ELEVATOR FEEDED, SAYS WIGMORE

SAYS FACILITIES MATTER IS DUTY OF GOVERNMENT

Up to C. N. R. to Demand More Grain Storage

LODGE ANSWERED

Harbor Commission Urged As Best Solution of Port Difficulties

SHARP disagreement with the statement made to have been made by Matthew Lodge last night in regard to the duty of the citizens of Saint John to provide storage facilities for grain was expressed this morning by three of the city commissioners.

Mr. Lodge is reported to have said "It is up to the people of Saint John to get busy and at once provide storage capacity for large quantities of grain. They could then offer inducements to brokers and buyers to purchase from storage in Saint John for immediate shipment from one of the nearest points to Europe on the Atlantic seaboard."

UP TO GOVERNMENT Commissioner Wigmore said that in his opinion this attitude of Mr. Lodge was altogether wrong. The duty of providing facilities here was up to the government and it was the duty of the C. N. R. of which road Mr. Lodge was a director, to get after the government to provide them. Before the C. N. R. could become a real factor in shipping grain through the harbor, they needed an elevator of at least 2,000,000 bushels capacity, and this should be built at once.

COMMISSIONER FRINK Commissioner Frink said he thought the people of Saint John had done their full duty in the way of aiding in the development of traffic through the harbor ports. They had built wharves and sheds and given land to the government on which other wharves and sheds should have been built before this. On the west side they had, under the tripartite agreement, given to the Dominion government land on which they had agreed to build facilities as they were needed. On the east side of the harbor the city had given to the government all of the forebay between "Warwick Point and Union street, and he failed to see how they could in any way be called on to do more.

COMMISSIONER BULLOCK Commissioner Bullock also disagreed with the view of Mr. Lodge. He felt that the city had done more than its share already in making of this a national port and it was now up to the government to do something.

Berthing and Extension Matters Discussed at Gathering at C. P. R. Headquarters

A CONFERENCE to consider port problems and devise the best methods to handle the heavy traffic which is in prospect through Saint John this winter and also to discuss the most advantageous place for berth extension was held this morning in the C. P. R. headquarters, in King street.

Representatives of the local shipping companies, two steamship men from Montreal and several local and Montreal traffic freight officials of the C. P. R. were present.

AGREE TO CO-OPERATE The chief discussion centred around the best methods of avoiding port congestion during the season. All the local shipping managers agreed to co-operate in every way in getting their ships out of berth in the least possible time.

COMMISSIONER BULLOCK Commissioner Bullock also disagreed with the view of Mr. Lodge. He felt that the city had done more than its share already in making of this a national port and it was now up to the government to do something.

Bulgaria Not Satisfied With \$218,000 Award Against Greece

GENEVA, Dec. 8.—The League of Nations Council today decided to invite the United States, Russia and Germany to participate in the work of the special commission which is to prepare for an international disarmament conference.

GENEVA, Dec. 8.—Apparently France and Great Britain are widely separated on at least one important point in connection with the disarmament question, although M. Paul Boncour and Lord Cecil, respectively the French and British chief delegates to the disarmament council of the League of Nations, deny there has been a split.

This one point is whether the commission, which is to prepare the agenda for the proposed disarmament conference, should study the question of mutual assistance as a specific matter, against a warning nation.

LONDON'S DESIGNERS, IMPATIENT AS PRINCE WEARS LAST YEAR'S MODELS, SEEK NEW MEN'S STYLES

London, which for many years has been what Edward, Prince of Wales, decided to wear, at present are showing the Southern African and South American tour, for some new novelty in clothes to show their customers. In this they have been disappointed.

The Prince has worn nothing new. He still sticks to the clothes which he had before he left on his trip. The designers kept a watchful eye for the Prince's appearance in a winter coat, in the hope of something new. The Royal heir, however, is wearing last year's model.

Of necessity the haberdashers have handed together and hired designers to bring out some new styles and patterns, independent of the Prince.

CLIFTON GREEN, 14, OF WOOD ISLAND, DIES OF INJURIES AFTER HAVING BEEN ACCIDENTALLY SHOT BY YOUNG COMPANION ON HUNTING TRIP.

SEAL COVE, Grand Manan, Dec. 8.—The most shocking accident that ever took place in the history of these islands occurred last Saturday at about five o'clock p. m., when Clifton, 14-year-old son of Percy H. Green, of Wood Island, was accidentally shot, dying about four hours later from the shock and loss of blood.

He, with a companion, were returning from a gunning trip around the island, when the other lad who was behind stumbled, and the 12-gauge shotgun which he was carrying discharged, striking the Green lad under the right arm close up to the armpit making a terrible wound.

Dr. Macaulay was summoned and dressed the wound and gave his opinion that the boy would recover, but had only left a short time when the boy passed away.

CONSIDERS APPEAL Fredericton City Solicitor May Take McLeod Judgment to Higher Court

Special to The Times-Star. FREDERICTON, Dec. 8.—The judgment delivered by Chief Justice Barry in favor of the plaintiff in the case of N. P. McLeod vs. City of Fredericton is now under advisement by the City Solicitor, R. B. Hanson, K. C., who will consider the matter of appeal. Mr. Hanson was in the case originally but through pressure of other duties had to engage J. H. P. Teed, of Saint John and C. L. Dougherty to completed the case.

COMMONS PLANS PROBE OF LOSSES AT WEMBLEY British United Press LONDON, Dec. 8.—Attempts are going to be made in parliament today to bring a special enquiry into the Wembley losses although the majority of the guarantors who will have to pay 10 shillings in the pound are philosophical in the matter. All kinds of scandal in the management of the great fair are indicated which it is expected that an investigation will reveal.

QUESTION OF LOCATION The C. P. R. officials, a local shipping man said, produced tentative plans this morning showing harbor extension in various locations. All the shipping men were in agreement that at present the design is to send out to each child, on a long and lengthening list now being prepared, a pair of stockings along with Christmas morning something of a reality when they are awakened and find that Santa Claus has not forgotten them.

A TENDER APPEAL It is a tender appeal that is made to prevent the disappointment of the little ones who trust in their childish faith that the dispenser of good things in the homes at this great season will not pass by their humble door chimney.

DEFENDED CASE IN N. B. DIVORCE COURT

Alimony and Suit Money Asked in Macintosh Action—Defence Says Desertion

Special to The Times-Star. FREDERICTON, Dec. 8.—The New Brunswick Divorce Court set this morning, Mr. Justice Crockett presiding. The postponed case of Anne Drake Phillips, rector vs. Lorne Dec. Macintosh was begun. The defendant is residing in Hartland and the plaintiff in England. R. W. McEllen appeared for the plaintiff. W. P. Jones, K. C., appeared for the defendant, who was in court M. L. Hayward of Hartland, who is a witness for the plaintiff also was present.

The parties to the suit met in England and were married at Halifax Sept. 26, 1917. The defendant previously was on service overseas. The plaintiff alleges that the defendant went through a form of marriage with Ethel Allison Belyea, with whom he is living as his wife in Hartland. This marriage followed a divorce given the defendant at Fort Fairfield, Me. Previously the plaintiff had returned to England. Divorce, alimony and suit money are demanded by the plaintiff on grounds of cruelty and infidelity.

The defence alleges desertion on the part of the wife and an income of \$700 a year after deduction of expenses. This morning Rev. Nathaniel LeMoine, rector of St. John's parish, Halifax, swore he had performed the marriage ceremony.

Mr. McEllen then read the evidence of the plaintiff taken by commission in England which set forth alleged acts of cruelty and infidelity and quoted extracts from intercepted and other letters.

PUT THE TRANSCONTINENTAL TO WORK ASSERTING that Maritime ports are being starved, contrary to the public interest, and demanding that the Transcontinental be put to work to haul grain to Maritime harbors, the Manitoba Free Press again comes forward with powerful editorial support for Maritime claims.

It recalls that after it was demonstrated for a short time, in 1916, that grain could be hauled over the Transcontinental at a low rate, that rate was raised 400 per cent., with the result that the people have an investment of \$170,000,000 lying idle, whereby its use would stop much of the diversion of traffic to United States ports, give the traffic to Maritime harbors, and keep millions of money in this country.

On national grounds the Free Press demands that the Transcontinental be put to work, and that faith be kept with the Canadian people. The Toronto Globe also takes up this question editorially and gives the Maritime case strong support, referring most pointedly to the Transcontinental, and a part of its article is reproduced today. Let us begin, however, with the Manitoba Free Press, which says:

"Why Not? Why Not?" "The people of Canada have an investment of \$170,000,000 lying pretty nearly idle, moreover, when for several months in the year it might be earning a nice revenue and help to carry the enormous overhead which is involved when \$170,000,000 is doing nothing for any appreciable length of time. This large sum of money is tied up in the National Transcontinental Railway line which runs from Winnipeg to Quebec, a distance of somewhere about 1,341 miles—and then on to Montreal. Why this investment should be allowed to remain idle in this manner is one of those things which the Canadian public is beginning to wonder if it will ever understand. None the less it is beginning to ask uncomfortable questions.

The development of additional berths should take place on the West Side, he said, there was a difference of opinion regarding the location. Some of the men favored the development at Rodney Slip on towards Navy Island while others considered that a further extension of berths below No. 16 would be advisable.

SUGGESTS EXPERT REPORT
All the shipping men felt that before any definite decision was made some disinterested expert harbor engineer should make a careful study of the conditions and report the result of his findings.

While these matters were discussed freely and opinions given, the meeting did not place itself on record as favoring any definite site except to state that the development was needed and that the west side was the best place for it. Further meetings are expected during the winter to take up this matter.

This four-months-old youngster has been adopted by the whole congregation of a United Brethren church at Toledo, O. He was found abandoned in an automobile in front of the church, and everybody wanted him. The church women have named him Arline, after the founder of the church, and are taking turns in caring for him.

Report Says C.P.R. May Secure New Coal Handling Depot Here

The possibility of an up-to-date coal handling depot at this port for the C. P. R. was one of the matters discussed on the street this morning, but J. M. Woodman, general superintendent of the New Brunswick division, said that he had not heard anything of the matter as yet.

Among the sites under consideration for the new coal pocket, it was said, were Nelson wharf, West Saint John;

the former Saker shipyard, Strait Shore; the Portland Rolling Mills site; and the Maritime Mail Co. plant. Those discussing the matter said that on the first named the C. P. R. already have their rails on the wharf. Should the Saker property be used it would be necessary to install a hoisting apparatus to lift the coal to the track level on the hill, but rails could be laid directly to either of the last two mentioned.

