THE Ad Men's World

WHAT THEY THINK OF THE WORLD

Richard H. Waldo, chairman of the general publicity committee: "Congratulations. You have done splendid work. Your paper has made a great impression upon the convention. This convention has been given publicity by The World in a way that no other newspaper has done in this or any previous convention."

WHAT THEY THINK OF THE WORLD

Frank Leroy Blanchard, editor of The Editor and Publisher, New York: "I have been engaged in newspaper work for 33 years. In my opinion The World has handled the convention better than any other paper. I believe the entire body of delegates entertain very deep admiration for your work this week."

EIGHTEEN PAGES—TORONTO FRIDAY MORNING JUN E 26 1914—EIGHTEEN PAGES

VOL. XXXIV.—NO. 12,280.

TRUTH CAMPAIGN WAS UPLIFTED IN CANADA

Comment of Delegates Heard on Every Hand Was That Canada Had Been a Potent Factor in Uplifting the Movement for Truth in Advertising.

Truth as the corner-stone of good business and efficient advertising was the final keynote struck yesterday afternoon at the adjournment of the tenth annual convention of the Associated Advertising Clubs of the world. Pledges of fealty to the new administration and singing of the ode to "truth" by the assembled convention were the closing scenes of the first international body of advertising men in the history of the profession.

As the delegates departed for their homes last night each was imbued with the feeling that the Toronto convention was the most successful since the organization was formed. On every hand comment was heard to the effect that Canada had been a potent factor in uplifting the "truth" movement, thru its handling of the convention, to a higher standard than ever before.

The spirit of brotherhood which was rampant thruout the convention was in evidence to the end. The closer cooperation urged by the speakers from foreign countries in extending the scope of the associated clubs in the international stage upon which it has entered was urged by all, and pledges were made by those attending to work thruout the coming year toward the end of perfecting the organization in that field.

TROPHY WON BY EDMONTON CLUB

Western City Had Largest Representation of Ladies — Other Awards Made.

At the afternoon session several handsome prizes were awarded. The Dallas, Texas, trophy and long-distance banner went to Edmonton, Alta., Ad Club, which had brought with them more than 90 ladies in a special thru train of 13 cars. The trophy consists of a large wooden shield with a woman's figure in silver representing Truth, and was made entirely of Texas products by Texas labor.

The Baltimore Truth trophy, consisting of a silver globe with the word "Truth" across it, was awarded to the ad club of Minneapolis, Minn., and the Boston "Message Banner" went to the ad men of New York, who brought the largest and most representative band of delegates to the convention.

RESENTED INSULT TO SISTER.

Five youths, Carroll Taylor, Ronald Beck, William Edington, Howard Dawson and Albert McCausland, were charged in the police court yesterday with fighting on College street at 10.30 last Sunday morning. All pleaded not guilty except McCausland, who told the magistrate that some men had molested his sister as she was walking along the street. He immediately knocked them down, and the other four who were in court had nothing to do with the affair.

"You did the right thing," said Mr. Cohen. "If these men acted rudely to your sister, you had a right to defend her. You are discharged." The magistrate remanded the others until called on, adding as he did so, "Why don't you go to Sunday school and be good boys."

THIS CONVENTION BEST EVER HELD

Much Constructive Work Done, Says New York Editor.

TORONTO PLEASD ALL

Manner of Entertaining Delegates by City Commended.

One of the leading newspaper men in attendance at the advertising convention, was Frank Leroy Blanchard, editor of The Editor and Publisher of New York City. Mr. Blanchard's publication is the leading trade paper in the newspaper field. Its circulation covers not only the United States and Canada, but extends across the seas and reaches journalists in nearly every country of Europe.

Mr. Blanchard has attended the last four conventions of the advertising men, and his impressions of the present convention are, therefore, interesting. In an interview with "The World," Mr. Blanchard said that he considered the Toronto convention the best from every standpoint that had ever been held.

"The work accomplished by the convention," he continued, "was of a constructive character. As every one of the addresses had been carefully prepared with a view of presenting the latest and best thought on the subjects to which they related, no one could fail to derive from them information that would be of permanent value to him on his return home."

Impressed With Delegates. "I have been very much impressed with the earnestness displayed by the delegates in their desire to contribute to the success of this annual gathering. They gave undivided attention to the several speakers, and showed by their applause and by their attitude that they appreciated their efforts. Never before have the departmental sessions been so well attended. It was quite evident from the beginning that the delegates felt that they were here for a purpose and wanted to do what they could to help along the general cause of advertising. I think I can safely say that at no time in the history of advertising, has the great body of men engaged in the work been so enthusiastic or so desirous of placing advertising on the highest possible plane, as at the present time."

Praises Publicity Section. "I think that a word of praise should be bestowed upon the publicity department that had charge of the preparing of the material for the newspaper men. Richard H. Waldo and Robert Hehl of New York members of the national publicity committee, were indefatigable in their efforts to serve the members of the press. They had the assistance of a large staff of stenographers, who were kept busy from early morning until late at night in reproducing the many papers delivered for the benefit of the newspapers. No layman can understand the enormous amount of work which the press department of a convention like this has to do in securing and reproducing addresses. In addition to this, the newspaper men are supplied with lists of delegates, reports of discussions held in the various division meetings and much other valuable material."

Approves Mr. Waldo's Suggestion. "The suggestion made by Mr. Waldo at the general session on Tuesday, that hereafter the local and the national publicity committees shall work together, meets with my heartiest approval. I believe that another year it will be possible to prepare abstracts of the many papers that are to be read in advance, so that the same can be delivered to the reporters without delay, on the day when they are presented to the convention. The newspapers cannot begin to publish one-tenth of the addresses that are given, owing to the limitations of space; hence, anything that the committee can do to reduce their work will be deeply appreciated."

Handling of Convention. "Toronto has handled this convention in a most admirable manner. There have been fewer complaints than at any other convention, and none that deserved serious consideration. The task of taking care of 5000 people requires an enormous amount of work on the part of the local

clubs. The Toronto Ad Club has done this work in a most commendable manner. The delegates to the Ad Club Convention want to send Jack a geography, for Jack claims he has traveled the greatest number of miles of any American delegate. "Just add 2100 miles to Jack's mileage," said Charles R. Frazier, one of the Honolulu delegates, "and you'll see where we have him beat. GETTING BUSINESS THRU TEAM WORK

Louis K. Liggett of Boston Tells How to Do It.

W. A. FERREE'S ADDRESS

Retail Advertising Copy Compared by Speaker From St. Louis.

One of the most interesting features of the last day of the convention was the address in the transportation building yesterday morning of W. Appleton Ferree of Nelson, Sherman & Company of St. Louis, on the subject of retail advertising.

Discussing "The Future of the Specialized Store," Mr. Ferree declared a serious problem threatening the advertising world in the fact that the rapid growth of the department store has overshadowed the store dealing in special lines of merchandise. As an example of work being done in St. Louis to put forward again the dealer in specific goods he exhibited samples of newspaper advertising copy for comparison.

Correct preparation of copy, declared Mr. Ferree, with view of pleasing the reader and probable purchaser should be the essential point.

"Co-operation with the dealer to increase his sales," was the subject of an address by Louis K. Liggett of Boston, president of the United Drug Company, and by giving examples of instances where the efficiency of his advertisements, the speaker showed the value of team work in getting business.

Speaking of the "Style of Advertising," Frank A. Black of the advertising department of Filene's of Boston gave answers to seven questions bearing on opinion of experts. Following a discussion of the subject, the meeting was opened to questions from those in the audience.

FIFTY JOURNALS SENT REPORTERS

Newspaper Enterprise Shown in Writing Up Proceedings of Convention.

Of the one hundred and fifty newspaper men who registered at the Ad Club convention, about 50 were in actual correspondence with their papers. As early as 10 o'clock on Monday morning one had a story on file to be sent to a Philadelphia paper which he represented. The telegraph companies were not prepared for such earliness in the field, but by noon several wires were available, and both telephone and telegraph accommodation was at the disposal of the visiting newspaper men.

The quarters in the administration building, which were assigned to them, was soon the scene of much activity, and during the convention it was the rendezvous of half a hundred of hustling newspaper men, who kept the wires hot sending stories to their papers, which covered practically the whole of the United States and Canada.

Made Themselves at Home. Messenger boys were at the beck and call of the visiting press men, and every convenience was placed at their disposal. They were a good-natured bunch, and made themselves at home with the Toronto scribes on short notice. While unstinted in their admiration for the way in which some of the local papers were handling the convention, they were unwilling to admit that the newspapers of their own cities were at all below the Toronto standard.

The reporters of the dailies finished their work on Thursday afternoon, and the convention was finished, as far as they were concerned. For others, the work was not ahead of them, for the special writers and magazine men had been merely watching proceedings, and have yet to write the articles which will give the news of the big convention in magazines which will be circulated all over the continent.

SEALS OF TRUTH TO BE USED LOCALLY

Guarantee of Honesty in Advertisements Can Be Used by Individual Clubs, But No Charge Will Be Made for the Use of the Truth Seals.

The report of the sub-committee of the executive on the "truth" seals for use in advertisements as guarantees to honesty was ratified unanimously at the general session of the convention yesterday afternoon. According to the report as adopted at clubs will be allowed to use the seals of local clubs for this purpose. The pattern of the seal, it was said, is immaterial.

The Fort Worth club, the report continued, will be allowed to continue the use of the seal of the international organization as an experiment as has been the case during the past year.

Considerable opposition was expected from the Bridgeport, Conn., and Fort Worth delegations on the clause bearing on the charge of a toll for use of the seal. This was overcome, however, by the decision of the executive committee, to which the matter was reported Saturday. President Woodhead overruled a motion by the Fort Worth club to eliminate the clause under discussion, on the ground that it was out of order as the matter was taken up thoroughly at last week's meeting.

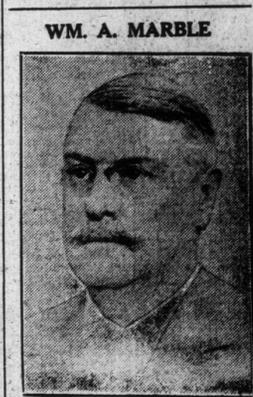

Speaking of the "Style of Advertising," Frank A. Black of the advertising department of Filene's of Boston gave answers to seven questions bearing on opinion of experts. Following a discussion of the subject, the meeting was opened to questions from those in the audience.

MILITANTS SCOUT IDEA OF MAKING A TRUCE

Canadian Press Despatch. LONDON, June 25.—The militant suffragettes are determined not to relax their campaign. Mrs. Annie Besant, president of the Theosophical Society, author and lecturer on religious subjects, in a recent lecture in London on the suffrage question, made an eloquent appeal to the militants to consent to a truce with the government on condition that the ministers promise to introduce a bill in the next parliament.

