## Tapley's Remedy

**Nervous Headache, Neuralgia, AND SCIATICA.**

It is the best preparation now before the public for the cure of those distressing complaints that have baffled the skill of physicians for ages past. It is perfectly safe and reliable being prepared from the prescription of a surgeon in the British army, who was appointed to the care of those Nervous Diseases existing in the Regiment to which he was attached, and by this Remedy he was enabled to effect a positive cure in every case. Wherever it has been used according to directions, it has never failed to produce the most satisfactory results.

It has not recently been introduced into this country, but during the last two years it has been used here, and it has cured many cases of those Nervous Diseases, and it has cured many cases of those Nervous Diseases, and it has cured many cases of those Nervous Diseases.

**Price 25 cents.**

Every bottle has the name of the proprietor on the glass.

**The Board of Agriculture and the Exhibition.**

To the Editor of the Maritime Farmer:

Sir:—As the Local Government have forced the Agricultural Board to retire from any share of control or management of the Dominion Exhibition, by the appointment of a commission composed exclusively of St. John men, we farmers would like to know how the Agricultural department of the Exhibition is to be managed. The appointment of the commission is doubtless due to the fact that the Board of Agriculture, as a St. John stand point, is perhaps just what the unthinking portion of the citizens desired, but it is difficult to comprehend that any considerable number of the people of St. John, should be so ignorant of the statistics of the country, as to justify the action of the Government, in appointing a commission to manage the Exhibition, where said statistics plainly and unmistakably place the whole power to do so, in the hands of the Agricultural Board.

But apart from this view of the case, had the Government when appointing the commission, given the least consideration to the Agricultural interests of the country, they could have done a careful act for the farmers, and at the same time have strengthened the hands of the Agricultural Board in their respective districts by the appointment of said commission of say one prominent agriculturist from each county in the Province, which would have had the effect of strengthening both the Government and the Exhibition.

The unjust, not to say unmanly manner, in which the Agricultural Board were forced aside, cannot be redressed to the damage of the Agricultural department of the Exhibition, inasmuch as most agriculturists, whose assistance is most required, are just the men to resent the insult, who have been aimed not only at the Agricultural Board, but equally so at those who elected them. In a future letter, mention will be made of the course taken by the Local Government, Finance Committee, or somebody else, in publishing a price list, that has been doctored three times and still continues to be happy.

Yours etc.,

A KING COUNTY FARMER.

August 20, 1883.

**Maritime Farmer.**

FREDERICTON, N. B., August 22, 1883.

**City Matters.**

Almost every citizen of public spirit, has become quite disgusted with the delay of the Road Committee of the City Council in laying the asphalt pavement on Queen Street. The work was commenced last summer, and we suppose everybody expected it would be completed in good season during the present summer. A large appropriation was made in the assessment of the present year, which was certainly intended to include the new sidewalks, but nearly the whole amount has already been expended on other public works, for which there was no pressing necessity, and the prospect now is that not a foot of asphalt will be laid this summer.

We take occasion now to express the general indignation that is felt throughout the city, regarding the policy of the committee in this matter. Let us see what are the facts of the case. The committee have at an expense of nearly three thousand dollars, laid a new sewer on Sundry Street, for which there was no urgent demand. Another sewer is in progress of construction on Regent Street, which though required more than the other, could have been postponed till the more important service of laying the asphalt, had been provided for. On the streets, but few improvements of cost or importance have been made, and while there has been this, but not so urgent as for the new sidewalks, the committee have gone to work and expended almost the entire amount of the funds in their hands for sewers, which to say the least, might have been stood over for another season.

To use the mildest expression, we think the committee have shown miserable judgment in their management of the public works of the city during the present season. By their neglect of the Queen Street sidewalk, they have subjected Fredericton to ridicule and censure, and we are mistaken if the ratepayers under whose observation the whole neglect and stupidity of the committee is brought daily, will not visit upon their heads, the reward they should reasonably expect.

We have no desire to reproach too severely in this matter, but in the interests of the city, and in defence of the ratepayers who are not to blame for the disgraceful condition of our sidewalks, these remarks are offered.