CIVIC POLITICS IN CAPITAL WARM UP

Talk of Ticket in Field Opposed to Features of New Assessment Act

Special to The Times-Star. FREDERICTON, Dec. 8.—With the annual civic election little more than a month away, interest in civic politics here is increasing. A movement is afoot to put in the field a full ticket for mayor and five aldermen.

The proposed new assessment act is causing great interest, and it is stated that a public meeting of those opposed to certain features of the act will discuss steps toward putting candidates in the field.

Some members of the present council already have been approached to be members of the proposed ticket. They are Ald. W. E. Farrell and Ald. F. L. Cooper. Ex-Mayor Moses Mitchell is interested in the movement.

Of the other three aldermen whose names are being considered, are Ald. W. L. Jennings and Ald. W. L. Jennings are desirous of retiring from civic politics.

Irvin Cobb Yarns. The champion story teller of the world tells a tale of a Southern town where a group of idlers had their talk interrupted by a factory whistle. "What's that?" demanded a darky from back country. "That—oh, that's the dinner horn," he was informed. "Well, boss," remarked the dusky one, "it may be dinner time for some folks—but it's just twelve o'clock to me." Which brings us to our own story. To the Lady of most every Saint John home a day is coming when everybody else in the house is having a whale of a time with nothing to do but enjoy what Santa Claus has brought. It is Christmas to all in the home but to the lady who cannot get out of the kitchen, its just the 25th of December—her hardest day of the whole year. Not even the awful strain of Spring cleaning takes it out of her like Christmas cooking. Fun and leisure for everybody else, but a ton of work for her. None Cook Like This. Give her a Moffat Electric Range and the Christmas Dinner cooks itself. No watching whatever. She can leave the kitchen for hours while the turkey roasts in an oven that keeps all its juices and is so exact the door never need open till the clock says, "ready." Every day of the year a Moffat Electric saves her hours of watching and nursing the heat. An automatic cooker, a fireless cooker, roasting three hours with held-in heat after current turned off. They cook all winter on the money a coal stove eats up in a month. Give Wife or Mother a full share of Christmas—give her a Moffat and she'll bless the thought the rest of her years. A few dollars a month pays the modest price. See EVERY electrical improvement only at Your Own Hydro. CANTERBURY STREET OPEN TONIGHT 7.30 to 9

SAINT JOHN, N. B., DECEMBER 8, 1925.

SAINT JOHN, THE C. N. R., AND THE GRAIN.

"Grain," said the Montreal Gazette on Monday, "is still pouring into the Canadian National at a rate of more than a thousand cars per day. There are now 28,284,000 bushels in store at Canadian National points. Approximately 800 miles of grain cars were required to move the total of grain loaded into Canadian National cars from August 1 to midnight on December 3. Since the opening of the grain year 92,238 cars containing 124,544,000 bushels of grain have been loaded at Canadian National points in the Prairie Provinces. This is nearly 10,000 cars more than were loaded in the same period of the record 1923 crop, and not far short of double the shipments of last year to the same date."

In Moncton yesterday Mr. Mathew Lodge, N. B. director of the Canadian National Railways, and Mr. Appleton, general manager of the Atlantic region, issued statements showing a marked increase of general traffic on the Maritime division of the Government road, and saying that the grain looked for Saint John up to December 4 amounted to 1,126,000 bushels, whereas up to this time last year only 508,000 bushels were booked for this port. Last year the C. N. R., in all, handled 8,915,000 bushels through Saint John. It will be noted from the figures given by the Montreal Gazette how much more grain the C. N. R. is moving this year than it did last, and it will be interesting to see what the total coming this way will be by the end of the season. The people in the Maritimes generally will welcome proof of increased activity on the C. N. R. Atlantic division, with the corresponding increase of employment and disbursement of money, and they will hope that the increase in this territory will correspond with the immense increase of traffic available.

Mr. Lodge has elaborated his former comparison of the cost of moving grain to Saint John and Portland, and he comes to the conclusion that there are convincing reasons why "we should move this tonnage, where possible, in our own country." He speaks of the great benefit to be derived from the additional employment which the recovery of traffic now going to foreign harbors would involve, and says: "While the advantage named in our opening paragraph in favor of Portland over Saint John may seem a large amount, it is nothing in comparison to that gained by Saint John and the employees of the Canadian National Railways and other labor in connection with the shipment of this grain, together with the great advantage to our merchants, shippers and citizens of the whole province; for what benefits Saint John directly is of equal importance to every citizen of the province—manufacturer, farmer, laborer or other employee of New Brunswick. We wish once again to call the attention of the public to the fact that the freight rate from any point in Canada to Saint John and Halifax is on the same level as to Portland or other American ports.

"Therefore, why not investigate immediately the shipment of grain from the Georgian Bay points to the Atlantic ports of Saint John and Halifax?"

Sir Henry Thornton has returned to Canada. While it seems late in the day to investigate the shipment of grain from Georgian Bay points to Saint John and Halifax, Mr. Lodge evidently sees that this is a duty confronting the C. N. R. management. There is a grain crop every year, and every year the amount of freight lost to American railways and harbors has been increasing. Mr. Lodge says that the advantage in favor of Portland is nothing in comparison with what would be gained by Saint John and this territory generally in having the wheat come this way. Evidently, then, it should be coming in immensely increased quantities, so great is the remaining portion of the crop still to be moved to the seaboard.

Mr. Lodge's information is that there will be a considerable increase in the shipment of grain through Saint John this year, and he adds: "However, we come back to the same old story of facilities both at Saint John and Halifax, particularly the former. It is up to the people of Saint John to get busy at once and provide storage capacity for large quantities of grain. They could then offer inducements to brokers and buyers to purchase from storage in Saint John for immediate shipment from one of the nearest points to Europe on the Atlantic seaboard."

But why "up to the people of Saint John?" Surely it is a national duty to keep the freight in home channels, as Mr. Lodge himself has demonstrated. Are the people of Saint John expected to put their hands in their pockets and build elevators and additional piers, the need for which has been plain for many years? They are the only people in Canada who ever did tax themselves to provide facilities for national traffic, but certainly no one should expect them to pursue that policy again. Why should we bonus Canada? It is not the people of Saint John

who are in default in this matter of providing accommodation to handle the national traffic available. That responsibility must rest upon the C. N. R. and the Government. For years the people of Saint John have demanded the facilities, and have made clear that they were necessary on national grounds.

Mr. Lodge, we are quite sure, is prepared to exert himself to the utmost to keep the traffic in home channels, and he will be the first to see, no doubt, that his own arguments with respect to the existing situation are such as Sir Henry Thornton and the Government must find unanswerable. The existing facilities must be used up to capacity, and early and comprehensive plans pushed forward to provide the additional accommodation demanded by national trade.

There is a greatly awakened Canadian sentiment to-day demanding the adoption of sound, all-Canadian policy and practice. This is going to be a test year.

Bogot goes Liberal, by a reduced majority, but by majority enough. Quebec sentiment is not, changed by the general result on October 29. The Conservatives have 117 seats, the Liberals 101, and the Progressives 24. The Labor and Independent members number three. Bogot does not diminish the uncertainty as to what will happen when Parliament meets, or as to how much time must elapse before there is another general election.

Odds and Ends

The Difference

(New York Times)

Canada has had her troubles with "handits" of the new school, but the troubles have been fewer, and the experience of the criminals more often painful, than here. Some of the reasons for this difference are presented in remarks made by Mr. Justice Murphy, holding court at Nanaimo, in British Columbia, before sentencing to ten years' imprisonment and twenty lashes one William Bagley, who, with four other men, had robbed the local branch of the Bank of Canada.

The gang had come from across the border, and the Justice found it a fitting occasion to say that Canada was not to be made the happy hunting ground for criminals—that criminal procedure in Canada was simple and swift and endeavored to be certain. Verdicts once found, he went on, are rarely upset, and when they are there is another trial, no matter what the courts of British Columbia intend to deal drastically with would-be murderers—not that we seek vengeance, but that we intend to demonstrate that here in Canada law is respected.

When you are in the "gym" playing or exercising, suppose a man scratches you or gives you a butt with his head, cutting your cheek. Don't show any sign that you notice it and don't suspect that he did it deliberately or that he is a treacherous fellow. Yet at the same time don't be too careless; keep watch out of the corner of your eye. He may be trying to harm you, but take no chances. Just keep out of his way. That's easy. Just watch out and don't let him get near you, and there'll be no trouble. Which is one of the best ways we know of to avoid trouble if it can be done with proper maintenance of self-respect.

Dinner Stories

WENDELL Phillips

 was traveling through Ohio once when he fell in with a car full of ministers returning from a convention. One of the ministers, a southerner from Kentucky, was naturally not very cordial to the opinions of the great abolitionist and set out to embarrass Phillips. So, before the group of ministers, he said: "You are Wendell Phillips, are you not?" "Yes," answered the great abolitionist. "And you are trying to free the niggers, aren't you?" "Yes, sir, I am."

"Well, why do you preach your doctrines up here? Why don't you go over into Kentucky?" "Excuse me, are you a preacher?" "I am, sir."

"Are you trying to save souls from hell?" "Yes, sir, that is my business."

"Well, why don't you go there then?" asked Phillips.

"Then you must be as strong as a man!" "I am."

"And you wouldn't let a man beat you—not even if he was your husband—would you?" "Indeed I wouldn't," the missionary said.

The mandarin's eight wives looked at one another, nodding their heads. Then the oldest said softly: "Now I understand why the foreign devil never has more than one wife. He is afraid!"

The Best of Advice

THE HARDEST TASK IN THE WORLD.

THE hardest task in the world, Emerson decided, is to THINK. In thinking as in everything else, you must PERSEVERE.

Every mind has its own method. As Emerson observed, "The difference between persons is not in wisdom but in art."

And the differences between men in natural endowment are insignificant in comparison with their common wealth. Do you think the negro porter and the street-sweeper have no thoughts, no experiences, no wonders for you? The walls of crude minds are scratched over with facts, with thoughts.

THE growth of the mind—what human process is more wonderful? The personal tone of each mind, which makes it more alive to certain classes of experience than others, more attentive to certain impressions, is equally the result of that inviolable and unimaginable play of the forces of growth within the nervous system which, irresponsibly to the environ-

ment, makes the brain peculiarly apt to function in a certain way.

HERBERT SPENCER, in his Psychology, endeavors to show the necessary order in which the development of conceptions in the human mind occurs, and avers that no abstract development can be attained, until the outward experiences have reached a degree of definiteness and coherence.

