TH

Halifax, N. S., January 5.—The Chronicle today says:—

"The French-Canadian people have enthusiastically taken up the idea of raising a Battalion solely among themselves and I anticipate little difficulty in raising the 165th Battalion to strength this winter," said Lieut. Col. Daigle last night when seen at the Queen Hotel.

"I am now in Halifax to get final arrangements made, he said, "and next week I will start my campaign along the Caracquet shore, northern New Brunswick. I will spend a week organizing recruiting officers in New Brunswick, and will then come to Nova Scotia. None but French-Canadians are eligible to join the Battalion, and as far as possible the corps will be officered by French-Canadians."

"A goodly number of young fellows are down here now taking courses who will join my Battalion. However, none will get appointments until they have proven their ability."

"The three centres for the French-Canadians are the Caracquet district, Moncton district and the County of Digby. We shall make our appeals in French, and I have one or two schemes for bringing the men to the colors. The boys on the Caracquet shore are fishermen, hardy fellows who will make great fighters. The Acadians of Moncton and Digby belong to the farming classes, but they come of a fighting stock. Why, not a Battalion has been raised in these provinces that did not have many French-Canadians on its muster rolls."

REV. MR. RATTEE

FORMALLY INDUCTED
Now Pastor of New Richmond Presbyterian Congregation.

—Induction Tuesday

The Chatham boys of thirty years ago and more will remember Joe Rattee as an English boy with whom they had to reckon both in the classroom and in the playground of the Grammar School. He was a sturdy boy who lived with his uncle, Rev. Dr. Watts, then minister of St. Andrew's church. From the Grammar School in Chatham Joe Rattee went to Dalhousie University and in due time became a graduate of the Presbyterian College, Halifax. In both institutions he gave a good account of himself and made mathematics and mental philosophy his favorite studies. After being licensed to preach as a minister of the Presbyterian Church, Mr. Rattee held important pastorates in the Presbyteries of Halifax, Pictou and P. E. Island successively. Last summer he resigned his pastorate on the Island to become secretary of the Ontario Lumber Camp Association with headquarters at Montreal. He, however, has been induced to accept the unanimous call extended to him by the congregation of New Richmond, P. Q., in the Presbytery of Miramichi, and on Tuesday of this week was formally inducted into that pastoral charge by Revs. J. R. Miller, Hugh Miller, F. L. Jobb and J. M. Sutherland. Mr. Rattee is warmly welcomed by his brethren in the Presbytery of Miramichi, and his friends in Chatham will, no doubt, wish for him many years of success and prosperity at New Richmond.—World.

Their Brigadier General Pays Tribute to Their Gallantry and Tenacity

Ottawa, Jan. 11.—Militia orders issued today contain a copy of the farewell order issued by Brigadier-General W. E. B. Smith, commanding the 80th Infantry Brigade, to the Princess Patricia's Canadian Light Infantry, upon their transfer last November from the British brigade to the Canadian army troops.

General Smith, after placing on record his keen appreciation of the splendid services rendered by the Princess Patricia's, goes on to state: "The gallantry of the P. P. C. L. I. during the fighting at St. Eloi and later during the second battle of Ypres, when the battalion hung on to their trenches with unparalleled tenacity and lost over seventy-five per cent. of their effectives, has won for them not only the admiration of their comrades but when the history of the war is written will earn for the regiment a reputation which will stand among the highest in the record of the exploits of the British army."

BIG DESTROYERS DO FORTY.

TWO KNOTS AN HOUR ON TEST

London, Jan. 10.—Under escort of officers assigned by the Admiralty a party of journalists had their first opportunity to inspect one of the great naval bases on the coast, where cruisers, destroyers and submarines are assembled for their watch over the North Sea, and from which point big ocean going submarines are sent on forages to the Baltic and the Dardanelles.

It was an impressive sight of concentrated power and alert readiness, with long lines of battle scarred cruisers stretching seaward and headed by the famous Arethusa, back of them, a vast flotilla of destroyers, then a countless number of submarines of the latest D and E type, which recently have performed such brilliant work from the Dardanelles to the Bosphorus and throughout the Baltic.

The party now went aboard the latest type of big destroyers, which are here ranged in great battalions with steam up. They are very fast, some of them making thirty-seven or thirty-eight knots, and even touching forty-two knots on a measured mile, while all of them regularly do thirty-five knots on regular service.

