ANNUAL SESSION MUNICIPAL COUNCIL

The Official Minutes as Recorded by the Clerk. The Semi-Annual Meeting Will be Discontinued. The County Home and Hospital will be Properly Lighted. Other Matters of Interest.

The Municipal Council of the Municipality of Annapolis met in Annual Session at the Court House, Annapolis Royal, on Tuesday, January 13th A. D. 1920, at 10.00 A. M. The ballot boxes having been opened and the returns of the Presiding Officers having been examined, it was found that the Councillors elected for the Municipality of Annapolis for the ensuing term of three years were as follows:

Ward No. 1, A. P. Bowly.
Ward No. 2, Frank A. Balsor.
Ward No. 3, Fred W. Bishop.
Ward No. 4, Joseph I. Foster.
Ward No. 5, LeBarron Troop.
Ward No. 6, Capt. J. Norman Berry.

Ward No. 7, Ansel Casey.
Ward No. 8, Elias Rawding.
Ward No. 9, W. G. Clarke.
Ward No. 10, W. A. Marshall.
Ward No. 11, C. L. Piggott.
Ward No. 12, Hovey Gates.
Ward No. 13, J. C. Grimm.
Ward No. 14, A. D. Thomas.
Ward No. 15, Myers Gibson.
Ward No. 16, Leslie Armstrong.

The oath of allegiance and oath of office was then administered to the Councillors.

On motion W. G. Clarke was elected Warden. Warden Clarke on taking the chair addressed the Council as follows:

THE WARDEN'S SPEECH
To the Members of the Municipal Council of the Municipality of Annapolis.

GENTLEMEN: I wish to express my appreciation of the honor you have conferred in electing me your presiding officer during the life of this Council. This mark of confidence is the more gratifying as it comes largely from men with whom I have been associated for a long period in Municipal work and while I am conscious of my limitations, it shall be my endeavor to discharge the duties of the office to which you have elected me, to the best of my ability.

While we have three forms of Government in Canada, the Federal, Provincial and Municipal, the latter due to the shorter term of office and the nature and scope of its powers, as defined by the Municipal Act, is that form with which our people come into intimate association. The Municipal Councillor should represent the best and highest ideals of that community which elects him as their representative and I think I am only stating a truism when I state that the ability to serve is the only valid excuse any man can offer for being in public life. It is a legitimate expectation on the part of our Constituents that the Councillor shall take a foremost part in all matters that concern the social and material welfare of the community. He represents and in this personal intercourse with those who have placed him as the custodian of their Municipal interests, to demonstrate that "service is the highest form of patriotism."

We are now passing through the aftermath of the Great European War which has produced and is producing conditions never before known in this Country. The Public Debt of Canada is approximately two billions, due to obligations voluntarily assumed by Canada, as an integral part of the British Empire. This means a per capita indebtedness of \$250.00 for every man, woman and child in Nova Scotia and I need not point out that the carrying charges for this huge sum must be met by the people of Canada with the same cheerfulness and alacrity with which they took their place on the opening of hostilities, beside the Mother Country in defense of all Britons hold sacred.

The High Cost of Living with which I am sure we are all familiar, and whose causes and cure have occasioned the wasting of so much good news print, is still with us and will remain for an indefinite period, it being the natural consequence of present conditions. The profiteer, and he is certainly with us, has come in for his full share of execration. The workman, who on account of the scarcity of labor was able to secure greatly increased remuneration and shorter hours, is in the same class with the employer, who taking advantage of existing shortage extorts undue profits on his manufactures. Wheat and sugar, and all the vital necessities of living, are mounting skyward and no relief apparently in sight. With costly raw materials due to greatly enhanced production costs

there cannot be cheap products. The duty of the hour, it seems to me, is that this Council individually and collectively urge upon our people the necessity for living in the most economical manner, working for the next five years as never before, husbanding their resources, doubling their production so that when supply overtakes demand and the excess regulates the price, as it inevitably will then ensue, the people of this Municipality will be found ready for any change in conditions which may then develop, am not a pessimist, but history repeats itself, and there are times of stress ahead, for which we do well to be prepared. To this end let us give the most careful attention to all Municipal expenditures, see that all necessary services are efficiently carried on but let our motto be "sufficient without waste."

