THE LEGISLATURE
WILL OPEN
JAN. 24

Official Announcement Forth-
coming To-day—Sir James
Does Not Expect Unusually
Heavy Session, But Grist
for Legislative Mill is Plenty
—Finances Sound.

To-day's Ontario Gazette will con-
tain the proclamation of His Hon.
Lieut. Governor Gibson, summoning
the members to attend the session of
the twelfth parliament of the legisla-
tive assembly of the Province of Onta-
rio on Tuesday, Jan. 24, inst., at
3 o'clock of the afternoon of the
aforesaid date.

The announcement of this early
date will not come as a surprise to
the readers of The World, as it is but
one week earlier than the date re-
ferred to a few days ago as that look-
ed for by the officials at the parlia-
ment buildings. The date, however,
is the nature of a bombshell to the
members of the legal profession, who
were relying upon a prediction given
as semi-official in another newspaper,
which named March 19 as the proba-
ble date for the opening.

Not a Heavy Session.
Sir James Whitney stated to The
World last night that although the ses-
sion was called at the earliest date
that the progress with the comple-
tion of the west wing rendered con-
venient, it was not because of any
expectation that the session would
be excessively heavy or its duration
prolonged. The indications were for
an ordinary, useful
session.

Delicate and difficult will be one
issue to be dealt with by the legisla-
tive chamber, that of dual languages
in the schools.
Graded Liquor Licenses.
According to a statement from a
well-informed source, the provincial
treasurer has a measure well advanced
for submission to the house for a
graded higher license system with
respect to the sale of intoxicating
liquors.

The reports of the Hydro-Electric
Power Commission and of the Timis-
taming and Northern Ontario Rail-
way will each of them team with de-
tails of substantial progress, and
whatever recommendations the com-
missions may make in the direction of
the extension of the two great pro-
vincial enterprises are assured of the
overwhelming support of a majority
of the members of the house.

A Pleasing Budget.
Hon. Col. Matheson, provincial
treasurer, will again have a most sat-
isfactory financial year, which closed
Oct. 31. The returns will show that
the current revenue and expenditures
have been well balanced, and that the
estimates presented last spring were

END OF BOUNDARY DISPUTES

Sir George Gibbons Expects Commis-
sion's Work to End in 1911.

That all the international bound-
ary disputes between Canada and
the United States will be settled
within the present year, is the opin-
ion of the members of the Interna-
tional Waterways Commission,
which was in session yesterday af-
ternoon at the King Edward. To
determine the boundaries of Canada
and United States waters, according
to the treaty of 1808, is the only
problem now left for the present
commission to solve. All other mat-
ters of dispute between the two
countries have been taken up by the
last commission.

The meeting yesterday was pre-
sided over by the chairman, Sir
George Gibbons. The other Cana-
dian members of the commission
present were: Messrs. George Clin-
ton, L. Costes, W. J. Stewart and W.
A. Wilson, secretary. The United
States representatives were: Prof.
Haskell of Cornell University and
Gen. Ernst of Buffalo.

MR. BORDEN'S PROGRAM

Conservative Leader Keeping in
Touch With Local Organizers.

R. L. Borden is supposed to be in
Toronto on a private trip, and he is
on a private trip, but here is what he
did yesterday:
Lunched with E. B. Osler, M.P.,
at the York Club.
Dined with directors of Albany
Club.
Met members of the Central Tor-
onto Conservative Association with
Mayor Geary as president after din-
ner.

To-day he will receive the officers of
the various local ward associations
between 3 and 6 o'clock in the King
Edward Hotel, and then he will "dine
out" with the members of the provin-
cial cabinet.
At last night's confab in the Al-
bany Club there were several mem-
bers of the provincial government
present, and all the local members of
the federal house presented them-
selves.

A Motor-Driven Liner

NEW YORK, Jan. 6.—A
steamship line plying between
this port and Russia announces
to-day that it will put into
commission next September, an
11,000 ton transatlantic "motor
boat," equipped with internal
combustion next September, an
modification of the now building on the
Clyde. One of the German lines
also has building two 8000 tons
motor driven freighters. If
this experiment proves a pro-
nounced success, the days of
steam will be numbered.

Canadian Envoys
Are in Washington

Will Meet President Taft This Morn-
ing—Preliminary Meeting of Rec-
iprocity Conference in the
Afternoon.

WASHINGTON, Jan. 6.—Reciprocity
negotiations between the United
States and Canada, which were ad-
journing with a three-day conference
at Ottawa last November, will be re-
sumed here to-morrow. W. S. Field-
ing, minister of finance, and William
Paterson, minister of customs, the
Canadian representatives, arrived
here to-night. Chandler P. Ander-
son, counselor of the state depart-
ment, and Charles M. Pepper, of the
bureau of trade relations, who will
represent the United States, will
present the Canadian envoys to Pres-
ident Taft at the White House to-mor-
row morning, and in the afternoon
the reciprocity question will be first
tackled in a conference, in which
Secretary Knox is expected to partic-
ipate.
Not a Heavy Session.
L. P. Brodeur, minister of marine
and fisheries, and Sir Allan B. Ayles-
worth, minister of justice, are expect-
ed here in connection with the ad-
justment of the Newfoundland fish-
eries question, and President Taft
will receive all four members of the
Canadian Cabinet, as well as Earl
Grey and Sir Wilfrid Laurier, pre-
mier, to a dinner at the White House
on Wednesday evening.

SIX BELIEVED TO HAVE
PERISHED IN CHINATOWN

More Than a Hundred Chinese and
Many White Women in Building
When Fire Started.

NEW YORK, Jan. 6.—Six persons
are believed to have perished to-day in
a fire which destroyed "the house of
five entrances," a five-story lodging
house in Chinatown. Two bodies have
been recovered, and firemen who ex-
plored the ruins say that four more
are still in the ruins of the third floor.
The last fireman to leave the building
said that one of the four bodies was
that of a woman.
More than a hundred Chinese, and
many white women were in the build-
ing when the fire broke out in the
second storey and threatened to cut off
a rapidly that swept upward with
desperate efforts to rescue everybody,
and believed that they had succeeded,
they found Lee Ghu Fung huddled in
the charred ruins of his bed. On the
third floor lay the body of Lee Yee Yu,
his head beneath the bed.
The property loss is estimated at
\$150,000.

MR. SIFTON DENIES.

OTTAWA, Jan. 6.—The secretary of
the Canadian Conservation Commission
has issued an official denial that the
government has been asked for \$25,000
for the conservation of forests. Mon-
sieur Sifton has no such idea as
part of his plans.

HEARD VOICE SAY
"SHUT UP, KEEP
QUIET"

Witnesses Tell of Noises In-
vestigated on Night When
Miss Brimacombe Met Her
Death—Matthews, Intoxi-
cated at Supper Time, Had
Invited Her to Sit By Him.

