## Young Indian Acquitted

### Shooting Was Accidental

**Verdict of Belleville Jury is Received With Astonishment—Defence Claim that Weapon Was Intended Only to Frighten Aged Victim.**

BELLEVILLE, Ont., March 10.—(Special.)—If the roof had fallen in on the packed courtroom the surprise would not have been greater than when, at 10:30 to-night, the jury returned a verdict of not guilty in favor of Thomas Smart, the young Indian on trial for the murder of his uncle.

Altogether the surprise was agreeable to probably every person here, since nothing but sympathy for the lad had been in evidence, yet everybody in the room was amazed. From the tone of Justice Teetzel's address, which, however, could not be considered partial, it looked very cloudy for the prisoner.

The defence was solely constructed on the theory that the shooting was accidental, and on the point taken the prisoner's word was taken against that of his grandmother. This the judge dwelt on at length and also on the peculiarity of his having forgotten to tell at the inquest that the gun went off while his grandmother was trying to take it away from him. He didn't even know what would have happened if it wasn't cocked, unless the hammer struck his artificial leg.

Thomas Smart went to his home on the reserve at midnight, attended by a large cortege of democrat wagons piled full of Indians. He told The World that he didn't expect to get off, and felt so ill thru the whole proceedings as to almost faint.

No compliment was paid the jury when they were finally dismissed. "You are discharged until 10 o'clock to-morrow morning," said his lordship, shortly.

Should Be a Warning.—Thomas Smart, stand up. The jury have given you the benefit of the doubt in this case. Although certain circumstances are incriminating against you, they were circumstances that might not have justified them in finding a different verdict. It was a very improper thing for you to have taken a firearm, as the jury have taken from the evidence, you did, to frighten your step-grandfather; it was very wrong for you to take the law in your own hands, and it was a most dangerous thing for you to do.

"I hope this will be a warning to you and to others who are inclined to be foolishly reckless, not to attempt to do a thing, even for proper purposes. You have a chance to redeem yourself now in the eyes of the citizens. So try to become a respectable young man."

From the conflicting evidence of practically all the witnesses it was quite evident that Justice Teetzel was puzzled to know which statements to believe. Also the majority of the principal witnesses testified at utter variance with their testimony at the preliminary hearing, as testified in The World yesterday. Dorothy Smart's stories showed a wide discrepancy.

Defense Counsel Harrington sprung a surprise by informing that the young girl had not told the truth before because she was afraid of her grandmother, husband of deceased.

Mrs. Adelaide Sager, sister of the prisoner, swore that Dorothy had told her lately that she got married in order to get away from her grandmother, so that she could tell the truth, and also that her step-grandfather had accused Tommy of having improper relations with her.

## New Daily Paper at Berlin

BERLIN, Ont., March 10. (Special.)—It is stated here that William Lyon Mackenzie King, M.P. for North Waterloo, and a journalist by profession, is to have a new evening paper here. It will be backed by \$100,000 capital, provided by three or four prominent manufacturers who have been anxious for some time to establish a new daily.

## Changes to Figure in U.S. Tariff

WASHINGTON, March 10.—It was authoritatively learned to-night that the new tariff bill which will be submitted to the house at the special session by the ways and means committee will contain the following recommendations:

Lead and copper, no change. Sugar, no change. Iron ore, placed on free list. Rails and billets, substantially reduced. Pig iron, 25 per cent. reduction. Textiles, graduated tariff on high-grade cotton and on silk goods an increased tax; on medium goods, no change; on low grade, a reduced tariff.

Senator McMullen Would Save People From Phobias.

OTTAWA, March 10.—(Special.)—In the upper house Senator McMullen, in moving the second reading of his bill to compel drivers of vehicles to come to a halt before crossing a railway track on grade crossings, said his object was not to relieve the railway companies from responsibility for accidents, but to guard the public against themselves.

## RAILWAY EMPLOYE INJURED

HAWKESBURY, March 10.—(Special.)—Through a collision of a Grand Trunk snow plow and an engine of the Canadian Northern Quebec line on the Hawkesbury branch of the O. T. R. this afternoon, Pilot Foreman Carlow of Coteau lost his right arm, and a boy was less seriously injured.

