U. S. PREMIER FOR COAL STRUGGLE

OUTCOME OF CONFERENCE IS AWAITED

Machinery for Emergency Distribution of Fuel Reported Ready. SITUATION ACUTE Final Reports Indicate That Anthracite Substitutes are Available.

(Canadian Press.) Washington, Aug. 25.—With machinery for the emergency distribution of fuel supplies in final shape, the government today awaited the outcome of efforts by Governor Pinchot of Pennsylvania to find a compromise which would lead to a settlement of the anthracite coal crisis. The designation of Mr. Pinchot as a mediator, which followed his conference here yesterday with President Coolidge and Chairman Hammond, of the coal commission has perceptibly strengthened the feeling of optimism which has marked official opinion since the situation became acute. Plan Is Described. The status of Mr. Pinchot in the general plan for preventing a cessation of hard coal production was described at the White House as "co-operative". Holding an especially strong position by virtue of his office, the governor will have behind him every influence of the federal authority in his endeavor to bring the miner and operator groups once more to the conference table. It was emphasized, however, that the administration itself intended to adhere to its policy of not further intervening in the controversy. Final reports on the national fuel situation were said to confirm the prediction of the coal commission that anthracite substitutes would be available in quantities adequate for over normal requirements.

LAURENTIC GOLD TAKEN FROM SEA

Recover All But Few Bars Following Sinking of Ship by Submarine. London, Aug. 25.—All except a few bars of the thirty million dollars worth of gold bullion which dropped to the ocean when a German submarine sank the Laurentic of Donegal, Ireland, had been recovered by divers, who, since 1918, have been carrying on their labors, ninety feet below the surface of the sea. The thirty bars remaining in the water, it is expected, will be brought up within two weeks. In addition to the gold, which was consigned to U. S. bankers, the Laurentic was laden with almost five million dollars in silver, mostly in two shilling pieces, all of which has been salvaged by the divers. The men have been using a diving apparatus with a dial attached that shows whether the spear point is touching gold or a base metal such as iron. The clock-like dial is kept aboard the salvaging ship and is connected with a spear which is in the hands of the diver working ninety feet below the surface. The hand moves to the zero mark when the spear is prodded against a piece of metal, but when it touches gold the dial swings to the right. It veered further when it came in contact with a eighteen carat bar when it touched one of nine carats.

Secret Peace Offer Made By De Valera

BRITAIN IS ONLY NATION PAYING DEBT

Birkenhead Says France is Committed to Carry Out Plan. OPPOSES WILSON Former U. S. President's Judgment Wrong, He Tells Audience. Williamstown, Mass., Aug. 25.—Asserting that Great Britain today is in the position of being the only power that is paying for the war, Lord Birkenhead, former Lord Chancellor of Great Britain, last night said that Britain has an "horrible habit of paying her debts but that other nations pay her the tribute of thinking that Britain is always ready to forgive her debts. Lord Birkenhead landed in New York yesterday morning and hastened here to address the closing session of the political situation in those districts "After the War."

BOSTON SHAMROCK STRONG CONTENDER

Shows Up Well in Recent Trial Trip Off Cape Ann. Gloucester, Mass., Aug. 25.—The Boston Shamrock will be a strong competitor in the Gloucester biennial race for the Lipton Cup here next Monday, her owners reported after the vessel's trial trip off Cape Ann yesterday. With a light breeze and smooth sea—conditions under which experts had said she would not do well—she made good speed. On the windward leg she showed exceptional qualities. During her practice spin, the Shamrock had an impromptu brush with the Elizabeth Howard, one of three schooners which will start against her on Monday. The Shamrock soon showed her superiority. Sir Thomas Lipton is expected to watch the race from the shore.

Man and \$8,000 Vanish; Bloody Car Sole Clew

Charles Feldner, on Way to Start Farm in South, Shows Bankroll. New York, Aug. 25.—The disappearance of Charles Feldner, of 181 East Third street, a week ago while on his way to Florida with \$8,000 in cash, followed by the finding of his car yesterday in a New Brunswick, N. J., garage, with four long knives matted with blood and hair concealed under the back seat, has furnished the police here and in New Jersey with one of the strangest mysteries encountered in some time. Feldner apparently had no relatives or close friends to note his failure to return to his boarding house, where he was believed to be a retired business man. His disappearance was reported by William E. Hopkins, of 168 Eighth avenue, who had been employed to drive him to Florida, where Feldner intended to start a rabbit farm. Just before departing on the trip, Feldner bought a 1914 model touring car from the Brown Auto Exchange at Third avenue and Eleventh street. When the two men arrived at New Brunswick, it was found the car needed new tires. The auto accessory shop of Wildgoose & Lewis had only two tires on hand that would fit the machine, and offered to send to Newark to get two others. While this was being done Feldner went to have lunch, intending to look about town afterward. Hopkins accompanied him to the luncheon, where Feldner became chatty with several men, telling them of his proposed southern enterprise. The auditors grew extremely interested, Hopkins declared, when Feldner produced his roll of bills. When the tires arrived at the garage Hopkins went to put them on. Although he waited in the garage until 10 o'clock that night, Hopkins told the police, his employer failed to return. The chauffeur then came back to New York to wait further instructions, but no word came from Feldner he notified Middlesex County authorities of circumstances.

Quarrels of Arabia Fought In Cardiff

Stokers Make Lively Dock Front Scams Over Old Grudge. Cardiff, Wales, Aug. 25.—London dockers shelter this summer colored visitors from all over the world, but Cardiff often finds her streets filled with the rough-necked sailors from the Seven Seas. This was the case recently when 800 Arabian stokers made the dockfront the scene of an attempt to settle tribal differences by fighting their way through the streets. The Arabian stokers, who are finding their origin on the shores of the Red Sea, white dockers and sailors took their hands out of their pockets, spat on them, and leaped into the thick of it without asking whether it was a private battle or a free-for-all. Four policemen came at a run and dutifully attacked the 800. Their trousers made no impression on the mass, but they went on with their task. Knives began to flash, and brown-skinned Orientals went dashing through the dockyards seeking reinforcements of their clansmen. The Chamarris were setting an old grudge with the Adenese. At the not of a whistle, the police closed on their heels picking up stragglers. The sad and battered company that rode away in the police van was composed of many tribes, but there was no fight left in them. Many ships come into Cardiff with Arabs serving in their crews as stokers and deckhands.

Dr. J. G. Scott, 81, Killed By Auto

Seaford, Ont., Aug. 25.—Dr. J. G. Scott, 81, one of the most prominent physicians of Huron County died last night at Brussels, following a motor accident near that town. Dr. Scott, who was motoring with his sister, from Toledo, Ohio, lost his hat and when he stepped out to get it was hit by another car. He died in two hours.

EX-PREMIER DIE BEFORE NOVEMBER

British War Premier's Visit Will be Non-Political, is Report. NO MONEY SPEECHES Plans to Return to England Before Fall Parliament is Opened. (Canadian Press.) New York, Aug. 25.—David Lloyd George, former Premier of Great Britain, will visit Canada and the U. S. between September and November, said Sir Alfred Cope, under secretary for Ireland during the Lloyd George regime, who arrived on the Mauretania yesterday to make arrangements for his former chief. The date will be before November 15, he added, as the former Premier wishes to be back in England on that date, when Parliament convenes. Lloyd George's visit will not be political, Sir Alfred said. "Nor will he give any lectures or make any speeches for money. He is probably will speak only once or twice during his visit, which will include Canada as well as the U. S., Sir Alfred added. He was in Canada 25 years ago, but has never been in the U. S.

THEY WORK FAR FROM EARTH

"Aerial Couple" Earn Living by Soaring Near Clouds and Watching for Forest Fires Below. Spokane, Aug. 25.—Speaking of folks out here are convinced that the Manners have about the most thrilling in the world. "The Manners" are Mr. and Mrs. Nick Manner of this city, a young couple, recently married. Both are expert aviators, and they employ their time during the day by cruising about up near the clouds, watching for forest fires below. Spotting forest fires in eastern Washington is an important assignment. The Timbermen's Protective Association decided best results could be obtained by having an airplane on the watch. That was where the Manners came in. So, following their aerial honeymoon, they started to work. Whenever they "spot" a fire, they radio its location to headquarters.

GOVERNMENT TURNS DOWN PROPOSALS

Report Says De Valera Asked Republican Funds to Call Off Fighting. ALL TERMS REFUSED Scheme Said to be Fostered by Free State Senator Andrew Jameson. (Canadian Press.) London, Aug. 25.—That Eamonn de Valera a fortnight before his arrest made a secret peace offer to the Irish Free State Government, is asserted by the Dublin correspondent of the Daily Express, who attributes the information to a member of the Free State Government. The substance of the offer, the correspondent says, was that if the government would put in De Valera's possession all the Republican funds in the U. S., amounting to \$500,000, he would undertake to use them solely for "constitutional agitation" in Ireland and terminate immediately military activities throughout the country. According to the correspondent, the government turned down the offer, declaring they would make no terms with De Valera whatsoever. The approach to the government is said to have been made through the Free State Senator Andrew Jameson, who after receiving most persuasive messages from De Valera undertook what the correspondent describes as a dangerous pilgrimage to the Republican leader's retreat, previously obtaining from the government safe conduct and a pledge that no attempt would be made to locate the hiding place.

