THE HAMILTON TIMES

FRIDAY, OCT. 11, 1907.

REDUCED SCHOOL FEES.

Wiser counsel prevailed at the meeting of the Board of Education last night than at the Internal Management Committee's meeting of a few nights ago, when a recommendation was made to the Board to abolish entirely the school fees levied to cover the cost of books and supplies given pupils. The Board would not entertain the idea; but it moved toward making the fee so low as to collect no more than will pay for the supplies furnished, a course which has long been favored by the Times. To charge the pupils thousands of dollars a year more than the goods furnished them cost the Board is not to be defended, and is to the amount of the excess a special tax upon the education that is supposed to be free. On the other hand, to characterize the collection of the actual cost of the books, etc., furnished as denying free education, is as absurd as to make a like charge because the city does not furnish meals and clothing to the pupils, and smacks of cheap demagoguery. As a matter of fact, the fees declared no child from the schools, ample provision being made for their remission in necessitous cases; and the talk of a man paying \$1.50 to \$2 a month fees was pure buncombe, and would require in this age of alleged race suicide that such a parent have ten or more children between the ages of 6 or 7 and 14 years attending the Public Schools.

At the fees charged nearly \$12,000 has been collected, leaving several thousands of dollars margin, which money went into the school funds. Mr. Callaghan has computed that \$733 a month will be raised when the fees are cut in two, and it was thought that it would be enough to pay for the books and supplies, and the Board agreed to make that reduction. Of course it will lessen the Board's income by nearly \$5,000 even if its expectations are realized, as it is unlikely that a single additional child will attend because of the cut in fees; and the taxpayers will have that much to make up. To the Times, however, it seems just to limit the fee charged to the cost of the books and supplies furnished, and if the trustees exert themselves to have the books cared for properly, we think the lower fee will be sufficient.

EDITORIAL NOTES.

Winnipeg is moving to make the standard weight of a loaf of bread 2 lbs. instead of 1 1/2 lb. as at present.

The assessment roll will not be published, but the clerk is by statute required to keep it on file for the inspection of all.

You can almost hear the overdrift growling. One committee sees \$7,000 shortage already; another one sees \$10,000.

The Board of Conciliation under the Lemieux Act has done an excellent work in settling the C. P. R. telegraphers' case. That will tend to popularize the act.

The Shah of Persia has sanctioned the revised constitution presented by the National Assembly. Freedom takes a step forward.

Although Dr. Carr's solicitude for the parent with ten or a dozen children between 7 and 14 years of age paying Public School fees may not have been justified, the influence of the reduction effected by the trustees may count against race suicide. Who knows?

The effort to secure for the public the mountain brow and face is one that deserves hearty public support, and we hope that it will receive it. It is believed that but a comparatively small sum will suffice to purchase the property from Chedoke to the Barton reservoir, and the committees appointed last night to deal with the matter have its success at heart. We hope a favorable report will be early forthcoming.

We think the City Clerk is unnecessarily alarmed about that penalty for paying out information about the assessment roll. The law clearly intends that the information it contains shall be public property. What is guarded as confidential, and what officials are forbidden save in legal processes to reveal, is the information which under sec. 16 to 19 the assessors are entitled to require from people in the shape of returns about their businesses, etc. The Act specifically provides that when the roll is completed it shall be kept on file for the inspection of all persons. It is the confidential information obtained that is not to be made public.

Hon. Robert Rogers, of Manitoba, has been giving the Winnipeg Telegram to understand that there is "something glaringly defective about Canada's banking system. A good many people will agree with the Honorable's job. They know exactly where the "defect" lies, too. It is a mighty shabby thing, just when a town or a firm or a lone fellow is dead broke and in need of a wad of money that when he appeals to the banks they insist on being secured and hard-heartedly charge a fellow interest on the loan. No wonder Honorable Bob wants to reform the banks. What this country needs are banks that are less stiff—that won't insist on security, but hand out the coin obligingly to all who need it. If Honorable Bob can secure such a reform he will win the applause of the country and bring the millennium some years nearer to earth.

THE T. H. PRATT CO., LIMITED

THE SINGER BUILDING, NEW YORK

Steeple Jack Ernest Chappelle Climbed its Flag-staff While Thousands Watched.

New York, Oct. 11.—A new record for steeple-jacking was made yesterday, when Ernest Chappelle climbed the flag-staff of the Singer building tower and clamped a gilded globe to the top, 703 feet above the ground. Thousands of persons watched the daring man as he made the perilous ascent.

Chappelle remained at the top of the pole for about an hour, sitting in a boson's chair slung from the signal balliards.

An east wind was blowing, but apparently did not hinder the steeple-jack as he descended.

HAMILTON BABY.

(Continued from page 1.)

hundreds of letters which, if they were made public, would keep many married and unmarried women in Buffalo and throughout Western New York, Western Pennsylvania and Canada, on the marital and social gridiron for months.

The Ince case illustrates admirably the strange fatality which often follows the initiative in a crime. A year or more ago, while Dr. W. D. Greene was health commissioner, a license was issued to Mrs. Anna Peters to conduct a maternity hospital which, properly conducted, is a lawful institution. Mrs. Peters first had her hospital in Front avenue, but removed to No. 147 Hudson street, where the offenses with which she was charged were alleged to have been committed.

In December, 1906, an unmarried woman residing in Hamilton, Ontario, came to this city and became a patient at Mrs. Peters' hospital. There was nothing irregular in her case. She gave birth to a child, and, as the district attorney's office was prepared to prove, arranged with Mrs. Peters for its adoption and care by a third party, paying Mrs. Peters a money consideration for her prospective service in placing the child in a home. In February, 1907, Anna Workman, also a resident of Canada, was operated on by Dr. Ince and from his office went to Mrs. Peters' hospital "for recovery." As Mrs. Peters subsequently stated in a confession made to Mr. Murphy after her arrest, that crime formed the basis of one of the indictments against Dr. Ince. The other indictment was based on a similar operation on Grace Campbell, of this city. After her recovery Miss Workman went to her home in Canada, but later returned to this city and was employed by Mrs. Peters as a nurse in the maternity hospital.

About a month ago Mrs. Peters found a family which was willing to adopt the child left by the mother mentioned herein, who had gone to her home in Hamilton. A husband and wife, residing in North Tonawanda, wished to adopt the baby. A legal adoption only could be secured by application to County Judge Hickey, of Niagara County, and the appearance in court of the mother of the child to give her consent to the adoption by the Tonawandas.

The mother of the child was in Canada, and Mrs. Peters could not produce her in court to consent to the adoption as the law required.

Then Mrs. Peters, as she subsequently confessed, put up a job to have Anna Workman impersonate the mother and appear before Judge Hickey and give the necessary adoption consent.

Five days before it was put into execution, the plan of Mrs. Peters was made known to District Attorney Abbott and Mrs. Murphy, by C. G. Prince, deputy superintendent of poor. No attempt was made to interfere with its carrying out. On September 23rd Mrs. Peters and Anna Workman, with the

North Tonawanda couple, appeared before Judge Hickey. Anna swore that she was the mother of the child and gave the necessary consent to the adoption, which was granted by Judge Hickey. Then District Attorney Abbott communicated with Judge Hickey and District Attorney Stockwell, of Niagara County, and the adoption papers when filed for record were held up.

Judge Hickey also will be informed of Dr. Ince's sentence and District Attorney Abbott will recommend that Judge Hickey revoke the adoption of the child by the North Tonawanda couple because the consent thereto was not given by the mother.

OPENS TO-MORROW.

P. Arland's New Store at 6 Market Square.

P. Arland, the enterprising shoe man, extends a special invitation to every citizen to visit his new store at 6 Market Square, on Saturday. It has been well fitted up and stocked with all kinds of men's, women's and children's fine fall and winter footwear, trunks and valises. This new store will be noted for its values, like the other, at 43 MacNab street north, and Mr. Arland guarantees a saving to customers of at least 25 per cent. He wants all to come, look and learn, and receive a home-like reception. He has planned for a big day's business by securing an extra staff of clerks, and prices asked will make the opening day memorable. Here is a sample of the strong attractions offered at the new store to-morrow: Men's patent leather blucher balm, worth \$3 for \$2.25; men's dongola and box calf, worth \$4 for \$3; women's patent leather balm, worth \$4.50 for \$3.25, etc. See fine advertisement.

VETERANS' ASSOCIATION.

A meeting of the Veterans' Association of 1893-66 will be held at the City Hall this evening for the purpose of considering the reorganization of the association. All ex-members of militia who served during these years are invited to attend. The election of officers will be held at the same time, and the association placed on a permanent basis.

SOUTH HURON LIBERALS.

Jacob Kellerman Chosen Candidate for the Legislature.

Hensall, Ont., Oct. 10.—At the South Huron Liberal convention held in Hensall this afternoon, Mr. Jacob Kellerman, of Bushwood, was chosen as Liberal candidate for the Ontario Legislature. Hon. A. G. Mackay addressed the meeting. Mon. G. P. Graham was to have been present, but pressure of business at Ottawa prevented his coming.

Our Exchanges

Would Lose Head. (London Advertiser.) Everyone knows what would happen to Dr. Beattie Nesbitt if he were a Brit.

Partisan Asininity's Effort. (London Free Press.) After the land has been filled with an Asiatic population to its full present capacity, the Mikado may agree to limit the immigration to say 500 a year. This is very likely the hope of Sir Wilfrid de la Motte in quotation.

Want to Carry It Away. (Toronto Star.) If, however, the Queen's Own capture Hamilton on Thanksgiving Day it may be necessary to put the blamed thing on a flat car and bring it here.

The Strenuous Life. (Toronto News.) When a young reporter marries on an autumn afternoon. Rest of us are full of wonder. How he got the time to spoon.

Fancies Himself. (Toronto Star.) It is to be hoped that the proposed trip of Canadian newspaper men to England will be carried out. It will be a great treat for Etneland to see what the cream of our population looks like.

No One in Sight. (Toronto Globe.) Conservative candidates for the vacancy created in the representation of London by the retirement of Mr. Hyman seem to be backward in coming forward. Mr. G. T. Blackstock has positively declined to run.

The Big Four. (Dundas Banner.) William Attridge, Waterdown; James A. Gray, Freetown; George J. Meldeira, Puslinch, and the world famous David Bell, Rockton, as secretaries of fairs, are receiving many congratulations on their successful management of 1907.

Oh, Perhaps! (Toronto News.) Dr. Beattie Nesbitt, an office holder by the way, describes some member of the Provincial Cabinet as "one of Johnny Rockefeller's slick boys." It is believed this description was intended to apply to Mr. Hanna. Probably Mr. Hanna has some of the craft of the practical politician.

The Cry Will be "Hush!" (Montreal Herald.) Now, it goes without saying, having in mind the freedom with which the axe has been piled in the past, that if such an attack were made by an officeholder whose antecedents were Liberal, Mr. Whitney would have a head dangling at his belt before night. Will he take the hunting knife to Dr. Nesbitt? And if he does, will the Doctor tell us more of what he knows about John D.'s "smooth boy," and John D.'s friends within the Whitney Cabinet?