## ORANGE ORDER PIONEER OF LIBERTY

And 150,000 of its Members Will Resist Any Interference With Rights of Worshipers.

ST. THOMAS, March 10.—(Special.)—Many Orangemen are in the city today as delegates to the grand lodge of Ontario West, and the city hall, one of the biggest west of Toronto, was unable to accommodate the gathering, and to-morrow the proceedings will be held in the Grand Opera House, which to-night was crowded to overflowing.

The Orange Association has been accused of being a political organization, but it was broad enough to take in all parties. In the past it had acted as a buffer when either party was going wrong. They stood by the old flag and one school, and until they had no separate schools, Canadians could never be united. The B. N. A. Act provided separate schools, but the day would come when they would amend that.

Regarding the Racine bill, he said that what went thru the legislature would have something to say at the general elections.

## MISS KINRADE STICKS TO HER STORY THAT BURGLAR COMMITTED MURDER

### MEMORY FAILS AT CRUCIAL POINTS

"I Don't Know" She Replies to Mr. Blackstock's Questions Concerning Her Encounter With the Mysterious Intruder.

MR. KINRADE DECLARES FAMILY RELATIONSHIPS WERE OF FRIENDLIEST

HAMILTON, March 11.—(Special.)—The inquest into the death of Miss Ethel Kinrade is continuing, at this writing, well into the hours of Thursday morning, with Miss Florence Kinrade on the witness stand.

Telling the events of the tragedy, she has maintained that a burglar did the deed, as in the manner already related. The inquest into the death of Miss Ethel Kinrade is continuing, at this writing, well into the hours of Thursday morning, with Miss Florence Kinrade on the witness stand.

She has told of her encounter with the man, being seized by him, escaping to the yard, returning, passing him and running thru to the street without mentioning that a shot was fired.

Reminded by Mr. Blackstock, "You heard no shots fired?" she has declared that she heard many, beginning as she first descended the stairs with the money, and that as she ran from the house she fired after her.

Leading up to the events of the tragedy, she was questioned closely concerning her visit to Virginia, as well as of a previous visit to Syracuse, Rochester and Buffalo, when her companion was a certain Miss Elliot, apparently a woman of means.

Miss Kinrade denied having told certain versions of the murder mentioned by Mr. Blackstock, and gave a description of the assailant.

She was positive she would know him again. Mr. Blackstock asked if she had known him before. She appeared faint and burst into tears. He reminded her of her oath. She said she did not know him.

The inquest was then adjourned until to-night. Her father, Mr. Kinrade, the first witness, and who preceded her on the stand, was closely questioned concerning his relationships with his son Ernest, contractor. He denied that these had ever been any serious disagreements between them; that the families were quite friendly; that the night before the murder Florence and Ethel had spent the evening at a birthday party at Ernest's home; that Ernest came regularly to his house. Ernest paid no rent, he occupied houses that were built until they were sold. Last fall father and son had built a frame row of houses.

"Everything it settled up between father and son," said Mr. Kinrade. "I don't consider he owes me anything. I think perhaps if we were strangers I would have a lot of rent coming to me. But as he is my son, he owes nothing."

Concerning Florence and her visit to the south, little new transpired in his evidence. He admitted Baum had proposed marriage to Florence, and that he had been one reason why they urged her to return home, as she was already engaged to young Wright.

"Was Wright here on one single occasion during June, July and August of last year, when she was home from Virginia?" Do you recollect him being here at any time?" asked Mr. Blackstock.

"I am not positive. He was engaged as a fire ranger in the north about that time. I think," was the reply.

Half an hour before 8 o'clock, at which time the inquest was to begin, the small courtroom of No. 3 police station, King William street, was densely packed with an interested throng. Admission was strictly by ticket, but the only limit put on the number of tickets was the capacity of the room.