London Papers See Government Victory In Elections In Ireland

London, Aug. 25.—The morning newspapers carry long special dispatches from Dublin reviewing the election prospects. The correspondents record a general belief that the success of the government party is assured, but admit the existence of sufficient unknown quantities to leave some doubt on this point, especially in view of the large number of new electors. Opinion seems to be virtually unanimous that the government party reaps the new Dail will contain a considerable majority in favor of the treaty and the Free State constitution. One estimate is that the anti-treatyites will not obtain more than 25 or 300 seats. The statement of Frank Aitken, De Valera's chief of staff, that whatever happens the Republicans will not surrender their arms, is said greatly to have damaged the Republican chances. Aitken has included capture and issues messages to his supporters, although it is said he is being constantly hunted from mountain to mountain by government agents. Mrs. Ekinis Childers, who though an invalid, is playing an active part in the election campaign, said in an interview that she was hopeful of a Republican victory at the polls, but was not optimistic. She admitted that the government had a firm grip on the Irish people.

SEARCH FOR WOMAN IN \$50,000 FRAUD

Allege That She Fleeced Others By a Bogus Agency Scheme. Chicago, Aug. 25.—A nation wide search for a woman who is believed to have fleeced members of her sex of more than \$50,000 in recent months through a spurious agency contract game perpetrated in nearly the entire eastern half of the United States was started today by a local silk house. The objective is described as "prosperous looking, sometimes appearing with bobbed hair of a reddish or yellow cast, very small feet, weight about 160 pounds, aged between forty and forty-five." The culprit's scheme is to sell exclusive agency rights for certain goods in each locality. In many cases, reports to the firm here indicate she has collected cash in full for her offering. She recruited cash sales to milliners, dressmakers, beauty shop proprietors and furriers in New York, Massachusetts, Connecticut, Ohio, Michigan, Illinois and Western states.

To Discuss Embargo On Pulpwood Here

North Stratford, N. H., Aug. 25.—Senator G. H. Moses, of New Hampshire, left here last night for Canada. Today he will meet a representative of the Canadian Government in Quebec to discuss the present embargo on rough pulpwood from the Dominion. Discussing the embargo, Senator Moses said: "Two can play at the embargo game. An embargo on American coal to Canada this winter would be just as much justified as the shutting off of rough pulpwood from the U. S."

New York, Aug. 25.—Salvatore Di Russo, five years old, fell off the roof of a five storey tenement building yesterday. On the way down he bounced off the third storey window ledge, where his mother was sewing. She collapsed and was taken to the hospital. Salvatore went home with a few cuts on his scalp.

Case Makes Record At Hospital Here

Auto Accident Victims 132 Hours Without Regaining Consciousness. To be conscious only for very short periods, during 132 hours, creates a record in the medical history of the General Public Hospital. Dennis Burke and Ernest Lewis, victims of an automobile accident near Roxbury on last Sunday evening, were reported this morning to be semi-conscious. Nourishment is given them as they lay unable to help themselves. The extent of Burke's injuries were a cut about two inches in length over the left eye, another on the bridge of the nose, and a bad cut behind his left ear. Lewis was also cut over the left eye, and on the frontal area. Although an X-ray examination has not yet been made, it is believed that Lewis is suffering from a fractured skull.

Government, it was declared yesterday at the White House would not be prepared to formally announce the resumption of diplomatic relations with Mexico until the middle or latter part of September, on account of the necessity of making certain exchanges.

SAYS PROVINCE WELL REPRESENTED AT THE BRITISH EMPIRE EXHIBITION

J. S. McKinnon Tells of Three St. John Firms to Send.

J. S. McKinnon of Toronto, director of exhibits for the British Empire exhibition, returned to the city today from Fredericton where he conferred with members of the Government. He said that he had received their assurance of hearty co-operation and was promised that grain and mineral exhibits from this province would be sent forward. Mr. McKinnon feels that the province of New Brunswick will be well represented at the big exhibition.

MAIN STREET WORK IS BEFORE COUNCIL

Question of Cost to the City and to the N. B. Power Company.

The City Council met this morning. Commissioner Frink reported having received a letter from the New Brunswick Power Co. in regard to new rails in Main street from Portland street to Douglas avenue, and asked what part of the cost of repairing the surface between the tracks the city would bear. The surface of the street was in bad shape and he recommended that the city pay \$8.85 a square yard on the cost of granite blocks and 30 cents a square yard for the repairs to a total of \$9.15. This would make the cost to the city \$2,284. The company was asked to refund payment for action by the City Council before accepting them.

CHINESE BOYCOTT OF JAPAN PLAYS HAVOC WITH EXPORTS

Tokio, Aug. 24.—Japan's export trade to China has suffered enormously during the last few months owing to the Chinese boycott of Japanese goods. Steamship companies also have been hard hit. Japanese merchants are up in arms, and resolution after resolution is being passed demanding that the government should take some firm action to bring about a change. The foreign office, however, has found it impossible to do more than send ships to protect Japanese subjects and property and bring the matter before the Chinese government with a request that local officials take steps to put an end to this unfriendly attitude.

SAYS GOVERNMENT SUPPORTS CUNO

Berlin, Aug. 24.—The present German Government stands by the offer made by the recent Cuno Government for the meeting of Germany's reparation obligations, Chancellor Stresemann told the German Industrial Commerce Club in addressing it today. "For the liberation of our sovereignty and for the consolidation of our situation," the Chancellor declared, "it would not be too great a sacrifice to offer part of the German economic system as a productive pledge for carrying out Germany's reparation obligations."

MCDONALD BROUGHT HERE FOR TRIAL

Counsel in Alleged Robbery Case Intimates Mistake in Identity.

Allan McDonald was before Magistrate Henderson this morning, charged with theft from Frank Colman on June 28. The amount involved is \$182. He pleaded not guilty. He was represented by W. M. Ryan, not Detective Blidcombe conducted the prosecution. The evidence of the complainant was taken this morning and it was under cross-examination at the time of going to press.

Detective Saunders returned this morning from Antigonish with the accused, accompanied by his father, who is a Sydney merchant. Mr. Ryan intimated that he would prove that it was a case of mistaken identity and that the accused was not in St. John on June 28.

Coleman, who said he belonged to Hampton, said that on June 28 he had not Hotel from 10 o'clock in the morning until three or four in the afternoon. He identified the accused as a man he had met.

The accused told him that he had neither money nor room and the witness had said that he would not see him stuck. They had then gone to the Hamilton Hotel and got a room. The accused had registered as "O'Toole, Montreal." They had then gone to a beer shop in Mill street kept by a man named Henry. They had had two drinks of beer and then walked out of the shop. They had got a meal at a Chinese restaurant and then had gone for more beer. While in the beer shop the second time they met a man named Dan Lynch who belonged to Carlton.

He said another man he did not know had been talking in French to the accused. The witness started to try on a pair of new boots. He accused the witness of being drunk. He had been unconscious for about half an hour. While in the beer shop he had next seen the accused in the Merrimac Hotel in Antigonish and had found out his right name. He had then come back to St. John and sworn out the warrant. He thought the man that robbed him had an artificial leg.

Man and \$8,000 Vanish; Bloody Car Only Clew

(Continued from page 1) probably met with foul play after showing his roll of bills.

The theory that Feidner might have changed his mind about making the trip by automobile and decided to abandon the car, taking train instead, is also considered. It is pointed out that the car was not going to be used for the purpose of buying new tires if he intended to do so. It is also pointed out that the license went with the car, nor was it known where Feidner got the plates he used.

CELEBRATION OF LABOR DAY AT ST. GEORGE

WOMAN'S WORK TO BE FAIR FEATURE

Accomplishments Along a Great Many Lines at the Exhibition.

Women's work is such a comprehensive expression, covering, as it does today, practically all branches of human endeavor, that it is a brave committee indeed that will undertake to gather together in one department the far flung interests that have developed under the hands of women since Mother Eve led the way in feminine ingenuity.

Early in the history of exhibitions the women were content with a display of butter and of the wool raised by the work of their hands and their looms, and while the exhibitions of today retain as their most important items these same features, gradually the range has been extended until now it includes a record of development in the making of homes and communities, as well as an exhibit of the artistic and educational development of women themselves.

It is really more than that, because based on a desire to obtain the best, not only for self but for the good of the family and for the community in general, the women of the world have brought to the exhibition a perfection of work of their hands and their mind—a perfection that is to be seen in the careful observer in all the many exhibits of woman's work, and is apparent in the life of the town and the city—there is evident a spiritual development of ideas and knowledge being freely for those who labor unceasingly for others.

