**N. B. LEGISLATURE**  
**OPENED IN**  
**FORM.**

Scene at Fredericton One of Unusual Brilliance. Governor in Uniform.

MANY SPECTATORS.

FREDERICTON, Mar. 18.—In every way as brilliant a ceremony as was ever seen in this city was the opening of the second session of the present legislature of New Brunswick. The crowds interested in the ceremony were swelled by the large number of strangers in the city attending the two conventions which have been in progress this week. The first ceremony took place at 11 o'clock noon in the assembly chamber, where George W. Upham, member elect for Carleton, was sworn in. There were a few spectators present at the time and the ceremony was only of a formal nature. The oath was administered by H. R. Balfour, clerk of the house, in the presence of Chief Justice Barker.

At 2 1/2 p. m. H. Company, R. C. R. assembled in the military depot and about 200 paraded to the parliament buildings headed by the 1st Regiment Band, with Lieut. Williams as subaltern, while the band was 24 strong and was commanded by Lieut. Dufresne. The march was in a westerly direction, the band was in charge of Handmaster. White. The guard of honor was reviewed by Col. White, D. O. C. Lieut. Col. McKenzie, A. D. C. and R. S. Barker, private secretary. In a private barroom following were Lt. Col. (Chin): R. C. R. Lieut. Col. Surgeon Bridges, P. A. M. C.; Major Fleet, R. C. R.; and other members of the military staff. The booming of a salute of fifteen guns was the signal for those who were the Legislature of the arrival of His Honor. The salute was fired by members of the 19th Field Battery, Canadian Field Artillery, of Montreal, who were in command of Major Anderson. They arrived in the city this evening and this morning put their tents in position on the promenade near the B & E club house.

As His Honor stepped from the carriage the band played the National Anthem and the guard of honor presented arms. In the assembly chamber the scene was one of most dazzling brilliancy. The gentlemen were dressed with men and women to their utmost capacity, while the ladies wore the latest fashions. Not a few of the guests here were not sufficient for the many guests who had been invited.

Commencing at 2 30 o'clock with prayer by Rev. J. W. McConnell, the chaplain, the ceremony of the legislature was well in progress. The Lieutenant Governor and his staff arrived. The clerk of the house read the certificate of the resignation of Hon. Donald Morrison as speaker of the legislature and member for Northumberland, and of the election of Hon. J. P. Burchill at the by-election, also the resignation of H. Frank Simco as member for Carleton county and the election of George W. Upham in his place.

The clerk announced the permission of the Lieutenant Governor for the election of a speaker.

## MINISTER PROPOSES CHANGE IN THE MANAGEMENT OF I. C. R. WOULD HAND MANAGEMENT OVER TO A BOARD OF MANAGEMENT COMPOSED OF TWO PRESENT OFFICIALS, MR. BUTLER AND AN IMPORTED MAN. MR. EMERSON CRITICISES.

OTTAWA, Mar. 17.—In the house of Commons yesterday, the Minister of Railways, Hon. Mr. Graham opened his annual railway statement. His general reference to the whole problem of developing transportation in Canada (Canada today has more miles of railway per capita than any country in the world. There were 24,000 miles of track in operation and 4,300 miles more under construction. The completion of three transcontinental lines was in sight.)

The minister reviewed the facts given yesterday of the National Transcontinental and Grand Trunk Pacific construction during the fiscal year ended March 31. The gross revenue of the Intercolonial was \$3,175,588; the working expenses, \$1,974,425, leaving a surplus of \$1,201,163. The gross revenue of the Intercolonial was \$3,175,588; the working expenses, \$1,974,425, leaving a surplus of \$1,201,163.

The G. T. P. and I. C. R. terminals at Montreal would cost between two and three million dollars and would be the finest of the kind in the continent. He noted that the employees had contributed \$22,707 to the employed provision fund and the government had given an equal amount. There had been \$27,766 paid out from the fund, leaving a balance of \$117,764. The Prince Edward Island line showed a deficit of \$93,000 for the year, which would have been much less but for an increase in the cost of employees.