More Impositors. (Philadelphia Record.) Impostors, masquerading as priests or nuns, and profaning to represent some worthy charity, have been preying upon the people of the Scranton diocese to such an extent that Bishop Heenan has felt constrained to send a note of admonition. The bishop sent a letter to all the priests of the diocese, warning the people against these impostors and advising that no money be given person representing themselves as priests or nuns unless authority to do so has been vested in them by the parish priests.

Afraid of Them. (Oakville Record.) This week we had returned to us a bundle of last week's issue from Omagh, accompanied by a notice from Postmaster Wilson, which reads as follows: "Please don't send any more papers for a while. The people refuse to take them from office. I dread to send you any more." We wish to assure the postmasters in the country, who are always courteous and obliging to newspapers, that so far as the papers of Oakville are concerned, and The Record in particular, that there is no reason in the world for any person being afraid of taking a paper out of the post office.

Misplaced. (Vancouver Sun.) "Tommy," said the teacher, "what is the meaning of the word, 'Dadum'?" "Don't know," answered Tommy, carelessly. "Come, now. A dadum is a distinguished mark of royalty. Do you think you can remember that?" "Yes," replied Tommy. "Then give me a sentence in which 'dadum' is used." "I can't remember any, ma'am." "Well, make one yourself." "I'd rather not." "Why?" "Cause I don't think it is a nice word." "Don't be silly; it is a perfectly proper word. Now, then, I am waiting for that sentence." "Tommy braced himself up for a great effort." "Well, then—if I eat toaststools I'll dadum eight sooner than I'll eat 'em!"

In India pens are made of bamboo. They write pretty well.

SUNFIELD NOW ON STAND.

around the house at the time of the shooting? "No, I did not." "Was your revolver in the valise which you say you took to your sister-in-law's house the previous day?" "Yes, but I am not sure that this revolver here is mine."

Reverting to the scene of the shooting, Mr. Blackstock asked him if he did not see any blood on the bed or the floor, and Sunfield said he did not. All he saw was a little blood on the side of his head. He did not remember having called to Radzyk while Mr. Brandaw was trying to get the dying man to speak.

Dr. Roberts Testifies. Dr. Roberts, the jail surgeon, was called by the defence to describe the wounds on Mrs. Radzyk. He said the bullet took a downward and slightly forward course, making in all four punctures. It passed through her breast and through a roll of fat. In his opinion the shot was fired from over her shoulder.

A Detective as a Witness. Detective Coulter was called by the prisoner's counsel, and questioned as to a search he had made of the Radzyk house. He saw some women's apparel on the bed. He found a revolver in a valise in a room upstairs. It was claimed by another boarder in the house. The weapon was rusty and would not work. He tried it at the time.

Murdered Man's Nephew. Andrew Radzyk, a nephew of the deceased, was asked about the visit of the Radzyk-Sunfield party to his house the night before the shooting, but he did not throw much light on the case. To Mr. Blackstock, the witness said his uncle worked steadily till Sunfield got his hand hurt, and laid off work for two or three months. Then Radzyk lost a lot of time.

Buddi's Prescription. Andrew Buddi stated that once Mrs. Radzyk asked him what she could give her husband to eat, he told her to give him lots of whisky; that would kill him. To the Crown Prosecutor, Buddi said Mrs. Radzyk was not joking at the time; she appeared to be serious.

Coming to a Close. This afternoon Dr. Orr, physician at the Harbour Works, was called in regard to Sunfield's reputation, and also in regard to the wounds on Mrs. Radzyk, which he dressed after the shooting.

IN THE WORLD OF AMUSEMENT

Allen Doone, in his new play, "A Romance of Ireland," should prove a pleasing attraction at the Grand to-morrow afternoon and evening. The production is said to be a good one at the prices, and the engagement will doubtless be successful, as Mr. Doone's ability as a singer and comedian is well known here.

"Happyland," the latest comic opera, written expressly to exploit the talents of that prince of lyrical comedians, De Wolf Hopper, of "Wang" and "El Capitán" fame, will be the bill at the Grand on Monday and Tuesday nights. "Happyland" is announced as a straight comic opera in two acts. It is the work of Reginald De Koven, who composed the music, and Frederic Ranken, who wrote the story and the words of the songs.

Tiger Week at Bennet's. Tiger week, combined with the excellent bill which is being produced, is proving a wonderful drawing card at Bennet's this week. Ever since the beginning of the week the popular vaudeville house has been crowded at every performance, but since the Tiger pictures have been shown it is hard to get a seat.

MAYOR WILL OPPOSE IT,

And Business Men Object to Publishing Incomes.

Force on Annex Sewer Will Have to be Doubled.

Why This Delay in Bringing on Nelligan Case?

Mayor Stewart to-day declared himself strongly opposed to publishing incomes. There was some talk of the Trades and Labor Council taking this matter up in view of the Finance Committee's action last night, but the Mayor thinks he has convinced the officials of that body with whom he has spoken that the incomes should not be published.

A good deal of dissatisfaction is being expressed in civic circles over the delay of the Trades and Labor Council in proceeding with the charges in the Nelligan case, which, it was promised, would be laid. The officials and some of the aldermen say it is unjust to have this hanging over a man's head so long.

The gang working on the new annex sewer will have to be doubled to get the sewer sufficiently completed to handle the drain and surface water from the new plant of the Berlin Machine Works. This was something the city promised to look after when the firm came here, and Mayor Stewart is determined the promise will be fulfilled.

Building permits were issued today to James Jackson for plans to build on Kinrade avenue, between Barton and Cannon streets, to cost \$12,000, and to James Howard for two brick houses on Oak avenue, between Barton and Birge streets, to cost \$2,600.

Through a slight smash up on the G. T. R. at Port Credit several freight cars were thrown off the track, and blocked traffic for about two hours this morning. The C. P. R. train from Toronto was delayed by the derailment, and did not arrive here till about 1 o'clock. No person was hurt.

VESSLS COLLIDE. Detroit, Oct. 11.—The steamers Lake Shore and Fred Fabst collided today in St. Clair River between Fort Gratiot light and Point Edward, and the Lake Shore was badly soured in about the bows, while the Fabst sank close to shore. The crew all went into the pilot house and are safe.

WHAT THE CLERGYMAN SAID. Hanover, Ont.—No other class of men have the opportunity to do as much good, and be such helpful influences, as the clergy. Not only in their sermons, but in their daily life, they can teach us the better way of living.

FATAL SHOOTING. St. Louis, Oct. 11.—In a battle with revolvers early to-day between six United States revenue officers and a man suspected of manufacturing oleomargarine, one of the revenue officers was shot, probably fatally, through the breast, and the suspect received a bullet through the groin from which he may not recover.

THOMAS SHIPLEY FOUND GUILTY OF STEALING A WATCH.

Sixteen-Year-Old English Lad Given Chance to Find Work—Other Cases at Police Court.

Thomas Shipley, Mountain top, who was remanded yesterday on a charge of stealing a watch from a companion, was found guilty of the offence at the Police Court to-day, and remanded till to-morrow for sentence.

Harry Kempf, the proprietor, said he was told that Shipley had the watch, and he demanded it of him. Shipley asked him, "What is that to you?" and it was only after he demanded it a second time that Shipley gave it up.

Mr. Farmer thought there was no evidence of theft, but his worship did not agree with him. He remanded prisoner till to-morrow for sentence, as he considered he was too old a man to get off with a suspended sentence.

Checkers Galvin, charged with assaulting William Carle, was allowed to go, as the complainant wished to drop the charge.

SCHOOL FEES CUT IN TWO.

Trustees Think the Lower Rate Will Suffice.

Advocates of Total Abolition Made Out Poor Case.

All Four Collecting Only Enough for Books and Supplies.

That from January 1st, 1908, the public school fees be reduced to 10c a month for all public school pupils," was the most important resolution passed at the meeting of the School Board last evening. The above resolution was moved by Trustee Callaghan and seconded by Trustee Allen and was passed after the idea had been bent and twisted in every possible way and after two other amendments had been turned down. When the members of the Board were asked to pass the Internal Management Committee's report was the beginning of the struggle and Mr. Callaghan introduced it by outlining the situation. He said that last year he opposed the movement for the abolition of fees as being too radical and that this year he thought almost the same thing, but on careful consideration of the facts as he saw them he thought that instead of abolishing the fees it would be the better plan to cut them in two and charge 10c cents right through. In September of this year he said that 7,249 pupils had paid fees in the public schools and at the ten cent rate he proposed there would be about \$730 a month for school supplies which he understood to mean just the actual books and pencils. Several of the other members stated that in their mind the expenses covered everything and amounted to \$2,000 a month or over.

Trustee Bell then offered his solution of the case which was, that the clause in regard to school fees be struck out and that they remain the same as they were previously. "You know how our expenses have increased in the past year," he said. "All the teachers have had their salaries raised, and justly too, but our expenses have to be covered some way. You know it is an arbitrary thing to abolish school fees and shove extra taxation upon the people. It is an injustice to take money from a childless man to educate a whole lot of children belonging to his next door neighbor."

"Most people," he continued, "were quite willing that the tariff remain the same," and he designated the matter under discussion as the spasmodic work of two or three individuals. To take the opinion of a majority of the taxpayers it would be found that they would be satisfied to let things remain as they are and keep on paying the small amount they have been paying. "It's not fair in view of the increase in the expenses in getting efficient teachers to reduce the fees," he said.

Trustee Wilson here interjected that he represented the majority of the tax-paying public, and he saw that it would be impossible to entirely do away with the fees this year, but that by cutting them in half it would clear a path for the ultimate abolition of them.

"Our boast of free education is heard on all sides but there is certainly no education free in this city," he said.

Trustee Booker declared himself in favor of Mr. Bell's resolution, and said that the talk of the present rates being a hardship on any one was all "poppycock, tommyrot and nonsense." Look at the money spent in theatres, hotels and other luxuries while the education of child life is considered a mere nothing to some people. Half the pupils who pass the entrance when they reach that age slide off into the commercial classes and look at them getting a free education while those who went to the Collegiate were stuck for the same rate as usual. Abolish the school fees and then ask the city for \$12,000 and it makes a difference to them of double the amount," he said. The Mayor sitting beside the chairman smiled at this, but made no reply.

Trustee Lazier expressed himself as in favor of the abolition of fees. He had made a change in his policy as regards this, he said, but was all for that side of it now.

Mr. Armstrong also endorsed partial abolition as provided for in Mr. Callaghan's amendment.

We are an exception as a fee-charging city in Canada," said Mr. Callaghan, as I understand that Toronto, Ottawa and London all provide free education. 10c covers all the cost and I can't see why more should be charged.

Trustee Wedell said that in his opinion the half lost bargain of Mr. Callaghan's should be accepted, instead of attempting to collect the limit of the law, which the twenty cent rate is. He was also of the opinion that the remarks about a childless man objecting to pay his taxes were unjust, and that any man who refused should be run out of town.

Mr. Bell differed with him on this point, and said that the man who wished to have his children educated at the expense of his neighbor was the man who should be run out of town. Mr. Bell said that he thought if the Board abolished fees that the Council would tell them to levy and collect their own taxes, and that would leave them in a fine hole. He said that the man who

KNOX Y. M. U.

Will Send Representative to Discussthe Asiatic Question.

Knox Church Young Men's Union held its regular meeting last night, with the Vice-President, A. Smith, in the chair. There was a good attendance.

