

EUROPEAN SUMMARY

FROM PAPERS BY THE BRITANNIA.

ARRIVAL OF THE OVERLAND MAIL.

An extraordinary express, in anticipation of the overland mail, which reached London on Thursday, has brought a mass of important intelligence from China, India, and Egypt.

The steamer Enterprise had arrived at Calcutta from Macao on the 14th Feb. bringing despatches for the Home Authorities, which were forwarded to Bombay by express, and thence transmitted to Suez by the Victoria steamer. It appears that in consequence of the insubordination and tardiness displayed by the Imperial Commissioner's preparations were made on the morning of the 9th Jan. for attacking the outposts of the Bogue forts.

At the same time the fort of Tyen-tseow was attacked by another squadron, operating about three miles to the southward, under command of Gen. Herbert. The Samarang, supported by the Drued, Madeste, and Culinbans. A heavy fire was opened on the fort, and promptly returned, but the Chinese guns were speedily disabled, and a party of seven men landed to seize the fort.

The steamer vessels then attacked the fleet of junks lying in Anson's bay, but owing to the shallowness of the water, only the Nemesis could approach them, towing 12 armed boats from her Majesty's ships. Her first rocket set fire to the powder magazine of one of the junks; 15 others were blown up by their own crews, and the rest escaped into the inner waters. Next morning her Majesty's ship Benbow began to throw shells into batteries at Wantung, and was preparing to attack the chief fort of Anningho, when the Chinese Commander in Chief made a communication to Capt. Elliot, who whereupon desisted from further hostilities.

The London Shipping and Mercantile Gazette of the 14th April, is dispensed to doubt the truth of the news from China, on account of no notice of the capture of the Bogue forts, and other proceedings of the British forces in China having been published in the London Gazette.

There was no intelligence in England of the steamer President, up to the latest date—when she would be out for six days. Strong hopes were entertained that she had been disabled and put into Bermuda. The rate of insurance on her had risen to 75 guineas per cent, and even at that there were few disposed to take a risk.

Commodore Napier. This brave and intrepid officer, with many of his gallant companions in arms, arrived at Liverpool in the steamer Oriental from Egypt on the 14th April. His arrival caused an unusual excitement in the town, and all classes were anxious to do him honour.

The Earl of Cardigan has again brought himself into unenviable notoriety, by having caused a soldier of his regiment to undergo the punishment of flogging to which he had been sentenced by a Court Martial for drunkenness in less than an hour after the conclusion of Divine Service at Hounslow barracks on a Sunday.

A reward of £100 has been offered to any person who will give such evidence as shall lead to the conviction of the person or persons who committed the late robbery at Windsor Castle. Richard Lovegrove, the person charged with the robbery, has been set at liberty, the evidence against him not being deemed conclusive.

Prince Albert has presented the committee for superintending the Nelson monument in Trafalgar Square, a donation of 100 guineas. Admiral Stopford is appointed the new Governor of Greenwich Hospital. The same Gazette announces the appointment of Prince Albert as Ranger of Windsor Park.

Sir George Arthur has arrived in town from Upper Canada. Sir George transacted business on Saturday at the Colonial Office. Times, April 19.

Father Matthew, in a recent progress through the North of Ireland, made 2000 proselytes while changing horses at Athboy. The depression in trade is now so great that there are no fewer than three thousand empty dwellings in the borough of Stockport. All the mills are now working only eight hours per day.

The frontiers of Egypt were much disturbed. Melik Nimr was said to have beaten Ahmed, the Pasha's Governor of Kartoom. The two great Bedouin tribes on the west of the Nile, were engaged in warfare on their own account and the peaceable inhabitants engaged in the collection of natron at the lakes south of Alexandria had been excessively plundered.