COLBORNE, Jan. 6.—(Special.)—It is
"as you were" in the position of both
the crown and defence after an all-
day's sitting at to-day's session of the
preliminary hearing into the charge
of murder against Henry I. Matthews,
Jr., charged with the murder of Johanna
Brimacombe on Dec. 17. John
Mills, J.P., and Robert Snetting, J.
P., are the presiding magistrates. E.
Gus Porter, K.C., is conducting the
case for the defence, and W. P. Kerr,
K.C., crown attorney, is looking after
the prosecution.
The evidence taken in the morning
was largely corroborative of that taken
at the inquest.
Helen Erbes, dining-room maid at the
Eristol Hotel, spring a sensation in
the afternoon when she said that when
Matthews came in for dinner she saw
that he had been drinking. Later, when
she invited Miss Brimacombe to come
and sit beside him, placing a chair
handy for the purpose, she ordered
him aside, but Miss Brimacombe was
inclined to accept the invitation.
It sounded like a scream.
Joseph McMurry said the noise he
heard at the head of the stairs was
loud, like a woman's voice. It sounded
like a scream. He avoided Mr. Kerr's
question as to whose voice it was.
"Was it not the dummy?" counsel
asked.
"It was the dummy, I thought," was
the answer.
The witness confirmed the previous
evidence of Matthews being seen down-
stairs with his vest open and his
watch dangling from a guard. He
couldn't explain why he hadn't men-
tioned to Matthews the noise that had
attracted his attention.
"Are you sure now, Mr. McMurry,
that it was the dummy that made the
noise?" asked Mr. Porter.
"No."
"You first thought it was made by
Teasdale and his wife?"
"Teas-
d."
"You would not undertake to ven-
ture any opinion that might be relied
upon?"
"No."
Nelson Murphy corroborated McMurry's
evidence as to the noise, and as to
his ascending the stairs with Smith.
While he likened the noise to that of
the "dummy," he persisted in the
thought that it came from Teasdale
and his wife, engaged in a wrangle.
Murphy firmly resisted Mr. Kerr's
pressure that he might have heard a
man's voice in the room, and repeat-
edly dodged the question as to what
it was the voice of a man or a
woman.
"Didn't want to get into trouble."
"Did it sound to you like the voice
of either Mr. Teasdale or Mrs. Teas-
dale?"
"No."
"Why didn't you go further?"
"He could not tell whether the sound
indicated pain or pleasure, but thought
it meant distress. Contrary to his evi-
dence at the inquest, Murphy said he
did not know there was a "dummy"
in the house.
Murphy told Mr. Porter that Mat-
thews, when he came down stairs, did
not look like a man who had come
through a severe struggle. He did not
look like a man who had just had a
forcible encounter with a woman. In
accordance with the testimony of Bert
Rogers, the witness said that it was
after he left when Matthews came down
stairs, and that, under the circum-
stances, he might not have had super-
ior. John Smith, who went up stairs with

INSPECTION OF MILK BOTTLES.

OTTAWA, Jan. 6.—By order-in-coun-
cil, the duty of verifying all glass
bottles, pipes and measuring tubes
used in testing milk or cream has been
assigned to the standards branch of
the inland revenue department. All
that are found correct, to wit, one-
tenth per cent, will be stamped by the
chief inspector of weights, and those
that do not test to the standard of cor-
rectness are to be destroyed.

CRUISER BUILD OF SHIPS
FOR ATLANTIC SERVICE

Sir Charles Tupper Has a Project
For Developing Trade and Pro-
tecting Grain Routes.

MONTREAL, Jan. 6.—(Special.)—
Sir Charles Hibbert Tupper arrived
here this evening and will leave to-
morrow evening for Vancouver,
accompanied by Lady Tupper.
Sir Hibbert treated a very interest-
ing conversation he had with Sir
Charles Tupper during his six days'
sojourn in London. The ex-prime
minister told his son that he con-
sidered that the government and par-
liament of Canada were making a
very great mistake in the manner
they have chosen to assist the
Canadian navy. Sir Charles Tupper
declared that his project was one
that would not only develop the trade
of Canada in time of peace, but it
would also assist the empire to
which we belong in time of war. The
veteran statesman would construct
the most rapid, steamers of the
cruiser build, and then constitute a
service between Halifax and Great
Britain that would leave New York
and America's ports far in the rear,
and then, if hostilities were to break
out, these cruisers, perhaps more
rapid than any others afloat, would
render signal service in keeping open
our grain route across the Atlantic.
Sir Hibbert says his father is most
enthusiastic in the project, and says
that if he were ten years younger he
could take the stump and advocate
the measure before the people of
the Dominion.

SAYS HE OWNED RAILWAYS

Never Received Money of Stock as
Agreed Upon.

OTTAWA, Jan. 6.—Henry Roy, a
railway engineer, is suing the North-
ern Empire Railway Company, the
British Columbia and Alberta Railway
Company, C. V. Price, J. H. McKim-
mon, C. G. Brown, C. E. Patton and
D. L. McKinnon, for \$25,000. He claims
that he was the owner of the above
railways, and gave them to C. W. Pat-
ton to sell to a company to be organ-
ized. He was to receive \$15,000 in cash
and certain stock. He claims that the
company was never organized fully, as
agreed, and that he never received the
money and stock as agreed upon.

FIVE WEEKS WITHOUT SUPPLIES.

(Canadian Associated Press Cable.)
LONDON, Jan. 6.—Capt. Howard and
crew, who were wrecked on the Cana-
dian schooner H. J. Logan, landed at
Grimby on the steamship Dewey.
They left Chatham, N.E., for
New York on Oct. 20, met a sudden
squall a week out and drifted five
weeks with their supplies exhausted.
They were eventually rescued by the
Swansea steamer.

RAISED SECURITY COMPANY.

BOSTON, Jan. 6.—The office of the
Inter-Trust Security Co., promoters of
mining ventures, were raided by fed-
eral officers this afternoon, in connec-
tion with the prosecution of an al-
leged fraudulent use of the mails. The
president of the raided company is
Victor M. Grey.

EARL GREY OFF FOR NEW YORK.

OTTAWA, Jan. 6.—His Excellency
Earl Grey, with a party consisting of
Mr. Arthur Sladen, A.D.C., military
secretary, and Lady Sybil Grey, left
this afternoon for New York. The trip
is said to be one of pleasure only.

WANTING THE WATERS
OF THE NIAGARA RIVER

Legislation Pending at Washing-
ton Will Allow Secretary of War
To Issue Permits.

WASHINGTON, Jan. 6.—Proposed
legislation respecting the diversion of
water at Niagara Falls was discussed
at a hearing to-day before the house
committee on rivers and harbors. The
pending bill is designed to amend the
Burton law so as to authorize the sec-
retary of war to grant permits for di-
verting within New York State the
waters of Niagara River above the
falls for the creation of power, to in-
dividuals, companies or corporations
now actually producing power from
these waters, or from the Erie canal.
The daily diversion, it is provided,
should not exceed in the aggregate a
rate of 20,000 cubic feet per second.
The bill eliminates limitation as to
importing power from the Canadian
side.
J. H. McFarland of Harrisburg, Pa.,
representing the American Civic As-
sociation, spoke for the preservation of
the falls as a scenic spectacle.
Gen. F. V. Greene of New York ad-
vocated freedom of importation of
Canadian waterpower.
G. A. B. Soovell of Lewiston, N.Y.,
believed in eliminating any restric-
tions on the obtaining of power from
the Canadian side, and pointed out
that already all the power permitted to
be used on this side was being util-
ized, and that more than 100,000 horse-
power is coming from two corporations
on the Canadian shore.
The committee deferred action.

WANTS A LOOK IN

A Rival to M. & M. for Building of
Hudson Bay Railway.

OTTAWA, Jan. 6.—Others besides
Mackenzie and Mann are after the
contract to build the Hudson Bay Rail-
way for the government. J. D. Mac-
Arthur, who is finishing up the Winni-
peg to Superior Junction section of the
National Transcontinental Railway,
one of the largest undertakings of the
system, said to-day that his visit to
Ottawa was for the express purpose
to be for a look in on the Hudson Bay
work. He intimated, in fact, that un-
less he succeeded in getting at least
a slice of that contract from the gov-
ernment, he would at once sell out the
extensive plant which was acquired to
construct the transcontinental.

PROVED HER INNOCENCE.

LONDON, Jan. 6.—Bessie Gershon
who, as an occupant of the house,
was arrested before the battle be-
tween the police and the outlaws
took place, to-day proved her inno-
cence of any connection with the
anarchists, and was released from
custody.

PROVINCIAL CONTROL.

EDMONTON, Jan. 6.—Premier
Sifton leaves about the middle of next
week for Quebec to attend the fore-
stry convention. While in the east
he will visit Ottawa to bring before
the federal authorities the matter of
provincial control of the natural re-
sources of Alberta.

"World's Gold Supply."

At the meeting of the Canadian In-
stitute this evening to be held in its
own building, 138 College-street, Mr. J.
B. Tyrrell will give an address on "The
World's Gold Supply." All interested
in the subject are invited.

CREDITORS FEAR
CHECK TO
PROBE

Doubt Expressed as to Whe-
ther Court Investigation Will
Show Fate of Assets—
Hint That Plea of Guilty
Would Block Enquiry, Hence
Demand for Commission.

