REVOLTING DEED OF SLAUGHTER HOUSE WORKMAN WHO SEW FIVE MEN AND WOUNDED FOUR

Somerville, Mass., June 6.—With a maniacal shriek, John Murphy turned from plucking to manhandling in the North Packing and Provision Company's slaughter house today and driving his fellow workmen before him like a herd of swine, slew five of them, and wounded four others.

Two of the wounded were reported later as dying.

The dead are:
Hubert Smith, 48, colored, of Cambridge.
James Catre, 40, colored, of Cambridge.
Thomas Crowe, 41, white, of Cambridge.
Eyschael Jangus, 50, a Pole, of Somerville.
Unidentified white man.

The wounded:
Dr. Daniel C. Hayes, 50, government inspector, Waltham, Mass.
John Cheves, 48, a Pole, of Cambridge.
John Lewis, 58, of Cambridge.
Hayes and Jangus were fearfully cut and slashed.

Was Killing Pigs
Murphy was working on a platform killing the pigs as they were swung into the long room on the seventh floor of the building. Extending from the platform was a long bench at which the pigs were being dressed by 125 workmen, while only ten feet away, stood Dr. Hayes, the government inspector.

According to some of the workmen Murphy had been acting peculiarly for some days, but he returned from his dinner this noon apparently in good spirits.

His Revolting Work
Shortly after 2 o'clock he suddenly uttered a terrific shriek and jumped at Dr. Hayes, waving his razor-edged knife in his hand. He cut Dr. Hayes a deep gash on the neck, stabbed him over the heart and practically disembowelled him. The terrified workmen leaped to their places and rushed for the door, but were not quick enough for Murphy, who ran after them, slashing right and left. Every man whom he struck ran down with a groan, and in the killing room three of them died. The crowd plunged down stairs with Murphy after them, and at every landing he struck somebody. On the third floor he caught up with two of the men, to whom he delivered death blows. On the second floor, one of the workmen, an Italian, seized a heavy bar of iron and felled Murphy to the floor, but before the others could come up the pig killer was on his feet again and wounded another on the way to the third floor. There he was given another terrific blow on the head and his knife was wrenched from his hand. Two police officers came in to assist the crowd and Murphy was given a fearful beating before he was finally overpowered.

Stabbed to the Heart
So closely were the blows delivered and so accurate was the aim, that every man was killed by being stabbed to the heart. Those who were wounded suffered great pain in the back and on the arms which they received in the fight down stairs.

Murphy is 50 years old and weighs 200 pounds. He was regarded as one of the strongest men in the plant. He had been engaged in pig sticking for some years at the North Company plant. He is married and lives at 33 Joy street, Somerville.

The wounded men were hastily taken to the Cambridge Relief Station where it was reported at 5 p. m. that there was very little hope of Dr. Hayes or Cheves surviving their wounds.

His Wife Dazed
Mrs. Murphy is tonight dazed at the awful deed of her husband, but is fully of the opinion that her husband is insane and declares he has shown strange symptoms for a week or more past. At home, she says, he has com-

FOREST FIRES DOING ENORMOUS AMOUNT OF DAMAGE IN THE INTERIOR OF THE PROVINCE; ONE HOME BURNED AND OTHERS IN DANGER

Ridge, were destroyed by forest fire which could not be kept back. Tonight 150 men are trying with might and main to keep the flames away from the home and other buildings of Medley White at Dorn Ridge. Probably the worst fires in York Co. were those in the Keswick district. The country along Dorn Ridge and on Stone Ridge and the three or four miles between the ridges is in flames.

Destroyed Home of Moses Haines.
It was this fire that destroyed the home of Moses Haines at Dorn Ridge and tonight threatens the home of Medley White. This land is practically all great timber land and is the property of the Keswick Lumber Land Co. of Houlton, Maine. Oran Gilpatrick, of Houlton, is the company's manager, and the agent in this province is Harry Pickard, of Gibson, who is on the ground, and has been for some days with a large crew of men fighting the fires. Another big fire is that on the Keswick River. This fire is on land that was recently burned over but has now got into the green woods and has already swept along both sides of the river for a width of two miles and upwards of five miles in length. This land is also owned by the Keswick Lumber Land Co.

At Miramichi Forks.
Another bad fire is reported at the Forks of the Miramichi, where the Grand Trunk Pacific crosses the Miramichi river, but on account of the season being so remote it is impossible to learn anything of a definite nature concerning the damage done. There is another fire near Woodlands, several miles west of Stanloy, and today at the request of the Crown Land Department, Mr. A. G. Robinson of the Gibson Company's lumber business, sent a crew of 150 men to Bear Brook, back of Penniac, to fight there.

Many Lose Heavily.
Chatham, N. B., June 6.—Considerable damage has been done in evidence here for some days, but no fires are in close proximity.

Some danger has been reported from fires near Blackville and also from Riverville and Napan, but how extensive they are is not known at present. The Miramichi Lumber Co. lands at the head waters of the Miramichi are threatened, and it is feared they will lose heavily.

In Charlotte County.
St. Stephen, N. B., June 6.—All forest fires reported to be raging in Charlotte county are now practically extinguished. The first reports of large fires in this vicinity were very much exaggerated. There were no large fires at all raging around here within the past two weeks.