An invitation was received from the Canadian Club to send a representative to discuss the Asiatic question at the Conservatory of Music on Monday night, and it was accepted. C. Peebles being elected to go. The programme consisted of short speeches by all the members on how they spent their holidays, and it was very interesting. Nearly all had been at different places, and had used their time to advantage, but still they could not find a place they liked better than Hamilton. Dr. Nelson told of his trip to Ireland, and of the exhibition at Dublin, where Canada's exhibit was second to none.

The programme committee has mapped out a series of programme, which should be very instructive as well as entertaining. An interesting debate is being arranged for, and several good speakers have been secured. Next Thursday night there will be a good debate, also a literary contest. The week following there will be an open meeting when J. Faulkner Smith will give a talk on "Español, the new Universal Language." D. Knapman was the critic of the evening, and his remarks were much enjoyed.

ST. HILDA CHAPTER.

Daughters of Empire in an Active Campaign.

The monthly meeting of St. Hilda Chapter, Daughters of the Empire, was held in the Y. W. C. A. parlor on Tuesday at 4.30. The Regent, Mrs. H. H. Robertson, presided. The minutes of last meeting were read by the secretary, and the treasurer reported a good balance in the bank. Four ladies were proposed as new members.

Much regret was expressed at the resignation of Mrs. R. A. Pringle, Vice-Regent, owing to ill-health. Mrs. Ed. Ward Duffield was elected to the office by a unanimous vote.

It was decided to send \$5 annually to the Canadian Hospital in India, represented by Mr. Cavalier.

Plans were presented for the erection of her houses at the Mountain Sanitarium. The chapter will call for tenders for the building of three, after the plans

NEW YORK WEDDING.

Marriage of Miss Champ and J. R. Fitzpatrick.

On Monday, Oct. 7, at 8 o'clock in the evening, at 649 West End avenue, New York, at the residence of her brother, Mr. W. S. Champ, Ven. Archbishop Forester, of this city, united in marriage Emily Louise, daughter of Mrs. Emily Louise, to Joseph Reid Fitzpatrick, formerly of New York, and now of Toronto. Miss Ethel F. Champ, sister of the bride, acted as maid of honor, and Mr. W. B. Champ officiated as groomsmen. The wedding was quiet, only relatives and immediate friends being present. Mr. and Mrs. Fitzpatrick are now spending their honeymoon in the Adirondacks, and will take up their residence in Toronto the latter end of this month, at 648 Church street.

We would ask you to read the T. H. Pratt Co. large advertisement in

CASSIE CHADWICK DEAD.

Ontario Woman Leaves Term Unfinished in Ohio State Penitentiary.

Columbus, Oct. 10.—Mrs. Cassie Chadwick, whose amazing financial transactions culminated in the wrecking of an Oberlin bank some three years ago, died in the women's ward at the Ohio penitentiary to-night at 10.15. She had been in a comatose condition for some hours previous to her death and the end came peacefully. No friends or relatives waited at the bedside, only the prison physician and hospital attendants. Her son, Emil Hoover, was summoned from Cleveland, but he is not expected to arrive before to-morrow morning.

Mrs. Chadwick's death ends an extremely checkered career. Born of a respectable family at Appin, Ont., in 1866, she married C. R. Hoover in Woodstock in 1880, and was left a considerable sum of money by him. She lived for a time in Cleveland, but suddenly disappeared, and was next heard of serving a term in Ohio State Penitentiary for forgery.

Soon after her release she married Dr. Chadwick, and travelled with him in Europe and America, scattering money lavishly. She began to dabble in finance, making daring speculations, and at times clearing large sums. She and her husband entertained a great deal, and in Cleveland and New York won a name of general good credit. She was extremely fond of jewelry, and had a magnificent collection of gems.

Then the crash came. In December, 1904, Mrs. Chadwick was arrested on a charge of aiding a bank official to embezzle some \$12,500. She was unable to get bail, and an examination of her resources showed her to be bankrupt and deeply in debt. It also came out that, posing as a daughter of Andrew Carnegie, she had raised large sums of money in his name. Her creditors received only a fraction of a cent on the dollar, and on being tried at Cleveland the famous society woman was found guilty of fraud and sent to the penitentiary.

The Board of Conciliation refused to compel the men to instruct students in telegraphy, and they make provision for protection of operators engaged in inclement weather when accidents have occurred.

The hours of labor were not reduced, but compensation was made in salary. Despatchers who are overworked will have their circuits divided. The agree-

C. P. R. OPERATORS.

REACH AN AGREEMENT WITH THE CANADIAN PACIFIC RAILWAY.

Also Get Holidays—No Change Made in the Hours of Labor or Duties—Over-time for All Work Done on Sundays.

Toronto, Oct. 11.—The Canadian Pacific operators receive an advance of 14 per cent. in wages, to date from Oct. 1, amounting to an increase of between \$175,000 and \$200,000 annually to the company, and are granted holidays with pay, and overtime for all work done on Sundays.

ment has been signed by the commissioners, and on behalf of the company and their employees.

The dispute of the C. P. R. and their operators has been adjusted by the Board of Conciliation, composed of Prof. Adam Shortt, of Queen's University, Kingston, Chairman; Mr. Wallace Nesbitt, K. C., for the C. P. R., and Mr. J. G. O'Donoghue for the men, by an advance of 14 per cent. in wages, or an extra expenditure annually of from \$175,000 to \$200,000. The C. P. R. and C. N. R. operators are now expected to follow up the award with applications for more wages and better conditions. The Grand Trunk men have arranged a meeting with Superintendent Brovacek for next week.

YORK LOAN.

PIANO PURCHASERS CLAIM THEIR STATUS HAD CHANGED.

Money Had Been Withdrawn—Was Held by the Company to be Applied Towards List Pianos or Life Insurance—Hamiltons Make Claim.

Toronto, Oct. 11.—Mr. McBrayne, of Biggar & McBrayne, Hamilton, appeared yesterday morning before Mr. George Kappel on behalf of certain shareholders, who claim to rank as creditors. They are officially known as clauses 5 and 6. When the crash came these shareholders had already sent in their receipts to the company for the amount of their withdrawable shares which they had agreed to apply either towards a List piano or against premium on a policy with the Toronto Life Insurance Co. The agents of the York Loan acted also as canvassers for the List Piano Company and the Toronto Life, which were subsidiary companies of the York Loan. The shareholders contend that the relations between the different companies did not affect them in the least. So far as they were concerned they had withdrawn their stock from the York Loan and entrusted the amount to the latter to be applied in the manner directed by them. The York Loan Co. therefore held the money for them as their agents, and the money not having been applied as directed they were entitled to rank as creditors, their status as shareholders having been terminated on the acceptance of their receipts.

Mr. McBrayne contended that the position of his clients was altogether different from that of those who had changed their withdrawable stock for permanent stock. The latter remained first ordinary shareholders. Mr. Stewart Lynn, who was employed by the York Loan for a number of years, was called as a witness to explain the procedure in the withdrawal of their shares by Mr. McBrayne's clients. He identified a receipt signed by a shareholder, which read: "Received from the York Loan and Savings Company the sum of \$33, to be applied on piano." "You practically got an order from the shareholder to reinvest the money withdrawn by the shareholders in something else," asked Mr. McBrayne. Mr. Stewart Lynn agreed that such was the position. Mr. McBrayne further contended that should the transfer of moneys from the York Loan to one of the other companies be illegal this would not affect the status of his clients, who had, in giving a receipt to the company, ceased to be shareholders and could not be re-constituted shareholders except by their own act.

Mr. Lynn stated that there was no by-law of the York Loan providing for the transfer of moneys from one company to another. There might be one for the transfer of moneys from one class of stock to another, but applications to this effect were carried out by the certificate department and the witness could not say definitely what governed them.

Further argument as to the claims of these shareholders was adjourned till Monday. Mr. Kappel, with the concurrence of counsel for the other claims, has decided that those shareholders whose payments were in advance and who had therefore a cash balance to their credit at the time of liquidation, should be classed as creditors for such advances. The total amount here is only \$200,000.

The adjourned hearing on the claims of class C shareholders was resumed at 4 o'clock yesterday afternoon. Mr. A. W. Briggs appeared on behalf of the holders of class C certificates, which purport to give a first claim on the assets of the company. Mr. W. M. Douglas, K. C., for the general body of shareholders, and Mr. C. D. Scott, for the liquidator.

Only documentary evidence was put in, argument being reserved for a date to be fixed later.

THE BLOATED FARMER.

Has Paid Off His Mortgages and Now Has Money in the Bank.

The Western States boast a great deal about their bank deposits. It is true that a single bank of New York City has as much money in its coffers as do all those of Kansas, for instance—but in the latter case, says the North American Review, the savings are not trust funds or speculators' accounts, they are those of tens of thousands of hard working citizens and represent long days of toil beneath the burning sun.

The ownership of the farmers' comparatively pithoric bank books have a liberalizing effect. The fearful things promised during the days of financial darkness have been forgotten. The capitalist, while perhaps not considered a comrade, is looked upon as having rights—an attitude once unknown.

There is no more talk of electing judges who will refuse to order mortgages foreclosed. For one thing, there are few mortgages to foreclose, and for another, the westerner is in favor of enforcing the law to the utmost, since the local loan fund is a staple source of investments in these latter days.

The material welfare that has come out of eight years of abundance is easily outlined. It is expressed in a catalogue of cancelled mortgages, new dwellings, refunded bonds, swollen bank deposits and improved belongings.

In some sections the transformation has been marvelous. For instance, in Oklahoma City, where seventeen years ago not a white man had foothold, a population of 30,000 now possesses every modern appliance for ease and comfort. Electric cars traverse the streets over more than thirty miles of track, and groups of Indians, lazily watching the innovation from merchants' doorways, make vivid contrast between the old and the new civilizations. Interurban trolley lines will be in operation a hundred miles west of Missouri before the end of the current year. Life's enjoyable features which have been monopolized by the east for a decade are moving across the country.

Locomotive for Tunnels.

In the operation of the tunnels of the Pennsylvania Railroad under New York City, between the tunnels and outside levels it will be necessary to establish mountain grades, on which the traffic must be handled at high speed. This calls for a locomotive more powerful than heretofore built of any type. One of the leading electrical construction companies of this country has just built a put to preliminary test on the tracks in the tunnel and its approaches. In the trials made at the works the current was taken from overhead wires at 11,000 volts.

Each passenger engine draws on an average 60,000 passengers yearly; and each goods engine 40,000 tons of goods.

IS WORTH SAVING.

PUT IT IN SAFE PLACE FOR IT MAY COME HANDY.

Here is a simple home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination, are readily overcome. Here is the recipe: try it: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known local druggist is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structure, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter, which cause these afflictions. Try it if you aren't well. Save the prescription.

WOMAN'S DEVOTION.

REMAINED TRUE TO HER CON-VICT LOVER.

Married Him After He Had Served Four-Year Term—Through All His Troubles She Refused to Believe Him Guilty.

Worcester, Mass., Oct. 10.—A wedding of more than ordinary interest, solemnized in St. John's Church here today, was that of Miss Clara Cecilia Leach, a wealthy and prominent society woman, to an ex-convict, John W. Maher. The Right Rev. Mgr. Thomas Griffin conducted the ceremony. The wedding created general interest in business and society circles throughout the city. An unusual romance lies back of this wedding, for it involves the unending devotion of a society woman for the business man she loved in spite of the black mark chalked against him by the Worcester County Superior Court jury, which found him guilty of larceny and sent him to jail for a term of four years.

