

# Fired on The Mob

### Wild Attempt at Ashville, Alabama to Lynch a Condemned Negro.

### Sheriff Warned the Crowd and Then Stood Siege in Court House.

### Several of the Assaults Shot in the Fight That Followed.

Birmingham, Ala., Aug. 22.—A staff correspondent of the Birmingham News telegraphs from Ashville, St. Clair county, today, saying that in a battle which occurred there at 1 o'clock between Sheriff North's posse and a mob of 400 men, who were seeking to lynch James Brown, a negro from Springville, three men were wounded, two fatally.

The mob dispersed for the time being. Brown was tried at a special term of court this morning and sentenced to be hanged on September 20. The trial lasted two hours and the jury was out eleven minutes. When it became noised about that the court had directed the sheriff to take the prisoner back to Birmingham for safe-keeping, a mob surrounded the court house, where Brown was being guarded by Sheriff North and deputies. The mob demanded the prisoner and the sheriff informed them that he would shoot the first man that put his foot on the court house steps.

In a few minutes one of the mob dashed up the steps firing a revolver. A general fusillade followed. The sheriff's force fired through the windows and doors and the mob retreated firing as they went.

Walter Blankenship was shot through the head. Arthur Blankenship was shot in the head and shoulders with buckshot. Both will die. A boy named Hunkley was shot in the head. Owing to heavy rain, the mob sought shelter in nearby stores. The sheriff is still in the court house, and is trying to open communication with the governor in order to get troops. Another attack on the court house is feared.

### NOT YET SIGNED.

### Chinese Emperor Slow About Replying to His Officials.

Pekin, Aug. 22.—The Chinese peace commissioners have not yet signed the settlement protocol. Prince Cheng, president of the foreign office, telegraphed to the Emperor requesting an edict empowering him to sign, but no reply was received. He telegraphed again today in strong terms and says he expects a speedy answer. Li Hung Chang has had a serious attack of sickness, the result of over-exertion in connection with the conference. He is better today.

### SIR GEORGE BURTON DEAD.

He Was Formerly Justice of Supreme Court of Ontario.

Toronto, Ont., Aug. 22.—(Special.)—Sir George Burton, formerly Chief Justice of Ontario, died at his residence, 151 St. George street, Toronto, at 10:30 p.m. today. Sir George was born in 1818, and came to Canada in 1836. He was appointed a judge of the Court of Appeal in 1874, and Chief Justice and president of the Supreme court of Judicature of Ontario in 1897.

### COBBLEDOCK MINE.

Ore Body Struck on Four Hundred Foot Level.

Vancouver, Aug. 22.—(Special.)—The ore body in the Cobbledock mine, Phillips Arm, has been struck in the thousand foot drift at a depth of 400 feet, making the fourth tunnel to tap the ore. There has been little newspaper talk about this but the position, but an enormous amount of work has been done to prove up the property. The vein is said to be over 100 feet wide.

### ANOTHER RAILWAY.

South Shore Road to be Extended to Atlantic Coast.

Montreal, Aug. 22.—(Special.)—The first steps have been taken by prominent New York capitalists to secure a through line from Montreal to the Atlantic coast. They have acquired control of the South Shore Railway and at a meeting today an issue of bonds sufficient to continue the line to Point Levis was authorized.

### HARVEY STEEL COMPANY.

Meeting of Two Corporations Agree to Amalgamation.

London, Aug. 22.—Meetings of the Harvey Steel Company of Great Britain and the Harvey United Steel Co. agreed to the sale of the companies to the Harvey United Steel Company. It is understood that a New Jersey company is actively interested in the consolidation.

### KILLED IN ACTION.

Lieut. Cyril Moore of Baden-Powell Constabulary Dead.

Winnipeg, Aug. 22.—(Special.)—News has reached here of the death in action of Lieut. Cyril Moore, of the Baden-Powell Constabulary, a son of Col. J. G. Moore, of this city.

First Suburbanite—I see Jones has bought a cow.  
Second Suburbanite—Yes, he's got to get rid of the vegetables he raises some way.  
Punch.

## That Pair of Winners

B. O. SADDLERY CO., LTD.  
44 Yates Street, Victoria.

## CRIMINAL STATISTICS

Report for Dominion Issued—Mr. Fisher and the Census.  
Ottawa, Aug. 22.—(Special.)—The annual report of criminal statistics for the Dominion has just been issued and shows 3,767 convictions for indictable offences, an increase of 55 over last year. Of these, British Columbia had 480, as against 370 the previous year, the largest increase. The Yukon had an increase of 9 per cent.  
Of the 41,654 summary convictions, 1,990 are put down to Yukon.  
Hon. Sydney Fisher is investigating the census of 1891, by sending schedules of that census to places where the diminution of population is large for revision, these schedules being taken from the department without proper means being taken for prevention of falsification by irresponsible parties to whom they are sent. It is impossible to see how these parties can say who was and who was not living in the said districts ten years ago.  
A meeting of the railway committee of the Privy Council will be held September 5.

### KILLED AT EXTENSION.

Coal Falls on Miner and Crushes His Life Out.

Nanaimo, B. C., Aug. 22.—(Special.)—Matt Laapakka, a Finlander, was killed in a tunnel at Extension today by coal falling on him. He leaves a wife and two children. He was about 35 years of age.

## Constitution Is Beaten

### Columbia Walks Away From Proposed Challenger In Easy Style.

### Conditions Were Those Thought to Be Favorable to the New Boat.

Oyster Bay, Aug. 22.—The Columbia gave the Constitution a good sound beating today twice around the Sewanahka triangular course. On corrected time, the old boat won by two minutes and 57 seconds, and on elapsed time by two minutes 19 seconds. But the figures do not represent the decisiveness of the Columbia's victory, for as a matter of fact, she beat the new boat twice.  
The first time around the triangle of 1 1/2 miles she gained over 5 minutes. Then a whirl of wind on the short leg across the sound put the Constitution upon even terms, when a new race was practically started, the wind now coming true again. This time the Columbia gained over a minute and a fifth. It was a day of fuky southerly breeze, but either boat got any advantage from the changes in the wind, it was the Constitution. It was at no time a white-cap breeze, and the sea was in smooth condition, which always favors the Constitution. The new boat did not seem to have any of the speed she has shown in light air. She was sluggish on the starting line, and although the two yachts crossed almost at the same minute with a one-gun start, the Columbia reaped off and took a lead of an eighth of a mile, while the Constitution was gathering way.