Considerable surprise was express-
ed yesterday morning when W. R.
Travers was again remanded in po-
lice court for yet another week's
delay. Crown Attorney Corley had an-
nounced at his last arraignment that
the crown would be ready to open
its case yesterday and witnesses had
been summoned from the finance de-
partment at Ottawa to swear to the
returns made to the government by
the former general manager of the
Farmers' Bank, but these were not
called, and Mr. Corley once more de-
clared that he was not ready to go
on, and asked for a week's remand.
This was reluctantly granted by
Magistrate DeWolfe.

At each previous appearance of Mr.
Travers, H. H. Dewar, K.C., his
counsel, has bitterly protested against
the delay, but yesterday he smilingly
conceded. Bail was renewed in
sureties of \$20,000 in each case, both
of which were supplied by A. M.
O'Brien, his bondsmen to date.
The public demand for a deep and
searching probe into all the affairs
of the bank is growing daily more
forceful and more insistent. Yester-
day a number of farmers, shareholders
of the bank, journeyed to the city
from Hamilton County, where the stock
is heavily held, to hear the opening
of the case. These were bitterly dis-
appointed when the "nothing doing"
sign was put up for another week.

Extent of Implication.
The question most discussed by
those interested, and which seems to
be uppermost in the mind of the man-
aged street is as to the possible im-
plication of others than Mr. Travers
in the wrecking of the bank and the
likelihood of their prosecution. These
have been looking to the trial of Mr.
Travers for the uncovering of facts
implicating others. The possible additional
implication of others than Mr. Travers
is spread among them that should the
former general manager plead guilty
to the charges preferred against him,
no investigation would follow, and
that he would merely be sentenced
and the matter allowed to drop with-
out the real facts of the bank's mis-
management being brought to light.
These men point out how greatly it
would be to the interest of these pos-
sible third parties to prevail upon Mr.
Travers to enter a plea of guilty, and
convince that his defence was hopeless
and the promises of support to his
family and the spending of effort and
money toward his early parole should
they thus be saved from the net could
easily be held out to induce such a
course.

Should their fears be realized, they
declare that their only hope for the
bringing to justice of others possibly
implicated and the tracing thru them

ONE OF OLDEST LINES

Royal Mail Steamer Packet Co. Will
Discontinue West Indian Line.

NEW YORK, Jan. 6.—The Royal
Mail Steam Packet Co., one of the
oldest British lines, announced to-
day that its service between New York
and Southampton to the West Indies
and Azores will soon be discontinued.
The new schedule names as the last
port of call out of New York, Puerto
Columbia, with calls at Bermuda, An-
tilla, Cuba; Kingston, Colon and
Cartagena.
From its foundation the Royal
Mail received from Great Britain a
subsidy for carrying the mails to the
West Indies until 1906. In that year
it was not renewed. Recently the
British government offered the Royal
Mail \$275,000 a year for three years
to transport the West Indian mails,
now sent thru Canada and this port.
The company wanted \$250,000 a
year on a ten-year contract. Four
days ago the contract was awarded
to a subsidiary line of the United
Fruit Co.

HOW TO SAVE MONEY?

How to save money is a proposition
that confronts every householder and
should prove an interesting theme to
all classes. The problem of getting
the most for your cash and the best
value is a matter that requires a lot
of careful study and much reading on
the part of the purchaser. The news-
papers are the medium through which
the merchant makes known what goods
he has for sale, and the experienced
bargain hunter can tell at a glance
the articles that are genuine bargains.
Dinsen's great annual January re-
duction sale of furs is replete with
bargains. Every garment in the store
is marked down, and if you are in
need of anything in furs, this is the finest
opportunity that we Canadians have
had in a long time. Call in and the
prices will convince you. Special cata-
logues will be sent to any address on
request. Store will be open Saturday
evening.

46 Pages of Picture and Story

THE ILLUSTRATED SECTION: The front page is a mirror of the activities of the young sons and daughters of Our Lady of the Snows. We give you some attractive reproductions of photographs, showing among other things the toboggan slides in the parks with their throngs of merry-makers.
Two of Toronto's knights, Sir William Mackenzie and Sir Donald Mann, creators of the Canadian Northern Ontario Railway and empire builders. That is why they have been honored with the new title. Few people know R. F. Stupart, the weather man, who gets more abuse and more praise than most of us. A few animal and bird pictures.
Views of the ice racing in Dufferin Park.
Other pictures are of charming Canadian scenery and views in Canada, England and New Zealand.
MAGAZINE SECTION: We are giving something in color every week, with the general attractiveness of the World's own presses, and we believe the public are well pleased with the general attractiveness of the paper. This week in the Magazine Section there is an editorial sermon (illustrated) entitled "No Man is as Great as His Work." Another page is a full-page reproduction of Some World Masterpieces of Great as His Work." There is always something in this to ponder.
Madame Cavalleri writes a chapter on winter warnings, explaining the method of maintaining sound health by keeping the hands and feet warm; while Lady Duff Gordon describes fur hats and fancy dresses.
Other regular features of this section are: Louis Joseph Vance's story, Plunder Island; a page devoted to literature, science and education; a page devoted to music and a page of comment by Mr. Good on current topics.
EDITORIAL SECTION: A new feature is introduced this week, namely: a full page of popular music. The song is "A Different Phase of Life," as sung by Ward and Vokes. It is so arranged that by folding the paper back with the title page on the outside the sheet is in order for the piano. This music is sold regularly for 25c a copy. You get it for nothing, if you read The Sunday World.
Considerable space is given to the automobile and the stage.
Mr. Mossell's nature stories are a regular feature, as well as Ernest Edward Stafford's discussion of live subjects, captioned "Crusts and Crumbs."
Another page deals with news events across the water.
NEWS AND SPORTING SECTION: All the latest happenings in Toronto and outside are covered in the news pages, which are open till the last moment.
THE COMIC SECTION: The world is not made up altogether of grouches. Have a laugh. Let your children laugh. Give them all the enjoyment they can get down here, so long as it doesn't hurt. The frolics of the Katzenjammer Kids or the daily movements of Mutt and Jeff are amusing and not harmful. You need to get The Sunday World to follow them.

Take advantage of the January Sale of Collar Buttons, Big Values. —Main Floor, Yonge St.

Heavy and Medium Weight Hose at Light Prices

In the general selling there are always a number of lines that get pushed aside and must be cleared. We take these lines in conjunction with other newly bought lines and make a big clearing stock. The prices are sufficient inducement in themselves for the ordinary buyer, but the qualities make the values immense.

Boys' Wool Ribbed Hose—Heavy weight; double sole, heel and toe; are seamless finish; sizes 8 1/2 to 10. These are only odds and ends of better lines. To clear Monday, per pair 12 1/2

Women's Plain Black All-Wool Cashmere Hose—Made from fine English spun yarns; with double sole, heel and toe; are seamless and fashioned; all sizes. Monday, per pair 25

—Main Floor—Yonge Street.

Ribbons by Special Purchase Enrich the January Sale

While the clearing feature is very strong in this January Sale stock, yet we are placing most of our reliance for the keeping up of public interest upon big new stocks, especially ordered in Europe for the sale. Our buyers have been fortunate in securing large consignments for the sale at prices that make the generous price concessions reasonable for us as well as grateful to you.

Among Ribbons of this class is a 5-inch Taffeta Ribbon at 15c per yard—It is a pure silk taffeta ribbon of beautiful weight and finish, in a large assortment of good colors, for hair bows, sashes, fancy work, etc.; in white, cream, sky, turquoise, navy, alic, pink, rose, old rose, mauve, yellow, red, cardinal, garnet, brown, purple, myrtle and moss; beautifully finished stock; 5 inches wide. January Sale, per yard 15

Clearing Medium Ribbons at 5c per yard. Pure Silk Taffeta and Satin-Faced Ribbons—In an excellent color list, including white, cream, turquoise, sky, navy, royal, champagne, tan, brown, pink, old rose, cardinal, garnet, yellow, brown, mauve, moss, blue and black; widths for bows, rosettes, fancy work, etc.; 2 to 3 inches wide. Averages less than half price for Monday, per yard 5

Special January Sale, Price for Corded Ribbons in Belt Lengths—The colors are white, cream, sky, pink, old rose, mauve, cardinal, navy, brown, myrtle, grey and black; plain cord, fancy edged cord and more cord; widths 1 3/4 and 2 inches. PALATIAL VARSITY CLUB MAY COST HALF MILLION

President Falconer Makes Official Announcement—Gift of the Massey Estate.