Thus the belief in an unchanging order, the belief in the law, is a belief of which the primitive man is absolutely incapable. The daily impressions which the savage gets yield the notion very imperfectly, and in but few cases. It is only when the savage in man subsides, and he begins to develop the arts, that there come to him frequent experiences bringing the perceptions of equality and inequality.

The whole burden of Spencer's book is to show the fatal way in which the mind, supposed to be passive, is moulded by its experiences of "outer relations." It is a book for thoughtful persons.

DR. MARIAN PARK

THE president of Bryn Mawr College, Dr. Marian Edwards Park, has aroused a nation-wide discussion since she signed a petition submitted by the students of her college requesting permission to smoke on the campus. Bryn Mawr is believed to be the only women's college in the country to set aside rooms in which the girls are allowed to smoke.

Dr. Park was born in Andover, Massachusetts, in 1878. After completing a course at the Gloucesterdale, New York, high school, she entered Bryn Mawr and was graduated in 1898. In 1918 she received a Ph. D. degree from that institution. President Park is a classical student, having studied at the School for Classical Studies at Athens, Greece, 1901-1902. After serving as instructor and assistant professor of classics at Colorado College, Colorado Springs, Col., for four years, she became Dean of Smith College in 1918 and remained there until 1922, when she became Dean of Radcliffe College. She has been Dean of Bryn Mawr since October 4, 1922.

OPPORTUNITY EVERYWHERE.

Passaic Daily Herald:

When northerners talk about the fabulous fortunes being made in Florida they place too much importance on the profit and not enough on the capital invested in making that profit. It is the natural thing for the man without capital to forget that capital is indispensable in making fortunes in Florida. Every train into Florida carries poor men from the north—men whose only capital consists of hopes and dreams. The "get-rich-quick" sort are quickly disillusioned. Those content with spending a score of years in "making theirs" may see their dreams come true, just as do many of their kind in any other section of the country. The dead-broke in Florida are in just as bad a state as the dead-broke anywhere else. It takes money to make money in Florida, as elsewhere. Much is heard of Florida "paper fortunes." For these fanciful fortunes on paper the possessors have paid out good paper money.

OBJECTIONABLE POSTERS.

(Quebec Action Catholique.)

Parents, anxious to carry out their duties to their children, can prevent them from going to halls where unpleasant shows are given; they cannot prevent the posters which cover the walls and decorate the show-cases from offending their eyes. Recently some of them were of a revolting character. The shows they advertised, we were assured, were much more decent than the posters themselves, but how is it that posters of this sort defile our walls? The slope down which we push our youth towards immorality is too rapid to accumulate it any further. No one would openly support the necessity, in the public interest, of having posters like those we have condemned. Why then is there no unanimity in the necessary gesture to put an end to them?

Shall She Remain a Widow to Please Her Children, or Remarry to Please Herself?—“Miss Nineteen” Who Wants to Marry the Man She Writes To, But Has Never Seen—A Question of Moralities.

DEAR DOROTHY DIX—I am a widow of 38, very much in love with a man of 40, who wishes to marry me. But I have two children, a boy of 16 and a girl of 10, who object to my marrying just because they have a jealous feeling that they do not wish to share me with any one. They are very fond of this particular man and he of them, and I am sure he would be very kind to them, but they feel that if I married it might make some difference in my attitude toward them. What shall I do? Remain single to please my children or marry to please myself? LONESOME WIDOW.

DOROTHY DIX

ANSWER:

Marry your man by all means. It is utterly selfish of your children to ask you to sacrifice your life to their jealous whims, and you will be very foolish if you give in to them. Furthermore, even if they do object now to your marrying, it will not be long before they will see that it was the best thing for you to do not only for yourself, but for them. Your children ask you to stay with them, but they will not stay with you. In a very few years now life will call to them, and they will not only for yourself, but for them. Your children ask you to stay with them, but they will not stay with you. In a very few years now life will call to them, and they will not only for yourself, but for them.

And when they marry, their husbands and wives will not want mother to live with them. The mother-in-law in the house is invariably the cause of so much friction that even a woman's own children are happier without her continued presence, no matter how much they love her. For this reason a widow of your age is most wise to marry if she meets a man she can love and who is a suitable husband for her. You have, in all probability, a long life before you that should be filled with happiness, with love, with the interests and occupations that a woman finds in having her own man and her own home.

Your children are old enough to understand this, and if you will explain it to them they will welcome the new father with cordiality instead of resenting him. And if they refuse to listen to reason go along and marry anyway and send them to school until they get old enough to have some sense. Don't let your life be ruined by two selfish youngsters. Remember this is your last call to the dining car. DOROTHY DIX.

DEAR DOROTHY DIX—I am a girl of 19.—For the last two years I have been corresponding with a young man whom I have never seen. He will come to see me, but he offers to send me my railroad fare if I will come to him. He wants me to marry him as soon as we meet, if we like each other. Do you think I will be happy if I marry this way? B. C.

ANSWER:

My dear child, can't you see what a frightful risk you run in every way if you go out to this man whom you have never seen, whom you know nothing? Probably he hasn't the slightest intention of marrying you, and when you get to this strange place you will be completely in his power. You will have no friends there. You will have no money, and no one will believe you an innocent girl because nobody will believe that any good girl could be so foolish as to do this thing that you contemplate doing. The women of the streets are recruited from the ranks of girls who have gone off to marry men who promised to marry them and who failed to make good their words.

And suppose the man did marry you. Aren't there enough chances of a woman getting a bad husband, even when she has known a man for years and thinks that she knows all about his disposition and character and morals and manners? Think, then, of the risk she runs in marrying a man whom she absolutely knows nothing; who may have another wife; who may be a jail-bird; who may be a drunkard or a gambler, or who may be just plain lazy and shiftless.

Don't do it, my dear child. If you have one particle of regard for your future happiness, stay at home and marry some neighbor boy whom you have known since your mud-pie days. DOROTHY DIX.

DEAR MISS DIX—Our little circle is all torn up over this question in moralities. Will you try to settle it for us?

A married couple in our neighborhood had two children and were apparently very happy until three years ago, when the intimate friend of the wife came to live with them. The friend and the husband fell in love with each other. The wife turned the friend out of the house, but the husband continues his attentions to the friend. The wife has importuned the friend, begging her not to break up her home, but the friend says that she and the husband love each other and intend to marry as soon as the woman divorces her husband. Now, which is the more to blame, the false friend or the false husband? A READER.

ANSWER:

A woman who comes into her friend's house and takes advantage of the opportunity that is thus offered her to steal away her friend's husband is as sly as a snake in the grass as ever crawled into any one's Eden.

She is a dastard and an ingrate. She has not even the savage virtue of being true to the bread and salt she has eaten, and no condemnation can be passed upon her that is too severe. If she got her just deserts she should be branded as a thief and ostracized from decent society.

But bad as the woman is, I do not think that she is as blame-worthy as the man who wrecks his home with his own hand.

After all, the friend's duty is not so great as the husband's duty. The friend's responsibility is not so great as the husband's responsibility. The friend has taken no oath of allegiance as the husband has.

The friend's obligations are great, but they are not the obligations of the man who has taken a woman's life into his hands and who has brought little children into the world. And this is always to be remembered: that no woman can steal a man from his wife unless he is willing. He can always shut his ears to the sough of the siren. He can always flee from temptation if he wishes to do so. DOROTHY DIX.

Says Good Acting In Films Is Usually Accidental

By RUSSELL J. BIRDWELL. SIDNEY FRANKLIN is one of the few brutally candid men in Hollywood. He has been directing pictures for about 10 years and during the last few twelve-months has been dragging down the sum of \$2,000 every week. Thus he can afford to say what he darn well pleases and let the chips fall where they may. "Nearly every good performance on the motion picture screen is an accident," says Franklin. "When an actor or actress does 'hit' with a single part and is made famous overnight, it is mostly due to luck—and to the director. On the stage it is quite different. Actors in stage productions rehearse sometimes as much as three months before they are seen by an audience. They study their parts diligently and develop little traits and mannerisms of the characters they are portraying." In a movie production, declares Franklin, quite the opposite is true. "Very few movie actors ever read the script and fewer still ever know what the story is all about. The scene is rehearsed possibly two or three times and then it is photographed."

SIDNEY FRANKLIN.

ADVENTURES of the TWINS

By OLIVE ROBERTS BARTON THE COACH TO TIPTON. When the Twins left the hunting picture with Mister Blue Cap, all the ladies and gentlemen waved good-bye to them. "Too bad we didn't get a fox to show you," said the men who had been so kind. "But come back and we'll try it another day. Your ponies and hunting suits will be here waiting for you." "Thank you, we have had a very good time," said Nick. But he never said a word about the fox. He knew and Nancy knew and Mister Blue Cap knew why they hadn't "bagged" a fox on the fox-hunt. It was because they, themselves, had helped Mister Fox to get away. They went down the steps and Mister Blue Cap locked the glass door of the picture after them. When they looked back, all the ladies and gentlemen on the horses, and the horses themselves, and dogs, and everything had turned into paintings again. The picture was put marked "Number 44—The Hunt."

STRANGERS WITHIN OUR GATES

(Three Rivers Bien Public) We know nothing more lamentable than the history of Augustus Swanson, an old Scandinavian, aged 65, who committed suicide in the corridors of Parliament, after having vainly solicited an interview with Premier King and Hon. Mr. Lapointe. It is not surprising that after such a chapter of misfortunes, the old foreigner's spirit failed him; a head more solid than his would no less have been turned. When injustice is dealt out to us from that quarter whence we were expecting to receive protection and succor, the sickening despair which follows is very frequently fatal.

ELGIN THE TIME-KEEPER TO THE SUCCESSFUL. One of a series of little biographies of Elgin Watches. WRITTEN BY EMINENT ELGINIERS. I find that a great deal can be accomplished in a busy man's life by using up the corners of time that very often are wasted. Punctuality has gotten many a man a good job and kept it for him after he once had it. Everything in a business way during the last ten years has been run under a very high pressure. Men who used to do one thing are now doing many. And to accomplish many things in a day's work, a watch that keeps time and men who keep time are very necessary. Many figures have been compiled about many things, some of them astonishing figures. But nobody has ever figured up the amount of time wasted by the average business man in waiting for tardy people to keep an appointment. Personally, I would be about as well off without my leg as without my watch—which, by the way, is an Elgin. My father gave me my first Elgin on my twenty-first birthday. I carried this watch for many years and it always kept time, otherwise I would not have kept it. In later years, I have carried an Elgin strap-watch in place of my Elgin pocket-piece. But both Elgins are what we would call in our business "hundred percenters." They never fall down—are always on the job—and always on time. —by WM. WRIGLEY, JR.