Miss Wylie, presiding at a meeting of the Women's Social and Political Union, declared today that the militants would not dream of a truce.

WOODHEAD AGAIN HEADS AD MEN

His Re-Election as President Was Unanimously Agreed Upon.

An example of the satisfaction with the success of the Toronto convention of the Associated Advertising Clubs of the World was apparent at the general session yesterday afternoon, when the body unanimously elected William Woodhead president; Walter B. Cherry, vice-president, and E. S. Florea secretary-treasurer.

The nomination committee also submitted the names of A. L. Chamberlain, Chicago; F. H. Rowe, Toronto; A. L. Shuman, Fort Worth; B. J. Shay, Baltimore; and John Renfrew, Los Angeles, for re-election as members of the executive committee. They were ratified unanimously.

THANKS TO AD CLUB. At the Toronto Western Hospital last evening a vote of thanks was passed by the staff and public ward patients to the advertising men's convention for gifts of flowers. Each patient received a beautiful bouquet of roses and carnations.

JAIL FOR HARD DRINKERS. Keith Gordon was fined \$50 or ninety days in jail yesterday when he was charged in the police court with drunkenness. Charles Irish, whose wife had succeeded in securing a release for him on the day previous, was sent to jail for ninety days for drinking his wife's health too often but not too well.

HEROIC EFFORT BY MAN FROM RHINE

Herr Weiner Not Silver-Tongued Spellbinder, But He Did His Best.

Herr Weiner, the representative from Germany, was called upon to address the afternoon session on behalf of the other foreign delegates, and created considerable amusement by his opening remarks.

"Ven I heard der was going to be speakings by foreign telgates, I prepared me a speech six months ago. But I hafn't der time to gift it all. I do not speak Spanish, Italian or Chinese, and I don't efen speak English. I can't tell jokes, so I think I don't do it,—yes? But if you listen close and hear my funny grammar I think you hafn' jokes enough."

Herr Weiner then went on in his delightful broken English to tell of the great work the Ad Clubs of Germany are doing to raise the standard of truth in presenting goods to the public, and the keen interest he is taking in the methods of conducting a convention which he proposes to put into practice in the near future, when a gathering of German advertising men is to be held in Leipzig.

JOY RIDERS FINED. A fine of ten dollars and costs or fifteen days' imprisonment followed the joy ride of William Soul, William Karn and William Gillson who, along with three young ladies, were exuberantly musical and frolicsome on Wilton avenue at 2.30 yesterday morning. Two of the ladies failed to put in an appearance at the women's court yesterday and a warrant was issued for their arrest. The third was remanded for a week.

PRICE'S MEETING WELL ATTENDED

Conservative Candidate in Parkdale Was Given a Good Reception.

MRS. MORRISON SPOKE

Attended Meeting as a Protest Against Banish the Bar Policy.

Speaking at W. H. Price's meeting in the Parkdale assembly hall last night, Mrs. J. G. Morrison said: "I came here as a protest against banishing the bar. We are not going to banish the bar, but we are going to banish the liquor traffic."

The letter was signed: "A. W. C. T. U. W. Worker," and the chairman characterized the "worker" as "A. W. C. T. U. worker." Mrs. Morrison told of issuing a challenge to the auxiliary campaign to meet her on the public platform, which challenge was turned down.

After quoting J. W. Flavelle, who said that N. W. Rowell was the biggest hypocrite in the province today, Rev. T. J. Slevin said: "There is one larger. That one is called Dr. Macdonald, the editor of 'The Globe.'"

"I want to protest with all my heart against the pulpits being desecrated and the country being divided," said John G. Christ, superintendent of College Street Presbyterian Sunday School and president of the Presbyterian Sunday School Association.

W. H. Price, the candidate for Parkdale, in his short address, said the bar could be abolished in the future in the same manner as it had been done during the nine years of Sir James Whitney's regime.

J. M. Grant of High Park Presbyterian Church and William McBrien delivered short addresses.

PAPER SHIELDS FOR PHYSICIANS

For the protection of either the patient or the surgeon or examining physician, a simple protective mask or shield of paper has been invented by a German surgeon. It is attached by a gummed edge over the nose. The advantage of this form of mask over the usual cloth shield, is that it is used but once and then thrown away. Its cheapness and the fact that it can be carried by the physician without trouble adds to its utility.

CURIOS MISTAKE

Because the manifest of the bark "King Alfred" from Peru, laden with nitrate, read "Charlestown, U.S.A.," the master brought it to port in Charlestown, Mass., instead of Charlestown, S. C. Upon consulting his chart the master found that the only Charlestown was near Boston, and took his vessel there. When the customs officials came to investigate they found the consignees were located at the South Carolina city, and informed the master that he had taken his craft a thousand miles out of its course. The voyage took 135 days, and only by offering the crew a bonus was the master able to take the bark to the original destination.

TEXAS SHORTCAKE

Mash a quart of ripe strawberries with enough sugar to make them very sweet and set aside for two hours. Make a rich bliscuit dough with one egg, thick, sour cream and baking soda. Make it just stiff enough to handle easily. Roll out very thin and bake in jelly-cake tins, making five or six cakes. Bake them a light brown, buttering them before and after they are baked, and spreading with the berries on each layer. Mash a quart of ripe strawberries with enough sugar to make them very sweet and set aside for two hours.

ASPARAGUS CREAM SOUP.

Boil the hard ends of two bunches of asparagus, add a slice of onion and cook until tender. Drain and rub the pulp thru a purser. Heat the milk and return the water in which it was cooked, adding a half-teaspoonful of salt. Scald three cups of milk, cook together two tablespoons each of butter and cream. Heat the asparagus stock and then add the milk. Just when ready to serve beat an egg and add a quarter of a cup of cream; add this to the soup and serve at once.

Waistcoats Now Are Very Popular

Waistcoats of all manner of vestes are continuing in popularity even for midsummer wear. They present a wonderful range of types, from Georgian to Louis XIV. Ribbed silks are much used in their making. Brilliant shades and stripes predominate. But of all the vestes those of lingerie are the loveliest and most favored for the summer months.

For a complete frock nothing is more effective and serviceable than the striped silk. One model introduces a strikingly new detail in the collar, a vestee, and a broad crushed skirt of one-toned taffeta. The under-skirt is quite short and clings closely about the body.

Pink taffeta is very popular this month for evening wear, and together with tulle or ruffles of shell-pink tulle Rhinestone trimming figures on a number of the most exclusive modern models. The shoulder sleeves and the full tunic.

HERE ARE RULES FOR COLOR COMBINATIONS

Daring combinations of color have been the subject of much discussion and the cause of much discontent, but the following will be "safe" and effective in every instance. Red features in a number of interesting combinations, such as red and blue, red and black, and red with white. Rose and turquoise blue is delightful. Coral and purple is stunning.

MOUNT DENNIS

E. Lunnon, the secretary of the Ratepayers' Association, has the intention of the representatives of the New York engineering firm of Moffett, Mount Dennis, Ontario, tomorrow, at an early date to explain their water supply scheme for the township. A special meeting of the Ratepayers' Association will be called as soon as the date is fixed.

YORK MILLS

Tomorrow afternoon, in the orchard of Col. Van Nostrand, at the residence of St. John's Church, York Mills, will be their annual picnic, and judging by the selection of races and other amusements, a most enjoyable afternoon is assured. The picnic will be rendered by the Thornhill Brass and Band, and refreshments will be served from 5 to 8.

CURTAIN PINS AND EIDERDOWN.

To brighten the brass curtain pins that have turned black mix half a pint of vinegar and half a pint of water together, or sufficient to cover the curtain pins, and boil rather long for five or ten minutes. Then wash thoroughly in lukewarm water, and repeat the process. To wash eiderdown comforters make a lather of hot water and soap jelly, and add a little liquid ammonia. Squeeze the quilt in this for about ten minutes, and then squeeze well until all dirt is freed. Rinse in two or three warm waters, then pass carefully thru the wringer, and hang out to dry; take down and shake well several times while drying. Be careful not to wring the eiderdown, but to destroy the color in the cover. If possible, open a seam and clip just a shred from inside to experiment with first.

ASPARAGUS CREAM SOUP.

Boil the hard ends of two bunches of asparagus, add a slice of onion and cook until tender. Drain and rub the pulp thru a purser. Heat the milk and return the water in which it was cooked, adding a half-teaspoonful of salt. Scald three cups of milk, cook together two tablespoons each of butter and cream. Heat the asparagus stock and then add the milk. Just when ready to serve beat an egg and add a quarter of a cup of cream; add this to the soup and serve at once.

INQUEST OPENED AT THORNHILL INTO DEATH OF MABEL MARSH

Witnesses Claim There Was No Radial Car in Sight and That Glare on Road Was From Auto Headlights — Four Examined — Automobile Expert Called — Adjourned One Week.

An inquest regarding the death of Miss Mabel Marsh, who was struck by a motor car last Saturday night opposite the Metropolitan power station, just south of the Bell Line bridge on Yonge street, was opened at Thornhill yesterday afternoon before Dr. M. C. Crayford, County-Coroner. Attorney General Robinson, K.C., appeared for the driver of the car; J. B. Whaley and J. L. Monaghan represented the relatives of Miss Marsh.

Arthur K. C. Visick, an automobile expert, was called to give evidence as to the condition of the car after the accident. Cross-examined by the crown attorney he said that he had examined the car after the accident on Monday morning and found the right hand mud-guard bent and the glass of the right headlight cracked. He said that the electric batteries were run down the water pump of the engine, and that the car was not in a condition to stop at all.

Mr. Visick testified that he had tested the car and found that on a level road, running at ten miles an hour, it could be stopped with one brake in a distance of 12 feet 8 inches; 15 miles an hour, 20 feet; 20 miles an hour, 35 feet; using both brakes it could be stopped while running at 10 miles an hour in 10 feet; 15 miles an hour in 16 feet; 20 miles an hour in 24 feet. He thought 75 feet would be the maximum distance required in which to stop a car where the accident occurred.

Mr. Robinson asked Mr. Visick what he would do under similar circumstances. He testified that he would stop the car with both brakes, and that he would not touch the steering wheel. Continuing his cross-examination, Mr. Robinson questioned Mr. Visick regarding his experience with the headlights of the radial cars on Yonge street. He testified that he had never seen a radial car coming down Yonge street hill when Miss Marsh came from behind another car and entered that area of light would be a car coming? Would she not be dazzled?

Mr. Visick testified that he would be dazzled unless the car was between her and the radial car's headlight. "You said that seventy-five feet would be the distance in which to stop a standstill," said Mr. Robinson. "How long would it take to cross the street?" "Five seconds," replied Mr. Visick. At this juncture Coroner Dr. Crayford suggested that the jury men inspect Mr. Whaley's car, which was outside, and have Mr. Visick demonstrate that it could be stopped under various conditions. This was done, and Mr. Visick testified that he was in thirty-five feet going down a grade at the rate of twenty-three miles an hour. Dr. G. W. Pringle, who was called to inspect the car, testified that he had been about three minutes after he was called, as he always crosses the street at that point. He found the body lying on the floor. There was a bad contusion on the forehead and the right arm. "Do you remember what kind of a night it was?" asked Mr. Robinson. "It was the road in good condition or was it?" The witness could not state definitely.