Ald. Gardner, who had no ticket, could not get in, neither could two Bramford reporters, who had failed to arrange for passports. Reporters were present from all the big eastern cities, including Buffalo, Cleveland and Detroit journals.

Coroner Anderson arrived at 7:30, and after some delay he was seated. She was alone when she left Hamilton. She was not sure whether she stopped in Philadelphia.

Mr. Blackstock said he understood from her father that she had written from Philadelphia that she was delayed there. Witness thought it might have been Miss Kinrade's expense agent, who had stayed at the house of a musician, Foster, paying \$5 or \$7 a week for board, or practically her whole salary. She went to Richmond in March and stayed till about June 1.

Besides her church salary, she sang in the Orpheum Theatre, in Portsmouth. It was a vaudeville and moving picture, "dime" show. She appeared once at the afternoon and evening performance. The engagement resulted from the manager hearing her sing in church. She received \$15 a week, and the church people didn't object in June she felt the work was growing heavy.

where she met Miss Elliot on the trip south, and could not remember whether there was a box containing the clothing which Ethel Kinrade had worn.

It was 10:35 p.m. when Florence Kinrade was called. She came in looking very pale, but composed, and dressed in sombre black. A nurse accompanied her.

Mr. Blackstock suggested that the nurse retire, which was complied with. She was alone when she left Hamilton. She was not sure whether she stopped in Philadelphia.

Got Leave of Absence.—The church got a two months' leave and she continued at the theatre for a month, returning home about Aug. 1. Asked whether there was anything beside singing and moving pictures, she said there were humorous sketches.

She lived in Portsmouth with Mr. and Mrs. Butler, proprietors of the show. She was then a boarder. Miss Elliot remained in Richmond. She had much spare time and had a number of friends. Her stage name was Mildred Dale, a suggestion of Manager Butler.

The oppressive heat decided her to return home. Mrs. Butler wrote several letters urging her return to Portsmouth. Witness declined to do so, although her mother didn't like her singing in the theatre. She went back to Portsmouth in October, but she didn't see Miss Elliot again. Witness travelled south alone, and resumed boarding with Mrs. Butler, staying there till near the end of December.

Witness said she grew tired of life, that it had no pleasant features. She didn't mix with many people. Asked whether any one paid her any particular attention, she said Baum had proposed marriage to her. It was not as a joke. He took it good-naturedly and there was no trouble, although he was very persistent.

Regarded as a Joke.—"Did it influence you in leaving?" asked Mr. Blackstock. "I wanted to get away," replied Miss Kinrade, who said Baum showed no interest in her.

## 'OCTOPUS' FREED FROM RECORD PENALTY

Judge Landis' \$29,000,000 Fine Knocked Out by Judge Anderson's Decision Dismissing the Case.

CHICAGO, March 10.—The Standard Oil Co. of Indiana to-day was found not guilty of accepting rebates from the Chicago & Alton Railroad, and the penalty of \$29,000,000 was annulled.

The verdict was returned by a jury in the federal court on instructions of Judge A. J. Anderson, who averred that he followed the circuit court of appeals' decision as to the verdict returned at the conclusion of the case, and that it must be complemented.

It was with something of an air of hopelessness that District Attorney Sims and his assistants appeared yesterday to the government prosecutors that the proof relied on in the first trial was incompetent and that it must be complemented or fail.

It was with something of an air of hopelessness that District Attorney Sims and his assistants appeared yesterday to the government prosecutors that the proof relied on in the first trial was incompetent and that it must be complemented or fail.

Mr. Wilkerson said that the government could proceed no further and suggested dismissal of the case. Jury Instructed.—Attorney John S. Miller, chief counsel in the case for the oil company, immediately moved that there be an instructed verdict of not guilty. The court so ordered, and the jury was discharged during the arguments by the attorneys, was called in and charged.

The decision of Judge Crosscup, Baker and Seaman of the United States Circuit Court of Appeals, reversing Judge Landis' judgment, together with the action of the United States Supreme Court in refusing to review the decision of the court of appeals, was assigned as authority for to-day's decision.