SAINT JOHN IS URGED TO GET AFTER MORE GRAIN FACILITIES

C. N. R. Books Over Double Quantity Accepted for Here Last Year—Revenue Loadings in Atlantic Region Jump 100 Cars Daily.

MONCTON, Dec. 7.—Mathew Lodge, director of the Canadian National Railways, and Walter U. Appleton, general manager of the Atlantic Region, in statements issued today tell of increases in traffic over this region of the railway that have already meant the operation of a greater number of extra trains and have provided employment for 170 additional train and engine-men.

Mr. Lodge grants, for the sake of argument, a big difference in favor of Portland in the transportation costs, but argues that the money expended in bringing the grain to Atlantic ports in Canada, distributed through railway employees to the people of the country, justifies the charge.

MORE GRAIN BOXED.

Mr. Appleton says that up to Dec. 4 the C. N. R. has boxed 1,126,317 bushels, considerably more than was booked for there this time last year. "It is up to the people of Saint John," declares Mr. Lodge, "to get busy and at once provide storage capacity for large quantities of grain. They could then offer inducements to brokers and buyers to purchase from storage in Saint John for immediate shipment from one of the nearest points to Europe on the Atlantic seaboard."

APPLETON'S STATISTICS.

The statistics given out by Mr. Appleton, follows: Total grain moved into Saint John via our line last year, 3,915,229 bushels, 2,238,824 being handled to East Saint John and the balance, 1,676,405, at West Saint John. Total grain booked for Saint John up to the 4th inst., 1,126,317 bushels, 607,399 to East Saint John and 518,918 bushels to West Saint John. Last year at this time 429,932 bushels had been booked to East Saint John and none to West Saint John. We have already moved 294,163 bushels of grain into East Saint John this season and 101 cars to West Saint John. Revenue loadings on this region during the month of November increased 1,800 cars over same month last year and for the first two days of this month revenue cars were being loaded at the rate of 100 more per day than for the same dates last year.

COST OF HAULAGE.

"To move this amount of grain on a sub-division 100 miles long with railroads of four-tenths of one per cent would require approximately 714 trains or 5.9 trains per day for 120 days, containing 70,000 bushels per train, requiring the labor of 60 train and engine-men per day; average pay \$200 a day or \$28,000 for 120 days. Coal used on these trains would cost about \$630 a day, or \$75,600 for the full period. This movement would involve a total of 1,200 train miles per day at an approximate total cost of \$4,800 a day, or \$576,000 for the 120 days."

BENEFIT FROM MOVEMENT.

"You will readily understand the great benefit to be derived by our Canadian train employees from the movement of 10 trains per day in and out of Saint John over the Transcontinental Railway, besides the incidental advantages to the merchants of Saint John. We must add to this statement the elevator employees' salaries and wages of dockyard employees, to say nothing of the money spent by the steamers in the City of Saint John during the transportation of this grain."

GAINS TO SAINT JOHN.

"While the advantage named in our opening paragraph in favor of Portland over Saint John, may seem a large amount, it is nothing in comparison to that gained by Saint John and the employees of the Canadian National Railways and other labor in connection with the shipment of this grain, together with the great advantage to our merchants, shippers and citizens of the whole province, for what benefits Saint John directly is of equal importance to every merchant, manufacturer, farmer, laborer or other employee of New Brunswick. We wish once again to call the attention of the public to the fact that the freight rate from any point in Canada to Saint John and Halifax is on the same level as to Portland or other American ports. "Therefore, why not investigate immediately the shipment of grain from the Georgian Bay ports to the Atlantic ports of Saint John and Halifax?"

INCREASE IN SHIPMENT.

"Our information is that there will be a considerable increase in the shipment of grain through the port of Saint John this year. "However, we come back to the same old story of facilities both at Saint John and Halifax particularly the former. It is up to the people of Saint John to get busy at once and provide storage capacity for large quantities of grain. They could then offer inducements to brokers and buyers to purchase from storage in Saint John for immediate shipment from one of the nearest points to Europe on the Atlantic seaboard."

Ten Children Were Reared On \$4 a Week

CAMBRIDGE, Dec. 8.—Mr. and Mrs. Hale, of Melbourn, a little village in Cambridgeshire, have just celebrated their 68th year of married life. Mrs. Hale is a native of Melbourn, and has lived for 65 years in the same house. While verging on the nineties, she is still an active woman. It is her boast that when she dies she will not owe anyone a halfpenny, despite the fact that she never had more than four dollars a week on which to keep her ten children. Nine of these still live, and all have been given a trade.

COLOGNE, Dec. 8.—A death-bed confession of murder has just led to the release of a man of 76, named Wilhelm Muller, who has spent 33 years in prison wrongly accused of the crime which was committed in the Rhineland. Muller was found guilty and sentenced to death, but this was commuted to imprisonment for life. He always stoutly maintained his innocence. He is still hale and hearty.

Was Brought From South Africa to England on a Stretcher

LONDON, Dec. 8.—Jimmy King, 15-year-old Boy Scout from East London, South Africa, who had traveled 5,000 miles on a stretcher to England to seek a cure for his broken spine, arrived in Southampton on his way home in the liner Edinburgh Castle. He was encased in a jacket of celluloid, and was able to walk. King was accompanied by his grandfather. "It is wonderful to walk again," he said. "I am going back full of hope, although my spine is not mended, it never can be. "Sir Robert Jones, who tended me in a nursing home, placed me in plaster of Paris when I arrived, and he then had a celluloid jacket made for me. I walked a step or two in a week. The

jacket extends from my armpits to my hips, and fits as tightly as a glove."

Catholic Women's League Announces Names—Arrangements For Fair Made

Final arrangements for the doll pageant tea and fair to be held next week in aid of charity were made at the meeting of the Saint John north sub-division of the Catholic Women's League held last night in St. Peter's parish hall with Mrs. W. J. Harrington, president, in the chair. The conveners for the booths were named as follows: Spring, Miss Emma Conlogue; summer, Miss Alice E. Dever; autumn, Mrs. M. A. Quinlan; winter, Miss Emma Higgins. For the tea the conveners appointed were as follows: Tea room, Mrs. Kenneth Murphy; candy booth, Miss Minnie Durick; house-keeping, Miss Gertrude Ryan; ice cream and soft drinks, Mrs. William O'Connor, Mrs. J. P. Quinn and Miss Nellie Harrington; pie plate booth, Mrs. Arthur Dever; fish pond, Miss Annie Tracey, and ponies, Miss Margaret McElhinney.

NOTED SPEAKERS.

Arrangements were made for the address on "Character" to be given by Rev. James Cleary, C.S.S.R., next Sunday and for the coming of the following noted speakers who will give addresses under the auspices of the sub-division this season, Henri Bourassa, of Quebec; Judge Arsenault, of Prince Edward Island, and Dr. J. J. Walsh, of New York.

EARLY HISTORY OF CITY STREETS TOLD

John Willet, K. C. Gives Interesting Address to Historical Society

In an extremely interesting address on the names of the streets of Saint John given last night in the Natural History Society rooms, under the auspices of the New Brunswick Historical Society, John Willet, K. C., the secretary of the society, gave a comprehensive account of the historical associations in connection with the street names and recalled the changes which had taken place. D. C. Clinch, president of the society, was in the chair and it was decided that the society should publish the address in one of the society's pamphlets. A very hearty vote of thanks was extended to Mr. Willet on the motion of Sheriff A. A. Wilson, seconded by A.

H. Wetmore and spoken to by Timothy O'Brien.

After the address, Dr. William MacIntosh showed a number of lantern pictures of scenes in old-Saint John.

ORIGINALLY LAID OUT.

Mr. Willet explained how the streets of the city had originally been laid out by Engineer Bedell. In the early days Sydney street had marked a division

of the city and the streets which crossed it had different names on the east

to the names used for the western portion. Later the entire length of the street was known by one name. King

street and what is now known as Broad street, but was originally Main street,

were both made 100 feet in width, while the other streets were only 60 feet. These two streets were made wider because they had to carry the traffic

from Lower Cove and Upper Cove

where all of the vessels docked and discharged their cargoes and passengers.

Union street was originally the northern boundary of the city, which was then Parrtown.

Mr. Willet not only dealt with the names of streets in the city but with the streets in Carleton and the outlying districts.

Heat From Fire Snaps Strings and Warns Occupants of House

LIVERPOOL, Dec. 8.—Five people have just been saved from death by burning by the twang caused by the snapping of piano strings, due to the heat of a fire, in Liverpool. He fell later over 40 feet to the ground, and was taken to hospital.

Stolen Gems Found In Man's Wooden Leg

PARIS, Dec. 8.—A bracelet worth \$8,000 of platinum and diamonds, which had been stolen, was discovered hidden inside the wooden leg of a man named Gardoux, manager of a fasting man now giving exhibitions at Nancy. A postman is said to have asked Gardoux to sell the bracelet in Paris, promising him a good reward. He was arrested with two friends at the Gare de l'Est. But the police found nothing on searching them, and the three were released. A detective, however, shadowed the man with the wooden leg, reentered him on an unscrewing the artificial limb and found the bracelet.

A Time-Honored Beauty Secret

Thousands of Women Owe Their Personal Charm Entirely to This Knowledge

There is no beauty quite the equal of youth—glowing youth in all its pulsating vitality. Do you sigh for that beauty and natural charm? Read then, the secret—the secret as old as the hills.

Your doctor will tell you that constipation causes most skin troubles. Poisons from the waste matter are picked up by the blood and carried to all parts of the body, especially the skin. No one needs to have a sallow, muddy complexion. The cause is simple; the remedy is in your own hands. Proper diet, exercise, surface cleanliness and—above all—internal cleanliness. Nujol prevents the formation of intestinal poisons that ruin your health and complexion.

Nujol merely softens the waste matter and thus permits thorough and regular elimination without overtaxing the intestinal muscles. Unlike laxatives, it does not form a habit, and can be discontinued at any time. Try Nujol today. Ask for it at your nearest drug store, but remember there is only one Nujol. ROBSON IN DRAW WITH R. MITCHELL

Slugging Match Staged Before Large Crowd in Halifax Last Night

HALIFAX, N. S., Dec. 8.—Roy Mitchell, local colored boxer, fought a 10-round draw with Tommy Robson, Malden, Mass., here last night. In the preliminary Dick Hunt, former Maritime welterweight champion, won a six-round decision over Francis MacEachern of Glace Bay.