It is not yet too late to make some exertion to have these necessary works completed this season, and we hope the City Council will take the committee in charge, and order them to carry out the well understood wishes of the citizens.

A special meeting of the City Council, to be held this evening, and let us hope that this all important matter of sidewalks, will be considered, and that the Council will demand the Road Committee to proceed this season with the asphalt laying.

**Secondary Education in the Public Schools.**

Secondary Education is a pet scheme of the Superintendent of Education, of New Brunswick, but it is only another name for an attempt to add to the expensive machinery of the Educational Department of this Province. In Ontario the wealthiest Province of the Dominion, some earnest of energies as here, instead of fully bending their energies to the successful carrying out of the Educational System, as we have it, are endeavouring to accomplish more, to the same end, but they are more likely to succeed than are our authorities.

The Toronto Globe in noting the agitation, says:—

"One of the questions coming up for public discussion is the extent to which secondary education should be provided for those who want it, either entirely free or at a nominal cost. A correspondent of a local journal discusses this matter recently with a good deal of force from the taxpayer's point of view, and his opinions are no doubt shared by a considerable number of those who have to bear the burden of maintaining the High Schools of the Province. It is generally admitted, that free elementary education is the right of every child, but it is not at all generally admitted that the public are bound to provide more than the elementary training. In many of the High Schools no fees at all are charged and in others the fees are merely nominal. Why should those who want higher education not pay a fair share of what it costs?"

The italics are ours, but it meets exactly the point the *Maritime Farmer* has been urging, and which we shall continue to urge. If this is true in the wealthy and populous Province of Ontario, how much more forcibly can these statements be applied to our own Province, which is sparsely settled, in comparison with New Brunswick, is to apply for a more simple and effective administration of the School Law, as it now exists on the Statute book, and for a repeal of the absurd regulations of the Board of Education, more particularly those relating to Inspectors duties and the course of study.

**The Exhibition Management.**

The farmers of New Brunswick are practically shut out from any voice whatever in the management of the Dominion Exhibition to be held in St. John this Autumn, and one of their number, a leading gentleman in the calling, in another column, lays down a few propositions which he will supplement and enlarge upon, in future communications.

We don't propose just now to discuss as we shall later on, the causes that led to this result, but we are in possession of information by which we shall be able to fix upon the Local Government, the responsibility of boycotting the farmers of this Province from any control or management of the Exhibition, and without whose assistance as exhibitors the occasion would be almost an entire failure. It is almost just now, the time of the main fact, and it is this, that the Exhibition to which the Legislature of New Brunswick has contributed ten thousand dollars, and will in all probability be compelled to contribute several thousand more to cover deficiencies already anticipated by the management, is under the complete and absolute control of St. John citizens, and on the entire Commission, not a representative agriculturist has a place.

We may be met with the assertion, that the members of the Board of Agriculture were appointed members of the Commission, and that the whole of the Exhibition is under the complete and absolute control of St. John citizens, and on the entire Commission, not a representative agriculturist has a place.

We may be met with the assertion, that the members of the Board of Agriculture were appointed members of the Commission, and that the whole of the Exhibition is under the complete and absolute control of St. John citizens, and on the entire Commission, not a representative agriculturist has a place.

We may be met with the assertion, that the members of the Board of Agriculture were appointed members of the Commission, and that the whole of the Exhibition is under the complete and absolute control of St. John citizens, and on the entire Commission, not a representative agriculturist has a place.

**The New Lumber Regulations.**

The government, adopting the suggestions of some of the leading lumbermen have largely altered the timber regulations.

The stumpage has been raised from 80 cts. to \$1 in 1884 and \$1.25 every year thereafter on spruce and pine saw logs; on 14 inch hardwood timber from 80 to 90 cents; pine timber \$1 per ton up to 14 inches; hardwood above 14 inches is charged 10 cents additional per inch per ton; pine 25 cents additional per inch per ton above 14 inches; hemlock per M feet, (after March 1884) 90 cents; cedar logs 80 cents per M; shingles 20 cents per M. Licensees who have complied with the regulations shall be entitled to nine successive renewals of their leases. It is usually reckoned that 1 M feet B. M. of the new licenses, namely: that, "As a protection to the Government against lands being held for speculative purposes, all licensees shall make such operations annually on the land held by them under license, "as shall be deemed reasonable by the Department of Crown Lands and Forestry. As a protection to the Government against lands being held for speculative purposes, all licensees shall make such operations annually on the land held by them under license, "as shall be deemed reasonable by the Department of Crown Lands and Forestry.

