NOTE & COMMENT

The shrewd merchant will not slacken his attention to his newspaper advertising as soon as the busy season is over.

The franc dipped below five cents in New York. It is a warning to France that until she begins to collect Germany's debt to her she should stop increasing her own.

Mayor Wenige, of London, has endorsed the move for opening of the reading room at the Public Library on Sundays, declaring that he would submit a resolution to this end at the first meeting of the 1924 library board.

A sad commentary on life today is that 75 per cent. of the crime of our times is committed by men under 25 years of age. Wonder where does the responsibility rest for a condition of affairs such as this. Some say the average home is the recruiting ground for such statistics.

Because the old habit, or practice, of taking snuff has largely been done away with 1 of the 2 famous Scottish dealers is going out of business. Here's the place for the Moderation League to stand up on their hind legs and bray about the "tyranny" of good habits driving men out of their livelihood.

According to figures compiled by the Federal Department of Labor. The average cost of a weekly family budget of twenty-nine staple foods was \$10.69 at the beginning of Nov. as compared with \$10.65 for October, \$10.29 for November, 1922; \$11.08 for November, 1921; \$16.92 for June 1920 (the peak) and \$7.96 for November, 1914.

Armprior Chronicle: The average head of the family today considers eight hours a day as the maximum time it should take to support those dependent upon him. A generation ago father worked ten or twelve hours regularly, supplemented by a son in the field or shop, and a wife with a flock of chickens, and a shelf full of preserves, gathered and prepared by herself.

Owen Sound Sun Times: All cannot attain to eminence. If that were possible eminence would be impossible. All would be on the same level. But each can attain to his or her best and to do that is to succeed in the very truest sense of the word. Set your heart on being somebody, on doing something worth doing and on doing it better, if you can, than any one else has ever done it. That is success. In the attempt even if you fall you will succeed, succeed to make the best of the most of your self and of your life.

Municipal matters here apparently are "in extremis," excepting the lively interest manifested by a majority of the taxpayers over the H. C. O. L., writes a correspondent from a neighboring village. However even though he must dig down a little deeper to help meet increasing municipal expenses, the digging should be not in vain if it but helped to awaken in his quiet breast some spark of interest in the future of his home and fireside. We are of the candid opinion today that the reason for the larger towns and cities absorbing the vitality of our villages is because of no special effort of their own, but rather the indifference of the village voter to see to it that the office seek the man and not the man of the office. We have no "pick" on any individual but believe frankly that if dozens and dozens of our fair villages want to stay on the map they must in some way arouse more interest in municipal elections, dispense with the "was-in-the-beginning-is-now-and-ever-shall-be" system and install men who glory not in the past but desire to awaken the interest not only of their fellow citizens but the interest of those at large who are looking for something worth while.

Everyone reads the "Guide-Advocate Want Column" on page 4.

Lloyds is betting four to one that the new 6 per cent. sales tax, which the Federal Government proposes to inaugurate on January 1st, to replace the system of sale tax collection now in vogue, will not be enforced. The law regulations provide for the collection of a 6 per cent. tax from the manufacturer. By the present method of sales tax of fractionally better than 2 per cent. is collected from the manufacturers.

Motor license plates this year will not be available until the 1st of February, instead of on the 1st of January, as has been the case in previous years. The causes for the delay in issuing them are two in part, the government's indecision over its policy of taxation, and in part the fact that the manufacturers of the license plates have not delivered sufficient to permit the meeting of the whole demand during January.

Owing to the influx of Western turkeys, which can be sold at 20 cents in Toronto, local producers have little chance of regulating the market. However, aside from Western importations entirely, Turkeys are most plentiful throughout this district this season. Many farmers, though disappointed with prices, state their intention of keeping their flocks over for another season. One man from the surrounding district, declared that although he had 150 turkeys, which he had expected to market this year, in view of the price he had decided not to put them on the market at all.

More than one hundred and seventy million dollars came to Canada through tourist traffic last year, according to an estimate by Canadian National Railway officials. In addition to the great number of tourists brought into Canada by the railways during the regular tourist season, which this year was the heaviest the Canadian National system has ever known, it is estimated that over a million automobiles entered the nine provinces of Canada on business or pleasure during the season. During last year, according to Government estimates, tourist traffic, as a revenue producer, took fourth place in Canada's industries.

All doubts as to whether or not the new sales tax will go into effect on January 1 was removed Friday night, following a lengthy sitting of the Cabinet at Ottawa, when Premier King stated positively that the tax would be enforced. The Prime Minister said that the Government must carry out the will of Parliament which had approved the new tax. He intimated, however, that the Minister of Customs was prepared to consider appeals against the tax, and that where its operation appeared to work an injustice, effort would be made to remedy this. The new tax has met with strong opposition from business organizations which favor the substitution of a turnover tax.

London Free Press: It is surely debatable whether creation of a third party has actually contributed to the volume of independent political thought in this country. On the contrary, new parties usually gather in a certain number of malcontents who have never rendered consistent allegiance to either of the old parties, and by thus tying up "floaters" increase the possibility of counting heads in advance. Be that as it may, the record of Canadian elections gives support to a belief that this country has never been without an important body of "independent political thought," certainly since the inauguration of the secret ballot, at any rate.

Many municipalities throughout the province are making protest against being compelled to prepare the voters' lists for provincial elections, and they are justified, as there is no good reason why the province should not foot its own bills and show up in its own accounts the full cost of government. In these days of expensive road making and the high cost of everything, the municipalities find financing strenuous enough without adding to their budget, expenses that really belong to the province, which is not under the necessity of making direct levy on the ratepayers. The Assessment Commissioner of Toronto stated the other day that it cost the city over \$18,000 for the purpose of making up these lists. All over the province the expense has been proportionate to the size of the municipality. Every tub should stand on its own bottom, and it is not fair that the province of Ontario, with its many resources, should saddle half a million dollars of its expenses on the backs of the municipal council.

