Prominent North Shore Men Pass Away

High Sheriff O'Brien Dies From Auto Accident and R. A. Lawlor, K. C., After Long Illness

High Sheriff John O'Brien, of Northumberland, who had been injured one week previously at the railway crossing above Chatham, passed away on Saturday morning at the Hotel Dieu Hospital, Chatham. The sheriff's condition had improved considerably during the week, and hopes were greatly strengthened that he would survive the serious injuries sustained at the time of the accident. But he had got wet at the time of the accident, it having been heavily raining, and two days before his death pneumonia set in and the aged patient passed away at 11 o'clock Saturday morning.

The late High Sheriff was seventy nine years of age, and is survived by his wife, formerly Miss Lillian McPeake of Fredericton, daughter of the late Patrick McPeake, for years Postmaster at Fredericton, and two sons, John McPeake and Joseph Leonard. There also survive two sisters, Miss Margaret O'Brien and Mrs. Mary Vereker of Nelson. News of his death spread rapidly and evoked heartfelt expressions of deep regret from the whole community.

The deceased was well and popularly known throughout New Brunswick and was a man for whom all had respect. He stood high in the business councils of the community and was ever ready to do his part in all things pertaining to the betterment of his county.

Deceased was a son of the late John and Mary O'Brien of Nelson, where he was born and resided all his life. After leaving school he became a clerk with Geo Burchill, and in 1870 established a general store at Nelson; and afterwards went into the lumber business, having a mill at Nelson, and being very successful. He became active in public affairs early in life. He was County Councillor for years, and afterwards Warden. In 1890 he was elected to the Legislature, and was re-elected in 1892, 1895 and 1899. In 1903 he was appointed High Sheriff.

He was fearless in his official life, devoted to his home, true and loyal to his friends. He was a close personal friend of the late Hon. Michael Adams, and was of the same genial nature.

He was a member of St John Council Knights of Columbus and of the C. M. B. A.

The funeral of late Sheriff O'Brien was held on Tuesday morning at 10 o'clock from his late residence, Nelson, and was very largely attended. Services were conducted by Rev. Father Power and interment was in St. Patrick's cemetery. The pall bearers were: J. D. Creaghan, Jas Robinson, John P. Burchill, F. M. Tweedie, D. J. Buckley and William Sullivan.

Among the St. John gentlemen who attended the funeral were Drs. Wm P. Broderick and Wm M. Ryan, and Messrs J. J. McGilgan and Hugh McKay. A large number from Fredericton, Bathurst and other places outside the county were also present.

R. A. LAWLOR

R. A. Lawlor, K. C., Judge of Probates, one of Miramichi's most prominent citizens, died at his home in Chatham Tuesday night, at the age of 65 years, and after three months illness. Mr. Lawlor's death will be greatly regretted by the whole community.

The deceased was born in Douglas town, July 11, 1852 son of John and Sarah Lawlor of that place. He was associated for a time with R. R. Call in the steamship business and then studied law and was admitted as attorney in 1877, and as barrister in 1879, forming a partnership with the late Hon Michael Adams in whose office he had studied. Mr. Lawlor went to Bathurst to look after the firm's interests there while Mr Adams continued at Newcastle. Subsequently he was appointed Inspector of Inland Revenue at Chatham and removed here. When he was superannuated he continued the practice of his profession in this town and had been at all times looked on as one of its leading citizens. He was appointed Judge of Probates for the county and had been for many years a member of the Chatham board of school trustees, a prominent member of the curling club and president of

more than one occasion. He also took a deep interest in yachting and in the work of the Miramichi Agricultural Exhibition Association and in all public questions. He was prominent in Knights of Columbus circles, and was a member of Miramichi Council 1219.

Besides his wife, Mr. Lawlor is survived by two daughters, Mrs. R. P. Gulgley, at present at home, and Sister Mary Alban at Ottawa, of the Congregation of Notre Dame. Also four brothers, Finn, John O., and James C. of Eagle River, Wis., and Judge J. E. Lawlor of Newcastle, registrar of deeds, and three sisters, Mary A. of Newcastle, Mrs. Thomas Hayden of Douglastown and Rev. Sister St. Alban, assistant general, Hotel Dieu, Montreal.

The funeral will be held tomorrow morning at 10 o'clock to the Cathedral.

WILL BUILD SHIPS ON THE MIRAMICHI

International Shipbuilding Corporation Have Begun Work at Nordin--Machinery Now Being Installed

Work on the new shipbuilding plant, that bids fair to become one of the most important industries of the Miramichi, was started at Nordin this week, when workmen commenced the remodelling of the mill formerly owned by the Rosebank Lumber Co and the installation of the machinery for the International Shipbuilding Corporation. The Company intend to erect wooden ships at first, for which there is at present so great a demand, and the keel of the first vessel, will, it is expected be laid in a very short time. This industry which has been spoken of for some time, will have its headquarters at Newcastle, and will employ a number of men, both skilled and unskilled, which number will be increased from time to time. The site selected for the works, about two miles below Newcastle, is an ideal one. The Rosebank mill, which is one of the best on the river will be utilized to provide lumber both for the rough work and for the finishing. Leading business men of the Miramichi are interested in the new company and the success of the venture is assured from the outset.

Campaign Launched For Victory Loan

Initial Steps Taken Last Night For the Campaign in West Northumberland

A public meeting in the interest of the Victory Loan was held in the Police Court Room last night. Mr. J. D. Creaghan, chairman of the West Northumberland District, presiding. Among those present were Rev. W. J. Bate, Rev. Dr. C. W. Squires, Ald. David Ritchie, Messrs R. Corry Clark, A. H. Cole, D. S. Creaghan, J. A. Creaghan, R. W. Crocker, A. A. Davidson, Jas. W. Davidson, R. H. Armstrong, D. A. Jackson, C. P. McCabe, A. L. Kerr, R. A. N. Jarvis and representatives of the local press.