Judge Anderson quoted from the opinion of the appellate court judges. The strongest expression of his views, he said, was the statement in that decision that "the most we can say is that the question is one upon which the judges, after full discussion, might very reasonably disagree."

Continuing, Judge Anderson said: The defendant is charged here by indictment; this is a criminal offense. The defendant is presumed to be innocent until proved to be guilty beyond all reasonable doubt; and before this jury would be justified in finding a verdict, on a single one of these counts it would have to be satisfied beyond all reasonable doubt to such a degree of certainty as to overcome the presumption of innocence which surrounds this defendant. It would have to be satisfied beyond all reasonable doubt that there was a definitely fixed rate of 18 cent rate. The court of appeals has said upon this same evidence, after having considered it in all its relations, after the evidence which has been given, that they cannot say that these two papers (the railroad tariff sheet No. 24 and the Illinois Classification), really fix any 18 cent rate.

The Duty of Jurors.—"Gentlemen of the Jury, I have made up my mind to do this case. You, as jurors, have a perfunctory office to perform, and the evidence you have heard, as presented by the government, may have given you some opinion of your own as to how this case should be decided. You have no arbitrary power. Neither have I, as a federal judge, any such power. I am bound by the law as you are. When the United States court of appeals lays down the law we are bound by our oaths to obey this law.

"The Standard Oil Company has been indicted, and the government avers in its indictment, that a rate of 18 cent on shipments of oil was a fixed standard, and that regardless of this the Chicago & Alton Railroad gave the defendant concessions allowing the oil company to ship oil over its road at a rate of six cents. The government failed to prove this charge.

"The Standard Oil Company is charged with the criminal offence, and therefore before a jury can find the defendant guilty it must be satisfied beyond all reasonable doubt that there was a definitely fixed rate of 18 cent. The court cannot say that these two instruments prove the existence of a standard, in this case meaning 18 cent rate.

Charges Not Supported.—"The proof offered by the evidence does not support the charges relative to the Chappell, Indiana, shipments. Consequently, the defendant cannot be found guilty on charges that embrace shipments from that point to St. Louis.

"Proof of publication has not been made with reference to the alleged illegal shipments of oil from Whiting, Indiana, and consequently the defendant cannot be held on charges of accepting rebates on shipments from that place.

WASHINGTON, March 10.—The understanding here is that an appeal will be filed from Judge Anderson's court to the circuit court of appeals. Also an appeal would lie from the circuit court of appeals to the supreme court of the United States in the event that the decision in the former tribunal should be against the company.

In fact, that is the best reason for stating that the whole issue will come before the supreme court of the United States very soon thru an unexpected and novel move by the department of justice.

It was even announced at the Wednesday evening service at a prominent downtown church, the first in justice to a rumor, the suitable references to such an event were made.

Rev. Professor James Orr Will Address Bible League.

A visit from Prof. James Orr, D.D., of the United Free Church of Scotland, at the present juncture under the auspices of the Bible League, which is announced for April 6-12 next, is one of the most interesting bits of church news since the visit of the Bishop of London.

Dr. Orr is regarded as among the foremost of British exegeses, and Dr. Robertson Nichol, the editor of the British Weekly, thinks him, it is said, the greatest living apologist for Christian truth.

The aim of the Bible League, of which Dr. Elmore Harris is chairman, is to bring the Bible to the attention of the Toronto branch, to avoid all controversy regarding Bible study and education, its object being purely educational.

Dr. Orr's reputation has been secured on his studies of the New Testament, but he is an indefatigable worker, and he has a vast and varied acquirements of vast and varied acquirements, and his recent volumes, much interest in his visit.

Dr. Orr is a fellow professor with Dr. George Adam Smith in the United Free Church College in Glasgow.

EXTEND LEMIEUX ACT TO BUILDING TRADES Deputation of Contractors Request Minister of Labor to Have New Insurance Bill Enlarged.