The desire of the committee in charge of the Women's Department at the St. John Exhibition is to bring in as comprehensive a manner as possible, the work of the women of the world, for the people generally along such educational lines as make toward better homes and better living. To show the children are being cared for and educated as regards certain forms of manual training, and to show the exchange of ideas and knowledge between those who are remote from frequent articles of the newspaper and interest those who are remote from frequent articles of the newspaper and interest those who are remote from frequent articles of the newspaper.

With this in view the Women's Work Department has brought to the exhibition as many of the organizations doing some kind of educational work for women and children as could be obtained. The Women's Institutes have this year asked for an increased space and also connected with their exhibit the Acadian Weavers who were such an attraction of Madame Bennett of the Convention at St. John. The women's section of vocational education is planning all kinds of displays of the work of the women of the world, from hats to flowers, while the playground children have been invited to make levelled buildings up any other exhibitors for their gay booth.

Already the entries for the general exhibition are in a number of items of unusual interest.

Among these may be mentioned the work of the disabled soldiers, all of which the exhibition management is allowing the members of the Red Cross Hospital Committee to sell during the hours of the exhibition. SUSSEX WANTS TO BE CONSIDERED

Claims Right to Compete for Amateur Baseball Title.

The announcement that Chatham and St. Roses baseball teams were playing off a series of five games to decide the amateur championship of New Brunswick is creating interest not only in St. John and along the North Shore, but also in other centres. A letter was received today from a manager of the Sussex baseball team, champions of the Kings County League, in which he said he would issue a challenge to the winners of the series, as he considered his team had every right to compete for the championship.

SOFT COAL STRIKE SCOUTED BY LEWIS

Chief Says Contracts Oblige Men to Work Until Next April

Atlantic City, N. J., Aug. 24.—Speculation as to possibility of a bituminous strike in sympathy with the anthracite strike in Pennsylvania was given no countenance by J. L. Lewis, president of the United Mine Workers of America. Though unwilling to make a statement for publication on the subject, the miners' president, in discussion, pointed out that every principle of the union contract obligations and that contracts in the anthracite industry which required men to stay in employment until next April. Further, it was pointed out, the soft coal fields, which had a production suitable for anthracite substitute, were practically non-union and are in West Virginia.

The full membership of the union scale committee was assembling here today. This body was expected to pass upon the maintenance arrangements and likewise get a report from international officers upon their conduct of affairs.

S. D. Warriner, chairman of the operators' policy committee, and his assistants were still on hand, but had nothing to say concerning the maintenance situation. There was a prospect that the operators would leave the city and let the union issue any orders it desired as to maintenance work.

Notwithstanding the attitude of Mr. Lewis on the question of contracts, union officials continued today to seek in newspaper publicity for the sympathetic strike suggestion as a matter of gaining attention for the anthracite suspension.

WOMEN ARE FASTER DRESSERS THAN MEN Girls Need Only Four and a Half Minutes to Don Duds and Set Record for Sterner Sex

The popular notion regarding the excessive length of time required by the average girl in dressing herself has at length been branded as having no truth in it. That a girl takes more time to dress than does a man has been vigorously refuted by a business girl of Manhattan who brings forward facts and figures to prove her contention.

"Of all the silly beliefs I ever heard of," says this young woman, "the one about girls being slow dressers is the worst. Any bright business girl of average efficiency can turn off the alarms, wash, jump into her clothes and be on her way to the subway in less than half the time required by the speedy male dresser of the city."

"A woman can do her hair and apply her complexion quicker by far than a man can shave, she can go through a shower with as few lost motions, and as for the remainder of the operation the time occupied in donning clothes—in my case at least—stands like this:

Combination undervest (to put on and fasten) 1
Stockings (garters worn in tops) 1
Shoes (to slip) 1/2
Dress (all in one piece) 1/2
Hat and string of beads 1/2

Total 4 1/2

"Many men waste a great deal of time allotted to putting on a hat and

think it's exaggerated, but virtually any girl today can slip a bonnet on in just as short a time as it takes a man to get his straw hat adjusted to the half-breath angle at which he thinks it must be worn.

"From my room I have a broadside view of the windows in the next door apartment, and for the sake of getting at the actual figures I have timed the dressing of the male alarm clock grabbers who live there. Of all the slow, fussy time-wasting dressers any one ever heard of they take the prize. I've seen them fumble around a solid three minutes by the watch trying to get a rubber garter hooked up straight.

"And when they once get planted before a mirror—good night. They put on a collar and tie as though they were doing a piece of art work that was to live through the ages, and by actual count I saw one cake-eater return to the looking glass seven times before he was ready to have the world look at him.

"The trouble with men is that they have too many clothes. A woman's dress all in one piece is equivalent to the man's coat, vest, tie, trousers, collar, shirt and tie, not to mention the watch and chain that he fustily hooks up across the front of his vest. Of course a few of them discard the vest in the hot weather, but even so they still have so many pieces to the wardrobe that with the fastest work they couldn't hope to compete with a woman in a time contest of dressing."

England Preparing For Next Olympiad

London, Aug. 25.—Britain has set out to win the next Olympiad and, if the trick is not pulled off, it will not be the fault of the English public in general which is giving its money to send a crack team to the games in 1924. It has been generally admitted that England has lost much of her athletic supremacy during the last decade, and to regain this a leading London newspaper has started a campaign for \$200,000, the sum estimated as necessary to get together a team and send it to the Paris games next year.

The campaign has been on only three weeks, but the flood of half checks has been continuous, and many of the large English firms have sent in donations. Efforts already are being made to form the Olympic team, the training of which is to begin at once under the supervision of the best English coaches.

The first recruit to the team is Harold Abrahamson, the Cambridge captain and star athlete, who has signed a contract to appear at the Olympiad.

OWN CAR; PEN.

Jefferson City, Mo.—Sentenced to the penitentiary on a charge of stealing his own automobile.

Edward Z. Lindner was convicted in a St. Louis trial court on a charge of stealing a motor car. He appealed the case.

Then he proved that he owned the auto. The court returned the car to him.

Recently, though, the State Supreme Court affirmed the two-year sentence imposed by the St. Louis court, and ordered him to prison.

Officials also declared it was too late for the judge who sentenced Lindner to take any action.

Princely Japanese Family Extinguished by Death

Tokio.—The family most closely related to the Imperial clan became extinct with the recent death of Dowager Princess Yasuko Arisugawa.

The late princess, who died early in July, was the widow of Admiral Prince Takekito Arisugawa, who enjoyed the most profound trust of the late Emperor Meiji and was the advisor of the present Emperor when the latter was Crown Prince. Arisugawa was one of the heroes of the Russo-Japanese war. Their only son died when 15 years of age.

There is a daughter who married into the family of Prince Tokugawa, but in accordance with the provisions of the Imperial House law a princely family becomes extinct when there is no male issue.

Aged Man Hit By Auto; Severely Hurt

A. B. Crosby In Hospital—Stepped in Front of Car.

Stepping off the curb, at the corner of Prince William and King streets at 3:15 yesterday afternoon, A. B. Crosby, aged 73, of McKell street, Fairville, was struck and seriously injured by an automobile driven by Miss Agnes Hebert of Edmundston. One wheel of the car passed over his body. The injured man was rushed to the General Public Hospital.

Mr. Crosby completely exonerated the driver of the automobile from any blame in connection with the accident, declaring that he was alone to blame, as he had neither watched for a signal from the traffic cop or looked for any approaching vehicle.

It was reported at the hospital last night that Mr. Crosby's injuries consisted of bad lacerations about the face, head and nose, eight ribs fractured, on the right side, and his right shoulder badly injured. He was quite conscious on his arrival at the hospital and requested the attendance of Dr. Y. A. Davidson of Fairville, who was summoned and is looking after his patient.

Mr. Crosby's wife is visiting her brother, Rev. George S. Gardner, agent of the Interprovincial Home for Women, at his home in Yarmouth and she has been telegraphed to and is expected to arrive in St. John this evening on the steamer Empress.

Mr. and Mrs. Crosby came to this city about three or four years ago from Yarmouth, N. S., and although he is 78 years of age, Mr. Crosby has been actively engaged as a salt and fish merchant on the South Market Wharf. He has resided with his son and daughter-in-law, Mr. and Mrs. Dane Crosby, in Fairville, and is a staunch member of the Fairville Methodist church.

Mr. Crosby has a host of friends in the city who are deeply grieved over the unfortunate accident. The fish business which he has been conducting at the South Wharf, was only purchased by him a couple of months ago, and is conducted on a slow moomer to the side of the wharf near the head of the Market Slip.