To be sure, the Constitution was trying a new mainsail and drew very badly during the first round, but it kept going better and better, and for the last fifteen miles of the course was drawing very well.  
Then, too, the club tussel was almost useless in the windward work. But all this does not account for her defeat, even on the last leg of the race in a close run for the home mark, while both boats had exactly the same wind and the Constitution's sails were apparently drawing for all they were worth, the Columbia added over a minute on her lead.

With the intention of contesting the month away today's race reopens the whole cup defender proposition and the yachtsmen are guessing again.  
The two boats will start again over the same course on Saturday. This will be their last race before the trials at Newport.

### THE SEASON'S SALMON PACK

Fraser River Cannery Expect to Reach Million Mark—Tin Cleared Out.

From Our Own Correspondent.  
Vancouver, Aug. 22.—H. V. Winch, formerly part proprietor of the Anacortes cannery, has returned to the city on a business trip to the cannery. He says that there are 750,000 cases up on the Sound and no more sockeyes; that the price of the Puget Sound sockeyes are \$4 a case; 85 cents a dozen for halves, \$1 for pound talls and \$1.25 for flats.  
Up to last night there were 840,000 cases up on the Fraser, and as there are still a large number of fish on the river, the million mark will no doubt be reached.  
The Pacific Coast pack has used up every can in the country and every sheet of tin. All old canneries supplies have been cleaned out and all outstanding accounts with the fishermen have been paid in full. Many of the white fishermen desire to discontinue fishing and receive all money due them. The cannery men are keeping many of them at work with difficulty. The Japs seem willing to keep it until the fish.

### BACK AGAIN.

Tax Collector Gets Back Home and All is Forgiven.

Belleville, Aug. 22.—(Special.)—Tax Collector Butterfield, who disappeared about three months ago, has returned to the city. His shortage, which was about \$17,500, has been made up.  
He Founded First German Paper in Winnipeg.  
Winnipeg, Aug. 22.—(Special.)—Henry Bruegmann, founder of Winnipeg's German paper, Dr. Nordwesten, died at San Diego, Cal.

### HIGH WIND.

Blow Down Trees and Overtur Vehicles in Oswego.

Oswego, N. Y., Aug. 22.—A storm in which wind was the chief factor, broke over this city and vicinity today. Vehicles in the streets were overturned, and trees uprooted. The damage to property was considerable. The extent however, cannot be ascertained now.

### HOLIDAYS.

Days of Duke of Cornwall's Visit to Montreal.

Montreal, Aug. 22.—(Special.)—Mayor Proffontaine has issued a proclamation declaring September 18 and 19 public holidays. These are the days on which the Duke and Duchess of Cornwall and York are expected here.

## Frenchman and Turk

### Officials at Paris Are Reticent and Ominous Rumors Are Set Afloat.

### Sultan's Ambassador Absent, Subordinates Appear to Be Indifferent.

### Approaching Visit of Czar Diverts Attention From More Serious Question.

Paris, Aug. 22.—According to the foreign office officials this afternoon there is no news and no change in the Turkish situation. It was noticeable that the officials were more reticent than yesterday. While asserting that no naval demonstration is contemplated, they refuse to confirm or deny the truth of the news contained in special despatches, saying that three battleships and a cruiser which arrived at Toulon this morning are taking coal and provisions for the journey to the coast. They do not consider the subject. Perhaps it has information on the subject. Perhaps it is not lacking in significance that M. Deschanel, president of the chamber of deputies, who was in the country of the general staff, suddenly went to Rambouillet this morning to see President Loubet, and also that M. Delcasse, the minister of foreign affairs, returns to Paris tomorrow to attend a special meeting of the cabinet, called, it is asserted, to arrange the programme for the reception and entertainment of the Czar.

In the meanwhile the Turkish ambassador, Munir Bey, is absent, and at the Turkish embassy only minor officials are visible. They assume an air of absolute indifference and ignorance of the whole matter.  
Most of the diplomatists are away for the summer holidays, hence it is difficult to obtain a consensus of opinion. Talking to the correspondent of the Associated Press, one of the oldest officials who has been connected with the diplomatic corps for over twenty-five years, said:  
"The Sultan's hand contains one trump just now. It is not likely that France will run the risk of opening the question on the eve of the Czar's visit."  
The newspapers are under the influence of the overwhelming joy of the Czar's approaching visit, are paying scant attention to Constantinople, and generally are taking the view that the matter is consigned to the oblivion of the past.