Mitchell and Robson fought at catchweights and were very close to heavy-weight form. It was a slugging match, full of action with the men fighting all the time, even after the bell rang for the end of the rounds, when Referee Ted Power would have to step in to separate them. The referee was called upon to make the decision when the two judges, Tom Martin and Frank Murray, disagreed. Martin would have given the decision to Robson, while Murray held out for Mitchell. Referee Power settled the argument by calling a draw and this evidently pleased the spectators.

Mitchell was credited with four rounds, Robson three and three were even. There were no knockdowns and the only time that either appeared to weaken under the strain of blows was in the seventh when Robson seemed stony.

In the first round both men fought cautiously and honors were even. During the next three Mitchell knocked the Malden man all over the ring and pressed hard for a knockout. He won the three rounds by his aggressiveness but failed to register a telling blow. Robson stepped out in the fifth and had the colored boy on the defensive and continued to land often and hard in the sixth. Mitchell returned to the attack in the seventh and landed several clean punches that seemed to shake his opponent. The eighth was

Several incidents marred the tie played between Ireland and Austria in the latter country. Ireland complained that technical violations of the rules were numerous, and that the Count had been most objectionable in his attitude. An European investigating committee agreed with the Irish team that the Count's actions were "most objectionable." It recommended that competing nations should exercise the greatest care in the selection of

Easy Peeling
You Get That Advantage Also In a California Orange

SEEK these advantages hereafter—you'll find them in every California orange that you buy:

Ease of peeling. The skin comes away freely.

Ease of separation. See how readily the segments come apart, one from another.

Ease of slicing. Note the thin, dainty slices, unmarred by tearing due to a tough, seedy texture.

In fact, if "tender cuts of orange" are as attractive to you as tender cuts of meat, you'll want California oranges always hereafter, for that, too, is a feature of them.

And California oranges are seedless at this season of the year.

In only one orange are all of these advantages combined. You may as well enjoy them. Be sure to have them for the holidays.

TRANSPORTATION LIGHT and POWER COMMUNICATION

Keystones of National Prosperity

WHAT visions of progress are conjured up by those words—Transportation, Light and Power, Communication!

The basis of transportation, light, power and communication is energy, and how richly Canada is endowed by nature with energy! The world's resources of coal and oil are being used up and cannot be replaced. Water power, of which Canada has such an abundance, will exist as long as the solar system lasts.

Both in the possession of power, and the utilization of that power, Canada stands pre-eminent in proportion to her population.

The Water Power Committee of the Conjoint Board of Scientific Societies in Great Britain recently reported that 75,000,000 h.p. are used for factories and general industrial and municipal activities throughout the world. This statement throws into striking relief the fact that in Canada alone there is commercially available for development no less than 18,000,000 24-hour h.p. of hydro-electric energy—equal to about one-fourth of the power now used in all the factories of the world!

So far Canada has only scratched the surface of the possible development, but she is proceeding in this direction faster relatively than any other country.

Of the total developed water power in the British Empire, seventy-two per cent is in Canada!

A recent estimate showed that the developed hydraulic h.p. in Canada amounted to 386 h.p. per thousand of the population, as compared with 100 h.p. per thousand for the United States.

The men who are harnessing our rivers in preparation for new developments, new industrial centres, new homes, are men with abiding faith in the Canada of tomorrow. Like the early pioneers in transportation, telephone communication and electrical development—like Bell, VanHorne, Beck—today's power geniuses are blazing new trails. They have their place among the builders of the nation.

The Northern Electric Company, Limited, is proud to have been identified for thirty-five years with Canada's progress in electrical enterprise, proud of its part in manufacturing equipment and appliances by which great public utilities serve the people.

Information

Canada's two great railroads operate over 40,000 miles of track. Her 64 electric lines have over 1,736 miles of road. Canada has over 1,000,000 phones and 2,574,083 miles of telephone wires.

N. P. McLeod Wins In Collision Case

The action of N. P. McLeod, federal tax inspector, vs. Mayor, Aldermen and Commonality of the City of Fredericton was ended in chambers before Chief Justice Barry in Fredericton yesterday. The result was a verdict for the plaintiff for \$545.10. P. J. Hughes, K. C., appeared for the plaintiff and C. L. Hougherty for the defence.

The suit was for damages sustained by the car of the plaintiff which was in collision with a city wagon as it left an alleyway adjacent the central fire station in King street, Fredericton. The pole of the wagon struck the car and tore the top off.

The contention of the defence was that the driver could not stop his car before it came in collision with the wagon. The accident occurred in the summer of 1923.

Bad \$10 Bills Are Taken In Montreal

MONTREAL, Dec. 7.—Sprung Bank of Montreal \$10 bills are in circulation in the city, but to what extent the police are ignorant, although two cases have been brought to their notice since Friday.

This morning two foreigners were detained after they had tried to pass a bad note at the Money Order Department in the General Postoffice. The men, however, satisfactorily explained the source of the money came from, were not placed under arrest.

Put The Transcontinental To Work

Continued from Page 1.

"The line was built for one main specific reason; if anyone doubts this all they have to do is to read some six assorted volumes of Hansard in the years 1903-04 and to recall the millions of words uttered in the course of the federal election campaign of 1904. The line was built so that, in the winter months at any rate, grain could be hauled over it to the Maritime ports at a figure which would be pretty nearly competitive with summer lake and rail rates, and thus avoid using United States routes.

"The line was to be built at a high standard with a minimum of curves and a minimum of grades. It was built in this manner and it set the people of Canada back, to use a colloquialism, the tidy sum of \$170,000,000 as aforesaid.

"Except for a brief period in 1916, when the line was taken over from the contractors, practically not a single bushel of grain has been hauled over it. For one very good reason. The line could haul grain at a low figure and when it showed how low it could the government put the rate up to a figure which put the line as a hauler of grain out of business. The rate was raised 400 per cent.

"The people of Canada are beginning to ask why. Especially in the Maritimes where there is need for protection at the hands of the Railway Commission the fact that the line could haul grain at a low figure and when it showed how low it could the government put the rate up to a figure which put the line as a hauler of grain out of business. The rate was raised 400 per cent.

"Why not put in the rate to the use for which it was built? "Why not put in a rate which will enable the large carry-over of the western grain this season to go out through Canadian ports instead of by Buffalo in the spring? "Why cannot parliament either put in such a rate as a statutory figure or extend the Crown's Nest eastward? "Above all, why can the government not see that this is a way of keeping faith with the people of Canada, who authorized an immense expenditure to have this line built up to a high standard for a particular purpose which has never been fulfilled?

"The people in Canada, we think, like to find out just whose shelted interests are so needful of protection at the hands of the Railway Commission that faith has to be broken with the people of Canada, the Canadian ports have to be starved of their legitimate trade, that \$170,000,000 has to lie neglected and that the port of Buffalo has to be built up. It is indubitably time for a show-down."

"Grotrique" says the Toronto Globe.

The Toronto Globe makes a striking reference to the Transcontinental and Maritime ports. It says:

"It would appear that the Provinces by the sea are at last making some impression on the other parts of the Dominion. The endorsement of their resolutions at the recent Dominion Boards of Trade meeting at Winnipeg was a start, though it must be said that the practical side of the issue—the only side which can bring results—has yet to be settled by the Dominion government. With the Cabinet may be coupled, perhaps, the Canadian National Railway, which operates to the Atlantic both through Halifax and Saint John in Canada and through Portland in Maine.

"The shorter distance by the Portland route imposes a physical handicap on the Maritime ports, but if Vancouver has a right to a freight rate no higher per mile over the mountains than the charge to the eastward, as is contended by the Railway Commission, though opposed by the railways, surely there is something to be said on national grounds for fair treatment for Halifax and Saint John.

"It is a grotesque condition that a great railway system should be built through the Canadian hinterland to connect the grain fields with Eastern ports and its rails left to rust for lack of traffic which seeks other and too often foreign outlets.

"Mr. Baxter does well to meet the leaders of the other Provinces, and though it may not be possible to grant all the requests of the Maritimes, who, after all, have a considerable obligation to help themselves, a temperate statement of the Eastern case is bound to bring results in the long run."

G. F. BLATTER DIES

MONTREAL, Dec. 7.—With an international reputation as a pipe manufacturer, George Frederick Blatter, he died at his residence here on St. Hubert street, in his 86th year, Mr. Blatter was the original manufacturer of Calabash pipes, and for being the first to use South African calabash in this connection. He received a gold medal in 1904 at the Cape Town Exhibition.

During his life, Mr. Blatter worked at his trade in France, Switzerland, Germany, England, South Africa, and latterly in Canada, coming to the Dominion from South Africa in 1908. During the war, the veteran manufacturer made with his own hands, 19 pipes for the chief generals of the Allied forces, among them Haig, Foch, and Pau. The last distinguished personage to receive as a gift one of Mr. Blatter's hand-made pipes was the Prince of Wales, who was presented with it during his last visit to Montreal in France, Switzerland, Germany, England, South Africa, and latterly in Canada, coming to the Dominion from South Africa in 1908. RAILS LEADING UPWARD MOVE IN WALL STREET

Renewed Buying of Motors Features Activity in Industrial Groups

MONTREAL MARKET IS QUIET BUT STEADY

B. C. Fish, Breweries and Laurentide Each Advance One Point

NEW YORK, Dec. 8.—The market for stocks continued to lead the forward movement of stock prices at the opening of trading today. Buying embraced New York Central, Union Pacific and Chicago and Northwestern, all of which scored substantial gains. Trading in the industrial groups was featured by renewed buying of the

motor issues, which carried Chrysler and Hudson up more than a point.

QUIET IN MONTREAL

MONTREAL, Dec. 8.—There was very little activity in the early trading of today's stock market, but the tone was steady. The least inactive issues were P. C. Fish, up one to 60 1/2; National Breweries, the same, at 55 7/8; Laurentide, the same, at 85; Asbestos preferred, up one-quarter, to 115; Brazill, unchanged, at 72 1/2. In extremely light trading Spanish River rose one-half to 102, as did also Canada Cement, to 100 1/2. Consolidated Smelters and Shavington were the only other stocks to appear in board lot transactions, and they were the same at 100 and 109 respectively.

CABLE TRANSFERS

MONTREAL, Dec. 8.—Cable transfers 485.

Current Events

NEW YORK, Dec. 8.—Oil and Gas Journal estimates domestic crude 2,088,224 barrels daily, decline 8,870 from preceding week.

So. N. Y. advances kerosene one half cent. N. Y. Motor declared extra dividend 2 per cent and regular quarterly 2 per cent. Twenty Industrials 14 1/2, off 1/2; 20 rails, 10 1/2, up 1/2, new high.