DYNAMITE USED IN BRINGING BREWER'S BODY TO SURFACE LEFT ON RAFT; BOY'S HAND OFF

Fredericton-St. Marys bridge got down on the raft of logs, took off his overcoat, hat and body coat and jumped into the water.

Whether he drowned immediately, or on striking the water somewhat recovered his senses and made a struggle for life is of course unknown, but the place where the body was found is 200 yards or more from where he apparently jumped to his death and there is little or no current there. In the pockets when the body was recovered were found 15 cents in money, a gold watch which had stopped at 12:34 minutes after 10 o'clock and a letter to Solomon Perley, of Woodstock, with whom the deceased was associated in the potato business, from C. B. Foster, of Boston, concerning the state of the potato market.

The coroner's jury after deciding that an autopsy should be held adjourned to meet on Tuesday evening at St. Marys. The result of the autopsy was to give strong evidence that death was due to drowning.

No Signs of Violence.
There were no outward signs of violence on the body. During the search dynamite was used to bring the body to the surface. The dynamite was last used on Friday but those in charge left a basket containing the explosive with caps, etc., on a raft of logs near the St. Marys end of the highway bridge. Boys playing on the rafts found the dynamite and not knowing the danger, a lad named Jack Harris, son of Theo. Harris of St. Marys, exploded a stick of dynamite "just to frighten one of the other boys," but the dynamite exploded in his hand, which was terribly shattered. What remained of the stick was to be amputated. A woman from Carleton county, who was passing at the time was struck on the arm, and is presently by a flying cap, but was not badly injured.

Identified Body.
There is little doubt but that Brewer's death was caused by his jumping into the water from where he left his coat and hat, while crazed by the influence of powerful drugs. The last seen of him alive was when he left Washington's restaurant some time between 11 and 12 o'clock last Monday night. He had come over to this city from St. Marys in a coach and had been driven around town to the C. P. R. station and several other places, finally leaving the coach at the restaurant. He was then in an insane condition from the effects of the drugs, to use of which he had been addicted. It is surmised that after leaving the restaurant he walked across the

FRENCH ACADIAN PEOPLE BENEFIT IN THE ARRANGEMENT FOR BETTER SCHOOL BOOKS AT LOWER PRICES

Special to The Standard.
Fredericton, N. B., June 6.—Announcement is made by the Provincial Government that at the conclusion of the present school year, on June 30th, an additional number of school books will be added to the list of those sold through the vendors and at the greatly reduced prices promised by Premier Hazen and his colleagues when in Opposition.

During the past year the English readers, the geography and scriblers have been vended and the system has proved a complete success, and the people have been saved about 40 per cent. the price that they pay for school books.

At the close of the present school year the grammar, arithmetic, geometry, history of Canada and English, health reader (No. 1 and 2), copy books, drawing books and the French readers will be added to the list of books used in the common schools of the province.

Orders for the books have been placed by Provincial Secretary Fleming, through whose department the books are handled, and they will arrive at the vendors between July 1st and 15th for distribution.

Better Books and Lower Prices.
The changes in text books are those recommended by the text book committee of the Teachers' Association and in no single case has the quality of the book been reduced, but the books contain superior matter and have much better design, binding, and arithmetic, which they will displace. The improvement in quantity will be very noticeable in many of the books.

The Old and New Prices.
The complete list of books which will be on the vend list with the new prices in tabulated form is given herewith:

The New Books.
In the list of books which have been changed Goggin's grammar will be used in place of Michaeljohn's short grammar. The new book is highly recommended by educational authorities and is the unanimous choice of the text book committee of the Teachers' Association.

Hamblin Smith's geometry will be replaced by Hall and Stevens', which was chosen by the text book committee of the Teachers' Association. Hall and Stevens' geometry, which is sold everywhere outside the province at 75 cents, will be sold here at 40 cents under the vending system of the Provincial Government.

Messrs. J. & A. McMillan, of St. John, are preparing the new health readers and they will be well bound and present a more pleasing and attractive appearance than those at present in use. There will also be for No. 2 an additional chapter on tuberculosis, written by Dr. Thomas Walkington, of St. John. Health readers with similar matter and the same binding sell outside the province for 30 cents for No. 1 and 50 cents for No. 2, which prices will be just 50 per cent. lower

SUDDEN DEATH ARCHBISHOP OF OTTAWA

Special to The Standard.
Ottawa, Ont., June 6.—Most Reverend Joseph Duhamel, Roman Catholic Archbishop of Ottawa, died suddenly last night.

Archbishop Duhamel, who had gone with the intention of presiding at a confirmation class today, the late archbishop had been in failing health for a couple of years, but had pursued his duties with scarcely an interruption. On Saturday he showed weakness after the work of the morning and was advised not to go to Casselman. He could not be persuaded, however, and immediately after his arrival he expired. The immediate cause of death being an affection of the heart. Archbishop Duhamel was born at Contrecoeur, Que., and was a son of the late Francois Duhamel and Maria Duhamel. He was 63 years of age, but shortly after his birth his parents removed to Ottawa, where he was educated at St. Joseph's College, in that city. He remained there until his ordination to priesthood in 1868. He became successively priest of Buckle, Quebec, and St. Eugene County, Ontario, and in 1874, was appointed Bishop of Ottawa on the death of Bishop Guigues. In 1886 he was raised to the dignity of Archbishop of Ottawa, and was a Knight of the Grand Cross Order of Holy Sepulchre, a Roman Court, and Chancellor of the University of Ottawa. He will be buried in the cathedral of Ottawa, and lies in state at the Basilica, where it was viewed today by large numbers. The funeral will take place on Thursday, and will be officiated by Archbishop McEvoey, of Toronto, who delivered orations in French and English respectively.