Hard and soft corns both yield to Holloways' Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

U.F.O. men who have been financing the Farmers' Sun must realize that there is no gold mine in running a newspaper. In the last fifteen months The Sun has been conducted at a loss of \$15,161, according to the official statement of the secretary-treasurer. Operating costs have increased, while receipts have decreased. The fact is that even on the large seemingly prosperous papers, the margin of profit has been cut down pretty fine and will be still further reduced by the six per cent. sales tax which the publisher has no way of passing on to the customer.—Barrie Examiner.

London Advertiser: If the Government continues with the present discrepancy in its numbers, the Progressives will find themselves in an advantageous place. So far they have voted against it on budget issues which contained a better thing for them than would be offered by any other party. Premier King has not at any time had a definite majority, large enough to enable him to work freely and fearlessly. He has had to compromise at times with the reactionaries in his own party, and it has been a situation throughout that has called for an unusual amount of tact and patience on his part. The situation that exists now is one that the cabinet will have to face fairly and fearlessly. If the Progressives want to force matters to the point of an election, the Government will have to accept that challenge; if, on the other hand a fair working arrangement can be arrived at, an election nobody wants and that no section needs can be avoided until the proper time for it.

There is no class of men who serve the public faithfully and perform their duties with clocklike regularity to beat the rural mail couriers. They are granted no holidays while the rest of us gadabout when we like; they cannot pick the nice days for their outings; the pay they receive is not commensurate with the present day program; and the "chores" they are commissioned to look after the goods asked to convey often require a good memory and a trailer to accommodate the freight. Don't blame them if your letter or paper occasionally does not reach you according to your way of figuring; they are not the whole

postal service. Santa Claus time is past, and if the long whiskered, jolly old fellow we used to know dropped a "sugar stick" in the mail box the smile of appreciation on the courier's face would do you good if you could see it.

Have you seen the single pin yet? It is a small pin, showing a very yellow sun across a very azure sea, with the letter "S" in the sky behind. The object is clear. It is to advertise to the world that the wearer is unmarried, against his will. It is more than simply a single pin; it is a signal pin, the wistful symbol of involuntary celibacy. It is the idea of a bright young Toronto man who has been married for five years and is so delighted with the results that he has become a sort of a matrimonial missionary. He believes both men and women are going round in need of such a friend. The single pin, he pointed out, was a social need. The absence of a wedding ring meant very little. It might mean that the young woman was unmarried, or it might mean that she regarded wedding rings as a symbol of bondage, or merely that she had left her wedding ring in the wash room. On the other hand the single pin was a definite challenge. It was just as though the wearer were going about with a large sign saying; "Bachelor, lonely, would like to meet a lady of suitable age," or "Widow, attractive and intelligent, would like to make the acquaintance of unmarried gentlemen" or "I am 25 and unmarried, and no man has called on me since 1918. Would like a suitable life companion."

AN AUTO INVENTION

A Danish inventor has perfected a device that will prevent serious damage to the car or injury to the passengers when the front axle or front wheel is broken while driving. The device consists of a pair of "trailing shoes," made of steel spring of various widths for the different sizes of cars. They are attached to the front axle in such a way that, if the axle or wheel breaks, the car can only drop until the shoe, instead of the axle, rests on the ground. Tests have been made, during which a wheel was run off the axle without throwing the car out of its course.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co.; Brockville, Ont.

The Guide Advocate is well equipped to handle all printing orders.

A DOCTOR IN A TIN BOX!

Sounds strange, does it not? Yet that is how Mr. J. Cartier says Zam-Buk is regarded by his family. Mr. Cartier, who is a member of the family of the late Sir George Cartier, is Justice of the Peace and Assistant Clerk of the Circuit Court, Montreal. He first discovered the wonderful power of Zam-Buk by using it for eczema, which it completely ended. Since then his family is never without it.

"Allow me to express my gratitude," he writes, "for the benefit I have derived from the use of Zam-Buk. I have proved that it is, without doubt, the finest remedy for eczema. Its general healing and curative powers are immense. We call it 'Our Family Doctor,' and are never without it." Mothers should see that Zam-Buk is always handy, for not only does it end pain, draw out inflammation and prevent blood-poisoning, but it heals skin diseases and injuries in the shortest time possible. All dealers, 50c. box.

STUDYING GASOLINE TAX

Investigations looking to the advisability and practicability of a tax on gasoline are being studied by the Ontario Highways Department. In letting it be known that information as to this form of tax is being asked of other Provinces and of States in which there is such a tax, Premier Ferguson said it seemed to offer a means of taxing a motorist on the use he made of the roads. Admittedly there are difficulties in the way of such a tax, the most important being that to impose it against fishermen and those who do not buy gasoline for use in automobiles would be an additional hardship. It is not anticipated that the Ontario investigations will lead to legislation this year but the study of the subject impresses the fact that the collection from the motorist of a sum sufficient to maintain the roads which motor traffic demands, is a problem not entirely solved by the license fee system. The gasoline tax, if a satisfactory way of collection could be devised, presents itself as a particularly fair tax because payment will be in accordance with the quantity purchased, which means, in accordance with car weight and mileage travelled.

GASOLINE MAY HAVE CAUSED FIRE

Probe Into Fatal Sombra Township Blaze By Fire Marshal
 Analysis Shows Twenty Per Cent. Petrol In Coal Oil

Sarnia, Jan. 4.—Coal oil containing 20 per cent gasoline was suggested as the cause of a stove explosion which resulted on December 7 in the burning of the farm home of Harry Babcock, Sombra Township, and the loss of six lives.

An inquiry was conducted by Provincial Fire Marshal E. P. Heaton, at Wallaceburg, yesterday. Crown Attorney F. W. Wilson, of Sarnia conducted the examination of witnesses, including Mr. Babcock, Charles Robertson, Wallaceburg storekeeper who sold oil to the Babcock family, and John Richie, garage keeper who supplied oil to the Robertson store.