The Pasha had formed an alliance with the Bedouins of the Desert, on the borders of Syria, exempting them from tribute, &c., and was preparing them to fortify Gaza. His present force is said to be 55,000 men. The Greeks had returned to Alexandria, leaving 8000 men to punish or burn the infected villages in the Delta, where only the plague now exhibited itself. This year the suaitpox had also spread its ravages at the same season. In the villages infected by plague, the inhabitants had been compelled by military force to wash themselves, clothes, and furniture. Hardly one of those attacked by the disease recovered. All one household, at Jaha Jalleh, of 25 persons, were carried out dead, and lastly the owner, an old Bey, who governed the village. At Alexandria the plague was now nearly restricted to the sailors and soldiers, whose barracks are the ordinary filthy family huts, the cases from 10 to 13 per day; 88 are under treatment in the hospital, but the majority die before they can be removed there.

Although the merchants of Liverpool had sent a very complimentary address to the Pasha, nothing real or practical had as yet been done by him to open the trade of Egypt according to the treaty of commerce and navigation of Bali Liman, and great dissatisfaction was felt amongst the Syrians still detained in Egypt. Numbers were to be seen in the regiments of cavalry encamped outside of Alexandria. These two points, chiefly the latter, had given rise to the colonies and dissatisfaction asserted between the Pasha and the Count Napier, previous to the departure of the latter. The Maronite Emirs and Druze Sheiks, had, however, arrived safely at Beyrout.

The Liverpool Standard of the 20th April, in noticing the postponement of Mr. M'Leod's trial, and the certainty of his being able to prove an alibi to the charge against him—'but what is that to the purpose? A national affront has been put upon us by his imprisonment, and no acquittal can cure it. Truly may we be taunted with being valiant only towards China and small deer of that description; but extremely placable and peaceable towards those who use our own language, if this affair be suffered to go off in a manner so little creditable to us.'

The Liverpool Times considers the delay of Mr. M'Leod's trial as the result of an arrangement between the Representatives of the two Governments, and expects very soon to hear of his discharge. The London Times thinks it quite evident that the M'Leod affair is about to be amicably huddled up in a series of ingeniously contrived snifts, which savour rather strongly of elaborate skulking.

The London Shipping and Mercantile Gazette of the 14th April, is dispensed to doubt the truth of the news from China, on account of no notice of the capture of the Bogue forts, and other proceedings of the British forces in China having been published in the London Gazette.

Sir George Arthur has arrived in town from Upper Canada. Sir George transacted business on Saturday at the Colonial Office. Times, April 19.

Father Matthew, in a recent progress through the North of Ireland, made 2000 proselytes while changing horses at Athboy. The depression in trade is now so great that there are no fewer than three thousand empty dwellings in the borough of Stockport. All the mills are now working only eight hours per day.

Messrs. Wakefield and Soa, London Stockbrokers, have absconded, leaving a deficiency of £73,000, the loss of much of which will fall upon fiducies who had entrusted their property with these parties.

Launch of a War Steamer.—The Geysier, of 1050 tons, which was laid down at the latter end of last year, has just been launched from Pembroke dockyard. She will be supplied with guns of the largest calibre, and not ready for sea immediately. Four other war steamers, of similar size and description, have been ordered to be built without delay.

Railroads for Ireland.—A number of English capitalists, at the head of whom are the Messrs. Baring, have come forward with the necessary funds. They are to be secured by the Government at a certain percentage on their outlay.

Emigration of Ship Carpenters.—We hear that upwards of 40 operative ship-carpenters, allured by the temptations of High Wages and Cheap Food, have agreed to emigrate from this port to Miramichi. They are to sail on Monday. It is thus the Timber Duties and the Corn Laws drive our artisans and transplant our staple manufacture.—Standard & Herald.

Miserable Destitution of the Spanish Treasury.—The budget for the present year, just presented by the late interim minister of finance, exhibits a deficiency of £21,197,751 reals (£2,220,000 sterling) or about one-fourth of the entire revenue of the country. Queen Christina's allowance had not been paid at all, and only one-third of the sum assigned to her daughter.