R. A. N. Jarvis was chosen secretary. The chairman explained the purpose of the meeting, and described the recent meeting in St. John. The new loan is to be a popular one. He who subscribes \$50 is as welcome as he who puts in \$50,000. The provincial organizer was due here, but was unable to be present. Mr. Creaghan urged the appointment of strong committees with active heads. All should do their best to help the loan. It should be talked of everywhere. People whose money is in the savings banks should get it out and lend it to the government to help win the war. The interest offered is 5 1/2 per cent.

Teams of five had been appointed in St. John to canvass for bonds. Canvassers would not handle the money. Tickets would be given and handed to the banks for collection. Mr. Creaghan said it was difficult to secure a secretary for the district. In the meantime, J. A. Creaghan was acting as such without remuneration.

A. L. Kerr of the Bank of N. S. said that, along with other bankers, he had instructions to cooperate with those who were raising the loan. The movement was a good one. A good local executive should be chosen. C. P. McCabe seconded by R. H. Armstrong moved that a Nominating Committee of five be chosen to nominate an Executive Committee. Carried.

The following were chosen: Messrs R. C. Clark, A. A. Davidson, R. H. Armstrong.

The following were chosen: Messrs R. C. Clark, A. A. Davidson, R. H. Armstrong. The chairman suggested that the merchants would act as agents for the sale of bonds, without remuneration.

The chairman said that the merchants might give Xmas bonuses to their employees to be invested in bonds, and that manufacturers might assist their help to make investments.

Rev. Dr. Squires was in favor of the Victory Loan and would speak and work for it all he could. The buying of bonds was not only patriotic but profitable as well.

This Week's Examination Show Marked Improvement Over Last

The result of the second sitting of the Medical Board here under the military service act, which was held on Tuesday and yesterday was very satisfactory. Altogether one hundred and eleven men of Class One applied for examination and passed to the following order:

Category A--64
Category B--8
Category C--16
Category D--7
Category E--19

Total 111. The men passing in Category A, B and C are eligible for Military Service, overseas or in Canada. Those in class D may be fitted for service by treatment, while Category E is unfit for military service.

POST OFFICE WILL OPEN EVENINGS FOR FILING M. S. PAPERS. Postmaster Troy desires to inform those young men and others busily employed during the day, that after Monday 28th inst, he will make arrangements to accommodate them from 7 until 9 o'clock p. m. each evening for the purpose of enabling them to comply with the Military Service Act by filling in either the exemption or military service papers. Also that while it may be desirable it is not compulsory to have a medical certificate when applying for either form. Also that a copy of each form may be seen in the P. O. Lobby.

strong, D. S. Creaghan and A. H. Cole. The chairman said that it was expected that the movement would be well under way by the second week in November. Canada needs some \$300,000,000 a year for her share in the war. Among the duties of the local executive would be the laying out of districts for and the giving of instructions to canvassers, the securing of transportation, advertising, etc.

Following committees were needed to look after: Advertising, Public Speakers, Canvassers, Transportations, Preparation of lists of names.

Mr. Armstrong suggested that the merchants would act as agents for the sale of bonds, without remuneration.

The chairman said that the merchants might give Xmas bonuses to their employees to be invested in bonds, and that manufacturers might assist their help to make investments.

Rev. Dr. Squires was in favor of the Victory Loan and would speak and work for it all he could. The buying of bonds was not only patriotic but profitable as well.

R. H. Armstrong described the great success that had attended the Victory Loan in Pittsfield, Mass, where in a town of some 35,000 people nearly \$5,000,000 had been raised. The chairman said that churches and schools would be asked to advertise the loan.

Adjourned.

HYMENEAL

HAYDEN-CHAMBERS
A pretty wedding took place at the R. C. church, Chalmersford, Tuesday October 16th at 9 o'clock, when Miss Janie Teresa, daughter of Mr and Mrs Geo. F. Chambers of Marysville, became the bride of John P. Hayden. The ceremony and Nuptial Mass were celebrated by Rev. E. S. Murdoch. The church was prettily decorated with autumn leaves and candles. Miss Katie Harrigan, cousin of the bride, rendered the bridal music.
The bride looked very pretty in a brown serge suit and brown velvet hat and white furs. She was attended by her twin sister, Miss Julia who wore a wine colored suit black velvet hat and white furs. The groom was supported by his cousin, Peter O'Neill.
The groom's present to the bride was a pendant to the bridesmaid, a gold brooch and to the best man a stick pin.
After the ceremony the bridal party drove to the Miramichi Hotel, Newcastle, where they had dinner, returning in the evening to the groom's home, where a reception was held. A dainty tea was served to a number of friends and relatives of the contracting party. The dining room was decorated with potted plants and autumn leaves by young friends of the bride.
The large number of useful and pretty presents testified to the esteem of the young couple.
Mr and Mrs Hayden are both well and favorably known and have a host of friends who wish them a long and happy wedded life.