Among the more important matters which will come before this session are, Measures for the protection of the public health, the proposal to erect a Memorial Hospital in honor of our men who gave their lives for King and Country, the matter of increased funds for Highways with other matters of lesser importance. The year has been one of plenty, with bumper crops and good prices. The farmer is reaping a fair reward for his labor, and is beginning to receive that recognition to which he was always entitled but did not always receive. His labor period is neither an eight hour day or a four-four hour week and farm produce today compared with the produce of other manufacturers have advanced less in price than the average of other commodities in the past five years.

Enhanced values in all commodities used in our Public Institutions have so increased the per capita cost of maintenance that a readjustment of prices for outside patients is overdue and will I assume receive the attention of the Committee in charge.

I trust the present Session may be one of harmony and hard work, and that lasting benefits may accrue to the people of this Municipality as the result of our efforts.

Yours very truly,

W. G. CLARKE

FORWARD MOVEMENT MEETINGS IN BRIDGETOWN

To-morrow (Thursday) a series of Group Conferences will be held in St. James Church Schoolroom in connection with the "Forward Movement" commencing at 2.30 p.m.

Representatives are expected from the neighbouring parishes and in order to enable those attending from Round Hill and Annapolis to catch the "Owl" train the evening session will begin at 7.15. Owing to the small congregations on account of the storms last Sunday, parishioners are asked to take this notice as a pressing invitation to attend the conference. There will be two sessions 2.30 and 7.15 p.m.

A VALUABLE GIFT

The Women's Institute one of Bridgetown's live organizations, the officers and members of which are enthusiastic workers for the good of the entire community, has presented and had installed in the main hall of the public school building a sanitary drinking fountain for the use of teachers and scholars, a gift which will be greatly appreciated not only by those who use it, but by the general public, for it is certainly a valuable acquisition to the school property.

TO-DAY

in medicines, as in every other necessity, the public is satisfied with nothing but the best. This explains the ever-increasing demand for Zam-Buk. Not only is this great claim the best household remedy to-day, but it is also the most economical.
Zam-Buk's superiority is due to the fact that it is all medicine, containing none of the coarse animal fats or harsh mineral drugs found in ordinary ointments. Again, the medicinal properties are so highly concentrated that they contain the maximum amount of healing, soothing and antiseptic power, so that a little of this balm goes a long way.

OUR NATIONAL ECONOMIC PROBLEM.

The following interesting extract from an article by Mr. E. W. Beatty, president of the C. P. R. appeared recently in the Montreal Gazette:—"So much for the manner in which the transportation machinery of the country is carrying out its obligations to the Canadian producer. Other aspects of the transportation problem are less satisfactory. There are many people who look upon Canadian railways as custodians of magic fortunes which are unthinkingly handed out. That bookkeeping should be as simple and inexorable in its tale of losses and vanished profits to a railway as it may be to a corner grocer, is to these people an unthinkable thing. It is not necessary to them that the public pay a very low rate for the quality of service rendered, and that a time is rapidly approaching when, if Canadian railway securities are not to be made as desirable to investors as almost any other kind of industrial security, railway rates will either have to go up or railway operating costs go down. Such persons recognize that it is not because the situation of the railways is an easy one that certain companies have been able to show net earnings—very low net earnings compared to the actual cash invested in the industry—apparently in the past the shareholders of such companies have been, as they are to-day, courageous persons willing to supply the means for constructive enterprises in which no one but themselves had faith, and because, too, their officers have been skilled, resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work. This indeed is the thing which has made it possible for Canada's railroads to function successfully during the war without making a sign roads—less efficient in serving their community, yet earning the same rates and paying the same wages—have made up their public exchequers. I do not believe that this strain upon the railways and this tendency to weaken the general reputation of Canadian Railway securities should continue. The servant, after all, is worthy of his hire, and railway capital is not less worthy a servant than other forms of capital whose earnings have not been so consistently depressed.
"The net earnings during the war years of those companies which showed net earnings, and which have been much lower had the Canadian railroads been making expenditures for maintenance which circumstances would have justified, but which conditions prevented during that period. These arrears have now to be made up. During 1919 the Canadian Pacific laid 70,000 tons of steel rail. In place of, say, 2,000,000 tons, worth \$40 in 1914, the Canadian Pacific laid 4,434,000 tons at 85c per ton. The sensational advance in the rate of railway wages is well known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$3.00 in 1913. Now it is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$1.604 in 1913 to \$2.494 in 1918. It is higher to-day. The operating expenses of one mile of line in 1915 were \$4,152; in 1918, \$7,046, and to-day they are even greater. On the other hand, railway rates, taking all classes of revenue together, have advanced scarcely 25 per cent. I venture to say no other industry in the Dominion can show such moderation."

