BIG PARIS FAILURE CAUSES PANIC.

The End of a Famous French Financier.

Jules Jaluzot, Sugar King, Has Failed for Three Million Dollars—Other Wealthy Firms Involved.

NEW YORK, Aug. 1.—A Paris despatch to the Herald says that a panic was caused on the Bourse de Commerce yesterday by the announcement that Jules Jaluzot had failed to meet his engagements in the sugar market.

It was stated that his liabilities amounted to about 15,000,000 francs (\$3,000,000) and that two leading firms of sugar brokers had been compelled to suspend payments owing to Jaluzot's discomfiture. For a short time it was hoped that the arrangement would be made which would prevent a hurry on the exchange, but this optimism proved unfounded and the disorder reached such a point that no quotations for sugar could be given at the end of the market.

Jaluzot is a member of the Chamber of Deputies, where he has a seat on the Nationalist benches for a constituency in the department of Nièvre.

He was the founder of the Magasin du Printemps, and is managing director of the company which owns a great dry goods establishment in Paris.

Some years ago he undertook the control of sugar works at Origny, Sainte Beette, and Labrette, and speedily became prominent in the sugar market, being sometimes referred to as "Le Roi du Marche."

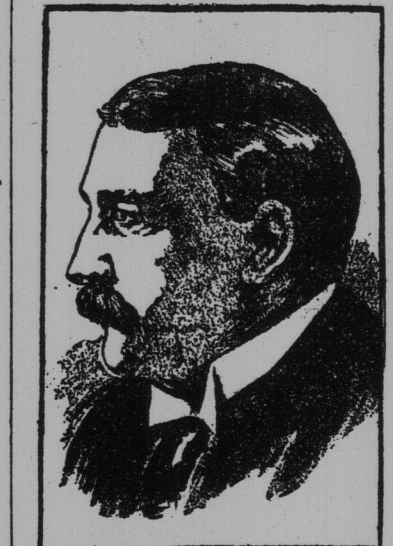

His speculations in sugar were the subject of investigation during M. Waldeck-Rousseau's premiership.

The immediate cause of Jaluzot's discomfiture is found in Saturday's quotation for sugar, namely 28 F., 12c. per bag. At the beginning of the year the price ruled at 45c. to 46c. per bag, and it would appear that Jaluzot then occupied a "bull" position, which he could no longer maintain when Saturday's closing prices were announced.

According to some financial authorities the great "slump" in sugar is the outcome of the battle between Jaluzot and the "bears," the latter forcing down prices in spite of the spring inclination that this year's best crop would be comparatively light.

WORK SUSPENDED ON PANAMA CANAL.

NEW YORK, Aug. 1.—The executive committee of the Isthmian Canal Commission has about decided to suspend any attempt at digging the canal until they are prepared for the work, cables the Herald's correspondent. The present sanitation will be replaced by vigorous reforms.

JOHN P. STEVENS, the recently appointed chief engineer of the Panama Canal.

pend any attempt at digging the canal until they are prepared for the work, cables the Herald's correspondent. The present sanitation will be replaced by vigorous reforms.

MILWAUKEE IS COMING.

The Milwaukee team, of which John "Tip" O'Neill is a member, are now in second place in the league race and only a few points behind Columbus, the leaders. In Thursday's game "Tip" made a splendid record for himself. He was five times at bat, had two hits, 6 putouts and one assist. Of one play the Milwaukee Sentinel says: "At this stage of the proceedings Goodwin concluded to pass O'Neil and work on Fox cuplet. Selver. His judgment came near undergoing a severe test. Fox popped up a fly to short left field that was far back of Robinson (8.8) for him to handle and apparently too near for O'Neill. But the fleet left fielder pulled the high speed lever, and by a splendid run he managed to get his gloved hand under the ball and completed the wonderfully spectacular play by whipping the ball to McCormick, who completed a double play."

This appeared to take all the fighting spirit of the Millers out of them and they calmly submitted to quick retirement in the two innings that followed."

SYDNEY REGATTA POSTPONED.

(Special to the Star.)
HALIFAX, N. S., Aug. 1.—The regatta events at Sydney have been postponed until tomorrow morning on account of the weather.

A heavy rain storm which set in here this morning also caused a postponement of the trades procession. It will take place tomorrow.

SERVILE LABOR AND SUNDAY SHINES.

Technicalities in Police Court This Morning.

Lawyer for Defense Contends Sunday Law Was Not Violated and That It Is Not Valid Anyway.

The charge against Peter Petropoulos shoe shiner, for keeping his shop open last Sunday, was taken up in the police court today. Mr. Petropoulos pleaded not guilty.

Officer Ross was sworn and A. W. Macrae acting for Petropoulos wanted to know under whose name the charge was laid.

The officer then gave testimony, saying he entered the shoe shine shop of Peter Petropoulos on Sunday last between 8 and 9 o'clock on Charlotte street and saw a man getting a shine.

As Peter Petropoulos was not there Mr. Macrae objected to the evidence.

Under cross-examination the witness said he knew Petropoulos was the owner because Petropoulos and his brother had told him so. He laid information because Capt. Jenkins had told him to report to his instructions.

The street cars are a necessity said the witness.

Macrae did not think witness could see any one in there from the street.

"Well, then I will go and sit there; you walk past and see if you can't see me," said the officer to the attorney.

Mr. Macrae said Sunday shines had been given for the past six years.

Mr. Petropoulos was not inside, said the witness, but he saw him outside.

Officer Scott gave his evidence in regard to the Dock street shop. Sunday morning he visited the shop about 9 o'clock. Witness said he asked the proprietors if they were not going to close. If they did not they would be reported. They continued to do business; he took their names and reported them.

Mr. Macrae did not cross-examine, and the prosecution closed.

Mr. Macrae said there was no evidence whatever of the defendant actually doing the work; to come under the act the work must be done either by himself or his employees. Further he claimed that if an employee did the work himself it would not be servile labor.

The Magistrate:—"There is no logic in that. Can labor be servile to one, and the same labor not servile to any who do it?"

Mr. Macrae:—"Yes! If I shave myself on Sunday I cannot be brought up for servile labor; but if I employ a barber to do this he is guilty."

The Magistrate:—"That is pretty good, but supposing you shaved me?"

Mr. Macrae:—"If I shave my brother-in-law, I am not guilty of servile labor."

The Magistrate:—"What are you guilty of?"

Mr. Macrae:—"An act of grace. The shining of boots per se is not servile labor. A man who shines his own boots is not doing servile labor. If a servant is shining his master's shoes he is doing servile labor. No labor per se is servile. Only when performed by a servant does it become servile."

Mr. Macrae further claimed the act is not in force. A portion of the old act was repealed in 1888. The shining of shoes he also claimed had now become a necessity in the civilized world.

The case he said also involved considerable hardship. The proprietor stated in with a small shop some years ago, and has gradually acquired a business, and now has run upon a section.

"The Lord's Day Alliance, I believe," he continued, "behind this; surely there is no more servile labor than the ringing of bells; again the organist is performing servile labor when he plays a double."

His Honor said that at one time many churches would not allow organs or paid singers to be in the building.

Mr. Macrae declared that closing on Sunday would so reduce the shoe shiners' revenue that the proprietors could not keep in the business. Two-fifths of their revenue is taken in on Sunday.

John de Angelis who was in court said he closed on Sunday.

The case will stand until Friday morning, and in the meantime Mr. Macrae will see if the proprietors of the seven shops cannot agree to close on Sunday.

The annual prize competition of the St. John City Rifle Club will be held on the Range tomorrow (Wednesday) afternoon. Cash to the amount of \$50 will be divided among the four classes for competition. Should the weather prove unfavorable the match will be postponed until Saturday afternoon.

ROUGH TRIP TO AND FROM BOSTON.

Calvin Austin's Passengers Had a Hard Time.

Dad Weather and Fog From the Time the Steamer Left Here Till She Returned.

The Calvin Austin reached St. John this morning soon after eleven o'clock, after a very dirty journey. In fact ever since she left here on Saturday evening the weather encountered was vile, although that experienced on the return journey was calculated to test the sea-going abilities of the much-travelled sailor.

On the outward journey the chief grumble was the fog, from which the Calvin Austin never got free from the time of leaving St. John until Boston was reached at half-past twelve on Sunday morning, and the constant tooting of the fog horn, coupled with the rolling and pitching of the ship from the high seas running made the journey anything but a pleasant one, and many were devoutly thankful to get back to St. John.

The weather continued bad in Boston all day Sunday, for wind and rain, making up as miserable a week's end as Boston has spent for some time past.

The fog was so thick all day that the steambot service was thrown out of its gear altogether, many of the boats being taken off. Sunday usually sees some 150 to 200 yachts all out, but there were not more than 20 who braved the elements, and most of them were unable to get back to Boston, owing to the fog.

Leaving yesterday at 12.30 the Calvin Austin at once got a taste of what was to follow, and out of the 492 passengers on board, there was hardly one who looked forward to the journey with pleasure after the first half hour.

A terrific head wind was blowing nearly all the journey, and those who were rougher as the evening advanced. Men, women and children in the throes of mal de mer were lying about dishevelled, not caring who saw them or what happened.

Sleep was out of the question in the majority of cases, and the stopping of the vessel for the purpose of taking soundings every now and again, added a new terror for the poor ladies on board.

William Macaulay, formerly of this city, but a number of years a resident of Boston, returned home this morning.

Peter A. Cohnin, of the Waltham Evening News, arrived in the city this morning.

Harry McClaskey, accompanied by Dr. and Mrs. Neils, arrived in the city by the Calvin Austin this morning.

William Raymond, son of W. E. Raymond, of the Royal Hotel, arrived in the city on the Calvin Austin this morning.

