Berlin Royalists Attempt Coup on Kaiser's Birthday Eve
Terms of Exchange of Goods With Russia Are Announced

'WINNING THE SEAT'
WINTER SPORT FOR
RANEY SUPPORTERS
No Constituency Yet Anxious
for Attorney-General as
Its Member.

GRANT AN OPTIMIST
It was a cruel turn-down when J. G.
Lethbridge, U.F.O. member for West
Middlesex, announced upon return to
his home town after a conference
with the committee that Mr. Raney
could not have his seat. The fact was
well known on Saturday evening, but
was expected to keep till the end of
the present week in order that the
committee might beat up the bushes
more vigorously.

TERMS SENT TO RUSSIANS
FOR LIFTING OF BLOCKADE
BY ALLIED GOVERNMENTS
Text of Note Published—Value of Goods Imported Will Be
Based on Value of Those Exported From Russia—
Central Committee at Moscow Must Guarantee Author-
ization.

By the A. P.
Paris, Jan. 26.—The text of the
supreme council's note to the repre-
sentatives of the Russian Central Co-
operative Union regarding the partial
lifting of the blockade was made pub-
lic today. It follows:
"First—The allied governments notify
the Co-operative Union that they are
disposed to authorize an exchange of
products upon a basis of reciprocity,
between the Russian people and the
allied and neutral countries, and they
invite this union to export from Russia
the surplus of its cereals, its food-
stuffs and its raw materials with a
view to exchanging them for clothing
and other merchandise, of which Russia
is in need.

SIBERIAN ARMY
IN HOPELESS CASE
Forty Thousand Surrendered at
Omsk Without Firing
a Shot.

London, Jan. 27.—It is necessary to
reach an understanding of the present
situation in Siberia to realize the com-
pleteness of the collapse at Omsk, says
The Daily Mail's Harbin correspond-
ent telegraphing January 26. He de-
clares that since retiring from the
Ural region the Siberian army, with
the exception of one rally by the Cos-
sacks, have offered virtually no op-
position to the Bolsheviks. All reports
of serious fighting are imaginative, he
asserts.

WINDSOR AWAITS
ORDER-IN-COUNCIL
Taking Over of Street Lines
by Hydro-Electric Ap-
proaches Completion.
Windsor, Jan. 26.—The public are
waiting for the announcement of the
date of the Hydro-Electric Commis-
sion taking over the local street car
lines, already voted by the ratepayers
of the border towns. Those in a posi-
tion to know, said that the arrange-
ments will be concluded any
day, but that possession may not
change from the Detroit United to
the commission much before the end
of February, certainly not later than
on the last day of that month, when
all the accounts can be most conven-
iently cleared. The documents are in
Toronto awaiting the final order-in-
council from the Ontario government.
Commissioners Carmichael and Lucas
have that part of it in hand.

Bill to Stop Transmission
Of Betting Odds on Races
Washington, Jan. 26.—A bill to pre-
vent transmission by mail or wire of
any record of betting odds on horse
races or other contests in which man,
beast, or automobile takes part was
introduced today by Senator Sterling,
Republican, South Dakota.

Jury Awards Nominal Damages
In Detective's Suit For Libel
"We find Acting-Detective Young,
the plaintiff, not guilty of assault. We
find The Toronto World guilty of libel
and assess the damages at \$100,
and The World to pay all costs."
The above was the verdict handed
out shortly after 6 o'clock last night
by the jury in the libel action brought
before Chief Justice Falconbridge by
Detective George Young, attached to
No. 5 division, against The World
Newspaper and Mrs. Charles C.
George (Ida Webster). The decision

RAILWAYS RAISE

Montreal, Jan. 26.—The Can-
adian railways, thru the Railway
Association of Canada, an-
nounced tonight that on March
1st their commutation rates
will be raised. The new rates
will, however, be less than the
maximum authorized by the
Dominion board of railway com-
missioners.

Borden Out of Active
Political Life.
MAY DEMAND CAUCUS
Ottawa, Jan. 26.—(Special).—Even
when Sir Robert Borden retired, few
anticipated any difficulty in the gov-
ernment surviving the immediate, or
even the following, session. Since then
there has been a change, and some
forecast the defeat of the administra-
tion and an election this year. There
has arisen among the Unionist mem-
bers a certain feeling of distrust.

TREATY AGREEMENT
IS NOW HOPELESS
Leaders End Bi-Partisan Con-
ference and Pact Goes Back
to Senate.
END CAME SUDDENLY
Washington, Jan. 26.—The whole
question of peace treaty ratification
was flung back to the floor of the
senate with the virtual collapse today
of the bi-partisan conference.
The end came with amazing swiftness
after Senator Lodge of Massa-
chusetts, the Republican leader, had
informed Democrats led by Senator
Hitchcock of Nebraska, that there
could be no change in the reservations
respecting the Monroe doctrine and
the much discussed article 10.

HUNGARIANS FEAR
CZECH INVASION
Austria Believed to Have
Pawnee West Hungary, Be-
ing Unable to Hold It.
Vienna, Jan. 26.—Budapest advices
indicate that the Hungarian govern-
ment is much agitated over the
Austro-Czech understanding, and re-
ports that three Czech divisions are
now in Pressburg and the more are at
Parkany. The newspapers assert that
Austria, realizing she is not strong
enough to hold German West Hun-
gary, has pawned the Czechs, and
express fear that the Czech troops will
not only occupy German West Hun-
gary, but will take advantage of the
slightest trouble to march into Hun-
gary proper.

WILL NEGOTIATE
ON CONDITIONS
Milner Commission Must Satis-
fy Egyptians It Repre-
sents British Nation.
Paris, Jan. 26.—Said Zaglou Pasha,
Egyptian minister of justice and head
of the Egyptian national delegation
here, confirms the Cairo reports that
the mission headed by Lord Milner
has been told by a body called to-
gether by the sultan to examine into
the Egyptian situation that it would
be necessary to deal with the Paris
delegation. He added that his dele-
gation was prepared to negotiate with
the Milner commission at Paris or in
Egypt. "If the Milner commission is
able to declare that it had been
authoritatively asked by the British
government to carry on negotiations as
representatives of the nation,"
Lord Milner's proclamation published
at Cairo on Dec. 19, Zaglou Pasha
asserted, like the preceding
British proclamations, "considers
Egypt as a British dependency, and
further, the Milner commission is
spoken of as a mission of inquiry."

MONARCHIST PROPAGANDA
PROMPTED YOUNG ASSASSIN
IN ATTEMPT ON ERZBERGER
Troops Massed in Berlin
To Check Monarchist Rising
Dublin, Jan. 26.—Wilhelmstrasse tonight is
barricaded and under the guard
of numerous troops. A patrol of eighteen armored automobiles and a half-
dozen huge motor trucks loaded with armed troops arrived early in the evening
and immediately took up their position in front of the government building, and
shut off all traffic from the thoroughfare. The precautions taken by Minister of
Defence Noske were stimulated, in addition to the assault upon Matthias Erz-
berger today, by rumors that the monarchists would attempt an insurrection
on the eve of the former emperor's birthday (which occurs tomorrow) and that
the attack was to be primarily directed against the Independent Socialists and
Radicals.

FLU WOULD FIND

Probable Outbreak Would
See Sufficient for Moneyed
Class Only.
If a "flu" epidemic should hit To-
ronto the day after tomorrow, the
medical authorities would be obliged
to ration the nurse supply. Such was
the most interesting of the many
conclusions arrived at yesterday at a
conference held together in the office
of Dr. John W. S. McCullough, chief
officer of health of the province, and
attended by representatives of medical,
social service, and other welfare
organizations, including the Red
Cross.

ARMENIAN REPUBLIC
RECOGNIZED BY U. S.
Also Approves a Plan for Dis-
tribution of German Ships
to Be Dismantled.
Paris, Jan. 26.—At today's session
of the council of ambassadors, which
takes the place of the supreme council,
the American ambassador, Hugh
C. Wallace, announced that the United
States had decided to recognize the
republic of Armenia, the boundar-
ies of which will be defined by the
Turkish treaty, and had also consid-
ered and approved the scheme for the
distribution among the allies of the
German ships to be broken up.