Relations between Great Britain and Persia.—The differences existing between Persia and Great Britain have been satisfactorily arranged, the Shah of Persia having declared himself ready to cede the fortress of Gurgan, taken by his troops in the last war.

The Commerce publishes an extract from the Augsburg Gazette, announcing that the country from Dulabek to the banks of the Tigris was in full insurrection, and asks, what has become of the integrity of the Ottoman Empire, so much spoken of in the London protocols?

The Univers asserts that M. Thiers had made his peace with Count Mole, and that those statements were now the best friends possible. The Army.—It seems to be admitted on all sides that our army must be increased, to meet not only contingencies, but actual warfare. The state of India is such that it will no longer be possible to keep our possessions there with our present military force there. It is expected in military circles that, shortly after the recess, notwithstanding what occurred in the debates on the army estimates last month, the Secretary-at-War will come down to the house with a proposition for a considerable augmentation. This has been variously stated at from 3,000 to 10,000 men. The most economical way and probably that which will be adopted, will be, instead of increasing the number of regiments, to add to the strength of those already formed.

Hong Kong is to be garrisoned by the 18th Royal Irish, and our gallant countryman Sir Hugh Gough, Commander-in-Chief of the China expedition, will establish head quarters there.—Lancet & Chronicle.

36th.—The draft, consisting of one officer, one sergeant, and 63 rank and file, accompanied by an armed party, marched from Clark Castle head quarters, April 19th, for Cork, where it will arrive on the 15th, until embarkation in the Enterprise freight ship (113 tons) for conveyance to Halifax, Nova-Scotia, there to join the service companies.

63th.—The draft, consisting of Captain Dutton, Lieut. A. Rolland, and Eosign Parker, with two sergeants, and 82 rank and file, marched from Newnagh for Felmoy, April 19th, to occupy barracks until ordered into Cork.

Timber Market.—Red Pine, per foot is 5d to 2s 3d; Yellow do. is 4d to 1s 10d; Planks per foot, of two inches thick, 2-12d, to 3d; Lathwood, per fath. 24 lbs to 26; Staves, Quebec, red, 1-12 inch thick and 5-12 foot long, per 1200, £45 to £65; do, Pucehon, £14 to £20.

April 20.—Tea.—The news from China has placed the market in a very unsettled state; the few transactions that have taken place are at a decline of fully 2d. per lb. on all common kinds; in the better sorts, nothing has been done.—The Sugar market also continues in a most unsettled state, with little business doing—500 boxes of white Havana have been taken for export at 30s. per cwt. Sales of Molasses are chiefly confined to good qualities of which about 2000 puns, have been sold, chiefly Demerara, at 27s. to 27s. 6d. and Antigua at 30s. per cwt.

We have a gratifying piece of news to record to-day. The report of a gun on Mr. Michael Samuel's wharf, about 8 o'clock yesterday morning, announced the pleasing fact that the ice abreast of Chatham, had at length given way; but as the tides are low, and the wind all day blew strongly from the Eastward, it made but little progress in its downward course. This morning there is but little wind, and that little from the southward. We may safely calculate on again seeing a clearer river, in the course of 2 or 3 days.—Gleaner, May 4.

The Season.—We have experienced another week of most miserable, cold, wet weather. It is now about 3 weeks since we have had a glimpse of the sun, if we except about two hours on Saturday afternoon last, when He succeeded in blessing us with the warmth of benignant rays.—Ibid

It has been currently reported in town for some days past, we know not of what authority, that His Excellency Sir William Colebrooke has been instructed by the Home Government to direct the Hon. Thomas Baillie to resume the office of Surveyor General of this Province, which he conditionally resigned upwards of a year since, and to which the Hon. John S. Saunders had been provisionally appointed. Rumour also adds that the Hon. Mr. Saunders is to succeed to the first vacant Judgeship that may occur in the Province.—Courier.