REPORTS OF COLLEGES TO ASSEMBLY

Special to The Standard.
Hamilton, Ont., June 6.—All the reports of the various colleges collected with the Presbyterian denomination were presented at a short session of the General Assembly yesterday. The report of Hifax College was presented by Prof. Forest, who said that the past year had been the most successful in the 89 years' history of the institution. Montreal College was reported by Principal Dr. Strimmer as having had a successful year, although there was a deficit of \$2,000 due to increases in the staff.

Queen's College showed an increase in attendance of over 100 students. The accumulated deficit is \$11,000. Knox College report was most satisfactory. Rev. Dr. Gandler reporting a deficit of only \$700. This afternoon the delegates enjoyed an excursion to Niagara on the Lake.

The question of church union of co-operation will come before the assembly on Monday. The report of the union committee appointed at the last assembly will then be brought in, and although its contents are unknown, it is said that it will be strongly in favor of union.

POLICE FOUND BROTHER AND SISTER DEAD

Boston, June 5.—In serving an ejection writ, a local constable discovered the bodies of Walter F. Towns and his sister Anna L. Towns, on the floor of their apartments on Centre Place today, the former with a revolver in his hand and a bullet hole in his ear, and the latter with a razor by her side and her throat cut to the jugular. The authorities had not decided to-night whether both committed suicide or whether the woman was murdered by her brother, who later took his own life.

Both were seen earlier in the day, and appeared in good spirits. About the middle of the afternoon Constable Brooker, with Henry Fraser, the owner of the apartment attempted to enter the house to serve an ejection writ. No one responded to the bell call, so a window was raised and the constable stepped into the front room. There he found the bodies lying on a blanket with a hammock rolled up under the heads of both bodies. There was very little to indicate the motive of death, as the bodies were resting easily and there was no sign of a struggle.

Towns had lived with his sister for several years, neither having married. The rent had not been paid for some months. Towns was 48 years old, and his sister about 50. Their family connections had not been ascertained tonight, so the bodies were sent to the morgue.

MUCH INTEREST IN BOAT RACE TO BERMUDA

Hamilton, Bermuda, June 6.—Bermuda yachtsmen await with lively anticipation the arrival of the American fleet of sailing and power boats which starts yesterday on the long journey from Gravesend Bay. As was the case last year, just at the time of the great yacht race, the weather is far from favorable for the boats at this end of the route. But it is possible that conditions will change before their arrival. Today a strong westerly wind prevailed accompanied by rain and conditions look extremely unsettled.

The pilot boat Guard has been engaged as a mark boat and will take up her position, weather permitting, two miles off St. David's Head on Monday afternoon. The leader of the motor boats, it is expected, will reach the finish line on Tuesday. In last year's race the Alisa Craig, which won the event, arrived about noon on Tuesday and as she encountered very heavy weather during the greater part of the trip, it is possible that the boats in this year's contest, under more favorable conditions, may improve on that time.

LEWIS THINKS MORE TROUBLE IS POSSIBLE

Special to The Standard.
Halifax, N. S., June 6.—T. T. Lewis, president of the United Mine Workers of America, Harry Bonfield, of the International Board, Daniel McDougal, district president, Peter Patterson, a member of the International Board and Joseph Moss, district vice-president, arrived in Halifax Saturday night, en route to Springhill where they address a mass meeting of miners tomorrow evening. In conversation with your correspondent tonight, President Lewis is said that the labor situation in Cape Breton, as far as it affects the mining industry is complicated and unless the different coal companies will recognize the right of their employees to belong to any labor organization they wished and adjust the many grievances that the men complain of it will lead to but one result, a suspension of operations.

INSTITUTION OF RECTOR OF KINGSCLEAR

Special to The Standard.
Fredericton, June 6.—The institution of Rev. M. Shewan, formerly of Greenwood, Kings county, as rector of Kingsclear, took place this evening. Bishop Richardson conducted the ceremony at St. Peter's church, Springhill, in the presence of a congregation which more than filled the