William Quilton, a brother-in-law of the late Miss Marsh, was the next witness called. He is employed as a dispatcher in the power house, and Miss Marsh was crossing the street when he was on duty. "Road Was Dry." Examined by Mr. Crayford, the witness testified that he was looking out the window when the accident occurred and that the road was dry. He saw Miss Marsh crossing the street, and she was carrying a bag. "Did you see the car hit her?" asked Mr. Crayford. "No," said the witness. In reply to further questions he testified that Miss Marsh had been thrown across the street about 20 feet to the southwest. Picked Her Up. After the accident he went out and picked her up. The doctor and he, after, and she never regained consciousness. When he went down to pick her up there was no light of a car. The first one came over the hill from the south just as he was returning and had to stop as he was on the track. "Did you see a good deal of noise in the power-house. Would you say that no horn was blown?" asked Mr. Robinson. "No," answered Mr. Robinson. "What attracted your attention first after the accident?" "The fact that she was lying on the street," said Mr. Crayford. "Did you see the car?" "No," said the witness. "Did you see the car?" "No," said the witness. "Did you see the car?" "No," said the witness.

Mr. Crayford then adjourned the inquest until next week. The coroner's jury will meet on Monday next to hear the evidence of the witnesses who were called to give evidence at the inquest. The coroner's jury will meet on Monday next to hear the evidence of the witnesses who were called to give evidence at the inquest. The coroner's jury will meet on Monday next to hear the evidence of the witnesses who were called to give evidence at the inquest.

After the accident he said someone out.

LAKE SHORE ROAD TO BE PAVED SOON

First Highway to Be Built by Provincial Road Commission.

TORONTO TO HAMILTON

Fourteen Men Now Engaged on Motor Survey of the District.

Toronto is unlikely to be the first city to benefit by the program of road reconstruction undertaken by the provincial highway commission. According to the report of the commission, issued yesterday at the parliament buildings, the first government-constructed highway will extend along the Lakeshore road from Toronto to Hamilton. It will be a paved road built very substantially and will be 20 feet in width. The intention is to centralise building activities in this quarter, so that traffic may begin in the fall of 1915.

A staff of 14 men are now engaged in a motor survey of the intervening district between the two cities, and following their report, legislation will be introduced to allow the letting of contracts and the immediate procedure with building.

The recommendation of the survey will have much to do with securing the route of the highway which has been suggested is considered likely that the old Lakeshore line will be set up, and that the new highway will be built on a new inter-city traffic, but because of the scenic possibilities, it is recognized also that the highway will be built on a route which is one of the most beautiful roadways in the province.

Method of Payment. Between Toronto and Hamilton, the cost of construction expense. The intervening municipalities will be required to contribute to the cost of the highway. The province will also contribute on a percentage basis. The commission is not yet in a position to state the basis of percentage. It is understood that the province will advance 50 per cent of the total expenditure according to the county plan.

While it is settled that the road will be paved, the report of the surveyors will be made in the next few days. The province will be built on a route which is one of the most beautiful roadways in the province. The province will be built on a route which is one of the most beautiful roadways in the province.

BANK DEPOSITORS SCORE ACTION OF SENATE

Representative Meeting Passes Strongly Worded Resolution Expressing Determination to Continue Fight for Reimbursement of Sufferers of Defunct Farmers' Bank.

Determined to leave no stone unturned in their efforts to have the Farmers' Bank Bill again passed by the house of commons, more than a hundred depositors of the defunct bank met in Toronto yesterday and made plans to continue their fight. Speeches were made by many of those present dealing with the work done to date, and condemning the senate for throwing out the bill after it had been passed by the house of commons. Representatives were present from each of the places where the Farmers' Bank had branches, and it was felt by all present that strong and complete organization of the depositors should be used to the utmost in pressing their claims before the government.

At the conclusion of the meeting the following resolution was passed:

At a meeting of representatives of the Farmers' Bank depositors held in the Water House, Toronto, on June 25, last, it was resolved and carried unanimously that:

That the Farmers' Bank depositors, hereby express our deep regret that the senate of Canada saw fit to stand in the way of the Government of Canada relieving the losers in connection with the aforesaid bank;

That we are not only chagrined at the turn matters have taken since the assurances given us from time to time that the money would be paid, but are painfully surprised that the senate did not give the sanction legislation passed by the Commons of Canada, and approved by the government;

That we hereby again affirm our belief in the justice of our claim, which has been fully recognized by the house of commons, and express our determination to continue pressing that claim until the justice of the parliament of Canada be expressed in the reimbursement of the unfortunate sufferers of the Farmers' Bank.

And we hereby urge the relief committee to go forward and pledge our support, until the money that has been voted by parliament is in the hands of the depositors.

R. J. McLaughlin, K.C., of Toronto, occupied the chair, and among the hundred at the meeting were Rev. Mr. Gilmore of Ripley, A. L. Minthorne of Lindsay, Messrs. Pollard of Pontypool, Elliott and Lyons of Cheltenham, Foot of Stouffville, and Hay of Brucefield.

Reviews Situation.

An explanation of the whole situation was given to the meeting by I. E. Weldon of Lindsay. Every delegate felt that the best had been done that could have been done under the circumstances. They felt also that the much-discussed and abused agreement between the depositors and shareholders, which had been so widely discussed on the floor of the house, was a step in the right direction and should be honored and carried out by the depositors.

Regret was expressed that some of the depositors, thru indifference or ill-advice, had refused to participate in the carrying out of the arrangement made by the solicitors and the committee representing the depositors.

Great satisfaction was expressed at the attitude taken by The Toronto World when the senate threw out the bill, and the editorials written and speeches made by W. F. Maclean, M.P. It was hoped that The World would come to the front again. Members of the committee thought they were under an obligation to Mr. Maclean for his attitude. It was the firm intention of the meeting to press their claim until the depositors are repaid.

HON. H. R. EMMERSON IN CRITICAL CONDITION

Canadian Press Despatch.
MONCTON, N.B., June 25.—Reports from Dorchester tonight are that Hon. H. R. Emmerson is in a critical condition, and the end is matter of but a few weeks, possibly days. The ex-minister is suffering from heart affection, from which recovery is said to be very improbable. Members of the family have been summoned to his bedside.

DIVIDEND IS PASSED BY ONTARIO AND WESTERN

NEW YORK, June 25.—Directors of the Ontario and Western Railway today decided, in view of the decreased earnings of the road, not to declare a dividend at this time. The Ontario and Western Railway is a subsidiary of the New Haven. A two per cent. dividend was declared in 1913.

AGE CLAUSE WAS RATIFIED BY TRUSTEES

Motion to Amend Superannuation Rule Lacked Two of Necessary Two-Thirds at Education Board Meeting—Principal Embree and Others Retire at End of Month.

Superannuation on the age basis was ratified by the board of education last night. The motion in favor of the re-engagement of superannuated teachers on a yearly basis had a majority of one, but the vote lacked two of the necessary two-thirds.

Trustee Boland moved the motion, of which he had given notice, as follows:

"That the regulations relating to superannuations be amended so as to provide for the engagement of superannuated inspectors, supervisors, principals and teachers or any such liable to superannuation on a two-thirds vote of the members present, such inspectors, supervisors, principals and teachers to continue payment to the superannuation fund of the board at the same rate as immediately prior to their retirement under the regulations as at present existing, and that on superannuation such inspectors, supervisors, principals and teachers be paid the same retiring allowance as if retired at sixty or sixty-five years of age as the case may be."

He said that on its merits he thought the resolution ought to go thru.

Trustee Brown, seconding the motion, said that its adoption was of great importance. He did not think the vote should be rushed until all the members had arrived. It was more vital than politics.

Trustee Shaw asked if the vote would require a two-thirds majority of the board or of that present.

Chairman McTaggart said: "Of those present."

The vote was: Yes—Trustees Hodson, Boland, Dineen, Vokes, Ellis, Brown, Mackay—7.
Nays—Trustees Steele, Hopkins, Noble, Fairbairn, Shaw and Chairman McTaggart—5.

Trustee Houston arrived just too late to vote for the motion, but it would have required another vote in addition to his.

Trustee Jackson, who favored the motion, and Dr. Conboy, who was against it, were paired.

The result of the vote is that Principal Embree and the others who came under the age limit rule, will cease to be members of the board of education staff on June 30.

MCGIBBON TO MANAGE AMES, HOLDEN, MCCREADY

Canadian Press Despatch.
MONTREAL, June 25.—Clarence F. Smith, who has been vice-president and general manager of Ames, Holden, McCready, Limited, this city, since the organization of the company, was dropped from the board at the annual meeting today and Fleetwood H. Ward was elected vice-president. Sir Thomas Tait was elected a member of the board. D. Lorne McGibbon was re-elected president and appointed manager. With a return to normal business again the company will pay a dividend. President McGibbon said:

"The Labor Party to the number of 34 abstained from voting for the amendment in accordance with their previously expressed conviction that the chancellor of the exchequer should have given some poor relief from taxation instead of reducing the income tax."

Sir Luke White (Liberal) voted with the opposition as a protest against the postponement of the local grants. Joseph Martin, Mr. Hinds and several other Liberals abstained.

G. Greenwood, who has undergone several operations, voted on crutches. The O'Brienites in a body voted with the opposition.

When the figures were announced the younger members of the Unionist party called out enthusiastically, "Lloyd Georgian finance, send for Masterman, and saved by the Irish."

Brooke Every Principle.
Bonar Law said that the little lawyer from the Welsh hills had broken every principle which was regarded as a dividend. President McGibbon said:

GOVERNMENT ENQUIRY FINISHES ABLE TO CARRY BUDGET THRU HEARING WRECK WITNESSES

Majority Cut to Thirty-Eight on Division—Laborites, O'Brienites, Joseph Martin and Disgruntled Liberals Abstain or Vote With Opposition.

Canadian Associated Press Cable.
LONDON, Friday morning, June 25.—The division on the finance bill, which was awaited with much interest, owing to the attitude of certain Liberal members and the abstention of the Labor Party, was taken last night and resulted as follows:

For the bill 303; against 265; majority for 38.

The large reduction in the government majority is due to a combination of causes; dissatisfaction of Radical millionaires with the financial policy of the government and equal dissatisfaction of Labor members, not to speak of the independent attitude of the O'Brienites.

Laborites Abstained.
The Labor Party to the number of 34 abstained from voting for the amendment in accordance with their previously expressed conviction that the chancellor of the exchequer should have given some poor relief from taxation instead of reducing the income tax.