Saint George, April 19th, 1841. THOMAS JONES, Esq. Sheriff of Charlotte. Sir— We, the Subscribers, beg to request you to call a meeting of the Freeholders of this County, to take place at the County Court House, in the Town of Saint Andrews, as soon as may be convenient, for the purpose of giving the people, generally, an opportunity of publicly expressing their sentiments with regard to the conduct of their Representatives in the General Assembly of the Province during the last session of the Legislature; and also, as to other matters of public interest. We are, Sir, Your Obedt. Servts. Signed by the Rev. Samuel Thomson, Samuel H. Whitlock, and 57 others.

In pursuance of the above requisitions, I hereby call a Public Meeting of the inhabitants of this County, to be held in the Court House in Saint Andrews, on SATURDAY week next, the 22nd day of May, instant, at Three o'clock p.m.

THOS JONES, Sheriff of Charlotte. Sheriff's Office, St. Andrews; 12th May, 1841.

TRIAL OF THOMAS MORGAN, FOR MURDER. (Continued.) James Allen, Esq. (sworn, ex'd by Sol. Gen'l.)—W's is a magistrate, and saw P'r at work in Milltown; recollects the morning Mrs. Morgan was found dead, was called to the house between 11 and 11 a.m. did not see P'r there then. Saw deceased lying on a bed, with a wound in the side of her head, the blood had run out on the floor, she had no clothes on down to the waist, was bruised on the arm, and there were other bruises; W's thought deceased had been killed; the wound in the head appeared to have been caused by some instrument with a sharp corner, there was another bed in the room with a hammer on the foot; W's took it up and supposed the wound might have been made by it, saw no blood on the hammer, the hair was over the face and clothed with blood; would judge from the appearance of her hair that she had been struggling; the black mark on the wrist went round it, as if used with a grip of a hand, did not put the hammer to the wound.

(Cross ex'd by Mr. Geo. D. Street).—Never saw P'r intoxicated; no others went in with W's to the house; the blood which W's saw came from the wound in the forehead; thought that the skull was broken in. The hammer was not concealed—was a stone hammer, square at one end and sharp at the other; the hair was dishevelled; saw no blood on the hammer; hired two young men to watch the corpse until the inquest; the arm appeared bruised all down; W's could not judge when the marks were caused; it appeared as if the mark on the wrist was caused by a grip, was quite purple.

James Frink, Esq. (sworn, ex'd by Sol. Gen'l.)—Is a magistrate, was in P'r's house the evening after the murder; the body was covered and bloody when W's went in, turned down the bed clothes, the body was naked to the waist; three marks on the temple and a slight mark on the side of the nose, her arm black all down; the wrist looked as if from a tight grasp and appeared at first as if it were broken; two hammers in the room one side chisel-faced the other side square; W's examined the hammer, and found, and tho't it had been caused by the square face; directed the constable to keep the hammer.

(Cross ex'd by Mr. Geo. D. Street).—Could see no blood on hammer, the three marks on the temple were alike, and the three distinct blows, the body was not then washed; both hammers were under the bed—saw no blood on either.

Dr. Dugald Blair, (sworn ex'd by Sol. Gen'l.)—Had not been in Court during the trial, was called on to see the body, the second morning after it was discovered, it was lying in the same bed; found a contusion on the left temple, these were merely two holes through the skin, the skin was raised from the skull; the nose was scratched, and the cartilage of the nose was broken; the wrist was bruised and it looked as if from a blow, but it might also have been caused by a grasp; a grasp given in such a manner and the person dying, the mark and discoloration would be very plain. Had the contusion been caused by the hammer, W's thinks there must have been two blows, and by the chisel face. The impression was, that it was caused by a blow; it might have been by a fall. W's is of opinion that deceased died by a concussion of the brain caused by a contusion. W's cut to the skull and found no fracture in the vicinity of the wound, the concussion was sufficient to have caused death.