The crown produced evidence to show that a Government analysis of a sample of coal oil sold from the Robertson store tested 20 per cent, gasoline content, but Mr. Robertson and Mr. Richie disclaimed any knowledge of the gasoline mixture, though it was shown that previously complaints had been received of weakness of coal oil received by customers. The hearing lasted all day and the report of the marshal will be made at a later date.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

FROM FAR AND NEAR

An Alberta correspondent asks for the date of the Donnelly murder in Biddulph township. It was in the early morning of Wednesday, February 4, 1880, that five members of the Donnelly family were massacred.

Diving on a wet concrete pavement more than 100 wild ducks broke their necks near Champaign, Illinois. The pavement, wet from drizzling rain and lighted by the moon, looked like a shimmering body of water.

A Toronto man who was in Germany lately states that he paid eighteen million marks for a night's lodging, and when he produced an English pound note it had to be sent from the provincial town he was in up to Berlin to get changed. The change arrived two days later by train.

Carpenters working on the P.B. Leighton residence, on the river front, in Amherstburg, were amazed to locate a large amount of No 1 honey on the south side of the residence when the cornice was removed during repairs. The bees were ousted from their shelter, and about 500 pounds of good honey was found.

Muskrat is becoming an article of steady diet in Detroit, according to an eastside merchant. When properly cooked, the muskrat has a wild gamy flavor that is suggestive of wild duck. "Many people would like muskrat if they didn't know what it was," stated the retailer. "Somehow the name seems to scare them off. The muskrat is a clean animal. His diet is entirely vegetable."—Detroit News.

Plans are being made jointly with the officials of the M.C.R. and the officers of the Western Union telegraph Company for the construction of an up-to-date telephone line from St. Thomas to Courtright on the St. Clair branch of the M. C. R. At the present time the trains on this division are handled by telegraph, but the telephone has replaced the telegraph instrument on all local railways of the M.C.R.

Driven to desperation by hunger, two thugs held up John Harkness, a grocer, 1313 Assumption street, Windsor, Christmas Day. "Compliments of the season," said one of the thugs, drawing a pistol. "Hate to do this, brother, but we must eat." "If I give you \$5 will you go away?" said Harkness. "With the greatest of pleasure," replied the gunman. They took the money and fled. In the cash drawer there was more than \$100.

The "arrest" of two members of Parliament on Ouellette avenue, near the Prince Edward Hotel, Windsor, each of whom was fined \$5 and costs in a private session of Police court, featured the annual newspaper sale for funds for the Goodfellows' Club in the Border Cities Saturday. Albert F. Haly, M. P. for North Essex, was charged by R. L. Bracken, member for West Kent, with having stolen Bracken's hat in the hotel. The police flyer searched the streets until Mr. Healy was found. He was handcuffed and brought before Magistrate Gundy. Mr. Bracken was fined for allowing his hat to be stolen. More than 15 lawyers, called as witnesses at the mock trial, were also fined. About \$50 was collected for the fund.

HAS INSTALLED RADIO

Mr. N. W. Young Now Has a "Loud Speaker."

Meaford, Dec. 31.—Mr. N. W. Young has had a radio outfit installed in his home on Trowbridge street. The outfit is known as a "loud speaker," and is the invention of Mr. Young's cousin, Mr. Charles Fitzgerald of Watford, who installed the outfit here and who is putting in one of equal size and cost for his uncle, Mr. W. L. Young of Markdale. Mr. Fitzgerald is a born electrician who has experimented with radio from the time of its inception. The machine was designed and built solely by himself and is said to be a perfect piece of mechanical and electrical construction, equal in every respect to the best on the market. It is the young man's intention to apply for a patent on his machine, which certainly is a credit to his skill and ingenuity.

Mr. Young states that he had the esteemed privilege on Sunday of hearing a sermon delivered in one of the leading churches in Pittsburg, Penn. Every word, he said, could be heard distinctly. Mr. Young also got in touch with Regina, Sask., as well as with Los Angeles, Cal, and San Antonio, which was a remarkable achievement for an ordinary house set.

A 1c stamp will bring your news items to The Guide-Advocate.

PENINSULAR WINTER FAIR

The Live Stock classes have filled beyond the expectations of the Fair Board. Representatives from the leading herds and studs in the Province will compete, including animals which were prizewinners at the larger Fairs. The local breeders have made large entries and some are showing for the first time.

The buildings arranged for will be filled and additional space will be arranged for in order that all exhibits of any one class of stock may be kept together.

The seeds and bean entries are filling fast. The bean competition will be the keenest ever held in Ontario. Large entries of small seeds are coming in from the east.

The Poultry fanciers are well represented. Entries cover the utility as well as many of the other breeds.

The Corn Entries are being held open until Jan. 15th in order to cover the Essex Corn Show.

The opportunity to study type in livestock and to see something of the commercial requirements in swine and sheep will be excellent. The carcass classes are well filled.

The sale of pure bred beef cattle and hogs will be held in the arena, Jan. 25th at 1 p.m.

The Show has been arranged for the people of southwestern Ontario because only a small percentage of the people can attend the larger shows.

TURNING THE SPOT LIGHT ON SOUTHERN TOWNS

Judging from reports floating around town, it's high time that our police force exercised a more rigid supervision of the night life of this town.—Amherstburg Echo.

"We have been asked by citizens why drunken men are seen on our streets and no notice taken of them by those who are supposed to enforce the law."—Kingsville Reporter.

VETERAN TELEPHONE MAN RETIRES FROM SERVICE

Petrolia, Jan. 7.—The retirement of W. G. Fraser from the local management of the Bell Telephone Company, removes from the service of the company one of its oldest employees. Mr. Fraser assumed the management of this district in 1882, and under his direction the branch has forged ahead until it is one of the most important branches in Western Ontario.

Mr. Fraser receives a pension from the United States government for the part he played in the American Civil War. He is 83 years of age.

COLONEL OMAR MACKLEM APPREHENDED IN WALL ST. FOR HAMILTON POLICE

New York, Jan. 7.—Charged with being a fugitive from Hamilton, Ont., Omar Macklem, aged 40, who says he was a colonel in the Canadian overseas forces, was arrested today in an office building at Wall street and Broadway.