He had been studying in the summer school at the Boston School of Technology.

Daniel Mullin, K. C., arrived this morning from Montreal.

Mrs. King and Miss Roma King arrived from St. Andrews this morning and are visiting H. A. Austin, Mount Pleasant.

James R. Ayr, of Sackville, left for home this morning.

Albert McLaughlin is visiting his parents in Hillsboro.

George R. Newton, of Boston, arrived in the city this morning.

Mrs. Bradbury of Three Rivers, Quebec, arrived in the city this morning and is visiting her daughter, Mrs. A. E. McGinley.

Miss Margaret Furlong, formerly of St. John, but now of Norfolk, Va., is visiting her niece, Miss B. M. McCormick, 24 Adelaide street.

Thomas Campbell Dickson, the expert brewer for S. Jones, leaves this afternoon for Montreal where he will stay for Glasgow. It is five years since Mr. Dickson came to this city from Scotland and this will be his first visit home in that time. Mr. Dickson has made many friends during his stay in this city and all will join in wishing him a pleasant holiday visit to his home.

Miss Florrie O'Brien, of Duke street West End, has gone on a visit to her sister Miss Lizzie O'Brien in Portland, Me.

R. R. Smith, of Seely street, when leaving his house early this morning saw a large mouse travelling leisurely along that thoroughfare so close that he could have hit it with a stone. Leaving the street it cut up over the hill toward the park and disappeared.

A splendid lot of Skirts, wonderfully low-priced. A great variety for choice. Little prices to pay and a good array of styles.

NAVY CLOTH SKIRTS, pleated, trimmed with tabs and buttons \$2.95 and \$4.50
NAVY LUSTRE SKIRTS, made with flaring pleats 3.25
NAVY LUSTRE SKIRTS 2.75
BLACK LUSTRE SKIRTS 2.75
BLACK MELTON SKIRTS, made with yoke and trimmed with pipings 3.50
FINE BLACK MELTON PLEATED SKIRTS 4.75
BLACK CLOTH SKIRTS, trimmed with fancy braid and buttons 2.65
MISSES SKIRTS, black, \$1.65; grey or navy \$2.15 and \$2.25

WIFE MURDER AT CHESTER, MASS.

Husband Shot Wife in Her Father's Home.

Family Trouble Owing to Man's Drunkenness and Roving Disposition Ends in a Shocking Tragedy.

SPRINGFIELD, MASS., Aug. 1.—Charles Tiedman, aged 25, shot and killed his wife at her father's home in Chester today, according to a special to the Union. The couple had been separated more than a year.

Today Tiedman went to his father-in-law's home armed with a revolver and when his wife appeared at a window he fired. The shot struck the woman behind the ear and she died in 25 minutes without recovering consciousness. Tiedman escaped to the woods.

A posse was at once organized under direction of deputy sheriff Alvord and began a search for him.

Tiedman is of a roving disposition and has been employed from time to time as a brakeman on the Boston and Albany. For the last six months he has been tramping occasionally returning to town and annoying his wife and her family.

Mrs. Tiedman was about 22 years old. Her parents said that Tiedman had repeatedly pressed his wife to live with him but that she had refused to do so. The separation occurred it was stated on account of the husband's drinking habits. Recently Tiedman had threatened her with harm, and about a week ago the woman secured a warrant for his arrest, but he went away.

Leaving yesterday at 12.30 the Calvin Austin at once got a taste of what was to follow, and out of the 492 passengers on board, there was hardly one who looked forward to the journey with pleasure after the first half hour.

A terrific head wind was blowing nearly all the journey, and those who were rougher as the evening advanced. Men, women and children in the throes of mal de mer were lying about dishevelled, not caring who saw them or what happened.

SEVEN SWEDISH SAILORS KILLED BY A MINE.

STOCKHOLM, SWEDEN, Aug. 1.—Seven sailors were killed and eight severely injured today by the explosion of a submarine mine during mining practice in the Sandhamn roads near Stockholm. A boat containing the victims struck the mine and was blown into the air.

EVIDENCE INDICATES HARTLEY'S ASSAILANTS.

(Special to the Star.)
FREDERICTON, N. B., Aug. 1.—Two witnesses were examined this morning in the Hartley assault case, James Toner and Harry Adams. The former in his evidence said on the night of the assault he was in the vicinity of the railway track a short distance below where the assault took place. About nine o'clock three men, whom he recognized as the two McCabes and McMorley, passed him, proceeding up the hill and stood against the Randolph fence. Shortly after he heard scuffling and heard the remark, "He's had enough." Shortly after this he saw a man come down the hill hatless and pass him.

Adams swore he was in the vicinity of the assault that night. He saw three men and heard a scuffle but he could not identify the prisoners.

ST. JOHN STAR, TUESDAY, AUGUST 1, 1905.

METHODIST SCHOOL OF MISSIONS OPENED IN CENTENARY CHURCH.

REAR ROW—REV. THOS. MARSHALL, F. C. STEPHENSON, M. D. REV. THOS. PEARCE, REV. H. D. MARR, B. A., B. D., REV. J. H. RIDDELL, B. A., B. D., PRINCIPAL OF ALBERTA COLLEGE, EDMONTON.
FRONT ROW—REV. HOWARD SPRAGUE, D. D., REV. C. W. HAMILTON, REV. J. HEANEY, B. A., REV. W. W. LODGE, PRESIDENT OF N. E. AND P. E. I. CONFERENCE, REV. E. C. HENNIGAR, B. A., B. D.

The first session of the school of missions was held last evening in Centenary church. The attendance, considering the weather, was very good, and judging from the interest displayed at last evening's session the school bids fair to be a great success in this city. Besides the lecturers, who arrived on Saturday, and the Methodist ministers of the city, there were present the following Methodist clergymen: Rev. Mr. Sparrow of St. David's, Rev. Mr. Chapman of Harcourt, Rev. J. C. Berrie of Jacksonville, Rev. Mr. Strohman of Chatham, Rev. Mr. Lucas of Thetford, Rev. Mr. Young of St. Stephen, Rev. Mr. Gates from Nova Scotia.

J. B. Irvine of St. John, chairman of the school, opened last evening's meeting with a brief address, in which he pointed out that the missionary society of the Methodist church had this year contributed so far \$10,000 more than last year for the cause of missions. The chairman at the close of his remarks introduced Prof. Riddell of Edmonton, Alberta, who spoke on the necessity of prayer and Bible study in order to make a success of missionary work. Prof. Riddell showed that the first step toward all missionary work was the study of God's word and an understanding of the blessed truths contained therein. We might educate our young missionaries to the highest notch and send them out to their fields, and yet, if they had not a knowledge of the old book, they would be failures as evangelists.

Professor Riddell took up the study of the Bible from two standpoints: (1)

the personal study, and (2) the impersonal study of the word of God. By a personal study he meant taking the book and making a study of it in order to use it in everyday life. He thought this was a perfectly legitimate use of the Scriptures.

Prof. Riddell said he feared that in these days too many people read the Bible as if it were the work of some old penman who had made mistakes here and there. They read it as if God were everything. But we sometimes forget that there was the guiding hand of the Creator, without Whom they could not exist.

Coming to the impersonal study of the Scriptures, Prof. Riddell said some people read the Bible as they would Browning or some other good book. He loved to read these books himself, but he read the Bible in a very different way, because there was divine light shed on each of the pages. In this impersonal study of the Bible he took up each book and learned something of its writer, his purposes, etc. As he perused book by book in this way he was able to get an intelligent grasp of their contents.

Dr. Henderson, general secretary to the Methodist Missionary Society, was the next speaker. He spoke on "The Present Opportunity in China." "A great general one said," Dr. Henderson began, "that he had won all his

victories by knowing when and where to strike." He went on to point out that the time was ripe for the church to call out her reserves, and to advance upon the enemy. Perhaps there was no better opportunity at present in any foreign field than in China. China was never more ready to welcome the truth than she is today, and the church was never in a better position to give it to her.

Dr. Stephenson was then given a few minutes to explain the maps on the walls, at the close of which he urged the people to attend the future meetings of the school and to bring along their friends to hear the profitable lectures that were to be given.

The meeting opened again this afternoon at 8 o'clock. Prof. Riddell will give an address on the work in the Northwest which promises to be most interesting. The following is the programme for the afternoon and evening:

3 p. m.—Hymn No. 29, and prayer.
3.10 p. m.—The Northwest, Prof. Riddell.
3.40 p. m.—Hymn No. 68, 1-3.
4.10 p. m.—Notice and offering.
Doxology and benediction.
8 p. m.—Hymn No. 714, 1-5, and prayer.
8.10 p. m.—Study of Missions, Dr. Carman.
8.50 p. m.—Hymn No. 739, 1-4.
9 p. m.—Who Ought to Pay the Mission, Dr. Henderson.
9.50 p. m.—Offering, notices, and closing.

PREPARING FOR LABOR DAY IN MONCTON.

MONCTON, N. B., July 31.—Good progress is being made with the preparations for the celebration of Labor Day in Moncton. The programme will embrace a procession of trades and firemen in the morning, probably sports on the athletic grounds in the afternoon to wind up with a torchlight procession and band concert in the evening.

W. Albert Hickman, Canadian emigration agent in Great Britain who has been undergoing treatment for the last two months in a Montreal hospital, was a passenger by the maritime express this morning en route to Pictou. Mr. Hickman has many friends who will be glad to know he is almost completely restored to health.

TOOK PHOTOGRAPH OF FORTIFICATIONS

KINGSTON, Ja., July 31.—The investigation before a magistrate today of the charge made against Dr. Franklin Clarke of Boston, of wrongfully obtaining a photograph of the fortifications at Port Royal, resulted in Dr. Clarke being committed to trial before the circuit court, which will be held at the end of next month.