The whole country is aware of the fact that we are cutting away our valuable timber too fast, and anything which we do to restrain such cutting, advances the interests of the country. Now what harm would it do to the country, if a legislator should pay into the treasury a large sum of money in order to secure a timber lease. Even if he should not cut the timber but protect it for ten years, he would have to pay his annual ground rent of \$4 per mile, and if the timber stood on the ground at the expiration of the 10 years the government would then be ready, no doubt, to increase the dues to \$2 per M feet. Under this clause the licensees are forced to make an operation on the land held by him, so if a man has ten leases, he must cut just what the Government direct him on all of these leases, and he must sell the timber at the price that the government would then be ready, no doubt, to increase the dues to \$2 per M feet. Under this clause the licensees are forced to make an operation on the land held by him, so if a man has ten leases, he must cut just what the Government direct him on all of these leases, and he must sell the timber at the price that the government would then be ready, no doubt, to increase the dues to \$2 per M feet.

**GENERAL NEWS.**

Winnipeg's debt amounts to over \$2,000,000.

Sir Leonard Tilley sailed for England for Canada on Thursday.

Sedley Blanchard, of Truro, N. S., was to Winnipeg as Private Secretary to Governor Archibald during the Red River rebellion and has been there, and is now worth half a million dollars.

An ex-captain who has been living at Kingston, Ont. for the past year has disappeared. What he considered unkind treatment by a lady friend caused his exit. His recent life has been shameful.

The total output of coal from the Nova Scotia mines for the first six months of the year was 498,984 tons, an increase of 88,119 tons over the output of the corresponding period of last year.

The United States post-office authorities have decided that after October 1st a two-cent stamp will carry a letter to Canada, but that three cents will be required on letters from Canada to the States.

William Chambers, the Edinburgh publisher, left \$100,000 for the retention of St. Giles, the old church in that city, famous for its association with some of the most important events in Scottish church history.

The United States Government having secured the title to Wakefield, Westmorland county, Va., the site of the birthplace of Washington, a monumental building twenty feet square and thirty feet high will be erected. Congress has appropriated \$35,000 for the purpose.

A short time ago 300 Ethiopian peasants, hitherto Lutherans, were baptised into the Russian Church, and six Cossacks, hitherto Greek-Orthodox, went over to Islam. The Ethiopians have each received twenty acres of Crown land, and the Cossacks twenty years penal servitude.

That of the dynamite Powder Company's mills at Warrity, N. S., exploded about three o'clock Friday afternoon, instantly killing one of the employees named Henry McEwen, and badly injuring two other named Rawley Smith and Charles Miller. McEwen leaves a wife and eight children.

Mr. A. T. Starr has donated \$4,000,000 for the erection and support, in New York City, of the largest college in the United States. It will furnish free tuition and board for the poor, and will be a great boon to the city, which is to be begun immediately, and will be the largest and finest collegiate edifice on this side of the Atlantic, if not in the world.

In all imitations of the Myrtle Nerve to be used or the plug has been made a trifle lighter in weight. The latter defect is as to escape the attention of the consumer until the plug is used, and then the consumer is made three plugs to the pound and each plug is carefully weighed.

One of the most singular sentences ever imposed was by Judge Krukel, of the United States District Court in Missouri, recently. "A prisoner was sentenced to go to jail for a term of years, and another offender was sentenced till he could teach the Myrtle Nerve. In a little over three weeks the prisoner reappeared, able to write a fair letter at dictation, and both men were discharged.

William H. Vanderbilt did a graceful and generous thing in handing his cheque for \$5,000 to the proprietor of a hotel in the city, who was about to be dismissed among the thirty college boys who are acting as waiters there. This is one of the ways of doing good, and in New England the college boys make a little money for the following year at the same time that they are getting the benefit of a vacation.