### Not Satisfied With Amount Trustees Ask for More Than Tendered for Land for Rifle Range.

### Actions Decided in the Supreme Court and Motions in Chambers.

The trustees of the Douglas Estate have declined to accept the amount tendered by the Dominion government for the land expropriated for the government for the purpose of improving the Clover Point rifle range and changing the route of the sea drive to give the rifle range more room. The amount tendered by the government for the property taken was \$3,940, but the trustees do not consider the sum sufficient and it is likely that the courts will have to decide how much more they are entitled to, if any.  
In a statement of defence in the condemnation action taken by the government the trustees contend that the government has taken a strip of land containing about two acres for which payment has not been made or tendered, the amount tendered being for other lands. The lands were under lease to Henry Smith and Edward H. Henley, and they have asked for a reduction in rent on the amount tendered, being for other lands. They therefore claim that the amount tendered is not just compensation for the land, and the loss and damage done by the expropriation.  
Mr. Justice Martin yesterday in the Supreme court granted an absolute divorce in Reid vs. Reid, and in Todd vs. the St. Andrew's & Caledonian society the suit was extended for two weeks to allow redemption. Keating vs. Austin et al. stand over till next week. In Chambers the following orders were made by the same judge:  
McKay Bros. vs. Y. T. Co.—To sign judgment under order. Stood over till Tuesday.  
Huckstein vs. Huston—Examine judgment debtor. Order made.  
Sing Lee vs. Bowker—Examine judgment debtor. Order made, Monday next.  
Re Green, Worlock Co.—To appoint new trustee. Stood over, subject to the right to bring it on if urgent.  
Isaac Tatton, deceased—Order made as asked in writ for several days.  
Re Louis Vigelin, deceased—Application for probate stood over.  
Re J. Robillard, deceased—Application for probate stood over.  
Re Geo. Nicholson—Application to amend a vacate order. Order made.

### POPE'S SWISS GUARD.

Interesting Survival of the Soldiers of Fortune of Past Centuries.

From London Leader.  
The Swiss Guards of the Vatican, although they only number 117 men, are interesting because they are the sole survivors of the system by which thousands of gallant Swiss in the era before the conscription enlisted to fight the battles of nearly all the powers of Europe. The Swiss Guards of France, bravely defending the Bastille, are famous in the history of the Revolution, but there were also Swiss regiments during the 18th century in the service of Spain, Austria, Holland, Sardinia, the Republic of Venice, and the Kingdom of Naples. There were several regiments of Swiss in the English service, and at the battle of Maido the Swiss regiment of Dr. Waterville in our service, which was a Swiss regiment in Napoleon's service very thoroughly.  
Both the Catholic and Protestant cantons supplied these soldiers of fortune to feed cannon. In some instances Protestants and Catholics served together, and these regiments had both Protestant and Catholic chaplains. In other instances regiments were composed exclusively of either Protestants or Catholics, whichever the engaging power stipulated. In the Pope's Guard, of course, only Catholics have ever been enlisted.

### RUN OVER.

Tramp Killed Near Mission—Hur by Hand Car—Traveler's Leg Broken.

Vancouver, Aug. 22.—(Special.)—A one-legged tramp named George Richardson was killed on Tuesday near Mission. He boarded the train coming from Seattle, and the brake-beams under the engine struck him, breaking his leg. He was dragged and rolled over the ties. The train was stopped, the fireman hearing cries. He was still alive when picked up, but died shortly afterwards.  
C. H. Horton, a Massachusetts commercial traveler, stepped off the train bound for Vancouver near Sumas station. When the train was moving fast, he was violently thrown from the track, and escaped with a fractured leg.  
Tony, an Italian workman, was injured on the C. P. R. track yesterday by being run into by a hand car.  
VENEZUELA AND COLOMBIA.  
Report of an Expedition That Is Backed by Venezuela.  
Willemsstad, Curacao, Aug. 22.—Venezuelan steamers have transported 800 men from Meracaibo and Coro, under command of Gen. Dvyla, who defeated and captured Gen. Hernandez, and invaded Colombia, near the Rio Hacha. The support Gen. Uribe Uribe. The Venezuelan authorities have also sent ammunition to the revolutionary movement that was about ready to start, was captured near Magdalena, in the state of Carabobo, while on his way to Orcau he was immediately set at liberty by order of President Castro.

### BACK AGAIN.

Tax Collector Gets Back Home and All is Forgiven.

Belleville, Aug. 22.—(Special.)—Tax Collector Butterfield, who disappeared about three months ago, has returned to the city. His shortage, which was about \$17,500, has been made up.  
He Founded First German Paper in Winnipeg.  
Winnipeg, Aug. 22.—(Special.)—Henry Bruegmann, founder of Winnipeg's German paper, Dr. Nordwesten, died at San Diego, Cal.

### HIGH WIND.

Blow Down Trees and Overtur Vehicles in Oswego.

Oswego, N. Y., Aug. 22.—A storm in which wind was the chief factor, broke over this city and vicinity today. Vehicles in the streets were overturned, and trees uprooted. The damage to property was considerable. The extent however, cannot be ascertained now.

Days of Duke of Cornwall's Visit to Montreal.

Montreal, Aug. 22.—(Special.)—Mayor Proffontaine has issued a proclamation declaring September 18 and 19 public holidays. These are the days on which the Duke and Duchess of Cornwall and York are expected here.

## Up-to-Date Styles

# WEILER BROS.

### Latest Novelties From Paris, Berlin, London

### WEILER BROS. VICTORIA B. C.

### Not Satisfied With Amount Trustees Ask for More Than Tendered for Land for Rifle Range.

### Actions Decided in the Supreme Court and Motions in Chambers.

The Swiss Guard was first raised by Pope Julius II. in 1505, but 22 years afterwards was completely destroyed in the sack of Rome by the Constable de Bourbon. Every man of the little band was slain defending Pope Clement VII., and it was not until 1548 that it was re-established. It is interesting to note that its four sergeants were called "exemptis" which is the same word, rendered "exons," still the title of certain officers of our own Yeoman of the Guard.  
The Swiss Guards still preserve their ancient uniform. It consists of doublet and trunk hose of yellow slashed with blue and crimson. The officers wear steel corselets, and the privates steel morions, which with their S. T. haberdash and basket-hilted swords give them a decidedly picturesque appearance. In the interval between the death of one Pope and the election of another, they wear mourning uniform of black, slashed with white.  
Originally the men were supplied by the authorities of the Swiss cantons by contract to the Pope, as they were to other powers, but that system having ended, they are now recruited privately by agents. The corps is an aristocratic one, and as the duties are light, many men of good birth are found in the Guard. Its late commander, Comte de Courten, who fought bravely in the campaign against Garibaldi in 1867 and 1870, comes at a famous family of Swiss soldiers. It boasts of reckoning 23 general officers in its pedigree, and there was a Regiment de Courten (raised by one of its members) in the service of the Kings of France, and another Regiment de Courten in the service of the Kings of Sardinia. It may be explained that when famous Swiss soldiers raised their names for former powers, which they commanded, the regiments bore their colonels' names in the Army Lists of the nations they served.  
Last June there was a small controversy among the Pope's Swiss, who during the Holy Year found themselves on duty every day at the Vatican, instead of having two days' holiday a week, as has been their immemorial privilege. They represented to Colonel Courten that their pay should be increased, and ultimately this was granted in consideration of their extra duties.