Proud varsity students will be before long able to show their friends one of the finest college club buildings on the continent. President Falconer made the first official announcement yesterday regarding the students' club building, a magnificent gift of the Massey estate, and of which the plans are already made. The building will cost from \$300,000 to \$500,000, and will have a gymnasium with modern equipment, smoke rooms, billiard rooms, lounging rooms, a library and dance halls.

Work will be started as soon as weather permits in the spring, and along with the work of excavation will go the old gymnasium, which is fast becoming antiquated.

The president stated that the new domestic science building, the gift to the university of Mrs. Massey Topley, was almost complete, and the early spring would see it habitable. This building has cost over \$400,000. President Falconer stated also that satisfactory progress had been made in the last few months with the pathological building.

"The new university school on Eglinton street is already overcrowded with its 570 students," said the president, "and we have a large waiting list."

True or Fairy Story?

It is stated that surveys have been made for a new electric line that will supply a fast service from Toronto to Midland, with an express motor train that will make 50 miles an hour over a private right of way. It is estimated that the new company, which has had its charter for some time, but has not made any announcement as yet, will expend nearly \$300,000 in the vicinity of North Toronto in the building for the line, that will tap the principal towns between here and Midland.

Domestic Service Class.

Young men and maidens and anybody else who happens to be unversed in the mysteries of the deep sciences of household lore may have an opportunity of remedying the defect next Wednesday, when a night class in domestic science will be opened in the Winchester-street school. The class is open to everybody over the age of 14, and if you have that qualification, here is your chance.

A new kindergarten will also be opened in the Allan School for Boys in a day or two.

ESCAPED THRU MILL RACE

Minneapolis Plunged in Darkness by Explosion of Power Wire.

MINNEAPOLIS, Jan. 6.—Minneapolis was plunged into darkness and the commercial life of the city almost paralyzed this morning by an explosion of the "13,000 wire" leading into the power plant of the Minneapolis General Electric Company. Eleven men employed in the building made their way to safety thru the valley of the mill race, after the explosion. The plant was wrecked and a tangled mass of wires and machinery was thrown in every direction by the force of the explosion. Fire followed and completely demolished the building.

Two men were injured, and the damage to the property is estimated at \$500,000.

A NEW CUNARDER.

The Cunard Steamship Co.'s calendar for 1911 contains a picture of their new steamer, the "Franconia." This steamer will be attached to the Boston-Quebec-Liverpool service and will make her maiden voyage on May 2, 1911, from Boston. On the eastbound trip after leaving Queenstown she will call at Glasgow, the new port of call for Atlantic liners in South Wales, for the benefit of those travelers who wish to get to London as quickly as possible. The equipment of this vessel shows that the Cunard line is keeping abreast of the times. Amongst the novelties in her equipment will be a fully-equipped gymnasium, a verandah cafe, an orchestra of professional musicians and of course she is fitted with wireless.

INVESTIGATING TEDDY.

WASHINGTON, Jan. 6.—Representative Railway of Illinois offered a resolution in the house yesterday asking for the appointment of a committee of five to investigate the railroad expenses of Theodore Roosevelt for travel while he was president, with authority to examine the books of the Pennsylvania Railway, the Southern Railway and the Northern Pacific Railway, to determine what expenses were paid by the former president and what proportion furnished by the railroads.

NATIONAL CASH REGISTER SALES-MEN.

In the matter of alertness salesmen of the National Cash Register Company are not easily surpassed, and it was a gathering of keen business men due to the convention of the company's staff of hustlers.

Scores of them assembled, and from all quarters came reports of most flourishing trade conditions and brightest of outlooks for 1911.

MAY AMEND TREATY

Arbitration Convention May Be Broadened in Scope.

WASHINGTON, Jan. 6.—It became known to-day that the president has been sounding certain senators, members of the committee on foreign relations, to ascertain the chances for an amendment of the existing arbitration treaty with Great Britain, calculated to broaden the scope of that convention. It is aimed to remove the present prohibition in article one, against the submission to arbitration of questions of vital interest to the two parties of involving their honor.

If these soundings reveal a change of mind on the part of the senate since 1908, when strong ground was taken by a large majority against any such unqualified arbitration, then the British government will be approached to assent to an amendment to begin negotiations looking to the amendment of a existing treaty.

Wages on G. T. P.

The board of conciliation, made up of Judge McGibbon (chairman), W. T. Lee, representing the men, and J. Dawson for the Grand Trunk Pacific, have made their report to the omnium government in regard to the aims of the maintenance-of-way men of the Grand Trunk Pacific.

11aa Severe Rains In His Back.

Could Hardly Work.

Mr. Alfred E. Davis, Gorrie, Ont. writes: "For some years I suffered from severe pains in my back and could hardly work at all, and when I stooped down to pick up anything felt as if my back must break. I was advised to try Doan's Kidney Pills, and after taking two boxes I was entirely cured, and feel that I cannot speak too highly in their favor."

"This was nearly four years ago and I still remain cured."

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged.

Doan's Kidney Pills are a specific for all kidney troubles. They help the kidneys to flush out the acid and poisonous impurities which have collected, thus clearing out the kidneys, bladder and urinary passages.

Price 50c per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

DO PENITENTS STAY SO?

In Orillia Permanent Results Are Claimed for Chapman-Alexander.

Is the sudden conversion miracle permanent? Many people profess to believe that it isn't, but A. J. Robinson, a prominent local organizer of the present Chapman-Alexander campaign, isn't one of them. He has just received the following letter in reply to a query as to the results of a series of revival meetings in Orillia.

Dear Mr. Robinson: Your letter is rather difficult to answer for the simple reason that there are so many influences which contribute to the spiritual life of a congregation and community. But I am sure that the pastors of Orillia are at one in testifying to the splendid permanent results from the Chapman-Alexander campaign here over two years ago.

Personally, I can say that it stimulated the spiritual activity of my congregation so that it is much easier now to get workers than before. It bound up the congregation to their pastor so that they realized that they must share the responsibility with him of carrying on God's work. It made possible a great forward missionary movement which has resulted in more than tripling our missionary offerings. It created an interest in Bible study, which has to some extent continued and even intensified until the present.

Personally, I cannot speak too highly of the work done here and earnestly pray that the blessing may attend their efforts in the City of Toronto.

Very sincerely,
D. C. MacGregor.

THE NEW GOLD FIELDS.

The confidence which the Ontario Government and the Ontario Railway Commission have shown by rushing forward construction of a branch line from above Matheson into Whitney and Tisdale Townships, the visits that have been made there by some of the most eminent mining engineers in the world, representing capitalists of wide reputation in the U. S. and Europe, the fact that still others are on the way, the hints that are thrown out of things actually to be seen in the shafts that have been sunk and in the cores that have been brought up from very considerable distances, and the statements made by men whose word is to be taken, all go to show that Ontario possesses something altogether out of the ordinary in the Porcupine goldfields. For the present at least, then, they are well worth watching.

WINTER WEATHER AND BLANKETS.

Some people are complaining of the stormy weather, but so far it is many a day since we have had such a perfect winter. It started in December and gradually got cold and continued cold through the month with a splendid Xmas Day, bright and clear, with sleighing without dampness—and good sleighing at that. Since then we have had good sleighing all over the country and this has more or less facilitated business. The snow is still steadily falling and as fast as it falls, it seems to go into good roads.

Another feature of this wintry weather is the splendid wheeling that the automobiles now enjoy all over the city. The packed snow is better for the streets more and more how efficient the automobile is becoming and also how much more reliable. Never was there anything so comfortable in winter to travel in as the closed-in car, known as the limousine, or even a well-curtained cape-top.