HYDE AND MORTON WITH LOCKED ARMS.

Paraded Together in View of Guests in Drawing Room at Mrs. Fish's Ball.

NEWPORT, R. I., July 30.—James Hyde and Paul Morton, the old and the new managers of the affairs of the Equitable Life Assurance Co. of New York, showed the world at the ball given by Mrs. Stuyvesant Fish that they were the best of friends. It had been reported that they had not only differed regarding details of the management of the great company, but that they had also fallen out socially.

At Mrs. Fish's ball they locked arms and walked up and down the drawing room floor. The scene was brought about by Gen. Horace Porter, ex-ambassador to France, who got the two men together and paraded with them down the hall in view of many multi-millionaire policy holders. The incident was the sensation of the ball.

J. L. McDOUGALL RETIRES FROM PUBLIC SERVICE.

Circular Issued Regarding Animal Quarantine Regulations—Canada's Sugar to South Africa.

OTTAWA, July 31.—The department of customs has issued a circular consolidating the instructions regarding animal quarantine regulations. The certificate of a qualified veterinarian is not required to accompany the horses from Mexico via the United States, but the certificate of a veterinarian of the United States bureau of animal industry is, however, necessary. Persons desiring to import horses from Mexico must get a permit from the minister of agriculture.

William Gliddon, accountant for the printing bureau, has been granted six months' leave of absence before he is superannuated. Gliddon has been in the service for 34 years.

The customs revenue for July shows only the slight increase of \$137,343. Turkey red wheat for seed grain for the bona fide farmers of Manitoba and the territories will be admitted duty free this month.

C. M. Kitchin, Canadian agent in South Africa, writing to the department of trade and commerce under date June 24th, points out that the South African colonies last year imported sugar to the value of \$3,425,515. Owing to the decreased output in Mauritius, Kitchin thinks Canada may be able to send refined sugar to the Cape. The duty upon refined sugar and sugar candy in South Africa is five shillings per 100 pounds.

RECENT FIRE LOSSES.

Losses on the several recent fires in the province have been adjusted and the insurance slate is clean up to date.

In the Sackville blaze Edgar Fairweather has found that the Tribune building was damaged to the extent of \$190, which loss is payable by the Western Company.

C. C. Avar's plant and stock received \$113 worth of damage, and of this amount \$208 has been paid by the Anglo-American and \$106 by the Canadian. W. I. Goodman's stationary stock loss was adjusted at \$288, equally divided between the Norwich Union and the Guardian.

E. B. Sharr's stock of candy suffered to the extent of \$130, payable by the Equity Company.

At the fire at Hopewell Hill, in which the Episcopal church and the town hall were destroyed, there was no insurance on the hall. The church and organ were worth, at a low estimate, \$1,200, and were insured for \$550 in the Sun Company. Total loss was found. The Millerton tanning plant at Millerton was insured in England.

F. W. DANIEL & Co
London House, Charlotte St.

DRILL HALL WORTHLESS AND DANGEROUS.—LORD AYLMER.

Lord Aylmer is thoroughly disgusted with the St. John drill shed. Yesterday forenoon, accompanied by Col. G. Rolt White and Col. Armstrong, he paid a visit to the barracks square and inspected the buildings and stores. He found that all the stores were as perfectly kept as is possible under the circumstances, but the drill hall he thinks is no good. Speaking to the Sun in the afternoon, Lord Aylmer said:

"Only a very light rain was falling when I inspected the drill shed this morning, but even then the roof was leaking very badly. With this rain which is falling now it must be a regular collander—basket hardly expresses it."

"I cannot see that the present building is of any value whatever to the department. I am of the opinion that the hall is not only unsuited to the requirements, but is actually dangerous. One end of the building is bulging out, and the added weight of a rain soaked roof might bring it tumbling down. Why, with a mass of snow on the building in winter the lives of many men may be in danger while the companies are at drill."

"The stores are well kept, but I am told that the buildings are so damp—which I can now well believe—that the men have to be continually rubbing and polishing the rust off the guns. I don't know that any serious damage may be done the equipment, but continued scraping is not good for it. I shall have something to say when I go back to Ottawa."

"I consider the government property a most valuable one. There is room down there for a couple of large and modern docks, and with the I. C. R. extension around the water front the facilities are admirable. It is, however, a matter of regret that the drill hall is so far from the centre of the city."

Lord Aylmer left on the six o'clock train last evening for Montreal.

MARRIAGE IN WEST OF N. B. COUPLE.

Many of our readers will be interested in the notice which appears in the proper column of the marriage of a young New Brunswick couple, which recently took place in the city of Victoria, B. C. The groom, Aaron Perry, is a recent graduate of Acadia, taking his B. A. in '01, his M. A. in '04, and his Ph. D. in '05. During the past year he has been principal of the High School in Kamloops, where he has met with marked success as a teacher. The bride is one of New Brunswick's fairest and most accomplished daughters, Miss Mamie E. Keith, daughter of Charles B. Keith, Esq., of Havelock, Kings Co. She is a graduate of the St. Martins Baptist Seminary and is a young lady who is in every way calculated to enrich the social and religious life of any community where she may make her home. No doubt Mr. and Mrs. Perry will find a wide field of usefulness in their western home. The marriage took place at the residence of a fellow student of Mr. Perry, Rev. E. Le Roy Dakin, and was witnessed by a few friends, among them being Mayor and Mrs. Stevens of Kamloops. After spending a month in visiting Victoria and neighboring cities, taking in the Portland Fair, the young couple will return to Kamloops, where Mr. Perry will resume his duties in the High School—Messenger and Visitor.

YELLOW FEVER STILL SPREADING.

NEW ORLEANS, July 31.—New cases today 21. Cases to date 220; Deaths today 5. Total deaths since July 13, 62. New centers 5. Total centers 46.

Of the five deaths reported today, three occurred in the Emergency hospital and all were Italians.

Another new case was discovered outside of the city, being that of an Italian who left here a week ago with several others and took up his residence in Morgan City.

Dr. Richardson of the Marine Hospital service who is in charge of the fumigation, oiling and screening of houses in the original center of infection and whose forces are also making outside inspections, reports that up to date he has made 2,650 inspections and has found 39 cases of fever, most of which were sent to the Emergency hospital in a screened ambulance.

THE TRANSPORTATION COMMISSION AT MONCTON.

MONCTON, July 31.—The members of the royal transportation commission were here today and spent some time with General Manager Pottinger and other railway officials, leaving tonight on the Montreal express.

The joint protective board of the Brotherhood of Locomotive Firemen of the government railway system held their annual meeting here today.

CITY LABORERS' UNION.

There will not be any strike among the I. C. R. laborers at Quispamsis, as the railway will pay the standard rate of \$1.50 to all laborers from the city. At the meeting of the city laborers' union last evening a motion was passed to invite all members of the union to attend the meeting on August 14th for the purpose of making arrangements respecting the Labor Day parade. Referring to the society, Financial Secretary Burke said the standing of the organization was on a sound basis, notwithstanding reports in circulation to the contrary. Discrepancies may be found in the best institutions, but so far he was pleased to say the union was making rapid strides, no better proof being needed than the initiation of five new members last evening.

THE KAISER AGAIN.

He Holds Another Royal Consultation, This Time With King Christian of Denmark—Visit Was Informal.

COPENHAGEN, July 31.—The meeting between Emperor William of Germany and King Christian today was of a very quiet and informal character but the Emperor's absorbed demeanor seemed to show that he attached great importance to the visit. The forts and warships fired royal salutes on the arrival of the imperial yacht Hohenzollern.

King Christian was attired in the uniform of a German Admiral and in company with the Crown Prince and the other princes, Premier Christensen and foreign minister Count Lovstrand welcomed the Emperor, who wore the uniform of a Danish Admiral. There was no formal reception. The monarchs embraced and Emperor William conveyed to King Christian the greetings of Emperor Nicholas of Russia. The party immediately entered carriages and drove to Bernstorff castle amidst much cheering by the spectators.

Throughout the drive the Emperor was in earnest conversation with the King and took little notice of the decorations or the populace.

The monarchs walked together in the palace gardens this afternoon and this evening there was a state dinner at which forty guests assembled. King Christian briefly thanked the Emperor for his visit, and the latter expressed his thanks for having been two years ago appointed a Danish Admiral.

QUEBEC A FINE STATE IN AMERICAN UNION.

Mr. Monet, Ex-M. P., Gives Expression to His Opinions Concerning Future of French Canadians.

MONTREAL, July 30.—"Would not the province of Quebec be a fine State in the American Union? A State where you would be as much at home as we are today in Rhode Island, in Massachusetts, in New Hampshire?"

The above is an exact quotation from a speech delivered by D. Monet, ex-M. P., and now M. L. A. for Naperville, in the Franco-American plenary held on Thursday at Crescent Park, Rhode Island. "Will we be eternally a British colony?" asked Mr. Monet. "Certainly not," he replied, "for in fifty years the population of Canada will be twice as much as most of the independent States of Europe. Will we then be annexed to the United States, or will we rather take the form of an independent country of the world? Whatever the future may be, or even the long status quo, which is reserved to us, we have only one ambition, and that is to play a preponderant role in the changes that will take place in Canada's destiny. We cannot hope to lead, as the Canadian West will certainly overflow us, there is no possible doubt, after the discussion which took place last session on the autonomy bill of the two new provinces.

"We must therefore conserve as faithfully as possible our national character. We must improve and render popular our system of primary education in the province of Quebec. To do all this we must count on national support and sympathy of the French Canadians of the United States. If the millions of our compatriots who reside in the States conserve our tongue and their national character, in fifty years' time there will not be at least ten or twelve million French Canadians in this continent, and then what element will be sufficiently strong to get along without us in Canada?