### THE SUMMER OF 1816.

The recollections of the Danville Ill. News are not at fault, that summer cannot strictly speaking, be said to have ever set in. Along in April, when the ground should have been exhibiting signs of active life, the snow on the ground was four feet deep, and the temperature for half its depth. In May only the surface of it had melted. Frost set in again, and the snow went on planting purposes except by tunneling. In June the snow had disappeared, but the ground beneath was frozen hard, and along towards the latter part of the month another fall occurred which made sleighing good in Danville and vicinity for several days.  
On the morning of July 4th water froze in the wells and pitchers of the early settlers, and there was excellent skating on the ice of the lake. Snow toward noon and the usual Independence Day exercises were held in a church warmed by a fire of pine wood. The men and women in mid-winter clothing. The spring, when it came in reality, was so short and severe that no vegetation could thrive in it. In August the corn, which had been planted in the usual manner, went to tassel so early that it was useless except as fodder. Corn from other parts of the country brought unheard of prices. The corn harvest in 1816, all breadstuffs went up, and flour a year afterwards sold at \$17 a barrel.  
As a matter of fact there was no summer in the vicinity of Danville in 1816 and the object of the local clubs to seal the proof that the weather experts in those days attributed the extraordinary meteorological conditions to spots on the sun, just as they are doing now.  
The winters preceding and following the severe summer were unusually cold, and as the people in those days knew none of the conveniences of steam-heated houses, the whole population suffered from contact with the modern janitor, their sufferings, it is supposed, must of necessity have been intense.  
The public health was never better. There were no epidemics, and no cholera, and no influenza. Although the crops were a failure, the spirits of the people never drooped, and their confidence in Illinois as a corn producer never wavered. The sturdy pioneers and first settlers went about their business just as usual.

### JEFFRIES-RUHLLIN.

A Hitch in the Preliminaries for Proposed Fight.

San Francisco, Cal., Aug. 22.—A hitch has arisen in the arrangements for the proposed Jeffries-Ruhllin fight. When the fighters representatives met today with those of the local clubs no sealed bids for the fight were in evidence. It was announced that the clubs had agreed not to put in bids until certain clauses of the agreement were made by the fighters on Tuesday, should be modified. The clubs wish to have the \$200 bond clauses eliminated, also the one pertaining to the referee. The clubs object to Geo. Siler, referee, on the ground that the supervisors will not issue a permit if referees shall be chosen outside of the state. It is developed that the clubs have an understanding with each other, and are willing to give up 65 per cent. of the receipts, Madden and Delaney are holding out for 65 per cent. and \$500 training expenses.

Labor Men In Session

Meeting of the Trades and Labor Council Last Evening.

Programme for the Celebration of Labor Day is Adopted.

The attendance at the regular meeting of the Trades and Labor Council last evening, although representative, was not as large as might be expected...

- 1.-Boys Race (Under 15)-1st, electric bell, value \$2.50, by Elton & Co.; 2nd, pocket knife, value \$1.50, by W. Bowness; 3rd, box chocolate candy, value \$1.00, by C. W. Rogers.

The matter of Organizer Glibe, of the United Brewery Workers, was touched upon in the report of the committee. This gentleman, by some misunderstanding, was taken to the police station, and searched, and his credentials retained by the sergeant on duty.

- 11.-Miners Race-1st, cup, value \$7.50, by J. B. Reid; 2nd, pair shoes, value \$5.00, by Gideon Hill; 3rd, pair shoes, value \$3.00, by Gideon Hill.

The special committee appointed at the last meeting to endeavor to have the date of mobilization of troops changed so as not to interfere with Labor Day celebration, reported having secured the aid of Senator Macdonald, Messrs. Maxwell and Smith, inducing these gentlemen to telegraph the militia department to have the date changed.

- 21.-Marine Engineers Race-1st, pipe and case, value \$3.50, by E. A. Moris; 2nd, pipe and case, value \$1.50, by A. W. Knight.

MASS MEETING. In the evening addresses will be delivered by the whole body of the Hayward, Ralph Smith, M. P., E. H. Helmecke, M. P., Rev. E. S. Rowe, G. H. Maxwell, P. P., Robert Macpherson, ex-M. P., and President of the Trades and Labor Council, John Logg, chairman.

- 31.-Bicycle Race (1 mile)-1st, bicycle, value \$10.00, by Allen & Co. (F. H. Reform); 2nd, bicycle lamp, value \$5.00, by E. B. Brus.

Representative Business Float-1st prize, \$40; 2nd prize, \$25. Trades and Labor Council (representing Trade or Calling)-1st prize, \$50, donated by Messrs. H. D. Helmecke, R. Hall and A. P. McPhillips, M. P. P.; 2nd prize, \$10; 3rd prize, \$5.

- 41.-Boys Race (Under 12)-1st, drum, value \$3.00, by Fletcher Bros; 2nd, stationery, value \$1.50, by R. T. Williams; 3rd, stationery, value \$1.00, by R. T. Williams.

Mr. W. F. Robertson, provincial mineralogist, stating that the government was desirous of having a complete list of all the mineralogical signs and signs for such conditions as it was provided. It was explained that a mere protest against the proposed code was not sufficient, but that a more positive action was required...

Management and engineering staff of the Ymt. Saint Eugene Silver King. Whakawatu, East, and the Ymt. Silver King in protest against enactment of signal code embraced in Bill 22, and endorse urgent appeal of W. E. Bagge and the Rossland mines in letters dated 23rd and 28th...