Contradicted Hillhouse.
Mr. Reid, called by the Stortad lawyers, gave testimony consisting principally of flat contradictions of that put forward by Percy Hillhouse, connected with the Glasgow shipbuilding firm which constructed the Empress.

He contended that the angle at which the ships came together was 40 degrees, instead of 90 degrees as laid down by Mr. Hillhouse and that only one watertight compartment was penetrated by the collier's nose as against two claimed by Mr. Hillhouse to have

MASSEY HALL TEMPERANCE RALLY GREATEST IN TORONTO'S HISTORY EMOTION GRIPPED VAST THROGG

VIGOROUS AND PROGRESSIVE

There is only one way to do things, and that is to do them right. All the new ways in business try to remember this one thing first of all. It means efficiency and every department. It is becoming a science. If you want to hire an office boy, and want the best boy to be had out of the crowd that offers, you apply the system. If you want to hire a prime minister there does not seem to be any other way to go about it, and do the right thing. The system finds the weak spots, and gets out the strong points. Every man in Ontario is more or less concerned in hiring a prime minister next Monday. A good deal depends on the man he engages. On what score shall he make his selection. The scientific way is to examine the candidate on half a dozen points: radical, blood-central points, with the certainty that the answers give a fair index to the likelihood of his qualifications. What are his ideals? What does he expect to do? Sir James Whitney is so well known in Ontario that the question may seem superfluous. But one is apt to forget what the condition was before he came. What was it in the liquor traffic, upon which his opponent professes to be more advanced than Sir James? The premier says he will do more than he has done; that he will keep along the same path, and better his own record. Mr. Rowell admits he did nothing in the past when he had a chance, but thinks he could do better than Sir James now. The system next examines the candidate for common-sense. Sir James declares he will make no promises that he cannot fulfil, that he will do all he can, and go as far as he can go, but he refuses to attempt what his judgment tells him is impossible. His opponent undertakes to do what has never been done yet, and what his own party refused to do when it had the chance. Which shows the more common-sense? The next question of the system is on personnel. Who are the men you have to help you? Sir Adam Beck, with the Hydro system; Hon. W. J. Hanna, with the prison farms; Hon. I. B. Lucas, with a public ownership budget; Hon. W. H. Hearst, with a developing north; Hon. J. J. Foy, with the revised statutes; Hon. R. A. Pyne, with a broken-up school-book ring; Hon. J. O. Reame, with good roads for the farmer; Hon. James Duff, with \$278,000,000 increase in farming assets; J. L. Englehart, with the most successful publicly-owned railway in America, answers Sir James. And who has Mr. Rowell got with him? Such white hopes as Rev. J. A. Macdonald and Mr. Sam Clarke, and Mr. Proudfoot and some others who have gone elsewhere but might come back. The points in personnel are in favor of Sir James.

Next of the system's questions is discipline. Well, says Sir James, the boys do what I say. Mr. Rowell counts a good deal on Sir James' boys doing what Mr. Rowell says, which is cheerful but not prudent. Then comes the question on the fair deal. What do you know about that? Workmen's compensation, says Sir James. University reform, says Sir James. Electric power at cost, says Sir James. A hundred millions of money spent, and not a dollar of graft, says Sir James. Mr. Rowell says he would do as well, but would it be a fair deal to take the job from the man who set the standard? Are you reliable, immediate, and adequate? Is the last question of the system. Sir James is the most reliable politician that ever asked for a vote in Canada. His probity, his squareness, his independence will become historical maxims. He gets full marks there. Reliable? Yes, down to the shadow of the dark valley. Immediate? On next Monday.

Clarks and Laymen Who Uphold Liberal Leaders Banish the Bar Plank Cheered to Echo by Audience Which Completely Filled Massey Hall.

Massey Hall in its day has rocked to many a tumult of enthusiasm and reverberated to the war of voices rising in applause. It is safe to say, however, that from a standpoint of clamorous clamor the temperance rally of last evening capped them all. The bursts of applause were violent and sustained. People stood on seats with handkerchiefs in their hands and fairly shouted till breath was exhausted. In two senses the occasion was unusual. One reason was that an issue, not a personality, was being approved, and another was that the element of religious appeal, which has been indisputably bound up with this question of bar abolition from the opening of the campaign, seized upon the imagination of the people and transported them to great lengths of emotion. The fact that ministers of the gospel stood on the platform and called upon the mass to don the sword to fight the battles of the Lord, stirred the fibre of the most unresponsive with the peculiar emotional appeal of the church. In consequence into the shrill voices of women and children, echoing down from the upper galleries, there crept a tinge that was almost hysteria. Mashed on the platform were hundreds of little boys and above the great chorus of battle hymns rose the clear soprano of their tones. Apart, however, from the subject matter of the assembly the occasion itself was soul-stirring in its intensity. The slightest verbal flash of even the feeblest speaker sent out a ripple of cheering which rolled back into a growing wave to the doors and gallery exits.

The whole night was staged as if for a battle. The word "fight" was on every man's lip. "We have neither bullets nor bullets, but we will fight just the same," cried the defiant voice of a woman representing hundreds. Every church was represented on the platform, and one and all submerged creeds for the night and declaimed in mutual language.

Thruout, with one exception, not a harsh word was said of Sir James Whitney. Every speaker was full of tribute, but claimed that the temperance of the dark valley. Immediate? On next Monday.

FIRE SWEEPED THRU SALEM, MASS. HALF OF CITY IS MASS OF RUINS LOSS QUITE TWENTY MILLIONS

Ten Thousand Persons Are Homeless, and a Thousand Buildings Destroyed—Fire Started in Leather Factory and Spread so Rapidly That Whole City Was in Danger—Great Army of Refugees Encamped on Common for Night—No Lives Reported Lost.

Canadian Press Despatch.
SALEM, Mass., June 25.—Nearly half of the "Old Witch City" of Salem, rich in historic buildings and tradition, was destroyed today and tonight by a fire that caused an estimated loss of \$20,000,000; destroyed 1000 buildings, including a score of manufacturing establishments, and made 10,000 of the 45,000 residents homeless.

The fire originated in the Korn Leather Factory on the west side of the city, about 2 o'clock this afternoon; swept thru the shoe and leather manufacturing district, running every building in a curving path two miles long and more than half a mile wide.

Spread to Other Sections.
Burning embers, carried by a strong northwest wind, started fires in two other sections, the fashionable residential district adjacent to Lafayette street and a manufacturing and tenement house district on the peninsula, bounded by Palmer's Cove, South River and the waterfront.

Mrs. Christine Frederick of Greenlawn, Long Island, editor of the house-keeping department of The Ladies' Home Journal of Philadelphia, author of "The New Housekeeping," contributor to periodicals, scientific house-keeping specialist, lecturer and distinguished household efficiency expert, who will conduct "The New Housekeeping" department for The World every day, commencing Monday, July 6.

Thousands Homeless.
Thousands of the homeless were camped on Salem Common tonight with such household goods as they could save piled around them. Long lines of refugees, most of them on foot, and others in wagons, carriages and automobiles, crowded the road leading to Beverly, where hundreds spent the night in the parks.

Early in the evening the electric light plant was burned out, throwing the city into darkness.

The high school, police station, state armory, churches and other public buildings were thrown open to the homeless ones, and the city was policed by militiamen.

The great destruction was due to poor water pressure.

BIG ENTRY LIST FOR HORSE PARADE

Upwards of One Thousand Horses Will Be Shown on Dominion Day.

GREAT INTEREST TAKEN

Employers Express Appreciation of Good Results Due to Parade.

The list for Toronto's Work Horse Parade, to be held on July 1, closed yesterday with over 700 entries.

Letters have been received by the secretary from prominent merchants in the City of Toronto, expressing their appreciation of the results from the interest taken in their horses and equipment by their employees, who exhibit from year to year.

Many prominent out-of-town horsemen have kindly consented to act as Judges, some of whom are John Bright of Ottawa, John Boag of Queenville, S. E. Thompson, Hamilton; B. McKilliam, Hamilton; Thomas Graham, Claremont, and E. Stewart, Guelph.

The following is the route of the parade after the judging has been completed: East on St. Albans street to Jarvis; south on Jarvis to Adelaide; west on Adelaide to Simcoe; north on Simcoe to University avenue and into the park, where the prizes will be presented by his worship the mayor.

EXPLOSION OF BOILER INJURES OSHAWA LAD

Special to The Toronto World. OSHAWA, June 25.—Arthur, eldest son of J. W. McCutcheon, was seriously injured by the explosion of a boiler used in connection with a gas well drilling outfit at his home this morning. He was struck in the face by flying debris and removed to the hospital unconscious. Just how seriously he has been injured is not yet known. The boiler was blown a distance of 150 feet and deposited on the lawn of T. H. Eversen, within three feet of his dwelling. In its travel considerable damage was done to the property of Mr. Eversen, part of his hedge being torn down, and three fair-sized trees laid to the ground.

CANNINGTON WILL BE ARMED CAMP TODAY

Special to The Toronto World. CANNINGTON, Ont., June 25.—The 24th Regiment of Ontario County, under command of Col. C. F. Bick, will carry out the program of tactical exercises here tomorrow afternoon. The regiment will reach Toronto from Niagara Camp tomorrow morning, and will be conveyed to Cannington by special train.

HAD SKULL FRACTURED BY KICK FROM COLT

Special to The Toronto World. GALT, June 25.—As the result of a kick from a colt, John Nicholson, a farmer of Beverley Township, lies in the Galt Hospital with a fractured skull and slight hopes are entertained for his recovery. While hitching the colt with another horse, the colt whirled about and kicked Mr. Nicholson on the head. Dr. A. B. Smittle, of Shefford, was called, and ordered the removal of the injured man to the hospital, where an operation was performed.

McTAVISH CAMPAIGN.

The McTavish temperance forces, which have been carrying on four or five meetings a night for the past week, will centre their efforts tonight in two mass meetings in the district one to be held in Parkdale Assembly Hall, 2 Lansdowne avenue, and the other in Ryan's Hall, corner Bloor and Lansdowne. The list of speakers at these meetings includes: Rev. Father Minehan, Rev. John MacNeil, Rev. J. C. Speer and a number of others. The Parkdale temperance campaign will be culminated by two monster open air meetings, one at Wright and Roseneaves and another at Joyce and Spadina avenues, on Saturday night.

ENOUGH GASOLINE TO BLOW UP CITY.

That there was enough gasoline stored at the Atlantic street premises of the High Grade Oil Company to blow up the city was one of the alarming statements in a letter from Assistant City Architect Price to the board of control, read yesterday. On the instruction of the controllers, action will be taken to do away with the menace. So far as is known all the other companies storing gasoline are complying with the city regulations.

VEAL POTPIE.