COMPERS DEFEATED
BY HIS OWN UNION
Turned Down as Delegate to
Cigar Makers' International
Convention in Chicago.
IS NOT "PROGRESSIVE"
Chicago, Jan. 26.—Samuel Compers,
president of the American Federation
of Labor, was defeated today in the
election for delegates to the Cigar-
makers' International Union conven-
tion, held by Local 144, the organiza-
tion to which he has belonged for
more than 40 years. Mr. Compers was
a cigarmaker until 1882, when he be-
came president of the A. F. of L., and
is first vice-president of the Cigar-
makers' International Union. The
coming convention, which is expected
to be held in Chicago in April, will
be the first one to which he has not
been a delegate in many years.

FIRE FIGHTERS SEEKING
AN INCREASE IN WAGES
Ottawa, Ont., Jan. 26.—Fire fighters of
Ottawa, Toronto, London, Hamilton
and Montreal are seeking an increase in
their scale of wages. Steps are being
taken locally to bring pressure to bear
upon the civic authorities to increase
the pay of all ranks of the firemen by
the scale of wages. Steps are being
received from other firemen's organi-
zations a similar demand is being
made.

SERIOUS FOOD RIOTS
IN MORAVIAN CITIES
Military Terms of Treaty
Not Acceptable to Hungary
Prague, Jan. 26.—There have been
serious food riots in the Moravian
cities of Standberg, Muzitz and Hohen-
sadt, and troops have been called out.
The workmen are demanding the im-
mediate requisitioning of supplies by
the army and their distribution under
a workmen's committee. In the
Olmutz district the authorities have
conceded this demand, and a battalion
of soldiers has begun work.

German Finance Minister
Shot in Shoulder as He Was
Leaving Law Courts—Is
the Best-Hated Man in
Germany—Is Bitterly As-
sailed.
Special to The Toronto World.
Berlin, Jan. 26.—Germany's militarist
and nationalist came within an
inch today of celebrating their first
great triumph since the armistice. An
aristocratic would-be assassin, who
had posed himself near the criminal
courts building, fired three shots at
Finance Minister Dr. Matthias Erz-
berger as the latter was coming out
from a hearing after a hearing in
his libel suit against Dr. Karl Helf-
ferich. Only one bullet struck Erz-
berger, slightly wounding him in the
shoulder.

Under the auspices of St. Margaret's Camp, No. 2, Daughters of Scotland, the annual "Robbie Burns" banquet—the first since the outbreak of the war—was held in Player's Hall, Danforth avenue, last night, when over 200 members with their husbands and friends enjoyed a thoroughly Scotch entertainment.

Narrow Escapes

By Canadian Press. North Bay, Ont., Jan. 26.—Individual railroad men here tonight assert that there may be more bodies still buried under the wreckage of the Winnipeg train No. 1, the second section of which telescoped the first at a curve about one and a half miles east of Corbett and eight miles from North Bay.

Wounded Over Casualties

Wounded is expressed now that the casualty list was not greater. The second section, traveling at a rate between 35 and 40 miles an hour, crashed into the first, and the huge engine and boiler thru three cars, and a few minor scratches about the face of the train.

Train Crew's Escape

Neither engineer nor fireman had time to jump. Engineer Godin of North Bay was killed. The next section, whose engine had turned over and he was a few minor scratches about the face of the train.

Many Narrow Escapes

Most of the passengers were immigrants and the women ran up and down the length of the train, eagerly seeking news of this or that one who was missing.

Mail Absorbed Shock

Mail Clerk Joseph Larose of Ottawa was on the second section. He believes he owes his life to the fact that two cars of British mail for the west were on the second section.

STEAMERS DAMAGED IN NORTH ATLANTIC

Radio Messages Received From a Number of Disabled Vessels.

Boston, Jan. 26.—The extent to which storms upset shipping during the past week was further evidenced today in radio messages from distressed steamers scattered over the north Atlantic.

The West Corum announced that she was disabled, but expected to reach Bermuda for repairs tomorrow, and the West Zula, with her propeller stripped of blades, sent word she was going to the Azores to be refitted.

The Ostaloona put in here, reporting in advance from the outer harbor that her steering apparatus was damaged and fuel oil almost gone. The West Ista wireless that she would arrive here tomorrow for repairs.

The Clariton, which is towing the disabled steamer Buffalo Bridge, said he was having heavy going with her tow, 300 miles off Halifax; the Aerlie, which has been in low, disabled, several days, reported she was being buffeted by stiff gales.

Bluebeard's Villa Sold for Fifty Thousand Francs

Paris, Jan. 26.—A villa at Gambais belonging to Henri Landru, the alleged "Bluebeard" who is accused of slaying a number of women and destroying their bodies, has been sold to a Paris business man for 50,000 francs. Its pre-war value was 10,000 francs. Robert Hadfield, chairman and managing director of Hadfields, Ltd., steel manufacturer, recently, he indicated that possession of such a shell during the great war would have been of inestimable value to the British fleet.

Poincare to Devote Himself To Reconstruction in Meuse

Paris, Jan. 26.—Raymond Poincare, who will retire from the presidency of the republic on Feb. 17, desires to devote himself entirely to the reconstruction of the department of the Meuse which was a part of the battle zone, and for this reason will not accept a position in the government for a period of three years, according to L'Espresso.

ONE MONTH'S REPRIEVE FOR STOYKO BOYEFF

Delay Hanging of Galt Murderer—Says He Absolved Ivan Petcoff.

Kitchener, Ont., Jan. 26.—(Special.)—Altho the authorities are reticent regarding the reasons behind the last minute reprieve of Stoyko Boyeff, who was to have been hanged this morning for the murder of John Sorokaty, it is generally believed his execution was postponed owing to his confession of the fact that Ivan Petcoff was in no way implicated with the crime. It is intimated the stay of sentence will give the crown an opportunity to develop new angles in the case. Altho declared innocent by Boyeff any pardon coming to Petcoff from the department of justice will be of little consolation to the prisoner as he is in a mental stupor from which it is believed he will never recover his normal mental state.

NEW SHELL READY FOR BRITISH GUNS

Would Have Been Unsurpassed Weapon if Available During Great War.

London, Jan. 17.—The British navy may soon be given a new and "unsurpassed" weapon in a large calibre shell which will pierce the heaviest armor without shattering, said Sir Robert Hadfield, chairman and managing director of Hadfields, Ltd., steel manufacturer, recently. He indicated that possession of such a shell during the great war would have been of inestimable value to the British fleet. "The feat has been accomplished," he said, "within the last few days, of getting the largest calibre of armor-piercing shell unbroken thru the thickest of modern hard-faced armor plate. This result will render the British gun unsurpassed, incomparable, and the master in any naval engagements of the future."

"If we had possessed such a shell during the war many of the German battleships would have been 'scuttled' long before they end at Scapa Flow."

GREAT GAIN MADE BY U. S. CHURCHES

Membership Increased Nearly Three Millions, But Sunday Schools Fall Off.

New York, Jan. 26.—America's churches have gained nearly three million members since the last church census was taken in 1916, but there has been a marked decrease in the number of Sunday schools and Sunday school pupils, according to "The Year Book of the Churches," which will be issued tomorrow by the federal council of the churches of Christian America.

The total church membership has increased 2,779,667, the announcement says, despite the disturbed social conditions due to reconstruction. There has also been an increase of 3619 ministers and 5350 church organizations. The total number of churches now stands at 233,534, and there are 195,613 ministers, priests and rabbis, with 44,709,521 members of their various organizations. The decrease in Sunday school membership is estimated at more than 3,500,000.

The total Protestant church membership is given at 25,980,466, and the Roman Catholic figures as 17,549,324. It is explained that the Protestant figures include only adult communicant members of a family, while the Roman Catholic statistics represent the entire family. Estimating four persons to a family, the Protestant constituency would be more than 50,000,000, the book says.

An estimate of members of Jewish synagogues is 560,000, and the two Mormon bodies report a membership of 494,888.