Dear Sir:-The receipt of a copy of bill No. 22, containing a new mine signal code, sent to me by Mr. B. F. Tolmie, has given me some anxiety because of its injurious effects upon our business.

Dear Sir:-I write again to ask if the proposed legislation is not the province of the industry. The important operation in the industry, the mine, is the mine, and it is in every mine the combined intelligence of the men who work in it...

Dear Sir:-I have made diligent inquiry among our own ranks, and where we have not found anyone else who has been so successful in his work, I will examine actual statistics I doubt whether any such case can be found. Mine accidents are a very serious matter, and have been carefully studied by various authorities...

Peculiar Errors in British Columbia Edition Just Authorized for Schools.

A cursory glance through the latest educational fad, "The New Canadian Geography-British Columbia Edition," reveals some truly unique and original information which is especially intended for use in this province is exceedingly ludicrous.

In the section devoted to British Columbia under the head of "Resources," we are gravely told that "very rich coal mines are found in the southeastern part of the province, and at Vancouver."

As was pointed out many years ago to the advocates of the combined system, that assuming a radius of 1000 feet, the area of a circle is 3,1416 square feet, or 3,1416 times the area of a square of 1000 feet on a side...

TERMS STRICTLY IN ADVANCE

NOTICE TO ADVERTISERS

All new advertisements and changes of advertisements to ensure their being inserted, should be handed in to the business office

Will be paid for such information as will lead to the conviction of anyone stealing the Colonist from the doors of subscribers

THE MINE SIGNALS

We printed on Thursday last a long letter from Mr. Edmund E. Kirby, the manager of the War Eagle mine, in which he sought to show that the Minister of Mines had been guilty of misrepresenting his position in respect to the code of mine signals passed at the last legislature

A GROUNDLESS COMPLAINT

We print a letter from a correspondent, whose name we cannot decipher with certainty, but that is immaterial. He accuses the Colonist of making the United States a subject of steady insult, and says that he has been here for over six months and yesterday's paper was about the only one in which we have not had something to say against the United States

FIREWORKS

For celebrations, garden parties, camping out, etc. Promptly shipped, carefully packed, with full instructions for firing

HITT BROS

Manufacturers, Victoria, B.C.

government, and thus justified the war. The fourth was a reference to the proposed action of the Maryland democrats and was a synopsis of an Associated Press telegram taken from the Post-Intelligencer

UGANDA

We reprint from the London Morning Post a summary of Sir H. H. Johnston's report on Uganda. The whole report has been described in the British press as a state document with all the live interest attaching to a historical romance

Uganda proper is a kingdom lying on the northwest side of the Victoria Nyansa, the great lake out of which the Nile flows. Its area is about 45,000 square miles, and the native population is estimated at upwards of 2,000,000

Between Uganda and the Indian Ocean is a great region known as British East Africa, and through this a railway is in course of construction, so as to connect the Victoria Nyansa with the sea

MOROCCO

Morocco is regarded as one of the danger points in Old World politics. For no explained reason France is concentrating a large force on the frontier of Algeria and a powerful fleet off the coast of Morocco, and it is being generally asked in European capitals what these movements mean

It is said that Russia has agreed to stand by and permit France to have her way, on condition of receiving a port near Gibraltar, and that Germany has been approached with the suggestion that she should take a portion of the Atlantic coast south of the Atlas mountains

the hands of France, it would only be a short time before Turkey would be in the hands of Russia, and this would place the whole of Southern Europe and Northern Africa, including Egypt, under the control of those powers

UNANSWERABLE QUESTIONS

Some time today open your Bible at the thirty-eighth chapter of Job and read it carefully. Then reflect that this book was written centuries upon centuries ago. No one knows who wrote it, and there is no certainty as to where it was written

Some months ago the Colonist gave some statistics showing what had been done in Canada in a public way to assist in the construction of railways, and we then said that data were lacking in respect to provincial and municipal aid

By the Dominion \$90,088,578 By the Provinces 28,700,251 By Municipalities 12,141,086 Total \$130,929,915

Loans have been made to railway companies to the amount of \$24,846,800, of which \$15,994,533 was to the Grand Trunk and was made by the old province of Canada before Confederation, and assumed as a part of the debt of the Dominion

By the Dominion \$168,009,303 By the Provinces 38,905,207 By the Municipalities 18,382,897 Total \$225,297,407

In this are included the cost of the Intercolonial, \$90,006,192 and subscriptions to capital stock made by the provinces and municipalities. In addition the Dominion has given 39,725,578 acres of land, and the provinces a very large area, which Mr. Johnston has not stated

Over one-fifth of the capital invested in railways in Canada has been supplied from public sources. These figures are of great interest, as they show that the railway development of Canada has been carried on to a very large extent by means of public assistance

When Beau Nash went to live in Bath two centuries or so ago, he found things in a very unsatisfactory condition. The Queen had just been there to take the benefit of the waters for some real or imaginary complaint from which she was suffering, and feeling greatly improved, either by reason of the frequent baths or the rest from court life, the whole fashionable world followed in her footsteps

The Toronto Globe draws attention to the fact that the population of British Columbia is gaining more rapidly in population, relatively, than the corresponding parts of the United States. Thus Oregon and Washington increased 45 per cent, while British Columbia gained over 100 per cent, and the comparison might be carried further

Their gentle action and good effect on the system really make them a perfect fit for the pill. They dissolve the bile, remove Carter's Little Liver Pills will well be termed "Perfection"

The suggestion is that if some person in Victoria would emulate the example of Beau Nash in this respect, and start the organization of a citizens' committee on public improvements, he would not only not say deserve a public funeral, but rather do a very good work which will be enjoyed by himself and his contemporaries

The directory question is one which interests every citizen in the country, and the entire world. But in the United States directories are becoming altogether too numerous. It is necessary to have one which can be relied upon as being an authority on the matter of newspaper circulations