Rinse thoroughly three pounds of veal, put in a kettle and cover with boiling water; add a heaping teaspoonful of salt and remove the scum as it rises; then add a large spoonful of butter and a saltspoonful of pepper; when nearly done lay six or eight medium sized pared potatoes on the meat. Make a batter of one and a half pints of flour, two teaspoonfuls of baking powder, a pinch of salt and one cupful of sweet milk. Drop a spoonful at a time, either on the meat or in the steamer place over the kettle. Do not remove the cover for 30 minutes, for if the strikes they will fall. Take up the meat, potatoes and dumplings on a large platter; wet two tablespoonfuls of flour in a little cold water, rub till smooth and stir in the broth. Add another tablespoonful of butter, cook till it thickens, then pour over the potpie.

TORONTO WOMAN WAS SELECTED

Miss Wighton Appointed Directress of Brockville Supervised Playground.

BROCKVILLE, Ont., June 25.—The executive of the Brockville Community Movement has selected Miss Wighton of Toronto, for the position of directress of the supervised playground. The opening exercises will take place on July 5.

Paul Ranger, who hails from Smith's Falls, was committed for trial after a hearing in the police court upon a charge of criminal assault on a young girl. Ranger is characterized by the police as a moral degenerate.

A thirty-five foot mahogany hull, constructed during the winter for R. J. Toole, of Montreal, was taken to the metropolis under her own power. The craft is fitted with a 150 h.p. engine, and in a trial run on the river here the boat easily made a 35-mile an hour clip.

The marriage took place at Prescott of Miss Ruby J. E. Robinson, daughter of Mr. and Mrs. Alex. Robinson, of Maynard, to John E. Spero of the department of the interior, Ottawa, and son of Mr. and Mrs. J. Spero, Maynard. Rev. Mr. Cummerford officiated.

W. Coleman McDougall, aged 70 years, a resident of Brockville, and the Township of Elizabethtown all his life, died at the family residence here. His following farming the greater portion of his life. Among the surviving children are two sons, Rev. G. C. McDougall, of Pisega, and Dr. L. M. McDougall, of Brooklyn, N. Y.

LACROSSE PLAYERS IN POLICE COURT.

A sequel to the Toronto-Tecumseh lacrosse match at the island stadium last Saturday was the scene in the Toronto police court yesterday, when four players, Edward Longfellow and S. Spellen of Toronto and Fred Graydon and Neil Falke of Tecumseh were charged with disorderly conduct during the match. Inspector Dickson, who is a member of the Ontario branch of the A. A. U. of Canada, declared that the accused were fighting, and not playing lacrosse. He placed the blame on Longfellow. Chas. Queris submitted that Graydon had only defended himself when he caught Longfellow by the throat and Magistrate Ellis adjourned this case till called on Monday after Saturday, June 27th.

Neil Falke said that he was on the grand stand at the time the fight with Spellen, which he was supposed to be connected with, came off, and the magistrate declared that there had been a mistake and allowed him to go.

Mary's "Jewel" Memory.

TELEPHONED the police, and that night's papers reported the loss in full. Incidentally, it warned the women of the town again to demand credentials from alluring strangers, particularly men purporting to come from the water, gas and telephone companies. No matter how frequently this warning goes forth, however, there are always some foolish little women who fall for a good-looking scoundrel with an engaging line of talk. Why is it that a woman seems to retain her trustfulness so much longer than a man? No matter what terrible facts she may have she rises from the ashes full of serene confidence again in mankind. Only the woman whose life has badly burned gives up that charitable confidence that seems to be the very essence of a woman's nature. And I don't know which I like better, the woman whose trustfulness traps and demands into impulsive mistakes occasionally, or the utterly sophisticated creature who would against every trivial mishap or salacious cynicism.

To be sure, with some women that delightful air of trustfulness is a cloak veiling utter sophistication, and with others an air of complete sophistication merely disguises a childish trustfulness of which they are ashamed, but taking it all in all, women do retain their trust longer than men, and in the face of innumerable things likely to destroy it. Fortunately, Mary's pretty jewelry

HOW to "CHECK UP" on PERSONALITY

Did You Ever Seriously Try Renovating Your Habits?

By ELEANOR AMES

WHEN cleaning house and looking over last year's wardrobe, did it ever occur to you to renovate your personality? To sit down, without any undue partiality in your judgment and look yourself squarely in the face? To take inventory of what characteristics are splendid and fine, and worth while, to "examine" what are pretty shabby and out-of-date and unrepresentable, and what are utterly hopeless and not worth keeping? Did you ever start such a renovation?

No? Well, a good many of us have, in a sort of desultory way, but also a good many of us have found it extremely difficult to keep that detached, judgment. We have failed in impartiality, and tried to patch up old worn-out habits, and the result has not been satisfactory. Still, maybe the time spent in taking inventory was not wholly wasted.

Rene Detling, who is one of those rare individuals, the American-trained-and-proud-of-it prima donna—and, still rarer, an American prima donna who has never had to hunt for a job—says it is the surest way to progress. Also she says progress is the best word a woman can put in her daily lexicon. Unless you think progress, work toward progress, and are determined to progress (change

Secrets of Health and Happiness

Why Exercise Is Needed to Aid Proper Digestion

By DR. LEONARD KEENE HIRSBERG
A. B. M. A., M. D. (Johns Hopkins)

EXERCISE comes from a Latin root, which means "to drive out of the ark, to work." Possibly this comes down to us from the days of the flood. No doubt Noah, as soon as the waters settled, drove his lazy creatures, pent up in those close quarters for forty days and nights, out into the moist world to work and bring forth fruit.

To choke up your days with barbarous ignorance and deny your life the rich advantage of good exercise is to stifle the flesh and rust up the digestion; to denigrate the muscles and numb the cerebral edge. To be strong of thought and firm of body, to eat like a lion and dig like an ostrich, well disciplined exercises, which teach to dare and to do, are eternally necessary.

Patience may be a makeshift for exercise for ascetics and saints. There may be other ways to acquire fortitude. Yet good digestion waits more on muscular dexterity than most medical schools teach. Here it is correctly set down that unlike toil and hard work, sedentary occupations—which includes all who merely walk and run up and down stairs—preclude your breadbasket's proper powers, and capacity to completely digest what you eat.

If you do not labor by the sweat of your brow, even though you eat less, you must exercise more.

Answers to Health Questions

MISS J.—What is the cause of bad burning spells after eating and talking? Is it from the throat or stomach?

This may be from some obstruction in the throat, stomach or elsewhere. Go to a hospital throat clinic for an examination.

HAZEL—I is true that oranges are gold in the morning, silver at noon and lead at night? If so, how long before breakfast should they be eaten—sweet or sour—and of what real benefit are they?

My hands are always red and my nose red and oily, but the rest of my face is dry. I have lots of blackheads. Would rinsing my face several times a day correct this? I dislike lotions. I used so many I haven't any complexion left.

My feet are always tired and I thought that possibly this had something to do with my trouble.

1. There is no truth in this superstition. Oranges are good all the time. They are excellent laxatives. Eat them immediately before meals.
2. Ice-cold water rinsing is good. Eat more simple food and nothing hot or seasoned.
3. Glycerine and rose water foot baths are good. Wear arch supports if necessary.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and dietetic subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care of this office.

Beauty Found in Comfort

By LUCREZIA BORI
Prima Donna of the Metropolitan Opera Company, New York.

SUMMER beauty depends largely upon physical comfort. If you are clad in unbecomingly warm clothing with tight stays and heavy, dragging "skirts," and if your stomach is overburdened with rich and indigestible foods, you need not expect to have good looks. It is only a waste of time to pursue beauty until you have captured comfort.

The bath is the first element of hot weather comfort. Every one should take two baths a day, and an extra cooling sponge will do no harm if there is time and opportunity for it. The morning bath should be either a tub, shower or sponge in cool water, to which has been added some sea salt or borax or bicarbonate of soda. This will allay the irritation of the skin which frequently comes with excessive heat. Also after the bath, if the body is sponged with diluted alcohol or lavender water or cologne it will add to one's comfort. The night bath may be taken immediately before retiring, or before dinner after the day's work is over. This will be the time when it will give greatest benefit.

If there is a tendency to insomnia or headache caused by the heat, a cloth wrung from hot water and laid on the back of the neck will often quiet the nerves and bring sleep.

Bathing the back of the neck and back of the ears with hot water when the

work of the day is over will rest one as much as a nap.

Clean, dry clothing is another summer necessity. All undergarments should be put on fresh and clean each day. If you wear heavy, dark, and unbecomingly warm clothing, you can wash yourself. Plain cleanliness is preferred to mussy stylishness. Knitted undergarments and crepe combinations are as easily washed as a handkerchief and require no ironing.

For a sponge bath, try a lotion made of an ounce of tincture of camphor and half an ounce of tincture of benzoin mixed with two ounces of cologne. Add just enough to the basin of water to make it fragrant and milky.

Mme. Bernhardt and other celebrated beauties have used a simple rubdown lotion for years with great satisfaction. To make it, put in a pint of alcohol into a quart bottle and dissolve an ounce of camphor gum and two tablespoonfuls of benzoin in it and fill the bottle with water. Shake well, and it is ready for use. Just before retiring it will cool and soothe the body and make sleep possible, and pleasant.

Rid your mind of worry. Don't smile superciliously and say: "That is easy to say, but how about doing it?" If you mean to do it, you can answer with emphasis: "I do not, never did and never will!" Worry never does anything more useful than to make wrinkles. It's a lot harder to do than work. It has nothing in common with beauty, either of face or mind.

Eat simple foods, fruits, salads and vegetables, meat not more than once a day, and heavy rich gravies and pastries not at all. Forget to nibble candy.

Keep your excretory organs active. I will give you the rule for making firm paste which is harmless, palatable and efficient.

Half a pound each of raisins and figs chopped fine with an ounce of lemon leaves. Put in a stew pan with half a pound of sugar and half a pint of water and simmer slowly for about an hour. Pour into a pan and when cool cut into thin squares. Take one at bedtime.

Advice to Girls

By ANNIE LAURIE

Dear Annie Laurie:
I am 17 years of age. I have a young gentleman friend I love very much, and I know he loves me. Yet when he promises me he will come and spend an evening with me, very often he disappoints me. He is in the habit of getting intoxicated when he is with other boys and forgets me. It's the only fault he has. He never goes with any other girl, and has promised me to quit drinking. Should I depend on him or not? T. F. R.

THE promise of a beggar and the word of a drunkard—they are of the same piece of goods.

How romantic it seems to you to be in love with a young man who is "disappointed," and how stupid and commonplace all his "disappointment" really is! There's nothing romantic about getting drunk. Any one can do that, and any one who does it is the last person in the world to trust or to lean upon.

Marry a thief, put your trust in a gambler, tear your heart out of your breast and give it to a careless child for a plaything, but do not fall in love with a drunkard, or let a drunkard make you believe that he is in love with you. He is his own self-indulgent.