The minister compared the cost of operating the Intercolonial with other roads. The Grand Trunk was the only road in Canada which had a lower average operating expense per mile than the Intercolonial. There was complaint that the Intercolonial was overmanned but a comparison of the average number of employees per mile showed the Intercolonial to compare favorably with the general average of roads on this continent. It was a desire in traffic the other Canadian lines laid off 11,400 men. However, the road had been reduced to 10,000 men during the temporary business depression.

There was complaint that the Intercolonial was overmanned but a comparison of the average number of employees per mile showed the Intercolonial to compare favorably with the general average of roads on this continent. It was a desire in traffic the other Canadian lines laid off 11,400 men. However, the road had been reduced to 10,000 men during the temporary business depression.

This situation stares me in the face and I want to approach it without winning or shrinking. I may be right or I may be wrong, but I give my opinion for what it is worth. As I said the G. T. P. will shortly have its lines through the Maritime Provinces; the C. P. R. now has its lines in the Maritime Provinces, and unless some arrangement is made by which the I. C. R. will become the outlet for some transcontinental line, the I. C. R. will come and there is no longer local traffic to keep it going on a paying basis. That is my opinion.

Conditions have changed, years have come and gone, there was a time when the I. C. R. had all the trade of the Maritime Provinces, anything that came to Montreal, Quebec or Lévis had to get into the Maritime Provinces over the I. C. R. and we had a portion of all this trade whether it was through trade or Maritime Provinces trade. As it is we had a portion of all this trade, G. T. P. and these having to feed their own two lines, will not give us any traffic that they will give us so through traffic at all.

I believe that if the I. C. R. is to be made the road it should be, if we are to maintain it as a postoffice in the interest of the people and to make it pay its way it will have to be hooked up to a transcontinental line, this fact remains, that the people of Canada will hold whatever government is in power responsible for the management of the I. C. R. so long as it is a government owned railway.

There is no use of trying to get away from the fact that the possibility is there and any government in power must accept that responsibility. I propose to retain a couple of the officials who are now on the I. C. R. in very high positions and also to have a man with a good knowledge of railways to act on that board. I would call it not a commission, but a board of management to transfer the I. C. R. to a private company.

He suggested that the minister of Railways, in connection with his proposal to establish a board of management, should take into consideration the question of additional expenses. He felt that it should offer these criticisms in justice to himself and to his constituents, but after all, the minister of management, in view of what the minister had said, did not matter very much. The chief point and a point on which the guests were poisoned was attended by several hundred visitors.

He needed further evidence before he would agree that the rates on the Intercolonial were substantially lower than the rates on other roads. In his opinion the explanation for the deficit lay in political patronage and lack of interest and ability in the management of the road.

Mr. Borden said that he could not see how a share of the business which originated in the west would be brought to the east by the Intercolonial through the acquisition of branch lines. The minister had made no definite proposal for the leasing of the road. With regard to the proposals to establish a board of management, Mr. Borden said that he would stress either on the word "board" or on the word "commission" what he had placed reliance on was the elimination of management to transfer the I. C. R. to a private company.

Mr. Emerson said that he had not received much comfort from either side of the house. The minister's speech he contended, supported his views that the Intercolonial should continue to be a government road, that it should be extended, that it was efficiently managed, that the rates were low, but he was disappointed in the conclusions which the minister had drawn.

He argued, the results of the present management were so satisfactory that the minister had claimed, then there was no necessity for an advisory or managing board or any change whatever, particularly in view of the fact that it was proposed that two of the present officials of the Intercolonial should be retained and that Mr. Butler should act on the board.

He ventured to predict that the proposition of the minister of railways would be attended with failure. He hoped that there was no intention in connection with the proposal to form a board of management to transfer the I. C. R. to a private company. He thought there was any intention of that kind, but he thought it was a mistake. The minister of railways had suggested that the Intercolonial should be an outlet for a transcontinental line in 1907.