The American Newspaper Directory stands as it has always stood, the first and best of newspaper directories—the only one which cannot be surpassed by any other which ever advertiser must have

The American Newspaper Directory is the only reliable guide for the advertiser. No man who advertises can afford to do without it

By the Dominion \$90,088,578 By the Provinces 28,700,251 By Municipalities 12,141,086 Total \$130,929,915

Loans have been made to railway companies to the amount of \$24,846,800, of which \$15,994,533 was to the Grand Trunk and was made by the old province of Canada before Confederation, and assumed as a part of the debt of the Dominion

ending from Washington, D. C., all over the South, and in advertising this system we use more than 1,000 publications, and in selecting this list we find that we get a correct idea of circulation from this Directory that can not be obtained from any other similar publication

I am looking forward to receiving the new edition with a great deal of anticipation, although the American Newspaper Directory seemed to have reached a high state of perfection several years ago, there is always something new and of value in each succeeding edition

General Passenger Agent. H. HARDWICK. Washington, D. C., May 21, 1901.

Buffalo. We should hardly know how to get along without the American Newspaper Directory. We regard it as by all odds the most complete and reliable guide that the advertiser can make use of

Gold Bought From Miners

Another Shipment of Bullion Made by the Provincial Government.

One Brick a Large One Valued at Twelve Thousand Dollars.

Another consignment of the gold purchased by the provincial government at the buildings across the Bay, and made into bricks at the provincial assay office, was shipped away by the steamer Majestic last night.

Although the Yukon contributed the largest brick of the pyramid of gold which attracted much attention, as it was being made ready for shipment, various parts of British Columbia added their quota to the golden bricks.

A new furnace has been placed in the province of special manufacture, which will be an improvement on the coke furnace previously used.

EAST INDIANS.

Lord Curzon's action in securing the consent of King Edward to the grant of a number of commissions to the sons of Indian princes and nobles marks an entirely new and exceedingly politic departure in the history of Great Britain.

But until now there has been no opening for the sons of the semi-sovereign families, and of what may be described as the aristocracy of India.

Yet it is precisely among the princely houses of India and among the great nobles that the military instinct is most strongly developed, and the only satisfaction which has been given to the Indian princes, and no steps have been taken to turn to the advantage of the British crown their loyalty, their prestige and their military tastes.

The King is restricted with the intention of appointing quite a large number of Indian princes to the position of A. D. C. to himself, with the honorary rank of colonel, and it is understood that the Duke of Cornwall and the Viceroy are likewise to have aides recruited from among the princes and great nobles of the Indian empire.

ANOTHER RACE.

World Famous Trotters Matched to Race Next Month.

NO CONFORMANCE.

New York, Aug. 21.—It was denied at the office of the United States Steel Corporation today that Samuel Gompers was to have a conference with J. P. Morgan, and that the ending of the steel strike.

MARRIED AT OTTAWA.

Mr. Christian Marker of Canadian Agricultural Department Takes a Wife.

Mr. Christian Marker, of the Canadian Dairy Commissioner's department, who is very well known in Victoria and district, was married in Ottawa on August 14.

Among the many handsome gifts which indicated the popularity of the young couple, were a silver tea set, a silver service, and a silver carrying service, presented by the department of agriculture, of which Mr. Marker is an employee.

NO BUSINESS AWAITED THEM

School Trustees Gather But Have Nothing to Occupy Their Attention.

A meeting of the board of school trustees was called for yesterday afternoon, and although a quorum attended, there was no business transacted for the simple reason that the business for which the board had been called together was not ready.

FUNERAL OF MR. TIARKES.

Takes Place From Family Residence on Gorge Road.

GAZETTE NOTICES.

A Few Matters of Minor Importance Deal With in Current Issue.

Those who have never heard the great Alban sing should avail themselves of the next best opportunity, and hear Dr. W. H. Drummond in his humorous and tenderly satirical songs.

New York, Aug. 21.—The Tribune says that a tornado tonight killed half a dozen persons and destroyed much property.

UPHOLD FRANCE.

London Papers Think the Sultan Will Yield to the Inevitable.

Islander Victims

The Official Report Shows That Forty Lives Were Lost in Disaster.

The Names of Those Who Went Down With the Ill-Fated Steamer.

Remains of Some of the Victims Brought Here for Interment.

There was a sad scene at the C. P. N. wharf last night when the steamer Charmer arrived from Vancouver. A large throng of people had assembled on the wharf, including friends and some of the relatives of the dead, sealed up in the boxes of galvanized metal, covered by the caskets of white pine, which were lying together on the main deck of the steamer.

LIETU HARVY DEAD.

Grandson of Mrs. R. Dunsinuir Passes Away in India.

The telegram announcing the serious illness of Lietu Harvey, who served on Wednesday by his grandmother, Mrs. R. Dunsinuir, was followed yesterday by a second and sadder message, which conveyed the news of the death of the young officer.

DEATH ROLL.

Mrs. Henry Caldwell Died on Thursday Night at Her Mother's Residence.

On Thursday Mrs. Henry Caldwell died at the residence of her mother, 112 Superior street. The deceased lady was 29 years of age and the news of her death was a shock to her large number of relatives.

HOW ALBAN SANG.

Those who have never heard the great Alban sing should avail themselves of the next best opportunity, and hear Dr. W. H. Drummond in his humorous and tenderly satirical songs.

ANOTHER LYNCHING.

Negro Man Hanged and Shot in North Carolina.

CHARLOTTE, N. C., Aug. 21.—Lake Hough, a negro, was hanged at Wadesboro tonight by a crowd of citizens. His body was then riddled with bullets. His crime was criminal assault.

BOUNDARY CROPS.

Along the Waterfront

Walla Walla Arrives From San Francisco—Teas Sails North Tonight.

The Amur to Go Into Commission to Replace the Lost Islander.