Influenza

"No one who has not had Influenza can realize the suffering it causes or how it defies treatment. I know of nothing that will give such prompt relief as Chamberlain's Cough Remedy, for when it is taken the pain in the chest disappears, the fever subsides and the whole body becomes more comfortable."

Then again, the after effects of Influenza are often even more distressing than the disease itself, but they can be avoided if you use

Chamberlain's Cough Remedy

Though the greatest danger from this disease is Pneumonia, I have never known a single case of Influenza to result in it when Chamberlain's Cough Remedy was freely given. OPponents of the LOCAL GOVERNMENT

Enthusiastic Meetings Held at
St. John Monday and Tuesday—New Platform

St. John, Jan. 11.—The provincial opposition convention, which opened its sessions on Monday evening, pursuant to a call issued by Hon. C. W. Robinson of Moncton, and Mr. Walter E. Foster of St. John, was called to order by Mr. Foster with a brief speech, after which, on motion of Mr. A. O. Skinner, Mr. C. J. Dumas of Hillsboro, was elected chairman, and Mr. E. S. Carter of Rothesay, secretary.

Hon. C. W. Robinson, being called upon, was received with applause and made a brief speech. He outlined the events which have occurred since the Fredericton convention and spoke in warm terms of the work of Messrs. Carter and Veniot, the opposition organizers, who had proved themselves able and energetic. He did not think it possible for him to give that attention to the work of the opposition leadership which it demanded. "I would like," he said, "for you to get some one to take my place. We have an enthusiastic opposition in the province today, and there is a great chance to win."

Mr. F. B. Carvell, M. P., after making some personal observations, referred to the necessity of outlining a definite policy regarding crown lands, highways and the temperance question. For himself, he believed it necessary to take the crown lands out of politics and to adopt the same policy with regard to the roads. The temperance question, he believed, must be faced squarely and seriously and he asked the convention to give it their earnest attention. When the next election comes he had no doubt what the result would be; he could not think that the people would do anything but give an unmistakable verdict against the present administration.

On motion of Mr. A. W. Rowan a committee to nominate a larger committee on resolutions as the basis for a platform and to report to the convention was appointed. It consisted of W. E. Foster, Dr. E. A. Smith (Shediac), F. B. Carvell, G. H. King (Chapman) and M. A. Rowan.

The committee retired and, on their return presented the following names: William Currie, Restigouche; P. J. Veniot, Gloucester; D. J. Buckley, Northumberland; A. T. Leger, Kent; P. A. Smith, Westmorland; C. W. Robinson, city of Moncton; Dr. Lewis, Albert; E. S. Carter, Kings; W. E. Foster, A. O. Skinner and W. J. Mahoney, St. John city; A. F. Bentley, St. John county; Walter Lynott, Charlotte; P. J. Hughes, York; Dr. J. E. Hesterling, Queens; Milton A. Smith, Sunbury; John Y. Fleming, Carleton; F. B. Carvell, Victoria; L. A. Dugal, Madawaska; Arthur T. LeBlanc, Restigouche and Dr. D. H. McAllister, Kent. The report was adopted and the committee elected.

On motion of A. O. Skinner, a committee was authorized to confer with Hon. Mr. Robinson respecting the leadership and on further motion of P. J. Veniot it was resolved that, if Mr. Robinson would not consent to continue as leader, the committee be empowered to recommend the name of another man to act in that capacity. The committee was appointed as follows: David Livingstone, Albert; James McQueen, Westmorland; A. F. Bentley, St. John county; A. T. LeBlanc, Restigouche; Fred Sharpe, Kings; P. P. Byrnes, Gloucester; M. A. Smith, Sunbury; C. L. Smith, Carleton; A. T. Leger, Kent; F. M. Tweedie, Northumberland; R. T. Hayes, St. John city; L. A. Dugal, Madawaska; G. H. King, Queens; Clement Cormier, Moncton; P. J. Hughes, York and Walter Lynott, Charlotte.

Tuesday Morning.
At this morning's meeting the following resolutions were enthusiastically adopted.

(1) We pledge ourselves to completely re-organize the Crown Lands department so that its administration shall be entirely severed from politics and administered on sound business principles, under systematic plans by a non-partisan commission specially appointed for that purpose, responsible to the Legislature and working in co-operation with the Dominion Commission of Conservation.