Everybody who bought winter clothes has good use for them, and the man who has got a fur coat can wear it every day. The ice man is getting ready to reap his crop on the ponds, on the lakes and on the rivers. He is a wise farmer who puts away a lot of ice at this time of the year for chilling purposes in the summer. The farmer that has ice has the first requisite of success in dairying and of comfort in his house during the hot months. Provided the farmer can get ice near enough, drawing is the best occupation he can take up in January. The ice house costs very little and even a portion of a barn can be walled off with a few boards in such a way as to give an air-chamber inside the boards, and there "hold" the frozen store.

As for amusements, there is abundance of skating and sleighing and tobogganing, and what is rather rare in these parts, good fields for snowshoeing. So that on the whole we have a very fair winter, both for those who live in the cities and towns, and those who live in the country, provided always that each one has fuel sufficient to warm his house and blankets sufficient to cover his bed. In respect to beds, he is the wise man who has enough blankets to throw up his window on cold nights and still be comfortable in his room in actual contact with the cold air, the not in a draft of fresh air. Have you ever tried it?

CAPITALIZATION AND RATE REGULATION.

That proper regulation of the rates and charges of public service companies is impossible, unaccompanied by control over their capitalization, has repeatedly been advanced and argued in these columns. Such services expand with the growth of population and the injection of water into stock issues is simply taking a mortgage in advance on future returns. Watered stock in its first form and as a rule represents promoters' profits or brokers' profits, it passes into the hands of "innocent investors" and as it increases in value with the success of the enterprise, it is used as the justification for withdrawing still more profits in the shape of dividends. The process does not stop there. Improvements and additions are made out of reserve funds created from revenue contributed by the people, and these again become the ground for making a new issue of stock at less than the market value. Thus profits are capitalized, at great private advantage and further amounts are then drawn from the public in order to pay dividends on the new capitalization. Mergers again provide the opportunity for extensive stock watering. The companies often enter at excessive valuations and receive an equivalent stock holding in the new organization. The ingenuity of high financiers and

their advisers has discovered many other methods of diverting public money into their own pockets and are adepts also in disguising the true nature of their operations. Such practices have been repeatedly exposed before the public service commissioners of the United States, notably in New York, where the city street railways were found to be loaded up with holding companies and security companies to an extent rendering more than one-half their nominal capital absolutely without justification. Public service commissioners in the United States are given large powers over capitalization, stock issues and mergers, and exercise them to the public advantage. Such powers similar commissioners in Canada ought to have and none of the national resources or public services should be handed out to private companies without ample protection against stock watering in all its varied forms. Without this, rate regulation is of little or no value as a protection to the people.

HAMILTON AND CHEAP POWER.

Hon. Adam Beck has reason to be gratified with the result of the Hamilton election on Monday. The people of Hamilton have had the greatest difficulty in getting their undoubted wishes carried into effect. The duplicity of their elected representatives, stimulated by corporation pressure, retarded and obstructed the hydro-electric policy plans of the city. Some exceedingly raw deals have been made in the last three years utterly in opposition to the expressed will of the majority.

The corporation agents, however, were prepared to do anything to tie up the city to the Cataract Power Company's interests, even at the cost to the people of a generation of dearer light and power. A plausible offer of reduced rates for the time being was made to do duty as a pretext for refusing the constantly lowering rates of the hydro-electric commissioner's schedules. While all the other municipalities were to get the benefit of declining rates, Hamilton was to remain bound to the trust.

The people have at last elected a council which appears likely to carry out the popular will and make the most favorable terms for Hamilton with the commission.

The open and tact hostility to Mr. Beck from prominent members of his own party in Hamilton is a clear indication that old party lines have the slightest influence on the operation of the selfish corporation interests. Party or no party they are always united for their own ends.

BANK INSPECTION.

Let nobody doubt the need there is for a public bank inspection, beginning with the very inauguration of a bank. The public have a right to know that the charter as granted and the license issued have only gone out after strict compliance with the law, but also that there is no irregular proceedings concealed in one way or another. In the meantime the responsibility for the granting of the Farmers' Bank license rests with the government at Ottawa.

A competent and efficient government inspection of the sworn statements sent in by this bank would have detected looseness, would have detected the false returns that the department of finance now allege were made. A still wider inspection would have disclosed that some of the loans were either questionable or imprudent. Apparently anything done in the Farmers' Bank may be done by other banks if so disposed. Moral responsibility is a good thing, so is public inspection. Perhaps there is more public safety in both combined.

RECIPROCITY.

The World begins to get a new light in regard to the reciprocity negotiations. Sir Wilfrid Laurier appears anxious to close a treaty, in fact he is making big efforts in that direction. At this very moment he has two ministers at Washington actually on the job, and other ministers to assist. We notice also that he paid a visit to Quebec a day or two ago to see Sir Lomer Gouin, the prime minister of that province. We imagine that Sir Wilfrid went to his friend Sir Lomer to try and persuade him to repeal the regulation prohibiting the exportation of unmanufactured pulpwood cut on crown lands. The Americans would like to have this prohibition withdrawn and Quebec pulpwood set into the United States on the most favorable terms.

Sir Wilfrid has a rather long head in all these proceedings and perhaps he would like to have the treaty end in failure, the apparently he is making a great effort to negotiate it. If he could only sign a treaty—that would serve his purpose. For if the Republicans would not confirm it before the 4th of March or if the Democrats after the 4th March refused to confirm it because they had something more far-reaching in the way of tariff reduction in that case Sir Wilfrid could say to the farmers of the west: "Well, I tried my best to get reciprocity and here is one I was willing to sign, but I could not get congress to accept." And he could also go to the protectionist party in Canada and say: "Well, I have not done you any harm anyway," and

they might see the point. In the meantime it is the big issue that Canadian people should watch.

NIGHT FIRE PATROLS IN COLLEGES AND HOTELS.

The fire and loss of life at Granby College (Province of Quebec) on Wednesday night, furnished another impressive example of what The World said about the hotel fire in Cornwall not so very long ago, when a number of lives were lost, and that was that it should be the law that all colleges and hotels that harbor more than ten people should for the four or five months of winter, when big fires or furnaces are maintained, be patrolled by a night watch. There have been sufficient fires in community houses and public institutions in the Province of Quebec and in other provinces to have disposed the legislatures to make a law of this kind.

Our public institutions, especially schools, community houses, asylums and the like, are built of inflammable material. They make a noble show of brick and stone front, but they are filled with timber and all kinds of combustible stuff, and, with inferior fire protection, nearly always fall a prey to the flames.

Perhaps we cannot to-day insist on fireproof construction, but we can at least insist on a night fire patrol and for the four or five months in winter which cover 150 nights, there is hardly one of these institutions that could not get a man or woman to make such a night patrol for a dollar a night, and this same man or woman could do a lot of work as well. A night patrol needs a watchman's check system and a close inspection of it daily by someone, and the thing is done.

In the meantime our advice to parents who are sending children to schools, is to simply say that they refuse to entrust their children or friends to any establishment where a night fire patrol is not maintained in the winter months, and the same ought to be the case in patronizing hotels. No hotel that takes in twenty guests or less ought to be without such a patrol.

RELIGIOUS REVIVALS.

Doubt has often been expressed whether evangelistic campaigns such as that now in progress in Toronto achieve any really permanent result. They come and go and return again and depart, and conditions, moral and social, remain unaffected to the ordinary eye. Hence the skepticism so frequently expressed in private, if not in public, regarding their value and necessity. This attitude is often consonant with individual prejudice, less frequently, perhaps, it is due to an erroneous conception of the object of a religious revival. But the latter mistake is not altogether the fault of those who make it, for they, at least, can plead in excuse much that is said and done by the spokesmen of the churches. It is a curious but indisputable fact that religious revivals, although on occasion emotional and sympathetic to an extraordinary degree, have no permanent binding power over people in mass. Here they differ widely from the great political and social convulsions, which both create and sustain concerted action. May the difference not be traced to the fact that religious appeal to be effective must be personal? Change of heart once accomplished, its subject drops into one or other of the churches which are supposed, more or less, to embody the Christian ideal. Even this is no small gain, but should it not be precluded by a revival in the churches themselves that will make their professed members operate together for the reformation of the whole social fabric? If church members fall in this part, it is not surprising that revivals begin and end with individual conversions, and leave no other impress.