He suggested that the minister of Railways, in connection with his proposal to establish a board of management, should take into consideration the question of additional expenses. He felt that it should offer these criticisms in justice to himself and to his constituents, but after all, the minister of management, in view of what the minister had said, did not matter very much. ## RUNAWAY TRAIN DASHES INTO DEPOT.

People in Waiting Room Instantly Killed and Others Injured.

ENGINEER IS DEAD.

MONTREAL, Mar. 17.—Four people are dead and thirty others were more or less injured as the result of the dashing out of a runaway train on the locomotive hauling the Boston express due at the Windsor street station on the C. P. R. at 8:15 this morning. Three miles west from the station, the engine and train dived into the waiting room and the train, without a guiding hand at the throttle, rushed on for three miles and dashed into the Windsor station, through the ladies' waiting room and then into the rotunda, where the locomotive and train jumped. **CURE FOR DYSPEPSIA**  
As is well known, this troublesome complaint arises from over-eating, the use of too much rich food, indigestion, constipation, lack of exercise, bad air, etc.  
The food should be thoroughly chewed, and never boiled or swallowed in haste. Stimulants must be avoided and exercise taken if possible.  
A remedy which has rarely failed to give prompt relief and effect permanent cures, even in the most obstinate cases, is  
**BURDOCK BLOOD BITTERS**  
It acts by regulating and toning the digestive organs, removing constipation and increasing the appetite and restoring health and vigor to the system.  
At Amos Saylor, Gold River, N.S., writes: "I was greatly troubled with dyspepsia, and after trying several doctors to no effect I commenced taking Burdock Blood Bitters and I think it is the best medicine there is for that complaint."

**LONDON DOCTOR**  
Tells How to Cure Stomach and Liver Troubles.  
A distinguished London physician during the course of a recent lecture on stomach and liver troubles, gives the following advice:  
"Be moderate in the use of heavy, rich food. Do not eat hurriedly, and do not drink too much. If your habits are sedentary, take a moderate amount of exercise, either walking or swimming, and immediately after eating. Do not use strong cathartic pills, many of which are advertised as cures, but in reality do injury by weakening the system. If you find it necessary to use such pills, stick to the old-fashioned vegetable mixture, viz.:  
Thick Extract Cascara..... 1/2 oz.  
Syrup Rhubarb..... 1/2 oz.  
Compound Syrup Senna..... 1/2 oz.  
Take one teaspoonful after meals and at bedtime.  
This acts as a gentle, natural way, and is free from the irritating effects of strong purgatives.  
The ingredients can be bought separately, and anyone can mix them at home. This information will be of benefit to our readers, and is worth keeping."

**EXPERIENCE IS BETTER THAN ARGUMENT**  
The world-wide fame of Mother Seigel's Syrup is based on the fact that it has cured thousands of men and women who had been afflicted with indigestion, constipation, headache, depression, nervous depression, anemia, and other ailments of the stomach, liver and kidneys. Compound of roots and herbs, Mother Seigel's Syrup contains the most powerful and reliable of all stomach, liver and kidney cures. These qualities render it invaluable to all who, through unhealthy surroundings, sedentary occupation, worry, overwork, or climatic changes, lack the vitality which only good food, well digested, can supply. When you are tormented with indigestion, so that you can't eat, can't work, can't think, can't sleep, you should at once give Mother Seigel's Syrup a trial. Tens of thousands of people testify to the curative qualities possessed by Mother Seigel's Syrup because it has cured them. Proof by their experience!  
Here is some proof:—Mr. Chirby Bateson, Malou, Inverness Co. N.S., writing on August 13th, 1908, says:—About eighteen months ago I took Mother Seigel's Syrup, and in a short time my cough vanished and apart from obtaining a cure, I increased my weight by thirteen pounds.