The largest Protestant body reporting was the Methodist Episcopal Church, with 4,175,502 members, and the smallest, the Primitive Friends, with 50 members and two ministers. The National Baptist Convention (colored) is the second largest Protestant organization, with 2,938,579.

PROHIBITION IN CHILE

Santiago, Chile, Jan. 26.—A group of senators of all parties has brought forward a bill which would prohibit the opening of new saloons in Chile and forbid the sale of intoxicants in places now existing.

PRUSSIA TO TAKE OVER HOHENZOLLERN CASTLES

Berlin, Jan. 26.—A measure providing for settlement between Prussia and the Hohenzollerns with regard to the former royal family's moveable and immovable holdings, will shortly be considered by the diet.

The draft of the measure, which was worked out by a special commission, provides for monetary payment for the retention of several castles and palaces with the right to dispose of the property without restrictions. As former Emperor William's attorney was freely consulted at the time the holdings were inventoried it is believed the Hohenzollerns will accept settlement if the diet approves the measure. Some of the former emperor's art objects are to be taken over by the state, but he will be given compensation for them.

JAPAN'S PROPOSALS TO CEDE SHANTUNG

Tokyo, Jan. 26.—The foreign office, in a statement issued today, says Japan acquired the German rights and interests in Shantung by virtue of the terms of peace, but that in pursuance of its own repeated declarations and agreements, Japan has instructed its minister at Peking to make overtures to the Chinese government as follows:

(1) The Japanese government desires to open negotiations regarding the retrocession of Kiau-Chow Bay and other measures with the view of effecting a sincere and speedy settlement and hopes that the Chinese government will make necessary preparations.

(2) With regard to troops along the Shantung railway Japan intends to withdraw them as soon as possible, even before reaching an agreement with China, unless the absence of other railway guards affects the security of communications and the interests both of Japan and China, her partner, in which case the Japanese will garrison the railway until the Chinese government has organized a railway police force. Since, however, Japan desires to withdraw even before a Japanese-Chinese agreement has been reached, Japan hopes for the earliest organization of Chinese railway police.

FRENCH DEPUTIES ASK FOR MORE PAY

Preparing Bill to Raise Indemnities to Over 25,000 Francs.

Paris, Jan. 26.—Many of the deputies, finding it difficult to meet their expenses with the 15,000 francs they receive as annual salary, are preparing a bill to put before the chamber which would raise their pay to 25,000 or 30,000 francs.

They point out that since the beginning of the war salaries of all government employes have been virtually doubled, the deputies and senators alone still receiving remuneration on a pre-war basis.

A delegation of deputies visited Premier Millerand on Friday and explained to him the situation, saying the members of both the senate and chamber are placed in a position where it is practically impossible to "make both ends meet." The premier informed them that he would put the question before the next council of ministers.

Cabinet ministers at present receive 60,000 francs yearly, the premier 70,000 francs, and the presidents of the senate and chamber 72,000 francs. The best paid official positions outside the presidency of the republic are of recent origin. These are the high commissioners for Rhine navigation, who receive 200,000 francs annually.

Use of Liquor Now Allowed On Alien Vessels in U. S. Ports

Providence, Jan. 26.—Prohibition against use of liquors on foreign vessels in American ports has been lifted since the determination of the law by the attorney-general, according to instructions of the secretary of the treasury received here today by Collector of Customs Frank E. Fitzsimmons.

The issuance of today was suspended in pursuance of an order received some weeks ago under which it was held that when a foreign vessel reached the three mile limit all liquors aboard should be sealed up and kept in the hold.

LIFT RESTRICTIONS ON IRISH FAIRS

Clongmel, Ireland, Jan. 26.—A proclamation was issued today withdrawing the restrictions which have been in operation the past four months on meetings, including fairs and markets, in public places in the southern and northern parts of Galway. Warning is given, however, that the restrictions may be reimposed in the event they become necessary.

TO PRESENT CLEMENCEAU WITH AN AUTOMOBILE

Paris, Jan. 26.—The newspaper Intransigent today proposes that retiring Premier Clemenceau be presented with the automobile that he used during his administration rather than with a country house, as had been proposed in other quarters.

Mr. Clemenceau at one time displayed a strong dislike for automobiles but he grew accustomed to using them during the war.

HUNGARIAN REFUGEES ARE LIVING IN BARN

Budapest, Jan. 26.—Twenty thousand families are homeless in the vicinity of Budapest, living temporarily in barns and railway cars. They are refugees from the section of Transylvania under Rumanian occupation.

About 100 new cases of influenza, or plague, are reported daily in the city. The mortality is about 10 per cent of those stricken.

Kingston Importer Seizes Twenty-Seven Cases of Liquor

Kingston, Ont., Jan. 26.—Twenty-seven cases of liquor said to be for shipment across the border at this point, were seized by Licenses Inspector McCammon, and an interesting court case is staged for next Thursday. Some of the liquor, it is alleged, was addressed to fictitious parties residing on Wolfe Island.

CONDEMN BOLSHIEVISM

Paris, Jan. 26.—The Scandinavian labor congress has adopted a resolution condemning Bolshevism, which was introduced by Hjalmar Branting, the Socialist leader, according to a Copenhagen despatch to The Echo de Paris.

STEAMER BLOWN INTO MID-ATLANTIC

Vessel From New York to St. John's Was Caught in a Cyclonic Blizzard.

New York, Jan. 26.—Driven 1,800 miles off her course by a cyclonic blizzard which raged for four days, while on a trip from New York to St. John's, Nfld., the Norwegian steamer Puna arrived here yesterday on her return trip minus one member of the crew, who was washed overboard, and lacking lifeboats, doors and fittings, which were either torn away by the storm or burned for fuel.

The steamer left here December 7 for St. John's and four days later encountered a terrific wind storm and blizzard. The small craft, caught in the centre of the storm, was blown into the mid-Atlantic and forced to head for the Azores because of lack of fuel. The coal became exhausted before land was reached, and all available wood work was burned. Water poured into the crew's quarters and they were forced to seek refuge in the saloon and to huddle around the funnel in order to keep warm. It was impossible to cook warm food, and for three or four days the crew subsisted on dry bread and water. Waves swept over the decks, tearing away lifeboats, smashing doors and flooding the staterooms. Ludwig Larsen, a coal trimmer, was washed overboard in the midst of the storm. The battered craft finally made the Island of Fayal in the Azores, and there obtained enough coal to carry her back to Newfoundland.

Montcalm's Encountering Bad Weather and Heavy Ice

Quebec, Jan. 26.—The Canadian government steamer Montcalm is encountering severe weather and heavy ice on her voyage to the Magdalen Islands with cargo and mails, so much so that, leaving Souris at 7:30 Saturday morning, she had only advanced 20 miles at 6 p.m. yesterday. She reports heavy packed ice right along her course with a temperature of 10 below zero.

HUNGARY'S SPIRIT STILL UNCRUSHED

Daily Demonstrations and Parades Against a Peace Without Honor.

Budapest, Jan. 26.—An outstanding fact with respect to Hungary is the spirit of her people, who are not crushed by the tribulations of defeat as Austria and Turkey appear to be. Neither defeat nor Bolshevism nor economic disaster has yet shown her vitality or patriotism. This is shown in conversations with many prominent men and also in the attitude of the peasant and the bearing of the soldiers, who are ragged and ill-fed, but loyal.

There are daily demonstrations, with the singing of the national anthem, parades and carrying the cross of St. Stephen, against what the Hungarians consider a peace without honor. One theatre last night presented a patriotic play entitled "Hero Janos." The performance was attended by the inter-allied military commission, and also by Archduke Joseph, who was loudly cheered.

The Hungarians are walking in political darkness. There is talk of making Count Apponyi regent, and later Archduke Joseph king, or possibly appointing an English prince to that office.

The Bolsheviks are threatening the Rumanian frontier, and the removal of the Rumanian army from the Theiss river is expected, which gladdens the Hungarians.