Blood-Making Medicine

It took centuries for medical science to discover that the blood is the life. Now, it is known that if the blood were always abundant, rich and pure, very few people would ever be ill. It was not until the end of the 19th century that an instrument was invented for measuring the red part of the blood. Then doctors could tell just how anaemic a patient had become, and with medicine to make red blood the patient soon got well.
All the blood in the body is nourished and kept rich and red by the food taken daily but when for any reason, a person is run down and cannot make sufficient blood from the food to keep the body in health, a blood-making medicine is required. The simplest and very best of blood-makers suitable for home use by anyone, is Dr. Williams' Pink Pills. When a course of these pills is taken their good effect is soon shown in an improved appetite, stronger nerves, a sound digestion and an ability to master your work and enjoy leisure hours. For women there is a prompt relief of, or prevention of ailments which make life a burden. As an all-round medicine for the cure of ailments due to weak, watery blood no medicine discovered by medical science can equal Dr. Williams' Pink Pills.
You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LOGGIEVILLE

Loggieville, Oct. 16.—On Tuesday evening of last week, a social dance was held in the Temperance hall, under the auspices of the local band, and in connection with same, the Red Cross Society served a supper to aid its work. This combined affair proved a decided success financially and socially. A large number from Chatham and Douglastown were in attendance, despite the unfavorable weather condition. The evening was a most enjoyable one. The interior of the building was prettily decorated for the occasion.
Will J. Loggie is visiting his brother Ernest Loggie of Mulgrave.
Rev. J. J. Pinkerton of Chatham occupied Knox Church pulpit in the morning of the 14th inst.
Miss Morrison and Miss Johnston of Douglastown were recent guests of Mrs. A. L. Babbick.
Mrs. Will Kelly's many friends regret to learn of her very serious illness. Mrs. Kelly was taken to the Chatham hospital last week.
Mr. and Mrs. Will Hierlihy, accompanied by Mrs. J. W. S. Babbick, have returned from a visit to friends and relatives at Tabusintac. During Mrs. Hierlihy's absence from town, Miss Florence Harvey was organist of Knox Church.
A concert is being held in the Temperance hall tonight under the auspices of the local Red Cross Society, in aid of the British Red Cross society. James R. Johnstone has gone to St. John, where he has accepted a position.
Willard Hornbrook was called to Stanhaven this week, owing to the serious illness of his sister.
The weather of late has been extremely wet, causing considerable delay in the progress of potato digging. Last night's rainstorm was a severe one in this section of the country.
Mrs. Will Stymiest and nephews, Primmer Lee, are guests of Mrs. Ronald McDonald.

The Fall Weather Hard on Little Ones

Canadian fall weather is extremely hard on little ones. One day it is warm and bright, and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
A branch of the Canadian Navy League, which succeeds and takes out the work of the British Sailors Relief Fund, has been organized in St. John.

Why Canada Needs More Money

UP to date the war has cost Canada about \$700,000,000.
Canada has spent in Canada over \$400,000,000 on her own account.
Canada has spent in Canada on behalf of Great Britain over \$300,000,000.
What Canada spends for Great Britain is really loaned to Great Britain and will be repaid or credited to Canada later on.

Great Britain needs so much ready cash to finance her own expenditures at home for herself and for our Allies that she must buy on credit from Canada, and from every other country where she can get credit.
Of course Great Britain's credit is so good that other countries, in order to get her trade, are quite as willing to give her credit as we are in Canada.
Canada wants to help Great Britain not only because Canada wants Britain's trade but because we are Canada and she is Great Britain—both members of the same great Empire, kin of our kin, our motherland.
For Canada it is both a filial and patriotic duty to supply Great Britain's war needs and remember, her needs are our needs. Also it is in Canada's self-interest to supply those needs and thus keep open a market for our products.

Now, Britain needs our wheat, our cheese, cattle, hogs, and many manufactured articles.
Canada also needs many of these things—between the two it amounts to more than a million dollars a day in cash.
And the producers must be paid in cash.
Neither Canada nor Great Britain could go to a Canadian farmer and buy his wheat or his cattle on credit.
The farmer and all other producers might be ever so willing to give their country credit but they could not do it because they have to pay cash for wages, for rent, materials, etc. They must be paid in cash, or its equivalent.
So Canada says to Great Britain:—"I will lend you the money so that you can pay cash to Canada's producers for what you want."
"I will borrow this money from our own people just as you borrow money from your people."
"I will also borrow from the people of Canada money to pay cash for all the products that Canada, as well as Great Britain, needs in Canada."
That is Canada's practical, patriotic part in helping to win the war.
Without this credit the Canadian producer could not sell to Great Britain, and without these Canadian products the war would be prolonged.
So it is necessary for Canada to give to Great Britain the credit in order that Canada's own producers, who need a market, will have one; and in order that Great Britain which needs the products to win the war, will get them.

OBITUARY

JAMES CAMPBELL
James Campbell of Napan, was found drowned near his home last Thursday night. He had gone in search of his cattle and not returning a search revealed his body in four feet of water in the Napan river. Deceased had been in poor health. Coroner Benson after an examination of witnesses and viewing the body decided that an inquest was unnecessary. Mr. Campbell was 63 years old.

REV. GEORGE B. GAUVIN
The death of Rev. George B. Gauvin, parish priest of Negusac, occurred at his home there Saturday after an illness of three months of paralysis. He was in his 60th year and had been ten years parish priest, coming from Quebec province, where he was ordained in 1888, at Nicolet. About two years ago he had an affection of the eyes from which he recovered sufficiently to perform his pastoral duties. He erected a fine stone church in his parish and had it free from debt. He was much beloved by all his parishioners, both French and English.

THOMAS SAVOY
Thomas Savoy of Negusac, about 30 years of age, was found dead in bed at his home Sunday morning. Deceased had been in poor health for some time. He was a son of the late Romane Savoy and is survived by his mother.

SOCIALISTS NO LONGER CONTROL RUSSIA.
Petrograd, Oct. 10.—The coalition cabinet absorbs the council of five which has held sway since the Korniloff revolt, nearly a month piloting the country through a perilous political crisis. This council of five apparently carried out Premier Kerensky's programme in full. It succeeded, in ending the Korniloff affair, except for some agitation on the part of radical councils of workmen's and soldiers' delegates. Seemingly it turned the democrat congress which was planned originally to overthrow the Kerensky government into a force of support.
The first session of the preliminary parliament will be called by the government probably next week.
The new cabinet consists of six Socialists, four constitutional democrats and seven members from other parties.