My sweetheart who can stay sober, little girl, and let the man who drinks go by on the other side.

Flounces Are the Summer Mode

By MADGE MARVEL

IT is perfectly permissible to call the average young woman of the moment a "flounce" miss. The term applies to her dress more than her manner, although when one is literally flounced from head to toe, she takes upon herself something of the flouncing manner of walk.

The flounce motif is strong in the summer modes and growing stronger. In most cases it has skillfully avoided finishing the skirt and thus distorting the chic narrowness of hem which so pleasingly accentuates the flounciness of the tunic above.

Flounces are beautifully elastic in their trimming possibilities. They may be arranged about the knees of the frock in a group of three, giving the exact fullness at the exact point silhouette. And one of the desirable elements of the flounce is that one may be very exact about it. It may be just the least bit full or very full. It may even be so deep it forms the entire tunic, or so narrow that it becomes a ruffe and is repeated to cover the desired space.

The flounce belongs essentially to the filmy fabrics of which summertime clothes are made. It may be developed in any of them, or in embroidery or silk or chiffon or net or lace.

As for lace, it was never so much used and there were never so beautifully

Three Minute Journeys

WHERE WICKER ALLIGATORS ARE ORACLES

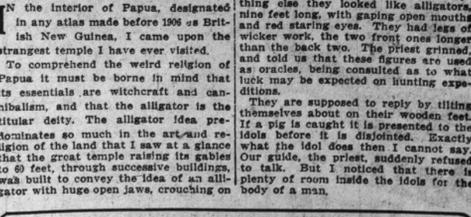

By Temple Manning

the river bank. Words are impossible with which to describe the shape; there is nothing in all architecture, or "Dubu" as it is called, with which to liken it. In length it is quite 50 feet, but the great height of the front tapers off rapidly.

From the muddy bank we crossed a single log to the rickety platform before the "Dubu." The natives, dark and sullen, clothed in beaded masks and human skulls, old and new. But the treasures grew richer as we advanced into the interior. The effect seemed to be to lead up to some great treasure in the center. And, as we advanced, the natives began to leave us. They seemed to grow afraid. One only remained, an intelligent fellow who was the priest. He followed us to the final treasure house.

Five monstrous figures made of wicker work stood before us. More than anything else they looked like alligators, nine feet long, with gaping open mouths and red staring eyes. They had legs of wicker work, the two front ones longer than the back two. The priest grinned, and told us that these figures are used as oracles, being consulted as to what luck may be expected on hunting expeditions.

They are supposed to reply by tilting themselves about on their wooden feet. If a pig is caught it is disjoined. Exactly what the idol does then I cannot say. Our guide, the priest, suddenly refused to talk. But I noticed that there is plenty of room inside the idols for the body of a man.

ORIGIN OF COMMON THINGS

Several theories are offered to account for the origin of the dollar mark. One declares that it comes from the letters U. S. which were placed on the federal currency, and in the hurry of writing were run together, the S being placed over the U. A more probable explanation is that it is a modification of the figure 8, and denoted a piece of 8 reals, or \$1.

The original blue stocking was a man's undergarment. In 1718 there arose a fashion in London of literary assemblies of ladies who met to hear a lecture from a literary character and afterwards participated in general conversation. Still, in fact, a leading lecturer, wore blue stockings, and so gave a designation to the assemblies.

The word humbug is of Irish origin, and means soft copper, or worthless money. It was originally applied to the money issued by James II. at the Dublin mint. It was made of lead, copper, brass, pewter or any other metal he found available, and so was well known among the people as umbug, or humbug.

The first forgery of a Bank of England note was executed by a man who was anxious to make a good impression on his sweetheart. He forged 20 of the notes and placed them in her hands as proof of his wealth. No attempt was made to pass them, but the forgery was discovered and he was hanged. His name was Vaughan, and his execution took place in 1726.

FRIDAY MORNING, JUNE 26.

TRUST THE OLD OR CHANGE THE NEW?

For those who regard the temperance issue in the election as of greatest importance, the discussion, from any practical point of view, must narrow itself down to a discussion of ways and means. There is the indisputable fact that in nine years under Whitney rule the bars in Ontario have been reduced from 2,800 to 1,600.

Against this there is the indubitable record of the Whitney government. The liquor map of Ontario shows that outside the cities and towns there are comparatively few areas in which liquor is dispensed over the bar, and these areas are diminishing annually under terms which ensure that they will never be enlarged.

There has never been a day when the Cabinet of Ontario has been in session during all these ten years that the question of the liquor traffic has not been mentioned in one way or the other. If ever 10 or 11 men in this world endeavored to do what in them lay to prevent reference to carrying out of a pledge with regard to the liquor traffic, the members of this government have done it, and we will never make a petty party cry out of it.

Let me say to the temperance people in the Conservative party, and outside of it—because that includes 90 per cent. of the people of this province—who are anxious to see everything done that can be done to minimize the evils of the liquor traffic, that the end is not yet, and from time to time the government of Sir James Whitney will go on passing progressive measures as time may prove them to be right, in order to minimize the evils of the traffic. Exactly what form that legislation will take I cannot say. We have never during political campaigns announced what our legislation would be. We have come to the floor of the house and stated what our position was, and before that session rose, that becomes law, and it will always be in that direction of further reduction of the evils of the traffic in Ontario.

The question is whether the people will trust Sir James Whitney to continue a policy which has produced such satisfactory results in the past, or will they accept the representations made by a party which has done nothing in the past and which may be said to have been only recently inspired by Sir James Whitney's record with a desire to surpass it.

GOLD PRODUCTION AND PRICES. Those authorities that asserted and insisted that the great increase in gold production, which characterized the previous years of the century, was responsible, mainly, for the higher cost of living, may soon have the truth of this theory put to the test. For if

they were right it must follow as a natural consequence that any marked decrease in gold production will be accompanied by a corresponding fall in prices. This, too, will be made all the more evident thru the scramble for gold now so markedly in evidence among the principal European banks.

Between 1896 and 1912 the world's production of gold totaled almost six thousand million dollars, an annual average of about three hundred and thirty-five millions. But for the last five years it has been merely stationary, at about \$455,000,000 per annum, and is now showing signs of recession, unless new fields are discovered and opened.

IS THE DOMINION ALLIANCE A WARWICK? Last night's meeting in Massey Hall, in the interests of the temperance campaign, was a bigger meeting than that of Tuesday night. There were more on the platform, and as on Tuesday, every other part of the hall was crowded, but not with voters.

Editor World: In your editorial of today's issue, re "Postoffice Square," you state some matters that are really not facts. First, the city council is not "usually the least public-spirited body in Toronto." But, as you know, the aldermen have to preserve their votes—especially the Tories, who at next year's elections begin to loom up.

TRAFFIC INTERCHANGE WOULD SWELL REVENUE. According to the report of Works Commissioner Harris, interchange of traffic between the Toronto street Railway and the civic car lines would increase the net revenue of the latter by \$,002,718 a year.

MILITANTS' ARSON SQUAD TRIED TO BURN CHURCH. BELFAST, Ireland, June 25.—An "arson squad" of the militant suffragettes caused extensive damage to the Episcopal Church at Ballyjesson, near here, at an early hour today.

CAPITALISTIC RIGHTS AND DUTIES. New light on the devious methods pursued by capitalists who want to establish monopolies was cast in the course of the suit to dissolve the American Can Company.

AND HE DID. WHAT AN UGLY DOG! HE HEARD THAT IF YOU LOOK ONE IN THE EYE, HE WONT BITE YOU. AND HE DID.

AND HE DID. This, however, in no way affects the general value of the evidence adduced in this particular case. Witness after witness testified that he had received prices for his business far exceeding its real value. For example, \$100,000 in cash and \$100,000 in stock of the Can Company was paid for machinery that originally cost \$18,000.

Firearms and Heiresses Subject of Amusing Debate in British Parliament. Canadian Press Despatch. LONDON, June 25.—American firearms and American heiresses were the subjects of some amusing banter to-day between the rival Irish factions in the house of commons.

LABOR AND POLITICS. It is very evident that the Conservative party has made a mistake in opposing the re-election of Mr. Studholme in East Hamphire. Next to the turning down of Mr. McNaught in Northern Ontario, it is the greatest tactical error from which the party as a whole and its leader will suffer.

BLOODY BATTLE AT ZACATECAS. Thousands Reported Killed or Wounded in Final Rebel Assault. Canadian Press Despatch. ZACATECAS, Mex. June 25.—After four days of preliminary fighting the final assault of Zacatecas took place Tuesday, resulting in the capture of the city by the constitutionalists at 7:30 p.m.

ENQUIRY FINISHES HEARING WRECK

been opened up, while he believed the water reached other parts of the ship through open water-tight doors and portholes. That portholes admitted water was claimed in statements of passengers read during the day.

Mr. Reid also gave an ingenious explanation of the bending of the Stord's bows to port instead of to starboard, as would have appeared more likely.

This enquiry looks like creating a record for investigations of its character, being much shorter than the Titanic and a number of other probes into big marine disasters.

Lord Mersey commented on the speed with which the enquiry had been carried on, and also on the fairness with which counsel have acted towards each other, to reporters this afternoon.

Sift Evidence.

When speeches of counsel have been made the commissioner will hear witnesses in Quebec, in private, when all the evidence will be sifted by the aid of the jury, which will be appointed by the Dominion and British Governments. It is expected that these sessions will last about two weeks.

It is thought the decision of the commission will be delivered at Quebec, altho this is not yet decided upon.

With the exception of Capt. Kendall, First Officer Jones and Engineer Brennan, all the C. P. R. witnesses were allowed by the commission to go home on the Virginia, which sailed for Liverpool this afternoon. The Stord's witnesses were given a similar permission yesterday.

How Bows Were Twisted.

John Reid, the naval architect retained by the Stord's owners, was asked by Butler Aspinall, K. C., leading counsel for the C. P. R. what caused the stem bar of the Stord to be turned to port. He put it to Mr. Reid that the weight of the Empress, 18,000 tons, if it was moving forward from port to starboard across the bows of the Stord would twist the stem of the Stord over to the starboard.

The witness argued that the angle of penetration would decide it. He thought the Stord had struck the Empress at an angle of 40 or 45 degrees and that the lower section of her stem was struck first and deflected to starboard and that the upper section was prevented from going in the same direction by the effect of the forward motion of the Empress would then assert itself and the Stord's bows would be turned to port and, as it were, folded over at the crumpled plates of the liner, hooking the collar, until she swung round sufficiently to unlock.