The winter is remarkably mild. There has been little snow on the plains and the heavy rains of December melted the snow in the Carpathians. River boats are plying to Vienna, and the railroad tracks along the Danube are inundated. The misery of the people fleeing from their homes on account of the flood is increased by the total lack of housing and also the return of the influenza in violent form among the poor and the soldiers. The majority of the soldiers in Radetsky barracks are ill.

With the exception of bread, there is food enough, but the price is high. Clothes are fifty times the pre-war prices. A dollar is worth thirty-five times what it was worth before the war. Two hundred thousand workmen are idle, due to the Rumanians stripping the factories and also because of lack of raw materials.

SAYS "HUSKY" DOG KILLED A TRAPPER

J. F. Egan of The Pas Was Lost During a Blizzard.

The Pas, Jan. 26.—J. F. Egan, a trapper, who was lost in a blizzard, was killed by his dog after he had been overcome by cold and exhaustion, according to the theory of Jack Ford, his partner, who brought the news of his tragic death to The Pas.

Egan, according to Ford, had been missing from their shack at North Indian Lake for four days when he started to search for him. He found the body 25 miles away, with the body of the husky nearby. The head had been eaten from the body by the ravenous dog.

The dead man is a returned soldier from Ottawa. He is reported to the police at Piquitona, having traveled on foot for 18 days, half starved and frost bitten.

Asking the I. L. P. Executive To Call a Party Convention

Ottawa, Ont., Jan. 26.—The central executive of the Independent Labor party is to be asked to call a convention of the party for the purpose of deciding upon a parliamentary policy for the Ontario house. The Ottawa branch of the I.L.P. yesterday afternoon passed a motion to this effect. It was stated that there seems to be a movement on foot to create disunion among the ranks of the labor representatives in the local house. It was further stated that this breaking away movement was being fanned by a man in Brantford and that it is expedient that the labor representatives should be at a convention where the great need of remaining with the Ontario "coalition government" would be outlined.

MOVIE MEN'S PROTEST.

Sault Ste. Marie, Ont., Jan. 26.—Local movie theatre men say the new order-in-council requiring them to submit all newspaper advertising to an inspector in Toronto before running in papers will hit them pretty hard as it will mean that they will have to prepare matter from a week to two weeks ahead and in the meantime may have to advertise their plans and so not be able to advertise. They have withdrawn advertising from the papers.

Place Brantford Aviators On British R.A.F. Reserve

Brantford, Jan. 26.—(Special)—Some comment was caused this morning, when local aviators, ex-members of the Royal Air Force, received notification that they had been placed on the reserve of the Royal Air Force depot at Brantford, England. The chief speculation was as to whether they would receive pay while on the reserve.

HALF-A-MILLION IN THREE DAYS!

TO-DAY - this morning - canvassers in the Community Service Campaign start out to raise a half million dollars.

In office, warehouse, shop and factory, you will be asked to contribute your quota to help carry on the work for another year of nearly fifty of Toronto's federated charities and social welfare institutions.

You realize that this money is urgently required in order that the work of the Federation among the poor, the aged, the sick and helpless and the fatherless may not lag for a want of funds.

You know that the raising of this money rests upon us a solemn and heavy obligation, an

obligation that cannot be shirked or evaded, but must be squarely met for the good of the community.

You are in on this—every citizen of Toronto who has an income or a job is in on it.

If you postpone giving you may make the work of building the fund harder; if you do not give as liberally as you can (which may mean twice as liberally as you think you can), you merely do not understand that this is a privilege, and look upon it as something to which you can afford to be indifferent.

The man or woman who will think for just a moment why this fund is being raised will be glad to become a subscriber to it.

Give now—and give liberally—remembering that your gift is going to help to make our city a better place to live in—for all of us.

Give once---but give enough!

MILITARY TRAINING FOR BOYS IN U. S.

Senate Committee Approves Provision for Compulsory Four Months' Service.

Washington, Jan. 26.—By a vote of nine to five, the senate military committee today approved provisions providing for compulsory militia training for boys between 13 and 21 years, inclusive, and ordered a favorable report upon the army reorganization bill.

As finally agreed upon, the bill is virtually the same as reported by the sub-committee, but is radically different from the reorganization bill

submitted by the war department to congress. In addition to establishing compulsory military training, the bill provides for the establishment of one army to be divided into a citizen army composed of men who have received compulsory training, a standing army consisting of 250,000 enlisted men and 18,000 officers and national guard.

Specific provision is made in the bill that the citizen army cannot be called to the colors except in case of a declaration of war. To accommodate the reserve force built up under the system of military training, provision is made in the bill of an annual reduction of five per cent. in the enlisted strength of the regular army and two per cent. in the number of enlisted officers for the first five years. This will mean, Chairman Edgeworth explained, that at the end of five years the regular army will be reduced by 70,000 men and 1,800 commissioned officers, which will greatly decrease the

CANADIAN ENVOYS ALONE ABSENT

Delayed En Route and Could Not Attend Meeting of Labor Organization.

Paris, Jan. 26.—The governing body of the International Labor Organization held its first meeting this morning. The board verified the credentials of the various representatives to the government, the employers and the labor interests, all of which were present except the Canadian delegates, who were delayed en route. The delegates in attendance included the German representatives.

Today's meeting was presided over by Arthur Fontaine, representing France. The government representatives, Sir Malcolm Delevingne of Great Britain, Baron Edmondo Mayer des Blanches of Italy, Viscount d'Eza of Spain, H. Nakaoka of Japan, Herr Ruffenacht of Switzerland, M. Sokal of Poland, Dr. Ernest Mahaim of Belgium, Senor Deolatre of Argentina, Hermann Leymann of Germany and M. Vedel of Denmark.

The representatives of the employers at the meeting were M. Guerin of France, Mr. Marjoribanks of Great Britain, M. Kodacic of Czechoslovakia, M. Young Brains and Natural Resources

General Mitchell has added his testimony to that of Prof. McLennan in regard to the utilization of our human resources in Canada, as well as our material resources.

"We must buy Canadian-made brains," he says; "if we can buy our natural resources and our human resources we can win."

To couple together our intelligence and labor with the extraordinary wealth with which the Dominion is naturally endowed is the obvious method of building up the nation.

General Mitchell has had exceptional opportunities for estimating the value of Canadian brains, first in business, next on the field of battle, and now as dean of the School of Science. He concludes, as Prof. McLennan has concluded, that it is only by putting our brains to work on the problems of the country that real progress can be made.

Col. Carmichael has shown what results from neglecting to join science and experience with political planning in the disastrous result of northern colonization. For years The World, previous to the war, called attention to the necessity of abolishing the policy of isolated settlements in the north in favor of some sort of co-operative or group system.

The late Hon. Mr. Hanna carried out the policy of general clearing to some extent in the Rainy River district, but in order to stimulate and encourage colonization and settlement in the Clay Belt, it will be necessary for a long time to come to clear the land for settlers.

Ten years ago The World stated that it cost \$100 an acre to clear land in the neighborhood of Ochrane, on the testimony of settlers in that district. The department pool-pooled the statement. The whole question of pulpwood was never fairly faced. Paper and pulp mills in the north used wood from their own limits, and mills in the south could only be reached by payment of freight rates that left nothing for the labor spent on the wood.

If pulpwood pays, why does the government not clear the land itself? This was a question often asked by settlers. Certainly if the government could get its money out of the pulpwood it should have presented any difficulty. With the land cleared, settlers would have been available and would have had a good chance of success.

The greatest combination of brains and resources Ontario has had is in the Hydro-Electric projects. It is the young men of the School of Science who are now carrying out the Hydro plans, and they will have the same success in this that they had in France and Flanders and in fighting the submarines. The confidence felt by men like Prof. McLennan and General Mitchell in the young men of the country should be shared by politicians and others in a position to see that we do not longer ignore our brains and waste our resources.

Teachers' Salaries. In making their request for a 25 per cent. increase in their salaries the teachers of Toronto have taken care to provide themselves with all the facts of the situation. Their case is one that will interest a very large number who find themselves in a similar plight. Diagrams which indicate the cost of living as having risen between 1914 and 1919 by 110 per cent., while the salary of teachers had risen 14 per cent., should be sufficient for most to convince them of the justice of the teachers' plea. There are cases where there have been no increases at all, and those who are suffering in this way will not be less sympathetic for the teachers.