Maher was charged by Robin G. White, of the firm of White, Povey & Dexter, with the larceny of \$3,000 and with forging White's name to a note for \$2,800. He was indicted on both charges. Though acquitted, after a stiff fight, on the charge of forgery, he was convicted for stealing the money and sentenced to prison for a term of four years. Through all his troubles his sweet-heart and family refused to believe him guilty. During his jail term he was consoled by the fact that Miss Leach would remain true to him in spite of his record and would marry him when he was released.

The bride is a prominent church worker, and has been for some years. She is a member of the fashionable Woman's Club of Worcester, and is the possessor of much wealth.

CHANGE OF TIME.

A new time table will go into effect on the Canadian Pacific Railway, Monday, 14th inst. The train leaving Toronto at 2.40 p. m. will be discontinued, and the train now leaving there at 3.55 will leave at 3.45 p. m. A new train will leave Toronto at 9.30 p. m. and arrive at Hamilton 10.25 p. m., connecting with trains from the London and Owen Sound sections, Guelph, Goderich, Teeswater, Orangeville and Muskoka branch lines. There will be no changes in the time of trains leaving Hamilton.

Pension Schemes.

In a letter in the London Times of recent date, signed by Lord Avebury and others, the suggestion is made that contributions be secured from wage-earners and a ratio established between payment and pension. This idea is similar to that embodied in the bill introduced in the Canadian Senate by Sir Richard Cartwright at the last session of Parliament. Lord Avebury calculates that if a man of 20 paid £1 a year till he was 65, the Government could then, on the well-known principles of life insurance, give him a pension of 7s 4d a week. The Government in order to do this, would reckon interest at, say 2 1/2 per cent, the rate at which it borrows money. But Lord Avebury would allow an additional 1 per cent, by which the pension might be increased to 10s 6d per week. This extra allowance, it is estimated, would cost about £1,000,000 a year. To prevent abuse of the Government bounty, Lord Avebury would limit contributions from any individual to a shilling a week, and instead of forfeiture of small and irregular payments there would be a diminished pension. This plan the London Spectator would supplement or extend by collecting through the employer, from wage-earners between the ages of 16 and 22, the period before marriage, a penny a day. This would amount to about £9 in all, which, at interest for 45 years would of itself provide a pension of 5s a week. The same result could be accomplished by a small cash payment at the birth of a child.

THE HUNTER CURED.

A Story Every Boy Should Read and Take to Heart.

Without any nature-faking or any mawkishness, Dr. Henry Smith Williams describes the drama of a wounded bird. "The bird at which the boy had fired thrust down its legs and wobbled as if about to fall; then recovered itself and flew on, its legs dangling. A chance shot had apparently broken its back, paralyzing its legs, but leaving it still strong enough to try a certain distance. Trained hunter as he was, the boy watched the wounded bird, and marked the exact spot where it finally dropped just at the edge of a cornfield half a mile away."

"I think I'll go after it," said the youth. "Nonsense," said Luther; "it's a half mile away and you have all you want without it." "But the bird is wounded. I hate to have it lie out there and suffer." "Oh, it's probably dead; or if it isn't some skunk or weasel will kill it tonight. Come along."

"It was nearly sunset, and the youth was tired after the long tramp of the day. It would be a long trip over to the cornfield for weary legs, and then perhaps to find the bird dead. Already it was supper time at home, and he had a hunter's appetite. So he allowed himself to be overpersuaded, and the two tramped homeward.

"But the grouse that had fallen over in the cornfield was not dead. Not, as it chanced, was it wounded of a kind to produce speedy death. The injury did, however, render the bird utterly helpless. Once it had dropped to the earth, it could not rise again. Nor could it move about on the ground for its legs were paralyzed completely. It lay on the bare earth, sheltered by the cornstalks from the eyes of hawks, and where there was no such danger that a marauding beast would find it. But there was no food at hand. It was doubtful even whether the bird would be able to sip a few drops of dew from a cornstalk to quench the thirst that its wound must develop.

"Quite obviously," late had marked the grouse for a lingering death of torture. Its wound, already painful, must become more so with the lapse of time. Insects would add to its misery. It hunger and thirst would add to its modicum of agony. The greatest mercy it could hope for would be the coming of some skunk or weasel, as the hunter had suggested, to put it out of misery. But no such messenger of speedy death chanced to come that way.

Dr. Williams describes the church service the following Sunday morning, and the awakening of the boy's mind to a fear that the wounded grouse might not have died all these days, and he goes on: "The youth's soul was undergoing development in that half hour. He was making one of those short cuts from point of view to point of view. He was passing—little as he realized it—from the barbarian-hunter stage to a plane of broader sympathies.

"All through the lesson he sat brooding the same thoughts, and as he left the church the idea of the wounded bird had taken full possession of his mind. Instead of going home, he set out for the field where he had shot the grouse. He believed he might find the bird even yet. At least he would try. "A good memory and a keen eye enabled him to go about the point of the field from which the grouse had fallen, and over by the cornfield he noted the exact point—marked by a peculiar fence post—where the wounded bird had gone down. He went directly to it, and had scarcely entered the cornfield when his dog came to a point. There ahead on the ground lay the bird, stretched at full length. It made no effort to escape as he came up. It was too near death to fear him or anything, its eye half closed its bill agape, as it feebly gasped for breath.

"In an instant the youth was on his knees beside the bird, a great lump in his throat. His eyes staring as if they would start from their sockets. The meaning of it all came to him with the force of a blow. Mechanically, he brushed away the insects that gathered about the wound in the bird's back. He stroked the soiled plumage tenderly. He found himself calculating the hours that had happened Wednesday, and this was Sunday—24, 48, 72, about 90 hours; yes, fully 90. What a cruel stretch of torture! The youth recalled an occasion when he had had a toothache for two hours that had seemed interminable; and the meaning of that 90 hours of pain came home to him yet more vividly. In an agony of remorse he knelt there, thinking, thinking. He closed his eyes, and when he opened them a few moments later the grouse had ceased to breathe.

"The youth rose suddenly and walked to the verge of the cornfield. He selected a spot in a fence corner, and began to dig a hole. The ground was hard, and he had to dig but his knife and a piece of stick to aid him; but he persevered the more stubbornly as his fingers became sore from digging. When the grave was deep enough, the youth went after the body of the grouse and took it up very tenderly, as if so much of suffering had given it sacredness. He laid the poor thing carefully in the ground, smoothing its every feather. Then he resolutely scooped in the dirt till the grave was filled and carefully smoothed over.

"It was a thoughtful youth who walked slowly homeward across the fields that autumn day. He was asking himself what right he had to inflict such suffering as that. What manner of friend to the birds was he that could wish to kill them? What pleasure could he get in future in shooting always with the possibility of re-enacting the tragedy of the cornfield? "Long before he reached home, the youth had made up his mind. He knew that he should never shoot his gun again. He had entered his new phase of life. The desire to kill was no longer strong in him. The instinct of the hunter had left him forever."—Appleton's Magazine.

A Link With the Past. Ellsworth, Me., Oct. 10.—The Charity C. Royal, a real daughter of the American revolution and a daughter of a soldier in the French and Indian wars, is dead, at the age of 99 years. Her father was John Murch, who was sixty-six years of age when she was born. He fought at the battle of the Plains of Abraham in 1759. She had brothers and sisters who died more than a century ago.

LEMIEUX ACT.
SETTLEMENT OF C. P. R. TELE-GRAPHERS' STRIKE.
Strike of Miners at Springhill, N. S., Also in Way of Settlement—Cabinet Meeting to Arrange for the Session Hears the Good News.
Ottawa, Oct. 10.—A long meeting of the Cabinet was held this afternoon. Before the Council adjourned telegrams were read from Toronto and Springhill, N. S., announcing that the board of conciliation and investigation in connection with the C. P. R. telegraphers' dispute with the company had reached a satisfactory compromise in Toronto, and that there was every prospect of a settlement of the strike at Springhill, to-morrow. The averting of a telegraphers' strike on the C. P. R., which would have inflicted incalculable loss to the commercial interests of Canada, was hailed with the utmost satisfaction by the Government, and Mr. Lennox was again congratulated on the splendid results being achieved through the working of the industrial disputes act, passed last session. The value of the act is especially emphasized in this instance by a comparison with the lack of similar legislation in the United States to avert the recent telegraphers' strike in that country. In respect to the strike at Springhill Mines, the Deputy Minister of Labor, W. L. Mackenzie King, received telegrams this afternoon from Premier Murray, of Nova Scotia, and from Mr. John Moffitt, representing the miners, both stating that the men and the company were coming to an agreement, and work would speedily be resumed at the mines. Mr. King has been actively engaged for the past few weeks in endeavoring to bring about a settlement of the trouble at Springhill.

ST. JOHN Y. M. U.
New Union Organized With Very Good Prospects.
A meeting of the young men of St. John Presbyterian Church was held last evening to complete the organization of the union. There was a large turnout and everything indicated to a successful winter's work. The officers elected were: Rev. John Young—Hon. President. J. H. Horning—President. James Smuck—Vice-President. Lawrence Johnston—Secretary. James Cameron—Treasurer.
The rest of the evening was spent in open discussion on the essential qualifications required for success in life.

Foreign Languages in Japan.
Public examinations in Japan show a preference for the study of English by all those who intend taking up mercantile pursuits, while German is especially popular with students intended for the learned professions. Chinese and Korean are much studied by our allies, who also devote much time to Russian, French and Spanish. Altogether, the modern Japanese student shows signs of becoming indeed, adding Esperanto to the sum total of their linguistic achievements.—From the Pall Mall Gazette.

CHICAGO CUBS' SECOND VICTORY.

Detroit Beaten Again Yesterday In World's B. B. Series.

Arrangements for the Big Football Match Here To-morrow Between Tigers and Montreal—Tramfast Won the Kentucky Futurity—C. A. A. U. Has Not Yet Given Answer to Argos.

Chicago, Oct. 11.—The Detroit American League team suffered its second consecutive defeat at the hands of the Chicago Nationals yesterday, scoring only one run. Chicago tallied five times, four of the runs being the result of solid hitting. Siever started to pitch for Detroit, but the locals took kindly to his curves and batted him out of the box in four innings. Killian then took up the work, and was found for three hits and another run in the fifth.

Detroit vainly tried to break through the Chicago defense. Reulbach pitched strongly in the opening innings, and when he showed signs of weakening in the fifth and sixth innings, his team mates came to his rescue with fast double plays.

For some unexplained reason the game failed to attract the usual large crowd to the grounds. The official figures made the total 13,114, and the many empty spaces in the extended bleachers made the gathering appear smaller than it was. The crowd was more demonstrative than the big outpouring of Wednesday. Reulbach's fine pitching in the early innings, and the hard hits by Steinfield, Evers and Sheppard roused the Detroit contingent cheered the louder, so that the visiting team might not think itself deserted.