(Cross ex'd by Mr. Thomson.) The appearance of the wounds 48 hours after death; W's could judge as well as at the time; the wound over the eye was about the size of a dollar; the two holes spoken of were not joined together, they were about half an inch apart; thinks they could be caused by blows of a hammer. A sufficient blow to cause death, could be given without fracturing the skull. Deceased might have fallen on some thing and caused the appearance; W's could not swear it was from a concussion; it might have been an internal injury of the brain caused by a rupture of the blood vessels which might have been caused by falling out of bed. The wounds could not have presented a worse

appearance 48 hours after death. (Re-ex'd by Sol. Gen'l.) not violent enough to cause bursting blood vessel of blood on the brain. that the death was caused the brain or effusion of the skull is thinner at the top and would be more apt to fracture without fracture of the skull on the sides of his skull. (Cross ex'd by Mr. Thomson.) at the examination, he does not think unlikely to have got it in bed with his wife. (Geo. J. Thomson, Jury previous to calling force and make an entry and cited a number prisoner, showing that he have come to her death instrument.)

EVIDENCE I. Dr. M. R. Fletcher, D. Street, Esq.—Is the evidence, is of of the case that such an examination of the skull without fracture of the skull; it is not a W's would distinguish and delirium tremens such, would afterwards thing had occurred.

Mr. Editor,
Having had occasion during this week to
visit Saint Stephen, I took passage in the
steamer, and after a couple of hours arrived
at that place, but in attempting to land, I got
into the mud, not ankle deep but nearly up to
my knees in spite of my endeavours to avoid
it. Can you inform me, Sir, what has been
done with the "grant from the House of As-
sembly to build a Steamboat Wharf or Land-
ing Place?" It is really annoying to a person just
landing all comfortably and dry, to be soured
in mud and water after travelling from Saint
John. I should not be the least surprised if
the steamers were to cease running to Saint
Stephen while there is such a miserable Land-
ing Place for a PASSENGER.

May 11th, 1841.

Mr. Editor,
What is the reason you do not publish the
County Accounts, which the presiding Jus-
tice at the April Sessions ordered to be pub-
lished, I saw the reports but wish with many
of my friends to see the balance sheet.
Your's,

AN INHABITANT.

MARRIED.

On the 6th inst. by the Rev. T. F. Bent,
Wesleyan Minister, Mr. Joshua W. Wood-
cock, of the Parish of St. David, to Miss Is-
tara R. Collins, of the same place. Our thanks
are due to the happy pair for a liberal slice
of the bridal loaf, and we wish Mr. & Mrs.
Woodcock much joy on entering into the
happy state.

At St. John, on the 29th ult. by the Rev.
Dr. Gray, Mr. John Barry, to Frances Bar-
lett, second daughter of Mr. John Baird, all
of that city.

Same place, on the 24th ult. by the Rev.
Mr. Wilson, Mr. James Ashfield, of Frederic-
ton, to Miss Sarah Colquhoun, of St. John.

appearance 48 hours after death than at the
time.

(Re-ex'd by Sol Gen'l).—A blow although
not violent enough to cause concussion, might
by bursting blood vessels have caused effusion
of blood on the brain. W's is convinced,
that the death was caused by concussion of
the brain or effusion of blood on the brain;
the skull is thinner at that spot than at others,
and would be more apt to produce concus-
sion without fracture than at others. At the
examination of the prisoner there was blood
on the sleeves of his shirt and W's thinks on
his breast.

(Cross ex'd by Mr. Thomson).—Saw Pr
at the examination, heard the previous evi-
dence, and does not think it would have been
unlikely to have got the blood on Pr's lying
in bed with his wife.

(Geo. J. Thomson, Esq. then addressed the
Jury previous to calling witnesses on the de-
fence and make an eloquent appeal to the Jury
and cited a number of cases in favor of the
prisoner, showing that the deceased might
have come to her death by falling on a sharp
instrument.)