A description with instructions that Col. Macklem was wanted on a warrant charging larceny of \$2,500 and attempt to defraud, was received here four months ago. Detective Mintern learned that Col. Macklem was a stock salesman in a Broadway office.

Macklem said he had lost his left eye and part of his nose in France.

No doubt there are several in Watford who will recall that Col. Macklem spent the summer of 1914 in Watford and vicinity as a stock and real estate salesman. His home is in Tilbury.

LINGERIE OR LINGURRY

A Frenchy word is "Lingerie," I saw it first in print.

The pictures all about it of its meaning give a hint.

"A Sale of Dainty Lingerries," the mammoth store announced.

But nothing there suggested how the word should be pronounced.

I asked the lift-girl. The question seemed to pose;

I spelled it out, and then she said, "why, 'lin-gur-ry,' I s'pose."

I asked the fair saleslady if she knew the proper way;

She tossed her head, and said with scorn, "We call it lan-zer-ray!"

I asked the buyer, just returned from lands across the sea;

He answered: "Well, in Paris, they pronounce it lan-zhay-ree."

Then I approached a customer of birth and education.

And asked her what the word was called by people of her station.

She said: "With those who visit me and those on whom I call,

It's not considered quite the thing to mention it at all."

Corns are painful growths. Holloway's Corn Remover will remove them.

Hot Slugs From Our Linotype

The reckless driver is never late—at his funeral.

"A hotel," explains friend Canteleon "is the place where men kick about things they are afraid to kick about at home."

It often happens that the chip a man carries on his shoulder fell from his head.

One good turn deserves another, but "Neff" McCormick adds that it won't start the flivver on a cold morning.

A MAN SMOKES TO QUIET HIS NERVES—A WOMAN POWDERS HER NOSE.

PROVINCIAL ROAD SUPERINTENDENT HONORED

On Thursday evening, Jan. 3rd, about seventy of the friends of Mr. Isaac McCarley and family gathered at the home of Mr. and Mrs. R. E. McGillicuddy and presented Mr. McCarley with a beautiful leather rocker and Roy McCarley with gold cuff links, studs, knife and chain, accompanied by the following address: To Mr. McCarley and Roy,— Dear Friends:

"We who have associated with you during a part of the year in the construction of the Provincial Highway have met tonight to express our appreciation of you as manager of our part of the work. We have always found you impartial in your dealings with us and thank you for your patience and consideration in so many ways."

"Now that the work is finished and you are leaving for your home we would ask you to accept these presents as a remembrance of your stay in our community. We assure you, you have made many friends in Warwick who join in wishing your family a safe return home and a Happy and Prosperous New Year."

Signed on behalf of the "Gang" Harvey Leggate, Frank Hall, Harold Auld.

Mrs. McCarley thought taken completely by surprise, thanked his friends for the beautiful presents and also for the many acts of kindness shown him and his family during their stay in Warwick and assured them that they would always hold a very warm place in the hearts of the McCarley family. Short speeches were delivered by several present, all speaking in the highest regard for the family and Mr. McCarley for his efficient work. After this all joined in eulchre and dancing, music being furnished by Messrs. Hall, Minieley, McGillicuddy and Evans Bros. The McCarley family left for their home at Kempville, Prescott county, the following day.

Mrs. Luckham and daughter Lorna, left yesterday morning for St. Petersburg, Florida, where they will spend the winter. Mrs. Luckham's sisters, Mrs. Anderson and Miss Martyn of Alvinston, accompanied them.—Glencoe Transcript.

WARWICK

Mr. and Mrs. Clarence Leach and babe of Windsor, Mr. H. D. Leach also of Windsor, and Mr. and Mrs. E. Y. MacKenzie of London, who have been holiday visitors at the home of their parents, Mr. and Mrs. Thomas Leach, 6th line, have returned to their respective homes.

The 13th annual business meeting of the Maple Grove Beef Association was held on Jan. 2nd in the home of Mr. Robt. Hall, which was kindly loaned for the occasion, and was largely attended. The interest and enthusiasm of the annual meetings might be taken to indicate the strong position the organization holds in the community. During the past season 19335 1/4 pounds of meat was distributed among the fifty-nine members, an average weight of 483 3-8 pounds per beef. Officers elected for the year are: president, Dan Thompson; vice-president, H. Curts; secretary, M. D. Campbell; auditors, J. Brandon and J. Campbell; man. com., J. Cates, E. White and J. Kernohan, butcher, G. Ladell. The season's business to begin March 13th, John Cable supplying the first animal. A hearty vote of thanks was tendered to Mr. and Mrs. Hall for the use of their house and also to the retiring president, Mr. David Auld, who has filled the position so efficiently for the past seven years.

Mrs. Earl Munsell of Flint, Mich., returned to her home on Friday after spending a week with her aunt, Mrs. Robert Fleming, 4th line.

Miss Sarah Vance who has been home for several months on account of ill health returned to Toronto last week.

Grant Janes, medical student, London, was home for the holidays.

Muriel Doan, Belmont, was a guest at the home of her aunt, Mrs. Geo. Brent, 12 sideroad.

Lee Smith, son of Mr. and Mrs. C. E. Smith, who spent the holidays at his old home here, returned to London this week to resume his studies at the medical college.

Fred Kenzie, London, was with his parents for the holidays.

Mr. and Mrs. B. B. Young, Miss Ione Scott and Mr. G. Cowan, all of Detroit, were weekend visitors at the home of Mr. and Mrs. W. H. Luckham, making the trip by motor.

Mrs. Young is a sister of the latter and Miss Scott a niece. Mr. Young has been offered a lucrative position as manager of service salesmen in Colorado for the Dodge Motor Co., and expects to leave shortly for his new headquarters. Mrs. Young and Miss Scott, who is assistant bookkeeper for the Dodge Co., Detroit, to follow later, the latter to take a similar position with the new firm.