Another diagram shows in startling fashion how all kinds of labor, machinists, lathers, bricklayers, wiremen, structural iron workers, blacksmiths, compositors, glaziers, plumbers, carpenters, fitters, and bakers, are all paid higher wages than the high school, the intermediate or the elementary teachers.

An advance of 25 per cent. is a very modest request when the actual need is 100 per cent., and it is evidence of great moral restraint and elevation of character that enables a highly cultured class of people like the teachers to face the situation created by the rise in prices and endure the consequent privation, and still maintain such moderation.

The city must realize, however, that there is a limit to everything. The teachers have held out as long as they could, but many have gone into the more lucrative positions that tempt them into business in every direction.

If some concession is not made to their request it means that the teaching ranks will be deserted, will gain no more recruits, and our educational processes will suffer.

The best investment any city can make is in education. The worst possible policy is to bring up our children under inferior teaching. The alternative is not such a heavy burden after all for such a wealthy community as Toronto. The board of education can afford to meet the teachers in a just and liberal spirit and the citizens will not grudge doing what is needful.

Peace, When There Isn't. Two very different experts point to the same explanation of the real trouble that afflicts Europe and the world. Hunger is the deadly foe of peace. A planet with a gnawing stomach is out of gear exactly as a starving man is, or an inveterate smoker, robbed of his consolation.

The misery of what passes for statesmanship is that it insists on regarding as a referred pain, in one's mouth is a vacancy whence, under gas, a wisdom tooth was extracted. An hour after the expert who knew the truth was told that the ache was in the upper jaw. The statesmen have been treating what they assume to be the upper strata of nationhood—the more exalted functions of government—when it was the roots of all society were supremely affected—roots that go right down to the gastric juices. "What shall we eat, and where will it be clothed?" is Europe's all-pervading bitter cry. The answer of the great men is to mutter "Peace, peace" when there is no peace.

Maynard Keynes, the deputy of the British chancellor of the exchequer on the supreme economic council at Paris last summer, has written "Economic Consequences of the Peace." He admits the justice of the German complaint that the treaty will compel the economic strangulation of the Teutons, and describes the conditions in all Europe, except Britain, as being frightful from the point of view of national debts and the possibility of recovery among the nations without a discard of the existing economic order.

Frank Simonds, of New York, is equally insistent in contending that the allies won the war they have lost the peace. He is clear that the overtopping burden at Versailles was a colossal inability to appreciate economic magnitudes. He quotes Austrian protests against the treaty, on account of its economic impossibilities, in the same way that Keynes endorses the German complaint. Like Keynes he is seized of the fundamental helplessness of financial methods of all the governments.

The appalling situation cannot be reduced to a paragraph nor can the way out be indicated in a tome. But two or three vital generalizations force themselves on one's reflection. Militarism was the crime of crimes. It is not only the cause of the blood upon the world, but it assured the collapse of economic systems before anything capable of quietly superseding them could be evolved out of progressive experience. Least worst things come upon the world—and, according to Keynes and Simonds they are hastening with seventy-league boots—it is plain that the imperative duty of all the peoples is to get down to the basic business of producing food, raiment and shelter for stricken myriads. Until Europe improves America cannot be at ease.

Hunger won't wait. Cold refuses to vanish on call. So much of the world is in chaos that to dream that it is possible for the afflicted nations to return to health and sanity by flourishing promissory notes at one another is to waste for patience. In statesmanship there is no such thing as a free lunch. There is no such thing as a free lunch. There is no such thing as a free lunch.

At the moment the Canadian aspect of the world's travail offers chiefly a grotesque side. The prime minister is somewhere in the West Indies or South America, or on the Atlantic with Viscount Jellicoe. At Ottawa, well, you have heard of a traveler who saw a man lying on roadside grass, in the glaring sun, near a tree's shade. Thinking some mischance had befallen him he approached the still figure. "All was well," "Why don't you lie in the shade?" "I did, but it moved away." "Why didn't you move with it?" "It wasn't worth the trouble." "If you can show me a lazier thing than that I'll give you a dollar." "Put it in my pocket."

Second Mayoralty Election Seems Certain in East View. Ottawa, Ont., Jan. 26.—Another mayoralty election at Eastview is almost a certainty. Judge Gunn this morning refused to recount the ballots, stating he had no evidence that they were the actual ballots cast in the election as in four out of the six boxes they were loose whereas, the law provides that they must be in sealed envelopes. He intimated to Mr. Lamille Gladiu, on whose application the investigation into the irregularities were ordered, that the next step was to bring suit to have the election set aside. It is understood Mr. Gladiu will institute such proceedings.

INGERSOLL MEMORIAL. Ingersoll, Jan. 25.—A memorial tablet in honor of fifteen members who fell in the great war was unveiled at the Methodist Sunday School this afternoon. The list of the fallen heroes was read by Dr. Sumner Stanley Strowbridge, formerly of the 163th Battalion, while an appropriate address was delivered by the pastor.

Selling City Garbage.

Editor World: The city at a very large expense collects and hauls to the incinerators all the city garbage, where it is sorted and finally destroyed at an additional expense. This expense the Oakleaf Company expects to eliminate to a very great extent by offering \$50 per ton for the garbage from the district in the vicinity of their proposed plant. This will save the city a great deal of money, and in return the commissioner demands first a guarantee of \$10,000, secondly, a royalty on all its output, and, lastly, an agreement to sell the plant to the city in the future, together with the patent rights involved.

Now the citizens are suffering chiefly amongst the small consumers—by the present high price of coal; not only this, but there is a very strong probability of their not being able to obtain it in any quantity in the near future. Every facility, therefore, should be offered to any company which can manufacture fuel, such, indeed, as this company is about to produce, at a price which would bring it within the means of the small consumers, and any opposition to this proposition will react against those who are opposing it. Under the circumstances, and especially in view of the high price of coal today, with the prospect of increases in the cost, that most desirable that so far from opposing the operations of the company the city should do everything in its power to assist it, especially when it is remembered that such assistance will mean economy in the garbage disposal problem.

In conclusion, I would point to the fact that Mr. C. J. McGrath, Dominion fuel controller, in his report upon the proposition, states in no uncertain terms that this method of getting rid of the city garbage is a most valuable feature.

AN APPEAL TO ORGANIZED LABOR.

Editor World: During a long period of enforced idleness, much time for thought has been given to the writer, and among other matters crossing the mind is one which has occupied a prominent place, viz., the utter lack of concentrated effort by organized labor in this great city towards raising funds in aid of the many deserving charities which exist in our midst.

There is hardly a day passes but we read in our local papers of the urgent need of funds by one or the other of these institutions, and the thought is often recalled to the writer that these calls for aid present a splendid opportunity to the forces of labor to render substantial aid to these institutions, which shelter and provide for those of our fellow-mortals who of necessity have to seek their aid. While talking over this matter with a friend, he pointed out, first, that it was the duty of the state to provide for the weak and necessitous members of the community and, secondly, it would be unfair to ask labor to specifically aid these charities, which also had some voice and vote in their disbursement.

The answer to both these comments is obvious, while it may be admitted that both objections are right, it must also be admitted that the state does not wholly maintain these institutions, and until the people as a body demand that the state shall be entirely responsible for their maintenance, it is the duty of the people by voluntary effort to do everything possible and reasonable to aid in sustaining these institutions free from debt and permit them to preserve the inmates with everything needful and without scant.

With reference to having voice and vote in disbursement of funds it goes without saying that the authorities of such institutions would recognize such right, but first of all, give them the opportunity to do so by presenting their contributions by the raising of funds in this aid. No doubt exists in the mind of the writer that the authorities of such institutions would take. Representative labor men and women would be soon to be elected to the directorate of any institution aided by labor.

This is an era of a new life, new thought, new action, greater vigor and fellowship, an era in which organized

EXONERATE SHERIFF AT STRIKERS' TRIAL

Verdict That There Was No Misconduct in Preparing Jury Panel.