**HISTORY OF TAPESTRY.**  
The Art Was Known to the Ancient Greeks and Egyptians. Flemish carpets are believed to have been the first to make tapestry for use as a covering for walls. The art itself is certainly very ancient, many of the hangings used in Egypt and Greece being considered true tapestry. Its subsequent history is obscure, but it evidently maintained a lingering existence in the east until the Saracens revived it and brought it to Europe. Tapestry was used by the Saracens only as drapery or curtains for the courts of their houses. Embroidery appears to have served for this purpose in northern Europe until after the twelfth century, and much of the work of this period was really embroidery, such as the incorrectly named Bayeux tapestry. It was in the fourteenth century that tapestry began to be largely made in Flanders, where the weaving industry became very important. At that time twenty-seven streets were occupied by the weavers of the loom. In 1282 there were 50,000 weavers in Louvain and more still at Ypres. Very few samples of fourteenth century tapestry remain, but those that do exist show consummate skill in endeavoring to meet the exigencies of the loom and at the same time the aesthetic requirements of wall decoration.—Argonaut.

**COOLNESS IN DANGER.**  
Experiences of an English Military Official in India.  
When Lieutenant Henderson was captured by the natives of the Gold Coast Mountains, they got into a wordy discussion as to how they would kill him. The victim listened while till he was weary of it. "Oh, well," he said, "I can't be bothered with your arguments. I'm very sleepy. Let me know when you have made up your minds. And off to sleep he went. The unexpected performance saved his life. His calm indifference persuaded Samory's men that they had to do with some one of immense importance. Unwilling to take on themselves the responsibility for his death, they sent him unharmed to Samory's court, in the Zimbu country.  
Once again Lieutenant Henderson saved himself by a like exhibition of courage. He found Samory on a throne, surrounded by 4,000 warriors, when he mentioned to do homage on his lands and kneel he did nothing of the sort. He simply sat on the throne beside Samory, shaking that monarch warmly by the hand. Thanks to this and to nothing else, he was accepted as the representative of a great sovereign instead of a captive doomed to death. He talked to Samory of the queen, and Samory talked to him. This a mission which might have ended, as so many African missions have ended, in a terrible silence and a suspicion of unspeakable horrors, did, in fact, end in a valuable basis of future relations between Great Britain and a Mohammedan power.—London Scraps.

**What is the apparent form of the vault of the sky? There is probably no one to whose eyes it seems a true hemisphere, with the zenith appearing as distant as the horizon. At sea or in a flat country, the seeming greater distance of the horizon is best shown. Professor J. M. Venner in discussing this subject reaches the conclusion that the form of the vault in vertical section is that of the segment of a circle the arc of which subtends at the center an angle of the order of forty degrees. If the reader will draw such a segment he may be surprised by the amount of flattening which is thus ascribed to the sky. From this optical illusion many curious effects arise, such as the seeming increased magnitude of the sun and moon when near the horizon and the apparently oval forms of halos and coronas seen at low altitudes.**

**A Financial Episode.**  
A Milwaukee business man stepped up to the teller's window in one of the city banks during a financial flurry, presented a check and asked for the money it represented.  
"I cannot give you the cash," said the teller, "but I can pay you in clearing house certificates."  
"I would much prefer the currency," answered the man.  
"The certificates are just as good," said the teller.  
"Well," returned the merchant, "if that is the case I suppose I can go home to my baby and give it some milk tickets and say, 'Here, little one, these are just as good as milk!'"  
Triumphs.  
The other day at a golf club in Scotland a minister of the kirk was reproved by an elder in his church for using high flown words respecting a bad stroke he had made, and the minister replied:  
"Well, David, I was not so much swearing as surely embellishing my feelings."  
"You certainly told me to embrace my privileges."  
"Well, but I didn't tell you to embrace my daughter."  
"No. But to embrace your daughter is a privilege."—London Express.

### MOIR'S CHOCOLATES

**Suggest a Tete-a-Tete**

The young man, who desires a quiet tete-a-tete with a particularly charming person of the opposite sex, should accept this gentle hint and take along a box of Moir's chocolates when he calls. We will wager his lady friend will readily discover a secluded corner wherein they can exchange confidences and enjoy the incomparable deliciousness of these pure, wholesome confections.

The only regret that accompanies a box of Moir's Chocolates occurs when the last one has vanished. Every ingredient the purest and best. Every box packed with the charm of wide variety.