WOMEN AND THE VOTE.

It is unfortunate that the women already given the franchise do not show by their use of it that its possession does appeal to them as a privilege of great value. Making all due allowances, the abstention of female voters from the polls last Monday was the most discouraging thing the women's suffragist party has to contemplate. The fact that women have not acquired the habit is sufficient to explain a large proportion of the abstentions. Women are still susceptible to influences of fashion, custom, and so forth. So, indeed, are men. But the feeling that it is not good form to vote affects more women than would be legitimate. Probably the percentage is quite as great as would be the proportion among men who obey the unwritten laws about, for example, a bowler hat and a clawhammer coat. Then, again, women are by no means free from masculine influence. It would require a very strong-minded

woman to propose going out to cast her vote in some homes we know of. Sir James Whitney has taken advantage of this when he promises to consider the suffrage question when women demand it. Would Sir James or any who think with him, permit them to dare to demand it?

Once more, a woman's duties confine her closely to the home. New Year's Day is not the holiday to the average woman that it is to the average man. Probably if the average man had to attend all day to his ordinary duties in office, store or factory, as the average woman has in her home on polling day, he might not be so numerous at the polls as he is.

It is objected that women should take an interest in the board of education at least, and that the supplemental lists yielded scarcely any women voters. Besides the causes already mentioned, there appear to be fewer women on the supplemental lists interested in children than on the regular lists. Unmarried women are not usually devoted to children, and many of the others vote on the regular list. Only one vote can be given in each ward, and many supplemental voters, male as well as female, were not cast on that account.

But making all allowances as we have said, the result of the female poll must be discouraging to suffragists and suffragettes alike. How would a suffragist organization to get out the woman's vote do as a practical measure?

WILL ASK PUBLIC AID FOR STRICKEN CHINA

Mayor's Resolution Approved at Meeting of Representative Citizens.

A campaign to raise a large subscription for the relief of the famine sufferers of Kiang Su and An Hu Provinces, China, was launched in the city hall yesterday by a representative gathering of Protestant missionary society representatives, business men, civic and provincial officials. His Honor Lieut.-Governor Gibson presided, and drew attention to the fact that 2,000,000 people were starving in these districts. The greatest food within the memory of man had utterly destroyed the crops, and there was no grain nor animals left to facilitate a future planting. N. W. Rowell, K.C., gave as reasons for the people of Canada to respond generously and promptly to the call for aid: (1) Common humanity should prompt us; (2) we should do as neighbors as the Pacific Ocean was how no more than a street—a highway of commerce between the two countries; (3) brotherhood; (4) as a manifestation of the attitude of a Christian people toward the needy.

Will Appeal to Public.

Mayor Geary presented a resolution, which was adopted, embracing the following points: That a relief fund be raised, and that a public statement and appeal be made; That a committee be appointed to conduct the affairs, and to look after the transmission and distribution of the funds; That His Honor the Lieutenant-Governor be honorary chairman; That the public press be requested to co-operate; That a copy of the resolution and a letter be sent to the Chinese consul-general at Ottawa. The following nominating committee was appointed: Mayor Geary, Hon. W. A. Charlton, S. J. Moore, W. D. Gwynne, N. W. Rowell, K.C., William Craig and N. F. Davidson, K.C.

Judge's Chambers.

Before Middleton, J. Re James Gray—J. G. Smith, for applicant. F. W. Harcourt, K.C., for infant. Motion for leave to invest in infant money for the development of a mining claim. Motion refused, and order made authorizing payment of the money to the guardian upon receiving release as set out in the affidavit filed. No order made as to offer of Masson, as this must rest in the discretion of executor.

McLean v. Bradshaw—C. Kappeler, for plaintiff. P. J. McGowan, for defendant. F. W. Harcourt, K.C., for infant.

Motion by plaintiff for judgment in terms of settlement agreed upon between the parties. Judgment for plaintiff for \$260 and costs of plaintiff, fixed at \$60, and those of the official guardian, fixed at \$5. Of the \$260, there is to be paid forthwith to the mother for medical attendance, &c. \$75, the balance to be paid into court to credit of infant, and \$75 per year to be paid out to mother for maintenance for four years. Balance to be paid to infant on attaining majority.

Re Orr and Georgian Bay Railway Co.—J. D. Spence, for the Railway Co. F. W. Harcourt, K.C., for owner. Motion by the Railway Co. for an order for conveyance of ninety-six one hundredths of an acre on payment of \$100, the purchase money. Order made granting the order. Money to go into court, interest to mother during life. Corpus to Bury W. Orr on mother's death, and he having attained majority, on the consent of executors or proving they are paid off.

Loveloy v. Mercer—W. S. McBrayne (Hamilton), for defendant. J. L. Schelter (Hamilton) for plaintiff. Motion by defendant for an order relieving him from the consequences of a default by mistake under the judgment pronounced by consent of counsel at the hearing of the action at Hamilton. Judgment: The defendant will stand relieved from the consequence of his default upon paying within a week (a) the \$75 and interest upon this sum at 6 per cent until he is computed from Dec. 28, 1910; (b) the costs of the writ of possession and incidental to its issue, fixed at \$10, and the sheriff's fees in addition; (c) the costs of this motion, fixed at \$25; (d) and upon his paying now as an evidence of his good faith the next instalment, \$75, which under the judgment falls due on June 28, 1911.

Divisional Court.

Before Falconbridge, C.J., Britton, J., Riddell, J. Neil v. Woodward—G. H. Watson, K.C., and C. H. Porter, for plaintiff. R. McKay, K.C., for defendants. An appeal by plaintiffs from the judgment of Teitzel, J., of April 29, 1909. Plaintiff claims \$14,000, the purchase price of \$14,000 shares of stock and the defendants counter claim for \$6000 unpaid in respect of stock. At the trial plaintiffs' action was dismissed with costs, and for defendant's claim of \$2000, and for defendants Woodward and Porter for the sum of \$4000 on their counter claim. Judgment: We think the appeal on the counter claim should be allowed with costs here and below, and the main claim dismissed with costs here and below. It may be that the plaintiffs have a cause of action against the defendants, and the Culver Co. for not issuing the stock promised. If the plaintiffs are so advised, they may amend by adding the company and any others they may be advised, and have a new trial generally upon the whole case. In that event, however, the defendants are to be allowed to retry their counter claim and establish fraud if they can, and the plaintiffs should pay in any event the costs of the former trial and appeal. The plaintiffs should have fifteen days in which to elect. Unless they elect within that time, the main appeal should be dismissed with costs and the appeal on the counter claim allowed with costs in both cases here and below.

Alfred the Great Finishes Second and Moncrief Third—Oakland and Juarez Results.

JACKSONVILLE, Fla., Jan. 6.—Aldrian, carrying only 95 pounds, won the feature race, a six-furlong handicap, at Moncrief this afternoon, after a stirring stretch drive. Alfred the Great, the favorite, looked as if he held the race safe in the stretch, but succumbed in the last few yards, beating Moncrief two lengths for the place. Chasque, the odds-on favorite in the third race, proved the disappointment of the day when he finished outside the money. Summary:

British United Notes. All club members of the British United Athletic Club are requested to attend the general meeting at the club on Sunday, Jan. 8, at 3 p.m. This meeting is of the greatest importance, as besides the election of officers for the year, there is some other immediate and urgent business to deal with, so every member is requested to make an effort to attend. The New Year's party, which was held at the club last Saturday, proved a great success and the ladies' singing prize was won by Mrs. Sullivan, after a close competition. The club is now running in full swing, as it usually does during the winter months, boxing, wrestling, billiards and other quieter amusements being on the program every night, so any athletes who wish to become members are invited to visit the club rooms, 80 West King-street, any evening, where there will always be something going on and they will be cordially welcomed.

I AM SATISFIED THAT "FRUIT-A-TIVES" CURED ME OF SCIATIC RHEUMATISM AND "FRUIT-A-TIVES" WILL CURE ANYONE WHO TAKES THEM AS DIRECTED

JOHN B. McDONALD.