ONE PIECE EFFECTS WILL BE THE RULE THIS SUMMER, WHICH IS CHARM OF THE LINGERIE COSTUME

New York, June 5.—Rumors are coming from Paris that with the revival of the Louis XV. and Louis XVI. styles the separate skirt gathered at the waist to a band, and the pointed bodice over it will be worn; but, so far as this summer's flocks are concerned, one piece effects will be the invariable rule. Indeed, the distinction and charm of a lingerie costume depend on this one-piece effect, the white dress with waist and skirt joined under a ribbon, sash or belt, saving entirely too much of the bucolic toilet, which is wont to appear in starched splendor at church picnics and other rural summer pleasures. The one-piece lingerie frock, however, when in stately trailing length and of sufficient elegance of character, becomes at once a costume of distinction, and when it is accompanied by appropriate accessories in the way of a picture hat, parasol and long, embroidered silk gloves, it is a veritable grande toilette quite suitable for the most particular occasion. Some dressmakers, to insure a perfect fit to these filmy frocks, which on the one hand, must cling to the figure, yet on the other, not appear drawn or scant in any way, make them up over carefully fitted muslin linings, the lining being clipped away when the frock is completely finished. If a colored slip is to be worn beneath such a frock, as is the case with most of the costumes designed for formal wear, the slip is built of the softest possible silk or of mellee line satin in princess style and fitted to the figure by gored and darted. It is sleeveless and has the neck cut out in a decided décolletage. A rather scant flounce finishes the bottom of the slip, this flounce being edged with a narrow rill of lace; for there must be no harsh lines or straight hems under the lifted sufficiency of a lingerie frock. Under this little silken slip goes only one petticoat, and though this petticoat may have two or three lace flounces at the feet to give a fascinating fro-frou effect about the ankles there will be but one layer of fabric over the hips, and that of the sheerest muslin, for it must always be kept in mind—no matter what the nature of the costume—that hips are out of the question. So the lace trimmed petticoat has its flounce set on a deep yoke of the sheerest mull, and at the head of the flounce is a heading with a colored ribbon, which shows through the thin stuff of the dress. Transparent gowns this summer will be very frank in showing the blue, pink or lavender bowknots on the intimate garments beneath, and Parisiennes, following a present craze for black, are running narrow black velvet through their lingerie. The renaissance of the foulard comes as a boon to womankind, for never was there a material more practical for general warm weather service, combining beauty, coolness and durability. There are, of course, various qualities of foulard and consequently varying grades of beauty in the material. But, it pays to buy a good quality, and very fair grades may be picked up at prices exceedingly moderate. The handsome foulards, lustrous, light of weight, exquisite of color, are more expensive, but these are usually woven in double width so that though the price may seem high, the amount of material required is much less. The finer foulards now have the design woven throughout, so that the effect of a printed design, once the chief reproach against the material, is done away with. Among the imported models in foulard rather large white dots set together closely on a ground of soft color, have held first place, and all the fashionable dressmakers, following the Parisian lead, have used much of this dotted foulard in double width and exquisite quality. The best of it has a lovely sheen and is wonderfully supple. All of the most modish colors have been brought out in this foulard, and certain shades of soft rose, yellow, mauve and blue are especially liked. If a colored slip is to be worn, black and white are favorites for more general wear. Other designs, of course, are in evidence and many are very attractive. Variation from the conventional dot has been made in little oval or square figures sprinkled, as are the dots, on a plain ground, and even more ambitious designs, combined with brocaded backgrounds, are shown. Fonce is as popular as foulard and like the latter, is used for all sorts of costume, from the simplest princess trottet to the elaborate bridge frock or visiting frock, covered with a wealth of embroidery. For hard wear it will pay to buy a pongee of good quality, not too light and of smooth surface. Some of the rough surface pongees are very good looking, but they are quickly soiled. Highly lustrous pongees of extremely light weight are not practical for general wear and are suited only for more elaborate frocks. The cheaper grades of the thin pongees are not particularly desirable for any purpose. All of the lovely colors are introduced into the pongee, but the natural tone is still first favorite and has the advantage of looking cooler than almost any other shade. Lincens were never more in demand and certainly never were so varied in weave and color. In no other material have the dyes achieved greater triumphs than in this one, and in the workrooms one sees linen frocks and suits in all the colors of the season's card. Certain wood tones, medium shades of half gray, half brown, with

GRIMES GETS THREE YEARS IN PENITENTIARY

Special to The Standard. Toronto, June 4.—Thomas Grimes, formerly yardmaster of the C. P. R. at West Toronto, convicted of securing about \$800 from the company by placing a bogus name on the pay sheets, was sentenced by Judge Winchester to three years in Kingston penitentiary.

A dash of green, are considered especially chic in linen, and the ash-grays are next to them in popularity. All the wistaria and queer fruitly colors, the off-tones in reds, oranges and purples, the off-tones in reds, the add blues, coppery browns and gold and mustard and khaki yellows, the almond and pistache and abashite greens, all these colors and many others may be found in lingerie this season.

The medieval mode and its enthusiastic promotion by Pagin and Redfern, has some influence on even the frivolous summer frocks. Authoritative Moyer-Ago frocks are shown in Paris, made of the sheerest mull with cuirasses, or fitted basques to the hip, made of heavy all-over embroidery, closely shaped to the figure; the long trailing skirt and tucked sleeves being of a softer material. Little boleros of the heavy all-over work are also seen on the lingerie frocks of soft mull, and some of those frocks show skirts gathered all round at the waistline to this little fitted bolero in tight fitting style. This is a typical Marie Antoinette or Louis style, and is an authoritative indication of what is coming. Cherries and plums in all states of greenness, ripeness and decay, have again become popular and are used extensively for hat decoration. Silk and wool fish-net is another of the new mixtures to be had in well-stocked shops and are used for many purposes. It seems that white linen will be worn less this summer than in former seasons, but gray, tan, khaki and even darker shades will be extremely popular. Daggers of tortoise-shell and studded with artificial stones are among the most popular hair ornaments of the day. Coiffures continue to be very flat on top, and a centre parting is very much affected.