The game went much faster than the one of the preceding days. Only thirteen batters faced Reulbach in the first four innings, while the Chicago hitters lost no time in finding Siever. The first run came in the second inning, when Steinfield lined the ball over third base, reaching second on the hit. Kling sacrificed, and Evers knocked a double over first base. Steinfield scored, but Evers was left when Schulte and Tinker were retired on infield grounders. With Reulbach pitching his best, the Nationals batted Siever savagely in the fourth. Steinfield drove a long fly to left field, and Jones got the ball near the boundary. Kling followed with a single to right. Evers sent him to third with another drive to the same part of the field, and Schulte dropped a fly safely in centre, scoring Kling. Evers tried to make third on the hit, but was caught and run down by a swarm of Detroit batters. Schulte went to second. Tinker batted a high fly to Jones, but the left fielder dropped the ball, which let Schulte score and Tinker get to third. Reulbach caught a low ball over second base, sending Tinker home. Coughlin then caught Slagle's high fly.

Manager Jennings decided that Siever had failed to make good, so Killian appeared in the next inning. He was given a warm reception by the locals, and a single being got off his delivery. Only one run resulted, however, for the hits alternated with the outs. Chance got the first double and scored the run.

The next three innings the locals went out almost in order.

Detroit lost its first chance to score in the fifth because Tinker intercepted a liner and turned the catch into a double play. Rossman was safe when his hard grounder bounded off Tinker's ankle. Coughlin was passed, and Schmidt's grounder down the first base line advanced both runners. Leavey was obliged to remain on first while Schmidt and O'Leary lifted easily-caught flies. The teams left for Detroit last night accompanied by a small army of enthusiasts. Games will be played in the Michigan city to-day and Saturday, the Sunday contest being scheduled for Chicago. The receipts yesterday were \$16,212.50. The score:

SENATORS B. B. C. MADE MONEY.

A most enjoyable time was spent in the Senators' Club rooms last evening, when "Barney's Colts," winners of the Intermediate Baseball League, were presented with watch fobs, which were donated by the well-known sporting goods man, Fred Skerrett. A handsome shield, donated by the Pneumatic Bell Co., was presented to Manager Barnfather. H. Lukes was presented with a hat and R. Beattie received a fielder's glove, for making the most runs.

W. H. Jacobs, President of the League, made the presentations, and suitable replies were made by Secretary Fulton, Captain Beattie and others.

Comment and Chat

In an article on the recent meeting of the Hamilton Jockey Club, the Canadian Sportsman to-day says:

"It is the fashion to elect gentlemen to positions as directors of a jockey club, not on account of any knowledge they possess of racing law, but simply because they are either stockholders or popular citizens who add strength, perhaps socially, to the club. Now, while these gentlemen may be eminently qualified by their position to strengthen the financial prospects of a club, it is expecting too much to ask of them to play the role of expert judges respecting the running of races. Yet, it is too much the custom to appoint one or two such persons to act as stewards of the day. They know absolutely nothing about the rules that govern races. They are incompetent from lack of experience to form an opinion respecting the conduct of jockeys in a race, and therefore are quite unable to protect the public from the tricks of dishonest jockeys or thievishly inclined owners. Judge Murphy for a day or two officiated as a steward at the Hamilton meeting, but, if we mistake not, after that it was a case of club members officiating, and then the trouble commenced. The jumping races were subject to the machinations of wirepullers down town and a very interesting story could be told respecting the doings of certain sons of Israel who gained unsavory reputation by their tricks at Fort Erie. Similar work was undertaken at Hamilton, and was successful in at least one case I know of. If the Hamilton Jockey Club would engage a thoroughly experienced racing official to be on duty every day of their meeting, they would be taking a long step in the right direction. With such an official they could appoint a member of their club to act. In this way a great service would be done the best interests of the sport, and the public would have implicit confidence that the club were acting to the best of their ability to protect their patrons."

Thirty thousand fans at the ball game in Chicago, and to think Ben Greet played to empty benches in the same town.

Looks like the Cubs at this distance, unless the Tigers come back to form. They are doubtless of color, especially behind the bat. Archer, the Toronto boy, may be put in to catch to-day, the first home game, that should be a victory, if Jennings is going to redeem his promises.

The Union situation still hangs in the balance. Too bad if the matter is not settled up before the kick-off to-morrow. Dr. Hendry, secretary of the Interprovincial, will impress the average questioner that his union desires to play football according to the amateur idea. The C. A. A. U. has done good work all along on correct lines, and regardless of what may be said in the east the governing body can afford to accept Russell's affidavit, reinstate Montreal and the Argonauts; and let the Rugby men henceforth run themselves. They seem honest and capable.—Toronto World.

The entries for the Ward Marathon road race at Toronto closed yesterday with 113 competitors for the great Canadian race. The big races at Athens, Chicago, St. Louis and Boston are all passed by the Ward Marathon, which has made a record as the largest road race ever held in Canada.

TRAMFAST IS IT.

Two-Year Old Trotter Won Futurity at Lexington.

Lexington, Ky., Oct. 11.—Tramfast, a 2-year-old roan colt, by the Tramp, is the new champion 2-year-old trotter. He won the 2-year-old Kentucky Futurity here yesterday, the first heat in 2:12.4, the fastest mile ever trotted in a race by a 2-year-old, but it required a great struggle to win. An eyelash in the first heat, and a short head in the second heat gained the victory.

Dorothy Axworthy, so lame she could hardly hobble, forced Tramfast to break the world's record to beat her. This led down the road to the winner to a nose finish in the second heat.

The leading lady, favorite, broke badly in both heats. The previous record for the 2-year-old Futurity was 2:14, made by Katherine A. in 1902.

Dorothy Axworthy led from the start until within a yard of the wire in the first heat, but at all times Tramfast, The Laird, and Henry Sotzer hung at her silky wheel, and it was any horse's race until Tramfast was announced as winner.

In the second heat Dorothy Axworthy was saved, as it was not believed that Tramfast would repeat. This led down the road by Tommy Murphy, outstayed the son of Jay McGregor, and won in a nerve-racking finish by a nose.

LONGBOAT FOR MONTREAL.

Toronto, Oct. 11.—"Big Chief" Longboat has been entered in the around-the-mountain race at Montreal on Thanksgiving Day, and will not start in the Hamilton Herald race. The Indian has won the Hamilton event, and much prefers to annex the Montreal race. Longboat has been out at his home on the reserve for some days with Hilton Green, getting ready for his fall engage-

HAMILTON TIGERS AND MONTREAL ARE READY.

Great Game Looked for at the Cricket Grounds To-morrow.

Notwithstanding the rain and very inclement weather the first Tiger team turned out last night and had a real strenuous practice under the watchful eye of Captain Ballard. Every man was out, and one new one, in the person of Otto Zimmerman, who cannot resist the charms of the football and was in his toga learning the signals and preparing himself for the handy utility man he is. Hall, Gray, Wagie and Clinie were all in the game and each handled himself like a veteran, in fact Clinie will likely be played at centre half to-morrow in place of Dandoum and from appearance he will more than make good. He is a big, strong fellow, with a good pair of hands and a quick worker. He has picked up the signal play splendidly and will shine in the position, with the old reliable Simpson and Moore on each side of him and Tope at the back, and Baird leading it is a sure thing there will be doings on the back division and if the Montreal team thought Hamilton had a good back division last year it is sure to think they are wonders this year. With Pfeiffer in centre and Murray and Hall or Gray forming the scrum the Montreal will be up against a stone wall. Pfeiffer gets the ball out clean and fast. Barron and Wagie will likely be the inside wings and leader and ettle Loftus or Hall the middle wings and Lyon and Marriott on the outside. Gordon Southam, who has played a star game with Varsity, may be in centre half, and his booting ability will be valuable. He has not turned out to practice yet, but he has been coaching Varsity and came here yesterday. Husky Craig, of course, will be in the line and will probably catch a place in the scrimmage. He is the strongest man on the team and is making a wonderful showing at practice in this position. The whole team is in splendid shape and is prepared for a hard, fast game. The Montreal team has been given instructions to play the first thirty minutes at their latest clip. This is quite satisfactory to the Tigers. They can play the fast clip for the whole game and it is probable from reports from their camp that the Montreal team may not be able to do that. Chaucer Elliott will do his best to put a winning team on the field, but he knows the city to-day and Saturday, the Michigan contest being scheduled for Chicago. The receipts yesterday were \$16,212.50. The score:

Gentlemen! Now Think!

The prestige enjoyed by this house in the clothing world is the result of over half a century's honest, square, upright dealing, selling dependable goods at right prices. There is no secret of the reason of our unparalleled success. It has been the natural outcome of untiring ENERGY, HONESTY OF PURPOSE AND SYSTEMATIC UNDERSELLING.

Every year our buyers go to the world's best makers and purchase our woollens direct from the best makers. We employ only the most expert cutters and designers in the land, and make up every garment in our own factory, under personal supervision and see to it that the work is perfect in every detail.

Our customers derive all the benefit of our economy in cutting, efficiency in manufacturing and our great knowledge and experience in selecting the fabrics and styles; in a word, in buying Grafton's High-Grade you buy on equal footing with other merchants. For this reason we enjoy the patronage of the best dressed men in most of the leading cities in Ontario. We can always furnish the particular man with whatever kind or grade of garment he wants at rock-bottom prices, because we do all the work ourselves, know the goods and are responsible for them. Come in and we'll easily convince you that our argument is a fair one.

GOLF AT CHICAGO.

Chicago, Oct. 11.—Feminine golf honors for 1907 will go to New England, as the result of the third round of the match to-day in the women's national championship tournament at the Midlothian Club. The defeat of Miss Sallie Ainslie, of Westward Ho, the only western golfer to reach the third round, and of Mrs. R. H. Barlow, of the Merion Cricket Club, the last of the Pennsylvania representatives, leaves only young women from Massachusetts to compete in to-day's semi-finals. Miss Ainslie was beaten only after a suborn match that required three extra holes. On the twenty-first green Miss Phipps ran down a long putt for a five, Miss Ainslie taking six.

SHORT ENDS.

There will be a meeting this evening of the Intermediate League. All managers and officers are requested to be present.

Ottawa, Ont., Oct. 11.—The O. A. A. C. of Ottawa, has to raise funds or go out of existence. The bailiff is now in possession, having been put in by the municipal authorities for a long standing account of \$800. The man is in possession, and the club has to supply the funds.

Tommie Burns and Gunner Moir have been matched to fight 20 rounds for the championship of the world, at the National Sporting Club, in November. Burns says that unless he is shown where he can make \$20,000 by fighting a man in America, he will depart immediately for London to box Moir.

ANY DUDE WILL DO.

At a Canadian watering place this summer was a single lady, whom some of the younger girls thought was tired of single blessedness, and who determined—in a spirit of reckless jollity—to spring a joke on her. So one of them asked, "What is the difference between a Yankee, a rooster and an old maid?" She did not offer a guess, and seemed rather afraid they were engineering some "plot." So one who pronounced the "idiot" answered: "The Yankee says, Yankee doodle-do; the rooster says, Cock-a-doodle do; and the old lady says, Any dude'll do!" There was a great explosion of laughter, in which the single lady hesitated to join; but in a minute she burst out as heartily as any of them, and exclaimed: "Send him on quick, for I'm tired of teaching school!"

ATTERCLIFFE.