EVIDENCE FOR PRISONER.
Dr. M. R. Fletcher, (sworn, ex'd by Geo.
D. Street, Esq.)—Is a medical man, heard
the evidence, is of opinion that it might be
the case that such an instrument as was spoken
of, might have concussed the brain from the
blow without fracture, from the thinness of
the skull; it is not a case likely to occur.—
W's would distinguish between intoxication
and delirium tremens, a person subject to
such, would afterwards be aware that some-
thing had occurred to him.

Hon. Col. Weyer, (sworn, ex'd by Mr.
Thomson.) Knew the Pr some years ago;
he was then a steady man, bore a good cha-
racter as far as W's knew.

Henry O'Neal, (sworn, ex'd by Mr. Thom-
son.) Knew the Pr in 1823 in Saint Andrew's,
lived in W's house 5 years, worked for
him, behaved well; never heard of Pr abus-
ing his wife during the five years.

W. R. M. Lane, (sworn, ex'd by Mr. Thom-
son.) Knows the Pr for 19 years; Pr and
wife worked for W's; never knew them to
quarrel, never saw anything worse than Pr's
drunkenness.

Geo. D. Street, Esq. then addressed the
Jury on the defence, in which he urged the
doubt which might arise, to be placed to the
Prisoner's side and made a most feeling ap-
peal on behalf of the prisoner.

The Sol Gen'l then followed and address-
ed the Jury on the whole case and replied to
and commented on many of the authorities
quoted.

The Judge having read the whole evidence
made such explanation as the nature of the
case required.—The Jury after being confined
all night brought in a verdict next day of
"not guilty."

TO CORRESPONDENTS.
We have received three communications
from the pen of P. R. W. which are very ro-
luminous, we should have no objection to
publish one each week, provided they were
written in a plain manner, but at present the
interjections would render it impossible for
the compositor to set them. We should be
happy to hear from P. R. W. on the subject.

Anthony Claspole is received, but too late
for insertion this week.

Dugald MacDuff's letter "particularly
confidential," came to hand. As our corres-
pondent resides some distance back in Saint
James, he could not have seen our paper of
the 7th inst. or he would have noticed the
proceedings, however, we shall give his letter
a place.

COMMUNICATIONS.
For the Standard.
Mr. Editor,
Having had occasion during this week to
visit Saint Stephen, I took passage in the
steamer, and after a couple of hours arrived
at that place, but in attempting to land, I got
into the mud, not ankle deep but nearly up to
my knees in spite of my endeavours to avoid
it. Can you inform me, Sir, what has been
done with the "grant from the House of As-
sembly to build a Steamboat Wharf or Land-
ing Place?" It is really annoying to a person just
landing all comfortably and dry, to be soured
in mud and water after travelling from Saint
John. I should not be the least surprised if
the steamers were to cease running to Saint
Stephen while there is such a miserable Land-
ing Place for a PASSENGER.

At Portland, on the 27th ult. of consump-
tion, Eliza, only daughter of Mr. W. Lawton,
aged 16 years.

At Kilmarnock, Scotland, on the 17th
March last, Wm. Shields, Esq. formerly of
Bathurst, N. B.

THE CHARLOTTE COUNTY
AGRICULTURAL SOCIETY.
HAVE Imported a quantity of SEEDS direct
from Scotland, viz:—
25 Bushels of Sandy Oats,
25 Do. Hopeton Do.
25 Do. early Angus Do.
10 Do. Potatoes,
A few Bushels of Chevalier-Barley } obtained
A few Do. Scotch Do. } from the
Agricultural Museum of Sterling and said to be very
fine.

THESE SEEDS
have been imported with a view of ascertaining the
most desirable for cultivation in this part of the
Province, and were selected by a Gentleman who
thought the three first Varieties most success-
ful in this climate, better than any other for general
purpose; it is very desirable that those Farmers who
cultivate these kinds of Seeds, should give them a
fair trial, and save the produce free from mixture
in order to test the value of each species by actual
experiment. They are for sale at Mr. T. Thomson,
and a quantity of good grass seed imported from
the State of Maine.

for a number of years sustained its reputation, and accomplished cures which had defied the power of every other article. In acute and recent cases, the relief is invaluable, after one or two applications of the Liniment, and in chronic Rheumatism, the cases of cure are numerous. It is truly a remedy that reaches the nerve and loae with the most happy effect.