Marine News

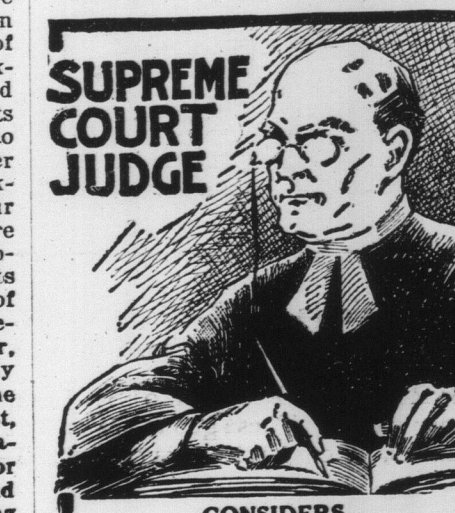

Capt. John R. Smith who arrived three weeks ago to spend a vacation with his mother in Plympton, Digby Co., and other points, returned to Yarmouth Tuesday afternoon to take passage by the North Land for Boston.
Digby Courier: The government pier is now quite a scene of activity. The J. B. King Company have three barges the Wildwood, Daniel M. Munro and Canada moored there and the work of loading the Munro commenced Wednesday.
J. Willard Smith, St. John received word Wednesday from Captain Longmire of the schooner Ononette saying that she was still fast in the ice at Newburg, N. Y., and there was little hope of getting her clear for some time. The vessel is owned by Mr. Smith.
It took the British schooner Mayflower, Capt. Desmond, forty three days to make her last trip from Parrsboro to Boston with a cargo of lumber. On the third day out the sails were split by a big blow and the vessel was obliged to put into a Maine port for a new set. Later the Mayflower ran into several storms and was blown off her course. She put into several ports for shelter before she was able to reach Boston harbor.

What are Peps

Peps provide a new treatment for coughs, colds and lung troubles. They are little tablets made up from Pine extracts and medicinal essences. When put into the mouth these medicinal ingredients turn into healing vapors, which are breathed down direct to the lungs, throat and bronchial tubes. The Peps treatment is direct. Swallowing cough mixtures into the stomach, to cure ailments and disorders in throat and lungs, is indirect. Peps are revolutionizing the treatment of colds and their price is within the reach of all. All dealers, 50c. box. Send 1c. stamp for FREE TRIAL PACKAGE.

Rheumatic Pains
Are relieved in a few days by taking 30 drops of Mother Seigel's Syrup after meals and on retiring. It dissolves the lime and acid accumulation in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigel's Syrup, also known as "Extract of Roots," contains no opium or other strong drugs to kill or mask the pain of rheumatism or lumbago, it removes the cause. 50c. a bottle at druggists.

RECENT DEATHS

BURPEE WHITMAN Mr. Burpee Whitman passed away at his home in Lawrencetown on Monday morning, January 12th, after a lingering illness, aged 62 years. He was born at Ledge Hill, son of the late Oldham Whitman, formerly of Bridgetown. Mr. Whitman was a well known mason, which trade he followed for many years, both here and in the United States, with marked success. For a number of years he was in poor health, but always patient in his sufferings. He belonged to the "Independent Order of Foresters." The funeral services were held at his late home on Wednesday afternoon, conducted by the pastor, Rev. T. H. Beals, assisted by Rev. H. F. Jones. The service was very impressive. The choir sang the following hymns: "Rock of Ages", "Pilot Me" and "Will the Circle be Unbroken?" The floral offerings were beautiful.