The Crushed-Coffee Smile

Is naturally a broad and radiant one, because he who wears it has discovered a fine, rich coffee which has none of that bitter "after taste" so common to ground coffees. That is because the bitter chaff and dust have all been removed from Red Rose Coffee, which is crushed—not ground. It is hard to believe that there could be so much difference in coffees until you taste Red Rose Coffee.

LETTERS FROM THE FRONT

Two of Rev. S. Gray's Sons Doing Their Bit, Write Home in Most Interesting Strain.

Harold Gray, son of Rev. and Mrs. S. Gray of Newcas. who was gassed some time ago, is convalescent and back in France.

Another son, Arthur, who was wounded, is well again. A third son, Rev. Ernest Gray, has long been in Y. M. C. A. Work overseas.

The following letters are from Arthur and Harold, and speak for themselves.

Somewhere in France. Sept. 17th 1917.

My Darling Mither, Harold and I have been having a laugh together over some of the funny experiences we have had. The jests were sometimes at our own expense, but we enjoyed them none the less because of that. It is a treat that this war cannot rob us of a real good laugh often. It certainly greatly depends on one's sense of humor whether the life here is to be miserably endured or cheerfully lived. We surely see the funny side of things generally, and thoroughly enjoy many things which some fall to notice. There will be so much to tell. "When I get back When I get back to home in Tennessee," as the song says.

As I said in my last letter, I have caught Harold up; and we are glad to be together again. We are both looking A. I, after our enforced rest. We are not with the Battalion, and shall not be for some time yet. I do not know when Harold will return with me probably, as he is doing clerical work.

Having the afternoon free, I have actually been playing tennis; three others and I had a splendid game. Thanks to the Y. M. C. A. again. We can borrow everything, rackets, balls, and shoes; and play on a fine lawn court, of which there are three, without charge. There is a superb writing tent; a large marquee holding over 700 men; a concert every evening; a moving picture house; and a canteen where we can get all kinds of things. You can imagine what a benefit these things are to us, a wet evening for instance. No charge to any of the shows.

The duties here are various, and therefore not so monotonous as the drill, which may be necessary in its way.

My arm is quite well again, and strong. The game of tennis is sufficient proof.

I have often been receiving delightful letters from one and the other. It is a treat to have such beautiful letters from Gray's fruitful vine and all the branches thereof. We are all ways greatly interested in all the doings and hopes of our dear ones, as you are in ours. Dear Editha is looking ahead, preparing for a trip East, in readiness to add to and share the joy of our return. The time will soon slip by now.

The mail has been putting me around since I was put out of action. It is late in arriving. Am dropping Uncle Horace a line again, to let him know now we are good. He has written us once or twice, too. It will doubtless be an easy matter to call on him, on our way back.

Wall wrote (before my wound) enclosing a snap of the "family." Aukrey looks a dear little chap, taken when six months old; such a fine looking boy.

Len writes enthusiastically about America. Huge preparations are being made by the United States. They are in earnest, and if necessary will be doing splendid work here, later on; but I do not think the war will last so long. It may be months yet, but there are strong feelings for peace, and nobody knows what may bring it about. We must be patient still. In the meantime, we are quite willing and determined to go on to our assured victory.

I guess it would be easy to make peace, of a kind; but there can only be one satisfactory peace, when Prussianism is really ousted from Germany. We are full of hope, and a very cheerful lot of men, knowing that we are winning. Great successes are coming our way, and others are expected as we go along. Fritz is tired and generally ready to give up; and in great numbers, sometimes, I say a long string of them recently, and they seemed quite relieved and contented to be prisoners. Most of them were quite young looking.

But for cheerfulness, we should be nowhere. I can very emphatically follow us up. His arm is a bit stiff at the wrist and the elbow. It was strange to see him at the Base as I did, with his arm in a sling. His movements are (as usual) uncertain. He is here now, and has not yet rejoined the Battalion any more than I have.

It is simply nothing short of astonishing how one meets fellows here that you have not seen for years. I spoke the other day to a chap whom I first met at the Imperial Bank, Vancouver, when I first arrived there. He was shifted a week later, and I could not recall his face, but after talking about where I saw him and when he gradually recollected me.

every consideration, and comfort and to be candid, we would be contented if we were wounded.—It not seriously.

France is looking beautiful now, and we are thoroughly enjoying it. There is some fine scenery around here, and it makes a big difference to be out in the sunshine.

Our best wishes and heaps of love to all our dear ones, and a special portion to our adorable mother and Dad.

Your Ever Loving Son, Arthur.

P. S. I have received a letter from Ern, telling me that he is now in Brighton, at the old Aquarium, which is actually turned into a Y. M. C. A. centre. Lottie is to follow.

(The Rev. Ernest S. Gray has served for five months in France being in charge of Y. M. C. A. establishments and has had hairbreadth escapes. He has been serving at Seaford and Tunbridge in Kent, England, for several months, and is now stationed at a most important centre, in Brighton, Sussex.)

Somewhere in France Sept. 24th, 1917.

My Dearest Mither, Father and sister I owe all three of you letters, so this will serve a triple purpose. I sent a Field Card recently, saying we were well. An excellent letter arrived this morning from Al, dated Aug 29th and this is Sept 24th, so that is good. The letter is newsworthy and some cuttings were enclosed, so I think I'll pull up my socks, or rather (I suppose) adjust my puttees! and send a few lines.

I have moved on from the Base, as you know, and was expecting to rejoin my Battalion. An adjutant asked me what I had seen of the "line," and I told him. Three days afterwards I was clerking in certain head quarters. This was August 23rd. The last month has been the happiest since I reached France, and I am glad to say, one of the most useful. By "useful" I mean, that, having done a good big bit up the line, I am now able to be of use in no small way, a good distance away from the line.