Mr. Aspinall suggested that, proceeding on the assumption that the Empress was moving across the Stord's bows from port to starboard that the collar's helm had been put hard astar and her engines reversed, the tendency of the Stord's bows to starboard, unless, as explained by Mr. Hillhouse, the smashing in of the bows was caused by the weight and momentum of the Stord hitting the Empress very nearly at right angles. To this the witness could not agree and held that the helm action and the effect of the reversed engines had not begun to affect the stem of the collar. He re-

SIXTY YEARS A QUEEN

Rev. John McNeill of Cooke's Church made a hit with a touch of Scotch humor.

His voice was nearly done, and when he wanted it he belted "as one not confined to pulpits and then sent to the British Museum."

Rev. Ben. H. Spence, secretary of the Ontario Alliance, in speaking of the present temperance situation and the relation of the present campaign to that situation, assumed that the only good element in the Ontario Alliance was the element of prohibition in it.

He referred to a local opinion map which had been circulated, as "one of the most miserable misrepresentations ever put in printer's ink."

He stated that on that map there were no less than 137 lies.

When asked, he said, that the present government had been to a great degree responsible for the progress made in the fight for temperance.

He said that the government had built up our organization and should not claim the credit for the fruits of our endeavors.

The streets came when the government, call it by what name you like, must do one of two things, it must either exercise to a greater extent its prohibitory power, or give us more power in our fight for prohibition.

It can no longer maintain a dog-in-the-manger policy. Either it must do it, or let it alone.

Licenses Were Reduced.

"It is true that licenses in the province have been reduced, as the Conservative party promised, but they were reduced not by the government, but in spite of the government and its three-fifths clause, which is a liquor temperance measure."

The pledge to remove administration from political influences was not carried out. That which promised full endorsement in administration had been done for a while and they had given praise. For three years, however, it had been growing disgraceful.

Mr. Rowell was asked what message might have been sent to every slum, to every dive, every tendar to every prison and to every asylum.

PROMINENT MEN ATTEND FUNERAL

Sir James Whitney and Many Others Paid Last Respects

TO HON. S. H. BLAKE

Memorial Service Will Be Held at St. Paul's on Sunday.

The funeral of the late Hon. S. H. Blake was held yesterday from his home 44 Maple avenue to St. Paul's Church and from there to St. James' Cemetery.

The hour set for the funeral was 2.30 but long before this time the empty pews in St. Paul's Church were taken possession of and when the service commenced the church was filled to its utmost capacity by old friends and acquaintances who had assembled to pay their last respects to one who had been long among them.

The chief mourners were Mrs. S. H. Blake, Hume Blake, W. H. Blake, Hume Cronyn, Hon. Senator Kerr Thomas Rhineland of New York, and others.

Among those present were Sir James Whitney and several members of the cabinet, the Council of Wycliffe College who attended in a body, several church dignitaries including the Bishops of Toronto and Huron, also Archdeacon Dobbs of Kingston, representing the Diocese of Ontario.

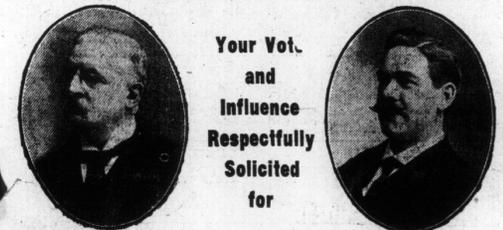

The funeral arrangements were in charge of A. W. Miles.

RHUBARB AND FIGS. A most excellent spring sauce is made with stewed rhubarb and figs. The proportions require a third as much of figs as you have rhubarb.

PRESERVING WITH SYRUP. There is among the syrups on the market a corn or maize syrup that is now employed sometimes as a sweetener in preserving, using it either in whole or in part. It is not so sweet as the syrups made in preserving with cane or beet sugar, and is sometimes used in combination with them.

Rosary Hall.—(Special)—The recent garden party held on the delightful grounds of Benvenuto was the opportunity for The Sunday World photographer to secure a series of pictures that will not only interest all who were fortunate enough to attend, but their hundreds of friends. The views include a group of flower girls, the attendants at the refreshment booths, groups of out-of-town and local visitors and many in fancy costumes, including the gypsy group, the cigarette group and many others. These pictures will appear in this week's article of The Sunday World, which is for sale by all newsdealers and newsboys.

Repudiate Circular

Rev. Ben. Spence and Canon Greene Claim Temperance Circular is a Fraud

Rev. Canon Greene, president, and Rev. B. H. Spence, secretary of the Dominion Alliance, have repudiated the circular to which Sir James Whitney made reference in his Massey Hall speech on Tuesday night. In a signed statement given out yesterday the situation is explained by these two gentlemen as follows:

"Neither of us saw the leaflet in question until it was printed and partly distributed. As soon as the matter came to our knowledge, and the source learned, further distribution was stopped immediately.

"Upon enquiry, we learn the facts to be as follows: An earnest friend of the temperance cause, desirous of aiding the candidature of Messrs. McKenzie and Moss in Northeast Toronto, at his own expense, undertook to issue this leaflet.

"The last paragraphs of the leaflet are a

quotation from a manifesto recently issued officially by the Ontario Branch of the Dominion Alliance, with the change of the word 'Ontario' to 'Toronto.' Our names were signed directly following these paragraphs in the manifesto, and all are printed last in the leaflet, without appearing as a quotation. The impression is thereby conveyed that the names are attached to the entire leaflet.

"The document in question was not passed upon by any committee of the Alliance, and was one which neither of us would have either official authority or personal inclination to sign.

"We regret the unauthorized use of our names and the name of the Alliance in this connection, but desire to exonerate from any wrong intent the persons who made the unfortunate mistake.

"(Signed) Richard W. E. Greene, Ben H. Spence."

So fresh and unspoiled, so primeval is the charm of the enchanting lakes Rosseau, Joseph and Muskoka that it is no wonder they are a favorite haunt of those most fastidious of all holiday makers—honeymooners. Dozens of comfortable hotels offer rest and comfort, with everything at its best this month and next. For folder with list of hotels and all information, ask any railway ticket office or write Muskoka Navigation Co., Gravenhurst.

Royal Muskoka Hotel offers unusual comfort and recreation facilities. For reservations apply early to B. E. Laclair, Manager, 220 West King St., Toronto. Phone Adel. 1567.

GOOD DRINKS FOR INVALIDS

The following is a list of very good and refreshing drinks that invalids may take without fear of harming them, and which can be made very palatable. Much of the enjoyment of drinks, or in fact anything to eat, to an invalid depends upon the way it is prepared and served. The greatest care should always be taken with anything that is to be given to invalids, as for instance, all drinks that should be served cold should be very cold and not iced water. The same rule applies to anything that should be hot. Never give a lukewarm thing. By so doing your patient may refuse the entire meal. When albumen water is ordered for your patient make it in this way: Beat up a good egg with the white of two fresh eggs; be careful first that you remove any thread or stringy bits. Any of this taken into a patient's mouth who is sensitive may cause a refusal to take any more. Into the beaten white pour a half a pint of boiled water that has been iced, then beat again thoroughly. If you wish to give albumen water to a baby the proportions are the white of one egg to a pint of boiled iced water. Lime water is another thing that is ordered by the physician, and can be made at home very successfully and cheaply. To a pump

SMASH TRUSTS BOOM BUSINESS

President Wilson Says Legislation Under Way Will Mean Great Trade Revival.

Canadian Press Despatch. WASHINGTON, June 25.—Under a "new constitution of freedom" business given by anti-trust legislation soon to be passed by congress, President Wilson today promised the country the greatest business boom in its history. This was the president's final answer to the opponents of trust legislation at this session of congress and to prophets of evil times, delivered with determined expression and every word emphasized with a clenched fist.

"We know what we are doing," said Mr. Wilson. "We purpose to do it under the advice for we have been fortunate enough to obtain the advice of men who understand the business of the country; and we know that the effect is going to be exactly what the effect of the currency reform was, a sense of relief and security."

The president spoke to a group of Virginia editors in the east room of the White House, but his assurances were intended for the country. News of the failure of the H. B. Clafin Company in New York had reached the White House earlier in the day, but the president did not mention the incident.

BIG CROWDS AT ARENA GARDENS

"Neptune's Daughter" Provided a Great Feature at Movie Exhibition.

A BORN WARRIOR

Warner's Feature Has Two Splendid Photo Plays to Be Shown Today.

Yesterday was by far the most successful day of the Motion Picture Exhibition. An enormous crowd visited the Arena through the day, many being present as early as ten o'clock and expressed keen disappointment that the picture "Neptune's Daughter" would not be shown until 2 o'clock.

By the time the picture was ready to be shown for the first time a crowd of five hundred people were present, quite a number being unable to obtain admission into the theatre.

Splendid Pre-Action. Never for one moment through the day did the operator stop the show, and the picture was shown no less than five times and only between the hours of 6 and 8 was there a vacant seat. At eight o'clock the crowd waiting to get into the theatre was sufficient to fill the place twice over.

It is safe to say that never before was a crowd so well pleased with a picture. It is a photo-play which has never been equalled. It is a fairy tale type but so beautifully it is executed that men and women forgot they were no longer children. The chief feature of the whole play was the wonderful versatility of Miss Annette Kellermann. Her swimming and diving are household knowledge. Her beautiful form is recognized by all, and dancing is known to many, but the majority of those who witnessed the picture yesterday were greatly surprised at the magnificence of her action which was masterly.

Altogether no less than 4,000 visited the Arena during the day.

A "Born Warrior." The program for today will consist of two specially attractive features which will be presented by the Warner Feature Company. The first will be "A Born Warrior" a story dealing with the life of Napoleon the Great, a wonderfully interesting feature in six parts. The second will be "A Mother's Love," which Warner's Company claim to be the sweetest domestic story ever presented. This feature, which is in

G. T. P. TO RAISE TEN MILLIONS

Money Sought in London for Financing Construction of Various Branch Lines.

Canadian Associated Press Cable. LONDON, June 25.—Ten million dollars worth of one-year bills were placed yesterday by the Grand Trunk Railway on the basis of 4 1/2 per cent. These are secured on Grand Trunk 4 per cent. debenture stock, taken at the value of 70, which is considerably below the market price, and are repayable on July 15, 1918.

The money, it is explained, is required for the financing of the Grand Trunk Pacific Railway and various branch lines. It is intended during the coming years to dispose of bonds guaranteed by Dominion and provincial governments, the proceeds of which will be used to reimburse the Grand Trunk Railway Co. for amounts advanced.

NO LEGISLATION WILL BOLISH IT

W. K. McNaught Says Education Will Lessen Liquor Evils.

OUTSIDE OF POLITICS

Geo. H. Gooderham Says Question Should Not Be Dragged In.

"The Reform party are making the greatest effort in their history in the hope that the Conservatives will be confident of the result, that they will be lukewarm in getting out the vote," said Hon. J. J. Foy at a meeting held in Broadway Hall last night in the interest of the Conservative candidates in Toronto S. W.