OTTAWA, March 10.—(Special.)—Requesting an extension of the Lemieux Act to other industries than public utilities, the enactment of a federal law governing workmen's injuries and an enlargement of the professional insurance act to cover industrial insurance, a deputation from the Canadian National Association of Builders, now in convention here, waited on the minister of labor to-day. They were introduced by Major Beattie.

J. Herbert Laner of Montreal argued that as Mr. Fielding was about to bring in a new insurance bill the opportunity was afforded for the inclusion of industrial insurance. In reply to a question as to whether the existing conditions it was impossible for building contractors to estimate their risks in this respect, as the laws were different in the provinces. Contractors were at the mercy of sympathetic juries and verdicts were usually based on the amount of money lost by the injured or deceased, but upon such considerations as the number of his family and his temporal condition.

Laner advocated a federal act basing compensation upon the earning capacity of the employe for three years and a maximum award of \$5000 to be dealt with, not by the court, but by an official board of arbitration. Mr. Laner asked that the operation of the Linieux Act be extended to the building trades. Mr. Lemieux promised that if the act bearing his name were amended, as it probably would be, it would be in the direction of extending the principle of compulsory investigation to other industries than public utilities. As for compensation for injuries, it was a matter of civil rights, falling wholly within provincial jurisdiction.

As to the proposal that a federal compensation act be passed, he could offer no encouragement. It was a matter of civil rights which fell wholly within jurisdiction of the provinces.

Toronto had had visits from the great orchestras of the States during the present season, but while no one ventures on comparisons between any of those and the local symphony orchestra, it was felt by musical people assembled in great force at the first concert last December that a wonderfully good beginning had been made and that with time and patience and wise expenditure Toronto would have in the near future an instrumental organization of absolutely first class standing. The various singing societies in our midst are from six to eleven years old, while the orchestra is only in its third year. The improvements which time and perseverance are sure to bring about will ultimately place this organization on a footing with any other, visiting or local, and to that end all supporters of good music must continue to work. The program for the March concert contains a splendid Beethoven symphony and several lighter and captivating numbers. Mr. Weisner and his forces had an enthusiastic reception in Peterboro, where both standard and popular selection were well received, and it is hoped that the citizens of Toronto will pat-

Brooklyn Taste Their First Defeat When Toronto Wins Team Match

Toronto Clean Up Three Out of Four Entries on Card, But Lose Two Match Games - Wells Bumped Voorheis.

Large crowds greeted the visit of the Brooklyn team yesterday, both in the afternoon and evening.

While new parks, fields and tracks galore are to be opened up for sports and games, it is announced that Dufferin Park, famous for its horse races, is soon to be sold into building lots.

James G. Merrick, president of the Canadian Amateur Athletic Union, has just through a good sized bomb into the lacrosse camps at New Westminster.

It is admitted in British Columbia that this settles the question so far as the C.A.A.U. is concerned, and as the C.A.A.U. will affiliate with the eastern body, the provincial body will be unable to do anything else than dissolve itself.

And just as New Westminster is preparing to defend the McInty Cup along comes Con. Jones, Vancouver's new lacrosse manager, who is prepared to provide conditions at good salaries in that city.

That's a fine mixture of nationalities in the six-day go-as-you-please race now on in Madison Square Garden.

Several well-posted New York sporting men who saw Jeffries in his fight with Bob Fitzsimmons, looked the full fellow over at the Square Theatre.

The Canadian fencing championships, under the sanction of the C.A.A.U., will be held by the University of Toronto Fencing Club on Thursday and Friday, March 18 and 19.

The British United A.C. Harriers will run from the club rooms to-night at 9. All members wishing to get into the running game are asked to attend, or any one wishing to join will be made welcome at any of the meetings.

CANON THROWS LIGHT ON HIGHER CRITICISM

Says That the Early Christians Regarded Genesis Simply as Parable or Allegory.

Rev. Canon Welch, in his Lenten sermon at St. James' Cathedral, said: We have been thinking of God's ideal for the human race, and the actual contrast between it and the conditions caused by sin.

The other great truth is that the teachings of Jesus respecting sin are not dependent on whether the third chapter of Genesis is historically true.