Winnipeg, Jan. 26.—At this afternoon's session of the trial of the strike leaders for seditious conspiracy a verdict was returned that there was no misconduct on the part of the sheriff or deputy sheriff in the preparation or giving out of the jury panel was found. The two "defenders," Judge George Patterson and H. B. Webster, returned this verdict after deliberating less than 10 minutes. Both the sheriff and deputy sheriff willingly took the witness stand, although it was pointed out that it was very questionable whether they need have done so or not.

Following the retirement of the jury, W. C. Bonnar, K.C., proposed a new motion challenging the array of the jury panel on grounds of partiality. The accused, Alderman John Queen, then continued with his motion, commenced at the morning session, for a change of venue of location for the trial. He read at length from numerous publications to show that the strike leaders were very prejudiced in public opinion.

SOLDIERS AT FLORENCE FIRE ON RIOTERS

Florence, Italy, Jan. 26.—During a meeting here today at which the anarchist Enrico Malatesta, recently elected to the chamber of deputies, urged a revolt, a mob tried to overcome a party of carabinieri. They later, defending themselves fired at the demonstrators, wounding a score of them.

WORLD'S DAILY BRAIN TEST

By SAM LOYD. 15 Minutes to Answer This.

In this small community of nine cottages the man who dwells in a house marked A, supplies milk to each of his eight neighbors.

The continuous line shows his daily route, the first customer occupying cottage E.

It will be observed that six straight strolls carry the milk merchant over his route.

Now, we are not going to ask what would be his shortest route to the eight customers. Perhaps, like many milkmen of our acquaintance, he was in no particular hurry. But there is really an interesting and ingenious puzzle involved in the following question:

What is the least possible number of straight moves in a continuous route that will take him from A to B? The diagram shows six. What is your best suggestion?

IDA AT THE CITY COUNCIL

The boys in the dugout in front of the Salvation Army yesterday. As the winds were a bit chilly it is quite likely that there was no particular grouch at the moment being because the board of control had dared to recommend Trinity Park grounds for a hospital without first consulting with his parks committee. His argument was long, and almost without point, in fact so little impression did it create that the amendment he made to have the matter referred to a committee to spend \$200,000 without him and his committee, received about four votes.

Commissioner Harris came in for some sharp criticism at the hands of Controller Maguire in regard to the purchasing of civic cars, the worthy member of the council expressing himself as being absolutely opposed to allowing any commissioner to spend \$200,000 without the direct supervision of the board of control.

After an outburst of the above kind, one cannot help wondering why the city fathers in the Nationalist cause were leagued with Enver Pasha or with Talat Pasha, former grand vizier, who is reported to have been converted to Bolshevism.

"Bolshevism is against every national ideal that we cherish. If a peace is made for us that will help us to maintain our ideals, we shall rise from the ruins which are the result of too many wars. Of course, if the allies force a peace on us that furthers the destruction of our land, it is difficult to predict what will happen. Our people might make some sort of a temporary alliance with the Bolsheviks, but Bolsheviks they will never be at heart. Their religion and their patriotism will save them from it."

MARSHALS AND GENERALS ON FRENCH WAR COUNCIL

Paris, Jan. 26.—Marshals Foch, Joffre and Pétain, and Major-General Buat, chief of staff, make up the new French supreme war council, according to announcement. Nine generals will be chosen later to act on the council, which will be under the presidency of the minister of war. Marshal Pétain will be vice-president and commander-in-chief of French armies in time of war.

MOONLIGHT AND MONEY

BY MARION RUBINCAM

LOUISE IMPROVES.

"I suppose Louise said, after the silence had become somewhat uncomfortable, 'that you think I'm rather a silly thing.' Butler laughed, the genuine, hearty laugh she liked so hear.

"No, I don't," Butler said frankly, then laughed again at the rather comical disappointment that showed on her face.

"I'll concede this, tho," he added. "For the small amount of training you've had—oh yes, I know you continue to take painting lessons—and for the short time you've been at it, you have done so marvelously well. You're what would be called a good 'hack' worker. That chap at the decorating place can call you up and order a nursery done all in half an hour, or folk lore, or modern fairy tale or some other of what you might call 'period' designs, and he knows you'll turn out a good job. But that's not art."

"No, it's making a living," Louise said, and sighed a trifle. "One can make an art of living."

Butler replied to her remark with her flashing smile to Louise, but turned back again to Louise.

"You are looking very well, my dear," she said, and looked keenly at the younger woman. Louise knew and rejoiced that Mrs. Shafsbury was puzzled by this change of front. Womanlike, she took advantage of it, for instance do you remember the day I started to take you to that private exhibit of paintings, and you saw your husband there, and you turned around and ran as if you were frightened out of your wits?"

"I was," Louise answered promptly. "Not of Harry," Louise explained slowly, "but if you must know, Mrs. Shafsbury, it was a curious and an embarrassing situation—she could have carried it off, I couldn't."

"Exactly," Butler agreed. "And you haven't tried to tell me, but I know the point where you could carry off that, or any other such social situation, I don't like to see young women become sophisticated too young, since you occupy the position of a

worried woman who won't live with her husband," he was studying Louise closely, and he saw her wince a little, "a certain amount of social sangfroid is expected of you."

"Mrs. Shafsbury is going to Carol's for tea today," Louise said. "Carol is back in town early this season, and she told me she expected her. She doesn't ask me, of course, when Mrs. Shafsbury is invited, but I can go anytime I want. Come with me, and watch, if you think I can't carry off a curious situation."

"All right," Butler agreed, and rose with more animation than he had shown for some time.

Butler's interest increased during the afternoon, too. For Louise, in her prettiest gown, walked as unconcernedly into the group of women and men assembled in Carol's library, as though she cared not a bit that the one woman she disliked was present.

She greeted the people she knew gaily, Carol, not understanding, following with a somewhat worried expression. The rest of the group, Mrs. Shafsbury, and Louise turned to her with an expression of the most disarming surprise—and a prompt smile of pleasure.

"Oh, why how do you do?" she greeted her. "I haven't seen you for so long. Do you know Mr. Butler—Murray Butler, the artist?"

Mrs. Shafsbury turned with her flashing smile to Louise, but turned back again to Louise.

"You are looking very well, my dear," she said, and looked keenly at the younger woman. Louise knew and rejoiced that Mrs. Shafsbury was puzzled by this change of front. Womanlike, she took advantage of it, for instance do you remember the day I started to take you to that private exhibit of paintings, and you saw your husband there, and you turned around and ran as if you were frightened out of your wits?"

TURKS NOT IN LOVE WITH BOLSHEVISM

Constantinople, Jan. 26.—Bolshevism has no appeal to the Turks, being contrary to their religious training and their patriotic sentiment, Mustafa Kemal Pasha, political and military leader of the Turkish Nationalist movement in Asia Minor, declared to the Associated Press, interest attached to his words because of late rumors that the Bolsheviks had made inroads in Turkish Asia Minor, and reports that Enver Pasha, minister of war here in 1914, had sponsored a Bolshevik uprising in Turkey. Mustafa Kemal denied his adherents in the Nationalist cause were leagued with Enver Pasha or with Talat Pasha, former grand vizier, who is reported to have been converted to Bolshevism.

"Bolshevism is against every national ideal that we cherish. If a peace is made for us that will help us to maintain our ideals, we shall rise from the ruins which are the result of too many wars. UNIVERSITY HEARS NURSE OF NOTE

Miss E. P. Crandall Gives History of Public Health Nursing.

Before one of the largest audiences that have ever assembled in the medical building to hear any prominent speaker on medical topics, Miss Ella Phillips Crandall, R. N., executive secretary of the National Organization for Public Health Nursing of New York city, gave a brilliant and interesting address on the evolution of the modern public health nurse.