There were few arrivals and departures yesterday on the waterfront. The Walla Walla came in from San Francisco and landed cargo at the Outer wharf, and the Strategyle and Minola passed out.

COMING EXHIBITION.

Getting Things in Shape for the Big Show—Lots of Advertising.

Anyone desiring exhibition prize lists will be furnished with them on calling at the exhibition office in the market building. More interest is being taken daily in the exhibition, and entries are beginning to come in.

DAWSON MURDERER.

O'Brien Expected to Confess Before He Goes to the Gallows.

Vancouver, Aug. 23.—(Special)—It is said by passengers arriving by the Hasting that O'Brien, the murderer of Dawson, is sure to confess before he is hung.

SHOOTING AT LONG BEACH.

British Columbia Team Second in City of Toronto Team Match.

From Our Own Correspondent. Toronto, Aug. 21.—The second day's shooting in the annual matches of the Ontario Rifle Association, which was carried out smoothly, moderate wind prevailed and the weather was very moist of the day, making it difficult to do extra fine shooting.

AMERICAN CITIZENS.

Chinese Born in Honolulu Have Same Rights as White.

Honolulu, Aug. 14, via San Francisco, Aug. 22.—United States Judge Estes has rendered a decision in which he declares that all the Chinese born in the Hawaiian Islands are American citizens, no matter what government they were born under.

SCHOOLS CROWDED.

Many of the Rooms Are Already Over-taxed—Report of Attendance.

Although the public schools have been open for the winter term for but a week, a great many of the pupils have not yet returned, and a number of the schools are taxed for room, and this too, in spite of the fact that all available space, including part of the gymnasium at the Central school, has been taken up.

AN IDEAL.

Take things easy—that's the trick. That's the hardest of all to learn. Take your knees steady. Don't go quick. An' dodgin' at every turn. That we close our eyes to the hay on the ground. An' get to thinkin' it's wholly wrong to be takin' things easy.

PRESERVING THE SITE.

Historical Society of Victoria Places a Table on Site of Old Hudson's Bay Fort.

The Historical society of Victoria is to preserve the site of the old Hudson's Bay fort, which was the principle and only building of the fort in the beginning. On the site of this fort, which according to a statement made some thirty years ago in the British Columbia legislature by one of the members, was bought by the Hudson's Bay Company for three blankets, a plate is to be placed so that those who run over the site of the fort will know that they stand on the site of the old Hudson's Bay fort.

AMERICAN CITIZENS.

CHINESE BORN IN HONOLULU HAVE SAME RIGHTS AS WHITE.

Honolulu, Aug. 14, via San Francisco, Aug. 22.—United States Judge Estes has rendered a decision in which he declares that all the Chinese born in the Hawaiian Islands are American citizens, no matter what government they were born under.

SCHOOLS CROWDED.

MANY OF THE ROOMS ARE ALREADY OVERTAXED—REPORT OF ATTENDANCE.

Although the public schools have been open for the winter term for but a week, a great many of the pupils have not yet returned, and a number of the schools are taxed for room, and this too, in spite of the fact that all available space, including part of the gymnasium at the Central school, has been taken up.

AN IDEAL.

Take things easy—that's the trick. That's the hardest of all to learn. Take your knees steady. Don't go quick. An' dodgin' at every turn. That we close our eyes to the hay on the ground. An' get to thinkin' it's wholly wrong to be takin' things easy.

PRESERVING THE SITE.

HISTORICAL SOCIETY OF VICTORIA PLACES A TABLE ON SITE OF OLD HUDSON'S BAY FORT.

The Historical society of Victoria is to preserve the site of the old Hudson's Bay fort, which was the principle and only building of the fort in the beginning. On the site of this fort, which according to a statement made some thirty years ago in the British Columbia legislature by one of the members, was bought by the Hudson's Bay Company for three blankets, a plate is to be placed so that those who run over the site of the fort will know that they stand on the site of the old Hudson's Bay fort.

MONTREAL DECORATIONS.

PRIVATE CITIZENS PROVIDE FUNDS TO ADORN CITY FOR ROYAL VISIT.

Montreal, Aug. 21.—(Special)—Private citizens of Montreal have subscribed nearly \$17,000 toward the decoration expenses for the reception of the Duke and Duchess of Cornwall.

The Stewart River District

There Are Now Over Six Hundred Miners at Work In That Section.

Half a Million Dollars Taken Out This Season—Many New Finds.

According to advices received from Dawson by the Hating, considerable mining development is being done on the Stewart and its tributaries this summer.

There are in all about 600 men engaged, 250 of them being on the main river to Fraser Falls, and about 450 beyond the Falls, on the two main forks.

Gold has been worked out of these bars since 1856 and it was a somewhat noted stream before the discovery of the gold.

Gold has been worked out of these bars since 1856 and it was a somewhat noted stream before the discovery of the gold.

Two men a week ago made a fair strike on the main river to Fraser Falls, about twelve miles above the Falls, on the right bank.

One report is that a party of men made a strike on the North Fork, twenty miles from its confluence.

It is also contemplated to light the 101 miles of the main river to Fraser Falls, so that all shipping may pass through at the night time.

Some of the difficulties in the way of the practicability of the canal were found to be visionary, and others have been overcome by engineering science.

The engineer, Leper, says by first trying to reproduce the possibility of a canal between the two seas, said that the difference of tide between the Red Sea and the Mediterranean was so great that it was absolutely impossible.

Then the opponents of the scheme pointed out an obstacle that really existed at the Port Said entrance to the canal.

At first there were only three sidings where the excavations might pass one another. There was consequently much detention, which has now been obviated by widening the canal so that most vessels can pass at once.

It was further asserted that sandstorms would choke the canal in the places where the excavation passes through the desert.

Mr. Barrett says that fish and game are abundant in that country to such an extent that people going there can live on them indefinitely.

form a wide, flat bubble. The air comes in contact with the ice and water is pushed and the beaver breathes it again.