"If it is annexation to the States the union could be effected on a more honorable and advantageous basis for us. If, however, it is independence, we will then try to exchange with the government at Washington our English provinces of Western Canada for the French Canadian States of New England."

The report adds that when Dominique Monet had thus delivered himself he took the train for Fall River.

CANADA'S FIRST WHEAT CORNER WAS ENDED YESTERDAY.

WINNIPEG, July 31.—The "corner" in July wheat ended today with the close of the grain exchange at Winnipeg. This terminates for the time being, at least, the first successful corner ever engineered in Canadian grain. The agony is over, and those who sold wheat which they did not own know approximately what the amusement costs, but the public will never know, as there have been private settlements made from day to day at prices all the way up to \$1.33. There is a well grounded idea abroad among men that there is also a very considerable short interest in August, which, however, has been accumulating in a different way, as August is not what is known as a speculative option month such as July. The August sales of wheat, especially to eastern and foreign millers, who must have the wheat for mixing purposes, is reported to be considerable, but as these sales were made in the way of supply and demand, and though large in the aggregate, yet in small lots, it is not likely that any sensational advances will again be recorded, but this too cannot be actually determined until the next few days of August draw near. A general review of the situation brings out the following points: that there is scarcely a bushel of contract wheat in the farmers' hands, and practically all the high grade wheat is now owned by the Ogilvie company, and the Ontario millers and foreign companies must come to them for what wheat they require.

BLOOMER GIRLS WON.
"It was a great far ahead of them we will have to let them get a few more as a matter of courtesy," said one of the Bangor baseball players before the game with the Bloomer girls at Maplewood park Saturday afternoon and the other members of the team promptly assented. The score was 19 to one in favor of the Bloomer girls. The Bangor players were out of practice or were badly rattled by the unusual conditions of the game, for they gave one of the sortiest exhibitions of baseball ever seen at Maplewood. For the Bloomer girls, three men played fairly well, Miss Maude Nelson, pitcher and shortstop, gave a really wonderful exhibition; the first base girl knew something about the game, while the rest of the team were merely figureheads. Miss Nelson started in to pitch, and for four innings the local players struggled in vain to connect with her speedy curves and shots. Then she retired to shortstop, where she further demonstrated that she is a real ball player. She gathered in all the swift grounders and liners which came anywhere near her and lined them over to first with amazing speed and accuracy. But it was at the bat that she excelled. Three sharp singles and a home run with two girls and a man on bases indicated that her eye for the ball was good—Bangor Commercial.

THE SIMPLE LIFE.
(Chicago Chronicle.)
—Will Payton, that gentle writer of strenuous fiction, has moved to a peach farm at Pawpaw, Mich. "You get up at five," he says, "and work till dark for eleven months of the year. Then Mr. Armour sends a refrigerator car along and takes all you have. This is the simple life."

AN ABSURD PROPOSITION.
(Boston Herald.)
—Professor C. T. Copeland, of Harvard University, has a mat-of-fact way with him which occasionally is deadly. An altercation had arisen between Mr. Copeland and another gentleman in regard to the social position which colored students should hold at Harvard. Mr. Copeland insisted vigorously that negroes should stand on exactly the same social level as other students.

"Well, now, Mr. Copeland," said his companion, "how would you like to have a negro marry your sister?"
"Not at all," replied Mr. Copeland, promptly; "my sister is married."

Andrew Carnegie tells this as one of his experiences at Skibo. Soon after he had bought Skibo there was a circus exhibiting in the neighborhood of the castle, and one of the main attractions was an orang-outang. One night the orang-outang got out, fell over the cliff and was killed. In the morning two of the Skibo keepers looking over the grounds ran across the body of the dead orang-outang. One of them scratched his head and said: "He ain't no 'lander, that's sure." The other said: "He ain't no 'Lowlander, they ain't got that much hair on 'em." After a while one of them proposed to the other as follows:

EGG MEMBRANE A HEALER.
Valuable When Used in Cases of Burning or Ulceration.

At a recent session of the Therapeutic association of Paris Dr. Amat lectured on the use of the membrane of eggs in the treatment of wounds. He has observed for some time the good results of placing these membranes upon the surface of wounds and reports two new cases, that of a young girl suffering from a burn on her foot, and a man, 40 years old, with a large ulcer on his leg. Both wounds were in process of healing and were covered with healthy granulations. The surgeon overspread them with six or eight pieces of the membrane of eggs, which was covered with the foil and fastened with dry antiseptic bandages. After four days the bandages and tin foil were removed and it was shown that the membrane of the egg had partly grown into the good skin. That the egg membrane had contributed much to the healing process was demonstrated in the further course of treatment. It seems, however, that the membrane does not always adhere. The process of cicatrization is not only hastened, but the wound heals exceptionally well and leaves but few perceptible traces.

ONE TOO MANY.
(Washington Post.)
A correspondent tells of the experience of a literary friend into whose family a seventh child came last summer. The family were at their country house, and for a time a good deal of the care of the other six children devolved upon the father, who has Spartan ideas as to the upbringing of his sons. One morning he carried his two-year-old to the creek near his home, to give him a cold plunge. The child objected lustily to this proceeding, but was firmly held and ducked, notwithstanding.

At this instant of the ducking, however, a branny hand seized the Spartan father by the shoulder and flung him back, while the angry voice of the farmer, who was his nearest neighbor, roared in his ears: "Here, none of that! I'll have the law on you for this!"
"And," said the literary man, "it took me half an hour to convince that man that I was not trying to drown that child. Even then he wasn't wholly convinced. To the very last minute he kept on shaking his head skeptically, and saying: 'Wal, I dunno about that. I dunno. You got six besides this.'"

HOPE ON, HOPE EVER.
"When I was 21 years of age," said the scanty-haired passenger, "I thought I wasn't rich enough to retire at 38. I would be too old to enjoy wealth."
"How old are you now?" queried a knight of the sample case.
"Seventy-two," was the reply.
"And you are a millionaire, I suppose," said the drummer.
"No," answered the old man, "I am as poor as Job's turkey. But I've got a scheme on tap now that will make Carnegie's pile look like 30 cents by the time I am 75, and then I propose to settle down and enjoy life."

SPECIFIED THE GROUND.
Jack—I love the very ground that girl walks on.
Tom—Which girl?
Jack—The one in the blue suit.
Tom—What's her name?
Jack—Don't know. Never saw her before.
Tom—Then what do you mean by saying you love the ground she walks on?
Jack—Why, the ground she walks on is worth all of \$5,000 a front foot. That's the answer.

AN EFFORT THAT FEEL SHORT.
(Boston Herald.)
Lieut. Gov. Bruce says a small headstone in a cemetery in the western part of the state is pointed out to visitors as one of the sights of the neighborhood. It was placed over the grave by a widower, who while not lacking in love for the departed one, was penurious to a degree. He ordered a small stone because it was cheap, and told the mason to engrave on it this inscription: "Sarah Hackett, Aged Ninety Years. Lord, she was 'Tine." The stonemason said there was too much inscription for so small a surface, but was told to go ahead and "squeeze it on somehow." Here is the inscription "squeezed": "Sarah Hackett, Aged 90. Lord, she was 'thin."

USUAL PERFORMANCE.
"Then so far as you are aware," said the lawyer who was doing a cross-examination on the back platform, "Yes, sir," replied the tall man, "licensed chauffeur, I suppose."
"No, mounted policeman."

Seasonable Footwear.

ST. JOHN STAR.

ST. JOHN, N. B., AUGUST 1, 1905.

FEAR IN HALIFAX.

Halifax newspapers are striving clamorously to awaken the worthy but somewhat somnolent citizens of that pleasant but rather out-of-date town to a sense of the awful peril overhanging them.

Sir Wilfrid's pray-heaven-it-may-not-be-too-late pose when he introduced the Grand Trunk Pacific bill was calm and confident when compared with the attitude of those journals in the face of present reports concerning the construction of that road. The idea that the Grand Trunk Pacific may use the I. C. R. or may come down the St. John valley route throws them into distressing fits of panic, though why, it is difficult to understand since under any condition the road is bound to come to Moncton, whose distance from Halifax will be the same no matter what route the line takes before reaching there.

The Acadia Recorder especially takes the matter very seriously and catty sounds claret notes of incoherent alarm and exhortation. A recent editorial on the subject is headed, "The Lost Hope of Nova Scotia." Its tenor, somewhat vaguely expressed is to the effect that some vile plot is on foot to defraud and ruin Nova Scotia in general and Halifax in particular in the interest of some out of the way and undeserving hole by the name of St. John and its evident purpose is to galvanize its native city into a semblance of life before the horrid conspiracy is consummated.

"Do not let Halifax rest on its oars," it cries. "Do not let Halifax wait too long till we wake up and find we have been stolen from us." "We do not need to wait for Engineer Lumsden's report," it insists. "The interim report gives all the data necessary. It disproves entirely Senator Power's, Senator MacKenzie's and Senator Black's pessimistic utterances. That report has been wrongly used. Even Engineer Butler's full statement has been used fairly—we say this advisedly and in the course of our editorial articles on the subject we shall show, as we started out by saying, that these senatorial remarks were not only ill-timed, ill-considered, but unsupported. More on this aspect we shall not say this evening than this—Halifax, get a hustle on! Move! Get the Board of Trade in other parts of the province to move! The Transportation Commissioners have in as plain words as any would wish to have ginned into their ears, told us we are sleeping while others are awake, are alive to their interests. Unless we are alive we shall rue the day."