Wreath and Sheaf of Wheat—Manager and employees of Grahams Limited. Bouquet, Daughter Elsie. Bouquet, Mrs. S. E. Banerof. Bouquet, Mr. and Mrs. Raymond Ritchie. He leaves to mourn their loss a sorrowing widow and six children, Frank, of North Newcastle, Maine; Oscar, Wolfville; Roy, Middleton; Charles, of Gasperaux, Mrs. Bernard Whitman of Plain View, Saskatchewan and Elsie at home. The pall bearers were four brother Foresters: Messrs. Byron Morse, Homer Daniels, Whitfield McNayr, and Arthur Chute. The remains were laid to rest in the Fairview Cemetery. The sympathy of many friends is extended to the bereaved ones.

REY WILLIAM HALLIDAY

The death of Rev. William Halliday an aged and well known clergyman, took place at his home, Bear Point, Shelburne Co. on Friday last. He was over 80 years of age. Up to a few years ago he was in active service as pastor of the Adventist churches of West Head, Cape Sable Island, Bear Point and Charlesville. He was highly esteemed by all denominations. He was a native of Annapolis County.

MRS. J. L. M. YOUNG

Word has reached here of the death of Mrs. Young, widow of the late Rev. J. L. M. Young, which occurred in Halifax. The remains were brought to Berwick for interment. The deceased was well known and highly respected by a large number of friends in Annapolis county.

COUNTY MEMORIAL HOSPITAL

Committee Meeting Held at Annapolis Last Wednesday.

The County Memorial Hospital Committee met at the Queen Hotel, Annapolis Royal last Wednesday. Mayor Atlee, chairman of the committee, presided. Present Warden W. G. Clarke, Mayor Reagh, Dr. M. E. Armstrong, Dr. M. E. Armstrong, Dr. A. A. Dechman, and F. C. Whitman. Minutes of all meetings read, including the reports of the meetings addressed by Col. Borden and Major Clarke. An hour was taken in discussion by those present of the whole situation. The Warden reported for the Municipal Council of Annapolis County. The sentiment of the meeting was expressed in the following resolution and which was passed unanimously: "Resolved—The Central Memorial Hospital Committee as a result of diligent inquiries, and such investigations as they have been able to make, have reluctantly been forced to the conclusion, that a General Memorial Hospital for the County at large, is not at present a practical project."

SPLENDID FISH

The editor of the MONITOR has received a consignment of fish especially put up for family use from Mr. Leonard Gupitt, of Grand Harbor, Grand Manan, N. B., whose advertisement appears regularly in the MONITOR. It consists of boneless cod, boneless pollock, boneless herring and regular smoked herring, the latter generally known as "Digby chickens". It is certainly the best put up fish we have ever seen and we think we are, or should be, a good judge of fish considering our experience in marine circles. We would like a few of our readers to order a trial shipment and we believe that in every case Mr. Gupitt will secure a life time customer. Readers try it.

GENERAL EXCHANGE OF PULPITS

TAKEN TO THE PENITENTIARY

(Annapolis Spectator)
 Judge Grierson in the County court last Thursday sentenced two men to the Dorchester penitentiary and they were taken there by Deputy Sheriff K. Edwards on Monday. They were Lawrence Jackson who had been rearrested while on suspended sentence for stealing a bicycle at Bridgetown and George Chute who pleaded guilty to burglary at Leslie Fair's bungalow at Albany.