RECOVERED POCKETBOOK

Mr. Coats, of the Carroll Players, who are to open in the Opera House next week, while sitting in the King Square at yesterday afternoon found a pocket book containing a large sum of money in bills, in addition to the current bills, a receipted bill from Dr. J. D. Maher for dental work. A friend of Dr. Maher, Mr. Coats, started for the dentist's office for the purpose of finding the owner of the property. While on his way, Mr. Coats was held up by a man who said he had lost a pocket book and on explaining what was in it received his property. There was a considerable sum of money in the book, among the bills being several twenty dollar notes.

THE REASON FOR FRANCE'S BIG AIR FLEET

(London Correspondent of Manchester Guardian.)

Very polite things have been said on both sides of the Channel about the British Government's decision to create an air fleet on the model of France's great force. Discussing the matter with a prominent Frenchman, I asked him if he could explain why France, with no other important air force in the world to consider, should have so large an air fleet. His reply was interesting and frank enough. "The reason," he said, "is quite simple. At Versailles both Britain and America signed a pact of guarantee, but neither has ratified it. The French air fleet takes the place of the pact of guarantee. France is isolated and has to look after herself."

When asked what the guarantee was against, he said, of course, Germany, explaining that though Germany may be powerless now she will soon recover, and France must be prepared. "If," he added, "Britain would sign the pact

PRIZE COWS USED AS TARGETS; TWO BOYS HELD FOR KILLING FIVE

Shooting and killing five valuable pedigree cows in Highland Falls, N. Y., was charged to two 17-year-old clerks, who had just returned after a vacation there—Daniel Colleen, East Eighty-ninth street, and John Sullivan, Park avenue. They were arrested at their homes by Detectives Lane and Brindal and returned to Orange County.

The complaint stated that the two youths had engaged in long-distance sniping practice at the expense of Alexander D. Dall, a dairy farmer, and that their efforts had accounted for five of the best milkers in Dall's prize herd.

Every Sense will tell you why "SALADA" TEA

will please you more than any other

LOOK at the perfect even-sized leaf after it is turned from the packet. Note the exceptional freshness from dust. "SALADA" TEA is vacuum cleaned.

FEEL the crisp freshness of the leaf. Roll it between the fingers, and carefully note the bright sharp crackle, denoting life and strength.

SMELL: Take the leaves in the palm of the hand. Breathe lightly upon them, and smell the delightful aroma. Notice particularly their perfect freshness; the essence of superb flavor.

TASTE: Finest and deciding proof. Take a cup of "SALADA". Have you ever tasted a tea with such delicious outstanding quality?—that perfect, fresh, delightful flavor that pleases the most sensitive palate?

HEAR the exclamations of delight; the praise of those who try it, the satisfaction of people who use it. Listen to the recommendations of your friends who have tried almost every brand.

ECONOMY—is not a "sense", but it does apply to the cents. "SALADA" TEA is not the cheapest per pound; but it is by far the least expensive per cup because of its superior strength and flavour; and is the most economical tea you can buy.

WALKING THE FLOOR.

"We are going to let the miners and the operators walk the floor for a while," a Washington authority is quoted as saying in connection with the anthracite situation, apparently summing up the situation in a few words. The operators will walk the floor, though their numbers and their rights give them claims to consideration far above those who own or work in the mines. We hear a lot about preparedness against war which may never come but little about preparedness against the industrial wars which periodically erupt upon the public services or interrupt the supply of fuel which is almost as necessary to the people as food or clothing. Not only the actual strikes but rumors of strikes cost the public a great deal of money in the form of expense and hardship which actual coal shortages involve. Yet even though we are our civilization we come to take it for granted that these things will continue to occur, that whenever they feel like it the miners and operators will go to work at the public expense and ask the public what it is going to do about it.

In the United States today there is a growing feeling that such haphazard methods are about worn out, and that the nation's failure to insure itself both as to primary coal and transportation charges is a problem so acute as to warrant new, and, if necessary, drastic, methods of dealing with mining from the paramount standpoint of the people's interest. The substitution of substitutes leaves the public cold. It will use any substitute, however unsatisfactory, under the necessity of emergency, but the annual war over coal has developed an intense and general demand for federal action looking to a cure instead of a measure recurring resort to palliatives.

Is the anthracite industry bigger than the President and the people? That is the question asked all over the North today, and that is asked in every state and in every province where strikes in the soft coal regions. Industry cannot be kept going, houses cannot be warmed, by telling the people of a coming day when electricity will solve all our problems, or by suggesting that when the mining districts are normal again, there is a lesson for Canada in all this, not only as to the greater utilization of its own coal and greater imports from the Old Country, but likewise in regard to frightened measures to diminish the public danger due to strikes in its own mines.

The question is much bigger, much more urgent, than many others to which our public men give such attention. As to the anthracite strike, what has happened already, not to speak of what may happen, has sharply reminded the American people that they are not master in their own house. Their government and the commission to which it delegates powers of conciliation and pressure are being reminded that they had notice long in advance of the deadlock, but that the annual hold-up of the millions of consumers comes along just the same. The failure thus far is the familiar failure to act upon recognition of the fact that industrial wars involving the supply of daily necessities is a challenge to the nation which cannot be ignored without inviting further and more serious attacks upon the supremacy of the State. It is not enough to assert that the nation is bigger than the coal industry; it is necessary to demonstrate it.

ITS DISADVANTAGES.

The American humorist who said a man in a Turkish bath enjoyed about as much privacy as a goldfish might well have applied his figure of speech to any new President of his country. The fierce white light of publicity which beats upon any occupant of the office, more particularly any new occupant, is attended by many disadvantages, some of which are now being pointed out by the American newspapers, and more of which are visible to the impartial observer. The nation is so intensely interested in the "Chief Magistrate" that it makes him a sort of martyr to publicity and to a curiosity which is good-natured but awkward nevertheless. The Lincoln anecdotes are of world-wide circulation, and the fact that not all of them could be genuine never interfered with their popularity. The Coolidge anecdotes come in a stream, and when the more reasonable ones are exhausted more are ready. The New England thrift attributed to the Coolidge family, rightly and with credit, has been the subject of many of these anecdotes, and now one of the army of eager commentators comes along with this unworthy offering:

"It is said that when President Coolidge was a young lad he imported his father for a cent to buy lavender candy. Dad, he says, heard him of a very decent winter—we have had so many bad ones. Therefore it is well to disregard the news that there was a light fall of snow thirty-five miles north of Quebec a day or two ago. They ought to keep that sort of thing to themselves, but some communities will do anything for a little publicity."

Mr. Coolidge has named Governor Pinchot of Pennsylvania as special mediator whose task it now is to seek some way out of the anthracite strike set for September 1. The success or non-success of Mr. Pinchot will indicate the extent to which the American public was justified in believing that the President could prevent a hard coal war at the expense of the consumers.

The remarks of the Justice White in referring to an interesting situation in power case give the whole situation a new turn.

IN LIGHTER VEIN.

Very Irish.

An Irish gentleman was astonished to receive the following letter from his son in London:
"Dear Father—I am in a deuce of a hole. Kindly send me £10, and oblige."
"Your loving son, P." "I was so struck with remorse that I ran after the postman and tried to get it back. I can only pray that it will not reach you."
"But who could be more astounded than the son when he received his reply:
"Dear Son—Your prayers are answered. The letter did not reach me."
—Father.

Fixing the Time.

When the trial of the burglar was finished, and he had been duly acquitted of the charge brought against him, he went to his lawyer's table, and said:
"I will drop in and see you soon."
"No," admitted the lawyer, with a smile, "but in the daytime, please."

Scholarly Reproof.

"Don't talk to me about colleges," said the self-made man. "Look at me. Do you suppose I should have been any more successful than I am if I'd had a college education?"

The Other Way Round.

"I suppose," said Singleton, "that you sometimes long for a little excitement to relieve the monotony of married life."
"On the contrary," replied Wedmore. "I frequently wish I were a little monotonous to relieve the excitement."

Some Are That Kind.

"Are you looking for a permanent investment?"
"No, to permanent."
"Why?"
"I don't want to put my money in unless there's a chance to get it out."

Letters To The Editor

AT THE BAND CONCERT.

To the Editor of The Times:—Sir, I hope you will find space for these few lines. I, as a resident of the United States for the past five years, although a Canadian by birth, would like to comment on, and ask any American present at the well rendered band concert in King Square last evening to note the difference between the Canadian and American music programmes. Never during my residence in their country have I heard the British National Anthem or Canadian national airs, whereas last evening and on several other occasions the Star Spangled Banner and American national airs have formed part of the excellent programme. This fact only tends to show the difference in the public spirit portrayed in the two countries.

Yours truly,
CANADIAN GIRL.

SAVINGS BANK TO BE REMODELED

The Dominion savings bank building on the corner of Princess and Canterbury streets is to have the interior altered so as to make it more in keeping with modern ideas of what banks should be. The new building is to be a convenient for the transaction of business. New counters will be installed, and the floor and new grill work. Extensive repairs will be made also, but no structural changes will take place. The office of the assistant cashier, general J. E. Wilson, will also be made more convenient and more up-to-date. The St. John savings bank is known to do more business than any other of the federal savings banks in the Dominion. In the registration of banks the work at the local bank is particularly heavy. Yet the interior arrangements are exactly as they were installed when the bank was rebuilt after the St. John fire of 1877.