EARL GREY ON C. P. R. STEAMER. Quebec, June 4.—His Excellency Earl Grey, Governor General of Canada sailed for England today from this port. The steamship Empress of Ireland on which he was a passenger, was gaily decked for the occasion, carrying the Governor General's flag at the fore. There were about two hundred first cabin, two hundred and fifty second and four hundred third class passengers on board.

Col. W. A. D. Steven returned to his home in Point du Chene on Saturday. London, June 2.—The Daily Mail published the New York Times' interview with Andrew Carnegie proposing an international conference with the object of checking the increase of armaments. Editorially it says: "The doctrine Mr. Carnegie is preaching is attractive, and we would wish to be the last to discourage any efforts to translate it into action, but the obstacles to the realization of his dream increase rather than diminish as they are approached. We see in monstrous growth suspicion, and in heavy Campbell-Bannerman's offer to negotiate with Germany for the limitation of naval construction at the peace conference at The Hague set the seal to the refusal of Germany. The failures were more than discouraging; they were dangerous, inasmuch as they brought in train new suspicions and new ambitions. While official international attempts failed, it is likely success will still be possible. The American Republic enjoys many privileges, but do the States possess a secret of success which is unknown to the Czar of Russia." "The only evening paper to notice the proposal is the Pall Mall Gazette. It regrets that it is not possible to approve of Mr. Carnegie's latest project. "He might have been warned," says the Pall Mall, "by the fact that the teaching of experience is against him." Mr. Carnegie means well, but we know what happened to our late amiable Prime Minister's equally well meaning attempt to obtain the limitation of armaments."

POLLUTION OF STREAMS AND DISEASES

Washington, D. C., June 4.—Leprosy, tuberculosis and the pollution of streams formed the principal themes of discussion today at the 24th annual meeting of the conference of state and Provincial boards of health of North America. With regard to the subject of leprosy, Dr. W. C. Woodward, of the district of Columbia, chairman of the committee on a national leprositium, reported that no progress had been made toward the establishment of such an institution but he argued that the Federal Government have upon the quarantine laws and regulations only in this connection. Dr. Woodward pointed out the impracticability of the Federal Government guarding the entire boundary of the Federal Government's jurisdiction in order to prevent the escape of one or more lepers. The absurdity of the Federal Government arresting lepers violating interstate quarantine laws and regulations only to return them to their home states without having any practicable method of compelling them to remain there and the impossibility of the Federal Government restraining lepers without having a suitable place in which to care for them, all pointed, he said, to the absolute necessity of the establishment of a national leprositium. The conference was a unit in support of the proposition for a national leprositium. Taking up the subject of tuberculosis, Dr. John P. C. Foster, declared that it was one of the municipalities rather than the state. He advocated the education of the public in being more careful with regard to the milk supply and said that the public should "get after" the milkman. With reference to the pollution of streams, the committee appointed to consider the subject reported that as the Federal Government had no control over the matter, many of the most difficult problems could not be solved at the present time, but it was urged that this might be done by agreement between the states.

SLIP TO LEAD.

Ottawa, June 4.—It is reported that Wm. Sloan, ex-member for Comox-Atlin, is to re-enter active political life as leader of the provincial opposition in British Columbia. Mr. Sloan leaves for British Columbia after a fortnight's visit to the capital. He is personally indisposed to re-enter the political arena, but it is understood that strong pressure is being brought to bear on him and that Sir Wilfrid Laurier is extremely anxious to have him enter the lists against Premier McBride.

THE JUNE BUSY MAN'S.

The jolly vacation period is again at hand. In accordance with the spirit of the season Busy Man's Magazine for June is a splendidly illustrated outing number. It is brimful of bright, breezy contributions on the timely subject of a holiday. "The Proper Way to Spend a Vacation" and "Suburban Life for City People," will be perused with much interest. Another clever sketch is on "Canada the Summer Playground of America." Canadian articles of merit and instruction by crisp, entertaining writers are "The Illustrator of Dr. Drummond's Poems," "The New Era of the Intercolonial Railway" and "A Day with Canada's Premier." There are half a dozen short, snappy stories, and the best selections from the leading publications of the world on home and business interests, which make the June edition of Busy Man's a well-

IMMIGRATION RETURNS.

Ottawa, June 3.—The total immigration into Canada in April was 24,237 as compared with 29,723 in April, 1905. Immigration from the United States rose from 9,954 in April, 1905, to 12,609 in April, 1906. The entries through the ocean ports fell from 20,669 in April, 1905 to 19,108 in April, 1906. In addition to the immigrants arriving at ocean ports there were 2,758 persons classed as returning Canadians. When one devours a book it indicates a taste for literature.

GHOSTS HOLD UP STEAMER

Rome, June 4.—The Italian steamer *Monsenisio*, bound for New York with a cargo of pumice stone, has been held up at Palermo by ghosts. On the arrival of the steamer at Palermo from the Lipari Isles, the crew refused to continue the voyage because ghosts were making a devilish row in the hold, which they believed preysed shipwreck. The police searched the vessel, expecting to discover that members of the Mafia had stowed themselves away on board, hoping to escape to America, but they found nothing. As soon as the police left the steamer the ghosts became livelier than ever. The crew left her, and refused to re-embark. Other hands cannot be obtained.