Brokers' Opinions

NEW YORK, Dec. 8.—Hutton—"On the earnings situation Southern directors would be entirely justified in putting the stock on a \$1 annual basis. It seems to be putting its best foot forward and might increase to \$2."

Hornblower—"We naturally feel that rails will continue to maintain their position with oils a close second, and motors retaining their form of progressive action."

Block Maloney—"We look for a more two-sided market this week."

Clark Childs—"Everyone has been alive to improvement in the motor business, but there has been relative slowness to realize the gain in steel, rails, and copper."

Morning Stock Letter

NEW YORK, Dec. 8.—The market broadened in strength and activity during the afternoon with U. S. Steel and the motor stocks the leaders. Steel reached 17 in the late trading, while in the motor group CRY, G.M. and P.C. were strong. Strong made a new record high at 142. Trading in steel was tremendous, with 100,000 shares covering and partly to reports that there may be some change in ideas on the part of the management about capitalizing part of steel's large surplus. International Paper, Foundation Co., Ward Baking B. Corp. Gas and Public Co. were feature among specialties. Philadelphia Peta was strong among the oils, and it cuts likely to sell considerably higher. The market shows a broadening tendency and we believe higher prices will come. Sales 2,206,500.

ALBERTA PRINTING CONTRACT PROBED

Former Minister Was Partner in Company Mentioned in Inquiry

EDMONTON, Dec. 8.—The Royal Commission investigating the provincial government printing accounts for 1921, heard evidence yesterday respecting the relationship between the government of that day and the Camrose Press, Limited. Evidence was given that Hon. G. P. Smith, Minister of Education in the Stewart government, was a partner in the concern. Evidence was also taken regarding an agreement entered into between Mr. Smith and John T. Johnson another partner, by which Mr. Smith, on joining the provincial government, sold his interest in the concern to Johnson for \$1,700.

Mr. Johnson stated that Mr. Smith continued to draw two-thirds of the profits of the Camrose Press, after he took the provincial office, and that he drew these profits up to the time he left office in January 1922.

MET AT LORNEVILLE

The W. M. S. of the Lorneville United Church met at the home of the president, Mrs. Peter Jackson, last evening. Rev. Mr. Jackson gave a reading from the study book, "Prayer and Missions." Readings and missionary topics were given by Mrs. James McAllister and Mrs. S. Galbraith. Mrs. Alfred Spilane was the accompanist for the singing of hymns. A social hour was spent and Mrs. Jackson served dainty refreshments.

THE BLESSING OF GIN PILLS

Read this testimonial: "I wonder if you really know what a blessing your Gin Pills are to people of advanced years."

"I am 72 years of age, and suffered for a considerable time with kidney and bladder trouble. My rest was broken through having to get up in the night and four times. Later I suffered with pains in the bladder, and my soul, who had used your Gin Pills, had to get up at night less frequently. As my age I can scarcely expect to be permanently free from troubles of this kind, but if Gin Pills will give others the relief they have given me they will be a blessing indeed."

GIN PILLS FOR THE KIDNEYS

"Bright as a Dollar!"

"85 years of age, yet full of energy"—writes one of the hundreds of Wincarnis users who have told us of the wonderful benefits they have derived from Wincarnis. This sturdy old man attributes his present health to the regular daily use of Wincarnis for the last five years.

Before that time he found himself tiring quickly, having sleepless, restless nights, and frequent spells of mental depression—the results of a run-down condition.

Medical research has definitely proved that one of the causes of a run down condition of the body is a shortage of certain mineral elements, including iron, potassium, calcium, sodium and phosphorus, and until a sufficient supply of these minerals is restored to the body, good health is impossible. Wincarnis contains every one of these elements in addition to other health giving ingredients, and in a form in which they are most rapidly absorbed into the blood and carried to every part of the body to be converted into vital force.

Wincarnis has been recommended by over ten thousand physicians in cases of nervousness, anaemia, sleeplessness, and the general debility that accompanies a run down body. For fifty years this strength giving and nerve restorative has brought new life and happiness to weakened men and women.

Buy a bottle of Wincarnis today from your druggist. Try it and see the difference just a few days will bring.

HARMONY REIGNS AS BASEBALL MAGNATES GATHER FOR ANNUAL

SHORTENING OF GAME SCHEDULE IS MAIN TOPIC

New York Clubs Oppose the Change It Is Reported

NEW YORK, Dec. 8.—Baseball, shelved during an enthusiastic football season, has been brought into New York for a few stiches preparatory to the 1926 campaign.

Hotels last night were filled with baseball men for the first time in several weeks, they are attending the National today, the American on Wednesday, and the joint major session, which will be presided over by Commissioner Landis, on Thursday.

There is peace in baseball. A year ago, when the clans gathered, there were warm words and the spirit prevailed. It almost came to the point where either President Byron Bancroft Johnson of the American circuit or Commissioner Landis would have to step down for the good of the game, but hostilities were halted when a committee, with several white flags flying, journeyed to Chicago and conferred with Johnson.

The meetings this week are expected to be record-breaking in the absence of hard words. Johnson, Landis and all the rest should sit at the sessions in all their glory, each upon his throne, once again at peace with his brothers and with the world.

Most important among the topics facing the annual gatherings is that of a shortened season, to end with the last day of September. This promises to develop a large amount of discussion as the result of the late world series, played in frigid weather in Washington and in downpour in Pittsburgh.

There will be opposition in this score, for the New York clubs are believed definitely committed to the same method that has maintained for several years.

The "trade wars" may be blowing, but so far the seas appear to be as smooth as glass. Of course, as is the custom, the hired men of the wealthy baseball manipulators have arrived with the "bankrolls" prepared to pay any price to bolster the home town team.

Much talk always is heard, but very few deals of great potency are consummated. It is expected that in the past. Managers are expected to remain about as they are, except where minor circuit clubs draw from the major talent.

TOOLE RE-ELECTED NEW YORK, Dec. 8.—Sweeping victory for John Conway Toole, president of the International League, for the past five years, was recorded in the annual meeting of the circuit here yesterday, when he gained another five year term and an annual increase of \$2,000 in salary by a vote of 7-1. Sam Robertson, of Buffalo, declined to make the election unanimous.

Toole's re-election was the main business for the International, it having been rumored that the major leagues were out to oust him for his stand on the draft. There were two votes against him on the first ballot, but one re-elected later.

Transfer of the Providence franchise to Reading, was approved and the schedule meeting was fixed for Toronto in February, with Jack Dunn, of Baltimore, and Lawrence Solomon, of Toronto, on the drafting committee.

Pioneers Win From Fairville Quintette In the third game of the Girls' Basketball League played last night in the Central Baptist gymnasium, the Y. M. C. A. Pioneers won from the Fairville Spartans when these two teams made their first showing of the season. The score was 40 to 35. The game was very closely contested. The referees were I. Newton Ranjov and Herman Finley. The line-up was as follows:

Along The Sport Trail

By JOHN J. DUNLOP

"JIM" TAYLOR TALKS. OPEN-AIR RINKS, exposed to such weather as Dame Nature might send along, are so common these days they are taken as a matter of course. Like all other blessings, they met with determined opposition when first mentioned and yet today they bring untold joy to countless thousands throughout Canada and the United States.

How many people in Saint John know that the idea of open-air rinks originated here? This is true on the word of James A. Taylor, of Montreal, who knows the skating game from soups to nuts and back again. He is the man who put skating on the map in Montreal, who helped to form the Canadian Skating Association; who started the trek of Saint John skaters to other parts in their efforts to win fame; and who first took Hughie McCormick to Montreal to skate. It can be seen, therefore, that what he does not know could be written on a calling card. What he does know would fill many tomes.

He uncovered some past history of the other day while he and while doing it, he told the story of how he introduced open-air rinks in Montreal.

"It is so far back I hate to mention it," he began, "but even then I came to Saint John on business trips. The enterprising citizens down here had the skating game well on its feet then and at that time had an open air rink, the first I believe in America, operating at Haymarket Square, or thereabouts. I was trying hard at the time to get the Montreal Amateur Athletic Association to start one on their grounds but I was meeting with much opposition, chiefly because of the fact that the theorists said the ice would spoil the grass entirely."

"Mr. A. O. Skinner, still hale and prosperous here, was one of the leading athletic lights of those days and one day he took me down to this rink and we looked it over.

"I told him of the objections in Montreal and asked him if he would write me a letter, setting forth how beneficial this community-owned rink was and what a great boon to sport followers it was proving, adding that no harm at all was done to the grass underneath."

"Mr. Skinner replied that he certainly would write the letter. The only thing is, Taylor, he said to me, there is no grass underneath this for the ice to harm."

"Well, write me the letter, anyway. You can truthfully say that the grass was not harmed." This was agreed and the letter written. I carried it back in triumph and overcame all objections. That is how Montreal started its open-air rink system. They have dozens of them up there now. Ours proved a financial success from the start and in some years we have made as high as \$5,000 on it. But the municipality went into the business also and our profits have sunk considerably."

The talk drifted on to other incidents of those great days and Mr. Taylor related how Hughie McCormick made his first trip to Montreal.

"While stopping here on one trip, a man by the name of Sheraton, who had failed in the furniture business, was running a rink on Charlotte street. He conceived the idea of getting some prominent Montreal skaters here to compete against McCormick, then just blossoming out as a star, in an effort to meet competition here from the Victoria rink. The Victoria, I see, still is going strong. Well, this chap Sheraton came to me and asked for my support. I told him I'd do anything in my power as I felt it would be a good thing for the game. On my return to Montreal, I arranged with Frank Dowd—who of the old timers around here can forget Dowd!—and a skater by the name of Finley to come down here. One of the self-invited guests was a reporter by the name of Low. They were treated wonderfully well by Mr. Sheraton and came back to Montreal singing the praises of this boy McCormick. I went to the manager of one of the Montreal rinks along with Dowd and a series of races were arranged. McCormick was brought to Montreal but was helplessly outclassed by Dowd owing to his inability to negotiate the turns. This chap Dowd took them as I seldom see them do nowadays. McCormick's visit started a procession of skaters from this town that has never ceased and I doubt if it ever will. This is the home of speed-skating in Canada and judging from the ambitious program laid down to hold a world's meet here in January, you citizens do not seem to be content with resting on past laurels, but are out to set new records for the future leaders to outdo. Keep at it, is my advice."

Kays—Total Avg. Includes players like Komiskey, Borio, Cohen, Smith, Jacobson.