McMillan's Corners, Ont., Sept. 30th, 1910.
Your remedy, "Fruit-a-tives," is a perfect panacea for Rheumatism.
For years I suffered distressing pain from Sciatica, or Sciatic Rheumatism, being laid up several times a year for days at a time and not being able to work at anything. I went to different doctors who told me there was no use doing anything. It would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw sores on the place applied to. I took many advertised remedies without benefit, but, fortunately, about two years ago, I got "Fruit-a-tives," and they cured me.

Since then I take them occasionally and keep free from pain. I am satisfied "Fruit-a-tives" cured me of Rheumatism, and they will cure anyone who takes them as directed. I can conscientiously recommend them to any Rheumatic sufferer, and hope they will try them. Mr. J. S. Munroe of Monckland Station is where I purchase them, and he recommends them also.

If this letter would be of value to you, I hereby authorize you to publish it, as well as my accompanying photograph.

(Signed) JOHN B. McDONALD.
Almost everybody in Stormont County, Ontario, knows "John McDonald." For twenty-three years he has been "the village blacksmith" for a good part of the population. He is an expert at his chosen vocation and people come from miles to avail themselves of his services.

Being such a well-known man, Mr. McDonald is naturally careful in making any statement for publication, knowing that his friends, neighbors and patrons will believe what John B. McDonald says.

"Fruit-a-tives"—not only for saving him so much suffering, but also keeping him in good health, so that he can work daily at his business. Mr. McDonald believes in "Fruit-a-tives" because these famous fruit tablets cured him when all else failed. Quite naturally, he is willing to sign his name to a clear statement of the facts.

"Fruit-a-tives" is a panacea for Rheumatism. It is more—it is the greatest cure for Rheumatism in the world. We would go a step further and say the greatest cure for Rheumatism in the world. "Fruit-a-tives" goes to the seat of the trouble—the blood—and keeps the blood free from uric acid by completely regulating the bowels. "Fruit-a-tives" contains the juices of apples, oranges, figs and prunes, combined with valuable heart and nerve tonics—the whole forming a curative combination which has no equal in the annals of medicine. Being made of fruit, the action of "Fruit-a-tives" is mild, while the taste is extremely pleasant. If you feel your old enemy, Rheumatism, coming back, drive it out of your system by taking "Fruit-a-tives." The wonderful medicine made of fruit. 50c a box, 6 for \$2.50 or trial size, 25c. At all dealers, or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

DAYS NEW YORK MAY SEE AN AWFUL HOLOCAUST

Under Present Conditions Such a Fire as Devastated Frisco Quite Within Possibilities.

NEW YORK, Jan. 6.—The Merritt joint legislative commission of enquiry adjourned since this afternoon still with no word from the missing city chamberlain, Chas. H. Hyde, who is a Nova Scotian. An evening paper offered a reward of \$100 for the first person to give information of his whereabouts, providing he does not publicly appear at his office before Jan. 15.
Harold Herrick, president of the Niagara Fire Insurance Co., a witness, told the committee that New York may yet see such a fire as devastated San Francisco.
"A holocaust in New York," he said,

"is quite within the bounds of possibility. We have an excellent fire department, and an efficient chief, and thus far have jumped on every fire and put it out; but no fire department ever existing without a conflagration once it got under way. It only ceased when it reached a natural obstacle."
"If New York has a fire like San Francisco, God help us. There would not be a solvent insurance company left in the world. No one could compute the billions of loss."
Hurried, cheap construction by speculators, and poorly installed heating plants, said Mr. Herrick, were responsible for one-third of all fires, and a greater share of their spread.
"But in the City of Hamburg," he continued, "where they won't tolerate poor construction, there has not been a fire that spread outside the house in which it started since 1842."

Fireman Under Fallen Wall.
NEW YORK, Jan. 6.—The falling wall of a fire-swept factory building on Wooster street buried a fireman on the ground floor in its debris to-day. Chief Crocker and a squad of firemen, who narrowly escaped the crash, extricated the pinioned man, who was but slightly injured.

CHURCH AND BIG STICK

Aggressive Controller in Hot Pursuit of Street Railway.

Controller Church will move at Monday's inaugural meeting of council. That the legislation committee report on the following legislation to be applied for the street railway matter: (a) For "turning rights" over the Toronto Railway Company's tracks of the cars of the city's municipal street car line on terms to be agreed on or determined by the Ontario Railway Board on an interchange of traffic as to passengers, either on a car basis or passenger basis.
(b) To abolish trailers on and after August 1, 1911.
(c) To prevent operation of any P.A.Y.E. cars without proper P.A.Y.E. cars.
(d) To repeal clauses of Railway Act in breach of bylaws.

Seized Much Liquor.
The provincial police report on the enforcement of the Liquor License Act shows the seizure of 632 bottles of whiskey, 31 gallons of high time, 23 gallons of whiskey, 30 bottles of sherry and 12 bottles of port.

ILLNESS OF PASTOR'S WIFE DEFERS CHURCH OPENING

Big Grist of County and Suburban Happenings Over Wide District—Notes.

UNIONVILLE, Jan. 6.—(Special).—General regret is expressed at the serious illness of Mrs. Maurer, wife of Rev. Mr. Maurer, pastor of the Lutheran Church of this village, and whose removal to the Toronto General Hospital took place on Thursday evening on the Midland train. Mrs. Maurer was suffering from a severe attack of appendicitis and peritonitis, and on her arrival at the hospital an operation was at once performed. To-night Mrs. Maurer was resting easily, and her general condition is slightly improved. In view of the situation it has been deemed advisable to postpone indefinitely the opening of the new Lutheran Church, for which all arrangements had been practically completed. A number of well-known clergymen were expected to attend the opening occasion and as far as possible these have been made aware of the postponement.

VAUGHAN TOWNSHIP.
The official figures for Vaughan Township, together with the sub-division are as follows:
Cameron—1 2 3 4 5 6 7 8 Ttl. 8
Walton—14 7 20 20 41 46 48 85—209
Whitmore—24 53 41 90 59 23 20 32—211
Wesphers—23 57 71 69 74 16 66 34—410

YORK COUNTY ESTATE.
The estate left by Joseph Warnock, a laborer of which township, was valued at \$2000 and the household goods; \$25 goes to his wife, Mary, but she should marry it goes to his two daughters.

NEWMARKET.
A postponed meeting of the W.C.T.U. will be held at the home of Mrs. J. May Davison on Tuesday afternoon at 8 o'clock. A good attendance is expected.

RICHMOND HILL.
Mr. Pugsley's Majority Grows Faster Than the Village.
RICHMOND HILL, Jan. 6.—(Special).—The official figures for the village of Richmond Hill are given out as follows:
For residents—W. H. Pugsley, 134; H. A. Nicholas, 62. Majority for Pugsley, 72.
For council—John Trudell, 145; J. H. Sanderson, 128; Palmer, 125; George Sims, 104; Lyle, 84; Barker, 75. The first four named are members for 1911, together with W. H. Pugsley.

THORNHILL.
Literary Society Has Already Got On to a Good Start.
THORNHILL, Jan. 6.—(Special).—The next meeting of the Literary Circle will be held on Monday evening, Jan. 9, at the home of William Riddell, when Rev. Mr. Douglas will give an address on "Success in Life." This will be followed by reading and music, and any questions left over from last week will be answered. The Literary Circle is now well on its feet and it looks like the best season ever.

COUNTY COUNCIL TALK IT OVER.
Chairman George H. Henry presided over a meeting of the York County Council yesterday to discuss details in connection with the "good roads" movement. Many very important questions were raised and it is expected that a meeting will be held with the city within a week or so at the latest. Nothing can, however, be done until the county council meets and final action is taken by a vote.

A MIDNIGHT BLAZE.
A midnight blaze on Auburn-avenue, Eastcourt, yesterday morning, utterly destroyed Eugene Goodall's house and grocery store, worth probably less than \$1000, with insurance of half that amount. The city fire department from Ossington-avenue responded to the alarm, and confined the flames to Goodall's place. The neighbors, too, gave every assistance, and spreaded the cars moving on the street. Everybody who kept the flames in check.