The Bell Telephone Company's men camped on Mrs. Sammon's lot in the village, and are stringing wires on the trunk line.

Mrs. Wm. Souter is quite poorly. Mrs. Edward Dilts still improves a little.

Many friends here were sorry to hear of the sudden death of gas suffocation of Rev. B. L. Cohoe at his home at Nelles' Corners, last week.

J. K. Tisdal offers his big store in the village three months free, including fixtures to any one wishing to start business here. Plenty of gas and lamps. Word was received on Monday that Hiram Sensabaugh, now of Amargi, had suffered another stroke of paralysis and was unconscious.

SCOTLAND.

Quite a number from this village and vicinity attended the Windham Centre fair on Tuesday.

Mr. Wm. Johnson and daughter, Mrs. J. T. Bloomfield, and little daughter, Laura, of Round Plains, were guests of the former's brother and sister at Evergreen Farm, a little south of the village, on Friday of last week.

The apple pickers are in the neighborhood at present, but the weather is rather unfavorable for work.

Owing to the inclemency of the weather farmers are behindhand with their fall work.

The fall wheat is looking splendid in this vicinity at present.

BAPTIST SETTLEMENT.

Mr. H. B. Miller is wearing broad smiles these days, a little boy having arrived at his home.

Rev. and Mrs. William Carey, of Goodwood, are visiting relatives here.

Rev. L. and Mrs. McKinnon and children, of Peterboro, are spending a couple of weeks with the former's brother, Rev. J. N. McKinnon, prior to their departure for Calvin, North Dakota, where he will resume his work as a minister.

Mr. and Mrs. H. G. Bagley have returned to their home at Toronto, accompanied by the latter's sister, Miss Beatrice Spoor.

Miss E. and Mr. D. Kelly and Miss H. Vansickle have returned home, after spending two weeks at Michigan.

Mr. A. D. Vansickle is at Hamilton on the jury.

A number from here attended the funeral of the late John T. Pepple, at Jerseyville, on Saturday afternoon.

Rev. L. McKinnon delivered two excellent sermons from the Baptist Church pulpit on Sunday to large congregations.

Miss Nora Vansickle, of Tranquility, is visiting at A. D. Vansickle's.

Messrs. F. Baker and H. Vansickle, of Hamilton, spent Sunday in this vicinity.

Miss C. Vanderlip, of Butch, was the guest of her sister, Mrs. O. Vansickle, a few days last week.

Mr. and Mrs. S. Snider, of Brantford, spent Saturday and Sunday at Erastus Vansickle's.

Mr. and Mrs. M. F. Vansickle and children, of Jerseyville, spent Sunday at Orville Vansickle's.

Mrs. P. Drake, of Brantford, spent a couple of days here this week.

Miss M. Wilson was a Sunday guest at Mr. A. J. Misener's.

Mr. and Mrs. Orton Vansickle visited at Butch last week.

Mr. and Mrs. C. Dale, of Bethel, were calling on friends here on Tuesday.

N. Y. MURDER.

Police Have Hard Work Protecting the Slayer.

New York, Oct. 10.—Luigi Napolitano, a well-to-do Italian fish merchant, whose shop is at 246 Seventh avenue, was standing on the sidewalk in front of his brother Dominick's little fish store at 71 1/2 Mulberry street last yesterday afternoon, when Giovanni Pisana, an evil-looking man, stole up behind him and shot him through the middle of the back. Napolitano dropped dead, and in an instant the neighborhood was in an uproar.

Policeman Henry Weisenreber, of the Elizabeth street station, on post a block away, heard the shot and ran up. He found Pisana facing a crowd and holding a black with a smoking revolver. Weisenreber dragged the murderer into the little bank of Paquale Avallone, at the corner of Mulberry and Bayard streets, close by.

Pisana, the murderer, is a hard-looking man, who has been working on the mud sews.

The Photograph Was Enough.

It is said that just before Mayor Sherwood went to Washington to see the President in regard to being reappointed postmaster at Okeana, he remarked to a friend, "In going up there, drink a glass of wine with the President and eat the glass. This will assure me of re-appointment." Sherwood submitted his proposition to the President, who said: "That is not necessary, major. From a photograph of you sent me the President is convinced that you can perform the feat." And Gunn got the postoffice.—Wellington, Kan., Herald.

Rupture.

THE MOST RELIABLE and Successful Authority—Greatest success in the treatment of Hernia (Rupture) Varicocele (False Rupture) of all known agencies in modern times. He who makes a specialty of one department must certainly be more experienced and capable than those having other professions. Have your case attended to now, and thus avoid danger. Stop waiting time and money elsewhere, but come to one whose life-long study has taught him what to do. Do not depend or be deterred from seeking further advice, or because of repeated failures consider your case incurable. Because others failed in your case you have become discouraged. This is the very time you should consult me, as my reputation has been made in curing hopeless (so-called) cases.

LADIES suffering from Navel or any form of Rupture should not hesitate in having their case attended to. Everything strictly private and professional.

MOTHERS—Look to your children! Never let the time pass when you can cure, while young. Don't allow them to grow up handicapped in the race of life, with rupture.

MY CHARGES are within reach of all, the poor man as well as the rich. Terms can be satisfactorily arranged, no reason why you should not consult me at once, during this visit.

MEN OF ALL AGES SUFFER from this terrible affliction in some way. There is no other ailment to which men are heir that so completely cripples him for the duties or pleasures of life, as Varicocele, or rupture of the testicles. It is a disease which, if not cured, will result in the above conditions. No matter how serious your case may be, time affords, or the failure you may have experienced in trying to be cured by medicine—free trials, or Electric currents. Because others will cure you, the sooner you return for their expert condition and have the sexual organs receive proper attention, the better it will be for you. No delay in treatment. If you have had the usual experience, you have had a most large cause of danger and still larger quantities of time expending for the remedy that I offer you here.

WOULD COST ABOUT \$3,000

To Publish Assessment Roll—It Will Not be Done.

No More Money for the Board of Works.

Spinning Company's Night Work is Only Temporary.

The proposal to publish the assessment rolls, made by the Trades and Labor Council, was voted down by the Finance Committee last night. The estimated cost of publishing the rolls in pamphlet form, 17,000 copies, the Times' bid being \$1,800 and the Spectator \$30 less. All three city papers tendered at 10 cents an agate line to publish the rolls in the papers, which, it was explained, would be much more expensive. The aldermen figured out that with the \$400 it would cost to prepare the rolls for publication, and the printing, the expense would run as high as \$3,000. Ald. Peedies favored the matter going to the Council, but on motion of Ald. Bailey, seconded by Ald. Kirkpatrick, it was decided not to publish the rolls.

The question of publishing the income of citizens was discussed. This point was raised by City Clerk Kent refusing to permit the reporters to publish information from the rolls, giving statistics of some of the biggest taxpayers, something that it has been customary to do. Mr. Kent, the chairman explained, refused to grant permission to publish this information unless the Council took the responsibility of paying the cost of doing it. Mr. Kent contended that while the rolls were open for private inspection, he had no right to permit extracts to be taken from them for publication, and that was the view the Chairman took of it, too. The question was referred to City Solicitor Waldell.

Tax Collector Kerr asked permission to establish a new system in connection with taxes on property sales. In the past mistakes have resulted in the purchaser of a house, discovering after he has paid the seller the price asked, that there were taxes owing on which he had not figured. Mr. Kerr's scheme is to have a search made on payments of 25 cents to the clerk, and a certificate issued. Mr. Kerr advised that the fee be given to the clerk, who would be responsible for any mistake.

The aldermen objected to any fee going to the clerk. They considered it a bad principle. Ald. Peedies said he did not see why the city should accept any responsibility in the matter. Ald. Dickson said his idea was to have the 25 cent fee placed aside as a fund to be used for any mistake that might be discovered after a certificate had been issued. The matter was referred to the City Solicitor.

The Board of Works request that the Finance Committee find funds for doing \$2,850 worth of unfinished road work, which it had been decided to proceed with, until the appropriation was overdrawn and that Highbury street, from King to Main, and John street, from King to Main, be paved, the total cost being \$4,650, was promptly refused. It was explained that the money for the unfinished work had been disposed of in paying for the east end work, which the committee did not authorize. In addition, the Board of Works will have an overdraft of from \$10,000 to \$12,000.

To avoid any difficulty that might arise in dumping consumptive patients on Hamilton, to be cared for at the Sanatorium, the city having to pay a grant for each city patient, it was agreed that a person must reside in Hamilton a year before going to the institution to be classed as a city patient. This was done at the request of Relief Officer McMenamy.

W. W. Almas, who appeared in connection with a petition signed by himself and a score or more of residents in the vicinity of Sanford avenue and Wilson street, complaining of the noise made at nights by the operation of the Eagle Spinning Mills and the alleged nuisance created by smoke, was informed that the city had no power to deal with the first matter, but that the alleged smoke nuisance probably came within its scope. The matter was referred to the City Solicitor. Mr. Roy Moodie, one of the officials of the company, said the mill was operating at night to catch up on the fees in half.

The committee has no funds this year to spend in repairing the wall of the city store occupied by Klein & Binkley, but it was announced the firm was prepared to advance the money necessary, about \$1,000, and a sub-committee was appointed to make arrangements.

The notice of application to the Dominion Parliament of the Hamilton Rad. Electric Railway for a Dominion

charter was referred to the City Solicitor. A complaint from John Bell regarding the poor street car service to the steel plant was referred to the City Solicitor.

WOUNDS ON BODY.

UNKNOWN TAKEN FROM RIVER AT MONTREAL.

Foul Play is Suspected and Detectives Are at Work—An Inquest Will Be Held to Determine How the Man Came to His Death.

Montreal, Oct. 10.—Knife wounds all over the body of an unknown man, found, almost completely divested of clothing, floating in the river to-night, indicate that detectives will have to work on a new case of murder. It was shortly before 5 o'clock in the afternoon when William Halsey, while walking along the river shore near Dominion Park noticed a nude body being whirled round and round in the current, which is rapid just in that vicinity. The body was not far out, and about a hundred yards below where the rock was standing it got caught on a rock six feet out from the shore.

Halsey reported the case to the watchman at Dominion Park, who telephoned to the Coroner. It was only when morgue employees had been sent to the scene and examined the body that the traces of foul play were noticed. The most apparent mark of violence is what appears to be a deep knife wound one inch long located in the victim's left side just between the thigh bone and the ribs. That this wound was inflicted after death is indicated by the fact that the whole stomach is suffused with blood underneath the skin.

PAYING POLL TAX IN JAIL.

Smuggled Celestials Sentenced at Sydney Have Best of It.

Ottawa, Oct. 10.—Apropos of the sentence of nine months each imposed at Sydney upon 18 Chinese for illegally entering the Dominion without paying the \$500 head tax, the interesting discovery has been made by the authorities since the smuggled Chinese were rounded up that under the law as it stands the culprits will have discharged their obligation to pay the heavy poll by serving out their sentence. By the easy process of doing time they apparently are paying off their indebtedness to the Government at the rate of about \$36 a month and board.