 QUEEN STREET BRIDGETOWN

Enjoying the Winter in Old Quebec

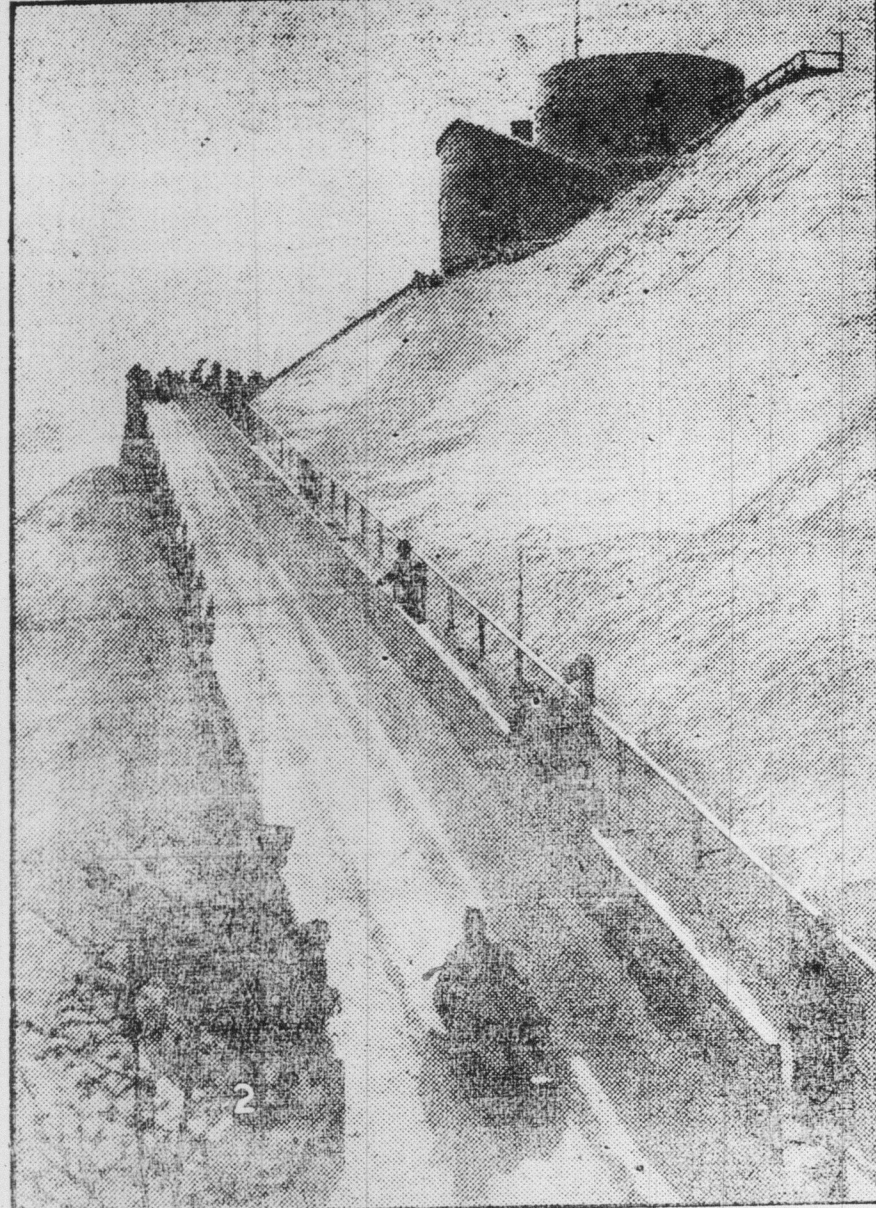

(1) Chateau Frontenac, Quebec.
(2) Toboggan Slide, Citadel Hill, Quebec.

Mayor Lavigne of Quebec has announced that the official opening of the Winter Sport Season in that city will open on Tuesday, January 20th, with a grand parade of the Snowshoe and kindred Clubs. The season will last a month, and an attractive programme of week-end games and sports has been arranged, ending with a grand carnival from February 14th to 17th.

Since Winter Sports have become so popular as those of Summer, there is no need for anyone to dread the dreariness of December, January and February. To skate rhythmically upon an open-air rink; to tramp one's snowshoes over fields which were impassable for the ordinary pedestrian; to jump from an immense height and yet to land, upright and graceful, on one's skis; to toboggan at the rate of an express train and, most fascinating of all, perhaps, to slide on the Swiss toboggan which are still a novelty on this side of the Atlantic—all this and more does Winter offer to her devotees.