A well-deserved tribute of respect was recently paid to Mr. Alex. Lawson, of Yarmouth, Nova Scotia, on the fifteenth anniversary of the establishment of his well-known journal, the Yarmouth Herald. His own employees and a large number of the citizens of Yarmouth availed themselves of the occasion to make suitable presentations, and Mr. Lawson's conferees of the press have cordially endorsed the kind things said of him by those who know him best.

Mr. Chester A. Arthur, son of the President of the United States, who has been fishing in N. B. is described as a fine athletic fellow, about six feet in height and well proportioned. His features are regular and pleasing. He is about twenty-two years of age, and before coming to Canada his address being more that of an Englishman than an American. He dresses very respectably, and is quiet and unassuming in his manner.

REPTILIAN DISEASES, such as Pimples, Boils, Blisters, Eczema, Salt Rheum, Tetter, etc., yield readily to a persistent use of Herington's Quinine Wine and Iron, and Tonic Dinner Pills, which by purifying the blood remove these unsightly eruptions of the skin, and restore the system to its normal condition. If the blood is pure, the skin is exempt from these blemishes, and the value of these medicines as a blood purifier is too well established to need repetition. Beware of imitations, see that you get "Herington's," the original and genuine. For sale by all druggists and general dealers in Canada.

In the artillery meeting at Shoeburyness, England, on the 15th inst., the prize in the repository competition, given by the Marquis of Londesborough, was won by the Canadian detachment in splendid style in 4 mins. 30 secs. The Wood used in the competition was second time 5 mins. 68 cts. Major MacDonald, who was assistant Brigade Major of the Canadian Artillery, was the victor in the repository competition. There is one more victory at Shoeburyness. There is one more victory at Shoeburyness. There is one more victory at Shoeburyness.

**CURRENT COIN.**

Love levels all distinctions; but you can never love an onion sufficiently to level its rank.

A firm of vinegar makers in London entertained 100 men at dinner in their 65,000 gallon vat.

A Florida newspaper bears as its motto:—"Beware, vigilance is the price of liberty; and \$1 is the price of the press."

For cramps, pain in the stomach, bowel complaint, or any other ailment, use Perry Davis' pain killer. See ad. in another column.

A marriage license was issued in Darian, Ga., last week to Abram Livingston, aged 10 years, and Margaret Jones, aged 88 years.

In the captain's cabin of the *Prince*, sunk in Balaklava Harbour during the Crimean war, 1853,000, and hopes of recovering it are still entertained.

Ayer's Pills cure headache by removing obstructions from the system, relieving the stomach, and giving healthy action to the digestive apparatus.

There are in Great Britain from six to eight thousand families of gypsies or other nomads, most of whom are as headstrong as the peoples to whom churches send missionaries.

The Jews in London number about one hundred thousand. They have three weekly newspapers, fifteen synagogues, and a rabbi-ham, lace ties, collars, and fancy handkerchiefs.

A young woman in an Ohio town has carried her brother's wife's father. When seen, she was busy with a compass and a dictionary trying to study out what relation she was to herself.

There is no one article in the line of medicine that gives so large a return for the money as a good porous strapping-plaster, such as Carter's Smart Weed and Balm, or the Balm of Goshen.

We have long heard it said that Ere was made for Adams Express Company, but it was only recently discovered that every girl in Colorado considers herself a candidate for the Western Union.

If you would escape the ravages of that scourge of the summer season, Cholera, Cholera, keep Dr. Fowler's Extract of Wild Strawberry at hand for use. In that and all other forms of Bowel Complaint, it is infallible.

"It is pitched without," said the clergyman, having Noah's ark for his theme, and an old baseball player who had been eating lumbering away with a start and yelled "Go!" The first base from the chair came down and put him out.

The telephone has been successfully used in France to communicate between a vessel being towed and one towing. The wire was strung along one of the towers, and the current was completed through the copper on the bottom of the ship and the water. Conversation was carried on distinctly.

I Chatterbox that I obtained immediate relief during a severe case of bronchitis, when I was in Camp Sussex this year, by the application of Minard's Liniment.