(2) We pledge ourselves to take the highways out of politics, giving the expenditure of the money collected from the people and the control of labor together with the government appropriations into the hands of supervisors, chosen by the people of each parish, to whom a detailed and audited account must be rendered every year at an annual meeting, and a duplicate thereof forwarded to the Department of Public Works, the work of the supervisors to be under the inspection of a competent provincial engineer. We also pledge ourselves to set aside the money collected from the licenses upon automobiles and other motor vehicles together with an equal appropriation from the revenues of the Province each year, to pay the interest upon the bonds to provide for permanent roads which shall be constructed as rapidly as possible.

(3) We pledge ourselves at the first session of the Legislature to pass a law prohibiting the sale of intoxicating liquors within the Province to the fullest extent allowed by the constitution, and within three months after the passage of said Act to submit the same by referendum to the electors of the Province, and, should the majority of votes cast be in favor of the said law, then to bring the same into force by proclamation within one year thereafter.

The prohibition resolution was put to the meeting and carried with great enthusiasm by a rising vote.

POLICE COURT

Two soldiers of the king who could not await their arrival in the trenches to begin their fighting, but created a "rough house" on a train between Campbellton and Matapedia, were arrested by I. C. R. After paying the costs and receiving some fatherly advice from His Honor, were allowed to go upon promising to be good boys in future.

Four lumber jacks who created a disturbance in a boarding house on Union Street Tuesday evening, were not treated so leniently. They were fined \$5.00 and costs each. Otherwise things were quiet in police circles.

Catarhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running, itching or watery discharge, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarhal deafness, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75c.

AN APPEAL

You, who have been spared the horrors of invasion; will you once more, as you so generously did last winter, give a compassionate thought to the martyr-people, to the nation which deliberately sacrificed itself in the defence of the noble principles at stake in the gigantic struggle in which we are all involved?

It is bread that we are asking for the Belgians, the bread that must help them to live through the anxious expectation of deliverance.

It is estimated that a bag of flour costing only \$2.50 would make enough bread to feed two Belgians for a month. Is it asking too much that you forego a luxury so that a life may be preserved?

Your cheques or money orders may be addressed either to the provincial or local committees of the work or directly to the Central Executive Committee of the Relief Work for the victims of the war in Belgium, which will duly acknowledge receipt.

How to avoid Operations

These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ill peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marquette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I went home with terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again."

Mrs. Fred Benke, Marquette, Wis.

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help so when I read about the Vegetable Compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sanative Wash and used them according to directions. They helped me and today I am able to do all my work and I am well."

Mrs. Thos. Dwyer, 289 Milwaukee Ave., East Detroit, Mich.

Bellefonte, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and they all told me the same story, that I never could get well without an operation and I just dreaded the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped, I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 20 years old and weigh 145 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."

Miss Laura Froelicher, 1828 Main Street, North Side, Bellefonte, Pa.

If you would like special advice write to Lydia E. Pinkham, Med. Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

PROFESSOR BEVERLY BEATEN BY BRITISH ARMY NEAR KUT-EL-AMARA, OFFICIAL

London, Jan. 10.—The British have inflicted a severe defeat on the Turks in Mesopotamia. It was officially announced in the House of Commons this afternoon.

The Turks have been forced to retreat in "heavy fighting." It was stated, being 900 prisoners and some guns. The engagement occurred, it was reported, while British forces were marching to the relief of other British troops besieged at Kut-El-Amara.

The Turks in Mesopotamia were in full retreat on January 9, with the British pursuing them, it was announced by J. Austen Chamberlain, Secretary of State for India.

The battle lasted for several days, it was stated. A large Turkish force attacked the advancing British, but was forced to retire.

THE LIQUOR TRADE

To the Editor of The Herald:

Sir:—A hotel-keeper who is displaced at the 8 o'clock closing order complained that no other business is treated in that way. Will some of the saloon fraternity tell us what other business is a burden on the tax payer? Every other business is self-supporting, but the saloon has to be bolstered up with a tax on the people that in the United States amounts to almost seven hundred dollars on every man, woman and child, including, of course, those who never touch the stuff. That is no haphazard guess but accurate statistics gathered from public accounts by the American League, showing that taxes in license states are nearly seven dollars per capita higher than in prohibition states.