SAND PUMP MAKES BEACH FISHING EASY

South Shore Ike Waltons Make Their Catches of Sea Food at Land End of Iron Pipe

The sturdy fisher girls made famous by generations of French painters would probably turn sea green with envy if they could see the painless methods employed by summer residents of Long Beach in laying up stocks of shellfish. Instead of setting out with cumbersome hand nets down to Paris straits the Long Beach fishers station themselves at the offices of the "sandpumper" dredges used to reclaim land at that resort.

Good Crops Promise Well Stocked Fairs

Philadelphia, Aug. 25.—This year promises to be a banner one for fairs throughout the country. More persons are seeking space to display their merchandise than for years and this is a good omen, say fair managers. August is the month in which fairs really get under way. State fairs open in this month, and hold sway till the first of November. Furthermore, a thousand other smaller fairs, in the form of county exhibitions, are also being held in the month in which fairs attract and hold interest for that industry this year, it is estimated, has yielded farmers well over \$7,000,000.

JUDGMENT OF INTEREST

While the amount involved was rather small, the principle in a case in which Chief Justice McKenna gave judgment yesterday was very important in a legal and commercial sense. The matter arose some time ago in the matter of the estate of A. F. B. Kenney, of Sunny Brae, Westmorland county, in bankruptcy proceedings. He had effected a compromise with his creditors. At the time the DeLaval Company, of Peterborough, Ont., held a lien on a certain piece of machinery sold to him. Under the lien they held that they ranked as preferred creditors. The amount was about \$500.

LEAGUE, COURT OUTLAWING WAR, FORM MR. KERR'S PEACE TRINITY

Politics Institute Leader Holds That None of the Three, Alone, Will Accomplish Aims

Willamstown, Mass., Aug. 25.—(Staff Correspondence)—To bring peace down from the clouds, where, too often sentimentalists have lodged it, to set up war-reducing machinery and make it operate, is short, to make a warless world in the midst of complex and competitive international contacts, this, in the opinion of Philip H. Kerr of London, is no impossible task.

Peaceful adjustments, Mr. Kerr maintained, may be brought about through diplomacy and armaments. But such adjustments—if, on occasion, they make for peace—lead, also, to occasional war. A world in quest of an alternative to this quasi-successful system has come, he said, upon three practical propositions: First, the League of Nations; second, the World Court; and third, the outlawing of war. He declared:

The question for today is how far will these proposals help to solve these practical problems which lie ahead? That is the test to which they will be brought. My own view is that they will all help but that none of them in themselves will solve the problem. The fundamental cause of the League of Nations is that for the first time it brings the representatives of humanity together, so that international questions can be discussed in the light of the interests of humanity instead of through a controversy between two or more states, each asking, "Where do I come in?"

Progress Through Conference. The League of Nations is fundamentally a method of conference. It can neither give decisions nor enforce them. But the world will never make progress toward peace until all the peoples are willing at least to talk business with one another around a common table. I am not the least wedded to the existing covenant, which I think could be greatly improved, but the idea of the League of Nations itself is bound to prevail.

It is the same with the World Court. No court can settle disputed political questions. It would cease to be a court if it attempted to do so. But a court is essential for the peaceful adjustment of an immense mass of minor international problems. No country will refer such problems as Asiatic immigration or the control of the Suez or the Panama Canal to a World Court, but all such questions as the interpretation of treaties or the application of international law can be so referred, and therefore taken out of international political controversy.

The movement of outlawing of war I regard as a very important moral end. It is based on the recognition that the Christian nations to clash in international disputes is wrong. Its advocates do not seem to me to have thought out at all the application of their own idea. The logic of their position, as I believe it the sound logic, will lead them to conclusions of which at present they have no conception.

Causes Making for War. In his analysis of the causes which make for war and with which these three proposals for peace must deal, Mr. Kerr mentioned: economic questions; questions involved in the protection and development of backward peoples; problems involved in the growing determination of Asiatic peoples to throw off the authority of the West, and to take charge of their own affairs; the European problem, and, finally, the problem of security and armaments. He concluded: The foregoing is a summary of the chief problems which confront us. It is not a question of drawing up a treaty which will mean perpetual peace. It is a question of creating both the spirit and the machinery whereby human intercourse and progress and the adjustments involved may take place peacefully and in accordance with reason and justice and not through the use of the sword.

actor of the naval and military missions sent to other republics, as it is contradictory to American and to Pan-American ideals to stimulate armed peace in the New World, which always keeps alive the dangers of war and interferes in the rivalries of several states with high and unsuspected purposes of concealment and mediation, the missions following their labor only as a matter of new private agencies between governments and experts.

Situation in China. At the round table on "Problems of the Pacific," led by Prof. George H. Blakelee, the discussion dealt with the condition of China since the Washington Conference. Among the participants were Dr. Alfred Sze, Stanley K. Hornbeck of the Department of State, Prof. A. C. Coolidge of Harvard University, Maj.-Gen. William Crozier and Dr. Adam Shortt of Ottawa, and Walter S. Rogers, formerly of the Department of State.

Dr. Sze emphasized the fact that while political conditions in China left much to be desired, there were important developments in the economic and educational fields which gave much more promise of progress than the newspaper reports of disturbances and banditry would indicate. He dealt in detail with the condition of the mining, embracing the desires of China for tariff autonomy, and explained the situation with regard to the nine-power treaty framed at the Washington Conference on the subject of extraterritoriality.

Mr. Rogers dealt with the transmission of news between the Far East and the United States and showed the necessity of governmental action in order to make the transmission of information more speedy and less expensive. He explained the present status of the dispute as to radio communication in China, and gave it as his opinion that progress in this respect will be made in the development of important radio stations.

Aeronautical Legislation. Governmental inaction in regard to aeronautical legislation in the United States bids fair to work the ruin of commercial flying, according to members of the round table on "Law of the Air" under the direction of Prof. Jesse S. Reeves of the University of Michigan at the University of Toronto Conference on the subject of extraterritoriality.

A remedy is in sight, however, according to Prof. Edward P. Warner of the Massachusetts Institute of Technology, in an interview with the representative of The Christian Science Monitor. The Winslow Bill, he pointed out, introduced in the House of Representatives on Jan. 6, 1923, contains features, which will go a long way toward the solution of the problem. "This bill," said Professor Warner, "will create a federal commissioner of aeronautics, to be connected with the Department of Commerce. "It will be its task to undertake the working out of national standards for aircraft inspection, for flying licenses and for the correlation of regulatory legislation. This law, in fact, takes out of the hands of the State the question of aeronautical regulation and places it under the control of the United States Government, since, obviously, flying is chiefly a national concern. So far as I know, all these interested in the development of flying are behind the Winslow Bill, which doubtless will come up before the next session of Congress for action."

Unappreciated Invitation. A clergyman in one of our towns, after officiating at a funeral, approached a lady, a stranger to him, who was visiting in the neighborhood, and after shaking hands with her asked if she was on her way to heaven. "Yes," she promptly answered, "and if you come that way I should be pleased to have you call." The good old man, horrified at such seeming levity, turned away without reply, when a friend sitting near him remonstrated with the lady who still more horrified at her mistake, said she understood him to ask if she was on her way to Hudson, where she lived.

The Suit Jacket Is Now Longer

Straight tailored lines are leaned to in Autumn Suits, the coat part is longer, and wood shades with Gray, Navy and Black win in color. A midnight Blue Formosa in the window that fastens over the hip indicates also the entrance of heavy fabrics. Formosa, seen earlier in Capes and Coats is a plushy material and rather rich. Broadcloth Velour and Douve d'elaine are others, the latter being a sort of soft Velour.

A Broadcloth Velour in Pearl has three ladder tucks in narrow rows on both sides of the straight back, being separated by strappings and topped by fancy arrow head stitching in Silk. \$54.75.

A Douve Delaine of Sand has curving embroidery under the side pockets and down both sides of the back panel. \$37.50.

Slenderizing Lines Prevail in Coats

The silhouette of Coats is youthful and slender, clinging at the shoulders and flaring at the bottom. The wide gathered mushroom collar shows for instance in a Brown or Black Velour with fine waist tucking at the back. Satin lined and \$36.75.

A Black Bolivia has widely flaring sleeves, which with pocket collar and fish fin panels is done over in fine round Black broad. It ties over. Satin lined and \$64.75.

Coat effects actually vary a lot. You'll see the big straight collar and colored embroidery on some highliners. The window and-displays in the Costume Salon tell the rest for the present.

COMMISSION DISCUSSES GERMAIN STREET ORNAMENTAL SYSTEM

Leaves Decision to Common Council; Cost \$7,543 More.