WON ON FOUL. NEW YORK, Dec. 7.—Sergeant Baker, of Mitchell Field, won from Jack Zivic of Pittsburgh on a foul in the 12th round of a 12 round match here tonight. Baker held a slight lead until Zivic's left struck low. Baker weighed 146-1/2 and Zivic 145.

Monday Is Date For Watermen's Banquet

MONDAY evening next in the Victoria Hotel has been finally fixed as the date and place of the annual banquet to be tendered the Water Department baseball team, champions of the Maritime Province, it was said this morning by Manager Stodgrass. The committee, he said, had been running into a few little snags in trying to have this banquet to the players. First, they held off hoping to have "Pie" Traynor present when what was found he could not come, arrangements were proceeded with to have the banquet break when news came of the selection of "Billy" Maynes as Rhodes Scholar and in their desire to honor a local athlete, they held things up until hearing from him. With Maynes home now, Monday night next has been definitely fixed. In addition to the team and guests, there has been a good sale of the tickets about town. It is hoped that as many as possible of the athletic organizations in the city will take advantage of this opportunity of honoring the athletes who have brought considerable fame to the city this year.

is ready for any sort of a game that may develop. "Red" Stuart and Jerry Grange will resume action for the Bruins tonight after their enforced layoff of two games. BURNS TO NEWARK?

GLOVERSVILLE, N. Y., Dec. 7.—BURNS was here today by Geo. F. Burns that he had signed to play with the Newark Club in the International League during the 1926 season. He did admit, however, that he is to leave tomorrow for Newark where he will talk over the matter with the management of the team. He intimated that he might sign a contract.

WON ON FOUL.

NEW YORK, Dec. 7.—Sergeant Baker, of Mitchell Field, won from Jack Zivic of Pittsburgh on a foul in the 12th round of a 12 round match here tonight. Baker held a slight lead until Zivic's left struck low. Baker weighed 146-1/2 and Zivic 145.

New Billiard King

Famous Belgian cueist who won the world championship at 162 bakfibre billiards by defeating Young Jake Schaefer, 1920 to 1928 at Chicago the other night. He was recalled, finished second in the titular tournament last winter, losing only one game, that being to Schaefer. The match the other night was one of the most thrilling in the game's history.

ENORMOUS SUMS PAID TO GRANGE

Cleans up \$400,000 During Twenty-four Hour Stay in New York

NEW YORK, Dec. 7.—Red Grange trod a golden path in his spectacular week-end visit to New York. The former hero of college gridirons, now starring as a professional with the Chicago Bears, left this city this afternoon for Washington to fulfill a playing engagement there tomorrow, after realizing close to \$400,000 here within the short space of 24 hours on his fame and name.

SIGNS MOVIE CONTRACT.

The climax of Grange's financial operations, now as sensational as any of his performances on the football field, was the signing of a motion picture contract today under which he was immediately handed a check for \$300,000, representing a flat guarantee for his first appearance on the screen.

In addition to this, Grange was paid \$86,000 for participating in the 19 to 7 victory by his Bears over the New York Giants yesterday at the Polo Grounds before a record crowd of 76,000 and received \$40,000 more from Metropolitan business concerns for obtaining his endorsement of sweaters, shoes, tobacco and souvenirs.

Grange gained about 150 yards during his short afternoon's work against the Giants so that his share of the gate receipts represented \$240 for each yard he advanced. Of the amount he

Eligibility Rules Cut In to U. N. B. Prospect This Year

FREDERICTON, N. B., Dec. 8.—The hockey team of the University of New Brunswick, which won the Maritime intercollegiate title last winter, is rather shot to pieces from the effect of the eligibility rules. The team will have the personnel of 1925 in college but Keenan the right wing and "Jimmie" Sterling, the centre will not be eligible for intercollegiate games. Keenan, left wing and captain last season, Paul Fraser, Currie and Doddridge, defence and Carlen, goal, are expected to be on hand unless the eligibility rules come into effect again. Chalmers, a sub forward, has been ill and may not be out.

Some of the material which worked out last winter and some new material in the freshman class is expected to turn out to fill in the gaps. Steen, Hickson and Lynch of Fredericton are possibilities and there are others.

For some seasons past, Fredericton men attending U. N. B. have played also with Fredericton in the New Brunswick section of the M. A. H. A. It is believed that this year the intercollegiate players will not figure with Fredericton except possibly in home matches as the time required for foreign games is considered too great an absence from lectures. If foreign games can be played during Christmas vacation the difficulty will be removed.

The situation with regard to M.A.H.A. hockey has not yet cleared. Fredericton is in the Northern New Brunswick section but Marysville is shut out of the organization although uniforms have been ordered and the club gathered. A York county league composed of University of N. B., Fredericton and Marysville has been proposed, such as operated in former seasons and furnished some excitement. Marysville is expected to have the personnel of former seasons.

Of the three Fredericton players suspended last winter, Pier and Bidlake are away and Colwell is still under suspension. Other players available are Alan Sterling, Jim Sterling, Keenan and Clark. Some new material will have to be secured.

JOHNNY HILL BEATS MORO

MANILA, Dec. 7.—Johnny Hill, Filipino lightweight established claim yesterday to the lightweight, featherweight and bantamweight championship of the Orient by defeating Kid Moro, in a 12 round boxing bout.

Bennie Leonard in an elimination bout last summer, without fighting Leonard, who retired. Kansas was defeated by Leonard three times. Kansas piled up an imposing lead in the first, third, fourth and fifth rounds. The strong "Buffalo hercules" fought back in determined fashion and refused to relinquish his lead.

BANNER BILL OPENS WEEK AT IMPERIAL

Norma Talmadge Leads in Powerful and Gripping English Play, "The Lady"

"The Lady," Norma Talmadge's latest photoplay, on again today at the Imperial, reveals her in a new guise—that of a pert, pretty and vivacious countess of a musical show of the Gibson Girl period. Norma wears the typical subretrite costume, short fluffy skirts, tight, bare back hats. Like so many countesses of old, she struts stately across the stage, does a buck and wing, jauntily sings a song as she tosses flowers to the Johnnies in the first row and 'kiss her exit "cartwheel" fashion into the wings.

"It's a new Norma the world sees in 'The Lady,' a Norma who plumbs the heights and the depths of human happiness and despair. From being the toast of the theatrical world, Norma plunges from the heights of gay Monte Carlo society into the toughest dives in Europe, becomes a half-demented, bedraggled flower "girl" in the streets of London after she has lost both husband and baby and finally ends as the head of a cafe just back of the world war front, where the soldiers of all nations call her "The little mother of all the world."

"The Lady" is a First National attraction. It was directed by Frank Borzage from Frances Hatton's story. The special cast appearing in support of Norma Talmadge includes Wallace MacDonald, Norma's leading man; Emily Fitzroy, George Hackathorne, Walter Long, Marc McDermott and others.

MUSICAL REVUE AT QUEEN SQ. THEATRE

Ray Marr Company Open Entertaining Engagement There in Musical Comedy

People who missed the Ray Marr show at the Queen Square Theatre last night, missed one of the best musical shows at popular prices. A feature is a chorus of girls from dancing schools in Boston, who won general praise.

Miss Sally Metcalf, in her twisting and rubber bending, combined with head spinning, amazed the audience, and they applauded her for several minutes. The dancing of Miss Ileen Breen, a neat little lassie, was another feature.

The comedian, Ray Marr, proved a

notable success and had the house rocking with laughter.

Deborah Thornton was a class second, her make up, singing and dancing keeping the audience in laughter. Her Swiss song was a comic gem. Russell Howard did well as a light comedian.

His dancing and singing, especially with Miss Kitty Tobin, was much enjoyed. Next came Danny Cavanagh, sweet voiced Irish tenor. Encores rewarded his efforts. Miss Sylvia Basil played her part exceedingly well, and her number with Mr. Flynn, entitled "Morning" was excellently rendered.

There are other clever people and clever happenings making up an entertaining performance.

PALACE SCREENING THE GREAT DIVIDE

Notable Movie People Have Leads in Story From Famous Play

Seldom has there been such a combination of cast, production and story as in "The Great Divide," the Metro-Goldwyn picture which opened at the Palace Theatre last night. The story, which is from the famous stage play, is strong and full of numerous twists and thrills.

The cast, headed by Conway Tearle and Alice Terry, contains also the names of Wallace Berry, Huntly Gordon, Zasu Pitts, Allan Forrest, George Cooper and William Orlamond.

Alice Terry as the girl, Ruth Jordan, gives a striking performance. Tearle, as the man of the Painted Desert, is a cross between a polished gentleman and a caveman.

Wallace Berry's "Dutch" will not soon be forgotten, and George Cooper

ZANE GREY STORY SCREENED AT GAIETY

Flapper of the East and Cowboy of West in Interesting Film

"Code of the West," Paramount's film version of Zane Grey's stirring novel of the same name, which opened last night at the Gaiety Theatre, shows what happens when a flapper from the wide open places of the East met a cowboy from the great open spaces of the West.

The resultant romance leads to some very interesting situations, develops some fast and furious action, flavored with considerable comedy, and builds to a melodramatic climax.

The theme brings out the striking contrast in the viewpoints of the East and the West. The plot concerns George May Stockwell, a New York flapper, who goes to Arizona for her health and bumps all the cowboys at the Thurman ranch. In particular, she brings to bear all her feminine charms on Cal Thurman.

Owen Moore, as the young cowboy who turns caveman, gives a very creditable performance; and Constance

ROGERS HORNSBY WINS 1925 PRIZE

Voted Most Valuable National League Player and Receives \$1,000 Award

NEW YORK, Dec. 8.—Announcement of the selection of Rogers Hornsby, manager and second baseman of the St. Louis club, as the most valuable player in the National League during 1925 and winner of the circuit's cash prize award of \$1,000, was made today by James M. Gould, president of the Baseball Writers' Association of America.

Hornsby is the choice of a committee of eight baseball writers, one from each city of the senior league, Gould acting as chairman. The Cardinal star, who succeeds Dazzy Vance, Brooklyn pitching ace and 1924 champion, was voted three first places, three seconds and two thirds by the members of the committee.

Points were awarded under a scale making first place count ten and tenth place count one. On this basis, Hornsby led a field of twenty-one players for whom ballots were cast, the St. Louis pilot receiving 73 points out of a possible 80. Hasan Cuyler, Pittsburgh outfielder, was second with 61 points and George Kelly, of the New York Giants, third with 52 points.

Vance, last year's winner, was ranked fifth, being voted out for fourth place by a single point. Glenn Wright, firing shortstop, who received one point for first place, finished fourth with 48 points.