Supposing that it is only half of that in Canada it amounts to \$175.00 to the average family of five. Why should I be compelled to pay an increase tax to support a business that I abhor? If the traffic had to support the pauper, orphan and criminal which it causes they would not get so rich and would have to pay so much taxes. One hundred million dollars wasted in drink, twenty-eight million increase in taxation and thousands of paupers, orphans, criminals, etc., that is the work of the saloon. Why should it be allowed to exist?

Several so-called hotel-keepers say they will have to go out of business when the prohibition comes into effect. They are not hotel-keepers at all but saloon-keepers. It is surely time that the hotel business be separated from the business of making drunkards. The real hotel business requires a superior class of man with more than ordinary business abilities and there are many such, but the majority of those who parade the name hotel are a shame and disgrace to the hotel business. It is too bad that there is a stigma attached to the very name of hotel-keeper, which should not be. Let a hotel be a hotel and a saloon be known for what it is—the greatest curse on earth.

Commercial travellers say that they do not get as good accommodation in hotels where liquor is sold as they do in local option towns. One traveller puts it this way: "In the ordinary hotel you pay one dollar and a half and get fifty cents worth. In the local option hotel we pay two dollars and get the worth of our money."

It is time for a change from making drunkards by making millions, from making paupers by making prosperity, and from making criminals by making men honest and industrious.

"OUTLASED"

The devil sat by a lake of fire, on a throne of sulphur, and his head was bowed upon his breast, his tail between his legs. A look of shame was on his face, the sparks dripped from his eyes. He had sent his resignation to the throne up in the skies. I'm down and out the devil said, he said it with a sob.

There are others that outclass me and I want to quit my job. Hell isn't in it with the land that lies along the Rhine. I am old and out of date and therefore I resign. One Krupp munition worker with his bloody shot and shell. Knows more about damnation than all theimps in hell. Give my job to Kaiser Bill or to Ferdinand the Czar. Or to Sultan Abdul Hamid or some such man of war.

I hate to leave the old home, the spot I loved so well. But I feel I'm not up to date in the art of running Hell. And the devil spat a squirt of steam at a brimstone bumblebee. And muttered I'm outlased by Hermann's devilry.

TOWN WATER SYSTEM NOW READY FOR OPERATION

A Delay of Two Weeks Caused by Accidents to Pipe at Bottom of Harbor. Repairs Now Complete

(From the Gloucester Northern Light)

During the first test of the Bathurst Water system about two weeks ago, it was found that there was a serious break in the main which connects the pumping station with the town proper, at a point under the deepest water of the harbour above the bridge. This was repaired after a few days' work, and when the water was again turned on it was found that there was a bad leak a short distance from the first break, still in the deep water of the river. A patch was at first put on, but it was soon discovered that this would not be satisfactory, so the contractors took up the defective pipe, and replaced it in a permanent manner. This work was completed on Monday and tested. It was found to be first class, and the test of the piping throughout the town was then proceeded with.

So far no defects have shown themselves, so it is expected that the system as far as the completed portion is concerned will be doing its full work today or tomorrow.

GLoucester RECRUITING COMING ON WELL

(From the Gloucester Northern Light)

Nearly 150 Names Now on the Bathurst List of the 132nd Battalion.—Final Examination Finds 12 Unfit

Business at the recruiting office continues brisk every day. Men appear anxious to put their names on the list and the young men of the county seem willing and anxious to serve their country. During the past two weeks the average has kept up well, 40 men being the result of the past two weeks' recruiting.

The severe weather of the last two days of the past week interfered seriously with the outdoor marches, but, every day, except when the Medical Examiner, Capt. J. E. Parks, who is attached to the 132nd regiment, was here, several miles were travelled by the men. The recruiting so far seems to have been more rapid than was expected, as there are not enough uniforms on hand to supply all who have enlisted. This deficiency, it is expected, will be corrected in the course of a few days.

Capt. J. E. Parks made a thorough examination of the whole body of men last week and out of the 140, found 12 physically unfit for duty. Two of these are to have slight operations made to correct their physical faults and then will be able to join the ranks again. The rest will have to be discharged.