The Government has, however, a card up its sleeve. Before the expiry of the nine months' sentences, Parliament may be called upon to amend the law in such a way as to stop the gap through which otherwise the prisoners would regain their freedom. An amendment to the Chinese Immigration Act may be adopted at the forthcoming session so drafted as to require the Chinese now in jail at Sydney to be made retroactive in its operation if it is to legalize the deportation of the Chinese now in jail at Sydney after they shall have served their term, or compel them to fork over some \$9,000 to the Dominion Treasury. Deportation would cost the country \$192.65 for each man, or a total of \$3,467.90.

A TREATY WITH GERMANY.

May Bring Line of Steamers Direct to St. Lawrence.

London, Oct. 10.—The Magazine of Commerce says the commercial treaty between Canada and Germany will be followed by a direct line of steamers from Germany to the St. Lawrence. Berlin reports state Germany is to be accorded by Canada most-favored-nation treatment. "Whether the suggested German steamship line ever becomes an accomplished fact," says the Magazine, "depends largely upon the possible development and ultimate terms of the settlement of the Atlantic trade war."

THE OSONIC THEORY.

Original Research Work to be Carried on at Queen's University.

Kingston, Oct. 10.—Queen's medical faculty has decided to have original research work in the onosonic theory carried on in the college. The appointees are Messrs. N. W. Connolly and James Byers. These students will pursue research work under the direction of Dr. Gibson, who last season spent three months at the Johns Hopkins University in the study of the onosonic method of curing disease. Queen's medical department prides itself on being the first Canadian institution to make provision for the study of what promises to be ere long a most potent factor in the alleviation of suffering.

Preston Child Succumbs to Effects of the Wound.

Preston, Ont., Oct. 10.—Marie Murray, aged six years, died this morning as a result of a bullet wound received from an air rifle in the hands of a playmate last spring. KERR'S POINT TO CHEDOKE.

Whole Mountain Front Should Belong to the City.

Movement Takes Definite Form and Looks Well.

It is for Citizens to Co-operate for Public Good.

A comprehensive scheme, which, if carried to a successful issue, will give Hamilton one of the finest driveways and system of parks on the continent, was formulated yesterday afternoon at a meeting of representative citizens, held under the auspices of the Civic Affairs Committee of the Board of Trade. The proposition, in brief, is for the city to secure control of the whole mountain brow and face from below Kerr's point on the east to Chedoke on the west, with parks at either end. It met with most enthusiastic and unanimous approval, and already steps have been taken which should ensure the matter being placed before the Parks Commissioners and City Council, in a short time, with full information including the estimated cost. The men behind the scheme are determined that it shall be carried into effect, and a vigorous educational campaign to impress on the public generally its advantages for the present and future will be instituted.

Mr. R. Tasker Steele, who has been one of the most earnest advocates and energetic workers in beautifying Hamilton, presided and briefly outlined the steps which had led up to the mountain drive and boulevard scheme. He referred to the indifference shown years ago, when the whole mountain brow might have been secured at a low price and the irreparable loss sustained by the damage done to the mountain face eastward by quarrying. If the scheme in the east could be carried into effect, the Beckett drive on the west secured and the generous offer of Mr. W. D. Platt to donate a park site accepted, a magnificent inheritance would be secured. Mr. Steele emphasized that those working to have the scheme carried out to a successful issue were doing so purely from an unselfish standpoint. "I think it is the duty," he said, "of every spirited citizen to give this matter a helping hand."

Mr. George Hope, who also spoke strongly in favor of the project, advised that the committee draw up a report embodying all the information, and present it to the Council and Parks Board. Options should be secured by the parks commissioners on land east of the incline, and a letter should be sent, recommending the acceptance of Mr. Platt's offer and the acquiring of lands as far west as Garth street from James.

Ald. McLaren said he would like to see the matter taken up in a different way. If the project was placed before some of the people interested in a proper light he felt confident better progress would be made. Property owners were apt to put the highest price on their land, in the other case, which would practically kill the whole scheme. A private committee, he considered, could make more headway and without as much publicity as if a public board was doing it.

Mr. Newton D. Galbreath said he thought Ald. McLaren's suggestion was a good one. It was well known that the city had to pay the highest price for everything, and he thought that if a committee of two were appointed to look after the east end and a similar committee for the west end to see what could be done, better progress would be made. Some of those interested might be prevailed upon to pursue a course that would inspire the others to give low prices.

"As a city asset I think the face of the mountain should be secured," said Mr. A. Alexander, who pointed out that while the difficulty in the past had been that while the aldermen individually accorded with the views of those who were in favor of the scheme, false notions of economy caused them in committee to turn it down. At one time nearly the whole face of the mountain might have been secured for the asking.

Mr. T. H. Pratt strongly approved of

Ald. McLaren's suggestion, and said he thought it would be a good idea to send a letter regarding the Gage property in the east end, recommending its purchase. Mr. Gage, he said, was prepared to sell, and this would be a big acquisition to that end of the mountain drive.

"There is no end of possibilities to the scheme if it is once started," said Mr. Frank Close. He thought an effort should be made to get the triangular piece of property near Queen street below the Beckett drive and now owned by the Government. It would make a good park site.

Mr. H. J. Halford, secretary of the Trades and Labor Council, thought Ald. McLaren's suggestion was the best one. By rousing up enthusiasm Mr. Halford felt confident the people would see it in the same light. "I am surprised," he said, "that the city has not taken the matter up long ago. The property is worth a good sum. I am in favor of getting the whole of the mountain brow. If the matter were put before the property owners in the right light they would see the advantages of it, and as it would increase the value of their property they might be induced to let the part the city wished to purchase go for a smaller sum. A strong influential committee should go before the Parks Board and the Council to urge it to act, and he had no doubt that if an agitation was begun the city could be prevailed upon to secure the property."

Mr. R. A. Robertson, president of the Board of Trade, said the suggestion made to look after the west as well as the east end was an excellent one, and he felt sure that by the influence that could be exerted by those in favor of the project and through the papers they would accomplish what they desired. His suggestion that Messrs. McLaren, Hope and Steele be a committee to look after the west end and get options, and Messrs. Pratt, Alexander and Galbreath a committee to get options and similar information regarding the east end property was adopted. Another meeting will be held in a week or so to receive the report.

NEW POCKETBOOK.

FRESH CONFIDENCE GAME WORKED IN PARIS.

American Robbed in Cafe of \$1,500 by Two Smooth Fellows—On Arrest, One of These Claimed to be Millionaire, and Proved His Statement.

Paris, Oct. 11.—An American seated alone at the Cafe American the other afternoon was accosted in his native language by two gentlemen at a neighboring table. The conversation touched upon patent pocketbooks, of which the American was carrying a fine example of native fabrication. The strangers informed him that they were agents for the most wonderful pocketbook yet invented. It not only opened secretly, but one could tell just how much money there was in it.

The American examined the purse and then drew out \$1,500, all the money he had with him, and the purse was snapped by one of the strangers, who defied him to open it. They left the purse with him, saying they would return in a quarter of an hour and if the American had succeeded in opening it in the meantime they would pay for the dinner.

The American worked over the contrivance for half an hour, and then became suspicious. He cut open the purse with his knife and found nothing. Then he rushed to the police station. As he was returning to the cafe with a Sergeant de Ville he espied the two strangers strolling unconcernedly along the boulevard. He had them arrested. They showed great indignation at their treatment, and one of them even offered to prove that he was not a professional thief, but merely a dilettante. He had done it because it amused him. In fact, if the police cared to inquire they would find that he kept a very handsome apartment in the centre of Paris, and was a millionaire many times over, with a big establishment in London.

The police did inquire, and, curiously enough, his assertion has so far proved to be true.

Western newspaper representatives met at Regina, and signed an appeal to Sir Wilfrid Laurier for redress against the excessive charges and arbitrary methods of the C. P. R. Telegraph Co.

THE WESTERN THRESHOLD.

(Robert G. Buchanan.)

The Pacific coast, regardless of nationality, is at present attracting world-wide interest, on account of the peculiar, e-gregat social drama which is now being enacted upon these shores of the great Pacific Ocean.

In San Francisco alone, these grave sociological problems are being solved, not by the mere baseless logic of the student, but in that vital emulation of conflicting races. Since the Russo-Japanese War, there has been a very manifest inpouring tide of the yellow races from Asia, who, since the earthquake and subsequent fire, have replaced many of the former citizens driven elsewhere by these untoward circumstances; by the sericulous labor troubles, or by the simple crowding-out process by Asiatics, who here dominate entire sections of the city.

Citizens may no longer evade their obligations and be blameless; they must accept these problems bravely, and recognizing their obligations to the race as a whole, cannot fail to recognize the obvious and attractive opportunities presented, which invite to a renewal of zeal, and urge upon all true lovers of the country the necessity of greater fidelity.

Here, on the Pacific coast, with this great horde of heterogeneous humanity in our midst, something must be done quickly, if the interests of the future are to be conserved, and this even upon the selfish basis of self-preservation, said to be the first law of life.

The urgency of these demands is too much in evidence to require proofs, and should engage our first, and very best efforts.

Some may say that all our energies are claimed by these local contingencies. Do not believe this insidious fallacy; such a despicable course would be fatal to the body politic.

Let us not narrow our interests by defining them by the confines of our community, or by confining them to mere national issues.

With world-wide intelligent interest in humanity, every man becomes a better citizen of his own country.

We stand upon the western threshold of this nation—the very gateway to the Orient—across which continually pours into our midst a vast vital stream of humanity, meeting here in that great heart to heart struggle, called life, which has proven to many a poor soul "the savor of death unto death."

"He stood upon the world's broad threshold, wide:
The din of battle, and of slaughter rose;
He saw God stand upon the weaker side,
That sank in seeming loss before his foes.

Many there were, who made great haste and sold
Unto the common enemy their swords,
He scorned their gifts of fame, and power, and gold,
And underneath their soft and flowery words,
Heard 'the cold serpent hiss; therefore
And humbly joined them to the weaker part;
Faatie named a fool, yet well content,
So he could be the nearer to God's heart,
And feel its solemn pulses sending life
Through all the widespread veins of endless good."

SWEEPING REDUCTIONS.
Likely to Come in Revision of Australian Tariff.

Melbourne, Oct. 10.—The Commonwealth parliament has reduced the duty on wine netting from 20 per cent. to 10 per cent. with a preference to Britain of 5 per cent. It is stated that other sweeping reductions are likely.

London, Oct. 10.—Mr. A. Bonar Law, M. P., speaking at Newcastle, calculated that the Australian preference would prove even more valuable than the Canadian.

The Morning Post points out that Australia is not likely to give Canada a preference on machinery, but as a reciprocal concession might take vast quantities of soft timber from the Dominion instead of from the United States.

Mr. Gobeil, Deputy Minister of Public Works at Ottawa, is expected to retire.

Doctors Think Emperor of Austria Will Recover if Careful.

Vienna, Oct. 10.—To the evident relief of the public there has been announced a marked improvement in the condition of Francis Joseph, the aged Emperor of Austria and King of Hungary, who is suffering from bronchitis.

The doctors say that the bronchitis may be cured within a week unless complications set in. It would not be unreasonable, however, to expect complications in view of the advanced age of the Emperor-King—he was born in 1830—and the well-known fact that he is prone to disregard and disobey medical advice.