Opening her address with a few remarks to the assembled nurses, both graduates and undergraduates, she appealed to them to seriously consider the two phases of nursing, both private and public health work before they attempt to decide which branch of the profession they would enter, and not to drift into any one branch by accident, but to give each an honest trial, and then place herself where she could do the maximum service to the community. She then went on to show that nursing was the oldest profession known to woman and that up to the time that the Catholic Church in the personages of St. Vincent de Paul and St. Francis Assisi nothing definite had been done in the way of organizing such a man placing their profession on a sound basis.

These two sisters had recognized the need of a real body of sisters who would devote their time and energy to this work and so with this object in view they organized the Sisters of Charity. They differed from the religious sisters in that the first place were no vows to be taken and no community life. This new endeavor was to go to the rapidly spreading Flanders and Germany and in both of these countries the work they did met with the hearty approval of the people. St. Vincent de Paul seeing that there were no definite methods attached to the work, laid down five main rules, which he practically formed the basis of the present day municipal health work, namely, separation of the sick and the well, home visiting, although in a very modified form. Work for the patients when they had reached the stage of convalescence. Instructions to the well as how to keep well, and finally the teaching to the patients of methods as to how they could best earn their own living. These first groups of workers that went around doing this form of work received the names of "Dames of Charity," and even to this day they are still active in Flanders.

Florence Nightingale. It was to one of these schools established by the saint that Florence Nightingale, the Mother of the Modern Nurse, as she is commonly known, went for her early instruction, and it was due to her activities after her graduation that the first real nursing instruction was established in London. But this led to a very mediocre life up until the time of Queen Victoria's Jubilee, in 1847, when her majesty, recognizing the fact that the whole nursing profession was in need of reorganization, gave the grant that established the Queen Victoria Jubilee Nursing Institution. This new organization having the proper financial backing and new methods in the field of medicine, rapidly spread all over the United Kingdom, where they proved a needed blessing. It was not long before uniform sets of rules to govern all the branches of the nursing profession were laid down. This led to the Victorian Order was established here in Canada, and now it has branches from Vancouver to Labrador, where the same set of rules that governed the Queen Victoria Institution, plus the many new features of modern medicine, such as pre-natal work, thorough instruction in preventive medicine, etc., combine to make the nurse of today, an almost invulnerable asset to the health of the general public.

THIN PEOPLE NEED BITRO-PHOSPHATE

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck, chest, bust, and replacing ugly hollows and angles by the soft curves of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often due to starved nerves. Our bodies need more phosphorus than is supplied by ordinary foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most druggists under a guarantee of satisfaction. Money back. By feeding the nerves directly, and by supplying the body with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance, and increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Victoria Hamilton, who was once thin and frail, reporting her own experience, writes: "Bitro-phosphate has brought about a complete transformation with me. I gained 15 pounds and never before felt so well." CAUTION: While bitro-phosphate is unparagoned for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh, should use extra care in avoiding fat-producing foods.

NELSON PARLIAMENT LEAVES HIS MARK

Sayings in Boston and New York Bore Great Weight.

The Belleville Ontario carries four columns of Nelson Parliament's sayings and doings in New York and Boston following his nomination by Premier Drury and acceptance by H. H. Dewar, leader of the opposition, as speaker of the first U. F. O.-Labor legislature, subject of course, to confirmation by the legislature. There is included in the record a letter by Douglas Sprague which is "a more personal and intimate" account than the newspapers were privileged to give.

Mr. Sprague says: "Notable men of Europe, Canada and the United States have addressed the members and their friends of some of these dinners. (Of the New York Canadian Club.) We listened intently to your premier, Sir Robert Laird Borden; Lord Northcliffe, Hon. T. P. O'Connor, Maj. Chas. W. Gordon, Sir William Howard Hearst, James W. Gardar, Wm. Howard Taft and James M. Beck. Hon. Nelson Parliament held his audience as no other audience was ever held by any speaker who has heretofore addressed the members. Therefore, in closing permit me to congratulate the old home town, Prince Edward, and my old home town, Ameliasburg, in their choice of a man as Nelson Parliament as their representative in the Ontario legislature."

According to the N. Y. Tribune: "The new Speaker indicates that the test of reciprocity between this country (U. S.) and the Dominion might be raised again if the Dominion farmers' party was able to duplicate the success of its Ontario predecessor."

LATE F. J. DARCH LAID TO HIS REST

Funeral in London Followed by Notable Concourse of Foresters.

London, Ont., Jan. 26.—The funeral of Frederick J. Darch, supreme secretary of the Independent Order of Foresters, and a former resident of this city, who died in Toronto on Friday, was held this afternoon from the home of his father-in-law, G. W. Pitt, Wharfedale road, to St. James Church, London, South, Ont. Leslie Armitage conducted the services at the church and grave. Rev. Dr. Alastair MacCallister, supreme chaplain, read the order's burial service in church. The remains were interred in Woodland Cemetery.

The hon. pallbearers were Messrs. Hunter, Matheson, G. Matheson, S. Martin, T. Ball and Dr. Millman. The active pallbearers were C. Bell, A. Stewart, J. Laughton, H. C. Brown, W. Stewart, and A. O. Zimmerman. Besides Mrs. Darch, son and daughter, accompanying the remains, which arrived on the noon train from Toronto, were a large number of prominent foresters, among whom were: W. H. Hunt, S. T. Rev. Dr. McGilivray, S. O. Alex. Stewart, S. A. George, S. Martin, A. S. C. R.; S. H. Pipe, actuary; A. Stone, D.S.C.R.; George L. Wilson, H. C. B. Schreiber, H. Smith, V. Kelly, D. A. Dixon, John Mohan, J. Hayes, E. Feilman, C. Hughes, H. Joyce, E. Saunders, C. James, G. Munich, as well as representatives from all parts of Ontario.

The floral tributes came from all over Canada, as well as the United States. A beautiful wreath was sent from the Ontario Travelers' Association, the chief of which is the I.O.F., and the organizing department, Court Welcome of the I.O.F., this city, and other tributes came from Connecticut, New York, New Brunswick, Indiana and Montreal. The casket was banked with flowers from the family and other relatives.

HON. WALTER ROLLO PICKS UP GAUNTLET

Hon. Walter Rollo, minister of labor, accepts the gauntlet thrown down by Mayor MacBride and the two doughty knights of labor may meet at Brantford in an oratorical jousting match. Mr. Rollo said yesterday: "I'll meet MacBride in Brantford, I'll go right to his own town and meet him on a public platform. If he will discuss recent labor events and policies I will publicly debate these questions with him on his own ground." Mr. Rollo says Mayor MacBride is influenced by jealousy of his preference.

Press Photographers' Association Elect Officers for Year

The Canadian Press Photographers' Association held their annual meeting and banquet at the Florence Cafe last night, when the election of officers for the ensuing year took place. Speeches were delivered by Alex. McLean, the retiring president, and also by the retiring and duly elected officers. After the banquet moving pictures were shown by local moving picture concerns, connected with the association. The following officers were elected: President, C. Roose; vice-president, L. J. Turofsky; secretary-treasurer, C. Brid.

BROWN DUVETYN IN SMART WINTER DESIGN

Brown duvetyn, the most wanted material for fall and winter, is cleverly used in this unusual suit. The choker collar is of beaver. Tan braid lends an original tone to the skirt.

ALMA DAUGHTERS' DINNER

The Toronto Alma Daughters were favored on the occasion of their annual dinner, having as their guests Dr. R. I. Warner, principal emeritus of Alma College, and Mrs. Warner also the new principal, Rev. P. S. Dobson of St. Thomas. The president, Mrs. Harold Butt, welcomed them on behalf of the society, and Dr. Warner in his address gave many reminiscences of the early days of the school, reminding those present of the ideals and aims of the founders of the college. Mr. Dobson's remarks were relative to the future of the school, outlining many plans for the extension and improvement of its important work.

CHARGED WITH AGGRAVATED ASSAULT

Dooly Egan, 5 Belmont street, was arrested last night by Detective Koster on a warrant charging him with aggravated assault. He is alleged to have struck Chm Yin, 13 Elizabeth street, several times on the face during a fight in the Marathon Cafe, 822 Young street, last Saturday night.