Sliding and skiing require some practice before one is an adept, but sliding and snowshoeing are perfectly simple; all one needs is "the gear to do, the soil to slide." Where Winter's icy mantle covers the waters and spreads a blanket of snow over the land—there winter sports are at their best. In Canada, "our Lady of the Snows," every type of winter pastime flourishes; and in Quebec, Canada's oldest city, the outdoor life takes on a new character. Situated on the St. Lawrence River, easily accessible by train, Quebec offers to her guests an unexcelled welcome. At the Chateau Frontenac, the huge hotel which the Bank has built on Dufferin Terrace, the winter guest will find that his indoor comfort and outdoor sport have both been considered. Two playgrounds in the courtyard for the children, the other in the summer garden on the terrace; a toboggan slide down on Dufferin Terrace, and perhaps the greatest attraction of all, the "Ice Velodrome"—they are but a few of the inducements offered to those who love an outdoor life. The hills which surround the city make an ideal for skiing, and the broad riverbank side is as easy to traverse on snowshoes today, as when the Indians swept over it three hundred long winters ago. After a day out of doors, one is ready to return to the hotel for an evening of dancing and other allied amusements. The Chateau Frontenac is the centre of Quebec's social life, the magnet which draws to it all that is vigorous and charming of her society. No one who has been present at her New Year's Dance in the Chateau Frontenac can ever forget it; and this season the social life

in the Ancient Capital bids fair to eclipse even its own brilliant past. To the guest, the "Chambres Canadiennes" are sure to make a strong appeal. They form one of the several Period Suites in the hotel, and, as the name implies, are typically French-Canadian. In many ways they are French-Canadian, in many ways they are French-Canadian, in many ways they are French-Canadian. In many ways they are French-Canadian, in many ways they are French-Canadian.

THE ENTERPRISING NORTH END OF HALIFAX

Mr. E. R. Clarke, of Annapolis Royal, Engaged in Landscape Planning

Halifax Herald says: Not long ago E. R. Clarke, of Annapolis Royal, in company with the superintendent of gardens, Richard Power, and Aldermen Kelly, went over the devastated area or that portion of it in which the hydrostone houses have been built, and the boulevards laid out, for the purpose of considering a scheme of tree and shrub planting on modern, well thought out "landscape planning" lines, and with a view to the future of the district, with the result that the commission will co operate in the planting of 300 trees and 200 shrubs, the order having been already placed, so The Mail was yesterday informed, with the Annapolis Royal Nurseries. Yesterday the general line which will be followed in planting the trees, elms, limes and maples, principally was indicated, and all familiar with the section as it now is will admit that it will mean great things in enhancing its attractiveness, more and more with every year that passes, and the trees and shrubs put forth their foliage more and more abundantly. As has been stated, the men named had in view, in the scheme not only the present of the north end, but its future—in the tree planting the future is being planned for. It is the intention to place in the centre of each of the boulevards one large "feature" tree—a tree which will with every season broaden its shadow and add to its beauty and its shade. Every lover of a tree will be delighted with this detail of the scheme. These "central" trees will be one chief and outstanding detail of the "feature" scheme. Along the streets will be planted long lines of trees, and they will also be planted more closely along what are known as the service lanes or ways leading to the back entrances to the hydrostone houses, in order to form an attractive screen. The shrubs will be planted in, near to the houses. Down Göttingen street will be planted a line of trees—a row of elms, which will ultimately make of the street a leafy avenue like South Park street. There is a big scheme afoot, it is understood for the development of "Fort Needham," but the details as to this have not been given as yet. Suffice it to say that the whole plan, as decided upon, after consultation with Mr. Clarke, one of the best authorities as to landscape garden and city planning in the province, will, when worked out as it will certainly be, "work out, mean, the conversion of the "devastated area" as it has been known, a most beautiful section of ordered, attractive homes, broad breathing spaces, and shaded well laid out streets. The question of vandalism is always to the fore when this kind of work is under consideration—the city authorities and the landscape planning experts are under no illusions whatever as to the necessity of taking the vandal into consideration—he is always with us as residents in the west end and the south end know full well. To provide for the protection by the residents of their own property, and to safeguard the boulevards, it is the intention to form "Neighborhood Improvement Committees," such as have been found so efficient in other cities and Aldermen Hubley and Kelly have been formed these at the proper time. It is worth while for people who knew the old north end of hazardous building and streets which were but a best, "byways" no better than country lanes, to take a walk "up north" and see the reconstructed sections, in which is to be the centre of the scheme of ornamentation outlined—as stated, the order for the trees has been placed and they will be planted in the spring. The gentlemen named will go straight ahead with the business of forming the Neighborhood Protection Committees.