A meeting of the Power Commission of St. John, was held yesterday afternoon, with R. A. McAvity presiding. After adopting the minutes of the previous meeting, the matter was taken up of a letter received from E. A. Schofield requesting information regarding salaries and costs, etc. On motion of Commissioner Harding, seconded by Commissioners Flood, Mr. Schofield is to be informed that the commission books are in the office and he or any other citizen can receive all the information required by calling on the secretary.

The engineer, Barry Wilson, submitted the report of the work performed in the engineering department. He submitted a detailed analysis of the additional expense which would be involved in installing an ornamental lighting system in Germain street. The net cost, he found, would be \$7,543.21.

Concerning the work being accomplished the engineer reported as follows:—

"I can only consider that section on the work, divided into eight crews; two on excavations; one on setting poles; two on running primary feeders and three on secondary feeders. He has a general superintendent in charge. I consider the class of work is good and we have little trouble in having him comply with our requirements. There has been some delay in the progress, but this can be attributed chiefly to the questions of Germain and Waterloo Sts. Such interference with the original layout of our system cannot be attributed to the contractor, and further, has a tendency to add to

his costs. In summing up the whole situation, I would not recommend that the contract be taken away from the Stephen Construction Co. as the progress in my opinion has been good, but if it is possible to add another contractor to the work, it would expedite the completion of the system.

Wants Action.

"In reference to the placing of an order for copper wire with the Canadian General Electric Co. provided some satisfactory delivery of materials on the outdoor switching equipment, I have notified the Halifax office that unless we can have absolute assurance that these switches will be shipped on or before Aug. 30, 1923, this order will be placed with H. M. Hopper. The Can. Gen. Electric Co. have taken this matter up with their head office and to advise at an early date. I feel it necessary to stress further on this point and if we are to place confidence in this company by awarding them orders for equipment, we certainly should expect reciprocity. It may be necessary to eliminate them in our future requirements unless satisfactory deliveries can be arranged.

Street Repairs.

"The question of street re-surfacing has been taken up with the Stephen Construction Co. but up to the present we have not received a reply.

"The policy of operation at the substitution should receive your consideration, have in view two operators, capable of performing the work, and who have been employed on the erection of the switching equipment with the Canadian Westinghouse Company. As to the number and length of shift, refer to your superintendent's disposition should prevail.

"The report on poles set, cross arms, wire string, services strung, brackets placed, from June 7 to Aug. 18, follows: Poles, 863; cross arms single, 17,440; double 87; wire string, 17,740 feet; services strung, 178; brackets placed, 480.

GOLDEN JUBILEE OF MINISTER OBSERVED

Banquet Tendered Rev. Dr. Wiggins in Sackville Parish Hall

Sackville, N. B., Aug. 24.—St. Bartholomew's Day will ever remain a red letter day in history of Episcopalian congregations of Sackville parish, for today marks the fiftieth anniversary of ordination of the venerable and beloved rector of St. Paul's and St. Ann's churches, Rev. C. F. Wiggins, M.A., D.C.L., for the last 48 years pastor here. It is also the 79th birthday of the rector.

The fine weather enhanced the pleasure of auspicious occasion, attracting large crowds of visitors. At 2 p. m. more than 100 guests sat down to a sumptuous banquet served in Parish Hall. A particularly pleasing feature of the affair was the arrival of a huge birthday cake, illuminated with many candles. Each guest shared in the cake. After partaking of the good things provided, the following toast being master of ceremonies: The King, the Diocese of Fredericton, Rev. Canon Slamm, Moncton; the Parish of Sackville, W. S. Fisher, St. John; the Town of Sackville, Mayor Cameron. Brief speeches were also made by Hon. A. B. Cope, Secretary of State, Rev. Dr. Watson, Rev. J. M. Palmer, Sackville; Rev. Dr. Smithers, of Fredericton, and W. C. Milner, Halifax.

Rev. Dr. Wiggins, the guest of honor, replied appropriately to the many complimentary speeches of eulogy and congratulations upon his 50 years in the ministry and also on attaining his 79th birthday.

At 4 o'clock an impressive jubilee service was held in St. Paul's church which was filled to capacity. Rev. Dr. A. W. Smithers, of Fredericton, preached the sermon, delivering an earnest discourse on "An Inevitable Inevitable, in whom is no guile." Rev. Mr. Tomalin, of Shediac, read prayers, and Rev. G. E. Trueman, curate of St. Paul's, the lesson.

A solo was sung by Miss Heald, of the Mount Allison Conservatory of Music, and the service was brought to a close with the singing of the congregation of "Unto the Hills Arise Do I Lift Up My Longing Eyes."

After service, Dr. Wiggins and his wife were at home in Parish Hall, when hundreds of friends tendered congratulations to the rector and his beloved helpmate. The genial doctor was made the recipient of a purse containing \$200.

The first Episcopal church in Sackville parish was St. Ann's, built at Westlock in 1817. St. Paul's church, Sackville, was commenced in 1856 and consecrated in 1858. The rectors have been as follows: John Barry, 1818-1820; Christopher Milner, 1820-1830; John Black, 1830-1847; T. DeWolfe, 1847-1860; G. G. Roberts, 1860-1871; David Nickerson, 1871-1875; J. D. H. Brown, 1875-1878; R. J. Unlace, 1878-1879; C. F. Mulvaney, 1879-1880; C. F. Wiggins, 1880—

The newly elected members of the provincial board of the Ladies Auxiliary of the A.O.H. met yesterday afternoon at the residence of the secretary, Mrs. H. Y. MacGillivray, 22 Dordrecht street. In the business meeting the duties of the new officers were outlined and after the business meeting Mrs. MacGillivray served tea and was the hostess at a delightful social gathering. Tea guests, besides the members of the provincial board, were Mr. and Mrs. D. J. Shea, of Fredericton, and Mrs. M. E. Finigan. The tea table was daintily arranged and was centred with American Beauty roses. Mrs. MacGillivray presided at the table and was assisted in serving by Miss Maine Halsey and Miss Anna McLaughlin.

Shot from Guns

WHAT fun your children think it is—eating delicious food that has actually been shot from guns! It dwarfs any experience of "Alice in Wonderland"!

How the Grains are Puffed

To the invention of Dr. A. P. Anderson, we owe the unique process of making Puffed Wheat and Puffed Rice by shooting the grain from guns. The selected grains are first cleaned and then sealed in huge guns of heavy iron. The guns revolve for an hour in a fierce heat. This cooks the grain and turns all its moisture to high pressure steam. When the guns shoot into a great room of fine wire mesh the grains are exploded. Each grain is puffed to 8 times its normal size, and 125 million steam explosions take place in each kernel. Every food granule is thus broken into minute fragments and the whole grain becomes easy to digest and delicious to eat.

What a satisfaction to the mother to have her children prefer this wholesome steam exploded food to anything else she can provide! At any hour of the day when children are hungry, puffed dainties are always ready and always joyously welcomed. Children love to carry the crisp grains in their pockets, and nibble them as they would nuts.

Puffed Wheat and Puffed Rice are nourishing, whole grain foods in the appetizing form of light, delicate, nutty morsels. Served with milk, they provide ideal nourishment, because they supply the food elements which milk lacks. They are delicious with berries and cream, or sprinkled with melted butter.

It is appropriate that the King and Queen should attend the choir consecration, not only because such an event makes a happy occasion for the King Edward laid the foundation stone of the cathedral.

M'INTYRE HERE FOR MONDAY BOUT

Sees Chance for Championship of East—Healey and Groff.

For the first time in the history of boxing in St. John the Western and the Eastern champions will meet Monday night at the Arena, when Neander Healey, of Halifax, welterweight champion of Eastern Canada will meet Billy Groff, of Dryden, Ontario, who claims the welterweight championship of Western Canada.

Groff is backed in his claim by W. J. Anderson, of the Manitoba Boxing Commission, and W. J. Findlay, sports editor of the Manitoba Free Press, one of the best known sports editors in America.

Joe Irving, who is matched to meet Johannes McIntyre, of Glace Bay, former welter champion, has gone to the country to finish his training for the big bout. Joe is out to win a chance at the welter crown, and if Healey takes the measure of the tough fighter from the West he will naturally have to fight Irving, should the latter win his bout.

Will Arrive Today. The boxers are expected to arrive in St. John today and there is much speculation over the outcome of the matches Monday evening. The chief local interest centres in the Irving-McIntyre bout, as both men are known to the local fans.

On the other hand there is a great amount of curiosity regarding Groff. To St. John fans he is a "dark horse" and many are skeptical of him when he faces such a well-known boxer as Neander Healey, who is a favorite in this city.

CASH, BODY RETURN.

Cleveland, O.—Seeking to avoid arrest after he robbed a train of \$63 contained in a handbag, a robber jumped into the Cuyahoga River.

"He's escaped," said police. "He's drowned, and we'll find the money with his body," replied Mrs. Briob.

For three weeks, she and her children kept watch. Finally, the body was seen.

The coroner was summoned and took the body from the water.