Canon Welch made the quotation to emphasize the fact that in the fourth century many thoughtful men were a parable or allegory.

One writer who has attracted much attention has written of sin as a mistake, as an ignorant error for the light.

THEATRE MANAGERS' VIEWS ON CENSORSHIP

Delegation Appear Before Civic Legislation Committee Only to Find Aldermen Cannot Act.

A deputation of theatre managers appeared before the civic legislation committee yesterday with reference to the resolution passed by the committee last week calling upon the police commissioners to exercise stricter censorship of plays.

The visitors, one and all, declared that they would welcome a rational censorship, but believed the present censorship quite sufficient.

NEW YORK STOCK MARKET STILL IN A TRADING RANGE

Undertone on Wall Street Weak, But Disturbed by Rallies—Few Features at Toronto Exchange.

World Office, Wednesday Evening, March 10. Absence of speculation continues to be reflected in the small volume of business at the Toronto Exchange. Special rallies were attempted in a few issues on Tuesday, but these failed to excite any following and the market relapsed into dullness again to-day.

Offerings of speculative shares are not being forced owing to the small buying power. Rio and Mackay were the only issues to-day which gave any evidence of life and the transactions even in these were quite paltry.

The leaders of the market are doing little. They keep a watchful eye on quotations and lend a little sustenance when the market requires it. Brokerage circles are devoid of any news or gossip and absolute reliance is being placed on quotations to develop business.

Investment purchases of bank shares were few to-day, a considerable amount being in evidence for Standard Bank stock.

Well Street Pointers. All available gold bars have now been taken for shipment to London, \$1,400,000 going to-day.

Shipments of coin expected and total export may amount to \$10,000,000 altogether.

Tariff rumors plentiful, especially as affecting steel, lumber, wool, coal and hides.

London settlement began to-day and quotations are now for new account.

Decision on commodity clause in coal roads case not expected for several weeks.

No attempt to pass Ship Subsidy Bill on Friday, 1909, at Toronto, as it is to be made at special session of conference.

Washington special says new tariff bill will probably be made public next Tuesday.

Stross-Sheffield earnings for fiscal year ended Nov. 30 last, net \$1,295,755, decrease \$257,000.

LAWRENCE, Mass.: President Wood of American Woolen Co. says that if reduction in the tariff on woolen goods is made it will be followed by a cut in wages of woolen goods operatives.

There is talk now that there may be a general mortgage bond issue in excess of \$100,000,000 proposed in connection with Missouri.

Joseph says: Hold B.R.T. The sentiment is for the Copper and Steel stock because of adverse trade conditions is far from bullish.

Efforts may be made by professionals to-day to extend their raiding of yesterday afternoon in the industrial list. This is a feature of the trading market that should be noted.

CHARTER IS WITHDRAWN

Flutter Among Daughters of Empire Over Designs for Monument.

A little breeze which has been ruffling the usually quiet waters of the activities of the Daughters of the Empire in London has culminated in the withdrawal of the charter of the London Municipal Chapter by the National Chapter.

According to a statement issued by three of the London chapters, the trouble is in connection with the proposed joint monument to Queen Victoria and to the soldiers who fell in South Africa.

The original authorization given by the national chapter was that a statue of the Queen should occupy the position of honor on the summit of the monument. When the money requisite had been collected the trouble began.

The municipal chapter resolved that the design should consist of a soldier on top of the monument, with a picture of the Queen's face on a medallion on the side of the pedestal.

Against this the members of Lord Roberts Chapter, the original promoters of the monument, being joined in their protestation by Transvaal Chapter and other members.

The national executive were notified and advised of the original design with the Queen on top.

The remonstrance of the national president was met with defiance, the municipal chapter refusing to give it any consideration. The national executive then, in defence of its own authority, and to carry out what it believed to be the policy of the original charter, were forced to extreme measures and withdrew the charter of the municipal chapter.

The only step taken by the municipal chapter had been to approve of the appointment of Col. Little, Major Beatches and the regent of the municipal chapter as trustees for the investment of moneys collected, the two gentlemen mentioned, if they ever accepted the position, have taken no part in the trust.