WILLIE KNEW

Little Willie was playing one day with the little girl next door, when the latter exclaimed: "Don't you hear your mother calling you? That's three times she's done it. Aren't you going in? Won't she whip you?" "Naw," exclaimed Willie in disgust. "She ain't got it" to whip nobody. "She's got company. So when I go in she'll just say: 'The poor little man has been so deaf since he's had the measles.'"

RAN SHORT OF MILESTONES

"It strikes me you have got the longest miles in the world," said a pedestrian, as he wiped the perspiration from his brow. "No," answered the intelligent native, taking his pipe out of his mouth. "It isn't the fault of the miles; but when they were making the road they ran short of milestones, so they only put one down for every two miles."

REAL LIVE TESTIMONIAL
 Given to Professor Hamilton of Hampton
 DEAR SIR: For the benefit of suffering ones I wish to put my testimony with others that you have cured. I contracted that dreaded disease Diabetes Insipidus and I doctored for one year losing flesh and strength until I was given up by the doctors to die saying that there was no cure for me, but by the hand of providence the Professor came to Centreville and I consulted him and he told me that he could cure me. I commenced his treatment and in a short time I began to gain and to day I am strong; gained twenty eight pounds, working once again. Trusting that you may be spared for years to come to administer to needy sick.
 Yours truly
 LORAN SHAW,
 Centreville, Digby Co.

A PLEASANT EVENT

The Karsdale Bible Class Royally Entertained

The Karsdale Union Bible Class accepted an invitation from the Island Class to meet them the last Saturday evening of the year and a most enjoyable occasion it was. The lessons for the quarter were reviewed by Revs. Messrs. Patterson and Brindley, each taking half, and both made a splendid impression. Excellent music before and after Mr. T. L. Brindley presiding at the piano added greatly to the interest of the occasion. E. H. Porter, president of the Karsdale Class, congratulated the Island Class upon the wonderful progress they have made and hoped that a grand future was before them, closing with an invitation to them to meet with the Karsdale Class the next Tuesday evening at the home of Miss Bertha Hudson. Rev. Mr. King was called upon but as the hour was late he declined to deliver an address, thanking them for their kindness and wishing them every success. A splendid lunch was then served and at a late hour a most delightful function closed. On Tuesday evening, the two classes met at Miss Hudson's and after some excellent music with Miss Sarah Manning and Miss Mildred McNeil at the organ, Rev. Mr. Brindley took up the Lesson Peter at Pentecost and in his own masterly way brought out the important truths taught by this remarkable display of the power of the Holy Spirit. After this addresses were delivered by John K. Winchester, Esq., president of the Island Class, and E. H. Porter, of the Karsdale Class. Then followed a splendid lunch and with more music a most helpful occasion came to an end.

On Saturday evening, the 11th, a large party met by invitation at the home of Mr. and Mrs. Howard Crosscup and enjoyed a dinner of roast turkey and all that goes with it served up in faultless style by Robert McKenzie who as a chef takes first rank. It was discovered that it was the 30th anniversary of the marriage of Mr. and Mrs. Howard Crosscup and at once it was proposed to put up something in the shape of a present. Ralph Bohaker was appointed chairman and E. H. Porter in behalf of the Company presented the happy couple with a package containing \$15, wishing them many more years of happy married life. A song by Miss Sarah Manning, a recitation by Miss Albertina Angers, a speech by the chairman, followed by pleasant conversation and at a late hour the company dispersed, all counting it amongst the happiest experiences of their lives.