### STREET LIGHTS.

#### How Throughfares Were Illuminated in the Seventeenth Century.

Lighting the streets of a large city in older times was a far different thing from the illumination of our thoroughfares now. In 1661 the streets of London were directed to be lighted with candles or lanterns by every householder fronting the main road from nightfall to 9 o'clock, the hour of going to bed.

In the last year of King Charles II.'s reign one Edward Hening obtained the right to light the streets with lanterns placed over every tenth door from 6 o'clock on moonless evenings until midnight between October and April.

During the reign of Queen Anne in July, 1780, Mr. Michael Coke introduced globular glass lamps with oil burners instead of the former glistening lanterns. In 1785 an act was passed which enjoined every householder to furnish a light before his door from 6 to 11 o'clock at night, except on evenings between the seventh night of each moon and the third after it reached its full.

In a few years a company was formed to light the street from 6 o'clock till midnight, each householder who paid poor rates being required to contribute for this purpose 6 shillings a year.

Gaslight, at its introduction in the beginning of the last century, presented such a novel spectacle to the eyes of foreign ambassadors that they were vain enough to imagine that the brilliant lamps were a part of a general illumination to celebrate their arrival.

Light and Pain. "Light is good for toothache," said the doctor. "Darkness is bad for it. If you are a toothache sufferer, haven't you often noticed how the pain in your jaw increases when late at night you turn off the lamp and try to sleep? Light, you see, is good for the toothache. There are a number of diseases it is good for—asthma, cold in the head, earache. These diseases in the dark all grow worse."

"Ignorance of Our Customs." "What causes the hatred in the newspapers of the courtship of Miss Coyne by the duke?" asks one interested party.

"He got the idea that her father didn't have any money," explained the other.

"That couldn't be the matter up?"

"He thought he had. The trouble was he looked at the tax duplicate just after the old man had finished swearing off his assessment."

### A PIECE OF STRING.

#### It Plays a Prominent Part in the Life of Japan.

Writing from Japan, an American says: "You must come here to appreciate some of the quaint customs and usages which contact with other peoples has not yet driven out. To read about them gives you only a poor idea. For instance, you ever know what an important thing a piece of string is here? The children, workmen, idlers, servants, all carry pieces of string for use in case of emergency. With us the emergency would arise only when a parcel had to be done up, but the Japanese his piece of string as a first aid to the injured, to repair a rent in his clothing, to fix a broken down flashlight, to mend tools, to take measurements, and, in fact, the string is his universal tool chest. The queerest use to which it is put, according to my way of thinking, is when a police officer arrests a man, ties a first aid to the arrested man's wrist and then hands him by the loose end of the string to the lockup. You ask, 'Why doesn't the Jap crook break the string and find a gateway?' He could, but he would not. That's where his respect for the law comes in, and the bit of string holds the man as securely as though he were manacled by our own humane chivalled steel, silver plated and snap locked method."

### DIRTY WATCHES.

#### The Reason is Often to Be Found in the Watch Pocket.

"Why do watches get dirty?" said the jeweler. "You'll find the answer in your watch pocket. Turn it out." The patron turned out his watch pocket, sheepishly bringing forth a pinch of mud colored dust, some lint and a small ball of black stuff.

"There's the reason," said the jeweler. "Watches get dirty because the pockets they are carried in are never clean. A watch pocket, my dear sir, should be changed out regularly once a week. Observe that rule and your watch's works will not get clogged up again."

"Another and a reasonable rule is never to lay your watch down on stone or marble. The cold deranges the delicate works."

"Never lay your watch down, in fact anywhere. Hang it up on a hook vertically in the same position it occupies when in your pocket. Watches are made to lie, or rather, stand, in that position only."

"Wind your watch in the morning, never at night."