Arthur had a good rest—nearly 6 weeks—after being wounded. He proceeded to the Base, and on up here by the same route as I; so, we had the pleasure of meeting again. He wound healed all too quickly! was hoping that the surgeon would have to make a good harmless operation, lancing the wound to remove the bit of shrapnel lodged between the two bones of his right arm, about the wrist, so that it would be longer in the healing. But no such luck! He is looking as well as I am—and that is saying something! We never felt better in our lives.

Directly I arrived where I am now, after the months I spent in the hospital and in the Convalescent Camp, I was ordered on to a "Working Party," and got close to the front line after a rare long march. I saw the most exciting air activity that I have witnessed since I came to France, and I have seen a "few" "Two" "Fritz" planes came down in flames—a really wonderful and terrible sight! And I found myself cheering vociferously, like the rest. Natural, wasn't it? The sky was covered with the multitudinous black wings of smoke, caused by the explosion of our anti-aircraft shells. Our airmen, too, were doing splendid work, up in the midst of the blackness and turmoil. But I cannot give you any idea of a fight in the air! What a new world we shall live in, in only a few years for they can do anything in the air, anytime. They can turn at any angle; move sideways, or swooping down bolt upright gradually right themselves again after falling at a terrific pace! And climb—you should see them do that too! I do not know of any more graceful sight than the spectacle of an aeroplane in the evening light, with a blazing sunset in the distance, swooping down from a great height, gradually approaching the earth in a series of switchback curves, and with a final prolonged curve alighting upon the ground; the thin wheel (like large cycle wheels) being brought to a standstill by applying the usual brakes gradually. This is quite a common sight to us.

The mail is behindhand, for Art was smiling! this morning as he said that he had not received a single letter from home since he was wounded! But they will all arrive in time; they follow us up. His arm is a bit stiff at the wrist and the elbow. It was strange to see him at the Base as I did, with his arm in a sling. His movements are (as usual) uncertain. He is here now, and has not yet rejoined the Battalion any more than I have.

It is simply nothing short of astonishing how one meets fellows here that you have not seen for years. I spoke the other day to a chap whom I first met at the Imperial Bank, Vancouver, when I first arrived there. He was shifted a week later, and I could not recall his face, but after talking about where I saw him and when he gradually recollected me.

PEPS

will promptly STOP Your CHILD'S COUGH

WHEN a child starts coughing mother's duty is to give the little sufferer a Peps tablet, and thus prevent any weakening of the lungs. As the tablet dissolves in the child's mouth, the soothing medicinal fumes given off pass through the tender breathing passages straight to the lungs and bring immediate comfort and relief.

Peps contains no opium or other harmful drugs, and can be given to a child (either whole or crushed to a powder) with the assurance of absolute benefit.

One little Peps at night will clear the breathing passages of dust and let the little one's sleep be unbroken by coughing fits. A Peps before starting for school in bad weather is also an invaluable safeguard for the children's throats and chests.

He is a fine fellow, and has been here since November, 1915! think of it! He had a splendid pal, he told me (as I spent the evening with him) who confided in him a great deal; on one occasion saying in an off-hand way: "If anything should happen to me, this is the address of my girl in England drop a line to her concerning me, and, if I go to England, she will know my whereabouts." Well, he was killed about two months later, near Ypres; and this fellow, of course, sent the girl a line. She thanked him by post and hoped he would call on her if he should at any time get a chance. Six months afterwards he got ten days leave; made for Somerset; called on the young lady; found her a splendid girl; fell in love with her; and is now hoping for more leave to go over and marry her!

This war is responsible for many curious things. I found myself, to my astonishment, speaking in the dark for five minutes to the sentry here,

and immediately discovered that he was no Canadian. He spoke splendid English; was of a good English family; and, if you please, a five-year-old first-class student of the Royal Academy, London. He had been a tutor of an Art School, in London.

Arthur says he discovered himself sleeping beside a wealthy partner in a Toronto firm. Well met!

As to the Army of Mons, you apparently ask the gentlemen who were in the trenches in August, 1915, to keep sober! Well, I agree, it seems rather doubtful; but, still, what can you say? You hurt a man's feelings if you express doubt, when he declares he saw it.

The Y. M. C. A. is doing a gigantic work here. You haven't the faintest idea of the colossal scale upon which the great concern is run. They are the mainstay of recreations. They cater for the mind providing excellent reading matter. Arthur and I played (Continued on page 6)

THE NEW GOVERNMENT

It is because Sir Robert Borden knows as no one else does the tremendous responsibility resting upon a Prime Minister in war time that he sought to bring together the forces in both parties that are sincerely and wholeheartedly in favor of vigorous prosecution of Canada's part in the war.

It is because they realize his earnestness and capacity that such aggressive opponents were willing to enter the Government under his leadership. Not long ago, Sir Robert spoke of his well-known patience and perseverance. These traits were never so much needed and never so much exercised as in his negotiating for the past three months to form a coalition.

There are no doubt many Conservatives who dislike or mistrust some of the Liberals now in the Government, but we have confidence in the Prime Minister and believe he would not have taken them in without good cause. We believe that both elements in the Government will unite and act without partisan ends in view.

The policy of the new Government, announced in another column, will, we believe, be received most heartily by the great majority of the people of Canada. Every one of its twelve planks breathes the spirit of progress and denotes careful thought and an ardent determination to deal fairly with the people.

Nothing could be finer than the spirit of the Cabinet Ministers who have just retired. They put themselves in a somewhat awkward and embarrassing position by placing their resignations in the hands of the Prime Minister to allow him freedom of action in his negotiations.

A union of war forces in Canada was absolutely necessary not only for the present but for the future. The Conservatives could probably have won the next elections without a union government, but after the war is over and the franchise is returned to former aliens and extended to all women, it will be valuable to have a unionist party that can prevent the control of our affairs falling into the hands of men who will have to rely wholly upon the support of elements that are either indifferent or hostile to the ends and aims of Anglo-Saxondom.