Disturbed by all this clamor, like one awakened from a night-mare with a sense of terrible danger but a confused idea of the way of escape, some Halifaxians have been striking out in a rather uncertain fashion but with good intent. For instance, the board of trade and city council have sent a request to General Manager Hays to get him to continue the line from Moncton to Halifax, paralleling the I. C. R. all the way. Of course General Manager Hays is not concerned with the building of the eastern section of the G. T. P. and if he were he would equally of course do no such foolish thing as to build it a hundred miles or so longer than was necessary to reach tide-water; but the fact that any action at all, however wide of the purpose, came from such a source must be encouraging to those who have been applying the galvanic current.

A more sensible suggestion than this is that if the G. T. P. should adopt the St. John valley route, all the Nova Scotia residents should resign. That is a good idea without a doubt. For, granted that the diversion of the road would injure the province, the benefit that would accrue from the permanent retirement of the eighteen present representatives in parliament would more than compensate. A good solution of the problem—which apparently has not yet suggested itself either to the papers or the people—would be to get completely shifted a little nearer the source of traffic, or even better than that, why could not the citizens move to St. John?

FRENCH LIBERAL DOCTRINE.

Dominique Monest, formerly a Liberal member of parliament and now a member of the Quebec legislature, made a speech the other day at a Rhode Island picnic—it is briefly reported in another column—in which he hopefully predicted either annexation or independence for Canada in a few years. A week or so ago Admand Lavergne, Liberal M. P. and intimate friend of Laurier had an article in Le Nationalists of similar tone, though with more emphasis on independence than annexation.

These men are leaders of the younger French Canadians, the element which is growing every day stronger in the councils of the government, the element at whose bidding the shackles of sectarianism were riveted on the new Northwest provinces.

The aldermen of the Safety Board, in their generosity and appreciation of good work done, have recommended an increase of pay for the Chief of Police, to begin when the Liberal government at Fredericton hands over to the city council the power of appointing the holder of that important office—which will be about the time of the kalends of Greece. The reserve of the aldermen in this matter is strikingly reminiscent of the cautious lady who gave her daughter permission to go out and swim on condition that her clothes should be hung on a hickory limb and that the maiden herself should not go near the water.

MR. MCBRIDE NOW SAFE.

Mr. McBride's administration in British Columbia now sees clear sky ahead. After a long experience of coalitions the province started out under Mr. McBride with a straight conservative administration. Premier McBride could not after the last election claim a clear majority, as two independent members held the balance of power. But he has until now been able to carry his measures and defeat motions of want of confidence. All attempts of the liberal opposition to gain seats in by-elections have failed, and now the government has captured a seat hitherto held by the opposition. For this the Laurier government is in part responsible, as the previous member for Alberni had been made chief commissioner for the Yukon. Conservative federal patronage wrecked several conservative provincial administrations between 1878 and 1886. Since the latter date the patronage of the Laurier government has had a share in destroying administrations of the same party in Ontario and Manitoba, and did some damage to Mr. Parent in Quebec—Sun.

THE HAPPY VALLEY.

Tell me not of sadness;
Thought of it is madness;
Tell me but of gladness;
Lull me with a song.
Let me seek the pleasure
Of the honey treasure,
Treasure in full measure,
While the days are long.

Safe from Fortune's malice,
Have I built a palace;
Deep from beauty's chalice
Quaffing true-love kisses.
If I list the thunder,
Or the earthquake underfoot,
'Tis because then wonder
Thrills my soul with bliss.

Round the tamarisk cover,
Ring-dove, ring-dove, hover;
Wheel above us over
Ears in meadow-sweet.
Fools are bent to labor!
To the pipe and labor,
Neighbor links with neighbor,
So as oft to meet.

In a happy valley,
We will dance and dally,
Bull and cow, and gaily
Banquet in the shade,
Merry tales and modest,
Quills and fancies oddest,
Waive these, if thou mindest
Ere "Good-night" be said.
—From "The Greek Kalends," by Arthur Dillon.

NEGRO MURDERED WHITE WOMAN

FOR HOOODOOING HIS WIFE.

RICHMOND, Va., Aug. 1.—Lizzie Jackson, an Irish woman was brutally beaten to death at Mount Laurel, Halifax County, on Sunday night, by Early Mosley, a negro who claimed that the Irish woman had "Hoooodooed" his wife. Mosley made his escape and disappeared.

FAMOUS BASEBALLIST A MANIAC.

LOS ANGELES, Calif., Aug. 1.—George Decker once famous as a first baseman, was committed to the State Hospital at Patton yesterday insane with homicidal mania.

AN EDITOR MURDERED.

FRESHNO, Calif., Aug. 1.—Emmet Higgins, contractor, yesterday shot four times and killed Robert E. Deane, a vineyardist living near Clovis. Deane was once editor of a Philadelphia paper. The shooting grew out of a trivial quarrel.

WHEN WOMEN LOVE.

"When Women Love" is the title of the drama which will be the offering at the Opera House August 7th. "When Women Love" and we all only too readily know the comfort of one good woman's love. There have been titles innumerable looking from a box office standpoint, of plays calculated to catch the public fancy, but the simply old, old theme, of "When Women Love" is such sweet remembrance to us all that the play of Spitz & Nason will no doubt be very successful for some time to come.

A HEARTY LAUGH.

An evening of hearty laughter was provided for a good audience at the Opera House last night by the comedy "Neighborhood Neighbors," a play that is simply a collection of funny episodes, each of which is a pretty thing with just enough plot to hold it together. It will be repeated tonight and tomorrow afternoon and evening.

LOCAL NEWS.

Glasses—the right kind—at D. Boyaner, graduate optician, 651 Main St. The schooner Lyra, which went ashore in "Biac's" Bay on Saturday, has been sold, along with the cargo, the sale being negotiated by Capt. Evans, who owned the vessel. Both the vessel and cargo were insured. E. Hart Nichols, barrister, of Digby, N. S., is at the Royal. Mr. Nichols has been travelling through the west for the past three weeks, and is greatly impressed with the possibilities of that great country, so much so in fact that he has decided to locate out there. Mr. Nichols visited Winnipeg, Calgary, Edmonton and Regina, but has not finally decided in which of those places he will settle. His brother, Frank, will continue in practice at Digby.

While coming up the harbor yesterday morning the schooner Alba, Capt. Newcombe, ran ashore on the foils ground below the Ballast wharf and filled with water. She was pulled off and towed up to the wharf. Otherwise than being full of water the Alba was undamaged.

The wedding took place on Wednesday, July 26, of Herbert King of Fredericton, N. B., and Miss Mary B. Ellis of Old Town, Maine, formerly of St. John, N. B. The bride was becomingly attired in blue silk and wore a white chiffon hat with a white ostrich feather. The ceremony was performed by the Rev. Father Trudell of St. Joseph's church, Old Town. After the ceremony Mr. and Mrs. King left for Fredericton, where they will reside.

Several members of the staff of the Savings Bank are rejoicing over an increase in salary. Messrs. Sanction, Cowan, Ewin, Haine and Lawson have been receiving one hundred and fifty dollars each.

The funeral of the late Mrs. Catherine E. McPeters of St. John, N. B., who died at Sussex last Saturday morning, was held this afternoon at 2.30 o'clock from the residence of her daughter, Mrs. H. H. Dryden, interment being at Kirk Hill cemetery. Rev. Mr. Camp conducted the services.

The lecture on temperance given by Mr. Wightman, permanent secretary of the Sons of Temperance in England, at the Church of England Institute last night was greatly enjoyed by those who had the good fortune to be present. At the conclusion a vote of thanks was accorded the speaker, C. E. Everett being the mover.

One of the morning papers today had an account of the finding of \$100 in a sack of oats by a farmer of Belleisle Bay. These oats were purchased by W. A. Crookshank of Burn's wharf, Belleisle, who bought them from P. Nase & Sons, Indiantown. The Indian town firm said this morning that it was their custom to drop such fat wallets around that the oats came from Ontario and that perhaps they do things differently there.

Riggs who was recently sent to Dorchester for sending threatening letters to a woman in Fredericton, attempted to commit suicide on Sunday night. He was found by the police, which he stuck through his cell window, but the pole broke. Policeman Crawford and Mrs. Crawford returned from the north of the province yesterday, where the former was enjoying his vacation. He had some very fine trout and salmon with him. He said that in a pool, the property of Police Magistrate Brimer, of the parish of Perth, he landed a 28-pound salmon. He operated chiefly along the Temiscouata and Tobique.

VALUE OF "OZONE."

The value of "Ozone" (it is really called) is well known to medical science. It kills the germs of internal disorders. If taken in concentrated form and that means "Solution of Ozone, (the coupon kind)" it ensures a speedy cure for asthma, bronchitis, Bright's disease, kidney trouble, malaria and rheumatism. This stringent remedy needs with it a tonic laxative to secure the best results. Your druggist will give you sixteen ounces of "Solution of Ozone (the coupon kind)" for fifty cents and if you insist on the coupon kind will guarantee a free package of "Celery King." The Public Drug Co., Bridgeburg, Ont.

WITH ADVERTISERS.

On page 5 of this issue C. B. Pidgeon, of the North End, announces a grand clearance sale of summer goods in evening dress, and that means "Solution of Ozone, (the coupon kind)" it ensures a speedy cure for asthma, bronchitis, Bright's disease, kidney trouble, malaria and rheumatism. This stringent remedy needs with it a tonic laxative to secure the best results. Your druggist will give you sixteen ounces of "Solution of Ozone (the coupon kind)" for fifty cents and if you insist on the coupon kind will guarantee a free package of "Celery King." The Public Drug Co., Bridgeburg, Ont.