HORSE RACE TALE ON UNIQUE SCREEN

"The Sporting Chance" Offers Exciting Situations—Lou Tellegen in Lead

Many race pictures have been flashed on screens, but one of the most exciting and thrilling is in "The Sporting Chance," now at the Unique Theatre.

Before reaching the climax the story tells of a young, handsome, but impetuous horse owner of the South, who goes North to enter his race horse in a rich stake race. He meets a girl, who is coveted by a rich sportsman, and to outfit him many novel and entertaining scenes are enacted.

One scene, where the horse is hidden from the haps of the law, is something new and ingenious, and another showing how the horse is smuggled into the race course is one of the best situations in the drama.

Lou Tellegen, as the rich sportsman, plays his part with a success that makes it convincing, while Dorothy Phillips, always a screen favorite, plays the heroine in a sympathetic manner. Also in the cast are George Fawcett, Theo. Von Elst and Sheldon Lewis.

GET 2 YEARS IN PENITENTIARY

Three Youths Sentenced for Break and Theft at Camp

Dealt With by Magistrate Adams After Robbery at Torry-Burn Camp

Victor C. Gilbert, 20; James Doyle, 17, and Harold McKinnon, 17, were today sentenced each to two years in Dorchester Penitentiary by Magistrate Adams at court in East Saint John.

They were charged with breaking into John W. Barbour's camp at Torry-burn and stealing four rifles, a blanket, a pair of breeches, a pair of binoculars, cartridges, etc. the whole being valued by Mr. Barbour at about \$80. They elected to take trial by Magistrate Adams and pleaded guilty.

His Honor said that the maximum penalty provided by the criminal code for the offense, was ten years, in the case of Gilbert, who had a previous record, having served two years in Dorchester for running away from the Industrial Home, and seven years in the case of the other two, where this was their first offense.

The magistrate, however, remarked that the limit which he could impose in his court was two years in the penitentiary and in view of the fact that it was a very bold robbery, the camp being situated near both the highway and another camp, occupied at the time, he would impose the full penalty in his power.

SUM OF \$5,000 IN TRESPASS ACTION

Luther B. Smith Asks That From Bonny River Lumber Co. and Others

In the Circuit Court this morning before Mr. Justice Byrne, the case of Luther B. Smith vs. the Bonny River Lumber Co., Patrick Grant and William Clark was commenced and is being continued this afternoon. The action in which the plaintiff is suing for \$5,000 damages for alleged trespass, contending that in the years 1918, 1920 and 1921 the defendants cut lumber on lands under license to the plaintiff.

The defendants contend that Mr. Smith had not possession of the property and further that he had entered on the land, which is situated in Charlotte county, by virtue of an agreement with the plaintiff. The latter was on the stand when court took recess at noon.

Hon. Dr. J. B. M. Baxter, K. C., and A. N. Carter appeared for Smith, Dr. E. Taylor, K. C. and A. B. Gilchrist for the lumber company, and P. E. McLaughlin of St. Stephen for Grant and Clark.

CHAPEL GROVE CLUB HAS STURDY GROWTH

Climbs to 193 Membership in Three Years—E.G.S. Hansen Re-elected President

E. G. Hansen was re-elected president of the Chapel Grove Country Club at the third annual meeting of this young and progressive organization last evening. In his report, President Hansen referred to the growth of the club to 193 members and that within a few more years of such growth, this popular summer resort on the Kingston peninsula would be a veritable mecca for those seeking clean and beneficial outdoor pleasure.

Other officers were elected as follows: First vice-president, Eric B. Beldar; second vice-president, Harold J. McCarthy; secretary, Maurice Maxwell; treasurer, John Gray; chairman of finance committee, J. Harold Corcoran.

The treasurer's report was gratifying, showing a surplus after a year of heavy expenditure. The membership report showed a gain of 20 over the previous year. Committees were appointed for next year when it is anticipated that a second tennis court will be constructed along with new quoits court. A bathing and boathouse also are on the program for next year.

TODAY SPECIAL IN CATHOLIC CHURCH

Feast of Immaculate Conception Observed—Bishop LeBlanc Celebrates Pontifical Mass

Today is a special one in the Catholic church, the Feast of the Immaculate Conception of the Blessed Virgin Mary. It is also the patronal festival of the cathedral here and the last mass, at 10:30 o'clock, was pontifical, celebrated by His Lordship Bishop LeBlanc. Rev. E. Reynolds was deacon, Rev. C. Boyd, sub-deacon and Rev. W. M. Duke, high priest. Fathers Gillett, Nichol and Ployd were in the sanctuary. The papal benediction was given by His Lordship.

CHILDREN'S SERVICE

This afternoon the children assembled at 2 o'clock for a special service with Benediction. The children at this service presented their mite boxes for the new altar rail in connection with the proposed improvements. Some 18 boys took their places for the first time as altar boys today, bringing the number of these young servers up to about 80.

This evening there will be Rosary and Benediction at 7:30 o'clock.

AT ST. PETER'S

At St. Peter's church the high mass was celebrated by Rev. J. Cloran, C. S. R., with Rev. Father Quinn, C. S. R., deacon, and Rev. Father McDonald, C. S. R., sub-deacon. This evening's service will include a procession. His Lordship Bishop LeBlanc will be present. Services also were held in the other Catholic churches.

As Hiram Sees It

LONDON, Ontario.—Well, sir, when I went to pay my bill at the Prince Edward Hotel over to Windsor I found out the cashier was a gal that belonged over to Prince Edward Island an' he lived in Saint John two or three years. Kin you beat it? Our folk is everywhere. She was a reel nice lookin' gal, too. If I had known she was from down east I'd hev sat her to go out to prayer meetin' or somewhere in the evenin'. Old Hiram was too slow that time if this here mild weather keeps up I'm liable to go off an' fergit that heavy coat I hamer made me dig along with me. Beats all how the winter holds off up here. I went an' bought a pair o' gloves—after losin' one o' my old ones—an' I haint got no excuse fer wearin' 'em. They put my picter in the paper here today—but if Hamner seen it she'd use it to scare the rats away from the sular—By Hen!

COMMISSION IS GIVEN APPROVAL

Continuing Church Presbytery Sanctions Plan for Property Adjustments

Would Have Board Named in Local Legislation—Budget and Other Business

Approval of appointment of a commission by the New Brunswick Legislature to adjudicate on property between the continuing Presbyterians and the Unionists was reached at a meeting of the Saint John Presbytery in Knox church here this morning and a committee consisting of Ernest A. McKay, Frederick Col. Murray MacLaren, Rev. W. M. Townsend, moderator, and Rev. F. G. McIntosh was appointed to act in the matter. The committee, which was given power to add to its number, was also requested to seek the support of the Miramichi Presbytery.

BUDGET MATTERS

Other matters discussed this morning included budget appropriations and assessments. Respecting the budget the moderator, Rev. W. M. Townsend, Fairville, reported the Saint John Presbytery had been asked to raise \$200 for 1925. In fixing the amounts, he said, allowances had been made and he expressed the hope that all congregations do their best to secure the amount asked.

This afternoon it was reported that the resignation of Rev. R. Moorhead Legate from Knox church and the appointment of a Presbytery clerk would be the main matters of business.

Those present at the morning session were: Moderator, Rev. W. M. Townsend; clerk, Rev. E. J. Kerr; Rev. F. G. McIntosh, Rev. Dr. J. A. Morrison, William M. Clark, D. J. Soyka, and L. W. Hutchinson and C. B. Spear.

JOHN MEACHERN IS DISTRICT CHIEF

Officers of I. O. G. T. Installed Last Evening—Encouraging Reports at Annual Meet

There was a large attendance of delegates at the annual meeting of the Saint John County District Lodge, I. O. G. T., last evening in Dominion Lodge hall, Murray street. The reports received were very encouraging. T. D. Owens, the retiring district chief, thanked the members of the order for the support and co-operation given him while in office. The officers were installed by B. L. Kirkpatrick, deputy grand chief templar, who was assisted by T. B. Brown and Mrs. W. W. Brown. At the close of the business session refreshments were served by the ladies of Dominion Lodge.

THESE ARE OFFICERS.

The officers elected and installed as follows: John McEachern, district chief templar; E. N. Stockford, district councillor; Miss Amy J. J. Kerr, district vice-templar; Miss Elva Chapman, district superintendent juvenile work; Alex. Corrigan, district electoral superintendent; Donald Stockford, district secretary; G. P. Kelly, district treasurer; H. W. McEachern, district marshal; J. A. McEachern, district chaplain; W. J. Patterson, Fairfield, district deputy marshal; W. Crawford, district messenger; J. J. Fitzgerald, district guard; Mrs. W. J. Patterson, Fairfield, district sentinel; Miss Mary March, Fairfield, district assistant secretary; Miss Helen Wheaton, district organist.

PARENTS GATHER AT BOY SCOUT MEETING

Victoria Street Troop Gives Fine Demonstration and Lads Engage in Debate

Victoria Street Baptist Boy Scout Troop meeting last evening was attended by a large gathering of parents, Wolf Cubs, Scouts and others interested. The meeting was in charge of Scoutmaster E. D. Howard and Assistant Scoutmaster L. G. Pincombe. A demonstration meeting and the program was made up of the following interesting numbers. Investiture of six boys as Tenderfoot Scouts, demonstration by the troop first aid team, in treatment of a fractured leg, a display of knot tying by Second Jack Manning, who ably explained the uses of various knots; debate by four scouts on "Resolved that the horse drawn fire apparatus is of more benefit to the City of Saint John than the motor driven apparatus."

ARE CONGRATULATED

Rev. G. B. MacDonald and L. L. Johnston, District Secretary, were the debaters on the fine showing they made on their first attempt.

Rev. Mr. MacDonald congratulated the debaters on the fine showing they made on their first attempt.

This troop is planning a second debate to take place in January, on "Resolved that the staff is of more use to a Scout than the larlat." Scouts by name Mabey and Elmer Johnson presented the affirmative side last evening and Murray McAnley with Gerald Pincombe the negative side.

A demonstration of the game of "Kelly Says" caused much amusement while the display of troop movements by hand signals proved very effective. A hearty vote of thanks to Scoutmaster E. D. Howard and his Scouts was tendered by Rev. Mr. MacDonald, who spoke in highest terms of what Scouting is accomplishing among the boys.

The meeting closed with the singing of the national anthem. A collection taken up added a substantial sum to the troop funds. After the meeting 13 boys (leaders) remained to take part in a court of honor meeting where all business of the troop is conducted.