GOOD RESOLUTIONS

The 25th annual convention of the Women's Institute of N. B. the largest and most important yet held in the province, closed on record, as demanding

The Body-Building Power of BOVRIL

In feeding experiments on human beings carried out by a well-known, independent British Physiologist, when Bovril was added to the normal diet it produced an increase in flesh, bone and muscle equal in 10 to 20 times the amount of Bovril taken.

No increase in price since the War.

some very useful and urgent reforms all of which we hope to soon see accomplished facts.

The demand that a woman be one of the Provincial Board of Censors of Moving Pictures is reasonable and timely. As the moving picture has come to stay, the utmost effort should be made to keep it clean and make it instructive.

Medical inspection of schools, long urged by the Northumberland County Teachers' Institute, who have had able and most convincing addresses thereon by Doctors Baxter, Melvin and Moore, and have repeatedly memorialized the provincial government to make such inspection compulsory, is a most urgent improvement. It has been made optional in all school districts, but there it rests. We hope that the women, in union with the teachers, will be able to so move public opinion that this matter will receive the attention which is its due.

The recommendation that women other than ratepayers be eligible for country school boards would let married women hold office. Now, only ratepayers are eligible. This includes widows and spinsters who pay school taxes, but not married women.

That no grain should be used for the manufacture of liquors is a demand that any reasonable person will agree with. The fact that so much land is taken up with the growth of tobacco and so much in the manufacture and distribution of this article, which the authorized school boards declare is injurious to the health of all who use it, is also a matter calling for the most earnest consideration of the powers that be.

A university lending library would be a good thing. The need of women on the Boards of Hospitals, Municipal Homes, and Health, goes without saying. Women in Hospital work have long proved themselves invaluable.

The suggestion that the Food Controller regulate the price and distribution of food to the farmer and the price of food to the consumer, is doubtless radical, but is in complete accord with the spirit of the times.

The Institute's determination to heartily cooperate with the food controller is a most laudable one, that should be followed by all of us.

MEDICAL INSPECTION OF SCHOOLS

At the United Westmorland and Albert Counties Teachers' Institute, in Moncton, on the 18th instant, Dr. Atkinson was one of the speakers, and emphasized his most important subject as strongly as several of the ablest doctors of the province have recently done before the Northumberland County Teachers' Institute. He instanced the fact that a great many countries have taken up Medical Inspection of Schools seriously and said he believed the time was at hand for civic, municipal or provincial government action to be taken in this matter. A dispensary should be opened in Moncton to deal with the schools of the city. The question is one of prevention rather than cure, he said, and gave some interesting statistics, taken from schools in the United States to show the urgent need of medical inspection. Our hospitals and sanitariums are full of patients whose diseases were developed in school years. Medical inspection would discover these in their beginning and prevent their becoming permanent. The physical condition of the children must be improved and kept on a high standard if we are to have a healthy and robust manhood and womanhood.

A Mutiny In German Navy

London, Oct. 10.—The news has leaked out that recently there was a mutiny on four battleships of the German fleet at Wilhelmshaven, the captain of which was thrown overboard and drowned. The sailors later surrendered and a number of them are said to have been shot while others were sentenced to long terms of imprisonment.

The puzzling inactivity of the German fleet in the Baltic Sea recently when there were obvious opportunities for attacking Russia was due to this mutinous outbreak in the German navy. The outbreak affected at least six important units of the fleet, putting them out of action and causing the authorities to doubt the loyalty of the crew of other large ships.

London, Oct. 12.—The official report from Field Marshal Haig's headquarters to-day reads: "We attacked at 5.35 o'clock this morning on a front of about six miles northeast of Ypres. Our troops are reported to be making satisfactory progress. Rain fell heavily during the night."

London, Oct. 13.—"There was a heavy rain through the night, which is still continuing," says to-day's war office statement. "No counter attacks by the enemy have developed thus far on the battle front. On the rest of the British front there is nothing to report."

Petrograd, [Oct. 16].—The German forces, which were landed on Oesel Island, at the head of the Gulf of Riga, on the 13th, are pushing forward to the east and south, and have captured the capital, Arensburg at the southern end of the island.

their dependents have been increased by twenty-five per cent. to date from April 1st, 1917. This will increase the annual pension list from \$5,000,000 to \$7,000,000. No more popular move government.

WHERE THE GOOD GOODS COME FROM

LOGGIEVILLE

Loggieville, Oct. 23.—The appeal to the citizens of this town through the concert on Tuesday for the benefit of the British Red Cross, met with a hearty response from the residents in general, another evidence of their patriotism and generosity when ever a need is made known. The stage settings were pretty. As each number was put on it was heartily received by the audience. The programme was made up of a succession of good numbers. Professor Coyne of St. Thomas' college, Chatham, was in attendance and contributed several interesting selections to the evening's programme. The Ladies of the local Red Cross society sold homemade candy during the evening \$61.00 was taken in as a result of the evening's doings.

PREMIER ANNOUNCES POLICY OF NEW GOVERNMENT

A Full Statement of Plans for Solving the Problems now Facing the Country

Ottawa, Oct. 19—After consultation with his colleagues, the Prime Minister has issued the following statement with regard to the formation and personal of the new government, and with respect to its policy, so far as there has been opportunity to consider it.

Labor Will be Represented
The present Union or National government has been formed with a desire to give representation to all elements of the population who support the purpose and effort of Canada in

ation facilities; the co-operative management of the various railway systems so as to secure economy in operation, to avoid unnecessary construction, and to secure the widest and most effective use of existing railway facilities; the encouragement and development of the shipbuilding industry and the establishment of steamship lines upon both oceans and upon the Great Lakes, co-operation with the various Provincial Governments for the improvement of highways; the investigation of the postal facilities of air service for important national purposes.

Economy
(8)—The reduction of public expenditure, the avoidance of waste, and the encouragement of thrift.