Mr. Pidgeon has not forgotten the ladies either, as he is offering them some rare bargains in summer shoes. These bargains are in evening dress, and that means "Solution of Ozone, (the coupon kind)" it ensures a speedy cure for asthma, bronchitis, Bright's disease, kidney trouble, malaria and rheumatism. This stringent remedy needs with it a tonic laxative to secure the best results. Your druggist will give you sixteen ounces of "Solution of Ozone (the coupon kind)" for fifty cents and if you insist on the coupon kind will guarantee a free package of "Celery King." The Public Drug Co., Bridgeburg, Ont.

Stepladder of Human Progress

from Aborigine to Anglo-Saxon

HOW near is man to the apex of mankind, forming a kind of ladder of progress on the steps of which the various types are to be found. These are many instances on the Ladder of Progress of the races of man-kind, and, while the results seem to be sudden, the underlying causes have been developed either rapidly or for a long period of time.

We naturally regard the yellow races as inferior, yet only within the past few years the latent capability of at least one of the yellow races has been brought into relief. A year ago we least a rung lower down than the Russian, just made by an eminent German scientist, Dr. Alexander Sokolowsky, lately connected with the University of Zurich and now living in Charlottenburg. Here is his own summary of the situation, showing the various grades

the latent powers of the white race, and at a result, when the test comes, they are found below the yellow race, which they regarded with disdain. It seems now as if the contention of Professor Sokolowsky that there is a greater parity among the races than had been suspected is being justified, and that under proper conditions the inferior race may become the superior.

1. Queen Alexandra-Anglo-Saxon.
2. High Caste Hindoo Girl.
3. A Kabyle Woman.
4. A Soudanese Arab.
5. An Indian Chief.
6. A Laplander.
7. A South American Indian.
8. A Somali Woman.
9. West African Family.
10. A Shabell Woman.
11. Eskimo Woman and Child.
12. A Samoan Woman.
13. A Polynesian.
14. Patagonian.

leading to great extremes, in some instances over the entire body.

15. New Caledonian Woman.
16. Melanesian.
17. Native of Bismarck Archipelago.
18. Melanesian Family.
19. Men from New Mecklenburg.
20. West African Negroes.
21. Fire Island Family.
22. Australian Aborigines.
23. Skull of Chimpanzee.
24. Skull of Orang-Outang.
25. Skull of Gorilla.
26. Skull of Negro.
27. Skull of Malay.
28. Skull of European.

women are seldom good looking, and when old are veritable hags. The woman is a beast of burden among the Australians, if the family moves, it is the woman who must carry, not only the children, but the household goods as well, while the man walks along carrying nothing but his weapons. Not only does polygamy prevail, but women are utterly despised, eating what is left after the lord and master has finished his meal, and marriage is generally nothing more nor less than wife-stealing. While the sense of shame seems to be unknown to the Australian, the unfaithful wife is punished with death. Sickly children are killed without hesitation, especially girls. The men confine their energies to hunting wild animals, eggs and honey. Yet these lowest of men are possessed of a peculiar talent for drawing, which shows itself on the rocks and sides of caves. And they are cannibals of the lowest order, eating their enemies and children, even corpses.

As the climate grows milder the civilization of the Indian tribes increases until we have the agricultural-hunting Indians of North America. Then, as we travel north the grade of culture declines once more, until we reach the low Esquimaux who is only a few degrees better than the Fire Islander. Here again it is the climate which prevents the development of the people beyond fishing, yet the morals of the Esquimaux are for some reason higher than those of the South Polar neighbors.

African Primitive Races.
If now we look at the African continent we find a great multitude of low races different in many ways, yet all creeping along the lower rungs of the ladder of Progress. Here are the dwarfs whom Stanley found, utterly cruel, even though so small, and then there are the larger natives of the interior, no less cruel and just as savage against the intruders of the white man.

Look at the Arabs of the Sudan, and you see how race tells even under the same conditions as those with which the negro has to contend. Savage to a certain extent, these Arabs still control the country by their intelligence until the European forces his way.

Lowest Human Beings in America.
The lowest grade of human beings on the Western Continent, America, is found at the southernmost extremity in the Fire Islanders. They are Indians, but on account of the terrible rigors of their climate they have made little progress. Living chiefly upon fish and mussels little art is required to gain a livelihood. They do not hesitate to slay their old women, and to eat each other, living polygamously in groups of a dozen. Their

The Kabyle woman is an entirely different creature from her negro neighbor, but it is by her greater intelligence and the development of the arts of civilization that she and her people stand above the savages that surround them.

Regarding the features of the full-blooded Hindu maiden and you cannot fail to be impressed with the intelligence and culture that speak from every lineament. She represents the highest civilization of the primitive peoples of the earth, with a wonderful religion, even a philosophy of life.

A Melanesian Warrior of the Pacific Islands.

The Gradation of Mankind.