Mrs. W. H. Luckham received word on Saturday of the death of her uncle, Col. J. E. Farewell, of Whitby, the oldest Crown Attorney in the province. Although in his 84th year, he was hale and hearty, practicing his profession and busy in all the activities of life, when he met with an automobile accident two months ago, in which his chest was badly crushed. He rallied for a time, but a few days ago his condition became serious, when he was moved to Oshawa Hospital from his home in Whitby.

Mrs. Wm. Barber, a former resident of 15 sideroad, fourth line, Warwick, died at the home of her son, Frank Barber, near Sault Ste Marie, Ont., on Wednesday, Dec. 5, in her 89th year. Her husband predeceased her eight years ago. She is survived by five sons and three daughters, namely, Frank and John, Sault Ste Marie, Joseph, Inwood; James, Buffalo; George, Desbarats; Mrs. R. Manders, Warwick; Mrs. McLellan, Desbarats.

Newbury's original grist mill, one of the oldest landmarks of the village, is being torn down and removed. The mill was erected about the time the Great Western Railway was built, when the only highways were bush trails and corduroy roads. In later years the building was converted into a canning factory, an industry which existed for a short time only.

Mr. and Mrs. Leo Winter, Strathroy, held an old-time Christmas reunion, when the brothers and sisters, with their families, of both Mr. and Mrs. Winter, numbering about forty were hospitably entertained to a beautiful Yuletide dinner and supper. It is interesting to note that the two "grandpas" were able to attend and enjoy it all—Mr. William Winter and Mr. Thomas Warren, both old pioneers of Metcalfe.

OBITUARY

JOSEPH LOUCKS

Aylmer, Jan. 8—Joseph Loucks, a resident of Malahide Township, died at his home about a mile east of Aylmer on January 5th, in his 75th year. Mr. Loucks had been ill for the past two months.

DEATH OF MARY MCINTYRE

One of the oldest of the pioneers of the Township of Brooke passed away on Sunday morning, in the person of Mary McLachlan, relict of the late Nichol McIntyre, who died at the family homestead on the 11th concession in her 92nd year.

The death occurred on Saturday, Dec. 8th, 1923, at the family residence, Merid, Sask., of Mary Elizabeth Morgan, beloved wife of James A. Morgan, in her 45th year.

MRS. JAMES A. MORGAN

The pallbearers were Duncan McLachlan, Alex. MacLachlan, Nevin McVicar, Wm. Dolbear, Wm. Annett, L. MacLean.

Children Cry FOR FLETCHER'S CASTORIA

CHOP STUFF

Thomas Minshall, son of Mr. Josh Minshall of Howard, met with a painful injury on Monday. He was assisting in decorating the school for the Christmas concert when the ladder upon which he was standing, fell, throwing him to the floor. He sustained a fracture of the left arm and minor injuries to his back.

The barns of George Wilson, a farmer living in the first range north of the Longwood road, about two miles from Newbury, were burned to the ground, with their contents, early Thursday. Mr. Wilson, for some time an invalid, was away with Mrs. Wilson at the time of the fire, for treatment in a London hospital.

Mr. Robert Kelly, an aged resident of Wabash, is at present an inmate of the Brantford hospital. He left a few days ago to visit his son, Fred Kelly, in Brantford, and is thought to have either fallen or jumped off the train before it stopped. His injuries are not very serious, being cut in a few places about the face.

The death took place on Christmas Day of one of the old residents of Bosanquet and Forest, in the person of Rebecca Macken, beloved wife of John Macken, in her 77th year. Death was resultant from injuries received from a fall the week previous. The funeral was held Thursday afternoon, interment in Beechwood cemetery.

Strathroy lost one of its best known citizens in the death of Alexander McKellar, Sr. He was in his 80th year, and is survived by his widow, Mrs. Isabelle Taylor McKellar, who was a daughter of the late Rev. Jas. Taylor, for many years Presbyterian minister at Lucknow, and two sisters, Mrs. Donald Callum of Sarnia and Mrs. McAlpin of Nassagaweya, Ont.

A sentence of not less than one year and not more than eighteen months in the Ontario reformatory was imposed on Maurice D. Pendergast, president of the former Pendergast Fence Co., by Judge Taylor in the county court, Sarnia. Before locating in Sarnia the Pendergast Fence Co., seriously considered locating in Petrolia.

Allen Maidens, 1st concession, Mersea, purchased last week a 22-acre farm from Fraser & Ross, including large greenhouses on the 1st concession. The price it is understood, was around \$40,000. Eljah Maidens has purchased A. E. Eastman's 15 acre and green house on the Fraser Side-road, Mersea, for \$15,000. Geo. Ross 1st con., has purchased 16 acres adjoining Allen Maidens on the 1st con. from H. Wigle.

A sudden death occurred on Saturday morning, when William Minielly was found in his bed unconscious. His wife went to call him and hearing him breathing heavily hastened into his room, but it was too late for medical assistance. Mr. Minielly had gone to London the day previous to have his eyes treated. He had been suffering with an eye disease since an attack of flu some years ago. As the eye was discharging, it is thought the brain became infected. He lived on lot 20, concession 4, Plympton, from where the funeral was held.

A fire in the meat market of William Lee, at Essex, Saturday, which caused damage of about \$1,500, is suspected to be of an incendiary nature. The fire was discovered by Truman Dalton, who saw the smoke pouring out of a transom. The fire was located in the ice chest of the refrigerator, where firemen discovered a basket of waste paper, partially burned, and on top of this a packing box. According to Mr. Lee the basket of waste paper had been thrown out the previous day and the packing box was used as a step to the icebox from the rear of the building.

His many friends will regret to learn of the death at his home in Santa Maria, California, on Thursday Dec. 6th, of Arch. McNeil. Mr. McNeil had been a sufferer for some time with heart trouble. He was born in the township of Moss and was at one time in the milling business at Napier, removing to California a number of years ago, where he was engaged in the same business. He held many prominent positions in Santa Maria, and was president of the National Bank at the time of his death. He leaves besides his wife a family of three daughters and one son, all of Santa Maria, also two sisters, Mrs. Janet McIntyre of Alvington and Mrs. Mary Munroe of Killmartin.