To Reduce Cost of Living
(9)—Effective measures to prevent excessive profits, to prohibit hoarding, and to prevent combinations for the increase of prices and thus reduce the cost of living.

(10)—The encouragement of co-operation among those engaged in agricultural production, with a view to diminishing the cost of production and marketing, so that the price paid to the producer may conform more closely to that paid by the consumer.

Develop Our Resources
(11)—The general development of all the varied resources of Canada and their conservation and utilization to the best advantage of the people, with the co-operation and assistance of the state in every responsible way for that purpose.

For Industrial Peace
(12)—Adequate consideration of the needs of the industrial population; the maintenance of good relations between employers and employees and such conditions of employment as will assure suitable standards of living among the laboring classes.

To Develop the National Spirit
The policy of the Government will also aim at a truer understanding and comprehension between the various communities, both east and west, and the development of a national spirit of united effort among our people, as the trustees of a great heritage.

Methods Proposed
For the purpose of effectively carrying out these policies the following methods have been determined.

(1)—A new portfolio, that of Immigration and Colonization, has been established.

(2)—For the effective prosecution of the war, a permanent Committee of the Cabinet will be established.

(3)—For the purpose of considering and carrying out the other lines of policy above mentioned, another permanent Committee of the Cabinet will also be constituted.

The Orders in Council establishing these committees have been prepared and as soon as they have been accepted by His Excellency, the Governor General, they will be given to the press for publication. The personnel of each committee will be announced at the same time.

THINK
Before you ask a merchant to make a delivery, send goods on approval or incur other expense, is it necessary?

Delivery service is expensive, and ultimately you must pay for it. If the service is not necessary you are not only wasting your own money, but the resources of Canada as well.

Canada is in urgent need of economy. Carry your parcel home. There is an old engraving hanging in many homes depicting a young and ragged urchin stepping up to a lady and asking if he may carry her parcel. Times have changed. To-day that same little chap might have difficulty finding a parcel to carry; and why?

Because fashion has decreed that we may carry almost anything but a parcel. The result has been heavy delivery expense, which must be paid by the consumer, together with the same percentage of profit as is carried by the goods themselves. Because it does not show separately in the bill, it is not recognized as an additional cost. To a large extent merchants are to blame for this. If they were to adopt the 'cash and carry' system, giving a price advantage to those who paid cash and carried their parcels, requests for delivery would soon show a decrease.—J. D. in Conservation.

Friends of Sheriff John O'Brien were shocked to learn of his death following an automobile accident near his home recently. Deceased was well and favourably known here as elsewhere. Much sympathy is felt for the bereaved relatives.

Quite a number of the men from this vicinity have gone to Clearwater with Fred MacLaggan for the winter. Men seem very scarce.

Rev. A. J. MacNeill, B. A. will conduct services next Sabbath, Oct. 28, 10 a. m. in Holtville, at eleven o'clock; Bloomfield at three and Boiestown at seven o'clock.

Ranges are wonderful bakers because the oven is always just right. The heat is evenly distributed at all times around all sides of the oven, and a steady temperature results.

An oven thermometer tells you the temperature of the oven instantly, and the perfect regulation of heat enables you to have any temperature you want at any time. Fawcett Ranges are the handsomest, most economical, durable, and satisfactory, as well as the best bakers.

Send for our booklet explaining why. It contains facts about ranges that you, as a housekeeper, ought to know.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

Union Government Formed at Last

Sir Robert Borden Keeps the Premiership and Devides his Cabinet About Equally.—Hon. J. D. Hazen to be High Commissioner

After several months of negotiation between Sir Robert Borden and leading men among the Liberals, a Union Government was formed last week.

Of the old administration, Sir Robert Borden, Sir Thomas White, Hon. Arthur Meighen, Sir George Foster, Sir Edward Kemp, Sir James Lougheed, Hon. Frank Cochrane, Hon. J. D. Reid, Hon. C. J. Boherty, Hon. M. Burrell, Hon. A. Sevigny and Hon. P. Blondin remain in the government, as well as Hon. C. C. Ballantyne and Hon. Hugh Guthrie, who became members before.

The new members are Hon. A. L. Sifton, Premier of Alberta; Hon. Jas. A. Calder, Minister of Public Works, Saskatchewan; T. A. Crearer, Winni-

Hon. F. B. McCurdy, Parliamentary Secretary of Militia and Defence, and Hon. Hugh Clark, Parliamentary Secretary of the Department of External Affairs, retain their respective offices. Hon. Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

Exemption Tribunals.

Exemption Boards have been chosen in such a way as to make them absolutely independent and removed from all influence. There are over 1,250 boards throughout the country, each composed of two men, one appointed by the county judge in the district concerned and one selected by a joint committee of Parliament. Being familiar with local conditions where they sit, the members are well-fitted to appreciate such reasons for exemption as are put before them by men called up.

Exemption will be granted to those who can establish that it is in the national interest that they remain in civilian life. This is for the Exemption Board to decide after having received full information in each case.

The grounds on which exemption may be claimed (which are similar to the grounds recognized in Great Britain and the United States) are as follows:—

- (1) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he is habitually engaged.
- (2) That it is expedient in the national interest that the man should, instead of being employed in Military Service, be engaged in other work in which he wishes to be engaged and for which he has special qualifications.
- (3) That it is expedient in the national interest that, instead of being employed in Military Service, he should continue to be educated or trained for any work for which he is then being educated and trained.
- (4) That serious hardship would ensue if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position.
- (5) Ill health or infirmity.
- (6) That he conscientiously objects to the undertaking of combatant service and is prohibited from doing so by tenets and articles of faith, in effect on the sixth day of July, 1917, of any organized religious denomination existing and well recognized in Canada at such date, and to which he is in good faith belongs.
- (7) That he should be exempt because disfranchised under the War Time Election Act.