C. C. Ward, Esq., Lieut.-Col. St. John, 13th November, 1882.

The hair of a girl employed in an eastern hotel was caught in the machinery, torn off her head and ground into bits. But he didn't mind it much. She kept going on at her work, simply remarking that it only cost \$4, anyhow. This is one of the advantages of art over nature.

Fifty cents a quart is what a Utica man set for worms. He hunts for the big ones and sells them to farmers for \$1. When he makes it all he keeps them in damp soil and earth, in a barrel perforated with small holes, and feeds them with meal. The early bird has to go without his maternal milk when the man is around.

The parish in the east of London, there is a dancing school established and run by a clergyman, and its influence for good is pronounced to be very great. In this place, hundreds of young men and women spend their evenings, who before passed their time, the former in gin palaces, and the latter in counting about the streets, or worse.

A family of noble birth came to this country years ago, according to the *Critic*, and went into business. They laid aside all notions of lineage, and took their old coat of arms for a trade mark. The descendants now wish to display their arms on the carriage door, but don't dare to do it for fear it will be instantly recognized as the well-known trade mark.

The strange discovery of Pithon, one of the two "treasure cities" the Children of Israel "built for Pharaoh," strikingly confirms the history of Exodus. Numerous chambers were found, built of large crude bricks, some with and some without straw, with walls from eight to ten feet thick, and no trace of a door in any one of them. It is obvious that they were designed for granaries or storehouses.

A student newspaper reporter visited Vassar College for the purpose of getting the views of the young ladies on the tariff question. To the very first one he encountered he opened the subject without circumlocution by remarking:—"I suppose you girls go for protection?" "We do," she said, with a serene smile, "but if it's going to increase the tax on chewing-gum we're all free-traders."

These wretched suicides on account of financial difficulties remind us of the anecdote of Johnson, who may have been brutal in his criticism, but who told the truth nevertheless. "No," said the man, "I suppose you girls go for protection?" "We do," she said, with a serene smile, "but if it's going to increase the tax on chewing-gum we're all free-traders."

A COMPLETE REVOLUTION in the state of a stomach harassed by dyspepsia is caused by using Northrop & Lyman's V-9-etable, or the subject without circumlocution by remarking:—"I suppose you girls go for protection?" "We do," she said, with a serene smile, "but if it's going to increase the tax on chewing-gum we're all free-traders."

In Lapland the sun never goes down during May, June, and July, but in winter, for two months, he never rises at all. His planet, however, is somewhat supplied by the wonderful northern lights, which flash and flicker in the grey skies. They look like flames of fire, and now like streams of silk, and now like banners, and now like arches—these wondrous guests make night beautiful.

See Henry Thompson, the London surgeon, recognizes in fish, a combination of all the elements of food that the human body requires in almost every phase of life, more especially by those who follow sedentary employment. To women he considers fish to be an invaluable article of diet, but especially by those who follow sedentary employment. To women he considers fish to be an invaluable article of diet, but especially by those who follow sedentary employment.

The school children who have done well in their studies and are being allowed to smoke a cigar as they stand or sit at their lessons. The schoolmaster is seldom without a cigar in his mouth. In the law courts, even the accused in a criminal trial is not denied this indulgence, but is allowed, if his defence rises out in the heat of the argument, to light it again by borrowing of the officer who stands at his side to guard him.

Miss Lizzie Frazer, a blooming and pretty young lady who lives between this city and Blue Tent, has been engaged to take her father's place in the management of the Gethsemane ranch and out seven or eight acres of alfalfa.

Miss Frazer left school last year, having obtained a high school education for all practical purposes, and since then has been helping her father on the farm. She is worth a ton of gold of hard-earned money, and she has a good reason for a wife will set something worth having.—*Monica* (Can.) Transcript.

A family named Redd passed through which three days ago, and they seemed to follow the same out in every fashion and peculiarity of their nature. The man, wife, and three children were a red-headed, while the man's beard, eyebrows, and even his nose, were of a deep red. He was clothed in a full suit of red-velvet and had on a red knit shirt. The woman and children (all girls) were dressed in spotless red calico, had on red collars and ties, and no portion of their attire was visible except it was a red colour. They were driving two bay horses, attached to a red wagon with a red cover. Every visible part of the same colour, even a number of newspapers in the wagon were red.