Addresses were given by Hon. J. J. Foy, Conservative candidate for seat "A"; George H. Gooderham, Conservative candidate for seat "B"; W. K. McNaught, W. J. Haver of the Trades and Labor Council, and Aid. Cameron, W. H. Smith, president of Ward Four Conservative Association, was in the chair.

Mr. Foy declared that it was not the bar that made people intoxicated; it was the liquor, and that if the Rowell followers were sincere they would be crying for the abolition of liquor and not the abolition of the bar. Instead they say: Do not buy it by the glass over the bar, but you can go to the liquor store and get it by the barrel. It was certainly not a practical temperance policy.

Mr. Gooderham contended that the temperance question was one which should never have been dragged into politics. In this connection Mr. Rowell had brought the church into politics, and the result would prove harmful, not only to the cause of temperance, which would be set back years by it, but also to the churches themselves.

Not by Legislation. "Not by the way Mr. McNaught described Mr. Rowell's abolition of the bar policy. Mr. McNaught declared he did not believe temperance could any more be forced by legislation than religion. It was a matter of education, but it was not weaklings who had to be withheld from temptation by law, but men who could resist temptation that Canada should raise.

He prophesied that at least ninety Conservative members would be returned on Monday.

SUFFRAGETTE CARRIED AN ARSENAL IN BAG

Canadian Press Despatch. LONDON, June 25.—The trial today of the suffragette Miss Irene Casey, who was arrested at the time of the King's recent visit to Nottingham, has revealed that she was carrying in her dressing bag a regular arsenal, including four quarter-pound boxes of high explosive, detonators, 20 feet of fuse, a bottle of benzine, chisel, pliers and glass cutter.

HOTEL 400 YEARS' OLD. Very shortly the George Hotel, Reading, England, more than 400 years old, will be sold by auction. The George was doing business in the days when the Abbot of Reading was one of the great men in the land, and it stands in dignified repose in a busy street, not far from the gaunt ruins of the abbey. High over its arched entrance, on a little shield, is the date of its foundation, 1506. Reading was then a village of 2000 inhabitants.

four parts, features Miss Marion Leonard. In the evening another grand dance will be held. Miss Rose Tapley in a telegram addressed to the exhibition management announced that she would be pleased to receive her friends at the Arena all day Saturday.

This will give the thousands of people of this city an opportunity of speaking with a lady who has charmed them by her acting in so many splendid silent dramas.

GOVERNMENT CARRY BUDGET

(Continued From Page 1.) essential by every Liberal financial in the past. He described the chancellor's theory as being that the government should take from the rich and give to the poor in doles. He wanted to know where this theory was to end. Those who provided the money, he contended, had the right to insist on reasonable economy and on the expenditure being made in such a way as to give the most benefit to the people.

Would Drive Out Wealthy. If the wealthy were to be regarded as much cows and had imposed on them greater burdens than were known elsewhere, they would be driven into other countries. That this process was going on now, he argued, was proved by the necessity that the chancellor of the exchequer felt himself under of taking foreign investments. What would be the position of the country today if it were suddenly faced by a great war? Since the chancellor of the exchequer took office consuls have fallen from 87 to 74, while in the same period German national securities have fallen only five points.

"A fall of 13 points," said the opposition leader, "in what in war would be our greatest national asset, is the contribution of the right hon. gentleman to the security of the country."

THIS CONVENTION BEST EVER HELD

(Continued From Page 1.) club, that acts as host to the visitors. The entertainment this week has been of a most hospitable and generous character. The crowning feature, it seems to me, was the military tattoo on Wednesday night. It was a novel entertainment, one that possibly not a single one of the delegates had ever seen before. The presence of 17,000 people in the grand stand was itself inspiring. The manoeuvring of the 48th Highlanders and the Boy Scouts, the music of the eight or ten bands, the work of the athletes and the dancers, were of a most excellent character. The most impressive thing in the entire program, in my mind, was the playing of the massed bands of that beautiful hymn, "Abide With Me" after the lights had been extinguished and as the audience sat in expectant silence.

"When we leave Toronto to return to our homes it will be with the deep satisfaction of knowing that the convention of 1914 has been the most profitable and the most inspiring of any we have ever held."

CLAFIN FAILURE IS LARGEST IN U. S. HISTORY

Huge Chain of Departmental Stores Unable to Get Financial Aid, Forced Into Bankruptcy — Thousands of Banks Are Affected by Collapse.

Canadian Press Despatch. NEW YORK, June 25.—Failure to secure financial aid from J. P. Morgan & Co. and other Wall street banking interests was followed by the failure of the big drygoods firm of E. B. Clafin & Co., an announcement of which was made today.

These bankers, it was learned, advanced the company several million dollars about two weeks ago, but the hundreds of note-holding banks throughout the country continued to press their claims until it became evident that practically the whole \$20,000,000 would have to be raised to save the company from failure.

The bankers believed that a reorganization and a reorganization of the H. B. Clafin Co., which would include its separation from the United Drygoods Co. and the Associated Merchants Co., was the wisest course to pursue. At this meeting Mr. Clafin is said to have announced his intention to resign from the two latter concerns.

Many Banks Affected. From 3000 to 6000 banks in all parts of the United States compose the bulk of the Clafin creditors. They hold notes aggregating the major part of the Clafin assets. These notes are said to have been issued by the various Clafin stores, endorsed by H. B. Clafin Co., and the proceeds used, when discounted in financing their needs.

The collapse of the undertaking, with its chain of nearly 30 stores throughout the United States, marks the biggest mercantile failure in the history of the United States. The company, it is estimated, owes more than \$20,000,000, which at the present time it is unable to pay. Its assets are said to be \$4,000,000.

Immediate steps to protect the interests of the note-holders and the merchandise creditors were taken by the appointment of committees representing each.

The failure today marked the fourth financial crisis of the H. B. Clafin Co. since it was first established in this city in 1843. From its humble beginning of 70 years ago, the concern grew to be the greatest drygoods enterprise in the country.

DOMINION INSPECTS MORE METERS THAN EVER

Canadian Press Despatch. MONTREAL, June 25.—Orman Higman, chief electrical testing engineer of the Dominion government, told the Canadian Electrical Association today at the convention being held in the Ritz-Carlton Hotel, that his department last year inspected 150,000 meters compared with 33,000 in 1908. Mr. Higman stated that after Nov. 1 next gas would be tested for heating as well as illuminating qualities. A number of papers of a technical nature were read. Officers will be elected tomorrow.

LIBERAL ELECTED IN ROSTERHORN

SASKATOON, Sask., June 25.—Complete returns from Rostern by-election give W. B. Bashford, Liberal, a majority of 271. In the general election in 1912 the Liberal majority was 120.

MOVES' RADIAL WILL BE SOLD

Municipalities Which Backed West Shore Project Urge Speedy Arrest of Vanished Promoter.

Canadian Press Despatch. GODERICH, June 25.—At a meeting today at Kintail of representatives of the municipalities involved, it was decided to advertise the Ontario and West Shore Railway for sale by tender. The attorney-general is also to be asked to endeavor to apprehend speedily J. W. Moyes, the promoter of the defunct road, and to take steps to extradite him if necessary. The solicitors were authorized to proceed against the Toronto General Trusts Company and the brokerage firm of A. E. Oler & Co., Toronto, to recover moneys alleged to have been paid out by them illegally. These claims amount to \$23,000.

There was some suggestion of the municipalities completing the road and linking it up with the prospective hydro-radial system, which is by no means an improbable outcome. The proposal at present is to sell the road by tender as at present laid and the charter, which includes a right-of-way to Owen Sound. The condition is that the purchaser must finance the line.

AMENDING BILL SURE TO SUFFER

Will Be Given Second Reading in Lords and Be Dramatically Changed Later.

Canadian Associated Press Cable. LONDON, Friday Morning, June 26.—In view of the second reading debate on the amendment bill, which begins in the house of lords on Wednesday, the Unionist peers and Unionist leaders in both houses are earnestly conferring as to the most practical method of safeguarding Ulster's interests. At a large meeting of Unionist peers at the house of lords yesterday, it was decided almost unanimously that the second reading should be given to the home rule amendment bill with a view to its drastic amendment later. This decision is not in harmony with the views of the "die-hard" peers, who are anxious to reject the amendment bill.

Lord Willoughby de Broke has put down a motion to this effect. He has considerable support, but not enough to defeat the Unionist peers who follow the official head. The effect of the peers' decision to give the amending bill its second reading will be to postpone still further the renewal of conversations between the party leaders on the Irish question.

TO BAN DEHORNING OF GROWN CATTLE

Humane Society Proposes Stopping of This Species of Cruelty.

During the last month 163 stray cats and over 40 dogs were received at the shelter of the Toronto Humane Society. These figures, the secretary stated at the society's monthly meeting yesterday, create a new record. To deal with the evil more completely, the society's motor ambulance, the first of its kind in Canada, will be placed upon the streets early in July. The interior of the ambulance will be fitted with cages to accommodate various small animals.

It was also announced that the society intends to deal with the cruelty to cattle by dehorning, as it is generally practiced. Evidence is being obtained from experts all over Canada, and in all probability a bill will be promoted in the Dominion Parliament to restrict dehorning after a certain date, the society contending that dehorning is unnecessary if stock producers will go to the trouble of preventing horn growth when the animals are young.

At the meeting yesterday the advisory committee was requested to endeavor to get the law strengthened so that heavier penalties for cruelty could be imposed upon railway companies and others responsible for the shipping of live animals. A number of convictions have been secured in respect of cattle, sheep and hogs killed as the result of overcrowding, but it is felt that the penalties are not large enough to act as a deterrent against overcrowding.

HUNGER STRIKE

Hunger strikes are evidently no modern idea, as evidenced by the following entry in Evelyn's diary of July 8, 1656: "I had the curiosity to visit some Quakers here (Liswich) in prison. One of these was said to have fasted 20 days, but another, endeavoring to do the like, perished on the tenth, when he would have eaten, but could not."—London Chronicle.

BURNED KETTLE

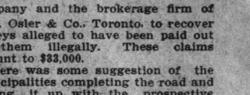

If a kettle, to be used for fruit preserving, has been slightly burned on the bottom, or if there is a fear of the syrup burning, put several ordinary china marbles in the kettle. The heat will cause them to roll about constantly and thus do away with the necessity of stirring. This experiment has been tried and found a helpful one.

APRICOT JAM

This is delicious when made from the well-known dried apricots. Buy three pounds of apricots. Wash them well, cut up each apricot into four and put to steep all night in three pints of water, and into them squeeze the juice of three lemons and add a pound of cooking apples, cut up small. Simmer this for ten minutes and then measure the pulp, and for each breakfastful allow three-quarters of a pound of preserving sugar. Put this into the pan and add an extra four pounds of sugar. Cook again for a few minutes, then stir in the apricots and the water they have been soaking in and cook until the jam gets thick. Rhubarb can be used when in season instead of apples.