### Cigarettes as Wedding Fee.

An one of Manila's leading young men was dining his evening suit preparatory to keeping a social engagement. He ran his hand into his pocket and was surprised to find an envelope there. On opening it he discovered 25 pesos in bills. "Now, where in thunder did I take on all this money?" he thought. "It isn't mine, for I never carry my bills around in an envelope." Then he set down to think where he had won two hundred pesos, and came by the 25 pesos. "The last place I won it," he mused finally, "was when I was best man at a wedding a month ago. Did I give Dr. Roseler his money. I remember distinctly giving him something, and it must have been his fee. He didn't give me the money, according to the technical sense of the word. He called up Dr. Roseler by phone. 'Do you mind telling me,' he asked, 'what I gave you for my fee at that wedding?'"

### Dr. Shoop's Headache Tablets

They are the only medicine that cleanses the blood from its impurities. They are the only medicine that cleanses the blood from its impurities.

Arbitrariness and Arbitrary. An arbitrator is chosen to end a dispute, says the London Chronicle, there is no reason to dread that his decision would be arbitrary, though the two warring parties are very "unfriendly." An arbitrator, the Latin word which need to be more common as English than it is now, is a man of derivation simply "one who arbitrates," something to examine it, and so at first a spectator or witness. Then in Roman law it assumed the technical sense of an umpire. But in "judicium," the legal decision in a case with regard to a definite sum of money, for instance, was distinguished from an arbitrator, a legal decision as to an uncertain sum which had to be determined; hence arbitrary was the sense of uncertain, capricious.

It Was Plain Enough. A college professor who recently returned with his wife from their honeymoon greatly amused a company of people in his home town, according to the Lewiston Journal, by assuring them, on being questioned concerning their trip, that nobody where they were bride and groom.

"What kind of a place was it you were in?" the president of the college asked. "An institution for the blind?"

Economical Woman. Of small account the following will be difficult to beat for smallness: A laboring man who hands over his weekly wages to his wife is allowed by her an ounce of tobacco a week. She buys it herself in two separate half ounces in order, she declares, to get the advantage of the two turns of the scale.—London Chronicle.

A Brevet Definition. "Kickin' what is a philanthropist?" boomed a man who gives what he doesn't need in a way nobody wants.

### PURITY FLOUR

#### And Its Keeping Qualities.

SOME people find it necessary to buy a considerable quantity of flour at one time—sufficient to last for a long period. Naturally they are anxious to procure a flour of the kind best adapted to lengthy storage.

There are two important reasons why PURITY FLOUR possesses these qualities. One is that it is made entirely from Manitoba Hard Wheat. The other lies in the fact that the careful milling necessary to produce "Purity" absolutely excludes all low-grade particles of the wheat berry. It's the high grade Manitoba Hard Wheat Flour that keeps—stands longest storage.

"Purity" flour may cost a little more, but is more than worth the difference. Try it. Watch results both for quality and yield.

### Dr. Cates, Dentist,

In the current issue of the Doon of Horis, published by the National Sanitarium Association, 317 King Street West, Toronto, a page is given over to letters received from the many persons from all parts of the Dominion seeking admission to the Muskoka Free Hospital for Consumptives.

Seldom have we read anything more pathetic. Here, for example, is a letter from a physician in Coanmore, Ont., asking for the admission of a patient by the name of Morrison. He says:—

"I would like to urge strongly upon you the great claims of this patient. He has no home—mother dead—father working as a farm laborer. The boy has been living with an unmarried uncle—a housekeeper—work, cooking, etc., being done by the uncle. The boy has absolutely no plans to go where he might be given any reasonable care, and he can get none where he is."

Another case is from Thorold, Johnston Weiden writes:—

"I am a young married man, twenty-three years of age. For several years I have been sick, but always able to keep my feet. Now I have come to the time when I cannot work, and cannot get medicine without money. My lungs are affected and I am writing now to see if you can get me into the Muskoka Free Hospital for Consumptives. My young wife is here, and her parents have kindly opened their doors to her if I go away."

Just one more of the many we might quote. This is from a physician in Campbellford, Ont. He writes:—

"I have a patient suffering from pulmonary tuberculosis, who has been laid off work for about three months now—was in bed part of that time, but lately both his pulse and temperature have kept down and his weight going up. He is the only patient of the family—mother, crippled father and younger brother (but his neighbors are trying to raise a small amount of money to help him.)"