Church parades were held Sunday, the Catholics going to the Sacred Heart Church and the Protestants, under charge of Sgt. Wightman, attending the Methodist Church. Both bodies of men made a splendid appearance.

A movement is now on foot among the men, to secure a bugle band for the recruits stationed here, and so far, more than \$100 has been raised for this purpose. The collectors report that they have been very favorably received by all those whom they have approached and feel very appreciative of the good will of the citizens of Bathurst. The names of the men who have signed since our list was published are as follows:—

Charles Boudreau, Paquetville.
Patrick Donahue, Richibucto.
Fred P. Clement, St. Joseph.
George LeBreton, Tracadie.
Nicholas Downing, St. Joseph.

HENRY ISAAC BERTIN KILLED IN ACTION

First Native-Born Bathurst Man to Give up Life in Cause of Freedom.—Was Member of 26th Batt.

(From the Gloucester Northern Light)

Last week the Northern Light contained news of the wounding of Pte. Henry I. Bertin of the 26th Batt., and now comes word that he was killed in action, so it is likely that the first report was not absolutely accurate.

Pte. Bertin enlisted over a year ago in the 26th Battalion and was a member of this unit when he met his death. Just how the Germans ended his life is not as yet known, but no doubt the particulars will be received later by mail. He was 20 years old, and a son of Mr. Isaac Bertin, a well-known and very highly respected citizen of East Bathurst. Great sympathy is felt for the family of the dead soldier, but it must be no little consolation for them to know that he died in the performance of the highest duty to which a young man of this country can be called, the defence of the right against the assaults of the wrong.

WANT SMELT FISHING SEASON EXTENDED

Fishermen and Shippers Claim Short Term Deprives Them of Big Catch Consequent on Spring Tides

A movement to extend the smelt fishing season in certain districts of the Maritime Provinces is on foot and representations by Prince Edward Island and a number of New Brunswick shippers and fishermen will be made to the fisheries department at Ottawa within a short time. Northumberland Strait fishermen favor an extension of the season, which legally closes on Feb. 15, by ten days. The smelt handlers claim that because of the open fall and early winter fishermen have been unable to take advantage of ice in rivers and bays and that they missed the important spring tide of last month. Because of the absence of ice many were not able to set their nets in time for the usual run of fish during the spring tide.

It is further claimed that by obtaining an extension of the season until Feb. 25 the fishermen will have the benefit of the big tide next month. The bulk of the catch is made at the time of spring tides—that is during the tides which accompany the new and full moon.

The Prince Edward Island fishermen and shippers are especially desirous of having the season extended. The value of the smelt industry in the three provinces amounts usually to hundreds of thousands of dollars annually. The principal markets are the Fulton market, New York and in Boston.—Standard.

Recruiting is still increasing and about 35 is reported today, the 10th, in the drill company here and more to follow. They make a fine showing all in their new uniforms.

UNREPAIRED WASTE MEANS DISASTER

Our ills are about evenly divided under two main causes: 1.—Unexpelled waste that poisons the system. 2.—Unrepaired waste that weakens the system.

It is a question which is the worst disorder. But this is certain. If you use up twice as much tissue, nerve force and vitality in a day as you replace while asleep it is only a matter of time before you face real disaster.

Very often this condition starts from some simple derangement of the system that sets up what the Doctors call a "vicious circle." Indigestion, loss of appetite, insomnia, "Nerves" and back to the starting point with chronic nervous indigestion and its inevitable consequence—unrepaired waste.

Start taking Zee-tic, the Greek Health Tonic, to-day—follow faithfully the directions and in 2 weeks' time you can't report real progress toward natural health, return the unused portion of your first bottle of Zee-tic and we will refund your money without question.

PROHIBITION FOR

NEW BRUNSWICK

At a meeting of the Provincial Government in St. John on Wednesday it was decided that at the approaching session of the legislature legislation providing for prohibition will be enacted.

Some time ago the Government was waited upon by representatives of the New Brunswick branch of the Dominion Alliance at a meeting in Fredericton, and requested to introduce prohibitory legislation. At that meeting the Premier promised the matter careful consideration.

The representatives of the Alliance also asked to be allowed to assist in framing the measure. The attitude of the government on this point is not stated.—Globe.

Moderate-minded persons, however, seldom swear off everything on January 1. They leave something for Lent. As for us—says a Western editor—we propose to give up the mouse.