SWANSEA.
Dr. Spaulding Resigns Chairmanship of School Board.
SWANSEA, Jan. 6.—(Special).—At the first meeting of Swansea School Board, Dr. W. A. Spaulding, the chairman for the past three years, tendered his resignation, which was accepted, the resignation, and R. H. Smith takes the position. It was decided to increase the salary of the principal and assistants. Fred Hawke was re-appointed secretary-treasurer of the board.

SUNNYSIDE.
Say Twenty-Minute Service Will Go Into Effect at Once.
SUNNYSIDE, Jan. 6.—(Special).—The Toronto Railway Company have taken a wise step in discontinuing the present 30-minute schedule from this point to Long Branch and will in future run a 20-minute service. The Port Credit service remains unchanged. A lot of time will be saved to the general public, and better satisfaction generally given. Suburban traffic to the west is growing year by year, and the railway company are beginning to realize this fact.

SCHOMBERG.
The anniversary services of the Methodist Church will take place on Sunday, Jan. 8, and will be conducted by Rev. E. J. Dobson, at 2.30 and 7.30 p.m. Free will offering and collection and special music by the choir.

VEGETABLE GROWERS.
Don't forget the regular meeting of the Toronto branch of the Ontario Vegetable Growers at the Albion Hotel to-day (Saturday) evening, Jan. 7, at 8 p.m. Secretary, George Syme, president.

AGINCOURT.
They Went for a Good Time and They All Had It.
AGINCOURT, Jan. 6.—(Special).—A pleasant event was the visit of two big sleigh loads of men among the members of the Ebenezer Methodist Church to the home of Mr. and Mrs. Charles H. Watson, near this village, on Thursday evening. There was amusement of all kinds, and following this a bounteous luncheon such as only the country can produce. Everybody spent a happy time, and the good

SENT TO BARNARDO HOME.
Arthur Clarkson, the young Barnardo boy brought to the city from Tilbury East, where charges of cruelty have been laid against the farmer with whom he was put to work, is at the Barnardo Home in Peter-st., where his frozen feet are being attended to. It was not found necessary to send him to a hospital.

This Man Is Young at 55 Years

He is a "Health Belt Man," therefore has the Vitality and Hot, Red Blood of Youth in His Veins. He Towers Like a Giant Above the Ordinary Difficulties of Life—So a "Health Belt Man" Yourself—It Gives Manly Strength; It Makes You Young and Keeps You Young All the Days of Your Life; It Takes All the Goads Out of Your Make-Up—Let Me Give You of This Abundant Vitality, Then Nothing Can Ever Conquer You But Death Itself—100,000 Men Have Taken My Advice, Why Not You?

The secret of life-long youth may be summed up in one word—"Vitality." If you have this great natural power in abundance, years count for nothing. I use no drugs, I recommend none. Just the Health Belt. No privations, no dieting and no restrictions, excepting that all dissipation must cease. Put the Health Belt on nights when you go to bed; let it send its power into your nerves, organs and blood while you are sleeping. It gives you a great glow of soft, gentle, galvanic-vital electricity during the entire night. One application, and you are like a new being; it takes all the pain and weakness out of your back; it makes you answer the morning greeting with "I'm feeling fine." It is a great strength builder; it overcomes the results of earlier mistakes and indiscretions; it gives you a compelling power, so that you are attractive to all women and men with whom you come in contact. Three months' use is sufficient. F. A. Clarke, Port Hope, Ont., writes: "I am a man again, thanks to you. Nothing can discourage me now."
This is one among tens of thousands.

I TAKE ALL THE RISK
All I want is a chance to prove to you the truth of my claims. Write to me, or call at my office, and you can arrange to get the Belt and pay for it when cured. If not cured, send it back. If you prefer to pay cash down you get a discount.

Let Me Send You These Two Books FREE
They fully describe my Health Belt, and contain much valuable information. One is called "Health in Nature," and deals with various ailments common to both men and women, such as rheumatism, kidney, liver, stomach, bladder disorders, etc. The other, "Strength, the Glory of Man," is a private treatise for men only. Both sent upon application, free, sealed, by mail.
If in or near this city, take the time to drop in at my office that you may see, examine and try the Belt. If you cannot call, fill in the coupon and get the free booklets by return mail. They are better than a fortune for any one needing new vigor.

WILL THEY EXTEND?
Metropolitan or Some Other Company Can Make Good Money.
All sorts of rumors are afloat as to the intentions of the Metropolitan Railway along the line of possible extension in the spring. One of the least probable of these is to the effect that the company have about concluded a bargain for the purchase of the Sutton branch of the G.T.R. and will electricify it. Another rumor is that a right of way and start in the spring to build from Richmond Hill to Spungville.
Whether the Metropolitan undertakes the work or leaves it to another company, the fact remains that a big harvest awaits the company, especially enough to repay all that rich district lying east of Yonge-street and south of Eglinton-st. and the new Main and Scarboro. It's only a question of getting in first.

DISMISSED THE CASE.
Commenting on the conduct of John Gidney of Kink Township, who brought a charge against his stepson, Walter Gidney, before the county court on Friday, in the county court, did not find in his favor.
"Your conduct was disgraceful," said his worship, "and I will dismiss the case."
The trouble between step-father and son followed a session by the fact that Walter Gidney's wife and John Gidney returned from Toronto on the same car on Dec. 24 and subsequent events.
"Let me know if he makes to your house again," said the magistrate to Walter Gidney.

AUCTION SALE.
Ninety acres will be sold by E. P. Pocher, auctioneer, at 2 o'clock, at McLean's Hotel, Brougham. The land is situated near Brougham Village and is now in Picking Township. It is well watered and has a good farm. One-third cash, balance in four payments of \$1000 each. Address E. P. Pocher, Brougham, Ont.

CUT IN LIQUOR SHOPS?
Rumors of Such a Move Float Round City Hall Corridors.
There is some talk around the city hall that the temperance aldermen may institute a measure to reduce the number of shop licenses in Toronto this year from 50 to 25, and to curtail the hours of selling liquor in both hotels and shops.
It is also noteworthy that the local hotel proprietors are anticipating some new move on the part of the license department that may affect their profits in some way. This uneasiness is aroused by the fact that the commissioners are demanding to know the highest daily receipts over all bars; the highest day's receipts and the lowest day's receipts during the past year.

A Prince Among Piano Stores.
All sorts of kind things are being said of the new piano warehouses of the old firm of Heintzman & Co., Ltd., at 183-185-187 Yonge-street. Anyone who has visited the store must admit that it is difficult to really describe in words its full beauty. The ground floor, with its Ionic designs—third, fourth, fifth, sixth and seventh floors—all bear the marks of the artist in construction. Readers are invited to visit these warehouses and see things for themselves.

Nearly Bled to Death.
CALGARY, Jan. 6.—President J. L. Sayre of the Sayre Automobile Co. nearly bled to death by a cut from broken glass, when his automobile collided with a street car at the subway. His condition is precarious. He will lose a leg.

Mayorality Protest.
WINNIPEG, Jan. 6.—Mayor Evans to-day retained H. Whidlaw, who until recently was city prosecutor, to represent him in the petition brought by the unsuccessful candidate, E. D. Martin, to contest the mayorality election. The city prosecutor is an appointee of the provincial government.

WEAK, RUN-DOWN, WORN-OUT MEN

To men who are run down, weak and puny, who have lost the force of vitality, who feel gloomy, despondent and unable to do battle with the affairs of life, who have Rheumatism, Back Pains, Weak Stomach and Kidneys, and feel generally as if they needed to be made over.

That is the money that I am after, because for every dollar I take I can give a thousand per cent. interest, and don't want it at all until I have cured you, if you will secure me. I have cured so many cases that I can prove my claim to you; but if that proof is not enough, I will give you the names of men right near you—where you are. Is that fair? Just lately I have received letters of praise from these men:

Dr. McLaughlin's Electric Belt is a cure for all signs of Breakdown in men and women. The Vitality of the body is Electricity—the force in the Nerve Cells. My Electric Belt will give you back this power and enable you to fight on in the Battle of Life!