CALLS HUSBAND THIEF

E. Iconna, 540 Yonge street, was arrested last night by Detective Koster, charged with stealing \$150 from his wife.

BURNS' LOVERS HOLD BANQUET

Premier Drury Pays Tribute to World's Most Popular Poet.

On the occasion of the one hundred and sixty-first anniversary of Robert Burns' birthday, the Toronto Society of that name held a banquet last evening in the St. Charles Hotel. Dr. John Noble occupied the chair, and in his opening address spoke in glowing terms of the popularity of the great Scottish bard. "Burns has lifted the world to a higher plane, and in this respect has done more than any other man. He is unquestionably the world's most popular poet. Every year 80,000 lovers of his poetry visit the site of his home, where, as only 14,000 visit Stratford-on-Avon, the birthplace of Shakespeare, who is sometimes considered to be the most popular poet."

Premier E. C. Drury was the guest of the Burns' Club, and at the conclusion of the program gave a brief address. "I am simply going to follow your example and talk of Scotland and of Robbie Burns, who is not so much the man who wrote Scotland's poetry as he was the man who expressed the latent poetry in the soul of the Scotch. You can find the same love of natural things in Scotchmen of today. They love their work, their friends and their surroundings, and have, without the ability to appreciate the simple things of life. During 'farmer' many times, I am tired of it. I have been receiving dozens of letters of advice, and nearly every one begins, 'I was born and brought up on a farm.'"

Something New. "We are undertaking something new, and we are without knowledge, but we are not working for one class alone. The farmers in any government are broad-minded enough to see the needs of other classes as well as those of the farmer, and we mean to serve the country, not one class alone."

The speech of the evening was given by Melville B. Tudhope, M.A., of Orillia, who presented a talk on Burns in humorous style. "Some people say that Burns was uneducated," began Mr. Tudhope, "but he was more acquainted with humanity than the average university graduate, and if university students receive an education then Burns was educated. From the point of view of the W. C. T. U. he may not have always walked the straight and narrow path, but compare him to other men of his time, and even to clergymen, and he was a very modest and drinker, indeed. (Laughter). But this is non-essential. It is his soul that we are interested in, and his soul cannot be compared to that of any other person."

Mr. Tudhope then went on to tell of Burns' love for everything that God made, of his love for his country, of his inspiration, his soul, his tenderness, and his ability to describe so that the reader does not follow him, but travels with him. The whole banquet was carried out in truly Scotch style from the "haggis" and other Scotch dishes at the luncheon, to the bagpipes and Scotch songs afterwards. Everyone present was in a real Scotch humor, and said the banquet was the most enjoyable since the "arid conditions" first prevailed.

KINGSTON FAIR DATES

Kingston, Ont., Jan. 26.—(Special)—The directors of the Kingston industrial fair held a meeting and decided to hold this year's exhibition on Sept. 21, 22, 23, 24 and 25.

CITY HALL NOTES

The board of control in private session yesterday decided not to entertain the claim to erect better for compensation from the city for the alleged infringement of patent in connection with water chlorination at the pumping station. Mr. Berry first asked for \$77,000, but offered to compromise for \$25,000, but the board estimated that the courts were open to him if he considered the rejection of this claim was unfair.

The proposal to extend Dundas street to Coxwell avenue, abandoned early in the war, is to be revived and amended to provide for the opening of the street right thru to Kingston road. The old estimate of cost was \$625,000 with \$509,868 to be assessed against the city and the balance against the ratepayers.

The improvement is being recommended in order to provide a new cross-town route for street cars when the system is taken over in 1921. Relief for the Queen-street and Gerard street lines, which are said to be congested, is desired.

George Graham, 120 Bond street, has issued a writ for \$20,000 damages against the board of health and against H. C. McLean, owner of the premises, for the death of his little daughter, who, he alleges, was a victim of the unsanitary condition of the house. He alleges that sewage backed up into his kitchen, but he was unable to interest the health department in his complaint. A permit has been issued to Maurice R. Nash to erect undertaking rooms with dwelling above at 110 West St. Clair avenue, the building to cost about \$7500.

NO FOOD TO GERMANY IF RIOTS CONTINUE

Berlin, Jan. 26.—The Tageblatt's Essen correspondent reports that the entente has notified the government that it will discontinue food deliveries to Germany if labor riots and insurrections continue.

The newspaper adds that Minister of Defence Noske has ordered the arrest of seven independent socialists and Communists, alleged to be the chief instigators of the Frankfurt Railway strike.

A commission of the Miners' Union at Bochum has voted by a large majority against forcing a six-hour working shift thru a strike.

Just to Return to Hamburg To Close Canadian Issue

London, Jan. 26.—C. F. Just, former Canadian trade commissioner at Hamburg, returns tomorrow to close the Canadian office in that city. At the commencement of the war Mr. Just was kept at Hamburg under open supervision and was allowed to return to England.

After a few months the Canadian ministry of commerce sent him to Petrograd, where he returned during the early part of the revolution.

The name Ottawa was the name of an Algonquin tribe living in what is now northern Ontario. They visited early Canada by coming down the river that bears their name. The word Ottawa meant "to trade," "to buy and sell," because the Indians who bore the name were noted traders.

Isn't this the kind of Charity you'd like to support?

BIG DYKE DIABASE OF UNUSUAL TYPE

Outlook for Discoveries of Rich Gold Ore Warrants Extensive Operations.

One of the largest dykes of diabase in Porcupine cuts across the Big Dyke Gold Mine for half a mile in a northeasterly direction. This dyke is shown on the recent geological map issued by the Ontario Bureau of Mines.

The entire output of Porcupine to date is over \$50,000,000 in gold, and most of it has come from the mines named. Their ore bodies are all in the vicinity of intrusions of quartz porphyry. This very clearly shows the importance of the diabase intrusion at the Big Dyke Gold Mine.

SHORTS STAMPEDED ON NEW YORK CURB

New York, Jan. 26.—Shorts were stamped to cover this afternoon with an ensuing rally of considerable proportions taking place. There seemed no special news to account for the covering by the shorts but the ticker gave evidence that a fairly big operation on the big board was covering and the others possibly thought it was time to retire their contracts.

CANADA FORGINGS TO FIGURE IN MERGER?

Montreal, Jan. 26.—The activity in Canada Forgings shares on the exchange here is understood in the street to be occasioned by the formation of an outside syndicate, in which J. A. Mackay, president of J. A. Mackay & Co., Ltd., is an active figure.

AT CHAMBERS-FERLAND.

Cobalt, Jan. 26.—In the No. 4 workings of the Chambers-Ferland mine a substantial amount of low-grade ore is being developed. Other work consists of continuing the cross-cut south from the shaft, and their hold-ings being determined by the extent of the downward continuation of these ore bodies.

IS NOT OPTIMISTIC OVER "FLU" IN NEW YORK

New York, Jan. 26.—Despite the decrease in influenza cases reported today, Health Commissioner Copeeland was not optimistic over the situation. He predicted, from preliminary reports, that there would be at least 3,000 new cases recorded tomorrow. He expressed the opinion, however, that the death toll would not be materially increased, as the disease is milder this year than in the epidemic of 1918. Today report showed 1,719 cases as against 2,855 reported yesterday.

MINING MARKET HAS AN OFF-DAY... Trading Dwindles to Rather Small Proportions, But Prices Are Steady.

YESTERDAY WAS distinctly an off day in the mining market, not that the trend of prices was reactionary, but that the volume of business dwindled to a total of comparatively few transactions.

WALL STREET VIEWS... The increased discount rate has not affected the market, because Wall Street has been materially influenced by the increased activity of the credit market.

ON CHICAGO MARKET... Hughes, Harcourt & Co., 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday.

C.P.R. IS LOWER... C.P.R. was weak in the New York market yesterday, the heaviness being ascribed to the fresh decline in the pound sterling.

DULUTH-SUPERIOR EARNINGS... The earnings of the Duluth-Superior Mining Company for the third week of January totalled \$38,000, compared with \$33,852, an increase of 11.53 or 12.3 per cent.

RECEIPTS... Receipts of live and dead cattle and hogs were: Cattle, 1,000; hogs, 1,000.