THE MEN'S DISTRICT MEETING IS TO BE HELD IN SUSSEX ON WEDNESDAY OF THIS WEEK

"The people called Methodists," residing in these Maritime Provinces and especially those in official positions, find June to be a busy month. As their ecclesiastical year ends on the last day of May the following three or four weeks are largely given up to the holding of meetings at which reports are received from church societies, returns are tabulated, comparisons are made and the reasons given for success or failure as the case may be. The first of these gatherings is the Quarterly Official Board.

The Quarterly Official Board meets every three months and deals with matters of a purely local character. It is composed of the ministers, local preachers and exhorters, class readers, Sabbath school superintendents, one trustee from each trustee board, the presidents of Young People's Societies and Ladies' Aids, and members of the church and seven representatives elected by the members of the Church and seven stewards elected by the quarterly on the nomination of the minister in charge, one of whom is elected recording steward. The next is known as the District Meeting.

The District Meeting. This is composed of all the ministers and probationers stationed on a larger or smaller number of circuits arranged by the Stationary Committee and an equal number of laymen to the ministers in active service. These must be at least twenty-five years of age, and have been members of the Church for the five years immediately preceding the date of their election, and which is done in the Quarterly Board at its fourth session. There are now in New Brunswick six such groups of circuits, viz.—St. John, Fredericton, Woodstock, Chatham, Sackville and St. Stephen, and two in Prince Edward Island—Charlottetown and Summerside. These constitute the third of these gatherings and is legally designated the Annual Conference.

St. John District Ministers. The ministers now upon the St. John District roll are Redley D. Mack, George M. Campbell, D.D.; Charles R. Planders, D.D.; Charles Comben; Samuel Howard, B. A., B. D.; Neil McLaughlin, B. A.; Jacob Heaney, B. A.; Henry J. Clark; F. W. Pickles; C. W. Squires, M. A., B. D.; James Crisp, Robert Wilson, Ph. D.; Thomas J. DeLoraine; Josiah G. Champion; James A. Rogers, D. D.; Isaac N. Pickett; Ernest Rowland; Artemus C. Bell, B. A., B. T. D.

According to Methodist law, Mr. Pickles is still counted as a member

THE LIBERAL WEAKNESS IS APPARENT

(Montreal Gazette.)

The dawning effect upon a parliamentary party of setting the personal worship of a leader above devotion to a principle or a national ideal has been again illustrated in the case of the Laurier Government. When in 1898, after having been ten years leader of the Opposition, Sir Wilfrid Laurier was called on to form a Government, his party in Parliament was so poor in manly fit to lead and fill ministerial positions that he had to go to the legislatures of the provinces for not less than four of his colleagues, Sir Oliver Mowat, Mr. Fielding, Mr. Bliton and Mr. Blair. The situation was somewhat remarkable; and it has continued. The abject servitude which is required of a member of Parliament if he is to retain the favor of the dispensers of patronage apparently dwarfs or

Talent that commands the respect of the country, or even the respect of the Prime Minister. Of the men recently selected to fill vacancies in the cabinet, Mr. Aylesworth, Mr. Murphy, Mr. Pugsley and Mr. Graham had no record of service in parliament before they took their seats on the ministerial benches. Mr. Pugsley and Mr. Graham had made reputations of a kind in the field of provincial politics. Mr. Aylesworth is an able man, and Mr. Graham a clever politician. It must have puzzled some of the Government's followers at the time, however, to find a reason for the selection of Mr. Murphy and Mr. Pugsley, and the latter is probably pushing them yet. There will be renewed wonder when it is learned that Mr. William Lyon Mackenzie King has been lifted practically out of a civil service office into the place of a member in parliament. The Liberal members of the House of Commons from Ottawa hardly deserved such an aspersions on their capacity. Half a dozen of them at least rise above Mr. King in ability and in services which have won the respect of their fellow-members in parliament, and of that section of the public which follows the proceedings of parliament.

The new minister will not strengthen the Government in parliament, with men in commerce or with the people generally. His selection can only be regarded as another evidence of the weakness of Sir Wilfrid Laurier and the decay of his party which has come from many parts of the world, and another reason for thinking that, as at present constituted, the Liberal party of Canada in 1908 won its last victory.

COMPULSORY INSURANCE HAS STOOD THE TEST IN GERMANY; GOOD SYSTEM FOR WORKMEN

Compulsory insurance has stood the test of a quarter of a century in Germany, and though the laws which regulate it are revised and improved almost annually, the principle itself is as thoroughly established as an examination of the system will do something to explain why the German workmen on small wages can live so much more comfortably than the worker of England, for example, whose wages are higher, but who are often plunged into the mire of poverty by a few weeks' illness. In spite of the declaration that a man cannot be made moral by act of parliament, the experience of Germany teaches us that the effect of the virtues can be obtained by regulation.