New Lamp Burns 94 Percent. Air

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazing brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without order, smoke or noise—no pumping up, its simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, F. N. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month. d-m1

TREAT ALFALFA SEED

Nitro Culture Inoculation Will Give Good Results.

When to Apply the Culture—What It Means to a Crop—Sowing Alfalfa Alone in July—How to Kill Field Bindweed.

(Contributed by Ontario Department of Agriculture, Toronto.)

To get the best returns from the alfalfa crop the alfalfa seed should be inoculated a few hours before sowing with the alfalfa nitro culture. When inoculated seed is sown the bacteria which constitute the culture are in position to enter the young roots of the alfalfa as they develop. On entering the roots the bacteria multiply and produce the characteristic nodules (little swellings) on the roots. The action of the bacteria when growing in the roots is to enable the plant to utilize the atmospheric nitrogen as a source of food supply. No plants other than the legumes, (i.e., alfalfa, clovers, peas and beans) can do this, and those plants cannot do it without the light bacteria being present in the roots. Different species of bacteria are necessary for the different species of legumes.

What the Culture Means to a Crop.—Inoculation of alfalfa seed often means the difference between a good, vigorous, growthy crop and a poor, spindly light crop. Alfalfa nitro culture (price 50c.) may be obtained on application to the Bacteriological Department of the Ontario Agricultural College, Guelph.

Extract from a letter received from C. R. Worthington, Comox, British Columbia: "The inoculated portion of my alfalfa crop has flourished exceedingly and is making most luxuriant growth, entirely crowding out the weeds, and showing a splendid color. The uninoculated portion has almost entirely died out, and the few plants left were small and very pale. In fact, I have now ploughed them up. I may say that about the time I sowed mine a good many neighbors did the same, but they did not inoculate. Their plots this spring, without exception, are a pitiful spectacle—weeds with a few sickly alfalfa plants left."

Sowing Alfalfa Alone on Summer Fallow in July.—In experiments conducted at the Agricultural College at Guelph, it has been found that excellent results have been obtained from sowing alfalfa alone on a summer fallow in the month of July. When sown at that time on a moist soil, germination is rapid, and the plants are enabled to make a good growth before winter. There is not apt to be a prolonged drought after July. By this method, weeds are unable to produce seed in the autumn and the alfalfa has an excellent opportunity to get well established.—D. H. Jones, O. A. College, Guelph.

How to Kill Bindweed.—Get on the field just as soon as the land is dry enough to permit of cultivation. Do not give the bindweed a chance to make any early spring growth. If the field is in sod, plow shallow. If the land was plowed last fall it will not be necessary to plow again this spring. Cultivate every week or ten days with a cultivator with broad points, that will cut all the plants off an inch or two below the ground without bringing the creeping root-stalks to the surface. Continue cultivation until the 24th of May or 1st of June. Then plant corn in hills 42 inches apart each way so that it can be cultivated both ways. As soon as the corn is up, cultivate it with a corn cultivator at least every two weeks, oftener if possible. Just as soon as the corn is cut plow out the stalks and cultivate every ten days or two weeks with the broad-shared cultivator. It is very important to cultivate again as soon after the corn is cut as possible, so that the bindweed will not have a chance to get started into growth.

The last thing in the fall rip up the land into drills, and allow to stand over winter. The frost will probably will render material assistance in the eradication. The following spring start cultivation with the broad-shared cultivator as soon as you can get on the land. Repeat frequently enough to prevent the bindweed making any growth above the ground, until the first or middle of June. Then sow pasture rape (Dwarf Essex variety) or turnips, in drills 26 to 30 inches apart, at the rate of about 1 1/2 pounds per acre. As soon as the crop is up, cultivate every week or ten days until it occupies all the ground and makes further cultivation impossible. If the bindweed should get started in the rows, hoe it out as completely as possible. This, however, should not be necessary if the previous cultivation has been frequent and thorough. This plan requires two years to complete, but it is worth doing.—J. E. Howitt, O. A. College, Guelph.

THINNING ORCHARD FRUITS.

Specific Advice As to How This Work May Be Best Done.

Apples, pears, plums and peaches can all be thinned to advantage when the crop is heavy. Some growers might question the advisability of thinning plums, and there are seasons, of course, when the price of this fruit is so low that obviously thinning would not pay. Such seasons, however, cannot be forecasted, and it would seem wise, therefore, to take the chance and thin the fruit if the set is very heavy.

In thinning apples, do the work when the young fruits are about the size of walnuts. Generally leave only one fruit to a spur and spaced about 4 to 6 inches apart. All fruits will be removed from some spurs. All of the fruits on the underside of the branch can usually be removed to advantage. Remove all injured fruits, leaving only perfect specimens. Pears should be thinned about the same as apples. The inclination of the average worker will be to leave twice as much fruit as is advisable. See that sufficient is removed.

Line-Breeding.

Line-breeding consists in following a single line down, breeding a sire or dam to the progeny and such closely related individuals as brother and sister and cousins. It is in-breeding along a certain line. The objections to it are that it intensifies any defects in the blood of the family

that is inbred. The value of it is that it intensifies any good traits also. If, by selection, the bad traits can be minimized, while the good are perpetuated and made more prominent, line, or inbreeding, is a valuable means of improvement. If proper selections are not made, however, the bad that always wants to crop out in breeding will get the upper hand and spoil the progeny of line-bred animals. Line-breeding is practised by skillful breeders, and is one of the chief means of securing improvement in a flock or herd.

More farm machinery is put on the junk pile by neglect than by use.

GROWING ASPARAGUS

A Vegetable That Grows More In Favor Every Year.

The Best Varieties—Make Careful Selection—Sow Generously—Soil and Manuring—Thinning Orchard Fruits is Worth While.

(Contributed by Ontario Department of Agriculture, Toronto.)

Many inquiries have been received with reference to the culture of asparagus. The following paragraphs answer briefly the questions usually asked. Further information will gladly be given on request.