In order to render his Majesty more amenable to the wishes of his physicians, it has been decided to install in the Schonbrunn Palace, the famous Viennese doctor, Prof. Neusser, who enjoys the Emperor's special confidence, and who thoroughly understands his constitution.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY eleven numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 20, not reserved, may be homesteaded by any person the sole head of the family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres more or less.

Application for homestead entry must be made in person by the applicant at the office of the local Agent or Sub-agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An application for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favor of father, mother, son, daughter, brother, or sister, but to no one else on filing declaration of abandonment.

When an entry is summarily cancelled, or voluntarily abandoned, subsequent to the filing of a declaration of abandonment, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particulars the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any priority right of entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the following conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land each year during the term of three years.

(2) If the father or mother, if the father is deceased, or if the mother is a widow, the applicant will be satisfied by his own residence in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by his own residence in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST COAL-MINING REGULATIONS.

COAL.—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1 per acre. Not more than 2,500 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the marketable coal mined.

QUARTZ.—A person eighteen years of age, or over, having resided in Canada for one year, may locate a claim 1,500 x 1,500 feet.

The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or paid to the mining recorder in survey thereof. When \$500 has been expended or paid, the locator may, upon filing a return made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provides for the payment of a royalty of 2 1/2 per cent. on the sales.

Floor mining claims generally claim 60 feet square; entry fee \$5, renewable yearly. An applicant may obtain two leases to mine for gold, silver, or copper, for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lease shall have a freeze-in operation within one season from the date of the lease for each five miles. Rental \$10 per acre for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output after it exceeds \$10,000.

Deny of the Minister of the Interior. X.P. authorized publication of this advertisement will not be paid for.

Failed to Identify Them. Woodstock Operator, Victim of Holdup, Inspects Two Suspects.

Woodstock, Oct. 10.—W. M. Walcott, the C. P. R. operator, who was held up early yesterday morning, was summoned to Brantford to-day to endeavor to identify two men held there on a charge of vagrancy. The two men were seen on Oct. 7, at the tracks near the city yesterday morning, and it was thought that they might have left Woodstock on a freight train, and it was when the Brantford police were wired to watch the east-bound trains that they took the two men in charge.

Walcott returned to-night, and although he declined to discuss the matter, it is understood that he was unable to identify the men as his associates. So far there are the only two arrests in connection with the affair.

KADZYK SAYS THAT SUNFIELD SHOT HIM.

According to Wm. Walsh These Were His Last Words.

A Witness Stated That Mrs. Radzyk Was Very Fond of "Jake."

There was a large crowd at the Court House yesterday afternoon to hear the trial of Jake Tamillo, alias Sunfield, charged with the murder of Andrew Radzyk on July 12.

The Crown closed its case last evening, and His Lordship was about to adjourn the court till this morning.

Mrs. Radzyk Was Afraid. Mrs. Kate Radzyk, wife of a nephew of the deceased, stated that she and her husband, who had been in the house the night before the shooting and stayed.

Mrs. Radzyk was very fond of "Jake." Mrs. Radzyk, who was very fond of "Jake," stated that she and her husband, who had been in the house the night before the shooting and stayed.

Witness told of a wedding celebration at Radzyk's house on Sherman avenue, at which Sunfield slapped Radzyk in the face.

To Mr. Counsell the young woman said she had boarded at the Radzyk house with Sunfield for some months before she was married.

Saw Radzyk Abused. Julius Smolek, a block, said he boarded at the Radzyk house, and had seen Sunfield give Radzyk a bunch of the nose.

A discussion then took place between the prisoner, the interpreter and Mr. Counsell as to what the witness had said, "crack" or "die."

To Mr. Counsell, Smolek said he had boarded at the Radzyk house several times. Mrs. Radzyk, who was very fond of "Jake," stated that she and her husband, who had been in the house the night before the shooting and stayed.

Mrs. Mary Maslanak, a German, said she boarded at the Radzyk house from March till July. On the Monday prior to the shooting she came home late and demanded supper.

A Touch of Humor. Edward Goodall, an employee at the International Harvester Works, said he was at the works when Mrs. Radzyk came to give an alarm.

The witness explained, however, that Radzyk and his wife got along fairly well.

Sensational Testimony. Wm. Walsh told of going to the Radzyk house just after the shooting. Radzyk was on the bed, where he had been placed, by Schultz, and shook the dying man several times.

When the officers arrived—one of whom was witness' father, Sergt. Walsh—some person pointed to Sunfield and Sunfield said, "Yes, here I am, take me, I did; I had to do it."

TEA TABLE GOSSIP.

The cake bakers of this city have decided to increase the price of all sorts of cakes after October 14th.

Bishop Dowling conducted confirmation services at Mount Forest and Kenilworth, confirming 61 at the former and 41 at the latter place.

The condition of Rev. Dr. John Potts, of Toronto, was pronounced unchanged at a late hour last night by his physician. Dr. Potts was unconscious, and the end was considered merely a matter of hours.

Mr. Eli Van Allen, of this city, has been made defendant in an action brought by James G. Strong, of Toronto, and the E. Van Allen Co., of Hamilton, to recover \$3,000 for work done and material supplied for the erection of the company's factory at Hamilton.

M. Williamson, St. Catharines, reported to the police that place that between Toronto and there, while travelling on the G. T. R., his pocket was picked of \$2,670. A cheque for two thousand, six hundred dollars, one fifty and one cent was how it was made up.

James Duffon, contractor, 133 Birge street leaves for Winnipeg to-morrow, where he will take charge of a contract for the erection of a large block of brick stores on Portage avenue, for T. D. J. Farmer, Mr. Duffon works some miles his contract and return home before the winter sets in.

In re Shipley and Canadian Order of Chosen Friends, James Dickson, for claimants, moved at Toronto yesterday for order for payment out of court of money to the credit of this matter, other than the moneys the widow is entitled to. H. E. Rose, for the widow, contra. Reserved.

William Kelly and William Begue, Acaster farmers, were before the magistrate in his private office yesterday, and pleaded guilty to selling adulterated milk to the Alberton cheese factory. They were fined \$25 each, half of which goes to the factory and half to Inspector Farnham, who instigated the prosecution.

Tigers, black and yellow ties at waugh's, postoffice opposite. To-morrow the newest stiff hats at waugh's. To-morrow the newest kid gloves for men at waugh's. To-morrow specials in underwear, fifty cents, seventy-five and one dollar a garment, at waugh's.

OUT OF O. R. F. U.

Intermediate Teams Cast Their Lot With Interprovincial.

And now Joe Hay's intermediate series has gone to the bad. At a meeting yesterday of the representatives of the Tiger, Argonaut and Dundas intermediate teams agreed to withdraw from the O. R. F. U., and form an interprovincial league with representatives in the east. A meeting will be held on Monday for the purpose of completing arrangements.

This means that the O. R. F. U., through the shortsightedness of its management, has fallen into a junior organization, as the teams representing the intermediate series which will remain with it are all Toronto teams. It looks as if the interprovincial league would ultimately be the power in football.

The junior Tigers go to Watertown to-morrow to play the team of that place. The game will start at 3 o'clock and the Tigers look for a good hard argument from the Watertown team, which has been putting in a hard week practising.

Stockholm Sweden, Oct. 11.—Admiral Hagg, commander of the Royal Swedish Yacht Club, in an interview concerning the Swedish challenge for a race for the America's cup, said:

"The reply of the New York Yacht Club has reached me. I naturally do not wish to say anything of its contents until the meeting of the club committee, which takes place this afternoon, after which unless restraint is placed upon me, I shall be able to tell about it."

"It is evident, however, that the holders of the cup are going to insist upon their rights to sail a large-sized boat, whereas we would have preferred a small one."

"But that won't stop us," added the admiral.

A meeting of the boys of the Erskine Intermediate Baseball Club was held last night at the residence of their

The Lemieux Act scores a victory in the settlement of the C. P. R. telegraphers' case. It has amply proved its usefulness.

Rudyard Kipling says Canada must make choice between our own racial stock and the Asiatics. Who would have thought of it if he had not told us?

W. L. Purvis, Toronto's chief license inspector, has handed in his resignation.

It is hinted that Dr. Beattie Nesbitt will not long be an Ontario Government official. His statement that the office averages him \$9,000 is not borne out by the returns, which show that he got about \$4,700 a year from his sinecure.

The new international postage reply stamp or coupon is now on sale in Canada, good in all the postal convention countries.

The late Chief Justice Sir Adam Wilson either did not know how to draw up his own will, or purposely left a will or wills which is leading to much difficulty in settling his estate.

In parts of Massachusetts it is thought that if a girl puts a piece of southern wood down her back the first boy she meets will be her husband. In Boston if a marriageable woman puts a bit of southern wood under her pillow on retiring the first man she sees in the morning will, so says the superstition, be the one whom she is to marry.

genial manager, P. McCulloch. An appetizing supper was provided for the guests, and, needless to say, they did full justice to it. The evening was commenced with pleasant games of cards, and Frank Watson delighted his audience with his rendering of several well-known songs. Speeches were given at the banquet, and the toast that Mr. McCulloch would remain as manager of the team for many more seasons was received with much applause. Miss Mervin McCulloch was also warmly commended for her excellent work at the piano.

After thanking Mr. and Mrs. McCulloch for the most enjoyable reception, and giving them three times three, the meeting broke up and the boys trooped away to their homes.

Detroit, Oct. 11.—The Chicago and Detroit Clubs arrived from Chicago on early morning trains. A large number of enthusiasts were waiting at the station to greet the local team as they left the train and hurried to their homes for a few hours before aking up the struggle at Bennett Park. The weather in the early forenoon was clear and cool. While the two defeats in Chicago created some apprehension and sent what little betting there was to 2 to 1 in favor of Chicago for the series, they did not dispel the enthusiasm of the local patrons and hundreds of enthusiasts started for Bennett Park soon after breakfast, carrying banners and "benning's whistles" and cheering lustily for the team.

All of the reserved seats for both today's game and that of Saturday were lined up at the park early in the forenoon were there for the general admission.

While not definitely announced, it was stated that Donnan and Overall would be the opposing pitchers again.

HARVEST THANKSGIVING.

The annual harvest festival was held in the Church of St. John the Evangelist last evening. The service began at 8. The rector, Rev. S. Daw, took the service, assisted by Rev. Cannon Bull, who read the first lesson, and Rev. E. A. Etherington, who read the second. The Rev. C. E. Sharp, rector of St. Thomas' Toronto, was the preacher. He took his text from the 104 Psalm, "All Thy Works Praise Thee, God," and preached a very instructive sermon. The church was beautifully decorated for the occasion.

The new Singer Building, in lower New York, will be the tallest building in the world—forty-seven storeys in height, rising 612 feet above the street. When completed, this office building will have a floor space equivalent to one storey building covering twenty city blocks.

BRITISH READING.

During July and August Bags Increased by 16 Per Cent.

Ottawa, Oct. 10.—The increase in the British newspapers and magazines coming into Canada as a result of the reduction of the postage is phenomenal. The total increase in the number of bags coming into Canada from Great Britain during the months of July and August as compared with the corresponding figures of 1905 is 152 per cent., and the number for the months of July and August, 1907, being 2,129 bags, while for the same months in 1907 there were 5,539 bags.

In Toronto there were 379 bags received during the months of July and August, 1908, during the same months of 1907, the number was 1,048, an increase of 689 bags or 171 per cent.