The Sick Insurance a Great Success. The purpose of insurance against sickness is to ensure a certain and immediate relief in case of illness, during at least twenty-six weeks. The employee pays two-thirds of the premiums, the employer one-third. Practically every regularly employed workman in Germany is insured by this scheme. In the case of the army and the navy; those in dependent positions, and those casually employed are either exempted because they are otherwise insured, or insurance made optional upon their part. Here is an example of the operation of the scheme: A workman whose weekly wage is \$6 pays 12 cents a week in assessments. In case of sickness he is entitled to \$3 a week, besides medical attention and medicines. If he is sick for thirteen weeks the allowances he receives amount to \$58.50. In case of death there is an additional indemnity of \$20. As the employees have to help pay for the sickness of their workmen it is to their interests to instruct the men in hygiene, and to maintain strictly sanitary conditions in their factories. The result is that the average general health of the employees is remarkably sound. Taken in conjunction with the compulsory military training, it is not to be wondered at that the physique of the people is excellent.

The Accident Insurance. As regards insurance against accident, Mr. Charles H. Jaeger gave the following example in an address before the American Academy of Medicine. "If a man whose wages amount to \$216 yearly falls from a scaffolding and injures his chest, he immediately receives the sick benefit and hospital treatment at the expense of the Employers' Accident Insurance Corporation. This costs the corporation \$76. During this time his family, composed in the chosen example of a wife and two children under 15, receives a pension of \$29.16 at the rate of the hospital treatment the injured man is totally incapacitated for labor he receives an annual pension of \$216. If he dies because of his injuries his family receives a funeral benefit of \$21, and a pension of \$160 a year. The widow receives this pension until her death

HORSE SHOW OPENED AT THE OLYMPIC

London, June 5.—King horse again came into his own at the opening of the International Horse Show at Olympia today. In every respect the show eclipses all previous affairs of its kind held in London. The entries come from many parts of the world, America, as usual, is to the front with a large number of competitors. Prominent among the American exhibitors are A. G. Vanderbilt, William N. Moore, Thomas Hitchcock, Jr., C. W. Watson and W. T. Stotesbury. Canada is represented by a notable string of hunters sent over by Capt. Evans, of Montreal, and Crow and Murray, of Toronto.

The prizes offered this year exceed \$60,000 in value, and they include the King Edward gold cup of the value of \$5,500, which is to be competed for by teams of three officers of any nationality. Disappointment has been expressed that the United States cavalry could not send a team to compete for this trophy.

THE HOLBEIN PICTURE STAYS IN ENGLAND

London, June 4.—By an anonymous contribution of \$220,000, the sum needed in addition to the Government's contribution of \$50,000 and the public's mite of \$50,000 to save Holbein's Christmas of Denmark for the nation, has been made up. The Colnais, who bought the picture from the Duke of Norfolk for \$200,000, and who are said to have promised it to a millionaire American for a much larger sum in case the British nation should fail to give them \$200,000 for it, will now get their money.

The officials of the National Art Collection Fund do not confirm the story of the picture being purchased for the National Gallery. They admit, however, that the negotiations are still on and say there is some hope that the picture will be secured.

WOMEN MOB HIM.

Slenderous Coal Miner Probably Fatally Injured at Washington, Pa.

Washington, Pa., June 4.—George Enright, an English coal miner, charged with slandering women, was driven from the town of Manifold today by 150 women and girls. For two miles out of town he was beaten with clubs, pick-handles and other weapons and was rescued from immediate death by town officials, who got him into a buggy.

Enright is said to have been warned repeatedly to refrain from his slandering stenderous talk about the women of the mining village.

Fire at Baywater

A brush fire set on the MacRae farm at Baywater yesterday morning consumed a quantity of piled cordwood. The blaze originated with some person other than the owners of the property.

Baywater drew something like a summertime crowd from the city yesterday, for the first time this season. The Maggie Miller took over fair-sized crowds as every trip.

Burns Are Serious

With the greater part of his body affected by hot water scalding, Charles Ward, the young five-year-old son of Mr. Harry Ward, of Harrison St., is in a condition which is causing his parents great anxiety.

The little lad was playing about the kitchen while his mother was at work, and succeeded in reaching up to a large pan of boiling water standing upon the stove. He had climbed upon the front of the kitchen range to do so, and when the pan tilted over, he fell to the floor, the boiling water deluging him, and scalding the neck, chest and part of the face very severely, as well as inflicting minor burns on other parts of the body. Dr. W. F. Roberts attended the child, whose condition is rendered the more dangerous by the shock which invariably accompanies a bad scalding to one of nervous temperament or of tender years.

THREE HORSES BURNED TO DEATH IN NORTH END FIRE LAST NIGHT; OTHERS HAD NARROW ESCAPE

A fire which broke out in a barn occupied by Quinn and Co., on Elm street, shortly before twelve o'clock, last night did about \$2000 damage before it was subdued. Taylor and White, coopers, lost a horse as also did J. T. Quinn, of Quinn and Co. and Jas. D. McKay, of the I. R. C. There were several other horses in the barned buildings but as far as is known all were taken out safely.

In the excitement of the moment some broke loose and wandered out on the marsh in the rear of Elm street. On that account it was difficult to tell how many were burned.

Started in Quinn and Co's. Patrolman Covey, who was on Adelaide street just before midnight had his attention drawn to the fire by the crackling sound and almost immediately afterward saw flames burst through the roof of the stable of Quinn and Co. He rang in an alarm from box 125 at No. 5 Engine House. Elm street is a dangerous locality in case of fire and the flames burst out with such vigor that a general alarm was rung in, calling out the city apparatus.