Varieties.—Reading Giant, Palmetto, Giant Argenteuil are commonly grown good varieties. Washington and Mary Washington have recently come into prominence, partly on account of vigor but more for their comparative resistance to rust. Comparing the two, Washington is the more rust resistance and Mary Washington the more vigorous. The percentage of both is very similar, and the varieties themselves represent many years of careful breeding and selection not only for vigor and rust resistance but also for other qualities necessary in a commercial asparagus.

Selection of Plants.—Careful selection of plants is probably of greater importance even than variety. There is considerable variation in plants within any one variety as to vigor, productiveness, etc. An asparagus bed should last fifteen years at least so that even a small percentage of inferior plants would mean a considerable loss in returns. Fifty per cent. of the plants is not too many to discard at planting time. Use only the crowns or plants which have thick, vigorous roots and show a few large buds in a single cluster. Discard all that have thin, weak roots and many small buds. Such crowns are apt to make a large number of small shoots.

Be Generous in Seeding.—If possible grow your own plants from seed and grow plenty of plants so that you can discard freely as noted. One year old plants are preferable to two year old. 7,250 plants are required to set an acre planted 4 feet x 18 inches. Many growers prefer a wider distance of planting. Allowing for fair germination of seed and rigid selection of roots, from 1 to 1 1/2 pounds of seed should give the above number of plants. Sow thinly, in rows 30 inches to 36 inches apart, in rich well-prepared soil as early in the spring as the soil can be easily worked.

Soil and Manuring.—A rich well-drained deep sandy loam is best suited to asparagus. Heavy applications of manure supplemented with commercial fertilizers are required to secure maximum yields. In planting, the young plants are set in deep furrows so that the crowns are 8 inches below the surface. A little soil is covered over the plants at first. Subsequent cultivations will level the surface. No shoots should be taken off a young patch until the third season and care should be observed every season that plants are not exhausted by too late cutting.—O. J. Robb, Hort. Ex. Station, Vineland Station.

GIVE A VICTROLA DANCE

How easy it is to arrange! No trouble and expense of getting an orchestra. The Victrola brings you bands, orchestras and trios famous for their dance music. Just as enjoyable, too, as if you had hired them yourself.

And what dance numbers! The most up-to-the-minute "jazz" music, snappy one-steps, alluring fox trots, lovely, dreamy waltzes. Music that makes dancing irresistible.

If you do not have a Victrola come in and let us help you make a selection. We have all the latest "His Master's Voice" Records.

New Year's is a good time to invest in a Victrola for the home. We can give you any model you prefer and at the lowest prices.

WEAK, RUN DOWN AND AILING

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Port Mann, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run-down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines, but nothing did me any real good. While I was living in Washington I was recommended by a stranger to take Lydia E. Pinkham's Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."—Mrs. J. C. GREAVES, Port Mann, B. C.

Feels New Life and Strength
Keene, N. H.—"I was weak and run-down and had backache and all sorts of troubles which women have. I found great relief when taking Lydia E. Pinkham's Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am able to do my work and feel new life and strength from the Vegetable Compound. I am doing all I can to advertise it."—Mrs. A. F. HAMMOND, 72 Carpenter Street, Keene, N. H.
Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound.

Rub it in for Lame Back.—A brick rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Slats' Diary

By Ross Farquhar

Thursday—They are 2 girls got to xplane sum thing to me when I get a chance to ast them about it. They keep looking at me all the p.m. & I cudent tell weather they was admiring me or slandering me behind my face.

Friday—well they was a big party at are house tonite and ever since it was gave they are a mistery witch ma has ben a trying to figger out so she ast pa if he new why 2 certain yunk ladys went home so unxpected and she finely found out the matter. It seems at they was 2 girls and pa was a tawking to them in a lite vain and for lack of haveing nothing better to say he told them they was the very pictures of each another. And since that they both got mad at pa and wont speak to him. Nor to each another.

Saturday—Ant Emmy says they has ben a grate change cum over the modern girls of the present day of ages. She sed girls use to use dum Bells to get Rosy cheeks. But nowadays the girls uses rosy cheeks to get dum bells.

Sunday—Are little happy famly went to church to day accompanied by me also and I gess ma must of enjoyed the simon a lots moren common because she set all threw the simon and never ast pa what time it was.

Monday—I see that pa has discovered the proper way to get in the last wurd when he has a argument with ma. Tonite they was discusting on weather he shud give her the money to by her a new hat and finely

he up and says. All rite demit I will. And ma shuts rite up and kep still from then on. For quite a wile.

Tuesday—Well I have learnt my lesson never to tell a girl a secret. I went and told Elsy what I had got Jane for a Crismas present & cum to find out adne had new all about it before I give it to her. I have come to the conclusion that the only secret a girl can keep to herself is about sumthing she dont no nothing about.

Wednesday—The teacher has enformed us that are histry lesson tomorro will be a easy 1. Just have to give all the mane dates of the Revolution. Easy like fun. About as easy as putting a needle threw the Eye of a Camel.

Thursday—Ant Emmy cant hardly treat me and pa desent just because she is a unmarried ole made I gess and has just xacky no use a tall for members of the muscular Genders.

HEADACHES FOR WEEKS

They Soon Disappeared After Using Dr. Williams' Pink Pills

Every woman, at times, finds the routine of housework irksome. But how much more difficult are the daily tasks of the home to the woman who is nervous and run-down? She prepares meals for the family, but has no appetite for food. What she does eat distresses her, headaches and dizziness follow, there is a fluttering of the heart, and the complexion becomes pale. In cases of debility of this kind building up the blood is generally effective. By improving the quality of the blood and increasing its quantity, nourishment is carried to the shattered nerves. The appetite invariably improves and gradually the whole outlook of life is brightened. Mrs. Geo. Grant, R.R. No. 1, Markdale, Ont; tells for the benefit of others the great benefit Dr. Williams' Pink Pills were to her in a run down condition. She says, "If anyone can strongly recommend Dr. Williams' Pink Pills I feel I can. For over four years I had been troubled with my nerves, and for weeks at a time I would suffer terribly with headaches. My blood was very thin, I had no appetite, could hardly go about. I was afraid to stay alone in the house so I feared something would happen me. Finally I decided to try Dr. Williams' Pink Pills and they have made me a new woman, as I am now the picture of health. I have increased in weight, the headaches come no more, and my nerves are as good as ever they were. Before I began taking Dr. Williams' Pink Pills life was a burden; now I enjoy living, and I hope some other woman will take courage from my experience, for I feel sure that what this medicine did for me it can do for others."