Identified in the dead hand was Mrs. Briob's handbag—and her \$63.

International Band Of Counterfeiters Un-arthed In Hawaii

Honolulu, Aug. 23.—An international counterfeiting ring, centering in the unsworn world of Honolulu and with ramifications into the Orient, which is being unearched slowly by federal officials here, is expected to prove one of the largest conspiracies of the kind ever brought to light in American territory, according to the authorities.

Nine persons, eight Japanese and one Spanish-Hawaiian, are under arrest and the federal officials have \$280,000 in counterfeit money and two plates designed for the manufacture of the bills. The operations have been in progress for approximately two years and began, apparently, among persons engaged in the opium traffic.

The authorities said that the smugglers of opium into the territory were the victims of a grim little joke and "the double-cross supreme"—in return for the opium they managed to bring into the territory they received large sums of counterfeit money. The fact that they were engaged in an illegal operation was counted on to prevent them from notifying the authorities.

The persons in custody constitute only a part of the conspirators and the bills are believed to be spread all over the islands. It is known that large amounts have been taken to the Orient for distribution there. Many of the bills here were passed on Orient shopkeepers.

The authorities said the conspiracy was unraveled like a popular fiction fantasy. Most of the persons in the plot are not known to each other and probably not more than one man knows all the other members of the gang. He is a Japanese master engraver, now in custody, who was employed on a local Japanese language newspaper until the discovery of the plot, the authorities said. He is charged with having manufactured a number of plates for the printing of the bills.

Instead of using the plates himself he sold them to other persons throughout the islands. The result is that the counterfeit money is appearing from many different places, each place producing them being unknown to the other plants. One printing press was located in a bay off the island of Hawaii. The bills are in \$5, \$10, \$20, \$50 and \$100 denominations and are an exceptionally good imitation, the only noticeable difference between the spurious and genuine currency being in the quality of the paper.

Although federal authorities have knowledge that many of the parties in the plot have escaped to Japan and China, carrying with them large sums in counterfeit money, more arrests are expected, as the officials say they have merely scratched the surface.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

HERE'S A TALE OF BASEBALL OF 1880 WHEN IMPERIALS BEAT NATIONALS

Account of Deciding Game of Series on the Barrack Green.

St. John is known as a great baseball city and rivalry was as keen in the eighties when the Nationals, Shamrocks and Imperials played, as it is now. In the year 1880 the struggle for supremacy was between the Imperials, a west side aggregation of players, and the Nationals, the former winning the series and championship for that year.

The account of the game will be read with interest by many of the old time fans, who will be able to fight the battle over again. This game was played in September and was umpired by E. Pond of Boston; the scorers were F. P. Griffiths for the Imperials and T. Tierney for the Nationals and the time of the game was two hours.

Following is a report of the game as published at the time:— The decisive game of the series played this season between the Imperials of Carleton and the Nationals of this city took place on the Barrack Green yesterday afternoon. The Nationals nine was strengthened by the addition of Fleming and Warlock at the second base and short stop, respectively. When the game commenced a crowd of spectators that must have numbered at least two thousand were grouped in vast masses and swaths on all sides of the field. Hundreds of impetuous spectators roosted on the ground and the earth work behind it, and all cheered lustily for their favorites as the game proceeded.

The Nationals went to bat first. Barker scored a run on a high throw and fumble by the Imperials. Warlock got to first but encountered the ball at second. Carter and Fleming went out on strikes.

Imperials—Smith and Low retired at first and Thompson went out on strikes. In the second inning Wilson, Dorman and Bell, of the Nationals, swiped the bat without effect.

Imperials—Wilson went out on strikes, first was too distant for Belyea and Kingston perished attempting to get home on Olive's wild hit to pitcher.

None of the Nationals reached first in the third. The Imperials' next turn at bat put a new look on the face of things. Steady hitting by Belyea, Oliver, Smith and Thompson, aided by numerous errors through the score up to four.

In the next inning for the Nationals Warlock made a two base hit and trotted home on a passed ball. Fleming and Wilson on second. Belyea distinguished himself in this inning by catching out two players, Dorman and Carter, on strikes. Fleming fled out to Smith.

The score remained at 4-2 until the seventh inning. In this session Bell for the Nationals led off with a fly to Smith and Flagler retired at first. Assisted by extensive fumbling, Crandall and Barker rounded the diamond. The arrival of the letter, during the game, was greeted with tremendous applause on the part of the crowd as though a great national calamity had been averted. But the Imperials went into action and placed a comprehensive damper on the enthusiasm. Olive got to first on a grounder fumbled by Flagler, stole second and reached home on a fine hit by Noonan to left. Allen hit first and followed Noonan home on Smith's three bagger over first base, the latter reaching home on a passed ball. Score 8-4 in favor of Imperials.

Individual playing does not require more than a passing notice. Belyea's play behind the plate was faultless, and that of Barker in the same position scarcely inferior. The pitching on both sides was very fine. Warlock's play at short was excellent. Olive filled first position with credit, as did likewise Flagler for the Nationals.

Following is the box score of the game:—

Stranger Turns Booster. Uncle David sighed heavily. "And now they're going to do it in New York," he groaned. "I thought when I came here I'd find it just like it used to be, with nobody knowing anything about their own city and nobody giving a hang whether the population was growing or dropping or whether there were more automobiles per individual or fewer art centres than anywhere on earth or not."

Distinction

A Well-Chosen Hat Often Achieves It

Distinction in dress is often attained by just the right Hat. Some of the best gowned women often wear very simple frocks, relying on their accessories to complete ensembles. Among these, Hats are of prime importance. By them costumes either win or lose. The most beautiful Hats among the many smart new modes the season has sponsored are now on display in our showrooms!

CHAMPIONSHIP GAMES ARRANGED

Nine Contests Between the Saints and Fredericton; the Players.

All details in connection with the play-off between the Fredericton team, winners of the first series, and St. John's, winners of the second series for the championship of the Two-1 League, were arranged at a meeting of the managers held last night. The season was a lengthy one and before all the business had been transacted the early hours of this morning had arrived. Joe Ford, Fredericton, manager, came here for the meeting.

It was decided to play a nine game series, three in Fredericton and six in St. John's. The series will start on Thursday when two games will be played in Fredericton, one in the afternoon and one in the evening. On Saturday, Sept. 2, two games will be played in this city, one in the afternoon and the second starting in the evening. On Labor Day there will be two games here, one in the morning and the second in the afternoon. On September 6 one game will be played in Fredericton and on September 8, two games here.

In order to be assured of nine innings for the evening games it was decided that evening games in Fredericton must not start later than 5:45 o'clock, and in St. John not later than 6:30. The four official umpires will be: Howard, Benson, Atchison and Donovan. In event of wet weather prevailing on any of the days when games are scheduled it was decided to play the games on the next day. Gate receipts will be divided sixty per cent. to the winners and forty per cent. to the losers of each game.

The Players.

The following is a list of eligible players for the championship: St. Peter's—Dever, McGovern, Mooney, McArthur, Markham, Sterling, Doherty, Gibbons, Bonnell, O'Connor, Price, King, Hansen, Strecker, Stafford, Shiel, Houlahan and Kere. Fredericton—O'Brien, Killen, Clancy, Dillon, McBeth, Dean, Mulvey, Slesinger, Faynter, Noyes, McCourt, Whitehouse, Andrews, Lynch, Ware, Kenyon, Davis and Kierstead.

Kelly, mentioned in St. Peter's lineup, is a catcher from Boston who will be brought here in event of any accident happening to Dever. Kelly is a pitcher as it was figured the Saints were strong enough in the box and a second catcher was needed. Houlahan is a Millbrook pitcher and Shields is from St. Stephen.

Fredericton has asked for a block of 200 seats in the grand stand for Labor Day as it is intended to run an excursion to this city for the games.

LOCAL NEWS

GIRLS IN LEAD.

Nine marriages were solemnized in St. John this week. During the same period there were twenty-four births, ten boys and fourteen girls.

DINGLEY BRINGS 357.

The Eastern Steamship liner Governor Dingley was expected to arrive at 11:45 o'clock from Boston via Eastport and Lubec with 357 passengers and a fair sized general cargo.

PLAY TWO GAMES.

The members of the Civic baseball team will leave about 2 o'clock by automobile for Rothesay where they are scheduled to play two games today one at 3 o'clock against Rothesay team and another at 6:30 o'clock against Fair Vale.

TEN DEATHS.

Ten deaths occurred in the city during the week ending last evening. Causes: Acute colitis, gastric cancer, cholera infantum, general debility, cancer of uterus, stroke, acute appendicitis, general peritonitis, congenital atelectasis and congenital stenosis of bile ducts.

CAR MISSING.

Robert Thompson left his Ford touring car, No. 4688 standing in front of J. Clark and Sons, Germain street, late yesterday afternoon, and when he left the car was among the missing. He notified the police later in the evening, and they are working on the case.

HEAVY TRAVEL.