No Claim for Exemption should be put forward unless one or other of these grounds in fact exists, and no local citizen should assist in, or allow himself to be made a party to, any Claim for Exemption unless thoroughly satisfied that it is made in good faith.

Exemption may be applied for by the men selected themselves or by their parents, near relatives or employers. Application for exemption must be made on printed forms to be found at every post office, which are to be filled in and left with the postmaster if exemption is desired. The postmaster will forward the form to a Registrar, who will send it to the appropriate Exemption Board. In due time, then, the Applicant will get notice as to when he must present his case before the Board.

Issued by The Military Service Council.

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called frezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of frezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill.—"While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my home and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the insane Hospital."—Mrs. E. SHELDON, 6567 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

If You Want Evidence

That Hemorrhoids, or Piles, can be Completely Cured Read These Letters.—Both are Sworn Statements.

Toronto, Ont., Oct. 25—Next to personal experience the sworn statements of reliable people is the strongest evidence obtainable. If you have any doubt that Dr. Chase's Ointment will positively and completely cure piles, these letters should convince you. Mr. Samuel Parker, fruit grower, Grimsby, Ont., has made the following declaration before M. W. W. Kidd, Notary Public of the same place: I do solemnly declare that I was troubled with bleeding piles and was advised to go to the hospital to have an operation performed. My wife said 'No, get a box of Dr. Chase's Ointment.' I did so and have used it according to directions while living in Manitoba and obtained a complete cure, for I have never been troubled with piles since. I am now seventy years of age and want to recommend Dr. Chase's Ointment to all sufferers from piles. My wife has used it for itching skin and obtained complete cure. Mr. Donald M. Campbell, Campbell's Mountain, N. S., writes: 'I have used Dr. Chase's Ointment with great success for hemorrhoids or piles of fifteen years' standing. After trying all kinds of so-called pile cures, three boxes of Dr. Chase's Ointment gave me a complete cure. I have also used Dr. Chase's Kidney-Liver Pills, and there are no others so good. You may use this letter, if you wish, for the benefit of others who may suffer as I did.' Sworn before me, Murdoch Gordon Campbell, J. P., in the County and for Inverness County. If you would like to try Dr. Chase's Ointment at our expense, send a two cent stamp to pay postage and we shall mail you a sample box free. Full size box 60 cents, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Letters From The Front

(Continued from page 3) A splendid game of tennis yesterday, with the guns booming away in the distance. Concerts abound; cinemas by the thousand; and refreshments by the ton! There is no telling you of the great, good work in France. Of course, they can do it, being backed financially by all the churches in England and by the whole nation, for that matter. So the Rev. J. G. S. is gone. It is really too bad. He was at Oxford, I heard, taking his M. A. degree. He was great! Art and I revel in the beautiful scenery here. The Autumn tints are exquisite; bright and varied. This is a huge camp and splendidly situated on a hill. Just how long I shall remain here I do not know. You never know when you are marked to piece to the sea again. Months ago Art and I were at— I suppose you have read much about that town in the papers. It is a splendid looking city, once with 40,000 inhabitants, but empty now, of course. The Germans have held it for some time, and intend to hold on to it until they are pushed out! When I left it, the place had only been shelled a very little, so far as I could see from the position I was in; but, since then, I hear that the Germans have smashed every house up. There is not one roof remaining. That is what they have done all along the line, since 1914. It makes

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—A 10-cent box from your druggist will keep you feeling good for months.

us hope for an opportunity to smash up some dozens of their towns by our artillery before peace comes. The Queen was here, not long ago; but I was unable to see her; for this is a huge camp and she did not come our way. I wonder if the guns will cease this year? Unless you are in France, you cannot possibly realize what it all means. For three long years the guns have boomed away ever the same, except in intensity. There is never a single moment, day or night that you cannot hear discharges of shells, or their explosions. When you have been here a certain time, you can tell the nature of the shell merely by the sound, and its size, too. I am thankful to write that we are both in absolute safety, and hoping to keep so, by good fortune, for a time. What a nerve lot many will be! The number of men whose nerves have been badly affected is tremendous! How all the events will be vivid to present to the minds of the fighting men for years! Can I ever forget Vimy Ridge, or the other engagements through which I have passed? Can I ever forget my "gassing"? I had awful bad luck. Ten others who came down in the train, all "gassed", made hands! Two of us did not, and I was one of the two. We two just filled up the ward!

I must just tell you that Art and I are certain walk towards the firing line (keeping within safety of course) as we wanted to secure a certain peep, of great interest. Well, we were on our way back when a London Omnibus overtook us, and we shouted and clung on to it as the driver slowed down! Of course, all the advertisements were missing; but it did look so strange. And it did feel romantic, to say the least; to ride on top along the French roads, ever near to the great turmoil. A lot of "Imperials" were on top, calling the "various stopping stations by fancy names, from "Marble Arch" to Lancaster Gate". Sorry to be so brief, but must do better next time. We look forward to the time when a description of things by letter with censorship restrictions will be at an end, and we shall tell our stories, with many an interesting experience, face to face with our dear ones at home. Much love to all. Yours ever affectionately HAROLD.

Advise The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicines.

MR. ROSENBERG, 589 Casgrain St., Montreal, April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was suffering from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well. I advise anyone who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". ARE MOOSE BECOMING SCARCER?
A prominent Pittsburg sportsman, who with a party from the same city spent four weeks on the head waters of the Little Southwest Miramichi without seeing any bull moose big enough to shoot, is quoted as saying that moose calves are scarce and the moose being rapidly thinned out. Although many other hunters have had better luck, some fine trophies having been secured in this county this fall, the warning of the Pittsburg man, should be heeded, and every effort made to preserve the game from indiscriminate slaughter. The community, as a whole, should see to it that an irresponsible few are not allowed to "kill the goose that lays the golden eggs."