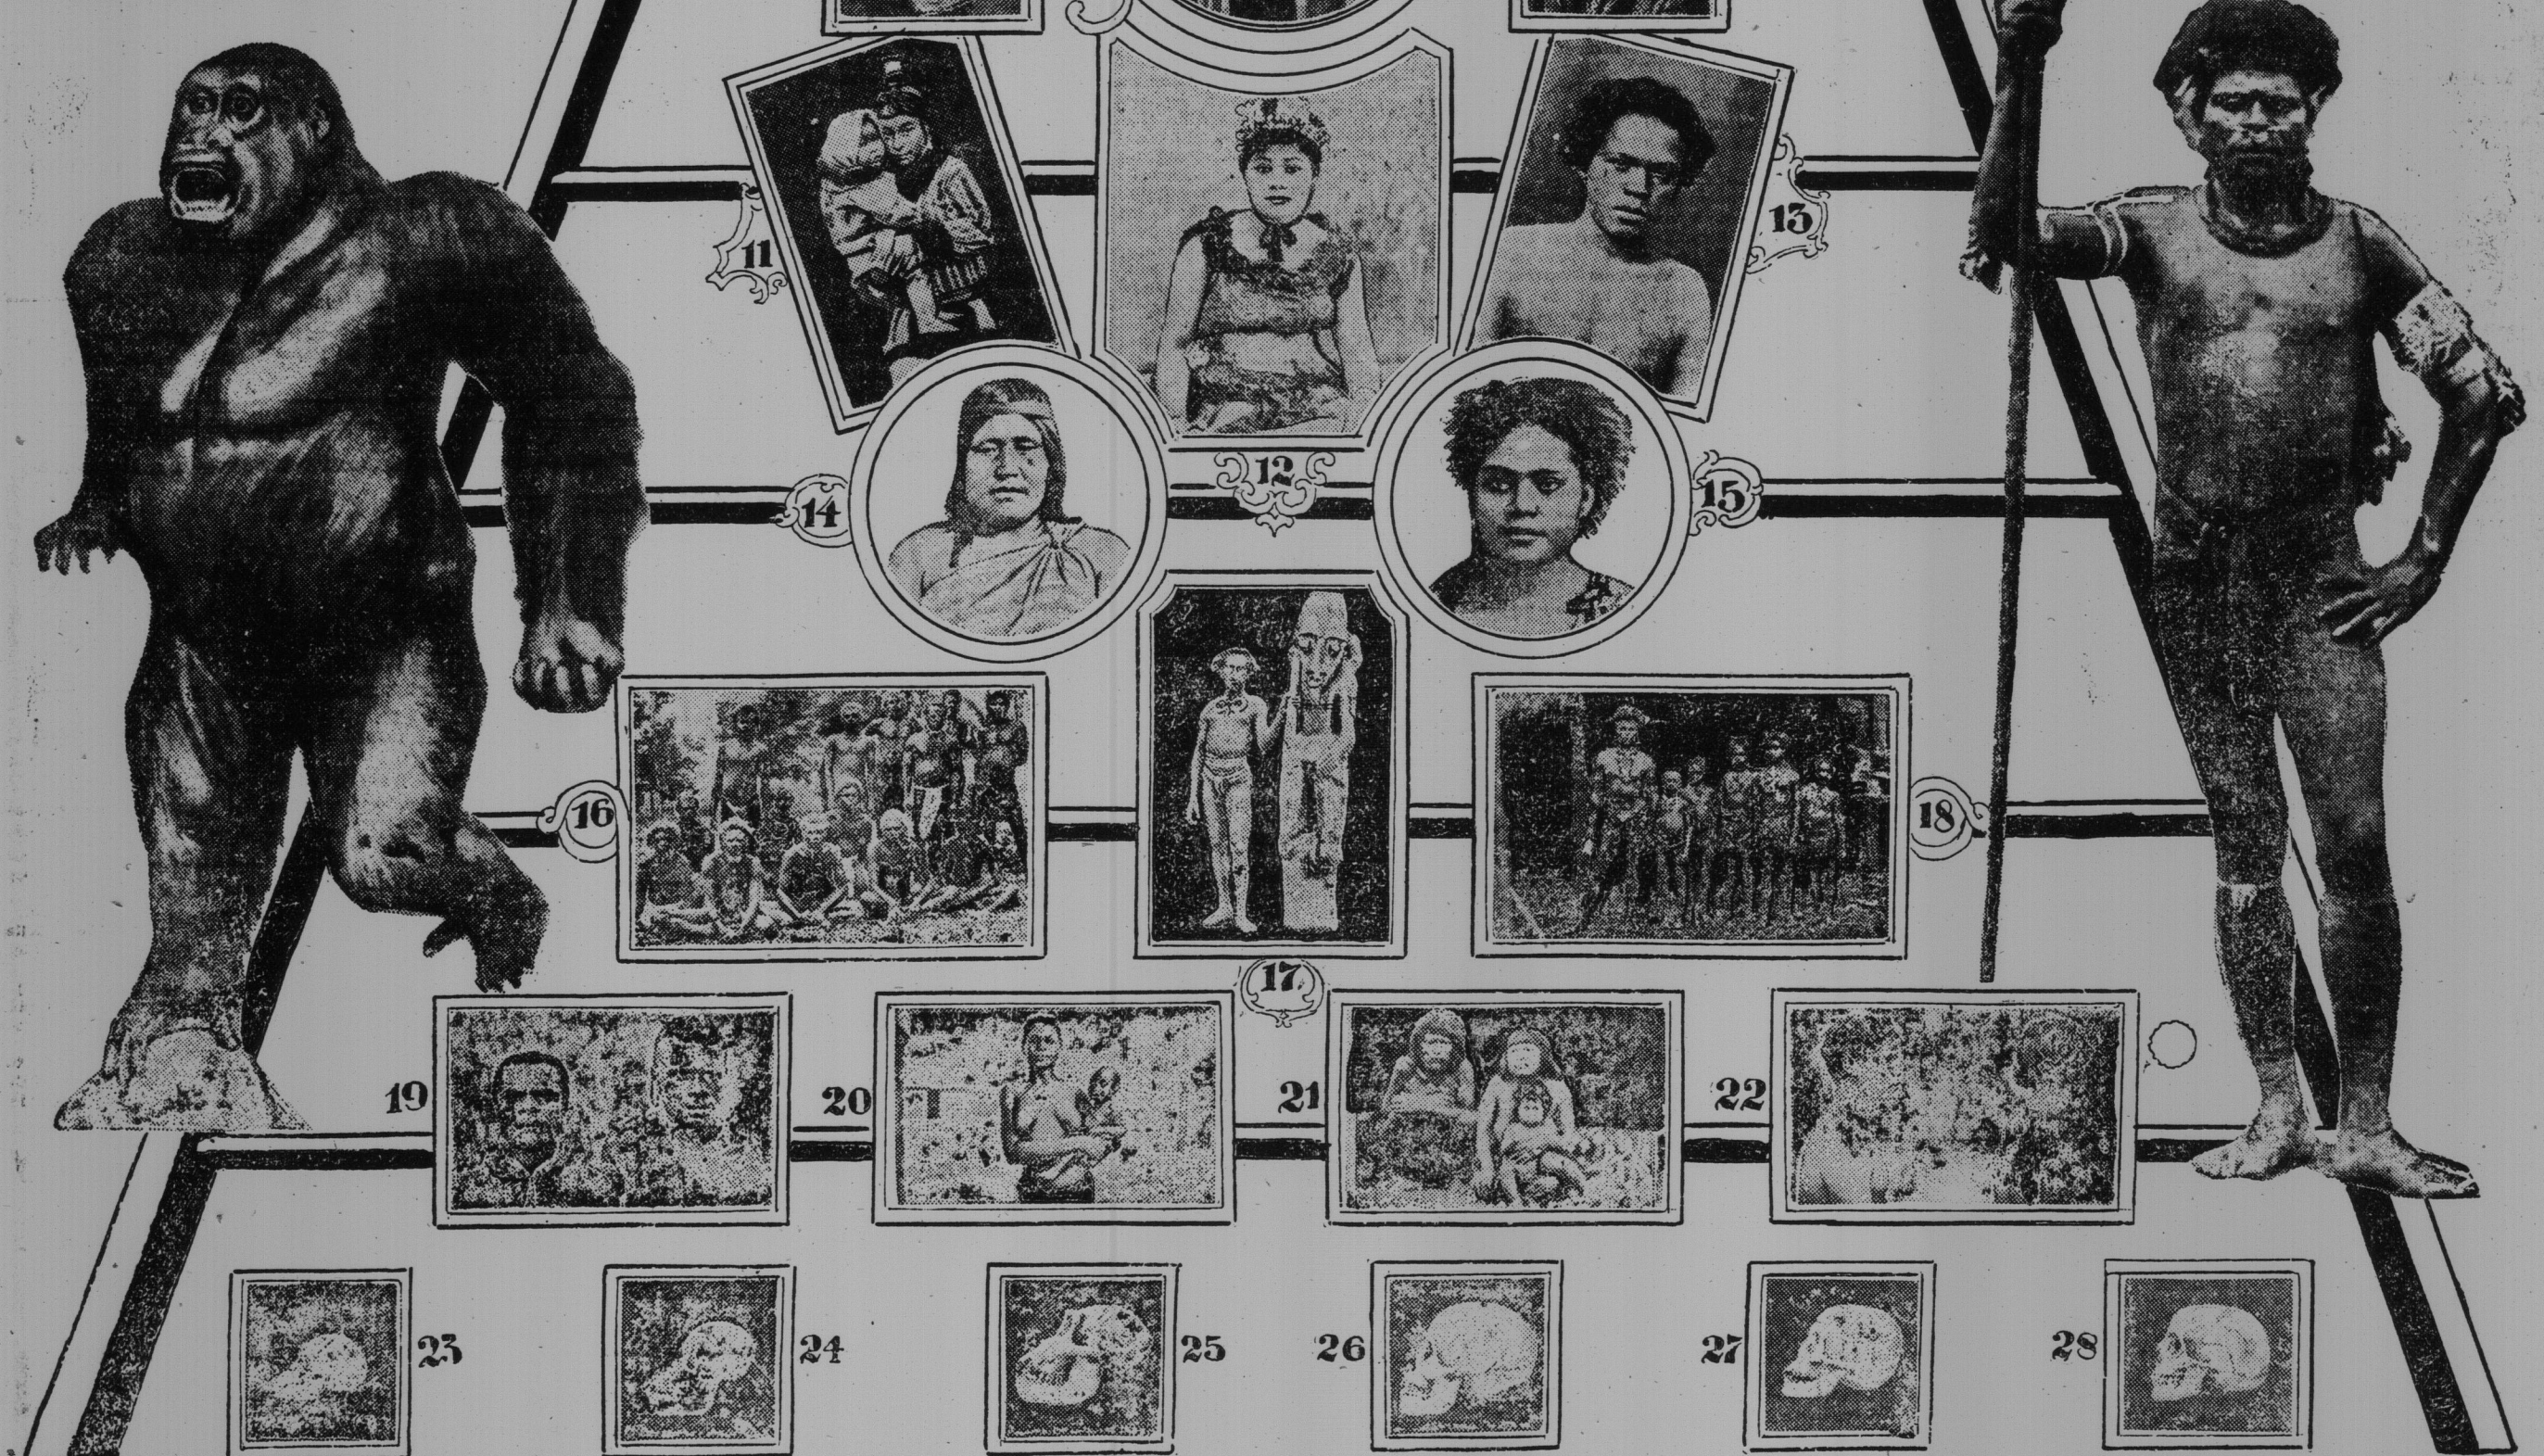

By Dr. Alexander Sokolowsky, Ph. D., of Zurich.

THE investigations of scientists have proven conclusively that man approaches the ape very closely in his structure, and yet he is different from the ape, even though the highest type of ape be compared with the lowest type of man. Starting from common parentage as they must have in long past prehistoric ages, the ape has developed in one direction while man has gone in another direction along the evolutionary path. Man is not a highly developed ape, they are not links in the same chain, but form as it were two lines starting from the same ancestor.

With this as a starting point we are able to consider man all the world over and, locating him properly, estimate his just relation to the world in which he lives and the various kinds of men in the world. The races of man are but the expression of the human as acted upon by environment and conditions under which he lives. All the races are but twigs on the great human tree developing according to the strength that is in them and that has been developed by the atmosphere in which each flourishes. In some races climate has stimulated development, in others it has prevented growth.

One race does not develop from the other, but each works out its own salvation as best it can. The Fire Islander, standing as he does at the lowest level of humanity, is still human, and has done as well as he could under the circumstances. We need not despise him, but rather wonder that he is living as he does he has succeeded in making weapons, boats, and creating a kind of civilization which in itself is remarkable. We are apt to jump at conclusions, and in a moment would say that those awful cannibals cannot be civilized, yet the ancient highly cultured peoples of Central and South America were undoubtedly cannibals. Yet the culture of the Incas was not to be compared with that of the modern Europeans. Yet there is a gradation of the races when considered from the standard of European civilization. And if we place the European at the top of the ladder of progress, the ape and those nearest to him must stand at the base thereof.

The Largest Gorilla Ever Captured.

ST. STEPHEN'S CHURCH WON'T OBJECT.

The Presbytery of St. John meet this afternoon at 3 o'clock in St. Andrew's church, to deal with the resignation of the Rev. E. A. Wicher. At a meeting of the members of St. Stephen's church last night delegates were appointed as follows: Peter Campbell, from this session; James Collins, from the trustees board, and C. A. Charlie, from the congregation. The delegates, although they regret exceedingly Mr. Wicher's departure after such a brief pastorate will raise no serious objections to his departure after such a brief pastorate.

LOCAL NEWS.

NOTICE TO ADVERTISERS.

Owing to the increased patronage which Advertisers are giving to the Star, we are compelled to request those who require changes in their advertisements to have their copy in the Star Office before 9 o'clock in the morning, to insure insertion same evening.

THE WEATHER.

Forecast—Fresh east to north winds, unsettled and showery. Wednesday—Moderate to fresh northerly winds; clearing.
Synopsis—Rain has fallen heavily in nearly all localities and conditions are still unsettled. Winds to American ports, fresh northerly and to Banks, fresh east and northeast.

Highest temperature during the past 24 hours, 64.
Lowest temperature during the past 24 hours, 55.
Temperature at noon, 62.

The regular meeting of the Teamsters' Union will be held tonight.

A fruit special from Halifax for the west passed through here this morning.

Fairville Baptists have postponed their picnic till tomorrow on account of the rain.

Will the boy who was seen near South Bay crossing on Sunday morning with a lady's coat please return it to Star Office?