SEED STORE.

GARDEN, FLOWER and FIELD SEEDS WARRANTED THE GROWTH OF 1840. For Sale at the Seed Store, and Office of the YANKEE FARMER, No. 45 North Market Street, BOSTON, MASS.

THE subscriber has just completed his assortment of Seeds for the coming season, and is ready to supply orders for Garden, Flower, and Field Seeds, wholesale and retail.

This stock has been selected with great care. The American Seeds were raised by experienced seed growers, in the vicinity of Boston, in New Hampshire, and in Maine; and the most implicit confidence may be placed in their genuineness and vitality. The English Seeds comprising Cabbages, Cauliflower, Peas, Radish, &c. are just received per ship Sampson, from the best seed growers, near London.

THE ASSORTMENT OF GARDEN SEEDS, is made up of all the old esteemed varieties, together with many new and improved kinds, such as—

- Early Snow-bell Turnip, the earliest variety.
Early Peas, 22 cents per quart the earliest known.
Early Warwick Peas, 25 cents per quart.
Early Hops, Early May, Early Emperor, and Early Nonpariel Cabbages.
Boxes of Seed, containing 20 papers of the most approved varieties, each labelled with directions for their culture, at \$1, \$2, and \$3 per box, according to the quantity in each paper. This assortment is recommended to all who wish to cultivate a small kitchen garden.
Garden Seeds by the quantity, assorted to suit the different markets, at a liberal discount from retail prices.

VALUABLE ROOT SEEDS, is worthy the attention of every farmer:—

- White Dutch or Dutch Beet,
Red Mangold Wurzel,
Yellow Globe Mangold Wurzel,
Red do do do,
White Mangelwurzel,
Long Orange do,
Ruta Baga (Purple Top) English Fennel,
Yellow Aberdeen Turnip, &c. &c. &c.
Root culture enables the farmer to keep more stock, and keep it in better condition, than he could otherwise do. It gives the most food for animals with the least labour; it is, and a good management, the most certain in its results; it gives the most manure, imparts life to dry or sterile crops, rough cultivation, and fits it to dry or sterile crops. The average produce of the different kinds of roots per acre in good husbandry, such as will produce 40 bushels of turnips, is 60 bushels of roots. With good cultivation that will produce 30 bushels of turnips per acre, root crops will yield 400 bushels making 12 bushels of roots to one of corn, and corn is the largest yield of any grain crop. The average cost of a root crop per acre is \$14. According to the above estimate, the average cost of a bushel of roots would be 62 1/2 cents. It is advisable to plant two or three kinds of roots every year, as some kinds may fail. The quantity of seed required per acre is, for Sugar Beet, 3 or 4 pounds; Mangold Wurzel, 3 or 4 do; Ruta Baga, 1 do. Packages of any of the above varieties can be easily forwarded to any part of the country. Orders and letters of inquiry by mail, will be promptly attended to.

FARM SEEDS. Black Sea Spring White, the best and most productive variety for New England cultivation. Spring Wheat; English Barley; Corn, selection of the field, from the first ripe; Best Old Oats, not liable to rust, besides other varieties.

GRASS SEEDS. Herds Grass, Buck Wheat, Red top, southern & southern, Red Seeds, &c. Clover, Northern and Southern, White Dutch Honeyuckle, Lucerne, or French Clover, Alfalfa, Orchard Grass—wholesale and retail, at the lowest cash prices. Flower Seeds, Roots Vines Shrubs and Trees of all kinds furnished in order, and delivered at any part of the city, free of expense. Catalogues containing a complete list of all the Seeds offered at this Establishment, and also obtained gratis. Orders may be sent by Stagecoach, and the different expresses, they will be forwarded the same day.