REURNS FROM CUBA. Prominent Canadian Cigar Merchant Establishes Branch Office There.

G. W. Muller arrived home from Cuba yesterday morning, after spending several months on the island of Pinar, in a combined business and pleasure trip. In his offices in the "Traders' Building" yesterday he might be said to have held a levee, for a constant stream of visitors came during the day to the congressman.

"My first important move was to establish permanent quarters at No. 10 Zuluetta, in the City of Havana, and in the afternoon of my visit to the city I had a long talk with the Cuban patrons who will always find a welcome.

Afterwards I visited some of the tobacco plantations in the famous Yucata district to study some of the new methods of tobacco culture of which I had previously been apprised by my correspondents. The scientific production of the leaf and its uniform flavor, has only been brought to perfection on a few of these plantations, and it is on these plantations that I selected the raw leaf. By going to Cuba I am given first choice.

I have made exclusive arrangements at several of the best known factories. While I was in Cuba I had the pleasure and time to write to a few of our most critical patrons here, telling them just what I had done.

I have been asked to contribute an article on the new methods of tobacco culture by the leading tobacco journal in America, but I must confess that I do not aspire to literary honors. In the United States I do profess an intimate knowledge of the leaf—a knowledge which is necessary to the intelligent care and conduct of a business.

I know that many of our most prominent Canadian capitalists are largely interested in Cuban properties and enterprises, but they have wisely confined their investments to fruit lands and to transportation enterprises. The successful growing of the tobacco leaf seems to be inherent in the native-born son of Cuba, and nobody else seems to be able to gather the knack or the knowledge of its varied processes of curing and culturing to bring the refined aroma to its correct degree of perfection.

started at 18 o'clock. The people in charge of the work say that this change in the timekeeping method has prevented many errors, and also it took the men a little while to become accustomed to it, they now speak of 14 o'clock and 15 o'clock in a matter of fact way and without the smile which at first provoked.

BLAME PARTIES UNKNOWN FOR THIS MAN'S DEATH

Coroner's Jury Return Verdict at Stratford—Evidence of Man and Woman Contradicted.

STRATFORD, March 10.—(Special.)—"That Alexander Sutherland came to his death by injuries and exposure, due to party or parties unknown to us," was the verdict brought in by the coroner's jury at the adjourned inquest into the death of the Ice Zorra farmer who was found in the lee at the rear of the residence occupied by Aloysius Guerin on Friday, Feb. 26.

The statements of three witnesses went to show that Sutherland was in the Guerin house at 12 o'clock at night, despite the evidence of Guerin and his wife, who declared that the deceased had only been in the house for a short time. Neither of the Guerins was called on to give evidence to-night.

It is quite certain that the crown will not allow the case to drop, but upon being asked to-night, Crown Attorney McPherson was non-committal as to the next step to be taken.

REPLIED TO NATIONALISTS. Premier Gouin Requests Them to Respect the Rights of Others.

QUEBEC, March 10.—(Special.)—The address in reply to the speech from the throne, debated for the last week, was voted on shortly before midnight—52 to 18—Messrs. Bourassa and Lavergne (Nationalists) voting with the opposition, and Mr. Prevost, who scored the government policy in his speech, voting with the majority.

Mr. Delage, M.L.A., Quebec County, was elected deputy speaker, and Treasurer Wm. L. Proulx delivered the budget speech for to-morrow.

Mr. Gouin delivered probably the best speech of his life in reply to the Nationalists, reminding them that he and most of his supporters were of the opinion that the government should respect the rights of others as they wished their own respected.

He was severely rated by Mr. Teller (opposition leader) for a supposed thinly-veiled attack upon a Nationalist member when he attributed to a certain member of the opposition that he had a father-in-law and a father in jail.

Mr. Lavergne, who is a son-in-law of ex-speaker Roy, awaiting trial in connection with the case of the president of the wrecked Bank of St. John's, is expected to take the matter up to-morrow as a question of privilege.