We have sometimes thought that if Ian MacLaren, who gives us the character of Dr. McClure, were alive today that in letters such as these he would find material for a book more touching and pathetic in many parts than his Bonnie Briar Book.

It is on behalf of cases like these, of which there are scores reaching the Secretary of the Sanitarium every week, that the Muskoka Free Hospital for Consumptives makes its appeal today for funds.

This institution has no other limit, since its doors were first opened in April, 1902, when a single patient, because of the applicant being unable to pay.

Contributions may be sent to Mr. W. J. Gaze, 81 Rossina Ave., Chairman of the Executive Committee, or to J. S. Robertson, Secretary, Treasurer of the National Sanitarium Association, 317 King Street West, Toronto, Ontario.

MR. GEORGE COLE. A Prominent Citizen of Kincaidine, Ont. RESTORED TO HEALTH BY VINOL. "Having for years suffered from catarrh and a cough, and being rendered owing to a severe attack of bronchitis, and after seeking relief in vain from several so-called remedies, I took three bottles of Vinol, which completely restored my usual vigor, entirely removed the mucus and cured the cough. I consider Vinol the greatest and most beneficial remedy ever offered to the public, and am glad to testify to its efficiency." George Cole, "The Pines," Kincaidine, Ontario.

MAJOR AND MRS. TOM PLANT. MUSICAL WONDERS COMING. Major and Mrs. Tom Plant of the National Headquarters, London, England, the musical wonders, world-wide travelers, singers and instrumentalists will conduct a unique musical demonstration in the Salvation Army Hall on Wednesday, March 24th at 8 p.m., entitled, "Sound the World in a Chorus of Music and Song." You should not fail to hear the following wonderful instruments played by the Major in his concert: farland, banjo, fairy bell, mezzina, sophrone, the hand bells, including the other novelty instruments, including the aluminum chains, the most wonderful instrument in the world. This will really be an excellent entertainment. Don't miss hearing the wonderful T. Plant.

**CARD OF THANKS**  
Mrs. David W. Doherty wishes to return heartfelt thanks to the many friends for their kindness and expressions of sympathy in the sad loss of her beloved mother.

**A HARD YEAR**  
The past year has been an unusually hard one on many of the staid tradesmen on the North Shore, and a large number of them have been forced to assist. The dullness in the lumber trade and the money stringency is said to be the cause.

**MAKING GOOD PROGRESS**  
Contractor Glover is making good progress on the extension of the deep water wharf. The blocks are being balanced and are now in their right positions. When this work is completed it will provide the additional berths for vessels.

**LOST AN EYE**  
Some time ago while Jacob Frites was assisting in quarrying stone at the Sugar Loaf he met with an accident which resulted in the loss of one of his eyes. He was engaged in shovelling out the stone while another workman was breaking stone. A small clipping from the stone entered Mr. Frites' eye, and Thursday morning it was found necessary to remove the eye. Dr. Pinault performed the operation at the hospital, and Mr. Frites is reported as doing as well as can be expected.

**DOWNIE WAS FOUND GUILTY**  
St. John Youth Who Invented Tale of Highwaymen—Jury Recommends Mercy

ST. JOHN, Mar. 15—After having been out for an hour and a quarter yesterday afternoon, the jury in the case of W. Herbert Downie, charged with stealing \$11.50 from the T. S. Simons Co., brought in a verdict of indictment of mercy to the prisoner, guilty, coupled with a strong recommendation that he be sentenced to the penitentiary. During the whole of the afternoon session Downie sat at the table apparently as unmoved by the proceedings as the most casual of the spectators who thronged the court room. Only when his father who was present engaged him in conversation during the absence of the jury, did he lower his eyes, and then it did not seem he did so from any emotion. As the members of the jury filed back to their box he passed his hand over his eyes twice but he did not change color when Hugh Campbell, the foreman, repeated their finding.