An ice cream and candy sale in aid of foreign missions will be held at the home of Mrs. George A. Horton, 29 Orange street, at 7 o'clock. Admission free.

The new caps for the I. C. R. conductors have been received. They did not come any too soon as they have been badly needed. The contract for the caps was given to a Moncton man, but the caps were made in Montreal.

There was a story in the Telegraph this morning about a man, named Belva, being held up by three men on Douglas street. The police know nothing about the incident and are of the opinion that the story is without foundation.

A party of young people who have been spending the summer in the vicinity of Westfield will leave tomorrow on a canoe trip to Grand Lake. The party will include the Clawson boys and a son of J. Willard Smith. They will be gone some days.

Col. Sharp and a number of other officers of the Salvation Army arrived in the city this morning from Moncton after a successful tour of the North Shore. They left on the Point du Chene express for Summerside, where they expect to spend the next four days.

Messrs. A. L. Goodwin have received 500 bunches of bananas to be sold cheap this week. Splendid stock for sale at right prices. Also one car of California pears and plums, which have arrived in splendid order. This is the best stock that will be received here this season.

Mr. and Mrs. C. E. Harding and family, of Duke street, returned to the city last evening. They have been camping for ten days at the Club House, Upper Loch Lomond. Miss Marion Harding entertained some of her young friends and all had an enjoyable time.

The management of the "Neighborhoods" production regret that the lateness of the company's arrival last night left no time to get a piano so that feature of the show Tom Watters' famous piano specialties had to be omitted last night. A fine instrument has been secured today and tonight this attraction which has been delighting London and New York music halls, will be put on.

John Doherty was charged in the police court today with owning a house on George and Pond streets which was dilapidated. Mr. Doherty claimed the city retaining wall was not in good shape. The building inspector, Mr. Thompson, said the building itself was nearly gone. It was agreed that Mr. Doherty and Mr. Thompson should look at the wall and building and decide upon action.

The new steamer Hampton which is being built to take the place of the Clifton attracted a good deal of attention at Indianown this morning where it was brought by the tug Tanager. The boiler will be put in here and afterwards it will be taken back again to Hampton where the wood work will be finished and then brought down again for the engine which Flemings are already building. The new boat is 15 feet longer and three feet wider than the Clifton and is about the same size as the Champlain, Majestic and Elaine. The builders expect her to have three times the power of the older boat had. The Clifton is now for sale and has a good hull after thirteen years faithful service on the Kennebecasis.

LATE SHIPPING NEWS.

PORT OF ST. JOHN. Arrived.
Aug 1—Str Calvin Austin, Pike, from Boston.

S.; str Brunswick, Potter, from Canning, N. S. and old. Cleared.
Sch Trunco, Colwell, for Thomaston, Me.
Coastwise—Str Aurora, Ingersoll, for Campobello, N. B.

CAUSE OF COLLISION.

Accident in Depot Friday Due to Flying Shunt—Blame Will Probably Fall on the Shunter.

G. M. Jarvis, supt. of the Halifax-St. John branch of the I. C. R., who was here yesterday conducting an inquiry into the collision in the depot on Friday last night for Moncton, having heard all the evidence.

As far as can be learned the testimony showed that there was not enough air in the car cylinders to apply sufficient power to the brakes to hold the car on the down grade after being cut out on the flying shunt. This was what caused the accident but the man on whom the blame will fall will be the shunter who cut out the car.

A flying shunt is contrary to all railway regulations but nevertheless is done every day and as long as all goes well no notice is taken of it, but when an accident occurs then the powers that be, who approve of the good time made, dig out the ancient regulations and some one has to suffer.

MARY DEGAN AGAIN.

Released From Jail Saturday. She Went in Today For Two Months.

Mary Degau was in the police court this morning charged with drunkenness and indecent language. She admitted the first but denied the second. Officer Lee took the stand, and gave his evidence. Mary was fined \$3 or two months.

She looked a pitiable enough figure as she stood by the bench with bent head, and hands clasped before her. Her frame shook as with an ague, and her eyes furtively searched the face of magistrate, officers, and spectators.

At the end she wanted to say a few words and claimed one of the officers who arrested her said an indecent thing to her. As Mary is well known for her charges, this one is not considered very reliable, though His Honor listened attentively.

She was fined \$8 with the option of sixty days which she accepted. She was only released from jail last Saturday.

CHIEF CLARK NOT PLEASED.

Chief Clark does not think the safety board treated him at all equitably in the way they shelved his request for an increase in salary. He says there is no encouragement for a man to do his duty, when he is rewarded in that way.

Speaking to the Star in reference to the board's action the chief said: "I don't think much of it. It is no encouragement to a man to do his duty. I don't think they should have bothered about the appointment; it is better in the hands of the provincial government."

"The city would treat its official all right, but it makes no more independent in the discharge of his duty to be responsible to the provincial and not to the city government."

SNAP, GINGER AND POWER.

If you desire your sons and daughters acquire the qualifications known as snap, ginger and power, place them in an environment of snap, ginger and power.

The Curlew Business University, Limited, produces strong evidence that it is in possession of the hidden dynamic which forces these qualifications into the youthful makeup. It is a strict school where the pupil is taught to work with correctness, promptness and positive decision.

MR. FIELDING WOULDN'T TALK.

Hon. W. S. Fielding arrived in the city this morning in his private car Ottawa, attached to the 7.50 suburban from Westfield, where he has been visiting at the residence of Thomas Rankine. He expects to visit P. E. I. on a short vacation. When seen this morning he said that there was nothing he could say for publication. When asked about the new tariff commission he said that St. John would be one of the places where the commission would sit, but when he could not say.

INTERESTING YACHT RACE.

Members of the Shipbuilders' Union are greatly interested in a yacht race that is to take place in the harbor in the near future. The boats are owned by two members of the union, James Sheraton and Geo. Gillespie and the race is to be from Reed's Point around Mahogany Island and back to the starting point.

The challenge was issued yesterday afternoon and was accepted without delay. The owners of the two boats will meet in a day or two and arrange a date for the race.

TOURISTS ARE CLOSE.

The few tourists that have so far visited this city this year have not been of the class that have much money to spend and as a result the business in souvenirs, etc., has been very poor. Not only are the business men complaining, but the hotels and hackmen say there is nothing doing. One hackman sized up the situation today in a way characteristic of a hackman of the world over. He said: "They come here from the States with a shirt and a dollar bill and don't change either."

DEATHS.

MCLAUGHLIN—At Grand Bay on July 31st, after a lingering illness, Herbert R., son of Michael and the late Amelia McLaughlin, aged 22 years and three months.

Funeral from his father's residence on Wednesday, August 2nd, at one o'clock. Friends and acquaintances are respectfully invited to attend.

TOO LATE FOR CLASSIFICATION.

WANTED—Good smart boy at HENDERSON & HUNT'S, 40-42 King street.

WANTED—Capable girl for general housework. References required. Apply in evening at 27 Coburg street. 1.8.6.

LOST—On Tuesday, August 1st, between Ramsay Bros' store, Main St., and 39 Pugsley building, a pocket book, containing papers. The finder will please return to 39 Pugsley Building.

WANTED—A cook, references required. Apply to MRS. J. R. ARMSTRONG, 37 Wellington Row.

LATE PERSONALS

Chief Clark returned to the city last night from Fredericton.

Miss Jessie McLean, St. John, is the guest of her friend, Miss Nettie Burbridge, Robie street—Halifax Chronicle.

Miss Jennie Deinstadt returned home last evening from a visit to Montreal and Chatham.

Rev. A. J. Prosser goes to Fredericton this morning to preach the opening sermon before the Free Baptist Young People's League that meets there today, continuing over Wednesday and Thursday.

Miss Dorothy Kinsella left for Hampton on Friday to spend her vacation. T. Cahill, engineer of the D. F. Brown Co., will be married at Richibucto today to Miss Grace Fraser, daughter of the late John Fraser.

Miss Clara Ryan, of Fredericton, is visiting the Misses Wetmore, of Lancaster Heights.

Miss Fannie Raymond was a passenger from Oak Point on the steamer Beatrice E. Waring yesterday morning. She left last evening for Hampton.

The friends of Gilmour Armstrong, son of John Armstrong of Messrs. Armstrong & Machum, will be glad to learn that he is improving rapidly from an illness so severe that at one time his physicians felt much anxiety.

While in the private hospital he was operated upon twice for abscesses. Miss Nellie Brown, of 84 Adelaide street, is spending a holiday at Crystal Beach.

Mrs. Arthur Church and son, of Boston, are visiting her mother, Mrs. Daniel McCann, Brussels street.

E. Lantulum, M. P., arrived home yesterday after a business trip to Quebec province.

Miss Mary H. Hayes, of the Cumberland Hotel, has gone to visit relatives in Boston. She expects to be away two weeks.

Peter W. Gordon, formerly engaged in the newspaper business here, passed through the city yesterday on his return to British Columbia, where he represents the Standard Oil Co. at Nelson.

Mrs. Ira Cornwall and Miss May Cornwall returned home yesterday from Fredericton.

Miss Atkinson who has been visiting Mrs. E. M. Shadbot, is now staying with Mrs. Norton-Taylor, Fredericton.

Miss Edith Hegan, daughter of Geo. B. Hegan, who has been here on her holidays, returned to New York yesterday.

Miss Beatrice Ward, of City Road, left this morning for Sydney, C. B., where she will be the guest of her brother, Mr. John Ward.

Miss Minnie E. McMullin left Saturday evening on a few weeks' visit to Moncton.

Mrs. John Wilson and daughter, Lillian, have gone to spend a few weeks at their summer residence at the Narrows.

Mrs. Robert Maguire will receive on Wednesday afternoon of this week from three until five and in the evening from eight until ten at 206 Sydney street.