"When the ice is thin and clear I have often seen the muskrat attached to his bubble, and by ponding on the ice have driven him away from me."

"It is difficult to hold most of the shyer fur-bearing animals in captivity is known to those who have made the experiment, but the beaver evidently takes the lead in this respect in Mr. Riester's estimation as the following will show:

"I almost always keep a pair of beavers in a newly-captured beaver. I once caught an old one and two kittens up the north branch of the South-West, on the main river to Fraser Falls."

"I picked him up by the tail, brought him back, put him in the pen, supplied him with food, and he lived for some time."

"I thought that I would go up that little way, and I had gone more than ten rods before I came across my lad sitting up in the bed of the brook having a bunch on a stick he had cut. He actually looked at me as if he were playing truant when he caught sight of me out of the side of his eye."

Salmon Fleet Will Be Large

Nine Vessels Chartered to Carry This Year's Pack to England.

A Number of Sailing Vessels Expected—Moana Sails Today.

Today the sockeye packing season ends, and in a short time the salmon carriers now arrived will have commenced loading the cases of British Columbia salmon for the British market.

The Blytheswood, which has been lying at Esquimaux for a couple of months, having been one of the first of the salmon fleet to arrive—yesterday began to load ballast preparatory to going to the Fraser to begin loading and the Largo Law, which has completed discharging her cargo of general merchandise on the Mainland is preparing to commence loading.

The salmon fleet this year will be one of the largest that has ever carried the British Columbia pack to the Old World. All the ships have been chartered to date.

"I thought that I would go up that little way, and I had gone more than ten rods before I came across my lad sitting up in the bed of the brook having a bunch on a stick he had cut. He actually looked at me as if he were playing truant when he caught sight of me out of the side of his eye."

Protectorate of Uganda

Sir H. H. Johnston's Report on Important Part of Dark Continent.

Favorable State of Affairs Is Brought About By the Commission.

From London Chronicle. Sir H. H. Johnston's general report, as special commissioner of the protectorate of Uganda, was published yesterday (July 25) as a parliamentary paper.

After sketching the early history of the country from 1802 (when it was brought to the knowledge of the world outside Africa by an expedition under the celebrated explorer, Speke and Grant, who were despatched by the Royal Geographical Society to discover the sources of the Nile) down to 1890, when the Anglo-German agreement placed Uganda within the British sphere of influence, Sir H. Johnston says that the Imperial Government, sent out Sir Gerald Portal to report on the internal affairs of the country.

The result of his report was that a protectorate was declared in 1894, and that the protectorate was extended in later years until it comprised the six provinces now included within its limits.

"I thought that I would go up that little way, and I had gone more than ten rods before I came across my lad sitting up in the bed of the brook having a bunch on a stick he had cut. He actually looked at me as if he were playing truant when he caught sight of me out of the side of his eye."

Survivors of Worth

From Army and Navy Gazette. The Survivors of the French Cruisers who took part in the battle of Worth or Reichshofen in the autumn of 1870, have formed themselves into a society of veterans in Paris.

The idea appears to have been suggested by M. Staub, formerly of the 10th Cuirassiers, and a second meeting was held at the Union des Societes Regimentaires on June 2, under his presidency, the vice-president being M. Georges Brunet, who in 1870 was a sub-lieutenant in the 1st Cuirassiers, and the secretary, M. Bedoll.

Sixty survivors gathered together, whom the youngest was over fifty. M. Brunet records that the Cuirassiers were on the right of the army, or appeared to be, for at the time they could not see anything of the battle. At 4 o'clock in the afternoon General Canrobert arrived at the gallop, very red, and without his kepi. The word ran that it was McMahon, and immediately the charge was sounded. The 1st Cuirassiers were in the leading line, and struck the enemy, who were wavering after receiving a storm of shot. The regiment then retired to right and to left, and the 4th Cuirassiers, who, in the third line, followed the 2nd and 3rd Cuirassiers, and the 1st charged a second time. But the Germans recovered themselves, and the 1st Cuirassiers were ordered on the cavalry division, of which one third was put hors de combat. M. Brunet states, notwithstanding the terrible losses, that the division retired in good order when the retreat was sounded. The survivors of that famous day, who gathered together, are: number about 150.

Owing to the continued warm weather, classes will not be re-opened until Tuesday, September 3, at St. Ann's Academy. This announcement will no doubt please the large number of families who are still enjoying the summer months. The position of superior, left vacant by the death of the revered Mother M. Anne, has been filled, and Reverend Mother Jeanne de Chantal is now installed. The new superior is a person of wide experience and culture, and possesses a cordial manner. Under her direction the school will flourish, and there was high executive ability, and the convent is to be congratulated in securing a like capable person to further the interests of the Academy.

Rev. Dr. Bochroch of Buffalo, says: "My wife and I, both afflicted with distressing Catarrh, but we have enjoyed freedom from this aggravating malady since the day we first used Dr. Agnew's Catarrhal Powder. Its action was instantaneous, giving relief in a few minutes. It is a most valuable remedy for all cases of Catarrh of the bladder after first application, 50 cents. For sale by Dean & Hecock, 55 Wall & Co."

Area numbers from 1 to 40, inclusive, upon a chart filed in the Lands and Works Department, Victoria, B. C., and thereon colored red, which areas are situated on the east and west shores of Observatory Inlet, on both shores of Hastings and Alton Arms, on the east shore of Portland Canal and Portland Inlet, on both sides of Hutermaten Inlet, on the Naas Bay and River, and on islands in said waters, containing in the aggregate about 125 square miles.

NOTICE TO CONTRACTORS. Reconstruction and Repairs, North Arm Fraser River Bridges, at Eburne, B. C. Sealed tenders, properly indorsed, will be received by the undersigned up to noon of Saturday, August 31st instant, for the reconstruction of the Pitt River approaches to, and for the renewal of the floor system of the Through Spans of the North Arm Fraser River Bridges at Eburne, B. C.