Passenger travel after attending the C. P. R. is very heavy due to the large number of people returning from points in New Brunswick and Prince Edward Island to their homes in the U. S. This evening the C. P. R. Boston train No. 108 will have fifteen or sixteen cars.

BROUGHT TO HOSPITAL.

When a shotgun, that he was examining, exploded last evening, David Hamilton, a farmer residing near Woodman's Point, had his left hand blown off and his right arm, scalded by the discharge. He was treated by Dr. A. A. Lewis of Westford, and later brought to the General Public Hospital here. It is thought that he will lose one thumb.

GOOD SESSIONS OF MUNICIPALITIES

Comment of Commissioner Thornton, Home Today from Campbellton.

Commissioner John Thornton, who returned yesterday after attending the convention of New Brunswick Municipalities, said the meeting of this year was one of the best he had ever attended. The papers read were of a very high order and the discussions brought out some excellent suggestions for better Municipal Government. It was well worth the time of any person interested in Municipal affairs, he said, to attend one of the conventions as there was always something to be learned.

The people of Campbellton had been very hospitable and the time had passed all too quickly. The only criticism the commissioner had to offer was that there was so much material that it was hard for a person to grasp it all and there was not sufficient time to thoroughly discuss the various papers.

Commissioner Thornton and Commissioner Wigmore made the trip by automobile, going by way of Moncton and back by way of Fredericton. He found the roads in very good condition and especially commended the practice followed in the upper counties of straightening out curves in the highways.

NOVELTY SHOWERS

Friends of Miss Elizabeth Gorman gathered at the home of Miss Gertrude O'Neill, 109 Elliott Row, last night, when Miss O'Neill and Miss Gertrude Costley were hostesses and a novelty shower was tendered Miss Gorman in honor of her approaching marriage.

Beautiful gifts were presented to Miss Gorman and the presentation was made in a novel and pleasing manner. What appeared to be a large wedding cake prettily ornamented was found to contain the many gifts. It was surrounded by a ring of bride and groom and was made in many tiers. As each layer was removed some more of the daintily wrapped gifts came to view. The rooms were attractive with wild flowers in profusion. The color scheme was in golden yellow with red and blue. Susans and golden rod and cut ferns artistically arranged. The evening was pleasantly spent with cards and dancing. Refreshments were served and the hostesses were assisted in serving by Miss Catherine Lawlor, Mrs. Joseph E. Dwyer and Mr. and Mrs. J. F. O'Neill. Among the guests were: Miss Elizabeth Gorman, Miss Eileen O'Regan, Miss Marjorie Grannan, Miss Frances Grannan, Miss Margaret Power, Miss Vida Waterbury, Miss Helen McGuire, Miss Edna Sullivan, Miss Evelyn Gallagher, of Woodstock, Miss Catherine Gorman, Mrs. A. P. O'Neill and Messrs. Richmond Grannan, T. Sweney, Anglin Gorman, Jack Hogan, Fred McGuire, Dr. A. Coughlan, William Ryan and E. Cronin.

Miss Eva Simpson, of Milford, who has been a popular member of the telephone company staff for several years and whose wedding is to take place early next month, was tendered a delightful surprise in the form of a novelty shower on Thursday evening. About a score of her friends from the telephone office assembled at the home of Mrs. Charles Coleman, 82 Bridge street, and presented to her all sorts of useful and pleasing gifts, with their best wishes for her future happiness. After the guest of honor had inspected the presents and expressed her thanks, an enjoyable social evening was spent.

The young ladies of the Portland Methodist Church gathered at the home of Mrs. Lizette Leck, 557 Main street last evening and tendered her a novelty shower in honor of her approaching marriage. She was the recipient of beautiful gifts in cut glass, silverware, china, pyrex and linen. Games and music were enjoyed and dainty refreshments served by the young ladies. All wished Miss Leck a very happy future.

GET WATER SUPPLY

Draw It Before 6 O'clock Today — Loch Lomond Cut Off.

Residents of the higher levels are advised to draw a supply of water before six o'clock this evening, as the Loch Lomond supply will be cut off at that hour and will remain off until tomorrow night. Connections are to be made at Little River with the new 36 inch pipe which has been laid around the old header. This will reduce the pressure.

When this connection has been made the city will have two sources of supply, Loch Lomond and Little River, and if anything goes wrong with one they will have the other to fall back on. Up to the present time if anything had broken in the header the city would have faced a possible drought until repairs had been made and this has been a nightmare to the commissioner.

REMEMBER WHEN—

Ned Harvey of St. John and Bert Lawson of Eastport, Me., went six rounds to a draw in the Mechanics' Institute on July 9, 1894.

Richard Armstrong's plating mill and contents at Fairville were destroyed by fire on Tuesday, July 10, 1894.

The fare to Digby and return the same day was \$1.50 and to Annapolis and return the same day \$2 during July, 1894. The return ticket over the same route to Halifax was \$4.50.

Daniel and Edward Logan and Joe McElroy were lost in the Revering Falls on July 15, 1894.

George G. Corey was arrested on charge of passing counterfeit money in St. John on July 16, 1894.

PLAN REVIVAL OF ELKS IN CITY

Head Officials Set the Re-organization Machinery in Motion.

There is a strong effort being made to revive the Order of the Elks in St. John and it is expected that before long there will be a thriving lodge in this city. Recently Frank Murphy, a former St. John boy, who is the head of the order in Canada, was here and discussed the matter with some of the former members. He received some encouragement and within the last week D. R. Beresford, grand organizer, arrived in the city and is making a canvas of the former members and prospective new members.

It was said this morning that the outlook was bright for re-organization here and of the local lodge taking its former place as one of the leading fraternal organizations in the city. For many years the Elks home in Wellington Row, now the home of the C. W. Y. A., was the habitat of an important and energetic association.

ODD PAPER MONEY NOW BEING SHOWN

Some Gathered in Round-the-World Voyages by Myer Levine.

Old paper money as well as coins is now beginning to find its way to The Times office. Miss May Levine brought the following collection to this office: the property of her brother, Myer Levine, of the U. S. Shipping Board service, quartermaster at the S. America, and son of Mr. and Mrs. S. Levine, 37 North street. Traveling around the world several times he saved a piece of money from many of the countries visited. The large collection includes, East Indian pieces of 1822, 1824, 1825; English pennies, 1885, Portuguese piece, 1888, several Italian coins of the sixties, Chinese money of unknown date, a German aluminum coin of modern days, a German piece of 1879, and several other coins of uncertain date. The paper money includes, 25 and 500 Russian rouble notes; 20 hellars, Danzig; Czecho-Slovakian notes; 50 kopovs; Romanoff's time; a Polish note; Belgian franc; 5 nobles, Russian; Straits Settlement, 10 cents; 200 roubles and 50 kopovs, of Kerensky's regime; 5 piastres, Syrian, and 10 roubles, Kolchak.

The following coins are only some of the large collection of Mrs. Fred Munday, 75 Exmouth street in Canada: five cent pieces, 1858, 1862, 1864, American dimes, 1857, 1856, 1840, 1841, 1842, 1843, 1844, 1845, 1846, 1847, 1848, 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856, 1857, 1858, 1859, 1860, 1861, 1862, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000.

NEW DIRECTOR IS MONCTON MAN

H. Hutton's Coming Gives Y. M. C. A. All New Brunswick Staff.

H. Hutton, who is to succeed Captain William Bowie as physical director of the local Y. M. C. A., is due to arrive in this city on September 15. He is a native of Moncton, and had been in charge of the Y. M. C. A. physical department there for the last two years. This summer he completed a course at the Canadian training school of the Y. M. C. A. at Lake Umbagog, New Brunswick, and graduated with honors. With the arrival of Mr. Hutton, the local branch of the Y. M. C. A. will have an entire New Brunswick staff, which is unique in the association's history.

Captain Bowie, who was director of physical education here for the last three years, will leave on next Tuesday en route to Bellefleur, Ontario, where he will be stationed.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I desire to look upon the pumpkin when it showeth its color in the field."

"No, sir," said Hiram, "what you're thinking about is when it showeth its color in the pie."

"Since you mention it," said the reporter, "I confess that my love of Nature would even go so far."

"Well, sir," said Hiram, "any time you want to come out to the Settlement after Exhibition's over, and the gals on the grounds has all gone home, an' Hammer feels she haint got no call to keep an eye on me for a spell—I know she'll hev a few pumpkins an' squash all ready."

"I know it," said the reporter. "And all the other things fresh from the garden. And the sun throwing the shadows of trees across the meadows, an' the shining on the ripening oats, and on the red hawthorn berries and the golden rod and the winding stream. Hiram, convey the assurance of my regard to Mrs. Hornbeam and say to her that my preference for deep pumpkin pie has never wavered. Tell her I could swim the English Channel if one of her dinners were on the farther side."

"Tell her yourself," said Hiram, "she'd think I was hatching' up an excuse for askin' for more pie myself—By Hen!"