The stable of Quinn and Co. had adjoining its rear a stable owned and occupied by Taylor and White. An ice-house and stable belonging to Thos. J. Phillips, confectioner, stood alongside. The fire soon had possession of the three buildings and three tened the dwelling owned by George W. Folkins, and occupied by him and his family and by Policeman John McCollum and family.

The firemen soon had several streams on the blaze and after half an hour's work had it under control and by one o'clock out.

The Loss.
Mr. Quinn lost wagons, carriages, sleighs and other stock to the value of \$1000. The stable which was occupied by his own horse and that of McKay, was totally destroyed with its contents.

The horses and stock of Mr. Phillips were removed with little damage. Two of the three horses belonging to Taylor and White and one belonging to J. Murphy were brought out suffering from the effects of the heat and smoke.

Insurance.
Mr. J. T. Quinn is insured with Wm. Thomson and Co., but for not more than one-third of his loss.

Mr. Phillips and Taylor and White also carried insurance and are fairly well covered. The property of Mr. Folkins, which his tenants suffered little damage. Mr. Folkins is insured.

Cause Unknown.
The cause of the fire is unknown. The blaze in its early stages cast a reflection over all the surrounding property and many anxious inquiries from those with friends or property in North End.

WOMAN BADLY BURNED IN NORTH END SEVEN YEAR OLD LAD DROWNED IN NORTH END

Only the presence of mind of her husband, who seized a quilt and wrapped it about her to extinguish the flames in which she was enveloped, saved Mrs. Frederick Melanson, of Chesley street, from death by burning, yesterday.

In spite of the aid given by her husband, Mrs. Melanson is very badly injured about the back, hips, arms and legs, and is suffering terrible pain from her injuries.

Dr. Geo. O. Baxter, who attended the woman, said last evening that her condition was very serious, but that the prompt action of Mr. Melanson had probably prevented the accident from having fatal results.

Mrs. Melanson was dressed in a cotton wrapper, which burst into a blaze at once. The garment was ignited by a spark from the fire, which had just been lighted. When she realized her danger the woman ran about the house in a frantic endeavor to extinguish the flames, and it was with great difficulty that her husband was able to give her aid.

Retaining Wall Fell Saturday

The sidewalk on Prince William street, opposite the Customs House, is obstructed by the falling of the retaining wall in front of the vacant lot, which is directly opposite the Customs House.

Will Reside Here.

She will be accompanied by her mother, Mrs. Beverly Robinson, and by her daughters, Mrs. W. B. Clements and Miss Nancy Kingdon.

Y. M. C. A. Happenings

Mr. John McKinnon addressed a boys' meeting at the Y. M. C. A. at ten o'clock Sunday morning.

Saturday morning about fifty boys accompanied by the physical director of the association, Mr. Robertson, were taken through the Simms' brush factory and saw the entire operation of brush making.

Remnant Sale At M. R. A's.
Great remnant sale of all kinds of housefurnishing materials will commence this morning at M. R. A's housefurnishing department. The sale is a great variety of the best designs and quality of materials. Remnants are marked surprisingly low and comprise materials for almost every purpose. This is a sale you should not miss and the offerings will be wonderfully attractive.

A Further Convenience.
The citizens generally will be glad to hear that the Canadian Pacific Railway Company's telegraph office at the corner of King and German streets. This has been found necessary to meet the large increase in the business of the public, which, no doubt, they will appreciate.

Heard Bermudians Speak.
Sunday evening's meeting in the Salvation Army hall No. 5, Mill street, was addressed in an interesting manner by three Bermudians, Mr. Hilgrove Ebbin, Mr. Achard Outerbridge and Mr. Freddie Devinas.

Brigadier Collins spoke from the text Build Thy House Upon A Rock. Adjutant Cornish also spoke.

On Friday evening last, a guessing contest was conducted at No. 5 bar racks. These present were required to guess the contents of a pot suspended upon a tripod. The pot contained a slip of paper with the word "death." No person guessed it, but the prizes, a number of bibles, were awarded to the ladies.

On A Sad Mission.
Rev. G. W. Glendinning, Methodist, of Digby, came to St. John, Saturday, and took the night train for Amherst, and will return to East Leitoster, Cumberland, on Saturday after a long illness, at the age of eighty-four.

Mrs. Glendinning, who is his only child, had been with him for some weeks. Mr. Bent was one of the pioneer settlers of his part of the county. He was a successful farmer, and was greatly respected in the neighborhood.

CLOTHING OF CHARACTER

You have doubtless observed that a suit may be stylishly out and yet lack that indefinable "something" that marks the difference between strictly correct, distinctive dress and ordinary "clothes".

20th Century Suits are not only CUT right but MADE right. They fit. The shoulders are properly shaped. The collar never sags. The coat fronts lie smooth. And even the light-weight Summer Suits, with little interlining to preserve the smoothness, are so skillfully fashioned that PERMANENT fit and style are assured.

These and other genuinely, honestly good suits are sold by us at \$8 to \$25. And every suit is on a hanger, free from wrinkles, easy to inspect. You'll never regret buying a 20th Century Suit.