You can get these Pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co; Brockville, Ont.

NEPTUNE TO VISIT WORLD CRUISERS

CANADIAN PACIFIC

PROCLAMATION

By the Hon. the Minister of Marine and Fisheries

Whereas the Hon. the Minister of Marine and Fisheries has deemed it expedient to issue the following Proclamation:

That the Hon. the Minister of Marine and Fisheries do hereby proclaim that the Hon. the Minister of Marine and Fisheries has deemed it expedient to issue the following Proclamation:

That the Hon. the Minister of Marine and Fisheries do hereby proclaim that the Hon. the Minister of Marine and Fisheries has deemed it expedient to issue the following Proclamation:

The certificate as shown above will be issued to all passengers aboard the Empress of Canada who appear before Neptune, as did those passengers on the Empress of France last year, who are shown in pictures 2 and 3.

When to travel upon the sea was to venture in great danger it was usually thought wise by the voyagers to propitiate the god of the waters by making gifts to him before setting sail, and oftentimes, when Neptune displayed his wrath at sea, human sacrifices were made to him. To our superstitious ancestors the son of Saturn and Ops had great power over the waves, especially those of the sea, and had, therefore, in his hands the welfare of all vessels and their human and other freight. The worship of Neptune was early introduced into Rome, and July 23rd, "Neptunalia," was his feast.

As science reduced the terrors of the sea, and education and higher civilization erased the sometimes terrible superstitions from the minds of the world, so the worship of and sacrifices to Neptune ceased, but even to this day he is venerated by many Latin and Scandinavian sailors and no ship crosses the equator without some recognition being made of him. Usually this takes the form of a burlesque performance in which those who are making their first "crossing of the line" are initiated into

the mysteries of the deep. The unique photograph reproduced above was taken aboard the Canadian Pacific "Empress of France" while on a "Round the World" cruise last year. Neptune boarded the great liner in the early morning of the day on which the "line" was crossed, and held court. He was attended by the Royal Barber and other high officials who assisted in the initiation ceremony. Most of the passengers were summoned to his august presence and were tried for their misdemeanour, punishment or praise being awarded without favor. Those who produced evidence of having been "initiated" before were, of course, exempt from trial.

This year, when Neptune boards the Empress of Canada, which leaves New York on a Round the World cruise on January 30th, his secretary will issue to all those who pass before the God of the Waters, certificates to that effect, which will be countersigned by Captain S. Robinson, R.N.R., who commands the vessel, and which, besides being valuable souvenirs of the trip, will exempt the holder from further trial.

The New Ford Touring Car

For the motorist who requires a good-looking car of unusual serviceability, the new Ford Touring Car is a splendid investment.

To the sturdiness and endurance for which the Ford is universally famous have been added new features which materially enhance the appearance of the car and add to the comfort of the passengers.

The new radiator is higher, giving greater cooling efficiency—the hood and cowl are larger affording increased legroom, and the steering-post is braced for easier driving. With roomy accommodations for five passengers, the new Ford Touring Car is undoubtedly the most practical general utility car on the market.

The New Runabout

The new Ford Runabout is as smart and businesslike a car as you will find on the road today. The new arrangement of the rear deck gives abundant storage capacity, allowing a considerable load to be carried in its lock-tight compartment.

This is the logical car for those who require a good looking, sturdy and economical car at the lowest possible cost.

New Ford Prices

Touring Car, \$445 Runabout, \$405 Truck, \$495
Electric Starting and Lighting Equipment \$85.00 extra.

Coupe, \$665 Fordor Sedan, \$895
Electric Starting and Lighting Equipment Standard on these models.

All prices f. o. b. Ford, Ontario. Government Taxes extra.

All Ford models can be obtained through the Ford Weekly Purchase Plan

In Lambton the average yield of sugar beets this season will range from 17 tons per acre, testing from 13 to 17 per cent. sugar.

Alfred F. Brock and Mrs. Gertrude Orr have been appointed auditors of Strathroy at a salary of \$100 each. They will make a monthly audit.

Mrs. Edward Zavitz, who has been poorly for some time, passed peacefully away on Monday evening in her 80th year. The deceased had lived in Strathroy for about fifty years, coming with her husband and family from the township of Lobo. She leaves two sons—James Berton, of Winnipeg, Man.; and Elmon, of Caradoc township. The funeral, which was private, took place Friday afternoon from her late residence, Thomas street, to Strathroy cemetery, the services were conducted by her pastor, Rev. A. B. Vincent, of the Baptist church, of which she had long been a member.

Why does steam run an engine?

—because steam is water vapor, expanding under heat. Trying to escape from the cylinder, it pushes outward with mighty power and moves the piston. Many take

Puretest Aspirin Tablets

to escape from that stuffed-up feeling which comes with a cold. Absolutely true aspirin, tablets so skillfully made that their beneficial action begins in 15 seconds. Snow-white, highest purity, never irritate or burn.

One of 200 Puretest preparations for health and hygiene. Every item the best that skill and conscience can produce.

Why is an echo?

—because the surroundings are so shaped that sound waves strike a surface which reflects them back to the sender. Our indorsement of

Puretest Mineral Oil

RUSSIAN TYPE is daily echoed by customers who keep coming back for more.

Puretest Mineral Oil is complete and thorough in its intestinal lubricating properties. Tasteless, odorless, non-irritating. Excellent for constipation.

One of 200 Puretest preparations for health and hygiene. Every item the best that skill and conscience can produce.
